ACADEMIC CALENDAR

Columbia College reserves the right to revise or amend this academic calendar, in whole or in part, at any time. Registration and Change of Program periods listed here may be tentative, and students should read all email messages from the Registrar's Office or consult their advising dean in the Berick Center for Student Advising to confirm the most current deadlines. Updated calendar information is also available from the Registrar's Office.

SUMMER REGISTRATION DATES FOR FALL 2022

<table>
<thead>
<tr>
<th>June</th>

THE ADMINISTRATION AND FACULTY OF COLUMBIA COLLEGE

Lee Bollinger, J.D.
President of the University

Mary C. Boyce, Ph.D.
Provost of the University

Amy Hungerford, Ph.D.
Executive Vice President for Arts and Sciences and Dean of the Faculty of Arts and Sciences

Josef Sorett, Ph.D.
Dean of Columbia College and Vice President for Undergraduate Education

UNIVERSITY PROFESSORS

Richard Axel
B.A., Columbia University, 1967; M.D., Johns Hopkins University, 1970

Jagdish Bhagwati
B.Com., Bombay University (India), 1954; M.A., University of Cambridge, 1956; Ph.D., Massachusetts Institute of Technology, 1967

Martin Chalfie
A.B., Harvard University, 1969; Ph.D., 1976

Ruth S. DeFries
B.A., Washington University in St. Louis, 1976; Ph.D., Johns Hopkins University, 1980

Michael W. Doyle
A.B., Harvard University, 1970; Ph.D., 1977

Nabila El-Bassel
B.S.W., Tel Aviv University (Israel), 1980; M.S.W., Hebrew University of Jerusalem (Israel), 1983; Ph.D., Columbia University, 1989

Wafaa El-Sadr
M.D., Cairo University (Egypt), 1974; M.P.H., Columbia University, 1991; M.P.A., Harvard University, 1996

Saidiya V. Hartman
B.A., Wesleyan University, 1984; Ph.D., Yale University, 1992

Wayne A. Hendrickson
B.A., University of Wisconsin-River Falls, 1963; Ph.D., Johns Hopkins University, 1968

Eric R. Kandel
A.B., Harvard University, 1952; M.D., New York University, 1956

Rosalind E. Krauss

Robert A. Mundell (emeritus)
B.A., University of British Columbia (Canada), 1953; Ph.D., Massachusetts Institute of Technology, 1956

Jeffrey D. Sachs

Simon Schama
B.A., University of Cambridge, 1966; M.A., 1969

Gayatri Chakravorty Spivak
B.A., University of Calcutta (India), 1959; M.A., Cornell University, 1962; Ph.D., 1967

Joseph Stiglitz
B.A., Amherst College, 1964; Ph.D., Massachusetts Institute of Technology, 1967; M.A., University of Oxford 1976

Gordana Vunjak-Novakovic
Ph.D., University of Belgrade, 1980

FACULTY A-Z LISTING

A
Ryan P. Abernathey
Associate Professor of Earth and Environmental Sciences
B.A., Middlebury College, 2004; Ph.D., Massachusetts Institute of Technology, 2012

Ishmail Abdus-Saboor
Assistant Professor of Biological Sciences
B.S., North Carolina A&T University, 2006; Ph.D., University of Pennsylvania, 2012

Mohammed Abouzaid
Professor of Mathematics
B.S., University of Richmond, 2002; M.S., University of Chicago, 2004; Ph.D., 2007

Lee B. Abraham
Senior Lecturer in Latin American and Iberian Cultures
B.A., Temple University, 1993; M.A., Arizona State University, 1996; Ph.D., University of New Mexico, 2001

Ouïjdane Absi
Lecturer in Middle Eastern, South Asian, and African Studies
B.A., Paris-IV La Sorbonne University, 2001; M.A., 2002

Lila Abu-Lughod
Joseph L. Buttenwieser Professor of Social Science
B.A., Carleton University (Canada), 1974; A.M., Harvard University, 1978; Ph.D., 1984

James Eli Adams
Professor of English and Comparative Literature
B.S., Massachusetts Institute of Technology, 1977; B.A., University of Oxford, 1979; M.A., Cornell University, 1983; Ph.D., 1987

Rachel E. Adams
Professor of English and Comparative Literature
B.A., University of California, Berkeley, 1990; M.A., University of Michigan, 1992; Ph.D., University of California, Santa Barbara, 1997

Hassan Afrouzi Khosroshahi
Assistant Professor of Economics
B.S., Sharif University of Technology (Iran), 2011; M.S., University of Texas at Austin, 2013; Ph.D., 2017

Vanessa Agard-Jones
Assistant Professor of Anthropology
B.A., Yale University, 2000; M.A., Columbia University, 2006; Ph.D., New York University, 2013

Amol Aggarwal
Associate Professor of Mathematics
S.B., Massachusetts Institute of Technology, 2015; Ph.D., Harvard University, 2020

Marcel A. Agüeros
Associate Professor of Astronomy
B.A., Columbia University, 1996; M.Phil., University of Cambridge, 1998; M.S., University of Washington, 2002; Ph.D., 2006

Francisca Aguiló Mora
Lecturer in Latin American and Iberian Cultures
B.A., University of Barcelona, 2002; M.A., University of the Balearic Islands (Spain), 2009; Ph.D., University of Miami, 2016

Aftab Ahmad
Senior Lecturer in Middle Eastern, South Asian, and African Studies
B.A., Aligarh Muslim University (India), 1990; M.A., Jawahar Lal Nehru University (India), 1993; M.Phil., 1996; Ph.D., 2000

May E. Ahmar
Senior Lecturer in Middle Eastern, South Asian, and African Studies
B.A., American University of Beirut, 1995; M.A., 2001

Manan Ahmed
Associate Professor of History
B.Sc., University of Punjab (Pakistan), 1991; B.A., Miami University, 1997; Ph.D., University of Chicago, 2008

Alfred V. Aho
Lawrence Gussman Professor of Computer Science
B.A., University of Toronto, 1963; M.A., Princeton University, 1965; Ph.D., 1967

Allison Aitken
Assistant Professor of Philosophy
A.B., Harvard University, 2013; Ph.D., 2020

Joseph Albernaz
Assistant Professor of English and Comparative Literature
B.A., University of North Carolina at Chapel Hill, 2012; Ph.D., University of California, Berkeley, 2018

David Z. Albert
Frederick E. Woodbridge Professor of Philosophy
B.S., Columbia University, 1976; Ph.D., Rockefeller University, 1981

Zeynep Çelik Alexander
Associate Professor of Art History and Archaeology
Ph.D., Massachusetts Institute of Technology, 2007

Jafari S. Allen
Professor of African American and African Diaspora Studies
B.A., New York University, 1998; M.A., Columbia University, 2001; M.Phil., 2002; Ph.D. 2003

Peter K. Allen
Professor of Computer Science

Douglas V. Almond
Professor of Economics and of International and Public Affairs
B.A., Carleton University, 1993; Ph.D., University of California, Berkeley, 2002

Muhsin Jassim Al-Musawi
Professor of Middle Eastern, South Asian, and African Studies
B.A., University of Baghdad, 1966; M.A., Dalhousie University (Canada), 1975; Ph.D., 1978

Carlos J. Alonso
Morris A. and Alma Schapiro Professor in the Humanities
B.A., Cornell University, 1975; M.A., Yale University, 1977; Ph.D., 1983

Irasema Alonso
Lecturer in Economics
B.A., Universidad Complutense de Madrid (Spain), 1981; M.A., Universitat Autonoma de Barcelona (Spain), 1986; Ph.D., University of Minnesota, 1992

Isabel Huacuja Alonso
Assistant Professor of Middle Eastern, South Asian and African Studies
B.A., Cornell University, 2005; M.A., University of Texas at Austin, 2009; Ph.D., 2015

Irene Alonso-Aparicio
Lecturer in Latin American and Iberian Cultures
B.A., University of Granada (Spain), 2001; M.A., Open University of Spain, 2005; Ph.D., University of Granada (Spain) and University of Aachen (Germany), 2011

Hilton Als  
Associate Professor of Writing in the Faculty of the Arts

Boris Altshuler  
Professor of Physics

B.A., Leningrad State University (Russia), 1976; Ph.D., Leningrad Institute for Nuclear Physics (Russia), 1979

Maria Jose Alves De Abreu  
Assistant Professor of Anthropology

B.A., University of Coimbra (Portugal), 1998; M.A., SOAS, University of London, 1999; Ph.D., University of Amsterdam, 2009

Mariam Aly  
Assistant Professor of Psychology

H.B.Sc., University of Toronto, 2008; M.A., University of California, Davis, 2010; Ph.D., 2013

Tarik Amar  
Associate Professor of History

B.A., University of Oxford, 1995; M.Sc., London School of Economics, 1997; Ph.D., Princeton University, 2006

Gregory A. Amenoff  
Eve and Herman Gelman Professor of Professional Practice of the Visual Arts in the Faculty of the Arts

B.A., Beloit College, 1970

Dima Amso  
Professor of Psychology

B.S., Tufts University, 1999; Ph.D., New York University, 2005

Mark M. Anderson  
Professor of Germanic Languages

Peter Andolfatto  
Professor of Biological Sciences

B.Sc., Simon Fraser University (Canada), 1992; Ph.D., University of Chicago, 1999

Alexandr Andoni  
Associate Professor of Computer Science

B.S., Massachusetts Institute of Technology, 2004; M.Eng., 2005; Ph.D., 2009

Stefan Andriopoulos  
Professor of Germanic Languages

B.A., University of Regensburg (Germany), 1990; M.A., University of Hamburg, 1994; Ph.D., 1998

Gil Anidjar  
Professor of Religion

B.A., Hebrew University of Jerusalem, 1988; M.A., Graduate Theological Union, 1994; Ph.D., University of California, Berkeley, 1998

Bogdan George Apetri  
Associate Professor of Professional Practice in Film in the Faculty of Arts

M.F.A., Columbia University, 2006

James H. Applegate  
Professor of Astronomy

B.S., Michigan State University, 1976; M.S., Stony Brook University - SUNY, 1978; Ph.D., 1980

Elena Aprile  
Centennial Professor of Physics

Laurea, Universita degli Studi (Italy), 1978; Ph.D., University of Geneva, 1982

Branka Arsic  
Charles and Lynn Zhang Professor of English and Comparative Literature

B.A., University of Belgrade, 1990; M.A., 1995; Ph.D., 1999

Jacqueline Austermann  
Assistant Professor in Earth and Environmental Sciences

B.Sc., Technische Universität Darmstadt (Germany), 2009; M.Sc., Ludwig Maximilians Universität München (Germany), 2011; Ph.D., Harvard University, 2016

Marco Andres Avella Medina  
Assistant Professor of Statistics

Luis A. Avila  
Senior Lecturer in Chemistry

M.S., Babes-Bolyai Univeristy (Romania), 1982; M.S., Columbia University, Teachers College, 2004; Ph.D., 2006

Richard Axel  
University Professor

B.A., Columbia University, 1967; M.D., Johns Hopkins University, 1970

B

Ramin Bahrani  
Professor of Professional Practice in Film

B.A., Columbia University, 1997

Zainab Bahrani  
Edith Porada Professor of Ancient and Near Eastern Art History and Archaeology

Jushan Bai  
Professor of Economics
B.S., Nankai University (China), 1982; M.A., 1985; M.A., Pennsylvania State University, 1988; Ph.D., University of California, Berkeley, 1992

Christopher Baldassano
Assistant Professor of Psychology
B.S.E., Princeton University, 2009; Ph.D., Stanford University, 2015

Marcos Balter
Fritz Reiner Professor of Musical Composition
B.A., Texas Christian University, 2000; M.A., 2002; Ph.D., Northwestern University, 2008

Dolores Barbazán-Capeáns
Lecturer in Spanish
B.A., University of Santiago de Compostela (Spain), 2005; Ph.D., University of Barcelona (Spain), 2014

Elazar Barkan
Professor of International and Public Affairs
Ph.D., Brandeis University, 1988

Erin Barnhart
Assistant Professor Biological Sciences
A.B., Harvard University, 2003; Ph.D., Stanford University, 2010

Teodolinda Barolini
Lorenzo Da Ponte Professor of Italian

Lorena Garcia Barroso
Lecturer in Spanish
B.A., University of Seville (Spain), 2004; B.A., University of Huelva (Spain), 2007; M.Phil., Menéndez Pelayo International University and Cervantes Institute (Spain), 2008; M.A., Complutense University of Madrid (Spain), 2009; B.A., Universidad Complutense de Madrid (Spain), 2011; Ph.D., Graduate Center - CUNY, 2017

Scott Barrett
Lenfest-Earth Institute Professor of Natural Resource Economics
B.A., University of Massachusetts, 1979; M.A., University of British Columbia, 1983; Ph.D., London School of Economics, 1989

Dmitri N. Basov
Higgins Professor of Physics
M.S., Moscow Engineering Physics Institute, 1988; Ph.D., Lebedev Physics Institute, Academy of Sciences of Russia, 1991

Nicholas Baumbach
Associate Professor of Film in the Faculty of the Arts
B.A., Brown University, 1998; Ph.D., Duke University, 2009

Frederique Baumgartner
Lecturer in Art History and Archaeology
B.A., École du Louvre (France), 1997; M.A., Columbia University, 2003; Ph.D., Harvard University, 2011

Banu Baydil
Lecturer in Statistics
B.S., Bogazici University (Turkey), 1999; M.S., Sabanci University (Turkey), 2002; M.A., Indiana University-Bloomington, 2005; M.S., Rensselaer Polytechnic Institute, 2010; Ph.D., 2010

Peter Shawn Bearman
Jonathan R. Cole Professor of Sociology

Paul Beatty
Associate Professor of Professional Practice of Writing in the Faculty of the Arts
B.A., Boston University, 1984; M.A., Boston University, 1987; M.F.A., Brooklyn College - CUNY, 1989

Carol Becker
Professor of the Arts
B.A., University at Buffalo - SUNY, 1968; Ph.D., University of California, San Diego, 1975

Peter N. Belhumeur
Professor of Computer Science
B.S., Brown University, 1985; S.M., Harvard University, 1991; Ph.D., 1993

Steven M. Bellovin
Professor of Computer Science
B.A., Columbia University, 1972; M.S., University of North Carolina at Chapel Hill, 1977; Ph.D., 1982

Andrei M. Beloborodov
Professor of Physics
M.Sc., Moscow Institute of Physics and Technology (Russia), 1991; Ph.D., Lebedev Physical Institute (Russia), 1995

Felice Italo Beneduce
Senior Lecturer in Italian
M.A., University of Connecticut, 2003; Ph.D., 2012

Naor H. Ben-Yehoyada
Assistant Professor of Anthropology
M.A., Tel Aviv University, 2005; Ph.D., Harvard University, 2011

Courtney J. Bender
Tremaine Professor of Religion
B.A., Swarthmore College, 1991; Ph.D., Princeton University, 1997

Andres Bendesky
Assistant Professor of Ecology, Evolution, and Environmental Biology
M.D., Universidad Nacional Autónoma de México, 2006; Ph.D., Rockefeller University, 2011

Barry George Bergdoll
Meyer Schapiro Professor of Art History and Archaeology
B.A., Columbia University, 1977; B.A., University of Cambridge, 1979; M.A., 1982; Ph.D., Columbia University, 1986

Volker Berghahn
Seth Low Professor Emeritus of History
M.A., University of North Carolina at Chapel Hill, 1961; Ph.D., University of London, 1964; Habilitation, University of Mannheim (Germany), 1970

Timothy Berkelbach
Associate Professor of Chemistry
B.A., New York University, 2009; Ph.D., Columbia University, 2014

Susan Bernofsky
Professor of Writing in the Faculty of the Arts
B.A., Johns Hopkins University, 1987; M.F.A., Washington University in St. Louis, 1990; Ph.D., Princeton University, 1986

Michael Carlos Best
Assistant Professor of Economics
B.Sc., London School of Economics, 2006; M.Phil, University of Oxford, 2008; Ph.D., London School of Economics, 2014

Rym Bettaieb
Lecturer in Middle Eastern, South Asian, and African Studies
M.A., College of Staten Island, 1999; M.Phil., Drew University, 2007; Ph.D., 2013

Richard A. Billows
Professor of History
B.A., University of Oxford, 1978; M.A., King’s College London, 1979; Ph.D., University of California, Berkeley, 1985

Sarah Rabea Yeslam Bintyeer
Assistant Professor of Middle Eastern, South Asian, and African Studies
Ph.D., SOAS, University of London, 2010

Alison Breton Bishop
Assistant Professor of Computer Science
A.B., Princeton University, 2006; Ph.D., The University of Texas at Austin, 2012

Sandra Black
Professor of Economics
B.A., University of California, Berkeley, 1991; Ph.D., Harvard University, 1997

Elizabeth S. Blackmar
Professor of History
B.A., Smith College, 1972; Ph.D., Harvard University, 1981

Allan Blaer
Professor Emeritus of Physics
Ph.D. Columbia University, 1977

Casey N. Blake
Professor of American Studies
B.A., Wesleyan University, 1978; M.A., University of Rochester, 1981; Ph.D., 1987

Jose Blanchet Mancilla
Professor of Industrial Engineering and Operations Research and of Statistics
B.Sc., The Instituto Tecnológico Autónomo de México, 2000; M.S., Stanford University, 2001; Ph.D., 2004

David M. Blei
Professor of Statistics and of Computer Science
B.S., Brown University, 1997; Ph.D., University of California, Berkeley, 2004

Andrew Blumberg
Professor of Mathematics and of Computer Science; Herbert and Florence Irving Professor of Cancer Data Research
A.B., Harvard University, 1994; A.M., 1998; Ph.D., University of Chicago, 2005

Diane Bodart
David Rosand Associate Professor of Italian Renaissance Art History
B.A./M.A., Università la Sapienza (Italy), 1994; Ph.D., École des Hautes Études en Sciences Sociales (France), 2003

Anne D. Bogart
Professor of Theatre Arts in the Faculty of the Arts
M.A., New York University, 1977

Niall P. Bolger
Professor of Psychology
B.A., Trinity College Dublin, 1980; M.S., Cornell University, 1984; Ph.D., 1987

Jason E. Bordoff
Professor of Professional Practice in the Faculty of International and Public Affairs

Alexandra Borer
Lecturer in French
M.A., New York University, 2003; M.Phil., 2007; Ph.D., 2001

Aleksandar Boskovic
Lecturer in Slavic Languages
B.A., University of Belgrade (Serbia), 2003; M.A., 2006; Ph.D., University of Michigan, 2013

Bruno G. Bosteels
Professor of Latin American and Iberian Cultures
B.A., Katholieke Universiteit Leuven, Belgium, 1989; Ph.D., University of Pennsylvania, 1995

Clémence Boulouque
Carl and Bernice Witten Associate Professor of Jewish and Israel Studies
Ph.D., New York University, 2014

Brian Boyd
Senior Lecturer in the Discipline of Anthropology
M.A., Glasgow University, 1991; Ph.D., University of Cambridge, 1996

Susan Leslie Boynton
Professor of Music
B.A., Yale University, 1988; M.A., 1991; Diplôme d’études médiévales avec grande distinction, Université Catholique de Louvain (Belgium), 1992; Ph.D., Brandeis University, 1997

Travis E. Bradford
Professor of Professional Practice in the Faculty of International and Public Affairs
B.A., Georgia State University, 1992; M.B.A., New York University, 1996; M.P.A., Harvard University, 2006

Lisbeth Kim Brandt
Associate Professor of East Asian Languages and Cultures
B.A., Smith College, 1984; Ph.D., Columbia University, 1996

Claudia Breger
Villard Professor of German and Comparative Literature
Ph.D., Humboldt University, 1996

Simon A. Brendle
Professor of Mathematics
Diplom., University of Tübingen (Germany), 1999; Ph.D., 2001

Gustaaf H. Brooijmans
Professor of Physics
B.S., Universite Catholique de Louvain (Belgium), 1991; M.S., 1994; Ph.D., 1998

Hilary Brougher
Professor of Professional Practice in Film in the Faculty of the Arts
B.A., School of the Visual Arts, 1990

Christopher L. Brown
Professor of History
B.A., Yale University, 1990; D.Phil., University of Oxford, 1994

Louis E. Brus
Samuel Latham Mitchell Professor of Chemistry and Professor of Chemical Engineering
B.S., Rice University, 1965; Ph.D., Columbia University, 1969

Greg L. Bryan
Professor of Astronomy
B.Sc., University of Calgary (Canada), 1989; Ph.D., University of Illinois at Urbana-Champaign, 1996

Julia Bryan-Wilson
Professor of Art History and Archaeology
B.A., Swarthmore College, 1995; M.A., University of California, Berkeley, 1999; Ph.D., 2004

Matthew E. Buckingham
Associate Professor of Professional Practice in Visual Arts in the Faculty of the Arts
B.A., University of Iowa, 1988; M.F.A., Bard College, 1996

Richard W. Bulliet
Professor Emeritus of History
A.B., Harvard University, 1962; A.M., 1964; Ph.D., 1967

Harmen J. Bussemaker
Professor of Biological Sciences and Systems Biology
B.A., Utrecht University (Netherlands), 1989; M.Sc., 1991; Ph.D., 1995

Angelo Cacciuto
Associate Professor of Chemistry
B.S., University of Cagliari (Italy), 1996; M.S., Syracuse University, 2000; Ph.D., 2002

Christopher J. Caes
Lecturer in Slavic Languages
B.A., Ohio State University, 1993; M.A., 1997; Ph.D., University of California, Berkley, 2004

James Calleri
Associate Professor of Professional Practice in Theatre Arts in the Faculty of the Arts
B.A., Trinity University; M.F.A., University of California, Irvine, 1990

Charles W. Calomiris
Henry Kaufman Professor of Financial Institutions in the
Faculty of Business and Professor of International and Public
Affairs
Ph.D., Stanford University, 1985

Guillermo A. Calvo
Professor of International and Public Affairs
M.A., Yale University, 1965; M.Phil., 1967; Ph.D., 1974

Euan Cameron
Professor of Religion
B.A., University of Oxford, 1979; D.Phil., 1982

Luis M. Campos
Associate Professor of Chemistry
Ph.D., University of California, Los Angeles, 2006

Elishева Carlebach
Salo Wittmayer Baron Professor of Jewish History, Culture,
and Society
B.A., Brooklyn College - CUNY, 1976; M.Phil., Columbia
University, 1980; Ph.D., 1986

Luca Carloni
Associate Professor of Computer Science
B.S., University of Bologna (Italy), 1995; M.S., University of
California, Berkeley, 1997; Ph.D., 2004

Allison Jean Carnegie
Associate Professor of Political Science
B.A., University of Southern California, 2006; M.Phil., Yale
University, 2011; Ph.D., 2014

Alessandra M. Casella
Professor of Economics and Political Science
B.A., Bocconi University (Italy), 1983; Ph.D., Massachusetts
Institute of Technology, 1988

Jose A. Castellanos-Pazos
Senior Lecturer in Latin American and Iberian Cultures
M.D., Universidad Veracruzana (Mexico), 1982; M.A., State
University of New York at Albany, 1996; M.Phil., New York
University, 2007

Jo Ann Cavallo
Professor of Italian
B.A., Rutgers University, 1981; M.A., Yale University, 1984;
Ph.D., 1987

Steven E. Chaikelson
Professor of Professional Practice in the Theatre Arts in the
Faculty of the Arts
J.D., Columbia University, 1993

Augustin Chaintreau
Associate Professor of Computer Science
B.Sc., École Normale Supérieure (France), 2001;
M.S., Université Pierre-et-Marie-Curie (France), 2002; Ph.D.,
INRIA-École Normale Supérieure (France), 2006

Martin Chalfie
University Professor
A.B., Harvard University, 1969; Ph.D., 1976

Douglas A. Chalmers
Professor Emeritus of Political Science
B.A., Bowdoin College, 1953; M.A., Yale University, 1958;
Ph.D., 1962

Paul Thomas Chamberlin
Associate Professor of History
B.A., Indiana University, 2002; M.A., Ohio State University,
2005; Ph.D., 2009

Shih-Fu Chang
Richard Dicker Professor of Telecommunications and
Professor of Computer Science
B.S., National Taiwan University (Taiwan), 1985; M.S.,
University of California, Berkeley, 1991; Ph.D., 1993

George A. Chauncey
DeWitt Clinton Professor of American History
B.A., Yale University, 1977; Ph.D., 1989

Hannah R. Chazin
Assistant Professor of Anthropology
B.A., University of Chicago, 2008; M.A., 2011; Ph.D., 2016

Amy Chazkel
Bernard Hirschhorn Associate Professor of Urban Studies
B.A., George Washington University, 1991; M.A., Yale
University, 1996; Ph.D., 2002

Yeon-Koo Che
Kelvin J. Lancaster Professor of Economic Theory
B. Economics, Seoul National University, 1984; M.A.,
University of Toronto, 1986; Ph.D., Stanford University, 1991

Xi Chen
Associate Professor of Computer Science
B.S., Tsinghua University (China), 2003; Ph.D., 2007

Pierre-André Chiappori
E. Rowan and Barbara Steinschneider Professor of Economics

Graciela Chichilnisky
Professor of Economics
M.A., University of California, Berkeley, 1970; Ph.D., 1971;
Ph.D., 1976

Lydia B. Chilton
Assistant Professor of Computer Science
S.B., Massachusetts Institute of Technology, 2007; M.Eng.,
2009; Ph.D., University of Washington, 2015

Norman H. Christ
Ephraim Gildor Professor of Computational Theoretical
Physics
B.A., Columbia University, 1965; Ph.D., 1966

Nicholas Christie-Blick
Nicholas J. Christopher  
Professor of Professional Practice in Writing in the Faculty of the Arts  
A.B., Harvard University, 1973

James Chu  
Assistant Professor of Sociology  
B.A., M.A., Stanford University, 2011; Ph.D., 2020

Eunice Chung  
Lecturer in East Asian Languages and Cultures  
B.A, Korea University, 2006; M.A., Columbia University, 2011

Alessandra Ciucci  
Associate Professor of Music  
Diploma in Music, Brooklyn Conservatory of Music, 1998;  
B.A., Columbia University, 1995; Ph.D., Graduate Center - CUNY, 2008

Richard H. Clarida  
C. Lowell Harriss Professor of Economics and Professor of International and Public Affairs  
B.S., University of Illinois, 1979; S.M., Harvard University, 1983; Ph.D., 1983

Seth Cluett  
Lecturer in the Discipline of Music  

Justin Clarke Doane  
Associate Professor of Philosophy  
B.A., New College of Florida, 2005; Ph.D., New York University, 2011

John H. Coatsworth  
Professor of International Affairs and Public Affairs and of History  
B.A., Wesleyan University, 1963; M.A., University of Wisconsin-Madison, 1967; Ph.D., 1972

Edward Coffman  
Professor Emeritus of Electrical Engineering and Computer Science  
Ph.D., University of California, Los Angeles, 1966

Jean Louise Cohen  
Nell and Herbert M. Singer Professor of Contemporary Civilization in the Core Curriculum  
B.A., Boston University, 1968; M.A., New School for Social Research, 1972; Ph.D., 1979

Joel E. Cohen  
Professor of Earth and Environmental Sciences and of International and Public Affairs  
Ph.D., Harvard University, 1970

Myron L. Cohen  
Professor of Anthropology  
B.A., Columbia University, 1958; M.A., 1963; Ph.D., 1967

Steven Alan Cohen  
Professor of Professional Practice in the Faculty of International and Public Affairs  
Ph.D., University at Buffalo - SUNY, 1979

Yinon Cohen  
Yosef Hayim Yerushalmi Professor of Israel and Jewish Studies  
B.A., Hebrew University of Jerusalem, 1978; M.A., Stony Brook - SUNY, 1980; Ph.D., 1983

Zuleyha Colak  
Lecturer in Middle Eastern, South Asian, and African Studies  
B.A., Istanbul University (Turkey), 1998; M.A., Marmara University (Turkey), 2000; M.A., Indiana University, 2004; Ph.D., 2010

Brian A. Cole  
Professor of Physics  
B.S., Massachusetts Institute of Technology, 1985; Ph.D., 1992

Jonathan R. Cole  
John Mitchell Mason Professor of the University  
Ph.D., Columbia University, 1969

Michael Cole  
Howard McP. Davis Professor of Art History  
B.A., Williams College, 1991; M.A., Princeton University, 1995; Ph.D., 1999

Sarah Cole  
Parr Professor of English and Comparative Literature  
B.A., Williams College, 1989; Ph.D., University of California, Berkeley, 1997

Charly J. Coleman  
Associate Professor of History  
B.A., Trinity University, 1998; Ph.D., Stanford University, 2005

John D. Collins  
Associate Professor of Philosophy  
B.A., University of Sydney (Australia), 1982; Ph.D., Princeton University, 1991

Michael J. Collins  
Vikram S. Pandit Professor of Computer Science  
B.A., University of Cambridge, 1992; M.Phil., 1993; Ph.D., University of Pennsylvania, 1999

Juan Pablo Cominéz  
Lecturer in Latin American and Iberian Cultures  
B.A., Universidad Nacional de Buenos Aires (Argentina), 2005; M.A., Rutgers University, 2012; Ph.D., 2016

Roisin Colmane
Assistant Professor of Earth and Environmental Sciences  
B.S.C. University College Dublin, 2003; Ph.D., University of Leeds (U.K.), 2009

Michael I. Como  
*Toshu Fukami Associate Professor of Shinto Studies*  
A.B., Harvard University, 1985; Ph.D., Stanford University, 2000

Antoine Marcel Compagnon  
*Blanche W. Knopf Professor of French*  
Docteur ès Lettres, Paris Diderot University, 1985

Matthew J. Connelly  
*Professor of History*  
B.A., Columbia University, 1990; Ph.D., Yale University, 1997

Kathleen McKeown Cooper  
*Henry and Gertrude Rothschild Professor of Computer Science*  
Ph.D., University of Pennsylvania, 1982

Shanya Cordis  
*Assistant Professor of African American and African Diaspora Studies*  
B.S., Pennsylvania State University, 2009; M.A., University of Texas at Austin, 2013; Ph.D., 2017

Marina Cords  
*Professor of Ecology, Evolution, and Environmental Biology and of Anthropology*  
B.S., Yale University, 1978; Ph.D., University of California, Berkeley, 1984

Virginia W. Cornish  
*Helena Rubinstein Professor of Chemistry*  
B.A., Columbia University, 1991; Ph.D., University of California, Berkeley, 1996

Daniel M. Corstange  
*Associate Professor of Political Science and of International and Public Affairs*  
B.A., Northwestern University, 2000; Ph.D., University of Michigan, 2008

Ivan Z. Corwin  
*Professor of Mathematics*  
A.B., Harvard University, 2006; Ph.D., Courant Institute, New York University, 2011

Angelina Craig-Florez  
*Senior Lecturer in Latin American and Iberian Cultures*  
B.A., Fordham University, 1989; M.A., Columbia University, 1991; M.Phil., 1995; Ph.D., 2002

Jonathan K. Crary  
*Meyer Schapiro Professor of Modern Art and Theory*  

Julie A. Crawford  
*Mark Van Doren Professor of Humanities; Paul Brooke Program Chair for Literature and Humanities*  
B.A., McGill University (Canada), 1990; Ph.D., University of Pennsylvania, 1998

Pascale F. Crepon  
*Lecturer in French*  
M.A., University of Lausanne (Switzerland), 1998; M.A., University of Minnesota, 2002; Ph.D., 2009

Zoë Crossland  
*Professor of Anthropology*  
B.A., University of Cambridge, 1993; M.A., Michigan State University, 1995; Ph.D., University of Michigan, 2001

David Antonio Cruz  
*Assistant Professor of Visual Arts*  
B.F.A., Pratt Institute, 1998; M.F.A., Yale University, 2009

Denise Cruz  
*Professor of English and Comparative Literature*  
Ph.D., University of California, Los Angeles, 2007

John P. Cunningham  
*Professor of Statistics*  
B.A., Dartmouth College, 2002; M.S., Stanford University, 2006; Ph.D., 2009

Gerald Leon Curtis  
*Burgess Professor of Political Science*  
B.A., University of New Mexico, 1962; M.A., Columbia University, 1964; Ph.D., 1969

D  

Hamid Dabashi  
*Hagop Kevorkian Professor of Iranian Studies*  
B.A., University of Tehran, 1976; M.A., University of Pennsylvania, 1981; Ph.D., 1984

Patricia A. Dailey  
*Associate Professor of English and Comparative Literature*  
B.A., Sarah Lawrence College, 1988; M.A., University of California, Irvine, 1993; Ph.D., 2002

Terence N. D’Altroy  
*Loubat Professor of American Archaeology*  
B.A., University of Michigan, 1972; M.A., University of California, Los Angeles, 1975; Ph.D., 1981

Lisa Allyn Dale  
*Lecturer in the Discipline of Climate*  
B.A., Cornell University, 1991; M.A., Regis University, 1997; Ph.D., Colorado State University, 2003

Sarah Zukerman Daly  
*Associate Professor of Political Science*  
B.A., Stanford University, 2002; M.S., London School of Economics, 2004; Ph.D., Massachusetts Institute of Technology, 2011

Nicholas J. Dames  
*Theodore Kahan Professor of Humanities*
B.A., Washington University in St. Louis, 1992; Ph.D., Harvard University, 1998

Tri Vi Dang
Lecturer in Economics
B.A., University of Frankfurt (Germany), 1996; M.A., 1998; Ph.D., University of Mannheim (Germany), 2005

E. Valentine Daniel
Professor of Anthropology
B.A., Amherst College, 1971; M.A., University of Chicago, 1973; Ph.D., 1979

Samuel J. Danishefsky
Centennial Professor Emeritus of Chemistry
B.S., Yeshiva University, 1956; Ph.D., Harvard University, 1962

Panagiota Daskalopoulos
Professor of Mathematics
B.A., National and Kapodistrian University of Athens, 1986; Ph.D., University of Chicago, 1992

Jeremy A. Dauber
Atran Professor of Yiddish Language, Literature, and Culture
A.B., Harvard University, 1995; Ph.D., University of Oxford, 1999

Lila Davachi
Professor of Psychology
B.A., Barnard College, 1992; Ph.D., Yale University, 1999

Jenny M. Davidson
Professor of English and Comparative Literature
B.A., Radcliffe College, 1993; Ph.D., Yale University, 1999

Donald R. Davis
Ragnar Nurske Professor of Economics
B.A., University of California, Berkeley, 1981; M.A., Columbia University, 1989; Ph.D., 1992

Richard A. Davis
Howard Levene Professor of Statistics
B.A., University of California, San Diego, 1974; Ph.D., 1979

Francesco de Angelis
Professor of Art History and Archaeology
Ph.D., Scuola Normale Superiore (Italy), 2003

Aise Johan de Jong
Professor of Mathematics
B.S., Leiden University (Netherlands), 1987; Ph.D., Radboud University Nijmegen (Netherlands), 1992

Rodolfo O. de la Garza
Eaton Professor of Administrative Law and Municipal Science and Professor of International and Public Affairs
B.S., University of Arizona, 1964; B.F.T., American Institute of Foreign Trade, 1965; M.A., University of Arizona, 1967; Ph.D., 1972

Victor H. de la Peña
Professor of Statistics
B.S., University of Texas at El Paso, 1981; M.A., University of California, Berkeley, 1984; Ph.D., 1988

Cory R. Dean
Associate Professor of Physics
B.Sc., Queen’s University (Canada), 2000; B.Sc., 2001; M.Sc., 2004; Ph.D., McGill University (Canada), 2009

Mark Dean
Associate Professor of Economics
B.A., University of Cambridge, 1999; M.Sc., University College London, 2000; Ph.D., New York University, 2009

Ruth S. DeFries
University Professor
B.A., Washington University in St. Louis, 1976; Ph.D., Johns Hopkins University, 1980

Wijnie E. De Groot
Senior Lecturer in Germanic Languages
M.A., University of Amsterdam (Netherlands), 1982; M.A., 1985

Andrew Delbanco
Alexander Hamilton Professor of American Studies and Julian Clarence Levi Professor in the Humanities

Milan Delor
Assistant Professor of Chemistry
Ph.D., University of Sheffield (England), 2014

Frederik M. Denef
Professor of Physics
Ph.D., KU Leuven (Belgium), 1999

Glenn L. Denning
Professor of Professional Practice in the Faculty of International and Public Affairs
Ph.D., University of Reading (Berkshire), 1985

Padma B. Desai
Gladys and Roland Harriman Professor Emerita of Comparative Economic Systems
B.A., University of Bombay, 1951; M.A., 1953; Ph.D., Harvard University, 1960

Ira J. Deutchman
Professor of Professional Practice in Film in the Faculty of the Arts
B.S., Northwestern University, 1975

Sophia C. Di Castri
Francis Goetel Assistant Professor of Music Composition
M.A., Columbia University, 2010; D.M.A., 2014

Souleymane Bachir Diagne
Professor of French
Margaret K. Dieckmann  
**Professor of Professional Practice in Film in the Faculty of the Arts**  
M.A., New York University, 1986

Lars Dietrich  
**Associate Professor of Biological Sciences**  
B.A., University of Konstanz (Germany), 2000; Ph.D., Heidelberg University (Germany), 2004

Mamadou Diouf  
**Leitner Family Professor of African Studies**  
B.A., University of Paris-Sorbonne, 1975; Ph.D., 1981

Thomas A. DiPrete  
**Giddings Professor of Sociology**  
B.S., Massachusetts Institute of Technology, 1972; M.A., Columbia University, 1975; Ph.D., 1978

Maria Diuk-Wasser  
**Professor of Ecology, Evolution, and Environmental Biology**  
B.A., Universidad de Buenos Aires, 1996; Ph.D., University of California, Los Angeles, 2003

Madeleine Dobie  
**Professor of French**  
B.A., University of Oxford, 1988; M.A., Yale University, 1991; Ph.D., 1994

Jeremy R. Dodd  
**Senior Lecturer in Physics**  
B.S., University of Edinburgh (United Kingdom), 1985; Ph.D., University College London, 1990

Thomas W. Dodman  
**Assistant Professor of French**  
B.A., University College London, 2001; M.A., 2002; Ph.D., University of Chicago, 2011

Julia Doe  
**Assistant Professor of Music**  
B.A., Whitman College, 2006; M.A., Yale University, 2010; Ph.D., 2013

Timothy B. Donnelly  
**Professor of Writing in the Faculty of the Arts**  
M.F.A., Columbia University, 1998

Gary Dorrien  
**Professor of Religion**  
Ph.D., Union Graduate School, 1989

Michael W. Doyle  
**University Professor**  
A.B., Harvard University, 1970; Ph.D., 1977

Geraldine Downey  
**Niven Professor of Human Letters**  
B.A., University of Sorbonne, Paris, 1977; Ph.D., 1988

George Dragomir  
**Lecturer in the Discipline of Mathematics**  
B.Sc., Al. I. Cuza University (Romania), 2003; M.Sc., McMaster University, 2005; Ph.D., 2011

Jerónimo Duarte-Riascos  
**Assistant Professor of Latin American and Iberian Studies**  
B.Sc., Universidad de los Andes (Columbia), 2009; B.A., 2009; M.A., 2010; M.A., Harvard University, 2012, Ph.D., 2018

Julien Dubedat  
**Professor of Mathematics**  
Ph.D., University of Paris-Sud, 2004

Joseph P. Dubiel  
**Professor of Music**  
A.B., Princeton University, 1974; M.F.A., 1976; Ph.D., 1980

Bianca Dumitrascu  
**Assistant Professor of Statistics and Herbert and Florence Irving Assistant Professor of Cancer Data Research**  
B.S., Massachusetts Institute of Technology, 2013; M.S., Princeton University, 2015; Ph.D., 2019

Prajit Kumar Dutta  
**Professor of Economics**  
B.A., St. Stephen’s College (India), 1980; M.A., Delhi School of Economics, 1982; M.A., Cornell University, 1985; Ph.D., 1987

Laura Duvall  
**Assistant Professor of Biological Sciences**  
B.A., University of Pennsylvania, 2007; Ph.D., Washington University in St. Louis, 2012

Sonya T. Dyhrman  
**Professor of Earth and Environmental Sciences**  
B.A., Dartmouth College, 1994; Ph.D., University of California, San Diego, 1999

Ofer Dynes  
**Leonard Kaye Assistant Professor of Hebrew and Comparative Literature**  
Ph.D., Harvard University, 2016

Kathy Hannah Eden  
**Chavkin Family Professor of English Literature; Professor of Classics**  
B.A., Smith College, 1974; Ph.D., Stanford University, 1980
Lena Edlund
Associate Professor of Economics
B.A., Stockholm School of Economics, 1989; Ph.D., 1996

Brent Hayes Edwards
Peng Family Professor of English and Comparative Literature
B.A., Yale University, 1990; M.A., Columbia University, 1992; Ph.D., 1998

Stephen A. Edwards
Associate Professor of Computer Science
B.S., California Institute of Technology, 1992; M.S., University of California, Berkeley, 1994; Ph.D., 1997

Naoki Egami
Assistant Professor of Political Science
B.A., University of Tokyo (Japan), 2015; Ph.D., Princeton University, 2020

Shigeru Eguchi
Senior Lecturer in East Asian Languages and Cultures
B.A., Ibaraki University (Japan), 1989; M.A., University of Iowa, 1994

William B. Eimicke
Professor of Professional Practice in the Faculty of International and Public Affairs
Ph.D., Syracuse University, 1973

Gregory M. Eirich
Senior Lecturer in Sociology
B.A., Fordham University, 2000; M.A., Columbia University, 2005; M.Phil., 2006; Ph.D., 2010

Peter M. Eisenberger
Professor of Earth and Environmental Sciences
A.B., Princeton University, 1963; Ph.D., Harvard University, 1967

Goran Ekstrom
Professor of Earth and Environmental Sciences
B.A., Swarthmore College, 1981; Ph.D., Harvard University, 1987

Wafaa El-Sadr
University Professor
M.D., Cairo University, 1974; M.P.H., Columbia University, 1991; M.P.A., Harvard University, 1996

Noam M. Elcott
Associate Professor of Art History and Archaeology
B.A., Columbia University, 2000; M.A., Princeton University, 2004; Ph.D., 2008

William A. Ellis
Professor of Professional Practice in Film in the Faculty of the Arts
B.A., Stanford University, 1984

Susan Elmes
Andrew Barth Senior Lecturer in the Discipline of Economics
B.A., New York University, 1984; Ph.D., Princeton University, 1991

Marwa Elshakry
Associate Professor of History
B.A., Rutgers University, 1995; M.A., Princeton University, 1997; Ph.D., 2003

Jon Elster
Robert K. Merton Professor of the Social Sciences
M.A., University of Oslo, 1966; Ph.D., University of Paris, 1972

Matthew Engelke
Professor of Religion
Ph.D., University of Virginia, 2002

Seyhan Erden
Lecturer in Economics

Robert S. Erikson
Professor of Political Science
B.A., Lake Forest College, 1963; M.A., University of Illinois, 1966; Ph.D., 1969

Yaniv Erlich
Assistant Professor of Computer Science
B.S., Tel Aviv University, 2006; Ph.D., Cold Spring Harbor Laboratory, 2010

Catherine Evtuhov
Professor of History

Katherine Ewing
Professor of Religion
B.A., Tufts University, 1971; M.A., Boston University, 1973; Ph.D., University of Chicago, 1980

Gil Eyal
Professor of Sociology
B.A., Tel Aviv University, 1989; M.A., 1991; M.A., University of California, Los Angeles, 1992; Ph.D., 1997

F

Laura Fair
Professor of Middle Eastern, South Asian and African Studies
B.A., Northern Illinois University, 1985; M.A., University of Wisconsin-Madison, 1988; Ph.D., University of Minnesota, 1994

Reem Faraj-Kanjawi
Senior Lecturer in Middle Eastern, South Asian, and African Studies
B.A., Damascus University (Syria), 1993; M.A., Montclair State University, 2006

Hannah A. Farber
Assistant Professor of History
B.A., Yale University, 2005; M.A., University of California, Berkeley, 2010; Ph.D., 2014

Bernard R. Faure
Kao Professor of Japanese Religions
Ph.D., University of Paris, 1984

Steven K. Feiner
Professor of Computer Science
B.A., Brown University, 1973; Ph.D., 1987

Kevin A. Fellezs
Associate Professor of Music and of African American and African Diaspora Studies
B.A., San Francisco State, 1998; M.A., 2000; Ph.D., University of California, Santa Cruz, 2004

Maria Q. Feng
Rewick Professor of Civil Engineering
B.S., Southeast University (China), 1982; M.S., University of Electro-Communications (Japan), 1987; Ph.D., University of Tokyo (Japan), 1992

Catherine Fennell
Associate Professor of Anthropology
B.S., Georgetown University, 1999; M.A., University of Chicago, 2003; Ph.D., 2009

Priscilla P. Ferguson
Professor Emerita of Sociology
B.A., Mount Holyoke College, 1962; M.A., Columbia University, 1964; Ph.D., 1967

Peter Jay Fernandez
Assistant Professor of Theatre Arts in the Faculty of the Arts
B.F.A., Boston University

Ana M. Fernandez-Cebrian
Assistant Professor of Latin American and Iberian Cultures
B.A., Universidad de Zaragoza (Spain), 2000; M.A., Princeton University, 2013; Ph.D., 2017

Barbara J. Fields
William R. Shepherd Professor of History
A.B., Harvard University, 1968; A.M., Yale University, 1972; Ph.D., 1978

Ronald E. Findlay
Ragnar Nurkse Professor Emeritus of Economics
B.A., University of Rangoon (Burma), 1954; Ph.D., Massachusetts Institute of Technology, 1960

Stuart J. Firestein
Professor of Biological Sciences
B.S., San Francisco State University, 1983; Ph.D., University of California, Berkeley, 1988

Albert Fishlow
Professor Emeritus of International and Public Affairs
Ph.D., Harvard University, 1963

Marcus Folch
Associate Professor of Classics
B.A., Cornell University, 2000; Ph.D., Stanford University, 2006

Eric Foner
DeWitt Clinton Professor of History

Pierre Force
Professor of French
Ph.D., University of Paris-Sorbonne, 1987

Richard C. Ford
Emmanuel Roman and Barrie Sardoff Roman Professor of the Humanities
B.A., Michigan State University, 1966; M.F.A., University of California, Irvine, 1970

V. Page Fortna
Harold Brown Professor of U.S. Foreign and Security Policy

Aaron Andrew Fox
Associate Professor of Music
A.B., Harvard University, 1988; Ph.D., University of Texas at Austin, 1995

Katherine T. Fox-Glassman
Lecturer in Psychology
B.A., Harvard University, 2005; M.A., M.Phil., Columbia University, 2012; Ph.D., 2015

Joachim Frank
Professor of Biochemistry and Molecular Biophysics and of Biological Sciences
Ph.D., Technische Universität München (Germany), 1970

Carmela V. Franklin
Professor of Classics
B.A., Radcliffe College, 1971; Ph.D., Harvard University, 1977

Federica Franze
Senior Lecturer in Italian
B.A., University of Urbino (Italy), 1999; M.A., Rutgers University, 2003; M.A., 2009; Ph.D., 2009

David A. Freedberg
Pierre Matisse Professor of Art History
B.A., Yale University, 1969; Ph.D., University of Oxford, 1973

Jonathan Freeman
Associate Professor of Psychology
B.A., New York University, 2007; M.S., Tufts University; Ph.D., 2012

Robert David Friedman
Professor of Mathematics
A.B., Harvard University, 1976; Ph.D., 1981

Richard A. Friesner
William P. Schweitzer Professor of Chemistry
B.S., University of Chicago, 1973; Ph.D., University of California, Berkeley, 1979

Walter M. Frisch
H. Harold Gumm/Harry and Albert von Tilzer Professor of Music
B.A., Yale University, 1973; M.A., University of California, Berkeley, 1977; Ph.D., 1981

Timothy M. Frye
Marshall D. Shulman Professor of Post-Soviet Foreign Policy

Ester Fuchs
Professor of International and Public Affairs
Ph.D., University of Chicago, 1984

Melissa Fusco
Assistant Professor of Philosophy
B.A., Stanford University, 2006; Ph.D., University of California, Berkeley, 2015

Aubrey Gabel
Associate Professor of French
M.A., University of Colorado Boulder, 2009; Ph.D., University of California, Berkeley, 2016

Haim Gaifman
Professor of Philosophy
M.Sc., Hebrew University of Jerusalem, 1958; Ph.D., University of California, Berkeley, 1962

Jane M. Gaines
Professor of Film in the Faculty of the Arts
B.S., Northwestern University, 1975; M.A., 1977, Ph.D., 1982

Meredith Jane Gamer
Assistant Professor of Art History and Archaeology
Ph.D., Yale University, 2015

Bradford G. Garton
Professor of Music
B.S., Purdue University, 1979; M.F.A., Princeton University, 1985; Ph.D., 1989

Tamrat Gashaw
Lecturer in the Discipline of Economics
B.S., Alemaya University (Ethiopia), 1999; M.A., Addis Ababa University (Ethiopia), 2005; M.A., Western Michigan University, 2008; Ph.D., 2012

Racquel Gates
Associate Professor of Film
B.S., Georgetown University, 2002; M.A., University of Chicago, 2003; Ph.D., Northwestern University, 2010

Roxana Geambasu
Associate Professor of Computer Science
B.S., Politechnic University of Bucharest (Romania), 2005; M.S., University of Washington, 2007; Ph.D., 2011

Andrew E. Gelman
Higgins Professor of Statistics and Professor of Political Science
S.B., Massachusetts Institute of Technology, 1986; A.M., Harvard University, 1987; Ph.D., 1990

Pierre Gentine
Professor of Earth and Environmental Engineering and of Earth and Environmental Sciences
M.Eng., French National Aeronautical and Space Engineering School, Toulouse, France, 2002; M.Sc., Massachusetts Institute of Technology, 2006; Ph.D., 2010

Giuseppe Gerbino
Associate Professor of Music
M.A., Duke University, 1996; Ph.D., 2001

Anna Ghurbanyan
Senior Lecturer in the Discipline of Chemistry
B.S., Northern Arizona University, 2004; M.S., 2007

Elena Giorgi
Assistant Professor of Mathematics
B.Sc., Università di Pisa (Italy), 2013; M.Sc., Université Paris Sud (France), 2014; M.Sc., Ecole Normale Supérieure de Lyon (France), 2015; Ph.D., Columbia University, 2019

Elise Giuliano
Senior Lecturer in the Discipline of Political Science
B.A., University of Pennsylvania, 1990; M.A., University of Chicago, 1992; Ph.D., 2000

Lydia D. Goehr
Professor of Philosophy
B.A., Manchester University (U.K), 1982; Ph.D., University of Cambridge, 1987

Dorian Goldfeld
Professor of Mathematics
B.S., Columbia University, 1967; Ph.D., 1969

Steven L. Goldstein
Higgins Professor of Earth and Environmental Sciences

Michael Bernhard Golston
Professor of English and Comparative Literature  
B.A., University of New Mexico, 1979; M.A., University of California, Berkeley, 1989; Ph.D., Stanford University, 1998

Mattieu Gomez  
Assistant Professor of Economics  
B.S., École Polytechnique (France), 2010; M.Sc. Paris School of Economics and ENSAE, 2011; Ph.D., Princeton University, 2017

Adela J. Gondek  
Lecturer in the Discipline of Climate  
B.A., Goucher College, 1970; Ph.D., Harvard University, 1981

Ruben L. Gonzalez  
Professor of Chemistry  
B.S., Florida International University, 1995; Ph.D., University of California, Berkeley, 2000

Robert J. Gooding-Williams  
M. Moran Weston/Black Alumni Council Professor of African-American Studies  
B.A., Yale University, 1975; Ph.D., 1982

Arnold L. Gordon  
Professor of Earth and Environmental Sciences  
B.A., Herbert Lehman College - CUNY, 1961; Ph.D., Columbia University, 1965

Bette R. Gordon  
Professor of Professional Practice in Film in the Faculty of the Arts  
M.F.A., University of Wisconsin-Madison, 1976

Emilien Gouin-Bonenfant  
Assistant Professor Economics  
B.Sc., Université de Montréal, 2013; M.A., University of California San Diego, 2019; Ph.D., University of California San Diego, 2019

Stathis Gourgouris  
Professor of Classics and of English and Comparative Literature  
B.A., University of California, Los Angeles, 1981; M.A., 1984; Ph.D., 1990

Gautam Gowrisankaran  
Professor of Economics  
B.A., Swarthmore College, 1991; M.A., Yale University, 1992; M.Phil., 1993; Ph.D., 1995

Maria Luisa Gozzi  
Senior Lecturer in Italian  
B.A, University of Florence (Italy), 1986; Ph.D., Rutgers University, 1996; M.A., Columbia University, 2012

Norma V. Graham  
Centennial Professor of Psychology  
B.S., Stanford University, 1966; Ph.D., University of Pennsylvania, 1970

Thomas Austin Graham  
Associate Professor of English and Comparative Literature  
B.A., University of Virginia, 2000; Ph.D., University of California, Los Angeles, 2010

Luis A. Gravano  
Professor of Computer Science  
B.S., National University of Lujan (Argentina), 1990; M.S., Stanford University, 1994; Ph.D., 1997

Erik I. Gray  
Professor of English and Comparative Literature  
B.A., University of Cambridge, 1994; M.A., Princeton University, 1997; Ph.D., 2000

Donald P. Green  
Burgess Professor of Political Science  
B.A., University of California, Los Angeles, 1983; M.A., University of California, Berkeley, 1984; Ph.D., 1988

R. Kent Greenawalt  
University Professor  

Brian Greene  
Professor of Mathematics and of Physics  
A.B., Harvard University, 1984; D.Phil., University of Oxford, 1987

Iva Greenwald  
Professor of Biochemistry and Molecular Biophysics and Genetics and Development  
Ph.D., Massachusetts Institute of Technology, 1982

Patricia E. Grieve  
Nancy and Jeffrey Marcus Professor of the Humanities  
B.A., Purdue University, 1975; M.A., 1977; Ph.D., Princeton University, 1983

Farah Jasmine Griffin  
William B. Ransford Professor of English and Comparative Literature and African-American Studies  
A.B., Harvard University, 1985; Ph.D., Yale University, 1992

Kevin L. Griffin  
Professor of Earth and Environmental Sciences and of Ecology, Evolution, and Environmental Biology  
B.A., Whittier College, 1985; M.E.S., Yale University, 1987; Ph.D., Duke University, 1994

Eitan Grinspun  
Associate Professor of Computer Science  
B.A., University of Toronto, 1997; M.S., California Institute of Technology, 2000; Ph.D., 2003

Jonathan L. Gross  
Professor of Computer Science and of Statistics  
B.S., Massachusetts Institute of Technology, 1964; M.A., Dartmouth College, 1966; Ph.D., 1968
Yuqi Gu  
Assistant Professor of Statistics  
B.S., Tsinghua University (China), 2015; Ph.D., University of Michigan, 2020

Sunil K. Gulati  
Michael K. Dakolias Senior Lecturer in the Discipline of Economics  
B.A., Bucknell University, 1981; M.A., Columbia University, 1983; M.Phil. 1986

Frank A. Guridy  
Dr. Kenneth and Kareitha Forde Professor of African American and African Diaspora Studies  
B.A., Syracuse University, 1993; M.A., University of Illinois at Chicago, 1996; Ph.D., University of Michigan, Ann Arbor, 2002

Miklos Gyulassy  
Professor of Physics  
B.A., University of California, Berkeley, 1970; Ph.D., 1974

Georg Friedrich Haas  
Mac Dowell Professor of Music  
Diploma in Composition. Hochschule für Musik (Austria), 1979

Charles J. Hailey  
Pupin Professor of Physics  
B.A., Cornell University, 1977; Ph.D., Columbia University, 1983

Zoltan Haiman  
Professor of Astronomy  
B.S., Massachusetts Institute of Technology, 1993; A.M., Harvard University, 1994; Ph.D., 1998

Jack Halberstam  
David Feinson Professor of Humanities  
B.A., University of California, Berkeley, 1985; M.A., University of Minnesota, 1989; Ph.D., University of Minnesota, 1991

Sarah Haley  
Professor of History  
B.A., Vassar College, 2001; M.A., Yale University, 2007; Ph.D., 2010

Wael Hallaq  
Avalon Foundation Professor in the Humanities  
B.A., University of Haifa (Israel), 1978; M.A., University of Washington, 1979; Ph.D., 1983

Hilary Anne Hallett  
Mendelson Family Associate Professor of American Studies; Associate Professor of History  
B.F.A., New York University, 1990; Ph.D., Graduate Center - CUNY, 2005

Alexander Halliday  
Professor of Earth and Environmental Sciences  
Ph.D., Newcastle University (U.K.), 1977

Richard S. Hamilton  
Davies Professor of Mathematics  
B.A., Yale University, 1963; Ph.D., Princeton University, 1966

Sarah Hansen  
Senior Lecturer in Chemistry  
B.A., Earlham College, 2001; M.A., Columbia University, 2009; Ph.D., 2014

Naama Harel  
Senior Lecturer in Middle Eastern, South Asian, and African Studies  
B.A., Tel Aviv University (Israel), 1999; M.A., 2004; Ph.D., University of Haifa (Israel), 2010

Fredrick C. Harris  
Class of 1933 Professor of Political Science  
B.A., University of Georgia, 1985; M.A., Northwestern University, 1988; Ph.D., 1994

Michael Harris  
Professor of Mathematics  
A.B., Princeton University, 1973; A.M., Harvard University, 1976; Ph.D., 1977

Phyllis Harris  
Associate Professor of Professional Practice in the Faculty of the Arts  
B.A., Bennington College, 1961

Carl Hart  
Mamie Phipps Clark Professor of Psychology (in Psychiatry)  
B.S., University of Maryland, 1991; M.S., University of Wyoming, 1994, Ph.D., 1996

Matthew Hart  
Associate Professor of English and Comparative Literature  
M.A. (Hons.), University of Edinburgh (U.K.), 1996; M.A., University of Sussex (U.K.), 1997; Ph.D., University of Pennsylvania, 2004

Saidiya V. Hartman  
Professor of English and Comparative Literature  
B.A., Wesleyan University, 1984; Ph.D., Yale University, 1992

Christopher W. Harwood  
Senior Lecturer in Slavic Languages  
B.A., Columbia University, 1990; M.A., 1992; M.Phil., 1995; Ph.D., 2000

Tulle I. Hazelrigg  
Professor of Biological Sciences  
B.A., Oberlin College, 1971; Ph.D., Indiana University, 1982

Claire Elise Hazen  
Senior Lecturer in Biological Sciences
B.A., Colorado College, 1967

**Geoffrey M. Heal**  
*Donald C. Waitte III Professor of Social Enterprise in the Faculty of Business and Professor of International and Public Affairs*  
B.A., University of Cambridge, 1966; M.A., 1968; Ph.D., 1968

**Alice Heicklen**  
*Senior Lecturer in Biological Sciences*  
B.A., Penn State University, 1988; M.S., Tel Aviv University (Israel), 1991; Ph.D., Wiesmann Institute of Science (Israel), 2000

**Larisa A. Heiphetz**  
*Assistant Professor of Psychology*  
B.A., Pennsylvania State University, 2008; A.M., Harvard University, 2010; Ph.D., 2013

**David John Helfand**  
*Professor of Astronomy*  
B.A., Amherst College, 1973; M.S., University of Massachusetts, 1973; Ph.D., 1977

**Sidney R. Hemming**  
*Professor of Earth and Environmental Sciences*  
B.S., Midwestern University, 1983; M.S., Tulane University, 1986; Ph.D., Stony Brook University - SUNY, 1994

**Wayne A. Hendrickson**  
*University Professor*  
B.A., University of Wisconsin-River Falls, 1963; Ph.D., Johns Hopkins University, 1968

**Alexander W. Hertel-Fernandez**  
*Assistant Professor of International and Public Affairs*  
B.A., Northwestern University, 2008; Ph.D., Harvard University, 2016

**Henry S. Hess**  
*Professor of Biomedical Engineering*  
B.S., Technische Universität Clausthal (Germany), 1993; M.S., Technische Universität Berlin, 1996; Ph.D., Freie Universität Berlin, 1999

**E. Tory Higgins**  
*Stanley Schachter Professor of Psychology and Professor of Business*  
B.A., McGill University (Canada), 1967; M.A., London School of Economics and Political Science, 1968; Ph.D., Columbia University, 1973

**Elizabeth M.C. Hillman**  
*Associate Professor of Biomedical Engineering and of Radiology (Physics)*  
M.Sc., University College London, 1998; Ph.D., 2002

**Shigeo Hirano**  
*Professor of Political Science*  
A.B., Harvard University, 1994; Ph.D., 2003

**Marianne Hirsch**  
*William Peterfield Trent Professor of English*  
B.A., Brown University, 1970; Ph.D., 1975

**Julia Bell Hirschberg**  
*Percy K. and Vida L. W. Hudson Professor of Computer Science*  
B.A., Eckert College, 1968; Ph.D., University of Michigan, Ann Arbor, 1976; MSEE, University of Pennsylvania, 1982; Ph.D., 1985

**Oliver Hobert**  
*Professor of Biological Sciences and Systems Biology*  
Ph.D., Planck Institute (Germany) 1995

**Gil Hochberg**  
*Ransford Professor of Hebrew, Comparative Literature and Middle Eastern Studies*  
Ph.D., University of California, Berkeley, 2002

**Baerbel Hoenisch**  
*Professor of Earth and Environmental Sciences*  
Vordipl., Bielefeld University (Germany), 1995; Dipl., University of Bremen (Germany), 1999; Ph.D., 2002

**Heidi L. Holst-Knudsen**  
*Senior Lecturer in French*  

**Saeed Honarmand**  
*Senior Lecturer in Middle Eastern, South Asian, and African Studies*  
B.A., University of Isfahan (Iran), 1980; M.A., Ohio State University, 2004; Ph.D., 2011

**Harrison G. Hong**  
*John R. Eckel Jr. Professor of Financial Economics*  
B.A., University of California, Berkeley, 1992; Ph.D., Massachusetts Institute of Technology, 1997

**Axel Honneth**  
*Jack B. Weinstein Professor of the Humanities*  
Ph.D., Freie Universität Berlin, 1982

**Jean E. Howard**  
*George Delacorte Professor in the Humanities*  
B.A., Brown University, 1970; M.Phil., University of London, 1972; Ph.D., Yale University, 1975

**Joseph A. Howley**  
*Associate Professor of Classics; Paul Brooke Program Chair for Literature Humanities*  
B.A., University of Maryland, Baltimore County, 2006; M.Litt., University of St. Andrews (Scotland), 2007; Ph.D., 2011

**Daniel J. Hsu**  
*Assistant Professor of Computer Science*  
B.S., University of California, Berkeley, 2004; M.S., University of California, San Diego, 2007; Ph.D., 2010
Lingjun Hu
Senior Lecturer in East Asian Languages and Cultures
B.A., Xi’an Foreign Language University (China), 2000; M.A., Ohio State University, 2003; M.A., Columbia University, 2018

Ana Paula da Silva Huback
Senior Lecturer in Latin American and Iberian Cultures
B.A., Faculdade de Filosofia Santa Doroteia (Brazil), 1997; M.A., Universidade Federal de Minas Gerais (Brazil), 2003; Ph.D., Universidade Federal de Minas Gerais and University of New Mexico, 2007

Robert Glenn Hubbard
Russell L. Carson Professor of Finance and Professor of Economics

John D. Huber
Professor of Political Science
B.A., Lawrence University, 1984; M.A., University of Rochester, 1989; Ph.D., 1991

Pascale Hubert-Leibler
Senior Lecturer in French
B.A., University of Paris III (France), 1979; M.A., 1980; Ph.D., 1984

Emlyn W. Hughes
Professor of Physics
B.S., Stanford University, 1982; M.A., Columbia University, 1984; Ph.D., 1987

Ivana Nikolic Hughes
Senior Lecturer in Chemistry
B.S., California Institute of Technology, 1999; M.S., Stanford University, 2000; Ph.D., 2005

Theodore Q. Hughes
The Korea Foundation Professor of Korean Studies in the Humanities in the Department of East Asian Languages and Cultures
B.A., University of California, San Diego, 1990; M.A., University of California, Los Angeles, 1997; Ph.D., 2000

Lam Hui
Professor of Physics
B.A., University of California, Berkeley, 1990; Ph.D., Massachusetts Institute of Technology, 1996

Macartan N. Humphreys
Professor of Political Science
B.A., Trinity College Dublin, 1994; M.Phil., University of Oxford, 2000; Ph.D., Harvard University, 2003

Amy Hungerford
Ruth Fulton Benedict Professor of English and Comparative Literature
B.A./M.A., Johns Hopkins University, 1992; M.A., 1993; Ph.D., 1999

John F. Hunt
Professor of Biological Sciences
A.B., Harvard University, 1982; Ph.D., Yale, 1993

David H. Hwang
Professor of Theatre Arts in the Faculty of the Arts
B.A., Stanford University, 1979

Robert P. Hymes
Horace Walpole Carpentier Professor of Oriental Studies

I

Annette Insdorf
Professor of Film
B.A., Queens College - CUNY, 1972; Ph.D., Yale University, 1975

Elizabeth K. Irwin
Associate Professor of Classics

N. Turkuler Isiksel
James P. Shenton Associate Professor of the Core Curriculum
M.A., University of Edinburgh, 2003; M.A., Yale University, 2004; M.Phil., 2006; Ph.D., 2010

Takatoshi Ito
Professor of International and Public Affairs
Ph.D., Harvard University, 1979

Marilyn J. Ivy
Associate Professor of Anthropology
B.A., University of Oklahoma, 1975; M.A., University of Hawaii, 1979; M.A., Cornell University, 1982; Ph.D., 1988

Valentina B. Izmirlieva
Professor of Slavic Languages
B.A., Sofia University, 1986; M.A., 1987; M.A., Ohio State University; Ph.D., University of Chicago, 1999

J

Karl H. Jacoby
Allan Nevins Professor of American Economic History
A.B., Brown University, 1987; M.A., Yale University, 1992; Ph.D., 1997

Dhananjay Jagannathan
Assistant Professor of Philosophy
B.A., University of Texas at Austin, 2009; M.Phil., University of Cambridge, 2011; Ph.D., University of Chicago, 2017

Leslie Jamison
Associate Professor of Writing in the Faculty of the Arts
A.B., Harvard University, 2004; M.F.A., University of Iowa, 2006; M.A., Yale University, 2012

Suman Jana
Assistant Professor of Computer Science
B.E., Jadavpur University (India), 2003; M.S., University of Utah, 2009; Ph.D., University of Texas at Austin, 2014

Merit E. Janow
Professor of Professional Practice in the Faculty of International and Public Affairs
J.D., Columbia University, 1988

Tony Jebara
Associate Professor of Computer Science
B.S., McGill University (Canada), 1996; M.S., Massachusetts Institute of Technology, 1998; Ph.D., 2002

Margo L. Jefferson
Professor of Professional Practice in Writing in the Faculty of the Arts
M.S., Columbia University, 1971

Songtao Jia
B.S., Nankai University (China), 1994; Ph.D., University of California, Los Angeles, 2003

Junyan Jiang
Assistant Professor of Political Science
B.A., University of Hong Kong, 2009; M.A., University of Chicago, 2011; Ph.D., 2016

Juan P. Jimenez
Lecturer in Latin American and Iberian Cultures
B.A., Universidad del Valle (Colombia), 1996; M.A., Washington State University, 2001

Bradley R. Johnson
Assistant Professor of Physics
B.S. Bethel College, 1996; M.S. University of Minnesota, 1998; Ph.D. University of Minnesota, 2004

Eleanor B. Johnson
Associate Professor of English and Comparative Literature
B.A., Yale University, 2001; M.A., University of California, Berkeley, 2006; Ph.D., 2009

David C. Johnston
Professor of Political Science
B.A., Swarthmore College, 1972; Ph.D., Princeton University, 1981

Kathryn V. Johnston
Professor of Astronomy
B.A., University of Cambridge, 1991; M.S., University of California, Santa Cruz, 1996; Ph.D., 1996

Kellie E. Jones
Professor of Art History and of African American and African Diaspora Studies

Ph.D., Yale University, 1999

Matthew L. Jones
James R. Barker Professor of Contemporary Civilization
A.B., Harvard University, 1994; M.Phil., University of Cambridge, 1995; Ph.D., Harvard University, 2000

Troels Jørgensen
Professor Emeritus of Mathematics
Ph.D., University of Copenhagen, 1970

Branden W. Joseph
Frank Gallipoli Professor of Modern and Contemporary Art
B.A., Stanford University, 1989; A.M., Harvard University, 1993; Ph.D., 1999

Jamal Joseph
Professor of Professional Practice in Film in the Faculty of the Arts
B.A., University of Kansas, 1987

Marko Jovanovic
Assistant Professor of Biological Sciences
M.Sc., University of Vienna, 2004; Ph.D., University of Zurich, 2010

Heidi S. Julavits
Associate Professor of Professional Practice in Writing in the Faculty of the Arts
M.F.A., Columbia University, 1996

Ji-Young Jung
Lecturer in Korean
B.A., Kyungpook National University (South Korea), 1996; M.A., Columbia University, Teachers College, 2001; Ed.M., 2002; Ed.D., 2009

K

Gail E. Kaiser
Professor of Computer Science
B.S., Massachusetts Institute of Technology, 1979; M.S., Carnegie Mellon University, 1980; Ph.D., 1985

Nikolas P. Kakkoufa
Lecturer in Classics
B.A., University of Cyprus, 2008; M.A., 2010; Ph.D., King’s College London, 2015

Daniel D. Kalderon
Professor of Biological Sciences
B.A., University of Cambridge, 1980; M.A., 1984; Ph.D., University of London, 1984

Subhashini Kaligotla
Barbara Stoler Miller Associate Professor of Indian and South Asian Art
B.S., Rutgers University, 1990; M.S., Purdue University, 1992; M.F.A., Columbia University, 2006; Ph.D., 2015

Thomas S. Kalin
The Administration and Faculty of Columbia College

Professor of Professional Practice of Film in the Faculty of the Arts
M.F.A., Art Institute of Chicago, 1986

Eric R. Kandel
University Professor
A.B., Harvard University, 1952; M.D., New York University, 1956

Georgia Stelios Karagiorgi
Associate Professor of Physics
B.Sc., Florida Institute of Technology, 2004; M.A., Columbia University, 2007; Ph.D., Massachusetts Institute of Technology, 2010

Charry Karamanoukian
Lecturer in Middle Eastern, South Asian, and African Studies
B.A., Concordia University (Canada), 1996; M.A., McGill University (Canada), 1998; Ph.D., 2001

Ioannis Karatzas
Higgins Professor of Applied Probability and Professor of Statistics
M.S., Columbia University, 1976; M.Phil., 1979; Ph.D., 1980

Ali Karjoo-Ravary
Richard W. Bulliet Assistant Professor of Islamic History
B.A., Stony Brook University, 2011; M.A., University of Pennsylvania, 2016; Ph.D., 2018

Navin Kartik
Professor of Economics
B.A., Brandeis University, 1999; Ph.D., Stanford University, 2004

Kimuli K. Kasara
Associate Professor of Political Science
B.A., University of Oxford, 1999; Ph.D., Stanford University, 2006

Rebecca Kastleman
Assistant Professor of English and Comparative Literature
A.B., Harvard University, 2006; A.M., 2014; Ph.D., 2017

Ira I. Katznelson
Ruggles Professor of Political Science and History
B.A., Columbia University, 1966; Ph.D., University of Cambridge, 1969

Laura J. Kaufman
Professor of Chemistry
B.A., Columbia University, 1997; Ph.D., University of California, Berkeley, 2002

Sudipta Kaviraj
Professor of Middle Eastern, South Asian, and African Studies
B.A., Presidency University (India), 1966; M.A., University of Calcutta (India), 1969; Ph.D., Jawaharlal Nehru University (India), 1979

Peter B. Kelemen

Arthur D. Storke Memorial Professor of Earth and Environmental Sciences
A.B., Dartmouth College, 1980; M.S., University of Washington, 1985; Ph.D., 1987

Darcy B. Kelley
Harold Weintraub Professor of Biological Sciences
B.A., Barnard College, 1970; Ph.D., Rockefeller University, 1975

John R. Kender
Professor of Computer Science
B.S., University of Detroit, 1970; M.S., University of Michigan, 1972; Ph.D., Carnegie Mellon University, 1980

Jon Kessler
Professor of Visual Arts
B.F.A., Purchase College - SUNY, 1980

Alice Kessler-Harris
R. Gordon Hoxie Professor of American History in Honor of Dwight D. Eisenhower
B.A., Goucher College, 1961; M.A., Rutgers University, 1963; Ph.D., 1968

Kerry William Key
Associate Professor of Earth and Environmental Sciences
B.S., University of California, San Diego, 1998; Ph.D., 2003

Rashid Khalidi
Edward Said Professor of Modern Arab Studies and Literature
B.A., Yale University, 1970; D.Phil., University of Oxford, 1974

Mikhail G. Khovanov
Professor of Mathematics
B.S., Moscow State University (Russia), 1991; Ph.D., Yale University, 1997

Mana Kia
Associate Professor of Middle Eastern, South Asian, and African Studies
B.A., Vassar College, 1997; M.A., New York University, 2001; Ph.D., Harvard University, 2011

Eunji Kim
Assistant Professor of Political Science
B.A., Harvard University, 2011; M.A., The Wharton School, 2017; Ph.D., University of Pennsylvania, 2019

Jungwon Kim
King Sejong Assistant Professor of Korean Studies
A.M., Harvard University, 2001; Ph.D., 2007

Martha A. Kim
Associate Professor of Computer Science
A.B., Harvard University, 2002; M.S., University of Washington, 2005; Ph.D., 2008

Seong Uk Kim
Il Hwan and Soon Ja Cho Assistant Professor of Korean Culture and Religion  
B.A., Sogang University (South Korea), 1996; M.A., University of Georgia, 2007; Ph.D., University of California, Los Angeles, 2013

Seth R. Kimmel  
Associate Professor of Latin American and Iberian Cultures  
B.A., Columbia University, 2001; Ph.D., University of California, Berkeley, 2010

Robert J. King  
Professor of Film  
B.A., University of Oxford, 1997; Ph.D., University of California, Los Angeles, 2004

Jonathan Kingslake  
Associate Professor of Earth and Environmental Sciences  
Ph.D., University of Sheffield (U.K.), 2013

David Kipping  
Associate Professor of Astronomy  
M.A., University of Cambridge, 2006; M.Sc., 2007; Ph.D., 2011

Binnie Kirshenbaum  
Professor of Professional Practice in Writing in the Faculty of the Arts  
M.F.A., Brooklyn College - CUNY, 1984

David A. Klass  
Associate Professor of Professional Practice in Film in the Faculty of the Arts  
B.A., Yale University, 1982; M.A., University of Southern California, 1988

Alexandra G. Kleeman  
Assistant Professor of Writing in the Faculty of the Arts  

Holger A. Klein  
Lisa and Bernard Selz Professor of Medieval Art History in the Department of Art History and Archaeology  
M.A., Courtauld Institute, 1994; Ph.D., University of Bonn (Germany), 2000

Liza Knapp  
Professor of Slavic Languages  
A.B., Harvard University, 1977; Ph.D., Columbia University, 1985

Jeffrey T. Koberstein  
Percy K. and Vida L.W. Hudson Professor of Chemical Engineering  
B.S., University of Wisconsin, 1974; Ph.D., University of Massachusetts, 1979

Rebecca A. Kobrin  
Russell and Bettina Knapp Associate Professor of American Jewish History  
B.A., Yale University, 1994; Ph.D., University of Pennsylvania, 2002

Bruce M. Kogut  
Sanford C. Bernstein & Co. Professor of Leadership and Ethics  
B.A., University of California, Berkeley, 1975; M.I.A., Columbia University, 1978; Ph.D., Massachusetts Institute of Technology, 1983

Folarin Kolawole  
Assistant Professor of Earth and Environmental Sciences  
B.Tech., Federal University of Technology, Akure (F.U.T.A.), Nigeria, 2008; M.Sc., Oklahoma State University, 2017; Ph.D., University of Oklahoma, 2020

Wojciech Kopczuk  
Professor of Economics and of International and Public Affairs  
B.A., University of Warsaw, 1996; M.Sc., 1996; M.A., University of Michigan, 1998; Ph.D., 2001

Adam J. Kosto  
Professor of History  
B.A., Yale University, 1989; Ph.D., Harvard University, 1996

Mariusz S. Kozak  
Associate Professor of Music  
B.M., University of New Mexico, 2006; M.M., Eastman School of Music, 2002; M.M., University of New Mexico, 2006; Ph.D., University of Chicago, 2012

Samory Kpotufe  
Associate Professor of Statistics  
B.A., University of Denver, 1999; Ph.D., University of California, San Diego, 2010

Rosalind E. Krauss  
University Professor  
Ph.D., Harvard University, 1969

Janet L. Kraynak  
Senior Lecturer in Art History and Archaeology  
B.A., Vassar College, 1987; Ph.D., The Graduate Center, City University of New York, 1993; Ph.D., Massachusetts Institute of Technology, 2001

Paul B. Kreitman  
Assistant Professor of East Asian Languages and Cultures  
B.A., University of Oxford, 2006; Ph.D., Princeton University, 2015

Igor M. Krichever  
Adrian Professor of Mathematics  
Ph.D., Moscow State University (Russia), 1972

Nikolaus Kriegeskorte  
Professor of Psychology  
M.A., Universität zu Köln (Germany), 1999; Ph.D., Universiteit Maastricht (Netherlands), 2004
Brian H. Kulick  
Professor of Professional Practice in the Faculty of the Arts  
M.F.A., Carnegie Mellon University, 1987

Elisabeth A. Ladenson  
Professor of French  
B.A., University of Pennsylvania, 1982; M.A., Columbia University, 1988; Ph.D., 1994

Paul F. Lagunes  
Assistant Professor of International and Public Affairs  
Ph.D., Yale University, 2012

Meredith Landman  
Lecturer in Slavic Languages  
B.A., University of California, Santa Cruz, 1997; Ph.D., University of Massachusetts Amherst, 2006

Tamar Lando  
Associate Professor of Philosophy  
B.A., Stanford University, 2002; M.A., University of California, Berkeley, 2008; Ph.D., 2012

Jennifer La'O  
Associate Professor of Economics  
S.B., Massachusetts Institute of Technology, 2005; Ph.D., 2010

Laura Landwebber  
Professor of Biochemistry and Molecular Biophysics and of Biological Sciences (in Systems Biology)  
A.B., Princeton University, 1989; M.A., Harvard University, 1991; Ph.D., 1993

Dorothea S. Lasky  
Associate Professor of Writing in the Faculty of the Arts  

Jack Lechner  
Associate Professor of Professional Practice in Film in the Faculty of the Arts  
B.A. Yale University, 1984

Ana Paulina Lee  
Associate Professor of Latin American and Iberian Cultures  
B.A., Binghamton University - SUNY, 2001; M.A., New York University, 2007; Ph.D., University of Southern California, 2014

Beom Lee  
Lecturer in East Asian Languages and Cultures  

Jennifer Lee  
Julian Clarence Levi Professor of Social Sciences  

Sokbae Lee  
Professor of Economics  
B.A., Seoul National University, 1996; M.A., 1998; Ph.D., University of Iowa, 2002

Adam Leeds  
Assistant Professor of Slavic Languages  
B.A., University of Chicago, 2005; Ph.D., University of Pennsylvania, 2016

Agnieszka Legutko  
Lecturer in Germanic Languages  
M.A., Jagiellonian University (Poland), 2002; M.A., Columbia University, 2006; M.Phil., 2008; Ph.D., 2012

James L. Leighton  
Professor of Chemistry  
B.S., Yale University, 1987; Ph.D., Harvard University, 1994

Yuri Levin  
Professor of Physics  
B.Sc., University of Melbourne (Australia), 1993; Ph.D., California Institute of Technology, 1999

George E. Lewis  
Edwin H. Case Professor of Music  
B.A., Yale University, 1974

Allison B. Lewko  
Assistant Professor of Computer Science  
A.B., Princeton University, 2006; Ph.D., University of Texas at Austin, 2012

Chao Li  
Associate Professor of Mathematics  
B.S., Tsinghua University (China), 2010; Ph.D., Harvard University, 2015

Feng Li  
Professor of East Asian Languages and Cultures
M.A., Institute of Archaeology (China), 1986; Ph.D., University of Chicago, 2000

Yike Li
Lecturer in Chinese in the Department of East Asian Languages and Cultures
B.A., Beijing Language and Culture University, 2009; M.A., 2016

Natasha J. Lightfoot
Associate Professor of History
B.A., Yale University, 1999; M.A., New York University, 2002; Ph.D., 2007

Mark Lilla
Professor of the Humanities
B.A., University of Michigan, 1978; M.P.P., Harvard University, 1980; Ph.D., 1990

Francesco Lin
Assistant Professor of Mathematics
B.Sc., Università di Pisa (Italy), 2012; M.Sc., 2012; Ph.D., Massachusetts Institute of Technology, 2016

Mark E. Lincicome
Associate Professor of East Asian Languages and Cultures
B.A. Bowdoin College, 1976; Ph.D. University of Chicago, 1985

Patricia G. Lindemann
Lecturer in Psychology
B.A., Wesleyan University, 1987; Ph.D., Columbia University, 2000

Elliot Lipnowski
Assistant Professor of Economics
B.Math., University of Waterloo (Canada), 2010; M.A., New York University, 2014; Ph.D., 2016

Mark Lipovetsky (Liederman)
Professor of Slavic Languages
B.A./M.A., Ural State University (Russia), 1986; Ph.D., Ural State University (Russia), 1989; D.Sc., Ural State Pedagogical University (Russia), 1996

Samuel P. Lipsyte
Associate Professor of Professional Practice in the Faculty of the Arts
B.A., Brown University, 1990

Chiu-Chu Melissa Liu
Professor of Mathematics
B.S., National Taiwan University, 1996; Ph.D., Harvard University, 2002

Jingchen Liu
Professor of Statistics
B.S., Peking University (China), 2003; Ph.D., Harvard University, 2008

Lening Liu
Professor of East Asian Languages and Cultures

Lydia H. Liu
Wun Tsun Tam Professor in the Humanities
B.A., Northwestern Normal University (China), 1979; M.A., Shandong University (China), 1983; Ph.D., Harvard University, 1990

Qingmin Liu
Professor of Economics
B.A., Peking University (China), 2002; Ph.D., Stanford University, 2007

Reyes Llopis-Garcia
Senior Lecturer in Latin American and Iberian Cultures
B.A., Universidad Nebrija (Spain), 2002; M.A., 2002; Ph.D., 2009

Shaw-Hwa Lo
Professor of Statistics and of Biostatistics
B.S., National Taiwan University, 1975; M.A., University of California, Santa Barbara, 1978; Ph.D., University of California, Berkeley, 1981

Richard Locke
Professor of Professional Practice in the Faculty of the Arts
B.A., Columbia University, 1962; B.A., University of Cambridge, 1964

Kyoko Loetscher
Lecturer in East Asian Languages and Cultures
B.A., Aoyama Gakuin University (Japan), 1987; M.A., Ohio State University, 1993

Po-Ling Loh
Associate Professor of Statistics
B.S., California Institute of Technology, 2009; M.S., University of California, Berkeley, 2013; Ph.D., 2014

Claudio W. Lomnitz
Campbell Family Professor of Anthropology
B.A., Universidad Autónoma Metropolitana Iztapalapa (Mexico), 1978; M.A., Stanford University, 1979; Ph.D., 1987

Austin Long
Associate Professor of International and Public Affairs
B.S., Georgia Institute of Technology, 1998; M.S., 2002; Ph.D., Massachusetts Institute of Technology, 2010

Phillip Lopate
Professor of Professional Practice in the Faculty of the Arts and in the Graduate School of Journalism
B.A., Columbia University, 1964; Ph.D., Union Graduate School, 1979

Nicola G. López
Associate Professor of Professional Practice in Visual Arts in the Faculty of the Arts
Yao Lu  
Professor of Sociology  
B.A., Fudan University (China), 2003; M.A., University of California, Los Angeles, 2005; Ph.D., 2008

Edward Luck  
Professor of Professional Practice in the Faculty of International and Public Affairs  
Ph.D. Columbia University, 2001

David B. Lurie  
Associate Professor of East Asian Languages and Cultures  
A.B., Harvard University, 1993; M.A., Columbia University, 1996; Ph.D., 2001

John Ma  
Professor of Classics  

W. Bentley MacLeod  
Sami Mnaymneh Professor of Economics and Professor of International and Public Affairs  
B.A., Queen’s University (Canada), 1975; M.Sc., 1979; Ph.D., University of British Columbia (Canada), 1984

Mohammad Ali Arian Maleki  
Associate Professor of Statistics  
M.S., Stanford University, 2010; Ph.D., 2010

Tal G. Malkin  
Associate Professor of Computer Science  
Ph.D., Massachusetts Institute of Technology, 2000

Mahmood Mamdani  
Herbert Lehman Professor of Government and Professor of Anthropology  
B.A., University of Pittsburgh, 1967; M.A., Fletcher School of Law, 1968; M.A.L.D., 1969; Ph.D., Harvard University, 1974

Sita Mani  
Lecturer in the Discipline of Theatre Arts in the Faculty of the Arts

James L. Manley  
Julian Clarence Levi Professor of the Life Sciences  
B.S., Columbia University, 1971; Ph.D., Stony Brook University - SUNY, 1976

Gregory Mann  
Professor of History  
B.A., University of Georgia, 1993; Ph.D., Northwestern University, 2000

Wolfgang Rainer Mann  
Professor of Philosophy

Karuna Mantena  
Professor of Political Science  
B.Sc, London School of Economics, 1995; M.A., University of Essex, 1996; Ph.D., Harvard University, 2004

Ellen L. Marakowitz  
Senior Lecturer in Anthropology  
B.A., Michigan State University, 1980; M.A., Columbia University, 1987; Ph.D., 1993

Benjamin M. Marcus  
Professor of Writing in the Faculty of the Arts  
M.F.A., Brown University, 1991

Sharon Marcus  
Orlando Harriman Professor of English  
B.A., Brown University, 1986; Ph.D., Johns Hopkins University, 1995

Szabolcs Marka  
Walter O. LeCroy, Jr. Associate Professor of Physics  
Diploma, Lajos Kossuth University (Hungary), 1993; Ph.D., Vanderbilt University, 1999

Bianca Jones Marlin  
Herbert and Florence Irving Assistant Professor of Cell Research (in Psychology and Neuroscience) at the Mortimer B. Zuckerman Mind Brain Behavior Institute  
B.S., St. John’s University, 2009; Ph.D., New York University, 2015

John Marshall  
Assistant Professor of Political Science  
B.A., University of Oxford, St. Anne’s College, 2008; M.Sc., University of Oxford, 2010; Ph.D., Harvard University, 2016

Paraskevi Martzavou  
Lecturer in Classics  
B.A., Aristotle University of Thessaloniki (Greece), 1992; M.A., École Pratique des Hautes Études (France), 1998; Ph.D., 2008

Caroline Marvin  
Lecturer in Psychology  
B.A., Yale University, 2001; M.A., Courtauld Institute of Art (United Kingdom), 2002; Ph.D., Columbia University, 2016

Miya J. Masaoka  
Assistant Professor of Professional Practice in Visual Arts in the Faculty of the Arts  
B.A., San Francisco State University, 1991; M.A., Mills College, 1994

Joseph A. Massad  
Professor of Middle Eastern, South Asian, and African Studies  
B.A., University of New Mexico, 1987; M.A., 1989; M.Phil., Columbia University, 1994; Ph.D., 1998

Eric Matheis
Lecturer in French
B.A., University of Kansas, 1989; M.A., Columbia University, 2001; Ph.D., 2014

Robert D. Mawhinney
Professor of Physics
B.S., University of South Florida, 1980; A.M., Harvard University, 1982; Ph.D., 1987

Mark A. Mazower
Ira D. Wallach Professor of History

Malgorzata Mazurek
Associate Professor of Polish Studies
M.A., University of Warsaw, 2004; Ph.D., 2008

Andrew McCall
Assistant Professor of Political Science
B.A., Truman State University, 2010; University of Oxford, 2012; M.A., University of California, Berkeley, 2017; Ph.D., 2019

Shane A. McCrae
Associate Professor of Writing in the Faculty of the Arts
B.A., Linfield College, 2002; M.F.A., University of Iowa, 2004; J.D., Harvard University, 2007; M.A., University of Iowa, 2012

Stephanie McCurry
R. Gordon Hoxie Professor of American History in Honor of Dwight D. Eisenhower
B.A., University of Western Ontario, 1981; M.A., University of Rochester, 1983; Ph.D., Binghamton University - SUNY, 1988

Ann E. McDermott
Esther and Ronald Breslow Professor of Biological Chemistry and Professor of Biological Sciences and of Chemical Engineering
B.S., Harvey Mudd College, 1981; M.A., 1985; Ph.D., University of California, Berkeley, 1987

James McIver
Assistant Professor of Physics
Ph.D., Harvard University, 2014

Matthew P. McKelway
Takeo and Itsuko Atsumi Professor of Japanese Art History
B.A., Amherst College, 1989; M.A., Columbia University, 1991; M.Phil., 1997; Ph.D., 1999

Galen A. McKinley
Professor of Earth and Environmental Sciences
B.S., Rice University, 1995; Ph.D., Massachusetts Institute of Technology, 2002

Jerry F. McManus
Professor of Earth and Environmental Sciences
B.A., Columbia University, 1989; M.A., 1992; M.Phil., 1996; Ph.D., 1997

V. Faye McNeill
Professor of Chemical Engineering and of Earth and Environmental Sciences
B.S., California Institute of Technology, 1999; M.S., 2001; Massachusetts Institute of Technology; Ph.D., 2005

John H. McWhorter
Associate Professor of Slavic Languages
B.A., Rutgers University, 1985; M.A., New York University, 1987; Ph.D., Stanford University, 1993

Tey Meadow
Associate Professor of Sociology
B.A., Barnard College, 1999; J.D., Fordham University School of Law; Ph.D., New York University, 2011

Alberto Medina
Professor of Latin American and Iberian Cultures
B.A., University of Salamanca (Spain), 1991; M.A., University of Southern California, 1994; Ph.D., New York University, 2000

Eric R. Mendelsohn
Professor of Professional Practice in Film
B.F.A., Purchase College - SUNY, 1986

Susan E. Mendelsohn
Lecturer in English and Comparative Literature
B.A., American University, 1996; M.A., University of Texas at Austin, 1998; Ph.D., 2012

Edward Mendelson
Lionel Trilling Professor in the Humanities
B.A., University of Rochester, 1966; M.A., Johns Hopkins University, 1968; Ph.D., 1969

Yuan-Yuan Meng
Senior Lecturer in East Asian Languages and Cultures
B.A., National Taiwan Normal University (Taiwan), 1988; M.A., Columbia University, 1992; M.A., 2013; M.Ed., 2018

Duncan N. L. Menge
Associate Professor of Ecology, Evolution, and Environmental Biology
Ph.D., Princeton University, 2008

William H. Menke
Professor of Earth and Environmental Sciences
B.S., Massachusetts Institute of Technology, 1976; M.S., 1976; Ph.D., Columbia University, 1982

Maria Ignacia Mercadal Albornoz
Assistant Professor of International and Public Affairs
Ph.D., University of Chicago, 2016

Christia Mercer
Gustave M. Berne Professor of Philosophy
Jessica E. Merrill  
Assistant Professor of Slavic Languages  
B.A., Northwestern University, 2003; M.A., University of California, Berkeley, 2007; Ph.D., 2012

Brinkley M. Messick  
Professor of Anthropology and of Middle Eastern, South Asian, and African Studies  
B.A., University of Pennsylvania, 1969; M.A., Princeton University, 1974; Ph.D., 1978

Janet A. Metcalfe  
Professor of Psychology  
B.Sc., University of Toronto, 1975; M.A., 1977; Ph.D., 1982

Brian D. Metzger  
Professor of Physics  
B.S., University of Iowa, 2003; M.A., University of California, Berkeley, 2005; Ph.D., 2009

Meghan Meyer  
Assistant Professor of Psychology  
B.A., Emory University, 2004; M.A., Ecole Normale Superieure, 2006; Ph.D., University of California, Los Angeles, 2014

Tatiana Mikhailova  
Lecturer in Russian in the Department of Slavic Languages  
M.A., Ural State University, 1986

Jeffery F. Milarsky  
Senior Lecturer in Music  

Elizabeth A. Miller  
Associate Professor of Biological Sciences  
B.Sc. (Hons), University of Melbourne (Australia), 1993; Ph.D., La Trobe University (Australia), 1999

Andrew J. Millis  
Professor of Physics  
A.B., Harvard University, 1982; Ph.D., Massachusetts Institute of Technology, 1986

Denise Milstein  
Senior Lecturer in Sociology  
B.A., Brown University, 1997; M.A., Columbia University, 2002; M.Phil., 2003; Ph.D., 2007

Wei Min  
Professor of Chemistry  
B.S., Peking University (China), 2003; Ph.D., Harvard University, 2008

Vishal Misra  
Professor of Computer Science  
B.S., Indian Institute of Technology, Bombay, 1992; M.S., University of Massachusetts, 1996; Ph.D., 2000

Timothy P. Mitchell  
William B. Ransford Professor of Middle Eastern, South Asian, and African Studies and Professor of International and Public Affairs  
B.A., University of Cambridge, 1977; M.A., Princeton University, 1979; Ph.D., 1984

Henri C. Mitterand  
Professor Emeritus of French  
Docteur ès Lettres, Ecole normale supérieure (France), 1969

Naeem Mohaiemen  
Associate Professor of Visual Arts  
B.A., Oberlin College, 1993; M.A., Columbia University, 2015; Ph.D., 2019

Graciela R. Montaldo  
Professor of Latin American and Iberian Cultures  
B.A., Universidad de Buenos Aires, 1984; Ph.D., 1990

Michele M. Moody-Adams  
Joseph Straus Professor of Political Philosophy and Legal Theory  

Rosalind C. Morris  
Professor of Anthropology  
B.A., University of British Columbia (Canada), 1986; M.A., York University (Canada), 1989; Ph.D., University of Chicago, 1994

Yves Mousallam  
Assistant Professor of Earth and Environmental Sciences  
B.Sc., University of Ottawa, 2008; M.Sc., 2010; Ph.D., University of Cambridge, 2013

Alfred H. Mueller  
Enrico Fermi Professor of Physics  
B.S., Iowa State University, 1961; Ph.D., Massachusetts Institute of Technology, 1965

Debashree Mukherjee  
Associate Professor of Middle Eastern, South Asian and African Studies  
Ph.D. New York University, 2015

Sumit Mukherjee  
Associate Professor of Statistics  
B.A., Indian Statistical Institute (India), 2007; M.A., 2009; Ph.D., Stanford University, 2014

Dipali Mukhopadhyay  
Assistant Professor of International and Public Affairs  
B.A., Yale University, 2002; M.A., Tufts University, 2005; Ph.D., 2010

Robert A. Mundell
Maria Victoria Murillo  
Professor of Political Science and of International and Public Affairs  

Mary Pollard Murray  
Associate Professor of English and Comparative Literature  
B.A., Columbia University, 1994; M.Phil., University of Cambridge, 1996; Ph.D., Yale University, 2004

Stephen D. Murray  
Lisa and Bernard Selz Professor of Medieval Art History in the Department of Art History and Archaeology  

John C. Mutter  
Professor of Earth and Environmental Sciences and of International and Public Affairs  
B.S., University of Melbourne (Australia), 1969; M.S., University of Sydney (Australia), 1978; Ph.D., Columbia University, 1982

Ioannis Mylonopoulos  
Associate Professor of Art History and Archaeology  
B.A., National and Kapodistrian University of Athens, 1991; Ph.D., Heidelberg University (Germany), 2001

Shahid Naeem  
Professor of Ecology, Evolution, and Environmental Biology  
B.A., University of California, Berkeley, 1979; M.A., 1984; Ph.D., 1988

Suresh Naidu  
Professor of International and Public Affairs and of Economics  
M.A., University of Massachusetts Amherst, 2004; Ph.D., University of California, Berkeley, 2010

Abdul Nanji  
Senior Lecturer in Middle Eastern, South Asian, and African Studies  
A.A., Corning Community College, 1966; B.A., State University of New York, College at New Paltz, 1969; M.A., 1975

Abhay Pasupathy Narayan  
Professor of Physics  
Ph.D., Cornell University, 2004

Andrew J. Nathan  
Class of 1919 Professor of Political Science  
A.B., Harvard University, 1963; A.M., 1965; Ph.D., 1971

Gerald Navratil  
Thomas Alva Edison Professor  
B.S., California Institute of Technology, 1973; M.S., University of Wisconsin-Madison, 1974; Ph.D., 1976

Shree K. Nayar  
T.C. Chang Professor of Computer Science  
B.S., Birla Institute of Technology (India), 1984; M.S., North Carolina State University, 1986; Ph.D., Carnegie Mellon University, 1990

Fumiko Nazikian  
Senior Lecturer in East Asian Languages and Cultures  
B.A., Iwate University (Japan), 1979; M.A., Tokyo Gakugei (Japan), 1984; M.A., Australian National University, 1986; Ph.D., University of Sydney, 1994

Ronald Charles Neath  
Lecturer in Statistics  
B.S., University of California, Davis, 1991; M.S., 1992; Ph.D., University of Minnesota, 2006

Frances Negrón-Muntaner  
Julian Clarence Levi Professor in the Humanities  
B.S., University of Puerto Rico, 1986; M.A., Temple University, 1991; Ph.D., Rutgers University, 2000

Melissa Kay Ness  
Assistant Professor of Astronomy  
B.E., University of Queensland (Australia), 2000; Ph.D., Australian National University, Research School of Astronomy and Astrophysics, 2013

Joao Nemi Neto  
Senior Lecturer in Latin American and Iberian Cultures  
B.A., University of São Paulo (Brazil), 2000; M.A., 2007; M.Phil., The Graduate Center, City University of New York, 2012; Ph.D., 2015

Lara J. Nettelfield  
Senior Lecturer in Political Science  
B.A., University of California, 1995; M.A., Columbia University, 1999; M.Phil., 2001; Ph.D., 2006

Meredith K. Nettles  
Professor of Earth and Environmental Sciences  
A.B., Harvard University, 1995; M.S., University of Arizona, 2000; Ph.D., Harvard University, 2005

Fay W. Ng  
Senior Lecturer in Chemistry  
B.S., University of California, 1992; M.A., Yale University, 1993; Ph.D., Columbia University, 1997

Serena Ng  
Edwin W. Rickert Professor of Economics  
B.A., University of Western Ontario (Canada), 1980; M.A., 1982; M.A., Princeton University, 1992; Ph.D., 1993

Mae Ngai  
Lung Family Professor of Asian American Studies and Professor of History

Lien-Hang Nguyen
Dorothy Borg Associate Professor of the History of American-East Asian Relations
B.A., University of Pennsylvania, 1996; Ph.D., Yale University, 2008

Phuong Chung Nguyen
Lecturer in Vietnamese
B.A., Hanoi University, 2000; M.A., Hanoi National University, 2007

Alberto Nicolis
Associate Professor of Physics
Laurea, Pisa University (Italy), 1999; Diploma, Scuola Normale Superiore, Pisa (Italy), 1999; Ph.D., 2003

Jason Nieh
Professor of Computer Science
B.S., Massachusetts Institute of Technology, 1989; M.S., Stanford University, 1990; Ph.D., 1999

Lars T. Nielsen
Senior Lecturer in Mathematics
M.A., University of Copenhagen (Denmark), 1980; Ph.D., Harvard University, 1985

Miharu Nittono
Senior Lecturer in East Asian Languages and Cultures

Jack R. Norton
Professor of Chemistry
A.B., Harvard University, 1967; Ph.D., Stanford University, 1972

Lynn I. Nottage
Associate Professor of Theatre Arts in the Faculty of the Arts
B.A., Brown University, 1986; M.F.A., Yale University, 1989

Youssef Nouhi
Senior Lecturer in Middle Eastern, South Asian, and African Studies
M.A., University of Ottawa (Canada), 1996; M.A., University of Southern California, 2003

Steven M. Nowick
Professor of Computer Science and of Electrical Engineering
B.A., Yale University, 1976; M.A., Columbia University, 1979; Ph.D., Stanford University, 1993

Colin P. Nuckolls
Sheldon and Dorothy Buckler Professor of Material Science in the Department of Chemistry
B.S., University of Texas at Austin, 1993; Ph.D., Columbia University, 1998

Michael Nutter
David N. Dinkins Professor of Professional Practice and Public Affairs
B.S. University of Pennsylvania, 1979

Marcel Nutz
Professor of Mathematics; Professor of Statistics
Diploma Mathematics, ETH Zurich (Switzerland), 2007; Ph.D., 2010

Jose A. Ocampo
Professor of Professional Practice in the Faculty of International and Public Affairs
B.A., University of Notre Dame, 1972; Ph.D., Yale University, 1976

Kevin N. Ochsner
Professor of Psychology

Brendan Andrew O'Flaherty
Professor of Economics

Sharyn L. O’Halloran
George Blumenthal Professor of Political Economy and Professor of International and Public Affairs
B.A., University of California, San Diego, 1985; M.A., 1988; Ph.D., 1991

Keiko Okamoto
Lecturer in East Asian Languages and Cultures
B.A., International Christian University (Japan), 1970; MA., Columbia University, 1999

Andrei Okounkov
Samuel Eilenberg Professor of Mathematics
B.S., Moscow State University (Russia), 1993; Ph.D., 1995

Paul E. Olsen
Arthur D. Storke Memorial Professor of Earth and Environmental Sciences
B.A., Yale University, 1978; Ph.D., 1983

Robert G. O’Meally
Zora Neale Hurston Professor of English and Comparative Literature
A.B., Stanford University, 1970; A.M., Harvard University, 1971; Ph.D., 1975

Benjamin S. Orlove
Professor of International and Public Affairs
Ph.D., University of California, Berkeley, 1975

Jonathan S. Owen
Associate Professor of Chemistry
B.S., University of Wisconsin-Madison, 2000; Ph.D., California Institute of Technology, 2005
Frederik B. Paerels  
*Professor of Astronomy*  
M.S., Utrecht University (Netherlands), 1984; Ph.D., 1987

Matthew I. Palmer  
*Senior Lecturer in the Discipline of Ecology, Evolution and Environmental Biology*  
B.S., Cornell University, 1996; Ph.D., Rutgers University, 2005

Patrizia Palumbo  
*Senior Lecturer in Italian*  
B.A., University of Turin (Italy), 1988; M.A., Columbia University, 1990; M.Phil., 1992; Ph.D., 1996

Orhan Pamuk  
*Robert Yik-Fong Tam Professor in the Humanities*  
B.A., University of Istanbul, 1976

Arvind Panagariya  
*Jagdish N. Bhagwati Professor of Indian Political Economy*  
Ph.D., Princeton University, 1978

Liam Paninski  
*Professor of Neuroscience and of Statistics*  
B.Sc., Brown University, 1999; Ph.D., New York University, 2003

Christos H. Papadimitriou  
*Donovan Family Professor of Computer Science*  
B.S. Athens Polytechnic, 1972; M.S., Princeton University, 1974; Ph.D., 1976

Deborah A. Paredez  
*Associate Professor of Professional Practice in Writing in the Faculty of the Arts*  
B.A., Trinity University, 1993; Ph.D., Northwestern University, 2002

Ah-Hyung Park  
*Lenfest Earth Institute Associate Professor of Climate Change*  
B.A.S., University of British Columbia (Canada), 1998; M.A.S., 2000; Ph.D., Ohio State University, 2005

Jisuk Park  
*Lecturer in East Asian Languages and Cultures*  
B.A., University of Aichi (Japan), 2000; M.A., University of Wisconsin-Madison, 2002

Edward C. Parker  
*Professor of Professional Practice in Theatre Arts in the Faculty of the Arts*  
M.F.A., Columbia University, 1998

Gerard F. Parkin  
*Professor of Chemistry*  
B.A., University of Oxford, 1981; Ph.D., 1985

Michael D. Parrott  
*Lecturer in Political Science*  
B.A., University of Texas; M.A., Fordham University; Ph.D., University of Maryland, College Park, 2016

John A. Parsons  
*Professor of Physics*  
B.S., McMaster University (Canada), 1985; M.S., University of Toronto, 1986; Ph.D., 1990

Michael J. Passaro  
*Associate Professor of Professional Practice in Theatre Arts in the Faculty of the Arts*  
B.A., New York University, 1984; M.A., 1988

Esther Pasztory  
*Lisa and Bernard Selz Professor Emerita of Pre-Columbian Art History and Archaeology*  
B.A., Barnard College, 1965; M.A., Columbia University, 1967; Ph.D., 1971

Joseph Patterson  
*Professor of Astronomy*  
A.B., Harvard University, 1969; Ph.D., University of Texas at Austin, 1979

Christopher A.B. Peacocke  
*Johnsonian Professor of Philosophy*  
B. Phil., University of Oxford, 1974; M.A., 1971; Ph.D., 1979

Susan G. Pedersen  
*Gouvernor Morris Professor of History*  
A.B., Harvard University, 1982; Ph.D., 1989

Itshack G. Pe'er  
*Associate Professor of Computer Science*  
B.S., Tel Aviv University, 1991; M.S., 1995; Ph.D., 2002

John Pemberton, IV  
*Associate Professor of Anthropology*  

Richard Peña  
*Professor of Professional Practice in the Faculty of the Arts*  
M.S., Massachusetts Institute of Technology, 1978

Feniosky A. Pena-Mora  
*Edwin Howard Armstrong Professor of Civil Engineering and Engineering Mechanics, Professor of Earth and Environmental Engineering, and of Computer Science*  
M.S., Massachusetts Institute of Technology, 1991; Med.Sc.D., 1994

Kerstin Perez  
*Lavine Family Associate Professor of the Natural Sciences*  
M.S., California Institute of Technology, 2008; Ph.D., 2011

Julie S. Peters  
*M. Gordon Garbedian Professor of English and Comparative Literature*  
A.B., Yale University, 1981; Ph.D., Princeton University, 1986
Anne Pfeifer  
*Assistant Professor of Germanic Languages*  
B.A., Columbia University, 2004; M.A., University of Toronto, 2008; Ph.D., Yale University, 2015

Gregory M. Pfugfelder  
*Associate Professor of East Asian Languages and Cultures*  
A.B., Harvard University, 1981; M.A., Waseda University (Japan), 1984; Ph.D., Stanford University, 1996

John D. Phan  
*Assistant Professor of East Asian Languages and Cultures*  
B.A., Saint Olaf College, 2002; M.A., Columbia University, 2005; Ph.D., Cornell University, 2012

Justin H. Phillips  
*Professor of Political Science*  
B.A., Lewis and Clark College, 1998; Ph.D., University of California, San Diego, 2005

Kimberly Phillips-Fein  
*Robert Gardiner-Kenneth T. Jackson Professor of History*  
B.A., University of Chicago, 1997; M.A., Columbia University, 1999; M.Phil., 2001; Ph.D., 2005

Duong Hong Phong  
*Professor of Mathematics*  
A.B., Princeton University, 1973; M.A., 1974; Ph.D., 1976

Pablo A. Piccato  
*Professor of History*  
B.A., Universidad Nacional Autónoma de México, 1990; Ph.D., University of Texas at Austin, 1997

Noemie Pinardon-Touati  
*Assistant Professor of Economics*  
M.Sc., HEC Paris, 2015; M.Phil., Université Paris-Saclay and Paris School of Economics, 2016; Ph.D., HEC Paris, 2022

Aron Pinczuk  
*Professor of Applied Physics and of Physics*  
Licenciado, University of Buenos Aires, 1962; Ph.D., University of Pennsylvania, 1969

Henry C. Pinkham  
*Professor of Mathematics*  
A.B., Harvard University, 1970; Ph.D., 1974

Eleonora Pistis  
*Assistant Professor of Art History and Archaeology*  
Ph.D., Università Iuav di Venezia (Italy), 2011

Caterina L. Pizzigoni  
*Associate Professor of History*  
Laurea, University of Milano (Italy), 1996; Ph.D., King’s College London, 2002

Terry A. Plank  
*Arthur D. Storke Memorial Professor of Earth and Environmental Sciences*  
A.B., Dartmouth College, 1985; M.A., Columbia University, 1987; M.Phil., 1991; Ph.D., 1993

Pawel Polack  
*Assistant Professor of Statistics*  
Ph.D. Swiss Finance Institute, 2014

Robert E. Pollack  
*Professor of Biological Sciences*  
B.A., Columbia University, 1961; Ph.D., Brandeis University, 1966

Lorenzo M. Polvani  
*Professor of Applied Physics and Applied Mathematics and of Earth and Environmental Sciences*  
B.Sc., McGill University (Canada), 1981; M.S., 1982; Ph.D., Massachusetts Institute of Technology, 1988

Cristian Pop-Eleches  
*Associate Professor of International and Public Affairs*  
A.B., Harvard University, 1998; A.M., 2000; Ph.D., 2003

Ross Posnock  
*Anna S. Garbedian Professor of the Humanities*  
B.A., Kenyon College, 1974; M.A., Johns Hopkins University, 1976; Ph.D., 1980

Elizabeth Povinelli  
*Franz Boas Professor of Anthropology*  
B.A., St. John’s College, 1984; M.Phil., Yale University, 1988; Ph.D., 1991

Andrea Prat  
*Richard Paul Richman Professor of Business and Professor of Economics*  
Ph.D., Stanford University, 1997

Carlo Prato  
*Assistant Professor of Political Science*  
B.A., Bocconi University, 2004; M.S., 2006; Ph.D., Northwestern University, 2012

Kenneth Prewitt  
*Carnegie Professor of Public Affairs*  
Ph.D., Yale University, 1968

Mary Ann Price  
*Lecturer in Biological Sciences*  
B.S., University of Montevallo, 1987; Ph.D., John Hopkins University, 1992

Frances Pritchett  
*Professor Emerita of Middle Eastern, South Asian, and African Studies*  

Carol L. Prives  
*Da Costa Professor of Biology*  
B.Sc., McGill University (Canada), 1962; Ph.D., 1968
Philip E. Protter  
*Professor of Statistics*  
B.A., Yale University, 1971; Ph.D., University of California, San Diego, 1975

Ron M. Prywes  
*Professor of Biological Sciences*  
B.A., University of Pennsylvania, 1979; Ph.D., Massachusetts Institute of Technology, 1984

Molly F. Przeworski  
*Professor of Biological Sciences and Systems Biology*  
A.B., Princeton University, 1994; Ph.D., University of Chicago, 2000

Valerie J. Purdie-Greenaway  
*Professor of Psychology*  
B.A., Columbia University, 1993; Ph.D., Stanford University, 2005

G. Michael Purdy  
*Professor of Earth and Environmental Sciences*  
B.S., Imperial College London, 1969; M.S., 1970; Ph.D., University of Cambridge, 1974

Mary E. Putman  
*Professor of Astronomy*  
B.S., University of Wisconsin, 1996; Ph.D., 2001

Q  
Shaoyan Qi  
*Lecturer in East Asian Languages and Cultures*  
B.A., Huazhong University of Science and Technology (China), 1999; M.A., State University of New York, 2002; M.A., Villanova University, 2004

Ying Qian  
*Associate Professor of East Asian Languages and Cultures*  
Ph.D. Harvard University, 2013

Raquel Queiroz  
*Assistant Professor of Physics*  
B.Sc., Universidade Técnica de Lisboa (Portugal), 2009; M.Sc., Imperial College London (United Kingdom), 2010; Ph.D., University of Stuttgart (Germany), 2015

Sophie C. Queuniet  
*Senior Lecturer in French*  
M.A., Université Sorbonne Nouvelle (France), 1991; M.A., Yale University, 1993; M.Phil., 1993; Ph.D., 1999

Austin E. Quigley  
*Brander Matthews Professor of Dramatic Literature*  
B.A., University of Nottingham (U.K.), 1967; M.A., University of Birmingham (U.K.), 1969; Ph.D., University of California, Santa Cruz, 1971

R  
Daniel Rabinowitz

---

Professor of Statistics  
B.A., University of California, Santa Cruz, 1985; Ph.D., Stanford University, 1991

Sailakshmi Ramgopal  
*Assistant Professor of History*  
B.A., Northwestern University, 2006; Ph.D., University of Chicago, 2016

Rakesh Ranjan  
*Senior Lecturer in Middle Eastern, South Asian, and African Studies*  
M.A., University of Delhi (India), 1985; M.Phil., 1988; Ph.D., 1997

Maureen Elizabeth Raymo  
*G. Unger Vetlesen Professor of Earth and Climate Science*  

Shana Redmond  
*Professor of English and Comparative Literature*  
B.A., Macalester College, 2002; M.A., M.Phil., Yale University, 2006; Ph.D., 2008

Adam D. Reich  
*Associate Professor of Sociology*  
B.A., Brown University, 2004; M.A., University of California, Berkeley, 2007; Ph.D., 2012

David R. Reichman  
*Centennial Professor of Chemistry*  
B.A., University of Chicago, 1992; Ph.D., Massachusetts Institute of Technology, 1997

Ricardo Reis  
*Professor of Economics*  
B.Sc., London School of Economics, 1999; Ph.D., Harvard University, 2004

Rodrigo Reis Soares  
*Lemann Professor of Brazilian Public Policy and International and Public Affairs*  
B.A., Federal University of Minas Gerais (Brazil), 1994; M.A., Pontifical Catholic University of Rio de Janeiro, 1997; Ph.D., University of Chicago, 2002

Irina Reyfman  
*Professor of Slavic Languages*  
Diploma, University of Tartu (Estonia), 1973; Ph.D., Stanford University, 1986

Aaron J. Ritzenberg  
*Senior Lecturer in English and Comparative Literature*  
B.A., Haverford College, 1998; M.A., Brandeis University, 2003; Ph.D., 2006

Richard G. Robb  
*Professor of Professional Practice in the Faculty of International and Public Affairs*
Ph.D., University of Chicago, 1985

Bruce William Robbins  
*Old Dominion Foundation Professor in the Humanities*  
A.B., Harvard University, 1971; A.M., 1976; Ph.D., 1980

Joyce Trina Robbins  
*Lecturer in Statistics*  
B.S.E., Princeton University, 1989; M.A., Tel Aviv University (Israel), 1994; Ph.D., Columbia University, 2002

Camille Robcis  
*Professor of French*  
B.A., Brown University, 1999; Ph.D., Cornell University, 2007

Samuel K. Roberts  
*Associate Professor of History and of Sociomedical Sciences*  
A.B., University of Virginia, 1995; M.A., Princeton University, 1997; Ph.D., 2001

Lauren Robertson  
*Assistant Professor of English and Comparative Literature*  
B.A., St. John's College, 2008; Ph.D., Washington University in St. Louis, 2016

Ailsa A. Roell  
*Professor of International and Public Affairs*  
Ph.D., Johns Hopkins University, 1983

Diana P. Romero  
*Lecturer in Latin American and Iberian Cultures*  
B.A., Universidad de Los Andes (Colombia), 1994; M.A., University of Maryland, 1998; Ph.D., 2009

Francisco Rosales-Varo  
*Senior Lecturer in Latin American and Iberian Cultures*  
M.A., University of Granada (Spain), 1991; Ph.D., 1998

Rachel A. Rosen  
*Associate Professor of Physics*  
B.S., Brown University, 2003; Ph.D., New York University, 2009

David K. Rosner  
*Ronald H. Lauterstein Professor of Sociomedical Sciences and Professor of History*  
B.A., City College of New York - CUNY, 1968; M.A., University of Massachusetts Boston, 1972; Ph.D., Harvard University, 1978

Alan Ross  
*Assistant Attending of Classics*  
B.A., University College London, 2005; M.St., University of Oxford, 2006; Ph.D., 2011

Carol Howe Rounds  
*Senior Lecturer in Italian*  
B.A., Columbia University, 1984; M.A., 1986; Ph.D., 1992

Kenneth A. Ross  
*Professor of Computer Science*  
B.S., University of Melbourne (Australia), 1986; Ph.D., Stanford University, 1991

David J. Rothman  
*Bernard Schoenberg Professor of Social Medicine and Professor of History*  
B.A., Columbia University, 1958; A.M., Harvard University, 1959; Ph.D., 1964

Carol Rovane  
*Violin Family Professor of Philosophy; Carnoy Family Program Chair for Contemporary Civilization*  
Ph.D., University of Chicago, 1983

Tomislav Rovis  
*Samuel Latham Mitchell Professor of Chemistry*  
B.Sc., University of Toronto, 1990; Ph.D., 1998

Xavier S. Roy  
*Associate Professor of Chemistry*  
Ph.D., University of British Columbia (Canada), 2011

Daniel S. Rubenstein  
*Associate Professor of Computer Science*  
Ph.D., University of Massachusetts Amherst, 2000

Dustin R. Rubenstein  
*Professor of Ecology, Evolution, and Environmental Biology*  
B.A., Dartmouth College, 1999; Ph.D., Cornell University, 2006

Jose P. Ruiz Campillo  
*Senior Lecturer in Latin American and Iberian Cultures*  
B.A., University of Granada (Spain), 1987; M.A., 1993; Ph.D., 1999

Guadalupe Ruiz-Fajardo  
*Senior Lecturer in Latin American and Iberian Cultures*  
B.A., University of Granada (Spain), 1984; M.A., 1986; Ph.D., 1992

Cynthia G. Rush  
*Assistant Professor of Statistics*  
B.S., University of North Carolina at Chapel Hill, 2010; M.A., Yale University, 2011; Ph.D., 2016

Alessandra Russo  
*Professor of Latin American and Iberian Cultures*  
Laurea, University of Bologna (Italy), 1996; M.A., École des Hautes Études en Sciences Sociales (France), 1997; Ph.D., 2006

Maureen Ryan  
*Professor of Professional Practice of Film in the Faculty of the Arts*  
M.F.A., Columbia University, 1992

S

Emmanuelle M. Saada  
*Professor of French*
Giulia Sacca
Assistant Professor of Mathematics
B.S., Sapienza Università di Roma (Italy), 2006; M.S., 2008; Ph.D., Princeton University, 2013

Jeffrey D. Sachs
University Professor

Evan D. Sadler
Assistant Professor of Economics
B.A., Princeton University, 2009; Ph.D., New York University, 2015

Abolfazl Safikhani
Assistant Professor of Statistics
Ph.D. Michigan State University, 2015

Alessandra Saggin
Senior Lecturer in Italian
M.A., University of Pisa (Italy), 1990

Ozgur Sahin
Professor of Biological Sciences and of Physics
B.S., Bilkent University (Turkey), 2001; M.S., Stanford University, 2003; Ph.D., 2005

Xavier Sala-i-Martin
Jerome H. and Matthew S. Grossman Professor of Development Economics
Licenciado Ciencias Economicas, Universitat Autonoma de Barcelona (Spain), 1985; A.M., Harvard University, 1987; Ph.D., 1990

Bernard Salanié
Professor of Economics
B.A., École Polytechnique (France), 1984; M.A., École Nationale de la Statistique et de l’Administration Economique (France), 1986; Ph.D., École des Hautes Études en Sciences Sociales (France), 1992

Dalibor Sames
Associate Professor of Chemistry
B.S., Charles University (Czech Republic), 1990; Ph.D., University of Arizona, 1996

Saskia Sassen
Robert S. Lynd Professor of Sociology
M.A., Notre Dame University, 1971; Ph.D., 1974

Vasile Ovidiu Savin
Professor of Mathematics
M.S., University of Pittsburgh, 1999; Ph.D., University of Texas at Austin, 2003

Will Sawin
Assistant Professor of Mathematics
B.S., Yale University, 2011; Ph.D., Princeton University, 2016

Simon M. Schama
University Professor
M.A., University of Cambridge, 1969

James A. Schamus
Professor of Professional Practice in Film in the Faculty of the Arts
A.B., University of California, Berkeley, 1982; M.F.A., 1987; Ph.D., 2003

Jose A. Scheinkman
Charles and Lynn Zhang Professor of Economics
B.A., Universidade Federal do Rio de Janeiro (Brazil), 1969; M.S., Instituto de Matemática Pura e Aplicada (Brazil), 1970; M.A., Rochester University, 1973; Ph.D., 1974

David Schiminovich
Professor of Astronomy
B.Sc., Yale University, 1989; Ph.D., Columbia University, 1998

Wolfram Schlenker
Associate Professor of International and Public Affairs and Economics
Ph.D., University of California, Berkeley, 2003

Jutta Schmiers-Heller
Senior Lecturer in Germanic Languages
B.A., Westfälische Wilhelms-Universität Münster (Germany), 1996; M.A., 1996; M.A., Montclair State University, 2009

Stephanie Schmitt-Grohé
Professor of Economics
Vordiplom, Westfälische Wilhelms-Universität Münster (Germany), 1987; M.B.A., Baruch College - CUNY, 1989; Ph.D., University of Chicago, 1994

Christopher H. Scholz
Professor of Applied Physics and Applied Mathematics and of Earth and Environmental Sciences
B.S., University of Nevada, 1964; Ph.D., Massachusetts Institute of Technology, 1967

Henning G. Schulzrinne
Julian Clarence Levi Professor of Mathematical Methods and Computer Science and Professor of Electrical Engineering
B.S., Technische Universität Darmstadt (Germany), 1984; M.S., University of Cincinnati, 1984; M.S., University of Cincinnati, 1987; Ph.D., University of Massachusetts Amherst, 1992

Seth R. Schwartz
Lucius N. Littauer Professor of Classical Jewish Civilization
B.A., Yeshiva University, 1979; M.A., Columbia University, 1981; M.Phil., 1982; Ph.D., 1985

David A. Scott
Ruth and William Lubic Professor of Anthropology
B.S., University of West Indies (Jamaica), 1980; M.A., New School for Social Research, 1983; Ph.D., 1989

Guy Sella
Associate Professor of Biological Sciences
B.S., Tel Aviv University, 1993; M.S., Hebrew University, 1997; Ph.D., Tel Aviv University, 2001

Ahmet Tunç #en
Assistant Professor of History
B.A., Sabancı# University (Turkey), 2006; M.A., 2008; M.A., University of Chicago, 2010; Ph.D., 2016

Bodhisattva Sen
Professor of Statistics
B.Stat., Indian Statistical Institute (India), 2002; M.Stat., 2004; M.S., University of Michigan, 2007; Ph.D., 2008

Neslihan Senocak
Associate Professor of History
B.A., Middle East Technical (Turkey), 1994; Ph.D., Bilkent University (Turkey), 2002

Rocco A. Servedio
Professor of Computer Science
A.B., Harvard University, 1993; S.M., 1997; Ph.D., 2001

Stephen R. Sestanovich
Kathryn and Shelby Cullom Davis Professor for the Practice of International Diplomacy
Ph.D., Harvard University, 1978

Lakshminarasimhan Kahl Sethumadhavan
Associate Professor of Computer Science
Ph.D., University of Texas at Austin, 2007

Michael H. Shaevitz
Professor of Physics
B.S., Ohio State University, 1969; M.S., 1971; Ph.D., 1975

Neel Shah
Assistant Professor of Chemistry
B.S., New York University, 2008; Ph.D., Rockefeller University, 2013

Avinoam Shalem
Riggio Professor of Art History
Ph.D., University of Edinburgh, 1995

Aziza Shanazerova
Assistant Professor of Religion
B.A., Tashkent State University of Oriental Studies (Tashkent#Poland), 2007; M.A., 2008; Indiana University, 2013; Ph.D., 2019

Wei Shang
Wm. Theodore and Fanny Brett de Bary and Class of 1941 Collegiate Professor of Asian Humanities, and Du Family Professor of Chinese Culture
B.A., Peking University (China), 1982; M.A., 1984; Ph.D., Harvard University, 1994

James Shapiro
Larry Miller Professor of English and Comparative Literature
B.A., Columbia University, 1977; M.A., University of Chicago, 1978; Ph.D., 1982

Jill S. Shapiro
Senior Lecturer in the Discipline of Ecology, Evolution and Environmental Biology
B.A., Barnard College, 1980; M.A., Columbia University, 1982; Ph.D., 1995

Robert Y. Shapiro
Wallace S. Sayre Professor of Government and Professor of International and Public Affairs
B.S., Massachusetts Institute of Technology, 1974; M.A., University of Chicago, 1977; Ph.D., 1982

Teresa Christine Sharpe
Senior Lecturer in Sociology
B.A., University of California, Berkeley, 1994; M.A., 2001; Ph.D., 2010

Michael P. Sheetz
Professor Emeritus of Cell Biology
B.A., Albion College, 1968; Ph.D., California Institute of Technology, 1972

Yuri I. Shevchuk
Senior Lecturer in Slavic Languages

Zhongqi Shi
Senior Lecturer in East Asian Languages and Cultures
B.A., Beijing Language and Culture University (China), 2002; M.A., 2005; Ph.D., Columbia University, 2018

Haruo Shirane
Shinchô Professor of Japanese Literature
B.A., Columbia University, 1974; M.A., University of Michigan, 1977; Ph.D., Columbia University, 1983

Daphna Shohamy
Kavli Professor of Brain Science; Professor of Psychology
B.A., Tel Aviv University, 1996; Ph.D., Rutgers University, 2003

Gary Shteyngart
Associate Professor of Writing in the Faculty of the Arts
B.A., Oberlin College, 1995; M.F.A., Hunter College - CUNY, 2001

David Sidorsky
Professor Emeritus of Philosophy
B.A., New York University, 1948; M.A., 1952; Ph.D., Columbia University, 1962

Shelly A. Silver
Professor of Professional Practice  
B.F.A., Cornell University, 1980

Oliver Simons  
Professor of Germanic Languages  
M.A., Humboldt-University (Germany), 1999; Ph.D., 2005

Audra Simpson  
Professor of Anthropology  
B.A., Concordia University (Canada), 1993; M.A., McGill University (Canada), 1996; Ph.D., 2004

Lorenzo Sironi  
Associate Professor of Astronomy  
Ph.D., Princeton University, 2011

Elaine R. Sisman  
Anne Parsons Bender Professor of Music  
B.A., Cornell University, 1972; M.F.A., Princeton University, 1974; Ph.D., 1978

Michael Skelly  
Associate in Music Performance  
B.A. Columbia University, 1997

Samuel Skippon  
Lecturer in French  
M.Phil., Sorbonne University (France), 1994; M.A., New York University, 2002

Yana Skorobogatov  
Gladys and Roland Harriman Assistant Professor of Russian and Soviet History  
B.A., University of California, Berkeley, 2009; M.A., University of Texas, Austin, 2012; Ph.D., University of California, Berkeley, 2018

Joseph R. Slaughter  
Associate Professor of English and Comparative Literature  
B.A., University of Florida, 1989; M.A., University of Texas at Austin, 1994; Ph.D., 1998

Mario Small  
Quetelet Professor of Social Science  
B.A., Carleton College, 1996; M.A., Harvard University, 1998; Ph.D., 2001

Mikhail Smirnov  
Senior Lecturer in Mathematics  
B.S., M.S., Moscow University (Russia), 1989; M.A., Princeton University, 1992; Ph.D., 1995

Pamela H. Smith  
Seth Low Professor of History  
B.A., University of Wollongong (Australia), 1979; Ph.D., Johns Hopkins University, 1991

Sable Smith  
Assistant Professor of Visual Arts  

Alla A. Smyslova  
Senior Lecturer in Slavic Languages  
M.A., Moscow State Pedagogical Institute of Foreign Languages (Russia); M.A., Indiana University at Bloomington; Ph.D., Bryn Mawr College

Jack L. Snyder  
Robert and Renee Belfer Professor of International Relations  
A.B., Harvard University, 1973; Ph.D., Columbia University, 1981

Adam H. Sobel  
Professor of Applied Physics and Applied Mathematics and of Earth and Environmental Sciences  
B.A., Wesleyan University, 1989; M.A., Massachusetts Institute of Technology, 1997; Ph.D., 1998

Michael E. Sobel  
Professor of Statistics  
B.A., Florida State University, 1972; M.S., University of Wisconsin-Madison, 1975; M.A., 1978; Ph.D., 1980

Sean C. Solomon  
William B. Ransford Professor of Earth and Planetary Science  
B.S., California Institute of Technology, 1966; Ph.D., Massachusetts Institute of Technology, 1971

Josef Sorett  
Professor of Religion and of African American and African Diaspora Studies  
B.A., Oral Roberts University, 1996; M.Div., Boston University, 2000; Ph.D., Harvard University, 2008

Naoko Sourial  
Assistant Professor, Department of Political Science  
B.A., University of Tokyo (Japan), 2015; Ph.D. Princeton University, 2020

Alfredo Spagna  
Lecturer in the Discipline of Psychology  
B.A., Sapienza, University of Rome (Italy), 2006; M.A., 2010; Ph.D., 2013

Edward A. Spiegel  
Rutherfurd Professor of Astronomy  
B.A., University of California, Los Angeles, 1952; M.S., University of Michigan, 1954; Ph.D., 1958

Maura Spiegel  
Senior Lecturer in English and Comparative Literature  
B.A., Bennington College, 1976; Ph.D., Columbia University, 1993

Marc W. Spiegelman  
Arthur D. Storke Memorial Professor of Earth and Environmental Sciences and Professor of Applied Physics and Applied Mathematics
A.B., Harvard University, 1985; Ph.D., University of Cambridge, 1989

Barbara Spinelli  
Senior Lecturer in Italian  
B.A., University of Perugia (Italy), 1989; M.A., University of Venice (Italy), 2001

Gayatri Chakravorty Spivak  
University Professor  
B.A., University of Calcutta (India), 1959; M.A., Cornell University, 1962; Ph.D., 1967

James Stafford  
Assistant Professor of History  

Joanna R. Stalnaker  
Professor of French  
Ph.D., New York University, 2002

Michael F. Stanislawski  
Nathan J. Miller Professor of Jewish History  
A.B., Harvard University, 1973; A.M., 1975; Ph.D., 1979

Amy A. Starecheski  
Lecturer in Sociology  
B.A. Columbia University, 1999; M.A., 2005; Ph.D., City University of New York, 2014

David C. Stark  
Arthur Lehman Professor of Sociology and International Affairs  
A.B., Princeton University, 1972; A.M., Harvard University, 1977; Ph.D., 1982

Ursula M. Staudinger  
Robert N. Butler Professor  
M.A., Friedrich-Alexander University of Erlangen-Nurnberg (Germany), 1984; Ph.D., Freie Universitiit Berlin, 1988

Benjamin A. Steege  
Associate Professor of Music  
B.A., Columbia University, 2000; Ph.D., Harvard University, 2007

Clifford S. Stein  
Professor of Industrial Engineering and Operations Research and of Computer Science  
Ph.D., Massachusetts Institute of Technology, 1992

Deborah T. Steiner  
Jay Professor of Greek and Latin Languages  
A.B., Harvard University, 1982; M.Litt., University of Oxford, 1984; Ph.D., University of California, Berkeley, 1991

Alma Steingart  
Assistant Professor of History  
B.A., Columbia University, 2006; Ph.D., Massachusetts Institute of Technology, 2013

Alfred Stepan  
Wallace S. Sayre Professor Emeritus of Government, Professor Emeritus of Political Science, and Dean Emeritus of the Faculty of International and Public Affairs  
B.A., Notre Dame University, 1958; B.A., Balliol College (U.K.), 1960; M.A., 1960; Ph.D., Columbia University, 1969

Nancy Leys Stepan  
Professor Emeritus of History  
Ph.D., University of California, Los Angeles, 1971

Anders G. Stephanson  
Andrew and Virginia Rudd Family Foundation Professor of History  
B.A., University of Gothenburg (Sweden), 1975; B.Phil., University of Oxford, 1977; Ph.D., Columbia University, 1986

Rhiannon Stephens  
Associate Professor of History  
B.A., University of London, 2000; M.A., Northwestern University, 2002; Ph.D., 2007

Magdalena A. Stern-Baczewska  
Senior Lecturer in the Discipline of Music  

Alan G. Stewart  
Professor of English and Comparative Literature  
B.A., University of Cambridge, 1988; Ph.D., 1993

Dustin D. Stewart  
Assistant Professor of English and Comparative Literature  
B.A., Baylor University, 2001; M.A., 2004; Ph.D., University of Texas, 2013

Joseph E. Stiglitz  
University Professor  
B.A., Amherst College, 1964; Ph.D., Massachusetts Institute of Technology, 1967

Brent R. Stockwell  
Professor of Biological Sciences and of Chemistry  
B.A., Cornell University, 1994; Ph.D., Harvard University, 1999

Salvatore J. Stolfo  
Professor of Computer Science  
B.S., Brooklyn College - CUNY, 1974; M.S., New York University, 1976; Ph.D., 1979

Paul Strohm  
Anna S. Garbedian Professor Emeritus of the Humanities  
B.A., Amherst College, 1960; M.A., University of California, Berkeley, 1962; Ph.D., 1966

Zoë S. Strother
Riggio Professor of African Art; Jonathan Sobel and Marcia Dunn Program Chair for Art Humanities
B.A., Bryn Mawr College, 1982; M.A., Yale University, 1984; M.A., 1987; Ph.D., 1992

Joowon Suh
Senior Lecturer in East Asian Languages and Cultures

Chiara Superti
Lecturer in Political Science
B.A., University of Bologna (Italy), 2006; M.P.I.A., University of California, 2009; Ph.D., Harvard University, 2015

Peter M. Susser
Senior Lecturer in Music
B.A., Bennington College, 1981; M.M., Manhattan School of Music, 1984; DMA, Columbia University, 1994

Tomi Suzuki
Professor of East Asian Languages and Cultures
B.A., University of Tokyo, 1974; M.A., 1977; Ph.D., Yale University, 1988

Jan Svejnar
James T. Shotwell Professor of Global Political Economy
B.S., Cornell University, 1974; M.A., Princeton University, 1976; Ph.D., 1979

Marianne I. Sy
Senior Lecturer in Middle Eastern, South Asian, and African Studies
M.A., East Stroudsburg University, 1996; M.A., University of California, Los Angeles, 2003; Ph.D., 2007

Sarah M. Sze
Professor of Visual Arts in the Faculty of the Arts
B.A., Yale University, 1991; M.F.A., School of Visual Arts, 1997

Simon Tavare
Professor of Statistics and of Biological Sciences
B.Sc., University of Sheffield (U.K.), 1974; M.S., 1975; Ph.D., 1979

Mark C. Taylor
Professor of Religion
B.A., Wesleyan University, 1968; Ph.D., Harvard University, 1973; Doktorgrad, University of Copenhagen, 1981

Pietro Tebaldi
Assistant Professor of Economics
B.A., Bucconi University (Italy), 2009; M.Sc., 2011; Ph.D., Stanford University, 2016

Makeda Tekle-Smith
Assistant Professor of Chemistry
B.A., Pomona College, 2014; Ph.D., Columbia University, 2019

Dennis Tenen
Associate Professor of English and Comparative Literature
B.A., University of Michigan, 2001; Ph.D., Harvard University, 2011

Herbert S. Terrace
Professor of Psychology
B.A., Cornell University, 1957; M.A., 1958; Ph.D., Harvard University, 1961

Michael Thaddeus
Professor of Mathematics
A.B., Harvard University, 1988; D.Phil., University of Oxford, 1992

Yannik Thiem
Associate Professor of Religion
B.A., University of Tuebingen (Germany), 1998; M.A., 2002; Th.D., 2004; M.A., University of California, Berkeley, 2004; Ph.D., 2009

Marissa Thompson
Assistant Professor of Sociology
B.S.E., University of Pennsylvania, 2016; M.A., Stanford University, 2019; Ph.D., 2021

Jiang Tianqi
Lecturer in East Asian Languages and Cultures
B.A., Northwestern University, 2010; M.A., Beijing Language and Culture University (China), 2013; Ph.D., 2019

Michael M. Ting
Professor of International and Public Affairs and of Political Science
S.B., Massachusetts Institute of Technology, 1992; A.M., Harvard University, 1995; Ph.D., Stanford University, 1999

Rirkrit Tiravanija
Professor of Professional Practice in Visual Arts in the Faculty of the Arts
B.A., Ontario College of Art (Canada), 1984; M.A., School of the Art Institute of Chicago, 1986

T. Colm Toibin
Irene and Sidney B. Silverman Professor of the Humanities
B.A., University College Dublin, 1975

Maya Tolstoy
Professor of Earth and Environmental Sciences
B.Sc., University of Edinburgh, 1988; Ph.D., University of California, San Diego, 1994

Raju Tomer
Assistant Professor of Biological Sciences
B. Tech - M. Tech Dual Degree, Indian Institute of Technology, Delhi, 2004; Ph.D., European Molecular Biology Laboratory, 2010
Pier Mattia Tommasino  
Associate Professor of Italian  
B.A., Università degli Studi, Pisa (Italy), 2002; M.A., Università degli Studi, Urbino (Italy), 2003; Ph.D., Scuole Normale Superiore, Pisa (Italy), 2009  

Liang Tong  
William R. Kenan, Jr. Professor of Biological Sciences  
B.S., Peking University (China), 1983; Ph.D., University of California, Berkeley, 1989  

Adam Tooze  
Kathryn and Shelby Cullom Davis Professor of History; Director of the European Institute  
Ph.D., London School of Economics, 1996  

Gerard Torrats-Espinosa  
Assistant Professor of Sociology  
B.S., Polytechnic University of Catalonia (Spain), 2004; MPP, Harvard University, 2014; Ph.D., New York University, 2019  

Maria Tosches  
Assistant Professor Biological Sciences  
Ph.D., Scuola Normale Superiore (Italy), 2012  

Nim Tottenham  
Professor of Psychology  
B.A., Barnard College, 1996; Ph.D., University of Minnesota, 2005  

Lisa Trever  
Lisa and Bernard Selz Associate Professor of Pre-Columbian Art History and Archaeology  
B.A., Yale University, 2000; M.A., University of Maryland, 2005; A.M., Harvard University, 2007; Ph.D., 2013  

Sonam Tsering  
Senior Lecturer in East Asian Languages and Cultures  
B.A., University of London (United Kingdom), 2005  

Takuya Tsunoda  
Assistant Professor of Japanese Visual Culture  
B.A., Waseda University, 2002; M.A., Columbia University, 2005; M.A., 2008; Ph.D., Yale University, 2015  

Philip Michael Tuts  
Professor of Physics  
B.S., Massachusetts Institute of Technology, 1974; Ph.D., Stony Brook University - SUNY, 1979  

Gray Tuttle  
Leila Hadley Luce Associate Professor of Modern Tibetan Studies  
Ph.D., Harvard University, 2002  

Elsa Ubeda  
Lecturer in Latin American and Iberian Cultures  
B.A., University of Barcelona (Spain), 2002; M.A. Menéndez Pelayo International University (Spain), 2009  

Yasutomo Uemura  
Professor of Physics  
B.S., University of Tokyo, 1977; M.S., 1979; D.Sc., 1982  

Joseph C. Ulichny  
Senior Lecturer in the Discipline of Chemistry  
B.S., University of Scranton, 2006; M.A., Columbia University, 2008  

Eric Jean-Paul Urban  
Professor of Mathematics  
Ph.D., University of Paris-Sud, 1994  

Nadia Urbinati  
Kyriakos Tsakopoulos Professor of Political Theory and Hellenic Studies  
Laurea, University of Bologna (Italy), 1977; Master, University of Parma (Italy), 1980; Ph.D., European University Institute of Florence (Italy), 1989  

Maria Uriarte  
Professor of Ecology, Evolution, and Environmental Biology  
B.A., University at Albany - SUNY, 1986; M.A., Yale University, 1995; Ph.D., Cornell University, 2002  

Martin Uribe  
Professor of Economics  
B.A., Universidad Nacional de Córdoba (Argentina), 1987; M.A., University of Centro de Estudios Macroeconómicos de Argentina, 1989; Ph.D., University of Chicago, 1994  

Miguel S. Urquiola  
Professor of Economics and of International and Public Affairs  
B.A., Swarthmore College, 1992; Ph.D., University of California, Berkeley, 2000  

Alison M. Vacca  
Gevork M. Avedissian Associate Professor of Armenian History and Civilization  
B.A., Nazareth College of Rochester, 2006; Ph.D., University of Michigan, 2013  

James J. Valentini  
Henry L. and Lucy G. Moses Professor  
B.S., University of Pittsburgh, 1972; M.S., University of Chicago, 1973; Ph.D., University of California, Berkeley, 1976  

Paolo Valesio  
Giuseppe Ungaretti Professor Emeritus of Italian Literature  
Ph.D., University of Bologna (Italy), 1969  

Marc Van De Mieroop  
Miriam Champion Professor of History  
B.A., Katholieke Universiteit Leuven (Belgium), 1978; M.A., Yale University, 1980; Ph.D., 1983
Anne Margrete Nicolien van Delft  
Assistant Professor of Statistics  
B.Sc., Maastricht University (Netherlands), 2011; M.Sc., 2012; Ph.D., 2016

Karen R. Van Dyck  
Kimon A. Doukas Professor of Hellenic Studies  

Vladimir Vapnik  
Professor of Computer Science  
Ph.D., Institute of Control Sciences (Russia), 1964

Achille C. Varzi  
John Dewey Professor of Philosophy  
Laurea Hons., University of Trento (Italy), 1982; M.A., University of Toronto, 1983; Ph.D., 1994

Thibault Vatter  
Assistant Professor of Statistics  
B.Sc., Swiss Federal Institute of Technology, 2010; M.Sc., 2012; Ph.D., HEC Lausanne, 2016

Diane Vaughan  
Professor of Sociology and of International and Public Affairs  
B.A., Ohio State University, 1973; M.A., 1974; Ph.D., 1979

Yamil Velez  
Assistant Professor of Political Science  
B.A., Florida State University, 2010; M.A., Stony Brook University, 2012; Ph.D., 2015

Latha Venkataraman  
Professor of Applied Physics and Chemistry  
B.S., Massachusetts Institute of Technology, 1993; M.S., Harvard University, 1997; Ph.D., 1999

Venkat Venkatasubramanian  
Samuel Ruben-Peter G. Viele Professor of Engineering  
Ph.D., Cornell University, 1984

Sudhir A. Venkatesh  
William B. Ransford Professor of Sociology  
B.A., University of California, San Diego, 1988; M.A., University of Chicago, 1992; Ph.D., 1997

Eric A. Verhoogen  
Professor of International and Public Affairs and of Economics  
A.B., Harvard University, 1991; M.A., University of Massachusetts Amherst, 1998; Ph.D., University of California, Berkeley, 2004

Gauri Viswanathan  
Class of 1933 Professor of English and Comparative Literature  
B.A., University of Delhi (India), 1971; M.Ed., Columbia University, 1984; Ph.D., 1985

Katja Vogt  
Professor of Philosophy  
B.A., University of Munich (Germany), 1990; M.A., 1992; Ph.D., 1996

Katharina Volk  
Professor of Classics  
M.A., University of Munich (Germany), 1994; M.A., Princeton University, 1996; Ph.D., 1999

Dorothea von Mücke  
Gebhard Professor of German Language and Literature  
Staatsexamen Germanistik, University of Mannheim (Germany), 1981; M.A., Stanford University, 1983; Ph.D., 1988

Tomas Vu-Daniel  
LeRoy Neiman Professor of Professional Practice in Visual Arts in the Faculty of the Arts  
B.F.A., University of Texas at El Paso, 1988; M.F.A., Yale University, 1990

Gordana Vunjak-Novakovic  
University Professor  
Ph.D., University of Belgrade, 1980

David Walker  
Higgins Professor of Earth and Environmental Sciences  
B.A., Oberlin College, 1968; A.M., Harvard University, 1970; Ph.D., 1972

Nicole B. Wallack  
Senior Lecturer in English and Comparative Literature  
B.A., McGill University (Canada), 1988; M.A., University of Edinburgh (United Kingdom), 1989; Ph.D., New York University, 2004

Wendy S. Walters  
Associate Professor of Writing  
B.A., University of Michigan, 1992; M.F.A., Cornell University, 1995; M.A., 1997; Ph.D., 2000

Hailong Wang  
Lecturer in East Asian Languages and Cultures  
B.A., Jiangsu Normal University (China); M.A., Shanghai Normal University (China); M.A., Columbia University, 1993

Mu-Tao Wang  
Professor of Mathematics  
M.S., National Taiwan University, 1992; Ph.D., Harvard University, 1998

Zhirong Wang  
Senior Lecturer in East Asian Languages and Cultures  
B.A., Peking University (China), 1987; Ph.D., University of Wisconsin-Madison, 2003

Christopher J. Washburne  
Professor of Music
Ebonya Washington  
*Laurans A. and Arlene Mendelson Professor of Economics; Professor of International and Public Affairs*  
B.A., Brown University, 1995; Ph.D., Massachusetts Institute of Technology, 2003

Michael J. Waters  
*Assistant Professor of Art History and Archaeology*  
B.F.A., University of Illinois at Urbana-Champaign, 2005; M.Arch. History, University of Virginia, 2007; Ph.D., Institute of Fine Arts, New York University, 2015

Gregory J. Wawro  
*Professor of Political Science*  
B.A., Pennsylvania State, 1990; Ph.D., Cornell University, 1997

Elke U. Weber  
*Jerome A. Chazen Professor of International Business and Professor of Psychology*  
B.A., York University (Canada), 1980; Ph.D., Harvard University, 1984

Hannah Weaver  
*Associate Research Scholar in the Department of English and Comparative Literature*  
B.A., Boston University, 2009; M.A., University of Toronto (Canada), 2014; A.M., Harvard University, 2015; Ph.D., 2019

Lance D. Weiler  
*Associate Professor of Professional Practice in Film in the Faculty of Arts*  

Erick J. Weinberg  
*Professor of Physics*  
B.S., Manhattan College, 1968; A.M., Harvard University, 1969; Ph.D., 1973

David E. Weinstein  
*Carl Sumner Shoup Professor of Japanese Economics*  
B.A., Yale University, 1985; M.A., University of Michigan, 1988; Ph.D., 1991

Michael I. Weinstein  
*Professor of Applied Mathematics and of Mathematics*  
Ph.D., New York University, 1982

Omri Weinstein  
*Assistant Professor of Computer Science*  
B.Sc., Tel Aviv University, 2010; Ph.D., Princeton University, 2015

Renata Maria Wentzcovitch  
*Professor of Material Science and Applied Physics, and Earth and Environmental Science*  
B.S., University of São Paulo, 1980; M.S., 1982; Ph.D., University of California, Berkeley, 1988

Jennifer Ann Wenzel  
*Professor of English and Comparative Literature and of Middle Eastern, South Asian, and African Studies*  
B.A., University of Texas at Austin, 1990; M.A., Indiana University, 1992; Ph.D., University of Texas, Austin, 1998

Bruce Western  
*Bryce Professor of Sociology and Social Justice*  
B.A., University of Queensland (Australia), 1987; M.A., University of California, Los Angeles, 1990; Ph.D., 1993

Harrison C. White  
*Giddings Professor Emeritus of Sociology*  
B.Sc., Massachusetts Institute of Technology, 1950; Ph.D., 1955; Ph.D., Princeton University, 1960

Joshua D. Whitford  
*Associate Professor of Sociology*  
B.A., University of Wisconsin-Madison, 1993; M.S., 1997; Ph.D., 2003

Sebastian Will  
*Assistant Professor of Physics*  
Diplom., Johannes Gutenberg University Mainz 2006; Ph.D., 2011

Gareth D. Williams  
*Anthon Professor of Latin Language and Literature*  
B.A., University of Cambridge, 1986; Ph.D., 1990

Jack J. Willis  
*Assistant Professor of Economics*  
B.A., University of Cambridge, 2006; M.A., Paris School of Economics, Université Paris I, 2009; Ph.D., Harvard University, 2017

Mabel O. Wilson  
*Nancy and George Rupp Professor of Architecture, Planning and Preservation; Professor of African American and African Diaspora Studies*  
B.S., University of Virginia, 1985; M.Arch, Columbia University, 1991; Ph.D., New York University, 2007

Andreas Wimmer  
*Lieber Professor of Political Philosophy*  
M.A., University of Zurich, 1989; D.Phil., 1992

Jason M. Wingard  
*Professor of Professional Studies*  
B.A., Stanford University, 1995; M.A., Emory University, 1996; Ed.M., Harvard University, 1997; Ph.D., University of Pennsylvania, 2000

Michael Witgen  
*Professor of History*  
B.A., Texas Christian University, 1988; M.A., University of Washington, 1998; Ph.D., 2004

Peter G. Woit  
*Senior Lecturer in Mathematics*
A.B., M.A., Harvard University, 1979; Ph.D., Princeton University, 1985

Michael Woodford
*John Bates Clark Professor of Political Economy*
A.B., University of Chicago, 1977; J.D., Yale University, 1980; Ph.D., Massachusetts Institute of Technology, 1983

Sarah Woolley
*Professor of Psychology*
B.A., University of Colorado, 1991; Ph.D., University of Washington, 1999

Henryk Wozniakowski
*Professor Emeritus of Computer Science*
M.S., University of Warsaw, 1969; Ph.D., 1972

Chen Wu
*Senior Lecturer in East Asian Languages and Cultures*
B.A., Fudan University (China), 2006; M.A., 2009; M.A., University of Wisconsin-Madison, 2011; Ph.D., 2016

Eugene Wu
*Assistant Professor of Computer Science*
Ph.D., Massachusetts Institute of Technology, 2014

X

Jia Xu
*Lecturer in East Asian Languages and Cultures*
B.A., Beijing Language and Culture University, 2005; M.Ed., 2009

Y

Lili Yamasaki
*Senior Lecturer in the Discipline of Biological Sciences*
B.S., University of Michigan, 1982; Ph.D., University of Texas at San Antonio, 1991

Ling Yan
*Senior Lecturer in East Asian Languages and Cultures*
B.A., Northwest University, 1986; M.A., Northwestern Polytechnical University (China), 1996; Ph.D., University of Kansas, 2005

Jian Yang
*Professor of Biological Sciences*
M.S., Academia Sinica (Taiwan), 1985; Ph.D., University of Washington, 1991

Junfeng Yang
*Associate Professor of Computer Science*
B.S., Tsinghua University (China), 2000; M.S., Stanford University, 2002; Ph.D., 2008

Zhaohua Yang
*Sheng Yen Assistant Professor of Chinese Buddhism*
Ph.D., Stanford University, 2013

Mihalis Yannakakis

Percy K. and Vida L.W. Hudson Professor of Computer Science
Dipl., National Technical University of Athens, 1975; M.S., Ph.D., Princeton University, 1979

Keren Yarhi-Milo
*Adlai E. Stevenson Professor of International Relations*
B.A., Columbia University, 2003; Ph.D., University of Pennsylvania, 2010

Tuncel M. Yegulalp
*Professor Emeritus of Mining in the Department of Earth and Environmental Engineering*

David M. Yerkes
*Professor of English and Comparative Literature*

Hyunkyu Yi
*Lecturer in East Asian Languages and Cultures*
B.A., Yonsei University (Korea), 1982; M.A., 1987

Zhiliang Ying
*Professor of Statistics*
B.S., Fudan University (China), 1982; M.A., Columbia University, 1984; Ph.D., 1987

Gabriel J. Young
*Lecturer in Statistics*
B.S., Metropolitan State University of Denver, 2009; M.S., Colorado State University, 2012; Ph.D., 2016

Chun-Fang Yu
*Sheng Yen Professor Emerita of Chinese Buddhism and Professor Emerita of East Asian Languages and Cultures*
Ph.D., Columbia University, 1973

Ming Yuan
*Professor of Statistics*
B.S., University of Science and Technology of China, 1997; M.S., 2000; M.S., University of Wisconsin-Madison, 2003; Ph.D., 2004

Yi Yuan
*Lecturer in the Discipline of East Asian Languages and Cultures*

Rafael Yuste
*Professor of Biological Sciences and of Neuroscience*
M.D., Autónoma de Madrid, 1987; Ph.D., Rockefeller University, 1992

Z

William A. Zajc
*I.I. Rabi Professor of Physics*
B.S., California Institute of Technology, 1975; Ph.D., University of California, Berkeley, 1982

Konstantina Zanou
Assistant Professor of Italian
B.A., National School of Dramatic Art, Greece, 1997; B.A., National and Kapodistrian University of Athens, 2000; M.A., Birkbeck College, University of London, 2002; Ph.D., University of Pisa (Italy), 2007; European Doctorate, École Normale Superieure (France), 2008

Elleni Zeleke
Assistant Professor of Middle Eastern, South Asian, and African Studies
Ph.D., York University (Canada), 2016

Tanya Zelevinsky
Professor of Physics
S.B., Massachusetts Institute of Technology, 1999; A.M., Harvard University, 2001; Ph.D., 2004

Madeleine H. Zelin
Dean Lung Professor of Chinese Studies
B.A., Cornell University, 1970; Ph.D., University of California, Berkeley, 1979

James E.G. Zetzel
Anthon Professor Emeritus of the Latin Language and Literature
A.B., Harvard University, 1968; A.M., 1970; Ph.D., 1973

Changxi Zheng
Assistant Professor of Computer Science
M.S., Cornell University, 2010; Ph.D., 2012

Tian Zheng
Professor of Statistics
B.Sc., Tsinghua University (China), 1998; M.A., Columbia University, 2000; Ph.D., 2002

Xiaoyang Zhu
Howard Family Professor of Nanoscience in the Department of Chemistry
B.S., Fudan University (China), 1984; Ph.D., University of Texas at Austin, 1989

Alan Ziegler
Professor of Professional Practice
B.A., Union College, 1970; M.A., City College of New York - CUNY, 1974

Eliza Zingesser
Associate Professor of French
B.A., Smith College, 2005; M.A., Princeton University, 2008; Ph.D., 2012

OFFICERS OF COLUMBIA COLLEGE
2022-2023
Josef Sorett
Dean of Columbia College and Vice President for Undergraduate Education
B.S., Oral Roberts University, 1996; M.Div., Boston University, 2000; Ph.D., Harvard University, 2008

Corey S. Aronstam
Senior Associate Dean for Columbia College Development and Deputy Vice President for Development, Columbia College and Arts and Sciences

Susan Chang-Kim
Vice Dean and Chief Administrative Officer of Columbia College
B.A., University of Maryland, 1993; M.A., Teachers College, Columbia University, 2005

**Lisa Hollibaugh**
*Dean of Academic Affairs*
B.A., Rice University, 1990; M.A., Columbia University, 1996; Ph.D., 2005

**Jessica Marinaccio**
*Dean of Undergraduate Admissions and Financial Aid*
A.B., Harvard University, 1991; M.Ed., 1994

**Shannon P. Marquez**
*Dean of Undergraduate Global Engagement*
B.S., Prairie View A&M University, 1992; M.Eng., Texas A&M University, 1993; Ph.D., University of North Carolina at Chapel Hill, 1998

**James T. McMenamin, Jr.**
*Senior Associate Dean for Columbia College Development and Senior Director of Principal Gifts, Office of Alumni and Development*
B.A., Johns Hopkins University, 1971

**Andrew Plaa**
*Dean of Advising, James H. and Christine Turk Berick Center for Student Advising*
B.A., McGill University (Canada), 1983; M.A., Columbia University, 1986; M.Phil., 1987; Ph.D., 1994

**Cristen Scully Kromm**
*Dean of Undergraduate Student Life*
B.A., Wheaton College, 1995; M.S.W., New York University, 1998

**Kavita Sharma**
*Dean of Career Education*
B.Sc., University of Southampton, 1989; M.Sc., London School of Economics, 1991; M.A., Teachers College, Columbia University, 2012

**Melinda Aquino**
*Associate Dean of Multicultural Affairs, Undergraduate Student Life*

**Chanda Bennett**
*Advising Dean, James H. and Christine Turk Berick Center for Student Advising*
B.S., Cornell University, 1996; M.A., Columbia University, 2001; M.Phil., 2004; Ph.D., 2007

**Veronica Bjorkman**
*Director of Family Outreach and Support*
B.A., University of Alaska Fairbanks, 2012; M.A., Eastern Kentucky University, 2015

**Jillian Burdziak**
*Advising Dean, James H. and Christine Turk Berick Center for Student Advising*
B.A., Boston College, 2010; M.A., Teachers College, Columbia University, 2013

**Marcela D. Calidonio**
*Advising Dean, James H. and Christine Turk Berick Center for Student Advising*
B.A., Columbia University, 2006

**Scott W. Carpenter**
*Associate Dean, The Center for Undergraduate Global Engagement*
B.A., Dickinson College, 1995; M.A., New York University, 1996; M.Phil., 1999

**Angie Carrillo**
*Associate Dean, James H. and Christine Turk Berick Center for Student Advising*

**Cindy Cogdill**
*Advising Dean, James H. and Christine Turk Berick Center for Student Advising*
B.A., University at Albany, SUNY, 1997; M.S., 2000

**Daveena Colwell**
*Advising Dean, James H. and Christine Turk Berick Center for Student Advising*
B.A., Rutgers University, 2009; Ed.M., 2013

**Manoushka Constant**
*Senior Advising Dean, James H. and Christine Turk Berick Center for Student Advising*
B.A., St. John's University, 2000; M.S., 2003

**Niki Cunningham**
*Senior Advising Dean, James H. and Christine Turk Berick Center for Student Advising*
B.A., Brown University, 1990; M.A., University of Wisconsin, 1994; M.P.H., Columbia University, 2017

**Amanda Daugherty**
*Advising Dean, James H. and Christine Turk Berick Center for Student Advising*
B.S., Indiana State University, 2006; M.P.H. Indiana University Bloomington, 2008

**Maria Dimitropoulos**
*Advising Dean, James H. and Christine Turk Berick Center for Student Advising*
B.A., Macaulay Honors College at Hunter College - CUNY, 2013; M.A., Columbia University, 2015; M.Phil., 2018

Jessica Dzaman
Advising Dean, James H. and Christine Turk Berick Center for Student Advising
B.A., Brown University, 2006; M.A., Columbia University, 2008; Ph.D., 2015

Darius V. Echeverría
Advising Dean, James H. and Christine Turk Berick Center for Student Advising
B.A., Rutgers University, 1999; M.A., Temple University, 2003; Ph.D., 2006

A. Alexander España
Associate Dean, James H. and Christine Turk Berick Center for Student Advising
B.S., Southwestern Adventist University, 1994; M.A., Andrews University, 1997

Aileen Forbes
Senior Advising Dean, James H. and Christine Turk Berick Center for Student Advising
B.A., Columbia University, 1993; M.A., Princeton University, 1999; Ph.D., 2004

Joshua Gaynor
Advising Dean, James H. and Christine Turk Berick Center for Student Advising
B.A., Marist College, 1996; M.A., New York University, 1999

Chad Gifford
Assistant Dean, James H. and Christine Turk Berick Center for Student Advising

Aaron Gomes
Executive Director of Student Engagement, Undergraduate Student Life

Michael Hall
Executive Director of Financial Aid

Tara Hanna
Executive Director of Residential Life, and Associate Dean of Undergraduate Student Life

Dawn Hemphill
Advising Dean, James H. and Christine Turk Berick Center for Student Advising
B.A., Hiram College, 1995; M.Ed., Kent State University, 1999

Kay Hershberger
Advising Dean, James H. and Christine Turk Berick Center for Student Advising
B.A., Goshen College, 1988; M.S., Indiana University, 1994

Larry Jackson
Associate Dean of Academic Affairs, Core Curriculum and Undergraduate Programs

Susan Jordan
Advising Dean, James H. and Christine Turk Berick Center for Student Advising
B.A., Hobart and William Smith Colleges, 2006; M.A., Teachers College, Columbia University, 2019

Fay Ju
Associate Dean, The Center for Undergraduate Global Engagement
B.S., Bucknell University, 1989; M.A., Teachers College, Columbia University, 2001

Stephanie King
Assistant Dean, Student Wellness
B.A., Cornell University, 2007; M.S.W., University of Pennsylvania, 2009

Ariella Lang
Associate Dean of Academic Affairs, Director of Undergraduate Research and Fellowships
B.A., University of Chicago, 1995; M.A., Columbia University, 1996; Ph.D., 2003

Lavinia Lorch
Senior Assistant Dean, James H. and Christine Turk Berick Center for Student Advising

Victoria Malaney Brown
Director of Academic Integrity
B.A., Skidmore College, 2010; M.Ed., University of Massachusetts, 2015; Ph.D., 2020

A. Nicole Mihnovets
Advising Dean, James H. and Christine Turk Berick Center for Student Advising

Niamh O'Brien
Senior Associate Dean of Alumni and Undergraduate Career Development, Center for Career Education
B.A., Trinity College Dublin, 1990; M.S., New York University, 2003; M.A., Teachers College, Columbia University, 2021

Sarah Oldham
Advising Dean, James H. and Christine Turk Berick Center for Student Advising
B.A., Elon University, 2012; M.A., Teachers College, Columbia University, 2016; M.Ed., 2022

Matthew Patashnick
Associate Dean of Student and Family Support

Dana Pavarini
Executive Director of Undergraduate Admissions
B.A., Columbia University, 2008; M.A., 2012

Megan Rigney
Associate Dean, James H. and Christine Turk Berick Center for Student Advising
B.A., Miami University, Ohio, 1993; M.A., New York University, 1996

Nancy Rubino
Associate Dean of Experiential Education, Center for Career Education

Justin Snider
Assistant Dean, James H. and Christine Turk Berick Center for Student Advising

Danielle Wong
Senior Advising Dean, James H. and Christine Turk Berick Center for Student Advising
B.A., Stony Brook University-SUNY, 1996; M.A., Teachers College, Columbia University, 1999; M.Ed., 1999

Nancy Workman
Advising Dean, James H. and Christine Turk Berick Center for Student Advising
A.B., Occidental College, 1984; Ph.D., Columbia University, 1998

Jodi Zaffino
Assistant Dean of Academic Affairs, Fellowship Programs
B.A., Willamette University, 2005; M.A., University of York (UK), 2007; Ph.D., University College Dublin, 2015

FEES, EXPENSES, AND FINANCIAL AID

ESTIMATED EXPENSES FOR THE ACADEMIC YEAR

An itemized estimate of the cost of attending Columbia College for the 2022–2023 academic year of nine months is as follows:

<table>
<thead>
<tr>
<th>Item</th>
<th>Cost</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tuition</td>
<td>$62,570</td>
</tr>
<tr>
<td>Mandatory Fees</td>
<td>$2,954</td>
</tr>
<tr>
<td>Average Room and Board Cost</td>
<td>$16,156</td>
</tr>
<tr>
<td>Books and Personal Expenses</td>
<td>$3,672</td>
</tr>
<tr>
<td>Travel</td>
<td>varies</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>$85,352 + Travel</strong></td>
</tr>
</tbody>
</table>

There is an additional charge of $510 for new students who are required to attend Orientation.

Information on planning and managing educational expenses is contained at [https://sfs.columbia.edu/](https://sfs.columbia.edu/)

FEES

The following fees, prescribed by statute for each Fall or Spring term, are subject to change at any time at the discretion of the Trustees. The fees shown are those in effect during the 2022–2023 academic year.

University charges, such as tuition and fees, residence halls, and dining plans, are due and payable in full by the date announced before the beginning of each term. To check on an account balance, log in to Student Services Online (SSOL) or call 212-854-4400. A late payment penalty is assessed on payments received after the due date.

It is the policy of the University to withhold all University services, including registration, diplomas, and official transcripts, until all financial obligations have been met.

**Tuition 2022–2023**

There is a flat tuition charge for all Columbia College students, including visitors, regardless of the number of credits a student is taking. Students who are enrolled for eight terms must pay the flat tuition, regardless of the number of credits they are taking. The charge for 2022–2023 is $31,285 a term.

Postgraduate special students and degree candidates enrolled for a ninth term are billed according to the per-point system; the per-point cost is $2,092.

Late Registration Fee

Students who register after the scheduled period (see Academic Calendar) are charged a late registration fee of $100.

Mandatory Fees*

<table>
<thead>
<tr>
<th>Item</th>
<th>Cost</th>
</tr>
</thead>
<tbody>
<tr>
<td>Student Life Fee*</td>
<td>$1,646</td>
</tr>
<tr>
<td>Columbia Health and Related Services Fee</td>
<td>$1,308</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>$2,954</strong></td>
</tr>
</tbody>
</table>

*Students registered in Columbia College (Fall Term): $823; Students registered in Columbia College (Spring Term): $823

**Document Fee**

All first-time registrants at Columbia University are charged a one-time document fee of $105, which thereafter allows them to order transcripts and enrollment and degree certifications, and to receive the mailing of the original diploma at no additional charge. This fee appears on the first Student Account Statement of the Fall term.

**International Services Charge**

All students holding a non-resident visa are charged an international services charge of $135 each term, totaling $270 for academic year 2022-2023. This fee supports the University's services to international students.

**Columbia Health and Related Services Fee and Student Health Insurance Premiums**

**Columbia Health and Related Services Fee**

Columbia Health programs and services are supported by the Columbia Health and Related Services Fee. Students can access the on-campus services provided by the units of Columbia Health and pay no additional charges for most on-campus services:

- Alice! Health Promotion, including the Gay Health Advocacy Project (GHAP)
- Counseling and Psychological Services
- Disability Services
- Medical Services
- Sexual Violence Response

All full-time students, international students, and part-time students who are on the Columbia Student Health Insurance Plan are required to pay the Columbia Health and Related Services Fee. Half-time or part-time students pay a reduced fee and have access to some, but not all, of the services. Half or part-time students may elect to upgrade to the full-time fee to have access to the full range of on-campus programs and
services. For details on the fee levels please visit the Columbia Health website.

The Columbia Heath and Related Services Fee is billed separately for each term. The periods of coverage and fees for 2021–2022 are as follows:

<table>
<thead>
<tr>
<th>Term</th>
<th>Period</th>
<th>Fee</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall Term</td>
<td>August 15, 2022–December 31, 2022</td>
<td>$654</td>
</tr>
<tr>
<td>Spring Term</td>
<td>January 1, 2023–August 14, 2023</td>
<td>$654</td>
</tr>
</tbody>
</table>

**Student Health Insurance Premiums**

To ensure students have access to high-quality healthcare while at Columbia, University policy requires all full-time students and all international students to have health insurance coverage that meets University requirements, in addition to the on-campus programs and services provided by Columbia Health. Columbia University offers the Columbia Student Health Insurance Plan (Columbia Plan), administered and underwritten by Aetna Student Health. Please visit the Columbia Health Insurance page for plan benefits and cost.

**International students**

Navigating the U.S. healthcare system can be complex. To help ensure that international students have access to the highest quality of care on- and off-campus, Columbia University requires all international students to enroll in the Columbia Student Health Insurance Plan. On a limited case-by-case basis, international students may qualify for an exception.

**Waivers and exceptions**

Domestic students who have an alternate insurance plan that meets established criteria set by the University may submit a request for a waiver. On a limited, case-by-case basis, some international students may submit a request for an exception. Visit the Columbia Health website for more information about waiver and exception criteria.

Waiver and exception requests are due at least two weeks before the enrollment deadline (September 30 for Fall enrollment; February 15 for new Spring enrollment; or June 15 for new Summer enrollment). All requests are considered, but approval is not guaranteed. Students who do not submit a request for a waiver or exception in a timely manner will be charged the insurance premium on their term bill and are responsible for these charges.

Students must confirm their enrollment on SSOL or submit a request for a waiver (domestic students) or exception (international students) on the Columbia Health Patient Portal every year. Students will receive reminders through their Columbia email.

Please contact the Student Health Insurance Team with any questions. They can be reached via studentinsurance@columbia.edu, or by visiting the office on the 3rd Floor of John Jay Hall.

**Withdrawal and Adjustment of Fees**

Withdrawal is defined as the dropping of one’s entire program in a given term as opposed to dropping a portion of one’s program (see Academic Regulations). Any student withdrawing from the College must notify the Center for Student Advising in writing: notification to instructors or failure to attend classes does not constitute an official withdrawal from the College and will result in failing grades in all courses.

A student who withdraws is charged a withdrawal fee of $75. In addition, students will be charged a housing fee once they leave a university residence. All application fees, late fees, and other special fees are not refundable if the student withdraws after the first 30 days of classes, and any coverage remains in effect until the end of the term. Students who withdraw or are dismissed from the University and are on the Columbia Student Health Insurance Plan will be terminated from the insurance plan and receive a pro-rated refund of any remaining premium as a credit to their student account. As with other University fees, the Columbia Health and Related Services Fee is non-refundable and not pro-rated.

**Medical Leave**

Students who are on an approved medical leave of absence are eligible to remain on the Columbia Student Health Insurance Plan for a cumulative maximum of two semesters during the course of the student’s entire enrollment within a particular school at Columbia, regardless of the length of program.

Medical leaves must be approved by the student’s academic unit and reflected in the Student Information System. Upon written notification from the academic unit granting medical leave, the Student Health Insurance Office will contact the student via their Columbia email address to determine whether the student wishes to remain enrolled in the Columbia Student Health Insurance Plan.

Students who do not reply within 14 days will be automatically terminated from the plan, effective at the end of the month in which the Student Health Insurance Office is notified or at the conclusion of the semester, whichever comes first.

Any adjustment to the tuition that the student has paid is determined by the date of withdrawal. Students receiving financial aid are not entitled to any portion of a refund until all Title IV financial aid programs are credited and all outstanding charges have been paid.

Each term, students are required to register for a full program of courses (minimum of 12 points), by the end of the Change of Program period, i.e., by the end of the second week of classes. Students who are not registered for at least 12 points by the end of the Change of Program period will be withdrawn from Columbia College.
Fall and Spring Term Tuition Refund Schedule
For the purposes of tuition proration, a week is defined as beginning on Monday and ending on Sunday. Also note that the official Change of Program period normally ends on a Friday.

International students who did not apply for financial aid in their first year are not eligible to apply for financial aid in any subsequent years. Foreign transfer candidates applying for aid must understand that such aid is awarded on an extremely limited basis. Columbia does not give any scholarships for academic, athletic, or artistic merit.

The following listing of named scholarship funds have been generously donated by alumni, parents, and friends of Columbia College and are the cornerstone of the College’s need-based and full need financial aid program. More than fifty percent of Columbia College students receive a Columbia Grant toward their demonstrated need and are eligible to receive named scholarship. The commitment of the Columbia College community enables the College to maintain an economically, ethnically, and racially diverse student body.

For more information on how to support the named scholarship program at Columbia College, please contact:

^ Deceased; P: Parent; W: Widow
ACADEMIC REQUIREMENTS

In order to graduate from Columbia College with a Bachelor of Arts (B.A.) degree, all students must successfully complete a minimum of 124 points of academic credit, which must include the full Core Curriculum, requirements for one major or concentration, and courses taken for elective credit. Students must also complete all coursework with an overall GPA of 2.0 or higher.

Students are expected to complete the B.A. degree in eight full-time semesters. The last two semesters must be taken while enrolled in the College for study on this campus or on one of the Columbia-sponsored international programs.

ACADEMIC CREDIT

A point of academic credit is awarded to a student based on the successful completion of a certain number of contact hours with an instructor and a certain number of hours of coursework outside of class. Generally speaking, one point of academic credit denotes 14 hours of in-class work and 28 hours of out-of-class work. Most undergraduate courses carry 3 to 5 points of academic credit.

Every Columbia College student must complete 124 points of academic credit to earn the B.A. degree from Columbia College. To complete this number of credits over 8 semesters, students will need to complete an average of 15.5 credits per semester, which typically represents 4 to 5 academic courses per term (of courses that are worth 3 to 5 points of credit each). According to the expectations of workload per credit hour noted above, a 15.5-credit academic course load will require a minimum of 46.5 hours of work per week, spent attending class and doing homework.

All courses listed in this Bulletin are open to Columbia College students and carry credit that can be earned toward the B.A. degree. If students are interested in courses that are not listed in this Bulletin, it is important that they consult their advising dean in the Berick Center for Student Advising to confirm that the course will carry credit toward the B.A. degree.

Students may not earn credit for a course more than once, and may not earn credit multiple times for course content that is essentially duplicative:

• If students have been granted academic credit through advanced standing credit (AP, IB, GCE, etc.), they may not take the equivalent course(s) at Columbia for credit. If students take the equivalent course(s) at Columbia, they will need to forfeit the transfer credit previously granted. For more information, see Academic Regulations—Placement and Advanced Standing.

• If students have been granted academic credit through transfer credit for coursework at another college or university, they may not take the equivalent course(s) at Columbia for credit. If students take the equivalent course(s) at Columbia, they will need to forfeit the transfer credit previously granted.

• For example, credit cannot be earned for two first-term calculus courses, even if one is more theoretical in approach than the other. Similarly, credit cannot be earned for two comparable terms of a science or foreign language even if one has a Barnard course number and the other a Columbia course number.

• In some courses, only partial credit may be counted toward the degree.

• In rare instances in which a student has earned a passing grade and credit for a course and yet feels it necessary to repeat the course, both attempts will be reflected on the student’s transcript, but only the final grade for the first attempt will be awarded credit and factored into the overall GPA. If the first attempt resulted in a failing grade, the student may take the class again and earn credit for the second attempt with a passing grade.

THE CORE CURRICULUM

The Core Curriculum (p. 90) represents the College’s approach to general education requirements:

• Six shared courses, in which all students study the same content and learn foundational academic habits of mind and habits of work;

• Several disciplinary courses, chosen by students from lists of approved courses, in which students learn specific content that conveys ways of knowing and understanding; and

• The Physical Education requirement.

Science Requirement
Two courses from the list of approved courses that meet the guidelines of the Science Requirement

Global Core Requirement
Two courses from the list of approved courses that have met the guidelines of the Global Core Requirement

Foreign Language Requirement
The successful completion of the "Intermediate II" (or equivalent) level in a single language or the exemption through approved exam scores

Physical Education
Two courses and a swimming test

All of the courses in the full Core Curriculum must be taken for a letter grade (i.e., the Pass/D/Fail option may not be applied), with the exception of courses for the Physical Education requirement, which are offered only on a pass/fail basis.

Students are required to complete Frontiers of Science, both semesters of Literature Humanities, and University Writing in the first year, and to complete Contemporary Civilization in the sophomore year. Students are also expected to complete Art Humanities and Music Humanities by the end of the junior year. For pedagogical reasons, the College considers Literature Humanities a prerequisite for Contemporary Civilization; therefore, all Columbia College students must complete Literature Humanities prior to taking Contemporary Civilization. (Columbia Engineering students have been given an exception to this rule because of the structure of their curriculum.)

Students who do not complete the first-year requirements (Frontiers of Science, Literature Humanities, and University Writing) by the end of the first year, or the sophomore requirement (Contemporary Civilization) by the end of the second year, will be placed on academic probation.

Courses taken to fulfill the Core Curriculum must be taken in Columbia College, with the exception of the Foreign Language Requirement, which, in some instances and as determined by the relevant academic department at Columbia, may be satisfied at Barnard College. In general, students must fulfill the Global Core and Science Requirements with courses already on the lists of approved courses and may not petition for other courses taught at Columbia or Barnard to fulfill either requirement. Students may be able to petition the Committee on the Global Core for courses taken at an approved study abroad program to count toward the Global Core Requirement, and/or to petition the Committee on Science Instruction for courses taken at an approved study abroad program to count toward the Science Requirement, after first meeting with their advising dean in the Berick Center for Student Advising.

The Departmental Concentration or Major
All Columbia College students must complete either a concentration or a major in order to experience sustained and advanced work in a field of special interest, often entailing individual research. A concentration consists of intensive study in one academic program achieved by fulfilling a series of requirements; a major provides even more depth through additional coursework and possibly a senior capstone experience such as a thesis. Individual concentrations and majors are described in the departmental sections of this Bulletin (see Departments, Programs, and Courses).

The choice of a concentration versus a major depends on the particular aims and needs of a student, as well as on the offerings of the particular department in which a student wishes to study. The concentration and the major are not designed to produce professionally trained specialists for one profession or another. In fact, students often pursue careers that are not dependent on the specific content of their concentrations or majors. A Columbia College liberal arts education - through the breadth of the Core Curriculum and the depth of the concentration or major - will provide students with the knowledge and skills that will serve them well throughout their professional and personal lives.

The faculty members in each department/program determine the requirements for a concentration or major, and each department/program has one or more faculty members designated as a director of undergraduate studies (DUS) who provide(s) advising for both prospective and declared concentrators/majors. It is the responsibility of students to ensure that they complete the concentration or major requirements that are in effect as of the time they declare the concentration or major in their sophomore year and that they seek out advising regularly from the relevant director of undergraduate studies.

All courses taken to complete a concentration or major, (whether they are designated as required or elective within the concentration or major) must be taken for a letter grade and must be passed with a grade of C- or higher. Some academic departments permit an exception to this policy, allowing the first one-term course taken by the student in his or her eventual major to be taken for a mark of "Pass." Students should consult the director of undergraduate studies (DUS) for any permissions or restrictions on grading options for the concentration or major.

Students should carefully read the requirements for their proposed concentration or major and direct questions to the relevant director of undergraduate studies. For example:

- Some concentrations and majors require that certain introductory courses be completed before the start of the junior year.
• Some concentrations and majors have different minimum and maximum points allowed for a concentration or a major.
• Concentrations and majors have different policies on whether students can fulfill requirements with a grade of D or a mark of "Pass."

In the first and sophomore years, students should confer with faculty members in the department, advising deans in the Berick Center for Student Advising, and advisers in the Center for Career Education while considering their choice of concentration or major. All students declare a concentration or major in their fourth term (i.e., in the spring semester of the sophomore year); students are not permitted to declare a concentration or major before this time. Information about the process for declaring a concentration or major is sent to students in the spring of the sophomore year by the Berick Center for Student Advising.

Interdisciplinary and Interdepartmental Majors and Concentrations

Interdisciplinary and interdepartmental concentrations and majors combine coursework in two or more areas of study. Interdisciplinary and interdepartmental concentrations and majors are linked to the interdisciplinary programs (see Departments of Instruction).

Independent majors or concentrations (i.e., programs of study designed by a student) are not permitted for Columbia College students.

Special Concentrations

In certain cases, a program of study has been designated a “special concentration.” While a special concentration may require a similar number of courses or points of credit as a departmental concentration does, a “special concentration” does not fulfill a degree requirement. Therefore, a special concentration can only be pursued as a second program of study, in addition to a concentration or major.

Double Concentrations/Majors

Most Columbia College students graduate with a single program of study — i.e., one concentration or major. It is possible to declare a maximum of two programs of study — e.g., two concentrations, two majors, a concentration and a major, a concentration and a special concentration, or a major and a special concentration.

Students must complete their degree requirements within eight semesters (including the terms that transfer students spent at other institutions), and students will not be awarded additional semesters for the purposes of completing an additional concentration or major.

If a student decides to pursue two programs of study, they may not both be owned by the same offering unit (department, institute, or center). For example, a student may not declare programs in Russian Language and Culture and in Slavic Studies, both of which are owned by the Department of Slavic Languages; similarly, a student may not declare programs in Mathematics and in Applied Mathematics, both of which are owned by the Department of Mathematics. All joint majors (e.g., Economics-Political Science) will be considered as owned by both offering units, so that a student may not, for example, major in both Political Science and Economics-Political Science.

If a student chooses to declare two programs of study, the student can, in certain situations, apply a course to both programs (“double-counting”). There are three conditions under which students may apply a course to two programs, and depending on the two programs declared, some or all of these conditions may apply:

1. If two programs both require the same coursework to teach fundamental skills needed for the field, those courses may be applied to both programs. The Committee on Instruction has defined that coursework as the following:
   (1) elementary and intermediate foreign language courses;
   (2) the calculus sequence (I through IV, or Honors A and B);
   (3) introductory courses in Statistics (STAT UN1101 or 1201);
   (4) the introductory course in computer programming (COMS W1004).

   If faculty members feel that other courses should be included in this category, those courses would need to be approved for such purpose by the Committee on Instruction.

2. In addition to double-counting any fundamental courses enumerated above, a student pursuing two programs of study may apply a maximum of two classes to both programs, if applicable. Offering departments, institutes, or centers may choose to restrict the double-counting of particular courses, and such restrictions cannot be appealed.

3. In addition to those courses that can be double-counted as noted above, a maximum of two courses taken to fulfill the Global Core, Science or Foreign Language Requirements can also be counted toward the requirements of a program of study (major, concentration, special concentration), if applicable. Literature Humanities, Contemporary Civilization, Frontiers of Science, Art Humanities, Music Humanities, and University Writing may not be double-counted for any major, concentration or special concentration.

SUPERVISED INDEPENDENT STUDY

Supervised individual work on a special topic is available to qualified students as an alternative or as a supplement to courses and seminars in the field of specialization. Students must develop a plan of study with a faculty adviser and then obtain the approval of the department. Progress reports are submitted as required. From one to six points of credit may be awarded for this work; the exact number of points is to be determined in consultation with the department.
Approval depends on the quality of the proposal, the student’s qualifications, and the availability of an appropriate faculty adviser.

PLANNING AN ACADEMIC PROGRAM

When planning their academic program, students are expected to consult with their advising deans in the Berick Center for Student Advising and with the faculty advisers in the relevant academic departments. Advising deans in the Berick Center for Student Advising advise students on general graduation requirements and monitor students’ progress toward completing the Core Curriculum, Directors of Undergraduate Studies (DUS), and other faculty in academic departments, advise students on the requirements majors, concentrations, and/or special concentrations.

Advising deans in the James H. and Christine Turk Berick Center for Student Advising (CSA), located in 403 Lerner, guide and support undergraduates at Columbia College and Columbia Engineering as they navigate their academic and co-curricular lives at Columbia University. Students are assigned an advising dean in the summer before matriculation. Productive advising is built on a partnership in which the student and the adviser work together: the spirit of an ideal advising partnership is one of mutual engagement, responsiveness, and dedication. Regular advising conversations - the fundamental building blocks of the partnership - enable an adviser to serve as a knowledgeable resource, reliable guide, and a source for referrals, so that students may make the most of all the opportunities available to them inside and outside the classroom during their time at the College. Students can make appointments with their advising deans using the online appointment system.

While students have assigned advising deans, students may make appointments with any of the advisers in the Berick Center for Student Advising. Students who wish to change assigned advising deans are encouraged to make an appointment with Andrew Plaa, Dean of Advising, who can make new adviser assignments.

To ensure successful planning, students should familiarize themselves with the requirements of any academic programs in which they may be interested. In particular, students should note that some concentrations and majors require that certain introductory courses be completed before the start of the junior year. Similarly, study abroad, professional programs, and graduate schools have a range of requirements that must be successfully completed at prescribed times during the undergraduate career.

In particular, students considering a concentration or major in the sciences should focus on required introductory science courses in their first two years, in addition to Core requirements. Students considering a concentration or major in the humanities and social sciences should try to take, in their first two years, a combination of Core requirements and introductory level courses in the department(s) in which they are interested in majoring.

Under no circumstances will students be granted more than 8 semesters to complete an additional concentration or major.

In addition, all students should do the following:

1. become thoroughly familiar with the requirements for the degree and with the College regulations, including deadlines;
2. plan to complete University Writing (ENGL CC1101), Frontiers of Science (SCNC CC1000), Masterpieces of Western Literature and Philosophy I & II (HUMA CC1001-HUMA CC1002) during the first year, as well as Introduction to Contemporary Civilization in the West (COCI CC1101-COCI CC1102) by the end of the sophomore year; and
3. choose a major or concentration in their fourth term (i.e., spring semester of sophomore year).

Students will declare a concentration or major either through an online declaration process or by the submission of a paper declaration form to the Berick Center for Student Advising, 403 Lerner. Some concentrations and majors require departmental review, and students can only declare these concentrations or majors after receiving approval by the department. A concentration or major may be changed at any time as long as the requisite departmental approval is received, the requirements have been or can be fulfilled, and students can still graduate by the end of their eighth semester. If a change of concentration or major is decided upon, a new declaration form must be filed online or in hard copy with the advising dean in the Berick Center for Student Advising.

ADVISING FOR FIRST-YEAR STUDENTS

In the summer, each incoming student receives the Academic Planning Guide for New Students, which is designed to assist incoming students in planning and creating their academic programs. Incoming students should read the Academic Planning Guide for New Students prior to their first advising appointment. Students will receive information by email about opportunities to connect with their advising deans in the summer.

Each first-year student is preregistered for Literature Humanities as well as for Frontiers of Science or University Writing. (First-year students are pre-registered for either Frontiers of Science or University Writing in the Fall term and take the other course in the Spring term.)

All incoming students are expected to meet with their advising deans in the Berick Center for Student Advising during the summer (in person, by phone, or online), during the New Student Orientation Program (NSOP), and/or in the first two
weeks of the term (Change-of-Program period) in order to discuss their fall course selections, their transition to college, and their short- and long-term goals, and to learn about other advising resources and offices available to them at Columbia.

Students are expected to stay in touch regularly with their advising deans in the Berick Center for Student Advising throughout their time at Columbia.

Approval depends on the quality of the proposal, the student’s qualifications, and the availability of an appropriate faculty adviser.

**Requirements for Transfer Students**

Columbia College offers transfer students the opportunity to experience a wide-ranging liberal arts education that includes its Core Curriculum and a broad range of majors and concentrations. In order to graduate from Columbia College with a Bachelor of Arts (B.A.) degree, all transfer students must successfully complete a minimum of 124 points of academic credit, which must include the full Core Curriculum, the requirements for one major or concentration, and courses taken for elective credit. Students must also complete all coursework with an overall GPA of 2.0 or higher.

Transfer students are expected to complete the B.A. degree in six full-time semesters (for students entering Columbia College in the sophomore year) or four full-time semesters (for students entering Columbia College in the junior year). The last two semesters must be taken while enrolled in the College for study on this campus or on one of the Columbia-sponsored international programs.

Class standing for students transferring to Columbia College is determined prior to matriculation and is based on the number of terms and credits completed at the home institution. Twelve credits is the equivalent of one full-time term. A transfer student’s class standing will remain in place for the duration of the student's time in Columbia College, regardless of future credits earned. Once they have matriculated, transfer students may be assigned additional advanced standing like Advanced Placement, International Baccalaureate and other standardized examination credit, but their class status will remain the same. This policy remains in place even when students are eligible to graduate in less than eight terms.

Upon admission to Columbia College, transfer students should familiarize themselves with the regulations pertaining to their special status (see Academic Regulations—Regulations for Transfer Students).
The Center for the Core Curriculum
202 Hamilton
212-854-2453
core-curriculum@columbia.edu

The Core Curriculum is the cornerstone of the Columbia College education. The central intellectual mission of the Core is to provide all students with wide-ranging perspectives on significant ideas and achievements in literature, philosophy, history, music, art, and science.

Contemporary Civilization began in 1919 as a course on war and peace issues, and the creation of Literature Humanities followed in 1937. By 1947, Art Humanities and Music Humanities had been added, and a new course in Asian Humanities was introduced. The Global Core requirement, formerly Major Cultures, joined the Core in 1990, and Frontiers of Science in 2004. Though celebrated for their content, Core Curriculum courses are equally important for their small class format. Taught in seminars of approximately twenty-two students, these courses ensure that education at Columbia begins with an emphasis on active intellectual engagement. The small class sizes provide students with opportunities to develop intellectual relationships with faculty early on in their College career and to participate in a shared process of intellectual inquiry. The pursuit of better questions is every bit as important as the pursuit of better answers. The skills and habits honed by the Core—careful observation, close analysis, effective argument, imaginative comparison, and respect for a variety of ideas—provide a rigorous preparation for life as an engaged citizen in today’s complex and changing world.

Dropping Core Courses.

period drop or withdraw from Humanities All Core Curriculum courses, including students. All first-year students are preregistered in MASTRPIECS II HUMA CC1001 All information concerning registration in Registration Procedure Scriptures and New Testament writings. Ce#saire, Morrison, Rankine, and Kim, as well as Hebrew Austen, Machado de Assis, Dostoevsky, Kafka, Woolf, de France, Dante, Montaigne, Shakespeare, Cervantes, Parks, Plato, Virgil, Apuleius, Augustine, Ibn `Arabi, Marie de France, Dante, Montaigne, Shakespeare, Cervantes, Austen, Machado de Assis, Dostoevsky, Kafka, Woolf, Ce#saire, Morrison, Rankine, and Kim, as well as Hebrew Scriptures and New Testament writings.

The principal objectives of Literature Humanities are to teach students to analyze literary texts and to construct well-reasoned arguments. An interdepartmental staff of professorial and preceptorial faculty meets with groups of approximately twenty-two students for four hours a week in order to discuss texts by Homer, Enheduanna, Sappho, Aeschylus, Suzan-Lori Parks, Plato, Virgil, Apuleius, Augustine, Ibn `Arabi, Marie de France, Dante, Montaigne, Shakespeare, Cervantes, Austen, Machado de Assis, Dostoevsky, Kafka, Woolf, Cézanne, Morrison, Rankine, and Kim, as well as Hebrew Scriptures and New Testament writings.

REGISTRATION PROCEDURE

All information concerning registration in HUMA CC1001-HUMA CC1002 EURPN LIT-PHILOS MASTRPIECS II is included in the registration materials sent to students. All first-year students are preregistered in Literature Humanities.

All Core Curriculum courses, including Literature Humanities, must be taken for a letter grade. Students may not drop or withdraw from Literature Humanities after the Core drop deadline, which is also the end of the Change-of-Program period (p. 4). For more information, see Registration—Dropping Core Courses.

COURSES OF INSTRUCTION

HUMA CC1001 EURPN LIT-PHILOS MASTRPIECS I.

4.00 points.

Taught by members of the Departments of Classics; English and Comparative Literature; French; German; Italian; Middle Eastern, South Asian, and African Studies; Philosophy; Religion; Slavic Languages; and Latin American and Iberian Cultures; as well as members of the Society of Fellows. Major works by over twenty authors, ranging in time, theme, and genre, from Homer to Virginia Woolf. Students are expected to write at least two papers, to complete two examinations each semester, and to participate actively in class discussions.

Contemporary Civilization

Chair for Contemporary Civilization
Prof. Carol Rovane
Violin Family Professor of Philosophy
711 Philosophy
212-854-8618
cr260@columbia.edu

Contemporary Civilization Website

The central purpose of CONTEMP WESTERN CIVILIZATION II, also known as “Contemporary Civilization” or “CC”, is to introduce students to a range of issues concerning the kinds of communities—political, social, moral, and religious—that human beings construct for themselves and the values that inform and define such communities, in order to prepare students to become active and informed citizens. Founded in 1919 as a course on war and peace issues, Contemporary Civilization has evolved continuously while remaining a constant and essential element of the Columbia College curriculum. The course asks students to read closely texts in various traditions of argument and to construct arguments of their own, both in speech and in writing, about some of the explicit and implicit issues that these texts raise.

Both the form and the content of the course contribute to the achievement of its aims. The discussion format is intended to respond in a palpable way to the existence, in these traditions, of different and often conflicting points of view; to embody the possibility of reasoned discourse among people who hold disparate convictions; and to help students sharpen their own
skills of thought and argument about matters of current personal and civic concern through participating in and extending the debates of the past. The Contemporary Civilization syllabus introduces students to a set of ideas and arguments that have played a formative role in the political and cultural history of our time, alerts them to ideas that have not held an influential role in that history, and acquaints them with some exemplars of critical thinking about alternative cultures, institutions, and practices.

Because Contemporary Civilization is a year-long course, readings are necessarily selective. While these readings change from time to time, the factors that lead to adoption of a text always include historical influence, the presentation of ideas of enduring importance, and the demonstrated ability of a text to provoke productive discussion. Among the readings currently required in the course are the Bible, The Qur'an, Plato, Aristotle, Augustine, Machiavelli, Aquinas, Christine de Pizan, Descartes, Hobbes, Locke, Rousseau, Smith, Kant, Wollstonecraft, Tocqueville, Mill, Marx, Darwin, Nietzsche, Ambedkar, Du Bois, Gandhi, Arendt, Fanon, and Foucault.

**REGISTRATION PROCEDURE**

All information concerning registration in COCI CC1101-COCI CC1102 CONTEMP WESTERN CIVILIZATION II is included in the registration materials sent to students. Students normally take Contemporary Civilization in their second year at Columbia.

All Core Curriculum courses, including Contemporary Civilization, must be taken for a letter grade. Students may not drop or withdraw from Contemporary Civilization after the Core drop deadline (which is also the end of the Change-of-Program period (p. 4)). For more information, see Registration—Dropping Core Courses.

**COURSES OF INSTRUCTION**

**COCI CC1101 CONTEMP WESTERN CIVILIZATION I. 4.00 points.**

Taught by members of the Departments of Anthropology, Classics, English and Comparative Literature, French, German, History, Latin American and Iberian Cultures, Middle Eastern, South Asian, and African Studies, Philosophy, Political Science, Religion, Slavic Languages, and Sociology; and members of the Society of Fellows. A study in their historical context of major contributions to the intellectual traditions that underpin contemporary civilization. Emphasis is on the history of political, social, and philosophical thought. Students are expected to write at least three papers to complete two examinations, and to participate actively in class discussions.

**Fall 2022: COCI CC1101**

COCI CC1102 CONTEMP WESTERN CIVILIZATION II.

4.00 points.

Taught by members of the departments of anthropology, classics, English and comparative literature, French, German, history, middle east and asian languages and cultures, philosophy, political science, religion, Slavic languages, and sociology; and members of the society of fellows. A study in their historical context of major contributions to the intellectual traditions that underpin contemporary civilization. Emphasis is on the history of political, social, and philosophical thought. Students are expected to write at least three papers to complete two examinations, and to participate actively in class discussions.

Art Humanities Website
HUMA UN1121 MASTERPIECES OF WESTERN ART, or “Art Humanities”, has been a degree requirement for all College students and an integral part of the Core Curriculum
since 1947. It teaches students how to look at, think about, and engage in critical discussion of the visual arts. It is not a historical survey, but an analytical study of a limited number of monuments and artists. The course focuses on the formal structure of works of architecture, sculpture, painting, and other media, as well as the historical contexts in which these works were made and understood. Among the topics on the syllabus are the Parthenon, Amiens Cathedral, and works by Raphael, Sophonisba, Michelangelo, Bernini, Luisa Roldán, Rembrandt, Clara Peeters, David, Angelika Kauffman, Goya, Monet, Manet, Cassatt, Morisot, Picasso, Bearden, Wright, Le Corbusier, Warhol, Basquiat, and Cindy Sherman. In addition to discussion-based class meetings, all sections of Art Humanities make extensive use of the vast resources of New York City through field trips to museums, buildings, and monuments.

REGISTRATION PROCEDURE

All information concerning registration in HUMA UN1121 MASTERPIECES OF WESTERN ART is included in the registration materials sent to students. It is the expectation of the College that all students complete Art Humanities by the end of their third year.

All Core Curriculum courses, including Art Humanities, must be taken for a letter grade. Students may not drop or withdraw from Art Humanities after the Core drop deadline (which is also the end of the Change-of-Program period (p. 4)). For more information, see Registration—Dropping Core Courses.

COURSES OF INSTRUCTION

HUMA UN1121 MASTERPIECES OF WESTERN ART.

3.00 points.

Discussion and analysis of the artistic qualities and significance of selected works of painting, sculpture, and architecture from the Parthenon in Athens to works of the 20th century

The focus of Music Humanities is on the many forms of the Western musical imagination in art music, through works studied in their historical and cultural contexts. The specific goals of the course are to awaken and encourage active, critical, and comparative listening practices, to provide tools to respond verbally to a variety of musical idioms, and to create engagement with the debates about the character and purposes of music that have occupied composers and musical thinkers since ancient times. The extraordinary richness of musical life in New York is an integral part of the course.

The course moves chronologically from the Middle Ages to the present, examining the choices and assumptions of composers, their patrons, audiences, and performers, and exploring what we can and can’t know about how music of the past may have sounded. Students’ critical perceptions and articulate responses to the music, and to the source readings that are a hallmark of the Core, will be a vital part of the class.

REGISTRATION PROCEDURE
All information concerning registration in HUMA UN1123 MASTERPIECES OF WESTERN MUSIC is included in the registration materials sent to students. It is the expectation of the College that all students complete Music Humanities by the end of their third year.

All Core Curriculum courses, including Music Humanities, must be taken for a letter grade. Students may not drop or withdraw from Music Humanities after the Core drop deadline (which is also the end of the Change-of-Program period (p. 4)). For more information, see Registration—Dropping Core Courses.

Columbia College Bulletin (with course listings) 2022-2023 03/29/23
Exemption from Music Humanities

Although all Columbia students are expected to take Music Humanities, there are some students who enter with exceptional musical backgrounds that may qualify them for exemption. Exemption from Music Humanities may be obtained by passing an Exemption Exam. In the case of transfer students, exemption may also be obtained by filing a course substitution request.

Exemption Exam

The Exemption Exam is offered on the first Friday of the fall semester by the Music Department (621 Dodge Hall). Students who matriculate in the spring semester should take the exam in the following fall term. Students may take the exam only once during their first year at Columbia. If they do not pass the exam, they must enroll in a section of Music Humanities.

Course Substitution

In addition to the Exemption Exam, students with approved transfer credit have the option of requesting exemption on the basis of a similar music course passed with a grade of B or higher at another college or university. This exemption must be requested during the student’s first semester at Columbia. Petitions submitted in subsequent semesters will not be considered by the Center for the Core Curriculum.

Frontiers of Science Website

SCNC CC1000 FRONTIERS OF SCIENCE and SCNC CC1100 FRONTIERS OF SCIENCE-DISC is a one-semester course that integrates modern science into the Core Curriculum. The course includes lectures and seminar sections. On Mondays throughout the semester, each of Columbia’s leading scientists present a mini-series of lectures. During the rest of the week, senior faculty and Columbia post-doctoral science fellows (research scientists selected for their teaching abilities) lead seminar sections limited to twenty-two students to discuss the lecture and its associated readings, and to debate the implications of the most recent scientific discoveries. Frontiers of Science satisfies one of the three required courses of the science requirement for Columbia College.

Registration Procedure

All information concerning registration in SCNC CC1000 FRONTIERS OF SCIENCE is included in the registration materials sent to students. All first-year students are preregistered in Frontiers of Science. Prospective science majors may petition the Committee on Science Instruction to be allowed to postpone taking Frontiers of Science until their sophomore year, if they are enrolled in the following courses during their first-year in the College:

1. Literature Humanities (HUMA CC1001);
2. A mathematics course;
3. A language course at the elementary II level or above;
4. One of the following science major sequences:
   - CHEM UN2045 INTENSIVE ORGANIC CHEMISTRY
   - CHEM UN2046 INTENSIVE ORG CHEM- FOR 1ST YEAR (formerly CHEM W3045-CHEM W3046)
   - PHYS UN1601 PHYSICS I:MECHANICS/ RELATIVITY
   - PHYS UN1602 and PHYSICS II: THERMO, ELEC # MAG
   - PHYS UN2801 ACCELERATED PHYSICS I
   - PHYS UN2802 and ACCELERATED PHYSICS II

Students wishing to petition to postpone should do so in the Berick Center for Student Advising located in 403 Lerner.

All Core Curriculum courses, including Frontiers of Science, must be taken for a letter grade. Students may not drop or withdraw from Frontiers of Science after the Core drop deadline (which is also the end of the Change-of-Program period (p. 4)). For more information, see Registration—Dropping Core Courses.

Courses of Instruction

SCNC CC1000 FRONTIERS OF SCIENCE. 4.00 points.
Corequisites: SCNC CC1100
Corequisites: SCNC CC1100

The principal objectives of Frontiers of Science are to engage students in the process of discovery by exploring topics at the forefront of science and to inculcate or reinforce the specific habits of mind that inform a scientific perspective on the world. Sample topics include the brain and behavior, global climate change, relativity, and biodiversity, among others. Taught by members of natural science departments and Columbia Science Fellows.
that carry a broad appeal to people with diverse interests. No

**Undergraduate Writing Website**

ENGL CC1010 UNIVERSITY WRITING is a one-semester
seminar designed to facilitate students’ entry into the
intellectual life of the university by teaching them to become
more capable and independent academic readers and writers.
The course emphasizes habits of mind and skills that foster
students’ capacities for critical analysis, argument, revision,
collaboration, meta-cognition, and research. Students read
and discuss essays from a number of fields, complete regular
informal reading and writing exercises, compose several longer
essays, and devise a research-based project of their own design.

**Writing Center**

The Undergraduate Writing Program sponsors The Writing Center in 310 Philosophy, which offers individual writing instruction and consultations to undergraduate and graduate students enrolled in Columbia University courses. Students may visit the center to work on any writing project, academic or non-academic, and at any stage in the writing process. Students may use the Writing Center’s online scheduling system to make appointments and view drop-in hours.

**General Information:**
The Foreign Language Requirement Website

The foreign language requirement forms part of Columbia College’s mission to prepare students to be tomorrow’s conscientious and informed citizens. Knowledge of another’s language and literature is the most important way to begin to know a country and people. The study of a foreign language:

1. Introduces students to world cultures, also making them aware of their own culture within that context;
2. Informs students of the differences in structure, grammar, and syntax that distinguish languages from each other, and clarifies the intimate links between language and cultural meaning;
3. Contributes to the development of students’ critical, analytical, and writing skills.

The requirement may be satisfied in one of the following ways:

1. Satisfactory completion of the second term of an intermediate language sequence.
2. Demonstration of an equivalent competence through the appropriate score on the SAT II Subject Test or Advanced Placement Tests.
3. Demonstration of an equivalent competence through the College’s own placement tests (consult the department through which the language is offered).
4. The successful completion of an advanced level foreign language or literature course that requires 2102 or the equivalent as a prerequisite. This course must be taken for a letter grade.
5. Students whose native language is not English are not required to take an additional foreign language or an achievement test if they have completed the secondary school requirement in the native language.

Because success in learning a foreign language is dependent on the full engagement of the students enrolled in a language course, all terms of language instruction/conversation courses, whether being used toward fulfillment of the foreign language requirement or not, must be taken in order and for a letter grade. These courses may not be taken for a grade of Pass/D/Fail.

Students wishing to satisfy the requirement in any other language should consult with their advising dean. In some instances, equivalent language courses offered at Barnard College and in the School of General Studies may be used to satisfy the requirement, however, students should speak with the Columbia department to ensure that courses from these schools are approved for the requirement.

Any student who wishes to submit a language course taken at another institution in fulfillment of the language requirement must pass a departmental placement examination.

In order to ensure that students achieve foreign-language proficiency without a significant break in progress, this requirement must be completed before a student can be eligible to study abroad, even if the language of instruction of the study-abroad program is English. For students seeking to study abroad in other languages, more advanced foreign-language study is usually required (see Special Programs).

The following languages are offered in the College toward satisfaction of the requirement:

- **Akkadian**
  **Language Resource Center**
- **Arabic**
  **Middle Eastern, South Asian, and African Studies**
- **Armenian**

Global Core Requirement Website

The Global Core requirement asks students to engage directly with the variety of civilizations and the diversity of traditions that, along with the West, have formed the world and continue to interact in it today. Courses in the Global Core typically explore the cultures of Africa, Asia, the Americas, and the Middle East in an historical context. These courses are organized around a set of primary materials produced in these traditions and may draw from texts or other forms of media, as well as from oral sources or performance, broadly defined.

Global Core courses fall into two categories, and can be, on occasion, a hybrid of the two types: those with a comparative, multidisciplinary, or interdisciplinary focus on specific cultures or civilizations, tracing their existence across a significant span of time, and may include Europe and/or the U.S.; and those that address a common theme or set of analytic questions comparatively (and may include Europe and the U.S.). The Global Core requirement consists of courses that examine areas not the primary focus of Literature Humanities and Contemporary Civilization and that, like other Core courses, are broadly introductory, interdisciplinary, and temporally and/or spatially expansive.

Students must complete two courses from the approved list of Global Core courses for a letter grade.

SUMMER 2023 APPROVED COURSES

As Summer 2023 schedules become available, more courses will be added to this list. Please check back for additional updates.

### Science Requirement

**General Information:**
Academic Affairs  
202 Hamilton  
212-851-9814  
cc-academic@columbia.edu

Science Requirement Website

The objective of the science component of Columbia College’s Core Curriculum is identical to that of its humanities and social science counterparts, namely to help students “to understand the civilization of their own day and to participate effectively in it.” The science component is intended specifically to provide students with the opportunity to learn what kinds of questions are asked about nature, how hypotheses are tested against experimental or observational evidence, how results of tests are evaluated, and what knowledge has been accumulated about the workings of the natural world.

Three courses bearing at least 3 points each (for a total of at least 10 points) must be completed to meet this portion of the Core Curriculum. All courses used to satisfy the science requirement must be taken for a letter grade.

Students normally take SCNC CC1000 FRONTIERS OF SCIENCE in their first year in the term in which they are not taking ENGL CC1010 UNIVERSITY WRITING.

For the remainder of the requirement, students may choose any two courses from the list of approved courses below. These courses may be taken in the same department or in different departments. However, at least one course must be taken in the Departments of Astronomy; Biological Sciences; Chemistry; Earth and Environmental Sciences; Ecology, Evolution, and Environmental Biology; Physics; or Psychology.

Students who wish to request an exception to these policies must petition the Committee on Science Instruction (202 Hamilton) prior to their final term at the College.

### Guidelines for Courses Approved for the Science Requirement

Unless otherwise indicated, students may not use Barnard College courses to fulfill the Columbia College science requirement.

Students should pay careful attention to the prerequisites and instructor approvals required for certain courses. Prerequisite and instructor approval requirements can be found in the course descriptions for each course located in specific departments’ sections of this bulletin.

While students are not required to complete a two-term sequence, students may choose to do so. For this reason, the Committee on Science Instruction has indicated recommended sequences below. Unless otherwise noted, the first course in the sequence must be taken before the second course in the sequence.

### Additional Courses Approved for the Science Requirement

Most of the following courses have required prerequisites and/or require instructor approval. Prerequisite and instructor approval requirements can be found in the course descriptions for each course located in specific departments' sections of the on-line bulletin.

Unless otherwise indicated, students may not use Barnard College courses to fulfill the Columbia College science requirement.

#### Astronomy
- Any 3-point ASTR course numbered 2000 or higher

#### Biology
- Any 3-point BIOL course numbered 2000 or higher

#### Chemistry
- CHEM UN1403 GENERAL CHEMISTRY I-LECTU
- CHEM UN1404 GENERAL CHEMISTRY II-LECTURES
- CHEM UN1500 GENERAL CHEMISTRY LABORATORY
- CHEM UN1604 2ND TERM GEN CHEM (INTENSIVE)
- CHEM UN1507 INTENSIVE GENERAL CHEMISTRY-LAB
- Any CHEM course numbered 3000 or higher

#### Computer Science
- COMS W1004 Introduction to Computer Science and Programming in Java
- COMS W1005 Introduction to Computer Science and Programming in MATLAB
- ENGI E1006 INTRO TO COMP FOR ENG/APP SCI (Effective beginning Spring 2017)
- COMS W1007 Honors Introduction to Computer Science
- Any 3-point COMS course numbered 3000 or higher

#### Earth and Environmental Sciences
- EESC UN2100 EARTH'S ENVIRO SYST: CLIM SYST
- EESC UN2200 EARTH'S ENVIRONMENTAL SYSTEMS: THE SOLID EARTH
- EESC UN2300 EARTH'S ENVIRO SYST: LIFE SYST
- EESC UN2330 SCIENCE FOR SUSTAINABLE DEVPVT
- Any EESC course numbered 3000 or higher

#### Environmental Biology
- EEEB UN2001 ENVIRONMENTAL BIOLOGY I
- EEEB UN2002 ENVIRONMENTAL BIOLOGY II
- EEEB UN3087 CONSERVATION BIOLOGY
- Any EEEB course numbered 3000 or higher except UN3919, GU4321, and GU4700

#### History - Applied Math
- HSAM UN2901 DATA:PAST, PRESENT AND FUTURE (Effective beginning Spring 2018)

#### Mathematics
- Any 3-point MATH course numbered 1100 or higher
- CSPH GU4801 MATH LOGIC:COMPLETENESS RESULT
- CSPH GU4802 Math Logic II: Incompleteness

#### Physics
- PHYS UN1201 GENERAL PHYSICS I
- PHYS UN1202 GENERAL PHYSICS II
- PHYS UN1401 INTRO TO MECHANICS # THERMO
- PHYS UN1402 INTRO ELEC/MAGNETSM # OPTCS
- PHYS UN1403 INTRO-CLASSCL # QUANTUM WAVES
- PHYS UN1601 PHYSICS I:MECHANICS/RELATIVITY
- PHYS UN1602 PHYSICS II: THERMO, ELEC # MAG
- Any 3-point PHYS course numbered 2000 or higher

#### Psychology
- Any PSYC course in the 2200- or 2400-level may be used to fulfill the science requirement
- All 3- and 4-point courses numbered in the 32xx, 34xx, 42xx, and 44xx can partially fulfill the science requirement
- With prior departmental approval, some additional courses may also be used to partially fulfill the science requirement
- PLEASE NOTE: 2600-level and some other psychology courses, including PSYC BC1001 INTRODUCTION TO PSYCHOLOGY and other Barnard psychology courses, may not be used to fulfill the science requirement

#### Statistics
- Any 3-point STAT course except STAT 3997

### Special Summer Program

The following special program fulfills two of the three terms of the science requirement.

#### Earth Institute Center for Environmental Sustainability (EICES)
- Summer Ecosystem Experiences for Undergraduates (SEE-U). Locations change yearly and there is rolling admissions. *
Please check with EICES for details: http://eices.columbia.edu/education-training/see-u/

**Summer Session Courses**
Students who wish to take summer courses may do so through the Summer Session offered by the School of Continuing Education. For policies regarding summer study, see the Academic Regulations—Summer Study section of this Bulletin. For a list of summer courses approved for the science requirement, students should consult the annually updated List of Approved Summer Courses.

**Physical Education Requirement**

**General Information**
Physical Education Department
Dodge Physical Fitness Center
212-854-3439

**Physical Education Website**
Successful completion of two physical education courses is required for the degree. All students are also required to pass a swim test or take beginning swimming for one term to fulfill the swim requirement. A waiver of the swim test requirement may be granted if a student has a disability certified by Columbia Health that precludes swimming. Students may also request waivers and accommodations on the grounds of religious observance or gender identity/expression. All requests for waivers and accommodations are reviewed by the director of physical education.

Students may not register for more than one section of physical education each term.

To pass the course, students must fulfill the attendance and participation requirements outlined by each section and available on the physical education website. Students who are absent more than the permissible number of times are given a mark of W (Withdrawal), unless they complete and file a drop form by the official deadline to drop a course.

No more than 4 points of physical education courses may be counted toward the degree. One course of the physical education requirement may be a Barnard Physical Education course. Two courses of the physical education requirement may be a Barnard Dance/ Studio Technique course.

A student who intends to participate in an intercollegiate sport should register for the appropriate section of PHED UN1005 INTERCOLLEGIATE ATHLETICS. Intercollegiate athletes who attend regularly receive 1 point of credit up to a maximum of 4. Student athletes who leave the team in mid-term but still wish to receive academic credit must notify the Physical Education Office and be placed in another physical education course to complete the attendance requirement. Student athletes are also responsible for fulfilling the swim requirement.

**Eligibility for Intercollegiate Athletics**
Any student in the College who is pursuing the undergraduate program or a combined program toward a first degree is eligible for intercollegiate athletics. To be eligible for athletic activities, the student must make appropriate progress toward the degree as defined by the NCAA, the Ivy League, and Columbia University. These criteria are monitored by the Center for Student Advising and certified by the Office of the Registrar.

Questions about athletic eligibility should be referred to the appropriate advising dean or the compliance office in the Department of Intercollegiate Athletics and Physical Education.

For more information, visit www.gocolumbialions.com.
ACADEMIC REGULATIONS

POINTS OF CREDIT PER TERM

Every Columbia College student must complete 124 points of academic credit to earn the B.A. degree from Columbia College. To complete this number of credits over 8 semesters, students will need to complete an average of 15.5 credits per semester, which typically represents 4 to 5 academic courses (each of 3 or more credits) per term.

A full-time course load is defined as an academic program carrying 12-18 points per semester.

All Columbia College students are required to be full-time students and must therefore be registered for a minimum of 12 points of credit per term.

• Columbia College students are not permitted to enroll as part-time students, and any student who has not registered for at least 12 points of credit by the end of the Change of Program period may be withdrawn from Columbia College.

• Students in their final term who need fewer than 12 points of credit to complete their degree requirements may petition the Committee on Academic Standing to register for fewer than 12 points. If they are approved to take fewer than 12 points of credit, they will still be considered full-time students of Columbia College and be responsible for all relevant tuition and fees.

• Students may not enroll in more than 18 points of credit unless they petition the Committee on Points in the Berick Center for Student Advising and receive permission to do so. Students in their first semester at Columbia (i.e., first-year students and new transfer students in their first semester) may not petition to register for more than 18 points.

ATTENDANCE

Attendance in all class meetings, laboratory periods and other required events for a course is a basic expectation of all students enrolled in the course, whether or not attendance is noted as a requirement on a course syllabus.

Instructors may take attendance into account in assessing a student’s performance.

In many courses, particularly those with a participation requirement, multiple absences could lead to a failing grade for the course, even before the conclusion of the semester. Students are accountable for absences that result from enrolling in a course after the semester begins. For related information about attendance, see Columbia University Policies—Religious Holidays.

LENGTH OF CANDIDACY

Students are expected to earn the Bachelor of Arts (B.A.) degree at Columbia College in 8 Fall and Spring semesters.

Students may continue to take required coursework for the B.A. degree past the eighth semester only with permission from the Committee on Academic Standing, after first discussing such requests with their advising deans in the Berick Center for Student Advising. Study beyond the eighth term is granted only for students who have found themselves in emergent circumstances beyond their control which have prevented them from completing the degree in eight terms. Note: study beyond the eighth term is not granted for the purposes of changing or adding a major or concentration.

PROGRESS TOWARD THE DEGREE

At the end of each Fall and Spring semester, the Committee on Academic Standing reviews the records of all students enrolled in Columbia College to determine student standing, and to determine whether students are in good academic standing or whether academic action is warranted—including academic warning, academic probation, suspension and dismissal.

Good Academic Standing

To be considered in good academic standing, students must have achieved the following in each semester:

• Complete a minimum of 12 points of credit of academic coursework;

• Achieve a minimum grade point average of 2.0 (a “C” average);

• Achieve a cumulative grade point average of 2.0 (a “C” average);

• Make expected progress in the required Core Curriculum courses;

• Make expected progress in the coursework toward a declared major or concentration; and

• Make adequate progress in the number of cumulative credits required to be earned in eight semesters (see below).

• Students are expected to complete their degrees in eight semesters. Students who do not make adequate progress toward the degree may be placed on academic probation. Adequate progress toward the degree is defined according to cumulative earned credits, as noted by the number of credits listed in the column of the chart below titled “Threshold for Academic Probation.”:
### Academic Probation

Students may be placed on academic probation for the following reasons:

- completing fewer than the required minimum of 12 points of credit in a term;
- earning a term grade point average or a cumulative grade point average below 2.0;
- failing a Core Curriculum class; or
- failing to complete Literature Humanities, University Writing, or Frontiers of Science in their first year; or failing to complete Contemporary Civilization in their second year.

Students may also be placed on academic probation for failing to make satisfactory progress toward the degree (i.e., taking less than an average of 15.5 points per term).

Students may not appeal the actions of academic warning or academic probation.

The action of academic warning does not remain on a student’s record. The action of academic probation remains on a student’s record for internal use only. The status of academic probation is not noted on students’ transcripts.

Students who are on academic probation are not eligible to study abroad.

Students and parents/guardians are notified when students are placed on academic probation. The advising deans in the Berick Center for Student Advising provide support to help students who are on academic action return to good standing.

### Academic Suspension/Dismissal

Students who fail to improve after being on academic probation, as well as students with extremely poor records during a single term, may be suspended and required to withdraw from Columbia College for at least one year. Conditions for readmission are specified at the time of suspension. If a student is readmitted after having been suspended and again fails to achieve satisfactory grades or to make normal progress toward the degree, the student may be dismissed from the College.

Students are notified by email and express mail of the actions of suspension or dismissal, and they will have a limited time in which to appeal the decision. The decision of the appeals committee is final.

The actions of academic suspension or academic dismissal remain on students’ records and are recorded on the students’ transcripts. Parents and/or guardians are notified when students are suspended or dismissed for academic reasons.

International students with F-1 or J-1 status are not allowed to remain in the United States while suspended or dismissed from the University. Any international student who is dismissed or suspended should immediately contact the International Students and Scholars Office (ISSO) to discuss available options.

### GRADUATION

The B.A. degree is usually awarded three times during the year: in February, May, and October. Under special circumstances, a B.A. degree scheduled to be awarded in May may be awarded in June instead.

There is one University Commencement ceremony in May (see Academic Calendar).

### Application or Renewal of Application for the Degree

The Application for the Degree is available on the Registrar's website. Students may complete the [degree application form](#) electronically and submit it to diplomas@columbia.edu. Alternative instructions for submitting the application for the degree are on the form itself.

General deadlines for applying for graduation are September 1 for October degrees; November 1 for February degrees; and December 1 for May degrees. When a deadline falls on a weekend or holiday, the deadline moves to the next business day. Students who fail to earn the degree by the conferral date for which they applied must file another application for a later conferral date.

### Diplomas

There is no charge for the preparation and conferral of an original diploma. Students’ names will be printed exactly as they appear on their transcript. Students are advised to check their transcript, and if errors are found, they may email the Office of the University Registrar at registrar@columbia.edu.

If students wish to change their name, they must submit the [Name Change Affidavit](#). The affidavit must be notarized and filed by the application deadline.

If a graduate’s Columbia diploma is lost or damaged, there will be a charge of $100 for a replacement diploma. Note that replacement diplomas carry the signatures of current University
officials. Applications for replacement diplomas are available through the Office of the University Registrar.

REGULATIONS FOR TRANSFER STUDENTS

Regulations on Transfer Credit

In order to receive the Columbia College degree, transfer students must complete a minimum of 60 points while enrolled in the College (which can include credits earned on Columbia-sponsored study abroad programs). Transfer students may apply a maximum of 64 points taken elsewhere toward advanced standing at the College. Credit granted on the basis of Advanced Placement, International Baccalaureate and other standardized examinations is counted toward the 64-point maximum, as are credits earned at Columbia in the summer prior to matriculation and on study-abroad programs outside of Columbia. Credit is not granted for college courses taken while in high school.

Transfer Credit Toward the Degree and Core/Major Requirements

Class standing for students transferring to Columbia College is determined prior to matriculation and is based on the number of terms and credits completed at the home institution. Twelve credits is the equivalent of one full-time term. A transfer student's class standing will remain in place for the duration of the student's time in Columbia College, regardless of future credits earned. Once they have matriculated, transfer students may be assigned additional advanced standing like Advanced Placement, International Baccalaureate and other standardized examination credit, but their class status will remain the same. This policy remains in place even when students are eligible to graduate in less than eight terms.

Transfer students receive credit for non-Columbia courses that are substantially similar to Columbia College courses only when the grades received are C- or better. Once a transfer student is admitted, a credit review is conducted by the Berick Center for Student Advising and a tentative credit evaluation is sent to the student. A final credit evaluation is conducted once the student has matriculated at Columbia College and has submitted a final official transcript for coursework taken elsewhere. Course descriptions and syllabi may be requested by Columbia College in order for certain courses to be considered for transfer credit and/or for certain courses to be considered for exemption to Columbia College requirements. Transfer students should consult with their advising deans in the Berick Center for Student Advising, where all appropriate approvals will be coordinated with the relevant academic departments.

Degree Completion

Transfer students are expected to complete the requirements for the B.A. degree in eight undergraduate Fall and Spring semesters, inclusive of terms completed at other colleges or universities before entering Columbia. Transfer students cannot petition for extended time to complete the degree.

Some majors may be difficult for transfer students to complete due to the number of credits required, the specific course sequencing, and the number of terms remaining for transfer students to complete all Core and major requirements. There is no guarantee that a transfer student can complete every major and concentration offered, and all transfer students must declare a major or concentration that they are capable of completing in the time available to them while at Columbia College.

Study beyond the eighth term is not granted for the purposes of changing or adding a major or concentration. Therefore, transfer students should be especially careful when planning their academic schedules and are strongly urged to do so with the guidance of their advising deans in the Berick Center for Student Advising and the relevant departmental Directors of Undergraduate Studies.

EXAMINATIONS

Midterm Examinations

Midterm examinations are given during the course of each term, and can occur anytime between the beginning and the end of the term. Midterm examinations are scheduled by each instructor, based on the pedagogical structure of a course. Therefore, while many midterm exams may be scheduled around the mid-point of a term (e.g., late October or mid-March), midterm exams may also fall earlier or later in the term, and a course may require multiple exams during the course of the semester. Students should consult the syllabus of each course in which they are registered for the schedule of required midterm exams.

Final Examinations

Final examinations are given at the end of each term. The Projected University Examination Schedule provides a tentative guide to final examinations and is available [online](#).

The definitive schedule of final examinations is usually available in early to mid-November for the fall term and early to mid-April for the spring term. Exams are scheduled according to a University-wide [Final Exam Schedule](#) available shortly after midterms. Prior to its availability, students and faculty should consult the [Projected Exam Schedule](#). Students...
may access their individual exam schedule in SSOL by clicking on "Schedule," then "My Exam Schedule."

Students who have trouble locating a class on either list should contact the instructor to make sure the class has an exam.

**Rescheduling Final Exams**

- **Instructor Final Exam Conflicts**

Under certain rare circumstances, it may be necessary for an instructor to reschedule a final exam. Any change to the day or time assigned by the Master University Examination Schedule must be agreed upon by the instructor and the students enrolled in the class. All students unable to take the exam at the new agreed-upon time must be given a make-up exam at a time that they are able to attend.

- **Student Final Exam Conflicts**

Students may request a change of schedule for a final exam under either of the following two circumstances:

1. if a student is enrolled in two or more classes whose final exams are scheduled by the Master University Examination Schedule to be held at the same time;

2. if a student has three exams scheduled on any given calendar day (i.e., between 9:00 a.m. and 10:00 p.m. on the same calendar date).

Students in either circumstance should meet with their advising deans in the Berick Center for Student Advising as soon as possible after the final exam schedule is published in order to initiate the process for arranging a make-up exam.

*Examinations will not be rescheduled in order to accommodate students’ travel plans.* Students should not make travel plans for holidays or breaks until they are certain that they will be present for all required exams.

**Failure to Complete a Final Exam**

If a student does not take a final exam, or begins but does not complete a final exam, a grade of zero or F may be factored for that portion of the final grade. Make-up examinations are not guaranteed for any student who does not take or does not finish a final exam.

**Incompletes**

Students facing medical, personal, or family emergencies at the time of a final exam or at the due date of a final paper or project may petition the Committee on Academic Standing for permission to complete the final exam, paper, or project at a later date. Students will receive a temporary mark of IN (Incomplete) until the work is completed. For more information, see the Grades section of this Bulletin.

---

**GRADES**

Columbia College uses the following system of grading:

- **A** = excellent
- **B** = good
- **C** = fair
- **D** = poor but passing
- **F** = failure (a final grade, not subject to reexamination).

The grades of A, B, and C may be modified by a plus or minus. A notation of Pass (P) is awarded when students receive a C- or higher in a course which they have elected to take on a Pass/D/Fail basis, or when they have passed a course that is offered only on a Pass/Fail basis.

The Committee on Instruction of Columbia College has instructed the Registrar to calculate a cumulative grade point average for external purposes, such as official transcripts. The Registrar also calculates term and cumulative grade point averages for internal purposes, such as determining eligibility for the Dean’s List.

When the Registrar computes a student’s Columbia College grade point average, only grades earned while enrolled in Columbia College in the Fall and Spring terms (including Columbia-owned study abroad programs) and in Columbia-owned summer programs (including the Columbia School of Professional Studies Summer Sessions and Columbia-owned summer study abroad programs) are counted. Courses are weighted according to the number of credits.

The following scale is used:

<table>
<thead>
<tr>
<th>Grade</th>
<th>GPA Equivalent</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>4.33</td>
</tr>
<tr>
<td>A</td>
<td>4.0</td>

<td>2.0</td>
</tr>
<tr>
<td>C-</td>
<td>1.67</td>
</tr>
<tr>
<td>D</td>
<td>1.0</td>
</tr>
<tr>
<td>F</td>
<td>0</td>
</tr>
</tbody>
</table>

**The Pass/D/Fail Option**

The purposes of the Pass/D/Fail option are to encourage students to take courses of interest to them outside of their field of specialization and to permit those who have not decided upon a major to test their talents in a particular field that may be of interest. Students make the election of the Pass/D/Fail option directly in the Registrar’s online system; course instructors are not informed if a student in their class elects to use the Pass/D/
Fail option. Students who wish to utilize the Pass/D/Fail option can do so in Student Services Online (SSOL).

In order to encourage students to engage more fully in the courses they elect to take for a grade of Pass/D/Fail, students are allowed to uncover a grade of Pass in SSOL until the end of the Change of Program period of the following semester. Students have until the end of the Change of Program period in the Spring semester to uncover the grade of a course taken in the previous Fall term, and until the end of the change of program period in the Fall semester to uncover the grade of a course taken in the previous Spring or Summer term. Seniors who graduate in May have until June 1 to uncover the grade of a course taken in their final Spring semester. Students who wish to uncover a grade of Pass can do so in Student Services Online (SSOL).

The grade of Pass is not included in the calculation of grade point averages; the grades of D and Fail are included in the calculation of grade point averages.

The Pass/D/Fail option cannot be utilized for courses taken in fulfillment of the Core Curriculum or, for the most part, for courses taken in fulfillment of a major or a concentration.

The Grade of D
As noted above, the grade of D is considered “poor but passing.” Therefore, no more than six points of credit earned with the grade of D may be credited toward the degree in any academic year (the academic year being inclusive of the Fall, Spring, and Summer terms), and no more than a cumulative total of 12 points of credit earned with the grade of D may be credited toward the 124 credits required for the degree credit. These credits will be given only for courses taken at Columbia; transfer credit will not be awarded for courses taken elsewhere with a grade of D. The decision as to whether or not a D may be used to satisfy the requirements for a major or concentration is made in each relevant academic department.

In any given semester, the grade of D precludes the attainment of Dean’s List status (see Academic Honors, Prizes, and Fellowships—Dean’s List).

The Grade of W (Withdrawal)
Students may drop a course from their academic programs by the fifth week of the semester, as long as they keep a program that carries a minimum of 12 points of credit. If a course is dropped under these circumstances, it will be removed from the student’s transcript.

After the fifth week of the term and until the tenth week of the term, if a student has a compelling reason to stop taking a course, the student can withdraw from the course. If a student withdraws from a course, the transcript will show a mark of W, indicating official withdrawal from that course after the drop deadline. This notation is permanent and will remain on the transcript even if the student repeats the course. No points of academic credit are earned for classes in which they receive the mark of W.

In any given semester, the mark of W precludes the attainment of Dean’s List status (see Academic Honors, Prizes, and Fellowships—Dean’s List).

When considering the option to withdraw from a course, students should be aware that, in order to remain in good academic standing, they must successfully complete no fewer than 12 points in a given term. Students who do not earn at least 12 points per term will face academic action, such as academic probation, suspension, or dismissal. Students who do not make adequate progress toward the degree (an average of 15.5 points per term) may also face academic probation, suspension, or dismissal.

To withdraw from a class, students must first meet with their advising deans in the Berick Center for Student Advising, 403 Lerner, to discuss their plans and then submit a Columbia College Acknowledgement of Course Withdrawal form to their advising deans. A withdrawal will be official only after these steps are taken; failure to attend classes does not constitute dropping or withdrawing from a course, nor does a student’s communication to the instructor of intent to withdraw. Students who stop attending classes without dropping or officially withdrawing are assigned the letter grade earned by factoring a zero or F for any missing work.

The Mark of AR (Administrative Referral)
The AR is a temporary notation for the transcript when an instructor needs additional time and/or additional consultation in order to determine a student’s final grade for a course. The submission of an AR grade will alert the appropriate advising dean in the Berick Center for Student Advising, who will consult with the instructor to help determine what final grade is appropriate. The course instructor has ultimate authority over the final grade awarded.

The AR notation is also used while a student applies for an Incomplete. If the Incomplete is approved, the instructor will submit a mark of AR for the student.

The Mark of IN (Incomplete)
The IN is a temporary notation for the transcript approved by the Committee on Academic Standing for students who, due to serious extenuating circumstances, cannot complete their coursework or are unable to take a final examination by the end of the term. An IN is typically granted only in cases of severe illness (as certified by a healthcare practitioner or by Columbia Health) or extreme personal or family emergencies.

Students will be granted an IN only by first speaking with their advising deans and then filing a petition with the Committee on Academic Standing. Petition forms are available in the Berick Center for Student Advising. For classes that require a final paper or project, petitions must be submitted no later than the last day of classes. For classes that require a final examination,
petitions must be submitted no later than the day before the exam.

To be granted an IN, students should have completed all work for the relevant class with the exception of the final paper, project or exam. If a student has additional uncompleted work in the class in addition to the final paper, project, or exam, an IN may not be granted.

Students may not arrange unofficial incompletes or extended deadlines simply through consultation with their instructors; any incomplete must be officially approved by the Committee on Academic Standing. If an instructor is willing to entertain an incomplete, pending approval by the Committee on Academic Standing, the instructor should submit an AR, along with a contingency grade that represents the grade that the student should be given at the time of submission--i.e., the grade that would be earned based solely on work completed at the time of submission, assuming no further work were to be completed during the period allotted by the incomplete.

Students who are granted an IN are assigned a deadline for completion of the incomplete paper or project or a date by which a deferred examination must be taken. Those who fail to meet the assigned deadline or who miss the deferred examination will receive the contingency grade indicated by the instructor. All other marks of IN that remain unresolved by the end of one calendar year will be converted to the contingency grade. Questions about incompletes may be directed to the advising deans in the Berick Center for Student Advising.

Students who receive the grade of IN, approved in advance by the Committee on Academic Standing, may be considered for Dean’s List only after all IN grades are changed to letter grades (see Academic Honors, Prizes, and Fellowships—Dean's List).

The Mark of R (Registration Credit)

An R indicates regular attendance and participation in a course without the submission of work for evaluation (i.e., auditing a course). The R credit option is available only to Columbia College seniors.

Students who take a course for R credit must have the permission of both the instructor and the Committee on Academic Standing in the Berick Center for Student Advising. No point credit is given for R credit, and an R has no role in the calculation of a student’s GPA. The deadline for registering for R credit is the same deadline to elect the Pass/D/Fail option for a class, as specified on the Academic Calendar in this Bulletin.

Registering for R credit is allowed only when:

1. the courses are taken in the last two terms of the student’s attendance in Columbia College;
2. the courses are not used to fulfill a requirement for the B.A. degree;
3. the credit for courses for R credit will be in excess of the 124 points required for the B.A. degree; and
4. the student has the permission of the Committee on Academic Standing and the instructor.

Students may be required to complete certain work for R credit as specified by that instructor. The exact nature of the work should be determined by the instructor when the student petitions for an R for the course. An instructor may fail a student who has not completed the assigned work.

The Mark of YC (Year Course)

The YC is a notation given at the end of the first term of a year-long course in which the full year’s work must be completed before a qualitative grade can be assigned. The YC notation for the first term must be approved by the Berick Center for Student Advising, so the instructor will submit a notation of "AR[YC]", which will be converted to a YC upon request by the instructor.

The final grade given at the end of the second term of the year-long course is the grade for the entire course; therefore, when the final grade is assigned at the end of the second term, the YC for the first term of the course will be replaced by the same grade. In any given semester, the mark of YC precludes the attainment of Dean's List status until the grade for the entire year's coursework is awarded (see Academic Honors, Prizes, and Fellowships—Dean's List).

Report of Grades

Grades are available to view on Student Services Online (SSOL) on the first business day after they are submitted by the instructor. Paper and electronic transcripts may be ordered via SSOL. Students who find discrepancies in, or have questions about their records should contact their academic advisor.

ADVANCED STANDING IN LANGUAGE STUDY

Students who wish to begin language studies at a level above “Elementary I” (or its equivalent) should plan to take a placement exam in the relevant Columbia language program. Most placement exams take place during the New Student Orientation Program (NSOP), and exact times and dates of exams will be provided to students shortly before NSOP begins. Returning students who wish to take a placement exam but who are not participating in NSOP should contact the relevant Columbia departments before the beginning of each term to inquire about other placement exam options.

First-year students may also be placed into upper levels of certain language programs of study on the basis of scores on SAT II: Subject Tests or Advanced Placement examinations. Students with scores on these exams should consult their advising dean in the Berick Center for Student Advising and should ensure that the scores have been sent through official channels to Columbia College.
**ADVANCED STANDING**

The College grants credit for up to one semester (16 points) of college-level work completed before matriculation at Columbia College. This work may be done under the College Board Advanced Placement (AP) Program, GCE Advanced Level Examinations, International Baccalaureate Examination, or other national systems.

Advanced credit is awarded upon completion of the first year at Columbia, and is determined in accordance with College and departmental policies. Students wishing to arrange such credit must meet with their advising dean in the Berick Center for Student Advising and provide the relevant transcript/certificate.

Entering first-year students are not granted credit for courses taken at other colleges or universities before their graduation from secondary school. Students may receive a maximum of 6 points of credit for college courses taken after graduation from secondary school and prior to matriculation at Columbia. In order to receive this credit, students must submit an official university or college transcript and the syllabus for each relevant course taken elsewhere to their advising deans in the Berick Center for Student Advising. Final determination will be made by the dean of advising.

Students who wish to receive advanced credit in any academic subject (including advanced placement in, or exemption from, the language requirement) may not take courses at Columbia that cover similar or more basic material than the advanced work already completed. Nor may students receive credit for two exams that cover the same material (e.g., Calculus AP and Mathematics GCE Advanced Level Exam). In some cases, advanced credit is awarded only when students successfully complete a higher-level course in the same field of study.

For information about advanced standing for transfer students, see Academic Regulations—Regulations for Transfer Students.

**ADVANCED PLACEMENT (AP) EXAMINATIONS**

Students can earn a maximum of 16 points of credit earned through college-level coursework taken as part of a Advanced Placement high school curriculum prior to matriculation at Columbia.

Individual departments regularly review the College Board AP curriculum and determine appropriate placements, credit, and/or exemptions.

Students entering in the 2022–2023 academic year may be awarded AP credit for the following subjects and should refer to the relevant department sections in this Bulletin for specific information on credit granted, placement, and exemptions:

College Board Advanced Placement (AP) scores cannot be used toward exemption from any of the shared Core Curriculum courses, the Global Core Requirement, or the Science Requirement.

AP scores may be used toward satisfying the Foreign Language Requirement, according to the rules of the appropriate language department (see The Core Curriculum—Foreign Language Requirement). Students who wish to receive advanced credit or exemption for the language requirement may not take courses at Columbia that cover similar or more basic material than the advanced work already completed. For further information, students should consult with their advising dean in the Berick Center for Student Advising.

**International Baccalaureate**

Students can earn a maximum of 16 points of credit earned through college-level coursework taken as part of an International Baccalaureate (IB) high school curriculum prior to matriculation at Columbia.

Entering students are granted six points of credit for each score of six or seven in IB Higher Level examinations, if taken in disciplines offered as undergraduate programs at Columbia College.

IB scores cannot be used toward exemption from any of the shared Core Curriculum courses, the Global Core Requirement, or the Science Requirement.

IB scores may be used toward satisfying the Foreign Language Requirement according to the rules of the appropriate language department (see The Core Curriculum—Foreign Language Requirement). Students who wish to receive advanced credit or exemption for the language requirement may not take courses at Columbia that cover similar or more basic material than the advanced work already completed. This restriction applies to
language credit based on AP, IB, A-levels and other advanced placement exams recognized by Columbia College.

For further information, students should consult with their advising dean in the Berick Center for Student Advising.

**BRITISH ADVANCED LEVEL EXAMINATIONS**

Students can earn a maximum of 16 points of credit earned through college-level coursework taken as part of a British Advanced Level (A-Levels) high school curriculum prior to matriculation at Columbia.

Entering students are granted six points of credit for each grade of A or B on A-Levels examinations, if taken in disciplines offered as undergraduate programs at Columbia College.

A-Levels scores cannot be used toward exemption from any of the shared Core Curriculum courses, the Global Core Requirement, or the Science Requirement.

A-Levels scores may be used toward satisfying the Foreign Language Requirement, according to the rules of the appropriate language department (see *The Core Curriculum—Foreign Language Requirement*). Students who wish to receive advanced credit or exemption for the language requirement may not take courses at Columbia that cover similar or more basic material than the advanced work already completed. This restriction applies to language credit based on AP, IB, A-levels and other advanced placement exams recognized by Columbia College.

For further information, students should consult with their advising dean in the Berick Center for Student Advising.

**OTHER NATIONAL SYSTEMS**

Students can earn a maximum of 16 points of credit earned through college-level coursework taken as part of a high school curriculum prior to matriculation at Columbia.

Pending review by the appropriate academic department at Columbia, students who complete secondary school work in other national systems may be granted credit in certain disciplines for sufficiently high scores. For further information, students should consult with their advising deans in the Berick Center for Student Advising.

**COURSES TAKEN IN OTHER COLUMBIA UNDERGRADUATE SCHOOLS**

Columbia College students may take any course for credit listed in this Bulletin or in the course catalogues of Barnard College and the School of General Studies without any special approval for enrollment, unless so indicated in the descriptions of the relevant course, department and/or program.

Columbia College students may take a maximum of four courses for credit toward the Columbia College Bachelor of Arts degree that are offered by the Fu Foundation School of Engineering and Applied Science, on a space-available basis. This four-course limit does not apply to courses offered by the Computer Science Department, nor does it apply to students in the 3-2 Combined Plan program.

**COURSES TAKEN IN THE GRADUATE SCHOOL OF ARTS AND SCIENCES**

Columbia College students may take courses offered by the Graduate School of Arts and Sciences if they receive the permission of the instructor of the course, as well as the director of undergraduate studies in the department in which the course is taught, in order to ensure the student’s preparation for the course. Students will typically be required to have previous coursework in the field or topic of the courses.

If students enrolled in graduate-level courses wish to use the courses to fulfill requirements for a major or concentration, they must receive permission from the director of undergraduate studies in the department of their major or concentration.

**COURSES TAKEN IN OTHER DIVISIONS OF THE UNIVERSITY**

Columbia College students may take a maximum of four courses for credit toward the Columbia College Bachelor of Arts degree in the professional schools at Columbia University listed below, with the requisite permissions. These courses will count as elective credit toward the 124 points necessary for the B.A. degree.

Columbia College students may also take courses in the professional schools at Columbia University listed below for credit that goes beyond the 124 points necessary for the B.A. degree, if they receive permission to do so from their advising deans from the Berick Center for Student Advising.

Columbia College students enrolled in courses in these professional schools must follow the policies established by those schools; they must have the permission of the instructor of the course to enroll; and, in some instances, they must have the permission of the school in which the course is offered to enroll officially in the course.

Following is a list of schools and programs that allow undergraduates to register for courses, with their policies regarding the enrollment of Columbia College students. Students who wish to take a course in a Columbia school not listed below should first consult with their advising deans in the Berick Center for Student Advising.

**Columbia University Graduate School of Architecture, Planning and Preservation**

Qualified Columbia College students may enroll in seminars and lectures offered by the Graduate School of Architecture,
Planning and Preservation (GSAPP) on a space-available basis. Columbia College students are not permitted to enroll in any studio courses in GSAPP. See: https://www.arch.columbia.edu/
cross-registration.

Columbia University School of the Arts
Qualified Columbia College students may enroll in graduate courses offered by the School of the Arts on a space-available basis.

Columbia Business School
The Business School offers courses that are designed specifically for undergraduates, which are listed in the section of this Bulletin titled Departments, Programs, and Courses—Business.

Columbia College seniors may be able to take other courses offered by the Business School on a space-available basis if they have completed the required prerequisites. These courses do not count towards the limit of four professional school courses that can be taken for credit towards the Columbia College degree.

For these courses, students must follow the cross-registration guidelines of the Business School. Note that registration deadlines for these classes are often earlier than the College registration and Change of Program deadlines.

Columbia University School of International and Public Affairs
The School of International and Public Affairs (SIPA) offers open enrollment courses to all Columbia students on a space-available basis. Students interested in registering for a SIPA Open Enrollment Course at the 6000-level or above must receive instructor permission and then should complete and submit, along with documentation indicating instructor permission, a SIPA registration request form to the SIPA Registration office on the 6th floor of the International Affairs Building. If the class is not full, approval may be granted.

Columbia University School of Journalism
Columbia College students may enroll in certain courses offered by the School of Journalism on a space-available basis. Students must have signed permission from the School of Journalism's Office of the Associate Dean for Faculty and Academic Affairs, Pulitzer Hall.

Columbia Law School
In general, Columbia College students are not permitted to enroll in courses offered through the Law School. Exceptions to this policy may be granted under the following circumstances:

1. Law School courses may be taken by students in the Accelerated Interdisciplinary Legal Education (AILE) program. Students must have signed permission from the Law School Office of the Assistant Dean of Academic Services, 500 William and June Warren Hall.

2. Faculty in the Law School sometimes open a small number of spaces in their seminars to Columbia College seniors, to be selected through an application process. Such opportunities will be shared with students if they become available.

Columbia University School of Professional Studies
Columbia College students are not permitted to enroll during the academic year—i.e., Fall and Spring terms—in courses offered through the School of Professional Studies, unless those courses have been approved by the Committee on Instruction for specific degree programs (e.g., the major in Sustainable Development, in which case the specific courses are noted on the program’s website).

The School of Professional Studies (SPS) is responsible for the Summer Session at Columbia University. For information on taking courses at Columbia during the summer, please see the Summer Study section. Note that not all summer courses offered by SPS in Summer Session will count towards the 124 credits required for the B.A. Students interested in summer courses offered by the SPS should consult with their advising deans in the Berick Center for Student Advising before completing their enrollment.

Columbia Mailman School of Public Health
The Mailman School of Public Health offers courses designed for undergraduates through the Special Concentration in Public Health, which are listed in the section of this Bulletin titled Departments, Programs, and Courses—Public Health.

Qualified Columbia College students may enroll in other courses offered by the Mailman School of Public Health on a space-available basis with the permission of the relevant Mailman department. Students must complete the Public Health Cross Registration Application Form and receive signed permission from the department, as well as from the School of Public Health's Office of Student Affairs, 722 West 168 Street, Suite 1014. Once School of Public Health permissions are secured, students must also receive signed permission from the Berick Center for Student Advising, 403 Lerner, before proceeding to register for the course at the Registrar’s Office, 205 Kent.

Columbia University School of Social Work
Columbia College students may enroll in courses offered by the School of Social Work on a space-available basis.

Teachers College, Columbia University
In general, Columbia College students may not enroll in courses offered by Teachers College. Exceptions to this policy may be granted under the following circumstances:
1. In rare instances, a student’s faculty adviser may deem a course offered by Teachers College as essential to the student’s undergraduate major or concentration. Students with such permission from their faculty adviser should submit a petition to Academic Affairs, 202 Hamilton.

2. In certain instances, instrumental music instruction in a particular instrument may be available at Teachers College and not through the Music Department. If students are accepted into the music instruction program at Teachers College, they will be charged per credit for the course over and above their Columbia tuition. Students should submit a petition to Andrew Plaa, Dean of Advising in the Berick Center for Student Advising, 403 Lerner.

**SUMMER STUDY**

**Columbia Summer**

The Columbia University School of Professional Studies (SPS) is responsible for Columbia Summer, and students who enroll in summer courses offered by SPS are subject to the policies and procedures of SPS, which may differ from the policies and procedures that govern their undergraduate coursework in the College in the Fall and Spring semesters. Columbia College students interested in summer coursework should consult their advising dean in the Berick Center for Student Advising for information on the different policies and procedures governing Columbia Summer.

Not all courses offered in the Summer Session are accepted by Columbia College for credit. Students should also consult the annually updated List of Approved Summer Courses.

Normally, Columbia College students may earn credit toward the B.A. through summer coursework only for courses taken in the Columbia Summer. Columbia College students may enroll in a maximum of 8 points of credit in any Columbia Summer session (or in overlapping sessions), and may earn a maximum of 16 credits in any Columbia Summer term.

Columbia College students enrolled in coursework in Columbia Summer may utilize the Pass/D/Fail option only under the following circumstances:

- Columbia College students may utilize the Pass/D/Fail option a maximum of twice during a year that spans Fall, Spring, and Summer. Students have the opportunity to use the Pass/D/Fail option one time during the Fall semester and one time during the Spring semester.

- Students who have not utilized one or both of these Pass/D/Fail option(s) in the previous academic year may elect, in the summer immediately following, to take one course in a Summer session on a Pass/D/Fail basis.

- For additional information on and restrictions governing Pass/D/Fail credit, see the Academic Regulations—Exams and Grades section of this Bulletin.

Students who wish for summer coursework to count toward their major or concentration should receive permission from the director of undergraduate studies of their major department.

**Summer Study Outside Columbia University**

In general, Columbia College students may not take courses toward the B.A. degree during the summer at another college or university outside Columbia University except in the case of approved study abroad programs.

In some circumstances, permission may be granted to students to take courses in the summer toward the B.A. during the summer at another college or university. Those circumstances include the following:

- A student has fallen behind in credits and wishes to catch up on coursework in order to make adequate progress toward the degree in the expected 8 semesters.

- A student wishes to take a course that is a prerequisite for a course that should be taken in the following fall for the student’s major or concentration.

- A student wishes to take a language course toward the Foreign Language requirement. Students should note that introductory and intermediate language courses are only approved pending the successful completion of the departmental placement test into the next higher level language course. Students are responsible for arranging departmental testing upon return to campus in the Fall. If students do not place into the next level of the language course, credit will not be granted. Students who elect to discontinue study of the language or do not take the relevant departmental placement test will not be granted credit for the summer courses taken.

Students who wish to take summer coursework in one of the above categories should discuss their study plans with their advising dean in the Berick Center for Student Advising. Students should then go through the following steps for approval for summer coursework taken elsewhere:

1. Obtain a copy of Columbia College’s Pre-Approval for a Course Taken at Another U.S. Institution form, available in the Berick Center for Student Advising, 403 Lerner.

2. Carefully read the following procedures to apply for such credit.

3. Complete the approval request form, outlining their reasons for taking summer courses and listing the specific courses in which they wish to enroll.

4. Submit the completed approval request form to the advising dean.

Once submitted to students’ advising deans in the Berick Center for Student Advising, the Committee on Academic Standing reviews requests for approval. Students should secure pre-approval prior to enrolling in courses at other institutions, to
avoid the loss of time and expense of enrolling in a course that is ultimately not approved.

Students may not receive credits for study abroad during the summer except in Columbia-sponsored programs or approved foreign-language, archaeology, and field-studies programs. Students seeking summer study abroad credits must receive permission from the Center for Undergraduate Global Engagement, 606 Kent.

Students applying for summer school credit for courses that they wish to use in partial fulfillment of the science or Global Core requirements must submit the relevant course approval petition to their advising dean in the Berick Center for Student Advising for approval by the appropriate faculty committee, prior to taking the course. Note that students can only petition to have non-Columbia study abroad courses count towards fulfilling the Global Core requirement. Approval to receive College credit for summer school courses does not ensure approval of the course to fulfill one of these requirements.

**STUDY OUTSIDE COLUMBIA UNIVERSITY IN THE ACADEMIC YEAR**

In general, Columbia College students may not take courses for credit toward the B.A. degree at another college or university during the academic year (i.e., Fall and/or Spring). Permission to study at another school for a term or a year is granted only for study at institutions outside of the United States, as part of an approved study abroad program, or for study through one of the established domestic study-away programs. Exceptions may be granted for study during the summer. See the Summer Study section for more information.

Students who matriculate into degree programs at other institutions will not be eligible to continue study at Columbia. Columbia College students who matriculate at another post-secondary institution and/or are considered a degree-seeking student at a college or university other than Columbia College will be withdrawn from Columbia with no opportunity to return and complete the Columbia College degree.

**LEAVES OF ABSENCE AND WITHDRAWALS FROM COLUMBIA COLLEGE**

Students can request a leave of absence prior to the start of a term or during the term. When a student takes a leave of absence during a term, this action is also considered a withdrawal, defined as the dropping of one’s entire academic program in a given term after the first day of classes of the term and, as a result, withdrawing from Columbia College.

Withdrawing from Columbia College after the start of the semester can have implications for financial aid, and students are strongly advised to talk with their advising deans and with the Office of Financial Aid about any financial consequences of a necessary withdrawal. Any student withdrawing from Columbia College must notify the Berick Center for Student Advising in writing; it is not sufficient for a withdrawal to notify instructors of plans to withdraw or to stop attending classes. Absence from classes without officially withdrawing from Columbia College can result in failing grades in all courses.

**VOLUNTARY MEDICAL LEAVE OF ABSENCE**

A medical leave is granted to a student whose health condition interferes with successful full-time study. A leave can be granted for a minimum of one term and a maximum of two years.

Unless a student is granted an exception due to extenuating circumstances, a student will be permanently withdrawn after the maximum time period of two years.

Students must consult with their advising deans in the Berick Center for Student Advising to initiate a leave, and then provide medical documentation to support the request. Medical leaves must be accompanied by an individualized assessment of students’ individual healthcare needs.

While on leave, students must be actively engaged in a course of medical treatment that leads to recovery. In addition, students are required to continue to access their Columbia email, which is the official means of communication by the University.

When applying for readmission to Columbia College, students must provide medical documentation supporting their readmission. Normally, students may only return in the Fall or Spring term. Only in rare circumstances will students be readmitted from medical leave to enroll in courses for the Columbia Summer Session.

All questions about medical leaves should be addressed to the students’ advising deans in the Berick Center for Student Advising.

**Academic Standing and Transcript Notations**

Students who take a leave while in good academic standing will return in good academic standing; students who take a leave while on academic action will return on academic action. When a leave begins when a term is already in session, the student’s transcript will reflect the action of withdrawal and the date of withdrawal for the semester in question. If the date of withdrawal for a medical leave is on or before the Columbia College withdrawal deadline (noted on the academic calendar), the student’s transcript will not reflect the individual courses attempted during the term. If the date of withdrawal for a leave begins after the Columbia College withdrawal deadline, individual courses will remain on the transcript.

Ordinarily, Columbia College students who are authorized to withdraw for medical reasons after the withdrawal deadline
will receive a mark of W for each of their courses for the term. These notations indicate an authorized withdrawal from the courses. In rare cases, when a student must leave for medical reasons beyond the relevant deadline, a student and advising dean in the Berick Center for Student Advising can work together with the faculty to determine whether an Incomplete would be a more appropriate notation on the transcript. In order to be eligible for an Incomplete, the student must have completed all work for the course except the final paper, exam, or project. The student must also obtain the approval of the relevant advising dean(s) in the Berick Center for Student Advising as well as the appropriate faculty member(s). Students should consult with their advising deans in the Berick Center for Student Advising for more details.

Students who have been approved for authorized Incompletes in the last semester before their medical leave must complete the work of each course upon their return to campus by the end of the Change of Program period. If the work is not completed by the end of the Change of Program period of the term in which the student returns, the grade may convert to a contingency grade or to an F. Due dates for incomplete work should be determined in consultation with the advising dean in the Berick Center for Student Advising upon notification of readmission.

When students begin a leave after the Columbia College withdrawal deadline, they should be aware of the overall number of credits that must be completed to remain in good academic standing in future semesters. Students should keep in mind that Columbia College students should complete an average of 15.5 points per term to remain in good academic standing. Students should consult with their advising deans in the Berick Center for Student Advising to learn whether or not they will fall below the low points threshold (see section on Academic Standing) established for Columbia College students and, if so, work with their advising deans and departments to create a reasonable academic plan to ensure the timely completion of their degree.

Students are not permitted to earn transferable credits toward the degree while on medical leave from the University, as the purpose of the leave is to regain full health in order to return and resume full-time study. In some cases, healthcare practitioners may recommend that students take courses at home institutions as part of the recovery process. It is recommended that students follow the advice of their healthcare practitioners; however, they should make their decisions knowing that coursework taken elsewhere while on medical leave may not be transferred back to Columbia to count towards their degree.

If a student matriculates at another institution in a degree program while on leave from Columbia, the student will be considered to have transferred to another institution and will be permanently withdrawn from Columbia College.

**Readmission from Medical Leave of Absence**

Students must complete all parts of the following readmission procedures by the following deadlines:

- Fall term readmission – June 1
- Spring term readmission – November 1
- Summer term readmission – not permitted

In order to begin the readmission process, students must first discuss their plans with their advising deans in the Berick Center for Student Advising and then submit the following letters to their advising deans by email or fax:

1. Request for readmission: This letter should review the circumstances that led to the leave, describe in detail any activities pursued while away, explain why studies can now be successfully resumed, and outline a plan for continued support. The letter should also indicate whether or not campus housing will be required.
2. Letter from medical practitioner supporting readmission: This letter should describe the treatment prescribed for the student and progress made by the student, provide an evaluation of the student’s readiness to return to full-time study at Columbia, and outline the recommended continued care plan upon readmission.

The Medical Leave Readmission Committee is comprised of representatives of Columbia Health, the Berick Center for Student Advising, and other key offices of the College and the University. It meets in June and November to consider readmission requests for the Fall and Spring terms, respectively. Committee review is not guaranteed if documentation is submitted after the stated deadlines. Students will receive notification regarding one of the following three outcomes of the committee’s assessment of readmission requests:

1. Applicants are approved for an interview by a Columbia Health practitioner. Pending the results of the interview, a student may be officially readmitted or denied readmission and will be notified of a decision by the Berick Center for Student Advising by letter and email.
2. Additional information is requested.
3. Readmission is denied. Students may reapply the following semester for readmission.

Once officially readmitted, students will be provided an online registration appointment in order to enroll for the coming term. Normally, students will be able to register in late August for the Fall and in mid-January for the Spring term. In addition, students who are guaranteed housing upon readmission may submit a housing application by following the instructions in their readmission letter. Students on leave cannot participate in housing lotteries before being formally readmitted.

Students must address all financial or other obligations to the University that may still be outstanding from the beginning.
of their leave. If holds have been placed on their account, these holds must be cleared before they can enroll in classes or move into housing. If, after being readmitted for the following semester, a student cannot register by the end of the Change of Program period of that semester, then the student will be placed on another leave of absence.

Students are urged to meet with their advising deans in the Berick Center for Student Advising and, if they live in campus housing, a Residential Life staff member, during the first two weeks of their return to campus, to ensure a smooth transition back to the campus community.

**Voluntary Personal Leave of Absence (Nonmedical)**

A voluntary leave of absence may be granted by the Committee on Academic Standing to undergraduate students who request a temporary withdrawal from Columbia College for a nonmedical reason during the semester. Students do not need to petition the Committee on Academic Standing if they request a voluntary leave of absence prior to the start of the semester. Students considering a voluntary leave must discuss this option in advance with their advising deans in the Berick Center for Student Advising.

Voluntary leaves are granted for a period of one to four semesters. Students must be in good academic standing at the time of the leave, and must be able to complete their degree in a total of eight semesters.

When a leave begins after a term is in session, the student’s transcript will reflect the action of withdrawal and the date of withdrawal. If the date of withdrawal for a personal leave is on or before the Columbia College withdrawal deadline (noted on the academic calendar), the student’s transcript will not reflect the individual courses attempted during the term. Normally, if an emergency family leave begins after the Columbia College withdrawal deadline, the student’s transcript will include all courses attempted, with each course receiving a mark of W (indicating authorized withdrawal). In certain circumstances, a student may qualify for an Incomplete for a course, and the remaining work for the course would have to be completed by the end of the Change of Program period of the semester in which the student returns to Columbia. If the Incomplete is not completed by that time, the contingency grade or a W will be inserted as the final grade.

Normally, if a voluntary leave of absence begins after the Columbia College withdrawal deadline, the student’s transcript will include all courses attempted, with each course receiving a mark of W (indicating authorized withdrawal). In certain circumstances, a student may qualify for an Incomplete for a course, and the remaining work for the course would have to be completed by the end of the Change of Program period of the semester in which the student returns to Columbia. If the Incomplete is not completed by that time, the contingency grade or a W will be inserted as the final grade.

Students may not take courses for transferable credit while on leave. If a student matriculates at another institution in a degree program while on leave from Columbia, the student will be considered to have transferred to another institution and will be permanently withdrawn from Columbia College. Students who choose to take voluntary leaves are not guaranteed housing upon return to the University. International students should contact the International Students and Scholars Office to ensure that a leave will not jeopardize their ability to return to Columbia College.

To return to Columbia College, students must notify the Berick Center for Student Advising by June 1 for the Fall term or November 1 for the Spring term. Students must request readmission in writing and submit a statement describing their readiness to return.

**Family Emergency Leave of Absence**

Columbia College students who must leave the university for urgent family reasons that necessitate a semester-long absence (e.g., family death or serious illness in the family) may request an emergency family leave of absence. Documentation of the serious nature of the emergency must be provided. Students must request an emergency family leave of absence from their advising deans in the Berick Center for Student Advising.

When an emergency family leave begins after a term is in session, the student’s transcript will reflect the action of withdrawal and the date of withdrawal. If the date of withdrawal for an emergency family leave of absence is on or before the Columbia College withdrawal deadline (noted on the academic calendar), the student’s transcript will not reflect the individual courses attempted during the term. Normally, if an emergency family leave begins after the Columbia College withdrawal deadline, the student’s transcript will include all courses attempted, with each course receiving a mark of W (indicating authorized withdrawal). In certain circumstances, a student may qualify for an Incomplete for a course, and the remaining work for the course would have to be completed by the end of the Change of Program period of the semester in which the student returns to Columbia. If the Incomplete is not completed by that time, the contingency grade or a W will be inserted as the final grade.

To return to Columbia College, students must notify the Berick Center for Student Advising by June 1 for the Fall term or November 1 for the Spring term. Students must request readmission in writing and submit a statement describing their readiness to return. Once readmission is granted, housing will be guaranteed.

**Failure to Graduate**

Students who fail to graduate and who have been withdrawn from the College must apply for readmission within a two-year period in order to have an opportunity to complete the degree. If they do not complete their degree within two years, then they may be permanently withdrawn. To apply for readmission, students must have successfully completed no fewer than 90 points of academic credit and earned a GPA of no less than 2.0. Students must fulfill the degree and major or concentration requirements in place at the point of original matriculation. Readmission will be predicated upon the assessment of the student's ability to successfully complete the degree within
one calendar year. Inquiries regarding readmission should be directed to the Berick Center for Student Advising.

**READMISSION**

In general, students seeking readmission to Columbia College must submit evidence that they have achieved the purposes for which they left. Consequently, specific readmission procedures are determined by the reasons for the withdrawal. Policy statements outlining the readmission procedures for voluntary or medical leaves of absences are available in the Berick Center for Student Advising. Students should consult their advising deans for further information.

Students applying for readmission should complete all parts of the appropriate readmission procedures by June 1 for the Fall term or November 1 for the Spring term. Once an international student with F-1 or J-1 status is readmitted, the student should contact the International Students and Scholars Office to obtain a new visa certificate (form I-20 or form DS-2019).

Students may not take courses for transferable credit while on leave. If a student matriculates at another institution in a degree program while on leave from Columbia, the student will be considered to have transferred to another institution and will be permanently withdrawn from Columbia College.

**DEGREE REQUIREMENTS**

The faculty Committee on Instruction of Columbia College reviews Columbia College degree requirements and curricular matters regularly. This Bulletin reflects all faculty recommendations and curricular changes in its annual publication.

Columbia College policy requires students to fulfill the general degree requirements *(i.e., all degree requirements besides the major or concentration)* that are stated in the Bulletin of the first year of their matriculation at Columbia College, and to fulfill the major or concentration requirements that are stated in the Bulletin at the time that students declare their major or concentration (typically in the second year of study).

**MODIFICATION OF REQUIREMENTS**

The requirements for the degree may be modified or waived in individual and rare cases only with the approval of the Dean of Academic Affairs of Columbia College, acting on behalf of the faculty Committee on Instruction of Columbia College. Students wishing to petition for a modification of degree requirements should discuss their requests with their advising deans in the Berick Center for Student Advising.

**THE COLUMBIA COLLEGE COMMITTEE ON ACADEMIC STANDING**

The Columbia College Committee on Academic Standing implements academic policies and regulations for Columbia College students as set forth by the faculty Committee on
REGISTRATION

Student Service Center
210 Kent
212-854-4400
ssc@columbia.edu

REGISTRATION AND ENROLLMENT

"Registration" is the process by which eligible students reserve a seat for themselves in current or future classes. Students receive informational emails from the Registrar’s Office each semester that detail the procedures for each term’s registration period.

"Enrollment" is the completion of the registration process and affords the full rights and privileges of student status. It is accomplished by the payment or other satisfaction of tuition and fees and by the satisfaction of other obligations to the University.

The University reserves the right to withhold the privilege of registration or any other University privilege from any person with an unpaid debt to the University.

All Columbia College students must be registered for a minimum of 12 points of credit in any given semester. Each Columbia College student must be registered for at least 12 points of credit by the close of the Change of Program period (i.e., the end of the second week of classes in the Fall or Spring term), and those students who are registered for fewer than 12 points by this time will be withdrawn from the College. Graduating seniors who need fewer than 12 points of credit to complete their degree can petition the Committee on Academic Standing for permission to register for fewer than 12 points of credit, with the understanding that they will still be required to enroll as full-time students paying full-time tuition.

Students are held accountable for absences incurred owing to late enrollment.

Registration alone does not guarantee enrollment, nor does registration alone guarantee the right to participate in a class. In some cases, students need to obtain the approval of the instructor or of a representative of the department offering the course. In other cases, students may be required to attend the first few class sessions prior to official registration or to confirm official registration. Please check the course information in the Departments, Programs, and Courses section of this Bulletin and the registration instructions contained in the Directory of Classes for all of the approvals required.

According to University regulations, each person who completes registration is considered a student of the University during the term for which they register, unless the student’s connection with the University is officially severed by withdrawal or otherwise. No student registered or enrolled in any school/college of the University shall at the same time be registered or enrolled in any other school/college, either of the University or of any other institution, without specific authorization from the dean/director of the school/college in which the student is first registered.

The privileges of the University are not available to any student until they have completed registration. Typically, a student who is not officially registered for a University course may not attend the course; however, some courses may require students to attend the first few class sessions prior to official registration. Students are expected to register for courses during the time periods explicitly identified by the Office of the Registrar, and may be required to obtain written consent of a faculty member or of the Committee on Academic Standing to register at any time during an academic term.

To comply with current and anticipated Internal Revenue Service mandates, the University requires all students to report their Social Security numbers at the time of admission. Newly admitted students who do not have Social Security numbers should obtain one well in advance of first registration.

International students should consult with the International Students and Scholars Office, located at 524 Riverside Drive (+1-212-854-3587) for more information.

Questions about registration should be directed to the Berick Center for Student Advising.

REGISTERING FOR CLASSES

Registration instructions are sent to students from the Office of the Registrar by email announced in advance of each registration period. Students’ individual registration times are listed in Student Services Online (SSOL) and registration dates are listed on the Academic Calendar. Students should also consult the Registrar’s website for additional information. Students are responsible for ensuring that their academic programs are in accordance with the policies noted here.

Some classes may be blocked for online registration and require written approval; students should check Vergil or the Directory of Classes for approval information. Courses blocked from online registration require additional approval, either in SSOL or through your academic advisor. A completed Registration Adjustment Form, with all necessary approvals confirmed, may be required. A student cannot use the Registration Adjustment Form to register for a course if the course is not blocked from online registration or if the student is eligible to join the course Wait List. Speak with your academic advisor for more information on this process.

Students otherwise unable to register through SSOL must submit a completed Registration Adjustment Form to the Berick Center for Student Advising, with all necessary approvals confirmed.
Students are allowed to register for a maximum of 18 points of credit in any given semester. Also, students may not register for courses whose meeting times overlap. If students are accepted into courses through the Wait List so that their programs contain more than 18 points and/or overlapping courses, students are required to bring their enrollments into compliance with these registration policies by the end of the Change of Program period, either by reducing their course registrations to 18 points or fewer, and/or by dropping courses that overlap with others.

The Committee on Academic Standing in the Berick Center for Student Advising is tasked with upholding the academic policies of the College and will make changes to students’ registration if the students fail to ensure that their academic programs comply with these policies set by the faculty.

**Dropping or Withdrawing from Courses**

Students may drop a course from their academic program through the deadline noted during the fifth week of classes. Until this deadline, students can drop a course themselves online via Student Services Online (SSOL), although they are encouraged to talk with their advising dean about their choice to drop in order to consider all of their options. If a course is successfully dropped before this deadline, the course will be removed from the student’s program and transcript.

*Shared Core Curriculum courses have their own particular drop deadline—see “Dropping or Withdrawing from Core Curriculum Courses” below.*

Between the fifth week of classes and the tenth week of classes, students may withdraw from a course. To withdraw from a class, students must first meet with their advising dean in the Berick Center for Student Advising, 403 Lerner, to discuss their choice to withdraw in order to consider all of their options. Students must then submit a Columbia College Acknowledgment of Course Withdrawal form to their advising dean in the Berick Center for Student Advising. If a student successfully withdraws from a course after the drop deadline and before the withdrawal deadline, the course will remain on the student’s program and transcript with a notation of “W”, with no credit or final grade earned.

After the course withdrawal deadline, students may not withdraw from any course and will receive the letter grade earned in the course.

When considering the option to drop or withdraw from a course, students should be aware that, in order to remain in good academic standing, they must successfully complete no fewer than 12 points in a given semester. Students who do not earn at least 12 points per term will be placed on academic probation, or be suspended or dismissed. Students who do not make adequate progress to the degree (an average of 15.5 points per term) will also face academic probation, suspension, or dismissal.

Neither failure to attend classes nor a student’s personal communication to an instructor of intent to drop or withdraw will constitute dropping or withdrawing from a course. Students who stop attending classes without dropping or officially withdrawing are assigned the letter grade earned by factoring a zero or F for any missing work.

**Dropping or Withdrawing from Core Curriculum Courses**

The deadline to drop one of the shared Core Curriculum courses (i.e., Art Humanities, Contemporary Civilization, Frontiers of Science, Literature Humanities, Music Humanities, and University Writing) from an academic program is the end of the Change of Program period—i.e., the end of the first two weeks of classes. After this point, students cannot drop Core Curriculum courses but can withdraw from these courses according to the withdrawal processes noted above.

Please note that students can be placed on academic probation if they fail to complete certain Core classes in their first or second year. Students considering dropping a Core class should consult their advising deans before taking any action. For more details, see the section on Core Curriculum in this Bulletin.

**Declaring the Pass/D/Fail Option using the Registration System**

The deadline for declaring the Pass/D/Fail option for a course falls during the tenth week of classes. Up until this deadline, students may elect to change their course grading options for eligible courses from letter grading to Pass/D/Fail or from Pass/D/Fail to letter grading online via Student Services Online (SSOL).

The Pass/D/Fail option is available only for certain courses in a students’ program. Students should refer to Academic Regulations—Exams and Grades listed in this Bulletin for more information regarding this grading option.
STUDY ABROAD

GLOBAL ENGAGEMENT

The Columbia University Center for Undergraduate Global Engagement (UGE) develops, coordinates, implements, and collaborates with other units at Columbia to support academic and co-curricular opportunities—including study abroad, global internships, global service-learning, global research and global courses on campus and abroad—for global learning and engagement for all undergraduates during their Columbia University journey; and works closely with faculty in their global research and teaching to ensure visibility and access to opportunities that build global awareness and the accomplishment of global competencies. UGE enhances access and support for undergraduates to global opportunities and brings students and faculty together in a central location that creates a hub of global activity at Columbia, allowing students to better connect and learn about potential programs; faculty and staff to share their global and regional expertise and advice; and for the collaborative development, implementation and assessment of new and existing undergraduate global programs and opportunities for global engagement across Columbia and around the world.

Center for Undergraduate Global Engagement
606 Kent
212-854-2559
uge@columbia.edu

Studying in a foreign country for a semester, a full year, or sometimes a summer, represents a significant enhancement to the Columbia College education. Study abroad expands the walls of the institution and offers students the opportunity to gain first-hand experience of the larger global community of which we are all members. Students engaged in international study discover insights into other cultures, develop new perspectives, and learn to reflect on how their own culture has shaped their understanding of the world. Students interested in studying abroad should visit the Center for Undergraduate Global Engagement, 606 Kent, as early as possible to discuss their academic goals and to develop a plan for integrating international study into their curriculum.

ELIGIBILITY

The College maintains the authority over students’ participation in study abroad programs and upholds standards for all potential candidates. To be eligible for participation in a Columbia-approved study abroad program, students must meet the following criteria:

- Have a minimum cumulative GPA of 3.0, including the semester before going abroad;
- Have at least junior standing for semester study abroad (students in any class year can study abroad during the summer);
- Make progress toward finishing the Core Curriculum, specifically, Literature Humanities, Contemporary Civilizations, University Writing, and Frontiers of Science;
- Demonstrate academic interest by completing at least one course pertaining to the country or region where the student intends to study;
- Maintain good academic and disciplinary standing. A review of each student's academic and disciplinary records is conducted as part of the required clearance process. Students on academic or disciplinary probation are not permitted to study abroad during the term of their probation.

Eligibility requirements,

It is generally possible to arrange for study in most foreign countries through programs sponsored by Columbia or by other institutions, or through direct application to foreign universities. Such studies may be approved for one to two terms in the junior year or during any summer term.

CREDIT AND GRADING

Students who enroll in the following Columbia-sponsored programs receive direct Columbia credit for their courses. The grades earned in their studies are reflected on their official transcripts and cumulative GPA:

- Columbia in Paris
- The Berlin Consortium for German Studies
- The Kyoto Center for Japanese Studies
- Columbia in Kenya
- Columbia in London
- Consortium for Advanced Studies in Cuba

Credit from outside approved programs is certified as transfer credit toward the degree when the student returns to the College and upon receipt of appropriate transcripts and other supporting materials. Grades earned during participation in outside approved programs are not reflected on the transcript or the cumulative GPA. College transfer students should note that they are permitted no more than 60 points of outside credit (see Academic Regulations—Regulations for Transfer Students).

All students are reminded that the final 30 credits required for the degree must be taken while enrolled in the College for study on Columbia’s New York campus or on one of the Columbia-sponsored programs abroad. Any exceptions require special permission from the Committee on Academic Standing.

In addition, the following conditions apply for study abroad:

1. No credit is granted for courses in business, education, journalism, or other subjects that, at Columbia, are typically taught in professional schools.
2. Transfer credit is not awarded for courses taken on a Pass/Fail basis in outside programs. The minimum grade necessary for transfer of credit is C-.

STUDY ABROAD CLEARANCE
Students must be cleared to study on approved programs by the Center for Undergraduate Global Engagement, 606 Kent, by October 1 for the spring semester and by March 1 for the fall semester/academic year. Students must register with this office before November 15 for the spring semester and April 15 for the fall semester/academic year.

UNDERGRADUATE INTERNATIONAL TRAVEL POLICY
All matriculated undergraduates who wish to participate in Columbia-Led, Columbia-Facilitated and/or Recognized international travel must first be cleared to participate in such program and are then required to obtain School Sponsorship at least 4 weeks prior to departure, in accordance with the Undergraduate International Travel Policy.

TUITION AND FINANCES
While abroad, students remain enrolled at the College; tuition is paid to Columbia. Columbia, in turn, pays the academic costs of the overseas program. Students are financially responsible for room, board, and any other miscellaneous costs. Students receiving financial aid at Columbia remain eligible for aid when they study abroad with Columbia’s approval.

Students may direct financial aid and study abroad inquiries to the Financial Aid and Educational Financing, 618 Lerner; 212-854-3711; ugrad-finaid@columbia.edu.

For a full list of semester and study abroad opportunities, please visit the Undergraduate Global Engagement website: https://global.undergrad.columbia.edu/.

VIRTUAL EXCHANGE
Global Columbia Collaboratory
The Global Columbia Collaboratory works with students and the Columbia global network from around the world to create a space for global learning. Framed by the United Nations Sustainable Development Goals, it serves as a platform for virtual exchange opportunities for all involved to learn, reflect, and work collaboratively on projects and ideas relevant to today’s world.

Selected participants for the Collaboratory will participate in theme-based global seminars from faculty and experts drawn from Columbia’s global networks; exchange perspectives and reflect together on the global challenges framed by the global seminar; and develop ideas with potential to impact today’s society. Participants will be coached through the ideation process with support from the broader Columbia global network to help bring student projects to fruition.

Columbia College students who enroll in the Columbia-sponsored programs listed below have the same access to the financial aid they would have if they were enrolled in classes in New York. Students who plan to apply should consult with the Center for Undergraduate Global Engagement, 606 Kent; 212-854-2559; uge@columbia.edu (ogp@columbia.edu).

AFRICA
Kenya: Columbia in Kenya Program
In partnership with Princeton University, Columbia has developed a field semester abroad program in Kenya on Tropical Biology and Sustainability. Operating during the spring semester, this global immersion experience gives students the opportunity to study ecology, evolutionary biology, conservation biology, environmental engineering, and sustainable development in the environmental hub of East Africa. Based at Princeton's Mpala Research Centre in central Kenya, and with support from Columbia's Global Center Africa in Nairobi, students also travel across Kenya to places such as the forested slopes of Mt. Kenya, the wildlife-rich savannas of Laikipia, and the coffee and tea plantations of western Kenya. Students take four three-week course modules taught by Princeton and Columbia faculty who work in Kenya and other parts of East Africa.

For program information, students may consult https://global.undergrad.columbia.edu/ and email uge@columbia.edu (ogp@columbia.edu).

EAST ASIA
Japan: The Kyoto Consortium for Japanese Studies
The Kyoto Consortium for Japanese Studies (KCJS) offers an intensive, two-semester academic program primarily for undergraduates who wish to do advanced work in Japanese language and Japanese studies. The program is open to qualified students who have completed two or more years of college-level Japanese at the time of enrollment. A limited number of students may be admitted for single semester study in the fall or spring.

The KCJS curriculum provides intensive Japanese language study and the opportunity to choose from a broad spectrum of social sciences and humanities courses on premodern and contemporary Japan. The program takes advantage of the numerous social and cultural resources of Kyoto by incorporating into the curriculum field trips, guest speakers, and research projects based on local field work.

For program information, students may consult https://global.undergrad.columbia.edu/program/kcjs-semester and email uge@columbia.edu (ogp@columbia.edu). Students are also advised to consult with the director of undergraduate studies in the Department of East Asian Languages and Cultures.

141
Europe

France: Columbia in Paris
Established in 1966, the Columbia-Penn Program in Paris at Reid Hall offers semester, academic-year, and summer study-abroad options that challenge students to step outside the boundaries of a traditional French language program and use French as a means to further their understanding of their own area of study. Students with a good command of the French language refine their speaking and writing skills through intensive language training and by taking selected disciplinary courses taught in French specifically for the program at Reid Hall and in the French university system at partner institutions: Institut d’Etudes Politiques (Sciences Po), University of Paris I (Panthéon Sorbonne), University of Paris IV (Sorbonne), and University of Paris VII (Denis Diderot). Opportunities for participating in joint honors seminars and directed research are also available.

For program information, students may consult https://global.undergrad.columbia.edu/ and email uge@columbia.edu (ogp@columbia.edu).

Germany: The Berlin Consortium for German Studies
The Berlin Consortium for German Studies (BCGS) provides students with the opportunity to enroll in courses at the Freie Universität Berlin (FU Berlin) for the fall semester or a full academic year. The program begins with a six-week intensive language practicum which, in conjunction with a month-long homestay, prepares students for study at the FU Berlin. Upon completion of the practicum, students enroll in one course taught by the BCGS directors on a topic such as cultures, politics, history, literature, theater, or cinema; and for at least two, possibly more, FU Berlin courses for which they meet the prerequisites.

The FU Berlin offers a wide range of courses in the humanities, social sciences, and natural sciences. Students majoring in a variety of disciplines may choose from an array of appropriate courses.

For program information, students may consult https://global.undergrad.columbia.edu/program/bcgs and email uge@columbia.edu (ogp@columbia.edu). Students are also advised to consult with the director of undergraduate studies in the Department of Germanic Languages.

United Kingdom: Columbia in London Program
The Columbia in London Program operates under the direction of Columbia's Department of English and Comparative Literature, in partnership with Queen Mary University of London (QMUL), one of the UK's most prestigious academic institutions.

The program's Global Seminar studies major works of English and Anglophone literature from all periods and genres in a London context. Each fall, the program will be led by one Columbia faculty member whose research directly engages the literary culture of London. That faculty member will offer a version of the global seminar that will enable participating students to study literary texts in their immediate geographical and cultural settings, transforming their relationship to their objects of study and encouraging them to develop a wider range of reading practices and research methodologies. In addition to regular class meetings, the Global Seminar will involve regular outings to urban sites, designed to complement and enhance the readings and classroom discussions. Destinations will include the British Library, the British Museum, the Victoria and Albert Museum, the Tate Museums, the Globe Theater, and a host of other London cultural institutions.

In addition to the Global Seminar, students will also enroll alongside local students in courses offered by the host institution. QMUL offers programs across a broad range of disciplines, including physical and natural sciences, business and management, engineering, humanities, and social sciences.

For program information, students may consult https://global.undergrad.columbia.edu/ and email uge@columbia.edu (reidhall@columbia.edu).

United Kingdom: The Oxford/Cambridge Scholars Program
Columbia students interested in spending one or both semesters of their junior year at Oxford or Cambridge should apply for admission to the Oxford/Cambridge Scholars Program during the first term of their sophomore year. Application to the program is made through the Center for Undergraduate Global Engagement, where a preliminary selection of candidates is made. Designated candidates for admissions then apply to one of the participating colleges of Oxford or Cambridge. Criteria for admission include a very strong academic record at Columbia, as well as commitment to a chosen field of study. Application through the Columbia Oxford/Cambridge Scholars Program is the only way the College authorizes study at either university.

For program information, students may consult https://global.undergrad.columbia.edu/ and email uge@columbia.edu (ogp@columbia.edu).

Latin America and the Caribbean
Cuba: The Consortium for Advanced Studies in Cuba
The Consortium for Advanced Studies Abroad (CASA) program in Cuba is a collaborative initiative involving eight U.S. universities: Brown, Columbia, Cornell, Dartmouth, Johns Hopkins, Northwestern, University of Pennsylvania, and
Vanderbilt University. CASA-Cuba provides students with a unique opportunity to have direct access to Cuba’s leading institution of higher learning, the University of Havana, and to Casa de Las Américas, the Cuban government’s premier research institution on Caribbean and Latin American studies, Cuban culture, and the arts. Comprehensive student services support the academic and social experience. The program runs in both fall and spring semesters.

For program information, students may consult https://global.undergrad.columbia.edu/ and email uge@columbia.edu (ogp@columbia.edu).

Summer study abroad provides a meaningful complement to the College curriculum and can help students prepare for semester- or year-long overseas programs.

Columbia College students who enroll in the Columbia-sponsored summer programs listed below earn direct credit for their courses.

For a full list of summer study abroad opportunities, please visit the Undergraduate Global Engagement website: https://global.undergrad.columbia.edu/.

Recent programs are listed below.

**Africa and the Middle East**

**Jordan/Tunisia: The Middle Eastern and North African Studies Program in Amman and Tunis**

This nine-week program allows students to strengthen their skills in Modern Standard Arabic while being introduced to the history in the intersecting regions of the Maghreb and the Middle East. Students take the equivalent of a year of Modern Standard Arabic and receive training in the dialects of the the Mashrek and the Maghreb. The language program is complemented by a cultural and historical seminar featuring lectures by prominent specialists from Columbia University and partner institutions in the Middle East and North Africa.

For program information, students may consult https://global.undergrad.columbia.edu/ and email uge@columbia.edu (ogp@columbia.edu).

**East Asia**

**China: Columbia Summer in Beijing: Business Chinese**

This ten-week program is based at Peking University and offers advanced Chinese language students an opportunity to gain firsthand experience in the language, culture, and customs that drive the economic development of the world’s most populated nation. Students enroll in six weeks of intensive, personalized instruction in business Chinese language classes and four weeks of language practicum placements in Beijing offices of local/ multinational companies.

For program information, students may consult https://global.undergrad.columbia.edu/ and email uge@columbia.edu (ogp@columbia.edu).

**China: Columbia Summer in Beijing: Chinese Language**

This nine-week program immerses students in Beijing and offers four levels of intensive Chinese language studies from first through fourth year. Reading, writing, speaking and listening are emphasized in the classroom, in drill sections, and through private tutorials. Group excursions in and around Beijing and a week-long travel break give students insight into Chinese society and provide a variety of environments in which to practice language skills.

For program information, students may consult https://global.undergrad.columbia.edu/ and email uge@columbia.edu (ogp@columbia.edu).

**China: Global Scholars Program: Adaptation to Changing Climates**

The Global Scholars Program (GSP) in China consists of a spring course at Columbia, Principles of Animal Behavior, followed by a three-week field study course in China, Behavioral Adaptation to Changing Climates. Throughout the program, students will understand how animals cope with and adapt to changing environments. The program explores a broad range of topics in behavioral ecology, teaches hands-on research skills, and allows students to interact with government officials and students in China.

For program information, students may consult https://global.undergrad.columbia.edu/ and email uge@columbia.edu (ogp@columbia.edu).

**Japan: The Kyoto Consortium for Japanese Studies Program in Advanced and Classical Japanese**

This six- or eight-week program offers intensive training in modern and classical Japanese for students who have completed at least one year or three years of Japanese, or the equivalent.

For program information, students may consult https://global.undergrad.columbia.edu/ and email uge@columbia.edu (ogp@columbia.edu).

**Europe**

**France: Columbia Summer in Paris**

The six-week program offers modules at several levels designed to allow students to work together in small classes to integrate language and cultural studies and to progress in French
while using Paris as a learning lab for language, culture, and extracurricular activities.

For program information, students may consult https://global.undergrad.columbia.edu/ and email uge@columbia.edu (ogp@columbia.edu).

France : Columbia Summer Core in Paris: Art Humanities and Music Humanities

This six-week program enables students to complete two Core Curriculum courses, Art Humanities and Music Humanities, in Paris. The program emphasizes the musical and visual cultures of Paris. Day trips to important sites in the region, such as Chartres and Giverny, will complement the excursions to monuments and musical performances within Paris.

For program information, students may consult https://global.undergrad.columbia.edu/ and email uge@columbia.edu (ogp@columbia.edu).

France : Columbia Summer Undergraduate Math Research Program in Paris

This six-week program provides for intensive mathematical research with students and faculty from Columbia and the Université Denis Diderot in Paris.

For program information, students may consult https://global.undergrad.columbia.edu/ and email uge@columbia.edu (ogp@columbia.edu).

Germany : Columbia Summer Core in Berlin: Art Humanities and Music Humanities

This six-week program enables students to complete two Core Curriculum courses, Art Humanities and Music Humanities, in Berlin. The program emphasizes the musical and visual cultures of German. Two overnight excursions to important sites in Germany will complement the excursions to monuments and musical performances within Berlin.

For program information, students may consult https://global.undergrad.columbia.edu/ and email uge@columbia.edu (ogp@columbia.edu).

Greece: Columbia Summer in Greece: Athens Curatorial Project

This five-week program takes place in various locations in Greece and consists of an intensive curatorial workshop grounded in a seminar highlighting historical, anthropological, and literary approaches to aspects of Greek history and culture. It examines these through the organization of an art exhibition under the general theme of the environment.

For program information, students may consult https://global.undergrad.columbia.edu/ and email uge@columbia.edu (ogp@columbia.edu).

Italy: Columbia Summer in Italy: Archaeological Fieldwork

This four-week program provides students with the unique opportunity to excavate at Hadrian’s Villa, a UNESCO World Heritage site near Rome and the most important of Roman imperial villas. Students learn archaeological techniques at all levels and think critically about how excavation work allows for deeper insight into the social, political, economic, architectural and artistic history of classical antiquity.

For program information, students may consult https://global.undergrad.columbia.edu/ and email uge@columbia.edu (ogp@columbia.edu).

Italy: Columbia Summer in Venice

This six-week program is based at Ca’ Foscari University in Venice and uses an interdisciplinary approach to understanding Italian culture and society through study of its language, literature/film, art history and conservation, and economy. Students are given the opportunity to gain a deeper appreciation of the rich Venetian culture, traditions, and history.

For program information, students may consult https://global.undergrad.columbia.edu/ and email uge@columbia.edu (ogp@columbia.edu).

Latin America

Mexico: Columbia Summer in Mexico City: Colonization and Decolonization

This four-week program in Mexico City gives students the opportunity to study the dynamics of civilizational contact, exchange, and conflict in the Americas. It offers the Center for the Study of Ethnicity and Race course “Colonization and Decolonization” in a moveable classroom setting to allow students access to sites of historical and architectural significance, including museums, archives, as well as meetings with local scholars and non-governmental organizations.

For program information, students may consult https://global.undergrad.columbia.edu/ and email uge@columbia.edu (ogp@columbia.edu).

SUMMER STUDY ABROAD APPROVAL

Students seeking to study abroad during the summer must be approved by the Center for Undergraduate Global Engagement, 606 Kent. Transfer credit for summer classes taken abroad on outside programs is awarded only for foreign-language courses under these conditions:

- Credits for language study at the elementary and intermediate levels are awarded after the student takes a placement exam to determine his/her progress in the language. Advanced foreign-language instruction courses are accepted for academic credit upon review by the appropriate language department.
The only non-language instruction courses eligible for credit are courses which will satisfy the major or concentration. The courses must be taken abroad in a foreign language and must receive departmental approval to satisfy major or concentration requirements.

Limited exceptions can be made for awarding credit for summer courses taught in English. College credit can be granted provided that the course offers a unique experience, such as a field-studies program or archaeological dig, where the study-abroad site functions as a constituent part of the course, and the program must be approved by the Center for Undergraduate Global Engagement. Departmental approval is required and the course must satisfy major or concentration requirements.

**Exchange Programs**

In order to provide the richest and most immersive experience possible to its students, Columbia has established a network of exchange agreements with international institutions. With an exchange agreement, Columbia students may study at a partner institution; in exchange, students from the foreign institution may study at Columbia. Students take regular courses alongside local students, live in campus housing, have an academic adviser, and have access to all university facilities and resources.

Currently, Columbia has undergraduate exchanges with the following institutions:

- Bocconi University
- Bo#aziçi University
- Hong Kong University of Science and Technology
- University of Hong Kong
- Waseda University

Students who plan to apply to these programs should consult with the Center for Undergraduate Global Engagement, 606 Kent; 212-854-2559; uge@columbia.edu (ogp@columbia.edu).

**Credit and Grading**

As with other types of study abroad programs, all academic work completed abroad counts toward the Columbia degree, and students may take classes toward the major with the department’s approval.

**Tuition and Finances**

Columbia College students who attend these exchange programs have the same access to financial aid they would have if they were enrolled in classes on Columbia’s New York campus. Columbia students pay their usual Columbia tuition and are responsible for non-academic costs abroad.

Students may direct financial aid and study abroad inquiries to the Financial Aid and Educational Financing, 618 Lerner; 212-854-3711; ugrad-finaid@columbia.edu.
Preprofessional Advising

Berick Center for Student Advising
403 Lerner
212-854-6378
preprofessional@columbia.edu

Medical, dental, and other health professional schools prefer that undergraduates complete a four-year program of study culminating in a bachelor’s degree. All health professional schools require prerequisite coursework, but the specific coursework can vary somewhat from program to program and school to school. This coursework can be completed during the undergraduate years along with the Core Curriculum and the major or concentration.

Concentrations and Majors

There is no concentration or major preferred by medical school admissions committees. Students are encouraged to pursue a concentration or major in any field that appeals to them. Students concentrating in a non-science area may wish to take one or two extra science courses to demonstrate their interest and aptitude in the sciences. Students should work closely with their advising deans and preprofessional advisers from the Berick Center for Student Advising, as well as their departmental major adviser in planning a program that meets their interests.

Premedical Requirements

It is very important to note that each medical school in the United States and Canada individually determines its own entrance requirements, including prerequisite coursework or expected competencies. Each medical school also sets its own rules regarding acceptable courses or course equivalents. It is therefore essential that students confirm the premedical requirements for all schools to which they intend to apply.

In addition to medical school course requirements, medical schools currently require applicants to sit for the Medical College Admissions Test (MCAT). Students preparing for medical school are advised to take the following courses, as they will meet the prerequisites for most medical schools and will prepare applicants for the MCAT:

• 1 year of General Chemistry and General Chemistry Lab;
• 1 year of Organic Chemistry and Organic Chemistry Labs;
• 1 year of Introductory Biology and Biology Lab;
• 1 year of General Physics and Physics Labs;
• 1 semester Biochemistry;
• 1 semester of Introductory Psychology

At Columbia, the following courses correspond to the above requirements:

Chemistry
Select one of the following three options:

Option 1:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM UN1403</td>
<td>GENERAL CHEMISTRY I-LECTU</td>
</tr>
<tr>
<td>- CHEM UN1404</td>
<td>and GENERAL CHEMISTRY II-LECTURES</td>
</tr>
<tr>
<td>CHEM UN1500</td>
<td>GENERAL CHEMISTRY LABORATORY</td>
</tr>
</tbody>
</table>

Option 2: for students who place into the accelerated track:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM UN1604</td>
<td>2ND TERM GEN CHEM (INTENSIVE)</td>
</tr>
<tr>
<td>CHEM UN1507</td>
<td>INTENSIVE GENERAL CHEMISTRY-LAB</td>
</tr>
<tr>
<td>or CHEM UN1500</td>
<td>GENERAL CHEMISTRY LABORATORY</td>
</tr>
</tbody>
</table>

Option 3: available to students depending on results of placement exam:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM UN1507</td>
<td>INTENSIVE GENERAL CHEMISTRY-LAB</td>
</tr>
<tr>
<td>CHEM UN2045</td>
<td>INTENSIVE ORGANIC CHEMISTRY</td>
</tr>
<tr>
<td>- CHEM UN2046</td>
<td>and INTENSIVE ORG CHEM-FOR 1ST YEAR (formerly CHEM W3045-W3046)</td>
</tr>
<tr>
<td>CHEM UN2545</td>
<td>INTENSIVE ORGANIC CHEM LAB</td>
</tr>
</tbody>
</table>

Organic Chemistry

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM UN2443</td>
<td>ORGANIC CHEMISTRY I-LECTURES</td>
</tr>
<tr>

<td>INTRO TO MECHANICS # THERMO and INTRO ELEC/MAGNETSM # OPTCS</td>
</tr>
<tr>
<td>PHYS UN1601 - PHYS UN1602</td>
<td>PHYSICS I: MECHANICS/ RELATIVITY and PHYSICS II: THERMO, ELEC # MAG</td>
</tr>
<tr>
<td>PHYS UN1291 - PHYS UN1292</td>
<td>GENERAL PHYSICS I LAB and GENERAL PHYSICS II LABORATORY</td>
</tr>
<tr>
<td>PHYS UN1493</td>
<td>INTRO TO EXPERIMENTAL PHYS-LAB</td>
</tr>
<tr>
<td>PHYS UN1494</td>
<td>INTRO TO EXPERIMENTAL PHYS-LAB</td>
</tr>
<tr>
<td>PHYS UN2699</td>
<td>Experiments in Classical and Modern Physics</td>
</tr>
<tr>
<td>PHYS UN3081</td>
<td>INTERMEDIATE LABORATORY WORK</td>
</tr>
<tr>
<td>PHYS UN2801 - PHYS UN2802</td>
<td>ACCELERATED PHYSICS I and ACCELERATED PHYSICS II</td>
</tr>
<tr>
<td>PHYS UN1493</td>
<td>INTRO TO EXPERIMENTAL PHYS-LAB</td>
</tr>
<tr>
<td>PHYS UN1494</td>
<td>INTRO TO EXPERIMENTAL PHYS-LAB</td>
</tr>
<tr>
<td>PHYS UN2699</td>
<td>Experiments in Classical and Modern Physics</td>
</tr>
<tr>
<td>PHYS UN3081</td>
<td>INTERMEDIATE LABORATORY WORK</td>
</tr>
</tbody>
</table>

### Option 3:
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYC UN1001</td>
<td>THE SCIENCE OF PSYCHOLOGY</td>
</tr>
</tbody>
</table>

While these courses are recommended for MCAT preparation, students should note the following additional information:

- **English**: Most medical schools require one year of English, emphasizing skill acquisition in writing. Columbia College students fulfill this requirement with UNIVERSITY WRITING (ENGL CC1010) and Masterpieces of Western Literature and Philosophy (Literature Humanities) (HUMA CC1001-HUMA CC1002).
- **Mathematics**: Although not required by most medical schools, calculus is required for Columbia chemistry sequences and therefore all premedical students should have successfully completed the equivalent of one semester of Calculus. Medical schools that do have a mathematics requirement typically expect one semester of calculus and one semester of statistics. Any Columbia calculus and statistics classes will meet the requirement and it is sometimes possible to use AP credit toward this requirement.
- **Biochemistry**: An increasing number of medical schools require one semester of biochemistry. While Columbia’s introductory biology sequence covers many foundational concepts of biochemistry, which may prepare students for the MCAT, many medical schools will require a course in Biochemistry prior to matriculation.
- **Advanced Biology**: A small number of schools require more than one year of introductory biology and many of these recommend specific advanced level classes.
- **Social and Behavioral Science**: A number of schools have begun to add social and behavioral science courses into their requirements, including, but not limited to, psychology and sociology.

Students should note that medical schools’ stated prerequisites are subject to change from year to year and it is the responsibility of students to confirm the prerequisite requirements for the medical schools to which they intend to apply. Most medical schools list their requirements in greater detail on their individual websites. More information can also be found from the Association of American Medical Colleges (AAMC).

### Barnard Courses

While it is preferred that students complete their premedical requirements with Columbia College courses, students may take premedical requirements at Barnard if course prerequisites have been satisfied in advance. However, students should keep in mind that the Columbia Biology and Chemistry Departments may not accept Barnard courses toward the concentration and major. Students should consult their departmental advisers before registering for a Barnard course.

### Students with Advanced Placement

Advanced Placement (AP) credit is accepted by some schools, but not all. Students are responsible for monitoring the requirements of each school to which they intend to apply.

Generally, students with AP credit are strongly advised to take further courses in the field in which they have received such credit.

### Application to Health Profession Programs

For many health professions programs, students apply for admission more than a year in advance of matriculation. Most Columbia students take time between undergraduate and health profession school and thus wait to apply to these schools until after graduating. Students who are interested in going directly on to health professional school following graduation should...
complete all prerequisite courses which will prepare them for application by the end of the junior year.

Students planning to apply to medical or dental school should meet with preprofessional advisers prior to application and plan to obtain a Premedical Advisory Committee letter as part of their application. A Premedical Advisory Committee application is made available each year in December. For more information regarding this process, please consult with a preprofessional adviser in the Berick Center for Student Advising, 403 Lerner preprofessional@columbia.edu.

**Clinical and Research Exposure**

Preprofessional Advising maintains an online list of many different clinical volunteer and research opportunities across New York City and beyond. These opportunities can offer students the chance to explore the health profession and to interact with patients, and these experiences are viewed by medical schools as essential preparation. Students are therefore strongly encouraged to spend time volunteering or working in clinical and research environments before applying to medical school.

**The Fu Foundation School of Engineering and Applied Science**

**The Combined Plan (3-2) Program**

The Combined Plan (3-2) Program is a dual degree program that provides Columbia College students the opportunity to earn a Bachelor of Arts degree from Columbia College and a Bachelor of Science degree from The Fu Foundation School of Engineering and Applied Science in five years. Columbia College students must apply in their junior year to The Fu Foundation School of Engineering and Applied Science. In order to apply, students must have completed or be in the process of completing the pre-engineering courses including:

<table>
<thead>
<tr>
<th>Mathematics</th>
<th>Chemistry</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH UN1101</td>
<td>CALCULUS I</td>
</tr>
<tr>
<td>- MATH UN1102</td>
<td>and CALCULUS II</td>
</tr>
<tr>
<td>- MATH UN1201</td>
<td>and CALCULUS III</td>
</tr>
<tr>
<td>or</td>
<td></td>
</tr>
<tr>
<td>MATH UN1101</td>
<td>CALCULUS I</td>
</tr>
<tr>
<td>- MATH UN1102</td>
<td>and CALCULUS II</td>
</tr>
<tr>
<td>- MATH UN1207</td>
<td>and HONORS MATHEMATICS A</td>
</tr>
<tr>
<td>- MATH UN1208</td>
<td>and HONORS MATHEMATICS B</td>
</tr>
<tr>
<td>or</td>
<td></td>
</tr>
<tr>
<td>MATH UN1101</td>
<td>CALCULUS I</td>
</tr>
<tr>
<td>- MATH UN1102</td>
<td>and CALCULUS II</td>
</tr>
<tr>
<td>- MATH UN1205</td>
<td>and ACCELERATED MULTIVARIABLE CALC</td>
</tr>
</tbody>
</table>

| MATH UN1202 | CALCULUS IV |
| CHEM UN1403 | GENERAL CHEMISTRY I-LECTU (at a minimum) |

**Physics**

Select one of the following three sequences:

| PHYS UN1401 | INTRO TO MECHANICS # |
| - PHYS UN1402 | THERMO |
| and INTRO ELEC/MAGNETISM # OPTCS |

| PHYS UN1601 | PHYSICS I:MECHANICS/RELATIVITY |
| - PHYS UN1602 | and PHYSICS II: THERMO, ELEC # MAG |

| PHYS UN2801 | ACCELERATED PHYSICS I |
| - PHYS UN2802 | and ACCELERATED PHYSICS II |

Some programs require a third semester of Physics

**Computer Science**

Select one of the following four courses, depending on program:

| ENGI E1006 | INTRO TO COMP FOR ENG/APP SCI |
| COMS W1004 | Introduction to Computer Science and Programming in Java |

**Economics**

| ECON UN1105 | PRINCIPLES OF ECONOMICS |

**Laboratory Requirement (choose one of the following)*:**

| PHYS UN1494 | INTRO TO EXPERIMENTAL PHYS-LAB |
| CHEM UN1500 | GENERAL CHEMISTRY LABORATORY |

*Note that some majors require a specific lab in either Chemistry or Physics, or both

As a condition for admission to the 3-2 program students must have also completed the requirements for a Columbia College major or concentration, as well as any additional pre-curricular requirements for the specific engineering major (see specific requirements on the Undergraduate Admissions website). In the fourth and fifth years of study, students will be enrolled at the Fu Foundation School of Engineering and Applied Science. During those years, the students must complete the requirements for a major in the Fu Foundation School of Engineering and Applied Science in consultation with a faculty advisor for their engineering department. Students with more than 35 transfer credits are not eligible for the program. Housing and financial aid will be continued.

Each fall, Undergraduate Admissions conducts information sessions in which students meet with the Combined Plan Program administrator. For more information, students should contact their advising deans in the Berick Center for Student Advising, 403 Lerner, or email combinedplan@columbia.edu.
The 4+1 Program with Columbia College

The 4+1 Program provides students in The Fu Foundation School of Engineering and Applied Science (SEAS) the opportunity to obtain a Bachelor of Arts degree from Columbia College, through the completion of one additional year of study after the completion of four years of study and the fulfillment of all requirements for the Bachelor of Science degree in engineering.

SEAS students who are interested in the 4+1 Program must declare their interest in the spring of their sophomore year and plan their next three years of study with the program adviser. The fifth year of study commences in the fall semester and students are required to conclude their studies after two full-time semesters of enrollment. Students are expected to earn 31 credits while enrolled at Columbia College.

The program is selective, and admission is based on the following factors:

1. Granting of the B.S. at SEAS at the end of the fourth year
2. The fulfillment of all Columbia College Core Curriculum requirements by the end of the fourth year at SEAS
3. Maintaining a minimum GPA of 3.0 in Columbia College Core courses as well as those courses counting toward the Columbia College major
4. Creating a plan to complete a Columbia College major or concentration by the end of their fifth year that is approved by the appropriate director of undergraduate studies.

For more information, students may contact their advising dean in the Berick Center for Student Advising, 403 Lerner.

The Graduate School of Arts & Sciences

The B.A./M.A. option allows Columbia College students to enroll in graduate-level courses at Columbia and apply the earned credit toward a Columbia M.A., assuming admission to the Graduate School of Arts and Sciences. Applicants interested in the B.A./M.A. option should apply at least two months prior to the semester in which they intend to begin taking courses that will count toward the M.A. Some academic programs have more specific application deadlines.

Coursework taken toward the B.A./M.A. option is subject to the following guidelines:

1. The credit for the coursework must be in excess of the 124 points required for the B.A. degree.
2. A course used to fulfill a requirement for the B.A. degree may not be counted toward graduate credit.
3. The student must obtain the approval of both the graduate department(s) offering the course(s) and the undergraduate department in which they are majoring or concentrating.
4. The maximum amount of graduate credit that an undergraduate can earn toward the M.A. degree requirement in the Graduate School of Arts & Sciences is 0.50 Residence Unit. For more information on the Residence Units for graduate programs, please consult the relevant website of the Graduate School of Arts & Sciences.

Students who are interested in pursuing the B.A./M.A. option must consult the director of graduate studies (DGS) or program director of their intended M.A. program before applying. This consultation is a required part of the application process and must take place before a B.A./M.A. application may be submitted.

THE JUILLIARD SCHOOL

Exceptionally talented Columbia College students have access to instrumental, composition, and voice instruction at The Juilliard School through two distinct programs.

The Cross-Registration Program

The Cross-Registration Program provides Columbia College students with the opportunity to enroll in weekly instrumental (classical and jazz), composition, and vocal instruction at The Juilliard School. Students must submit a formal application and audition successfully at Juilliard to be accepted into the Cross-Registration Program. Annual juries will be held at Juilliard at the end of each academic year, to determine that students are eligible to continue in the program. The Cross-Registration Program covers weekly instruction only; ensembles and classes at Juilliard are generally not open to participants in the Cross-Registration Program.

Applicants to the Cross-Registration Program may be incoming first-year students or continuing students in Columbia College, and they should submit a Juilliard Application for Admission, including pre-screening materials. Students in the cross-registration program may participate in the program for up to four years of study and have the option of applying to the joint B.A./M.M. program in their junior year.

The Joint B.A./M.M. Program

The joint degree program offers students the opportunity to earn a B.A. degree from Columbia and an M.M. degree from Juilliard in five years. Voice candidates may need six years of study to complete the program depending on preparation.

Columbia College students must have participated in the cross-registration program for at least one year to be eligible to apply to the joint degree program. There are no prerequisite courses required to qualify for admission to the joint program, but students considering the program are encouraged to complement their cross-registration instruction at Juilliard with music classes and participation in ensembles at Columbia.

College students apply to the joint degree program in their junior year. To be considered for the program, Columbia College students must have completed by the end of junior
year 94 points of coursework, including all Core Curriculum requirements and the major or concentration requirements for the B.A., and they must have participated in the cross-registration program for at least one year. If accepted to the joint degree program, students will become full-time graduate students at Juilliard in their fourth year and will be subject to Juilliard’s financial aid policies. While it may be possible to complete 1-2 courses required for the B.A. degree at Columbia College in the fourth year, students must receive permission to do so from the College and will not be eligible for financial aid from Columbia College in that fourth year.

Eligible students should submit the Juilliard Application for Admission by the appropriate deadline. The pre-screening (if applicable) is waived, and live auditions are held at The Juilliard School in early March.

Students who wish to pursue the joint program should consult with Alex España, Associate Dean, in the Berick Center for Student Advising.

THE LAW SCHOOL

Accelerated Interdisciplinary Legal Education Program

The Accelerated Interdisciplinary Legal Education (AILE) Program provides Columbia College students with outstanding records the opportunity to earn a B.A. degree from Columbia College and a J.D. degree from Columbia Law School in six years.

To be eligible to apply, students must have enrolled in all six semesters of study for the B.A. from Columbia College on Columbia’s New York campus (i.e., students with semesters of transfer credit or study abroad credit, even from Columbia programs, are not eligible to apply to the joint program). Students must have completed by the end of junior year 93 points of credit toward the B.A., including all Columbia College Core Curriculum requirements and also the requirements for a major or concentration. In the fifth and sixth years of study (i.e., the second and third years at the Law School), students must complete 12 points of coursework through the Graduate School of Arts and Sciences, and the coursework must have the prior approval of the student’s preprofessional adviser.

Interested students should submit an application in the spring of their junior year to the Office of Preprofessional Advising in the Berick Center for Student Advising. Columbia College may nominate one or two juniors each year for consideration, and the final admission determination is made by the Law School Admissions Committee. Prospective participants in this program must take the Law School Admission Test (LSAT) or Graduate Record Examination (GRE) no later than the February administration in the year of intended enrollment. After formal admission to the Law School, students are withdrawn from the College to become full-time Law School students in their fourth year, and are subject to the financial aid and housing policies of the Law School from that point forward.

AILE students receive Columbia College and Law School degrees at the same time, at the end of six years. AILE students must apply for the B.A. degree the term before they expect to graduate. Students should inform their advising deans in the Berick Center for Student Advising of their plans to graduate in order to be considered for honors and Phi Beta Kappa.

For more information, students may contact Preprofessional Advising, 403 Lerner, 212-854-6378; preprofessional@columbia.edu.

THE MAILMAN SCHOOL OF PUBLIC HEALTH

The 4+1 program between Columbia College and Columbia School of Public Health is a dual degree program that offers students the opportunity to earn a Bachelor of Arts degree from Columbia College and a Master’s in Public Health degree from the Mailman School of Public Health (Mailman) in five years.

Students accepted into the program spend the fall semester of their senior year taking the multidisciplinary Public Health Core Curriculum at Mailman, then complete their undergraduate coursework for the College’s B.A. degree in the spring semester of their senior year. After graduation from the College, students in the program enroll full-time at Mailman and engage in coursework, thesis work, and a practicum. The practicum takes place in the summer following the academic year of coursework and thesis work at Mailman.

College students may apply to the program in their junior year. Applicants must have a minimum cumulative GPA of 3.5, and are expected to have taken at least one semester of calculus, statistics or other appropriate quantitative course. Particular M.P.H. disciplines – specifically, the Biostatistics program and the Environmental Health Sciences program – have additional prerequisites. More information, including application instructions, can be found on the Mailman website.

For more information, students may contact their advising dean in the Berick Center for Student Advising, 403 Lerner.

THE SCHOOL OF INTERNATIONAL AND PUBLIC AFFAIRS

The International Affairs Five-Year Program

The International Affairs Five-Year Program offers Columbia College students the opportunity to earn both a Bachelor of Arts degree and a Master’s in International Affairs degree from the School of International and Public Affairs (SIPA) in five years.

Students apply to the program during their junior year through the School of International and Public Affairs Admissions Office. Admission to the joint program does not constitute admission to SIPA. Once admitted to the joint program, students complete their senior year at Columbia College, by
taking mostly graduate-level courses that are approved by SIPA to count toward the M.I.A. degree.

To be eligible for the program, students must have, by the end of their junior year, been enrolled in Columbia College for at least four semesters; completed a minimum of 93 credits; achieved competence in a modern foreign language; and completed all Columbia College Core Curriculum requirements. They also must have satisfied all major/concentration requirements, with the possible exception of two courses (i.e., needing no more than 6-8 credits to complete the major/concentration). These two courses toward the major or concentration may be taken during the senior year while completing 24 points of other coursework that will be accepted by SIPA. One 3-point course approved by SIPA may be taken in the junior year. It may be possible to take courses toward the M.I.A. degree during the summer between the junior and senior year with prior approval. To progress in the M.I.A. program in the fifth year, students must receive the B.A. from the College with a satisfactory GPA. Upon formal admission to SIPA after their senior year, students may apply for housing and financial aid through SIPA.

For more information, students may contact their advising deans in the Berick Center for Student Advising, 403 Lerner.

Public Policy and Administration Five-Year Program

The 4+1 program in Public Policy and Administration is a dual degree program that offers students the opportunity to earn a Bachelor of Arts degree from Columbia College and a Master’s of Public Affairs degree from the School of International and Public Affairs in five years.

Interested students should apply during their junior year through the School of International and Public Affairs Admissions Office. Admission to the joint program does not constitute admission to SIPA. Once admitted to the joint program, students complete their senior year at Columbia College, by taking mostly graduate-level courses that are approved by SIPA to count toward the M.P.A.

To be eligible for the program, students must have, by the end of the junior year, been enrolled in Columbia College for at least four semesters; completed a minimum of 93 credits; achieved competence in a modern foreign language; completed all College Core Curriculum requirements. They also must have satisfied all major/concentration requirements, with the possible exception of two courses (i.e., needing no more than 6-8 credits to complete the major/concentration). These two courses toward the major or concentration may be taken during the senior year while completing 24 points of other coursework that will be accepted by SIPA. One 3-point course approved by SIPA may be taken in the junior year. It may be possible to take courses toward the M.P.A. degree during the summer between the junior and senior year, with prior approval. To progress in the M.P.A. program in the fifth year, students must receive the B.A. from the College with a satisfactory GPA. Upon formal admission to SIPA after their senior year, students may apply for housing and financial aid through SIPA.

For more information, students may contact their advising dean in the Berick Center for Student Advising, 403 Lerner.

Please note: This Columbia College Bulletin page will be updated as information on exchange programs is confirmed. Thank you.
ACADEMIC HONORS, PRIZES, AND FELLOWSHIPS

DEAN’S LIST

During each academic term, students who have earned a minimum GPA of 3.6 or better in 12 or more points of letter credit in the preceding term are placed on the Dean’s List. The grade P is considered neutral when the averages are figured, and the dividing factor is reduced by the number of points taken for Pass credit. Students who have received grades of D, F, W (or UW pre-Spring 2014) during the term are not eligible for consideration. In any given semester, the mark of YC (year course) precludes the attainment of Dean’s List status until the grade for the entire year’s coursework is awarded. Students who receive the grade of IN (incomplete), approved in advance by the Committee on Academic Standing, are eligible for Dean’s List only after all IN grades are changed to letter grades. Students who have been found responsible by the Office of Student Conduct and Community Standards for a violation of academic integrity will not be eligible for the Dean’s List during the term of the sanction.

COLLEGE (LATIN) HONORS

The Bachelor of Arts degree will be awarded with honors in three categories (cum laude, magna cum laude, summa cum laude) to the top 25 percent of the graduating class. Honors are determined by an undergraduate student’s cumulative GPA for all work at Columbia, with the top 5 percent of the graduating class being awarded summa cum laude, the next 10 percent being awarded magna cum laude, and the remaining 10 percent awarded cum laude.

College honors are the highest academic recognition awarded by the College. There is no separate consideration of honors for October or February graduates. The honor is officially noted on the diploma and transcript of students who have graduated. October and February graduates may ask the Registrar to add an honors notation to an already issued diploma.

Both academic standing and disciplinary standing are taken into consideration when awarding College honors.

Valedictorian and Salutatorian

The Committee on Honors, Awards, and Prizes reviews the academic records of the most exceptional students nominated by the faculty for Valedictorian and Salutatorian. Selection is based not on GPA alone, but on the breadth, depth, rigor of academic program, high quality of academic achievement, departmental recommendations, and outstanding academic work beyond that which is required for the degree.

The Committee on Honors, Awards, and Prizes considers both academic standing and disciplinary standing within the College when awarding Valedictorian and Salutatorian.

DEPARTMENTAL HONORS

Departmental honors may be established and awarded by any Columbia College department or academic program, and is recorded on a student’s final transcript. Students should consult with their director of undergraduate studies no later than the beginning of the first term of their senior year if they wish to be considered for departmental honors. Students who are awarded departmental honors are notified by their department in mid-May. Not all departments and programs offer departmental honors.

College guidelines for departmental honors include the following four criteria:

- Departmental honors are awarded to no more than 10%, or, in small departments, one member, of the graduating majors (including all October, February, and May degrees);
- A grade point average (GPA) of at least 3.6 in major courses is expected for a student to be considered for departmental honors;
- An honors thesis or equivalent project of high quality should be required by each department or academic program in order to receive departmental honors;
- Academic departments and programs consider both academic standing and disciplinary standing within the College when awarding departmental honors.

PHI BETA KAPPA

This academic society was founded in 1776 to recognize and celebrate friendship, morality, and learning. The Columbia College Delta chapter was formed in 1869. Each year, 10% of the senior class are inducted into Phi Beta Kappa by faculty who are members of the society. Two percent are elected in the fall and the other eight percent are elected in the spring. Selection is based not only on academic achievement, but also on evidence of intellectual promise, character, and achievement outside the classroom. Academic achievement is measured by strength and rigor of program, as well as by grades and faculty recommendations. Students may not apply for Phi Beta Kappa nor may they solicit faculty for recommendations.

As with graduation honors, October and February graduates are considered along with May graduates. Election to Phi Beta Kappa is noted on a student’s transcript.

The faculty Phi Beta Kappa selection committee considers both academic standing and disciplinary standing within the College when selecting new members to the society.
While prizes are typically awarded annually, they are done so at the discretion of the respective selection committees. Hence, should a selection committee decide, in a particular year, that there are no suitable candidates; the prize will not be awarded. Unless otherwise noted, these prizes are awarded to Columbia College students only.

**General Prizes**

**Alumni Association Achievement Award**
(1947) A trophy, in the form of a Columbia lion, awarded annually to the member of the senior class who is judged to be most outstanding for qualities of mind, character, and service to the College.

**Alumni Prize**
(1858) Awarded annually by the Alumni Association to the senior judged by classmates to be the most faithful and deserving.

**Charles H. Bjorkwall Prize**
(1937) Established by Ottle Emma Bjorkwall in memory of her brother, Dr. Charles H. Bjorkwall. Awarded annually to a member of the senior class for unselfish service to the College community.

**Edward Sutliff Brainard Memorial Prize**
(1920) Established by Miss Phebe Sutliff in memory of her nephew, Edward Brainard Sutliff, CC'21. Awarded annually to the member of the graduating class who is judged by classmates to be most worthy of distinction for qualities of mind and character.

**James Christopher Caraley Memorial Prize**
(1984) Established in memory of James Christopher Caraley, 1959–1979, CC'81, by his family and friends. Awarded annually to that member of the junior class who has demonstrated the greatest commitment to the value of preservation of the natural environment or of world peace and order.

**Robert Lincoln Carey Memorial Prize**
(1967) A trophy, in the form of a lion, awarded annually by the Alumni Association to the senior who, through a combination of leadership qualities as exercised in the nonathletic extracurricular program of Columbia College and outstanding achievement in the academic program of the College, best exemplifies the ideals that Robert Lincoln Carey sought to engender in the students of Columbia College.

**Stanley I. Fishel/Zeta Beta Tau Prize**
Established in honor of Stanley I. Fishel, CC'34, who was president of ZBT while at Columbia and later national president, and who believed in the important role fraternities can play in the development of undergraduates. Awarded to an undergraduate fraternity member who has demonstrated leadership, academic achievement, and participation in athletics or other campus activities.

**Richard H. Fox Memorial Prize**
(1927) Established by Mr. and Mrs. Leon S. Fox in memory of their son, Richard H. Fox, CC'21. Awarded to the senior who, in the judgment of the King’s Crown Advisory Committee, has shown to the College the greatest interest and helpfulness. The student must have participated in some nonathletic activities and must be one who combines intelligence with a kindly interest in his or her fellows.

**Robert Shellow Gerdy Prize**
(1969) Established by Mr. and Mrs. Irving Gerdy in memory of their son, Robert Shellow Gerdy, CC’39. Awarded to that member of the graduating class who, throughout the undergraduate years, has made a significant contribution as a member of the staff of one or more College student publications, especially Jester, Columbia Review, and Spectator.

**Robert Harron Award**
(1972) Established by his friends in memory of Robert Harron. Awarded annually to a member of the junior class for qualities of grace and generosity.

**King’s Crown Award**
(1916) Gold and silver insignia in the form of King’s Crowns, each distinguished by a device symbolic of a particular activity, awarded annually by the King’s Crown Advisory Committee in recognition of significant participation in any activity under its jurisdiction. Conferred each spring on the basis of written nominations solicited from the governing board of each eligible organization.

**Milch Prize**
(1948) Established by Dr. and Mrs. Henry Milch. Awarded annually to the member of the junior class who, by leadership in extracurricular as well as scholastic activities, has, in the judgment of teachers and classmates, done the most to enhance the reputation of Columbia College.

**Leonard A. Pullman Memorial Prize**
(1965) A certificate and the inscription of the student’s name on a plaque in Alfred Lerner Hall, awarded annually to a member of the senior class who displays those qualities of outstanding scholarship and significant service to the College exemplified in the life of Leonard Pullman, CC’62. The recipient must occupy a position of responsibility in a nonathletic Columbia College activity.

**Charles M. Rolker, Jr. Prize**
(1909) Established by Mrs. C. M. Rolker in memory of her son, Charles M. Rolker, Jr., CC 1907. Awarded annually to the member of the graduating class who is judged by classmates to be most worthy of special distinction because of scholarship, participation in student activities, or in any combination thereof.

**Van Am Prize**
(1925) Established by the Class of 1898 on the occasion of its twenty-fifth anniversary. Awarded to the member of the sophomore class who is most distinguished for service, character, and courtesy in relations with faculty members,
fellow students, and visitors. A donation is presented to the student activity of the winner’s choice.

**GENERAL ACADEMIC PRIZES**

**ALBERT ASHER GREEN MEMORIAL PRIZE**
(1913) Established by Mr. and Mrs. Asher Green in memory of their son, Albert Asher Green, CC 1914. Awarded to the senior who has been a student in good standing in the College for at least three years and who has made the best record of scholarship.

**DAVID B. TRUMAN ALUMNI AWARD**
(1970) Established in honor of David B. Truman, former Dean of the College, this award acknowledges the Columbia College student who has made the most distinguished contribution to the academic affairs of the College.

**PRIZES IN THE CORE CURRICULUM**

**JOSHUA A. FEIGENBAUM PRIZE IN LITERATURE HUMANITIES**
(2004) Established by Joshua Feigenbaum and awarded to a student who is judged by the faculty to have exhibited excellence in Literature Humanities.

**WALLACE A. GRAY PRIZE IN LITERATURE HUMANITIES**
(2004) Established in memory of the late Professor Wallace Gray and awarded annually to the Columbia College undergraduate who is judged by the faculty to have written the best essay in Literature Humanities.

**DEAN HAWKES MEMORIAL PRIZE IN THE HUMANITIES**
(1943) Established by a committee of the Class of 1943 in memory of Dean Herbert E. Hawkes. Awarded annually to the member of the junior class who is judged to be the most deserving on the basis of work in the humanities.

**JONATHAN THRONE KOPIT PRIZE IN LOGIC AND RHETORIC**
(1997) Established by Mrs. Ina Cohen in memory of her husband, Jonathan Throne Kopit, CC’68. Awarded annually to the Columbia College student who, in the opinion of the departmental committee, has made the most significant progress in University Writing.

**JAMES P. SHENTON PRIZE IN CONTEMPORARY CIVILIZATION**
(2004) Established by the Committee on the Core and the Office of the Dean of the College in memory of Professor James P. Shenton, CC ‘49 and GSAS ‘55. Awarded annually to the Columbia College undergraduate who is judged by the faculty to have written the best essay in Contemporary Civilization.

**PRIZES IN THE HUMANITIES**

**DINO BIGONGIARI PRIZE**
(1954) Established by the former students and friends of Professor Dino Bigongiari, awarded annually to the senior who has written an outstanding essay on Italian civilization or whose work in the regular Italian courses is judged most worthy of distinction.

**BUNNER PRIZE**
(1896) Established by friends of the late Henry Cuyler Bunner. Awarded to the candidate for a degree in Columbia University who has submitted the best essay on a topic dealing with American literature. The topic to be selected in connection with course or seminar work in American literature and approved by the chairman of the Bunner Prize Committee.

**DOUGLAS GARDNER CAVERLY PRIZE**

**DEUTSCHER VEREIN PRIZE IN GERMAN**
(1917) Awarded annually to the junior or senior who submits the winning essay on a prescribed topic in German literature.

**EARLE PRIZE IN CLASSICS**
(1907) Established in memory of Mortimer Lamson Earle, CC 1886, lecturer and professor in the Department of Classics. Awarded for excellence in sight translation of passages of Greek and Latin. Only candidates for the degree of Bachelor of Arts may compete.

**JAMES GUTMANN PRIZE IN PHILOSOPHY**
(1987) Established in honor of James Gutmann, this prize is awarded to a graduating Columbia College senior in Philosophy who plans to pursue graduate work in the field.

**ADAM LEROY JONES PRIZE IN LOGIC**
(1934) Established by Mrs. Adam Leroy Jones in memory of her husband, who was Associate Professor of Philosophy and Director of University Admissions, 1909–1934. Awarded to a student in the College for the best essay on any topic in the philosophy of science or in the foundation of logic. It may be either a topic connected with seminar work in the Department of Philosophy or one approved by the Jones Prize Committee.

**HELEN AND HOWARD R. MARRARO PRIZE**
(1972) Established in honor of Professor Howard R. Marraro. Awarded to an undergraduate of high academic distinction and promise in an area of study concerned with Italian culture, including art, music, comparative literature, history, economics, government, or in any other academic discipline.

**BENJAMIN F. ROMAINE PRIZE FUND**
(1922) Gift of Benjamin F. Romaine to provide an annual prize for proficiency in Greek language and literature.

**ERNEST STADLER PRIZE FOR THE EXCELLENCE IN THE STUDY OF CLASSICAL ANTIQUITY**
father, Ernest Stadler, who had a life-long commitment to the study of classical antiquity. The prize may be awarded annually to a graduating senior of Columbia College who is judged by the faculty to have demonstrated academic excellence through coursework and the writing of a senior essay on some aspect of the history or culture of the classical world.

**Prizes in the Social Sciences**

**Charles A. Beard Prize in Political Science**  
(1963) Established by the Honorable Albert Levitt. Awarded to the student who writes the best paper in political science during the academic year.

**Carl B. Boyer Memorial Prize**  
(1978) Established by Mrs. Carl B. Boyer in memory of her husband. Awarded annually to the Columbia undergraduate who writes the best essay on any topic in the history of science or mathematics as judged by a faculty committee.

**Shanley & Chamberlain Prize**  
(2019) Annual award for best undergraduate essay in the areas of the American presidency, Congress, or public policy.

**Chanler Historical Prize**  
(1877) Established at the bequest of J. Winthrop Chanler, CC 1847. Awarded to the senior who submits the best essay on a topic dealing with the history of civil government in America. The topic to be selected in conjunction with seminar work in one of the social science departments and approved by the chairperson of the Chanler Prize Committee.

**Taraknath Das Foundation Award**  
(1957) Awarded annually to a student in Columbia College, the School of General Studies, or Barnard College for excellence in Asian studies, particularly in the history and culture of India.

**Albert Marion Elsberg Prize**  
(1912) Established by Mrs. Albert Elsberg in memory of her son, Albert Marion Elsberg. Awarded to a student with sophomore, junior, or senior standing who has demonstrated excellence in modern history.

**Sanford S. Parker Prize**  
(1980) Funded by the family and friends in memory of Sanford S. Parker, CC’37. Awarded to a Columbia College senior going on to graduate study in economics who shows promise of doing original work and has already demonstrated boldness of thought and a commitment to excellence, whose interests are wide, heart kind, and spirit generous.

**Caroline Phelps Stokes Prize**  
(1910) Established at the bequest of Caroline Phelps Stokes. Awarded to a student who has been a degree candidate for at least one academic year at Columbia College or Barnard College, and who has written the best essay on any topic concerning the rights of man. The topic to be selected in connection with course or seminar work and approved by the Stokes Prize Committee.

**Alan J. Willen Memorial Prize**  
(1968) Established by classmates and friends of Alan J. Willen, CC’64, in his memory. Awarded to the Columbia College student who writes the best seminar paper on a contemporary American political problem. The selection is made jointly by representatives of the Departments of History and Political Science.

**Myra Kraft Prize for Superior Academic Achievement in the Study of Human Rights**  
(2013) Established to honor the memory of Myra Kraft, beloved wife of Robert Kraft, CC’63 and Trustee Emeritus, this prize is awarded to the Columbia College student majoring in Human Rights who has the highest grade point average and a superior record of academic achievement in Human Rights.

**Prizes in the Natural and Physical Sciences**

**Alfred Moritz Michaelis Prize**  
(1926) Established by Mrs. Jeanette Michaelis in memory of her son, Alfred Moritz Michaelis, CC 1920. Awarded to the member of the graduating class who has completed with the most proficiency the sequence of courses in physics that corresponds most nearly to the sequence given by the late Professor George V. Wendell.

**Professor Van Amringe Mathematical Prize**  
(1910) Established by George G. DeWitt, CC 1867. Awarded to three College students (a first-year, a sophomore, and a junior) who are deemed most proficient in the mathematical subjects designated during the year of the award.

**John Dash Van Buren, Jr. Prize in Mathematics**  
(1906) Established by Mrs. Louise T. Hoyt in memory of her nephew, John Dash Van Buren, Jr., CC 1905. Awarded to the degree candidate who writes the best examination on subjects prescribed by the Department of Mathematics.

**Prizes in the Creative and Performing Arts**

**Seymour Brick Memorial Prize**  
(1969) Established by Mrs. Seymour Brick and her son, Richard, in honor of their husband and father, Seymour Brick, CC’34. Awarded to the Columbia College student who submits the best one-act or full-length play as judged by the Department of English and Comparative Literature.

**Karen Osney Brownstein Writing Prize**  
(1991) Established by Neill H. Brownstein, CC’66, in memory of Karen Osney Brownstein. Awarded to a graduating senior in Columbia College who has written a single piece or a body of work so distinguished in its originality of concept and excellence of execution that it fairly demands the award, support, and recognition the prize intends.
GEORGE WILLIAM CURTIS PRIZE
(1902) Established by the late Samuel Putnam Avery, CC 1896, an associate of George William Curtis. Awarded to students in the College for excellence in the public delivery of English orations.

ROBERT W. GOLDSBY FUND
(2019) Awarded to the Columbia College student who demonstrates excellence in the dramatic arts.

PHILOLEXIAN CENTENNIAL WASHINGTON PRIZE
(1902) Gift of J. Ackerman Coles, CC 1864. Awarded once every four years to the student in the college who shall be deemed most worthy, upon delivery of an original address on a subject concerning public affairs.

PHILOLEXIAN PRIZE FUND
(1904) A gift of the Philolexian Society, the income from which shall be used for prizes in Columbia College for debating, essays, short stories, and poetry.

AUSTIN E. QUIGLEY PRIZE
(2010) The Austin E. Quigley prize for outstanding artistic and intellectual achievement may be awarded to a Columbia College senior majoring in Drama and Theatre Arts. Named in honor of Columbia College’s dean from 1995-2009, the prize is funded by Nobel Laureate Richard Axel, CC ’67 and University Professor of Biochemistry and Molecular Biophysics.

THE LOUIS SUDLER PRIZE IN THE ARTS
(1983) Awarded annually to a senior who, in the opinion of the Faculty, has demonstrated excellence of the highest standards of proficiency in performance or execution or in the field of composition in one of the following general areas of performing and creative arts: music, theatre, painting, sculpture, design, architecture, film or dance.

VAN RENSSELAER PRIZE
(1926) Gift of Maximilian Foster. Awarded to the candidate for a degree in Columbia University who is the author of the best example of English lyric verse. Material must be submitted to the Department of English and Comparative Literature by April 1.

GEORGE EDWARD WOODBERRY PRIZE

Fellowships for Graduate Study
HARRY J. CARMAN FELLOWSHIP
(1949) Established by friends and former students of Harry J. Carman GS 1919, former dean of Columbia College, this fellowship is awarded annually to a Columbia College senior who exhibits intellectual promise for advanced study.
JARVIS AND CONSTANCE DOCTOROW FELLOWSHIP
(2005) Established by the Jarvis and Constance Doctorow Foundation, this fellowship is awarded annually to a Columbia College senior for one year of study at St. Edmund Hall, Oxford University.
HENRY EVANS TRAVELLING FELLOWSHIP
(1928) Established by Mrs. Henry Evans in memory of her husband, Henry Evans CC 1881, this fellowship is awarded annually to graduating seniors at Columbia College who are planning to undertake a research project of a creative nature that requires travel rather than formal graduate study.
HOLTHUSEN-SCHINDLER ENDOWMENT FUND
(2000) Established through a bequest from the estate of Lenore S. Holthusen GS’51, the widow of Hen Holthusen CC 1915, LAW 1917, this scholarship is awarded to graduates of Columbia College who continue their education at Columbia Law School.
EURETTA J. KELLETT FELLOWSHIPS
(1932) Established through a bequest from the estate of Euretta Jane Schlegel, this fellowship is awarded to Columbia College seniors who have shown exceptional proficiency in the study of liberal arts for one or two consecutive years of study at Oxford University or Cambridge University.
SPECIAL UNDERGRADUATE FELLOWSHIPS

COLUMBIA COLLEGE SCIENCE SCHOLARSHIP
(2018) Awarded to outstanding undergraduate sophomores majoring in biology, chemistry, chemical physics, biophysics, or neuroscience and behavior for summer undergraduate research in one of the labs of the Columbia College Science Scholars faculty.

BEESEN GLOBAL EXPERIENCE TRAVEL FELLOWSHIPS
(2015) Established by Charles F. Beesen LS’58, this fellowship is awarded annually to undergraduate students of Columbia College and Barnard who are not native speakers of French for summer study abroad in Paris.

THE CLASS OF 1939 SUMMER RESEARCH FELLOWSHIP
(1989) Established by the Class of 1939 in honor of the 50th anniversary of their graduation, this fellowship grants students the opportunity to pursue their intellectual goals, gain valuable research experience, and cultivate stronger relationships with faculty members.

HARVEY KRUEGER GLOBAL EXPERIENCE FELLOWSHIP
Established by Harvey M. Krueger CC’51, LAW’53, this fellowship is awarded to Columbia College students for study abroad or independent research projects in Israel or Poland.

HERBERT DERESIEWICZ SUMMER RESEARCH FELLOWSHIP
(2011) Established by Robert Leslie Deresiewicz CC’79, P: CC’13, CC’16, in memory of his father Herbert Deresiewicz SEAS’48, SEAS’52, P: CC’79, CC’85, Bc’78, GSAS’90, GSAS’93, GSAS’98, JRN’87, PT’79, a long time SEAS faculty member and department chairman who held a deep and abiding love for undergraduate teaching. This fellowship is awarded to a Columbia College or SEAS student for full-time laboratory research on the Morningside Heights campus in biological sciences, biomedical engineering, chemistry or chemical engineering.

INTERNATIONAL AFFAIRS FELLOWSHIP FUND
(2019) Established by an anonymous donor, this fellowship is awarded to Columbia College juniors majoring in political science proposing summer research focusing on international relations, human rights, or regional studies.

SOLOMON AND SEYMOUR FISHER CIVIL LIBERTIES FELLOWSHIP
(1989) Established by Solomon Fisher, CC’36, LAW’38, P: CC’62, GSAS’68 and Seymour Fisher, CC’45, this fellowship is awarded annually to a Columbia College student for work during the summer at the Legal Department of the American Civil Liberties Union National Office in New York City.

KLUGE FELLOWS SUMMER RESEARCH GRANT
(1988) Established by John Kluge, CC’37, P: CC’05 this fellowship . Administered by the Columbia University Scholars Program (CUSP) Summer Enhancement Fellowships, grants are awarded competitively to students from underrepresented groups for independent research project during the summer under the sponsorship of a faculty member. The application process includes a series of seminars and workshops.

RICHARD LEWIS KOHN TRAVELLING FELLOWSHIP
(1959) Established in memory of Richard Lewis Kohn CC’60 from gifts of various donors, this fellowship is awarded annually to a Columbia College student for study during the junior year in Great Britain.

MYRA KRAFT PRIZE FOR EXCEPTIONAL PRACTICAL EXPERIENCE IN HUMAN RIGHTS ADVOCACY
(2013) Established by Robert Kraft CC’63, P: CC’94, in memory of his wife Myra Kraft P: CC’94, this prize is awarded to the rising Columbia College senior majoring in human rights for a summer or one-term human rights internship.

NICHOLAS LUBAR AND FAMILY PRIZE
(2019) Established by Nicholas R. Lubar CC’73, this prize is awarded to Columbia College students for summer research in the field of Latin American politics or policy-making related to economic development and improved standards of living within Latin America and the Caribbean nations.

MELLON MAYS UNDERGRADUATE FELLOWSHIP
(1996) Awarded in the spring semester of the sophomore year to minority students, and other undergraduates with a demonstrated commitment to racial diversity, who wish to pursue a Ph.D. and whose intellectual and social commitments embody those of the late Dr. Benjamin Mays. The fellowship is for a two-year academic enhancement program funded by the Andrew W. Mellon Foundation.

NOBUHISA AND MARCIA ISHIZUKA GLOBAL FELLOWSHIP IN EAST ASIAN STUDIES
(2015) Established by Nobuhisa Ishizuka CC’82, LAW’86 this fellowship is awarded annually to a Columbia College student for an international experience studying Japanese language and culture.

PRESIDENTIAL GLOBAL FELLOWSHIP
(2014) Established by President Lee C. Bollinger, the fellowship is awarded to first-year undergraduates (CC, SEAS, GS) for participation in global engagement opportunities.

SANFORD S. PARKER PRIZE SUMMER FELLOWSHIPS
(1980) Funded by the family and friends of Sanford S. Parker CC’37. Awarded to Columbia College juniors in order to conduct summer research projects. Recipients will show promise of doing original work, and demonstrate boldness of thought and a commitment to excellence.
RICHARD AND BROOKE KAMIN RAPAPORT
SUMMER MUSIC PERFORMANCE FELLOWSHIP
(1993) Established by Brooke Kamin Rapaport and Richard A. Rapaport CC’69, P: CC’22, this music fellowship is awarded to Columbia College students who are particularly gifted in musical performance, composition or conducting.

EDWIN ROBBINS ACADEMIC RESEARCH
AND PUBLIC SERVICE FELLOWSHIP
(1991) Established by Edwin Robbins, CC’53, LAW’55, P: LAW’88, this fellowship is awarded each summer to four Columbia College students majoring in political science or history who intend to conduct research into important political or policy making matters, or who will be working as interns, without compensation, in a governmental office, agency, or other public service organization.

ARTHUR ROSE TEACHING ASSISTANTSHIP
(1958) Established by Mr. and Mrs. Bennett Rose in memory of their son, Arthur Rose. This fellowship is awarded to a senior in Columbia College who is to assist the work of a member of the faculty in one of the departments that contribute to the courses in Contemporary Civilization and the Humanities.

THE PHYLLIS STEVENS SHARP FELLOWSHIP IN AMERICAN POLITICS
(2005) Established by John Stevens Sharp CC’79, GSAS’80, GSAS’82, this fellowship is awarded to Columbia College students majoring in political science for research in American politics or policy making or uncompensated internships in a government office, agency, or other organization serving the public.

SUMMER UNDERGRADUATE RESEARCH FELLOWSHIP
Awarded to undergraduate students for hands-on biology related laboratory research on either the Morningside campus or in the biomedical labs at Columbia’s Health Sciences. The fellowship provides for one summer of full time research.

RICHMOND B. WILLIAMS TRAVELLING FELLOWSHIP
(1988) Established through a bequest from the estate of Richmond B. Williams CC’1925, JRN’1925, this fellowship is awarded to Columbia College juniors majoring in English for a summer research project requiring foreign travel.

YATRAKIS SUMMER RESEARCH FELLOWSHIP
(2019) Established in honor of Kathryn B. Yatrakis GSAS’76, GSAS’81, P: CC’94, CC’96, CC’05 by her family, this fellowship is awarded to Columbia College students for summer research in urban studies.

SPECIAL ENDOWMENTS
CLASS OF 1954 URBAN NEW YORK PROGRAM ENDOWMENT

(1981) Established by the Class of 1954, this fund enables students and faculty to jointly experience cultural events through the Urban New York Program.

ARNOLD I. KISCH, M.D., AND VICTORIA L. J. DAUBERT, PH.D FUND FOR STUDENTS TO EXPERIENCE OPERA IN N.Y.C.
(1993) Created for students to experience opera in New York City within the Urban New York Program.
STANDARDS AND DISCIPLINE

As members of the Columbia University community, all Columbia College students are expected to uphold the highest standards of integrity, civility, and respect. Students are therefore expected to conduct themselves in an honest, civil, and respectful manner in all aspects of their lives. Students who violate these standards of behavior interfere with their ability, and the ability of others, to take advantage of the full complement of University life, and are subject to Dean’s Discipline.

The continuance of each student upon the rolls of the University, the receipt of academic credits, the confirmation of graduation, and the conferral of any degree or the granting of any certificate are strictly subject to the disciplinary powers of the University. Ultimate authority on matters of students’ discipline is vested in the Trustees of the University, which is delegated to the Dean of Columbia College and his staff, who establish standards of behavior for Columbia College students beyond the regulations included in the Statutes of the University, and who define procedures by which discipline will be administered.

A full list of behavioral and academic violations can be found through Student Conduct and Community Standards.

BEHAVIORAL STANDARDS

University policy regarding behavior standards have been developed for the purposes of maintaining a safe and healthy educational environment. Categories of prohibited conduct include, but are not limited to, the following:

- Access/Egress, Unauthorized
- Alcohol, Prohibited use of
- Collusion
- Columbia University Identification Card, Prohibited use of
- Columbia Identity (or affiliated organizations), Unauthorized use of
- Copying and/or Distribution, Unauthorized
- Disruptive Behavior
- Endangerment
- Failure to Comply
- Falsification
- Federal, State or Local laws, Violation of
- Fire Safety Policies, Violation of
- Harassment
- Hazing
- Illegal Drugs Policy, Violation of
- Information Technologies Policies, Violation of
- Retaliation
- Smoking Policy, Violation of University
- Surveillance/Photography, Unauthorized
- Theft
- University Policies, Violation of
- Vandalism/Damage to Property
- Weapons

Violations of the policies regarding the above categories will be subject to Dean’s Discipline.

ACADEMIC INTEGRITY

A Columbia College education has two complementary elements: the intellectual development of bodies of knowledge and habits of mind, and the overall development of moral character and personal ethics. These elements are supported by a commitment to academic integrity.

Academic integrity defines an intellectual community and its educational mission. As members of the intellectual community of Columbia College, students are expected to respect and acknowledge the intellectual work of others and denote clearly how their own work relates to that of others.

Violating the standards of academic integrity severely inhibits a student’s opportunity to mature academically, professionally, and socially. Consequently, a violation of academic integrity is one of the most serious offenses a student can commit at the University.

Violations of academic integrity may be intentional or unintentional and can include, but are not limited to:

- Academic Dishonesty, Facilitation of
- Assistance, Unauthorized
- Bribery
- Cheating
- Collaboration, Unauthorized
- Dishonesty
- Ethics, Honor Codes, and Professional Standards, Violation of
- Failing to Safeguard Work
- Giving or Taking Academic Materials, Unauthorized
- Obtaining Advanced Knowledge
- Plagiarism
- Sabotage
- Self-Plagiarism
- Test Conditions, Violation of

ACADEMIC INTEGRITY IN THE VIRTUAL AND HYBRID CLASS ENVIRONMENT

The Columbia undergraduate classroom, whether real or virtual, is a vital and dynamic space for learning, sustained
by the expectation that the class experience is shared only by participants in the course. The free and respectful exchange of ideas is the foundation of teaching and learning and can occur only if all course participants agree as a matter of academic integrity (subject to standard penalties) to respect the guidelines established below.

To support and sustain the class experience, the Columbia undergraduate Committee on Instruction sets forth the following expectations, pertaining both to course materials and to course meetings:

• Course materials, including handouts, readings, slides, and attendant materials must not be broadly shared, distributed, or sold outside the course environment (including on social media) without permission of the instructor. They must be understood as the product of instructors’ intellectual work, and treated as their property.

• The contents of class discussion and breakout rooms may not be circulated outside the classroom, in whole or in part, for non-educational purposes (e.g., on social media) or outside the Columbia community. Students are expected to respect the complex dynamics of class discussion and use discretion when repeating the ideas of others outside of the classroom. The audio and visual recordings of class discussion and breakout rooms belong to the course participants and must be understood in the context of the course. This is especially crucial to protect the identity of speakers; in certain circumstances, failure to do so could be a form of bullying and could endanger course participants.

• Recordings of class sessions must not be shared, in whole or in part, with those outside the class. Students are not permitted to record any portion of class sessions without the explicit consent of the instructor.

**Dean’s Discipline Overview**

It is expected that all students act in an honest way and respect the rights of others at all times. Dean’s Discipline is the process utilized by Columbia College to investigate and respond to allegations of behavioral or academic misconduct. The Dean’s Discipline process aims to educate students about the impact their behavior may have on their own lives as well as on the greater community and, as a result, is not meant to be an adversarial or legal process.

The process is initiated when an allegation is reported that a student has violated Columbia College or University policies. Students may be subject to Dean’s Discipline for any activity that occurs on or off campus that impinges on the rights of other students and community members. This also includes violations of local, State, or Federal laws.

[Student Conduct and Community Standards](#) is responsible for all disciplinary affairs concerning Columbia College students that are not reserved to some other body.

Columbia College students are expected to familiarize themselves with *Standards and Discipline* and the comprehensive list of policies and expectations available on the [Student Conduct and Community Standards](#) website.
Since policies and procedures are subject to change, please check the Columbia University website for the most current information.

RESERVATION OF UNIVERSITY RIGHTS

This Bulletin is intended for the guidance of persons applying for or considering application for admission to Columbia College of Columbia University and for the guidance of Columbia students and faculty.

In general, the Bulletin sets forth the manner in which the University intends to proceed with respect to the matters set forth herein, but the University reserves the right to depart without notice from the terms of this Bulletin. The Bulletin is not intended to be, and should not be, regarded as a contract between the University and any student or other person.

Valuable information to help students, faculty, and staff understand some of the policies and regulations of the University can now be found in University Policies, which includes information on the following:

- Additional Policy Sources for the Columbia Community
- Central Administration of the University's Academic Programs
- Consumer Information
- Crime Definitions in Accordance with the Federal Bureau of Investigation's Uniform Crime Reporting Program
- Essential Resources:
  - Campus Safety and Security
  - Disability Services
  - Ombuds Office
  - Transcripts and Certifications
- FERPA - Policy on Access to Student Records under the Federal Family Educational Rights and Privacy Act (FERPA) of 1974, as Amended
- Gender-Based Misconduct Policies for Students
- Information Technology Policies
- International Travel Planning Policy
- Involuntary Leave of Absence Policy
- Military Leave of Absence Policy
- Non-Retaliation Policy
- Policies on Alcohol and Drugs
- Policies and Procedures on Nondiscrimination and Harassment
- Policy on Partisan Political Activity
- Protection of Minors
- Social Security Number Reporting
- Student Email Communication Policy
- University Event Policies
- University Regulations (Including Rules of University Conduct)
- Use of Hoverboards on University Campus and Property
- Use of Unmanned Aircraft Systems on University Campus and Property
- Voluntary Leave of Absence Policy
- Involuntary Leave of Absence Policy

POLICY ON ACADEMIC CONCERNS, COMPLAINTS, AND GRIEVANCES

Columbia University is committed to fostering intellectual inquiry in a climate of academic freedom and integrity. Its members, students, and faculty alike, are expected to uphold these principles and exhibit tolerance and respect for others. The following procedures are part of a process to ensure that student concerns about experiences in the classroom or with faculty are addressed in an informed and appropriate manner.

Please note that this policy is meant to address any potential concerns about a faculty member's professional conduct and behavior toward students in the classroom or in other instructional settings. Potential concerns about grades awarded by a faculty member are covered by a separate policy, which can be found on the College's website under "Academics".

Columbia believes that both students and faculty have the right to express their views freely, within an atmosphere of tolerance and civility. Faculty may present students with ideas and interpretations that surprise, and even offend them. But they must do so in an environment that is open to divergent views. Faculty, of course, must not discriminate on the basis of race, gender, sexual orientation, disability, religion, or other inappropriate categories.

The University offers several avenues of assistance to students who feel that their professors have not lived up to these responsibilities. These range from informal counseling and mediation to formal grievance processes. It is a violation of University policy to retaliate against any student who brings a grievance procedure in good faith.

The Ombuds Office. When students encounter problems that they feel they cannot discuss with their professors, they may, instead, turn to the University Ombuds Office -- http://ombuds.columbia.edu -- for information, clarification of University policies, and confidential advice. The Ombuds Officer may refer students to other offices for further assistance or engage in informal mediation at the request of students. The
Ombuds Officer does not have the authority to conduct formal investigations.

**Deans and Department Chairs.** Students may also approach the chair of the department in which their course is given for advice and assistance in resolving problems with individual faculty. If they are not satisfied with the assistance they receive or consider the chair to be part of the problem, they may seek assistance from the dean of the School within which they are enrolled or the dean or vice president overseeing the School within which the course is offered. The deans and vice presidents are authorized to conduct formal investigation of student complaints against their professors and, when they consider it appropriate, provide relief to the student or impose sanctions against the professor in a manner that is consistent with the University’s disciplinary policies for faculty. The form such investigations take is left to the discretion of the deans and vice presidents.

**Office of Equal Opportunity and Affirmative Action.** When students believe that they have been the victims of discrimination or sexual harassment by faculty, they may seek assistance from the Office of the Associate Provost for Equal Opportunity and Affirmative Action -- [http://eoaa.columbia.edu](http://eoaa.columbia.edu). As described in the University’s Policy Statement on Discrimination and Sexual Harassment, the Associate Provost is empowered to conduct investigations of their complaints, with certain exceptions, as well as provide confidential advice and engage in informal mediation. The Associate Provost may exercise those responsibilities herself or delegate them to a designee. If at any time a complaint is filed with a governmental agency or court, the University procedures must cease immediately.

**Time Frame for Proceedings**

A student should ordinarily bring any concern or complaint within 30 days of the end of the term in which the offending conduct occurred or by the beginning of the following term. The school process will ordinarily take 30 days.

**Confidentiality**

At every level, those involved recognize and respect a student’s need for confidentiality when addressing certain kinds of concerns. If the student wishes complete confidentiality, concerns may be raised with the University’s Ombuds Office, a neutral office that can receive complaints of any kind for the University and that offers a range of options and communication channels. Students, however, must be aware that the Ombuds Office has no authority to adjudicate a complaint; it is there as a confidential resource to students, faculty, and administrators to advise on various avenues of redress and to mediate disputes, if both parties agree.

**GRADUATION**

The B.A. degree is awarded three times during the year: in February, May, and October. Under special circumstances, a degree scheduled to be awarded in May may be awarded in June instead. There is one University Commencement ceremony in May (see Academic Calendar).

**Application or Renewal of Application for the Degree**

The Application for the Degree is available on the Registrar's website. Students may complete the [degree application form](http://diplomas.columbia.edu) electronically and submit it to diplomas@columbia.edu. Alternative instructions for submitting the application for the degree are on the form itself.

General deadlines for applying for graduation are September 1 for October degrees; November 1 for February degrees; and December 1 for May degrees. When a deadline falls on a weekend or holiday, the deadline moves to the next business day. Students who fail to earn the degree by the conferral date for which they applied must file another application for a later conferral date.

**Diplomas**

There is no charge for the preparation and conferral of an original diploma. Unless you explicitly indicate otherwise, your diploma will be printed under your legal full name. You can verify the presentation of your name on SSOL under the "Academic Profile" rubric. If you wish to make changes to the name that will display on your diploma, you may do so by writing to the Office of the Registrar at diplomas@columbia.edu.

If a graduate’s Columbia diploma is lost or damaged, there will be a charge of $100 for a replacement diploma. Note that replacement diplomas carry the signatures of current University officials. Applications for replacement diplomas are available through the Office of the University Registrar.

**Immunization Requirements**

Before students are permitted to register for classes, there are several immunization requirements that all students—regardless of credit load—must complete. For this reason, a hold is placed on registration for all incoming students.

*Documentation is upon admission or at least 30 days prior to a student’s scheduled registration date, except for seasonal influenza.*
1. **Measles, Mumps, and Rubella (MMR):** New York State public health law and University policy requires that all students born on or after January 1, 1957 document immunity to measles, mumps, and rubella.

2. **Meningitis decision:** New York State public health law and University policy requires that students document that they either have received the meningococcal meningitis (ACWY) vaccine or have declined to receive it. Those indicating they have received the vaccine must upload documentation showing the vaccine was received in the last 10 years.

3. **COVID-19:** University policy requires that students must provide documentation of being up-to-date with COVID-19 vaccines (please visit the [Immunization Compliance page](#) for the most updated definition of vaccine status).

4. **Seasonal Influenza:** Columbia University policy requires that students receive, or provide documentation they have received, the seasonal influenza vaccine. Vaccines must be administered on or after August 1 of the prevailing season.

   *For students enrolled in the Fall, this requirement must be met before students are permitted to register for Spring courses. For students new to the University in the Spring term, this requirement applies before a student is permitted to register for their first term at Columbia.*

**Submit Documentation**

Submit the University immunization form and all proof/documentation via the [Columbia Health Patient Portal](#) (Immunization Record section under Medical Clearances). All documentation must be in English or accompanied by a certified translation.

**Note regarding the Meningitis Decision:** Certify your decision about receiving the meningitis vaccine using the online form. Those indicating they have received the meningitis ACWY vaccine must upload documentation showing the vaccine was received in the last 10 years.

Records may also be sent via other options as outlined on the Columbia Health website, though records submitted outside of the Patient Portal process may experience significantly longer processing times.

All forms are processed in the order in which they are received. Columbia University does not expedite processing of late forms. As such, any delays in submitting or an incomplete submission will result in registration delays.

Columbia Health provides COVID-19 and seasonal influenza vaccinations with no out-of-pocket costs for students during the Fall term.

**Exemptions**

Columbia University is committed to providing a safe, inclusive, and supportive experience for all students and recognizes medical contraindications to vaccination as well as student observance of their faith as it pertains to the practice of immunization.

To request a medical or religious exemption, please complete the appropriate request forms, read the required Vaccine Information, attach all supplemental materials, and upload all documents to the [Columbia Health Patient Portal](#) (Upload Immunization Record section under Medical Clearances) prior to the deadline. Note that students requesting an exemption must submit separate forms for each vaccine exemption request. Learn more about exemption requests on the [Immunization Compliance page](#).

For information about these requirements visit the [Immunization Compliance page](#), or email immunizationcompliance@columbia.edu.

**IMMUNIZATIONS RECOMMENDATIONS**

Columbia Health recommends that students receive all routine childhood vaccinations, an updated tetanus booster, vaccination for Hepatitis B (three-dose series), and varicella (chicken pox). These vaccines are available at [Columbia Health Medical Services](#).

Students who have paid the Columbia Health & Related Services Fee are not charged for the following vaccines when administered at Columbia Health Medical Services:

1. Measles, Mumps and Rubella (MMR)*;
2. Hepatitis A;
3. Hepatitis B;
4. Hepatitis Combination A and B;
5. Influenza;
6. Meningococcal Meningitis;
7. Pneumococcal (if clinically indicated);
8. Tetanus-Diphtheria;
9. Tetanus-Diphtheria-Pertussis;
10. Varicella

For all other vaccinations, students are charged for the cost of the vaccine. Vaccinations are available to students who have not paid the Columbia Health & Related Services Fee for a minimal cost.

*MMR vaccine cost will be charged if it is administered to meet pre-matriculation immunization requirements.

**NOTICE OF NON-DISCRIMINATION**

Columbia University is committed to providing a learning, living, and working environment free from unlawful discrimination and to fostering a nurturing and vibrant community founded upon the fundamental dignity and worth of all of its members. Consistent with this commitment, and with all applicable laws, it is the policy of the University not to tolerate unlawful discrimination in any form and to provide
persons who feel that they are victims of discrimination with mechanisms for seeking redress.

The University prohibits any form of discrimination against any person on the basis of race, color, sex, gender, pregnancy, religion, creed, marital status, partnership status, age, sexual orientation, gender identity, gender expression, national origin, disability, military status, or any other legally protected status in the administration of its educational policies, admissions policies, employment, scholarship and loan programs, and athletic and other University-administered programs.

Nothing in this policy shall abridge academic freedom or the University’s educational mission. Prohibitions against discrimination and discriminatory harassment do not extend to statements or written materials that are relevant and appropriately related to the subject matter of courses.

Inquiries or complaints regarding any form of discrimination or harassment may be directed to:

212-854-5511

Department of Education
Office for Civil Rights (New York Office)
OCR.NewYork@ed.gov
646-428-3800

RELIGIOUS HOLIDAYS

It is the policy of the University to respect its members’ religious beliefs. In compliance with New York State law, each student who is absent from school because of his or her religious beliefs will be given an equivalent opportunity to register for classes or make up any examination, study, or work requirements that he or she may have missed because of such absence on any particular day or days.

No student will be penalized for absence due to religious beliefs, and alternative means will be sought for satisfying the academic requirements involved.

Officers of Administration and of Instruction responsible for scheduling of academic activities or essential services are expected to avoid conflict with religious holidays as much as possible. If a suitable arrangement cannot be worked out between the student and the instructor involved, they should consult the appropriate dean or director. If an additional appeal is needed, it may be taken to the Provost.

STUDENT POLICIES AND PROCEDURES ON DISCRIMINATION AND HARASSMENT, GENDER-BASED MISCONDUCT POLICIES FOR STUDENTS AND CONSENSUAL ROMANTIC AND SEXUAL RELATIONSHIPS

Columbia University is committed to providing a learning, living, and working environment free from discrimination, harassment and gender-based and sexual misconduct.

Consistent with this commitment and with applicable laws, the University does not tolerate discrimination, harassment, or gender-based sexual misconduct in any form and it provides students who believe that they have been subjected to conduct or behavior of this kind with mechanisms for seeking redress.

All members of the University community are expected to adhere to the applicable policies, to cooperate with the procedures for responding to complaints of discrimination, harassment and gender-based and sexual misconduct, and to report conduct or behavior they believe to be in violation of these policies to the Office of Equal Opportunity and Affirmative Action or the Gender-Based Misconduct Office within Student Conduct and Community Standards.

For additional information on these issues, policies, and resources, please visit the Sexual Respect website.

Complaints against students for gender-based misconduct are processed in accord with the Gender–Based Misconduct Policies for Students. Students who attend Barnard College and Teachers College as well as Columbia University are covered by these policies. The use of the term “gender-based misconduct” includes sexual assault, sexual harassment, gender-based harassment, stalking, and intimate partner violence. Columbia University’s Sexual Respect Online provides additional information and resources for students, faculty, and staff.

Complaints against students for other forms of discrimination and harassment are processed in accord with the Student Policies and Procedures on Discrimination and Harassment and should be filed with the Dean of Students of the school in which the accused student is enrolled.

Complaints against employees and third parties affiliated with the University for discrimination and harassment are processed in accord with the Employment Policies and Procedures on Discrimination, Harassment, Sexual Assault, Domestic Violence, and Stalking. The use of the term “discrimination and harassment” includes discrimination, discriminatory harassment, gender-based harassment, stalking, intimate partner violence, sexual harassment, and sexual assault.

Columbia University maintains policies regarding consensual romantic and sexual relationships between faculty and students, and staff and students.
The Policy on Romantic and Sexual Relationships between Faculty/Staff and Undergraduate Students states that no faculty or staff member shall initiate or accept sexual or romantic advances or engage in a romantic or sexual relationship with any undergraduate student enrolled in Columbia College, the Fu Foundation School of Engineering and Applied Science, the School of General Studies, or Barnard College or other affiliate of Columbia, regardless of whether the faculty member has a supervisory role over the student.

UNDERGRADUATE INTERNATIONAL TRAVEL POLICY
All matriculated undergraduates participating in Columbia-Led, Columbia-Facilitated and/or Recognized international travel will be required to obtain School Sponsorship at least 4 weeks prior to departure.

Application for School Sponsorship is comprised of the following steps. All steps must be completed prior to travel departure:

1. Complete and Submit a **School Sponsorship Request Form** - including all travel destinations and side trips while abroad.
2. Complete **Pre-Departure Orientation**.
3. Abide by all University requirements, including:
   a. Register all travel with the University’s international travel assistance services – International SOS (ISOS).
   b. Maintain a health insurance policy that will also provide coverage outside the U.S. for routine, urgent, and emergent care (such as the Columbia Student Health Insurance Plan).
4. Complete the Assumption of Risk, Waiver and Release Form, which must be signed by the undergraduate.

5. Complete or adhere to any additional safety protocol measures recommended by the Undergraduate Travel Review Committee.

Undergraduates are expected to begin the application for School Sponsorship as soon as an opportunity that would require international travel has been secured, and submit a completed application no later than 4 weeks prior to departure.

Once School Sponsorship is approved and issued, undergraduates may continue their work with a sponsoring unit/program to begin/continue their preparation for a specific Columbia-Led, Columbia-Facilitated and/or Recognized travel program.

Undergraduates are required to immediately notify the Undergraduate Travel Review Committee should any changes to their location occur during the duration of their travel so their School Sponsorship file may be updated.

The undergraduate schools reserve the right to revoke sponsorship, support and funding if any step of the School Sponsorship process is not completed or acknowledged prior to departure and/or if the Undergraduate Travel Review Committee determines after review that the travel would be imprudent, based on assessment of the risk variables involved and/or the particular facts of the application. The purchase of travel protection insurance is strongly recommended to potentially mitigate financial loss in case of trip cancellation or interruption.

If a country or region is placed on the medium, high, or extreme risk list during travel, the Undergraduate Travel Review Committee will assess the risks of remaining in or departure from the country or region. Undergraduates will be advised of the risks and, if necessary, provided a recommended course of action. The undergraduate schools reserve the right to revoke sponsorship, support and funding should the undergraduate not follow the recommendations of the Undergraduate Travel Review Committee.

Undergraduates are required to: • Prevent nor delay the student’s enrollment; • Assess a late penalty fee to the student; • Require the student to secure alternative or additional funding; • Deny the student access to any resources available to other students who have satisfied their tuition and fee bills to the institution, including but not limited to access to classes, libraries, or other institutional facilities.

However, to qualify for this provision, such students may be required to:

• Produce the Certificate of Eligibility by the first day of class;
• Provide written request to be certified;
• Provide additional information needed to properly certify the enrollment as described in other institutional policies.

DEPARTMENTS, PROGRAMS, AND COURSES

This section contains a description of the curriculum of each department in the College, along with information regarding degree requirements for majors and concentrators, including course descriptions, registration information, elective courses, and suggestions about courses and programs in related fields.

Columbia College students should use the school Bulletin for academic planning purposes, as not all courses listed on the University-wide Directory of Classes and Vergil are open to Columbia College students.

The College reserves the right to withdraw or modify the courses of instruction or to change the instructors at any time.

African American and African Diaspora Studies

Chair, African American and African Diaspora Studies: Professor Kellie Jones; kej2119@columbia.edu

Director, Institute for Research in African-American Studies: Professor Mabel O. Wilson, mow6@columbia.edu

Director of Undergraduate Studies: Professor. Farah Jasmine Griffin; fig8@columbia.edu

Director of Academic Administration and Finance: Shawn Mendoza; 758 Schermerhorn Extension; s.mendoza@columbia.edu (sm322@columbia.edu)

Administrative Assistant: Sharon Harris; 758 Schermerhorn Extension; 212-854-7080; sh2004@columbia.edu

The Institute for Research in African-American Studies was established at Columbia in 1993, expanding the University’s commitment to this field of study. The African-American studies curriculum explores the historical, cultural, social, and intellectual contours of the development of people of African descent. The curriculum enables students to master the basic foundations of interdisciplinary knowledge in the humanities and social sciences in the black American, Caribbean, and sub-Saharan experience.

Courses examine the cultural character of the African diaspora; its social institutions and political movements; its diversity in thought, belief systems, and spiritual expressions; and the factors behind the continuing burden of racial inequality. During their junior and senior years of study, students focus their research within a specific discipline or regional study relevant to the African diaspora.

Students should consider a major in African American and African Diaspora studies if they are interested in careers where strong liberal arts preparation is needed, such as fields in the business, social service, or government sectors. Depending on one’s area of focus within the major, the African American and African Diaspora studies program can also prepare individuals for career fields like journalism, politics, public relations, and other lines of work that involve investigative skills and working with diverse groups. A major in African American and African Diaspora studies can also train students in graduate research skills and methods, such as archival research, and is very useful.
for individuals who are considering an advanced graduate degree such as the Ph.D.

**DEPARTMENTAL HONORS**

The requirements for departmental honors in African American and African Diaspora studies are as follows:

1. All requirements for major must be completed by graduation date;
2. Minimum GPA of 3.6 in the major;
3. Completion of senior thesis—due to the director of undergraduate studies on the first Monday in April.

A successful thesis for departmental honors must be selected as the most outstanding paper of all papers reviewed by the thesis committee in a particular year. The Thesis Evaluation Committee is comprised of department faculty and led by the director of undergraduate studies. The thesis should be of superior quality, clearly demonstrating originality and excellence of scholarship, as determined by the committee. Normally no more than 10% of graduating majors receive departmental honors in a given academic year.

**THE AFRICAN AMERICAN AND AFRICAN DIAPOREA STUDIES DEPARTMENT THESIS**

Although the senior thesis is a prerequisite for consideration for departmental honors, all African American and African Diaspora studies majors are strongly encouraged to consider undertaking thesis work even if they are ineligible or do not wish to be considered for departmental honors. The senior thesis gives undergraduate majors the opportunity to engage in rigorous, independent, and original research on a specific topic of their choosing, the result of which is a paper of 35-60 pages in length.

The senior thesis must be written under the supervision of at least one faculty member. Should the thesis writer elect to have more than one thesis adviser (either from the outset or added on during the early stages of research), these faculty in the aggregate comprise the Thesis Committee, of which one faculty member must be designated chair. In either case, it is incumbent upon the thesis writer to establish with the thesis chair and committee a reasonable schedule of deadlines for submission of outlines, chapters, bibliographies, drafts, etc.

In many cases, thesis writers may find that the most optimal way in which to complete a thesis is to formally enroll in an AFAS independent study course with their thesis adviser as the instructor. **All third year students interested in writing a thesis should notify the director of undergraduate studies and submit the name of the faculty adviser ideally by October 1, but certainly no later than the end of the fall semester of their junior year.** In close consultation with the thesis adviser, students develop a viable topic, schedule of meetings, bibliography, and timeline for completion (including schedule of drafts and outlines).

**DEPARTMENTAL PRIZES**

**Ralph Johnson Bunche Award for Leadership and Service**

The Bunche Award recognizes an undergraduate who has demonstrated a tremendous capacity for leadership and provided distinguished service to the Institute for Research in African American Studies.

The award is named in honor of Ralph Johnson Bunche (1901-1971), the highest American official in the United Nations. For his conduct of negotiations leading to an armistice in the First Arab-Israeli War, he received the Nobel Peace Prize in 1950; he was the first African American recipient of this honor.

**Ella Baker Award for Outstanding Academic Achievement**

The Ella Baker Prize is awarded annually to an undergraduate who has demonstrated academic excellence, intellectual commitment to the field of African American Studies and who has written a thesis that advances our understanding of the African American experience.

The award is named for the brilliant activist, organizer, leader and Harlem resident, Ella Baker. Baker served as a field secretary for the NAACP before organizing the Southern Christian Leadership Conference under the leadership of Dr. Martin Luther King. Following her departure from SCLC she helped student activists organize the Student Non-violent Coordinating Committee. She would serve as an important mentor to these young people throughout the rest of her life.

**SENIOR FACULTY**

Kevin Fellezs (Music)
Robert Gooding-Williams (Philosophy)
Farah J. Griffin (English and Comparative Literature)
Frank Guridy (History)
Kellie E. Jones (Art History and Archaeology)
Samuel K. Roberts (History)
Josef Sorett (Religion)
Sudhir A. Venkatesh (Sociology)
Mabel O. Wilson (Architecture, Planning and Preservation)

**RESEARCH FELLOWS**

Vanessa Argard-Jones (Anthropology)
Fredrick C. Harris (Political Science)
Carl Hart (Psychology)
Obery Hendricks (Religion/African-American Studies)
Colin Wayne Leach (Psychology and Africana Studies, Barnard College)
Natasha Lightfoot (History)
Mignon Moore (Sociology - Barnard)
**AFFILIATED FACULTY**

Belinda Archibong (Economics)
Christopher Brown (History)
Maguette Camara (Dance - Barnard)
Mamadou Diouf (Middle Eastern, South Asian, and African Studies)
Ann Douglas (English and Comparative Literature)
Barbara Fields (History)
Saidiya Hartman (English and Comparative Literature)
Ousmane Kane (School of International and Public Affairs)
Rashid Khalidi (History)
George E. Lewis (Music)
Mahmood Mamdani (Anthropology)
Gregory Mann (History)
Robert O'Meally (English and Comparative Literature)
David Scott (Anthropology)
Susan Strum (Law School)

**IN MEMORIAM**

Marcellus Blount
Steven Gregory
Manning Marable, founder of IRAAS

**GUIDELINES FOR ALL MAJORS AND CONCENTRATORS**

**Governed Electives**
The "governed electives" category must include courses from at least three different departments, providing an interdisciplinary background in the field of African-American Studies. (Note: you cannot count one of your governed electives within your designated area of study).

**Designated Area of Study**
A Designated Area of Study, preferably within a distinct discipline (for example, history, politics, sociology, literature, anthropology, psychology, etc.). Students may also select courses within a particular geographical area or region or an interdisciplinary field of study.

Any of the departmental disciplines (history, political science; sociology, anthropology, literature, art history; psychology, religion, music, etc.)

Any of the pertinent area studies (African Studies; Caribbean/Latin American; Gender Studies; etc.).

Please note that the major/concentrator is not allowed to “create” or “make up” a designated area of study without the direct approval of the Director of Undergraduate Studies, and that such approval must be sought before the student has embarked on the course of designated area of study, and that such approval will be granted only in very rare and exceptional cases. Under no circumstances should the major/concentrator hope to take a series of courses only later to “create” a Designated Area of Study around these courses.

**MAJOR IN AFRICAN AMERICAN AND AFRICAN DIASPORA STUDIES**

A minimum of twenty-seven (27) points is required for the completion of the major. The major should be arranged in consultation with the director of undergraduate studies. Students interested in majoring should plan their course of study no later than the end of their sophomore year.

**Core Requirements**
All majors must complete to satisfaction the core required courses. The core requirements are:

1. Introduction to African-American Studies - 4 Points
2. Major Debates in African-American Studies - 4 Points
3. Governed Elective - 4 Points
4. Governed Elective - 4 Points
5. Senior Seminar - 4 Points
6. Designated Area of Study Course (DAS) - 3 Points
7. DAS or Senior Pro Seminar - 4 Points

**CONCENTRATION IN AFRICAN AMERICAN AND AFRICAN DIASPORA STUDIES**

A minimum nineteen (19) points is required for the completion of the concentration.

**Core Requirements**
All concentrators must complete to satisfaction the core required courses. The core requirements are:

1. Introduction to African-American Studies - 4 Points
2. Governed Elective - 4 Points
3. Governed Elective - 4 Points
4. Senior Seminar - 4 Points
5. Designated Area of Study Course (DAS) - 3-4 Points

**AFAS UN1001 INTRO TO AFRICAN-AMER STUDIES. 4.00 points.**

Prerequisites: Students need to register for a section of AFAS UN1010, the required discussion section for this course.

From the arrival of enslaved Africans to the recent election of President Barack Obama, black people have been central to the story of the United States, and the Americas, more broadly. African Americans have been both contributors to, and victims of, this “New World” democratic experiment. To capture the complexities of this ongoing saga, this course offers an inter-disciplinary exploration of the development of African-American cultural and political life in the U.S. but also in relationship to the different African diasporic outposts of the Atlantic world. The course will be organized both chronologically and thematically, moving from the “middle passage” to the present so-called “post-racial” moment—drawing on a range of classical texts, primary sources, and more...
recent secondary literature—to grapple with key questions, concerns, and problems (i.e. agency, resistance, culture, etc.) that have preoccupied scholars of African-American history, culture, and politics. Students will be introduced to a range of disciplinary methods and theoretical approaches (spanning the humanities and social sciences), while also attending to the critical tension between intellectual work and everyday life, which are central to the formation of African-American Studies as an academic field. This course will engage specific social formations (i.e. migration, urbanization, globalization, etc.), significant cultural/political developments (i.e. uplift ideologies, nationalism, feminism, Pan-Africanism, religion/spirituality, etc.), and hallmark moments/movements (i.e. Harlem Renaissance, Civil Rights movement, etc.). By the end of the semester, students will be expected to possess a working knowledge of major themes/figures/traditions, alongside a range of cultural/political practices and institutional arrangements, in African-American Studies

AFAS UN1002 Major Debates in African-American Studies. 4.00 points.
Prerequisites: Students must register for discussion section, AFAS UN1003.
Prerequisites: Students must register for discussion section, AFAS UN1003. This course will focus on the major debates in African-American Studies from the role of education to the political uses of art. The class will follow these debates historically with attention to the ways in which earlier discussions on migration and emigration, for example, were engaged with the specific historical conjuncture in which they took place as well as in the myriad ways in which earlier debates continue to resonate today. There will be a mix of primary documents and secondary sources and commentary

AFAS UN1003 Blackness and Frenchness: A Radical Genealogy. 4.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

How have Black radicals embraced the French language and, at times, Frenchness without espousing France’s dominance and its doctrines of assimilation? This course explores the watershed moments from the past three centuries that redefine the articulations of blackness in French, in France and beyond—from revolutionary or constitutional independence in the post-colony to recent social movements in continental Europe.

In addition to the opening inquiry, guiding questions for this course include but are not limited to the following. What kinds of state-sanctioned backlash in France have ensued in the face of affirmative rejections of blackness (e.g. Négritude and Afroféminisme)? And, what are the historical linkages between Black radicalism in France and the United States? Through an intra-imperial and inter-imperial lens, this course will center contributions from Black writers, artists, and intellectuals of divergent colonial histories with especial consideration to those for whom French and France is their native language and land.

AFAS UN3030 AFRICAN-AMERICAN MUSIC. 3.00 points.
This course focuses on a central question: how do we define “African-American music”? In attempting to answer this question, we will be thinking through concepts such as authenticity, representation, recognition, cultural ownership, appropriation, and origin(s). These concepts have structured the ways in which critics, musicians and audiences have addressed the various social, political and aesthetic contexts in which African-American music has been composed (produced), performed (re-produced) and heard (consumed)

AFAS UN3943 Senior Pro Seminar. 4.00 points.
This course is a seminar for seniors to either write a formal proposal for a capstone project or to begin the research process for a Senior Thesis, which will be written in the Spring semester. This interdisciplinary course provides the necessary structure needed to complete either goal. This will be an interactive class in which students are required to participate and actively engage in each meeting

AFAS UN3930 TOPICS IN THE BLACK EXPERIENCE. 4.00 points.
Please refer to Institute for Research in African American Studies for section course descriptions: http://iraas.columbia.edu/

**AFAS UN3936 Black Intellectuals Seminar. 4 points.**

AFAM Major/Concentrator required course

This undergraduate seminar examines a diverse group of black intellectuals' formulations of ideologies and theories relative to racial, economic and gender oppression within the context of dominant intellectual trends. The intellectuals featured in the course each contributed to the evolution of black political thought, and posited social criticisms designed to undermine racial and gender oppression, and labor exploitation around the world. This group of black intellectuals' work will be analyzed, paying close attention to the way that each intellectual inverts dominant intellectual trends, and/or uses emerging social scientific disciplines to counter racism, sexism, and classism. This seminar is designed to facilitate an understanding of the black intellectual tradition that has emerged as a result of African-American thinkers' attempts to develop a unified response to an understanding of the black condition. This course explores a wide range of primary and secondary sources from several different periods, offering students opportunity to explore the lives and works of some of the most important black intellectuals. We will also consider the way that period-specific intellectual phenomenon—such as Modernism, Marxism, Pan-Africanism, and Feminism—combined with a host of social realities.

**AFAS UN3940 SENIOR THESIS SEMINAR. 4.00 points.**

The Senior Seminar will afford thesis writers the chance to workshop their idea, conduct research and/or interviews, work with the IRB protocols (if necessary), learn to work with archival materials, and perform other research activities prior to writing the thesis. Students who choose to write a capstone paper or conduct a capstone project can choose an elective course the following semester. The Thesis Seminar, conducted in the spring semester, is a workshop-oriented course for Senior Thesis writers organized around honing their writing skills while providing guidance to students in their field/disciplinary-specific projects. For example, a student may choose to write a historical biography of an artist while another may pursue a sociological study of the effects of mass incarceration on voting rights. The instructor of the Thesis Seminar, working with a faculty adviser (dependent on the specific field of inquiry in the thesis), will provide feedback and supervise the writing schedule of the students.

AFAS GU4031 POPULAR MUSIC/PROTEST MOVEMENTS. 4.00 points.

Open to graduate students and limited advanced undergraduates.

This course will examine the relationship between popular music and popular movements. We will be taking a historical, as well as a thematic, approach to our investigation as a way to trace various legacies within popular music that fall under the rubric of "protest music" as well as to think about the ways in which popular music has assisted various communities to speak truth to power. We will also consider the ways in which the impact of the music industry has either lessened or enhanced popular music’s ability to articulate "protest" or "resistance" to hegemonic power.

AFAS GU4035 Criminal Justice and the Carceral State in the 20th Century United States. 4 points.

To apply for course enrollment, please contact Prof. Samuel Roberts (skroberts@columbia.edu).

This course provides an introduction to historical and contemporary concepts and issues in the U.S. criminal justice system, including state violence; the evolution of modern policing; inequality and criminal justice policy; drug policy as urban policy; and the development of mass incarceration and the "carceral continuum." The writing component to this course is a 20-25 page research paper on a topic to be developed in consultation with the instructor. This course has been approved for inclusion in the African-American Studies and History undergraduate curricula.

AFAS GU4037 Third World Studies. 4 points.

Introduction to third world studies; an introduction to the methods and theories that inform the field of third world studies (aka ethnic studies), including imperialism, colonialism, third world liberation movements, subjectivities, and racial and social formation theories;

AFAS GU4080 TOPICS IN THE BLACK EXPERIENCE. 4.00 points.

ENGL GU4621 HARLEM RENAISSANCE. 3.00 points.
(Lecture). This course will focus on the arts of the Harlem Renaissance as experiments in cultural modernity and as forms of incipient political empowerment. What was the Harlem Renaissance? Where and when did it take place? Who were its major players? What difference did it make to everyday Harlemites? What were its outposts beyond Harlem itself? Was there a rural HR? An international HR? As we wonder about these problems of definition, we will upset the usual literary/historical framework with considerations of music and painting of the period. How to fit Bessie Smith into a frame with W.E.B. Du Bois? Ellington with Zora Neale Hurston? Aaron Douglas with Langston Hughes? How does Harlem function in our national/international? imagination? Has the Harlem Renaissance's moment come and gone? What continuities might we detect? What institutions from the early twentieth century have endured?

ENGL GU4622 AFRICAN LITERATURE II. 3.00 points.
(Lecture). This survey of African American literature focuses on language, history, and culture. What are the contours of African American literary history? How do race, gender, class, and sexuality intersect within the politics of African American culture? What can we expect to learn from these literary works? Why does our literature matter to student of social change? This lecture course will attempt to provide answers to these questions, as we begin with Zora Neale Hurston's Their Eyes Were Watching God (1937) and Richard Wrights Native Son (1940) and end with Melvin Dixons Loves Instruments (1995) with many stops along the way. We will discuss poetry, fiction, drama, and non-fictional prose. Other authors include Ralph Ellison, James Baldwin, Gwendolyyn Brooks, Malcom X, Ntozake Shange, Audre Lorde, and Toni Morrison. There are no prerequisites for this course. The formal assignments are two five-page essays and a final examination. Class participation will be graded.

American Studies

Program Office: 319-321 Hamilton; 212-854-6698
http://www.columbia.edu/cu/amstudies/

Director: Prof. Hilary Hallett, 319 Hamilton; 212-854-6698; hah2117@columbia.edu

Assistant Director: Michael Gately, 319 Hamilton; 212-854-6544; mg3898@columbia.edu

Associate Director: Prof. Robert Amdur, 311 Hamilton; 212-854-4049; rla2@columbia.edu

Administrative Assistant: Arelis Herrera, 319 Hamilton; 212-854-6698; ah3115@columbia.edu

American Studies offers students the opportunity to explore the experience and values of the people of the United States as embodied in their history, literature, politics, art, and other enduring forms of cultural expression. The program seeks to prepare students to confront with historical awareness the pressing problems that face our society. The program takes advantage of Columbia's location by involving students with the life of the city—working with community service organizations such as the Double Discovery Center, which serves New York City high school students; and by inviting leading figures in the local political and cultural scene to participate in colloquia, public conferences, and classroom discussions. It is an interdisciplinary program designed to be open and flexible while taking seriously the challenge of striving for a liberal education that helps prepare students for responsible citizenship.

Advising
Each American Studies major or concentrator is assigned an academic adviser who monitors their progress through graduation. With at least ten advisers for each academic year, students are assured of individual attention and guidance. Advisers meet with students at least twice a semester.

Departmental Honors
Students with a 3.6 minimum GPA in the major and an outstanding senior project are considered for honors. Normally no more than 10% of graduating majors receive departmental honors in a given year.

Department Faculty

- Hilary Hallett
- Roosevelt Montas
- Andrew Delbanco
- Casey N. Blake
- Michael Hindus
- Roger Lehecka
- Thai Jones
- Lynne Breslin
- Paul Levitz
- Valerie Paley

Guidelines for All American Studies Majors and Concentrators

Declaring the Major or Concentration
Although students generally declare their major or concentration in the spring of their sophomore year, students may want to take electives early on in areas that interest them but that later connect with the American studies major.

Grading
A grade lower than C- cannot be counted toward the major or concentration in American studies. A grade of C- can be counted only with the approval of the director or associate director. Pass/D/Fail courses do not count toward the major or concentration unless the course was taken before the student declared the major or concentration.
MAJOR IN AMERICAN STUDIES

A minimum of nine courses is required to complete the major. Please note that as of January 2018 Major requirements have changed, beginning with the Class of 2020. Please consult with the department if there are any questions.

Two American Studies Core courses.
The following two courses are ordinarily required:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>AMST UN1010</td>
<td>INTRO TO AMERICAN STUDIES</td>
</tr>
<tr>
<td>HIST UN2478</td>
<td>US INTELLECTUAL HIST 1865-PRES</td>
</tr>
<tr>
<td>or AMST UN3930</td>
<td>Topics in American Studies</td>
</tr>
</tbody>
</table>

Please note, the AMST UN3930 section MUST be Freedom and Citizenship in the U.S. to count towards the core course requirement

Two seminars in American Studies

AMST UN3930 Topics in American Studies
AMST UN3931 Topics in American Studies

Additional Courses

Four courses drawn from at least two departments, one of which must be in History and one of which must deal primarily with some aspect of American experience before 1900. (A course in U.S. History before 1900 would fulfill both requirements.)

Senior Research Project

The final requirement for the major in American Studies is completion of a senior essay, to be submitted in the spring of senior year. Alternatively, students may fulfill this requirement by taking an additional seminar in which a major paper is required or by writing an independent essay under the supervision of a faculty member. Seniors who wish to do a senior research project are required to take the Senior Project Colloquium AMST UN3920 in the fall of the senior year.

CONCENTRATION IN AMERICAN STUDIES

A minimum of 7 courses is required to complete the concentration. Please note that as of January 2018 Concentration requirements have changed, beginning with the Class of 2020. Please consult with the department if there are any questions.

Two American Studies Core courses.
The following are ordinarily required:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>

<tr>
<td>or AMST UN3930</td>
<td>Topics in American Studies</td>
</tr>
</tbody>
</table>

Please note, the AMST UN3930 section MUST be Freedom and Citizenship in the U.S. to count towards the core course requirement

Additional Courses

Select five additional courses drawn from at least two departments, one of which must be in History, and one of which must deal with the period before 1900.

AMST UN1010 INTRO TO AMERICAN STUDIES. 4.00 points.
This course is an interdisciplinary exploration of the values and cultural expressions of the people of the United States since the late nineteenth century. We will examine a variety of works in literature, history, cultural and social criticism, music, the visual arts and the built environment with an eye to understanding how Americans of different backgrounds, living at different times and in different locations, have understood and argued about the meaning and significance of American national identity. Our goal is to make connections between different genres of expression and consider how different cultural forms have served as opportunities to ponder the meaning of modern life in the United States. Lectures and readings will give particular attention to the sites—real and imagined—where Americans have identified the promise and perils of American life. Discussion section required: AMST UN1011

AMST UN1010 INTRO TO AMERICAN STUDIES-DIS. 0.00 points.
Corequisites: AMST UN1010
Corequisites: AMST UN1010 This is the required discussion section for AMST UN1010 Intro to American Studies

AMST UN3920 SENIOR PROJECT COLLOQUIUM. 1.00 point.
Required for American studies students who intend to do a senior research project

This course is for American studies majors planning to complete senior projects in the spring. The course is designed to help students clarify their research agenda, sharpen their questions, and locate their primary and secondary sources. Through class discussions and a workshop peer review process, each member of the course will enter spring semester with a completed bibliography that will provide an excellent foundation for the work of actually writing the senior essay. The colloquium will meet every other week and is required for everyone planning to do a senior research project. Application due June 15. See American Studies website

AMST UN3935 Indigenous Peoples of New York and New England. 4.00 points.
This course provides an interdisciplinary perspective on Native peoples of present-day New York and New England and on their interactions with settler colonial societies (French, Spanish, British, US). Most of the reading will be by Native authors. In order to provide a firm historical foundation for understanding the dynamics of Indigenous and colonial history our emphasis will be on the period between European settlement and the nineteenth century. Coverage will not be exhaustive; there are too many Native nations in this region for that to be possible. Our focus rather will be on major turning points in Native history which have become flashpoints for controversy among scholars and in the broader public sphere: the relationship between Indians and Pilgrims, King Philip’s War, the so-called Indian Great Awakening, and others. We will also familiarize ourselves with present-day debates in Indigenous Studies including those pertaining to the idea of “ethnographic refusal”—i.e., the idea that Indigenous peoples should resist sharing information about their traditional cultures with non-Indian outsiders especially in academic spaces, where the study of Native Americans has often worked against Indigenous interests. The course should appeal broadly to students interested in Native history, literature, religion, and legal studies

AMST UN3990 SENIOR RESEARCH SEMINAR. 4.00 points.
Open to American Studies seniors doing a research project.

Prerequisites: AMST UN3920
Prerequisites: AMST UN3920 A seminar devoted to the research and writing, under the instructors supervision, of a substantial paper on a topic in American studies. Class discussions of issues in research, interpretation, and writing

The purpose of this program is to enable the student to explore the cultural context of the ancient Mediterranean as a whole while concentrating on one specific Mediterranean or Mesopotamian culture. Central to the concept of the program is its interdisciplinary approach, in which the student brings the perspectives and methodologies of at least three different disciplines to bear on his or her area of specialization.

Faculty participating in the program are scholars specializing in all aspects of ancient culture and civilization from the Departments of Anthropology; Art History and Archaeology; Classics; History; Middle Eastern, South Asian, and African Studies; Philosophy; and Religion, ensuring that a wide variety of approaches are available.

Course offerings vary year to year. Students are required to discuss their program prior to or during registration. The culmination of the ancient studies major comes in the senior year, when students with different areas of specialization come together to share their ideas in the senior seminar and then to write a substantial piece of original research. Students should think about topics for their senior paper during the junior year and find a faculty adviser at the beginning of the fall term of their senior year, after consulting with the director of undergraduate studies.

In the senior year, students register for ANCS UN3996 during the fall, and ANCS UN3998 DIRCTD RSRCH-ANCIENT STUDIES I is usually taken during the spring. Sections should be arranged directly with the academic departmental administrator after finding a faculty adviser.

GUIDELINES FOR ALL ANCIENT STUDIES MAJORS

Grading

Advanced placement credits and courses passed with a grade of D may not be counted toward the major. Courses

In an interdisciplinary program, courses that are available may on occasion have a substantial overlap in content. Since credit cannot be given twice for the same work, no courses may be counted toward the major that overlap significantly with courses already taken or in progress.

It is the student’s responsibility to discuss his or her program with the director of undergraduate studies well in advance and to provide him or her with all the necessary information on the courses concerned, since failure to do so may result in a course not being counted after it has already been taken.

Any course in the Department of Classics may be credited toward the major.

MAJOR IN ANCIENT STUDIES

The major in ancient studies requires 12 courses (a minimum of 36 points), two of which must be:

Major Seminar
ANCS UN3996 THE MAJOR SEMINAR

Senior Thesis
ANCS UN3998 DIRCTD RSRCH-ANCIENT STUDIES I

The selected program of study for the major must collectively satisfy the following criteria:

Language Study *
Select two courses of an ancient language at or above the intermediate level, i.e., 1200-level or above.

Fundamental Breadth **
Select two introductory courses on some aspect of the ancient Mediterranean. Some examples include:

HIST UN1010 ANTIQUE GREEK HIST, 800-146 BC
AHIS UN3248 Greek Art and Architecture
AHIS UN3250 Roman Art and Architecture
PHIL UN2101 HISTORY OF PHILOSOPHY I
CLLT UN3132 Classical Myth

Advanced Study
Select two advanced courses on the ancient Mediterranean, typically at the 3000- or 4000-level.

Cultural Concentration
Select four courses on the culture of the language chosen, including one history course.
The minimum language requirement must be completed by the end of the first semester of the student's senior year, so that the student is equipped to use sources in the original language in their thesis. Students are strongly urged to begin study of an ancient language as soon as possible and to complete more than the minimum requirements, since the best way to gain an understanding of a culture is through the actual words of its people. Those considering graduate work on the ancient world should also be aware that most graduate schools require more than two years of undergraduate language training for admission. The language offered in fulfillment of this requirement should generally match the student's area of cultural concentration; special arrangements are available with other universities for students whose cultural concentration require languages not normally taught at Columbia.

Students entering with expertise in their chosen languages are placed in advanced courses as appropriate but are still required to complete at least two semesters of language courses at Columbia; exceptions to this policy may be made in the case of languages not normally taught at Columbia. Language courses at the 1100-level may not be counted toward the major. Language courses, including those at the 1100-level, must be taken for a letter grade.

Relevant introductory courses are offered by the Department of Classics or from offerings in the Programs or Departments of Ancient Studies, Art History and Archaeology, History, Philosophy, or Religion. Students should confirm a course’s relevance with the director of undergraduate studies as soon as possible.

### ANTHROPOLOGY

**Departmental Office:** 452 Schermerhorn; 212-854-4552

**Director of Undergraduate Studies:**
Professor Naor Ben-Yehoyada; 470 Schermerhorn Extension; 212 854-8936; nhb2115@columbia.edu; Professor Maria José de Abreu; 957 Schermerhorn Extension; 212-854-4752; md3605@columbia.edu, Fall 2022

**Departmental Consultants:**
Archaeology: Prof. Zoë Crossland, 965 Schermerhorn Extension; 212-854-7465; zo2149@columbia.edu
(Biological/Physical Anthropology: Prof. Ralph Holloway, 856 Schermerhorn Extension; 212-854-4570; rh2@columbia.edu)

Anthropology at Columbia is the oldest department of anthropology in the United States. Founded by Franz Boas in 1896 as a site of academic inquiry inspired by the uniqueness of cultures and their histories, the department fosters an expansiveness of thought and independence of intellectual pursuit.

Cross-cultural interpretation, global socio-political considerations, a markedly interdisciplinary approach, and a willingness to think otherwise have formed the spirit of anthropology at Columbia. Boas himself wrote widely on pre-modern cultures and modern assumptions, on language, race, art, dance, religion, politics, and much else, as did his graduate students including, most notably, Ruth Benedict and Margaret Mead.

In these current times of increasing global awareness, this same spirit of mindful interconnectedness guides the department. Professors of anthropology at Columbia today write widely on colonialism and postcolonialism; on matters of gender, theories of history, knowledge, and power; on language, law, magic, mass-mediated cultures, modernity, and flows of capital and desire; on nationalism, ethnic imaginations, and political contestations; on material cultures and environmental conditions; on ritual, performance, and the arts; and on linguistics, symbolism, and questions of representation. Additionally, they write across worlds of similarities and differences concerning the Middle East, China, Africa, the Caribbean, Japan, Latin America, South Asia, Europe, Southeast Asia, North America, and other increasingly transnational and technologically virtual conditions of being.
Anthropology

The Department of Anthropology traditionally offered courses and majors in three main areas: sociocultural anthropology, archaeology, and biological/physical anthropology. While the sociocultural anthropology program now comprises the largest part of the department and accounts for the majority of faculty and course offerings, archaeology is also a vibrant program within anthropology whose interests overlap significantly with those of sociocultural anthropology. Biological/physical anthropology has shifted its program to the Department of Ecology, Evolution, and Environmental Biology. The Anthropology Department enthusiastically encourages cross-disciplinary dialogue across disciplines as well as participation in study abroad programs.

**Sociocultural Anthropology**

At the heart of sociocultural anthropology is an exploration of the possibilities of difference and the craft of writing. Sociocultural anthropology at Columbia has emerged as a particularly compelling undergraduate liberal arts major. Recently, the number of majors in sociocultural anthropology has more than tripled.

Students come to sociocultural anthropology with a wide variety of interests, often pursuing overlapping interests in, for example, performance, religion, writing, law, ethnicity, mass-media, teaching, language, literature, history, human rights, art, linguistics, environment, medicine, film, and many other fields, including geographical areas of interest and engagement. Such interests can be brought together into provocative and productive conversation with a major or concentration in sociocultural anthropology. The requirements for a major in sociocultural anthropology reflect this intellectual expansiveness and interdisciplinary spirit.

**Archaeology**

Archaeologists study the ways in which human relations are mediated through material conditions, both past and present. Particular emphases in the program include the development of ancient states and empires, especially in the indigenous Americas; the impact of colonial encounters on communities in the American Southwest, the Levant and Africa; and human-animal relations in prehistory, religion and ritual, and the archaeology of the dead.

Themes in our teaching include the political, economic, social, and ideological foundations of complex societies; and archaeological theory and its relationship to broader debates in social theory, technology studies, and philosophy. Faculty members also teach and research on questions of museum representations, archaeological knowledge practices, and the socio-politics of archaeology. The program includes the possibility of student internships in New York City museums and archaeological fieldwork in the Americas and elsewhere.

**ADVISING**

Majors and concentrators should consult the director of undergraduate studies when entering the department and devising programs of study. Students may also seek academic advice from any anthropology faculty member, as many faculty members hold degrees in several fields or positions in other departments and programs at Columbia. All faculty in the department are committed to an expansiveness of thought and an independence of intellectual pursuit and advise accordingly.

**Senior Thesis**

Anthropology majors with a minimum GPA of 3.6 in the major who wish to write an honors thesis for departmental honors consideration may enroll in ANTH UN3999 SENIOR THESIS SEM IN ANTHROPOL. Students should have a preliminary concept for their thesis prior to course enrollment. Normally no more than 10% of graduating majors receive departmental honors in a given academic year.

**Professors**

- Nadia Abu El-Haj (Barnard)
- Lila Abu-Lughod
- Partha Chatterjee, Professor Emeritus of Anthropology
- Myron L. Cohen
- Zoe Crossland
- Terence D’Altroy
- Ralph L. Holloway, Professor Emeritus of Anthropology
- Claudio Lomnitz
- Mahmood Mamdani
- Brinkley Messick
- Rosalind Morris
- Elizabeth Povinelli
- Nan Rothschild (Barnard, emerita)
- David Scott, Department Chair
- Lesley A. Sharp (Barnard)
- Michael Taussig, Professor Emeritus of Anthropology
- Paige West (Barnard)

**Associate Professors**

- Catherine Fennell
- Severin Fowles (Barnard)
- Marilyn Ivy
- John Pemberton
- Audra Simpson

**Assistant Professors**

- Vanessa Agard-Jones
- Naor Ben-Yehoyada
- Hannah Rachel Chazin
- Maria Jose de Abreu

GUIDELINES FOR ALL
ANTHROPOLOGY MAJORS AND
CONCENTRATORS

Grading
No course with a grade of D or lower can count toward the major or concentration. Only the first course that is to count toward the major or concentration can be taken Pass/D/Fail.

Courses
Courses offered in other departments count toward the major and concentration only when taught by a member of the Department of Anthropology. Courses from other departments not taught by anthropology faculty must have the approval of the director of undergraduate studies in order to count toward the major or concentration.

MAJOR IN ANTHROPOLOGY
The requirements for this program were modified on January 29, 2016.

The program of study should be planned as early as possible in consultation with the director of undergraduate studies.

The anthropology major requires 30 points in the Department of Anthropology.

Sociocultural Focus
Students interested in studying sociocultural anthropology are required to take the following courses:

ANTH UN1002  THE INTERPRETATION OF CULTURE
ANTH UN2004  INTRO TO SOC # CULTURAL THEORY
ANTH UN2005  THE ETHNOGRAPHIC IMAGINATION

Archaeology Focus
Students interested in studying archaeological anthropology are required to take the following courses:

ANTH UN1002  THE INTERPRETATION OF CULTURE
ANTH UN2004  INTRO TO SOC # CULTURAL THEORY
ANTH UN2028  THINK LIKE AN ARCHAEOLOGIST

Biological/Physical Focus
Students interested in pursuing study in this field should refer to the concentration in evolutionary biology of the human species in the Department of Ecology, Evolution, and Environmental Biology.

CONCENTRATION IN
ANTHROPOLOGY
The anthropology concentration requires 20 points in the Department of Anthropology.

Sociocultural Focus
Students interested in studying sociocultural anthropology are required to take the following course:

ANTH UN1002  THE INTERPRETATION OF CULTURE

Archaeology Focus
Students interested in studying archaeological anthropology are required to take the following course:

ANTH UN2028  THINK LIKE AN ARCHAEOLOGIST

Biological/Physical Focus
Students interested in studying this field should refer to the concentration in evolutionary biology of the human species in the Department of Ecology, Evolution, and Environmental Biology.

FALL 2022
SOCIOCULTURAL ANTHROPOLOGY
ANTH UN1002  THE INTERPRETATION OF CULTURE.
3.00 points.
The anthropological approach to the study of culture and human society. Case studies from ethnography are used in exploring the universality of cultural categories (social organization, economy, law, belief system, art, etc.) and the range of variation among human societies

Fall 2022: ANTH UN1002

NOTE: Students wishing to pursue an interdisciplinary major in archaeology should see the Archaeology section of this Bulletin.
ANTH UN3729 Burning Down the House: Anthropology of Revolution. 4.00 points.
In this course, we are going to examine political imagination in revolutionary times and discuss issues of representation and authorship that emerge when people mobilize for change. Taking lessons from anthropology, critical theory, queer and feminist theory, as well as postcolonial and Black studies, we will apply a method of critical inquiry to readings of the revolution as historical concept and as a lived experience. We will examine not simply “what happened”, but how we came to know about it: What determines whether a popular uprising is written into history as a “revolution” or dismissed as a “riot”? What does it mean for a revolution to “succeed”? Who gets to author the revolution as such — the people on the street, the people who take power, or the people writing about the event after it happened? Who gets to be the protagonists of the revolution, and who are left out? How does class, race and gender figure into this hierarchy of voice? We will apply these questions in reading two contemporary uprisings that get to the heart of the tensions between “identitarian” and “universal” political claims: The Movement for Black Lives in the US, and Lebanon’s civil uprising of 2019-20. Both uprisings mobilized against racial capitalism and sectarianism and were met with state and police violence. We will examine the political critique that emerged from these uprisings, and how they might enable a critique of the political as an exclusionary concept. By reading activist, scholarly and artist interpretations of the uprisings, including film, dance, poetry, and manifestos, we will ask: What new forms of political mobilization and visions emerge from this critique?

ANTH UN1003 The Environment. 3.00 points.
This course introduces students to the fundamental idea of an “environment” and its concomitant concepts of crisis, climate, history, planet, and humanity. The course considers these concepts from within the humanities, while also offering a global and anthropological perspective. Through lectures, discussions, and assignments students will become familiar with major academic debates in environmental humanities and environmental studies. Students from all areas of study are welcome and no prior knowledge of the material is necessary

ANTH UN1007 THE ORIGINS OF HUMAN SOCIETY. 3.00 points.
Mandatory recitation sections will be announced first week of classes.

An archaeological perspective on the evolution of human social life from the first bipedal step of our ape ancestors to the establishment of large sedentary villages. While traversing six million years and six continents, our explorations will lead us to consider such major issues as the development of human sexuality, the origin of language, the birth of “art” and religion, the domestication of plants and animals, and the foundations of social inequality. Designed for anyone who happens to be human

ANTH UN2004 INTRO TO SOC # CULTURAL THEORY. 3.00 points.
This course presents students with crucial theories of society, paying particular attention at the outset to classic social theory of the early 20th century. It traces a trajectory of writings essential for an understanding of the social: from Saussure, Durkheim, Mauss, Weber, and Marx, on to the structuralist ethnographic elaboration of Claude Levi-Strauss and the historiographic reflections on modernity of Michel Foucault. We revisit periodically, writings from Franz Boas, founder of anthropology in the United States (and of Anthropology at Columbia), for a sense of origins, an early anthropological critique of racism and cultural chauvinism, and a prescient denunciation of fascism. We turn as well, also with ever-renewed interest in these times, to the expansive critical thought of W. E. B. Du Bois. We conclude with Kathleen Stewart’s A Space on the Side of the Road—an ethnography of late-twentieth-century Appalachia and the haunted remains of coal-mining country—with its depictions of an uncanny otherness within dominant American narratives

ANTH UN3040 ANTHROPOLOGICAL THEORY. 4.00 points.
Open to majors; all others with instructor’s permission.

Prerequisites: an introductory course in anthropology. Comprehensive and in-depth engagement with foundational and contemporary theoretical concepts and texts in Anthropology. Required of all Barnard students majoring in Anthropology (including specialized tracks). Permission of instructor required for non-majors. Not open to First Year students. Prerequisite: an introductory (1000 level) course in Anthropology

ANTH BC3234 Indigenous Place-Thought. 4.00 points.
This seminar considers what it means to be of a place and to think with and be committed to that place—environmentally, politically, and spiritually. After locating ourselves in our own particular places and place-based commitments, our attention turns to the Indigenous traditions of North America, to accounts of tribal emergence and pre-colonial being, to colonial histories of land dispossession, to ongoing struggles to protect ecological health and land-based sovereignty, to the epistemological and moral systems that have developed over the course of many millennia of living with and for the land, and to the contributions such systems might make to our collective future. The seminar’s title is borrowed from an essay on “Indigenous place-thought” by Mohawk/Anishinaabe scholar Vanessa Watts.

ANTH UN3663 The Ancient Table: Archaeology of Cooking and Cuisine. 4.00 points.
Prerequisites: None
Prerequisites: None Humans don’t just eat to live. The ways we prepare, eat, and share our food is a complex reflection of our histories, environments, and ideologies. Whether we prefer coffee or tea, cornbread or challah, chicken breast or chicken feet, our tastes are expressive of social ties and social boundaries, and are linked to ideas of family and of foreignness. How did eating become such a profoundly cultural experience? This seminar takes an archaeological approach to two broad issues central to eating: First, what drives human food choices both today and in the past? Second, how have social forces shaped practices of food acquisition, preparation, and consumption (and how, in turn, has food shaped society)? We will explore these questions from various evolutionary, physiological, and cultural viewpoints, highlighted by information from the best archaeological and historic case studies. Topics that will be covered include the nature of the first cooking, beer-brewing and feasting, writing of the early recipes, gender roles and ‘domestic’ life, and how a national cuisine takes shape. Through the course of the semester we will explore food practices from Pleistocene Spain to historic Monticello, with particular emphasis on the earliest cuisines of China, Mesoamerica, and the Mediterranean.

ANTH UN3702 Black/Life/Science. 4.00 points.
What is the relationship of the production of scientific knowledge to Black life in the Americas? What can thinking that arises out of the intellectual traditions of Black Studies contribute to our understandings of the many genres of science (social, physical, earth, life) and their relationship to justice? Building from these essential questions, this course offers a framework for considering the ways that canonical sciences have constrained, categorized, and delimited Black lives, exploring such themes as: technoscientific constructions of race difference, epigenetic theories about the heritability of trauma, histories of biomedical experimentation, the long durée of eugenicist thinking, and the relationship of racialized (and gendered) bodies to their environments. We will also explore scientific scripts emergent from “below,” like: folk healing, speculative fictions, and Black nationalist origin stories, that have and continue to be sources of imaginative and emancipatory promise. In addition to developing the capacity to read widely across genres of science and critical studies thereof, students will develop skills in the deconstruction and speculative refiguring of scientific discourse.

ANTH UN3823 ARCH ENGAGE: PAST IN PUB EYE. 4.00 points.
Enrollment limited to 15. Enrollment Priorities: Seniors and Juniors in ARCH or ANTH.
This course provides a panoramic, but intensive, inquiry into the ways that archaeology and its methods for understanding the world have been marshaled for debate in issues of public interest. It is designed to examine claims to knowledge of the past through the lenses of alternative epistemologies and a series of case-based problems that range from the academic to the political, legal, cultural, romantic, and fraudulent.

ANTH BC3871 SENIOR THESIS SEMINAR I. 4.00 points.
Prerequisites: Limited to Barnard Anthropology Seniors. Offered every Fall. Discussion of research methods and planning and writing of a Senior Essay in Anthropology will accompany research on problems of interest to students, culminating in the writing of individual Senior Essays. The advisory system requires periodic consultation and discussion between the student and her adviser as well as the meeting of specific deadlines set by the department each semester. Limited to Barnard Senior Anthropology Majors.
ANTH BC3911 SOCIAL CONTEXTS IMMIGRATN LAW. 4.00 points.
Examines the historical and contemporary social, economic, and political factors that shape immigration law and policy along with the social consequences of those laws and policies. Addresses the development and function of immigration law and aspects of the immigration debate including unauthorized immigration, anti-immigration sentiments, and critiques of immigration policy.

ANTH BC3932 CLIM CHNG/GLOBAL MIGR/HUM RGT. 4.00 points.
While the existence of processes of anthropogenic climate change is well established, predictions regarding the future consequences of these processes are far less certain. In no area is the uncertainty regarding near and long term effects as pronounced as in the question of how climate change will affect global migration. This course will address the issue of climate migration in four ways. First, the course will examine the theoretical and empirical literatures that have elucidated the nature of international migration in general. Second, the course will consider the phenomena of anthropogenic climate change as it relates to migration. Third, the course will consider how human rights and other legal regimes do or do not address the humanitarian issues created by anthropogenic climate change. Fourth, the course will synthesize these topics by considering how migration and climate change has arisen as a humanitarian, political, and economic issue in the Pacific. Human Rights elective

ANTH UN3879 THE MEDICAL IMAGINARY. 4.00 points.
Enrollment limited to 15. Instructor's permission required. Non anthropology majors require instructor's permission.
How might we speak of an imaginary within biomedicine? This course interrogates the ideological underpinnings of technocratic medicine in contexts that extend from the art of surgery to patient participation in experimental drug trials. Issues of scale will prove especially important in our efforts to track the medical imaginary from the whole, fleshy body to the molecular level. Key themes include everyday ethics; ways of seeing and knowing; suffering and hope; and subjectivity in a range of medical and sociomedical contexts. Open to anthropology majors; non-majors require instructor’s permission. Enrollment limit is 15

ANTH UN3888 ECOCRITICISM FOR THE END TIMES. 4.00 points.
Prerequisites: the instructor's permission. Prerequisites: the instructors permission. This seminar aims to show what an anthropologically informed, ecocritical cultural studies can offer in this moment of intensifying ecological calamity. The course will not only engage significant works in anthropology, ecocriticism, philosophy, literature, politics, and aesthetics to think about the environment, it will also bring these works into engaged reflection on living in the end times (borrowing cultural critic Slavoj Zizeks phrase). The seminar will thus locate critical perspectives on the environment within the contemporary worldwide ecological crisis, emphasizing the ethnographic realities of global warming, debates on nuclear power and energy, and the place of nature. Drawing on the professors long experience in Japan and current research on the aftermath of the Fukushima Daiichi nuclear power plant disaster, the seminar will also take care to unpack the notion of end times, with its apocalyptic implications, through close considerations of works that take on the question of ecocatastrophe in our times. North American and European perspectives, as well as international ones (particularly ones drawn from East Asia), will give the course a global reach
ANTH UN3970 BIOL BASIS OF HUMAN VARIATION.  
4.00 points.
Enrollment limited to 15.

Prerequisites: ANEB UN1010 and the instructor's permission.
Prerequisites: ANEB UN1010 and the instructor's permission.
Biological evidence for the modern human diversity at the molecular, phenotypical, and behavioral levels, as distributed geographically

ANTH UN3999 SENIOR THESIS SEM IN ANTHROPOL.  
4.00 points.
Enrollment limited to 15. Open to CC and GS majors in Anthropology only.

Prerequisites: The instructor’s permission. Students must have declared a major in Anthropology prior to registration. Students must have a 3.6 GPA in the major and a preliminary project concept in order to be considered. Interested students must communicate/meet with thesis instructor in the previous spring about the possibility of taking the course during the upcoming academic year. Additionally, expect to discuss with the instructor at the end of the fall term whether your project has progressed far enough to be completed in the spring term. If it has not, you will exit the seminar after one semester, with a grade based on the work completed during the fall term.

Prerequisites: The instructors permission. Students must have declared a major in Anthropology prior to registration. Students must have a 3.6 GPA in the major and a preliminary project concept in order to be considered. Interested students must communicate/meet with thesis instructor in the previous spring about the possibility of taking the course during the upcoming academic year. Additionally, expect to discuss with the instructor at the end of the fall term whether your project has progressed far enough to be completed in the spring term. If it has not, you will exit the seminar after one semester, with a grade based on the work completed during the fall term. This two-term course is a combination of a seminar and a workshop that will help you conduct research, write, and present an original senior thesis in anthropology. Students who write theses are eligible to be considered for departmental honors. The first term of this course introduces a variety of approaches used to produce anthropological knowledge and writing; encourages students to think critically about the approaches they take to researching and writing by studying model texts with an eye to the ethics, constraints, and potentials of anthropological research and writing; and
gives students practice in the seminar and workshop formats that are key to collegial exchange and refinement of ideas. During the first term, students complete a few short exercises that will culminate in a substantial draft of one discrete section of their senior project (18-20 pages) plus a detailed outline of the expected work that remains to be done (5 pages). The spring sequence of the anthropology thesis seminar is a writing intensive continuation of the fall semester, in which students will have designed the research questions, prepared a full thesis proposal that will serve as a guide for the completion of the thesis and written a draft of one chapter. Only those students who expect to have completed the fall semester portion of the course are allowed to register for the spring; final enrollment is contingent upon successful completion of first semester requirements. In spring semester, weekly meetings will be devoted to the collaborative refinement of drafts, as well as working through issues of writing (evidence, voice, authority etc.). All enrolled students are required to present their project at a symposium in the late spring, and the final grade is based primarily on successful completion of the thesis/ capstone project. Note: The senior thesis seminar is open to CC and GS majors in Anthropology only. It requires the instructor’s permission for registration. Students must have a 3.6 GPA in the major and a preliminary project concept in order to be considered. Interested students should communicate with the thesis instructor and the director of undergraduate study in the previous spring about the possibility of taking the course in the major. Requirements: Students must have completed the requirements of the first semester of the sequence and seek instructor approval to enroll in the second.

ANTH GU4001 THE ANCIENT EMPIRES. 3.00 points.

CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

The principal goal of this course is to examine the nature and histories of a range of early empires in a comparative context. In the process, we will examine influential theories that have been proposed to account for the emergence and trajectories of those empires. Among the theories are the core-periphery, world-systems, territorial-hegemonic, tributary-capitalist, network, and IEMP approaches. Five regions of the world have been chosen, from the many that could provide candidates: Rome (the classic empire), New Kingdom Egypt, Qin China, Aztec Mesoamerica, and Inka South America. These empires have been chosen because they represent a cross-section of polities ranging from relatively simple and early expansionist societies to the grand empires of the Classical World, and the most powerful states of the indigenous Americas. There are no prerequisites for this course, although students who have no background in Anthropology, Archaeology, History, or Classics may find the course material somewhat more challenging than students with some knowledge of the study of early societies. There will be two lectures per week, given by the professor.

Fall 2022: ANTH GU4052 Post/Socialist Bodies. 4.00 points.

This upper-level seminar examines the cultures and politics of the body in socialist and postsocialist countries. As we will engage with embodied aspects of living under post/socialism, we will treat bodies as sites of political contestation, as well as makers and breakers of cultural worlds. Drawing on anthropological and historical scholarship, we will explore several thematic clusters: corporeal anchors of post/socialist political regimes and ideological formations, variability and commonality of bodily regimes across different post/socialist contexts, and the effects of the creation and dissolution of the Soviet Union on the viability, mortality, and vibrancy of life. We will develop an understanding of post/socialism as a political reality populated by a wide diversity of bodies: laboring and idle, cared and uncared for, gendered and racialized, craving and satiated, disabled and enhanced, among others. This course offers an account on post/socialist idiosyncrasies of the medicalization, politicization, economization, and moralization of the body.

ANTH GU4145 Zora. 3.00 points.

Zora Neale Hurston—Barnard College ’28 and a once-graduate student in Columbia’s department of Anthropology—was a pioneering chronicler of Black folklore, a student of Black expression, and a creative imaginer of Black worlds via her novels, short stories, plays and poetry. From her travels throughout the U.S. South, to Haiti, Jamaica, and beyond, Hurston took as her mission a diasporic articulation of Black life in the Americas. In this seminar, we ask what a deep reading of Hurston’s oeuvre can teach us about the history of Anthropology, about the blurry borders between fiction and
ethnically, and about the legacies that her work leaves—in communities of scholarly practice and beyond.

ARCHAEOLOGY

ANTH UN1007 THE ORIGINS OF HUMAN SOCIETY. 3.00 points.

Mandatory recitation sections will be announced first week of classes.

An archaeological perspective on the evolution of human social life from the first bipedal step of our ape ancestors to the establishment of large sedentary villages. While traversing six million years and six continents, our explorations will lead us to consider such major issues as the development of human sexuality, the origin of language, the birth of “art” and religion, the domestication of plants and animals, and the foundations of social inequality. Designed for anyone who happens to be human.

ANTH UN3151 Living with Animals: Anthropological Perspective. 4 points.

This course examines how humans and animals shape each other’s lives. We’ll explore the astounding diversity of human-animal relationships in time and space, tracing the ways animals have made their impact on human societies (and vice-versa). Using contemporary ethnographic, historical, and archaeological examples from a variety of geographical regions and chronological periods, this class will consider how humans and animals live and make things, and the ways in which humans have found animals “good to think with”. In this course, we will also discuss how knowledge about human-animal relationships in the past might change contemporary and future approaches to living with animals.

ANTH BC3234 Indigenous Place-Thought. 4.00 points.

This seminar considers what it means to be of a place and to think with and be committed to that place—environmentally, politically, and spiritually. After locating ourselves in our own particular places and place-based commitments, our attention turns to the Indigenous traditions of North America, to accounts of tribal emergence and pre-colonial being, to colonial histories of land dispossession, to ongoing struggles to protect ecological health and land-based sovereignty, to the epistemological and moral systems that have developed over the course of many millennia of living with and for the land, and to the contributions such systems might make to our collective future. The seminar’s title is borrowed from an essay on “Indigenous place-thought” by Mohawk/Anishinaabe scholar Vanessa Watts.

ANTH UN3663 The Ancient Table: Archaeology of Cooking and Cuisine. 4.00 points.

Prerequisites: None

Prerequisites: None Humans don’t just eat to live. The ways we prepare, eat, and share our food is a complex reflection of our histories, environments, and ideologies. Whether we prefer coffee or tea, cornbread or challah, chicken breast or chicken feet, our tastes are expressive of social ties and social boundaries, and are linked to ideas of family and of foreignness. How did eating become such a profoundly cultural experience? This seminar takes an archaeological approach to two broad issues central to eating: First, what drives human food choices both today and in the past? Second, how have social forces shaped practices of food acquisition, preparation, and consumption (and how, in turn, has food shaped society)? We will explore these questions from various evolutionary, physiological, and cultural viewpoints, highlighted by information from the best archaeological and historic case studies. Topics that will be covered include the nature of the first cooking, beer-brewing and feasting, writing of the early recipes, gender roles and ‘domestic’ life, and how a national cuisine takes shape. Through the course of the semester we will explore food practices from Pleistocene Spain to historic Monticello, with particular emphasis on the earliest cuisines of China, Mesoamerica, and the Mediterranean.

ANTH UN3823 ARCH ENGAGE: PAST IN PUB EYE. 4.00 points.

Enrollment limited to 15. Enrollment Priorities: Seniors and Juniors in ARCH or ANTH.

This course provides a panoramic, but intensive, inquiry into the ways that archaeology and its methods for understanding the world have been marshaled for debate in issues of public interest. It is designed to examine claims to knowledge of the past through the lenses of alternative epistemologies and a
Series of case-based problems that range from the academic to the political, legal, cultural, romantic, and fraudulent.

**ANHS GU4001 THE ANCIENT EMPIRES. 3.00 points.**

CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

The principal goal of this course is to examine the nature and histories of a range of early empires in a comparative context. In the process, we will examine influential theories that have been proposed to account for the emergence and trajectories of those empires. Among the theories are the core-periphery, world-systems, territorial-hegemonic, tributary-capitalist, network, and IEMP approaches. Five regions of the world have been chosen, from the many that could provide candidates: Rome (the classic empire), New Kingdom Egypt, Qin China, Aztec Mesoamerica, and Inka South America. These empires have been chosen because they represent a cross-section of polities ranging from relatively simple and early expansionist societies to the grand empires of the Classical World, and the most powerful states of the indigenous Americas. There are no prerequisites for this course, although students who have no background in Anthropology, Archaeology, History, or Classics may find the course material somewhat more challenging than students with some knowledge of the study of early societies. There will be two lectures per week, given by the professor.

**ANTH GU4175 WRITING ARCHAEOLOGY. 3.00 points.**

Prerequisites: the instructor's permission.

Like fiction archaeology allows us to visit other worlds and to come back home again. In this class we’ll explore different genres of archaeological texts. How do writers contribute to the development of narratives about the past, what are the narrative tricks used by archaeologists, novelists and poets to evoke other worlds and to draw in the reader? What is lost in the translation from the earth to text, and what is gained? There is an intimacy to archaeological excavation, an intimacy that is rarely captured in archaeological narratives. What enriching techniques might we learn from fictional accounts, and where might we find narrative space to include emotion and affect, as well as the texture and grain of encounters with the traces of the past? How does archaeological evidence evoke a particular response, and how do novels and poems work to do the same thing? What is the role of the reader in bringing a text to life?

Enrollment limit is 15. Priority: Anthropology graduate students, archaeology senior thesis students.

**ANTH GU4345 NEANDERTHAL ALTERITIES. 3.00 points.**

Enrollment priorities: Graduate students, and 3rd & 4th year undergraduates only

Using The Neanderthals partly as a metaphorical device, this course considers the anthropological, philosophical and ethical implications of sharing the world with another human species. Beginning from a solid grounding in the archaeological, biological and genetic evidence, we will reflect critically on why Neanderthals are rarely afforded the same reflexive capacities, qualities and attributes - agency- as anatomically modern humans, and why they are often regarded as lesser or nonhuman animals despite clear evidence for both sophisticated material and social engagement with the world and its resources. Readings/materials are drawn from anthropology, philosophy, ethics, gender studies, race and genetics studies, literature and film.

**ANTH UN1009 INTRO TO LANGUAGE # CULTURE. 3.00 points.**

This is an introduction to the study of the production, interpretation, and reproduction of social meanings as expressed through language. In exploring language in relation to culture and society, it focuses on how communication informs and transforms the sociocultural environment.
ANTH UN2005 The Ethnographic Imagination. 3.00 points.
Introduction to the theory and practice of “ethnography”—the intensive study of peoples’ lives as shaped by social relations, cultural images, and historical forces. Considers through critical reading of various kinds of texts (classic ethnographies, histories, journalism, novels, films) the ways in which understanding, interpreting, and representing the lived words of people—at home or abroad, in one place or transnationally, in the past or the present—can be accomplished. Discussion section required.

ANTH UN1009 Lectures will provide necessary disciplinary background knowledge of anthropology is required or presumed. Classroom

ANTH UN2017 Mafias and Other Dangerous Affiliations. 3.00 points.
Regimes of various shapes and sizes tend to criminalize associations, organizations, and social relations that these ruling powers see as anathema to the social order on which their power depends: witches, officers of toppled political orders, alleged conspirators (rebels, traitors, terrorists, and dissidents), gangsters and mafiosi, or corrupt officers and magnates. Our main goal will be to understand how and under what conditions do those with the power to do so define, investigate, criminalize and prosecute those kinds of social relations that are cast as enemies of public order. We will also pay close attention to questions of knowledge – legal, investigative, political, journalistic, and public – how doubt, certainty, suspicion and surprise shape the struggle over the relationship between the state and society. The main part of the course is organized around six criminal investigations on mafia-related affairs that took place from the 1950s to the present (two are undergoing appeal these days) in western Sicily. After the introductory section, we will spend two weeks (four meetings) on every one of these cases. We will follow attempts to understand the Mafia and similarly criminalized organizations, and procure evidence about it. We will then expand our inquiry from Sicily to cases from all over the world, to examine questions about social relations, law, the uses of culture, and political imagination.

ANTH UN2141 Frontier Imaginaries. 4.00 points.
The course examines the dynamics between colonialism and liberal governance—how the European conquest of the western Atlantic and Pacific continues to transform modes of liberal governance long after the first colonial fleets disgorged their armies, explorers, and settlers. It approaches a turn in historical forms of the ancestral present, namely, changing imaginaries of social form, time, and heritability; and how text-based documentation mediate how different frontiers are imagined and governed. The course will focus on two frontier regions: the Alpine region of Trentino and the coastal region of the Northern Territory of Australia, centering on the turn of the 18th to 19th century. The course examines the dynamics between colonialism and liberal governance—how the European conquest of the western Atlantic and Pacific continues to transform modes of liberal governance long after the first colonial fleets disgorged their armies, explorers, and settlers. It approaches a turn in the politics of difference by tracking how two sets of clans have moved through historical forms of the ancestral present, namely, changing imaginaries of social form, time, and heritability; and how these imaginaries emerge from and materially sediment into human bodies and the more-than-human world. The clans are, on the one hand, the Simonaz clan, patronym, Povinelli, and Bartolot clan, patronym, Ambrosi from Carisolo, Trentino; and, on the other hand, the totemic clans of the Karrabing that stretch along the coastal region of Anson Bay, Northern Territory, Australia.

ANTH UN2028 THINK LIKE AN ARCHAEOLOGIST. 4.00 points.
This course provides a comprehensive introduction to methods and theory in archaeology—by exploring how archaeologists work to create narratives about the past (and the present) on the basis on the material remains of the past. The course begins with a consideration of how archaeologists deal with the remains of the past in the present: What are archaeological sites and how do we ‘discover’ them? How do archaeologists ‘read’ or analyze sites and artifacts? From there, we will turn to the question of how archaeologists interpret these materials traces, in order to create narratives about life in the past. After a review of the historical development of theoretical approaches in archaeological interpretation, the course will consider contemporary approaches to interpreting the past.

ANTH UN1009 Elizabeth

ANTH UN2028 Allison McGovern

ANTH UN3665 The Politics of Care. 4.00 points.
What are the consequences of entrenched inequalities in the context of care? How might we (re)imagine associated practices as political projects? Wherein lie the origins of utopic and dystopic visions of daily survival? How might we track associated promises and failures as they travel across social
hierarchies, nationalities, and geographies of care? And what do we mean when we speak of “care”? These questions define the scaffolding for this course. Our primary goals throughout this semester are threefold. First, we begin by interrogating the meaning of “care” and its potential relevance as a political project in medical and other domains. Second, we will track care’s associated meanings and consequences across a range of contents, including urban and rural America, an Amazonia borderland, South Africa, France, and Mexico. Third, we will address temporal dimensions of care, as envisioned and experienced in the here-and-now, historically, and in a futuristic world of science fiction. Finally, and most importantly, we will remain alert to the relevance of domains of difference relevant to care, most notably race, gender, class, and species. Upper level seminar; 4 points.

Spring 2023: ANTH UN3665

ANTH BC3868 ETHNOGRAPHIC FIELD RESEARCH IN NYC. 4.00 points.

This course provides the aspiring anthropologist with an array of primarily qualitative methodological tools essential to successful urban fieldwork. As such, it is a practicum of sorts, where regular field assignments help build one’s ability to record and analyze social behavior by drawing on several key data collection techniques. Because we have the luxury of inhabiting a large, densely populated, international city, this class requires that you take a head-first plunge into urban anthropology. The NYC area will define the laboratory for this class requires that you take a head-first plunge into urban anthropology. The NYC area will define the laboratory for this class.

ANTH UN3828 THE ANTHROPOLOGY OF WAR. 4.00 points.

In this class, we will think about the various ways in which philosophers, social theorists, historians and anthropologists have thought about war, violence, and responsibility. The course focuses on a set of themes and questions: for example, the nature of violence and the question of responsibility or accountability, shifting technologies of warfare, and the phenomenology and aftermath of warfare, for civilians and for combatants. The reading list incorporates different approaches to such questions—from historical to philosophical to ethnographic accounts.

Spring 2023: ANTH UN3828

ANTH BC3880 LISTENINGS: AN ETHNOGRAPHY OF SOUND. 4.00 points.

We explore the possibilities of an ethnography of sound through a range of listening encounters: in resonant urban soundscapes of the city and in natural soundscapes of acoustic ecology; from audible pasts and echoes of the present; through repetitive listening in the age of electronic reproduction, and mindful listening that retraces an uncanniness inherent in sound. Silence, noise, voice, chambers, reverberation, sound in its myriad manifestations and transmissions. From the captured souls of Edison’s phonography, to everyday acoustical adventures, the course turns away from the screen and dominant epistemologies of the visual for an extended moment, and does so in pursuit of sonorous objects. How is it that sound so moves us as we move within its world, and who or what then might the listening subject be?

Spring 2023: ANTH UN3880

ANTH BC3872 SENIOR THESIS SEMINAR II. 4.00 points.

Prerequisites: Must complete ANTH BC3871x. Limited to Barnard Senior Anthropology Majors. Offered every Spring. Discussion of research methods and planning and writing of a Senior Essay in Anthropology will accompany research on problems of interest to students, culminating in the writing of individual Senior Essays. The advisory system requires periodic consultation and discussion between the student and her adviser as well as the meeting of specific deadlines set by the department each semester.

Spring 2023: ANTH BC3872

ANTH UN3893 THE BOMB. 4.00 points.

This course investigates the social history of nuclear arms in the context of World War II and the Cold War, exploring their ramifications for subjects and societies. We consider historical, ethnographic, medical and psychiatric accounts of the bomb’s invention and fallout, including the unknowable bodily injuries caused by radiation and the ecological contamination inflicted on indigenous communities where atomic weapons were tested. Throughout the course, we investigate government
propaganda designed to produce political subjects who both endorse and fear nuclear imperatives; who support expanding militarization and funding for weapons development; and who abide escalating political rhetorics of nuclear aggression.

**ANTH UN3939 ANIME EFFECT: JAPANESE MEDIA.**

*4.00 points.*

Culture, technology, and media in contemporary Japan. Theoretical and ethnographic engagements with forms of mass mediation, including anime, manga, video, and cell-phone novels. Considers larger global economic and political contexts, including post-Fukushima transformations. Prerequisites: the instructor's permission.

**ANTH UN3947 TEXT, MAGIC, PERFORMANCE. 4.00 points.**

CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

Prerequisites: the instructor's permission.

Prerequisites: the instructors permission. This course pursues interconnections linking text and performance in light of magic, ritual, possession, narration, and related articulations of power. Readings are drawn from classic theoretical writings, colonial fiction, and ethnographic accounts. Domains of inquiry include: spirit possession, trance states, séance, ritual performance, and related realms of cinematic projection, musical form, shadow theater, performative objects, and (other) things that move on their own, compellingly. Key theoretical concerns are subjectivity - particularly, the conjuring up and displacement of self in the form of the first-person singular I - and the haunting power of repetition. Retraced throughout the course are the uncanny shadows of a fully possessed subject --within ritual contexts and within everyday life.

**ANTH UN3999 SENIOR THESIS SEM IN ANTHROPOLOGY.**

*4.00 points.*

Enrollment limited to 15. Open to CC and GS majors in Anthropology only.

Prerequisites: The instructor's permission. Students must have declared a major in Anthropology prior to registration.
Students must have a 3.6 GPA in the major and a preliminary project concept in order to be considered. Interested students must communicate/meet with thesis instructor in the previous spring about the possibility of taking the course during the upcoming academic year. Additionally, expect to discuss with the instructor at the end of the fall term whether your project has progressed far enough to be completed in the spring term. If it has not, you will exit the seminar after one semester, with a grade based on the work completed during the fall term. Prerequisites: The instructors permission. Students must have declared a major in Anthropology prior to registration. Students must have a 3.6 GPA in the major and a preliminary project concept in order to be considered. Interested students must communicate/meet with thesis instructor in the previous spring about the possibility of taking the course during the upcoming academic year. Additionally, expect to discuss with the instructor at the end of the fall term whether your project has progressed far enough to be completed in the spring term. If it has not, you will exit the seminar after one semester, with a grade based on the work completed during the fall term. This two-term course is a combination of a seminar and a workshop that will help you conduct research, write, and present an original senior thesis in anthropology. Students who write theses are eligible to be considered for departmental honors. The first term of this course introduces a variety of approaches used to produce anthropological knowledge and writing; encourages students to think critically about the approaches they take to researching and writing by studying model texts with an eye to the ethics, constraints, and potentials of anthropological research and writing; and gives students practice in the seminar and workshop formats that are key to collegial exchange and refinement of ideas. During the first term, students complete a few short exercises that will culminate in a substantial draft of one discrete section of their senior project (18-20 pages) plus a detailed outline of the expected work that remains to be done (5 pages). The spring sequence of the anthropology thesis seminar is a writing intensive continuation of the fall semester, in which students will have designed the research questions, prepared a full thesis proposal that will serve as a guide for the completion of the thesis and written a draft of one chapter. Only those students who expect to have completed the fall semester portion of the course are allowed to register for the spring; final enrollment is contingent upon successful completion of first semester requirements. In spring semester, weekly meetings will be devoted to the collaborative refinement of drafts, as well as working through issues of writing (evidence, voice, authority etc.). All enrolled students are required to present their project at a symposium in the late spring, and the final grade is based primarily on successful completion of the thesis/capstone project. Note: The senior thesis seminar is open to CC and GS majors in Anthropology only. It requires the instructor’s permission for registration. Students must have a 3.6 GPA in the major and a preliminary project concept in order to be considered. Interested students should communicate with the thesis instructor and the director of undergraduate study in the previous spring about the possibility of taking the course during the upcoming academic year. Additionally, expect to discuss with the instructor at the end of the fall term whether your project has progressed far enough to be completed in the spring term. If it has not, you will exit the seminar after one semester, with a grade based on the work completed during the fall term. Enrollment limit is 15. Requirements: Students must have completed the requirements of the first semester of the sequence and seek instructor approval to enroll in the second. Fall 2022: ANTH UN3999

ANTH GU4143 ACCUSATION. **3.00 points.**

This course examines the politics and practices of collective accusation in comparative perspective. It treats these phenomena in their relation to processes of political and economic transition, to discourses of crisis, and to the practices of rule by which the idea of exception is made the grounds for extreme claims on and for the social body-usually, but not exclusively, enacted through forms of expulsion. We will consider the various theoretical perspectives through which forms of collective accusation have been addressed, focusing on psychoanalytic, structural functional, and poststructuralist readings. In doing so, we will also investigate the difference and possible continuities between the forms and logics of accusation that operate in totalitarian as well as liberal regimes. Course readings will include both literary and critical texts.

ANTH GU4148 HUMAN SKELETAL BIOLOGY II. **3.00 points.**

Enrollment limit is 12 and Instructor's permission required.

Recommended for archaeology and physical anthropology students, pre-meds, and biology majors interested in the human skeletal system. Intensive study of human skeletal materials using anatomical and anthropological landmarks to assess sex, age, and ethnicity of bones. Other primate skeletal materials and fossil casts used for comparative study.

ANTH UN1008 THE RISE OF CIVILIZATION. 3.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement
Mandatory recitation sections will be announced first week of classes. $25.00 laboratory fee.

Corequisites: ANTH V1008
Corequisites: ANTH V1008 The rise of major civilization in prehistory and protohistory throughout the world, from the initial appearance of sedentism, agriculture, and social stratification through the emergence of the archaic empires. Description and analysis of a range of regions that were centers of significant cultural development: Mesopotamia, Egypt, the Indus River Valley, China, North America, and Mesoamerica. DO NOT REGISTER FOR A RECITATION SECTION IF YOU ARE NOT OFFICIALLY REGISTERED FOR THE COURSE

ANTH BC2012 LAB METHODS ARCHAEOLOGY. 4.00 points.
Only the most recent chapters of the past are able to be studied using traditional historiographical methods focused on archives of textual documents. How, then, are we to analyze the deep history of human experiences prior to the written word? And even when textual archives do survive from a given historical period, these archives are typically biased toward the perspectives of those in power. How, then, are we to undertake analyses of the past that take into account the lives and experiences of all of society’s members, including the poor, the working class, the colonized, and others whose voices appear far less frequently in historical documents? From its disciplinary origins in nineteenth century antiquarianism, archaeology has grown to become a rigorous science of the past, dedicated to the exploration of long-term and inclusive social histories. “Laboratory Methods in Archaeology” is an intensive introduction to the analysis of archaeological artifacts and samples in which we explore how the organic and inorganic remains from archaeological sites can be used to build rigorous claims about the human past. The 2022 iteration of the course centers on assemblages from two sites, both excavated by Barnard’s archaeological field program in the Taos region of northern New Mexico: (1) the Spanish colonial site of San Antonio del Embudo founded in 1725 and (2) the hippie commune known as New Buffalo, founded in 1967. Participants in ANTH BC2012 will be introduced to the history, geology, and ecology of the Taos region, as well as to the excavation histories of the two sites. Specialized laboratory modules focus on the analysis of chipped stone artifacts ceramics, animal bone, glass, and industrial artifacts. The course only demands participation in the seminars and laboratory modules and successful completion of the written assignments, but all students are encouraged to develop specialized research projects to be subsequently expanded into either (1) a senior thesis project or (2) a conference presentation at the Society for American Archaeology, Society for Historical Archaeology, or Theoretical Archaeology Group meeting

Room TBA

ANTH UN2028 THINK LIKE AN ARCHAEOLOGIST. 4.00 points.
$25 mandatory lab fee.
This course provides a comprehensive introduction to methods and theory in archaeology – by exploring how archaeologists work to create narratives about the past (and the present) on the basis on the material remains of the past. The course begins with a consideration of how archaeologists deal with the remains of the past in the present: What are archaeological sites and how do we ‘discover’ them? How do archaeologists ‘read’ or analyze sites and artifacts? From there, we will turn to the question of how archaeologists interpret these materials traces, in order to create narratives about life in the past. After a review of the historical development of theoretical approaches in archaeological interpretation, the course will consider contemporary approaches to interpreting the past

ANTH BC3223 Gender Archaeolxgy. 3.00 points.
This seminar critically reexamines the ancient world from the perspective of gender archaeology. Though the seedlings of gender archaeology were first sown by of feminist archaeologists during the 70’s and 80’s, this approach involves far more than simply ‘womanizing’ androcentric narratives of past. Rather, gender archaeology criticizes interpretations of the past that transplant contemporary social roles onto the archaeological past, casting the divisions and inequalities of today as both timeless and natural. This class challenges the idea of a singular past, instead championing a turn towards multiple, rich, messy, intersectional pasts. The ‘x’ in ‘archaeology’ is an explicit signal of our focus on this diversity of pasts and a call for a more inclusive field of practice today

ANTH GU4346 LAB TECHNIQUES IN ARCHAEOLOGY. 3.00 points.

“Laboratory Methods in Archaeology” is an intensive introduction to the analysis of archaeological artifacts and samples in which we explore how the organic and inorganic remains from archaeological sites can be used to build rigorous claims about the human past. In 2023, this course will focus on pre-contact and post-contact assemblages from the New York metro area, including materials from the legacy collections of Ralph Solecki. Participants will be introduced to the history, geology, and ecology of the New York area and specialized laboratory modules focus on the analysis of chipped stone artifacts, ceramics, animal bone, glass, and a range of post-contact artifacts. The course only demands participation in the seminars and laboratory modules and successful completion of the written assignments, but all students are encouraged to develop specialized research projects to be subsequently expanded into either (1) a thesis project or (2) a conference presentation at the Society for American Archaeology, Society for Historical Archaeology, or Theoretical Archaeology Group meeting.

ARCHAEOLOGY

The Columbia Center for Archaeology: 965 Schermerhorn Extension

Director of Undergraduate Studies: Prof. Brian Boyd, bb2305@columbia.edu

Archaeology is the study of the material conditions inhabited and acted upon by people in the past and present. Investigation of the past through the study of material remains is entangled with historiography, politics, and individual and collective memory, and is implicated in the production of present-day identities. Archaeology has come to mean many things to different generations of scholars, yet all approaches share in common a focus on the physical remains of the past and on the interpretive acts that enliven these remains and are challenged by them.

At Columbia, archaeology is a multidisciplinary field practiced by faculty and students in the humanities, social sciences, and natural sciences. At present, there are faculty in the Departments of Anthropology; Art History and Archaeology; Classics; East Asian Languages and Cultures; Historic Preservation; History; Middle Eastern, South Asian, and African Studies; as well as in the Center for Environmental Research and Conservation, the Institute for Research on Women and Gender, and the Lamont-Doherty Earth Observatory, all of whom conduct research on prehistory, ancient society, or historical archaeology.

Among locations in which students and faculty are conducting or participating in field programs are Argentina, Peru, Central America, the North American Southwest, New York City, upstate New York, the UK, France, Italy, Greece, Turkey, Egypt, Yemen, Israel, Palestine, and Madagascar. Archaeologists at Columbia also work with professionals at a wide range of institutions in New York. Among the institutions at which students in particular programs may conduct research, or work on internships, are the American Museum of Natural History, the Brooklyn Museum, the Metropolitan Museum of Art, the Museum of the City of New York, the National Museum of the American Indian, the New York Botanical Garden, and the South Street Seaport Museum.

DEPARTMENTAL HONORS

For the requirements for departmental honors, please check with the program advisers. Normally no more than 10% of
graduating majors receive departmental honors in a given academic year.

**PROFESSORS**
Zainab Bahrani
Terence D’Altroy

**ON LEAVE**

**GUIDELINES FOR ALL ARCHAEOLOGY MAJORS AND CONCENTRATORS**

**Courses**
It is recommended that archaeology students consider introductory courses in Earth and environmental sciences, environmental biology, and/or chemistry for their Core Curriculum science requirement.

For information on upper-level graduate courses and courses in historic preservation, please see the program advisers. Decisions about upper-level, related, or seminar courses that are not on this list and their applicability to the major or concentration in archaeology should be made in consultation with the program advisers.

---

**Graduate Study**
Students intending to pursue graduate degrees in archaeology should be aware that a reading knowledge of two languages is often required as part of graduate study. Further, although language courses do not count toward the major or concentration, students are encouraged to acquire language training that is relevant to their particular interests in archaeology.

**MAJOR IN ARCHAEOLOGY**
Please read *Guidelines for all Archaeology Majors and Concentrators* above.

The program of study should be planned as early as possible with the program advisers, preferably before the end of the sophomore year and no later than the beginning of the junior year. The major in archaeology requires a total of 30 points within the major and 9 points of related courses as follows:

Two introductory courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH UN2028</td>
<td>THINK LIKE AN ARCHAEOLOGIST</td>
</tr>
<tr>
<td>ANTH UN1008</td>
<td>THE RISE OF CIVILIZATION</td>
</tr>
<tr>
<td>or ANTH UN1007</td>
<td>THE ORIGINS OF HUMAN SOCIETY</td>
</tr>
</tbody>
</table>

Select two upper-level courses from different regions of the world, in addition to three other upper-level courses, planned in consultation with the program advisers.

Participation of four to six weeks in field projects with which Columbia University is affiliated, independent study in excavation or other field projects, or relevant museum internship and/or lab work.

Select one laboratory course in archaeology or its equivalent in the field, as approved by the program advisers.

The capstone seminar in archaeology:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH UN3993</td>
<td>World Archaeologies/Global Perspectives</td>
</tr>
</tbody>
</table>

Select 9 points of related courses, planned with the program advisers in accordance with the student’s interests.

A senior thesis is recommended for students planning to pursue a graduate degree.

---

* The field, school, project, or internship must be approved in advance by the program advisers, and arrangements should be made in advance with the director of undergraduate studies for credits to be accepted as part of the degree. For more information, see the Center for Archaeology website.

** Taught alternate years, preferably taken in the junior or senior year, or a substitute seminar to be decided with the advance approval of the director of undergraduate studies. Students who are writing a thesis may substitute a thesis seminar for this requirement.
Topics should be discussed with a faculty adviser during the junior year, allowing time for planning, research, and travel during the following summer. In the senior year, students may register for two semesters of senior thesis study with their adviser, e.g., ANTH UN3997 SUPERVISED INDIVIDUAL RESEARCH or ANTH UN3999 SENIOR THESIS SEM IN ANTHROPOLOGY, to cover the writing of the thesis. The final draft of the thesis must be submitted by March 25. (See the Center for Archaeology webpages for more information.)

**CONCENTRATION IN ARCHAEOLOGY**

Please read *Guidelines for all Archaeology Majors and Concentrators* above.

The program of study should be planned with the program advisers. The concentration in archaeology requires a total of 21 points from within anthropology, art history and archaeology, and other approved departments, with no more than four courses being taken within any single department. Requirements for the concentration are as follows:

Select one of the following introductory courses:
- **ANTH UN1007** THE ORIGINS OF HUMAN SOCIETY
- **ANTH UN1008** THE RISE OF CIVILIZATION
- **ANTH UN2028** THINK LIKE AN ARCHAEOLOGIST

Select one seminar or colloquium in the Departments of Anthropology, Art History and Archaeology, Classics, or History, as approved by the program advisers.

Select three upper-level courses, including at least one from two different regions of the world.

Select one related course, planned with the program advisers in accordance with the student's interests.

**ANTH UN2028 THINK LIKE AN ARCHAEOLOGIST. 4.00 points.**

$25 mandatory lab fee.

This course provides a comprehensive introduction to methods and theory in archaeology – by exploring how archaeologists work to create narratives about the past (and the present) on the basis of the material remains of the past. The course begins with a consideration of how archaeologists deal with the remains of the past in the present: What are archaeological sites and how do we ‘discover’ them? How do archaeologists ‘read’ or analyze sites and artifacts? From there, we will turn to the question of how archaeologists interpret these materials traces, in order to create narratives about life in the past. After a review of the historical development of theoretical approaches in archaeological interpretation, the course will consider contemporary approaches to interpreting the past.

THE DEPARTMENT OF ARCHITECTURE

Mission

The Architecture major establishes an intellectual context for students to interpret the relation of form, space, program, materials and media to human life and thought. Through the Architecture curriculum, students participate in the ongoing shaping of knowledge about the built environment and learn to see architecture as one among many forms of cultural production. At the same time, the major stresses the necessity of learning disciplinary-specific tools, methods, terms and critiques. Thus, work in the studio, lecture or seminar asks that students treat architecture as a form of research and speculation which complement the liberal arts mission of expansive thinking.

Undergraduate Study in Architecture

Studying Architecture at Barnard College, Columbia College, and General Studies leads to a liberal arts degree – a Bachelor of Arts with a major in Architecture, and Barnard College is the administrative location for all undergraduate architecture studies at Columbia University and its partner institutions. A liberal arts education in architecture holds a unique position in academia and in relation to the discipline. If the goal of a professional education in architecture is to enable students to participate directly in the world as an architect – a liberal arts education asks that students consider the broader and myriad conditions in which architecture is conceived and practiced and, in turn, to understand how architecture inevitably alters those conditions. Students are asked to confront and interpret the complex social, cultural, political, and environmental processes that weave through architectural design and urbanism. The purpose of an undergraduate liberal arts degree in architecture is to educate students to think about the world through architecture.

The Architecture curriculum introduces design at a variety of scales, acknowledging that integrated design thinking is effective for problem solving at any scale and in any discipline. Students will experiment with full-scale installations and devices and make small-scale models of urban conditions from which they extract, interpret and invent new possibilities of inhabitation and use. The curriculum intentionally balances the traditions of handcrafted representation with evolving digital technologies of architectural design and communication.

The Architecture major complements, and makes great use of its University setting. With access to superb libraries, research centers, graduate programs, and abundant intellectual resources, our students have the opportunity to follow their creative instincts to great depth and breadth – and they do. The major depends on New York City as more than a convenient site for many design and research projects and frames the City as one of the key social and architectural, and thus didactic, markers of Modernity. Architecture students study with peers from countries around the world in one of the most diverse cities in the world. A large majority of the Architecture students expand their education by interning in Architecture or a related field during their undergraduate studies. Alumni of the Department are leaders in architecture and design fields around the world. The faculty teaching in the undergraduate program are dedicated teachers who are also at the forefront of practice and research and are similarly drawn to New York City as a nexus of global design thinking.

Students interested in obtaining a professional degree in Architecture continue on to graduate programs after their undergraduate degree, and students from the Barnard Columbia program have enjoyed enormous success in their admissions to the most competitive graduate programs in the country. Students who study Architecture as undergraduates have also pursued graduate degrees in a variety of disciplines including Urban Planning, Law, and Media and Communications.

Student Learning Outcomes

Students in the Architecture Majors who fully engage with the curriculum should be able to complete the following outcomes:

- Apply integrated design thinking to specific problems in and beyond the discipline;
- Visually communicate architectural concepts and research using discipline-specific techniques in multiple media;
- Verbally present independent, group or assigned research, in multiple media formats;
• Organize and concisely write in a variety of formats including reports, case studies, synthetic overviews, etc.;
• Understand and critically interpret major buildings and themes of Architectural history and theory;
• Be intellectually prepared for graduate studies in architecture and related disciplines.

Departmental Honors
Senior requirements (a portfolio and research paper from a previous architecture course) are used to award departmental honors. Students must have a grade point average of at least 3.6 in classes for the major. Normally no more than 10% of the graduating majors in the department each year receive departmental honors.

ADVISING APPOINTMENTS
Current students as well as prospective students with questions about our courses and programs of study are encouraged to meet with our full-time faculty members. Faculty advising appointments are open to anyone who is interested in learning more about our department. During the summer break, all current and prospective students are instead invited to submit their questions by email to architecture@barnard.edu.

OUR PROGRAMS OF STUDY
THE MAJOR IN ARCHITECTURE (p. 198)
THE MAJOR IN THE HISTORY AND THEORY OF ARCHITECTURE
THE MINOR IN ARCHITECTURE

THE MAJOR IN ARCHITECTURE
The major in architecture is open to Barnard College students, Columbia College students, and General Studies students. The required classes are broken down into four categories: studio, lectures seminars and workshops, senior courses, and the specialization:

Studio Courses
Four studio courses, to be taken one per semester (studio courses have limited enrollment and priority is given to Architecture majors):

</tr>
</thead>
<tbody>
<tr>
<td>ARCH UN3901</td>
<td>SENIOR SEMINAR</td>
</tr>
</tbody>
</table>

Elective Architecture seminar (another Senior Seminar in the Department, Advanced Architectural Research and Design, or Independent Research)

Specialization Courses
All majors are asked to complement their work with a thematic unit (three courses) called the "specialization." Each student develops a specific specialization that broadens their architectural studies in one of the following areas or combination of areas: History, Society, Environment, Global, Design, Media, and Technology. Courses may be taken from across various departments. All majors, in consultation with their advisers, will develop a short (100 word) description of their specialization and advisers will approve their course selections. Students can request and develop other areas of specialization with adviser approval.
Graduation Requirements
The major also requires that students submit a portfolio and a writing sample before graduation. The design portfolio includes representative work from all design studios and the writing sample is a paper or essay from a senior level architecture or architecture-related course. Final submissions are archived in the department, the portfolios are displayed at the end of the year show, and both are used to award graduation honors.

* These are courses offered by the architecture department or other applicable departments offered within the University. Students should consult the program office for a list of applicable courses each semester.

ACADEMIC YEAR 2022–2023 COURSES

Most architecture courses have a restriction on online enrollment (meaning that you will automatically appear on the wait list when you try to register online) and require an application in order to be admitted. Links to our applications are available on our website. For a complete list of courses across the university that have been approved to fulfill various architecture major and minor requirements, please refer to our program planning list. You are welcome to contact us with any questions you may have: architecture@barnard.edu.

FALL 2022 COURSES

ARCH UN1010 DESIGN FUTURES: NEW YORK CITY. 3.00 points.
How does design operate in our lives? What is our design culture? In this course, we explore the many scales of design in contemporary culture -- from graphic design to architecture to urban design to global, interactive, and digital design. The format of this course moves between lectures, discussions, collaborative design work and field trips in order to engage in the topic through texts and experiences

Fall 2022: ARCH UN1010
Course Number Section/Call Number Times/Location Instructor Points Enrollment

ARCH 1020 001/00643 M W 1:10pm - 3:00pm 116 Lewisohn Hall Madeline Schwartzman 3.00 14/16

ARCH UN2101 ARCHITECTURAL DESIGN: SYSTEMS AND MATERIALS. 4.50 points.
This architectural design studio explores material assemblies, techniques of fabrication, and systems of organization. These explorations will be understood as catalysts for architectural analysis and design experimentation. Both designed objects and the very act of making are always embedded within a culture, as they reflect changing material preferences, diverse approaches to durability and obsolescence, varied understandings of comfort, different concerns with economy and ecology. They depend on multiple resources and mobilize varied technological innovations. Consequently, we will consider that making always involves making a society, for it constitutes a response to its values and a position regarding its technical and material resources. Within this understanding, this studio will consider different cultures of making through a number of exercises to rehearse design operations at different scales—from objects to infrastructures

Fall 2022: ARCH UN2101

ARCH UN2103 ARCHITECTURAL DESIGN: ENVIRONMENTS AND MEDIATIONS. 4.50 points.
This architectural design studio course explores modes of visualization, technologies of mediation and environmental transformations. These explorations will be used as catalysts for architectural analysis and design experimentation. Introducing
design methodologies that allow us to see and to shape environmental interactions in new ways, the studio will focus on how architecture may operate as a mediator—an intermediary that negotiates, alters or redirects multiple forces in our world: physical, cultural, social, technological, political etc. The semester will progress through three projects that examine unique atmospheric, spatial and urban conditions with the aid of multimedia visual techniques; and that employ design to develop creative interventions at the scales of an interface, space and city.

**ARCH UN3120 CITY, LANDSCAPE, # ECOLOGY. 3.00 points.**

City, Landscape, Ecology is a thematically driven course that centers on issues and polemics related to landscape, land settlement and ecology over the past two centuries. The course interrogates our changing attitudes to nature from the 18th century to the present, focusing on the artistic and architectural responses to these perceptions. It aims to demonstrate the important role that artists and architects have played, and are to play, in making visible the sources of environmental degradation and in the development of new means of mitigating anthropogenic ecological change. City, Landscape, Ecology is divided into three parts. Part I explores important episodes in the history of landscape: picturesque garden theory, notions of “wilderness” as epitomized in national and state parks in the United States, Modern and Postmodern garden practices, and the prevalence of landscape in the work of artists from the 1960s to the present. The purpose here is to better understand the role that territorial organization plays in the construction of social practices, human subjectivities, and technologies of power. We then turn to ecology and related issues of climate, urbanization and sustainability in Part II. Here we will look at the rise of ecological thinking in the 1960s; approaches to the environment that were based on the systems-thinking approach of the era. In the session “Capitalism, Race and Population Growth” we examine the history of the “crisis” of scarcity from Thomas Robert Malthus, to Paul R. Ehrlich (The Population Bomb, 1968) to today and look at questions of environmental racism, violence and equity. The course concludes with Part III (Hybrid Natures). At this important juncture in the course, we will ask what is to be done today. We’ll examine the work of contemporary theorists, architects, landscape architects, policy makers and environmentalists who have channeled some of the lessons of the past in proposing lasting solutions to our land management and ecological crises of the present and future.

**ARCH UN3201 ADVANCED ARCHITECTURAL DESIGN I. 4.50 points.**

Prerequisites: ARCH V3101 and ARCH V3103. Open to architecture majors or with permission of instructor. Prerequisites: ARCH UN2101 and ARCH UN2103. Advanced Architectural Design I explores the role of architecture and design in relationship to climate, community, and the environment through a series of design projects requiring drawings and models. Field trips, lectures, and discussions are organized in relation to studio exercises. A portfolio of design work from the prerequisite courses ARCH UN2101 and ARCH UN2103 will be reviewed the first week of classes.

**ARCH UN3211 ADVANCED ARCHITECTURAL RESEARCH AND DESIGN. 4.50 points.**

Prerequisites: A design portfolio and application is required for this course. The class list will be announced before classes start. Application required: A design portfolio and application is required for this course. The class list will be announced before classes start. Advanced Architectural Research and Design is an opportunity for students to consider international locations and address contemporary global concerns, incorporating critical questions, research methods, and design strategies that are characteristic of an architect’s operations at this scale.

ARCH GU4300 The Just City: Global Debates in Urban Planning and Policy. 4.00 points.
Urbanization is inherently unequal, inscribing social, economic, environmental, and political unevenness into the spatial fabric of the city. But the distribution of such inequality is not inevitable. Urbanization is a product of the collective decisions we make (or choose not to make) in response to the shared challenges we face in our cities. And, thus, the patterns of urbanization can be changed. This is the task of urban planning and the starting point for this advanced seminar, which asks how we can reshape our cities to be more just—to alleviate inequality rather than compound it. In embarking on this effort, we face numerous “wicked” problems without clear-cut solutions. The approaches one takes in addressing urban inequality are therefore fundamentally normative—they are shaped by one’s place in the world and one’s view of it. The central challenge in addressing inequality is thus establishing a basis for collective action amongst diverse actors with differing—and sometimes conflicting—values and views. In other words, planning the just city a matter of both empathy and debate. In this course, we will endeavor to develop informed positions that can help us engage with others as a basis for taking collective action. The course is organized into four 3-week modules, each of which addresses a dimension of the just city: equity, democracy, diversity, and sustainability. In the first week of each module, we will discuss how the issue has been understood in history and theory (with an emphasis on tradeoffs between different priorities and values); in the second week, we will apply this discussion to a global case study prepared and presented by a team of students; and in the third week, we will hold an in-class debate to determine what should be done. Specific case studies vary each year

**ARCH UN2101 ARCHITECTURAL DESIGN: SYSTEMS AND MATERIALS. 4.50 points.**

This architectural design studio explores material assemblies, techniques of fabrication, and systems of organization. These explorations will be understood as catalysts for architectural analysis and design experimentation. Both designed objects and the very act of making are always embedded within a culture, as they reflect changing material preferences, diverse approaches to durability and obsolescence, varied understandings of comfort, different concerns with economy and ecology. They depend on multiple resources and mobilize varied technological innovations. Consequently, we will consider that making always involves making a society, for it constitutes a response to its values and a position regarding its technical and material resources. Within this understanding, this studio will consider different cultures of making through a number of exercises rehearse design operations at different scales—from objects to infrastructures.

**ARCH UN3117 MOD ARCHITECTURE IN THE WORLD. 3.00 points.**

Prerequisites: Designed for but not limited to sophomores; enrollment beyond 60 at the discretion of the instructor.

Prerequisites: Designed for but not limited to sophomores; enrollment beyond 60 at the discretion of the instructor. How has architecture been “modern”? This course will introduce students to things, practices, figures, and ideas behind this contentious and contradictory concept, emerging in multiple locations around the world. Students in this course will learn about architecture as it was practiced, taught, thought, and experienced across landscapes of social and cultural difference during the past two centuries. Learning about the past through historical consciousness around architecture and investigating the history of architecture as a discursive field are fundamental to liberal arts thinking generally, and important for students in architecture, the history and theory of architecture, art history, and urban studies. Students in this course will be introduced to: Architecture as enmeshed with other forms of cultural production—Culturally-specific intellectual and public debates around the architectural and urbanMakers, thinkers, and organizers of the designed or built environment—Geographies, territories, and mobilities associated with architecture as an end or means for material extraction, refinement, trade, labor, and construction—Sites, institutions, media, events, and practices which have come to hold meaning Modernity, modernism, and modernization in relation to each other, as social, cultural, and technological drivers holding stakes for past events as well their histories. In this course, we will ask questions about ideas and practices within disparate socially-and culturally-constructed worlds, and across other asymmetries. For example, can we draw a coherent historical thread through Lisbon in 1755, Bombay in 1854, Moscow in 1917, the moon in 1969, and al-Za’atari refugee camp in 2016? Are such narratives of coherence themselves the trace of the modernist impulse in architectural history? In this course, we will study modern architecture’s references to an art of building as well the metaphors it gives rise to. Embedded in this examination are
ARCH UN3202 ADVANCED ARCHITECTURAL DESIGN II. 4.50 points.
Prerequisites: ARCH V3201. Open to architecture majors or with permission of instructor.
Prerequisite: ARCH UN3201. Advanced Architectural Design II culminates the required studio sequence in the major. Students are encouraged to consider it as a synthetic studio where they advance concepts, research methodologies and representational skills learned in all previous studios towards a semester-long design project. Field trips, lectures, and discussions are organized in relation to studio exercises.

ART HISTORY AND ARCHAEOLOGY

Departmental Office: 826 Schermerhorn Hall; 212-854-4505
http://www.columbia.edu/cu/arthuristory/

Director of Undergraduate Studies: Prof. Diane Bodart, 914 Schermerhorn Hall; db2920@columbia.edu

Director of Art Humanities: Prof. Zoë Strother, 811 Schermerhorn Hall; zss1@columbia.edu

Coordinator for Undergraduate Programs: Emily Benjamin, 826 Schermerhorn Hall; 212-854-4505; eb3061@columbia.edu

The goal of the major in the Department of Art History and Archaeology is to explore the history of art, architecture, and archaeology across a broad historical, cultural, geographic, and methodological spectrum.

Department courses take advantage of the extraordinary cultural resources of New York City and often involve museum assignments and trips to local monuments. The department offers a major and concentration in art history and in the history and theory of architecture, and a combined major in art history and visual arts.

At the heart of the major is AHIS UN3000 INTRO LIT/METHODS OF ART HIST, which introduces students to different methodological approaches to art history and critical texts that have shaped the discipline. The colloquium also prepares students for the independent research required in seminars and advanced lecture courses, and should be taken during the junior year.

Surveys and advanced lecture courses offered by Barnard and Columbia cover the spectrum of art history from antiquity to the present and introduce students to a wide range of materials and methodologies. Limited-enrollment seminars have a narrower focus and offer intensive instruction in research and writing. The opportunity for advanced research with a senior thesis is available to students who qualify.

The major readily accommodates students who wish to study abroad during junior year. Courses taken at accredited programs can generally count as transfer credits toward the major, but students must gain the approval of the director of undergraduate studies. Similarly, any transfer credit for the major must be approved by the director of undergraduate studies. Generally no more than 12 points of transfer credit are applicable to the
major. The form to petition for transfer credit can be found on the department website. Eligible Art History courses taken at Reid Hall and through the Berlin Consortium are counted as Columbia courses, not transfer courses.

All newly declared majors and concentrators should visit the department office and speak with the undergraduate program coordinator about the requirements and their planned curriculum.

The director of undergraduate studies regularly communicates with majors by e-mail to announce departmental events, museum internships, and other news. Students who do not receive these messages should email the undergraduate program coordinator. The director of undergraduate studies is also available to talk to students about their professional goals and plans to study abroad.

COURSE INFORMATION

Lectures
Attendance at the first class meeting is recommended.

Colloquia
For information about enrollment in the required colloquium *AHIS UN3000 INTRO LIT/METHODS OF ART HIST*, students should consult the department during the registration period in the semester prior to the one in which the course is offered. Interested students must sign up using an online form; majors will be informed of the sign-up dates and deadline via the majors mailing list. Enrollment is limited and admission is at the discretion of the instructor. It is recommended that students sign up for the colloquium in their junior year.

Seminars
Students must submit an application in order to be considered for enrollment in department seminars. These applications are due around the time of early registration (April for fall courses, November for spring courses). Interested students can apply using the Google form applications which are linked below each seminar description on the website, as well as in the "Notes" section of each Directory of Classes listing. Students should then join the SSOL wait-list for any seminars they have applied to.

Bridge Seminars
Bridge seminars are open to graduate and undergraduate students. Bridge seminars also require an application, which is due in the semester prior to the semester in which the course is offered (August for fall courses, December for spring courses). Interested students can apply using the Google form applications which are linked below each seminar description on the website, as well as in the "Notes" section of each Directory of Classes listing. Students should then join the SSOL wait-list for any seminars they have applied to.

Bridge Lectures
Bridge lectures are open to undergraduate and graduate students. They do not require an application.

Travel Seminar
In the spring, one or more undergraduate seminars in the Department of Art History and Archaeology may be designated as a travel seminar. Travel seminars receive funding to sponsor travel over the spring break to a distant site related to the subject matter of the seminar.

STUDY ABROAD

Reid Hall, Paris
For information about the Columbia University in Paris Art History Program at Reid Hall, including summer session courses, visit the Office of Global Programs website.

Summer Program in Italy: Archaeological Fieldwork at Hadrian's Villa
Columbia University offers a four-week summer program that provides undergraduate and graduate students with the opportunity to excavate and learn together at Hadrian's Villa, a UNESCO World Heritage site near Rome and the most important Roman villa. It synthesizes Roman, Greek, and Egyptian architectural and artistic traditions and has attracted scholarly attention for centuries. For more information, visit the program website.

Columbia Summer Program in Venice
The Department of Art History and Archaeology and the Department of Italian offer a summer program based at Co' Foscari University in Venice. The program uses an interdisciplinary approach to understanding Italian culture through study of its language, literature/film, architecture, art history and conservation, and economy. Students have the opportunity to gain a deeper appreciation of the rich Venetian culture, traditions and history. The program is open to qualified undergraduate and graduate students from the U.S. and Italy. For more information, visit the program website.

Columbia Summer Program in Greece
The Department of Art History and Archaeology and the Program in Hellenic Studies offer a new summer program in Athens. "Curating the Histories of the Greek Present" examines aspects of Greek history and culture through the organization of an art exhibition under the general theme of the environment. The project is structured around classroom seminars, museum and site visits, walking tours, and workshop sessions in which students will learn about and gain experience in all stages of curating an exhibition. For more information, visit the program website.
**Departmental Honors**

In order to be considered for departmental honors, students must write a senior thesis and have a GPA of at least 3.7 in the major. The faculty of the Department of Art History and Archaeology submits recommendations to the College Committee on Honors, Awards, and Prizes for confirmation. Normally no more than 10% of graduating majors receive departmental honors in a given academic year.

**Senior Thesis Prize**

A prize is awarded each year to the best senior honors thesis written in the Department of Art History and Archaeology.

**Professors**

Alexander Alberro (Barnard)
Zainab Bahrani
Barry Bergdoll
Julia Bryan-Wilson

**Guidelines for All Art History and Archaeology Majors, Concentrators, and Interdepartmental Majors**

**Courses**

*HUMA UN1121 Masterpieces of Western Art* (Art Humanities) does not count toward the majors or concentrations, and no credit is given for Advanced Placement exams.

**Grading**

Courses in which a grade of D has been received do not count toward the major or concentration requirements.

Only the first course a student takes in the department may be taken for a grade of Pass/D/Fail. Classes taken in the Architecture or Visual Arts departments to fulfill the studio requirement may be taken for a grade of Pass/D/Fail.

**Senior Thesis**

The senior thesis project consists of a research paper 35-45 pages in length. It is a year-long project, and students writing a
thesis must register for AHIS UN3002 SENIOR THESIS for the fall and spring terms. Much of the fall semester is devoted to research, and the spring semester to writing.

All thesis writers are required to participate in class and, on alternate weeks, meet as a group or individually with the instructor. Group meetings are designed as a series of research and writing workshops geared toward students’ research projects. Students receive a total of six credits for successful completion of the thesis and class.

In order to apply, students follow a selection process similar to the one currently used for seminars. Students must identify a thesis topic and secure a faculty adviser in the Department of Art History and Archaeology. Applications must indicate the subject of the thesis, a short annotated bibliography, and the name and the signature of the adviser, followed by a one-page statement (400 words) outlining the topic, goals, and methodology of the thesis.

The application deadline is set for August before the senior year. Please check the department website for exact dates. Applications may be delivered in person or emailed to the coordinator for undergraduate programs. The director of undergraduate studies, in consultation with the thesis adviser, reviews the applications.

Students who intend to write a thesis should begin formulating a research topic and approaching potential faculty sponsors during the spring of the junior year. Currently, the department offers the Summer Research Travel Grant fellowship, which supports thesis-related research and travel during the summer. Additional senior thesis research funding during the academic year is administered through Columbia College and General Studies.

Senior thesis applications may be found at: http://www.columbia.edu/cu/arthistory/undergraduate/forms.html

Summer Research Travel Grant

The department offers the Summer Research Travel Grant, which may be used for travel to museums, building sites, libraries, archives, and other places of interest relevant to the thesis project. Students normally use these funds to conduct research during the summer before senior year.

Travel grant applications require a carefully edited thesis proposal, itemized budget, and supporting letter from a faculty sponsor. Applications are due in April of the student’s junior year. Students will be notified of deadlines as they become available. Please contact the coordinator for undergraduate programs with any questions.

The year-long senior thesis project (for qualified students; see below) AHIS UN3002 SENIOR THESIS may substitute for one elective lecture course. Seminars may substitute for lecture courses and may count toward fulfillment of the distribution requirements. Barnard Art History courses count toward the majors and concentration requirements.

The requirements for the major are as follows:

<table>
<thead>
<tr>
<th>AHIS UN3000</th>
<th>INTRO LIT/METHODS OF ART HIST</th>
</tr>
</thead>
<tbody>
<tr>
<td>Seven lecture courses in Art History:</td>
<td></td>
</tr>
<tr>
<td>At least one course in three of four historical periods, listed below</td>

</tr>
</tbody>
</table>

A studio course taken in the Visual Arts or Architecture departments (which may be taken Pass/D/Fail)

Historical Periods
- Ancient (pre-400 CE/AD)
- 400-1400
- 1400-1700
- 1700-Present

World Regions
- Africa
- Asia
- Europe/North America/Australia
- Latin America
- Middle East

NOTE: These chronological divisions are approximate. In case of ambiguities, please contact the director of undergraduate studies.

Major in History and Theory of Architecture

Please read Guidelines for all for Art History and Archaeology Majors, Concentrators, and Interdepartmental Majors above.

Majors can take advantage of one of the strengths of the department by focusing on architectural history. This track combines an introductory studio in architectural design with a slightly modified program in art history. Major requirements were updated in February 2019; please contact the director of undergraduate studies with any questions.

The requirements for the major are as follows:

| AHIS UN3000 | INTRO LIT/METHODS OF ART HIST |

|---|---|

Major in Art History

Please read Guidelines for all for Art History and Archaeology Majors, Concentrators, and Interdepartmental Majors above.
Seven lecture courses in art history, one of which must be AHIS UN1007 Introduction to Architecture, and three of which must focus on architectural history. Courses must cover four of five general areas:

<table>
<thead>
<tr>
<th>Ancient Mediterranean</th>
<th>Medieval Europe</th>
</tr>
</thead>
<tbody>
<tr>
<td>Renaissance and Baroque</td>
<td>18th-20th century</td>
</tr>
<tr>
<td>Non-Western</td>

</tr>
</tbody>
</table>

Two seminars in art history or architectural history

Architectural Studio:

| ARCH UN1020 | INTRO-ARCH DESIGN/VIS CULTURE |

NOTE: These chronological divisions are approximate. In case of ambiguities, please contact the director of undergraduate studies.

### MAJOR IN ART HISTORY AND VISUAL ARTS

Please read Guidelines for all for Art History and Archaeology Majors, Concentrators, and Interdepartmental Majors above.

Students interested in the combined major should contact the coordinator for undergraduate programs in the Art History department, as well as the director of undergraduate studies in the Visual Arts department.

Up to two 3-point courses in art history may be replaced by a related course in another department, with approval of the adviser. The combined major requires the completion of sixteen or seventeen courses. It is recommended that students interested in this major begin working toward the requirements in their sophomore year.

The requirements for the major are as follows:

<table>
<thead>
<tr>
<th>AHIS UN3000</th>
<th>INTRO LIT/METHODS OF ART HIST</th>
</tr>
</thead>
</table>

Seven lecture courses in art history:

- At least one course in three of four historical periods, as listed below
- An additional two courses in two different world regions, as listed below
- Two additional lectures of the student's choice

21 points in Visual Arts covering:

<table>
<thead>
<tr>
<th>VIAR UN1000</th>
<th>BASIC DRAWING</th>
</tr>
</thead>
<tbody>
<tr>
<td>VIAR UN2300</td>
<td>SCULPTURE I</td>
</tr>
<tr>
<td>or VIAR UN2200</td>
<td>CERAMICS I</td>
</tr>
</tbody>
</table>

Five additional VIAR 3-point studio courses (15 points)

In the senior year, students must complete either a seminar in the Department of Art History and Archaeology or a senior project in visual arts (pending approval by the Visual Arts Department).

### CONCENTRATION IN ART HISTORY

Please read Guidelines for all for Art History and Archaeology Majors, Concentrators, and Interdepartmental Majors above.

The requirements for the concentration are as follows:

Seven lecture courses in art history:

- At least one course in three of four historical periods, listed below
- An additional two courses in two different world regions, listed below
- Two additional lectures of the student's choice

NOTE: These chronological divisions are approximate. In case of ambiguities, please contact the director of undergraduate studies.

### Historical Periods

- Ancient (pre-400 CE/AD)
- 400-1400
- 1400-1700
- 1700-present

### World Regions

- Africa
- Asia
- Europe/North America/Australia
- Latin America
- Middle East

Concentrators are not required to take the majors colloquium, a seminar, or a studio course.
Concentration in History and Theory of Architecture

Please read Guidelines for all for Art History and Archaeology Majors, Concentrators, and Interdepartmental Majors above.

The requirements for the concentration are as follows:

AHIS UN1007 Introduction to the History of Architecture

Seven lecture courses in art history, one of which must be
AHIS UN1007 Introduction to the History of Architecture, and three of which must focus on architectural history. Courses must cover four of five general areas:

- Ancient Mediterranean
- Medieval Europe
- Renaissance and Baroque
- 18th-20th century
- Non-Western

Concentrators are not required to take the majors colloquium, a seminar, or a studio course.

Fall 2022 Undergraduate Lectures and Bridge Lectures

Undergraduate Lectures: 2000-level courses. Attendance at first class meeting is strongly recommended.
Bridge Lectures: 4000-level courses. Bridge lectures are open to graduate and advanced undergraduate students. They do not require an application. Attendance at first class is strongly recommended.

AHIS UN2108 Greek Art and Architecture. 3.00 points.

AHIS UN2317 Renaissance Architecture. 4.00 points.
This course examines the history of architecture between roughly 1400 and 1600 from a European perspective outward. Employing a variety of analytical approaches, it addresses issues related to the Renaissance built environment thematically and through a series of specific case studies. Travelling across a geographically diverse array of locales, we will interrogate the cultural, material, urban, social, and political dimensions of architecture (civic, commercial, industrial, domestic, ecclesiastical and otherwise). Additional topics to be discussed include: antiquity and its reinterpretation; local identity, style, and ornament; development of building typologies; patronage and politics; technology and building practice; religious change and advancements in warfare; the creation and migration of architectural knowledge; role of capitalism and colonialism; class and decorum in domestic design; health and the city; the mobility of people and materials; architectural theory, books, and the culture of print; the media of architectural practice; the growth of cities and towns; the creation of urban space and landscape; architectural responses to ecological and environmental factors; and the changing status of the architect. Students must register for a required discussion section.

AHIS UN2615 Survey of Dynastic Chinese Painting with Modern Comparisons. 4.00 points.

How did painting become the dominant expression of dynastic China, the pride of both the imperial court and the educated elite? This course will explore answers to that question through the study of selected Chinese paintings. The focus will be on influential paintings from the late Han dynasty to the end of the Qing dynasty in 1911. Most paintings of the dynastic era will be introduced with a contemporary image from the 20th or 21st century. These recent works will allow us to consider continuities, ruptures, and transformations. Paintings functioned as guides to heaven and on correct behavior, entertainment, assertions of authority and legitimacy, celebrations of longevity, as well as ways to criticize and to complain. Because analogy and metaphor are fundamental to Chinese language and visual art, we will examine visual symbols, auspicious imagery, and the rhetoric of resistance. After successfully completing this course, you will be better able to articulate a research question, read more critically, write a visual analysis, and impress friends and family as you name a painting used in restaurant décor.
### AHUM UN2901 MASTERPIECES-INDIAN ART # ARCH.  
3.00 points.  
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

### AHUM UN2800 Arts of Islam, 700-1000 CE. 4.00 points.  
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

This lecture course offers a comprehensive and chronological overview of the major masterpieces of art and architecture of the Muslim world between circa 700-1000 AD. Topics concerning the rise of Arabic as the official language of the new Muslim Empire and the aesthetic transformation it went from script to calligraphy, the shaping of sacred spaces and liturgical objects, rulers’ iconographies and urban designs, as well as daily-life objects, will be discussed. Mecca, Madina, Jerusalem, Damascus, Fustat (old Cairo), Qayrawan, Cordoba, Baghdad, Samarra, Balkh, Bukhara and early Fatimid Cairo are major playgrounds to illustrate particular moments of shifting powers and aesthetic paradigms in the early days of the Muslim empire, suggesting a more differentiated picture of the arts of Islam in the age of imagining a world-wide empire. The past narratives for these regions will be critically presented by both looking at the medieval sources and the modern historiographies for these regions and by highlighting the varied ideologies at play. Taking this critical vein of studying the arts of the early Muslim age, past narratives will be reconsidered, while enhancing our awareness to the complicated, if not sometimes manipulated, processes of giving works of art meanings and values.

### AHIS UN3410 APPROACHES TO CONTEMPORARY ART. 4.00 points.
This course examines the critical approaches to contemporary art from the 1970s to the present. It will address a range of historical and theoretical issues around the notion of the contemporary (e.g. globalization, participation, relational art, ambivalence, immaterial labor) as it has developed in the era after the postmodernism of the 1970s and 1980s.

### AHIS UN3456 Picturing People: Photography # the Body. 4.00 points.
How did changing modes of representation reflect and contribute to shifting conceptions of embodiment and identity? This advanced undergraduate seminar explores the complex relationship between photography and the human body in the United States since the introduction of photography in 1839. Moving decade by decade, this course traces the development of photography alongside social and political change that altered how human bodies were understood, represented, inhabited, and controlled. We will examine a variety of photographic genres that figure the body, including personal portraits, ethnographic images, identification images, documentary photography, and fashion photography. Alongside the close examination of photographs, we will read key primary sources, scholarship in art history, and theoretical texts. Two field trips—one to Columbia’s Art Properties and one to the Metropolitan Museum of Art—will give us an opportunity to have our own embodied encounters with historical photographs. Although the course explores the period between 1839 and 1970, we will reflect upon the legacy of historical photographic practices in the years since and in the contemporary world.
AHIS UN3703 Sin Autorizacion: Themes in Contemporary Cuban Art. 4.00 points.
This course is planned in conjunction with the exhibition Sin autorización, to be on display at the Wallach Gallery in Fall 2022. Using the exhibition and its works as a guide, this class focuses on main themes within Cuban art from the last few decades. Rather than proceeding in chronological order, each unit will address a theme present both within the greater history of contemporary Cuban art and works from the exhibition itself. The course will make use of public programming for the exhibition, as well as direct access to the artists included in the exhibition, through in-class visits and workshops, as possible. While we will focus on contemporary art from Cuba, we will begin by grounding our study within Caribbean cultural theory and important scholarship in Caribbean art history. Using Caribbean theory will help to contextualize and situate contemporary Cuban art within the greater field of art history and cultural theory.

AHIS GU4517 Hadrian’s Villa: An Imperial Court and Its Spaces. 4.00 points.
This seminar aims to understand Hadrian’s Villa by contextualizing it within the broader network of Roman imperial residences—palaces and villas alike—and by focusing on the relationship between architectural spaces and decoration on the one hand, and social practices and daily routines on the other. Basing on the findings of Columbia’s own excavations, special attention will be devoted to the cultic life at the villa, with particular emphasis on its non-elite inhabitants and the relationship between “high” and “low” forms of religiosity. The scope of the seminar is interdisciplinary: applications of students from all departments are welcome. Familiarity with Greek and Roman art, architecture, and history is strongly recommended.

AHIS GU4728 Digital Art History: New Methods for Studying European Medieval Architecture and Associated Arts. 4.00 points.
This seminar will explore the use of digital technologies in art history through studying new approaches to medieval art and architecture. For about thirty years, digital technologies have played an increasing role in the humanities. Recently, the phenomenon has significantly gained momentum. In the field of art history, this growth can be attributed to a wider availability of digital tools and the decreasing cost of advanced technologies. Lidar scanning, photogrammetry, virtual reality, high resolution photography, 3D modeling, and so on are now frequently part of art historical studies and publications. In this seminar, students are invited to evaluate the pros and cons of addressing digital technologies for art history. Starting from the subfield of medieval architecture, the seminar will address questions that appear today in many fields and periods of art history. The seminar will include hands-on practical experience. Students with or without technical skills are encouraged to join this seminar.

AHIS GU4742 African American Visual and Decorative Arts, 1650-1900. 4.00 points.
This course surveys the earliest forms of visual production by North Americans of African descent, spanning the period from 1650-1900. Our focus encompasses decorative arts and crafts (furniture, pottery, quilts), architecture, and the emerging field of African American archeology, along with photography and the fine arts of painting and sculpture. We will consider how certain traditions brought from Africa contributed to the development of the early visual and material culture of what came to be called the United States. We will also reflect on how theories of diaspora, and resistance help us understand African American and American culture in general.
**AHIS GU4743 Colonial Visual Systems: Constructing a "New World". 4.00 points.**

This course will examine the visual organizational systems used by Europeans during their colonization of the Americas, specifically the Caribbean. These systems were used in several ways: first to classify that which Europeans had never encountered through botanical and zoological illustration, then, as tools to assert control over groups of people and land through mapping practices and ethnographic illustrations. As such, the course will examine the broad history of colonialism and the transAtlantic slave trade, beginning in the early fifteenth century and ending with twentieth-century tourist photos.

The course will study the ways these visual systems were marshaled to create narratives that persist to this day, including the construction of race and use of the Picturesque as a pro-slavery tool that rendered the Caribbean as a pastoral haven. Stressing the development of image analysis skills and primary source materials, the main requirement will be a final 15-20 page paper. Over the course of the semester, we will work on developing this paper together; the end goal is that students will have a paper they can use for conference presentations or even rework for publication. At the end of the course, the student will be versed not only in colonial history but in the ways visual systems have functioned to construct systems of power and control.

**AHIS UN3007 MAJ COLLOQ:LIT/MTHDS ARCH HIST. 4.00 points.**

This course, on the one hand, examines the intertwined histories of art history and architectural history from the late nineteenth century onwards and, on the other, focuses on questions that have been central to architectural history since the field’s beginnings. It combines theoretical inquiry with practical training in historical research. Students will be asked to carry out research projects in various archives in New York City and complete a single writing assignment in stages.

**Spring 2023 Undergraduate Lectures and Bridge Lectures**

**Undergraduate Lectures: 2000-level courses.**

Attendance at first class meeting is strongly recommended.

**Bridge Lectures: 4000-level courses.** Bridge lectures are open to graduate and advanced undergraduate students. They do not require an application. Attendance at first class is strongly recommended.
AHIS UN2309 EARLY MODERN ARCHITECTURE (1550-1799). 3.00 points.

This course examines the history of early modern architecture from a European perspective outward. It starts with the time of Michelangelo and Palladio and ends in the late eighteenth century. It addresses a number of transhistorical principal issues and analytical approaches while focusing on to a series of roughly chronological thematic studies. Travelling across courts, academies, streets, and buildings devoted to new institutions, this course examines the cultural, material, urban, social, and political dimensions of architecture, as well as temporal and geographic migrations of architectural knowledge. Topics will also include: the resurgence of interest in antiquity; the longue durée history of monuments; changes in building typology; the patronage and politics of architecture; technological developments and building practice; architectural theory, books, and the culture of print; the growth of capital cities; the creation of urban space and landscape; the formalization of architectural education; and the changing status of the architect.

AHIS UN2405 TWENTIETH CENTURY ART. 4.00 points.

The course will examine a variety of figures, movements, and practices within the entire range of 20th-century art—from Expressionism to Abstract Expressionism, Constructivism to Pop Art, Surrealism to Minimalism, and beyond—situating them within the social, political, economic, and historical contexts in which they arose. The history of these artistic developments will be traced through the development and mutual interaction of two predominant strains of artistic culture: the modernist and the avant-garde, examining in particular their confrontation with and development of the particular vicissitudes of the century’s ongoing modernization. Discussion section complement class lectures. Course is a prerequisite for certain upper-level art history courses

AHIS UN2702 PRE-COLUMBIAN ART AND ARCHITECTURE. 3.00 points.

The Western Hemisphere was a setting for outstanding accomplishments in the visual arts for millennia before Europeans set foot in the so-called “New World.” This course explores the early indigenous artistic traditions of what is now Latin America, from early monuments of the formative periods (e.g. Olmec and Chavín), through acclaimed eras of aesthetic and technological achievement (e.g. Maya and Moche), to the later Inca and Aztec imperial periods. Our subject will encompass diverse genre including painting and sculpture, textiles and metalwork, architecture and performance. Attention will focus on the two cultural areas that traditionally have received the most attention from researchers: Mesoamerica (including what is today Mexico, Guatemala, Belize, El Salvador, and Honduras) and the Central Andes (including Ecuador, Peru, and Bolivia). We will also critically consider the drawing of those boundaries—both spatial and temporal—that have defined “Pre-Columbian” art history to date. More than a survey of periods, styles, and monuments, we will critically assess the varieties of evidence—archaeological, epigraphic, historical, ethnographic, and scientific—available for interpretations of ancient Latin American art and culture.

AHIS GU4089 NATIVE AMERICAN ART. 3.00 points.

This course looks closely at objects and images produced by Native North Americans across history. Grounding our study in essays and guest lectures from Native scholars, we will investigate the significance of the works and how and to whom meaning is communicated. Beginning with an introduction that links aesthetics and worldview using the conventional organizing principle of the culture area, we quickly move on to case studies that take up key issues that persist for Native people living under settler colonialism today, including questions of sovereignty, self-expression, transformation and representation. Along the way, we will also tackle historiographic questions about how knowledge about
Native art has been produced in universities and museums and how Indigenous people have worked to counter those discourses.

Spring 2023 UNDERGRADUATE SEMINARS AND BRIDGE SEMINARS
UNDERGRADUATE SEMINARS: 3000-level courses open to undergraduate students only. Interested students must fill out and submit an online application form in the semester prior to when the course will be offered (April deadline for fall courses, November deadline for spring courses). Please visit the "Courses" page on the department website and select the upcoming semester to find a list of undergraduate seminar descriptions and links to seminar application forms. BRIDGE SEMINARS: 4500-level courses open to advanced undergraduates and graduate students. Applications are due in August for fall courses, and January for spring courses. Please visit the "Courses" page on the department website and select the upcoming semester to find a list of undergraduate seminar descriptions and links to seminar application forms.

AHIS UN3433 ENLIGHTENMENT#ARCHAEOLOGY. 4.00 points.
In this seminar, we will study the emergence of the disciplines of Near Eastern and Classical archaeology, antiquarian interests and collecting practices in eighteenth and nineteenth century Europe. This European scientific interest was centered around the ancient past of lands under the Ottoman empire in the Near East and the Eastern Mediterranean. Students will learn about antiquarianism and the development of the scientific discipline of archaeology, how it defined itself and set itself apart from its predecessor, focusing on the earliest collecting and documentation of antiquities, the start of organised excavations, the origins of the modern museum and early archaeological photography.

AHIS UN3444 REFLEXIVITY IN ART # FILM. 4.00 points.
This seminar will explore a range of individual works of Western art from the 16th century to late 20th century in which the tension between illusionism and reflexivity is foregrounded. It will focus on well-known paintings and films in which forms of realism and verisimilitude coexist with features that affirm the artificial or fictive nature of the work or which dramatize the material, social and ideological conditions of the work’s construction. Topics will include art by Durer, Holbein, Velazquez, Watteau, Courbet, Morisot, Vertov, Deren, Godard, Varda, Hitchcock and others. Readings will include texts by Auerbach, Gombrich, Brecht, Jameson, Barthes, Didi-Huberman, Bazin, Lukacs, Mulvey, and Daney.

AHIS UN3453 Women Artists in Eighteenth-Century Europe. 4.00 points.
This seminar will examine the career and artistic production of women artists in the long eighteenth century in Europe, with a specific focus on Italy, France and Britain. Recent research has shown that many women managed to become professional artists during this period. But how successful were they? And what did their work consist of? To date, the historical recovery of data about their career and oeuvre remains a work in progress. In contrast, the few women artists who reached international fame in the eighteenth-century – in part because they were members of otherwise overwhelmingly male art academies – have received significant scholarly attention by art historians that include Angela Rosenthal and Mary Sheriff, among others, and have been the subject of important monographic exhibitions in the past two decades. In light of this state of the research, we will study the cases of canonical artists, such as Angelica Kauffman (1741-1807), as well as the cases of still understudied (yet sufficiently documented) artists, such as Marie Geneviève Bouliair (1763-1825). Our primary task will be to examine the different ways in which women who became artists navigated the eighteenth-century social order – an order where the terms “woman” and “professional artist” were commonly understood as contradictory – and analyze their art with a critical understanding of the expectations, aesthetic and otherwise, that they were held to. Topics of discussion will include: training; the hierarchy of genres; women artists and media, including miniature, engraving and sculpture; self-portraiture and gender expectations; women artists and art criticism; and emulation and authorship.

AHIS GU4741 Art and Theory in a Global Context. 4.00 points.
What is “globalization”? How does it change the way we think about or show art today? What role does film and media play in it? How has critical theory itself assumed new forms in this configuration moving outside post-war Europe and America? How have these processes helped change with the very idea of ‘contemporary art’? What then might a transnational critical theory in art and in thinking look like today or in the 21st
century? In this course we will examine this cluster of questions from a number of different angles, starting with new questions about borders, displacements, translations and minorities, and the ways they have cut across and figured in different regions, in Europe or America, as elsewhere. In the course of our investigations, we will look in particular at two areas in which these questions are being raised today -- in Asia and in Africa and its diasporas. The course is thus inter-disciplinary in nature and is open to students in different fields and areas where these issues are now being discussed.

**Astronomy**

**Departmental Office:** 1328 Pupin; 212-854-3278  
http://www.astro.columbia.edu

**Director of Undergraduate Studies:**  
Prof. Frederik B.S. Paerels, 1022 Pupin; 212-854-0181; frits@astro.columbia.edu

Astronomy is, at once, the oldest science and one of the most vibrant fields of modern research. Its goal is to construct testable, quantitative, coherent models of the universe (the UNIty of the diVERSE) and its contents-galaxies, stars, and planets. The department offers two majors, both of which require a solid grounding in the mathematics and physics necessary for the pursuit of the discipline.

The astrophysics major is designed as preparation for graduate study and consists of a standard physics major sequence; a yearlong introduction to astrophysics (typically taken in the sophomore year, but open to first-years with adequate preparation in calculus and physics); and two required courses covering advanced topics in astronomy. Research, in the form of summer internships and/or term-time independent projects, which can lead to a senior thesis, is strongly encouraged. For a research thesis, students should enroll in the parallel, two-semester sequence ASTR UN3997-ASTR UN3998 INDEPENDENT RESEARCH, preferably in their senior year. Students begin the research project in the fall and complete the written thesis in the spring.

The astronomy major provides a basis for further study in the field, but is also designed to be compatible with liberal arts students who pursue other careers and those wishing to combine astronomy with related sciences other than physics, such as chemistry or geology. It requires only two physics courses beyond the introductory sequence and can be completed easily if begun in the sophomore year.

The department offers numerous introductory astronomy courses at the 1000-level that do not have prerequisites. The calculus-based ASTR UN2001 INTRO TO ASTROPHYSICS I-ASTR UN2002 INTRO TO ASTROPHYSICS II sequence is recommended for astronomy majors and concentrators and is required for astrophysics majors.

Most 3000-level courses, as well as ASTR GU4260 MODELING THE UNIVERSE, are offered every other year. Students should inquire with the director of undergraduate studies if they have specific questions on the course schedule. ASTR UN3996 Current Research in Astrophysics is a one-point course offered in the fall, designed to introduce majors to research methods and topics. It requires students to attend the department colloquia and a seminar designed to help students understand the colloquium topic. The 3000-level courses need not be taken in any particular order.

GUIDELINES FOR ALL ASTRONOMY MAJORS, CONCENTRATORS, AND INTERDEPARTMENTAL MAJORS

Courses in which the grade of D has been received do not count toward the major or concentration requirements.

MAJOR IN ASTRONOMY

The major requirements, to be planned with the director of undergraduate studies, are as follows:

Mathematics
Calculus sequence through MATH UN1202 Calculus IV or MATH UN1208 Honors Mathematics IV

Astronomy
Select one of the following options:

Option 1:
Two 3-point 1000-level astronomy courses
12 points in astronomy at the 2000-level or above

Option 2:
ASTR UN2001
- ASTR UN2002
INTRO TO ASTROPHYSICS I
and INTRO TO ASTROPHYSICS II
9 points in astronomy at the 3000-level or above

Physics
Select one of the following physics sequences:

Sequence 1:
PHYS UN1401
- PHYS UN1402
- PHYS UN1403
INTRO TO MECHANICS # THERMO
and INTRO ELEC/MAGNETSM # OPTICS
and INTRO-CLASSCL # QUANTUM WAVES

Sequence 2:
PHYS UN1601
- PHYS UN1602
- PHYS UN2601
PHYSICS I:MECHANICS/ RELATIVITY
and PHYSICS II: THERMO,
ELEC # MAG
and PHYSICS III:CLASS/ QUANTUM WAVE

Sequence 3:
PHYS UN2801
- PHYS UN2802
ACCELERATED PHYSICS I and ACCELERATED PHYSICS II

Additional Physics Courses
Two physics courses at the 3000-level or above

Students contemplating graduate study are advised to include at least two of these physics courses:

PHYS UN3003 MECHANICS
PHYS UN3007 ELECTRICITY-MAGNETISM
PHYS GU4021 QUANTUM MECHANICS I
- PHYS GU4022 and QUANTUM MECHANICS II

One of these may be substituted for 3 points of astronomy.

MAJOR IN ASTROPHYSICS

Students considering an Astrophysics major are encouraged to meet with the director of undergraduate studies. If possible, it is useful to start the physics sequence in the first year.

Mathematics
Calculus sequence through MATH UN1202 Calculus IV or MATH UN1208 Honors Mathematics IV

Astronomy
ASTR UN2001
- ASTR UN2002
INTRO TO ASTROPHYSICS I
and INTRO TO ASTROPHYSICS II
6 points in astronomy at the 3000-level or above

Physics
Select one of the following physics sequences:

Sequence 1:
PHYS UN1401
- PHYS UN1402
- PHYS UN1403
INTRO TO MECHANICS # THERMO
and INTRO ELEC/MAGNETSM # OPTICS
and INTRO-CLASSCL # QUANTUM WAVES

Sequence 2:
PHYS UN1601
- PHYS UN1602
- PHYS UN2601
PHYSICS I:MECHANICS/ RELATIVITY
and PHYSICS II: THERMO,
ELEC # MAG
and PHYSICS III:CLASS/ QUANTUM WAVE

Sequence 3:
PHYS UN2801
- PHYS UN2802
ACCELERATED PHYSICS I and ACCELERATED PHYSICS II

Additional Physics Courses
PHYS UN3003 MECHANICS
PHYS UN3007 ELECTRICITY-MAGNETISM
PHYS UN3008 ELECTROMAGNETIC WAVES # OPTICS
PHYS GU4021 QUANTUM MECHANICS I
- PHYS GU4022 and QUANTUM MECHANICS II
OR
PHYS BC3006 QUANTUM PHYSICS
and THERMAL # STATISTICAL PHYSICS

CONCENTRATION IN ASTRONOMY

An extra 3 points of physics can substitute for 3 points of astronomy, as long as the course submitted is at the equivalent or higher level. The concentration requirements are as follows:

Mathematics
9 points of mathematics
Astronomy
15 points of astronomy, nine of which must be at or above the 2000-level

Physics
9 points of physics

FALL 2022

ASTR UN1234 UNIVERSAL TIMEKEEPER. 3.00 points.
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: high school algebra and latent curiosity are assumed.
The goal of the course is to illustrate — and perhaps even inculcate — quantitative and scientific reasoning skills. The subject material employed in this task is the study of atoms and their nuclei which, through a wide variety of physical and chemical techniques, can be used to reconstruct quantitatively the past. Following an introduction to atoms, light, and energy, we will explore topics including the detection of art forgeries, the precise dating of archeological sites, a reconstruction of the history and age of the Earth, and the history of the Universe. The course has no required text. Readings of relevant articles and use of on-line simulations will be required.

ASTR UN1403 EARTH, MOON, AND PLANETS. 3.00 points.
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: recommended preparation: a working knowledge of high school algebra.
Prerequisites: recommended preparation: a working knowledge of high school algebra. The overall architecture of the solar system. Motions of the celestial sphere. Time and the calendar. Major planets, the earth-moon system, minor planets, comets. Life in the solar system and beyond. This course is similar to ASTR BC 1753. You cannot enroll in both courses and receive credit for both

ASTR UN1453 ANOTHER EARTH. 3.00 points.
CC/GS: Partial Fulfillment of Science Requirement

This course cannot be taken for credit if BC1753 has been taken.

This course will explore the unique properties of Earth, compared to other planets in the Solar System, and the possibility of Earth-like planets around other stars. The basics of the Solar System, gravity, and light will be covered, as well as the geology and atmospheres of the terrestrial planets. The properties of Earth that allowed life to develop and whether life can develop on other planets will be discussed. Finally, the discovery of planets beyond our Solar System and the likelihood of another Earth will be a key component of the course

ASTR UN2001 INTRO TO ASTROPHYSICS I. 3.00 points.
Prerequisites: a working knowledge of calculus. Corequisites: a course in calculus-based general physics. First term of a two-term calculus-based introduction to astronomy and astrophysics. Topics include the physics of stellar interiors, stellar atmospheres and spectral classifications, stellar energy generation and nucleosynthesis, supernovae, neutron stars, white dwarfs, and interacting binary stars.
ASTR UN2900 FRONTIERS OF ASTROPHYSICS. **1.00 point.**

Several members of the faculty each offer a brief series of talks providing context for a current research topic in the field and then present results of their ongoing research. Opportunities for future student research collaboration are offered. Grading is Pass/Fail.

**Fall 2022: ASTR UN2900**

ASTR UN3103 GALAXIES. **3.00 points.**

Prerequisites: one year of calculus-based general physics.
Prerequisites: one year of calculus-based general physics.
Galaxies fill the universe with structure. They are bound objects that harbor stars, gas, dust and dark matter. This course will discuss the content and structure of galaxies. It will start with the Milky Way, a rotating spiral galaxy, with a particular emphasis on the properties of the interstellar medium. Dwarf galaxies, the building blocks of larger galaxies, will subsequently be discussed, followed by spiral, elliptical and irregular galaxies. The formation and evolution of these different galaxy types will be an important focus of the course, as well as the environment in which the galaxies reside. We will intersperse reviews of current papers on galaxies throughout the semester.

ASTR UN3105 EXTRASOLAR PLANETS # ASTROBIOL. **3.00 points.**

Prerequisites: One year of calculus-based physics.
The emerging field of extrasolar planets and astrobiology will be covered at a quantitative level, with a major emphasis on astrophysical phenomena and techniques. The subject will be introduced through an investigation of current planetary formation theories and approaches to planet detection, including what we currently know about extrasolar planets and detailed reference to state-of-the-art studies. An astronomer's view of the origin of life and extreme biology will be developed and applied to questions of cosmo-chemistry, observable life-signatures, habitable zones and other astrophysical constraints on the development of organisms.

ASTR UN3997 INDEPENDENT RESEARCH. **3.00 points.**

CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: the instructor's permission. For an independent research project or independent study, a brief description of the proposed project or reading, with the supervising faculty member's endorsement, is required for registration.
Prerequisites: the instructor's permission. For an independent research project or independent study, a brief description of the proposed project or reading, with the supervising faculty member’s endorsement, is required for registration. A variety of research projects conducted under the supervision of members of the faculty. Observational, theoretical, and experimental work in galactic and extragalactic astronomy and cosmology. The topic and scope of the work must be arranged with a faculty member in advance; a written paper describing the results of the project is required at its completion (note that a two-term project can be designed such that the grade YC is given after the first term). Senior majors in astronomy or astrophysics wishing to do a senior thesis should make arrangements in May of their junior year and sign up for a total of 6 points over their final two terms. Both a substantial written document and an oral presentation of thesis results are required.

stellar evolution, and supernovae and compact objects. Topics, such as pre-main sequence evolution, the late stages of evolution. In the second half of the course, we will discuss special topics, such as active galactic nuclei, and cosmology.

Introductory astronomy is not required, but some exposure to the structure of our galaxy, the interstellar medium, stars, and cosmology

ASTR UN104 ASTRONOMY LAB II. 1.00 point.
Laboratory for ASTR UN1404. Projects include use of telescopes, laboratory experiments in the nature of light, spectroscopy, and the analysis of astronomical data. Lab 2 goes with ASTR BC1754 or ASTR UN1404 (or ASTR UN1836 or ASTR UN1420)

ASTR UN2002 INTRO TO ASTROPHYSICS II. 3.00 points.
Prerequisites: a working knowledge of calculus. Corequisites: the second term of a course in calculus-based general physics. Continuation of ASTR UN2001; these two courses constitute a full year of calculus-based introduction to astrophysics. Topics include the structure of our galaxy, the interstellar medium, star clusters, properties of external galaxies, clusters of galaxies, active galactic nuclei, and cosmology

ASTR UN3101 MODERN STELLAR ASTROPHYSICS. 3.00 points.
CC/GS: Partial Fulfillment of Science Requirement
Prerequisites: one year of calculus-based general physics. Introductory astronomy is not required, but some exposure to astronomy is preferable. In the first half of the course, we will examine the physics of stellar interiors in detail, leading us to develop models of stellar structure and consider how stars evolve. In the second half of the course, we will discuss special topics, such as pre-main sequence evolution, the late stages of stellar evolution, and supernovae and compact objects.

ASTR UN3646 OBSERVATIONAL ASTRONOMY. 3.00 points.
Prerequisites: one year of general astronomy
Prerequisites: one year of general astronomy. Prerequisites: one year of general astronomy. Introduction to the basic techniques used in obtaining and analyzing astronomical data. Focus on ground-based methods at optical, infrared, and radio wavelengths. Regular use of the telescope facilities atop the roof of the Pupin Labs and at Harriman Observatory. The radio-astrology portion consists mostly of computer labs. In research projects, students also work on the analysis of data obtained at National Observatories

ASTR UN3998 INDEPENDENT RESEARCH. 3.00 points.
Prerequisites: the instructor's permission. For an independent research project or independent study, a brief description of the proposed project or reading, with the supervising faculty member's endorsement, is required for registration. Prerequisites: the instructors permission. For an independent research project or independent study, a brief description of the proposed project or reading, with the supervising faculty members endorsement, is required for registration. Both a substantial written document and an oral presentation of thesis results are required

ASTR GU4303 ASTROSTATISTICS. 3.00 points.
Astronomers live in era of “big data”. Whilst astronomers of a century ago collected a handful of photographic plates each night, modern astronomers collect thousands of images encoded by millions of pixels in the same time. Both the volume of data and the ever present desire to dig deeper into data sets has led to a growing interest in the use of statistical methods to interpret observations. This class will provide an introduction to the methods commonly used in understanding astronomical data sets, both in terms of theory and application. It is one six classes the department offers every fourth semester
and use of on-line simulations will be required. The course has no required text. Readings of relevant articles, the history and age of the Earth, and the history of the Universe. the history of past climate (and its implications for the future), development of agriculture and the history of the human diet, the precise dating of archeological sites, a reconstruction of the

ASTR UN1453 ANOTHER EARTH. 3.00 points.
CC/GS: Partial Fulfillment of Science Requirement
This course cannot be taken for credit if BC1753 has been taken.

This course will explore the unique properties of Earth, compared to other planets in the Solar System, and the possibility of Earth-like planets around other stars. The basics of the Solar System, gravity, and light will be covered, as well as the geology and atmospheres of the terrestrial planets. The properties of Earth that allowed life to develop and whether life can develop on other planets will be discussed. Finally, the discovery of planets beyond our Solar System and the likelihood of another Earth will be a key component of the course.

---

**ASTR UN1453 Galaxies and Cosmology. 3 points.**

CC/GS: Partial Fulfillment of Science Requirement

Galaxies contain stars, gas dust, and (usually) super-massive black holes. They are found throughout the Universe, traveling through space and occasionally crashing into each other. This course will explore at how these magnificent systems form and evolve, and what we can tell us about the formation and evolution of the Universe itself. You cannot enroll in ASTR UN1420 in addition to ASTR BC1754 or ASTR UN1404 and receive credit for both.

---

**ASTR UN1420 Galaxies and Cosmology. 3 points.**

CC/GS: Partial Fulfillment of Science Requirement

Galaxies contain stars, gas dust, and (usually) super-massive black holes. They are found throughout the Universe, traveling through space and occasionally crashing into each other. You cannot enroll in ASTR UN1420 in addition to ASTR BC1754 or ASTR UN1404 and receive credit for both.

---

**ASTR UN1610 THEOR-UNIVERS: BABYLON-BIG BANG. 3.00 points.**

CC/GS: Partial Fulfillment of Science Requirement

Milestones in the science of cosmology over the past 6000 years. Skylore and observation in ancient cultures. The twin revolutions of the Greeks: Pythagoras and Ptolemy; and Aristotle, Aquinas, and the Great Chain of Being. The scientific revolution: the impersonal and deterministic world-order of Newton, Laplace, and Kelvin. The erosion of that world-order by mathematics and experiment in the 20th century (relativity, quantum physics, dark matter, and the expanding universe). Todays searches for a new grand order in the Universe, which can cope - or maybe not - with these blows to yesterdays comfortable wisdom.

---

**ASTR BC1753 LIFE IN THE UNIVERSE. 3.00 points.**

An introductory course intended primarily for nonscience majors. This interdisciplinary course focuses on the subject of Life in the Universe. We will study historical astronomy, gravitation and planetary orbits, the origin of the chemical elements, the discoveries of extrasolar planets, the origin of life on Earth, the evolution and exploration of the Solar System, global climate change on Venus, Mars and Earth, and the Search for Extraterrestrial Life (SETI). You cannot receive credit for this course and for ASTR UN1403 or ASTR UN1453. Can be paired with the optional Lab class ASTR UN1903.

---

**ASTR BC1754 Stars, Galaxies, and Cosmology. 3 points.**

Prerequisites: Recommended preparation: A working knowledge of high school algebra. Corequisites: Suggested parallel laboratory course: ASTR C 1904y.

Examines the properties of stars, star formation, stellar evolution and nucleosynthesis, the Milky Way and other galaxies, and the cosmological origin and evolution of the universe. Students may not receive credit for both ASTR BC 1754 and ASTR C1404.

---

**ASTR UN1836 STARS AND ATOMS. 3.00 points.**

CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: recommended preparation: a working knowledge of high school algebra.

Prerequisites: recommended preparation: a working knowledge of high school algebra. What is the origin of the chemical elements? This course addresses this question, starting from understanding atoms, and then going on to look at how how atoms make stars and how stars make atoms. ASTR 2002 T Th 10:10am - 11:25am Mary Putman 3.00 24/40
415 Schapiro Cepser

ASTR UN2900 FRONTIERS OF ASTROPHYSICS. 1.00 point.
Several members of the faculty each offer a brief series of talks providing context for a current research topic in the field and then present results of their ongoing research. Opportunities for future student research collaboration are offered. Grading is Pass/Fail

Fall 2022: ASTR UN2900
Course Number 1001/13635  Times/Location Instructor Points Enrollment
ASTR 2900 F 10:10am - 11:25am Melissa Ness 3.00 20/40
413 Kent Hall

ASTR UN3101 MODERN STELLAR ASTROPHYSICS. 3.00 points.
CC/GS: Partial Fulfillment of Science Requirement
Prerequisites: one year of calculus-based general physics. Introductory astronomy is not required, but some exposure to astronomy is preferable. In the first half of the course, we will examine the physics of stellar interiors in detail, leading us to develop models of stellar structure and consider how stars evolve. In the second half of the course, we will discuss special topics, such as pre-main sequence evolution, the late stages of stellar evolution, and supernovae and compact objects.

Spring 2023: ASTR UN3101
Course Number 1001/13634  Times/Location Instructor Points Enrollment
ASTR 3101 M W 10:10am - 11:25am Melissa Ness 3.00 20/40
644 Seeley W. Mudd Building

ASTR UN3102 Planetary Dynamics and Physics of the Solar System. 3 points.
CC/GS: Partial Fulfillment of Science Requirement

ASTR UN3103 GALAXIES. 3.00 points.
Prerequisites: one year of calculus-based general physics. Prerequisites: one year of calculus-based general physics. Galaxies fill the universe with structure. They are bound objects that harbor stars, gas, dust and dark matter. This course will discuss the content and structure of galaxies. It will start with the Milky Way, a rotating spiral galaxy, with a particular emphasis on the properties of the interstellar medium. Dwarf galaxies, the building blocks of larger galaxies,
will subsequently be discussed, followed by spiral, elliptical and irregular galaxies. The formation and evolution of these different galaxy types will be an important focus of the course, as well as the environment in which the galaxies reside. We will intersperse reviews of current papers on galaxies throughout the semester.

**ASTR UN3103 HIGH ENERGY PHYSICS.**

- **Number**: ASTR 3103 001/13636
- **Sections/Call Number**: T Th 10:10am - 11:25am
- **Times/Location**: 11:25am
- **Instruction**: Frederik Paerels
- **Points**: 3.00
- **Enrollment**: 36/20

**ASTR UN3105 Extrasolar Planets # ASTROBIO.**

**3.00 points.**

Prerequisites: One year of calculus-based physics. The emerging field of extrasolar planets and astrobiology will be covered at a quantitative level, with a major emphasis on astrophysical phenomenae and techniques. The subject will be introduced through an investigation of current planetary formation theories and approaches to planet detection, including what we currently know about extrasolar planets and detailed reference to state-of-the-art studies. An astronomer’s view of the origin of life and extreme biology will be developed and applied to questions of cosmo-chemistry, observable life-signatures, habitable zones and other astrophysical constraints on the development of organisms.

**ASTR UN3106 The Science of Space Exploration.**

**3 points.**

CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: one semester course in introductory astronomy or astrophysics (e.g., ASTR UN1403, ASTR UN1404, ASTR UN1420, ASTR UN1836, ASTR UN2001, ASTR UN2002, ASTR BC1753, ASTR BC1754). Ability in mathematics up to and including calculus is strongly urged. How and why do humans explore space? Why does it require such extraordinary effort? What have we found by exploring our Solar System? We investigate the physics and biological basis of space exploration, and the technologies and science issues that determine what we can accomplish. What has been accomplished in the past, what is being explored now, and what can we expect in the future? How do space scientists explore the Solar System and answer science questions in practice? What do we know about solar systems beyond our own?

**ASTR UN3273 HIGH ENERGY ASTROPHYSICS.**

**3.00 points.**

CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: one year of calculus-based general physics. No previous,unastronomy background required. A survey of the most energetic and explosive objects in the Universe and their radiation. Topics include: techniques of X-ray and gamma-ray astronomy; observations of neutron stars (pulsars) and black holes; accretion disks and relativistic jets; supernovae, supernova remnants, gamma-ray bursts, quasars and active galactic nuclei; clusters of galaxies; cosmic rays and neutrinos.

**ASTR UN3602 PHYSICAL COSMOLOGY.**

**3.00 points.**

CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: one year of calculus-based general physics. The standard hot big bang cosmological model and modern observational results that test it. Topics include the Friedmann equations and the expansion of the universe, dark matter, dark energy, inflation, primordial nucleosynthesis, the cosmic microwave background, the formation of large-scale cosmic structures, and modern cosmological observations.

**ASTR UN3646 Observational Astronomy.**

**3.00 points.**

Prerequisites: one year of general astronomy

Prerequisites: one year of general astronomy Introduction to the basic techniques used in obtaining and analyzing astronomical data. Focus on ground-based methods at optical, infrared, and radio wavelengths. Regular use of the telescope facilities atop the roof of the Pupin Labs and at Harriman Observatory. The radio-astronomy portion consists mostly of computer labs. In research projects, students also work on the analysis of data obtained at National Observatories.

**ASTR UN3985 Statistics and the Universe (Seminar).**

**3 points.**

Prerequisites: First year calculus required, introductory physics or astronomy

Essential statistical methods will be applied in a series of case studies and research projects taken from the latest advances in cosmology, astronomy and physics. Statistics of measurement and detection, fundamentals of hypothesis testing, classifications, data modeling, time-series analysis, correlation and clustering will be explored through hands-on investigation using data from recent experiments and surveys.

**ASTR UN3996 Current Research in Astrophysics.**

**1 point.**

Prerequisites: two semesters of astronomy classes and two semesters of physics classes.

The goal of this course is to introduce astronomy and astrophysics majors to the methods and topics of current astronomical research. The course will also help with the development of critical thinking skills. Each week, the topic
of the course will be centered on the subject of the Astronomy department colloquium; this may include research on planets, stars, galaxies or cosmology. There will be two required meetings per week: the first will be to discuss papers related to the colloquium (time TBD), and the second will be the colloquium itself (at 4:15 pm each Wednesday). Grading is Pass/Fail.

**ASTR UN3997 INDEPENDENT RESEARCH. 3.00 points.**
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: the instructor's permission. For an independent research project or independent study, a brief description of the proposed project or reading, with the supervising faculty member's endorsement, is required for registration.

Prerequisites: the instructor's permission. For an independent research project or independent study, a brief description of the proposed project or reading, with the supervising faculty member's endorsement, is required for registration. A variety of research projects conducted under the supervision of members of the faculty. Observational, theoretical, and experimental work in galactic and extragalactic astronomy and cosmology.

The topic and scope of the work must be arranged with a faculty member in advance; a written paper describing the results of the project is required at its completion (note that a two-term project can be designed such that the grade YC is given after the first term). Senior majors in astronomy or astrophysics wishing to do a senior thesis should make arrangements in May of their junior year and sign up for a total of 6 points over their final two terms. Both a substantial written document and an oral presentation of thesis results are required.

**Spring 2023: ASTR UN3998**

**ASTR GU4260 MODELING THE UNIVERSE. 3.00 points.**
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: one year of calculus-based general physics. Prerequisites: one year of calculus-based general physics. The goal of this course is to provide a basic hands-on introduction to the practice and theory of scientific computing with applications in astronomy and astrophysics. The course will include an introduction to programming, as well as a sampling of methods and tools from the field of scientific computing. The course will include a hands-on project in which students use numerical methods to solve a research problem. Students who are interested in participating in research projects are strongly encouraged to take the course in their sophomore or junior year.

**ASTR GU4302 General Relativity, Black Holes, and Cosmology. 3 points.**
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: one year of calculus-based general physics. Einstein's General Theory of Relativity replaced Newtonian gravity with an elegant theory of curved spacetime. Einstein's theory led to unforeseen and unnerving predictions of singularities and cosmological instabilities. Nearly a century later, these mathematical oddities have been confirmed astrophysically in the existence of black holes, an expanding universe, and a big bang. The course will cover Einstein's General Theory, beginning with special relativity, with an emphasis on black holes and the big bang.

**ASTR GU4303 ASTROSTATISTICS. 3.00 points.**

Astronomers live in era of “big data”. Whilst astronomers of a century ago collected a handful of photographic plates each night, modern astronomers collect thousands of images encoded by millions of pixels in the same time. Both the volume of data and the ever present desire to dig deeper into data sets has led to a growing interest in the use of statistical methods to interpret observations. This class will provide an introduction to the methods commonly used in understanding astronomical data sets, both in terms of theory and application. It is one six classes the department offers every fourth semester.

**ASTR GR6001 RADIATIVE PROCESSES. 3.00 points.**

Prerequisites: 3000-level electromagnetic theory and quantum mechanics.
Prerequisites: 3000-level electromagnetic theory and quantum mechanics. Radiation mechanisms and interaction of radiation
with matter. Applications of classical and semiclassical radiation theory and atomic physics to astrophysical settings. Radiative transfer, polarization, scattering, line radiation, special relativity, bremsstrahlung, synchrotron radiation, inverse compton scattering, ionization losses, shocks and particle acceleration, plasma processes, atomic structure and spectroscopic terms, radiative transitions and oscillator strengths, curve of growth, molecular spectra

**ASTR GR6003 GALAXIES. 3.00 points.**
An introduction to the study of galaxies, from both observational and theoretical perspectives. The course will review our current understanding of the formation and evolution of galaxies through descriptions of: their structure and dynamics; the gas and stellar populations they contain; and what we know about the distribution of dark matter within them.

Checklist of major requirements
Additional course information

The usual one-year introductory biology sequence is **Biol UN2005 INTRO BIO I:** BIOCHEM,GEN,MOLEC and **Biol UN2006 INTRO BIO II:** CELL BIO,DEV/PHYS, taken in the sophomore year, after one year of general chemistry. For more details, see *Introductory Courses under Requirements*—Major in Biology.

All students interested in biology are encouraged to take **Biol UN1908 First Year Seminar in Biology** in the fall semester of their first year.

Premedical students should consult with their advising dean or the preprofessional office for relevant details of medical school requirements. Students interested in graduate school should consult the biology career adviser, Dr. Molly Przeworski.

Non-science majors who wish to take a biology course to fulfill the science requirement are encouraged to take **Biol UN1130 GENES AND DEVELOPMENT.** Interested students should consult listings in other departments for courses related to biology.

**ADVANCED PLACEMENT**

The department grants 3 credits for a score of 5 on the AP Biology exam. Placement is determined by the department. Students with a 5 on the AP are encouraged to take **Biol UN2005 INTRO BIO I:** BIOCHEM,GEN,MOLEC and **Biol UN2006 INTRO BIO II:** CELL BIO,DEV/PHYS, but are not required to do so. For details, visit [https://www.biology.columbia.edu/pages/first-year-students-and-prospective-students-faq](https://www.biology.columbia.edu/pages/first-year-students-and-prospective-students-faq)

SUMMER UNDERGRADUATE RESEARCH FELLOWSHIP (SURF) PROGRAM

First-year students, sophomores, and juniors are eligible for the department’s paid internship program (SURF). This program is competitive; the department cannot assure every eligible student a place in any given summer.

Students apply to the program early in the spring term. A faculty committee headed by Dr. Alice Heicklen then matches selected students to appropriate labs. The deadline for SURF applications is at the beginning of the spring semester.

SURF students must submit a report on their work at the end of the summer session and participate in the following year’s annual Undergraduate Research Symposium. Although it does not carry any academic credit, SURF can be used toward the lab requirement for majors and toward graduation with honors. For detailed information on all summer research programs and how to apply, please visit the SURF website.

Current detailed descriptions of the SURF program and the application procedure are available at SURF’s website, https://www.biology.columbia.edu/programs/surf. For more information on the Amgen Scholarship Program, please visit https://www.biology.columbia.edu/programs/amgen-scholars-program. Applications to all of these programs are through SURF.

DEPARTMENTAL HONORS

Students must apply for departmental honors. Applications are due no later than one day before spring break of their senior year. For details, please visit the departmental website at http://biology.columbia.edu/programs/honors-biological-sciences.

GUIDELINES FOR ALL BIOLOGICAL SCIENCES MAJORS, CONCENTRATORS, AND INTERDEPARTMENTAL MAJORS

 Returning students should check the departmental website for any last-minute changes and/or additional information. See especially undergraduate updates and list of department courses. All major and concentration requirements are detailed on the website and links provided below.

Exceptions to Requirements

Students must get written permission in advance for any exceptions to the requirements listed below. For the exceptions to be applied toward graduation, the student must notify the biology department in one of the following two ways:

1. The student can file a completed paper planning form, signed by a faculty adviser, in the biology department office at 600 Fairchild;
2. The faculty member approving the exception can send an e-mail explaining the exceptions to mes2314@columbia.edu.

Grade Requirements for the Major

A grade of C- or higher must be earned and revealed on your transcript for any course – including the first – to be counted toward the major or concentration requirements. The grade of P is not acceptable. A course that was taken Pass/D/Fail may be counted if and only if the P is uncovered by the Registrar’s deadline.

Courses

Courses with the subject code HPSC or SCNC do not count toward the majors or concentrations.

MAJOR IN BIOLOGY

General Information

The requirements for the biology major include courses in biology, chemistry, physics, and mathematics.

The required biology courses are one year of introductory biology, two core courses in biology or biochemistry, two 3-point electives in biology or biochemistry, and an appropriate lab experience. See below for details.

The required courses outside the biology department are chemistry through organic (plus labs), one year of college-level physics (plus lab), and the completion of one year of college-level mathematics (usually calculus).
Alternative sequences to the above may be arranged in special circumstances, but only with the permission of the director of undergraduate studies or a departmental adviser obtained in advance; for example, certain courses listed in the Summer Term Bulletin, the School of General Studies Bulletin, and the Barnard College Bulletin may be applied toward the major. In addition, selected courses at the Columbia-Presbyterian Medical Center are open to advanced undergraduates. Credit toward the major for courses not listed in the Columbia College Bulletin must be discussed in advance with the director of undergraduate studies or a departmental adviser. Students are responsible for notifying the department of all exceptions either in writing or by e-mail as explained above.

Alternative programs must be arranged in advance with the director of undergraduate studies. Students planning graduate work in biology should keep in mind that physical chemistry and statistics are important for many graduate programs.

**Introductory Courses**

The usual one-year introductory biology sequence is BIOL UN2005 INTRO BIO I: BIOCHEM,GEN,MOLEC-BIOL UN2006 INTRO BIO II:CELL BIO,DEV/PHYS, taken in the sophomore year.

Other sequences require permission in advance from the director of undergraduate studies or departmental advisers. Students with a strong background in chemistry or molecular biology may take BIOL UN2005 INTRO BIO I: BIOCHEM,GEN,MOLEC-BIOL UN2006 INTRO BIO II:CELL BIO,DEV/PHYS in their first year; the permission of one of the instructors is required.

Premedical students usually take BIOL UN2005 INTRO BIO I: BIOCHEM,GEN,MOLEC-BIOL UN2006 INTRO BIO II:CELL BIO,DEV/PHYS after a year of general chemistry.

Students with advanced placement in biology are expected to take BIOL UN2005 INTRO BIO I: BIOCHEM,GEN,MOLEC as their initial biology course, because BIOL UN2005 INTRO BIO I: BIOCHEM,GEN,MOLEC-BIOL UN2006 INTRO BIO II:CELL BIO,DEV/PHYS is taught at a level of detail and depth not found in most advanced placement courses.

Students who wish to skip BIOL UN2005 INTRO BIO I: BIOCHEM,GEN,MOLEC and start with a higher-level biology course may do so, but they must obtain permission in advance from the director of undergraduate studies. For additional information, see FAQs for first-year students.

**Core Courses**

Two out of the following five departmental core courses are required:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL UN3022</td>
<td>DEVELOPMENTAL BIOLOGY</td>
</tr>
<tr>
<td>BIOL UN3031</td>
<td>GENETICS</td>
</tr>
<tr>
<td>BIOL UN3041</td>
<td>CELL BIOLOGY</td>
</tr>
<tr>
<td>or BIOL GU4041</td>
<td></td>
</tr>
<tr>
<td>BIOC GU4501</td>
<td>BIOCHEM I-STRUCTURE/METABOLISM</td>
</tr>
<tr>
<td>or BIOC UN3300</td>
<td>BIOCHEMISTRY</td>
</tr>
<tr>
<td>BIOC GU4512</td>
<td>MOLECULAR BIOLOGY</td>
</tr>
</tbody>
</table>

**Laboratory Courses**

A laboratory experience in biology is required. It may be fulfilled by completing any one of the following options:

**Option 1:**

Select one of the following 5-point laboratory courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL UN3058</td>
<td>PROJECT LAB IN MICROBIOLOGY</td>
</tr>
<tr>
<td>BIOL UN3052</td>
<td>PROJECT LAB-MOLECULAR GENETICS</td>
</tr>
</tbody>
</table>

**Option 2:**

Select an additional 3-point lab such as BIOL UN3040, a 5-point project lab, or a Barnard lab. Barnard labs must be approved by a Biology Major Advisor.

**Option 3:**

Two terms of BIOL UN3500 taken for a letter grade, including the submission of a satisfactory research report at the end of each semester.

**Option 4:**

Completion of all the requirements for one session of the Summer Undergraduate Research Fellowship (SURF). An additional semester of BIOL UN3500 in the same research lab is recommended but not required. Summer lab work under other auspices may not be substituted for the SURF Program.

The laboratory fee ($150) partially covers the cost of nonreturnable items. This fee is charged for all lab courses, except BIOL UN3500 Independent Biological Research and SURF.

**Upper-Level Elective Courses**

Select two additional courses, carrying at least 3 points each, from any of the 3000- or 4000- level lecture courses. BIOL UN3500 INDEP BIOLOGICAL RESEARCH cannot be used as one of the courses to satisfy the upper-level elective course requirement. A list of 3000- or 4000- level approved electives can be found on the biology website: https://www.biology.columbia.edu/pages/biology-major-requirements

**Chemistry**

All majors must take chemistry through organic including labs. One of the following three groups of chemistry courses is required:

**Option 1:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM UN1403</td>
<td>GENERAL CHEMISTRY I-LECTU</td>
</tr>
<tr>
<td>- CHEM UN1404</td>
<td>and GENERAL CHEMISTRY II-LECTURES</td>
</tr>
</tbody>
</table>
CHEM UN1500 - CHEM UN1501
GENERAL CHEMISTRY LABORATORY and GENERAL CHEMISTRY LAB-LECTURE

CHEM UN2443 - CHEM UN2444
ORGANIC CHEMISTRY I-LECTURES and ORGANIC CHEMISTRY II-LECTURES

CHEM UN2493 - CHEM UN2494
ORGANIC CHEM. LAB I TECHNIQUES and ORGANIC CHEM. LAB II SYNTHESIS

Option 2:
For students who qualify for intensive chemistry
CHEM UN1604 2ND TERM GEN CHEM (INTENSIVE)
CHEM UN1507 INTENSIVE GENERAL CHEMISTRY-LAB
CHEM UN2444 - CHEM UN2443 ORGANIC CHEMISTRY II-LECTURES and ORGANIC CHEMISTRY I-LECTURES
CHEM UN2495 - CHEM UN2496 ORGANIC CHEM. LABORATORY I and ORGANIC CHEM. LABORATORY II

Option 3:
For students who qualify for first year organic chemistry
CHEM UN1507 INTENSIVE GENERAL CHEMISTRY-LAB
CHEM UN2045 - CHEM UN2046 INTENSIVE ORGANIC CHEMISTRY and INTENSIVE ORG CHEM FOR 1ST YEAR
CHEM UN2495 - CHEM UN2496 ORGANIC CHEM. LABORATORY I and ORGANIC CHEM. LABORATORY II
or CHEM UN2545 INTENSIVE ORGANIC CHEM LAB

Physics
Students must take two terms of physics including the accompanying labs. The usual choices are PHYS UN1201-PHYS UN1202 GENERAL PHYSICS II and PHYS UN1291-PHYS UN1292 GENERAL PHYSICS II LABORATORY. Higher-level physics sequences are also acceptable. The 1400-level sequence is recommended for students who plan to take three terms of physics.

Mathematics
Two semesters of calculus or honors mathematics are required. Students may substitute one semester of statistics for one semester of calculus with an adviser’s permission. For students with AP credit, completion of MATH UN1102 CALCULUS II, MATH UN1201 CALCULUS III, or MATH UN1207 HONORS MATHEMATICS A is sufficient. However, students with AP credit are encouraged to take additional courses in mathematics or statistics at Columbia.

For more details on the biology major requirements, visit http://biology.columbia.edu/pages/biology-major-requirements.

Major in Biochemistry
The required basic courses for the biochemistry major are chemistry through organic, including laboratory, and one year each of physical chemistry, physics, calculus, biology, and biochemistry/molecular biology.

The required additional courses are three lecture courses chosen from mathematics, chemistry, and biology, and two upper-level laboratory courses.

For more details, see the Chemistry section in this Bulletin. For additional information visit the Department of Biological Sciences website: http://biology.columbia.edu/pages/biochemistry-major-requirements.

Major in Biophysics
The requirements for the biophysics major are as follows:

One year of introductory biology:
Biol UN2005 INTRO BIO I: BIOCHEM,GEN,MOLEC and INTRO BIO II:CELL BIO,DEV/PHYS

Select at least one of the following laboratory courses:
Biol UN3052 PROJECT LAB-MOLECULAR GENETICS
Biol UN3058 PROJECT LAB IN MICROBIOLOGY
Biol UN3500 INDEP BIOLOGICAL RESEARCH

One course in biochemistry or molecular biology:
BCHM GU4501 BIOCHEM I-STRUCTURE/METABOLISM
or BIOL UN3512 Molecular Biology
or BIOL UN3300 BIOCHEMISTRY

Select one of the following options:
Option 1 - Genetics:
Biol UN3031 GENETICS
Option 2 - Neurobiology:
Biol UN3004 NEUROBIO I:CELLULAR # MOLECULR
or Biol UN3005 NEUROBIO II: DEVPT # SYSTEMS
Option 3 - Developmental Biology:
Biol UN3022 DEVELOPMENTAL BIOLOGY

Select one of the following sequences to be completed at the end of sophomore year:
Select any two physics courses at the 3000-level or above, chosen in consultation with the adviser.

Calculus through MATH UN1202 or MATH UN1208

MATH UN3027 Ordinary Differential Equations

CHEM UN1403 GENERAL CHEMISTRY I-LECTURE

CHEM UN1404 GENERAL CHEMISTRY II-LECTURES

Select one additional course at the 3000- or 4000-level, including BIOL GU4002, BIOC GU4323, and BIOC GU4324, in either physics or biology.

For more details, see the Physics section in this Bulletin or visit the Department of Biological Sciences website: http://biology.columbia.edu/pages/biophysics-major-requirements.

**MAJOR IN NEUROSCIENCE AND BEHAVIOR**

In addition to one year of college general chemistry, ten courses are required to complete the major in neuroscience and behavior—five in biology and five in psychology.

For more details, see the Psychology section in this Bulletin or visit http://biology.columbia.edu/pages/neuroscience-and-behavior-major-requirements.

**CHEMISTRY COURSES**

One year of college chemistry is required prior to taking Introductory Biology.

**BIOLOGY COURSES**

One year of introductory biology.

BIOL UN2005 INTRO BIO I: BIOCHEM,GEN,MOLEC

- BIOL UN2006 and INTRO BIO II:CELL

- BIO,DEV PHYS

One year of Neurobiology

BIOL UN3004 NEUROBIO I:CELLULAR #

- BIOL UN3005 MOLECULR

- BIOL UN3006 and NEUROBIO II: DEVPT # SYSTEMS

One additional 3000 or 4000 level biology lecture course from the following:

- BIOL UN3006 PHYSIOLOGY

- BIOL UN3019 Brain Evolution

- BIOL UN3022 DEVELOPMENTAL BIOLOGY

- BIOL UN3025 NEUROGENETICS

- BIOL UN3031 GENETICS

- BIOL UN3799 MOLECULAR BIOLOGY OF CANCER

PSYC GU4880 In Service of Equity: Examining Developmental Science through the Lens of Policy

Note: Students wishing to use a seminar course not listed above to meet the P5 seminar requirement must contact their psychology adviser before enrolling to request permission for an exception. Generally speaking, permission for such exceptions is only granted when there is a compelling case related to the student’s research or area of study. Students requesting permission to use a course not on this list must ensure that their substantive coursework in the seminar (generally their final paper) is on a neuroscience-focused topic.

**CONCENTRATION IN BIOLOGY**

Students who wish to concentrate in biology must design their programs in advance with the director of undergraduate studies or a departmental adviser.

The requirement for the concentration is 22 points in biology or biochemistry, with at least five courses chosen from the courses listed in the Biological Sciences section of the Bulletin. Additional courses in physics, chemistry, and mathematics are required as detailed below.

A project laboratory and BIOL UN2501 CONTEMPORARY BIOLOGY LAB may not both be counted toward the 22-point total. See the biology major requirements for additional information.
The requirements for the concentration in biology are as follows:

**BIOL UN2005**  
INTRO BIO I: BIOCHEM, GEN, MOLEC

**BIOL UN2006**  
INTRO BIO II: CELL BIO, DEV/PHYS

Select at least one of the following core courses:

- **BIOL UN3022**  
DEVELOPMENTAL BIOLOGY

- **BIOL UN3031**  
GENETICS

- **BIOL UN3041**  
CELL BIOLOGY
  
or **BIOGU 4041**

- **BIOC GU4501**  
BIOC UN3300  
BIOCHEMISTRY

Plus additional biology elective courses (see electives listed under biology major) to reach a total of 22 points in biology courses.

Beginning Fall 2018, no biology lab is required for the concentration. All other requirements remain the same, including enough electives to reach at least 22 points. Either UN2501 or a five-point lab course, but not both, may count towards the 22 point total.

Chemistry through organic including labs; see biology major for options

One year of physics, including laboratory; see biology major for options

One year of college-level mathematics (ordinarily this should be calculus); see biology major for options

### FALL 2022

  A Structural View of Biology

### ALL COURSES

**BIOC UN3300 BIOCHEMISTRY. 3.00 points.**  
Prerequisites: one year each of Introductory Biology and General Chemistry. Corequisites: Organic Chemistry. Primarily aimed at nontraditional students and undergraduates who have course conflicts with BIOC UN3501.

Prerequisites: one year each of Introductory Biology and General Chemistry. Corequisites: Organic Chemistry.
Biochemistry is the study of the chemical processes within organisms that give rise to the immense complexity of life. This complexity emerges from a highly regulated and coordinated flow of chemical energy from one biomolecule to another. This course serves to familiarize students with the spectrum of biomolecules (carbohydrates, lipids, amino acids, nucleic acids, etc.) as well as the fundamental chemical processes (glycolysis, citric acid cycle, fatty acid metabolism, etc.) that allow life to happen. In particular, this course will employ active learning techniques and critical thinking problem-solving to engage students in answering the question: how is the complexity of life possible? NOTE: While Organic Chemistry is listed as a corequisite, it is highly recommended that you take Organic Chemistry beforehand.

**BIOC UN3501 Biochemistry: Structure and Metabolism. 4 points.**

Prerequisites: one year of BIOL UN2005 and BIOL UN2006 and one year of organic chemistry. Lecture and recitation. Students wishing to cover the full range of modern biochemistry should take both BIOC UN3501 and BIOC UN3512. UN3501 covers subject matters in modern biochemistry, including chemical biology and structural biology, discussing the structure and function of both proteins and small molecules in biological systems. Proteins are the primary class of biological macromolecules and serve to carry out most cellular functions. Small organic molecules function in energy production and creating building blocks for the components of cells and can also be used to perturb the functions of proteins directly. The first half of the course covers protein structure, enzyme kinetics and enzyme mechanism. The second half of the course explores how small molecules are used endogenously by living systems in metabolic and catabolic pathways; this part of the course focuses on mechanistic organic chemistry involved in metabolic pathways.

**BIOC UN3511 BIOCHEM I-STRUCT/METABOLISM-REC. 0.00 points.**

**BIOC UN3512 Molecular Biology. 3 points.**

Prerequisites: one year of biology. Recommended but not required: BIOC UN3501.

This is a lecture course designed for advanced undergraduates and graduate students. The focus is on understanding at the molecular level how genetic information is stored within the cell and how it is regulated. Topics covered include genome organization, DNA replication, transcription, RNA processing, and translation. This course will also emphasize the critical analysis of the scientific literature and help students understand how to identify important biological problems and how to address them experimentally. SPS and TC students may register for this course, but they must first obtain the written permission of the instructor, by filling out a paper Registration Adjustment Form (Add/Drop form). The form can be downloaded at the URL below, but must be signed by the instructor and returned to the office of the registrar. [http://registrar.columbia.edu/sites/default/files/content/reg-adjustment.pdf](http://registrar.columbia.edu/sites/default/files/content/reg-adjustment.pdf)

**BIOC GU4323 Biophysical Chemistry I. 4 points.**

This course provides a rigorous introduction to the theory underlying widely used biophysical methods, which will be illustrated by practical applications to contemporary biomedical research problems. The course has two equally important goals. The first goal is to explicate the fundamental approaches used by physical chemists to understand the behavior of molecules and to develop related analytical tools. The second goal is to prepare students to apply these methods themselves to their own research projects. The course will be divided into seven modules: (i) solution thermodynamics; (ii) hydrodynamic methods; (iii) statistical analysis of experimental data; (iv) basic quantum mechanics; (v) optical spectroscopy with an emphasis on fluorescence; (vi) nuclear magnetic resonance spectroscopy; and (vii) light-scattering and diffraction methods.

The first three modules will be covered during the fall term. In each module, the underlying physical theories and models will be presented and used to derive the mathematical equations applied to the analysis of experimental data. Weekly recitations will emphasize the analysis of real experimental data and understanding the applications of biophysical experimentation in published research papers.

**BIOC GU4324 Biophysical Chemistry II. 4 points.**

This course provides a rigorous introduction to the theory underlying widely used biophysical methods, which will be illustrated by practical applications to contemporary biomedical research problems. The course has two equally important goals. The first goal is to explicate the fundamental approaches used by physical chemists to understand the behavior of molecules and to develop related analytical tools. The second goal is to prepare students to apply these methods themselves to their own research projects. The course will be divided into seven modules: (i) solution thermodynamics; (ii) hydrodynamic methods; (iii) statistical analysis of experimental data; (iv) basic quantum mechanics; (v) optical spectroscopy with an emphasis on fluorescence; (vi) nuclear magnetic resonance spectroscopy; and (vii) light-scattering and diffraction methods.

In each module, the underlying physical theories and models will be presented and used to derive the mathematical equations applied to the analysis of experimental data. Weekly recitations will emphasize the analysis of real experimental data and understanding the applications of biophysical experimentation in published research papers.

**BIOC GU4501 BIOCHEM I-STRUCT/METABOLISM. 4.00 points.**

Undergraduates should register for BIOC UN3501.

Prerequisites: BIOL UN2005 and BIOL UN2006 and CHEM UN2443 and CHEM UN2444 one year of intro biology and one year of organic chemistry.
In this course, we will study the chemistry of living systems. We will discuss how living systems convert environmental resources into energy, and how they use this energy and these materials to build the molecules required for the diverse functions of life. Finally, we will discuss the applications of such biochemical knowledge to mechanisms of disease and to drug discovery. At a high level, we expect that at the conclusion of the course, you should be able to explain the basic mechanisms by which living systems harness energy from their environment, how living systems construct the molecules necessary for the functions of life, how these processes go awry in a variety of disease, including cancer, and how drugs can be discovered to treat such diseases. Using this knowledge, you will be able to diagram the major metabolic pathways and compare how these pathways are dysregulated in normal tissues in and disease states. In addition, you will learn which techniques are used to uncover this knowledge and how to design and interpret experiments that will address these questions. You will also collaborate with other students in the analysis and interpretation of biochemical data, and be able to communicate, defend and refute interpretations of data. In this course, we assume familiarity with basic concepts of modern biology, so having completed one year of college-level biology is required. In addition, we explore the reaction mechanisms governing a variety of transformations in metabolism. You must have completed one year of organic chemistry prior to taking this course.

BIOL UN1002 Theory and Practice of Science: Biology. 4 points.
CC/GS: Partial Fulfillment of Science Requirement
Prerequisites: either BIOL UN1015 or AP biology, or the instructor’s permission.
Lecture and recitation. By analysis and example from the primary literature of evolution and genetics, examines how scientific theories are invented and how they come to be accepted, verified, and in some cases rejected. Papers begin with Darwin and Mendel and end with Watson. Ordinarily does not fulfill biology major or concentration requirements. Normally may not be taken for credit by any student who has previously completed any biology course numbered 2000 or above. BIOL UN1015 should be taken first then BIOL UN1002 for nonscience majors.

BIOL UN1004 Foundations of Biology. 2.00 points.
In this course, we will introduce basic terminology, important concepts, and basic problem-solving skills in order to prepare biology and pre-health students for the challenging Biology courses they will take at Columbia. We will do a deep dive into a small number of topics and use these as access points to teaching skills that will aid students in future STEM courses. Classes will include time for problem solving. Recitations will involve problem solving and student presentations of solutions to problems.

BIOL UN1130 GENES AND DEVELOPMENT. 3.00 points.
CC/GS: Partial Fulfillment of Science Requirement
Prerequisites: one year of high school or college biology. Prerequisites: one year of high school or college biology. This course covers selected topics in genetics and developmental biology, with special emphasis on issues that are relevant to contemporary society. Lectures and readings will cover the basic principles of genetics, how genes are expressed and regulated, the role of genes in normal development, and how alterations in genes lead to abnormal development and disease. We will also examine how genes can be manipulated in the laboratory, and look at the contributions of these manipulations to basic science and medicine, as well as some practical applications of these technologies. Interspersed student-run workshops will allow students to research and discuss the ethical and societal impacts of specific topics (e.g. in vitro fertilization, uses and misuses of genetic information, genetically modified organisms, steroid use, and cloning). SCE and TC students may register for this course, but they must first
obtain the written permission of the instructor, by filling out a paper Registration Adjustment Form (Add/Drop form). The form can be downloaded at the URL below, but must be signed by the instructor and returned to the office of the registrar.

BIOL UN1360 Science and Society. 3.00 points.
This course, which has been given at another institution for the past five years, uses a seminar discussion format to examine the relationship between science and society from numerous perspectives, using examples from many fields of science, mostly biology and medicine, including the Covid-19 pandemic. We welcome undergraduates from all classes who are concentrating in any field of sciences, humanities, or the arts; there are no prerequisites, other than an interest in how the scientific enterprise works. The course addresses a wide array of topics: why do people choose a scientific career; why do governments and other funders support scientific work; how does science fail; why is there widespread skepticism about science; how is it represented in the arts; how are results disseminated, evaluated, and legally protected; and many other subjects. Assignments--mainly short articles (from newspapers and journals) and book chapters, but also a few films and novels--will be provided for each class, and every student will undertake a term project of their own choosing, after consultations with the instructor.

BIOL UN1440 DNA Diversity and You. 3.00 points.
This seminar focuses on the biochemistry, biology, and sociology of DNA and its use and potential for misuse. Even before the discovery of the human genome, the DNA that is the lattice of each human being has been thought to be static and determinative. More recently, with advances in sequencing that DNA, the emerging picture is much more complex. Even so, deeply held beliefs about being solely “my DNA” have persisted affecting our entire species. Students in this seminar are expected to critically discuss and examine the ethical and societal impacts of several topics related to DNA (e.g., artificial reproductive techniques, eugenics, bodily autonomy, definitions and treatment of diseases, neuroscience, epigenetics and the microbiome), as well as the underlying biology and biochemistry of DNA. Human identity and its relationship to DNA is examined using an interdisciplinary framework of perspectives, including those originating from biology, genetics, medicine, public health, psychiatry, religion, and the law. Students are expected to draw from their own experiences as an individual in reflection through the readings to complete the written coursework and participate each week in class discussion. This seminar also allows for expression in other modalities (e.g., visual or aural), in a two-part final class project consisting of a media component in addition to a final written assignment.

BIOL UN1908 First Year Seminar in Biology. 1.00 point.
If you are interested in doing biology-related research at Columbia University this is the course for you. Each week a different Columbia University professor's discusses their biology-related research giving you an idea of what kind of research is happening at Columbia. Come ask questions and find out how the body works, the latest therapies for disease and maybe even find a lab to do research in. http://www.columbia.edu/cu/biology/courses/UN1908/index.html

BIOL UN2005 INTRO BIO I: BIOCHEM,GEN,MOLEC. 4.00 points.
Prerequisites: one year of college chemistry, or a strong high school chemistry background.
Prerequisites: one year of college chemistry is required. Lecture and recitation. Recommended as the introductory biology course for biology and related majors, and for premedical students. Fundamental principles of biochemistry, molecular biology, and genetics. Website: http://www.columbia.edu/cu/biology/courses/c2005/index.html. SPS, Barnard, and TC students may register for this course, but they must first obtain the written permission of the instructor, by filling out a paper Registration Adjustment Form (Add/Drop form). The form can be downloaded at the URL below, but must be signed by the instructor and returned to the office of the registrar.

BIOL UN2016 INTRO BIO II: CELL BIO,DEV/PHYS. 0.00 points.

Prerequisites: Prerequisites: Course does not fulfill Biology major requirements or premedical requirements. Enrollment in laboratory limited to 16 students per section. Corequisites: BIOL UN2006

Prerequisites: Prerequisites: Course does not fulfill Biology major requirements or premedical requirements. Enrollment in laboratory limited to 16 students per section. Corequisites: BIOL UN2006 Prerequisites: Course does not fulfill Biology major requirements or premedical requirements. Enrollment in laboratory limited to 16 students per section. Corequisites: BIOL UN2006 Prerequisites: Course does not fulfill Biology major requirements or premedical requirements. Enrollment in laboratory limited to 16 students per section. Exploration of the major discoveries and ideas that have revolutionized the way we view organisms and understand life. The basic concepts of cell biology, anatomy and physiology, genetics, evolution, and ecology will be traced from seminal discoveries to the modern era. The laboratory will develop these concepts and analyze biological diversity through a combined experimental and observational approach

BIOL UN2402 CONTEMP BIO II: CELL BIO,DEV,PHYS. 3.00 points.
Prerequisites: a course in college chemistry and BIOL UN2005 or BIOL UN2401, or the written permission of either the instructor or the premedical adviser. Prerequisites: a course in college chemistry and BIOL UN2005 or BIOL UN2401, or the written permission of either the instructor or the premedical adviser. Cellular biology and development; physiology of cells and organisms. Same lectures as BIOL UN2006, but recitation is optional. For a detailed description of the differences between the two courses, see the course web site or http://www.columbia.edu/cu/biology/ug/advice/faqs/gs.html. Website: http://www.columbia.edu/
genomes in ways both molecular and personal. Instructors will share and discuss their own and other public information available in the human genome. This course will provide students with the background necessary to understand what has and will be done with the human genome and ultimately to help society formulate appropriate policies for wise stewardship of the human genome.

To help illustrate the information available in the human genome and how it may influence individuals' lives, the instructors' will share and discuss their own and other public genomes in ways both molecular and personal.

BIOL UN2502 Foundations for Lab Biology. 3.00 points.

Due to COVID-19 related restrictions on in-person laboratory work, this course acts as a replacement for BIOL UN2501. This course will act as a virtual introduction to the practice of contemporary biology, with an emphasis on common laboratory methods, online tools, statistical analysis, styles of scientific reasoning, and science communication. Students will be expected to watch a weekly lecture, either in-person or via recording. Lab activities are designed to be highly interactive and collaborative to reflect the realities of biological research. Small groups of students will work together on in-class activities, as well as on a long-term student-designed biological research project.

BIOL UN2700 Past and future of the human genome. 3 points.

CC/GS: Partial Fulfillment of Science Requirement

We can now determine the genetic makeup of any person in a matter of days and at a cost already within reach for many millions of people. For the past few years a movement has emerged to provide detailed genetic information directly to ordinary people, in some cases with the explicit aim of helping prospective parents to “eliminate preventable genetic disease” or, as one newspaper put it, to promote “genetically flawless babies.”

But our technical capacity to both interrogate and manipulate the human genome has raced far ahead of serious consideration of the societal implications of doing so. This course will provide students with the background necessary to understand what has and will be done with the human genome and ultimately to help society formulate appropriate policies for wise stewardship of the human genome.

To help illustrate the information available in the human genome and how it may influence individuals' lives, the instructors' will share and discuss their own and other public genomes in ways both molecular and personal.

BIOL UN3004 NEUROBIO I: CELLULAR # MOLECULAR. 4.00 points.

Prerequisites: one year of biology; a course in physics is highly recommended. Lecture and recitation. This is an advanced course intended for majors providing an in depth survey of the cellular and molecular aspects of nerve cell function. Topics include: the cell biology and biochemistry of neurons, ionic and molecular basis of electrical signals, synaptic transmission and its modulation, function of sensory receptors. Although not required, it is intended to be followed by Neurobiology II (see below). The recitation meets once per week in smaller groups and emphasizes readings from the primary literature.

BIOL UN3005 NEUROBIO II: DEVPT # SYSTEMS. 4.00 points.

Prerequisites: BIOL UN3004, one year of biology, or the instructor’s permission. Prerequisites: BIOL UN3004, one year of biology, or the instructors permission. This course is the capstone course for the Neurobiology and Behavior undergraduate major at Columbia University and will be taught by the faculty of the Kavli Institute of Brain Science: http://www.kavlciolumbia.edu/ Science: http://www.kavlciolumbia.edu/. It is designed for advanced undergraduate and graduate students. Knowledge of Cellular Neuroscience (how an action potential is generated and how a synapse works) will be assumed. It is strongly recommended that students take BIOL UN3004 Neurobiology I: Molecular and Cellular Neuroscience, or a similar course, before enrolling in BIOL UN3005. Students unsure about their backgrounds should check a representative syllabus of BIOL UN3004 on the BIOL UN3004 website (http://www.columbia.edu/cu/biology/courses/w3004/). Website for BIOL UN3005: http://www.columbia.edu/cu/biology/courses/w3005/index.html

BIOL UN3006 PHYSIOLOGY. 3.00 points.

Prerequisites: (BIOL UN2005 and BIOL UN2006) or (BIOL UN2401 and BIOL UN2402) or the instructor’s permission. Major physiological systems of vertebrates (circulatory, digestive, hormonal, etc.) with emphasis on cellular and molecular mechanisms and regulation. Readings include research articles from the scientific literature. SCE and TC students may register for this course, but they must first obtain the written permission of the instructor, by filling out a paper Registration Adjustment Form (Add/Drop form). The form
can be downloaded at the URL below, but must be signed by the instructor and returned to the office of the registrar. http://registrar.columbia.edu/sites/default/files/content/reg-adjustment.pdf

**BIOL UN3008 The Cellular Physiology of Disease. 3 points.**
Prerequisites: one 3000-level course in Cell Biology or Biochemistry, or the instructor's permission.

This course will present a quantitative description of the cellular physiology of excitable cells (mostly nerve and muscle). While the course will focus on examining basic mechanisms in cell physiology, there will be a thread of discussion of disease mechanisms throughout. The end of each lecture will include a discussion of the molecular mechanisms of selected diseases that relate to the topics covered in the lecture. The course will consist of two lectures per week. This course will be of interest to advanced (3000-4000 level) undergraduates that aim to pursue careers in medicine as well as those that will pursue careers in biomedical research. This course will also be of interest to graduate students desiring an introduction to the cellular physiology of nerve and muscle.

**BIOL UN3014 Neurobiology I Recitation. 0.00 points.**

**BIOL UN3019 Brain Evolution. 3.00 points.**

If an engineer were to build “the brain”, they would not be able to reproduce any of the brains that exist on Earth. Our brains were not designed to be perfect, but are a result of millions of years of evolution and adaptation. The goal of this course is to provide an overview of brain evolution, ranging from the evolution of the first neurons to the origin of the human brain. Specifically, the course will focus on recent insights emerging from studies of development, gene expression, and neural circuit architecture. The evolutionary perspective on commonly used terms, such as “neuron” and “brain”, and general principles of brain organization and function emerging from comparative studies will be discussed.

**BIOL UN3022 DEVELOPMENTAL BIOLOGY. 3.00 points.**
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: BIOL UN2005 and BIOL UN2006 or equivalent. Prerequisites: BIOL UN2005 and BIOL UN2006 or equivalent. Come discover how the union of egg and sperm triggers the complex cellular interactions that specify the diverse variety of cells present in multicellular organisms. Cellular and molecular aspects of sex determination, gametogenesis, genomic imprinting, X-chromosome inactivation, telomerase as the biological clock, stem cells, cloning, the pill and cell interactions will be explored, with an emphasis on humans. Original research articles will be discussed to further examine current research in developmental biology. SPS and TC students may register for this course, but they must first obtain the written permission of the instructor, by filling out a paper Registration Adjustment Form (Add/Drop form). The form can be downloaded at the URL below, but must be signed by the instructor and returned to the office of the registrar. http://registrar.columbia.edu/sites/default/files/content/reg-adjustment.pdf
BIOL UN3025 NEUROGENETICS. 3.00 points.
Prerequisites: (BIOL UN2005 and BIOL UN2006)
This course provides an introduction to Neurogenetics, which studies the role of genetics in the development and function of the nervous system (https://en.wikipedia.org/wiki/Neurogenetics). The course will be focused on teaching classic and contemporary concepts in genetics and neuroscience, rather than cataloging mere facts. The course will emphasize the discovery processes, historical figures involved in these processes and methodologies of discovery. Primary research papers will be discussed in detail. A central organizational theme of the course is the presence of a common thread and narrative throughout the course. The common thread is an invertebrate model system, the roundworm Caenorhabditis elegans, which serves as a paradigm to show how simple genetic model systems have informed our view on the genetics of nervous system development and function. The ultimate goal of this course is to gain an understanding of the underlying principles of how the nervous system of one specific animal species forms, from beginning to end. The course is intended for neuroscience-inclined students (e.g. neuroscience majors) who want to learn about how genetic approaches have informed our understanding of brain development and function and, vice versa, for students with an interest in molecular biology and genetics, who want to learn about key problems in neuroscience and how genetic approaches can address them.

BIOL UN3034 Biotechnology. 3.00 points.
CC/GS: Partial Fulfillment of Science Requirement
For upper-level undergraduates.
Prerequisites: genetics or molecular biology.
The course covers techniques currently used to explore and manipulate gene function and their applications in medicine and the environment. Part I covers key laboratory manipulations, including DNA cloning, gene characterization, association of genes with disease, and methods for studying gene regulation and activities of gene products. Part II also covers commercial applications, and includes animal cell culture, production of recombinant proteins, novel diagnostics, high throughput screening, and environmental biosensors. SCE and TC students may register for this course, but they must first obtain the written permission of the instructor, by filling out a paper Registration Adjustment Form (Add/Drop form). The form can be downloaded at the URL below, but must be signed by the instructor and returned to the office of the registrar.
http://registrar.columbia.edu/sites/default/files/content/reg-adjustment.pdf

BIOL UN3040 LAB IN MOLECULAR BIOLOGY. 3.00 points.
Enrollment limited to 12. Lab fee: $150.
Prerequisites: one year of biology (BIOL UN2005 and BIOL UN2006) and Contemporary Biology Laboratory (BIOL UN2501).
Prerequisites: one year of biology (BIOL UN2005 and BIOL UN2006) and Contemporary Biology Laboratory (BIOL UN2501). Prerequisites: one year of biology (UN2005-UN2006) and Contemporary Biology Laboratory (UN2501). This lab will explore various molecular biology techniques frequently utilized in modern molecular biology laboratories. The lab will consist of four modules: 1) Molecular verification and activities of gene products. Part II also covers commercial applications, and includes animal cell culture, production of recombinant proteins, novel diagnostics, high throughput screening, and environmental biosensors. SCE and TC students may register for this course, but they must first obtain the written permission of the instructor, by filling out a paper Registration Adjustment Form (Add/Drop form). The form can be downloaded at the URL below, but must be signed by the instructor and returned to the office of the registrar.
http://registrar.columbia.edu/sites/default/files/content/reg-adjustment.pdf
BIOL UN3041 CELL BIOLOGY. 3.00 points. 
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: one year of biology, normally BIOL UN2005- BIOL UN2006, or the equivalent.

Prerequisites: one year of biology, normally BIOL UN2005- BIOL UN2006, or the equivalent. Cell Biology 3041/4041 is an upper-division course that covers in depth all organelles of cells, how they make up tissues, secrete substances important for the organism, generate and adapt to their working environment in the body, move throughout development, and signal to each other. Because these topics were introduced in the Intro Course (taught by Mowshowitz and Chasin), this course or its equivalent is a pre-requisite for W3041/4041. Students for whom this course is useful include biology, biochem or biomedical engineering majors, those preparing to apply for medical school or graduate school, and those doing or planning to start doing research in a biology or biomedical lab. SCE and TC students may register for this course, but they must first obtain the written permission of the instructor, by filling out a paper Registration Adjustment Form (Add/Drop form). The form can be downloaded at the URL below, but must be signed by the instructor and returned to the office of the registrar. http://registrar.columbia.edu/sites/default/files/content/reg-adjustment.pdf

BIOL UN3050 Project Laboratory In Protein Biochemistry. 5 points.

Prerequisites: one year of biology (UN2005- UN2006) plus one upper-level course recommended. Enrollment is not restricted as long as total is no more than 14. Seniors will be given preference in the unlikely event that restriction is necessary. Students with specific questions should e-mail the instructor (jfh21@columbia.edu).

This course provides an intensive introduction to professional biomedical laboratory research. Students conduct a portion of an ongoing biochemical research project and write-up their results in a format suitable for publication in a peer-reviewed scientific research journal. Techniques in molecular biology and protein biochemistry are used to address a problem in mechanistic biochemistry or molecular pharmacology. Students are exposed to the full spectrum of techniques used in contemporary protein biochemistry, including molecular sequence analysis of genomic databases, molecular cloning and manipulation of recombinant DNA, protein expression in E. coli, protein purification, and biophysical characterization (typically including crystallization for x-ray structure determination). The course emphasizes the use of critical thinking skills in scientific research while giving students the opportunity to apply the basic knowledge learned in a wide variety of biology and chemistry lecture courses to a real research project. Examples of past projects can be found on the course website: https://www1.columbia.edu/sec/cu/biology/courses/w3050/class/index.html (cunix account required to login).

BIOL UN3052 PROJECT LAB-MOLECULAR GENETICS. 5.00 points.

Enrollment limited to approximately 12. Fee: $150.

Prerequisites: one year of introductory biology and the instructor's permission.

Multicellular animals contain a diverse array of cell types, yet start from a single cell. How do cells decide what kind of cell to be? In this lab course, we will use the tools of molecular biology and genetics to explore this fascinating question. We will use the nematode Caenorhabditis elegans, a powerful model organism used in hundreds of research labs. The course will be divided into three modules: C. elegans genetics, molecular cloning, and genetic screening. Laboratory techniques will include PCR, gel electrophoresis, restriction digest, ligation, transformation, RNAi, and C. elegans maintenance. Students will pursue original projects; emphasis will be placed on scientific thinking and scientific communication. SPS and TC students may register for this course, but they must first obtain the written permission of the instructor, by filling out a paper Registration Adjustment Form (Add/Drop form). Prerequisites: UN2005/UN2401 and UN2006/UN2402, or the equivalent at a different institution.

BIOL UN3058 PROJECT LAB IN MICROBIOLOGY. 5.00 points.

Lab fee: $150.

Prerequisites: one year of Intro Bio. An introductory biology or chemistry lab is recommended.

Prerequisites: one year of Intro Bio. An introductory biology or chemistry lab is recommended. Bacteria are not just unicellular germs. This lab course will broaden your awareness of the amazing world of microbiology and the diverse capabilities of microbes. The focus will be on bacterial multicellularity, pigment production, and intercellular signaling. Pigment-producing bacteria will be isolated from the wild (i.e. Morningside Campus or your skin), and characterized using standard genetic tools (PCR, DNA gel electrophoresis, transformation, screen) and microbiology techniques (isolation of bacteria and growth of bacterial colonies, media preparation, enrichment techniques for pigments). These techniques will also be applied in the study of bacterial multicellularity and signaling in the standard lab strain Pseudomonas aeruginosa. SCE and TC students may register for this course, but they must first obtain the written permission of the instructor, by filling out a paper Registration Adjustment Form (Add/Drop form).
stem cells (concentrating mainly on hematopoietic and gut stem cells as leading paradigms). A basic lecture format will be supplemented by presentations and discussions of research papers. Recent reviews and research papers, together with extensive instructor notes, will be used in place of a textbook. SCE and TC students may register for this course, but they must first obtain the written permission of the instructor, by filling out a paper Registration Adjustment Form (Add/Drop form). The form can be downloaded at the URL below, but must be signed by the instructor and returned to the office of the registrar. http://registrar.columbia.edu/sites/default/files/content/reg-adjustment.pdf

BIOL UN3310 Virology. 3 points.
Prerequisites: two semesters of a rigorous, molecularly-oriented introductory biology course (such as UN2005 and UN2006), or the instructor's permission.
Prerequisites: three semesters of Biology or the instructors permission.
Prerequisites: three semesters of Biology or the instructors permission.
The course examines current knowledge and potential medical applications of pluripotent stem cells (embryonic stem cells and induced pluripotent stem cells), direct conversions between cell types and adult, tissue-specific interactions of viruses with host organisms, and how these lead to diseases, cancer immunotherapy and transplantation. Taking this course wont turn you into an immunologist, but it may make you want to become one, as was the case for several students last year. After taking the course, you should be able to read the literature intelligently in this rapidly advancing field. SCE and TC students may register for this course, but they must first obtain the written permission of the instructor, by filling out a paper Registration Adjustment Form (Add/Drop form). The form can be downloaded at the URL below, but must be signed by the instructor and returned to the office of the registrar. http://registrar.columbia.edu/sites/default/files/content/reg-adjustment.pdf
to disease are presented with examples drawn from a set of representative animal and human viruses.

**BIOL UN3320 Regulation of Behaviors for Survival. 4.00 points.**
To maximize their survival animals must regulate their behavior in response to external environmental cues and their own internal state. A fundamental goal of neuroscience is to understand how neural circuits in the brain function to influence behavior. The aim of this course is to highlight the neural basis of neuropeptide regulation of innate behaviors that are critical for survival and discuss modern approaches to study the neuronal control of classically studied aspects of behavior. We will explore motor control (escape responses), sensory systems (vision, taste, and olfaction), and survival behaviors (feeding, drinking, mating, and aggression). Focus will be on recent and current research, the diversity of approaches for studying it, and how this knowledge can be applied to solve scientific questions. Students will read primary scientific literature and a significant portion of the course will be presentation and discussion-based.

**BIOL UN3387 BIOLOGY TEST. 3 points.**

**ABCDEF**

**BIOL UN3404 The Global Threat of Antimicrobial Resistance. 3.00 points.**
Prerequisites: (biol un2005 and biol un2006) or (biol un2401 and biol un2402)
Antimicrobial resistant bacterial infections were estimated to account for 1.27 million deaths worldwide in 2019. The goal of the seminar is to provide an in-depth analysis of this ongoing threat. Discussions will include the molecular mechanisms, epidemiology of transmission and the consequences of antimicrobial resistant infections. It will also cover current efforts to reduce the spread and emergence of these difficult to treat pathogens, both in the community and the healthcare setting.

**BIOL UN3500 INDEP BIOLOGICAL RESEARCH. 2.00-4.00 points.**
Fee: $150. Students must register for a recitation section, BIOL W3510.
Fee: Lab Fee - 150

Prerequisites: Concurrent with registering for this course, a student must register with the department and provide a written invitation from a mentor; details of this procedure are available at http://www.columbia.edu/cu/biology/courses/w3500/index.htm. Students must register for recitations UN3510 or consult the instructor.
Corequisites: BIOL UN3510
Prerequisites: Concurrent with registering for this course, a student must register with the department and provide a written invitation from a mentor; details of this procedure are available at http://www.columbia.edu/cu/biology/courses/w3500/index.htm. Students must register for recitations UN3510 or consult the instructor. Corequisites: BIOL UN3510 The course involves independent study, faculty-supervised laboratory projects in contemporary biology. Concurrent with registering for this course, a student must register with the department, provide a written invitation from a mentor and submit a research proposal; details of this procedure are available at http://www.columbia.edu/cu/biology/courses/w3500/index.htm. A paper summarizing results of the work is required by the last day of finals for a letter grade; no late papers will be accepted. See the course web site (above) for more details. Students can take anywhere from 2-4 points for this course.

**BIOL UN3560 EVOL IN THE AGE OF GENOMICS. 4.00 points.**
Prerequisites: Introductory Biology I and II, or the instructors permission.
Prerequisites: Introductory Biology I and II, or the instructors permission. This course introduces basic concepts in evolutionary biology, from speciation to natural selection.
While the lectures incorporate a historical perspective, the main goal of the class is to familiarize students with topics and tools of evolutionary genetics as practiced today, in the era of genomics. Thus, the focus will be on evidence from molecular evolution and genetics and exercises will assume a basic background in genetics. Examples will be drawn from across the tree of life, but with a primary focus on humans.

**BIOL UN3700 INDEPENDENT CLINICAL RESEARCH.**

2.00-4.00 points.
Prerequisites: concurrent with registering for this course, a student must register with the department, provide a written invitation from a mentor, and submit a research proposal. Prerequisites: concurrent with registering for this course, a student must register with the department, provide a written invitation from a mentor, and submit a research proposal. BIOL 3700 will provide an opportunity for students interested in independent research work in a hospital or hospice setting. In these settings, where patients and their needs are paramount, and where IRB rules and basic medical ethics make “wet-lab biology research” inappropriate, undergraduates may well find a way nevertheless, to assist and participate in ongoing clinical research. Such students, once they have identified a mentor willing to provide support, participation, and advising, may apply to the faculty member in charge of the course for 2-4 points/semester in BIOL W3700. This course will closely follow procedures already in place for BIOL 3500, but will ask potential mentors to provide evidence that students will gain hands-on experience in a clinical setting, while participating in a hospital- or hospice-based research agenda. A paper summarizing results of the work is required by the last day of finals for a letter grade; no late papers will be accepted.

**BIOL UN3799 MOLECULAR BIOLOGY OF CANCER.**

3.00 points.
Prerequisites: three terms of biology (genetics and cell biology recommended).
Prerequisites: three terms of biology (genetics and cell biology recommended). Cancer is one of the most dreaded common diseases. Yet it is also one of the great intellectual challenges in biology today. How does a cell become cancerous? What are the agents that cause this to occur? How do current findings about genes, cells, and organisms ranging from yeast cells to humans inform us about cancer? How do findings about cancer teach us new biological concepts? Over the past few years there have been great inroads into answering these questions which have led to new ways to diagnose and treat cancer. This course will discuss cancer from the point of view of basic biological research. We will cover topics in genetics, molecular and cell biology that are relevant to understanding the differences between normal and cancer cells. These will include tumor viruses, oncogenes, tumor suppressor genes, cell cycle regulation, programmed cell death and cell senescence. We will also study some current physiological concepts related to cancer including angiogenesis, tumor immunology, cancer stem cells, metastasis and new approaches to treatment that are built on recent discoveries in cancer biology. The text book for this course is The Biology of Cancer Second Edition by Robert A Weinberg (Garland Science). Additional and complementary readings will be assigned. SCE and TC students may register for this course, but they must first obtain the written permission of the instructor, by filling out a paper Registration Adjustment Form (Add/Drop form). The form can be downloaded at the URL below, but must be signed by the instructor and returned to the office of the registrar. http://registrar.columbia.edu/sites/default/files/content/reg-adj-student.pdf

**BIOL UN3995 (Section 1) Topics in Biology: Crossroads in Bioethics.**

1-2 points.
Prerequisites: at least one introductory course in biology or chemistry.
This two credit multidisciplinary and interactive course will focus on contemporary issues in bioethics. Each topic will cover both the underlying science of new biotechnologies and the subsequent bioethical issues that emerge from these technologies. Classroom time will be devoted to student discussions, case presentations, and role playing. Topics include human trafficking, stem cell research, human reproductive cloning, neuroethics, genetic screening, human-animal chimeras, synthetic biology, bioterrorism, and neuroimaging.

**BIOL UN3995 TOPICS IN BIOLOGY.**

2.00 points.
Enrollment limited to 18.
Prerequisites: Introductory Biology or equivalent.
Prerequisites: Introductory Biology or equivalent. Topics in Biology: Radiographic Anatomy and Select Pathology (Section 007 Fall semester) , Radiographic Anatomy and Selective Pathology is a survey course intended for undergraduate students. This course is not limited to science majors and would be of value to any student that may have an interest in studying the anatomy of the human body. The course is a systematic approach to the study of the human body utilizing medical imaging. We will be studying neuro-anatomy, anatomy of the thorax, abdomen, and pelvis. Vascular and musculoskeletal imaging will be addressed as well. Modalities will include CT, MRI, PET/CT, and Ultrasound. Cross sectional imaging will be supplemented with pathology demonstrated on appropriate cross sectional imaging. The class size will be limited to 15 students. The lecture will be offered Wednesday evenings from 6:10-7:00 pm. This will be a 1 credit course offered only during the fall semesters. Topics in Biology: Crossroads in Bioethics (Section 001 Spring semester) , This two credit multidisciplinary and interactive course will focus on contemporary issues in bioethics and medical ethics. Each topic will cover both the underlying science of new biotechnologies and the subsequent bioethical issues that emerge from these technologies. Each topic will introduce a bioethical principle that will be explored using case studies. Students are expected to prepare for each class based on the assignment so that classroom time will be devoted to discussion, case presentations, and role playing rather than merely lectures. Topics include stem cell research, human reproductive cloning, bioterrorism, neuroethics, genetic screening, medical stem cell tourism, patents and science, forensic science and the interface of science and culture/religion.
macromolecular interactions. Extensive use is made of experiments used by molecular biologists to characterize these principles to the analysis of data from common physical foundation for the evolution of life, and how the same thermodynamic principles govern the formation and increasing randomness or entropy, as specified by the 2nd Law of Thermodynamics. Subsequent lectures elaborate how in a universe in which all natural processes are driven by continuing evolution of life, (ii) to learn how to apply that understanding to experimental analyses of macromolecular interactions, and (iii) to master the use of molecular graphics software for understanding and interpreting macromolecular structures and interactions. The lectures develop the essential thermodynamic theory from the ground up, starting from a review of the relevant physical forces (Newton's and Coulomb's Laws) and culminating with an intuitive explanation of how the union of egg and sperm triggers the complex discovery of the physical mechanisms controlling macromolecular interactions while simultaneously empowering students to critically read related literature and rigorously design and analyze related experiments themselves.

**BIOL GU4001 ADVANCED GENETIC ANALYSIS. 3.00 points.**
CC/GS: Partial Fulfillment of Science Requirement
Enrollment limited to 25.

**Prerequisites:** for undergraduates: Introductory Genetics (W3031) and the instructor's permission.
Prerequisites: for undergraduates: Introductory Genetics (W3031) and the instructors permission. This seminar course provides a detailed presentation of areas in classical and molecular genetics for advanced undergraduates and beginning graduate students. Topics include transmission genetics, gain and loss of function mutations, genetic redundancy, suppressors, enhancers, epistasis, expression patterns, using transposons, and genome analysis. The course is a mixture of lectures, student presentations, seminar discussions, and readings from the original literature.

**BIOL GU4002 Macromolecular Structure # Interactions. 4.00 points.**
Open to PhD candidates in the biomedical and chemical sciences, and to other qualified graduate, undergraduate, and continuing education students with the instructor's permission.

This course has three interrelated goals: (i) to develop an intuitive understanding of the thermodynamic forces that control the structure of biological macromolecules and the evolution of life, (ii) to learn how to apply that understanding to experimental analyses of macromolecular interactions, and (iii) to master the use of molecular graphics software for understanding and interpreting macromolecular structures and interactions. The lectures develop the essential thermodynamic theory from the ground up, starting from a review of the relevant physical forces (Newton’s and Coulomb's Laws) and culminating with an intuitive explanation of how complex biological organisms can evolve spontaneously, in a universe in which all natural processes are driven by increasing randomness or entropy, as specified by the 2nd Law of Thermodynamics. Subsequent lectures elaborate how these thermodynamic principles govern the formation and interaction of macromolecular structures, which represent the physical foundation for the evolution of life, and how the same principles are applied to analyze related experimental data.

The problem sets for the course focus on practical applications of these principles to the analysis of data from common experiments used by molecular biologists to characterize macromolecular interactions. Extensive use is made of molecular graphics software throughout the semester, including in the problem sets, based on instruction provided in both the lectures and recitation sections. The course is designed to develop a deep understanding of the physical mechanisms controlling macromolecular interactions while simultaneously empowering students to critically read related literature and rigorously design and analyze related experiments themselves.

**BIOL GU4004 NEUROBIO I:CELLULAR # MOLECUL. 4.00 points.**
Prerequisites: one year of biology; a course in physics is highly recommended. Lecture and recitation. This is an advanced course intended for majors providing an in depth survey of the cellular and molecular aspects of neuron cell function. Topics include the cell biology and biochemistry of neurons, ionic and molecular basis of electrical signals, synaptic transmission and its modulation, function of sensory receptors. Although not required, it is intended to be followed by Neurobiology II (see below). The recitation meets once per week in smaller groups and emphasizes readings from the primary literature.

**BIOL GU4008 The Cellular Physiology of Disease. 3 points.**
Prerequisites: one 3000-level course in Cell Biology or Biochemistry or the instructor's permission.
Corequisites: BIOL GU4009
This course will present a quantitative description of the cellular physiology of excitable cells (mostly nerve and muscle). While the course will focus on examining basic mechanisms in cell physiology, there will be a thread of discussion of disease mechanisms throughout. The end of each lecture will include a discussion of the molecular mechanisms of selected diseases that relate to the topics covered in the lecture. The course will consist of two lectures per week. This course will be of interest to advanced (3000-4000 level) undergraduates that aim to pursue careers in medicine as well as those that will pursue careers in biomedical research. This course will also be of interest to graduate students desiring an introduction to the cellular physiology of nerve and muscle.

**BIOL GU4009 Cellular Physiology of Diseases Laboratory. 1 point.**
See department for details

**BIOL GU4013 ADV SEMINAR IN NEUROBIOLOGY. 3.00 points.**

**BIOL GU4022 DEVELOPMENTAL BIOLOGY. 3.00 points.**
Prerequisites: BIOL C2005-C2006 or equivalent. Come discover how the union of egg and sperm triggers the complex cellular interactions that specify the diverse variety of cells present in multicellular organisms. Cellular and molecular aspects of sex determination, gametogenesis, genomic
imprinting, X-chromosome inactivation, telomerase as the biological clock, stem cells, cloning, the pill and cell interactions will be explored, with an emphasis on humans. Original research articles will be discussed to further examine current research in developmental biology. SCE and TC students may register for this course, but they must first obtain the written permission of the instructor, by filling out a paper Registration Adjustment Form (Add/Drop form). The form can be downloaded at the URL below, but must be signed by the instructor and returned to the office of the registrar. 

http://registrar.columbia.edu/sites/default/files/content/reg-adjustment.pdf

BIOL GU4031 Genetics. 3 points.
Open to Biotech M.A. students and other graduate students.

Corequisites: Recommended: one term of organic chemistry. Prerequisites: BIOL UN2005 and BIOL UN2006 or the equivalent. General genetics course focused on basic principles of transmission genetics and the application of genetic approaches to the study of biological function. Principles will be illustrated using classical and contemporary examples from prokaryote and eukaryote organisms, and the experimental discoveries at their foundation will be featured. Applications will include genetic approaches to studying animal development and human diseases. SCE and TC students may register for this course, but they must first obtain the written permission of the instructor, by filling out a paper Registration Adjustment Form (Add/Drop form). The form can be downloaded at the URL below, but must be signed by the instructor and returned to the office of the registrar. 

http://registrar.columbia.edu/sites/default/files/content/reg-adjustment.pdf

BIOL GU4034 BIOTECHNOLOGY. 3.00 points.
Prerequisites: genetics or molecular biology. The course covers techniques currently used to explore and manipulate gene function and their applications in medicine and the environment. Part I covers key laboratory manipulations, including DNA cloning, gene characterization, association of genes with disease, and methods for studying gene regulation and activities of gene products. Part II also covers commercial applications, and includes animal cell culture, production of recombinant proteins, novel diagnostics, high throughput screening, and environmental biosensors.

BIOL GU4035 SEMINAR IN EPIGENETICS. 3.00 points.
Prerequisites: Genetics (3032/4032) or Molecular Biology (3512/4512), and the instructor's permission.
This is a combined lecture/seminar course designed for advanced undergraduates and graduate students. The focus is on understanding the mechanisms underlying epigenetic phenomena: the heritable inheritance of genetic states without change in DNA sequence. Epigenetic mechanisms play important roles during normal animal development and oncogenesis. It is an area under intensive scientific investigation and the course will focus on recent advances in understanding these phenomena. In each class, students will present and discuss in detail recent papers and background material concerning each individual topic, followed by an introductory lecture on the following week's topic. This course will emphasize critical analysis of the scientific literature and help students understand how to identify important biological problems and how to address them experimentally.

BIOL GU4036 Transformative Concepts in Systems Biology. 3.00 points.
Systems biology approaches are rapidly transforming the technological and conceptual foundations of research across diverse areas of biomedicine. In this course we will discuss the fundamental developments in systems biology with a focus on two important dimensions: (1) the unique conceptual frameworks that have emerged to study system-level phenomena and (2) how these approaches are revealing fundamentally new principles that govern the organization and behavior of cellular systems. Although there will be much discussion of technologies and computational approaches, the course will emphasize the conceptual contributions of the field and the big questions that lie ahead. Lectures and discussions of primary literature will enable students to scrutinize research in the field and to internalize systems biology thinking in their own research. To make this a concrete endeavor, the students will develop mini-NIH-style grant proposals that aims to study a fundamental problem/question using systems biology approaches. The students will then convene an in-class NIH-style review panel that will assess the strengths and weaknesses of these proposals. In addition, the students will have the opportunity to defend their proposals in a live presentation to the class. The course is open to graduate students in Biological Sciences. Advanced undergraduates in biological sciences, and other graduate students with background in biology from other disciplines, including physics, chemistry, computer science, and engineering may also attend after consulting with the instructor.

BIOL GU4065 Molecular Biology of Disease. 3 points.
Enrollment limited to 30.

Prerequisites: open to advanced undergraduates with the instructor's permission. Completion of a 3000-level course in at least one of the following, with completion of two or more preferred: genetics, biochemistry, cell biology. Molecular and cellular basis of infectious diseases and inherited propensities. Mechanisms of disease examined in discussions based on current research papers. Lectures, discussions,
and student presentations. Essay required in lieu of final examination.

BIOL GU4070 The Biology and Physics of Single Molecules. 3 points.
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: calculus, chemistry, physics, one year of biology, or the instructor’s permission.

This course will examine the fundamental mechanisms underlying the behavior of biological molecules, at the single molecule level. The course will cover the methods used to track single molecules: optical tweezers, single molecule AFM, Magnetic tweezers, Optical techniques and Fluorescence energy transfer (FRET) probes. The course will cover the mechanism of action of mechanical motors, such as myosin dynein, kinesin. It will cover the action of DNA binding enzymes such as topoisomerases, helicases, etc. We will also discuss the function of large motors such as the ATP Synthase and the bacterial AAA ATPases. We will discuss the mechanical properties of DNA, RNA, and proteins. The course will consist mainly of reviewing classical experiments in each category, and developing the background physical theories to promote a deep understanding of biological mechanisms at the mesoscopic level.

BIOL GU4075 BIOLOGY AT PHYSICAL EXTREMES. 3.00 points.
Prerequisites: one year each of biology and physics, or the instructor's permission.
Prerequisites: one year each of biology and physics, or the instructor's permission. This is a combined lecture/seminar course designed for graduate students and advanced undergraduates. The course will cover a series of cases where biological systems take advantage of physical phenomena in counter intuitive and surprising ways to accomplish their functions. In each of these cases, we will discuss different physical mechanisms at work. We will limit our discussions to simple, qualitative arguments. We will also discuss experimental methods enabling the study of these biological systems. Overall, the course will expose students to a wide range of physical concepts involved in biological processes.

Spring 2023: BIOL GU4075
Course Number Section/Call Number Times/Location Instructor Points Enrollment
BIOL 4075 001/14398 Th 2:10pm - 4:00pm Ozgur 3.00 17/24

BIOL GU4080 ANCIENT AND MODERN RNA WORLDS. 3.00 points.
Prerequisites: BIOC UN3512
RNA has recently taken center stage with the discovery that RNA molecules sculpt the landscape and information contained within our genomes. Furthermore, some ancient RNA molecules combine the roles of both genotype and phenotype into a single molecule. These multi-tasking RNAs offering a possible solution to the paradox of which came first: DNA or proteins. This seminar explores the link between modern RNA, metabolism, and insights into a prebiotic RNA world that existed some 3.8 billion years ago. Topics include the origin of life, replication, and the origin of the genetic code; conventional, new, and bizarre forms of RNA processing; structure, function and evolution of key RNA molecules, including the ribosome, and RNA therapeutics including vaccines. The format will be weekly seminar discussions with presentations. Readings will be taken from the primary literature, emphasizing seminal and recent literature. Requirements will be student presentations, class participation, and a final paper

Spring 2023: BIOL GU4080

BIOL GU4082 Theoretical Foundations and Applications of Biophysical Methods. 4 points.
Prerequisites: at least one year of coursework in single-variable calculus and not being freaked-out by multivariable calculus. Physics coursework through a calculus-based treatment of classical mechanics and electromagnetism. One year of general chemistry (either AP Chemistry or a college course). One year of college coursework in molecular/cellular biology and biochemistry equivalent to Biology C2005-2006 at Columbia. Rigorous introduction to the theory underlying biophysical methods, which are illustrated by practical applications to biomedical research. Emphasizes the approach used by physical chemists to understand and analyze the behavior of molecules, while also preparing students to apply these methods in their own research. Course modules cover: (i) statistical analysis of data; (ii) solution thermodynamics; (iii) hydrodynamic methods; (iv) light-scattering methods; and (v) spectroscopic methods, especially fluorescence. Recitations focus on curve-fitting analyses of experimental data.

BIOL GU4088 Seminar in Neurobiochemistry and Neurological Diseases. 3.00 points.
Students will read and discuss classical as well as contemporary research papers on the molecular and cellular mechanisms of membrane excitability, synaptic transmission and sensory transduction, and the pathogenic mechanisms and therapeutics of certain neurological diseases related to these processes. Focus will be on intellectual creativity, conceptual breakthroughs, and technical advances. A key goal of the course is to help students become a critical reader and thinker. Graduate students in all disciplines are welcome. Advanced undergraduate students can enroll with instructor’s permission. For PhD students in the Biological Sciences Program, this is a tier 3 course

Spring 2023: BIOL GU4088

BIOL GU4193 Stem Cell Biology and Applications. 3 points.  
Prerequisites: Three semesters of Biology or instructor permission.  
The course examines current knowledge and potential medical applications of pluripotent stem cells (embryonic stem cells and induced pluripotent stem cells), direct conversions between cell types and adult, tissue-specific stem cells (concentrating mainly on hematopoietic and gut stem cells as leading paradigms). A basic lecture format will be supplemented by presentations and discussions of research papers. Recent reviews and research papers together with extensive instructor notes will be used in place of a textbook.

BIOL GU4260 PROTEOMICS LABORATORY. 3.00 points.  
Lab Fee: $150.  
This course deals with the proteome: the expressed protein complement of a cell, organelle, matrix, tissue, organ or organism. The study of the proteome (proteomics) is broadly applicable to life sciences research, and is increasingly important in academic, government and industrial research through extension of the impact of advances in genomics. These techniques are being applied to basic research, exploratory studies of cancer and other diseases, drug discovery and many other topics. Emphasis will be on mastery of practical techniques of sample preparation, liquid chromatography/mass spectrometry (LC/MS) with electrospray ionization, and Matrix-Assisted Laser Desorption and Ionization (MALDI-TOF) mass spectrometry. Database searching and interpretation for identification of proteins will be intensively studied, and practiced supported by background tutorials and exercises covering other techniques used in proteomics. Open to students in M.A. in Biotechnology Program (points can be counted against laboratory requirement for that program), Ph.D. and advanced undergraduate students with background in genetics or molecular biology. Students should be comfortable with basic biotechnology laboratory techniques as well as being interested in doing computational work in a Windows environment.

BIOL GU4260 001/13341  
Times/Location: Th 12:30pm - 3:30pm  
Instructor: Lewis Brown  
Points: 3.00  
Enrollment: 6/10  

BIOL GU4260 001/13342  
Times/Location: M W 2:40pm - 3:55pm  
Instructor: Lili Yamasaki  
Points: 4.00  
Enrollment: 31/30  

BIOL GU4290 BIOLOGICAL MICROSCOPY. 3.00 points.  
Prerequisites: (biol un2005 or biol un2401) or BIOL UN2005 or BIOL UN2401 or equivalent  
Prerequisites: (biol un2005 or biol un2401) or BIOL UN2005 or BIOL UN2401 or equivalent  
This is an advanced microscopy course aimed at graduates and advanced undergraduate students, who are interested in learning about the foundational principles of microscopy approaches and their applications in life sciences. The course will introduce the fundamentals of optics, light-matter interaction and in-depth view of most commonly used advanced microscopy methods, explore important practical imaging parameters, and also introduce digital images and their analysis.

Spring 2023: BIOL GU4290  
Course Number: BIOL GU4290  
Section/Call Number: 001/14190  
Times/Location: M W 11:40am - 12:55pm  
Instructor: Raju Tomer  
Points: 3.00  
Enrollment: 22/30  

BIOL GU4300 DRUGS AND DISEASE. 3.00 points.  
Prerequisites: four semesters of biology with a firm foundation in molecular and cellular biology.  
Prerequisites: four semesters of biology with a firm foundation in molecular and cellular biology.  
Introduces students to the current understanding of human diseases, novel therapeutic approaches and drug development process. Selected topics will be covered in order to give students a feeling of the field of biotechnology in health science. This course also aims to strengthen students’ skills in literature comprehension and critical thinking.

Fall 2022: BIOL GU4300  
Course Number: BIOL GU4300  
Section/Call Number: 001/13229  
Times/Location: M W 2:40pm - 3:55pm  
Instructor: Lili Yamasaki  
Points: 3.00  
Enrollment: 31/55  

BIOL GU4305 SEMINAR IN BIOTECHNOLOGY. 3.00 points.  
Prerequisites: BIOL W4300 or the instructor's permission.  
Prerequisites: BIOL W4300 or the instructors permission.  
A weekly seminar and discussion course focusing on the most recent development in biotechnology. Professionals of the pharmaceutical, biotechnology, and related industries will be invited to present and lead discussions.

Spring 2023: BIOL GU4305  
Course Number: BIOL GU4305  
Section/Call Number: 001/14191  
Times/Location: W 2:10pm - 4:00pm  
Instructor: Lili Yamasaki  
Points: 3.00  
Enrollment: 30/40  

BIOL GU4310 INTENSIVE LAB IN BIOTECHNOLOGY. 0.00 points.  

Spring 2023: BIOL GU4310  
Course Number: BIOL GU4310  
Section/Call Number: 001/14192  
Times/Location: M W 4:10pm - 5:25pm  
Instructor: Vincent Racaniello  
Points: 0.00  
Enrollment: 83/110  

BIOL GU4323 BIOPHYSICAL CHEMISTRY I. 4.00 points.  
This course provides a rigorous introduction to the theory underlying widely used biophysical methods, which will be
illustrated by practical applications to contemporary biomedical research problems. The course has two equally important goals. The first goal is to explain the fundamental approaches used by physical chemists to understand the behavior of molecules and to develop related analytical tools. The second goal is to prepare students to apply these methods themselves to their own molecular biology research projects. The course will be divided into seven modules: (i) solution thermodynamics with an emphasis on application to analysis of protein structure, folding, and binding interactions; (ii) hydrodynamic methods; (iii) statistical analysis of experimental data; (iv) molecular dynamics calculations; (v) optical spectroscopy with an emphasis on fluorescence; (vi) nuclear magnetic resonance spectroscopy; and (vii) light-scattering and diffraction methods including an overview of cryogenic electron microscopy reconstruction methods. In each module, the underlying physical theories and models will be presented and used to derive the mathematical equations applied to the analysis of experimental data. Weekly recitations will emphasize the analysis of real experimental data and understanding the applications of biophysical experimentation in published research papers. The problem sets emphasize use of PyMOL for analysis of macromolecular structures and use of standard curve-fitting software for analysis of protein binding data; detailed tutorials on the related methods are provided in the recitation sections. The first three modules will be covered in Biophysical Chemistry I during the fall term, while the final three will be covered in Biophysical Chemistry II during the spring term, and treatment of molecular dynamics calculations will be divided between the two terms

BIOL GU4501 Biochemistry I - Structure and Metabolism. 4.00 points.

In this course, we will explore the basic biochemistry of living systems and how this knowledge can be harnessed to create new medicines. We will learn how living systems convert environmental resources into energy through metabolism, and how they use this energy and these materials to build the molecules required for the diverse functions of life. We will discuss the applications of this biochemical knowledge to mechanisms of disease and to drug discovery. We will look at examples of drug discovery related to neurodegeneration, cancer, and the SARS-CoV-2 COVID19 pandemic. This course satisfies the requirement of most medical schools for introductory biochemistry, and is suitable for advanced undergraduates, and beginning graduate students. This course is equivalent to and replaces the prior course named UN3501, and is equivalent to the course offered in the Fall semester. This course is a co-requisite to GU4501. We will meet twice each week in Zoom (Tuesday and Thursday 2:30-5:15, GU4501) to discuss the course material. We will then meet Friday 9:30-10:30 each week in virtual reality, using the Spatial.io platform and an Oculus Quest headset. In VR, we will examine the 3D spatial concepts relevant to biochemistry, where you will be able to examine molecular structures in an immersive format

BIOL GU4510 Genomics of Gene Regulation. 4 points.

Prerequisites: one year of Biology, Chemistry, and Physics. Courses taken at CU are recommended, but AP courses may be sufficient with the instructor's permission. This course will provide students with a quantitative understanding of the ways in which molecular interactions between nucleotides and proteins give rise to the behavior of gene regulatory networks. The key high-throughput genomics technologies for probing the cell at different levels using microarrays and next-generation sequencing will be discussed. Strategies for interpreting and integrating these data using statistics, biophysics, and genetics will be introduced. In computer exercises, student will learn the basics of the R language, and use it to perform analyses of genomics data sets. No prior computer programming experience is assumed. This highly interdisciplinary course is intended for advanced undergraduates as well as beginning graduate students in Biology, Chemistry, Physics, Engineering, and Computer Science. Offered in previous years as CHBC W4510.

BIOL GU4511 Biochemistry I recitation: Structure and Metabolism. 0.00 points.

This is the recitation for GU4501. How does life work on a molecular level? Why do we succumb to disease, and how can we create new cures? This course will explore the biochemistry of life and how this knowledge can be harnessed to create new medicines. You will learn how cells convert environmental resources into energy through metabolism, how cellular molecules function, and how to use this biochemical knowledge for drug discovery related to neurodegeneration, cancer, and the current SARS-CoV-2 COVID19 pandemic. At the conclusion of the course, you will be able to diagram the major metabolic pathways and compare how these pathways are dysregulated in normal tissues in and in disease states. In addition, you will know what techniques are used to uncover biochemical knowledge and how to interpret relevant experiments. You will be capable of collaborating with other people in the analysis and interpretation of biochemical data, and be able to communicate, defend and refute interpretations of data. Having completed one year of college-level biology and one
year of organic chemistry will be helpful to maximally benefit from this course. This course satisfies the requirement of most medical schools for introductory biochemistry, and is suitable for advanced undergraduates, and beginning graduate students; this replaces the previous UN3511 course.

**BIOL GU4512 Molecular Biology. 3.00 points.**
Prerequisites: one year of biology. This is a lecture course designed for advanced undergraduates and graduate students. The focus is on understanding at the molecular/biochemical level how genetic information is stored within the cell, how it is replicated and expressed, and how it is regulated. Topics covered include genome organization, DNA replication and repair, transcription, RNA processing, and translation. This course will also emphasize the critical analysis of the scientific literature and help students understand how to identify important biological problems and how to address them experimentally. SPS and TC students may register for this course, but they must first obtain the written permission of the instructor, by filling out a paper Registration Adjustment Form (Add/Drop form). The form can be downloaded at the URL below, but must be signed by the instructor and returned to the office of the registrar. http://registrar.columbia.edu/sites/default/files/content/reg-adjustment.pdf

**BIOL GU4551 A Structural View of Biology. 3.00 points.**
The course covers a general introduction to the theory and experimental techniques of structural biology (protein expression and purification, protein crystallography, cryo-electron microscopy, nuclear magnetic resonance) and then how to use the structural information to understand biochemical and biological processes. The first part of the course will cover the general introduction to structural biology. The second part of the course will involve discussions and explorations of various structures, led by the instructor but with substantial participation from the students, to understand the molecular mechanisms of selected biochemical and biological processes. In the final part of the course, each student will select and lead discussions on a primary structural biology paper. The overall goal of the course is to increase the understanding of how protein structures are determined, what protein structures look like, and how to use the structures to understand biology.

**BIOL GU4560 EVOL IN THE AGE OF GENOMICS. 4.00 points.**
Prerequisites: introductory genetics or the instructor’s permission.
This course introduces basic concepts in evolutionary biology, from speciation to natural selection. While the lectures incorporate a historical perspective, the main goal of the class is to familiarize students with topics and tools of evolutionary genetics as practiced today, in the era of genomics. Thus, the focus will be on evidence from molecular evolution and genetics and exercises will assume a basic background in genetics. Examples will be drawn from across the tree of life, but with a primary focus on humans.

**BIOL GU4600 CELL SIGNALING. 3.00 points.**
Prerequisites: A strong background in molecular and cellular biology. Generally students with four or more courses are accepted.
Prerequisites: A strong background in molecular and cellular biology. Generally students with four or more courses are accepted. Cell Signaling is a graduate course for Ph.D. students open to advanced undergraduate and masters students. The basic molecular mechanism of signal transduction pathways will be discussed related to cell growth and stress systems. There will be an emphasis on specific categories of signaling components. Students will read the literature and give presentations. Topics include the pathways by which cells respond to extracellular signals such as growth factors and the mechanisms by which extracellular signals are translated into alterations in the cell cycle, morphology, differentiation state, and motility of the responding cells. For stress pathways we will discuss how cells respond to survive the stress or induce their own death. In many cases these pathways will be related to human diseases.

**BIOL GU4777 From Curiosity to Cure – Case Studies in Cool Biochemistry. 4.00 points.**
Course overview: The goal of this course is to engage upper-level undergraduates and beginning graduate students in an immersive intellectual experience at the intersection of rigorous scientific inquiry and the history of innovation in molecular biology. The central theme will be curiosity and critical thinking as the twin drivers of both technological innovation and scientific discovery. The course will be divided into a series of modules focused on analysis and presentation of original research papers related to one important breakthrough in molecular biology that occurred during the past century. A prominent theme of the course will be the persistently unpredictable trajectory linking technical research and methodological developments to breakthrough science. Approximately six-to-eight original research papers will be covered in each module, spanning topics from the development of the methods that made the breakthrough possible through practical application of the resulting knowledge. Three or four of the following breakthroughs will likely be covered in 2023: Discovery and clinical application of insulin by Banting #1 Best. Development of the Trikafta triple drug treatment for cystic fibrosis. Development of CRISPR for human genetic engineering. Genetics and pharmacological treatment of human hyperlipidemia. Development of the Gleevec tyrosine kinase inhibitor to cure Ph leukemias. Development of “next-generation” nucleic acid sequencing methods.

BIOL GU4799 MOLECULAR BIOLOGY OF CANCER. 3.00 points.
Tracing the discovery of the role of DNA tumor viruses in cancerous transformation. Oncogenes and tumor suppressors are analyzed with respect to their function in normal cell cycle, growth control, and human cancers. SCE and TC students may register for this course, but they must first obtain the written permission of the instructor, by filling out a paper Registration Adjustment Form (Add/Drop form). The form can be downloaded at the URL below, but must be signed by the instructor and returned to the office of the registrar.
http://registrar.columbia.edu/sites/default/files/content/reg-adjustment.pdf

BIOT GU4160 BIOTECHNOLOGY LAW. 3.00 points.
Prerequisites: at least 4 college-level biology or biotechnology courses. This course will introduce students to the interrelated fields of patent law, regulatory law, and contract law that are vital to the biotech and biopharmaceutical sectors. The course will present core concepts in a way that permits students to use them throughout their corporate, academic, and government careers. SCE and TC students may register for this course, but they must first obtain the written permission of the instructor, by filling out a paper Registration Adjustment Form (Add/Drop form). The form can be downloaded at the URL below, but must be signed by the instructor and returned to the office of the registrar.
http://registrar.columbia.edu/sites/default/files/content/reg-adjustment.pdf

BIOT GU4161 ETHICS IN BIOPHARM PAT/REG LAW. 3.00 points.
Prerequisites: BIOT GU4160 BIOTECHNOLOGY LAW (BIOT W4160)
This course – the first of its kind at Columbia – introduces students to a vital subfield of ethics focusing on patent and regulatory law in the biotech and pharmaceutical sectors. The course combines lectures, structured debate, and research to best present this fascinating and nuanced subject. Properly exploring this branch of bioethics requires an in-depth understanding of biotech and pharmaceutical patent and regulatory law. Students can gain this understanding by first completing Biotechnology Law (BIOT GU4160), formerly the prerequisite for this course. Now, they can also gain it by reading the appropriate chapters of Biotechnology Law: A Primer for Scientists (the textbook for BIOT GU4160 published earlier this year) prior to each class. A number of students in the biotechnology fields (such as those in biotechnology, biomedical engineering, and bioethics programs) have shown a keen interest over the years in taking this course, yet were unable to do so because they hadn’t taken BIOT GU4160. Given the recent publication of Biotechnology Law and the desirability of making BIOT GU4161 accessible to more students having the appropriate science background, BIOT GU4160 has been removed as a prerequisite.

BIOT GU4180 ENTREPRENEURSHIP IN BIOTECH. 3.00 points.
Prerequisites: the instructor’s permission. The course examines the entrepreneurial process in biotechnology from idea generation through economic viability. Biotechnology companies are unique in that they need a years-to-decades long period of incubation prior to becoming self-sustaining. Students will be introduced to the steps needed to start and nurture a company, and gain an ability to assess the health of potential collaborators, partners or employers. Topics include an overview of the global biotechnology industry, idea generation, business plan formulation, intellectual property protection, funding, personnel management including board composition, regulatory body interaction, and company exits. Course website: http://biot4180.weebly.com/

BIOT GU4200 BIOPHARMACEUTICAL DEV # REG. 3.00 points.
The program aims to provide current life sciences students with an understanding of what drives the regulatory strategies that surround the development decision making process, and how the regulatory professional may best contribute to the goals of product development and approval. To effect this, we will examine operational, strategic, and commercial aspects of the regulatory approval process for new drug, biologic, and biotechnology products both in the United States and worldwide. The topics are designed to provide a chronological review of the requirements needed to obtain marketing approval. Regulatory strategic, operational, and marketing considerations will be addressed throughout the course. We will examine and analyze the regulatory process as a product candidates are advanced from Research and Development, through pre-clinical and clinical testing, to marketing approval, product launch and the post-marketing phase. The goal of this course is to introduce and familiarize students with the terminology, timelines, and actual steps followed by Regulatory Affairs professionals employed in the pharmaceutical or biotechnology industry. Worked examples will be explored to illustrate complex topics and illustrate interpretation of regulations.

BIOT GU4201 SEM-BIOTECH DEVPT # REGULATION.
3.00 points.
Prerequisites: BIOT W4200 (OK without prerequisite). This course will provide a practical definition of the current role of the Regulatory Professional in pharmaceutical development, approval and post-approval actions. This will be illustrated by exploration, and interactive discussion of regulatory history, its evolution, current standards, and associated processes. The course will seek to clarify the role of Regulatory in development and lifecycle opportunities, demonstrating the value Regulatory adds by participation on research, development and commercial teams. The course will utilize weekly case studies and guest lecturers to provide color to current topical events related to the areas

BUSINESS

Program Manager: Jocelyn McArthur
email contact address: MendelsonCenter@gsb.columbia.edu
web address: http://www8.gsb.columbia.edu/mendelson

The collaboration between the faculty of Arts and Sciences and Columbia Business School offers students access to the ideas and expertise of the faculty of a top-ranked professional school recognized for its excellence in graduate business education through a series of elective courses. These courses, designed by Business School faculty specifically for undergraduates, build upon the strong liberal arts education at Columbia. Students learn how finance is directly connected to the fundamental principles of economics; that marketing utilizes concepts from psychology; and how management depends upon principles developed in psychology and sociology.

Students can take advantage of the opportunity to enhance their experience by participating in co-curricular activities, such as Business School faculty lecture series, industry panels, informal mentoring/networking activities with MBA students and alumni, in addition to research opportunities with Business School faculty.

This curricular and co-curricular programming capitalizes on the Business School’s ability to connect academic theory with real-world practice, providing students with the opportunity to develop key leadership skills, an entrepreneurial mindset, and the ability to innovate.

Eligibility:

• To be eligible to earn a Special Concentration in Business Management, students must apply to the program in the spring semester of their sophomore or junior years, and they must be accepted through a process governed by the Columbia Business School. Beginning with the Special Concentration cohort of 2017-2018 (i.e., students accepted via the application process of Spring 2017), the program will accept up to 45 qualified candidates each year. The size of the program may be reviewed from time to time by Columbia College and Columbia Business School and adjusted, if desired by both schools.

• For students who entered Columbia College or General Studies in, or before, Fall 2016: Students who have not been accepted into the Special Concentration program may have the option to “shadow” the Special Concentration in Business Management by taking the required courses if space is available in those courses. Students who “shadow” the program will not be given priority registration in any courses that count toward the Special Concentration. If a student is able to take all of the courses and earns a 3.0 or higher grade-point average in the prerequisite, core, and elective courses, she or he will be allowed to declare retroactively the Special Concentration and have the program noted on their transcript.

• The shadowing option is no longer available for students who entered Columbia College or General Studies in, or after, Fall 2017.

APPLICATION REQUIREMENTS

To apply for the special concentration in business management, students must meet these three requirements:

1. Sophomore or junior standing;
2. Have a cumulative GPA of 3.4 or higher;
3. Have received a B+ or better in at least one, but preferably two, of the following three prerequisite courses, i.e. in
Statistics, economics, and psychology. Students who completed only one prerequisite at the time of application must be currently enrolled in at least one other; acceptance is conditional on achieving a grade of B+ or higher in the second course.

**Statistics Prerequisite**

**Application Components**

1. Application form
2. Current class schedule, including a brief description of how all concentration requirements will be completed
3. Official transcript
4. Resume

**Benefits for Admitted Students**

The following benefits are available to students admitted through the application process:

1. Guaranteed enrollment in popular undergraduate business courses (must reserve in advance through program manager);
2. Access to special guest speaker presentations at the Business School, including business leader or faculty presentations exclusively for admitted students;
3. Formal and informal networking opportunities with Business School students, faculty, and alumni.

**Current Faculty**

**Guidelines for All Business Management Special Concentrators**

The business management special concentration is not a stand-alone concentration: it is intended to complement the disciplinary specialization and methodological training inherent in a major. In addition to the special concentration requirements, students must complete a major or a full concentration.

Students who matriculated at Columbia in Fall 2012 and beyond must earn a minimum GPA of 3.0 in prerequisite, core, and elective courses. Students who matriculated before Fall 2012 must either adhere to the above requirement or previous requirement of B+ or better in at least two of the prerequisites and a minimum GPA of 3.0 in core and elective classes.

Students who do not meet course prerequisites or who do not receive a passing grade do not receive credit for that course towards the special concentration. All courses must be taken for a letter grade. Only prerequisites may be double counted for other majors or concentrations. The core classes cannot be double counted. Electives may be double counted if a student's major allows double counting.

For information about this special concentration, including the application process, visit [http://www8.gsb.columbia.edu/mendelson](http://www8.gsb.columbia.edu/mendelson).

**Special Concentration in Business Management**

Please read *Guidelines for all Business Management Special Concentrators* above.

NOTE: Students may not receive credit for two or more of PSYC BC1136 Social Psychology, PSYC BC1138 Social Psychology, and PSYC UN2630 SOCIAL PSYCHOLOGY.
BUSI UN3702 VENTURING TO CHANGE THE WORLD. 3.00 points.
How do founders and their new ventures change the world? Changes in technology and society are increasing the power of small teams to impact everything. Startups, large corporations, social groups and governments are increasingly focused on the power of innovation to solve the world’s hardest problems. The ideas and patterns driving this recent form of change-making build on frameworks defining the development of modern civilizations since the Renaissance. Venturing to Change the World introduces the intellectual foundations and practical aspects of founding a new venture. We explore the entrepreneurial mindset, team formation, idea selection, how ideas become products with markets, and the key steps in building a venture. Our scope is commercial as well as social ventures, and the course is appropriate not only for prospective founders but anyone who will operate in a society increasingly animated by entrepreneurial activity.

BUSI UN3703 LEADERSHIP IN ORGANIZATION. 3.00 points.
Initially, the emphasis is on understanding the challenges confronting leaders and developing skills to effectively deal with these obstacles. Beyond intelligence and technical know-how, what separates effective leaders from other team members is a set of social skills (e.g. impression management, self-awareness). This course identifies these critical leadership skills and provides ideas and tools for improving them. Then, the course considers how social intelligence skills fit the needs of managers at different stages of their careers. In early stages, managers need to achieve a good person-job fit, find mentors, and build an effective social network. At the mid-career stage, managers need to lead an effective unit with increasing complexity and responsibilities. Finally, the course examines challenges managers face at later career stages as they become partners, CFOs, CEOs, etc.

In universities, in consulting and industrial firms, and even in the military. These tools include what companies do to outperform their rivals; to analyze the competitive moves of rival firms by game-theoretic concepts; and when it makes sense for companies to diversify and globalize their business. Applications will be to Walmart and Apple, European firms and to Asian firms, and developing country firms.

Applications will be to Walmart and Apple, European firms and to Asian firms, and developing country firms.

Biochemistry Advisers:
Please see Dr. Gasperov for your initial advising session for Biochemistry.

Biology: (for course planning queries) Prof. John Hunt, 702A Fairchild; 212-854-5443; jfh21@columbia.edu (stockwell@biology.columbia.edu); (for research and graduate school queries) Prof. James Manley, 1117A Fairchild; 212-854-4647; jlm2@columbia.edu (stockwell@biology.columbia.edu)

Chemistry: Prof. Virginia Cornish, 1209 Northwest Corner Building; 212-854-5209; vc114@columbia.edu (stockwell@biology.columbia.edu)

Chemistry, the study of molecules, is a central science interesting for its own sake but also necessary as an intellectual link to the other sciences of biology, physics, and environmental science. Faculty find the various disciplines of chemistry fascinating because they establish intellectual bridges between the macroscopic or human-scale world that we see, smell, and touch, and the microscopic world that affects every aspect of our lives. The study of chemistry begins on the microscopic scale and extends to engage a variety of different macroscopic contexts.

Chemistry is currently making its largest impact on society at the nexus between chemistry and biology and the nexus between chemistry and engineering, particularly where new materials are being developed. A typical chemistry laboratory now has more computers than test tubes and no longer smells of rotten eggs.

The chemistry department majors are designed to help students focus on these new developments and to understand the factors influencing the nature of the discipline. Because the science is constantly changing, courses change as well, and while organic and physical chemistry remain the bedrock courses, they too differ greatly from the same courses 40 years ago. Many consider biochemistry to be a foundation course as well. Although different paths within the chemistry major take different trajectories, there is a core that provides the essential foundation students need regardless of the path they choose. Students should consider majoring in chemistry if they share or can develop a fascination with the explanatory power that comes with an advanced understanding of the nature and influence of the microscopic world of molecules.

Students who choose to major in chemistry may elect to continue graduate study in this field and obtain a Ph.D. which is a solid basis for a career in research, either in the industry or in a university. A major in chemistry also provides students with an astonishing range of career choices such as working in the chemical or pharmaceutical industries or in many other businesses where a technical background is highly desirable. Other options include becoming a financial analyst for a technical company, a science writer, a high school chemistry teacher, a patent attorney, an environmental consultant, or a hospital laboratory manager, among others. The choices are both numerous and various as well as intellectually exciting and personally fulfilling.

Advanced Placement

The department grants advanced placement (AP) credit for a score of 4 or 5 or the equivalent. The amount of credit granted is based on the results of the department assessment exam and completion of the requisite course. Students who receive permission to register for CHEM UN1604 2ND TERM GEN CHEM (INTENSIVE) are granted 3 points of credit; students who receive permission to register for CHEM UN2045 INTENSIVE ORGANIC CHEMISTRY-CHEM UN2046 INTENSIVE ORG CHEM-FOR 1ST YEAR are granted 6 points of credit. In either case, credit is granted only upon completion of the course with a grade of C or better. Students must complete a department assessment exam prior to registering for either of these courses.

Programs of Study

The Department of Chemistry offers four distinct academic major programs for undergraduates interested in professional-level training and education in the chemical sciences: chemistry, chemical physics, biochemistry and environmental chemistry. For students interested in a program of less extensive study and coursework, the department offers a concentration in chemistry.

Course Information

The results of the department assessment exam are used to advise students which track to pursue. The Department of Chemistry offers three different tracks. Students who wish to take Track 2 or 3 classes must take the department assessment exam. Students who wish to pursue Track 1 classes do not need to take the assessment exam.

Track Information

In the first year, Track 1 students with one year of high school chemistry take a one-year course in general chemistry, and the one-term laboratory course that accompanies it. In the second year, students study organic chemistry, and take organic chemistry laboratory.

Students who qualify by prior assessment during orientation week can place into the advanced tracks. There are two options. Track 2 students take, in the fall term, a special one-term
intensive course in general chemistry in place of the one-year course. In the second year, students study organic chemistry and take organic chemistry laboratory. Track 3 students take a one-year course in organic chemistry for first-year students and the one-term intensive general chemistry laboratory course. In the second year, students enroll in physical chemistry and the organic chemistry laboratory course.

Additional information on the tracks can be found in the Requirements section.

ADDITIONAL COURSES
First-year students may also elect to take CHEM UN2408. This seminar focuses on topics in modern chemistry, and is offered to all students who have taken at least one semester of college chemistry and have an interest in chemical research.

Biochemistry (BIOC GU4501, BIOC GU4512) is recommended for students interested in the biomedical sciences.

Physical chemistry (CHEM UN3079-CHEM UN3080), a one-year program, requires prior preparation in mathematics and physics. The accompanying laboratory is CHEM UN3085-CHEM UN3086.

Also offered are a senior seminar (CHEM UN3920); advanced courses in biochemistry, inorganic, organic, and physical chemistry; and an introduction to research (CHEM UN3098).

SAMPLE PROGRAMS
Some typical programs are shown below. Programs are crafted by the student and the Director of Undergraduate Studies and Program Manager to meet individual needs and interests.

**Track 1**
**First Year**
CHEM UN1403  GENERAL CHEMISTRY I-LECTU
CHEM UN1404  GENERAL CHEMISTRY II-LECTURES
CHEM UN1500  GENERAL CHEMISTRY LABORATORY
CHEM UN2408  1ST YEAR SEM IN CHEMICAL RES
Calculus and physics as required.

**Second Year**
CHEM UN2443  ORGANIC CHEMISTRY I-LECTURES
CHEM UN2444  ORGANIC CHEMISTRY II-LECTURES
CHEM UN2493  ORGANIC CHEM. LAB I TECHNIQUES
CHEM UN2494  ORGANIC CHEM. LAB II SYNTHESIS
Calculus and physics as required.

**Third Year**
CHEM UN3079  PHYSICAL CHEMISTRY I-LECTURES
CHEM UN3080  PHYSICAL CHEMISTRY II-LECTURES
BIOC GU4501  BIOCHEM I-STRUCTURE/METABOLISM
CHEM UN3546  ADVANCED ORGANIC CHEMISTRY LAB
CHEM UN3098  SUPERVISED INDEPENDENT RES

**Fourth Year**
CHEM UN3085  PHYSICL-ANALYTICL LABORATORY I
CHEM UN3086  PHYSICL-ANALYTCL LABORATORY II
CHEM UN3920  SENIOR SEMINAR
CHEM GU4071  INORGANIC CHEMISTRY
Advanced courses (4000-level or higher)

**Track 2**
**First Year**
CHEM UN1507  INTENSVE GENERAL CHEMISTRY-LAB
CHEM UN1604  2ND TERM GEN CHEM (INTENSIVE)
CHEM UN2408  1ST YEAR SEM IN CHEMICAL RES
Calculus and physics as required.

**Second Year**
CHEM UN2443  ORGANIC CHEMISTRY I-LECTURES
CHEM UN2444  ORGANIC CHEMISTRY II-LECTURES
CHEM UN2493  ORGANIC CHEM. LAB I TECHNIQUES
CHEM UN2494  ORGANIC CHEM. LAB II SYNTHESIS
Calculus and physics as required.

**Third Year**
CHEM UN3079  PHYSICAL CHEMISTRY I-LECTURES
CHEM UN3080  PHYSICAL CHEMISTRY II-LECTURES
BIOC GU4501  BIOCHEM I-STRUCTURE/METABOLISM
CHEM UN3546  ADVANCED ORGANIC CHEMISTRY LAB
CHEM UN3098  SUPERVISED INDEPENDENT RES
Fourth Year
CHEM UN3085 PHYSICL-ANALYTICL LABORATORY I
CHEM UN3086 PHYSICL-ANALYTICL LABORATORY II
CHEM UN3920 SENIOR SEMINAR
CHEM GU4071 INORGANIC CHEMISTRY

Advanced courses (4000-level or higher)

Track 3
First Year
CHEM UN1507 INTENSVE GENERAL CHEMISTRY-LAB
CHEM UN2045 INTENSVE ORGANIC CHEMISTRY
CHEM UN2408 1ST YEAR SEM IN CHEMICAL RES

Calculus and Physics as required.

Second Year
CHEM UN2046 INTENSVE ORG CHEM-FOR 1ST YEAR
CHEM UN3079 PHYSICAL CHEMISTRY I-LECTURES
CHEM UN3080 PHYSICAL CHEMISTRY II-LECTURES
CHEM UN2545 INTENSIVE ORGANIC CHEM LAB
CHEM UN3546 ADVANCED ORGANIC CHEMISTRY LAB

Calculus and physics as required.

Third Year
BIOC GU4501 BIOCHEM I-STRUCTURE/METABOLISM
CHEM UN3085 PHYSICL-ANALYTICL LABORATORY I
CHEM UN3086 PHYSICL-ANALYTICL LABORATORY II
CHEM UN3098 SUPERVISED INDEPENDENT RES
CHEM GU4071 INORGANIC CHEMISTRY

Fourth Year
CHEM UN3920 SENIOR SEMINAR

Advanced courses (4000-level or higher)

PROFESSORS
Virginia W. Cornish
Richard A. Friesner
Ruben Gonzalez
Laura Kaufman
James L. Leighton
Ann E. McDermott
Wei Min
Jack R. Norton
Colin Nuckolls
Gerard Parkin
David R. Reichman
Tomislav Rovis
Dalibor Sames
Brent Stockwell
James J. Valentini
Latha Venkataraman
Xiaoyang Zhu

ASSOCIATE PROFESSORS
Angelo Cacciuto
Luis Campos
Jonathan Owen
Xavier Roy

ASSISTANT PROFESSORS
Timothy Berkelbach
Milan Delor
Neel Shah

SENIOR LECTURERS
Luis Avila
Anna Ghurbanyan
Sarah Hansen

Joseph Ulichny

LECTURERS
Robert Beer
John Decatur
Charles E. Doubleday
Ruben Savizky
Talha Siddiqui

GUIDELINES FOR ALL CHEMISTRY MAJORS, CONCENTRATORS, AND INTERDEPARTMENTAL MAJORS

Students majoring in chemistry or in one of the interdepartmental majors in chemistry should go to the director of undergraduate studies or the undergraduate program manager in the Department of Chemistry to discuss their program of study. Chemistry majors and interdepartmental majors usually postpone part of the Core Curriculum beyond the sophomore year.

Chemistry Tracks
All students who wish to start with Track 2 or 3 courses must take an assessment during orientation week ahead of fall semester. The results of the assessment are used to advise
students which track to pursue. Unless otherwise specified below, all students must complete one of the following tracks:

**Track 1**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM UN1403</td>
<td>GENERAL CHEMISTRY I-LECTU</td>
</tr>
<tr>
<td>CHEM UN1404</td>
<td>GENERAL CHEMISTRY II-LECTURES</td>
</tr>
<tr>
<td>CHEM UN1500</td>
<td>GENERAL CHEMISTRY LABORATORY</td>
</tr>
<tr>
<td>CHEM UN2443</td>
<td>ORGANIC CHEMISTRY I-LECTURES</td>
</tr>
<tr>
<td>CHEM UN2444</td>
<td>ORGANIC CHEMISTRY II-LECTURES</td>
</tr>
<tr>
<td>CHEM UN2493</td>
<td>ORGANIC CHEM. LAB I TECHNIQUES</td>
</tr>
<tr>
<td>CHEM UN2494</td>
<td>ORGANIC CHEM. LAB II SYNTHESIS</td>
</tr>
</tbody>
</table>

**Track 2**

<table>
<thead>
<tr>

</table>

**Physics Sequences**

Unless otherwise specified below, all students must complete one of the following sequences:

**Sequence A**

For students with limited background in high school physics:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS UN1401</td>
<td>INTRO TO MECHANICS # THERMO</td>
</tr>
<tr>
<td>PHYS UN1402</td>
<td>INTRO ELEC/MAGNETSM # OPTCS</td>
</tr>
</tbody>
</table>

**Sequence B**

For chemistry majors, the following laboratory courses are recommended, NOT required. For chemical physics majors, the following laboratory courses are required:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS UN1494</td>
<td>INTRO TO EXPERIMENTAL PHYS-LAB</td>
</tr>
<tr>
<td>PHYS UN2699</td>
<td>Experiments in Classical and Modern Physics</td>
</tr>
<tr>
<td>PHYS UN3081</td>
<td>INTERMEDIATE LABORATORY WORK</td>
</tr>
</tbody>
</table>

**Sequence C**

For chemistry majors, the following laboratory courses are recommended, NOT required. For chemical physics majors, the following laboratory courses are required:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS UN1494</td>
<td>INTRO TO EXPERIMENTAL PHYS-LAB</td>
</tr>
<tr>
<td>PHYS UN2699</td>
<td>Experiments in Classical and Modern Physics</td>
</tr>
<tr>
<td>PHYS UN3081</td>
<td>INTERMEDIATE LABORATORY WORK</td>
</tr>
</tbody>
</table>

**MAJOR IN CHEMISTRY**

Select one of the tracks outlined above in *Guidelines for all Chemistry Majors, Concentrators, and Interdepartmental Majors* and complete the following lectures and labs.

**Chemistry**

Select one of the chemistry tracks outlined above.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM UN2408</td>
<td>1ST YEAR SEM IN CHEMICAL RES (Recommended NOT required)</td>
</tr>
<tr>
<td>CHEM UN3079</td>
<td>PHYSICAL CHEMISTRY I-LECTURES</td>
</tr>
<tr>
<td>CHEM UN3080</td>
<td>PHYSICAL CHEMISTRY II-LECTURES</td>
</tr>
</tbody>
</table>
CHEM UN3085 PHYSICAL-ANALYTICAL LABORATORY I
CHEM UN3086 PHYSICAL-ANALYTICAL LABORATORY II
CHEM UN3546 ADVANCED ORGANIC CHEMISTRY LAB
CHEM UN3920 SENIOR SEMINAR
CHEM GU4071 INORGANIC CHEMISTRY
Select one course from the following:
CHEM UN3098 SUPERVISED INDEPENDENT RES
OR Chemistry courses numbered CHEM GU4000 or above for 2 credit points or more

Physics
Select one of the physics sequences outlined above in the Guidelines section.

Mathematics
Select one of the following sequences:

Four semesters of calculus:
MATH UN1101 CALCULUS I
- MATH UN1102 and CALCULUS II
- MATH UN1201 and CALCULUS III
- MATH UN1202 and CALCULUS IV
Two semesters of honors mathematics:
MATH UN1207 HONORS MATHEMATICS A
- MATH UN1208 and HONORS MATHEMATICS B

MAJOR IN BIOCHEMISTRY
Select one of the tracks outlined above in Guidelines for all Chemistry Majors, Concentrators, and Interdepartmental Majors and complete the following lectures and labs.

Chemistry
Select one of the chemistry tracks outlined above.
CHEM UN2408 1ST YEAR SEM IN CHEMICAL RES (Recommended NOT required)
CHEM UN3079 PHYSICAL CHEMISTRY I-LECTURES
CHEM UN3080 PHYSICAL CHEMISTRY II-LECTURES

Biology
BIOL UN1908 First Year Seminar in Biology (Recommended NOT required)
BIOL UN2005 INTRO BIO I: BIOCHEM,GEN,MOLEC
BIOL UN2006 INTRO BIO II:CELL BIO,DEV/PHYS
BIOC GU4501 BIOCHEM I-STRUCTURE/METABOLISM
or BIOC UN3300 BIOCHEMISTRY
BIOC GU4512 MOLECULAR BIOLOGY

Physics
Select one of the following physics sequences:

Sequence A:
PHYS UN1201 GENERAL PHYSICS I
- PHYS UN1202 and GENERAL PHYSICS II

Sequence B:
PHYS UN1401 INTRO TO MECHANICS #
- PHYS UN1402 THERMO
- PHYS UN1403 and INTRO ELEC/MAGNETISM
  # OPTCS
  and INTRO-CLASSCL
  # QUANTUM WAVES
  (PHYS UN1403 is recommended NOT required)

Sequence C:
PHYS UN1601 PHYSICS I:MECHANICS/
- PHYS UN1602 RELATIVITY
- PHYS UN2601 and PHYSICS II: THERMO,
  ELEC # MAG
  and PHYSICS III:CLASS/
  QUANTUM WAVE
  (PHYS UN2601 is recommended but not required)

Sequence D:
PHYS UN2801 ACCELERATED PHYSICS I
- PHYS UN2802 and ACCELERATED PHYSICS II

Mathematics
Select one of the following sequences:

Two semesters of calculus:
MATH UN1101 CALCULUS I
- MATH UN1102 and CALCULUS II
- MATH UN1201 and CALCULUS III
- MATH UN1202 and CALCULUS IV
Two semesters of honors mathematics:
MATH UN1207 HONORS MATHEMATICS A
- MATH UN1208 and HONORS MATHEMATICS B

AP credit and one term of calculus (Calculus II or higher)

Additional Courses
Select two of the following upper level laboratory courses (one must be a Biology lab):
BIOL UN2501 CONTEMPORARY BIOLOGY LAB
- BIOL UN3040 and LAB IN MOLECULAR BIOLOGY
  (A 3 pt. Barnard lab course, with permission from Bio advisor)
BIOL UN3052 PROJECT LAB-MOLECULAR GENETICS
BIOL UN3058 PROJECT LAB IN MICROBIOLOGY
BIOL UN3500 INDEP BIOLOGICAL RESEARCH
CHEM UN3085 PHYSICAL-ANALYTICAL LABORATORY I
CHEM UN3086 PHYSICAL-ANALYTICAL LABORATORY II
Select any three courses from the following:

- CHEM GU4071 INORGANIC CHEMISTRY
- CHEM GU4102 CHEMISTRY FOR THE BRAIN
- CHEM GU4103 ORGANOMETALLIC CHEMISTRY
- CHEM GU4127 ADVANCED ORGANIC CHEMISTRY I
- CHEM GU4312 CHEMICAL BIOLOGY
- CHEM GU4313 Peptide and Protein Chemistry
- BIOC GU4323 Biophysical Chemistry I
- BIOC GU4324 Biophysical Chemistry II
- MATH UN3027 Ordinary Differential Equations
- MATH UN2030 ORDINARY DIFFERENTIAL EQUATIONS
- CHEM UN3920 SENIOR SEMINAR
- CHEM GU4221 QUANTUM CHEMISTRY I

One additional semester of calculus

One additional semester of honors math:

- MATH UN1207 HONORS MATHEMATICS A
- MATH UN1208 HONORS MATHEMATICS B

Any biology course at the 3000/4000 level for 3 or more points. The following are recommended:

- BIOL UN3004 NEUROBIO I: CELLULAR # MOLECULAR
- BIOL UN3005 NEUROBIO II: DEVPT # SYSTEMS
- BIOL UN3008 The Cellular Physiology of Disease
- BIOL UN3022 DEVELOPMENTAL BIOLOGY
- BIOL UN3034 Biotechnology
- BIOL UN3041 CELL BIOLOGY
- BIOL UN3073 CELLULAR/MOLECULAR IMMUNOLOGY
- BIOL GU4065 Molecular Biology of Disease
- BIOL GU4300 DRUGS AND DISEASE

### Major in Environmental Chemistry

The requirements for this program were modified on February 1, 2016. Students who declared this program before this date should contact the director of undergraduate studies for the department in order to confirm their correct course of study.

Select one of the tracks outlined above in Guidelines for all Chemistry Majors, Concentrators, and Interdepartmental Majors and complete the following lectures and labs.

#### Chemistry

Select one of the chemistry tracks outlined above.

- CHEM UN3079 PHYSICAL CHEMISTRY I-LECTURES
- CHEM UN3080 PHYSICAL CHEMISTRY II-LECTURES
- CHEM UN3085 PHYSICL-ANALYTICL LABORATORY I
- CHEM UN3086 PHYSICL-ANALYTICL LABORATORY II
- CHEM UN3920 SENIOR SEMINAR
- CHEM GU4221 QUANTUM CHEMISTRY I

- CHEM UN3079 PHYSICAL CHEMISTRY I-LECTURES
- CHEM GU4071 INORGANIC CHEMISTRY

The following courses are recommended NOT required:

- CHEM UN2408 1ST YEAR SEM IN CHEMICAL RES
- CHEM UN3920 SENIOR SEMINAR

#### Earth and Environmental Science

Select two of the following three courses:

- EESC UN2100 EARTH'S ENVIRO SYST: CLIM SYST

### MAJOR IN CHEMICAL PHYSICS

Select one of the tracks outlined above in Guidelines for all Chemistry Majors, Concentrators, and Interdepartmental Majors and complete the following lectures and labs.

#### Chemistry

Select one of the chemistry tracks outlined above.

- CHEM UN3079 PHYSICAL CHEMISTRY I-LECTURES
- CHEM UN3080 PHYSICAL CHEMISTRY II-LECTURES
- CHEM UN3085 PHYSICL-ANALYTICL LABORATORY I
- CHEM UN3086 PHYSICL-ANALYTICL LABORATORY II
- CHEM UN3920 SENIOR SEMINAR
- CHEM GU4221 QUANTUM CHEMISTRY I

- PHYS GU4021 QUANTUM MECHANICS I

#### Physics

Select one of the physics sequences outlined above in Guidelines for all Chemistry Majors, Concentrators and Interdepartmental Majors. For the chemical physics major, one lab MUST be completed for the sequence chosen.

Complete the following lectures:

- PHYS UN3003 MECHANICS
- PHYS UN3007 ELECTRICITY-MAGNETISM
- PHYS UN3008 ELECTROMAGNETIC WAVES # OPTICS
<table>

**Additional Courses**

**Physics**

Select one of the following physics sequences:

**Sequence A:**
- PHYS UN1201
- PHYS UN1202
  - GENERAL PHYSICS I
  - and GENERAL PHYSICS II

**Sequence B:**
- PHYS UN1401
- PHYS UN1402
- PHYS UN1403
  - INTRO TO MECHANICS # THERMO
  - and INTRO ELEC/MAGNETSM # OPTCS
  - and INTRO-CLASSCL # QUANTUM WAVES
  - (Recommended, not required)

**Sequence C:**
- PHYS UN1601
- PHYS UN1602
- PHYS UN2601
  - PHYSICS I: MECHANICS/RELATIVITY
  - and PHYSICS II: THERMO, ELEC # MAG
  - and PHYSICS III: CLASS/QUANTUM WAVE
  - (Recommended, not required)

**Sequence D:**
- PHYS UN2801
- PHYS UN2802
  - ACCELERATED PHYSICS I
  - and ACCELERATED PHYSICS II

**Mathematics**

Two semesters of calculus:
- MATH UN1101: CALCULUS I
- MATH UN1102: CALCULUS II
- MATH UN1201: CALCULUS III
- MATH UN1202: CALCULUS IV

**Chemistry Tracks**

**Track 1**
- CHEM UN1403: General Chemistry I-LECTU
- CHEM UN1404: General Chemistry II-LECTURES
- CHEM UN1500: General Chemistry Laboratory

---

**Earth and Environmental Science**

- EESC BC3017: Environmental Data Analysis
- EESC BC3025: Hydrology
- EESC GU4008: Introduction to Atmospheric Science
- EESC GU4009: Chemical Geology
- EESC GU4040: Clim Thermodynamics/ Energy Transfer
- EESC GU4050: Global Assmt-Remote Sensing
- EESC GU4835: Wetlands And Climate Change
- EESC GU4885: Chemistry of Continental Waters

**Mathematics:**

One additional semester of calculus

---

**Concentration in Chemistry**

No more than four points of CHEM UN3098 Supervised Independent Res may be counted toward the concentration.

Select one of the three chemistry tracks listed below.

- PHYS UN1201
- PHYS UN1202
  - GENERAL PHYSICS I
  - and GENERAL PHYSICS II

Two semesters of calculus
Select 22 points of chemistry at the 2000-level or higher (excluding CHEM UN2408).

Track 2

CHEM UN1500 GENERAL CHEMISTRY LABORATORY
or CHEM UN1507 INTENSIVE GENERAL CHEMISTRY-LAB

CHEM UN1604 2ND TERM GEN CHEM (INTENSIVE)

Select 22 points of chemistry at the 2000-level or higher (excluding CHEM UN2408).

Track 3

CHEM UN1507 INTENSIVE GENERAL CHEMISTRY-LAB

CHEM UN2045 INTENSIVE ORGANIC CHEMISTRY

CHEM UN2046 INTENSIVE ORG CHEM-FOR 1ST YEAR

Select 18 points of chemistry at the 2000-level or higher (excluding CHEM UN2408).

FALL 2022

Please note that some lab fees have increased. You may consult the Directory of Classes for the most up to date fees.

CHEM UN1403 GENERAL CHEMISTRY I-LECTU. 3.00 points.

Fall 2022: CHEM UN1403

CHEM UN1500 GENERAL CHEMISTRY LABORATORY. 3.00 points.

CC/GS: Partial Fulfillment of Science Requirement

Lab Fee: $140.

Corequisites: CHEM UN1403, CHEM UN1404

An introduction to basic lab techniques of modern experimental chemistry, including quantitative procedures and chemical analysis. Students must register for a Lab Lecture section for this course (CHEM UN1501). Please check the Directory of Classes for details. Please note that CHEM UN1500 is offered in the fall and spring semesters. Mandatory lab check-in will be held during the first week of classes in both the fall and spring semesters. You may be asked to serve as research subjects in studies under direction of the faculty while enrolled in this course (CHEM UN1500 Sec 1, 2, 5, 7 and CHEM UN1501 Sec 1). Participation in voluntary

CHEM UN1507 INTENSIVE GENERAL CHEMISTRY-LAB. 3.00 points.

CC/GS: Partial Fulfillment of Science Requirement

Lab Fee: $140.

Prerequisites: CHEM UN1604 or CHEM UN2045
Corequisites: CHEM UN2045

Prerequisites: CHEM UN1604 or CHEM UN2045
Corequisites: CHEM UN2045

A student-centered experimental course intended for students who are taking or have completed CHEM UN1604 (Second Semester General Chemistry Intensive Lecture offered in Fall), CHEM UN2045 (Intensive Organic Chemistry offered in Fall), or CHEM UN2046 (Intensive Organic Chemistry Lecture offered in Spring). The course will provide an introduction to theory and practice of modern experimental chemistry in a contextual, student-centered collaborative learning environment. This course differs from CHEM UN1500 in its pedagogy and its emphasis on instrumentation and methods. Students must also attend the compulsory Mentoring Session. Please check the Directory of Classes for details. Please note that CHEM UN1507 is offered in the fall and spring semesters.

CHEM UN1604 2ND TERM GEN CHEM (INTENSIVE). 4.00 points.

CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: Acceptable performance on the Department placement exam during orientation week AND either a grade of "B" or better in CHEM UN1403 or AP chemistry or the equivalent.
Corequisites: MATH UN1102

Prerequisites: Acceptable performance on the Department placement exam during orientation week AND either a grade of "B" or better in CHEM UN1403 or AP chemistry or the equivalent. Please contact Vesna Gasperov (vg2231@columbia.edu) or your academic advisor at CSA for further information. Corequisites: MATH UN1102

Topics include chemical kinetics, thermodynamics and chemical bonding. Students must register simultaneously for a corresponding recitation section. Please check Courseworks or contact the instructor or departmental adviser for additional details. When registering, be sure to add your name to the wait list for the recitation corresponding to the lecture section (CHEM UN1606). Information about registration for the required recitation will be sent out before classes begin. Please expect to also be available for review sessions on Fridays from 8:10am-9:55am.

CHEM UN2443 ORGANIC CHEMISTRY I-LECTURES. 4.00 points.

Prerequisites: (CHEM UN1403 and CHEM UN1404) or CHEM UN1604

Prerequisites: (CHEM UN1403 and CHEM UN1404) or CHEM UN1604

The principles of organic chemistry. The structure and reactivity of organic molecules are examined from the standpoint of modern theories of chemistry. Topics include stereochemistry, reactions of organic molecules, mechanisms of organic reactions, syntheses and degradations of organic molecules, and spectroscopic techniques of structure determination. Although CHEM UN2443 and CHEM UN2444 are separate courses, students are expected to take both terms sequentially. Students must ensure they register for the recitation which corresponds to the lecture section. Please check the Directory of Classes for details.

CHEM UN2493 ORGANIC CHEM. LAB I TECHNIQUES. 0.00 points.

Lab Fee: $63.00
Prerequisites: (CHEM UN1403 and CHEM UN1404) or (CHEM UN1604) and (CHEM UN1500 or CHEM UN1507)
Corequisites: CHEM UN2443

Prerequisites: (CHEM UN1403 and CHEM UN1404) or (CHEM UN1604) and (CHEM UN1500 or CHEM UN1507)
Corequisites: CHEM UN2443

Techniques of experimental organic chemistry, with emphasis on understanding fundamental principles underlying the experiments in methodology of solving laboratory problems involving organic molecules. Attendance at the first lab lecture and laboratory session is mandatory. Please note that CHEM UN2493 is the first part of a full year organic chemistry laboratory course. Students must register for the lab lecture section (CHEM UN2495) which corresponds to their lab section. Students must attend ONE lab lecture and ONE lab section every other week. Please contact your advisers for further information.

CHEM UN3079 PHYSICAL CHEMISTRY I-LECTURES. 4.00 points.

Prerequisites: (CHEM UN1403 and CHEM UN1404) or (CHEM UN1604) or (CHEM UN2045 and CHEM UN2046) and (MATH UN1101 and MATH UN1102) or (MATH UN1207 and MATH UN1208) and (PHYS UN1401 and PHYS UN1402) PHYS UN1201 - PHYS UN1202 is acceptable; PHYS UN1401 - PHYS UN1402 or the equivalent is HIGHLY recommended.

Corequisites: CHEM UN3085

Prerequisites: (CHEM UN1403 and CHEM UN1404) or (CHEM UN1604) or (CHEM UN2045 and CHEM UN2046) and (MATH UN1101 and MATH UN1102) or (MATH UN1207 and MATH UN1208) and (PHYS UN1401 and PHYS UN1402) PHYS UN1201 - PHYS UN1202 is acceptable; PHYS UN1401 - PHYS UN1402 or the equivalent is HIGHLY recommended. Corequisites: CHEM UN3085 Elementary, but comprehensive, treatment of the fundamental laws governing the behavior of individual atoms and molecules and collections of them. CHEM UN3079 covers the thermodynamics of chemical systems at equilibrium and the chemical kinetics of
nonequilibrium systems. Although CHEM UN3079 and CHEM UN3080 are separate courses, students are expected to take both terms sequentially. A recitation section is required. Please check the Directory of Classes for details and also speak with the TA for the course.

### CHEM UN3085 PHYSICAL-ANALYTICAL LABORATORY I 4.00 points.

Lab Fee: $125 per term.

Corequisites: CHEM UN3079
Corequisites: CHEM UN3079 A student-centered experimental course intended for students who are co-registered or have completed CHEM UN3079 and CHEM UN3080. The course emphasizes techniques of experimental physical chemistry and instrumental analysis, including vibrational, electronic, and laser spectroscopy; electroanalytical methods; calorimetry; reaction kinetics; hydrodynamic methods; scanning probe microscopy; applications of computers to reduce experimental data; and computational chemistry. Students must also attend the compulsory Mentoring Session. Please check the Directory of Classes for details.

### CHEM UN3920 SENIOR SEMINAR. 2.00 points.

Pass/Fail credit only.

Open to senior chemistry, biochemistry, environmental chemistry, and chemical physics majors; senior chemistry concentrators; and students who have taken or are currently enrolled in CHEM UN3098. Senior seminar provides direct access to modern chemical research through selected studies by the students from active fields of chemical research. Topics to be presented and discussed draw from the current scientific literature and/or UN3098 research.

### BCHM UN3300 BIOCHEMISTRY. 3.00 points.

Prerequisites: one year each of Introductory Biology and General Chemistry. Corequisites: Organic Chemistry. Biochemistry is the study of the chemical processes within organisms that give rise to the immense complexity of life. This complexity emerges from a highly regulated and coordinated flow of chemical energy from one biomolecule to another. This course serves to familiarize students with the spectrum of biomolecules (carbohydrates, lipids, amino acids, nucleic acids, etc.) as well as the fundamental chemical processes (glycolysis, citric acid cycle, fatty acid metabolism, etc.) that allow life to happen. In particular, this course will employ active learning techniques and critical thinking problem-solving to engage students in answering the question: how is the complexity of life possible? NOTE: While Organic Chemistry is listed as a corequisite, it is highly recommended that you take Organic Chemistry beforehand.

### Fall 2022: BCHM UN3300

### BIOC GU4501 BIOCHEM I-STRUCTURE/ METABOLISM. 4.00 points.

Undergraduates should register for BIOC UN3501.

Prerequisites: BIOL UN2005 and BIOL UN2006 and CHEM UN2443 and CHEM UN2444 one year of intro biology and one year of organic chemistry.

In this course, we will study the chemistry of living systems. We will discuss how living systems convert environmental resources into energy, and how they use this energy and these materials to build the molecules required for the diverse functions of life. Finally, we will discuss the applications of such biochemical knowledge to mechanisms of disease and to drug discovery. At a high level, we expect that at the conclusion of the course, you should be able to explain the basic mechanisms by which living systems harness energy from other materials.
their environment, how living systems construct the molecules necessary for the functions of life, how these processes go awry in a variety of disease, including cancer, and how drugs can be discovered to treat such diseases. Using this knowledge, you will be able to diagram the major metabolic pathways and compare how these pathways are dysregulated in normal tissues in and disease states. In addition, you will learn which techniques are used to uncover this knowledge and how to design and interpret experiments that will address these questions. You will also collaborate with other students in the analysis and interpretation of biochemical data, and be able to communicate, defend and refute interpretations of data. In this course, we assume familiarity with basic concepts of modern biology, so having completed one year of college-level biology is required. In addition, we explore the reaction mechanisms governing a variety of transformations in metabolism. You must have completed one year of organic chemistry prior to taking this course.

**Fall 2022: CHEM GU4071 INORGANIC CHEMISTRY. 4.50 points.**
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: (CHEM UN1403 and CHEM UN1404) or (CHEM UN1604) or (CHEM UN2045 and CHEM UN2046), or the equivalent.

Prerequisites: (CHEM UN1403 and CHEM UN1404) or (CHEM UN1604) or (CHEM UN2045 and CHEM UN2046), or the equivalent. Principles governing the structure and reactivity of inorganic compounds surveyed from experimental and theoretical viewpoints. Topics include inorganic solids, aqueous and nonaqueous solutions, the chemistry of selected main group elements, transition metal chemistry, metal clusters, metal carbonyls, and organometallic chemistry, bonding and resonance, symmetry and molecular orbitals, and spectroscopy.

**Fall 2022: CHEM GU4147 ADVANCED ORGANIC CHEMISTRY I. 4.50 points.**

Prerequisites: Elementary organic and physical chemistry. Prerequisites: elementary organic and physical chemistry. The mechanisms of organic reactions, structure of organic molecules, and theories of reactivity. How reactive intermediates are recognized and mechanisms are deduced using kinetics, stereochemistry, isotopes, and physical measurements.
the course will cover topics on polymerization techniques, electronic structure of organic semiconductors, characterization strategies, nanostructures and self-assembly

**SPRING 2023**

Please note that some lab fees have increased. You may consult the Directory of Classes for the most up to date fees.

**CHEM UN1403 GENERAL CHEMISTRY I-LECTU. 3.00 points.**

**CHEM UN1404 GENERAL CHEMISTRY II-LECTURES. 4.00 points.**

CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: CHEM UN1403

Prerequisites: CHEM UN1403 Although CHEM UN1403 and CHEM UN 1404 are separate courses, students are expected to take both terms sequentially. Topics include gases, kinetic theory of gases, states of matter: liquids and solids, chemical equilibria, applications of equilibria, acids and bases, chemical thermodynamics, energy, enthalpy, entropy, free energy, periodic properties, chemical kinetics, and electrochemistry. The order of presentation of topics may differ from the order presented here, and from year to year. Students must ensure they register for the recitation that corresponds to the lecture section. Please check the Directory of Classes for details.

**BIOC GU4323 Biophysical Chemistry I. 4 points.**

This course provides a rigorous introduction to the theory underlying widely used biophysical methods, which will be illustrated by practical applications to contemporary biomedical research problems. The course has two equally important goals. The first goal is to explicate the fundamental approaches used by physical chemists to understand the behavior of molecules and to develop related analytical tools. The second goal is to prepare students to apply these methods themselves to their own research projects. The course will be divided into seven modules: (i) solution thermodynamics; (ii) hydrodynamic methods; (iii) statistical analysis of experimental data; (iv) basic quantum mechanics; (v) optical spectroscopy with an emphasis on fluorescence; (vi) nuclear magnetic resonance spectroscopy; and (vii) light-scattering and diffraction methods.

The first three modules will be covered during the fall term. In each module, the underlying physical theories and models will be presented and used to derive the mathematical equations applied to the analysis of experimental data. Weekly recitations will emphasize the analysis of real experimental data and understanding the applications of biophysical experimentation in published research papers.

**CHEM GR6168 MATERIALS CHEMISTRY IIA. 2.50 points.**

Prerequisites: CHEM UN2443 , or the equivalent.

Prerequisites: CHEM UN2443 , or the equivalent. This is an introductory course to the emerging field macromolecular materials chemistry. The general topics will be based on the chemistry, self-assembly, and performance of block copolymers and conjugated polymers. Particular emphasis will be devoted to the demands required to drive materials from scientific curiosity to commercialization. At the fundamental level,
1). Participation in voluntary studies under direction of the faculty while enrolled in this semester. You may be asked to serve as research subjects in during the first week of classes in both the fall and spring semesters. Mandatory lab check-in will be held details. Please note that CHEM UN1500 is offered in the fall (CHEM UN1501). Please check the Directory of Classes for Students must register for a Lab Lecture section for this course including quantitative procedures and chemical analysis. Corequisites: CHEM UN1403, CHEM UN1404 An introduction to basic lab techniques of modern experimental chemistry, will provide an introduction to theory and practice of modern experimental chemistry in a contextual, student-centered collaborative learning environment. This course differs from CHEM UN1500 in its pedagogy and its emphasis on instrumentation and methods. Students must also attend the compulsory Mentoring Session. Please check the Directory of Classes for details. Please note that CHEM UN1507 is offered in the fall and spring semesters. You may be asked to serve as research subjects in studies under direction of the faculty while enrolled in this course (CHEM UN1500 Sec 1, 2, 5, 7 and CHEM UN1501 Sec 1). Participation in voluntary

**CHEM UN1500 GENERAL CHEMISTRY LABORATORY. 3.00 points.**

CC/GS: Partial Fulfillment of Science Requirement Lab Fee: $140.

Corequisites: CHEM UN1403, CHEM UN1404
Corequisites: CHEM UN1403, CHEM UN1404 An introduction to basic lab techniques of modern experimental chemistry, including quantitative procedures and chemical analysis. Students must register for a Lab Lecture section for this course (CHEM UN1501). Please check the Directory of Classes for details. Please note that CHEM UN1500 is offered in the fall and spring semesters. Mandatory lab check-in will be held during the first week of classes in both the fall and spring semesters. You may be asked to serve as research subjects in studies under direction of the faculty while enrolled in this course (CHEM UN1500 Sec 1, 2, 5, 7 and CHEM UN1501 Sec 1). Participation in voluntary

**CHEM UN1507 INTENSIVE GENERAL CHEMISTRY-LAB. 3.00 points.**

CC/GS: Partial Fulfillment of Science Requirement Lab Fee: $140.

Prerequisites: CHEM UN1604 or CHEM UN2045 Corequisites: CHEM UN2045 Prerequisites: CHEM UN1604 or CHEM UN2045 Corequisites: CHEM UN2045 A student-centered experimental course intended for students who are taking or have completed CHEM UN1604 (Second Semester General Chemistry Intensive Lecture offered in Fall), CHEM UN2045 (Intensive Organic Chemistry offered in Fall), or CHEM UN2046 (Intensive Organic Chemistry Lecture offered in Spring). The course will provide an introduction to theory and practice of modern experimental chemistry in a contextual, student-centered collaborative learning environment. This course differs from CHEM UN1500 in its pedagogy and its emphasis on instrumentation and methods. Students must also attend the compulsory Mentoring Session. Please check the Directory of Classes for details. Please note that CHEM UN1507 is offered in the fall and spring semesters.

**CHEM UN2045 INTENSIVE ORGANIC CHEMISTRY. 4.00 points.**

Prerequisites: A grade of 5 on the Chemistry Advanced Placement exam and an acceptable grade on the Department placement exam or an acceptable grade in CHEM UN1604. Corequisites: CHEM UN1507 Prerequisites: A grade of 5 on the Chemistry Advanced Placement exam and an acceptable grade on the Department placement exam. Corequisites: CHEM UN1507 Premedical students may take CHEM UN2045, CHEM UN2046, CHEM UN1507 and CHEM UN2545 to meet the minimum requirements for admission to medical school. This course covers the same material as CHEM UN2443-CHEM UN2444,
but is intended for students who have learned the principles of general chemistry in high school OR have completed CHEM UN1604 in their first year at Columbia. First year students enrolled in CHEM UN2045-CHEM UN2046 are expected to enroll concurrently in CHEM UN1507. Although CHEM UN2045 and CHEM UN2046 are separate courses, students are expected to take both terms sequentially. A recitation section is required. Please check the Directory of Classes for details and also speak with the TA for the course.

CHEM UN2444 ORGANIC CHEMISTRY II-LECTURES.

4.00 points.

Prerequisites: CHEM UN1404 or CHEM UN1604 and CHEM UN1500 and CHEM UN2443

Prerequisites: CHEM UN1404 or CHEM UN1604, CHEM UN1500 and CHEM UN2443. The principles of organic chemistry. The structure and reactivity of organic molecules are examined from the standpoint of modern theories of chemistry. Topics include stereochemistry, reactions of organic molecules, mechanisms of organic reactions, syntheses and degradations of organic molecules, and spectroscopic techniques of structure determination. Although CHEM UN2443 and CHEM UN2444 are separate courses, students are expected to take both terms sequentially. Students must ensure they register for the recitation which corresponds to the lecture section. Please check the Directory of Classes for details.

CHEM UN2494 ORGANIC CHEM. LAB II SYNTHESIS.

0.00 points.

Lab Fee: $62.00

Prerequisites: (CHEM UN1403 and CHEM UN1404) and CHEM UN1500 and CHEM UN2493

Corequisites: CHEM UN2444

Prerequisites: CHEM W1403-CHEM W1404; CHEM W1500; CHEM W2493. Corequisites: CHEM W2444. Please note that you must complete CHEM W2493 before you register for CHEM W2494. This lab introduces students to experimental design and trains students in the execution and evaluation of scientific data. The technique experiments in the first half of the course (CHEM W2493) teach students to develop and master the required experimental skills to perform the challenging synthesis experiments in the second semester. The learning outcomes for this lab are the knowledge and experimental skills associated with the most important synthetic routes widely used in industrial and research environments. Attendance at the first lab lecture and laboratory session is mandatory. Please note that CHEM W2494 is the second part of a full year organic chemistry laboratory course. Students must register for the lab lecture section (CHEM W2496) which corresponds to their lab section. Students must attend ONE lab lecture and ONE lab section every other week. Please contact your advisors for further information.

CHEM UN3086 PHYSICL-ANALYTCL LABORATORY II. 4.00 points.
Lab Fee: $125 per term.

Prerequisites: CHEM UN3085, CHEM UN3080 is acceptable corequisite for CHEM UN3086. A student-centered experimental course intended for students who are co-registered or have complete CHEM UN3079 and CHEM UN3080. The course emphasizes techniques of experimental physical chemistry and instrumental analysis, including vibrational, electronic, and laser spectroscopy; electroanalytical methods; calorimetry; reaction kinetics; hydrodynamic methods; scanning probe microscopy; applications of computers to reduce experimental data; and computational chemistry. Students must also attend the compulsory Mentoring Session. Please check the Directory of Classes for details.

CHEM UN2496 ORGANIC CHEM. LABORATORY II. 1.50 point.
Corequisites: CHEM UN2494
The course is the lab lecture which accompanies the Organic Chemistry Laboratory II (Synthesis) course.

CHEM UN3098 PHYSICAL CHEMISTRY II-LECTURES. 4.00 points.
Prerequisites: CHEM UN3079
Corequisites: CHEM UN3086
Prerequisites: CHEM UN3079 Corequisites: CHEM UN3086 CHEM UN3080 covers the quantum mechanics of atoms and molecules, the quantum statistical mechanics of chemical systems, and the connection of statistical mechanics to thermodynamics. Although CHEM UN3079 and CHEM UN3080 are separate courses, students are expected to take both terms sequentially. A recitation section is required. Please check the Directory of Classes for details and also speak with the TA for the course.

CHEM UN3086 PHYSICL-ANALYTCL LABORATORY II. 4.00 points.
Lab Fee: $125 per term.

Prerequisites: CHEM UN3085, CHEM UN3080 is acceptable corequisite for CHEM UN3086.
CHEM GU4102 CHEMISTRY FOR THE BRAIN. 4.50 points.
This course was upgraded from 2.5 to 4.5 and assigned a new number.

Prerequisites: Organic chemistry and biology courses, neuroscience or neurobiology recommended, but not required. Prerequisites: Organic chemistry and biology courses, neuroscience or neurobiology recommended, but not required. The study of the brain is one of the most exciting frontiers in science and medicine today. Although neuroscience is by nature a multi-disciplinary effort, chemistry has played many critical roles in the development of modern neuroscience, neuropharmacology, and brain imaging. Chemistry, and the chemical probes it generates, such as molecular modulators, therapeutics, imaging agents, sensors, or actuators, will continue to impact neuroscience on both preclinical and clinical levels. In this course, two major themes will be discussed. In the first one, titled Imaging brain function with chemical tools, we will discuss molecular designs and functional parameters of widely used fluorescent sensors in neuroscience (calcium, voltage, and neurotransmitter sensors), their impact on neuroscience, pros and cons of genetically encoded sensors versus chemical probes, and translatability of these approaches to the human brain. In the second major theme, titled Perturbation of the brain function with chemical tools, we will examine psychoactive substances, the basics of medicinal chemistry, brain receptor activation mechanisms and coupled signaling pathways, and their effects on circuit and brain function. We will also discuss recent approaches, failures and successes in the treatment of neurodegenerative and psychiatric disorders. Recent advances in precise brain function perturbation by light (optogenetics and photopharmacology) will also be introduced. In the context of both themes we will discuss the current and future possibilities for the design of novel materials, drawing on the wide molecular structural space (small molecules, proteins, polymers, nanomaterials), aimed at monitoring, modulating, and repairing human brain function. This course is intended for students (undergraduate and graduate) from the science, engineering and medical departments.

CHEM GU4232 INTRO TO MOLECULAR MODELING. 4.50 points.
Prerequisites: physical chemistry sequence. Molecular modeling has become an integral part of research in many areas of chemistry, and in industry in drug discovery and materials design. Many experimental papers in the literature are routinely complemented by molecular modeling calculations. Experimental scientists working in industry have a significant advantage if they know how to optimally use modeling software. The course would consist of a normal lecture part plus a lab session every week in which the students learn to use modeling software by working on projects.

CHEM GU4313 Peptide and Protein Chemistry. 4.00 points.
The goal of this course is to explore how chemical methods and concepts have impacted our ability to understand and manipulate protein structure and function. We will navigate this subject through a combination of lectures and structured discussions on research articles from the literature. The course is divided into three segments: (1) In the first part, we will review the rudiments of protein structure and function, then delve into various aspects of enzyme chemistry and polypeptide biosynthesis. (2) In the second part of the course, we will cover synthetic methods to produce and chemically modify peptides and proteins. (3) In the final part, we will discuss chemical approaches to control protein function and monitor protein activity, focusing on methods that use small molecules and mass spectrometry proteomics.

BIOC GU4512 MOLECULAR BIOLOGY. 3.00 points.
Prerequisites: one year of biology. Recommended but not required: BIOC UN3501
Prerequisites: one year of biology. This is a lecture course designed for advanced undergraduates and graduate students. The focus is on understanding at the molecular level how genetic information is stored within the cell and how it is regulated. Topics covered include genome organization, DNA replication, transcription, RNA processing, and translation. This course will also emphasize the critical analysis of the scientific literature and help students understand how to identify important biological problems and how to address them experimentally. SPS and TC students may register for this course, but they must first obtain the written permission of the instructor, by filling out a paper Registration Adjustment Form (Add/Drop form). The form can be downloaded at the URL below, but must be signed by the instructor and returned to the office of the registrar. http://registrar.columbia.edu/sites/default/files/content/reg-adjustment.pdf

Spring 2023: BIOC GU4512
Course Number 4512
Section/Call Number 001/14195
Times/Location M W 2:40pm - 3:55pm
Instructor James Manley,
Points 3.00
Enrollment 51/60

CHEM GR6169 MATERIALS CHEMISTRY IIB. 2.50 points.
Prerequisites: CHEM UN2443 , or the equivalent.

CHEM GR6222 QUANTUM CHEMISTRY II. 2.50 points.
Prerequisites: CHEM GU4221

CHEM GR6231 INTERMEDIATE STATISTICAL MECH. 2.50 points.
Prerequisites: CHEM GU4221 and CHEM GU4230

CHEM G8130 The Chemistry of Nanocrystals. 2.5 points.
Not offered during 2022-23 academic year.

CHEM G8232 ADV STATISTICAL MECHANICS. 2.5 points.
Prerequisites: CHEM GU4221 and CHEM GU4230

CHEM GR8223 QUANTUM CHEMISTRY III. 2.50 points.
Not offered during 2022-23 academic year.

CHEM G8300 Biophotonics. 2.5 points.
Not offered during 2022-23 academic year.

Biophotonics tools are changing the way many biological problems are addressed by revealing direct and precious visualization information inside live cells, tissues and organisms. This interdisciplinary course will not only provide fundamental knowledge of optics, laser, microscopy, linear and nonlinear molecular spectroscopy, but also introduce physical principles of various emerging microscopy techniques including...
single-molecule biophysics, multi-photon microscopy, label-free chemical imaging, super-resolution imaging, novel molecular probes, optical coherence tomography and emerging technology. A few guest lectures from expert instructors across the campus are expected.

COURSES OFFERED IN ALTERNATE YEARS

Please contact the Undergraduate Program Manager, Vesna Gasperov (vg2231@columbia.edu), for further information.

CHEM GU4103 ORGANOMETALLIC CHEMISTRY. 4.50 points.
Prerequisites: (CHEM UN2443 and CHEM UN2444), or the equivalent. Some background in inorganic and physical chemistry is helpful but not required. Main group and transition metal organometallic chemistry: bonding, structure, reactions, kinetics, and mechanisms.

CHEM GU4104 STRUCTURAL METHODS IN INORGANIC CHEMISTRY. 2.50 points.
The determination of structures by diffraction methods, focusing on single crystal X-ray diffraction, is described. Emphasis is placed on a critical evaluation of published data.

CHEM GU4111 APPLICATIONS OF NMR SPECTROSCOPY TO INOR. 2.50 points.
The use of multinuclear NMR spectroscopy in the determination of the structures of inorganic molecules and the use of dynamic NMR spectroscopy (variable temperature NMR and magnetization transfer techniques) to provide information concerned with reaction mechanisms

CHEM GU4154 Chemical Characterization for Synthetic Chemists. 3 points.
Prerequisites: Columbia University’s laboratory safety certification is required. One year each of (i) general chemistry lecture/lab; (ii) organic or inorganic chemistry lecture/lab; and (iii) research experience in a chemistry lab are recommended. This course will teach synthetic chemists to use mass spectrometry, analytical chromatography, and single-crystal X-ray diffraction as tools for research in synthetic chemistry. The teaching approach will be practical with an emphasis on hands-on experience. Students will gain: (1) A user-level understanding of the theory of these analytical methods. (2) Hands-on proficiency with a variety of instruments available at Columbia. (3) An introduction to advanced instrument capabilities and an awareness of their applications. (4) Proficiency in processing and interpreting data.

CHEM GU4210 Writing Workshop for Chemists. 1 point.
Prerequisites: recommended for undergraduate students to have taken at least one semester of independent research. This course offers undergraduate and graduate students an introduction to scientific writing and provides an opportunity for them to become more familiar with the skill and craft of communicating complex scientific research. This course will provide students with the basic grammatical, stylistic and practical skills required to write effective academic journal articles, theses, or research proposals. In addition, through an innovative partnership with Columbia University Libraries’ Digital Science Center, students will learn how to apply these basic skills to their writing through the use of state-of-the-art software and on-line resources. Regular opportunities to write, peer edit and revise throughout the semester will allow students to put what they are learning into immediate practice. It is recommended that undergraduates have taken at least one semester of research for credit before taking this course. Undergraduates should plan to take this course after taking the required Core course University Writing.

CHEM GR6168 MATERIALS CHEMISTRY IIA. 2.50 points.
Prerequisites: CHEM UN2443, or the equivalent. This is an introductory course to the emerging field macromolecular materials chemistry. The general topics will be based on the chemistry, self-assembly, and performance of block copolymers and conjugated polymers. Particular emphasis will be devoted to the demands required to drive materials from scientific curiosity to commercialization. At the fundamental level, the course will cover topics on polymerization techniques, electronic structure of organic semiconductors, characterization strategies, nanostructures and self-assembly

CHEM GR6169 MATERIALS CHEMISTRY IIB. 2.50 points.
Prerequisites: CHEM UN2443, or the equivalent.

CHEM GR6222 QUANTUM CHEMISTRY II. 2.50 points.
Prerequisites: CHEM GU4221 Atomic and molecular quantum mechanics: fundamentals of electronic structure, many-body wave functions and operators, Hartree-Fock and density functional theory, the Dirac equation

CHEM GR6231 INTERMEDIATE STATISTICAL MECH. 2.50 points.
Prerequisites: CHEM GU4221 and CHEM GU4230 Phase transitions and critical phenomena; renormalization group methods; classical theory of fluids.
CHEM GR8106 KINETICS. 2.50 points.
Not offered during 2022-23 academic year.

Kinetics and mechanisms of inorganic reactions.

CHEM GR8120 Polymers in Nanotechnology. 2.5 points.
Polymeric materials have long been ubiquitous items and played important roles in revolutionizing the way we live. Due to the advent of modern polymerization fabrication strategies, polymers are rapidly gaining interest for the development of next generation devices and medical treatment. This course will focus on the chemistry polymers and their use as nanostructured materials created by self-assembly and top-down fabrication techniques. Specifically, the class will be divided into two sections describing the uses of organic nanostructures on a) surfaces and b) as particles. Patterned surfaces will be described in terms of photo-, imprint-, and block copolymer lithography. The preparation of nanoparticles through polymer synthesis, dendrimers, and mechanical manipulation will be the second part.

CHEM GR8223 QUANTUM CHEMISTRY III. 2.50 points.
Not offered during 2022-23 academic year.

Prerequisites: CHEM G6222.
Nonlinear spectroscopy: second harmonic and vibrational sum frequency generation; applications to surface and colloidal nano-microparticle interfaces; nonradiative molecular processes.

CHEM GR8232 ADV STATISTICAL MECHANICS. 2.50 points.
Prerequisites: CHEM GU4221 and CHEM GU4230, or their equivalents.
Stochastic processes; Brownian motion; Langevin equations and fluctuation-dissipation theorems; reaction rate theory; time correlation functions and linear response theory.

CHEM GR8349 Research Ethics & Philosophy. 2.5 points.
This lecture course aims to address philosophical and ethical questions in scientific research. What are the most important traits of successful scientists whose discoveries have greatly benefited humanity (and led to Nobel Prizes)? What distinguishes great science from mediocre or pathological "science"? What are the ethical standards of scientific research? How do we identify scientific misconduct or fraud? Why are ethical standards so critical to the integrity of the research enterprise? The course requires extensive participation of students in the form of discussions and debates. Grades will be based on participation, writing assignments, and one oral presentation.
Students in classics have the opportunity to take part in archaeological digs abroad and, on occasion, to assist faculty in research projects that require, for example, bibliographical collection or the checking of research data.

Many majors pursue graduate study in classics and classical studies. Upon earning their graduate degrees, they often embark on teaching careers in universities, colleges, and high schools. Many graduating majors also enter a number of other professional fields, among them law, banking, accountancy, publishing, and museum-work. Employers tend to find that students in classics are articulate on paper, as well as orally; are organized of mind; and have good skills in general reasoning, an ability developed by the study of Greek and Latin language. In effect, the study of classics opens up a wide array of options, both in education and in the wider world.

The program of the department aims for a comprehensive understanding of classical literature and culture, and the mastery of Greek and Latin on which such understanding depends. Careful study of the language occupies the largest part of the first-year courses and is not omitted in the more advanced courses. Although literature becomes the chief subject only in the advanced courses, important authors like Homer, Plato, and Virgil are studied as literary texts already in the intermediate courses. A wide variety of courses are offered in translation.

Through a joint program with Barnard, the department offers a broad range of subjects. The department annually offers four advanced courses in each language (at the 3000- or 4000-level), the content of which changes each year in order to provide a curricular range and to balance authors and genres over a two-year period.

Opportunities for individual projects of reading and research are available. Students are also permitted to take graduate courses if they are sufficiently prepared. Additionally, they can supplement their studies within the department through work in other departments, such as art history and archaeology, history, philosophy, and the other departments of languages and literature.

It is not necessary to have previously studied either language in order to major in it. A student starting Greek or Latin at Columbia can meet all the requirements of a major within an ordinary undergraduate program.

**IN FULFILLMENT OF THE LANGUAGE REQUIREMENT**

Students beginning the study of Greek or Latin at Columbia must take four terms of either of the following two-year sequences:

<table>
<thead>
<tr>
<th>Greek</th>
<th>Latin</th>
</tr>
</thead>
<tbody>
<tr>
<td>GREEK UN1101 ELEMENTARY GREEK I</td>
<td>LATN UN1101 ELEMENTARY LATIN I</td>
</tr>
<tr>
<td>- GREEK UN1102 and ELEMENTARY GREEK II</td>
<td>- LATN UN1102 and ELEMENTARY LATIN II</td>
</tr>
</tbody>
</table>

**GREK UN2101 - GREK UN2102 INTERMEDIATE GREEK: PROSE and INTERMEDIATE GREEK II: HOMER**

LATN UN2101 INTERMEDIATE LATIN I should be taken before LATN UN2102 INTERMEDIATE LATIN II.

For students with secondary-school training in Greek or Latin, the director of undergraduate studies determines, on the basis of records and test scores, what further work is needed to fulfill the language requirement.

**ADVANCED PLACEMENT**

The department grants 3 credits for a score of 5 on the Latin AP exam, which also satisfies the foreign language requirement, upon successful completion (with a grade of B or higher) of a Latin class at the 3000-level or higher.

**MAJOR PROGRAM**

The department offers a major in classics and a major track in classical studies. The major in classics involves the intensive study of both Greek and Latin, as well as their cultural matrix; the track in classical studies offers a more interdisciplinary approach. The major in classics is recommended for students planning to continue the study of classics in graduate school. The department also participates in the interdepartmental ancient studies program and offers a concentration in classics; these are all described below.

The major in classics and the track in classical studies are designed in part to build on the experience of the ancient world that undergraduates have acquired at Columbia in the Core Curriculum (especially in Literature Humanities). The major in classics is structured on the principle of gradual and closely monitored linguistic progress from the elementary (1100-level) to the advanced (3000- and 4000-levels) and ultimately to the
literature survey courses (GU4105-GU4106) in Greek and/or Latin.

Those majors intending to embark on graduate study in classics are especially encouraged to undertake, in their senior year, an independent research project (UN3998). This option is designed to allow students to personalize their experience in the major by conducting advanced study in a specialized area under the guidance of the specializing faculty member of their choice.

UN3998 is required in the classical studies track. Otherwise, students in classical studies are not required to take advanced courses beyond UN3996 The Major Seminar, but are expected to follow a coherent plan of study by taking a sequence of cognate courses in different but related departments (e.g., art history and archaeology, history, etc.).

The director of undergraduate studies is responsible for overseeing the path of study followed by each student in classics or classical studies. Through close interaction with the director of undergraduate studies, as well as with other faculty members where appropriate, each major is strongly encouraged to debate the strengths and weaknesses of his or her own trajectory of study even as the requirements for the major are being completed.

Students should contact the director of undergraduate studies with any questions about the classics majors and course offerings. The director of undergraduate studies can provide students with a worksheet to help in planning their progress toward major requirements.

MAJOR IN CLASSICS
The major in classics involves a program in both Greek and Latin languages and literatures, and in Greek and Roman civilization. Students generally emphasize the study of one of the languages (the primary language), but significant study of the other (secondary) language is required as well.

The major requires the completion of 11 courses (a minimum of 34 points) and must include the following:

1. In a primary language:
   • Four courses at or above the UN2100-level;
   • The Major Seminar UN3996;
   • Two courses from the following four advanced options: GU4105, GU4106, GU4139, UN3998 (any others may count toward the four upper level requirement).

2. In a secondary language:
   • Two courses at or above the UN2100-level.

3. Two ancient culture courses, including:
   • One course in the culture of the primary language;
   • One course in any aspect of ancient history or culture (HIST, AHIS, PHIL, CLLT, CLCV). All substitutions must be approved by the director of undergraduate studies.

The classical languages follow a standard track of elementary (1100-level) and intermediate (2100-level) levels, followed by 3000- and 4000-level classes that may generally be taken in any order.

Although it is easier to complete the major if at least one classical language is begun no later than the first year, it is possible to begin one classical language in the sophomore year and the other in the junior year and still complete the major.

Those planning to go on to graduate study in classics are urged to take both terms of GU4105-GU4106 if possible, to write a senior research thesis, and to acquire a reading knowledge of German and preferably also of French (Italian is also useful).

To be eligible for departmental honors and prizes, students must take UN3998.
**Major Track in Classical Studies**

The major track in classical studies requires the completion of 11 courses (a minimum of 35 points) and must include the following:

1. Five courses, at or above the UN 1102-level, in either or both Latin and Greek;
2. *The Major Seminar UN 3996*;
3. Four classes in Ancient History, Art, Philosophy, Religion, and Civilization. Note that certain courses may be 6 credits, e.g., ICCS’s *City of Rome* course, and may count as two courses towards this requirement. Students in doubt about a course’s relevance should confirm it with the director of undergraduate studies as soon as possible;
4. *Senior Thesis UN 3998*, completed on a chosen aspect of Greek or Roman civilization under the direction of a faculty member (3 points).

Summer courses 1221/1221 are counted as four credits for the purposes of major requirements.

**Major in Ancient Studies**

Students interested in a major in ancient studies should see the Ancient Studies section in this Bulletin.

**Concentration in Classics**

Students who declared this program before this date should contact the director of undergraduate studies for the department in order to confirm their correct course of study.

The concentration in classics is designed for those who cannot fit the complete major into their undergraduate schedule, but still wish to take a substantial program in Greek and Latin.

The concentration requires the completion of seven courses (a minimum of 21 points) and must include the following:

1. In a primary language, six courses distributed as follows:
   - Five courses above the 1100-level, three of which must be 3000- or 4000-level;
   - One course from the following three advanced options: GU 4105, GU 4106, GU 4139.
2. One course in Ancient History or Classical Civilization (3 points).

**Special Concentration in Hellenic Studies**

The courses in the Hellenic Studies program are designed to develop the student’s proficiency in aspects of Modern Greek culture, language, and history. The minimum credit requirement for the Hellenic Studies Concentration is 21 credits and includes:

1. Modern Greek language and culture courses (Elementary, Intermediate, Advanced, Conversation I & II, Reading in Greek; minimum 8 credits). Students will work with an undergraduate advisor to determine their level of the language;
2. Modern Greek Studies interdepartmental courses (CLGM, CSGM, HSGM; minimum 12 credits). The program of study should be planned as early as possible with the Director of Undergraduate Studies. Students meet with the Director of Undergraduate Studies each semester in order to obtain program approval. Opportunities exist for study abroad in Greece, Cyprus and Turkey for the summer or an academic term for credit. Students work closely with the concentration advisor on the selection of the foreign schools and the transfer of credit.

Students may also wish to write a Senior Thesis which will substitute one Modern Greek Studies interdepartmental seminar. While not required for graduation, the thesis enables a student to be considered for departmental honors. It is advisable to begin planning for the thesis during the student’s junior year. Interested students should identify a potential faculty advisor.

**Latin**

**LATN UN1101 Elementary Latin I. 4.00 points.**

For students who have never studied Latin. An intensive study of grammar with reading of simple prose and poetry.

**Fall 2022: LATN UN1101**

LATN UN2102 INTERMEDIATE LATIN II. 4.00 points.
Prerequisites: LATN UN2101 or the equivalent.
This course condenses the second semester of Intermediate Latin (2102) into a sixweek summer session. Its goal is to further develop reading and interpretation skills in Classical Latin through engagement with Roman authors while continuing to review the essentials of Latin grammar. In the first half of the course, we cover selections from Ovid’s epic poem, the Metamorphoses; in the second, we take up the prose writings of Seneca the Younger including selections from his Epistulae Morales and the philosophical dialogue De vita beata. Prerequisites: LATN UN2101 or the equivalent. Selections from Ovids Metamorphoses and from Sallust, Livy, Seneca, or Pliny

LATN UN3013 CLASSICAL LATIN PROSE. 3.00 points.
Prerequisites: LATN W2202 or equivalent. This course is intended to complement Latin V3012: Augustan Poetry in providing students I a transition between the elementary, grammatical study of Latin texts to a more fluent understanding of complex literary style. Latin V3013 will largely concentrate on different styles of writing, particularly narrative, inventive, and argument. Text will be drawn primarily from Ciceros orations, with some readings form his rhetorical works

LATN UN3033 MEDIEVAL LANGUAGE # LITERATURE. 3.00 points.
Prerequisites: four semesters of college Latin or the instructor's permission.
Prerequisites: four semesters of college Latin or the instructors permission. This course offers an introduction to medieval Latin literature in conversation with its two most important traditions, classical literature and early Christian culture. Illustrative passages from the principal authors and genres of the Latin Middle Ages will be read, including Augustine and biblical exegesis; Ambrose and poetry; Bede and history and hagiography; Abelard and Heloise and the 12th century
Renaissance. The course is suitable both for students of Latin and of the Middle Ages.

**LATN UN3035 Poetry as Neurosis: Lucan’s Bellum Civile. 3 points.**

This course is an intensive study of Lucan’s revolutionary and enigmatic Bellum Civile, the epic masterpiece of the Neronian age, which was admired and imitated all through the history of Western culture by authors such as Dante, Montaigne, Milton, Voltaire, Goethe, Shelley, and Baudelaire among others. The course will examine major controversies concerning the form and meaning of the poem, with special emphasis on the poetic tension created by the narrator’s neurotic personality. The narration of the 49 BCE civil war between Caesar and Pompey is for Lucan the pretext for an original and intensely personal reflection on themes such as political oppression, the role of the individual in society, nihilism, self-destructiveness, mental disorder, and artistic creation. The poem will be analyzed from various critical perspectives that include rhetoric, intertextuality, deconstruction, reception theory, and psychoanalysis; no previous knowledge of any of these methodologies is required. Although an acceptable knowledge of Latin (intermediate or above) is assumed, the primary focus of this course is literary and sociological interpretation rather than linguistic competence. In addition to the Latin reading assignments, the poem will also be read entirely in English translation, allowing students to comprehend the whole while they engage with particular sections in the original language. The assignment for each class will include: (1) approximately five hundred lines to be read in English translation; (2) translation of short Latin passages, whose size may be adapted to the level of the class/student; (3) secondary readings.

**LATN UN3309 LATIN LITERATURE SELECTIONS. 3.00 points.**

**Prerequisites:** LATN UN2102 or the equivalent.

Prerequisites: at least two terms of Greek at the 3000-level or higher.
Prerequisites: at least two terms of Greek at the 3000-level or higher. Greek literature of the 4th century B.C. and of the Hellenistic and Imperial Ages

Fall 2022: CLCV UN3009 Ancient Greek # Roman Medicine.

CLCV UN3009 Worlds of Alexander the Great Discussion.

This seminar looks at the narrative and the historical context for an extraordinary event: the conquest of the Persian empire by Alexander III of Macedonia, conventionally known as “Alexander the Great”. We will explore the different worlds Alexander grew out of, confronted, and affected: the old Greek world, the Persian empire, the ancient near-east (Egypt, Levant, Babylonia, Iran), and the worlds beyond, namely pre-Islamic (and pre-Silk Road) Central Asia, the Afghan borderlands, and the Indus valley. The first part of the course will establish context, before laying out a narrative framework; the second part of the course will explore a series of themes, especially the tension between military conquest, political negotiation, and social interactions. Overall, the course will serve as an exercise in historical methodology (with particular attention to ancient sources and to interpretation), an introduction to the geography and the history of the ancient world (classical and near-eastern), and the exploration of a complex testcase located at the contact point between several worlds, and at a watershed of world history.

Spring 2023: CLCV UN3059

CLCV UN3060 Worlds of Alexander the Great Discussion. 0 points.

Corequisites: CLCV UN3059

Discussion section to accompany CLCV 3059, “The Worlds of Alexander the Great”: examination of sources, interpretation

DISCUSSION: 12595  M W 2:25pm - 3:40pm 205 Wheatman

CLCV UN4106

This class tracks Egypt’s entanglement in the Greco-Roman world from the country’s initial welcoming of Greek merchants and mercenaries to the point at which Justinian shuttered its last remaining temple. In examining archaeological, textual, and artistic evidence, we’ll pay close attention to the flashpoints that divided society along ethnic lines (viz. Egyptian, Nubian, Levantine, Greek, and Roman inhabitants) and according to religious belief (among polytheists of Egyptian and Greek heritage, Jewish Egyptians, and Christians) as well as to syncretism, mixed marriages, and other integrative aspects of society.

Fall 2022: CLCV UN2441 Egypt in Classical World. 4.00 points.

This course aims to identify, analyze, and discuss ancient Greek and Roman medical theories, observations, methodologies for diagnosis and treatment, and the philosophical and professional disputes that arose around them. This course is arranged thematically and focuses on common methodologies, such as reasoning from first causes, in contrast to epistemic observation and experience. Other broad themes include the relationship between medicine and natural history, and the connection between medical treatments and the rise of herbals as ostensibly reliable sources of information. By focusing on such general themes and methodologies, and by reading the original Greek and Latin texts in translation, this course will aim to provide an answer to the following questions: in what exactly did ancient Greek and Roman medicine consist and how did the field’s practitioners and theorists perform medical work, in their own words? There are no prerequisites for this course, nor does it require knowledge of Greek or Latin. It is equally suited to premed students, individuals with an interest in medical humanities, and Classics students.

Fall 2022: CLCV UN3009

CLCV UN3009 Worlds of Alexander the Great. 3.00 points.

CLCV UN1001 Introduction to Greek Mythology. 3.00 points.

The stories of the Greek and Roman gods and heroes are at the root of countless works of art, philosophy, literature, and film, from antiquity to the present. Many familiar phrases from the English language also derive from myth: an Achilles heel (and Achilles tendon!), a Trojan horse, Pandora’s box, and so forth. The stories of the Greek and Roman gods and heroes are at the root of countless works of art, philosophy, literature, and film, from antiquity to the present. Many familiar phrases from the English language also derive from myth: an Achilles heel (and Achilles tendon!), a Trojan horse, Pandora’s box, and so forth.

DISCUSSION: 222 Pupin
and historiography; broad discussion as well as close reading of texts.

**CLCV UN3101 The Archaeology of Ancient Egypt and Nubia. 3 points.**

Thanks to the pyramids of Giza, the treasure of Tutankhamun, and other remains of royal activity, pharaonic Egypt is justly famous for its monuments and material culture. Equally fascinating, if less well known, however, are the towns, fortresses, cultic centers, domestic spaces, and non-elite cemeteries that have been excavated over the past 200 years or so. The archaeology of Nubia is also little known but fascinating on many levels. This course will focus on what archaeology can reveal about life as it was experienced by individuals of all social classes. Through a combination of broad surveys and case studies of some of Egypt and Nubia’s most culturally indicative and intriguing sites, we will explore issues such as the origins of inequality, state formation and its effects, the uneasy mix of state-planned settlements and village life, urbanism, domestic and community worship, gendered spaces, ethnicity and colonialism, religious revolution and evolution, bureaucracy, private enterprise, and the effects of governmental collapse on life and death in ancient Egypt and Nubia.

**CLCV UN3111 PLATO&CONFUCIUS: COMP ANC PHIL. 3 points.**

CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

Prerequisites: completion of first semester of CC recommended. Prerequisites: completion of first semester of CC recommended. Although separated by a distance of nearly 5,000 miles, Classical Greece and China witnessed the near-simultaneous emergence of complex, centralized city-states, intensive agricultural cultivation, urbanization, the growth of imperial administrations, and scientific and technological revolutions. Each also witnessed the emergence of competing schools of philosophy. This course surveys principal works of Classical Greek and Chinese philosophy (where possible in their totality). Our goals are both contextualist and comparative. Alternating between philosophical traditions, we shall read, discuss, and analyze several works of ancient Greek philosophy and Classical Chinese philosophy within their unique historical contexts and in comparison to one another.

**CLCV UN3220 War, reality and truth in Thucydides. 4 points.**

Between 431 and 404 BCE, a world war pitted the sea empire of democratic Athens against the land-based hegemony of Sparta, the culmination of decades of cold war, uneasy coexistence and open conflict between the two powers. The first twenty years of this major event in ancient history are painstakingly recorded in a monumental work, the *War of the Peloponnesians and Athenians* by the Athenian Thucydides, a participant in the conflict. This remarkable and highly crafted text combines a hyperreal narrative season by season, analyses of causality, character and motivation, and competing ethical and practical interpretations. We will approach Thucydides' *War in* four different ways: as a piece of historiography; as set of political or social scientifically oriented demonstrations; as a philosophical meditation on justice and power in the world; and as a historical document for a richly interesting period. Are these four approaches mutually compatible and reinforcing? The close reading of the text (for reasons of time, we will look at Books 1-5, 8 will be completed by engagement with secondary literature (four monographs and articles) and with contemporary documents (inscriptions), the latter offering a fragmentary counterpoint to Thucydidean narrative. After reading the text, we will spend time on thematic debates involving the narrative and contextual material. The aim of this close work is to produce a Thucydides beyond the clichés of contemporary punditry (“the Thucydides trap”), closely fitting within Columbia undergraduate training (where Thucydides has vanished from the Core), and bridging the gap between contextualizing and modernizing readings.

**CLCV UN3321 War, reality and truth in Thucydides - Discussion. 0 points.**

Between 431 and 404 BCE, a world war pitted the sea empire of democratic Athens against the land-based hegemony of Sparta, the culmination of decades of cold war, uneasy coexistence and open conflict between the two powers. The first twenty years of this major event in ancient history are painstakingly recorded in a monumental work, the *War of the Peloponnesians and Athenians* by the Athenian Thucydides, a participant in the conflict. This remarkable and highly crafted text combines a hyperreal narrative season by season, analyses of causality, character and motivation, and competing ethical and practical interpretations. We will approach Thucydides' *War in* four different ways: as a piece of historiography; as set of political or social scientifically oriented demonstrations; as a philosophical meditation on justice and power in the world; and as a historical document for a richly interesting period. Are these four approaches mutually compatible and reinforcing? The close reading of the text (for reasons of time, we will look at Books 1-5, 8 will be completed by engagement with secondary literature (four monographs and articles) and with contemporary documents (inscriptions), the latter offering a fragmentary counterpoint to Thucydidean narrative. After reading the text, we will spend time on thematic debates involving the narrative and contextual material. The aim of this close work is to produce a Thucydides beyond the clichés of contemporary punditry (“the Thucydides trap”), closely fitting within Columbia undergraduate training (where Thucydides has vanished from the Core), and bridging the gap between contextualizing and modernizing readings.

**CLCV V3230 Classics and Film. 3 points.**

Considers cinematic representations of the ancient Mediterranean world, from early silent films to movies from the present day. Explores films that purport to represent historical events (such as *Gladiator*) and cinematic versions of ancient texts (*Pasolini’s Medea*). Readings include ancient literature and modern criticism.
CLCV GU4106 Religions of the Roman World. 3.00 points.
The goal of this course is to convey an important amount
of knowledge on the religious history of the Roman empire
focusing both on paganism, Christianity and Judaism and
their interaction. We will study the religious space, the agents
of cults and religions, rituals and networks and dynamics of
power. The course will also face the challenge to reconsider the
points of view from which to think the religious history of the
Roman Empire and therefore it will be an invitation to revise
our intellectual tools and questions towards an awareness to
what is at stake when an object of religious debate emerges
in the end of municipal forms in the late Roman empire in the
fourth century CE. Is there a single polis form that develops
and endures during this century? This is the concern of the first
half of the course. The second half explores implications of the
polis as a social and political organism: as ideas, ideology and
institutions; as self-interest; and as a site and a tool of
domination. The possible consequences for the politics of
living together will be examined throughout the course, which
balances between history and political philosophy

CLCV GU4110 Gender and Sexuality In Ancient Greece. 3
points.
Prerequisites: sophomore standing or the instructor’s permissi
Examination of the ways in which gender and sexuality
are constructed in ancient Greek society and represented in
literature and art, with attention to scientific theory, ritual
practice, and philosophical speculation. Topics include
conceptions of the body, erotic and homoerotic literature and
practice, legal constraints, pornography, rape, and prostitution.

CLCV UN3008 The Age of Augustus. 3.00 points.
The reign of the first Roman emperor, Augustus (27BCE-14CE),
have been seen as a Roman revolution, both political and
cultural. Rome had for centuries been governed as a Republic,
but a series of increasingly divisive civil wars allowed
Augustus to create a new political system in which he exercised
sole rule as the ‘first citizen’ within a ‘Restored Republic’. 
Augustus’ reign lasted more than 40 years, and established
a model of autocratic rule that would last for four centuries.
During this time there were profound changes in the political,
social, and cultural structures of Rome. In this course, you
will examine the nature of these changes, Augustus’ political
strategies, military activities, and religious initiatives through
his own writing, the accounts of (often hostile) historians and a
range of literary and archaeological sources, including Roman
poetry. Ultimately, we will address the question: how did
Augustus achieve the seemingly paradoxical feat of becoming a
monarch within a republican system?

CLCV UN3070 Polis: the Biography of the Ancient Greek
City-State 650 BCE-350 CE. 4.00 points.
This course explores the history of the Greek city-state, first
as a long narrative story from the obscure leap to stately forms
in the Aegean basin during the early seventh century BCE, to
the end of municipal forms in the late Roman empire in the
Aegean basin during the early seventh century BCE, to
the end of municipal forms in the late Roman empire in the
Aegean basin during the early seventh century BCE, to
the end of municipal forms in the late Roman empire in the
Aegean basin during the early seventh century BCE, to
the end of municipal forms in the late Roman empire in the
Aegean basin during the early seventh century BCE, to
the end of municipal forms in the late Roman empire in the
Aegean basin during the early seventh century BCE, to
the end of municipal forms in the late Roman empire in the
Aegean basin during the early seventh century BCE, to
the end of municipal forms in the late Roman empire in the
royal. Examining the rich funerary traditions and goods found in royal burials, and temple and tomb imagery, we will explore how ancient Africans of the Nile Valley understood female power and presence to be an essential enlivening element in maintaining Maat, the balance of male and female energies, in order to cultivate “divine right order” in the world and in the cosmos. In this six-week immersive seminar, we’ll examine the history of Kushite queens who served as powerful complements to their husband the king, as the central figure in the coronation ceremonies for their son as he assumed the kingship, and as rulers in their own right during a time when this level of power was unavailable to women anywhere else in the world. After surveying the earlier phases of the ancient African kingdom of Kush: Kerma (2600-1500 BCE) and Napata (900-300 BCE), we will focus on the last phase of the Kingdom of Kush – Meroe (300 BCE – 300 CE) where women truly came into their power.

**CLCV GU4160 Reading Rome in the Middle Ages and Beyond. 3.00 points.**

This course will examine the ways Rome has been described and imagined from late antiquity through the Middle Ages, when the imperial city was transformed into a Christian capital, renowned for its monuments and its complex historical significance. The city became the goal of pilgrims, visitors, artists and scholars, but also the subject of criticisms and satire, and continued to be so into the modern age. The great German poet Goethe wrote at length in his Italian Journey (1786-1787) about his enchantment with the monuments of “the First City of the world [sic]” (Johann Wolfgang von Goethe, Italian Journey (1786-1788), trans. W. H. Auden and Elizabeth Mayer [1962], p. 115), while at the same time he described the living city first started to my mind.” Memoirs of My Life (1796).

This course is not meant to be a history of post-classical Rome. Rather, we will consider and discuss a selection of interdisciplinary texts, written, visual and material (buildings, artistic works in various forms, including films, and other physical evidence) that present the transformation of old Rome into new Rome, but which also shaped the varied images of Rome in the Middle Ages, and beyond, even in modern times, as illustrated by the films included in the syllabus.

**CLCV GU4180 Friendship from Antiquity to the Present. 3.00 points.**

At all times and in all places, human beings have established and cherished friendships, that is, affectionate bonds with individuals to whom they were not linked by blood relationship or erotic love. But what is friendship? This and related questions are asked in some of our earliest literature and remain relevant today. What is a friend? Can I really trust my friend? How many friends can or should a person have? And is it ever necessary to sever a friendship or "unfriend" a person? In this course, we will examine how philosophical writers of Greco-Roman antiquity—notably, Plato, Aristotle, and Cicero—address these issues and how their discourse on friendship resonates through western thought, including in such writers as Aquinas, Montaigne, Bacon, Kant, and Emerson. We will put these theoretical approaches in dialogue with depictions of and reflections on friendship in letters, poetry, novels, plays, children’s literature, and film, ranging from the second millennium BCE Epic of Gilgamesh to Elena Ferrante's 2012 bestseller My Brilliant Friend. These sometimes complementary and sometimes jarring juxtapositions will lead us to consider friendship both in its historically and culturally conditioned and in its universal aspects, and will, with any luck, inspire a new appreciation of this profoundly human experience.

**CLASSICAL LITERATURE**

**CLLT UN3125 Book Histories and the Classics. 3 points.**

Prerequisites: HUMA CC1001 or HUMA GS1001COCI CC1101,HUMA CC1001 or HUMA GS1001 or COCI CC1101

This seminar will introduce students of classical literature to the history of the Western book, and to the relationship between book history and the transmission and reception history of the literature of ancient Greece and Rome. Students will also learn how to make use of rare books materials including manuscripts and early printed books.

**CLLT UN3126 Queer Classics: Desire, Embodiment, Backward Glances. 3.00 points.**

While the word ‘homosexual’ didn’t appear in print until 1891, Ancient Greece and Rome were full of queers, people whose sexual behavior, desires, gender, and/or other characteristics were at odds with dominant norms. This course traces ancient queerness across three modules. First, we discuss primary evidence and scholarly attitudes towards homoeroticism and gender variance in antiquity. Second, we explore the reception of ancient homoeroticism at the turn of the 20th century, a period that witnessed an explosion of engagement with ancient queer icons. Third, we trace the transformations of ancient queer myths and imagery in contemporary popular culture, engaging with film, novels, Zines, and social media. No prerequisites.
CLLT UN3127 Hercules: Hero, Murderer, Philosopher, Buffoon. 3 points.
Hercules is one of the most ancient, widespread, and enduring figures to emerge from the ancient Mediterranean. He is a figure of multiples: myriad labors, multiple wives, multiple fathers, and multiple identities. Together we will discover a broad range of literature on this hero and-like ancient writers and thinkers—we will use Hercules to explore mortality, divinity, masculinity, madness, and contradiction. We will read Hercules in different ancient genres, with a particular emphasis on Tragedy, Comedy, and Philosophy. The final units of our course will explore contemporary "heros," including the Hulk, "The Rock," and Disney's Hercules.

CLLT UN3128 THE ARTIST AND THE DICTATOR: ROMAN WRITERS UNDER NERO. 3 points.
This course aims at highlighting both the most important general features and the most important peculiarities of the literary masterpieces produced in the age of Nero. The basic question we will be addressing in class is what it means to be a literary artist under the rule of a despot. In order to fulfill Nero’s megalomania need for exaltation, cope with his absolute power and, at the same time, maintain their personal identity and ethical values as writers, Seneca, Petronius and Lucan strove to balance in their works the emperor’s expectations and their own artistic designs. These artists were not free to write what they wanted to write for present and future generations, but they tried to write it nevertheless. In this course, we will examine the extent of freedom of expression under Nero; the rhetorical techniques Neronian writers resorted to in order to express tactful modes of oblique commentary and criticism; the difficulties of the individual’s liberty in a climate of dictatorial oppression; the ways in which literature helps us discover more about the society of a given time; and, ultimately, the universal and eternal desire for artists to be themselves and express their own views in spite of mortal dangers. Such issues are all the more pertinent in the present day: in 1989, the novelist Salman Rushdie was sentenced to death by the ayatollah Khomeyni after the publication of The Satanic Verses and fled to the United Kingdom; in 2011, the visual artist Ai Weiwei, whose most recent installation is currently exhibited in New York City, at Washington Square Park, served 81 days in a Chinese prison because of his artwork against dictatorial regimes. He eventually left China and settled in Berlin. No knowledge of Latin is required, as the focus of this course is literary, historical and sociological interpretation rather than linguistic competence.

CLLT UN3129 An Odyssey of Odysseys: Receptions of Homer’s Odyssey from Antiquity to the 21st Century. 3.00 points.
Homer’s Odyssey, likely composed around the 9th or 8th century BCE, has had an enduring legacy. Our journey this semester will bring us into contact with a varied selection of artistic endeavors, spanning different cultures, times, and media, that draw on the Odyssey for material or inspiration. A guiding set of broadly-formulated questions will steer our course: Can we find in the Odyssey some of the same meaning, today, that it held for its original audience and that it held, subsequently, for later Greeks? Do receptions of the Odyssey try to recapture it, reframe it, refashion it, or become something independent? (Are these mutually exclusive options?) How do we read these works in light of the Odyssey, and also how do we re-visit and re-read the Odyssey in light of its receptions? It is no secret that the present bears the enduring weight of the past, but is the past changed as a result?

CLLT UN3132 Classical Myth. 3 points.
Survey of major myths from the ancient Near East to the advent of Christianity, with emphasis upon the content and treatment of myths in classical authors (Homer, Hesiod, Aeschylus, Euripides, Sophocles, Vergil, Livy, Ovid).

MODERN GREEK

GRKM UN1101 ELEMENTARY MODERN GREEK I. 4.00 points.
This is the first semester of a year-long course designed for students wishing to learn Greek as it is written and spoken in Greece today. As well as learning the skills necessary to read texts of moderate difficulty and converse on a wide range of topics, students explore Modern Greece's cultural landscape from parea to poetry to politics. Special attention will be paid to Greek New York. How do our, American, Greek-American definitions of language and culture differ from their, Greek ones?

GRKM UN3001 Advanced Modern Greek I. 3 points.
Prerequisites: GRKM V2101 or the equivalent.
This semester we will continue to build language skills but with particular attention to speaking and writing Greek at the university level. We will focus on such topics as diaspora, history, politics, and identity. We will use materials from literature, critical essays, historiography, film, and mass media as a way to advance knowledge in Modern Greek literature and culture. In addition we will explore the diversity of Greek language as it is spoken in different regions and gain understanding of its evolution through time. Materials include: essays (Seferis, Theotokas); newspaper articles; television interviews (Flessa and Papanikolou); advertisement; stand-up-comedy (Lazopoulos); music (art-song, rebetika, hip-hop); theatre (Demetriadis); literature (Roides, Papadimitris, Kazantzakis, Lymberaki, Karapanou, Galanaki, Charalambides, Chatzopoulos, Chouliaras).

GRKM UN3003 GREECE TODAY: LANG, LIT. 3.00 points.
Prerequisites: GRKM un2102
Prerequisites: GRKM un2102 This course builds on the elements of the language acquired in GRKM1101 through 2102, but new students may place into it, after special arrangement with the instructor. It introduces the students to a number of authentic multimodal materials drawn from a range of sources which include films, literary texts, media, music etc. in order to better understand Greece’s current cultural, socio-economic, and political landscape. In doing so, it aims to foster transcultural understanding and intercultural competence, while further developing the four language skills: listening, speaking, reading and writing. Topics of discussion include language, gender equality, youth unemployment, education, queer identities, refugees, and the multilayered aspects of the crisis. Pre-requisite for this class: GRKM 2102 or placement test. Instructor’s permission required if the students have not taken GRKM2102 or equivalent.

GRKM UN3935 Hellenism and the Topographical Imagination. 3 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement
This course examines the way particular spaces—cultural, urban, literary—serve as sites for the production and reproduction of cultural and political imaginaries. It places particular emphasis on the themes of the polis, the city, and the nation-state as well as on spatial representations of and responses to notions of the Hellenic across time. Students will consider a wide range of texts as spaces—complex sites constituted and complicated by a multiplicity of languages—and ask: To what extent is meaning and cultural identity, sitespecific? How central is the classical past in Western imagination? How have great metropolises such as Paris, Istanbul, and New York fashioned themselves in response to the allure of the classical and the advent of modern Greece? How has Greece as a specific site shaped the study of the Cold War, dictatorships, and crisis?

GRKM UN3996 Readings in Modern Greek. 1 point.
Prerequisites: This course may be taken as a 1 point corequisite with GRKM GU4135, or as a separate 1 point course. The course allows students in Topics through Greek Film (GU4135) with an intermediate to advanced level of Greek to supplement their study of that course’s theme through materials in Greek. Each week we will be reading short texts (excerpts from novels and essays, blogs, newspaper articles) on a theme discussed that week in GU4135.

GRKM UN3997 DIRECTED READINGS. 1.00-4.00 points.
Designed for undergraduates who want to do directed reading in a period or on a topic not covered in the curriculum.

GRKM GU4135 Topics Through Greek Film.  **4.00 points.**

Optional 1-point bilingual guided reading.

This course explores issues of memory and trauma, public history and testimony, colonialism and biopolitics, neoliberalism and governmentality, and crisis and kinship, all through the medium of Greek film. It brings the Greek cinema canon (Angelopoulos, Cacoyannis, Gavras, Koundouros, et al.) into conversation with the work of contemporary artists, ethnographers, documentary filmmakers, and the recent “weird wave” and asks: what kind of lens does film offer onto the study of a society’s history and contemporary predicament? The viewing and discussion of films is facilitated through a consideration of a wide range of materials, including travelogues, criticism, archival footage, and interviews with directors. The course does not assume any background knowledge and all films will have English subtitles. An additional 1-credit bilingual option (meeting once per week at a time TBD) is offered for students who wish to read, view, and discuss materials in Greek.

GRKM GU4460 SUPERVISED INDEPENDENT RESEARCH.  **3.00 points.**

All supervisors will be Columbia faculty who hold a PhD. Students are responsible for identifying their own supervisor and it is at the discretion of faculty whether they accept to supervise independent research. Projects must be focused on Hellenic Studies and can be approached from any disciplinary background. Students are expected to develop their own reading list in consultation with their supervisor. In addition to completing assigned readings, the student must also write a Hellenic Studies paper of 20 pages. Projects other than a research paper will be considered on a case-by-case basis. Hellenic Studies is an interdisciplinary field that revolves around two main axes: space and time. Its teaching and research are focused on the study of post-classical Greece in various fields: Language, Literature, History, Politics, Anthropology, Art, Archaeology, and in various periods: Late Antiqu, Medieval, Byzantine, Modern Greek etc. Therefore, the range of topics that are acceptable as a Hellenic Studies seminar paper is broad. It is upon each supervisor to discuss the specific topic with the student. The work submitted for this independent study course must be different from the work a student submits in other courses, including the Hellenic Studies Senior Research Seminar.

GRKM W4821 The Greek Revolution of 1821.  **3.00 points.**

2021 marks the bicentenary of the Greek uprising against the Ottoman Empire—an event that captured European and American popular imagination and led to the founding of the Greek nation. The Greek Revolution became a site for enduring discussion of much larger questions about the international order, democracy, empire, nationalism, collective rights, slavery, monumentality, and the contemporary place of classical Hellas. In this seminar Hellenic Studies faculty and guest speakers take 1821 and its enduring legacies as a vantage point to examine the use of primary sources (including texts, songs, paintings, and films) across different disciplines (history, anthropology, comparative literature, architecture, political science, and queer studies), and reflect on the nature of evidence and how it features in public discourse and contemporary cultural politics. Lectures by Dimitris Antoniou, Stathis Gourgouris, Nikolaos P. Kakkoufa, Paraskevi Martzavou, Mark Mazower, Neni Panourgia, Karen Van Dyck, Konstantina Zanou, and others.

COMPARATIVE LITERATURE—GREEK MODERN

CLGM UN3005 DICTATORSHIPS#THEIR AFTERLIVES.  **3.00 points.**

CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

What does the investigation of a dictatorship entail and what are the challenges in such an endeavor? Why (and when) do particular societies turn to an examination of their non-democratic pasts? What does it mean for those who never experienced an authoritarian regime first-hand to remember it through television footage, popular culture, and family stories? This seminar examines dictatorships and the ways in which they are remembered, discussed, examined, and give rise to conflicting narratives in post-dictatorial environments.
It takes as its point of departure the Greek military regime of 1967-1974, which is considered in relation to other dictatorships in South America, Asia, Africa, and Europe. We will be drawing on primary materials including Amnesty International reports, film, performance art, and architectural drawings as well as the works of Hannah Arendt and Günter Grass to engage in an interdisciplinary examination of the ways in which military dictatorships live on as ghosts, traumatic memories, urban warfare, litigation, and debates on the politics of comparison and the ethics of contemporary art.

CLGM UN3110 THE OTTOMAN PAST IN THE GREEK PRESENT. 3.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

Almost a century after the dissolution of the Ottoman Empire, the Ottoman past lives on in contemporary Greece, often in unexpected sites. In the built environment it appears as mosques, baths, covered markets, and fountains adorned with Arabic inscriptions. It also manifests itself in music, food, and language. Yet Ottoman legacies also shape the European present in less obvious ways and generate vehement debates about identity, nation-building, human rights, and interstate relations. In this course, we will be drawing on history, politics, anthropology, and comparative literature as well as a broad range of primary materials to view the Ottoman past through the lens of the Greek present. What understandings of nation-building emerge as more Ottoman archives became accessible to scholars? How does Islamic Family Law—still in effect in Greece—confront the European legal system? How are Ottoman administrative structures re-assessed in the context of acute socio-economic crisis and migration?

CLGM UN3650 Mental health in Literature from antiquity to futurity. 3.00 points.

This seminar explores the relationship between literature, culture, and mental health. It pays particular emphasis to the poetics of emotions structuring them around the five stages of grief: denial, anger, bargaining, depression, acceptance and the concept of hope. During the course of the semester, we will discuss a variety of content that explores issues of race, socioeconomic status, political beliefs, abilities/disabilities, gender expressions, sexualities, and stages of life as they are connected to mental illness and healing. Emotions are anchored in the physical body through the way in which our bodily sensors help us understand the reality that we live in. By feeling backwards and thinking forwards, we will ask a number of important questions relating to literature and mental health, and will trace how human experiences are first made into language, then into science, and finally into action. The course surveys texts from Homer, Ovid, Aeschylus and Sophocles to Virginia Woolf, Sylvia Plath, C.P. Cavafy, Dinos Christianopoulos, Margarita Karapanou, Katerina Anghelaki-Rooke, Katerina Gogou etc., and the work of artists such as Toshio Matsumoto, Yorgos Lanthimos, and Anohni.

CLGM UN3800 WRITING RESISTANCE. 3.00 points.

Set within a transnational and transdisciplinary feminist framework, Writing Resistance will unfold and examine the ways traumatic, lived experiences of gender and structural violence, systematic oppression and precarity, incarceration, racism, and colonialism, have been silenced or submerged in canonical writing and official history making. As an antidote, we will attempt a “queering” of this patriarchal and “colonial archive” (Stoler), by shedding light and focusing on diverse forms of writing, autobiographies and biomythographies, poetry and fiction, and theoretical readings that are either produced by or centered on the lived experiences, psyches and bodies, of women, people of color, dissidents and incarcerated people, queer, transgender, and non-binary individuals, refugees and other historically and systematically marginalized voices and identities. Within the context of what has often been approached as “minor literature” (Deleuze and Guattari), the fragmented truths, interrupted stories, and the “descent to the everyday” (Das), will reveal not only traumas, suffering, and alienation, but also what Veena Das approaches as “poisonous knowledge,” where the gendered, queer, racialized, and political body, solidarity, and silence, return as resistance, reclaiming voices, visibility, and authorship.

CLGM UN3920 WORLD Responds To THE GREEKS. 4 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

This course examines various literary, artistic, and cultural traditions that respond to some of the most recognizable Greek motifs in myth, theater, and politics, with the aim of understanding both what these motifs might be offering specifically to these traditions in particular social-historical contexts and, at the same time, what these traditions in turn bring to our conventional understanding of these motifs, how they reconceptualize them and how they alter them. The overall impetus is framed by a prismatic inquiry of how conditions of modernity, postcoloniality, and globality fashion themselves in engagement with certain persistent imaginaries of antiquity.

CLGM UN3921 The World Responds to the Greeks – Modernity, Postcoloniality, Globality- Discussion. 0 points.

This course examines various literary, artistic, and cultural traditions that respond to some of the most recognizable Greek motifs in myth, theater, and politics, with the aim of understanding both what these motifs might be offering specifically to these traditions in particular social-historical contexts and, at the same time, what these traditions in turn bring to our conventional understanding of these motifs, how they reconceptualize them and how they alter them. The overall impetus is framed by a prismatic inquiry of how conditions of
modernity, postcoloniality, and globality fashion themselves in engagement with certain persistent imaginaries of antiquity.

CPLS GU4095 Mobility and Enclosure, Statelessness and Democracy. 4.00 points.
The volume and intensity of human mobility from the Middle East and North Africa to Europe remains dramatically increased nowadays, despite the overall restrictions in mobility imposed by the pandemic conditions worldwide. During the last decade refugee statelessness has evolved into as a quasi-permanent liminal condition of being within the political body of western societies, especially in so called border countries of the European periphery. The continuous expansion and multiplication of camps and hot-spots in countries such as Turkey, Greece, Italy, Spain, etc. has created different states of existence within the national territories, raising a wide range of issues that concern statehood, political rights, the right to equal treatment and access to public goods (i.e., health, education, safety, representation etc.), which concern the core social and political demands of a democratic polity. However, the antinomies and aporias related to refugee statelessness within the nation state are nowadays further aggravated by the pandemic conditions of the last two years. The pandemic has opened up a new space of unprecedented state intervention in the public and private lives of citizens, while reconfiguring the meaning of globalization. Questions of democracy, statehood and statelessness, mobility, access, restriction and enclosure are now re-conditioned under the two-fold historical contingency of refugee life and citizen life in a pandemic. In this course we address these emerging issues through theoretical, literary, legal, historical texts that highlight how long established social and political problems, imbedded in existing structures since the late 20th century, are currently intrinsically re-conditioned. Our intention is to serve a pedagogy that is alert to how the present time affects the social and intellectual life of people across borders and cultures, while retaining deep historical learning that establishes connections between radical new occurrences (such as the Covid pandemic or the refugee problem in the Mediterranean) and long term hard structural patterns

CLGM GU4150 C.P. Cavafy and the poetics of desire. 4 points.
This course takes C. P. Cavafy’s oeuvre as a departure point in order to discuss desire and the ways it is tied with a variety of topics. We will employ a number of methodological tools to examine key topics in Cavafy’s work such as eros, power, history, and gender. How can we define desire and how is desire staged, thematized, or transmitted through poetry? How does a gay poet write about desired bodies at the beginning of the previous century? What is Cavafy’s contribution to the formation of gay identities in the twentieth century? How do we understand the poet’s desire for an archive? How important is the city for activating desire? How do we trace a poet’s afterlife and how does the desire poetry transmits to readers transform through time? How does literature of the past address present concerns? These are some of the questions that we will examine during this course.

CLGM GU4300 Retranslation: Worlding C. P. Cavafy. 4.00 points.
Focusing on a canonical author is an immensely productive way to explore translation research and practice. The works of Sappho, Dante, Rilke, Césaire or Cavafy raise the question of reception in relation to many different critical approaches and illustrate many different strategies of translation and adaptation. The very issue of intertextuality that challenged the validity of author-centered courses after Roland Barthes’s proclamation of the death of the author reinstates it if we are willing to engage the oeuvre as an on-going interpretive project. By examining the poetry of the Greek Diaspora poet C. P. Cavafy in all its permutations (as criticism, translation, adaptation), the Cavafy case becomes an experimental ground for thinking about how a canonical author can open up our theories and practices of translation. For the final project students will choose a work by an author with a considerable body of critical work and translations and, following the example of Cavafy and his translators, come up with their own retranslations. Among the materials considered are commentary by E. M. Forster, C. M. Bowra, and Roman Jakobson, translations by Edmund Keeley and Philip Sherrard, James Merrill, Marguerite Yourcenar, and Daniel Mendelsohn, poems by W.H. Auden, Lawrence Durrell, and Joseph Brodsky, and visual art by David Hockney, and Duane Michals

CLGM W3450 How to do things with Queer Bodies. 3.00 points.
Homosexuality, as a term, might be a relatively recent invention in Western culture (1891) but bodies that acted and appeared queer(ly) existed long before that. This course will focus on acts, and not identities, in tracing the evolution of writing the queer body from antiquity until today. In doing so it will explore a number of multimodal materials – texts, vases, sculptures, paintings, photographs, movies etc. – in an effort to understand the evolution of the ways in which language (written, spoken or visual) registers these bodies in literature and culture. When we bring the dimension of the body into the way we view the past, we find that new questions and new ways of approaching old questions emerge. What did the ancient actually write about the male/female/trans*(homo)sexual body? Did they actually create gender non-binary statues? Can we find biographies of the lives of saints in drag in Byzantium? How did the Victorians change the way in which we read Antiquity? How is the queer body registered in Contemporary Literature and Culture? Can one write the history of homosexuality as a history of bodies? How are queer bodies constructed and erased by scholars? How can we disturb national archives by globalizing the queer canon of bodies through translation? These are some of the questions that we will examine during the semester. The course surveys texts from Homer, Sappho, Aeschylus, Euripides, Plato, Theocritus, Ovid, Dio Chrysostom, Lucian, Walt Whitman, Oscar Wilde, Arthur Symonds, Dinos Christianopoulos, Audre Lorde, Larry
Kramer, Tony Kushner etc., the work of artists such as Yiannis Tsarouchis, Robert Mapplethorpe, Dimitris Papaioannou, Cassils, movies such as 120 battements par minute, and popular TV shows such as Pose

Fall 2022: CLGM W3450

Course Number: 001/12573
Section/Call Number: 3450
Times/Location: T 2:10pm - 4:00pm
Instructor: Nikolas
Points: 3.00
Enrollment: 15/15

CLGM GU4450 How to do things with Homosexual Bodies. 4.00 points.

Homosexuality, as a term, might be a relatively recent invention in Western culture but bodies that acted and appeared ‘differently’ existed long before that. This course will focus on acts, and not identities, in tracing the evolution of writing the homosexual body from antiquity until today. In doing so it will explore a number of multimodal materials – texts, vases, sculptures, paintings, movies etc. – in an effort to understand the evolution of the ways in which language (written, spoken or visual) registers the homosexual body in literature and culture. When we bring the dimension of the body into the way we view the past, we find that new questions and new ways of approaching old questions emerge. What did the ancient actually write about the homosexual body? Did they actually create gender non-binary statues? Can we find biographies of the lives of saints in drag in Byzantium? How did the Victorians change the way in which we understand homosexual writing in Antiquity? How is the queer body registered in Modern Greek Literature and Culture? Can one write the history of homosexuality as a history of bodies? These are some of the questions that we will examine during the semester

CLGM GU4600 Multilingual America: Translation, Migration, Gender. 4.00 points.

This course introduces students to the rich tradition of literature about and by Greeks in America over the past two centuries exploring questions of multilingualism, translation, migration and gender with particular attention to the look and sound of different alphabets and foreign accents – “It’s all Greek to me!” To what extent can migration be understood as translation and vice versa? How might debates in Diaspora and Translation Studies inform each other and how might both, in turn, elucidate the writing of and about Greeks and other ethnic minorities, especially women? Authors include Olga Broumas, Elia Kazan, Alexandros Papadiamantis, Irini Spanidou, Ellery Queen, Eleni Sikeliaos and Thanasis Valtinos as well as performance artists such as Diamanda Galas. Theoretical and comparative texts include works by Walter Benjamin, Rey Chow, Jacques Derrida, Xiaolu Guo, Eva Hoffman, Franz Kafka, Toni Morrison, Vicente Rafael, and Lawrence Venuti, as well as films such as The Immigrant and The Wizard of Oz. No knowledge of Greek is necessary, although an extra-credit directed reading is open to those wishing to read texts in Greek

CLGM UN3700 Politics of Violence: Conflict, Borders, and the Carceral State. 3.00 points.

Politics of Violence offers an analysis of the role of the state, its mechanisms, and its structures in perpetuating, legitimizing, and facilitating political, racial and gender based violence worldwide. We will explore the connections and effects of nationalism, militarism, and heteropatriarchy (as structural and ideological elements of the state) as well as neoliberal assaults and practices in the normalization of violence against dissidents, incarcerated populations, refugees, workers, and indigenous communities. We will engage in a theoretical discussion on the salience of particular ideational and material experiences of race, ethnicity, indigeneity, gender and queer identities, political affiliation, in rendering state sponsored, political violence, and torture thinkable. The course aims to shed light on the power structures within militaristic and hypermasculinized state frameworks, and on biopolitical practices that legitimize structural violence against particular communities based on their political, class, gender, ethnic identities or precarious immigration status. In this seminar, we will examine violence, persecution, and dispossession as inherent phenomena of the sovereign nation state, in their continuities and ruptures, during war and conflict, but also in migratory, democratic, and transitional contexts. Students will examine historical and contemporary cases of state sponsored and political violence, systematic violations of human rights in the context of genocide, gendercide, racist violence, colonial terrorism, carceral regimes, and the securitization of forced migration. Lectures and readings provide a comparative, transnational perspective but focus on regional case studies, through a transdisciplinary lens, drawing on international relations, anthropology, gender studies, political theory, and history

CLGM UN3937 THE CULTURE OF DEMOCRACY. 3.00 points.

The point is to examine democracy not as a political system, but as a historical phenomenon characterized by a specific culture: a body of ideas and values, stories and myths. This culture is not homogenous; it has a variety of historical manifestations through the ages but remains nonetheless cohesive. The objective is twofold: 1) to determine which elements in democratic culture remain fundamental, no matter what form they take in various historical instances; 2) to understand that the culture of democracy is indeed not abstract and transcendental but historical, with its central impetus being the interrogation and transformation of society. Special emphasis will be placed on the crisis of democratic institutions in the era of globalization and, as specific case-study in point, the democratic failure in the Mediterranean region in light of the challenges of the assembly movements (Spain, Greece, Arab Spring) and the current migrant/refugee crisis

CLASSICS—GREEK MODERN

CSMG UN3567 THESSALONIKI DOWN THE AGES. 3.00 points.

CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

This course will explore the fascinatingly layered and multicultural history of Thessaloniki, the great city of Northern Greece and the Balkans. We will examine texts, archaeological

HISTORY-CLASSICS

HSCL UN3000 The Persian Empire. 4 points.
This seminar studies the ancient Persian (Achaemenid) Empire which ruled the entire Middle East from the late 6th to the late 4th centuries BCE and was the first multi-ethnic empire in western Asian and Mediterranean history. We will investigate the empire using diverse sources, both textual and material, from the various constituent parts of the empire and study the different ways in which it interacted with its subject populations. This course is a seminar and students will be asked to submit a research paper at the end of the semester. Moreover, in each class meeting one student will present part of the readings.

Grading: participation (25%), class presentation (25%), paper (50%).

COMPARATIVE LITERATURE-ENGLISH

CLEN UN3720 Plato the Rhetorician. 4 points.
Prerequisites: Instructor's permission (Seminar). Although Socrates takes a notoriously dim view of persuasion and the art that produces it, the Platonic dialogues featuring him both theorize and practice a range of rhetorical strategies that become the nuts and bolts of persuasive argumentation. This seminar will read a number of these dialogues, including Apology, Protagoras, Ion, Gorgias, Phaedrus, Menexenus and Republic, followed by Aristotle's Rhetoric, the rhetorical manual of Plato's student that provides our earliest full treatment of the art. Application instructions: E-mail Prof. Eden (khe1@columbia.edu) with your name, school, major, year of study, and relevant courses taken, along with a brief statement about why you are interested in taking the course. Admitted students should register for the course; they will automatically be placed on a wait list from which the instructor will in due course admit them as spaces become available.

Cognitive Science is an interdisciplinary field: it draws on tools and ideas from psychology, neuroscience, linguistics, economics, computer science, and philosophy, with affiliated faculty in each of these disciplines. Psychologists study the computational operations that we use to solve specific tasks; neuroscientists study the implementation of those operations in the brain; linguists study the representations involved in communication; economists study the representations involved in decisions involving uncertainty and reward; computer scientists consider how the processes involved in human cognition fit into a more general theory of computations and a larger space of tasks; and philosophers ask fundamental questions about the nature of representation and computation.

Learning Objectives
Cognitive Science majors will gain fluency in computational methods; a capacity for rigorous and careful thought; a broad understanding of the affiliated disciplines; and a deep understanding of cognition.

Director: John Morrison (Philosophy, Barnard)
Steering Committee:
Mariusz S. Kozak (Music, Columbia)

Columbia College Bulletin (with course listings) 2022-2023 03/29/23
A major in Cognitive Science consists of seven required courses and four electives in a chosen area of specialization culminating in a year-long senior project. The minimum number of courses is 15 and the minimum number of points is 41.

**Required courses (7 classes)**

- COGS UN1001 Introduction to Cognitive Science
- One course in each of four areas: psychology, neuroscience, philosophy, and linguistics.
- Two courses in a fifth area: mathematical and computational methods. These two courses must be selected in consultation with the program director to make sure they aren’t redundant.
- Please see below for the lists of approved courses in each area.

**Area of Specialization and Electives (four classes)**

Students must choose an area of specialization when they declare the major and choose four electives to build expertise in that area.

- Possible areas of specialization include: spatial learning, musicality, consciousness, emotion, dynamic semantics, natural language processing, talker recognition, computer vision, audiovisual integration, decision science, and neuroeconomics.

- The choice of specialization is flexible; there is not a predefined list. This is an opportunity for students to be creative; a student who has ideas about a new specialization that they would like to pursue may do so with the approval of the program director.

- Although there is no predefined list, each student’s area of specialization and choice of electives must be approved by the program director, and there must be at least one faculty member affiliated with the program who has expertise in the student’s chosen area.

- The program director will consult with a faculty member who has expertise in the student’s area of specialization to ensure that the student’s electives will provide sufficient preparation for the senior project.

- Please see the list of possible electives below, but please keep in mind that this list is not definitive. Any Barnard or Columbia (or approved transfer) course that builds expertise in the student's area of specialization may be counted as an elective with the approval of the program director.

**Senior Project (four classes)**

The senior project ("capstone experience") is a year-long project in a student’s area of specialization under the supervision of a chosen advisor. The project could be an experiment or a paper. Students register for the senior project through their sponsor’s department (3 credits per semester). Students also register for a year-long majors’ seminar (COGS UN3901 Senior Project Seminar in the fall and COGS UN3902 Senior Project Seminar in the spring, 1 credit per semester). The seminar is an opportunity for students to present their projects to each other.

**Courses approved to count in each area:**

### Psychology

- NSBV BC3380 Cognitive Neuroscience
- PSYC BC2110 PERCEPTION-LECTURE
- PSYC BC2115 COGNITIVE PSYCHOLOGY - LEC

The goal of cognitive science — and of this course — is to understand how the mind works. Trying to understand our own minds is perhaps the most ambitious and exciting (and difficult) project in all of science, and this project requires tools drawn from fields including experimental psychology, computer science and artificial intelligence, linguistics, vision science, philosophy, anthropology, behavioral economics, and several varieties of neuroscience (among others). This course will introduce you to the major tools and theories from these areas, as they relate to the study of the mind. We will employ these perspectives while exploring the nature of mental processes such as perception, reasoning, memory, attention, imagery, language, intelligence, decision-making, morality—and even attraction and love. In sum, this course will expose you to cognitive science, the assumptions on which it rests, and many of the most important and fascinating results obtained so far.

**REQUIRED COURSES**

**Required for all Cognitive Science majors:**

**COGS UN1001 Introduction to Cognitive Science. 3.00 points.**

The goal of cognitive science — and of this course — is to understand how the mind works. **COGS UN3901 Senior Project Seminar. 1.00 point.**

Discussion of senior research projects during the fall and spring terms that culminate in written and oral senior theses. Each project must be supervised by a cognitive scientist working at Barnard or Columbia.

**COGS UN3902 Senior Project Seminar. 1.00 point.**

Discussion of senior research projects during the fall and spring terms that culminate in written and oral senior theses. Each project must be supervised by a cognitive scientist working at Barnard or Columbia.
PSYC BC2115 COGNITIVE PSYCHOLOGY - LEC. 3.00 points.
Prerequisites: BC1001 or permission of the instructor.
Prerequisites: BC1001 or permission of the instructor. Lecture covering selected topics illustrating the methods, findings, and theories of contemporary cognitive psychology. Topics include attention, memory, categorization, perception, and decision making. Special topics include neuropsychology and cognitive neuroscience. Note that this lecture can be taken without its affiliated lab, PSYC BC2114, however, if a student completes this lecture, she cannot enroll in the lab in a later semester. The following Columbia University courses are considered overlapping and a student cannot receive credit for both the BC course and the equivalent CU course: PSYC UN2220 Cognition: Memory and Stress; and PSYC UN2210 Cognition: Basic Processes
Spring 2023: PSYC BC2115

Philosophy:
PHIL UN2655 COGNITIVE SCIENCE AND PHILOSOPHY. 3 points.
This course will survey a number of topics at the intersection of cognitive science and philosophy. Potential topics include free will, consciousness, embodied cognition, artificial intelligence, neural networks, and the language of thought.
PHIL UN3252 Philosophy of Language and Mind. 3 points.
This course will provide an introduction to meaning, reference, understanding, and content in language, thought, and perception. A central concern will be the question of the relation of meaning to truth-conditions, and what is involved in language and thought successfully latching on to reality. If you have not already taken an elementary course in first order logic, you will need to catch up in that area to understand some
crucial parts of the course. All the same, the primary concerns of the course will be philosophical, rather than technical.

**PHIL UN3655 TOPICS IN COGNITIVE SCIENCE AND PHILOSOPHY. 3.00 points.**
This course will focus on one topic at the intersection of cognitive science and philosophy. Potential topics include free will, consciousness, modularity, mental representation, probabilistic inference, the language of thought, and the computational theory of mind.

**Mathematical and Computational Methods**

Logic and Decision Theory

**ECON GU4850 COGNITIVE MECH # ECON BEHAVIOR. 4.00 points.**
Prerequisites: ECON UN3211 and ECON UN3213 and STAT UN1201

Prerequisites: ECON UN3211 and ECON UN3213 and STAT UN1201

Standard economic theory seeks to explain human behavior (especially in economic settings, such as markets) in terms of rational choice, which means that the choices that are made can be predicted on the basis of what would best serve some coherent objective, under an objectively correct understanding of the predictable consequences of alternative actions. Observed behavior often seems difficult to reconcile with a strong form of this theory, even if incentives clearly have some influence on behavior; and the course will discuss empirical evidence (both from laboratory experiments and observations in the field) for some well-established anomalies. But beyond simply cataloging anomalies for the standard theory, the course will consider the extent to which departures from a strong version of rational choice theory can be understood as reflecting cognitive processes that are also evident in other domains such as sensory perception; examples from visual perception will receive particular attention. And in addition to describing what is known about how the underlying mechanisms work (something that is understood in more detail in sensory contexts than in the case of value-based decision making), the course will consider the extent to which such mechanisms --- while suboptimal from a normative standpoint that treats perfect knowledge of one's situation as costless and automatic --- might actually represent efficient uses of the limited information and bounded information-processing resources available to actual people (or other organisms). Thus the course will consider both ways in which the realism of economic analysis may be improved by taking into account cognitive processes, and ways in which understanding of cognitive processes might be advanced by considering the economic problem of efficient use of limited (cognitive) resources.

**PHIL UN1401 INTRODUCTION TO LOGIC. 3.00 points.**
Explicit criteria for recognizing valid and fallacious arguments, together with various methods for schematizing discourse for the purpose of logical analysis. Illustrative material taken from science and everyday life.

**PHIL UN3411 SYMBOLIC LOGIC. 4.00 points.**
Corequisites: PHIL V3413 Required Discussion Section (0 points). Advanced introduction to classical sentential and
predicate logic. No previous acquaintance with logic is required; nonetheless a willingness to master technicalities and to work at a certain level of abstraction is desirable

**Fall 2022: PHIL UN3411**

**PHIL GU4561 PROBABILITY # DECISION THEORY. 3.00 points.**

Examines interpretations and applications of the calculus of probability including applications as a measure of degree of belief, degree of confirmation, relative frequency, a theoretical property of systems, and other notions of objective probability or chance. Attention to epistemological questions such as Hume's problem of induction, Goodman's problem of projectibility, and the paradox of confirmation

**PSYC UN2235 THINKING AND DECISION MAKING. 3.00 points.**

CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: an introductory course in psychology. Prerequisites: an introductory course in psychology. Models of judgment and decision making in both certain and uncertain or risky situations, illustrating the interplay of top-down (theory-driven) and bottom-up (data-driven) processes in creating knowledge. Focuses on how individuals do and should make decisions, with some extensions to group decision making and social dilemmas

**PSYC BC1101 STATISTICS LECTURE AND RECITATION. 4.00 points.**

Prerequisites: BC1001 and instructor permission. Enrollment limited to 20 students per recitation section. Prerequisite (or co-requisite): PSYC BC1001. Lecture course and associated recitation section introducing students to statistics and its applications to psychological research. The course covers basic theory, conceptual underpinnings, and common statistics. The following Columbia University courses are considered overlapping and a student cannot receive credit for both the BC course and the equivalent CU course: STAT UN1001 Introduction to Statistical Reasoning; STAT UN1101 Introduction to Statistics; STAT UN1201 Introduction to Statistics

part of the coursework requirement

Illustrations are taken from a variety of fields. Data-reasoning and data analysis. Practical experience with statistical confidence intervals and hypothesis testing. Quantitative sampling distributions, linear regression, analysis of variance, Graphical and numerical summaries, probability, theory of for students in fields that emphasize quantitative methods.

STAT 1101 INTRODUCTION TO STATISTICS. 3.00 points.
Prerequisites: intermediate high school algebra. Designed for students in fields that emphasize quantitative methods. Graphical and numerical summaries, probability, theory of sampling distributions, linear regression, analysis of variance, confidence intervals and hypothesis testing. Quantitative reasoning and data analysis. Practical experience with statistical software. Illustrations are taken from a variety of fields. Data-collection/analysis project with emphasis on study designs is part of the coursework requirement

STAT 1201 CALC-BASED INTRO TO STATISTICS. 3.00 points.
Prerequisites: one semester of calculus. Designed for students who desire a strong grounding in statistical concepts with a greater degree of mathematical rigor than in STAT W1111. Random variables, probability distributions, pdf, cdf, mean, variance, correlation, conditional distribution, conditional mean and conditional variance, law of iterated expectations, normal, chi-square, F and t distributions, law of large numbers, central limit theorem, parameter estimation, unbiasedness, consistency, efficiency, hypothesis testing, p-value, confidence intervals, maximum likelihood estimation. Serves as the pre-requisite for ECON W3412

COMS BC1016 Introduction to Computational Thinking and Data Science. 3.00 points.
This course and its co-requisite lab course will introduce students to the methods and tools used in data science to obtain insights from data. Students will learn how to analyze data arising from real-world phenomena while mastering critical concepts and skills in computer programming and statistical inference. The course will involve hands-on analysis of real-world datasets, including economic data, document collections, geographical data, and social networks. The course is ideal for students looking to increase their digital literacy and expand
their use and understanding of computation and data analysis across disciplines. No prior programming or college-level math background is required.

**COMS W1001 Introduction to Information Science. 3 points.**

Lect: 3.

Basic introduction to concepts and skills in Information Sciences: human-computer interfaces, representing information digitally, organizing and searching information on the internet, principles of algorithmic problem solving, introduction to database concepts, and introduction to programming in Python.

**COMS W1002 COMPUTING IN CONTEXT. 4.00 points.**

CC/GS: Partial Fulfillment of Science Requirement

Introduction to elementary computing concepts and Python programming with domain-specific applications. Shared CS concepts and Python programming lectures with track-specific sections. Track themes will vary but may include computing for the social sciences, computing for economics and finance, digital humanities, and more. Intended for nonmajors. Students may only receive credit for one of ENGI E1006 or COMS W1002.

**COMS W1004 Introduction to Computer Science and Programming in Java. 3 points.**

Lect: 3.

A general introduction to computer science for science and engineering students interested in majoring in computer science or engineering. Covers fundamental concepts of computer science, algorithmic problem-solving capabilities, and introductory Java programming skills. Assumes no prior programming background. Columbia University students may receive credit for only one of the following two courses: 1004 or 1005.

**COMS W1007 Honors Introduction to Computer Science. 3 points.**

Lect: 3.

Prerequisites: AP Computer Science with a grade of 4 or 5 or similar experience.

An honors-level introduction to computer science, intended primarily for students considering a major in computer science. Computer science as a science of abstraction. Creating models for reasoning about and solving problems. The basic elements of computers and computer programs. Implementing abstractions using data structures and algorithms. Taught in Java.

**COMS W3134 Data Structures in Java. 3 points.**

CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: (COMS W1004) or knowledge of Java.

Data types and structures: arrays, stacks, singly and doubly linked lists, queues, trees, sets, and graphs. Programming techniques for processing such structures: sorting and searching, hashing, garbage collection. Storage management. Rudiments of the analysis of algorithms. Taught in Java. Note: Due to significant overlap, students may receive credit for only one of the following three courses: COMS W3134, COMS W3136, COMS W3137.

STEM BC2223 PROGRAMMING BEHAV SCIENCES. 4.00 points.

ELECTIVES

ANTH UN1009 INTRO TO LANGUAGE # CULTURE. 3.00 points.
This is an introduction to the study of the production, interpretation, and reproduction of social meanings as expressed through language. In exploring language in relation to culture and society, it focuses on how communication informs and transforms the sociocultural environment

COGS GU4050 Natural and Artificial Neural Networks. 3.00 points.
Artificial neural networks can do amazing things. They can play chess, recognize faces, predict human behavior, learn language, and create art. Natural neural networks -- that is to say, brains -- can do many of the same things, often a little more clumsily. But, unlike artificial networks, they can switch seamlessly between two tasks, learn to perform them without supervision, and do not need to be told to -- actually, they can choose to refuse. Brains provided the initial inspiration for the artificial networks, which is why we call them 'artificial neural networks.' But how deep are the similarities between the two? Do they share more than a few abilities, a similar structure, and a common nomenclature?

COGS GU4051 Natural and Artificial Neural Networks Lab. 1.00 point.
Understanding the powers and limitations of artificial neural networks requires exposure to both concepts and practice. This lab section focuses on the latter, supplementing the conceptual framework from the lecture, Natural and Artificial Neural Networks. The lab focuses on giving students without a background in computer science hands-on experience with basic programming in Python, tools for data science, and a variety of machine learning algorithms

COMS W4170 USER INTERFACE DESIGN. 3.00 points.
CC/GS: Partial Fulfillment of Science Requirement
Prerequisites: (COMS W3134 or COMS W3136) or (COMS W3137)
Prerequisites: (COMS W3134 or COMS W3136 or COMS W3137) Introduction to the theory and practice of computer user interface design, emphasizing the software design of graphical user interfaces. Topics include basic interaction devices and techniques, human factors, interaction styles, dialogue design, and software infrastructure. Design and programming projects are required
**COMS W4701 ARTIFICIAL INTELLIGENCE. 3.00 points.**  
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: (COMS W3134 or COMS W3136 or COMS W3137) and any course on probability. Prior knowledge of Python is recommended.  
Prerequisites: (COMS W3134 or COMS W3136 or COMS W3137) and any course on probability. Prior knowledge of Python is recommended. Provides a broad understanding of the basic techniques for building intelligent computer systems. Topics include state-space problem representations, problem reduction and and-or graphs, game playing and heuristic search, predicate calculus, and resolution theorem proving. AI systems and languages for knowledge representation, machine learning and concept formation and other topics such as natural language processing may be included as time permits.

**COMS W4705 NATURAL LANGUAGE PROCESSING. 3.00 points.**

Lect: 3.

Prerequisites: (COMS W3134 or COMS W3136 or COMS W3137) or the instructor's permission.  
Prerequisites: (COMS W3134 or COMS W3136 or COMS W3137) or the instructors permission. Computational approaches to natural language generation and understanding. Recommended preparation: some previous or concurrent exposure to AI or Machine Learning. Topics include information extraction, summarization, machine translation, dialogue systems, and emotional speech. Particular attention is given to robust techniques that can handle understanding and generation for the large amounts of text on the Web or in other large corpora. Programming exercises in several of these areas.

**COMS W4731 Computer Vision I: First Principles. 3.00 points.**

Lect: 3.

Prerequisites: Fundamentals of calculus, linear algebra, and C programming. Students without any of these prerequisites are advised to contact the instructor prior to taking the course. Introductory course in computer vision. Topics include image formation and optics, image sensing, binary images, image processing and filtering, edge extraction and boundary detection, region growing and segmentation, pattern classification methods, brightness and reflectance, shape from shading and photometric stereo, texture, binocular stereo, optical flow and motion, 2D and 3D object representation, object recognition, vision systems and applications.

**COMS W4772 Advanced Machine Learning. 3 points.**

Lect: 3.

Prerequisites: (COMS W4771) or instructor's permission; knowledge of linear algebra & introductory probability or statistics is required.

An exploration of advanced machine learning tools for perception and behavior learning. How can machines perceive, learn from, and classify human activity computationally? Topics include appearance-based models, principal and independent components analysis, dimensionality reduction, kernel methods, manifold learning, latent models, regression, classification, Bayesian methods, maximum entropy methods, real-time tracking, extended Kalman filters, time series prediction, hidden Markov models, factorial HMMS, input-output HMMs, Markov random fields, variational methods, dynamic Bayesian networks, and Gaussian/Dirichlet processes. Links to cognitive science.

**ECON GU4020 ECON OF UNCERTAINTY # INFORMTIN. 3.00 points.**

Prerequisites: ECON UN3211 and ECON UN3213 and STAT UN1201

Prerequisites: ECON UN3211 and ECON UN3213 and STAT UN1201. Topics include behavior uncertainty, expected utility hypothesis, insurance, portfolio choice, principle agent problems, screening and signaling, and information theories of financial intermediation.

**ECON GU4840 BEHAVIORAL ECONOMICS. 3.00 points.**

Prerequisites: ECON UN3211 and ECON UN3213

Prerequisites: ECON UN3211 and ECON UN3213. Within economics, the standard model of behavior is that of a perfectly rational, self interested utility maximizer with unlimited cognitive resources. In many cases, this provides a good approximation to the types of behavior that economists are interested in. However, over the past 30 years, experimental and behavioral economists have documented ways in which the standard model is not just wrong, but is wrong in ways that are important for economic outcomes. Understanding these behaviors, and their implications, is one of the most exciting areas of current economic inquiry. The aim of this course is to provide a grounding in the main areas of study within behavioral economics, including temptation and self control, fairness and reciprocity, reference dependence, bounded rationality and choice under risk and uncertainty. For each area we will study three things: 1. The evidence that indicates that the standard economic model is missing some important behavior 2. The models that have been developed to capture these behaviors 3. Applications of these models to (for example) finance, labor and development economics As well as the standard lectures, homework assignments, exams and so on, you will be asked to participate in economic experiments, the data from which will be used to illustrate some of the principals in the course. There will also be a certain small degree of classroom ‘flipping’, with a portion of many lectures given over to group problem solving. Finally, an integral part of the course will be a research proposal that you must complete by the end of the course, outlining a novel piece of research that you would be interested in doing.

**ECON GU4860 BEHAVIORAL FINANCE. 3.00 points.**

Prerequisites: ECON UN3211 and ECON UN3213 and ECON UN3412

Prerequisites: ECON UN3211 and ECON UN3213 and ECON UN3412. Neoclassical finance theory seeks to explain financial market valuations and fluctuations in terms of investors having rational expectations and being able to trade without costs. Under these assumptions, markets are efficient in that stocks and other assets are always priced just right. The efficient markets hypothesis (EMH) has had an enormous influence over the past 50 years on the financial industry, from pricing to financial innovations, and on policy makers, from how markets are regulated to how monetary policy is set. But
there was very little in prevailing EMH models to suggest the instabilities associated with the Financial Crisis of 2008 and indeed with earlier crises in financial market history. This course seeks to develop a set of tools to build a more robust model of financial markets that can account for a wider range of outcomes. It is based on an ongoing research agenda loosely dubbed “Behavioral Finance”, which seeks to incorporate more realistic assumptions concerning human rationality and market imperfections into finance models. Broadly, we show in this course that limitations of human rationality can lead to bubbles and busts such as the Internet Bubble of the mid-1990s and the Housing Bubble of the mid-2000s; that imperfections of markets — such as the difficulty of short-selling assets — can cause financial markets to undergo sudden and unpredictable crashes; and that agency problems or the problems of institutions can create instabilities in the financial system as recently occurred during the 2008 Financial Crisis. These instabilities in turn can have feedback effects to the performance of the real economy in the form of corporate investments.

LING GU4202 COGNITIVE LINGUISTICS. 3.00 points.
Prerequisites: LING UN3101 previously or concurrently. Reading and discussion of scholarly literature on the cognitive approach to language, including: usage-oriented approaches to language, frame semantics, construction grammar, theories of conceptual metaphor and mental spaces; alongside of experimental research on language acquisition, language memory, prototypical and analogical thinking, and the role of visual imagery in language processing.

LING GU4206 ADV GRAMMAR AND GRAMMARS. 3.00 points.
Prerequisites: LING UN3101 LING W3101. An investigation of the possible types of grammatical phenomena (argument structure, tense/aspect/mood, relative clauses, classifiers, and deixis). This typological approach is enriched by the reading of actual grammars of languages from Asia, Africa, Australia, and the Americas in which grammatical descriptions are read with an eye to important notional concepts of grammar: reference and categorization, case and role of arguments with predicates (ergativity), tense/aspect/mood. Discussion of meaning is combined with attention to expression (that is, morphology), which yanks our attention towards language change (grammaticalization).

LING GU4376 PHONETICS # PHONOLOGY. 3.00 points.
Prerequisites: LING UN3101
Prerequisites: LING UN3101 An investigation of the sounds of human language, from the perspective of phonetics (articulation and acoustics, including computer-aided acoustic analysis) and phonology (the distribution and function of sounds in individual languages).

NSBV BC3381 Visual Neuroscience: From the Eyeball to the Mind’s Eye. 4.00 points.
By absorbing electromagnetic radiation through their eyes, people are able to catch frisbees, recognize faces, and judge the beauty of art. For most of us, seeing feels effortless. That feeling is misleading. Seeing requires not only precise optics to focus images on the retina, but also the concerted action of millions of nerve cells in the brain. This intricate circuitry infers the likely causes of incoming patterns of light and transforms that information into feelings, thoughts, and actions. In this course we will study how light evokes electrical activity in a hierarchy of specialized neural networks that accomplish many unique aspects of seeing. Students will have the opportunity to focus their study on particular aspects, such as color, motion, object recognition, learning, attention, awareness, and how sight can be lost and recovered. Throughout the course we will discuss principles of neural information coding (e.g., receptive field tuning, adaptation, normalization, etc.) that are relevant to other areas of neuroscience, as well as medicine, engineering, art and design.

MUSI GU4325 Introduction to Cognitive Musicology. 3.00 points.
This course is an introduction to a variety of key topics in the field of cognitive musicology, including human development, evolution, neural processing, embodied knowledge, memory and anticipation, cross-cultural perspectives, and emotions. The course explores recent research on these topics, as well as ways in which this research can be applied to music scholarship.
PHIL UN1001 INTRODUCTION TO PHILOSOPHY. 3.00 points.
Survey of some of the central problems, key figures, and great works in both traditional and contemporary philosophy. Topics and texts will vary with instructor and semester.

PHIL UN3685 PHILOSOPHY OF LANGUAGE. 3.00 points.
This course is a survey of analytic philosophy of language. It addresses central issues about the nature of meaning, including: sense and reference, speech acts, pragmatics, and the relationship between meaning and use, meaning and context, and meaning and truth.

PHIL UN3840 The Nature and Significance of Animal Minds. 3 points.
Humans have a complicated relationship with other animals. We love them, befriend them and save them. We hunt, farm and eat them. We experiment on and observe them to discover more about them and to discover more about ourselves. For many of us, our pets are amongst the most familiar inhabitants of our world. Yet when we try to imagine what is going on in a dog or cat’s mind—let alone that of a crow, octopus or bee—many of us are either stumped about how to go about this, or (the science strongly suggests) getting things radically wrong. Is our thought about and behavior towards animals ethically permissible, or even consistent, Can we reshape our habits of thought about animals to allow for a more rational, richer relationship with the other inhabitants of our planet? In this course, students will reflect on two closely intertwined questions: an ethical question, what sort of relationship ought we to have with animals?; and a metaphysical question, what is the nature of animal minds? Readings will primarily be from philosophy and ethics and the cognitive sciences, with additional readings from literature and biology. There are no prerequisites for this class—it will be helpful but certainly not necessary to have taken previous classes in philosophy (especially ethics and philosophy of mind) or in cognitive science.

PHIL GU4495 PERCEPTION. 3.00 points.
This course addresses the fabulously rich range of issues about the nature of perception, including: perceptual mental representation and its content; computational explanation; justifying beliefs; knowledge and thought about perception; and perception of music. Perception is an interdisciplinary subject par excellence. Readings will be drawn from philosophy and psychology, aesthetics, and artificial intelligence.

PHIL GU4660 PHILOSOPHY OF MIND. 3.00 points.

PSYC BC1001 INTRODUCTION TO PSYCHOLOGY. 3.00 points.
This course is a prerequisite for the Psychology Major, as well as for most other Barnard PSYC courses (be sure to check all course information before enrolling in a course). The following Columbia University courses are considered overlapping and a student cannot receive credit for both the BC course and the equivalent CU course: UN1001, GU2021 The Science of Psychology; and UN1021 Science of Psychology: Explorations/Applications.

PSYC BC2163 Human Learning and Memory. 3 points.
Prerequisites: BC1001 and at least one psychology lab course, or permission of the instructor. Enrollment limited to 20 students. 
Survey of contemporary theories and empirical research on human memory. Topics will include sensory, short term and long term memory, levels of processing, organization, forgetting, and encoding specificity. Special topics include eyewitness testimony, amnesia, implicit memory, and false memory.

PSYC BC3164 PERCEPTION AND LANGUAGE. 4.00 points.
Prerequisites: BC 1001 and one of the following: BC2106/2107, BC2109/2110, BC2118/2119, BC2128/2129, or permission of the instructor. Enrollment limited to 20 students. 
Psychological investigations of spoken communication from a listener’s perspective. Topics include perception and sounds of speech and the apprehension of meaning from words and utterances; the perceptual basis for rhyme and rhythm in speech; and the natural history of vocal communication.

Spring 2023: PSYC BC3164

PSYC BC3369 Language Development. 4 points.
Not offered during 2022-23 academic year.

PSYC BC3372 Comparative Cognition. 4 points.
Not offered during 2022-23 academic year.

PSYC BC3374 The Psychology of Language. 4 points.
Prerequisites: BC1001, one Psychology laboratory course, one of the following: PSYC W2240, BC1128/1129, BC1129, or LIN BC V1101, and permission of the instructor. Enrollment limited to 15 students. 
Examines the acquisition of a first language by children, from babbling and first words to complex sentence structure and wider communicative competence. Signed and spoken languages, cross-linguistic variation and universalities, language genesis and change, and acquisition by atypical populations will be discussed.

PSYC BC3370 Language Acquisition. 4 points.
Not offered during 2022-23 academic year.

PSYC BC3381 Theory of Mind and Intentionality. 4 points.
Not offered during 2022-23 academic year.

PSYC BC3382 The Psychology of Language. 4 points.
Prerequisites: BC1001 and one additional course in psychology. Or permission of the instructor. Enrollment limited to 20 students. 
Review and critical evaluation of current empirical research investigating cognitive processes in both human and non-human species. Topics include comparisons in episodic memory, metacognition, theory of mind, self-awareness, and language abilities.

PSYC BC3381 Theory of Mind and Intentionality. 4 points.
Not offered during 2022-23 academic year.

Prerequisites: BC1001 and one other Psychology course, or permission of the instructor. Enrollment limited to 15 students.
Survey and critical analysis of the developmental and neurological research on theory of mind -the attribution of mental states like belief, desire, and knowledge to others-in humans and nonhuman animals. Emphasis on the role of intentionality, stages of acquisition, neurological and genetic bases, and deficits in theory of mind.
**PSYC BC3384 Social Cognition. 4 points.**
Not offered during 2022-23 academic year.

Prerequisites: BC 1001 and one of the following: BC1138/1137 Social Psychology, BC1115/1114 Cognitive Psychology, or permission of the instructor.

Survey of research from the field of social cognition, exploring cognitive processes involved in social functioning. Topics include attention, interpretation, evaluation, judgment, attribution, and memory processes. Both controlled and automatic processes will be considered, and the roles of motives, goals, and affective variables will be discussed.

**PSYC BC3390 CANINE COGNITION. 4.00 points.**
Prerequisites: BC1001 and one other Psychology course.

Enrollment limited to 15 students. Permission of the instructor is required. An examination of the scientific study of the domestic dog. Emphasis will be on the evolutionary history of the species; the dogs social cognitive skills; canid perceptual and sensory capacities; dog-primate comparative studies; and dog-human interaction

**PSYC BC3394 METACOGNITION. 4.00 points.**
Prerequisites: BC1001, and one psychology laboratory course; final enrollment determined on the first day of class.

Metacognition is one of the latest psychological buzzwords, but what exactly is metacognition? Metacognition enables us to be successful learners, problem solvers, and decision makers, and as often been used synonymously with words such as language, awareness, and consciousness. In this seminar, we will examine various components of metacognition, including its role in learning and memory, and its existence in various non-human populations. In addition, we will explore the fragility of metacognition, including illusions of confidence and harmful control strategies that people use. Readings will include classic and important recent papers in the field, looking at metacognition as a higher-level cognitive process, and as knowledge individuals use to guide behavior

**PSYC BC3399 HUMAN AND MACHINES. 4.00 points.**
Prerequisites: (PSYC BC1001) and Instructor approval

Prerequisites: (PSYC BC1001) and Instructor approval. This course will examine the social psychology of Human-Machine interactions, exploring the idea that well-established social psychological processes play critical roles in interactions with non-social objects. The first half of the seminar will examine the social psychology of perception across distinct sensory modalities (shape, motion, voice, touch), whereas the second half will focus on social psychological processes between humans and non-human entities (objects, computers, robots)

**PSYC UN1001 THE SCIENCE OF PSYCHOLOGY. 3.00 points.**
CC/GS: Partial Fulfillment of Science Requirement

Enrollment may be limited. Attendance at the first two class periods is mandatory.

Prerequisites: BLOCKED CLASS. EVERYONE MUST JOIN WAITLIST TO BE ADMITTED

Prerequisites: BLOCKED CLASS. EVERYONE MUST JOIN WAITLIST TO BE ADMITTED. Broad survey of psychological science including: sensation and perception; learning, memory, intelligence, language, and cognition; emotions and motivation; development, personality, health and illness, and social behavior. Discusses relations between the brain, behavior, and experience. Emphasizes science as a process of discovering both new ideas and new empirical results. PSYC UN1001 serves as a prerequisite for further psychology courses and should be completed by the sophomore year

**PSYC UN2250 Evolution of Cognition. 3 points.**
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: PSYC UN1001 or PSYC UN1010 or the instructor's permission.
A systematic review of different forms of cognition as viewed in the context of the theory of evolution. Specific topics include the application of the theory of evolution to behavior, associative learning, biological constraints on learning, methods for studying the cognitive abilities of animals, levels of representation, ecological influences on cognition, and evidence of consciousness in animals.

**PSYC UN2280 Developmental Psychology. 3.00 points.**
CC/GS: Partial Fulfillment of Science Requirement
Enrollment may be limited. Attendance at the first two classes is mandatory.

Prerequisites: PSYC UN1001 or PSYC UN1010 or the equivalent.
Prerequisites: PSYC UN1001 or PSYC UN1010 or the equivalent. Introduction to the scientific study of human development, with an emphasis on psychobiological processes underlying perceptual, cognitive, and emotional development.

**PSYC UN3270 COMPUT APPROACHES-HUMAN VISION. 3.00 points.**
This course will be offered in Fall 2016.

Prerequisites: some background in psychology and/or neurophysiology (e.g., PSYC UN1001, PSYC UN1010, PSYC UN2230, PSYC UN2450; BIOL UN3004 or BIOL UN3005) is desirable. See instructor if you have questions about your background. Some background in mathematics and computer science (e.g., calculus or linear algebra, a programming language) is highly recommended.
Prerequisites: some background in psychology and/or neurophysiology (e.g. PSYC UN1001, PSYC UN1010, PSYC UN2230, PSYC UN2450; BIOL UN3004 or BIOL UN3005) is desirable. See instructor if you have questions about your background. Some background in mathematics and computer science (e.g. calculus or linear algebra, a programming language) is highly recommended. Study of human vision--both behavioral and physiological data--within a framework of computational and mathematical descriptions. Please contact Prof. Graham by e-mail (nvg1@columbia.edu) if you are interested in this course

**PSYC UN3290 Self: A Cognitive Exploration (Seminar). 4 points.**
Not offered during 2022-23 academic year.

Prerequisites: PSYC UN1001 or PSYC UN1010, or the equivalent, plus the instructor's permission.
What does it mean to have a sense of self? Is it uniquely human? Taking a cognitive perspective, we will discuss these questions as well as self-reflective and self-monitoring abilities, brain structures relevant to self-processing, and disorders of self. We will also consider the self from evolutionary, developmental, neuroscience, and psychopathological perspectives.

**PSYC UN3445 THE BRAIN AND MEMORY. 4.00 points.**
Prerequisites: (PSYC UN1010) or Equivalent introductory course in neuroscience or cognitive psychology and the instructor's permission
Prerequisites: (PSYC UN1010) or Equivalent introductory course in neuroscience or cognitive psychology and the instructors permission This seminar will give a comprehensive overview of episodic memory research: what neuroimaging studies, patient studies, and animal models have taught us about how the brain creates, stores, and retrieves memories.

**PSYC UN3450 Evolution of Intelligence, Animal Communication, # Language. 3.00 points.**
Prerequisites: PSYC UN1001 or PSYC UN1010, and the instructor's permission.
Prerequisites: PSYC UN1001, and the instructors permission. A systematic review of the evolution language covering the theory of evolution, conditioning theory, animal communication, ape language experiments, infant cognition, preverbal antecedents of language and contemporary theories of language.

**PSYC GU4202 Theories of Change in Human Development. 4.00 points.**
What are the agents of developmental change in human childhood? How has the scientific community graduated from nature versus nurture, to nature and nurture? This course offers students an in-depth analysis of the fundamental theories in the study of cognitive and social development.
an individual's choice will not affect their grade or status as a student in the course

PSYC GU4229 ATTENTION AND PERCEPTION. 4.00 points.
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: (PSYC UN1010) or Equivalent introductory course in neuroscience or cognitive psychology
Prerequisites: (PSYC UN1010) or Equivalent introductory course in neuroscience or cognitive psychology This seminar aims to provide an in-depth overview of neuroscientific knowledge regarding two critical cognitive functions: attention and perception. For each topic, results from behavioral studies are combined with those from recent neurocognitive approaches – primarily neuropsychological and functional brain imaging studies – that reveal the underlying neural networks and brain mechanisms

PSYC GU4239 COG NEURO NARRATIVE FILM. 3.00 points.
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: (PSYC UN1010) or Equivalent introductory course in neuroscience or cognitive psychology
Prerequisites: (PSYC UN1010) or Equivalent introductory course in neuroscience or cognitive psychology This seminar will provide a broad survey of how narrative stories, films, and performances have been used as tools to study cognition in psychology and neuroscience

PSYC GU4242 Evolution of Language (seminar). 3.00 points.

Prerequisites: PSYC UN1001 or This seminar will consider the evolution of language at the levels of the word and grammar, in each instance, phylogenetically and ontogenetically. Since humans are the only species that use language, attention will be paid to how language differs from animal communication.

PSYC GU4244 LANGUAGE AND MIND. 4.00 points.
CC/GS: Partial Fulfillment of Science Requirement
Prerequisites: PSYC UN1001 and Preferably, an additional course in psychology, focusing on cognition, development, or research methods. Instructor permission required.

Prerequisites: PSYC UN1001 and Preferably, an additional course in psychology, focusing on cognition, development, or research methods. Instructor permission required. This seminar explores the relationship between language and thought by investigating how language is mentally represented and processed; how various aspects of language interact with each other; and how language interacts with other aspects of cognition including perception, concepts, world knowledge, and memory. Students will examine how empirical data on the linguistic, psychological, and neuroscientific levels can bear on some of the biggest questions in the philosophy of mind and language and in psychology.

PSYC GU4270 COGNITIVE PROCESSES. 3.00 points.
Prerequisites: For undergraduates: one course in cognitive psychology or cognitive neuroscience, or the equivalent, and the instructor’s permission.
Prerequisites: For undergraduates: one course in cognitive psychology or cognitive neuroscience, or the equivalent, and the instructor’s permission. Metacognition and control processes in human cognition. Basic issues include the cognitive mechanisms that enable people to monitor what they know and predict what they will know, the errors and biases involved in self-monitoring, and the implications of metacognitive ability for people’s self-determined learning, behavior, and their understanding of self.

Spring 2023: PSYC GU4270
Course Number: 4270
Section/Call Number: 001/14100
Times/Location: T 12:10pm - 2:00pm
Instructor: Metcalfe
Points: 3.00
Enrollment: 13/12

PSYC GU4280 CORE KNOWLEDGE. 4.00 points.
Prerequisites: For undergraduates: courses in introductory psychology, cognitive or developmental psychology, and the instructor’s permission.
Prerequisites: For undergraduates: courses in introductory psychology, cognitive or developmental psychology, and the instructors permission. Core Knowledge explores the origins and development of knowledge in infants and children, with an additional emphasis on evolutionary cognition. In this course, we will examine evidence from cognitive psychology, developmental psychology, comparative psychology, neuroscience, and linguistics to look at the child’s conception of objects, number, space, language, agency, morality and the social world. We will look at which aspects of knowledge are uniquely human, which are shared with other animals, and how this knowledge changes as children develop.

Spring 2023: PSYC GU4280
Course Number: 4280
Section/Call Number: 001/14101
Times/Location: W 2:10pm - 4:00pm
Instructor: McCrink
Points: 4.00
Enrollment: 14/16

PSYC GU4281 THE PSYCHOLOGY OF CURiosity. 4.00 points.
CC/GS: Partial Fulfillment of Science Requirement
Prerequisites: PSYC UN1001 or equivalent introductory psychology course
Prerequisites: PSYC UN1001 or equivalent introductory psychology course. What is curiosity and how do we study it? How does curiosity facilitate learning? This course will explore the various conceptual and methodological approaches to studying curiosity and curiosity-driven learning, including animal and human studies of brain and behavior.

PSYC GU4287 DECISION ARCHITECTURE. 4.00 points.
CC/GS: Partial Fulfillment of Science Requirement
Prerequisites: (PSYC UN2235) or an equivalent course on judgment and decision making, AND the instructor’s permission.
Prerequisites: (PSYC UN2235) or an equivalent course on judgment and decision making, AND the instructor’s permission. This course reviews current research in the domain of decision architecture: the application of research in cognitive and social psychology to real-world situations with the aim of influencing behavior. This seminar will discuss recent and classic studies, both of decision theory and of applied decision research, to explore the effectiveness—as well as the limitations—of a selection of these behavioral “nudges.”

Spring 2023: PSYC GU4287
Course Number: 4287
Section/Call Number: 001/14102
Times/Location: W 10:10am - 12:00pm
Instructor: Glassman
Points: 4.00
Enrollment: 11/12

PSYC GU4289 THE GAMES PEOPLE PLAY: PSYCH OF STRATEGIC DEC. 3.00 points.
CC/GS: Partial Fulfillment of Science Requirement
Prerequisites: (PSYC UN2235) or equivalent course on judgment and decision-making
Prerequisites: (PSYC UN2235) or equivalent course on judgment and decision-making. A seminar course exploring strategic decision making (also known as behavioral game theory). This course examines the psychology underlying situations in which outcomes are determined by choices made by multiple decision makers. The prime objective will be to examine the use of experimental games to test psychological theories.

PSYC GU4430 LEARNING AND THE BRAIN (Seminar). 4.00 points.
Prerequisites: courses in introductory psychology and/or neuroscience, and the instructor’s permission.
What are the neuro mechanisms that support learning, memory, and choices? We will review current theories in the cognitive neuroscience of human learning, discuss how learning and decision making interact, and consider the strengths and weaknesses of two influential methods in the study of human brain and behavior—functional imaging and patient studies.
PSYC GU4435 NON-MNEMONIC FUNC OF MEMORY SYSTEMS. 4.00 points.
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: (PSYC UN1010) or equivalent introductory course in neuroscience or cognitive psychology
Prerequisites: (PSYC UN1010) or equivalent introductory course in neuroscience or cognitive psychology
The past decade has produced an extraordinary amount of evidence that challenges the classic view of a "medial temporal lobe memory system", namely, the idea that the medial temporal lobe plays a necessary role in long-term memory but not other cognitive functions. This course will introduce these challenges to the traditional perspective by exploring functions of the so-called memory system in domains outside of long-term memory

Fall 2022: PSYC GU4435
PSYC 4435 001/10055 F 2:10pm - 4:00pm
405 Schermerhorn Hall
Instructor: Mariam Aly
Points: 4.00
Enrollment: 9/12

SOAR AV4000 SOUND: Music, Math, and Mind. 3.00 points.
This course is a detailed and hands-on (ears-on) exploration of the fundamental physical, physiological, and psychological aspects of sound. Topics covered include sound waves and their physical nature, the propagation and speed of sound in different mediums, geological and other non-living sound sources, animal and insect sound generating strategies, sound perception mechanisms and abilities in different species, the physiology of human hearing and the structure of the human ear, psychoacoustics and human sound perception, sonic illusions and tricks of the ear. In-class experiments and research make up the majority of the class. Each student will design and lead at least one experiment/demo session. Students also respond to creative weekly prompts about sound topics on courseworks. We also have visits with a number of special guests during the term.
Colloquia, Interdepartmental Seminars, and Professional School Offerings

Occasionally, and for a variety of reasons, faculty offer courses outside of the existing structure of Arts and Sciences academic departments. Such courses may be colloquia: team-taught interdisciplinary courses; interdepartmental seminars explicitly offered by two or more academic departments; or undergraduate-specific courses offered by faculty outside of the Arts and Sciences. All of these courses may be counted toward the undergraduate degree, but it is for the faculty of each department or program to determine whether or not they can count toward a major or concentration.

Interdepartmental Seminars

CNNS UN3900 Independent Rsch Nuclear Nonproliferation. 1.00-4.00 points.
Prerequisites: The written permission of the faculty member is required. Points: 1-4 The opportunity to conduct an independent research project in nuclear nonproliferation studies is open to all majors. A product and detailed report is presented by the student when the project is completed. Section 1: Emlyn Hughes Section 2: Ivana N. Hughes Section 3: Monica Rouco-Molina

INSM UN3920 Nobility/Civility: East/West I. 4.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement
Prerequisites: one semester of Contemporary Civilization or Literature Humanities, or an equivalent course, and the instructor's permission.
This interdisciplinary colloquium is designed to provide a comparative examination of core human concerns and values across cultures from the ancient to early modern period. This is a discussion-driven course that depends on a close reading of several key literary, philosophical, political, and religious texts from Asia, Africa, and Europe. Prerequisites: one semester of Contemporary Civilization or Literature Humanities, or an equivalent course. A team-taught multicultural, interdisciplinary course examining traditions of leadership and citizenship as they appear in the key texts of early Indian, Islamic, Far Eastern, and Western civilizations. One goal is to identify and examine common human values and issues evident in these texts while also recognizing key cultural differences

INSM UN3921 Nobility and Civility II. 4 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement
Prerequisites: one semester of Contemporary Civilization or Literature Humanities, or an equivalent course, and the instructor's permission.
A team-taught multicultural, interdisciplinary course examining traditions of leadership and citizenship as they appear in the key texts of early Indian, Islamic, Far Eastern, and Western civilizations. One goal is to identify and examine common human values and issues evident in these texts while also recognizing key cultural differences

INSM W3950 Friendship in Asian and Western Civilization. 4 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement
Enrollment limited to 22.
The colloquium studies ideals and practices of friendship in East Asia and the West. How have two great civilizations understood exemplary friendship in changing historical settings? Literary, historical, and social science approaches. Students are expected to participate actively and to write a substantial paper, working closely with one or both instructors.

INSM C3940 Science Across Cultures. 4 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement
Enrollment limited. Open to seniors and some qualified juniors. Priority given to seniors. Not offered during 2022-23 academic year.
Development of scientific thought from various cultures and from antiquity till the time of the European Renaissance. Provides examples of the process by which scientific thinking has developed and illustrates that, although science may not have always developed in a linear fashion, the problems science was called upon to solve exhibited a continuity that crossed cultural, linguistic, and religious borders.

FSEB UN1020 Food and the Body. 3 points.
CC/GS: Partial Fulfillment of Science Requirement
This course will use an evolutionary perspective to focus on what humans need to eat for survival and health. We will examine how and why sufficient and optimal diets can be obtained through a range of dietary patterns, and how those patterns were rooted in different geographic and cultural regions. We will also compare current patterns with those of humans from 200,000, 12,000 and 100 years ago, and where it is instructive, we will compare the food intake and food system of other animals. Throughout the course, the environmental impact of a given dietary pattern will be considered, and where possible, the economic determinants of individual food intake will be reviewed. We will incorporate a lifespan perspective throughout the course.

FSPH UN1100 Food, Public Health # Public Policy. 3.00 points.
CC/GS: Partial Fulfillment of Science Requirement
The course will provide an introduction to the science, policy, politics, and economics related to food as a critical element
CGTH UN3401 Seminar in Global Thought: Inquiries into an Interconnected World. 4 points.

This course on global thought will consider the ways in which we think about, debate, and give meaning to the interconnected world in which we live. In thematically focused collaborative teams, students will examine how the flows of people, things and ideas across national borders both connect our world and create uneven consequences within and among communities.

We will locate ourselves in these processes, suggesting we need go no further than our closets, tables, and street corners to consider the meanings of globalization and our roles in the world today. This course has been approved to partially satisfy the Global Core requirement.

CGTH UN3402 YOUTH-INTERCONNECTED WRLD. 4.00 points.

CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

What does it mean to be 20 years old in our rapidly changing, interconnected world? There are more youth (aged 15-25) in the world today than at any other time in history, with the majority living in the developing world. They approach adulthood as the world confronts seismic shifts in the geopolitical order, in the nature and future of work, and in the ways we connect with each other, express identity, engage politically, and create communities of meaning. What unique challenges and opportunities confront young people after decades of neoliberal globalization? What issues are most pressing in developing nations experiencing a “youth bulge” and how do they compare to developed nations with rapidly aging populations? How do young people envision their futures and the future of the world they are inheriting? This course will examine recent scholarship while engaging the young people in the class to define the agenda and questions of the course, and to conduct their own research. This course is part of the Global Core curriculum. “Global 20” complements a new research project of the Committee on Global Thought, “Youth in a Changing World,” which investigates from the perspective of diverse participants and of young people themselves, the most pressing issues confronting young people in the changing world today. The course will serve as an undergraduate “lab” for the project, and among other involvements, students in the course will help conceive, plan, and take part in a NYC-wide “Youth Think-In” sponsored by the CGT during the Spring 2018 semester. Within the course, students will become “regional experts” and examine the primary themes of the class through the prism of specific areas or nations of their choosing. A final class project includes a “design session” that will consider how universities might better train and empower youth to confront the challenges and embrace the opportunities of our interconnected world of the 21st century
PUBH UN3200 INTRODUCTION TO PUBLIC HEALTH. 3.00 points.

An introduction to and overview of public health. Through a series of sessions with leading public health experts, this course views the multifaceted nature of public health through a prismatic lens addressing key concepts, approaches, and issues of historical and contemporary import: What is public health and how has public health evolved over time? What are the core methods of public health? What are the approaches to understanding and addressing both infectious and chronic, non-communicable diseases? What role do micro- and macro-level determinants (i.e. biology and social context) play in public health? What are the global trends in population health? How does the individual life course bear on population health? How do systems, policy, and population health mutually shape each other? How are public health programs designed and evaluated? What are the limits of public health?

PUBH UN3400 Data Science and Health Equity in New York City. 3.00 points.

This course, which has no pre-requisites, teaches students about data science and public health. Students will create and answer public health research questions related to health equity in NYC. The course will use publicly available NYC health data to learn the seven steps of data science: 1) writing a research question; 2) obtaining data to address the question; 3) data cleaning; 4) data exploration; 5) analysis; 6) replication and validity evaluation; and 7) presentation and summary. The course will introduce students to R.

PUBH GU4100 (Y)OUR LONGER LIFE. 3.00 points.

People are living 30 years longer than we did 100 years ago. We have created a whole new stage of life. How do we prepare to benefit from our longer lives? What can you do in your own life? This course explores the personal, population, community, and societal dimensions of our now-longer lives, of aging itself, and the role of health and societal design in the experience of aging. The course examines the meaning of aging and the attendant expectations, myths, fears, and realities. The course examines an aging society as a public health success, the potential for building health futures, the health plan you want to be healthy in old age, and the potential for longer lives and how we unlock it. It addresses the roles public health currently plays and can play in shaping a society for an aging population. The course explores how a public health system—indeed, a society—optimized for an aging population stands to benefit all. The course also examines the physical, cognitive, and psychological aspects of aging, the exposures across our lives that affect these, the attributes and challenges of aging, keys to successful aging, and aging around the globe. The culminating project will design elements of our society that are needed to support the opportunity of having longer lives. This course comprises lectures, class discussions, individual assignments, in-class case activities, and a group project in which students shall take an active role. You will be responsible for regular preparatory assignments, writing assignments, one group project, and attending course sessions. Please note: GSAS students must receive permission from their department before registering for this course.

PUBH GU4200 Environment, Health, and Justice: Concepts and Practice. 3.00 points.

Please note: this class was designed as part of the Special Concentration in Public Health. It is open to undergraduates, as well as students in Public Health, and will be taught on the Morningside campus. This course introduces key concepts on environmental health sciences and environmental justice and their application to address environmental health disparities affecting communities in New York City, across the United States and globally. The course will present theory and methods needed to characterize, understand and intervene on environmental health problems with a focus on methods that are particularly appropriate for environmental justice research and interventions. We will describe environmental health disciplines such as exposure sciences, environmental epidemiology, environmental biosciences and toxicology, as well as methods to assess expected environmental health impacts.
Comparative Literature and Society

Program Office: B-101 Heyman Center, East Campus; 212-854-4541; icls@columbia.edu
http://icls.columbia.edu

Director: Prof. Anupama Rao, 815 Milstein Center; 212-854-8547; arao@barnard.edu

Associate Director: Prof. Brent Hayes Edwards, 609 Philosophy; 212-854-2912; bhe2@columbia.edu

Director of Undergraduate Studies: Tommaso Manfredini, B-106 Heyman Center, East Campus; tm2538@columbia.edu

Director of Medical Humanities Major: Associate Prof. of Medicine Rishi Goyal; B-106 Heyman Center, East Campus; rkg6@columbia.edu

Assistant Director: Sarah Monks, B-102 Heyman Center, East Campus; 212-854-8850; sm3373@columbia.edu

Established at Columbia in 1998, the Institute for Comparative Literature and Society (ICLS) promotes a global perspective in the study of literature and its social context. Committed to cross-disciplinary study of literary works, the Institute brings together the rich resources of Columbia in the various literatures of the world; in the social sciences; in art history, architecture, and media; and in the medical humanities.

The major programs at ICLS allow qualified students to study literature, culture, and society with reference to material from several national traditions, or in combination of literary study with comparative study in other disciplines in the humanities and social sciences. Under the guidance of the director of undergraduate studies, students select courses offered by participating departments.

The program is designed for students whose interest and expertise in languages other than English permit them to work comparatively in several national or regional cultures. The course of study differs from that of traditional comparative literature programs, both in its cross-disciplinary nature and in its expanded geographic range, including not just European, but also Asian, Middle Eastern, African, and Latin American cultures.

The program includes course work in the social sciences, and several core courses are jointly taught by faculty from different disciplines. Students thus explore a variety of methodological and disciplinary approaches to cultural and literary artifacts in the broadest sense. The cross-disciplinary range of the program includes visual and media studies; law and the humanities; medicine and the humanities; and studies of space, cities, and architecture. As a major or concentration, this program can be said to flow naturally from Columbia’s Core Curriculum, which combines literature, art, philosophy, and social thought, and consistently attracts some of Columbia’s most ambitious and cosmopolitan students.

Students can choose to complete the major in Comparative Literature and Society (CLS), the concentration in Comparative Literature and Society, or the major in Medical Humanities (MedHum). Currently, the MedHum major is not available as a concentration.

Given the wide variety of geographic and disciplinary specializations possible within the majors and concentration, students construct their course sequence in close collaboration with the director of undergraduate studies. All students, however, share the experience of taking the course CPLS UN3900 INTRO TO COMP LIT # SOCIETY in their sophomore year, as well as the required senior seminar in the fall of their last year in the program. The ICLS majors and concentration are designed for students interested in the cross-disciplinary and cross-cultural study of texts, traditions, media, and discourses in an increasingly transnational world.

Students planning to apply for admission to the CLS major, the MedHum major, or the CLS concentration should organize their course of study in order to complete the following prerequisites by the end of the sophomore year:

1. Preparation to undertake advanced work in one foreign language, to be demonstrated by completion of two introduction to literature courses, typically numbered 3333-3350.
2. Completion of at least four terms of study of a second foreign language or two terms in each of two foreign languages.
3. Enrollment in CPLS UN3900 INTRO TO COMP LIT # SOCIETY in the spring semester of the sophomore year.

Information about admission requirements and application to the majors or concentration can be found at https://icls.columbia.edu/undergraduate-program/admissions-to-the-majors-or-concentration/. Students are advised to meet with the director of undergraduate studies before submitting the statement of purpose for the required application. Applications are due in early January of the sophomore year.

Departmental Honors

To be eligible for departmental honors, students must have a minimum grade point average of 3.6 for courses in the major. Departmental honors will be conferred only on students who have submitted a superior senior thesis that clearly demonstrates originality and excellent scholarship. Note that the senior thesis is not required for the major. For information on the honors program, see http://icls.columbia.edu/programs/departmental-honors/.

Executive Committee of ICLS Nadia Abu El-Haj (Anthropology, Center for Palestine Studies)
GUIDELINES FOR ALL ICLS MAJORS AND CONCENTRATORS

Requirements for the major and concentration in Comparative Literature and Society were updated in February 2019; please contact the director of undergraduate studies with any questions. An application worksheet can be found on our website. Applications are due in early January of a student's sophomore year. At the time of application, students interested in the major (including the major in Medical Humanities) or concentration must have met these requirements:

1. Foreign language 1: four semesters of language training (or equivalent) and one introductory literature course, typically numbered 3330-3350;
2. (CLS Majors and Concentrations only) Foreign language 2: four semesters of one language or two semesters of two languages;
3. CPLS UN3900 INTRO TO COMP LIT # SOCIETY, usually taken in the spring of the sophomore year;
4. A focus statement, 1-2 pages in length. The focus is a period, theme, problem, movement, etc., that is explored from an interdisciplinary and/or a comparative perspective. Faculty understand that this statement is a work in progress, but that it serves as a useful guide to students' academic pursuits and course selection.

MAJOR IN COMPARATIVE LITERATURE AND SOCIETY

The major in Comparative Literature and Society consists of a minimum of 33 points or 11 courses, distributed as follows. Courses taken to fulfill the application requirements do not count toward the major. Courses fulfilling major requirements must be advanced, discussion-based seminars. Language courses in the Beginner I to Intermediate II stream cannot be counted to fulfill any major requirement. With the exception of courses taken to satisfy the global core requirement, double counting of courses to the CPLS major and another program or university requirement must be approved by the DUS. Requirements for the major and concentration in Comparative Literature and Society were updated in February 2019; please contact the director of undergraduate studies with any questions.

1. CPLS UN3900 INTRO TO COMP LIT # SOCIETY, required for all majors and normally taken in the spring of the sophomore year (3 points)
2. Advanced courses as follows:
   • Two courses with a CPLS designator. CLxx courses, i.e. courses cross-listed between ICLS and other departments, may also be counted toward this requirement (6-8 points)
   • Two seminars in a humanities or social science discipline other than literature (e.g. Architecture, Anthropology, Art History, Economics, Gender & Sexuality Studies, History, Law, Linguistics, Music, Political Science, Race & Ethnicity Studies, Sociology...). The two courses must be grounded in the same disciplinary approach but don’t have to be offered by the same department or program (6-8 points)
   • Two courses requiring readings in a language other than English. (The two courses cannot be taken in the same foreign language) (6-8 points)
   • Two courses focusing on a specific national or regional literature or culture, chosen from any discipline (The two courses can focus on the same nation/region) (6-8 points)
   • One elective course reflecting the student’s intellectual interests. The senior thesis may be counted toward this requirement. Additional foreign language study may also be counted with DUS approval (3-4 points)
3. CPLS UN3991 SENIOR SEM-COMP LIT # SOCIETY
4. CPLS UN3995 Senior thesis (optional). (3 points) year-long course
5. Students sign up for thesis credits as a year-long course (CPLS 3995) in the fall and spring semester of the senior year. Please see our detailed thesis guide on our website. They work with an adviser from the Columbia/Barnard faculty who oversees the project and assigns the final grade. The DUS of ICLS is the second reader for all projects. The thesis must be a minimum of 11,000 and 15,000 words in length, double-spaced and must include footnotes and a bibliography. Translations, creative work and multimedia projects can be submitted with the prior approval of the DUS. These must be accompanied by an introduction that situates the project intellectually. The thesis should be written in English unless a student receives permission from the DUS to write in another language. Note that the completed thesis is submitted before the end of the spring semester, usually by April 15. The thesis is considered as a 3-point course with 1 credit earned in the Fall and 2 credits
Comparative Literature and Society

earned in the Spring. It may be counted in lieu of a course taken to meet requirements 2, 3, 4, or 5.

Students should consult frequently with the DUS to ensure that their program of study develops in consonance with the intellectual project described in the focus statement that was presented as part of the admissions process. The faculty understands that this statement is itself a work in progress, but also that it serves as a useful guide to the student’s academic pursuits and course selection.

**Major in Medical Humanities**

The major in Medical Humanities requires 33 points (11 courses). Note that language courses taken to fulfill the application requirements 1 above do not count toward the required points for the major. Courses fulfilling major requirements must be advanced, discussion-based seminars. Language courses in the Beginner I to Intermediate II stream cannot be counted to fulfill any major requirement. Students interested in the major are strongly encouraged to fulfill their science requirement with classes in human biology (e.g., *Human Species, Genes and Development*) or human psychology (e.g., *Mind, Brain, and Behavior*).

1. **CPLS UN3900 INTRO TO COMP LIT # SOCIETY**, required for all ICLS majors and normally taken in the spring of the sophomore year.
2. Advanced courses as follows (please note that one course may be used to fulfill two of the advanced course requirements):

   • **1 course with a CPLS or CL-course identifier**: 3-4 points

   Students choose from among the wide range of courses sponsored by the Institute for Comparative Literature and Society or cross-listed between ICLS and other departments. These offerings change every semester and are listed on the ICLS website.

   • **1 course with readings in a language other than English**: 3-4 points

   Students may either take a course that is taught wholly or partially in a foreign language or a course taught in English for which they have received approval to do most of the reading in a foreign language.

   • **3 courses that form the disciplinary/methodological nexus of the student’s interests**: 9-12 points

   Students will develop an individualized course of study at the nexus of health, society and the humanities in discussion with the DUS (Some example of prior constellations include but are not limited to: Literature and Medicine; Narrative Medicine; Medical Anthropology; History of Medicine; Comparative Public Health; Disability studies; Neuroscience; Biopolitics; Bioethics).

   • **2 required core courses in Medical Humanities**: 6 points

   • **2 courses in the biological or biochemical sciences**: 6-8 points

   Students in the MedHum major should be versed in contemporary and classical debates and knowledge in the biological sciences. Students may take any two biology or biochemistry classes that relate to fundamental concepts in human biology.

3. **Senior Seminar**:

   **CPLS UN3991 SENIOR SEM-COMP LIT # SOCIETY**

4. **CPLS UN3995 Senior thesis (optional)**. (3 points) year-long course

   Students sign up for thesis credits as a year-long course (CPLS 3995) in the fall and spring semester of the senior year. Please see our detailed thesis guide on our website. They work with an adviser from the Columbia/Barnard faculty who oversees the project and assigns the final grade. The DUS of ICLS is the second reader for all projects. The thesis must be a minimum of 11,000 and 15,000 words in length, double-spaced and must include footnotes and a bibliography. Translations, creative work and multi-media projects can be submitted with the prior approval of the DUS. These must be accompanied by an introduction that situates the project intellectually. The thesis should be written in English unless a student receives permission from the DUS to write in another language. Note that the completed thesis is submitted before the end of the spring semester, usually by April 15. The thesis is considered as a 3-point course with 1 credit earned in the Fall and 2 credits earned in the Spring.

Students should consult frequently with the DUS to ensure that their program of study develops in consonance with the intellectual project described in the focus statement that was presented as part of the admissions process. The faculty understands that this statement is itself a work in progress, but also that it serves as a useful guide to the student’s academic pursuits and course selection.

**Concentration in Comparative Literature and Society**

The concentration in Comparative Literature and Society consists of a minimum of 27 points or 9 courses, distributed as follows. Please note that courses taken to fulfill the application requirements do not count toward the major. Courses fulfilling major requirements must be advanced, discussion-based seminars. Language courses in the Beginner I to Intermediate II stream cannot be counted to fulfill any major requirement. With the exception of courses taken to satisfy the global core
requirement, any double counting of courses to the CPLS major and another program or university requirement must be approved by the DUS. Requirements for the major and concentration in Comparative Literature and Society were updated in February 2019; please contact the director of undergraduate studies with any questions.

1. **CPLS UN3900 Intro to Comp Lit # Society.** normally taken in the spring of the sophomore year;
2. Advanced courses as follows:
   - Two courses with a CPLS designator, CL-- courses, i.e. courses cross-listed between ICLS and other departments, may also be counted toward this requirement (6-8 points)
   - Two seminars in a humanities or social science discipline other than literature (e.g. Architecture, Anthropology, Art History, Economics, Gender & Sexuality Studies, History, Law, Linguistics, Music, Political Science, Race & Ethnicity Studies, Sociology...). The two courses must be grounded in the same disciplinary approach but don’t have to be offered by the same department or program (6-8 points)
   - Two courses requiring readings in a language other than English (the two courses cannot be taken in the same foreign language) (6-8 points)
   - One course focusing on a specific national or regional literature or culture, chosen from any discipline (3-8 points)
   - Senior Seminar in Comparative Literature and Society (CPLS V3991)

The senior seminar is taken in fall semester of the senior year. Students explore three areas of contemporary reflection in the field of comparative literature and society. Topics change yearly and are aligned with current ICLS research projects. Recent examples include: Bandung Humanism; Global Language Justice; A Safer Online Public Square

   - (Optional) Senior Thesis (CPLS 3995) (3 points) year-long course

Students sign up for thesis credits as a year-long course (CPLS 3995) in the fall and spring semester of the senior year. Please see our detailed thesis guide on our website. They work with an adviser from the Columbia/Barnard faculty who oversees the project and assigns the final grade. The DUS of ICLS is the second reader for all projects. The thesis must be a minimum of 30,000 words in length, double-spaced and must include footnotes and a bibliography. Translations, creative work and multi-media projects can be submitted with the prior approval of the DUS. These must be accompanied by an introduction that situates the project intellectually. The thesis should be written in English unless a student receives permission from the DUS to write in another language. Note that the completed thesis is submitted before the end of the spring semester, usually by April 15. The thesis is considered as a 3-point course with 1 credit earned in the Fall and 2 credits earned in the Spring. It may be counted in lieu of a course taken to meet requirements 2, 3, 4, or 5.

Students should consult frequently with the DUS to ensure that their program of study develops in consonance with the intellectual project described in the focus statement that was presented as part of the admissions process. The faculty understands that this statement is itself a work in progress, but also that it serves as a useful guide to the student's academic pursuits and course selection.

Comparative Literature and Society concentration students should also consider the Barnard College course offerings in Comparative Literature. They are also strongly encouraged to avail themselves of the opportunity to study abroad.

**FALL 2022 COURSES**

**BIOL UN1360 Science and Society. 3.00 points.**

This course, which has been given at another institution for the past five years, uses a seminar discussion format to examine the relationship between science and society from numerous perspectives, using examples from many fields of science, mostly biology and medicine, including the Covid-19 pandemic. We welcome undergraduates from all classes who are concentrating in any field of sciences, humanities, or the arts; there are no prerequisites, other than an interest in how the scientific enterprise works. The course addresses a wide array of topics: why do people choose a scientific career; why do governments and other funders support scientific work; how does science fail; why is there widespread skepticism about science; how is it represented in the arts; how are results disseminated, evaluated, and legally protected; and many other subjects. Assignments--mainly short articles (from newspapers and journals) and book chapters, but also a few films and novels --will be provided for each class, and every student will undertake a term project of their own choosing, after consultations with the instructor

**RELI UN2670 Magic and Modernity. 3.00 points.**

This course introduces students to the cultural history of magic: as an idea, as a practice, and as a tool with which wield power and induce wonder. Magic, as we will explore, is a modern concept, the contours of which have been shaped by its relations with religion and science, always against larger backdrops—of the Enlightenment, Romanticism, (post) colonialism, and (post) secularism. Readings are drawn from philosophy, anthropology, religious studies, sociology, drama, literature, history, history of science, and political theory. Cases and readings focus on everything from medieval England to post-socialist Mozambique. Throughout the term, a recurring theme will be whether, and to what extent, magic
is incompatible with modernity—or, actually, integral to its constitution. By the end of this course, students should be familiar with a variety of ways in which magic has been understood since the early modern era, in a wide range of settings and cultural contexts. By tracing understandings of magic, students should also come away with an appreciation of how the authority of being “modern” is constructed (and contested) in relation to contemporary valuations of reason, science, enchantment, and the imagination.

**HIST UN2978 Science and Pseudoscience: Alchemy to AI. 4.00 points.**

During the 2020 US presidential election and the years of the COVID–19 pandemic, science and “scientific truths” were fiercely contested. This course provides a historical perspective on the issues at stake. The course begins with an historical account of how areas of natural knowledge, such as astrology, alchemy, and “natural magic,” which were central components of an educated person’s view of the world in early modern Europe, became marginalized, while a new philosophy of nature (what we would now call empirical science) came to dominate the discourse of rationality. Historical developments examined in this course out of which this new understanding of nature emerged include the rise of the centralized state, religious reform, and European expansion. The course uses this historical account to show how science and pseudoscience developed in tandem in the period from 1400 to 1800. This historical account equips students to examine contemporary issues of expertise, the social construction of science, pluralism in science, certainty and uncertainty in science, as well as critical engagement with contemporary technologies.

**HIST UN2979 Science and Pseudoscience: Alchemy to AI - DISC. 0.00 points.**

Required discussion section for HIST UN2978 lecture.

**CLGM W3450 How to do things with Queer Bodies. 3.00 points.**

Homosexuality, as a term, might be a relatively recent invention in Western culture (1891) but bodies that acted and appeared queer(ly) existed long before that. This course will focus on acts, and not identities, in tracing the evolution of writing the queer body from antiquity until today. In doing so it will explore a number of multimodal materials – texts, vases, sculptures, paintings, photographs, movies etc. – in an effort to understand the evolution of the ways in which language (written, spoken or visual) registers these bodies in literature and culture. When we bring the dimension of the body into the way we view the past, we find that new questions and new ways of approaching old questions emerge. What did the ancient actually write about the male/female/trans* (homo)sexual body? Did they actually create gender non-binary statues? Can we find biographies of the lives of saints in drag in Byzantium? How did the Victorians change the way in which we read Antiquity? How is the queer body registered in Contemporary Literature and Culture? Can one write the history of homosexuality as a history of bodies? How are queer bodies constructed and erased by scholars? How can we disturb national archives by globalizing the queer canon of bodies through translation? These are some of the questions that we will examine during the semester. The course surveys texts from Homer, Sappho, Aeschylus, Euripides, Plato, Theocritus, Ovid, Dio Chrysostom, Lucian, Walt Whitman, Oscar Wilde, Arthur Symonds, Dinos Christianopoulos, Audre Lorde, Larry Kramer, Tony Kushner etc., the work of artists such as Yiannis Tsarouchias, Robert Mapplethorpe, Dimitris Papaoanou, Cassils, movies such as 120 battements par minute, and popular TV shows such as Pose.

**CPLS UN3454 STAGING THE EARLY MOD MEDITERR. 4.00 points.**

CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

This course examines, in sixteenth and seventeenth century Spain and England (1580-1640), how the two countries staged the conflict between them, and with the Ottoman Empire; that is, how both countries represent national and imperial clashes, and the concepts of being “Spanish,” “English,” or “Turk,” as well as the dynamic and fluid identities of North Africa, often played out on the high seas of the Mediterranean with Islam and the Ottoman Empire. We will consider how the Ottoman Empire depicted itself artistically through miniatures and court poetry. The course will include travel and captivity narratives from Spain, England, and the Ottoman Empire.
CPLS UN3965 Precision Medicine: Biological, Social, and Ethical Implications. 3.00 points.

This course will cover the scientific foundations of precision medicine, its social dimensions, alongside fundamental humanistic questions and challenges raised by this discipline. It is designed as an introduction to precision medicine, particularly for the non-scientist student, but will also explore issues relevant to students who are planning a career in science or medicine.

CPLS UN3991 SENIOR SEM-COMP LIT # SOCIETY. 3.00 points.

Prerequisites: CPLS UN3900

This year-long, three-credit course is mandatory for students who will be writing their Senior Thesis in Comparative Literature and Society or in Medical Humanities. Students who wish to be considered for Departmental honors are required to submit a Senior Thesis. The thesis is a rigorous research work of approximately 40 pages, and it will include citations and a bibliographical apparatus. It may be written in English or, with the permission of the Director of Undergraduate Studies, in another language relevant to the students scholarly interests. Although modeled after an independent study, in which core elements of the structure, direction, and pace of the work are decided together by the student and their faculty thesis supervisor, students are nonetheless expected to complete certain major steps in the research and writing process according to the timeline outlined by the ICLS DUS.

CLME UN3928 ARABIC PRISON WRITING. 3.00 points.

This course studies the genealogy of the prison in Arab culture as manifested in memoirs, narratives, and poems. These cut across a vast temporal and spatial swathe, covering selections from the Quran, Sufi narratives from al-Halllaj oeuvre, poetry by prisoners of war: classical, medieval, and modern. It also studies modern narratives by women prisoners and political prisoners, and narratives that engage with these issues. Arabic prison writing is studied against other genealogies of this prism, especially in the West, to map out the birth of prison, its institutionalization, mechanism, and role. All readings for the course are in English translations.

CPLS UN3951 Narratives for Living: Planetarity. 3.00 points.

Is it possible to read literature in such a way as to be coherent with the requirements for the environmental disaster that seems to be upon us? This course will attempt to answer this question through 4 novels dealing with planetarity and climate change. This is a restricted course by interview only. ICLS students will read the Bengali and/or French texts in the original. Students are required to write a 1 page response to the text to be read the next day by midnight the previous day. Class discussions will be constructed on these responses. There will be a colloquium at the end of the semester, requiring oral presentation of a research paper that will engage the entire class.

CPLS 3995 SENIOR THESIS IN COMP LIT/SOC. 1.50 point.

This course required of all CLS/MLA majors. The seminar provides the opportunity to discuss selected topics in comparative literature and society and medical humanities in a cross-disciplinary, multilingual, and global perspective. Students undertake individual research projects while participating in directed readings and critical dialogues about theory and research methodologies, which may culminate in the senior thesis. Students review work in progress and share results through weekly oral reports and written reports.

CLPS GU4200 FREUD. 3.00 points.

Clinic, Culture, Cruelty: With these three terms one could indicate both the wide range of Freud’s work and the specific force it kept addressing without shying away from the
to acknowledging the role of actual other people in the
demonstrates that there is a deep and abiding resistance
centeredness. Once a student and patient of Lacan, Laplanche
Laplanche develops a rigorous critique of psychoanalysis' self-
iseolate the problematic moments in psychoanalytic theory,
into the present. Leaving no stone unturned in his quest to
of the most exhaustive critiques of the field from Freud
approach of “faithful infidelity,” Laplanche offers one
engage with these debates by offering a “third way.” A
scene? Is it better to dismiss the Freudian enterprise tout
psychoanalytic ideas. How do we navigate this contemporary
psychoanalysis, others are calling for a renewed investment in
limitations of traditional psychoanalysis. While many critics
and autonomy – have brought to light some of the longstanding

CLPS GU4515 RADICAL PSYCHOANALYSIS:
INTRODUCING LAPLANCHE. 3.00 points.
The increasing attention to topics at the heart of popular
discourse – race and gender, sexuality and consent, sociality
and autonomy – have brought to light some of the longstanding
limitations of traditional psychoanalysis. While many critics
in literary and critical theory are calling for the end of
psychoanalysis, others are calling for a renewed investment in
psychoanalytic ideas. How do we navigate this contemporary
scene? Is it better to dismiss the Freudian enterprise out
court or should we simply reaffirm our faith in Freud’s
original ideas? The French philosopher and psychoanalyst
Jean Laplanche (1924-2012) offers a bold and original way
to engage with these debates by offering a “third way.” A
close reader of Freud who advocates for an idiosyncratic
approach of “faithful infidelity,” Laplanche offers one
of the most exhaustive critiques of the field from Freud
into the present. Leaving no stone unturned in his quest to
isolate the problematic moments in psychoanalytic theory,
Laplanche develops a rigorous critique of psychoanalysis’ self-
centeredness. Once a student and patient of Lacan, Laplanche
demonstrates that there is a deep and abiding resistance
to acknowledging the role of actual other people in the
constitution of our private psychic lives, and until we grasp the
true rule of otherness in ourselves, psychoanalysis will never
manage to be truly radical. This course introduces Laplanche
by situating his thinking in the context of contemporary literary
and critical theory. We will draw specifically on affect and
queer theory to amplify the radical dimensions of Laplanche’s
thought. Delving into Mary Gaitskill’s novel, Bad Behavior,
John Cameron Mitchell’s play, Hedwig and the Angry Inch
and Esme Weijun Wang’s The Collected Schizophrenias, alongside
the critical theories of Judith Butler, Paul Preciado, and Adam
Phillips, we will discover how Laplanche offers new ways to
approach some of our most urgent concerns. In addition to
offering a comprehensive outline of Laplanche’s oeuvre, this
course will focus on several major concepts that Laplanche
introduces as the future foundations of a radical psychoanalytic
theory: sexuality, seduction, translation and the enigmatic
signifier

Fall 2022: CLPS GU4515

SPRING 2023 COURSES
CLPS UN3231 Rhetoric of Science: The roles of metaphor
and narrative in the scientific enterprise. 3.00 points.
This course is intended as a general introduction to the
discipline known as Rhetoric of Science, which, in its simplest
form, aims to apply the tools of rhetorical inquiry to the various
modes of scientific discourse. Special attention will be given
to examining the roles that metaphor and narrative play in
that effort. A significant part of this course will be devoted
to the feminist critique and analysis of science, in terms of
both theory development and science communication. We will
begin the course with a review of the perceived dichotomies
and polarizing viewpoints that undergird and inform much of
the scholarship. Using C.P. Snow’s seminal Rede Lecture The
Two Cultures and the Scientific Revolution as background,
we will go on to discuss some of the significant changes in the
philosophy of science that gave rise to the “interpretive turn”
and post-empiricist philosophies of science—in particular,
Thomas Kuhn’s epoch-making The Structure of Scientific
Revolutions, which will be read in its entirety. We will then
consider the ways that Kuhn’s work lays the foundations for
the emergence of Rhetoric of Science as a discipline, especially
his emphasis on the roles that language, argument, and persuasion
play in the development, communication, and acceptance of
scientific theory and knowledge. The course will then focus
on some of the foundational work in the field of Rhetoric
of Science as the discipline attempts to carve out a place for
itself as distinct from the philosophy or sociology of science.
From that point we will move to a discussion of metaphor
and analogy in the scientific enterprise, and consider the ways
scientists use storytelling as the vehicle for communication.
The course will end with a close study of the alternatives
proposed by feminist scholars on two important fronts. The first
begins with the groundbreaking work of scientist/philosopher Evelyn Fox Keller and her reflections on the role of gender in the practice and development of science, and continues with the work of philosophers such as Sandra Harding and Donna Haraway and the critique of objectivity and development of standpoint epistemologies. We will then move on to feminist approaches to science communication and the ways that gendered language can skew our understanding of both gender and the world. An important outcome of this course will be an understanding of the importance that language plays in the lives of both scientists and non-scientists alike, and how an awareness of rhetorical devices—whether or not they are consciously employed—can enhance our understanding and practice of science, as well as help bridge the divide between science and humanistic inquiry.

CPLS UN3454 STAGING THE EARLY MOD MEDITERR. 4.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

This course examines, in sixteenth and seventeenth century Spain and England (1580-1640), how the two countries staged the conflict between them, and with the Ottoman Empire; that is, how both countries represent national and imperial clashes, and the concepts of being “Spanish,” “English,” or “Turk,” as well as the dynamic and fluid identities of North Africa, often played out on the high seas of the Mediterranean with Islam and the Ottoman Empire. We will consider how the Ottoman Empire depicted itself artistically through miniatures and court poetry. The course will include travel and captivity narratives from Spain, England, and the Ottoman Empire.

CPLS UN3962 Border Crossings Across Languages and Disciplines. 3.00 points.
In our age of purportedly unsurpassable walls, mobility restrictions, and heightened security, borders are often imagined and understood as physical lines of demarcation protecting state sovereignty and defending cultural specificity. This course seeks to destabilize this notion of a fixed, immovable and potentially sealed border through representations of contemporary border-crossing across various media, in order to show the border, instead, as a concept and device regulating human mobility well beyond its physical location. This course will incorporate literary, visual, and political texts that complicate and expand the imaginary -- spatial, temporal, and poetic -- of the border and border crossings. Divided into four parts that underscore the evolution of human interactions with the border from the early 20th Century until the present, this three-credit undergraduate seminar is focused on Europe while including other migratory spaces of the Global North, most notably North America. We will start with a general overview of the border as a concept and a mechanism that simultaneously enables and restricts movement. We will then engage with post-WWI crossings of the borders of the British and French empire as significant historical elements of the creation of the border in relation to discriminated and racialized groups of the 20th Century. Moving on to exploring the formation of the European Union as predicated on a space of free internal circulation opposing a political objective of “zero illegal entries”, we will look at the formation of the EU and the US borders as a result of ongoing processes of legalization. Lastly, we will study the iterations of some of these processes on the High Seas, only in theory a space of free circulation.

Spring 2023: CPLS UN3962
Course Number: 3962
Section/Call Number: 001/12324
Times/Location: Th 2:10pm - 4:00pm
Instructor: Tommaso Manfredini
Points: 3.00
Enrollment: 8/20

CPLS UN3995 SENIOR THESIS IN COMP LIT/SOC. 1.50 point.
This year-long, three-credit course is mandatory for students who will be writing their Senior Thesis in Comparative Literature and Society or in Medical Humanities. Students who wish to be considered for Departmental honors are required to submit a Senior Thesis. The thesis is a rigorous research work of approximately 40 pages, and it will include citations and a bibliographical apparatus. It may be written in English or, with the permission of the Director of Undergraduate Studies, in another language relevant to the students scholarly interests. Although modeled after an independent study, in which core elements of the structure, direction, and pace of the work are decided together by the student and their faculty thesis supervisor, students are nonetheless expected to
complete certain major steps in the research and writing process according to the timeline outlined by the ICLS DUS.

Fall 2022: CPLS UN3995

Course Number Section/Call Number Times/Location Instructor Points Enrollment
CPLS 3995 001/13000 Th 2:00pm - 4:00pm Manfredini 1.50 16/22

CLPS GU4201 BASIC CONCEPTS-POST-FREUD THGT. 4.00 points.
This course examines psychoanalytic movements that are viewed either as post-Freudian in theory or as emerging after Freuds time. The course begins by considering the ways Freuds cultural and historical surround, as well as the wartime diaspora of the European psychoanalytic community, shaped Freudian and post-Freudian thought. It then focuses on significant schools and theories of psychoanalysis that were developed from the mid 20th century to the present. Through readings of key texts and selected case studies, it explores theorists challenges to classical thought and technique, and their reconfigurations, modernizations, and total rejections of central Freudian ideas. The course concludes by looking at contemporary theorists moves to integrate notions of culture, concepts of trauma, and findings from neuroscience and attachment research into the psychoanalytic frame.

CPLS GU4325 Abolition Medicine: Medical Racisms and Anti-Racisms. 3.00 points.
In 1935, WEB Dubois wrote about abolition democracy: an idea based not only on breaking down unjust systems, but on building up new, antiracist social structures. Scholar activists like Angela Davis, Ruth Gilmore and Mariame Kaba have long contended that the abolition of slavery was but one first step in ongoing abolitionist practices dismantling racialized systems of policing, surveillance and incarceration. The possibilities of prison and police abolition have recently come into the mainstream national consciousness during the 2020 resurgence of nationwide Black Lives Matters (BLM) protests. As we collectively imagine what nonpunitive and supportive community reinvestment in employment, education, childcare, mental health, and housing might look like, medicine must be a part of these conversations. Indeed, if racist violence is a public health emergency, and we are trying to bring forth a “public health approach to public safety” – what are medicine’s responsibilities to these social and institutional reinventions?

CPLS GU4732 Matters of Life/Death. 3.00 points.
The imbricated crises of a global pandemic and the legacies of structural anti-Black racism necessitate reflection, at once political and philosophic. One might argue that they reframe twentieth century French traditions of thought as a sustained critical reflection on le vivant (life); the way society classifies and treats its dead, its “living dead” or excluded members; the political economy of death and life management; death sentences (both legal and literary.) In the twenty first century, Black feminist thought addresses the ecological catastrophe of the pandemic and the resultant unequal distribution of life and death, pressuring what is at stake under the philosopheme of the “human.” This seminar is structured as a conversation between representative thinkers from each “tradition.” Yet neither tradition has discrete borders; twenty first century thinkers inherit from their French predecessors even as they contest and bring to light fraught presuppositions. We might also say, with Jacques Derrida, that the twentieth century French thinkers -Bergson, Canguilhem, Deleuze, Foucault- inherit from the future- from Hortense Spillers, Alexander Weheliye, Souleymane Bachir Diagne, Octavia Butler, Fred Moten. How might this urgent reframing and conversation enable a critical resistance?

HIST GU4962 Making and Knowing in Early Modern Europe: Hands-On History. 4.00 points.

This course introduces undergraduate and graduate students to the materials, techniques, contexts, and meanings of skilled craft and artistic practices in early modern Europe (1350-1750), in order to reflect upon a series of topics, including craft knowledge and artisanal epistemology; the intersections between craft and science; and questions of historical methodology in reconstructing the material world of the past. The course will be run as a “Laboratory Seminar,” with discussions of primary and secondary materials, as well as hands-on work in a laboratory. The first semester-long course to use the published Edition of Fr. 640 as its focus, it will test the use of the Edition in a higher education classroom to inform the development of the Companion. This course is associated with the Making and Knowing Project of the Center for Science and Society at Columbia University. The first semester-long course to use the published Edition of Fr. 640 as its focus, it will test the use of the Edition in a higher education classroom to inform the development of Phase II of the Making and Knowing Project - a Research and Teaching Companion. Students’ final projects (exploratory and experimental work in the form of digital/textual analysis of Ms. Fr. 640, reconstruction insight reports, videos for the Companion, or a combination) will be published as part of the Companion or the Sandbox depending on content and long-term maintenance considerations.

**Computer Science Major**

Students study a common core of fundamental topics, supplemented by a track that identifies specific areas for deeper study. The foundations track prepares students for advanced work in fundamental, theoretical, and mathematical aspects of computing, including analysis of algorithms, scientific computing, and security. The systems track prepares students for immediate employment in the computer industry as well as advanced study in software engineering, operating systems, computer-aided digital design, computer architecture, programming languages, and user interfaces. The intelligent systems track provides specialization for the student interested in natural language processing and systems capable of exhibiting “human-like” intelligence. The applications track is for students interested in the implementation of interactive multimedia content for the Internet and wireless applications. The vision, graphics, interaction, and robotics track exposes students to computer vision, graphics, human-computer interaction, and robotics.

A combination track is available to students who wish to pursue an interdisciplinary course of study combining computer science and another field in the arts, humanities, mathematics, natural sciences, or social sciences. A student planning a combination track should be aware that one additional course is required to complete this option.

**Information Science Major**

Information science is an interdisciplinary major designed to provide a student with an understanding of how information is organized, accessed, stored, distributed, and processed in strategic segments of today’s society. Recent years have seen an explosive growth of on-line information, with people of all ages and all walks of life making use of the World Wide Web and other information in digital form.

This major puts students at the forefront of the information revolution, studying how on-line access touches on all disciplines and changing the very way people communicate. Organizations have large stores of in-house information that are crucial to their daily operation. Today’s systems must enable quick access to relevant information, must ensure that confidential information is secure, and must enable new forms of communication among people and their access to information.

The information science major can choose a scientific focus on algorithms and systems for organizing, accessing, and processing information, or an interdisciplinary focus in order to develop an understanding of, and tools for, information modeling and use within an important sector of modern society such as economics or health.

**Advanced Placement**

The department grants 3 points for a score of 4 or 5 on the AP Computer Science exam along with exemption from
COMS W1004 Introduction to Computer Science and Programming in Java. However, we still recommend that you take COMS W1004 or W1007 even if you have credits from the CS AP exam. COMS W1007 Honors Introduction to Computer Science is recommended if you scored 5 on the AP exam, and COMS W1004 is recommended if you scored 4.

**PRE-INTRODUCTORY COURSES**

COMS W1004 is the first course in the Computer Science major curriculum, and it does not require any previous computing experience. Before taking COMS W1004, however, students have an option to start with one of the pre-introductory courses: ENGI E1006 or COMS W1002.

ENGI E1006 Introduction to Computing for Engineers and Applied Scientist is a general introduction to computing for STEM students. ENGI E1006 is in fact a required course for all engineering students. COMS W1002 Computing In Context is a course primarily intended for humanities majors, but it also serves as a pre-introductory course for CS majors. ENGI E1006 and COMS W1002 do not count towards Computer Science major.

**LABORATORY FACILITIES**

The department has well-equipped lab areas for research in computer graphics, computer-aided digital design, computer vision, databases and digital libraries, data mining and knowledge discovery, distributed systems, mobile and wearable computing, natural language processing, networking, operating systems, programming systems, robotics, user interfaces, and real-time multimedia.

Research labs contain several large Linux and Solaris clusters; Puma 500 and IBM robotic arms; a UTAH-MIT dexterous hand; an Adept-1 robot; three mobile research robots; a real-time defocus range sensor; interactive 3-D graphics workstations with 3-D position and orientation trackers; prototype wearable computers, wall-sized stereo projection systems; see-through head-mounted displays; a networking testbed with three Cisco 7500 backbone routers, traffic generators; an IDS testbed with secured LAN, Cisco routers, EMC storage, and Linux servers; and a simulation testbed with several Sun servers and Cisco Catalyst routers. The department uses a SIP IP phone system. The protocol was developed in the department.

The department's computers are connected via a switched 1Gb/s Ethernet network, which has direct connectivity to the campus OC-3 Internet and internet 2 gateways. The campus has 802.11b/g wireless LAN coverage.

The research facility is supported by a full-time staff of professional system administrators and programmers.

GUIDELINES FOR ALL COMPUTER SCIENCE MAJORS AND CONCENTRATORS

Courses
Students may receive credit for only one of the following two courses:

• COMS W1004 Introduction to Computer Science and Programming in Java
• COMS W1005 Introduction to Computer Science and Programming in MATLAB.

Students may receive credit for only one of the following three courses:

• COMS W3134 Data Structures in Java
• COMS W3136 ESSENTIAL DATA STRUCTURES
• COMS W3137 HONORS DATA STRUCTURES # ALGOL

However, COMS W1005 and COMS W3136 cannot be counted towards the Computer Science major, minor, and concentration.

Transfer Credit
As a rule, no more than 12 transfer credits are accepted toward the major.

Grading
A maximum of one course worth no more than 4 points passed with a grade of D may be counted toward the major or concentration.

MAJOR IN COMPUTER SCIENCE

Please read Guidelines for all Computer Science Majors and Concentrators above.

All majors should confer with their program adviser each term to plan their programs of study. Students considering a major in computer science are encouraged to talk to a program adviser during their first or second year. A typical program of study is as follows:

Program of Study
Computer Science Core (22-26 points). Adjustments were made to the course lists below in March 2022.

For students who declare in Spring 2014 and beyond:

ENGI E1006 INTRO TO COMP FOR ENG/APP SCI (recommended but not required)

First Year
COMS W1004 Introduction to Computer Science and Programming in Java
or COMS W1007 Honors Introduction to Computer Science

Sophomore Year
COMS W3134 Data Structures in Java
or COMS W3137 HONORS DATA STRUCTURES # ALGOL
COMS W3157 ADVANCED PROGRAMMING
COMS W3203 DISCRETE MATHEMATICS

Junior and Senior Year
Select the remaining required core courses:

COMS W3261 COMPUTER SCIENCE THEORY
CSEE W3827 FUNDAMENTALS OF COMPUTER SYSTS

Select one of the following courses:

COMS W3251 COMPUTATIONAL LINEAR ALGEBRA (recommended)
MATH UN2010 LINEAR ALGEBRA
In addition to the CS Core (22-26 points), all CS majors must complete the Calculus Requirement (3 points) and a Track Requirement (15 or 18 points). The CS major therefore requires 40-47 points total.

**Mathematics (3 points)**

Calculus II or Calculus III.

Note that Calculus III does NOT depend on Calculus II. You can take either Calculus II or III, but we recommend Calculus III, which covers topics that are a bit more relevant for upper-level Computer Science courses.

If you have received equivalent credits for Calculus I & II already (through a 4 or 5 on the AP Calculus exam for example), you are not required to take any more Calculus courses. But we recommend taking one more semester of Calculus, either Math UN1201 Calculus III or APAM E2000 Multivariate Calculus for Engineers and Scientists. APAM E2000 covers relevant topics from Calculus III and IV.

**Track Requirement (15 or 18 points)**

Students must select one of the following six upper-level tracks. Each track, except the combination track, requires five courses consisting of required, elective breadth, and elective track courses. The combination track requires a selection of six advanced courses: three 3000- or 4000-level computer science courses and three 3000- or 4000-level courses from another field. The elective breadth requirement in each track can be fulfilled with any 3-point computer science 3000-level or higher course that is not a computer science core course or a technical elective course in that track. In addition to the breadth elective, the track requirements are as follows:

**Foundations Track (15 points)**

For students interested in algorithms, computational complexity, and other areas of theoretical Computer Science.

Note: Students who declared their Computer Science major prior to Fall 2016 may also count COMS 4241, COMS 4205, COMS 4281, COMS 4444, COMS 4771, and COMS 4772 as track elective courses.

Any COMS E69XX course

**One Breadth Course**
Any 3-point COMS 3000- or 4000-level course except those courses in the CS core or in the required or elective courses for this track

**Combination Track (18 points)**
For students who wish to combine computer science with another discipline in the arts, humanities, social or natural sciences. A coherent selection of six upper-level courses is required: three from computer science and three from another discipline.

The courses should be planned with and approved by the student’s CS faculty advisor by the first semester of the junior year. The six courses are typically 4000-level elective courses that would count towards the individual majors. Moreover, the six courses should have a common theme. The combination track is not intended for those students who pursue double majors.

---

**MAJOR IN COMPUTER SCIENCE—MATHEMATICS**

For a description of the joint major in computer science—mathematics, see the Mathematics section in this bulletin.

---

**MAJOR IN INFORMATION SCIENCE**

Please read Guidelines for all Computer Science Majors and Concentrators above.

The major in information science requires a minimum of 33 points including a core requirement of five courses. Adjustments were made to the course lists below in March 2022.

The elective courses must be chosen with a faculty adviser to focus on the modeling and use of information within the context of a disciplinary theme. After discussing potential selections students prepare a proposal of study that must be approved by the faculty adviser. In all cases the six courses must be at the 3000-level or above with at least three courses chosen from computer science. Following are some example programs. For more examples or templates for the program proposal, see a faculty adviser.

Note: In most cases additional courses will be necessary as prerequisites in order to take some of the elective courses. This will depend on the student’s proposed program of study.

</tr>
<tr>
<td>COMS W3410</td>
<td>COMPUTERS AND SOCIETY</td>
</tr>
</tbody>
</table>
Information Science and the Economy

Students may focus on understanding information modeling together with existing and emerging needs in economics and finance as well as algorithms and systems to address those needs.

The requirements include:

- COMS W4111 INTRODUCTION TO DATABASES
- COMS W4701 ARTIFICIAL INTELLIGENCE
- COMS W4771 MACHINE LEARNING
- ECON UN3412 INTRODUCTION TO ECONOMETERS
- ECON UN3025 FINANCIAL ECONOMICS
- ECON UN3265 MONEY AND BANKING

Information Science and Health Sciences

Students may focus on understanding information modeling together with existing and emerging needs in health sciences, as well as algorithms and systems to address those needs.

The requirements include:

- COMS W4111 INTRODUCTION TO DATABASES
- COMS W4170 USER INTERFACE DESIGN
- COMS W4701 ARTIFICIAL INTELLIGENCE
- BINF G4001
- BIOL W4037 Bioinformatics of Gene Expression
- ECBM E3060/E4060 INTRO-GENOMIC INFO SCI # TECH

Major in Data Science

Please read Guidelines for all Computer Science Majors and Concentrators above.

In response to the ever growing importance of "big data" in scientific and policy endeavors, the last few years have seen an explosive growth in theory, methods, and applications at the interface between computer science and statistics. The statistics and computer science departments have responded with a joint-major that emphasizes the interface between the disciplines.

Prerequisites (15 points)

- MATH UN1101 CALCULUS I
- MATH UN1102 CALCULUS II
- MATH UN1201 CALCULUS III
- MATH UN2010 LINEAR ALGEBRA

This introductory Statistics course:

- STAT UN1201 CALC-BASED INTRO TO STATISTICS

Statistics (12 points)

- STAT GU4203 PROBABILITY THEORY
- STAT GU4204 STATISTICAL INFERENCE
- STAT GU4205 LINEAR REGRESSION MODELS
- STAT GU4241 STATISTICAL MACHINE LEARNING
  or COMS W4771 Machine Learning

Computer Science (12 points)

Select one of the following courses:

- COMS W1004 Introduction to Computer Science and Programming in Java
- COMS W1005 Introduction to Computer Science and Programming in MATLAB
- COMS W1007 Honors Introduction to Computer Science
- ENGI E1006 INTRO TO COMP FOR ENG/APP SCI

Select one of the following courses:

- COMS W3134 Data Structures in Java
- COMS W3136 ESSENTIAL DATA STRUCTURES
- COMS W3137 HONORS DATA STRUCTURES # ALGOL

Two required courses:

- COMS W3203 DISCRETE MATHEMATICS
- CSOR W4231 ANALYSIS OF ALGORITHMS I

Electives (15 points)

Select two of the following courses:

- STAT UN3106 APPLIED MACHINE LEARNING
- STAT GU4206 STAT COMP # INTRO DATA SCIENCE
- STAT GU4224 BAYESIAN STATISTICS
- STAT GU4243 APPLIED DATA SCIENCE
- STAT Q4242 Advanced Machine Learning

Select three of the following courses:

- COMS W3261 COMPUTER SCIENCE THEORY
- COMS W4111 INTRODUCTION TO DATABASES
- COMS W4130 Principles and Practice of Parallel Programming
- COMS W4236 INTRO-COMPUTATIONAL COMPLEXITY
- COMS W4252 INTRO-COMPUTATIONAL LEARN THRY

Any COMS W47xx course EXCEPT W4771
CONCENTRATION IN COMPUTER SCIENCE

Please read Guidelines for all Computer Science Majors and Concentrators above. Adjustments were made to the course lists below in March 2022.

For students who declare in Spring 2014 and beyond:

The concentration in computer science requires a minimum of 22-24 points, as follows:

<table>
<thead>
<tr>
<th>Course Number</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMS W1004</td>
<td>Introduction to Computer Science and Programming in Java</td>
<td>3</td>
</tr>
<tr>
<td>or COMS W1007</td>
<td>Honors Introduction to Computer Science</td>
<td></td>
</tr>
<tr>
<td>COMS W3134</td>
<td>Data Structures in Java</td>
<td></td>
</tr>
<tr>
<td>or COMS W3137</td>
<td>HONORS DATA STRUCTURES # ALGOL</td>
<td></td>
</tr>
<tr>
<td>COMS W3157</td>
<td>ADVANCED PROGRAMMING</td>
<td></td>
</tr>
<tr>
<td>COMS W3203</td>
<td>DISCRETE MATHEMATICS</td>
<td></td>
</tr>
<tr>
<td>COMS W3261</td>
<td>COMPUTER SCIENCE THEORY</td>
<td></td>
</tr>
<tr>
<td>CSEE W3827</td>
<td>FUNDAMENTALS OF COMPUTER SYSTS (or any 3-point 4000-level computer science course)</td>
<td></td>
</tr>
</tbody>
</table>

Select one of the following courses:

<table>
<thead>
<tr>
<th>Course Number</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMS W3251</td>
<td>COMPUTATIONAL LINEAR ALGEBRA (recommended)</td>
<td></td>
</tr>
<tr>
<td>MATH UN2010</td>
<td>LINEAR ALGEBRA</td>
<td></td>
</tr>
<tr>
<td>MATH V2020</td>
<td>Honors Linear Algebra</td>
<td></td>
</tr>
<tr>
<td>APMA E2101</td>
<td>INTRO TO APPLIED MATHEMATICS</td>
<td></td>
</tr>
<tr>
<td>APMA E3101</td>
<td>APPLIED MATH I: LINEAR ALGEBRA</td>
<td></td>
</tr>
<tr>
<td>STAT GU4001</td>
<td>INTRODUCTION TO PROBABILITY AND STATISTICS</td>
<td></td>
</tr>
<tr>
<td>SIEO W3600</td>
<td>INTRO PROBABILITY/STATISTICS</td>
<td></td>
</tr>
</tbody>
</table>

For students who declared prior to Spring 2014:

The concentration requires a minimum of 23 points, as follows:

<table>
<thead>
<tr>
<th>Course Number</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMS W1004</td>
<td>Introduction to Computer Science and Programming in Java</td>
<td>3</td>
</tr>
<tr>
<td>COMS W1007</td>
<td>Honors Introduction to Computer Science</td>
<td></td>
</tr>
<tr>
<td>COMS W3137</td>
<td>HONORS DATA STRUCTURES # ALGOL</td>
<td></td>
</tr>
<tr>
<td>COMS W3157</td>

<td></td>
</tr>
<tr>
<td>COMS W3261</td>
<td>COMPUTER SCIENCE THEORY</td>
<td></td>
</tr>
<tr>
<td>CSEE W3827</td>
<td>FUNDAMENTALS OF COMPUTER SYSTS (or any 3-point 4000-level computer science course)</td>
<td></td>
</tr>
</tbody>
</table>

COMPUTER SCIENCE

COMS W1001 Introduction to Information Science. 3 points.
Lect: 3.

Basic introduction to concepts and skills in Information Sciences: human-computer interfaces, representing information digitally, organizing and searching information on the internet, principles of algorithmic problem solving, introduction to database concepts, and introduction to programming in Python.

COMS W1002 COMPUTING IN CONTEXT. 4.00 points.
CC/GS: Partial Fulfillment of Science Requirement

Introduction to elementary computing concepts and Python programming with domain-specific applications. Shared CS concepts and Python programming lectures with track-specific sections. Track themes will vary but may include computing for the social sciences, computing for economics and finance, digital humanities, and more. Intended for nonmajors. Students may only receive credit for one of ENGI E1006 or COMS W1002

Fall 2022: COMS W1002

COMS W1003 INTRO-COMPUT SCI/PROGRAM IN C. 3.00 points.

COMS W1004 Introduction to Computer Science and Programming in Java. 3 points.
Lect: 3.

A general introduction to computer science for science and engineering students interested in majoring in computer science or engineering. Covers fundamental concepts of computer science, algorithmic problem-solving capabilities, and introductory Java programming skills. Assumes no prior programming background. Columbia University students may receive credit for only one of the following two courses: 1004 or 1005.

Fall 2022: COMS W1004

COMS W1012 Computing in Context Rec. 0.00 points.

COMS W1012 Computing in Context Rec. 0.00 points.  

COMS W1012 Computing in Context Rec. 0.00 points.

COMS W1004 Introduction to Computer Science. 3 points.

COMS W1011 Intermed Computer Programming. 3.00 points.

COMS W1007 Honors Introduction to Computer Science. 3 points.

COMS W1103 Honors Intro Computer Science. 3.00 points.

COMS W1404 Emerging Scholars Prog Seminar. 1.00 point.

Prerequisites: the instructor's permission. Corequisites: COMS W1002 or COMS W1004 or COMS W1007

Corequisites: COMS W1004,COMS W1007,COMS W1002

COMS W1004,COMS W1007,COMS W1002

Prerequisites: the instructors permission. Corequisites: COMS W1002 or COMS W1004 or COMS W1007

Corequisites: COMS W1004,COMS W1007,COMS W1002 Peer-led weekly seminar intended for first and second year undergraduates considering a major in Computer Science. Pass/fail only.

May not be used towards satisfying the major or SEAS credit requirements
COMS W3107 Clean Object-Oriented Design. 3.00 points.  
Prerequisites: Intro to Computer Science/Programming in Java (COMS W1004) or instructor's permission. May not take for credit if already received credit for COMS W1007.

Prerequisites: see notes re: points  
A course in designing, documenting, coding, and testing robust computer software, according to object-oriented design patterns and clean coding practices. Taught in Java. Object-oriented design principles include: use cases; CRC; UML; javadoc; patterns (adapter, builder, command, composite, decorator, facade, factory, iterator, lazy evaluation, observer, singleton, strategy, template, visitor); design by contract; loop invariants; interfaces and inheritance hierarchies; anonymous classes and null objects; graphical widgets; events and listeners; Java's Object class; generic types; reflection; timers, threads, and locks

COMS W3123 ASSEMBLY LANG AND COMPUT LOGIC. 3.00 points.

COMS W3134 Data Structures in Java. 3 points.  
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: (COMS W1004) or knowledge of Java.  
Data types and structures: arrays, stacks, singly and doubly linked lists, queues, trees, sets, and graphs. Programming techniques for processing such structures: sorting and searching, hashing, garbage collection. Storage management. Rudiments of the analysis of algorithms. Taught in Java. Note: Due to significant overlap, students may receive credit for only one of the following three courses: COMS W3134, COMS W3136, COMS W3137.

COMS W3101 Programming Languages. 1 point.

Lect: 1.

Prerequisites: Fluency in at least one programming language. Introduction to a programming language. Each section is devoted to a specific language. Intended only for those who are already fluent in at least one programming language. Sections may meet for one hour per week for the whole term, for three hours per week for the first third of the term, or for two hours per week for the first six weeks. May be repeated for credit if different languages are involved.

COMS W3102 Development Technologies. 1–2 points.

Lect: 2. Lab: 0–2.

Prerequisites: Fluency in at least one programming language. Introduction to software development tools and environments. Each section devoted to a specific tool or environment. One-point sections meet for two hours each week for half a semester, and two point sections include an additional two-hour lab.
COMS W3136 ESSENTIAL DATA STRUCTURES. 4.00 points.
Prerequisites: (COMS W1004) or (COMS W1005) or (COMS W1007) or (ENGI E1006)
Prerequisites: (COMS W1004) or (COMS W1005) or (COMS W1007) or (ENGI E1006)
A second programming course intended for nonmajors with at least one semester of introductory programming experience. Basic elements of programming in C and C++, array-based data structures, heaps, linked lists, C programming in UNIX environment, object-oriented programming in C++, trees, graphs, generic programming, hash tables. Due to significant overlap, students may only receive credit for either COMS W3134, W3136, or W3137.

Fall 2022: COMS W3136

COMS W3202 FINITE MATHEMATICS. 3.00 points.

COMS W3203 DISCRETE MATHEMATICS. 4.00 points.
Lect: 3.
Prerequisites: Any introductory course in computer programming.
Prerequisites: Any introductory course in computer programming. Logic and formal proofs, sequences and summation, mathematical induction, binomial coefficients, elements of finite probability, recurrence relations, equivalence relations and partial orderings, and topics in graph theory (including isomorphism, traversability, planarity, and colorings).

COMS E3899 Research Training. 0.00 points.
Research training course. Recommended in preparation for laboratory related research

COMS W3902 UNDERGRADUATE THESIS. 0.00-6.00 points.
Prerequisites: Agreement by a faculty member to serve as thesis adviser.

COMS E3899 Fieldwork. 1.00 point.
Prerequisites: Obtained internship and approval from faculty advisor. May be repeated for credit, but no more than 3 total points may be used toward the 128-credit degree requirement. Only for SEAS computer science undergraduate students who include relevant off-campus work experience as part of their approved program of study. Final report and letter of evaluation required. May not be taken for pass/fail credit or audited

COMS W3998 UNDERGRAD PROJECTS IN COMP SCI. 1.00-3.00 points.
Prerequisites: Approval by a faculty member who agrees to supervise the work.
Prerequisites: Approval by a faculty member who agrees to supervise the work. Independent project involving laboratory work, computer programming, analytical investigation, or engineering design. May be repeated for credit, but not for a total of more than 3 points of degree credit. Consult the department for section assignment

Fall 2022: COMS W3998
 Course Number Section/Call Number Times/Location Instructor Points Enrollment
 COMS 3998 038/13963 08/14049 Mohammed 1.00-3.02/45 64/45

COMS W3999 FIELDWORK. 1.00 point.
Prerequisites: Obtained internship and approval from faculty advisor. May be repeated for credit, but no more than 3 total points may be used toward the 128-credit degree requirement. Only for SEAS computer science undergraduate students who include relevant off-campus work experience as part of their approved program of study. Final report and letter of evaluation required. May not be taken for pass/fail credit or audited

COMS E3999 Fieldwork. 1 point.
Prerequisites: Obtained internship and approval from faculty advisor.
May be repeated for credit, but no more than 3 total points may be used toward the 128-credit degree requirement. Only for SEAS computer science undergraduate students who include relevant off-campus work experience as part of their approved program of study. Final report and letter of evaluation required.
May not be used as a technical or non-technical elective. May not be taken for pass/fail credit or audited.

**COMS W4111 INTRODUCTION TO DATABASES. 3.00 points.**

CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: COMS W3134, COMS W3136, or COMS W3137; or the instructor's permission.

Prerequisites: (COMS W3134) or (COMS W3136) or (COMS W3137) or (COMS W3136) and fluency in Java; or the instructor's permission.

The fundamentals of database design and application development using databases: entity-relationship modeling, logical design of relational databases, relational data definition and manipulation languages, SQL, XML, query processing, physical database tuning, transaction processing, security. Programming projects are required.

**COMS W4112 DATABASE SYSTEM IMPLEMENTATION. 3.00 points.**

Lect: 2.5.

Prerequisites: (COMS W4111) and fluency in Java or C++. CSEE W3827 is recommended.

The principles and practice of building large-scale database management systems. Storage methods and indexing, query processing and optimization, materialized views, transaction processing and recovery, object-relational databases, parallel and distributed databases, performance considerations. Programming projects are required.

**COMS W4113 FUND-LARGE-SCALE DIST SYSTEMS. 3.00 points.**

Prerequisites: (COMS W3134 or COMS W3136 or COMS W3137) and (COMS W3157 or COMS W4118 or CSEE W4119)

Prerequisites: (COMS W3134 or COMS W3136 or COMS W3137) and (COMS W3157 or COMS W4118 or CSEE W4119) Design and implementation of large-scale distributed and cloud systems. Teaches abstractions, design and implementation techniques that enable the building of fast, scalable, fault-tolerant distributed systems. Topics include distributed communication models (e.g. sockets, remote procedure calls, distributed shared memory), distributed synchronization (clock synchronization, logical clocks, distributed mutex), distributed file systems, replication, consistency models, fault tolerance, distributed transactions, agreement and commitment, Paxos-based consensus, MapReduce infrastructures, scalable distributed databases. Combines concepts and algorithms with descriptions of real-world implementations at Google, Facebook, Yahoo, Microsoft, LinkedIn, etc.

**COMS E4115 PROGRAMMING LANG # TRANSL. 3.00 points.**

**COMS W4115 PROGRAMMING LANG # TRANSLATORS. 3.00 points.**

Lect: 3.

Prerequisites: (COMS W3134 or COMS W3136 or COMS W3137) and (COMS W3261) and (CSEE W3827) or equivalent, or the instructor's permission.

Prerequisites: (COMS W3134 or COMS W3136 or COMS W3137) and (COMS W3261) and (CSEE W3827) or equivalent, or the instructors permission. Modern programming languages and compiler design. Imperative, object-oriented, declarative, functional, and scripting languages. Language syntax, control structures, data types, procedures and parameters, binding, scope, run-time organization, and exception handling. Implementation of language translation tools including compilers and interpreters. Lexical, syntactic and semantic analysis; code generation; introduction to code optimization. Teams implement a language and its compiler...
COMS W4119 COMPUTER NETWORKS. 3.00 points.
Introduction to computer networks and the technical foundations of the internet, including applications, protocols, local area networks, algorithms for routing and congestion control, security, elementary performance evaluation. Several written and programming assignments required.

COMS W4121 COMPUTER SYSTEMS FOR DATA SCIENCE. 3.00 points.
Prerequisites: background in Computer System Organization and good working knowledge of C/C++. Corequisites: CSOR W4246, STAT GU4203
Prerequisites: background in Computer System Organization and good working knowledge of C/C Corequisites: CSOR W4246, STAT GU4203 An introduction to computer architecture and distributed systems with an emphasis on warehouse scale computing systems. Topics will include fundamental tradeoffs in computer systems, hardware and software techniques for exploiting instruction-level parallelism, data-level parallelism and task level parallelism, scheduling, caching, prefetching, network and memory architecture, latency and throughput optimizations, specialization, and an introduction to programming data center computers

COMS W4130 Principles and Practice of Parallel Programming. 3 points.
CC/GS: Partial Fulfillment of Science Requirement
Prerequisites: (COMS W3134 or COMS W3137 or COMS W3136 and experience in Java) and basic understanding of analysis of algorithms.
Principles of parallel software design. Topics include task and data decomposition, load-balancing, reasoning about correctness, determinacy, safety, and deadlock-freedom. Application of techniques through semester-long design project implementing performant, parallel application in a modern parallel programming language.

COMS W4152 Engineering Software-as-a-Service. 3.00 points.
Modern software engineering concepts and practices including topics such as Software-as-a-Service, Service-oriented Architecture, Agile Development, Behavior-driven Development, Ruby on Rails, and Dev/ops

COMS W4156 ADVANCED SOFTWARE ENGINEERING. 3.00 points.
Lect: 3.
Prerequisites: (COMS W3157) or equivalent. Software lifecycle using frameworks, libraries and services. Major emphasis on software testing. Centers on a team project
COMS W4160 COMPUTER GRAPHICS. 3.00 points.
Lect: 3.

Prerequisites: (COMS W3134) or (COMS W3136) or (COMS W3137) COMS W4156 is recommended. Strong programming background and some mathematical familiarity including linear algebra is required.

COMS W4160 is recommended. Strong programming background and some mathematical familiarity including linear algebra is required. Introduction to computer graphics. Topics include 3D viewing and projections, geometric modeling using spline curves, graphics systems such as OpenGL, lighting and shading, and global illumination. Significant implementation is required: the final project involves writing an interactive 3D video game in OpenGL.

COMS W4160 Advanced Computer Graphics. 3 points.
Lect: 3.

Prerequisites: (COMS W4160) or equivalent, or the instructor's permission.

A second course in computer graphics covering more advanced topics including image and signal processing, geometric modeling with meshes, advanced image synthesis including ray tracing and global illumination, and other topics as time permits. Emphasis will be placed both on implementation of systems and important mathematical and geometric concepts such as Fourier analysis, mesh algorithms and subdivision, and Monte Carlo sampling for rendering. Note: Course will be taught every two years.

COMS W4167 COMPUTER ANIMATION. 3.00 points.
Lect: 3.

Prerequisites: Multivariable calculus, linear algebra, C++ programming proficiency. COMS W4156 recommended. Theory and practice of physics-based animation algorithms, including animated clothing, hair, smoke, water, collisions, impact, and kitchen sinks. Topics covered: Integration of ordinary differential equations, formulation of physical models, treatment of discontinuities including collisions/contact, animation control, constrained Lagrangian Mechanics, friction/dissipation, continuum mechanics, finite elements, rigid bodies, thin shells, discretization of Navier-Stokes equations. General education requirement: quantitative and deductive reasoning (QUA).

COMS W4170 USER INTERFACE DESIGN. 3.00 points.
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: (COMS W3134 or COMS W3136 or COMS W3137)

Introduction to the theory and practice of computer user interface design, emphasizing the software design of graphical user interfaces. Topics include basic interaction devices and techniques, human factors, interaction styles, dialogue design, and software infrastructure. Design and programming projects are required.

COMS W4172 3D UI AND AUGMENTED REALITY. 3.00 points.
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: (COMS W4160) or (COMS W4170) or the instructor's permission.

A second course in computer graphics covering more advanced topics including image and signal processing, geometric modeling with meshes, advanced image synthesis including ray tracing and global illumination, and other topics as time permits. Emphasis will be placed both on implementation of systems and important mathematical and geometric concepts such as Fourier analysis, mesh algorithms and subdivision, and Monte Carlo sampling for rendering. Note: Course will be taught every two years.

COMS W4181 SECURITY I. 3.00 points.
Not offered during 2022-23 academic year.

Prerequisites: COMS W3157 or equivalent.
Introduction to security. Threat models. Operating system security features. Vulnerabilities and tools. Firewalls, virtual private networks, viruses. Mobile and app security. Usable security. Note: May not earn credit for both W4181 and W4180 or W4187
COMS W4186 Malware Analysis#Reverse Engineering. 3.00 points.
Not offered during 2022-23 academic year.

Prerequisites: COMS W3157 or equivalent. COMS W3827 Hands-on analysis of malware. How hackers package and hide malware and viruses to evade analysis. Disassemblers, debuggers, and other tools for reverse engineering. Deep study of Windows Internals and x86 assembly.

COMS W4203 Graph Theory. 3 points.
Lect: 3.

Prerequisites: (COMS W3203)
General introduction to graph theory. Isomorphism testing, algebraic specification, symmetries, spanning trees, traversability, planarity, drawings on higher-order surfaces, colorings, extremal graphs, random graphs, graphical measurement, directed graphs, Burnside-Polya counting, voltage graph theory.

COMS W4205 Combinatorial Theory. 3 points.
Lect: 3. Not offered during 2022-23 academic year.

Prerequisites: (COMS W3203) and course in calculus. Sequences and recursions, calculus of finite differences and sums, elementary number theory, permutation group structures, binomial coefficients, Stirling numbers, harmonic numbers, generating functions.

COMS W4231 Analysis of Algorithms I. 3.00 points.

COMS W4232 Advanced Algorithms. 3.00 points.
Prerequisite: Analysis of Algorithms (COMS W4231).
Prerequisites: see notes re: points

Introduces classic and modern algorithmic ideas that are central to many areas of Computer Science. The focus is on most powerful paradigms and techniques of how to design algorithms, and how to measure their efficiency. The intent is to be broad, covering a diversity of algorithmic techniques, rather than deep. The covered topics have all been implemented and are widely used in industry. Topics include: hashing, sketching/streaming, nearest neighbor search, graph algorithms, spectral graph theory, linear programming, models for large-scale computation, and other related topics.

COMS W4236 Intro-Computational Complexity. 3.00 points.
Lect: 3.

Prerequisites: (COMS W3261)
Prerequisites: (COMS W3261) Develops a quantitative theory of the computational difficulty of problems in terms of the resources (e.g. time, space) needed to solve them. Classification of problems into complexity classes, reductions, and completeness. Power and limitations of different modes of computation such as nondeterminism, randomization, interaction, and parallelism.

COMS W4241 Numerical Algorithms and Complexity. 3 points.
Lect: 3.

Prerequisites: Knowledge of a programming language. Some knowledge of scientific computation is desirable. Modern theory and practice of computation on digital computers. Introduction to concepts of computational complexity. Design and analysis of numerical algorithms. Applications to computational finance, computational science, and computational engineering.
COMS W4242 NUMRCL ALGORITHMS-COMPLEXITY II. 3.00 points.

COMS W4252 INTRO-COMPUTATIONAL LEARN THRY. 3.00 points.

CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: (CSOR W4231) or (COMS W4236) or COMS W3203 and the instructor's permission, or COMS W3261 and the instructor's permission.

Possibilities and limitations of performing learning by computational agents. Topics include computational models of learning, polynomial time learnability, learning from examples and learning from queries to oracles. Computational and statistical limitations of learning. Applications to Boolean functions, geometric functions, automata.

COMS W4261 INTRO TO CRYPTOGRAPHY. 3.00 points.

Lect: 2.5.

Prerequisites: Comfort with basic discrete math and probability. Recommended: COMS W3261 or CSOR W4231.

Prerequisites: Comfort with basic discrete math and probability. Recommended: COMS W3261 or CSOR W4231. An introduction to modern cryptography, focusing on the complexity-theoretic foundations of secure computation and communication in adversarial environments; a rigorous approach, based on precise definitions and provably secure protocols. Topics include private and public key encryption schemes, digital signatures, authentication, pseudorandom generators and functions, one-way functions, trapdoor functions, number theory and computational hardness, identification and zero knowledge protocols.

COMS W4281 INTRO TO QUANTUM COMPUTING. 3.00 points.

Lect: 3.

Prerequisites: Knowledge of linear algebra. Prior knowledge of quantum mechanics is not required although helpful.

COMS W4419 INTERNET TECHNOLOGY, ECONOMICS, AND POLICY. 3.00 points.

Not offered during 2022-23 academic year.

Technology, economic and policy aspects of the Internet. Summarizes how the Internet works technically, including protocols, standards, radio spectrum, global infrastructure and interconnection. Micro-economics with a focus on media and telecommunication economic concerns, including competition and monopolies, platforms, and behavioral economics. US constitution, freedom of speech, administrative procedures act and regulatory process, universal service, role of FCC. Not a substitute for CSEE4119. Suitable for non-majors. May not be used as a track elective for the computer science major.

COMS W4444 PROGRAMMING # PROBLEM SOLVING. 3.00 points.

CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: (COMS W3134 or COMS W3136 or COMS W3137) and (CSEE W3827) Hands-on introduction to solving open-ended computational problems. Emphasis on creativity, cooperation, and collaboration. Projects spanning a variety of areas within computer science, typically requiring the development of computer programs. Generalization of solutions to broader problems, and specialization of complex problems to make them manageable. Team-oriented projects, student presentations, and in-class participation required.

COMS W4460 PRIN-INNOVATN/ ENTREPRENEURSHIP. 3.00 points.

CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: (COMS W3134 or COMS W3136 or COMS W3137) or the instructor’s permission.

Prerequisites: (COMS W3134 or COMS W3136 or COMS W3137) or the instructor’s permission. Team project centered course focused on principles of planning, creating, and growing a technology venture. Topics include: identifying and analyzing opportunities created by technology paradigm shifts, designing innovative products, protecting intellectual property, engineering innovative business models.
COMS W4460 INTRO-COMP APPL-HLTH CRE/BIOMD.
3.00 points.
Lect: 3.

Prerequisites: Experience with computers and a passing familiarity with medicine and biology. Undergraduates in their senior or junior years may take this course only if they have adequate background in mathematics and receive the instructor’s permission.

Undergraduates in their senior or junior years may take this course only if they have adequate background in mathematics and receive permission from the instructor. An overview of the field of biomedical informatics, combining perspectives from medicine, computer science, and social science. Use of computers and information in healthcare and the biomedical sciences, covering specific applications and general methods, current issues, capabilities and limitations of biomedical informatics. Biomedical Informatics studies the organization of medical information, the effective management of information using computer technology, and the impact of such technology on medical research, education, and patient care. The field explores techniques for assessing current information practices, determining the information needs of healthcare providers and patients, developing interventions using computer technology, and evaluating the impact of those interventions.

COMS W4460 ARTIFICIAL INTELLIGENCE. 3.00 points.
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: (COMS W3134 or COMS W3136 or COMS W3137) and any course on probability. Prior knowledge of Python is recommended.

Prerequisites: (COMS W3134 or COMS W3136 or COMS W3137) and any course on probability. Prior knowledge of Python is recommended. Provides a broad understanding of the basic techniques for building intelligent computer systems. Topics include state-space problem representations, problem reduction and and-or graphs, game playing and heuristic search, predicate calculus, and resolution theorem proving, AI systems and languages for knowledge representation, machine learning and concept formation and other topics such as natural language processing may be included as time permits.

COMS W4705 NATURAL LANGUAGE PROCESSING. 3.00 points.
Lect: 3.

Prerequisites: (COMS W3134 or COMS W3136 or COMS W3137) or the instructor’s permission.

Prerequisites: (COMS W3134 or COMS W3136 or COMS W3137) or the instructors permission. Computational approaches to natural language generation and understanding. Recommended preparation: some previous or concurrent exposure to AI or Machine Learning. Topics include information extraction, summarization, machine translation, dialogue systems, and emotional speech. Particular attention is given to robust techniques that can handle understanding and generation for the large amounts of text on the Web or in other large corpora. Programming exercises in several of these areas.
COMS W4706 Spoken Language Processing. 3 points.
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: (COMS W3134 or COMS W3136 or COMS W3137) or the instructor’s permission.
Computational approaches to speech generation and understanding. Topics include speech recognition and understanding, speech analysis for computational linguistics research, and speech synthesis. Speech applications including dialogue systems, data mining, summarization, and translation. Exercises involve data analysis and building a small text-to-speech system.

COMS W4721 MACHINE LEARNING FOR DATA SCL 3.00 points.

Spring 2023: COMS W4721

Course Number | Section/Call Number | Times/Location | Instructor | Points | Enrollment |
---|---|---|---|---|---|
COMS 4721 | 001/17420 | T Th 2:40pm - 3:55pm | John Paisley | 3.00 | 150/155 |

COMS 4721 | V01/19846 | | John Paisley | 3.00 | 4/99 |

COMS W4725 Knowledge representation and reasoning. 3 points.
Lect: 3. Not offered during 2022-23 academic year.

Prerequisites: (COMS W4701)
General aspects of knowledge representation (KR). The two fundamental paradigms (semantic networks and frames) and illustrative systems. Topics include hybrid systems, time, action/plans, defaults, abduction, and case-based reasoning. Throughout the course particular attention is paid to design trade-offs between language expressiveness and reasoning complexity, and issues relating to the use of KR systems in larger applications.

COMS W4731 Computer Vision I: First Principles. 3.00 points.
Lect: 3.

Prerequisites: Fundamentals of calculus, linear algebra, and C programming. Students without any of these prerequisites are advised to contact the instructor prior to taking the course. Introductory course in computer vision. Topics include image formation and optics, image sensing, binary images, image processing and filtering, edge extraction and boundary detection, region growing and segmentation, pattern classification methods, brightness and reflectance, shape from shading and photometric stereo, texture, binocular stereo, optical flow and motion, 2D and 3D object representation, object recognition, vision systems and applications

Fall 2022: COMS W4731

Course Number | Section/Call Number | Times/Location | Instructor | Points | Enrollment |
---|---|---|---|---|---|
COMS 4731 | 001/11025 | M W 10:10am - 11:25am | Shree Nayar | 3.00 | 43/56 |

COMS 4731 | H01/20095 | M W 10:10am - 11:25am Online Only | Shree Nayar | 3.00 | 33/44 |

COMS W4732 Computer Vision II: Learning. 3.00 points.
Advanced course in computer vision. Topics include convolutional networks and back-propagation, object and action recognition, self-supervised and few-shot learning, image synthesis and generative models, object tracking, vision and language, vision and audio, 3D representations, interpretability, and bias, ethics, and media deception

Spring 2023: COMS W4732

Course Number | Section/Call Number | Times/Location | Instructor | Points | Enrollment |
---|---|---|---|---|---|
COMS 4732 | 001/12843 | F 10:10am - 12:40pm | Carl Vondrick | 3.00 | 131/120 |

COMS 4732 | V01/18059 | | Carl Vondrick | 3.00 | 28/99 |

COMS W4733 COMPUTATNL ASPECTS OF ROBOTICS. 3.00 points.
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: (COMS W3134 or COMS W3136COMS W3137)
Prerequisites: (COMS W3134 or COMS W3136COMS W3137) Introduction to robotics from a computer science perspective. Topics include coordinate frames and kinematics, computer architectures for robotics, integration and use of sensors, world modeling systems, design and use of robotic programming languages, and applications of artifical intelligence for planning, assembly, and manipulation

Spring 2023: COMS W4733

Course Number | Section/Call Number | Times/Location | Instructor | Points | Enrollment |
---|---|---|---|---|---|
COMS 4733 | 001/12844 | F 10:10am - 12:40pm | Shuran Song | 3.00 | 148/147 |

COMS 4733 | V01/18060 | | Shuran Song | 3.00 | 16/99 |

COMS W4735 VISUAL INTERFACES TO COMPUTERS. 3.00 points.
Lect: 3.

Prerequisites: (COMS W3134 or COMS W3136 or COMS W3137)
Prerequisites: (COMS W3134 or COMS W3136 or COMS W3137) Visual input as data and for control of computer systems. Survey and analysis of architecture, algorithms, and underlying assumptions of commercial and research systems that recognize and interpret human gestures, analyze imagery such as fingerprint or iris patterns, generate natural language descriptions of medical or map imagery. Explores foundations
in human psychophysics, cognitive science, and artificial intelligence

COMS W4737 Biometrics. 3 points.
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: a background at the sophomore level in computer science, engineering, or like discipline.
In this course, we will explore the latest advances in biometrics as well as the machine learning techniques behind them. Students will learn how these technologies work and how they are sometimes defeated. Grading will be based on homework assignments and a final project. There will be no midterm or final exam. This course shares lectures with COMS E6737. Students taking COMS E6737 are required to complete additional homework problems and undertake a more rigorous final project. Students will only be allowed to earn credit for COMS W4737 or COMS E6737 and not both.

COMS W4762 Machine Learning for Functional Genomics. 3 points.

Prerequisites: Proficiency in a high-level programming language (Python/R/Julia). An introductory machine learning class (such as COMS 4771 Machine Learning) will be helpful but is not required.

Prerequisites: see notes re: points
This course will introduce modern probabilistic machine learning methods using applications in data analysis tasks from functional genomics, where massively-parallel sequencing is used to measure the state of cells: e.g. what genes are being expressed, what regions of DNA (“chromatin”) are active (“open”) or bound by specific proteins.

COMS E4762 Machine Learning for Functional Genomics. 3.00 points.

This course will introduce modern probabilistic machine learning methods using applications in data analysis tasks from functional genomics, where massively-parallel sequencing is used to measure the state of cells: e.g. what genes are being expressed, what regions of DNA (“chromatin”) are active (“open”) or bound by specific proteins.

COMS W4771 MACHINE LEARNING. 3.00 points.
Lect: 3.

Prerequisites: Any introductory course in linear algebra and any introductory course in statistics are both required. Highly recommended: COMS W4701 or knowledge of Artificial Intelligence.
Prerequisites: Any introductory course in linear algebra and any introductory course in statistics are both required. Highly recommended: COMS W4701 or knowledge of Artificial Intelligence. Topics from generative and discriminative machine learning including least squares methods, support vector machines, kernel methods, neural networks, Gaussian distributions, linear classification, linear regression, maximum likelihood, exponential family distributions, Bayesian networks, Bayesian inference, mixture models, the EM algorithm, graphical models and hidden Markov models. Algorithms implemented in MATLAB

COMS W4772 Advanced Machine Learning. 3 points.
Lect: 3.

Prerequisites: (COMS W4771) or instructor's permission; knowledge of linear algebra & introductory probability or statistics is required.
An exploration of advanced machine learning tools for perception and behavior learning. How can machines perceive, learn from, and classify human activity computationally? Topics include appearance-based models, principal and independent components analysis, dimensionality reduction, kernel methods, manifold learning, latent models, regression, classification, Bayesian methods, maximum entropy methods, real-time tracking, extended Kalman filters, time series prediction, hidden Markov models, factorial HMMS, input-
output HMMs, Markov random fields, variational methods, dynamic Bayesian networks, and Gaussian/Dirichlet processes. Links to cognitive science.

**COMS W4773 Machine Learning Theory. 3 points.**

Prerequisites: Machine Learning (COMS W4771). Background in probability and statistics, linear algebra, and multivariate calculus. Ability to program in a high-level language, and familiarity with basic algorithm design and coding principles.

Prerequisites: see notes re: points

Core topics from unsupervised learning such as clustering, dimensionality reduction and density estimation will be studied in detail. Topics in clustering: k-means clustering, hierarchical clustering, spectral clustering, clustering with various forms of feedback, good initialization techniques and convergence analysis of various clustering procedures. Topics in dimensionality reduction: linear techniques such as PCA, ICA, Factor Analysis, Random Projections, non-linear techniques such as LLE, IsoMap, Laplacian Eigenmaps, tSNE, and study of embeddings of general metric spaces, what sorts of theoretical guarantees can one provide about such techniques. Miscellaneous topics: design and analysis of data structures for fast Nearest Neighbor search such as Cover Trees and LSH. Algorithms will be implemented in either Matlab or Python.

**COMS E4773 Machine Learning Theory. 3.00 points.**

Theoretical study of algorithms for machine learning and high-dimensional data analysis. Topics include high-dimensional probability, theory of generalization and statistical learning, online learning and optimization, spectral analysis.

**COMS W4774 Unsupervised Learning. 3.00 points.**

Prerequisites: Solid background in multivariate calculus, linear algebra, basic probability, and algorithms.

Prerequisites: see notes re: points

Core topics from unsupervised learning such as clustering, dimensionality reduction and density estimation will be studied in detail. Topics in clustering: k-means clustering, hierarchical clustering, spectral clustering, clustering with various forms of feedback, good initialization techniques and convergence analysis of various clustering procedures. Topics in dimensionality reduction: linear techniques such as PCA, ICA, Factor Analysis, Random Projections, non-linear techniques such as LLE, IsoMap, Laplacian Eigenmaps, tSNE, and study of embeddings of general metric spaces, what sorts of theoretical guarantees can one provide about such techniques. Miscellaneous topics: design and analysis of data structures for fast Nearest Neighbor search such as Cover Trees and LSH. Algorithms will be implemented in either Matlab or Python.

**COMS W4775 Causal Inference. 3.00 points.**

Prerequisites: Discrete Math, Calculus, Statistics (basic probability, modeling, experimental design), some programming experience.

Prerequisites: see notes re: points

Causal Inference theory and applications. The theoretical topics include the 3-layer causal hierarchy, causal bayesian networks, structural learning, the identification problem and the do-calculus, linear identifiability, bounding, and counterfactual analysis. The applied part includes intersection with statistics, the empirical-data sciences (social and health), and AI and ML.

**COMS E4775 Causal Inference. 3 points.**

Prerequisites: (COMS4711W) and Discrete Math, Calculus, Statistics (basic probability, modeling, experimental design), Some programming experience

Causal Inference theory and applications. The theoretical topics include the 3-layer causal hierarchy, causal bayesian networks, structural learning, the identification problem and the do-calculus, linear identifiability, bounding, and counterfactual analysis. The applied part includes intersection with statistics, the empirical-data sciences (social and health), and AI and ML.

**COMS W4776 Machine Learning for Data Science. 3 points.**

Lect.: 3

Prerequisites: (STAT GU4001 or IEOR E4150) and linear algebra.

Introduction to machine learning, emphasis on data science. Topics include least square methods, Gaussian distributions, linear classification, linear regression, maximum likelihood, exponential family distributions, Bayesian networks, Bayesian inference, mixture models, the EM algorithm, graphical models, hidden Markov models, support vector machines, kernel methods. Emphasizes methods and problems relevant to big data. Students may not receive credit for both COMS W4771 and W4776.

**COMS W4824 COMPUTER ARCHITECTURE. 3.00 points.**

**COMS W4835 COMPUTER ORGANIZATION II. 3.00 points.**

**COMS E4899 Research Training. 0.00 points.**

Research training course. Recommended in preparation for laboratory related research

**COMS W4901 Projects in Computer Science. 1-3 points.**

Prerequisites: Approval by a faculty member who agrees to supervise the work.

A second-level independent project involving laboratory work, computer programming, analytical investigation, or engineering design. May be repeated for credit, but not for a total of more
than 3 points of degree credit. Consult the department for section assignment.

**COMS W4910 CURRICULAR PRACTICAL TRAINING.**
*1.00 point.*

**COMS E4995 COMPUTER ARTS/VIDEO GAMES. 3.00 points.*

Topics are usually offered on a one-time basis. Since the content of this course changes each time it is offered, it may be repeated for credit. Consult the department for section assignment.

**COMS W4995 TOPICS IN COMPUTER SCIENCE. 3.00 points.*

Lect: 3.

Prerequisites: Instructor's permission. Special topics arranged as the need and availability arises. Topics are usually offered on a one-time basis. Since the content of this course changes each time it is offered, it may be repeated for credit. Consult the department for section assignment.

COMS W4996 Special topics in computer science, II. 3 points.
Lect: 3. Not offered during 2022-23 academic year.

Prerequisites: Instructor's permission. A continuation of COMS W4995 when the special topic extends over two terms.

COMPUTER SCIENCE - ENGLISH COMPUTER SCIENCE - ELECTRICAL ENGINEERING

CSEE W3826 FUNDAMENTALS OF COMPUTER ORG. 3.00 points.

CSEE W3827 FUNDAMENTALS OF COMPUTER SYSTS. 3.00 points.
Lect: 3.

Prerequisites: an introductory programming course. Prerequisites: an introductory programming course. Fundamentals of computer organization and digital logic. Boolean algebra, Karnaugh maps, basic gates and components, flipflops and latches, counters and state machines, basics of combinational and sequential digital design. Assembly language, instruction sets, ALU’s, single-cycle and multi-cycle processor design, introduction to pipelined processors, caches, and virtual memory

CSEE W4121 COMPUTER SYSTEMS FOR DATA SCIENCE. 3.00 points.
Prerequisites: Background in Computer System Organization and good working knowledge of C/C++. Corequisites: CSOR W4246 Algorithms for Data Science, STAT W4203 Probability Theory, or equivalent as approved by faculty advisor. An introduction to computer architecture and distributed systems with an emphasis on warehouse scale computing systems. Topics will include fundamental tradeoffs in computer systems, hardware and software techniques for exploiting instruction-level parallelism, data-level parallelism and task level parallelism, scheduling, caching, prefetching, network and memory architecture, latency and throughput optimizations, specialization, and an introduction to programming data center computers

349
CSEE W4140 NETWORKING LABORATORY. 3.00 points.
Lect: 3.

Prerequisites: (CSEE W4119) or equivalent.
In this course, students will learn how to put principles into practice, in a hands-on-networking lab course. The course will cover the technologies and protocols of the Internet using equipment currently available to large internet service providers such as CISCO routers and end systems. A set of laboratory experiments will provide hands-on experience with engineering wide-area networks and will familiarize students with the Internet Protocol (IP), Address Resolution Protocol (ARP), Internet Control Message Protocol (ICMP), User Datagram Protocol (UDP) and Transmission Control Protocol (TCP), the Domain Name System (DNS), routing protocols (RIP, OSPF, BGP), network management protocols (SNMP, and application-level protocols (FTP, TELNET, SMTP).

CSEE W4823 Advanced Logic Design. 3 points.
Lect: 3.

Prerequisites: (CSEE W3827) or a half semester introduction to digital logic, or the equivalent.
An introduction to modern digital system design. Advanced topics in digital logic: controller synthesis (Mealy and Moore machines); adders and multipliers; structured logic blocks (PLDs, PALs, ROMs); iterative circuits. Modern design methodology: register transfer level modelling (RTL); algorithmic state machines (ASMs); introduction to hardware description languages (VHDL or Verilog); system-level modelling and simulation; design examples.

CSEE W4868 SYSTEM-ON-CHIP PLATFORMS. 3.00 points.

Prerequisites: (COMS W3157) and (CSEE W3827)
Prerequisites: (COMS W3157) and (CSEE W3827) Design and programming of System-on-Chip (SoC) platforms.
Topics include: overview of technology and economic trends, methodologies and supporting CAD tools for system-level design, models of computation, the SystemC language, transaction-level modeling, software simulation and virtual platforms, hardware-software partitioning, high-level synthesis, system programming and device drivers, on-chip communication, memory organization, power management and optimization, integration of programmable processor cores and specialized accelerators. Case studies of modern SoC platforms for various classes of applications.

COMPUTER SCIENCE - BIOMEDICAL ENGINEERING

CBMF W4761 COMPUTATIONAL GENOMICS. 3.00 points.
Lect: 3.

Prerequisites: Working knowledge of at least one programming language, and some background in probability and statistics.
Prerequisites: Working knowledge of at least one programming language, and some background in probability and statistics. Computational techniques for analyzing genomic data including DNA, RNA, protein and gene expression data. Basic concepts in molecular biology relevant to these analyses. Emphasis on techniques from artificial intelligence and machine learning. String-matching algorithms, dynamic programming, hidden
Markov models, expectation-maximization, neural networks, clustering algorithms, support vector machines. Students with life sciences backgrounds who satisfy the prerequisites are encouraged to enroll.

The Creative Writing Program in The School of the Arts combines intensive writing workshops with seminars that study literature from a writer’s perspective. Students develop and hone their literary technique in workshops. The seminars (which explore literary technique and history) broaden their sense of possibility by exposing them to various ways that language has been used to make art. Related courses are drawn from departments such as English, comparative literature and society, philosophy, history, and anthropology, among others.

Students consult with faculty advisers to determine the related courses that best inform their creative work. For details on the major, see the Creative Writing website: http://arts.columbia.edu/writing/undergraduate.

MAJOR IN CREATIVE WRITING

The major in creative writing requires a minimum of 36 points: five workshops, four seminars, and three related courses.

Workshop Curriculum (15 points)

Students in the workshops produce original works of fiction, poetry, or nonfiction, and submit them to their classmates and instructor for a close critical analysis. Workshop critiques (which include detailed written reports and thorough line-edits) assess the mechanics and merits of the writing pieces. Individual instructor conferences distill the critiques into a direct plan of action to improve the work. Student writers develop by practicing the craft under the diligent critical attention of their peers and instructor, which guides them toward new levels of creative endeavor.

Creative writing majors select 15 points within the division in the following courses. One workshop must be in a genre other than the primary focus. For instance, a fiction writer might take four fiction workshops and one poetry workshop.

Beginning Workshop
Designed for students who have little or no previous experience writing literary texts in a particular genre.

WRIT UN1100 BEGINNING FICTION WORKSHOP

Intermediate Workshop
Permission required. Admission by writing sample. Enrollment limited to 15. Course may be repeated in fulfillment of the major.

WRIT UN2100 INTERMEDIATE FICTION WORKSHOP
WRIT UN2200 INTERMEDIATE NONFICTION WORKSHOP
WRIT UN2300 INTERMEDIATE POETRY WORKSHOP

Advanced Workshop
Permission required. Admission by writing sample. Enrollment limited to 15. Course may be repeated in fulfillment of the major.

WRIT UN3100 ADVANCED FICTION WORKSHOP
WRIT UN3200 ADVANCED NONFICTION WORKSHOP
WRIT UN3300 ADVANCED POETRY WORKSHOP

Senior Creative Writing Workshop
Seniors who are creative writing majors are given priority. Enrollment limited to 12, by instructor's permission. The senior workshop offers students the opportunity to work exclusively with classmates who are at the same high level of accomplishment in the major. This course is only offered by graduate faculty professors.

WRIT UN3101 SENIOR FICTION WORKSHOP, Senior Fiction Workshop
WRIT UN3201 SENIOR NONFICTION WORKSHOP
WRIT UN3301 SENIOR POETRY WORKSHOP

Seminar Curriculum (12 points)

The creative writing seminars form the intellectual ballast of our program. Our seminars offer a close examination of literary techniques such as plot, point of view, tone, and voice. They seek to inform and inspire students by exposing them to a wide variety of approaches in their chosen genre. Our curriculum, via these seminars, actively responds not only to historical literary concerns, but to contemporary ones as well. Extensive readings are required, along with short critical papers and/or creative exercises. By closely analyzing diverse works of literature and participating in roundtable discussions, writers build the resources necessary to produce their own accomplished creative work.

Creative writing majors select 12 points within the division. Any 4 seminars will fulfill the requirement, no matter the student's chosen genre concentration. Below is a sampling of
our seminars. The list of seminars currently being offered can be found in the "Courses" section.

These seminars offer close examination of literary techniques such as plot, point of view, tone, suspense, and narrative voice. Extensive readings are required, along with creative exercises.

**FICTION**

WRIT UN3121 HOW TO BUILD A PERSON
WRIT UN3117 Fiction Seminar: The Here & Now
WRIT UN3122 FIRST NOVELS: HOW THEY WORK
WRIT UN3120 THE CRAFT OF WRITING DIALOGUE

**NONFICTION**

WRIT UN3213 Nonfiction Seminar: The Literary Reporter
WRIT UN3215 ART WRITING FOR WRITERS
WRIT UN3216 TRUTH # FACTS
WRIT UN3217 SCIENCE AND SENSIBILITY

**POETRY**

WRIT UN2311 TRADITIONS IN POETRY
WRIT UN3313 Poetry Seminar: The Crisis of the I
WRIT UN3314 Poetry Seminar: 21st Century American Poetry and Its Concerns
WRIT GU4310 WITNESS, RECORD, DOCUMENT

**CROSS GENRE**

WRIT GU4011 Cross Genre Seminar: Imagining Berlin
WRIT GU4012 Cross Genre Seminar: Diva Voice, Diva Style, Diva Lyrics
WRIT UN3016 WALKING
WRIT UN3013 Cross-Genre Seminar: Process Writing & Writing Process

**Related Courses (9 points)**

Drawn from various departments, these courses provide concentrated intellectual and creative stimulation, as well as exposure to ideas that enrich students' artistic instincts. Courses may be different for each student writer. Students should consult with faculty advisers to determine the related courses that best inform their creative work.

**FICTION WORKSHOPS**

WRIT UN1100 BEGINNING FICTION WORKSHOP. 3.00 points.

Prerequisites: No prerequisites. Department approval NOT required. The beginning workshop in fiction is designed for students with little or no experience writing literary texts in fiction. Students are introduced to a range of technical and imaginative concerns through exercises and discussions, and they eventually produce their own writing for the critical analysis of the class. The focus of the course is on the rudiments of voice, character, setting, point of view, plot, and lyrical use of language. Students will begin to develop the critical skills that will allow them to read like writers and understand, on a technical level, how accomplished creative writing is produced. Outside readings of a wide range of fiction supplement and inform the exercises and longer written projects.

**WRIT UN2100 INTERMEDIATE FICTION WORKSHOP. 3.00 points.**

Prerequisites: The departments permission required through writing sample. Please go to 609 Kent for submission schedule and registration guidelines or see http://www.arts.columbia.edu/writing/undergraduate. Intermediate workshops are for students with some experience with creative writing, and whose prior work merits admission to the class (as judged by the professor). Intermediate workshops present a higher creative standard than beginning workshops, and increased expectations to produce finished work. By the end of the semester, each student will have produced at least seventy pages of original fiction. Students are additionally expected to write extensive critiques of the work of their peers.

WRIT UN3100 ADVANCED FICTION WORKSHOP. 3.00 points.
Prerequisites: The department's permission required through writing sample. Please go to 609 Kent for submission schedule and registration guidelines or see http://www.arts.columbia.edu/writing/undergraduate.
Prerequisites: The department's permission required through writing sample. Please go to 609 Kent for submission schedule and registration guidelines or see http://www.arts.columbia.edu/writing/undergraduate. Building on the work of the Intermediate Workshop, Advanced Workshops are reserved for the most accomplished creative writing students. A significant body of writing must be produced and revised. Particular attention will be paid to the components of fiction: voice, perspective, characterization, and form. Students will be expected to finish several short stories, executing a total artistic vision on a piece of writing. The critical focus of the class will include an examination of endings and formal wholeness, sustaining narrative arcs, compelling a reader's interest for the duration of the text, and generating a sense of urgency and drama in the work.

FICTION SEMINARS
WRIT UN2110 APPROACHES TO THE SHORT STORY. 3.00 points.
Prerequisites: No prerequisites. Department approval NOT required.
The modern short story has gone through many transformations, and the innovations of its practitioners have often pointed the way for prose fiction as a whole. The short story has been seized upon and refreshed by diverse cultures and aesthetic affiliations, so that perhaps the only stable definition of the form remains the famous one advanced by Poe, one of its early masters, as a work of fiction that can be read in one sitting. Still, common elements of the form have emerged over the last century and this course will study them, including Point of View, Plot, Character, Setting and Theme. John Hawkes once famously called these last four elements the "enemies of the novel," and many short story writers have seen them as hindrances as well. Hawkes later recanted, though some writers would still agree with his earlier assessment, and this course will examine the successful strategies of great writers across the spectrum of short story practice, from traditional approaches to more radical solutions, keeping in mind how one period's revolution -Hemingway, for example - becomes a later era's mainstream or "commonsense" storytelling mode. By reading the work of major writers from a writer's perspective, we will examine the myriad techniques employed for what is finally a common goal: to make readers feel. Short writing exercises will help us explore the exhilarating subtleties of these elements and how the effects created by their manipulation or even outright absence power our most compelling fictions.

WRIT UN3127 Time Moves Both Ways. 3 points.
What is time travel, really? We can use a machine or walk through a secret door. Take a pill or fall asleep and wake up in the future. But when we talk about magic machines and slipstreams and Rip Van Winkle, we are also talking about memory, chronology, and narrative. In this seminar, we will approach time travel as a way of understanding "the Fourth Dimension" in fiction. Readings will range from the speculative to the strange, to the realism of timelines, flashbacks, and shifts in perspective. Coursework will include short, bi-weekly writing assignments, a completed short story, and a time inflected adaptation.

WRIT UN3128 How to Write Funny. 3.00 points.
"Tragedy is when I cut my finger. Comedy is when you fall into an open sewer and die." --Mel Brooks "Comedy has to be based on truth. You take the truth and you put a little curlicue at the End." --Sid Caesar "Analyzing humor is like dissecting a frog. Few people are interested and the frog dies of it." --E.B. White "What is comedy? Comedy is the art of making people laugh without making them puke." --Steve Martin "Patty Marx is the best teacher at Columbia University." --Patty Marx One of the above quotations is false. Find out which one in this humor-writing workshop, where you will read, listen to, and watch comedic samples from well-known and lesser-known humorists. How could you not have fun in a class where we watch and critique the sketches of Monty Python, Nichols and May, Mr. Show, Mitchell # Webb, Key and Peele, French and Saunders, Derrick Comedy, Beyond the Fringe, Dave Chappelle, Bob and Ray, Mel Brooks, Amy Schumer, and SNL, to name just a few? The crux of our time, though, will be devoted to writing. Students will be expected to complete weekly writing assignments; additionally, there will be in-class assignments geared to strategies for crafting surprise (the kind that results in a laugh as opposed to, say, a heart attack or divorce). Toward this end, we will study the use of irony, irreverence, hyperbole, misdirection, subtext, wordplay, formulas such as the rule of three and paraprosdokians (look it up), and repetition, and repetition

WRIT UN3125 APOCALYPSES NOW. 3.00 points.
From ancient myths of the world’s destruction to cinematic works that envision a post-apocalyptic reality, zealots of all kinds have sought an understanding of “the end of the world as we know it.” But while apocalyptic predictions have, so far, failed to deliver a real glimpse of that end, in fiction they abound. In this course, we will explore the narrative mechanisms by which post-apocalyptic works create projections of our own world that are believably imperiled, realistically degraded, and designed to move us to feel differently and act differently within the world we inhabit. We will consider ways in which which authors craft immersive storylines that maintain a vital allegorical relationship to the problems of the present, and discuss recent trends in contemporary post-apocalyptic fiction. How has the genre responded to our changing conception of peril? Is literary apocalyptic fiction effective as a vehicle for persuasion and for showing threats in a new light? Ultimately, we will inquire into the possibility of thinking beyond our present moment and, by doing so, altering our fate.

WRIT UN3129 Writing Nature in the Age of Climate Change. 3.00 points.
This class aims to look seriously at how we write literature about the environment, landscape, plants, animals, and the weather in an age of worsening climate change. What genres, forms, and structures can we use to creatively respond to and depict the conditions of the anthropocene? How can we use time to capture the simultaneous tedium and terror of the emergency? Can we write about the individual as well as the collective? Is it possible to write about climate change not as something that is coming, but as a phenomenon that’s already a part of our lives? In answering these questions, students will determine how best to address these issues in their own creative work. While this is a fiction class, we will take our lessons from writers working across many different formats. We will read novels and short stories, but also poetry, creative non-fiction, journalism, and theory. Through writing exercises, field journals, critical essays, and their own creative pieces, students will work through, and with, the despair and radical imaginative changes wrought on all our lives by the anthropocene

WRIT UN3130 The Punchline. 3.00 points.
Levy’s worth taking seriously. This seminar examines satire in several forms, including polemics from the late Roman Empire, stand-up from the late British Empire, and novels from the healthy and indestructible American Empire. We’ll explore satirical reactions to historic disasters, and how to apply those techniques during the next one. We’ll see satire flourish on bathroom walls and street signs (my specialty, admittedly). We’ll learn why every subculture has its own version of The Onion. Finally, we’ll apply lessons from the above to develop our own writing with creative responses, in-class exercises, and a final project. Anyone can be a satirist. Dealing with reality is the hard part

WRIT UN3131 NEW WORLDS IN WRIT # VR. 3.00 points.
Creating New Worlds in Writing and in VR is a generative, exploratory fiction seminar where we will read, analyze, and experiment with the process of building new worlds. We will ask, What are the narrative possibilities that unfold within these environments? What are the conventions of sci-fi and fantasy and how can they be used to critique and scrutinize our lives on earth, particularly, experiences of violence, environmental degradation, and racial, sexual, and gender-based oppression? We will use VR technology to help us model our own invented spaces. We will examine how to incorporate traditional literary elements, such as character and dialogue, into these dynamic environments

**NONFICTION SEMINARS**

**WRIT UN2211 TRADITIONS IN NONFICTION. 3.00 points.**

Prerequisites: No prerequisites. Department approval NOT required. The seminar provides exposure to the varieties of nonfiction with readings in its principal genres: reportage, criticism and commentary, biography and history, and memoir and the personal essay. A highly plastic medium, nonfiction allows authors to portray real events and experiences through narrative, analysis, polemic or any combination thereof. Free to invent everything but the facts, great practitioners of nonfiction are faithful to reality while writing with a voice and a vision distinctively their own. To show how nonfiction is conceived and constructed, class discussions will emphasize the relationship of content to form and style, techniques for creating plot and character under the factual constraints imposed by nonfiction, the defining characteristics of each authors voice, the authors subjectivity and presence, the role of imagination and emotion, the uses of humor, and the importance of speculation and attitude. Written assignments will be opportunities to experiment in several nonfiction genres and styles.

**WRIT UN3214 HYBRID NONFICTION FORMS. 3.00 points.**

Prerequisites: No prerequisites. Department approval NOT required. Creative nonfiction is a frustratingly vague term. How do we give it real literary meaning; examine its compositional aims and techniques, its achievements and especially its aspirations? This course will focus on works that we might call visionary - works that combine art forms, genres and styles in striking ways. Works in which image and text combine to create a third interactive language for the reader. Works still termed fiction history or journalism that join fact and fiction to interrogate their uses and implications. Certain memoirs that are deliberately anti-autobiographical, turning from personal narrative to the sounds, sight, impressions and ideas of the writers milieu. Certain essays that join personal reflection to arts and cultural criticism, drawing on research and imagination, the vernacular and the formal, even prose and poetry. The assemblage or collage that, created from notebook entries, lists, quotations, footnotes and indexes achieves its coherence through fragments and associations, found and original texts.

**WRIT UN3224 Writing the Sixties. 3.00 points.**

In this seminar, we will target nonfiction from the 1960s—the decade that saw an avalanche of new forms, new awareness, new freedoms, and new conflicts, as well as the beginnings of social movements and cultural preoccupations that continue to frame our lives, as writers and as citizens, in the 21st century: civil rights, feminism, environmentalism, LGBTQ rights, pop culture, and the rise of mass media. We will look back more than a half century to examine the development of modern criticism, memoir, reporting, and profile-writing, and the ways they entwine. Along the way, we will ask questions about these classic nonfiction forms: How do reporters, essayists, and critics make sense of the new? How do they create work as rich as the best novels and short stories? Can criticism rise to the level of art? What roles do voice, point-of-view, character, dialogue, and plot—the traditional elements of fiction—play? As we go, we will witness the unfolding of arguably the most transitional decade in American history—with such events as the Kennedy assassination, the Watts Riots, the Human Be In, and the Vietnam War, along with the rise of Pop art, rock ‘n’ roll, and a new era of moviemaking—as it was documented in real time by writers at The New Yorker, New Journalists at Esquire, and critics at Partisan Review and Harper’s, among other publications. Some writers we will consider: James Baldwin, Joan Didion, Susan Sontag, Rachel Carson, Dwight Macdonald, Gay Talese, Tom Wolfe, Truman Capote, Pauline Kael, Nik Cohn, Joseph Mitchell, Lillian Ross, Gore Vidal, Norman Mailer, Thomas Pynchon, John Updike, Michael Herr, Martha Gellhorn, John McPhee, and Betty Friedan. We will be joined by guest speakers.

**WRIT UN3225 LIFE STORIES. 3.00 points.**

In this seminar, we will target nonfiction that tells stories about lives: profiles, memoirs, and biographies. We will examine how the practice of this kind of nonfiction, and ideas about it, have evolved over the past 150 years. Along the way, we will...
ask questions about these nonfiction forms: How do reporters, memoirists, biographers, and critics make sense of their subjects? How do they create work as rich as the best novels and short stories? Can criticism explicate the inner life of a human subject? What roles do voice, point-of-view, character, dialogue, and plot—the traditional elements of fiction—play? Along the way, we’ll engage in issues of identity and race, memory and self, real persons and invented characters and we’ll get glimpses of such key publications as The Atlantic Monthly, The New Yorker, Esquire, Harper’s, and The New York Review of Books. Some writers we will consider: Frederick Douglass, Louisa May Alcott, Walt Whitman, Henry Adams, Joseph Mitchell, Lillian Ross, James Agee, John Hersey, Edmund Wilson, Gore Vidal, Gay Talese, James Baldwin, Vladimir Nabokov, Janet Malcolm, Robert Caro, Joyce Carol Oates, Toni Morrison, Joan Didion, and Henry Louis Gates Jr. The course regularly welcomes guest speakers

**WRIT UN3226 NONFICTION-ISH. 3.00 points.**

This cross-genre craft seminar aims to uncover daring and unusual approaches to literature informed by nonfiction (and nonfiction-adjacent) practices. In this course we will closely read and analyze a diverse set of works, including Svetlana Alexievich’s oral history of women and war, Lydia Davis’s “found” microfiction, Theresa Hak Cha’s genre-exploding “auto-enthography,” Alejandro Zambra’s unabashedly literary narratives, Sigrid Nunez’s memoir “of” Susan Sontag, Emmanuel Carrère’s “nonfiction novel,” John Keene’s bold counter-narratives, W. G. Sebald’s satirine essay-portraits, Saidiya Hartman’s melding of history and literary imagination, Annie Ernaux’s collective autobiography, Sheila Heti’s alphabetized diary, Ben Mauk’s oral history about Xinjiang detention camps, and Edward St. Aubyn’s autobiographical novel about the British aristocracy and childhood trauma, among other texts. We will also examine Sharon Mashihi’s one-woman autofiction podcasts about Iranian Jewish American family. What we learn in this course we will apply to our own work, which will consist of two creative writing responses and a creative final project. Students will also learn to keep a daily writing journal

**WRIT UN3227 TRUE CRIME. 3.00 points.**

The explosion of true crime programming in the past few years—from podcasts to documentaries to online communities sleuthing cold cases—would make you think that poring over real-life atrocities is a recent phenomenon. But in fact, our obsession with death, destruction, duplicity, and antisocial behavior is as old as humanity itself. In this class, we will trace the origins of true crime in nonfiction literature in the United States from Puritanism to the present. We will see how the genre has developed and how its preoccupations reflect the zeitgeist. We will consider how race, gender, class, and other identities shape narratives around victims and victors, guilt and innocence. We will think broadly about what, exactly, crime is, not limiting ourselves to the obvious. We will also look at corruption, fraud, systemic discrimination. Once (and sometimes still) considered a trash genre, we will read elevated works that turn that notion on its head. We will host guest speakers from the multifaceted perspectives true crime writing touches: victims, law enforcement, journalists, and convicts themselves. Since recent true crime reporting is such an expansive field that we can only begin to scratch the surface of in this class, students will present and analyze true crime artifacts to the class. The centerpiece of the semester will be students reporting and writing on a real crime themselves. It is all too easy to critique the work of others at a comfortable distance when one has not entered the thorny fray oneself. Students will craft their own true crime writing project, interrogate their own motivations and interest, and present their findings to the class. The subject matter of this class is disturbing in nature, and we will be looking at all manner of crimes from violent to white collar to sexual to social. Consider this a blanket trigger warning for each and every class. We will cultivate a safe space to think and feel through the crimes we examine and share ways to take care of ourselves. I am here as a resource and to help students navigate university resources as appropriate

**POETRY WORKSHOPS**

**WRIT UN1300 BEGINNING POETRY WORKSHOP. 3.00 points.**

Prerequisites: No prerequisites. Department approval NOT required. The beginning poetry workshop is designed for students who have a serious interest in poetry writing but who lack a significant background in the rudiments of the craft and/or have had little or no previous poetry workshop experience. Students will be assigned weekly writing exercises emphasizing such aspects of verse composition as the poetic line, the image, rhyme and other sound devices, verse forms, repetition, tone, irony, and others. Students will also read an extensive variety of exemplary work in verse, submit brief critical analyses of poems, and critique each others original work

WRIT UN2300 INTERMEDIATE POETRY WORKSHOP. 3.00 points.

Prerequisites: The departments permission required through writing sample. Please go to 609 Kent for submission schedule and registration guidelines or see http://www.arts.columbia.edu/writing/undergraduate. Intermediate poetry workshops are for students with some prior instruction in the rudiments of poetry writing and prior poetry workshop experience. Intermediate poetry workshops pose greater challenges to students and maintain higher critical standards than beginning workshops. Students will be instructed in more complex aspects of the craft, including the poetic persona, the prose poem, the collage, open-field composition, and others. They will also be assigned more challenging verse forms such as the villanelle and also non-European verse forms such as the pantoum. They will read extensively, submit brief critical analyses, and put their instruction into regular practice by composing original work that will be critiqued by their peers. By the end of the semester each student will have assembled a substantial portfolio of finished work.

WRIT UN3300 ADVANCED POETRY WORKSHOP. 3.00 points.

Prerequisites: The departments permission required through writing sample. Please go to 609 Kent for submission schedule and registration guidelines or see http://www.arts.columbia.edu/writing/undergraduate. This poetry workshop is reserved for accomplished poetry writers and maintains the highest level of creative and critical expectations. Students will be encouraged to develop their strengths and to cultivate a distinctive poetic vision and voice but must also demonstrate a willingness to broaden their range and experiment with new forms and notions of the poem. A portfolio of poetry will be written and revised with the critical input of the instructor and the workshop.

Prerequisites: The department's permission required through writing sample. Please go to 609 Kent for submission schedule and registration guidelines or see http://www.arts.columbia.edu/writing/undergraduate. Seniors who are majors in creative writing are given priority for this course. Enrollment is limited, and is by permission of the professor. The senior workshop offers students the opportunity to work exclusively with classmates who are at the same high level of accomplishment in the major. Students in the senior workshops will produce and revise a new and substantial body of work. In-class critiques and conferences with the professor will be tailored to needs of each student.

POETRY SEMINARS

WRIT UN2311 TRADITIONS IN POETRY. 3.00 points.

Prerequisites: No prerequisites. Department approval NOT required.

Prerequisites: No prerequisites. Department approval NOT required. “For those, in dark, who find their own way by the light of others’ eyes.” —Lucie Brock-Broido The avenues of poetic tradition open to today’s poets are more numerous, more invigorating, and perhaps even more baffling than ever before. The routes we chose for our writing lead to destinations of our own making, and we take them at our own risk—necessarily so, as the pursuit of poetry asks each of us to light a pilgrim’s candle and follow it into the moors and lowlands, through wastes and prairies, crossing waters as we go. Go after the marshlights, the will-o-wisps who call to you in a voice you’ve longed for your whole life. These routes have been forged by those who came before you, but for that reason, none of them can hope to keep you on it entirely. You must take your steps away, brick by brick, heading confidently into the hinterland of your own distinct achievement. For the purpose of this class, we will walk these roads together, examining the works of classic and contemporary exemplars of the craft. By accompanying poets from a large spread of time, we will be able to more diversely immerse ourselves in what a poetic “tradition” truly means. We will read works by Edmund Spencer, Dante, and Goethe, the Romantics—especially Keats—Dickinson, who is mother to us all, Modernists, and the great sweep of contemporary poetry that is too vast to individuate. While it is the imperative of this class to equip you with the knowledge necessary to advance in the field of poetry, this task shall be
done in a Columbian manner. Consider this class an initiation, of sorts, into the vocabulary which distinguishes the writers who work under our flag, each of us bound by this language that must be passed on, and therefore changed, to you who inherit it. As I have learned the words, I have changed them, and I give them now to you so that you may pave your own way into your own ways, inspired with the first breath that brought you here, which may excite and—hopefully—frighten you. You must be troubled. This is essential

WRIT UN3315 POETIC METER AND FORM. 3.00 points.
Prerequisites: No prerequisites. Department approval NOT required.
Prerequisites: No prerequisites. Department approval NOT required. This course will investigate the uses of rhythm, metre, and form in English-language poetry, with a particular emphasis on formal elements in free verse. Through a close analysis of poems, well examine the possibilities of qualitative meter, and students will write original creative work within (and in response to) various formal traditions. Analytical texts and poetic manifestos will accompany our reading of exemplary poems. Each week, we will study interesting examples of metrical writing, and III ask you to write in response to those examples. Our topics will include stress meter, syllable-stress meter, double and triple meter, rising and falling rhythms, promotion, demotion, inversion, elision, and foot scansion. Our study will include a great range of pre-modern and modern writers, from Keats to W.D. Snodgrass, Shakespeare to Denise Levertov, Blake to James Dickey, Whitman to Louise Gluck etc. As writers, well always be thinking about how the formal choices of a poem are appropriate or inappropriate for the poems content. Well also read prose by poets describing their metrical craft.

WRIT UN3320 Provocations in Twentieth-Century Poetics. 3.00 points.
This is a class about poetry and revolt. In a century of wars, unchecked proliferation of industrial and market systems in the continued legacy of settler-colonialism and the consolidation of state powers, does language still conduct with revolutionary possibilities? In this class, we will read manifestos, philosophical treatises, political tracts, literary polemics, poems, scores, and so on, as we consider poetry’s long-standing commitment to visionary practices that seek to liberate consciousness from the many and various structures of oppression. The term “poetry” is not limited to itself but becomes, in our readings, an open invitation to all adjacent experiments with and in the language arts. As such, we will look at the emergence of the international avant-gardes as well as a few student movements that populate and complicate the explorations of radical politics in the twentieth-century. In addition to our readings, students will be asked to produce creative responses for class discussion. Final projects will be provocations of their own design. Required Texts: Friedrich Nietzsche: On the Genealogy of Morality Karl Marx and Friedrich Engels: The Communist Manifesto Aimé Césaire: Notebook of A Return to the Native Land Hilda Hilst: The Obscene Madame D Marguerite Duras: Hiroshima Mon Amour Guy Debord: Society of the Spectacle

WRIT UN3319 POETICS OF PLACE:AMERICAN LANDSCAPES, VO. 3.00 points.
When the American Poet Larry Levis left his home in California’s San Joaquin Valley, “all [he] needed to do,” he wrote, “was to describe [home] exactly as it had been. That [he] could not do, for that [is] impossible. And that is where poetry might begin. This course will consider how place shapes a poet’s self and work. Together we will consider a diverse range of poems and the places they write out of and into: from Philip Levine’s Detroit to Whitmans Manhattan, from Robert Lowells New England to James Wrights Ohio, from the Kentucky of Joe Bolton and Crystal Wilkinson to the California of Robin Blaser and Allen Ginsberg, from the Ozarks of Frank Stanford to the New Jersey of Amiri Baraka, from the Pacific Northwest of Robinson Jeffers to the Alaska of Mary Tallmountain.
We will consider the debate between T. S. Eliot and William Carlos Williams about global versus local approaches to the poem, and together we will ask complex questions: Why is it, for example, that Jack Gilbert finds his Pittsburgh when he leaves it, while Gerald Stern finds his Pittsburgh when he keeps it close? Does something sing because you leave it or
because you hold it close? Do you come to a place to find where you belong in it? Do you leave a place to find where it belongs in you? As Carolyn Kizer writes in Running Away from Home, Its never over, old church of our claustrophobia! And of course home can give us the first freedom of wanting to leave, the first prison and freedom of want. In our reflections on each “place,” we will reflect on its varied histories, its native peoples, and its inheritance of violent conquest. Our syllabus will consist, in addition to poems, of manifestos and prose writings about place, from Richard Hugos Triggering Town to Sandra Beasleys Prioritizing Place. You will be encouraged to think about everything from dialect to economics, from collectivism to individualism in poems that root themselves in particular places, and you will be encouraged to consider how these poems “transcend” their origins. You will write response papers, analytical papers, and creative pieces, and you will complete a final project that reflects on your own relationship to place.

WRIT UN3331 Ecopoetics. 3.00 points.
“There are things / We live among / and to see them / Is to know ourselves.” George Oppen, “Of Being Numerous” In this class we will read poetry like writers that inhabit an imperiled planet, understanding our poems as being in direct conversation both with the environment as well as writers past and present with similar concerns and techniques. Given the imminent ecological crises we are facing, the poems we read will center themes of place, ecology, interspecies dependence, the role of humans in the destruction of the planet, and the “necropastoral” (to borrow a term from Joyelle McSweeney), among others. We will read works by poets and writers such as (but not limited to) John Ashbery, Harryette Mullen, Asiya Wadud, Wendy Xu, Ross Gay, Simone Kearney, Kim Hyesoon, Marcella Durand, Arthur Rimbaud, Geoffrey G. O’Brien, Muriel Rukeyser, George Oppen, Terrance Hayes, Juliana Spahr, and W.S. Merwin—reading several full collections as well as individual poems and essays by scholars in the field. Through close readings, in-class exercises, discussions, and creative/critical writings, we will invest in and investigate facets of the dynamic lyric that is aware of its environs (sound, image, line), while also exploring traditional poetic forms like the Haibun, ode, prose poem, and elegy. Additionally, we will seek inspiration in outside mediums such as film, visual art, and music, as well as, of course, the natural world. As a class, we will explore the highly individual nature of writing processes and talk about building writing practices that are generative as well as sustainable.

WRIT UN3321 Translation Seminar. 3.00 points.
Prerequisites: No prerequisites. Students do not need to demonstrate bilingual ability to take this course. Department approval NOT needed.
Corequisites: This course is open to undergraduate & graduate students.
Prerequisites: No prerequisites. Students do not need to demonstrate bilingual ability to take this course. Department approval NOT needed. Corequisites: This course is open to undergraduate # graduate students. This course will explore broad-ranging questions pertaining to the historical, cultural, and political significance of translation while analyzing the various challenges confronted by the arts foremost practitioners. We will read and discuss texts by writers and theorists such as Benjamin, Derrida, Borges, Steiner, Dryden, Nabokov, Schleiermacher, Goethe, Spivak, Jakobson, and Venuti. As readers and practitioners of translation, we will train our ears to detect the visibility of invisibility of the translators craft; through short writing experiments, we will discover how to identify and capture the nuances that traverse literary styles, historical periods and cultures. The course will culminate in a final project that may either be a critical analysis or an original translation accompanied by a translators note of introduction.

WRIT UN3010 Short Prose Forms. 3.00 points.
Note: This seminar has a workshop component.
Prerequisites: No Prerequisites. Department approval NOT required.
Prerequisites: No Prerequisites. Department approval NOT required. Flash fiction, micro-narratives and the short-short have become exciting areas of exploration for contemporary writers. This course will examine how these literary fragments have captured the imagination of writers internationally and at home. The larger question the class seeks to answer, both on a collective and individual level, is: How can we craft a working definition of those elements endemic to short prose as a genre? Does the form exceed classification? What aspects of both crafts -- prose and poetry -- does this genre inhabit, expand upon, reinvent, reject, subvert? Short Prose Forms incorporates aspects of both literary seminar and the creative workshop. Class-time will be devoted alternatingly to examinations of published pieces and modified discussions of student work. Our reading chart the course from the genres emergence, examining the prose poem in 19th-century France through the works of Mallarme, Baudelaire, Max Jacob and Rimbaud. Well examine aspects of poetry -- the attention to the lyrical, the use of compression, musicality, sonic resonances and wit -- and attempt to understand how these writers took, as Russell Edson describes, experience [and] made it into an artifact with the
logic of a dream. The class will conclude with a portfolio at the end of the term, in which students will submit a compendium of final drafts of three of four short prose pieces, samples of several exercises, selected responses to readings, and a short personal manifesto on the short prose form.

WRIT UN3016 WALKING. 3.00 points.

Prerequisites: No prerequisites. Department approval NOT required. As Walter Benjamin notes in The Arcades Project: Basic to flanerie, among other things, is the idea that the fruits of idleness are more precious than the fruits of labor. The flaneur, as is well known, makes studies. This course will encourage you to make studies -- poems, essays, stories, or multimedia pieces -- based on your walks. We will read depictions of walking from multiple disciplines, including philosophy, poetry, history, religion, visual art, and urban planning. Occasionally we will walk together. An important point of the course is to develop mobile forms of writing. How can writing emerge from, and document, a walks encounters, observations, and reflections? What advantages does mobility bring to our work? Each week you will write a short piece (1-3 pages) that engages your walks while responding to close readings of the assigned material.

WRIT UN3027 Science Fiction Poetics. 3.00 points.

"If you wish to make an apple pie from scratch, you must first invent the universe." —Carl Sagan "Tomorrow belongs to those who can hear it coming." —David Bowie "I grew up reading science fiction." —Jeff Bezos Science fiction is the literature of the human species encountering change. It is the literature of the Other, of philosophy and ideas, of innovation and experimentation. This seminar will examine how poets and writers from around the world have imagined alternate realities and futures, linguistic inventions, and new poetic expressions inspired by science. We will discuss what these imaginings might tell us about the cultural and political presents in which they were conceived, as well as what the extreme conditions offered by science fiction might teach us about writing into the unknown. Topics will include astroecology and apocalyptic ecopoetics, extraterrestrial aphrodities, monstrous bodyscapes, space exploration and colonization, future creoles and the evolution of language, bio-poetics and crystalline formations, immortal texts, and global futurisms—from the European Futurists of the early 20th century to Afrofuturism, as well as recent figurations such as Gulf Futurism and Arabfuturism. Course reading will include work by Aase Berg, Etel Adnan, Chen Qiufan, Johannes Heldén, Filippo Tommaso Marinetti, Velimir Khlebnikov, Hao Jingfang, Eve L. Ewing, Sun Ra, Ursula K. Le Guin, Italo Calvino, Anaïs Duplan, Ursula Andkjær Olsen, Dempow Torishima, Rokeya Sakhawat Hossain, Octavia E. Butler, Tracy K. Smith, Cathy Park Hong, and others.

WRIT UN3028 LOST # FOUND IN THE ANTHROPOCENE. 3.00 points.

We are living through a time of unprecedented change. This change is characterized by “solastalgia,” a word that describes a response to environmental loss in our daily lives which encompasses both pain and solace. In this course we will think seriously about the imperative to notice, pay attention, and remember that which is changing or disappearing. How might we work through and with loss, and how might we harness attention and awareness to envision different futures and new creative approaches? Students will consider the ways writers and other artists are working with losing and finding in a posthuman world across different forms, genres, and cultures. Will take an imaginative and interdisciplinary attitude to these questions, studying literary work alongside visual art, anthropology, psychology, literary theory, and science. We will consider extinction, elegy, landscape, geological temporalities, fragments, trash, and ghosts. In his call to arms, The Great Derangement, author Amitav Ghosh writes that climate change resists so many of the literary and artistic forms we currently possess. As such, he calls for an embrace of hybrid genres. Through reflections, critical essays, and their own creative work, students will think seriously about hybridity and the imaginative challenge of being alive in the world today.

WRIT UN3031 INTRO TO AUDIO STORYTELLING. 3.00 points.

It’s one thing to tell a story with the pen. It’s another to transfix your audience with your voice. In this class, we will explore principles of audio narrative. Oral storytellers arguably understand suspense, humor and showmanship in ways only a live performer can. Even if you are a diehard writer of visually-consumed text, you may find, once the class is over, that you have learned techniques that can translate across borders: your written work may benefit. Alternatively, you may discover that audio is the medium for you. We will consider sound from the ground up – from folkloric oral traditions, to raw, naturally captured sound stories, to seemingly straightforward radio news segments, to highly polished narrative podcasts. While this class involves a fair amount of reading, much of what we will be studying and discussing is audio material. Some is as lo-fi as can be, and some is operatic in scope, benefitting...
from large production budgets and teams of artists. At the same time that we study these works, each student will also complete small audio production exercises of their own; as a final project, students will be expected to produce a trailer, or “sizzle” for a hypothetical multi-episode show. This class is meant for beginners to the audio tradition. There are some tech requirements: a recording device (most phones will suffice), a workable set of headphones, and computer. You’ll also need to download the free audio editing software Audacity.

WRIT UN3032 IT’S COMPLICATED: WRITING AS A RELATIONSHIP. 3.00 points.
In this cross-genre class, we’ll explore writing process as relationship, one that reflects how we relate to both ourselves and the world. How do we bring the public back to the private space of the writing desk? How do our social, cultural, and political realities and histories influence our writing process? How is our relationship with our audience informed by our relationship with language? How can we be at play in structures of grammar and narrative without assimilating to what seems otherwise unrelatable? Seeing the sentence as a set of relationships, one tied to our human relations, we will write and revise with the hope of fostering an enduring relationship with the page. Coursework will include in-class writing exercises and 3 short (3-6 page) pieces.

Students graduating with a major in Dance should be able to attain the following outcomes:

- Apply critical thinking, reading, and writing skills to dance-related texts and choreography.
- Develop the knowledge and research skills to explore the dance past in writing, orally, and in performance.
- Present interpretations of dance-related texts orally, in writing, and in performance.
- Apply library, archival, and internet research skills to dance scholarship and choreography.
- Demonstrate improved efficiency and expressivity in dance technique.
- Demonstrate growing technical understanding and fluency in dance technique.
- Create original dances, dance/theater works or dance-based, mixed media works.
- Collaborate with an artist in the creation of original dance works.
- Participate in the creative process through the creation and interpretation of choreography.
- Apply interdisciplinary research methods to dance scholarship and choreography.
- Apply historical research methods to dance scholarship and choreography.
- Demonstrate conceptual and methodological approaches for studying world dance forms through research and writing.
- Demonstrate the ability to understand cultural and historical texts in relation to dance forms.
- Apply anatomical knowledge to movement and movement concepts.
- Evaluate the theoretical and artistic work of peers.
- Communicate with an audience in oral presentations and dance performance.
- Understand and interpret the language and form of an artist’s choreography.
- Solve technical problems in dance movement.
• Apply musical knowledge to movement and choreography.
• Design choreographic movement and structures.

Dance Technique Courses
Level I courses, except for global and somatic courses, have no prerequisite and students receive a Pass/Fail grade. All other courses must be taken for a letter grade and require a placement audition (held at the first meeting of classes) or the permission of the instructor. These courses may be taken to fulfill the physical education requirement.

Ballet
Technique of classical ballet emphasizing proper alignment and graduated study of its vocabulary. Artistry of articulation, phrasing, dynamics, and nuance in the broad range of classical materials are addressed at each level.

Modern
The study of contemporary dance based on the work of the 20th and 21st century innovators. Aesthetic principles of modern dance will be taught with increased technical demands required at each successive level.

Global and Somatic Forms
The study of dance forms including classical Spanish, Jazz, Tap, West African, Afro-Cuban, and Indian.

Professor: Paul A. Scolieri (Chair & Director of Undergraduate Studies)
Professor of Professional Practice: Colleen Thomas-Young
Associate Professor of Professional Practice: Marjorie Folkman
Associate Professor of Professional Practice: Gabri Christa
Assistant Professor: Seth Williams

Senior Associate: Katie Glasner

Adjunct Faculty: Cynthia Anderson, Jennifer Archibald, Rebecca Bliss, Candace Brown, Siobhan Burke, Maguette Camara, Antonio Carmena, Uttara Coorlawala, Dormeshia, Allison Easter, Wesley Ensminger, Caroline Fermin, Tamisha Guy, Chisa Hidaka, Jodi Melnick, Vincent McCloskey, Juan Rodriguez, Yoshito Sakuraba, Carol Teitelbaum, Nelida Tirado, Caitlin Trainor, Ashley Tuttle

Technical Director and Lighting Designer: Tricia Toliver
Music Director: Robert Boston
Senior Administrative Assistant: Diane Roe

MAJOR IN DANCE
Majors must complete eleven academic courses (six required, five elective) and a minimum of eight 1-point technique courses (minimum 42 credits). All majors write a senior thesis as part of their coursework.

The required courses for the major in dance are distributed as follows:

<table>
<thead>
<tr>
<th>Dance History</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>DNCE BC2565</td>

</tr>
<tr>
<td>DNCE BC3593</td>
<td>3</td>
</tr>
</tbody>
</table>

Students who are double majors may request permission to write a two-semester combined thesis.

Electives
Five additional 3- or 4-point courses, chosen in consultation with the major advisor, are required. Electives may be chosen from among the departmental offerings listed above or below, including additional coursework in Composition, Movement Science, and/or Senior Work beyond the major requirement.

**Studio/Performance:**
- DNCE BC2555: Ensemble Dance Repertory (Modern Dance)
- DNCE BC2556: Ensemble Dance Repertory: Ballet
- DNCE BC2557: Evolution of Spanish Dance Style
- DNCE BC2558: Tap Ensemble
- DNCE BC2567: MUSIC FOR DANCE
- DNCE BC3571: Solo Repertory: Performance Styles
- DNCE BC3601 - DNCE BC3604: REHEARSAL # PERFRMNCE IN DANCE and REHEARSAL # PERFRMNCE IN DANCE

**Overview of Major Requirements (11 total, plus 8 technique courses)**
- 1 Movement Science
- 1 Composition
- 1 History
- 1 Writing
- 1 Senior Seminar
- 1 Senior Project (Research in Dance or Repertory for Dance)
- 5 Electives
- 8 Technique Classes

**Overview of Concentration Requirements (8 total, plus 8 technique classes)**
- 1 Movement Science
- 1 Composition
- 2 History
- 1 Senior Seminar
- 1 Senior Project (Research in Dance or Repertory for Dance)
- 2 Electives
- 8 Technique Classes

**CONCENTRATION IN DANCE**
The concentration in dance is identical to the major except that only two electives are required.

**SCHOOL OF ENGINEERING AND APPLIED SCIENCES**

**MINOR IN DANCE**
The SEAS Dance Minor consists of five 3-point courses. Please note that no performance/choreography courses below count toward the non-tech requirement for SEAS students:

1.-2. Two of the following history/criticism courses:
- DNCE BC2565: WORLD DANCE HISTORY
- DNCE BC2570: DANCE IN NEW YORK CITY
- DNCE BC3001: HISTORY OF THEATRICAL DANCING
- DNCE BC3570: Latin American and Caribbean Dance: Identities in Motion

**DANCE BC1250 HIP HOP DANCE # CULTURE I. 0.00-1.00 points.**

This course introduces students to urban dance styles, focusing on the foundations and origins of hip-hop dance, street dance culture, and the physical vocabularies of hip-hop and freestyle dance. Classes are geared to condition the body for the rigors of hip-hop technique by developing strength, coordination, flexibility, stamina, and rhythmic awareness while developing an appreciation of choreographic movement and structures. Compositional elements of hip-hop will be introduced and students may compose brief movement sequences.

strength, coordination, flexibility, stamina, and rhythmic awareness, while developing an appreciation of choreographic movement and structures. Compositional elements of hip-hop will be introduced and students may compose brief movement sequences. The course meets twice weekly and is held in the dance studio. Prerequisite: Intermediate level of a dance form or permission of the instructor

DNCE BC2252 AFRICAN DANCE I. 0.00-1.00 points.
Prerequisites: Permission of instructor. Concentrates on the dances of West Africa, including Senegal, Mali, and Guinea, and a variety of dances performed at various functions and ceremonies. Explanation of the origin and meaning of each dance will be an integral part of the material presented

DNCE BC2253 AFRICAN DANCE II. 0.00-1.00 points.
Prerequisites: DNCE BC2252 or permission of instructor

DNCE BC2254 CLASSICAL INDIAN I. 0.00-1.00 points.
Principles and practices of Bharata Natyam including the adavu movement system, hasta or hand gestures, narrative techniques, or abhanaya, as well as other classical Indian dance forms

DNCE BC2255 AFRO-CUBAN DANCE. 0.00-1.00 points.
Prerequisites: Permission of Instructor. This class will introduce students to the African-based folkloric and popular dances of Cuba, including Orisha, Rumba, and Salsa. In addition to learning rhythms and dances, these forms will be contextualized within the historical and contemporary significance of Afro-Cuban dance performance

DNCE BC3200 DANCE IN FILM. 3.00 points.
Survey of theatrical dance in the 20th century specific to film production. Five kinds of dance films will be examined: musicals, non–musicals, documentaries, film essays and pure dance recording.

DNCE BC3248 JAZZ DANCE III. 1.00 point.
DNCE BC3249 Jazz, III: Advanced Jazz Dance. 1 point.
Prerequisites: DNCE BC2248 or permission of instructor.

DNCE BC3250 FLAMENCO. 0.00-1.00 points.
Prerequisites: DNCE BC1137, BC1138, BC1332, BC1333, or Permission of instructor. Intermediate level in modern or ballet technique is required. The study of contemporary flamenco dance technique with special emphasis on improvisation and performance. Through video and reading assignments and attendance at live performances, students will also develop a context for understanding flamenco art, pedagogy, and culture.

DNCE BC3332 MODERN V. 0.00-1.00 points.
Note: This is a variable-point course (0-1 pts).

DNCE BC3333 MODERN V. 0.00-1.00 points.
Note: This is a variable-point course (0-1 pts).

DNCE BC3334 DANCE OF MODERN IDENTITY. 3.00 points.
A range of dance genres, from the traditional to the innovative, co-exist as representations of Indianness in India, and beyond. Identities onstage and in films, morph as colonial, national, and global contexts change. This course zooms from micro to macro views of twentieth century staged dances as culturally inflected discourse. We review how Indian classical dance aligns with the oldest of performance texts, and with lively discourses (rasa as a performance aesthetic, Orientalism, nationalism, global recirculations) through the ages, not only in India but also in Europe, Britain and America. Throughout the course, we ask:- How is culture embodied? How do historical texts configure dance today? How might they affect our thinking on mind-body, practice-theory, and traditional-contemporary divides? How does bodily patterning influence the ways that we experience our surroundings and vice versa? Can cultural
imaginaries instigate action? How is gender is performed? What are dance discourses?

**DNCE BC3576 DANCE CRITICISM. 3.00 points.**  
This course offers intensive practice in writing on dance and explores a range of approaches to dance criticism from the 1940s through today. Starting from the premise that criticism can be an art form in itself, we ask: What are the roles and responsibilities of a critic? How do our own identities and experiences inform how we see and write? With the proliferation of dance in digital spaces, what new possibilities arise for dance criticism? Class meetings include discussion, writing exercises, and peer workshops. Assignments involve viewing performances outside of class.

DNCE BC2575 Choreography for the American Musical. 3 points.
Not offered during 2022-23 academic year.
Prerequisites: Suggested DNCE BC2560, BC2566, BC2570
Explores the history and evolution of American Musical Theater dance, a uniquely American art form, with special focus on the period known as "The Golden Era." Analysis of the genre's most influential choreographers (including Balanchine, de Mille, Robbins), their systems, methodologies and fusion of high and low art on the commercial stages.

DNCE BC2580 Tap as an American Art Form. 3 points.
Prerequisites: DNCE BC1446 or equivalent experience.
Studio/lecture format focuses on tap technique, repertory, improvisation, and the development of tap explored through American history, jazz music, films, videos, and biographies.

DNCE BC3001 HISTORY OF THEATRICAL DANCING. 3.00 points.
Focuses on the history of theatre dance forms originating in Europe and America from the Renaissance to the present. Includes reading, writing, viewing, and discussion of sources such as film, text, original documentation, demonstration, and performance

DNCE BC3570 Latin American and Caribbean Dance: Identities in Motion. 3 points.
Not offered during 2022-23 academic year.
Examines the history and choreographic features of Latin American and Caribbean dance forms. Dances are analyzed in order to uncover the ways in which dancing shapes national, racial, and gender identities. Focuses on the globalization of these dances in New York City.

DNCE BC3574 Inventing the Contemporary: Dance Since the 1960s. 3 points.
Explores modern/contemporary dance in the United States and Europe since the 1960's. Major units are devoted to the Judson Dance Theater and its postmodernist aftermath, Tanztheater and European dance revisionism, and African-American dance and the articulation of an aesthetic of cultural hybridity.

DNCE BC3578 Traditions of African-American Dance. 3 points.
Not offered during 2022-23 academic year.
Traces the development of African-American dance, emphasizing the contribution of black artists and the influence of black traditions on American theatrical dance. Major themes include the emergence of African-American concert dance, the transfer of vernacular forms to the concert stage, and issues of appropriation, cultural self-identification, and artistic hybridity.

DNCE BC3583 Gender and Historical Memory in American Dance of the 1930's to the Early 1960's. 3 points.
Prerequisites: An introductory course in dance history or permission of instructor. Not offered during 2022-23 academic year.
Examines the question of why so many women dancer/choreographers of the 1930's - the early 1960's, including relatively well-known ones, have ended up as peripheral rather than central players in what has become the master narrative of a crucial era of the recent dance past.

DNCE BC3980 Performing the Political: Embodying Change in American Performance. 4 points.
Not offered during 2022-23 academic year.
Prerequisites: An introductory course in dance history/studies or permission of instructor. Explores the question of why so many women dancer/choreographers of the 1930's - the early 1960's, including relatively well-known ones, have ended up as peripheral rather than central players in what has become the master narrative of a crucial era of the recent dance past.

CROSS-LISTED COURSES - URBAN STUDIES

DNCE BC2570 DANCE IN NEW YORK CITY. 3.00 points.
Study of the cultural roots and historical contexts of specific communities using New York City's dance scene as a laboratory. Students observe the social environments in which various modes of dance works are created while researching the history of dance in New York City. Course includes attendance at weekly events, lecture-demonstrations, and performances

Faculty Department Assistant: Valerie Coates

The Barnard and Columbia undergraduate theatre program engages the disciplines of drama, theatre, and performance studies as a distinctive mode of intellectual and artistic inquiry. Majors take foundational coursework in the literary, cultural, and embodied traditions of western and nonwestern performance as well as in the practices of acting, directing, design, and playwriting. All majors then specialize in a specific area and undertake advanced thesis work, leading either to a formal essay of original research, or to an artistic project (in acting, design, directing, dramaturgy, playwriting, or solo performance) that combines the practices of research and artistic creation.

While Barnard and Columbia students fulfill the overall graduation requirements of their respective institutions, major requirements for the Barnard Major in Theatre/Columbia Major in Drama and Theatre Arts are identical, and the majority of required coursework is offered through the Barnard College Department of Theatre. Barnard and Columbia students receive their degrees from their respective colleges of Columbia University.

The Department's season of productions in the Minor Latham Playhouse and the Glicker-Milstein Black Box Theatre is a crucible of investigation: the place where professional directors and designers collaborate with undergraduates, using a wide range of classic and contemporary plays and performance practices to shape insights unique to theatrical inquiry today. Whether it's Shakespeare or Soyinka or Caryl Churchill, or the directing, solo performance, and playwriting theses in the Senior Thesis Festival, Department of Theatre productions are both a learning process and a scene of encounter, where perceptions are shaped for the attention and creative response of a larger public.

Students interested in majoring in Theatre should consider taking three or four of the required classes in their first two years of study: Western Theatre Traditions: Classic to Romantic, Western Theatre Traditions: Modern and/or a course fulfilling the "world theatre" requirement offered in the Department of Theatre, and at least one class in acting, design, directing, or playwriting (preferably in the area you might choose as areas of specialization). Students thinking about a research focus might consider additional classes in those areas in the second or third year of study.

Student Learning Objectives

Upon completion of the major, successful students will be able to attain the following objectives:

• Assess critically the artistic ambitions of contemporary theatrical performance, and of literary, critical and theoretical issues involved in the interpretation of dramatic literature and theatrical performance;
• Create with proficiency in at least one area of creative work in the field: critical/research writing, acting, directing, design, playwriting, and dramaturgy.

Areas of Concentration

Drama and Theatre Studies Student Learning Objectives

Students successfully completing drama and theatre studies coursework, or concentrating in drama and theatre studies, should be able to attain the following objectives:

1. Write clearly about dramatic literature, and about performance, including where applicable film performance;
2. Synthesize and evaluate contemporary criticism and research scholarship in writing;
3. Know specific authors, movements, periods, styles, and ideological structures in the history of drama, theatre, and performance (i.e., Shakespeare, American drama, Performative Cultures of the Third Reich, Black Theatre);
4. Use critical, theoretical, and historical concepts in the analysis of drama and performance.

Acting Student Learning Objectives

Students successfully completing a concentration in acting should be able to attain the following objectives:

1. Analyze dramatic texts and apply the analysis to developing a performable role/character;
2. Synthesize external elements with external elements (social mores, environment, historical context, status relationship to others) and internal elements (center of gravity, personal rhythm, speed, tempo) toward the expression of a character's physicality and emotionality;
3. Recognize and apply the fundamental concepts of character development: objectives, obstacles, actions, given circumstances;
4. Develop vocal, physical and emotional awareness and imagination, and to explore techniques available to aid the actor in applying these elements in a conscious way during rehearsal and performance.
Design Student Learning Objectives
Students successfully completing a concentration in design should be able to attain the following objectives:

1. Analyze dramatic texts and translate that analysis into documents used in the production process (breakdowns, plots, etc.);
2. Collect images and texts that provide insight into the developing design idea, and accurately communicate historical and stylistic choices;
3. Demonstrate fluency with the craft of a design field – e.g.
   sketching, model making, drafting, sound and lighting plots, and associated software;
4. Perform collaboratively, adapting and informing their designs with ideas generated through conversation with colleagues, classmates, and advisors.

Directing Student Learning Objectives
Students successfully completing a concentration in directing should be able to attain the following objectives:

1. Recognize the different demands of different configurations of stage space;
2. Apply compositional tools;
3. Define production style and its influence on performance choices;
4. Communicate effectively with actors;
5. Analyze the historical, social, and aesthetic elements of a dramatic text as the basis for a directorial conception.

Dramaturgy Student Learning Objectives
Students successfully completing a concentration in dramaturgy should be able to attain the following objectives:

1. Apply important critical and theoretical concepts to the analysis of dramatic writing and theatrical performance;
2. Synthesize and evaluate contemporary research scholarship and apply it to a specific production, including biographical, historical, and interpretive information;
3. Write clearly and effectively about the goals of a production, its critical contexts and purposes;
4. Communicate the critical stakes of a performance to a director and cast; to be able to work with a director in fashioning those stakes;
5. Edit dramatic scripts for production.

Playwriting Student Learning Objectives
Students successfully completing a concentration in playwriting should be able to attain the following objectives:

1. Create an individual theatrical voice in writing;
2. Construct dramatic and theatrical events onstage;
3. Communicate supportive critique to fellow writers;
4. Interpret plot and story, and to employ language and spectacle creatively;
5. Recognize dramatic structures, and be able to shape and hold an audience's attention.

Stage and Production Management Student Learning Objectives
Students successfully completing a concentration in stage and production management should be able to attain the following objectives:

1. Read and analyze a performance text from stage and production management perspectives;
2. Communicate with and coordinate the needs of all members of the production effectively;
3. Organize and manage the rehearsal process
4. Develop and update the production budget
Requirements for the Major

Download the Theatre major self-audit form

A minimum of 36 credits is required to fulfill the requirements for the major. Students intending to major in Theatre should consult with the Department Chair in their sophomore year or earlier to plan a program: this consultation is required for Barnard students and strongly recommended for Columbia students. Twelve courses and one senior thesis (in Performance or in Research) are required as follows:

**Dramatic Literature and Theatre History**

World theatre and performance histories:

Both required:
- THTR UN3150 Western Theatre Traditions: Classic to Romantic
- THTR UN3151 Western Theatre Trad: Modern

Select one of the following:
- THTR UN3149 Performance in/of South # Southeast Asia 3.00
- THTR UN3154 Theatre Trad Global Context
- THTR UN3155 Traditional Indian Performance
- THTR UN3156 Modern Asian Performance

Select one course in Drama, Theatre, and Performance Theory:
- THTR UN3140 Performing Women
- THTR UN3160 Queer Performance
- THTR UN3165 Theories of Performance Studies
- THTR UN3166 Drama, Theatre, and Theory
- ENTA UN3701 Drama, Theatre and Theory

Select one course in Shakespeare, may be taken in Theatre or English departments.

Select Two courses in dramatic literature, theatre studies, and/or performance studies, taken in the Theatre Department or in another department with advisor's approval. One course must be a seminar.

**Theatre Practice**

Select one course each in 3 of the following 4 areas:

**Acting**
- THTR UN3004 Acting I
- THTR UN3005 Acting II 3.00

**Design**
- THTR UN3401 Sound Design
- THTR UN3402 Costume Design
- THTR UN3403 Lighting Design
- THTR UN3404 Scene Design
- THTR UN3405 Problems in Design

THTR UN 3203 Collaboration may be counted if not counted toward Directing

**Directing**
- THTR UN3200 DIRECTING I
- THTR UN3201 DIRECTING II
- THTR UN 3203 Collaboration may be counted if not counted toward Design

**Playwriting**
- THTR UN3300 Playwriting Workshop
- THTR UN3301 Playwriting Lab

**Concentration**

All majors must take an additional TWO courses in the field of the Senior Thesis. *See below.

**Senior Thesis**

All students must take either THTR UN3997 or THTR UN3998:
- THTR UN3997 Senior Thesis in Performance (Acting, Design, Directing, Dramaturgy, Playwriting, Solo Performance) *
- THTR UN3998 Senior Thesis in Research **

* Prior to completing the Senior Thesis: Performance, majors must take an additional two courses in the field of the thesis (acting, design, dramaturgy, directing, playwriting, solo performance). Courses in acting, design, and directing are offered through the Department of Theatre. Courses in playwriting are offered through the Department of Theatre and the Department of English; a student who takes one of the playwriting classes above as part of the Theatre Practice requirement may take a playwriting course in English as one of the two additional playwriting courses required for the thesis. For theses in directing, students must take a dramaturgy course prior to the thesis year. For theses in dramaturgy, students take two additional courses in dramatic literature, theatre studies, or performance studies research; these courses may be drawn from courses in dramatic literature, theatre studies, and global performance traditions offered in the Theatre department, or from dramatic literature courses offered in other departments with the adviser's approval. Dramaturgy thesis students may substitute one course in playwriting for one of the two additional courses. Students pursuing a solo performance thesis are required to have taken the Solo Performance course prior to the thesis semester (spring), among the three required courses in acting.

** Prior to completing the Senior Thesis: Research, majors must take an additional two courses in drama, theatre, or performance research. These courses may be drawn from course in dramatic literature, theatre studies, and global performance traditions offered in the Theatre department, or from dramatic literature or performance studies courses offered in other departments with adviser's approval. These courses should be discussed with the student's major advisor, as well as with the sponsor of the thesis.
Production Crew
Theatre majors planning on completing a Senior Thesis in Performance (acting, design, directing, dramaturgy, playwriting, solo performance) are required to complete a run crew assignment and a crew head assignment prior to their final semester; to be in the strongest position for the thesis, ideally these assignments are completed during the junior year. Please see the section on Production Crew for more information.

Studio Courses
Please note that for Barnard students there is a limit on studio courses. Theatre majors may take 24 studio points in Theatre and an additional six in another discipline for a total of 30 studio points. Theatre Department studio courses are:

Graduate Courses
Only under special circumstances, and with the permission of the instructor, can undergraduates take graduate classes.

Requirements for the Minor
The Minor in Theatre (currently available only to Barnard students; Columbia College and General Studies do not approve minors) provides the opportunity to engage in the range of opportunities offered by the Theatre department: students who minor in Theatre take a mix of lecture and seminar courses in drama, theatre, and performance studies, as well as courses in a selected area or selected areas of performance practice (acting, design, directing, dramaturgy, stage and production management, playwriting), as well as fulfilling one backstage crew requirement. Please note:

Only courses that would fulfill the major requirements can be used to fulfill minor requirements.

The minor can be “declared” only in the semester that all requirements for the minor will be completed, typically in the first or second semester of the senior year.

The minor in Theatre consists of seven (7) courses; only courses that fulfill major requirements may be taken to fulfill minor requirements. Students minoring in Theatre may take one (1) relevant course from another department as part of the “elective” series, as approved by the minor advisor or the department chair.

Seven courses, to include three 3- or 4-credit lecture/seminar courses, three 3-credit studio courses, and one (1-3 credit variable) crew assignment, as follows:

• One (1) Theatre lecture course (THTR UN3149 PERFORMANCE IN/OF SOUTH # SOUTHEAST ASIA, THTR UN3150 WESTERN THEATRE)
• One (1) additional lecture course from the list above or seminar course offered at the 3000 level in the Theatre department
• One (1) course offered in the Theatre department in any of the following fields: acting, design, directing, dramaturgy, playwriting.
• Four (4) additional courses as follows:
  • One (1) 3000 level lecture/seminar course in drama, theatre, and performance studies offered in the Theatre department
  • Two (2) studio courses, chosen from acting, design, directing, dramaturgy, or playwriting.
  • One (1) Theatre production crew assignment, which is constituted as a course.

One (1) relevant course from another department may be included with prior approval of the department chair, including ENTA courses offered through Columbia English, or relevant courses offered in other departments.

No more than three (3) courses may be in a single format: three (3) lecture or seminar and three (3) studio courses. All three studio courses may be in a single discipline (for example, three courses in acting; two design courses and one approved course in figure drawing; three playwriting courses, including one approved course taken in Barnard English).

THTR UN2005 Acting Workshop. 3 points.
When offered in Fall semester, open only to first-year students. Not offered during 2022-23 academic year.

Prerequisites: Acting classes are open to all Barnard and Columbia undergraduates. Permission of Theatre Department through audition required: auditions for acting classes and for the semester’s stage productions held 6pm on the first Tuesday and Wednesday class days of each semester. Acting classes begin meeting after auditions. For required details, consult "Auditions" on the Barnard Theatre Department website in advance: theatre.barnard.edu/auditions.

Course develops the processes and tools an actor needs to approach the text of a play. Students develop their physical, vocal, and imaginative range and skills through voice and speech exercises, work on non-verbal behavior, improvisation, and character development. IN THE FALL SEMESTER OPEN ONLY TO FIRST-YEAR STUDENTS. Course encouraged for prospective BC Theatre and CU Drama and Theatre Arts majors.

THTR UN2022 Practicum Performance Show 1. 1.00-3.00 points.
Course can be taken for 1-3 points.
Course may be taken for 1-3 points. May be retaken for full credit. Prerequisites: Open to all Barnard and Columbia undergraduates. Permission of Department through audition required. Students cast as actors in a departmental stage production register for this course; course emphasizes the collaborative nature of production, and appropriate research and reading required in addition to artistic assignments. Auditions for each semester’s stage productions held 6pm on the first Tuesday and Wednesday class days of each semester. For required details, consult “Auditions” on the Barnard Theatre Department website in advance: theatre.barnard.edu/auditions

**THTR UN2025 PRACTICUM PERFORMANCE THESIS 2. 1.00-3.00 points.**

Course may be taken for 1-3 points. May be retaken for full credit. Prerequisites: Open to all Barnard and Columbia undergraduates. Permission of Department through audition required. Students cast as actors in a Senior Thesis in Directing register for this course. Auditions for each semester’s stage productions held 6pm on the first Tuesday and Wednesday class days of each semester. For required details, consult “Auditions” on the Barnard Theatre Department website in advance: theatre.barnard.edu/auditions

**THTR UN2026 PRACTICUM PERFORMANCE THESIS 3. 1.00-3.00 points.**

Course may be taken for 1-3 points. May be retaken for full credit. Prerequisites: Open to all Barnard and Columbia undergraduates. Permission of Department through audition required. Students cast as actors in a Senior Thesis in Directing register for this course. Auditions for each semester’s stage productions held 6pm on the first Tuesday and Wednesday class days of each semester. For required details, consult “Auditions” on the Barnard Theatre Department website in advance: theatre.barnard.edu/auditions

**THTR UN2027 Practicum Performance Dramaturgy. 3 points.**

Prerequisites: Student dramaturgs are selected as part of the production team; students interested in dramaturging a faculty-directed production should have taken the Dramaturgy course (THTR UN3167) and consult with the instructor. Students interested in dramaturging a senior thesis in directing should be listed by the thesis director as part of the production proposal and register for this course in the semester of the production. Students doing a senior thesis in dramaturgy do not register for this course, but register for THTR UN 3997: Senior Thesis in Performance: Dramaturgy.

**THTR UN2140 HISTORY#PRACTICE OF PRODUCING. 3.00 points.**

Prerequisites: Preference given to students who have taken New York Theatre and/or are Theatre/Drama and Theatre Arts majors. Permission of instructor given at first class meeting, required. Course limited to 12.

Prerequisites: Preference given to students who have taken New York Theatre and/or are Theatre/Drama and Theatre Arts majors. Permission of instructor given at first class meeting, required. Course limited to 12. Explores the role and responsibilities of the producer in commercial and not-for-profit theatre; the relationship of the producer to the cast and creative team; the creative development of plays and musicals; the evolution of the role of the producer over the twentieth century; and the pioneering work of great producers of the past century. Students develop criteria to assess artistic and financial merits of theatrical work. Attendance at productions on and off Broadway, meetings with producers and other theatre artists
THTR UN2201 ACTING ENSEMBLE DIRECTING II. 1.00 point.
Students may participate as actors in Directing II as a 1-credit course; these students will comprise the Acting Ensemble. Actors will be cast in all four student-directed scenes and will participate in the feedback process following the showings. Actors must be available for both days of the week the course meets, but are only required to attend when they are performing; they are welcome to attend additional classes that may be of interest. Actors will be graded on their in-class performances (moment-to-moment work, collaboration with on-stage partners, memorization) and ability to respond and adjust to notes. Actors who are responsible and collaborative will succeed as part of the Acting Ensemble. Grading is Pass/Fail.

Spring 2023: THTR UN2201
Course Number  Section/Call Number  Times/Location  Instructor  Points  Enrollment
THTR 2201  001/00056  T Th 12:10pm - 2:00pm  229 Milbank Hall  Alice Reagan  1.00  14/30

THTR UN2210 Theatre Workshop. 1 point.
Prerequisites: To be taken only for P/D/F. Auditions for this class are sometimes required; please check with Theatre Department in advance. If audition is required, auditions held 6pm on the first Tuesday and Wednesday class days of each semester. Class begins meeting after auditions. For required details, consult "Auditions" on the Barnard Theatre Department website in advance: theatre.barnard.edu/auditions
Various topics presented by visiting theatre scholars, artists, and practitioners in a lecture/seminar/workshop series that will meet for at least four sessions during each semester. Topics, times, and visiting instructors will be announced by the department. Students must attend all classes to receive credit for the course.

THTR UN2420 Technical Production. 3 points.
Prerequisites: Crew assignment optional. Enrollment limited to 10 students.
Introduction to the equipment, terms, and procedures employed in the creation of scenery, lighting, and sound for the stage. Classroom exercises and field visits emphasize approaches to collaborative process and production management.

THTR UN2421 Stage Management. 3 points.
Prerequisites: Permission of the instructor, given at first class meeting.
This course explores the role of the stage manager and production manager in theatrical production. Students undertake hands-on exercises to develop the practical and collaborative skills essential to working both as a stage manager and production manager--script analysis; production timeline and rehearsal management; technical rehearsal; budgeting; working with directors and designers; working with unions; health and safety codes; house management; box office.

THTR UN2422 PRACTICUM PROPS # PAINT. 1.00-3.00 points.
May be taken for 1-3 points.
Course may be taken for 1-3 points. May be retaken for full credit. Prerequisites: permission of Theatre Department Production Manager, Michael Banta (mbanta@barnard.edu).
Training and practical props and/or scenic painting work on Departmental mainstage productions

THTR UN3005 ACTING II. 3.00 points.  
Prerequisite: Open to all Barnard and Columbia undergraduates. Permission of Instructor required; students admitted from Waiting List. Students must have taken Acting I or equivalent to be eligible for Acting II sections. Acting II will offer several different sections, focusing on a specific range of conceptual, embodiment, and physical acting skills. Each course fulfills one course in Acting requirement for Theatre/Drama and Theatre Arts majors. Please check with the Theatre Department website for specific offerings and audition information. May be retaken for full credit. All sections of Acting II fulfill the “Arts and Humanities” Foundation requirement at Barnard College

This course aims to explore performing Greek tragedy on the modern stage. It will include an introduction to original performance practices in ancient Greece (space, masking, choral performance, costume, acting techniques) and an examination of how artists from different contemporary theatrical traditions have adapted ancient texts in modern performances and new versions of the plays. The bulk of the course will be focused on the problems of acting, interpreting, and reinterpreting parts of three plays on the stage, Sophocles’ Antigone, Euripides’ Medea, and Sophocles’ Ajax along with a new version by Ellen McLaughlin, who teaches playwriting at Barnard, Ajax in Iraq. Students will view all or parts of particularly interesting recent productions from various theatrical traditions, which will help them to tackle challenging issues such as choral performance and choral rhythms, masking, character work, dialogues and presenting formal political debates. For contemporary actors training in Greek tragedy offers a unique opportunity to improve their performance on stage through ensemble work and representing character through speech. It enhances dramaturgical capacities that a contemporary theater practitioner must exercise in exploring theory in practice and vice versa. This class is directed to students particularly interested in dramaturgy, directing, designing, translation, and Greek tragedy as well as acting.

THTR UN3006 ADVANCED ACTING. 3.00 points. Not offered during 2022-23 academic year.

Prerequisites: Preference given to juniors and seniors; THTR UN 3004 or 3005 prerequisite. Enrollment limited to 14 students. Acting classes are open to all Barnard and Columbia undergraduates. Permission of Theatre Department through audition required: auditions for acting classes and for the semester's stage productions held 6pm on the first Tuesday and Wednesday class days of each semester. Acting classes begin meeting after auditions. For required details, consult "Auditions" on the Barnard Theatre Department website in advance: theatre.barnard.edu/auditions.

Prerequisites: Preference given to juniors and seniors; THTR UN 3004 or 3005 prerequisite. Enrollment limited to 14 students. Acting classes are open to all Barnard and Columbia undergraduates. Permission of Theatre Department through audition required: auditions for acting classes and for the semesters stage productions held 6pm on the first Tuesday and Wednesday class days of each semester. Acting classes begin meeting after auditions. For required details, consult Auditions on the Barnard Theatre Department website in advance: theatre.barnard.edu/auditions Special problems of performance. In-class scene work, extensive outside research, rehearsals, and reading. Fulfills additional coursework in Acting for Theatre/ Drama and Theatre Arts majors. May be retaken for full credit.

THTR UN3007 Scene Lab. 3 points. Not offered during 2022-23 academic year.

Prerequisites: Enrollment limited to 16 students. Acting classes are open to all Barnard and Columbia undergraduates. Permission of Theatre Department through audition required: auditions for acting classes and for the semester’s stage productions held 6pm on the first Tuesday and Wednesday class days of each semester. Acting classes begin meeting after auditions. For required details, consult "Auditions" on the Barnard Theatre Department website in advance: theatre.barnard.edu/auditions. Special problems of performance. In-class scene work, extensive outside research, rehearsals, and reading. Fulfills an overview of the creative process of acting: text analysis, circumstance, establishment of place, pursuit of intention in coordination with exercises and improvisation designed to enhance concentration, imagination, resonance, movement, and projection. Rehearsal 2 hours per week outside class, participation in discussion of plays, playwrights, and performances required. Fulfills one course in Acting for Theatre/Drama Theatre Arts majors.

THTR UN3008 PERFORMING GREEK TRAGEDY ON THE MODERN STAGE. 3.00 points.

This course aims to explore performing Greek tragedy on the modern stage. It will include an introduction to original

THTR UN3140 PERFORMING WOMEN. 4.00 points. Not offered during 2022-23 academic year.

Prerequisites: Preference given to juniors and seniors; THTR UN 3004 or 3005 prerequisite. Enrollment limited to 14 students. Acting classes are open to all Barnard and Columbia undergraduates. Permission of Theatre Department through audition required: auditions for acting classes and for the semesters stage productions held 6pm on the first Tuesday and Wednesday class days of each semester. Acting classes begin meeting after auditions. For required details, consult "Auditions" on the Barnard Theatre Department website in advance: theatre.barnard.edu/auditions. Special problems of performance. In-class scene work, extensive outside research, rehearsals, and reading. Fulfills additional coursework in Acting for Theatre/Drama and Theatre Arts majors. May be retaken for full credit.

THTR UN3141 Socialism/Communism in Performance. 4 points. Not offered during 2022-23 academic year.

Prerequisites: Sophomore standing. Enrollment limited to 16 students.

Analyzes dramatic texts and performances under the Communist regimes behind the Iron Curtain before 1989. Principal focus is on Czech, Polish, and East German playwrights and their productions; we will consider their work in both legal and illegal contexts. In order to gain a wider understanding of the diversity of underground performative
cultural, works from Hungary, Romania, and Slovenia will be considered as well. The seminar also attends to
dissentent performative activities in the framework of the 1980s
revolutions, and reflects on works by western authors and
emigrant/diasporic writers produced on stages behind the Iron
Curtain. Fulfills one (of two) required courses in dramatic
literature/theatre studies/performance studies for Theatre/Drama
and Theatre Arts major.

THTR UN3142 Bertolt Brecht: The Making of Theatre. 4
points.
Prerequisites: Enrollment limited to 16; permission of instructor
given at first class meeting. Course is conducted in English and
readings are in English; German majors and German-speaking
students may do readings and papers in German.

This class provides a comprehensive overview of the drama,
theatre, and theory of Bertolt Brecht, the most influential
European playwright and theorist of the twentieth century, in
the context of their original historical contexts and subsequent
legacies. Fulfills one (of two) required courses in dramatic
literature/theatre studies/performance studies for Theatre/Drama
and Theatre Arts major.

THTR UN3144 Ecologies of Transmedia Performance. 4.00
points.
Exploring transmedia performance as both a medial
interaction in the physical space of theatre and a multiplatform
environment expanding and extending beyond it, Ecologies
of Transmedia Performance engages the NYPL for the
Performing Arts archive to create an environmentally and
socially self-aware, virtual transmedia performance/experience.
To strengthen academic and digital competencies, the course
consists of a seminar (meets on Tuesday) and a lab (meets
on Wednesday), integrating several activities: experiencing
and studying transmedia performances; conceptualizing
transmediality; conducting archival research into transmedia
theatre; and designing a transmedia performance (the digital
tools we will work with include Google Sites, Google Scripts,
and Google Cloud AI). Course enrollment is limited to 12;
permission of instructor given after first class meeting. Fulfills
one of the two required courses in dramatic literature/theatre
studies/performance studies for Theatre/Drama and Theatre
Arts major.

THTR UN3146 American Drama in the 1990s. 4 points.
Not offered during 2022-23 academic year.

Prerequisites: Enrollment limited to 16.
Examines American drama in the period between the fall of
the Berlin Wall in 1989 and the attack on the World Trade
Center in New York in 2001, considering a range of aesthetic
(epic theatre, performance art), social (AIDS), and political
(Reaganomics) issues of the period. Fulfills one (of two)
required courses dramatic literature/theatre studies/performance
studies for Theatre/Drama and Theatre Arts major.

THTR UN3149 PERFORMANCE IN/OF SOUTH #
SOUTHEAST ASIA. 3.00 points.
This course actively interrogates the region of Southeast Asia as
it is mobilized in performance. It will investigate performance
as a theoretical lens, artistic medium, and everyday practice
across Southeast Asia. Research and writing will draw upon
theatre, dance, performance art, and ritual, focusing on the
construction of national and personal identity through
performance. The course examines themes of gender, sexuality,
imperialism, and globalization. Through discussion, viewing,
and weekly writing assignments, students hone their critical
thinking skills and learn to formulate research questions and
arguments that will culminate in one critical essay and two
in-class exams. Course may fill either the Global Theatre
requirement, or one (of two) required courses in dramatic
literature/theatre studies/performance studies for Theatre/Drama
and Theatre Arts major, but not both

THTR UN3150 WESTERN THEATRE TRADITIONS:
CLASSIC TO ROMANTIC. 3.00 points.
Dialectical approach to reading and thinking about the
history of dramatic theatre in the west, interrogating the ways
poetry inflects, and is inflected by, the material dynamics of
performance. Course undertakes careful study of the practices
of performance, and of the sociocultural, economic, political,
and aesthetic conditions animating representative plays of the
Western tradition from the classical theatre through the
eyear modern period to early romanticism; course will also
emphasize development of important critical concepts for the
analysis of drama, theatre, and performance. Specific attention
will be given to classical Athens, medieval cycle drama, the
professional theatre of early modern England, the rival theatres
of seventeenth century France and Spain, and eighteenth-
century theatre in England and Germany; topics include the
sociology of theatre, the impact of print on conceptions of
performance, representing gender and race, and the dynamics
of court performance. Writing: 2-3 papers; Reading: 1-2 plays,
critical and historical reading per week; final examination.
Fulfills one (of two) Theatre History requirements for Theatre/
Drama and Theatre Arts majors

THTR UN3151 WESTRN THTR TRAD: MODERN. 3.00
points.
Dialectical approach to reading and thinking about the
history of dramatic theatre in the west, interrogating the ways
poetry inflects, and is inflected by, the material dynamics of
performance. Course undertakes careful study of the practices
of performance, and of the sociocultural, economic, political,
and aesthetic conditions animating representative plays of the
Western tradition from the late eighteenth century to today;
course will also emphasize development of important critical
concepts for the analysis of drama, theatre, and performance.
Specific attention will be given to the ideology of realism and naturalism, the development of epic theatre, the theatre of cruelty, postcolonial performance, and the continuing invention of dramatic forms (theatre of the absurd, speechplays, postdramatic theatre), as well as to the political and theoretical impact of race, gender, sexuality in modern performance culture. Writing: 2-3 papers; Reading: 1-2 plays, critical and historical reading per week; final examination. Fulfills one (of two) Theatre History requirements for Theatre/Drama and Theatre Arts majors.

**THTR UN3151 THEATRE TRAD GLOBAL CONTEXT.**

**3.00 points.**

Prerequisites: Enrollment limited to 50 students. Provides a broad introduction to several traditions of nonwestern drama and theatrical practice, often placing recent and contemporary writing in relation to established conventions. Taking up plays and performance traditions from Asia, South Asia, and various African traditions, it may also consider the relation between elite and popular culture (adaptations of Shakespeare, for example), and between drama, theatre, and film. Course may fulfill either the Global Theatre requirement, or one (of two) required courses in dramatic literature/theatre studies/performance studies for Theatre/Drama and Theatre Arts major, but not both.

**THTR UN3155 POSTCOLONIAL DRAMA: THE CANON & ITS OTHER.**

**4.00 points.**

This class is a close reading of postcolonial plays, both as they form a recognizable canon, and as counters to it. Through a grounding in postcolonial theory, students will explore how the colonial encounter leaves a lasting impact on language and performance. How do these playwrights tackle questions of authenticity, influence, inspiration and agency? What stories do they adapt, translate or reimagine? Also, we read in equal measure male and female playwrights, attending to the ways in which power and authority are negotiated by them. This class looks both at plays that are seminal to postcolonial writing and also newer ones that unsettle the position of the greats. Do we then understand postcolonialism as a historically bound literary trend or an ongoing process of exploration? Fundamentally we ask, in our efforts to decolonize the theatre, how do we find new ways or reading?

**THTR UN3156 MODERN ASIAN PERFORMANCE.**

**4.00 points.**

Prerequisites: Permission of instructor given at first class meeting; enrollment limited to 16. Corequisites: Fulfills one course in World Theatre requirement for Theatre/Drama and Theatre Arts majors. Course studies contemporary Asian performance with focus on modernity, covering most nations on the Asian continent; readings cover theoretical and aesthetic questions from performances of healing to revolutionary theatre to diasporic performance. Course may fulfill either the Global Theatre requirement, or one (of two) required courses in dramatic literature/theatre studies/performance studies for Theatre/Drama and Theatre Arts major, but not both.

**THTR UN3160 Queer Performance.**

**4 points.**

This course surveys key theoretical and historical writings in the field of Queer Performance, both within and without Theatre and Performance Studies, as well as significant dramatic and performance works in the field. Beginning with an introduction to queer theory and questions surrounding gender and sexuality in performance, the course then moves into contemporary theories to examine works that use embodiment to question constructions of gender and sexuality onstage. Performances are regarded as provocations: what constitutes queer performance? Is sexuality all we mean by queer? What are the historical, aesthetic, and political aspects of queer performance? We will also pursue questions of production: Where is queer performance staged and how is it received? How is it produced, for whom, by whom, and with what funding? Is queer performance inherently or even necessarily radical? The course explores crosscultural performances, as well as performances spanning from theatrical stages to ritual to everyday performance. Course may fulfill either the Theory requirement, or one (of two) required courses in dramatic literature/theatre studies/performance studies for Theatre/Drama and Theatre Arts major, but not both.

**THTR UN3165 THEORIES OF PERFORMANCE STUDIES.**

**4.00 points.**

Prerequisites: Enrollment limited to 16 students. Course surveys the wide range of genres and categories addressed by
the practice of modern "performance studies"; it introduces a number of performance practices, as well as relevant interdisciplinary methodologies. Students consider live performances as well as a number of mediated works, learning to think critically and creatively about the relation between text, technology, and the body. Course may fill either the Theory requirement, or one (of two) required courses in dramatic literature/theatre studies/performance studies for Theatre/Drama and Theatre Arts major, but not both.

THTR UN3166 Drama, Theatre, and Theory. 4 points.

Not offered during 2022-23 academic year.

Prerequisites: Enrollment limited to 16 students. Intensive immersion in fundamental principles and practices of world drama, theatre, and performance, past and present. Close readings of performances, plays, video, film, and digital media. Assignments include presentations, performance projects, and critical writing. Fulfills one course in Drama, Theatre, and Theory requirement for Theatre/Drama and Theatre Arts majors.

THTR UN3167 DRAMATURGY. 4.00 points.

Prerequisites: Permission of instructor, given at first class meeting; enrollment limited to 12. This course teaches the research skills and practices a production dramaturg develops as part of the conceptual work of theatrical production. Course is focused on a series of activities: analyzing dramatic text, comparing different versions of script, conducting archival and cultural research, and presenting it to the production team. Fulfills one (of two) required courses in dramatic literature/theatre studies/performance studies for Theatre/Drama and Theatre Arts majors. Required for students undertaking a senior thesis in dramaturgy. Required for students undertaking a senior thesis in directing prior to the thesis year.

THTR UN3200 DIRECTING I. 3.00 points.

Prerequisites: Permission of instructor given at first class meeting. Exploration of the director's role in Europe and the US, including the study of important figures. Emphasis on text analysis, and varied schools of acting in relation to directing practice. Students gain a foundation in composing stage pictures and using stage movement to tell a story. All students will direct at least one fully-realized scene. Fulfills one course in Directing requirement for Theatre/Drama and Theatre Arts majors. Fulfills one of three courses in performance fields for Theatre/Drama and Theatre Arts majors: directing.

THTR UN3201 DIRECTING II. 3.00 points.

Prerequisites: Students required to have taken THTR UN3200 Directing I or THTR UN3203 Collaboration: Directing and Design, or equivalent. Enrollment limited to 14 students. Permission of instructor given at first class meeting. Course focuses on developing an individual directorial style, placing emphasis on visual research, and the use of different staging environments: end-stage, in the round, environmental. Class is structured around scene-work and critique, and each student will direct at least three fully-realized scenes. Material typically drawn from European avant-garde. Fulfills additional coursework in Directing required for Theatre/Drama and Theatre Arts majors concentrating in Directing.

THTR UN3202 Advanced Directing. 4 points.

Prerequisites: Open to students who have taken at least one course in directing. Required for students approved for Directing thesis, but open to all qualified students. Permission of instructor given at first class meeting. This course requires students to draw on all previous theatre training, synthesizing scholarship and research toward dynamic fully-realized scene work. Emphasis is on the director-actor relationship; students will direct at least three fully-realized scenes, typically drawn from Shakespeare, Chekhov, or other playwrights. Students may have the opportunity to make devised work, and will collaborate with students in the Advanced Acting class. Required for, but not limited to, students undertaking a senior thesis in directing. Fulfills additional directing coursework in Theatre/Drama and Theatre Arts major.

THTR UN3203 COLLABORATION:DIRECTING/DESIGN. 3.00 points.

Prerequisites: Permission of instructors given at first meeting; enrollment limited to 24. Course focuses on developing both technical and collaborative skills of directors and designers. Students are assigned to different roles in creative teams working on a series of at least three fully realized and designed scenes. Introduction to various design disciplines and directing practice. May be counted as one course in either directing or a design toward the three courses in performance fields for
Theatre Arts majors: design of three courses in performance fields for Theatre/Drama and Background in music or composition not essential. Fulfills one also read broadly in the fields of sound, music, acoustics, and plays toward the production of a score for live theatre. Students relationship between concert and incidental music, and read scoring music for dramatic performance. Students study the meeting. Studies the art and practice of designing sound and Prerequisites: Permission of instructor given at first class

THTR UN3401 SOUND DESIGN. 3.00 points.  
Studio course exploring designing costumes for the stage. Students become familiar with textual and character analysis, research, sketching and rendering, swatching and introductory costume history. Fulfills one course in Design for Theatre/ Drama and Theatre Arts majors Fulfills one of three courses in performance fields for Theatre/Drama and Theatre Arts majors: design. Application Instructions: E-mail the instructor with the title of the course in the subject line. In your message, include basic information: your name, school, major, year of study, and relevant courses taken, along with a brief statement about why you are interested in taking the course. Admitted students should register for the course; they will automatically be placed on a wait list, from which the instructor will admit them as spaces become available

THTR UN3300 PLAYWRITING WORKSHOP. 3.00 points.  
Prerequisites: Permission of the instructor given at first class meeting. Students will create and workshop plays, with a focus on learning new approaches to language and structure. Recommended for students undertaking a senior thesis in playwriting. Fulfills one of three courses in performance fields for Theatre/Drama and Theatre Arts majors: playwriting

THTR UN3301 PLAYWRITING LAB. 3.00 points.  
Students will develop original dramatic scripts. Students will also read drafts of writers currently produced on New York stages to understand why changes and rewrites were made. Recommended for students undertaking a senior thesis in playwriting. Fulfills one of three courses in performance fields for Theatre/Drama and Theatre Arts majors: playwriting

THTR UN3402 COSTUME DESIGN. 3.00 points.  
Studio course exploring designing costumes for the stage. Students become familiar with textual and character analysis, research, sketching and rendering, swatching and introductory costume history. Fulfills one course in Design for Theatre/ Drama and Theatre Arts majors Fulfills one of three courses in performance fields for Theatre/Drama and Theatre Arts majors: design. Application Instructions: E-mail the instructor with the title of the course in the subject line. In your message, include basic information: your name, school, major, year of study, and relevant courses taken, along with a brief statement about why you are interested in taking the course. Admitted students should register for the course; they will automatically be placed on a wait list, from which the instructor will admit them as spaces become available

THTR UN3303 LIGHTING DESIGN. 3.00 points.  
Prerequisites: Enrollment limited to 12 students. Focuses on both the technical and creative aspects of theatrical lighting design. Students will learn the role of lighting within the larger design and performance collaboration through individual and group projects, readings, hands-on workshops, and critique of actual designs. Fulfills one course in Design for Theatre/ Drama and Theatre Arts majors. Fulfills one of three courses in performance fields for Theatre/Drama and Theatre Arts majors: design Application Instructions: E-mail the instructor (sandra@barnard.edu) with the title of the course in the subject line. In your message, include basic information: your name, school, major, year of study, and relevant courses taken, along with a brief statement about why you are interested in taking the course. Admitted students should register for the course; they will automatically be placed on a wait list, from which the instructor will admit them as spaces become available

THTR UN3403 SCENE DESIGN. 3.00 points.  
Prerequisites: Enrollment limited to 12 students. Permission of instructor given at first class meeting. Introduction to designing for the theatre. The course will focus on set design, developing skills in script analysis, sketching, model making, storyboarding and design presentation. Some investigation into theatre architecture, scenic techniques and materials, and costume and lighting design. Fulfills one of three courses in performance fields for Theatre/Drama and Theatre Arts majors: design
THTR UN3405 PROBLEMS IN DESIGN. 3.00 points.  
Prerequisites: Some design experience is helpful, though not required. Enrollment limited to 12 students. Studio-based course explores the main elements of theatrical design: sets, costumes, lighting, and sound through objects, materials, theatrical and non-theatrical environments. Students examine these design elements as both individual and interrelated components within a performance. Fulfills one course in Design requirement for Theatre/Drama and Theatre Arts majors. Fulfills one of three courses in performance fields for Theatre/Drama and Theatre Arts majors: design  

Fall 2022: THTR UN3405  
Course Number: THTR 3405  
Section/Call Number: 001/000315  
Times/Location: W 2:10pm - 5:00pm  
Instructor: Kara Feely  
Points: 3.00  
Enrollment: 11/12  
Location: 229 Milbank Hall

THTR UN3406 Media & Production Design. 3 points.  
Uses analysis and design to explore how media and projections can be used to construct narrative in theatre and support non-narrative forms of performance. Digital and analog media are explored for their potentials and limitations. Students learn how the media is produced and transmitted will be discussed as part of creating a video design. Students will produce projection projects using different kinds of media during the course requiring work outside of class time. Fulfills one of three courses in performance fields for Theatre/Drama and Theatre Arts majors: design.

THTR UN3997 SENIOR THESIS IN PERFORMANCE. 4.00 points.  
Prerequisites: Appropriate coursework and substantial production experience, including a major crew assignment in the junior year. Enrollment limited to senior Theatre majors. Combined and special majors may be considered under exceptional circumstances. Permission of the instructor required. Students register for this course to pursue approved theses in acting, design, directing, dramaturgy, solo performance, or stage and production management. Students will act in, direct, design, stage manage or dramaturg a play in the Barnard Department of Theatre season, or write a short play or solo performance piece that will be produced (according to departmental guidelines) in the Senior Thesis Festival. Collaboration is expected and students will meet weekly with faculty and other seniors. A written proposal must be submitted in the spring of the junior year and be approved. In addition to the performance, an extensive written Casebook is required: see departmental guidelines.

ENTA GU4625 SHAKESPEARE PERFORMANCE STUDIES. 4.00 points.  
This course will work across three general approaches to Shakespearean drama and performance. First, we’ll consider the historical forms of performance that have used Shakespearean drama as the material for theatrical endeavor. Second, we’ll consider theoretical paradigms for performance that resituate an understanding that privileges either the “theatrical” or the “literary” identity of Shakespeare’s plays. And, finally, we’ll consider how we might consider the plays as themselves theoretical instruments for thinking about performance. Throughout the semester we will consider stage, film, and online productions, and the ways they articulate a sense of both “Shakespeare” and “performance.” This course is a seminar, and while there is no formal prerequisite, students who have had a previous Shakespeare course will find the reading more manageable: we will rarely be doing the kind of “overview” of a play, but will be incisively considering specific elements of performance. Application Instructions: E-mail the instructor wworthen@barnard.edu with the title of the course in the subject line. In your message, include basic information: your name, school, major, year of study, and relevant courses taken.
along with a brief statement about why you are interested in taking the course. Admitted students should register for the course; they will automatically be placed on a wait list, from which the instructor will admit them as spaces become available.

**THTR UN3999 INDEPENDENT STUDY. 1.00-4.00 points.**

Prerequisites: Permission of the instructor and the chair required.
Prerequisites: Permission of the instructor and the chair required. Students submit, before the semester begins, a detailed proposal for independent research to a faculty sponsor.

The undergraduate major in Earth and environmental sciences provides an understanding of the natural functioning of our planet and considers the consequences of human interactions with it. Our program for majors aims to convey an understanding of how the complex Earth system works at a level that encourages students to think creatively about the Earth system processes and how to address multidisciplinary environmental problems. The breadth of material covered provides an excellent background for those planning to enter the professions of law, business, diplomacy, public policy, teaching, journalism, etc. At the same time, the program provides sufficient depth so that our graduates are prepared for graduate school in one of the Earth sciences. The program can be adjusted to accommodate students with particular career goals in mind.

The department’s close affiliations with the Lamont-Doherty Earth Observatory, the American Museum of Natural History (AMNH), NASA’s Goddard Institute for Space Studies (GISS), the Earth Institute at Columbia (EI), and several departments within the Fu Foundation School of Engineering and Applied Sciences afford opportunities for student participation in a wide variety of current research programs. Summer employment, research, and additional educational opportunities are available at Lamont and GISS. The department encourages majors to become involved in a research project by their junior year.

All majors and concentrators, when planning their programs of study, should regularly consult the directors of undergraduate studies and make themselves aware of the requirements for their particular program.

# Programs of Study

## Environmental Science Major

The environmental science major curriculum provides an introduction to a variety of fields of study relevant to the environment. Environmental science majors are required to take three semesters of introductory courses and to develop a grounding in basic physics, chemistry, biology, and mathematics. Here, students may select courses depending on their interest. With this introduction to the Earth’s environment and equipped with a knowledge of the basic sciences, students are prepared to choose a set of upper-level courses in consultation with an undergraduate adviser. All environmental science majors are required to complete a research project, providing a practical application of mastered course work. This research culminates in a senior thesis. The research and the thesis are usually done at Lamont-Doherty Earth Observatory with guidance from a faculty member or a research scientist. However, other options are also possible.

Environmental science majors have an option to complete the special concentration in environmental biology for environmental science majors.

## Earth Science Major

The major in Earth science follows a similar rationale but is designed to allow students to pursue particular fields of the Earth sciences in greater depth. Compared with the environmental science major, one fewer introductory course is required, while one additional advanced course should be part of the plan of study. The Earth science major also offers the possibility of in-depth field experience through a six- to eight-week geology summer field course, arrangements for which are made through another university. The research and senior thesis capstone requirements are the same as for the environmental science major. The geology summer field course may be used
as an alternative means of fulfilling the capstone requirement in the Earth science major.

**Climate System Science Major**

The climate system science major is designed for students who are interested in how the past, present, and future climate system works and in solution strategies for the rapidly accelerating climate crisis. The overall goal is to establish the fundamental sciences at the core of the climate system, and to inspire solution-oriented analytical thinking and expertise. The flexible course structure combines geology, physics, biology, chemistry, and math with a core in climate system science and climate solution, justice, policy and communication courses. Sample tracks through the major in sea level change, decarbonization and modern climate link to the mission and applied centers of Columbia's Climate School. We believe that any admitted student has the potential to succeed in climate science.

Climate System Science majors begin with foundational courses in the climate system and introductory courses in global warming, oceanography or other relevant topics. Supporting courses include a grounding in calculus and natural sciences. Five climate core courses include both paleoclimate and modern climate requirements, as well as three other electives. Students pursue topics in climate solutions, policy, justice and communication in courses outside the sciences, in architecture, economics, political science or engineering. All climate system science majors are required to complete a capstone experience, which can include a field course or independent research project, typically at Lamont-Doherty Earth Observatory with guidance from a leading climate scientist.

**Concentrations**

The program for concentrators serves students who want more exposure to Earth and environmental science than is provided by introductory-level courses. The program aims to provide concentrators with experience in data analysis and a thorough introduction to the Earth’s systems.

The concentrations in environmental science and in Earth science are designed to give students an understanding of how the Earth works and an introduction to the methods used to investigate Earth processes, including their capabilities and limitations. Concentrators often join the social professions (e.g., business, law, medicine, etc.) and take with them a strong scientific background. They take the same introductory courses as the majors, but fewer basic science and upper-level courses are required.

In addition to the environmental science and Earth science concentrations, the department sponsors a special concentration which must be done in conjunction with the environmental biology major. Students should be aware that they must complete the environmental biology major in order to receive credit for the special concentration. There is also a special concentration in environmental biology for environmental science majors sponsored by the Department of Ecology, Evolution, and Environmental Biology.

**DEPARTMENTAL HONORS**

The Department of Earth and Environmental Science awards departmental honors to the major or majors in Earth science or environmental science judged to have the best overall academic record. The award is accorded to no more than 10% of the graduating class, or one student in the case of a class smaller than 10. A grade point average of at least 3.6 in the major and a senior thesis or equivalent research of high quality are required. Students who wish to be considered should contact the director of undergraduate studies early in their senior year.

GUIDELINES FOR ALL EARTH SCIENCE, ENVIRONMENTAL SCIENCE, AND CLIMATE SYSTEM SCIENCE MAJORS, CONCENTRATORS, AND SPECIAL CONCENTRATORS

Advising
All majors and concentrators, when planning their programs of study, should regularly consult the directors of undergraduate studies, who can be contacted through the department office on the fifth floor of Schermerhorn. The requirements are different for each major and concentration and must be met in conjunction with the general requirements for the bachelor’s degree. Declaration of the major must be approved by the department and filed in the departmental office.

Substitutions and Exceptions
1. Higher-level courses may be used to satisfy supporting mathematics and science requirements for students with Advanced Placement preparation with the permission of the major adviser.
2. In addition to the courses listed for the depth, and breadth and related courses requirements, several graduate-level courses offered in the department as well as several advanced courses offered at Barnard may be substituted with the permission of the major adviser.
3. 1000-level courses in the Earth and Environmental Sciences Department can not be used toward meeting the requirements of any of the majors, concentrations, or special concentrations.
4. The following course is not suitable for undergraduates and can not be used toward meeting any of the requirements for the majors, concentrations, or special concentrations: EESC GU4930 EARTH’S OCEANS # ATMOSPHERE.

Grading
A grade of C- or better must be obtained for a course to count toward the majors, concentrations, or special concentrations. The grade of P is not acceptable, but a course taken Pass/D/Fail may be counted if and only if the P is uncovered by the Registrar's deadline.

MAJOR IN EARTH SCIENCE
Please read Guidelines for all Earth Science, Environmental Science, & Climate System Science Majors, Concentrators, and Special Concentrators (p. 388) above.

The major in Earth science requires a minimum of 45.5 points, distributed as follows:

<td>EESC UN2100</td>
<td>EARTH'S ENVIRO SYST: CLIM SYST</td>
</tr>
<tr>
<td>EESC UN2200</td>
<td>EARTH'S ENVIRONMENTAL SYSTEMS: THE SOLID EARTH</td>
</tr>
</tbody>
</table>

Students who wish to take both EESC UN2100 EARTH'S ENVIRO SYST: CLIM SYST and EESC UN2300 EARTH'S ENVIRO SYST: LIFE SYST can include one of these under breadth and related fields below.

**Supporting Mathematics and Science Courses**

One semester of Calculus at the level of Calculus I or higher (3 credits)

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH UN1101</td>
<td>CALCULUS I</td>
</tr>
</tbody>
</table>

Select one of the following three-course sequences:

- **CHEM UN1403**: GENERAL CHEMISTRY I-LECTU and GENERAL CHEMISTRY II-LECTURES and GENERAL PHYSICS I
- **CHEM UN1403**: GENERAL CHEMISTRY I-LECTU and GENERAL PHYSICS I and GENERAL PHYSICS II

**Capstone Experience**

Select one of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC BC3800 - EESC UN3901</td>
<td>ENVIR SCIENCE SENIOR SEMINAR and SENIOR SEMINAR</td>
</tr>
<tr>
<td>EESC BC3801 - EESC UN3901</td>
<td>ENVIR SCIENCE SENIOR SEM II and SENIOR SEMINAR</td>
</tr>
</tbody>
</table>

A six to eight week summer geology field course

**Breadth and Related Fields Requirement**

A minimum of 6 points (two courses) chosen with the major adviser are required.

Breadth and related field courses are science courses relevant for an Earth science major that do not require an Earth science background. Several such courses are offered at the 2000-, 3000- and 4000-level in the department and at Barnard. Examples include:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC UN2100</td>
<td>EARTH'S ENVIRO SYST: CLIM SYST</td>
</tr>
<tr>
<td>EESC UN2300</td>
<td>EARTH'S ENVIRO SYST: LIFE SYST</td>
</tr>
<tr>
<td>EESC UN3010</td>
<td>FIELD GEOLOGY</td>
</tr>
<tr>
<td>EESC BC3017</td>
<td>ENVIRONMENTAL DATA ANALYSIS</td>
</tr>
<tr>
<td>EESC GU4050</td>
<td>GLOBAL ASSMT-REMOTE SENSING</td>
</tr>
</tbody>
</table>

Also included among breadth and related fields courses are science, mathematics, statistics, and engineering courses offered by other departments that count toward fulfilling degree requirements in those departments.

**Depth Requirement**

A minimum of 12 points (four courses) chosen with the major adviser to provide depth in the field of Earth science.

These courses build on the foundation and supporting courses listed above and provide a coherent focus in some area of Earth science. Students should include at least one of the following in their course of study:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC UN3101</td>
<td>Geochemistry for a Habitable Planet</td>
</tr>
<tr>
<td>or EESC UN3201</td>
<td>SOLID EARTH DYNAMICS</td>
</tr>
</tbody>
</table>

Areas of focus include one of the courses listed above and three or more additional courses. Students are not required to specialize in a focus area, but examples are given below for those who choose to do so.

**Geological Science**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC GU4090</td>
<td>INTRO TO GEOCHRONOLGY</td>
</tr>
<tr>
<td>EESC GU4113</td>
<td>INTRODUCTION TO MINERALOGY I</td>
</tr>
<tr>
<td>EESC GU4223</td>
<td>SEDIMENTARY GEOLOGY</td>
</tr>
<tr>
<td>EESC GU4230</td>
<td>CRUSTAL DEFORMATION</td>
</tr>
<tr>
<td>EESC GU4701</td>
<td>Introduction to Igneous Petrology</td>
</tr>
<tr>
<td>EESC GU4887</td>
<td>ISOTOPE GEOLOGY I</td>
</tr>
<tr>
<td>EESC GU4947</td>
<td>PLATE TECTONICS</td>
</tr>
</tbody>
</table>

It is strongly recommended that students focusing in geological science take the summer geology field course as their capstone experience.

**Geochemistry**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC UN3015</td>
<td>The Earth's Carbon Cycle</td>
</tr>
<tr>
<td>EESC BC3016</td>
<td>ENVIRONMENTAL MEASURMENTS</td>
</tr>
<tr>
<td>EESC BC3200</td>
<td>Ecotoxicology</td>
</tr>
<tr>
<td>EESC GU4090</td>
<td>INTRO TO GEOCHRONOLGY</td>
</tr>
<tr>
<td>EESC GU4113</td>
<td>INTRODUCTION TO MINERALOGY I</td>
</tr>
<tr>
<td>EESC GU4701</td>
<td>Introduction to Igneous Petrology</td>
</tr>
<tr>
<td>EESC GU4885</td>
<td>CHEMISTRY OF CONTINENTAL WATERS</td>
</tr>
<tr>
<td>EESC GU4887</td>
<td>ISOTOPE GEOLOGY I</td>
</tr>
<tr>
<td>EESC GU4926</td>
<td>INTRO TO CHEMICAL OCEANOGRAPHY</td>
</tr>
</tbody>
</table>
It is recommended that students focusing in geochemistry take CHEM UN1403-CHEM UN1404 General Chemistry I and II, and PHYS UN1201 General Physics I as their supporting science sequence.

### Atmosphere and Ocean Science
- EESC GU4008 Introduction to Atmospheric Science
- EESC GU4920 PALEOCEANOGRAPHY
- EESC GU4924 INTRO TO ATMOSPHERIC CHEMISTRY
- EESC GU4925 Principles of Physical Oceanography
- EESC GU4926 INTRO TO CHEMICAL OCEANOGRAPHY

It is recommended that students focusing on atmosphere and ocean science also take a course in fluid dynamics and a course in differential equations.

### Solid Earth Geophysics
- EESC GU4230 CRUSTAL DEFORMATION
- EESC GU4300 THE EARTH’S DEEP INTERIOR
- EESC GU4937 CENOZOIC PALEOCEANOGRAPHY
- EESC GU4947 PLATE TECTONICS
- EESC GU4949 Introduction to Seismology

It is recommended that students focusing in solid Earth geophysics take PHYS UN1201-PHYS UN1202 General Physics I and II, and CHEM UN1403 General Chemistry I as their supporting science sequence and also take MATH UN1201 Calculus II.

### Climate
- EESC UN3015 The Earth’s Carbon Cycle
- EESC BC3025 HYDROLOGY
- EESC GU4008 Introduction to Atmospheric Science
- EESC GU4330 Introduction to Terrestrial Palaeoclimate
- EESC GU4835 Wetlands and Climate Change
- EESC GU4920 PALEOCEANOGRAPHY
- EESC GU4924 INTRO TO ATMOSPHERIC CHEMISTRY
- EESC GU4925 Principles of Physical Oceanography
- EESC GU4937 CENOZOIC PALEOCEANOGRAPHY

### Paleontology
- EESC GU4223 SEDIMENTARY GEOLOGY
- EESC GU4550 Plant Ecophysiology
- EESC GU4920 PALEOCEANOGRAPHY
- EESC GU4924 INTRO TO ATMOSPHERIC CHEMISTRY
- EESC GU4937 CENOZOIC PALEOCEANOGRAPHY

It is recommended that students focusing in paleontology take EESC UN2300 Earth's Environmental Systems: The Life System, as one of their foundation courses.

---

### MAJOR IN ENVIRONMENTAL SCIENCE

Please read Guidelines for all Earth Science, Environmental Science, & Climate System Science Majors, Concentrators, and Special Concentrators (p. 388) above.

The major in environmental science requires a minimum of 47 points, distributed as follows:

#### Foundation Courses
- EESC UN2100 EARTH’S ENVIRO SYST: CLIM SYST
- EESC UN2200 EARTH’S ENVIRONMENTAL SYSTEMS: THE SOLID EARTH
- EESC UN2300 EARTH’S ENVIRO SYST: LIFE SYST

#### Supporting Mathematics and Science Courses
One semester of Calculus at the level of Calculus I or higher (3 credits)
- MATH UN1101 CALCULUS I

Select one of the following three-course sequences:

- CHEM UN1403 - CHEM UN1404 - PHYS UN1201
  - GENERAL CHEMISTRY I-LECTU
  - and GENERAL CHEMISTRY II-LECTURES
  - and GENERAL PHYSICS I
- CHEM UN1403 - PHYS UN1201 - PHYS UN1202
  - GENERAL CHEMISTRY I-LECTU
  - and GENERAL PHYSICS I
  - and GENERAL PHYSICS II
- CHEM UN1403 - EEEB UN2001 - PHYS UN1201
  - GENERAL CHEMISTRY I-LECTU
  - and ENVIRONMENTAL BIOLOGY I
  - and GENERAL PHYSICS I

#### Capstone Experience
- EESC BC3800 ENVIR SCIENCE SENIOR SEMINAR
  - or EESC BC3801 ENVIR SCIENCE SENIOR SEM II
- EESC UN3901 SENIOR SEMINAR

#### Breadth and Related Fields Requirement
A minimum of 6 points (two courses) chosen with the major adviser are required.

Breadth and related field courses are science courses relevant for an environmental science major that do not require an environmental science background. Several such courses are offered at the 2000-, 3000- and 4000-level in the department and at Barnard. Examples include:
- EESC BC3017 ENVIRONMENTAL DATA ANALYSIS
Also included among breadth and related fields courses are science, mathematics, statistics, and engineering courses offered by other departments that count toward fulfilling degree requirements in those departments.

### Depth Requirement

A minimum of 9 points (three courses) chosen with the major adviser to provide depth in the field of environmental science.

These courses build on the foundation and supporting courses listed above and provide a coherent focus in some area of environmental science. Students should include at least one of the following in their course of study:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC UN3101</td>
<td>Geochemistry for a Habitable Planet</td>
</tr>
<tr>
<td>or EESC UN3201</td>
<td>SOLID EARTH DYNAMICS</td>
</tr>
</tbody>
</table>

Areas of focus include one of the courses listed above and two or more additional courses. Students are not required to specialize in a focus area, but examples are given below for those who choose to do so.

### Environmental Geology

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC GU4076</td>
<td>Geologic Mapping</td>
</tr>
<tr>
<td>EESC GU4480</td>
<td>Paleobiology and Earth System History</td>
</tr>
<tr>
<td>EAEE E3221</td>
<td></td>
</tr>
</tbody>
</table>

It is recommended that students focusing in environmental geology also take EESC W4050 Remote Sensing.

### Environmental Geochemistry

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC UN3015</td>
<td>The Earth's Carbon Cycle</td>
</tr>
<tr>
<td>EESC GU4885</td>
<td>CHEMISTRY OF CONTINENTL WATERS</td>
</tr>
<tr>
<td>EESC GU4887</td>
<td>ISOTOPE GEOLOGY I</td>
</tr>
<tr>
<td>EESC GU4924</td>
<td>INTRO TO ATMOSPHERIC CHEMISTRY</td>
</tr>
<tr>
<td>EESC GU4888</td>
<td>Stable Isotope Geochemistry</td>
</tr>
<tr>
<td>EESC GU4926</td>
<td>INTRO TO CHEMICAL OCEANOGRAPHY</td>
</tr>
</tbody>
</table>

### Hydrology

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC GU4076</td>
<td>Geologic Mapping</td>
</tr>
<tr>
<td>EESC GU4835</td>
<td>Wetlands and Climate Change</td>
</tr>
<tr>
<td>EESC BC3025</td>
<td>HYDROLOGY</td>
</tr>
<tr>
<td>EAEE E3221</td>
<td></td>
</tr>
</tbody>
</table>

### Climate Change

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC UN3015</td>
<td>The Earth's Carbon Cycle</td>
</tr>
</tbody>
</table>

### Major in Climate System Science

Please read Guidelines for all Earth Science, Environmental Science, & Climate System Science Majors, Concentrators, and Special Concentrators (p. 388) above.

The major in climate system science requires a minimum of 43.5 points, distributed as follows:

#### Foundational Courses

7.5 points minimum (2 courses):

**Required:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC UN2100</td>
<td>EARTH'S ENVIRO SYST: CLIM SYST</td>
</tr>
</tbody>
</table>

**And any one of:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC UN1009</td>
<td>GLOBAL WARMING FOR GLOBAL LEADERS</td>
</tr>
<tr>
<td>EESC UN1030</td>
<td>OCEANOGRAPHY</td>
</tr>
<tr>
<td>EESC UN1201</td>
<td>Environmental Risks and Disasters</td>
</tr>
<tr>
<td>EESC UN1600</td>
<td>EARTH RESOURCES # SUSTAIN DEV</td>
</tr>
<tr>
<td>or EESC GU4600</td>
<td>EARTH RESOURCES # SUSTAIN DEV</td>
</tr>
<tr>
<td>EESC UN2200</td>
<td>EARTH'S ENVIRONMENTAL SYSTEMS: THE SOLID EARTH</td>
</tr>
<tr>
<td>EESC UN2300</td>
<td>EARTH'S ENVIRO SYST: LIFE SYST</td>
</tr>
<tr>
<td>EESC UN2330</td>
<td>SCIENCE FOR SUSTAINABLE DEVPT</td>
</tr>
</tbody>
</table>

#### Supporting Courses

12 points minimum (4 courses):

**One semester of Calculus at the level of Calculus I or higher:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH UN1101</td>
<td>CALCULUS I</td>
</tr>
</tbody>
</table>

**And any three courses:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS UN1201</td>
<td>GENERAL PHYSICS I</td>
</tr>
</tbody>
</table>
Earth and Environmental Sciences

PHYS UN1202    GENERAL PHYSICS II
CHEM UN1403    GENERAL CHEMISTRY I-LECTU
CHEM UN1404    GENERAL CHEMISTRY II-LECTURES
EEEB UN2001    ENVIRONMENTAL BIOLOGY I
EESC UN2300    EARTH’S ENVIRO SYST: LIFE SYST

Climate System Core
15 points minimum (five courses):

Required: at least one Paleoclimate Course
- EESC GU4235    SEA LEVEL CHANGE
- EESC GU4330    Introduction to Terrestrial Paleoclimate
- EESC GU4480    Paleobiology and Earth System History
- EESC GU4920    PALEOCEANOGRAPHY
- EESC GU4937    CENOZOIC PALEOCEANOGRAPHY

Required: at least one Modern Climate Course
- EESC UN3109    CLIMATE PHYSICS
- EESC GU4008    Introduction to Atmospheric Science
- EESC GU4020    HUMANS # THE CARBON CYCLE
- EESC GU4040    CLIM THERMODYN/ENERGY TRANSFER
- EESC GU4925    Principles of Physical Oceanography
- EESC GU4930    EARTH’S OCEANS # ATMOSPHERE

Could include: Other Climate System Course
- EESC BC3109 Hydrology
- EESC UN3101    Geochemistry for a Habitable Planet
- EESC UN3201    SOLID EARTH DYNAMICS
- EESC GU4220    GLACIOLOGY
- EESC GU4835    Wetlands and Climate Change
- EESC GU4885    CHEMISTRY OF CONTINENTAL WATERS
- EESC GU4923    Biological Oceanography
- EESC GU4924    INTRO TO ATMOSPHERIC CHEMISTRY
- EESC GU4926    INTRO TO CHEMICAL OCEANOGRAPHY

Could include one: Supporting EESC Course
- EESC UN3400    COMPUTATIONAL EARTH SCIENCE
- EESC GU4210    GEOPHYSICAL FLUID DYNAMICS
- EESC GU4223    SEDIMENTARY GEOLOGY
- EESC GU4230    CRUSTAL DEFORMATION
- EESC GU4887    ISOTOPE GEOLOGY I
- EESC GU4888    Stable Isotope Geochemistry

Climate Solutions, Justice, Policy and Communication
6 points minimum (any two courses below):

Solutions Courses
- EESC BC3045    RESPONDING TO CLIMATE CHANGE (Barnard College)
- ARCH UN3120    CITY, LANDSCAPE, # ECOLOGY
- EAEE E2002    ALTERNATIVE ENERGY RESOURCES
- EAEE E2100    A BETTER PLANET BY DESIGN
- EAEE E4001    INDUST ECOLOGY-EARTH RESOURCES
- EAEE E4002    ALTERNATIVE ENERGY RESOURCES
- EAEE E4006    Field methods for environmental engineering
- EAEE E4300    INTRO TO CARBON MANAGEMENT
- EAEE E4302    CARBON CAPTURE
- EAEE E4301    CARBON STORAGE
- EAEE E4305    CO2 UTILIZATION AND CONVERSION
- CIEE E3250    HYDROSYSTEMS ENGINEERING
- MECE E4211    ENERGY SOURCES AND CONVERSION
- SDEV GU4250    CLIMATE CHANGE: RESILIENCE # ADAPTATION

Climate Justice, Policy, Economics
- ANTH BC3932    CLIMATE CH./GLOB. MIGRATION/HUMAN RIGHTS (Barnard College)
- ANTH V3861    Anthropology of the Anthropocene
- ARCH UN3400    ENVIRONMENTAL VISUALIZATIONS OF NYC
- ECON BC3039    ENVIRONMENTAL & NAT. RES. ECONOMICS (Barnard College)
- ECON BC3040    ENVIRONMENTAL LAW (Barnard College)
- ECON UN2257    THE GLOBAL ECONOMY
- ECON GU4750    GLOBALIZATION # ITS RISKS
- POLS UN3648    GOVERNING THE GLOBAL ECONOMY
- POLS GU4814    GLOBAL ENERGY: SECURITY/GEOPOL
- POLS GU4863    INTERNATIONAL POLITICAL ECONOMY OF DEVELOPING COUNTRIES
- SDEV UN3355    CLIMATE CHANGE AND LAW

392
SDEV UN3360 | DISASTERS AND DEVELOPMENT

Climate System Capstone
3 points minimum (one course):

EESC 3xxx Undergraduate Research Project (course is under development)

EESC UN3901 | SENIOR SEMINAR (taken twice, in fall and spring)

or EESC BC3800 followed by EESC UN3901

Approved Field Course focused on the Climate System
~6 weeks, must be proposed and then approved by DUS

CONCENTRATION IN EARTH SCIENCE

Please read Guidelines for all Earth Science, Environmental Science, & Climate System Science Majors, Concentrators, and Special Concentrators (p. 388) above.

The concentration in Earth science requires a minimum of 25 points, distributed as follows:

Foundation Courses
EESC UN2100 | EARTH'S ENVIRO SYST: CLIM SYST

or EESC UN2300 | EARTH'S ENVIRONMENTAL SYSTEMS: THE SOLID EARTH

EESC UN2200 | EARTH'S ENVIRONMENTAL SYSTEMS: THE SOLID EARTH

Supporting Mathematics and Science Courses
Two science or mathematics courses (6-7 points) selected from among those listed for the Earth science major above.

Depth and Breadth and Related Fields Requirements
A minimum of 10 points (typically three courses) is required as follows:

EESC UN3101 | Geochemistry for a Habitable Planet

or EESC UN3201 | SOLID EARTH DYNAMICS

One additional course chosen from those listed under Depth Requirement for the earth science major above.

The third course selected from those listed under either Depth Requirement or Breadth and Related Fields Requirement for the earth science major above.

CONCENTRATION IN ENVIRONMENTAL SCIENCE

Please read Guidelines for all Earth Science, Environmental Science, & Climate System Science Majors, Concentrators, and Special Concentrators (p. 388) above.

The concentration in environmental science requires a minimum of 25.5 points, distributed as follows:

Foundation Courses
EESC UN2100 | EARTH'S ENVIRO SYST: CLIM SYST

EESC UN2200 | EARTH'S ENVIRONMENTAL SYSTEMS: THE SOLID EARTH

EESC UN2300 | EARTH'S ENVIRO SYST: LIFE SYST

Supporting Mathematics and Science Courses
Two science or mathematics courses (6-7 points) selected from among those listed for the environmental science major above.

Depth and Breadth and Related Fields Requirements
A minimum of 6 points (two courses) is required as follows:

EESC UN3101 | Geochemistry for a Habitable Planet

or EESC UN3201 | SOLID EARTH DYNAMICS

One additional course selected from those listed under either Depth Requirement or Breadth and Related Fields Requirement for the environmental science major above.

SPECIAL CONCENTRATION IN ENVIRONMENTAL SCIENCE FOR MAJORS IN ENVIRONMENTAL BIOLOGY

Please read Guidelines for all Earth Science, Environmental Science, & Climate System Science Majors, Concentrators, and Special Concentrators (p. 388) above.

The Department of Earth and Environmental Sciences sponsors a special concentration which must be done in conjunction with the environmental biology major. Students should be aware that they must complete the environmental biology major in order to receive credit for the special concentration.

The special concentration in environmental science requires a minimum of 31.5 points, distributed as follows:

Introductory Environmental Science (13.5 points)
EESC UN2100 | EARTH'S ENVIRO SYST: CLIM SYST
**EESC UN2200**  EARTH'S ENVIRONMENTAL SYSTEMS: THE SOLID EARTH  
**EESC UN2300**  EARTH'S ENVIRO SYST: LIFE SYST

### Introductory Science (6 points)

Two courses in chemistry, physics, mathematics, or environmental biology from the supporting mathematics and science list for the environmental science major above.

### Advanced Environmental Science (12 points)

Four courses at the 3000-level or above chosen from those recommended for the environmental science major above.

Advanced courses used to fulfill requirements in the environmental biology major cannot count toward requirements for the special concentration.

---

## Special Concentration in Environmental Biology for Majors in Environmental Science

Please read Guidelines for all Earth Science, Environmental Science, & Climate System Science Majors, Concentrators, and Special Concentrators (p. 388) above.

The Department of Ecology, Evolution, and Environmental Biology sponsors a special concentration which must be done in conjunction with the environmental science major. Students should be aware that they must complete the environmental science major in order to receive credit for the special concentration.

The special concentration in environmental biology requires a minimum of 39 points, distributed as follows:

### Introductory Environmental Biology and Environmental Science (17 points)

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EEEB UN2001</td>
<td>ENVIRONMENTAL BIOLOGY I</td>
</tr>
<tr>
<td>EESC UN2100</td>
<td>EARTH'S ENVIRO SYST: CLIM SYST</td>
</tr>
<tr>
<td>EESC UN2200</td>
<td>EARTH'S ENVIRONMENTAL SYSTEMS: THE SOLID EARTH</td>
</tr>
<tr>
<td>EEEB UN2002</td>
<td>ENVIRONMENTAL BIOLOGY II</td>
</tr>
</tbody>
</table>

### Introductory Science (13 points)

Select one of the following chemistry sequences:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM UN1403 - CHEM UN1404</td>
<td>GENERAL CHEMISTRY I-LECTU and GENERAL CHEMISTRY II-LECTURES</td>
</tr>
</tbody>
</table>

### Advanced Environmental Biology (9 points)

Three additional advanced EEEB courses (3000-level and above), each chosen from a different curricular area (evolution/genetics, ecology/behavior/conservation, anatomy/physiology/diversity, biology laboratory courses).

Advanced courses used to fulfill requirements in the environmental science major cannot count toward requirements for the special concentration.

### Sustainable Development

Students interested in sustainable development should refer to the Sustainable Development section in this Bulletin.

### Fall 2022

#### EESC UN1001 DINOSAURS AND HISTORY OF LIFE. 4.00 points.

CC/GS: Partial Fulfillment of Science Requirement  
Given in alternate years.

Prerequisites: Recommended preparation: basic high school science and math.

Fall 2022: EESC UN1001  
<table>
<thead>
<tr>

#### EESC UN1030 OCEANOGRAPHY. 3.00 points.

CC/GS: Partial Fulfillment of Science Requirement
Enrollment limited to 160.

Explore the geology of the sea floor, understand what drives ocean currents and how ocean ecosystems operate. Case studies and discussions centered on ocean-related issues facing society

Fall 2022: EESC UN1030
Course  | Section/Call Number | Times/Location | Instructor | Points | Enrollment
--- | --- | --- | --- | --- | ---
EESC 1030 001/11575 | T Th 2:40pm - 3:55pm | Baerbel | 3.00 | 127/160
501 Northwest Corner

EESC UN1401 DINOSAUR # HISTORY OF LIFE-LEC.
CC/GS: Partial Fulfillment of Science Requirement
Given in alternate years.

Prerequisites: Recommended preparation: basic high school science and math.
Prerequisites: Recommended preparation: basic high school science and math. Dinosaurs: a spectacular example of a common, highly successful form of life, dominant for 135 million years. Where did they come from? Why were they so successful? Why did they die out? … or did they? A basic introduction to the historical sciences and the interface between geology and biology

Fall 2022: EESC UN1401
Course  | Section/Call Number | Times/Location | Instructor | Points | Enrollment
--- | --- | --- | --- | --- | ---
EESC 1401 001/11576 | M W 1:10pm - 2:25pm | Paul Olsen | 3.00 | 76/100
402 Chandler

EESC UN1600 EARTH RESOURCES # SUSTAIN DEV.
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: none; high school chemistry recommended.
Prerequisites: none; high school chemistry recommended. Survey of the origin and extent of mineral resources, fossil fuels, and industrial materials, that are non renewable, finite resources, and the environmental consequences of their extraction and use, using the textbook Earth Resources and the Environment, by James Craig, David Vaughan and Brian Skinner. This course will provide an overview, but will include focus on topics of current societal relevance, including estimated reserves and extraction costs for fossil fuels, geological storage of CO2, sources and disposal methods for nuclear energy fuels, sources and future for luxury goods such as gold and diamonds, and special, rare materials used in consumer electronics (e.g. :Coltan; mostly from Congo) and in newly emerging technologies such as superconducting magnets and rechargeable batteries (e.g. heavy rare earth elements, mostly from China). Guest lectures from economists, commodity traders and resource geologists will provide :real world; input. Discussion Session Required

Fall 2022: EESC UN1600
Course  | Section/Call Number | Times/Location | Instructor | Points | Enrollment
--- | --- | --- | --- | --- | ---
EESC 1600 001/11577 | T Th 1:10pm - 2:25pm | Peter | 3.00 | 134/200
417 International Affairs Bldg

EESC UN2100 EARTH’S ENVIRO SYST: CLIM SYST.
4.50 points.
Prerequisites: high school algebra. Recommended preparation: high school chemistry and physics; and one semester of college science. Origin and development of the atmosphere and oceans, formation of winds, storms and ocean currents, reasons for changes through geologic time. Recent influence of human activity: the ozone hole, global warming, water pollution. Laboratory exploration of topics through demonstrations, experimentation, computer data analysis, and modeling. Students majoring in Earth and Environmental Sciences should plan to take EESC W2100 before their senior year to avoid conflicts with Senior Seminar

Fall 2022: EESC UN2100
Course  | Section/Call Number | Times/Location | Instructor | Points | Enrollment
--- | --- | --- | --- | --- | ---
EESC 2100 001/11578 | T Th 11:40am - 12:55pm | Suzana De Camargo, Galen McKinley | 4.50 | 49/50
603 Schermerhorn Hall
EESC 2100 001/11578 | T 4:10pm - 7:00pm | Suzana De Camargo, Galen McKinley | 4.50 | 49/50
555 Ext Schermerhorn Hall

Spring 2023: EESC UN2100
Course  | Section/Call Number | Times/Location | Instructor | Points | Enrollment
--- | --- | --- | --- | --- | ---
EESC 2100 001/11149 | T Th 10:10am - 11:25am | Mingfang Gisela Winckler | 4.50 | 55/60
603 Schermerhorn Hall
EESC 2100 001/11149 | T 4:10pm - 7:00pm | Mingfang Gisela Winckler | 4.50 | 55/60
555 Ext Schermerhorn Hall

EESC UN2200 EARTH’S ENVIRONMENTAL SYSTEMS: THE SOLID EARTH.
4.50 points.
CC/GS: Partial Fulfillment of Science Requirement
Priority given to Columbia and Barnard earth science, environmental science, and environmental biology majors should enrollment limits be necessary.

Prerequisites: high school algebra and chemistry. Recommended preparation: high school physics. Recommended preparation: high school chemistry and physics; and one semester of college science. Exploration of how the solid Earth works, today and in the past, focusing on Earth in the Solar system, continents and oceans, the Earth's history, mountain systems on land and sea, minerals and rocks, weathering and erosion, glaciers and ice sheets, the hydrological cycle and rivers, geochronology, plate tectonics, earthquakes, volcanoes, energy resources. Laboratory exploration of topics through examination of rock samples, experimentation, computer data analysis, field exercises, and modeling. Columbia and Barnard majors should plan to take
The origin, evolution, and future of our planet, based on the chemistry I or their equivalents. MATH UN1101 Calculus I and CHEM UN1403 General Chemistry I or their equivalents. Prerequisites: Any 1000-level or 2000-level EESC course; points EESC UN3101 Geochemistry for a Habitable Planet.

After completing the course, students should be able to appreciate co-dependencies of natural and human systems, which are central to understanding sustainable development. The course provides students with the natural science basis to incorporate scientific approaches into their research or policy decisions and be able to use scientific methods of data analysis. The semester will highlight the climate system and its variations, and the atmospheres of the other planets. Applications to Earth’s atmospheric general circulation, climatic principles of atmospheric dynamics; cloud processes; thermodynamics; radiation physics and radiative transfer; basic physical processes controlling atmospheric structure: instructor’s permission.

This course will focus on the geochemical processes that built Earth from solar material, led to its differentiation into continents and ocean, and have maintained its surface at a comfortable temperature. Students will participate in a hands-on geochemistry project at Lamont-Doherty Earth Observatory. 

EESC UN3101 GEOCHEMISTRY FOR A HABITABLE PLANET. 3.00 points.
Prerequisites: EESC BC3800 or EESC BC3801 and a good grounding in basic sciences. Guided, independent, in-depth research culminating in the senior thesis in the spring. Includes discussion about scientific presentations and posters, data analysis, library research methods and scientific writing. Students review work in progress and share results through oral reports. Weekly seminar to review work in progress and share results through oral and written reports.

EESC UN3101 SENIOR SEMINAR. 3.00 points.
Prerequisites: EESC BC3800 or EESC BC3801 and a good grounding in basic sciences. Guided, independent, in-depth research culminating in the senior thesis in the spring. Includes discussion about scientific presentations and posters, data analysis, library research methods and scientific writing. Students review work in progress and share results through oral reports. Weekly seminar to review work in progress and share results through oral and written reports.

EESC UN2330 SCIENCE FOR SUSTAINABLE DEVPT. 3 points.
CC/GS: Partial Fulfillment of Science Requirement

EESC UN2330 SCIENCE FOR SUSTAINABLE DEVPT. 3 points.
CC/GS: Partial Fulfillment of Science Requirement

EESC UN3101 Geochemistry for a Habitable Planet. 3 points.
Prerequisites: Any 1000-level or 2000-level EESC course; MATH UN1101 Calculus I and CHEM UN1403 General Chemistry I or their equivalents.

EESC UN3101 GEOCHEMISTRY FOR A HABITABLE PLANET. 3.00 points.
Prerequisites: Any 1000-level or 2000-level EESC course; MATH UN1101 Calculus I and CHEM UN1403 General Chemistry I or their equivalents.

EESC UN2330 SCIENCE FOR SUSTAINABLE DEVPT. 3 points.
CC/GS: Partial Fulfillment of Science Requirement

EESC UN3101 SENIOR SEMINAR. 3.00 points.
Prerequisites: EESC BC3800 or EESC BC3801 and a good grounding in basic sciences. Guided, independent, in-depth research culminating in the senior thesis in the spring. Includes discussion about scientific presentations and posters, data analysis, library research methods and scientific writing. Students review work in progress and share results through oral reports. Weekly seminar to review work in progress and share results through oral and written reports.

EESC UN3101 SENIOR SEMINAR. 3.00 points.
Prerequisites: EESC BC3800 or EESC BC3801 and a good grounding in basic sciences. Guided, independent, in-depth research culminating in the senior thesis in the spring. Includes discussion about scientific presentations and posters, data analysis, library research methods and scientific writing. Students review work in progress and share results through oral reports. Weekly seminar to review work in progress and share results through oral and written reports.

EESC UN3101 SENIOR SEMINAR. 3.00 points.
Prerequisites: EESC BC3800 or EESC BC3801 and a good grounding in basic sciences. Guided, independent, in-depth research culminating in the senior thesis in the spring. Includes discussion about scientific presentations and posters, data analysis, library research methods and scientific writing. Students review work in progress and share results through oral reports. Weekly seminar to review work in progress and share results through oral and written reports.

EESC UN3101 GEOCHEMISTRY FOR A HABITABLE PLANET. 3.00 points.
Prerequisites: Any 1000-level or 2000-level EESC course; MATH UN1101 Calculus I and CHEM UN1403 General Chemistry I or their equivalents.

Students review work in progress and share results through oral reports. Weekly seminar to review work in progress and share results through oral and written reports.
Enrollment limited to 24. Priority given to graduate students in the natural sciences and engineering.

Prerequisites: Course Cap 20 students. Priority given to graduate students in the natural sciences and engineering. Advanced level undergraduates may be admitted with the instructor's permission. Calculus I and Physics I & II are required for undergraduates who wish to take this course. Prerequisites: Course Cap 20 students. Priority given to graduate students in the natural sciences and engineering. Advanced level undergraduates may be admitted with the instructors permission. Calculus I and Physics I # II are required for undergraduates who wish to take this course.

General introduction to fundamentals of remote sensing; electromagnetic radiation, sensors, interpretation, quantitative image analysis and modeling. Example applications in the Earth and environmental sciences are explored through the analysis of remote sensing imagery in a state-of-the-art visualization laboratory

EESC GU4085 GEODYNAMICS. 3.00 points.
CC/GS: Partial Fulfillment of Science Requirement
Given in alternate years.

Prerequisites: calculus, differential equations, introductory physics.
An introduction to how the Earth and planets work. The focus is on physical processes that control plate tectonics and the evolution of planetary interiors and surfaces; analytical descriptions of these processes; weekly physical model demonstrations

EESC GU4113 INTRODUCTION TO MINERALOGY I. 4.00 points.
Prerequisites: introductory geology or the equivalent, elementary college physics and chemistry, or the instructor's permission.
Prerequisites: introductory geology or the equivalent, elementary college physics and chemistry, or the instructors permission. Minerals come in dazzling colors, amazing shapes and with interesting optical effects. But mineralogy is also an essential tool for the understanding of Earth evolution. Minerals represent fundamental building blocks of the Earth system and planetary bodies. Minerals form through geological and biological processes such as igneous, metamorphic and sedimentary from high to low temperatures, from the deep interior to the Earth’s surface and related to volcanism, tectonics, weathering, climate and life. Minerals are one of our most important sources of information on such processes through Earth’s history. Minerals also represent important natural resources and are fundamental to the global economy and modern technology as we know it. The goal of this class is to (1) understand the physical and chemical properties of minerals, (2) learn techniques of mineral identification with an emphasis on optical mineralogy, (3) understand the relationship between minerals and the broader geological context

EESC GU4330 INTRODUCTION TO TERRIGENIC PALEOClimATE. 3 points.
CC/GS: Partial Fulfillment of Science Requirement
Given in alternate years.

An overview of the archives in which evidence of terrestrial paleoclimate is preserved, the approaches to developing and applying proxies of climate from these archives, approaches for constraining the time represented by the information, and interpretations that have been developed from such archives. Important archives to be included are ice cores, caves, wetlands, lakes, trees, and moraines. The time interval covered will be mostly the last few tens of thousand years, and chronometers based on radiocarbon, U-series and surface exposure dating will be presented. The course will consist of a formal lecture on one day and a recitation on the second day which will emphasize examples and problem solving

EESC GU4600 EARTH RESOURCES # SUSTAIN DEV. 3.00 points.
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: none; high school chemistry recommended. Prerequisites: none; high school chemistry recommended. This course is open to graduate students, and juniors and seniors within DEES, Sus Dev, Engineering, Chemistry, Physics, and APAM - or with the instructors permission. Survey of the origin and extent of mineral resources, fossil fuels, and industrial materials, that are non renewable, finite resources, and the environmental consequences of their extraction and use, using
the textbook Earth Resources and the Environment, by James Craig, David Vaughan and Brian Skinner. This course will provide an overview, but will include focus on topics of current societal relevance, including estimated reserves and extraction costs for fossil fuels, geological storage of CO2, sources and disposal methods for nuclear energy fuels, sources and future for luxury goods such as gold and diamonds, and special, rare materials used in consumer electronics (e.g., Coltan; mostly from Congo) and in newly emerging technologies such as superconducting magnets and rechargeable batteries (e.g. heavy rare earth elements, mostly from China). Guest lectures from economists, commodity traders and resource geologists will provide a real world context.

EESC GU4887 ISOTOPE GEOLOGY I. 3.00 points.
CC/GS: Partial Fulfillment of Science Requirement
Given in alternate years.

Prerequisites: For undergraduates, basic background in chemistry and physics, plus EESCUN2200(Earth Systems:SolidEarth and EESC UN3101 (Design and Maintenance of a Habitable Planet) or permission from the instructor. For graduate students: basic background in chemistry, physics and earth science.

Prerequisites: For graduate students, basic background in chemistry, physics and earth science. For undergraduates, basic background in chemistry and physics, plus EESC UN2200 Solid Earth and EESC UN3101 Geochemistry for a Habitable Planet, or permission from the instructor. An introduction to the processes that drive the universe, the formation of our solar system, and the history and evolution of our planet. Topics include stellar evolution and nucleosynthesis (origin of the elements), principles of radioactive decay and geochronology, composition of the solar system and the Earth, evolution of the mantle and crust, and using isotopes to trace to geological processes.

Points: 3
Enrollment: 15/30

EESC GU4925 Principles of Physical Oceanography. 3 points.
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: Recommended preparation: a solid background in mathematics, physics, and chemistry.

Physical properties of seawater, water masses and their distribution, sea-air interaction influence on the ocean structure, basic ocean circulation pattern, relation of diffusion and advection with respect to distribution of ocean properties, ocean tides and waves, turbulence, and introduction to ocean dynamics.

Fall 2022: EESC GU4925

Course Number: EESC 4925
Section/Call Number: 001/11591
Times/Location: T Th 8:40am - 9:55am
Instructor: Andreas Thurnherr
Points: 3
Enrollment: 21/25

EESC GU4949 Introduction to Seismology. 3 points.
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: advanced calculus and general physics, or the instructor's permission.

Methods and underpinnings of seismology including seismogram analysis, elastic wave propagation theory, earthquake source characterization, instrumentation, inversion of seismic data to infer Earth structure.

Fall 2022: EESC GU4949

Course Number: EESC 4949
Section/Call Number: 001/11592
Times/Location: T Th 11:40am - 12:55pm
Instructor: Felix Waldhauser
Points: 3
Enrollment: 5/40

EESC UN1010 GEOLO EXCUR TO DEATH VALLEY,CA. 2.00 points.
Enrollment limited to 20.

The trip is restricted to first-years and sophomores from Columbia College/General Studies, Barnard College, and the School of Engineering and Applied Science. Early application is advised, and no later than November 12. A spring-break excursion focused on the geology of Death Valley and adjacent areas of the eastern California desert. Discussion sessions ahead...
of the trip provide necessary background. Details at: https://eesc.columbia.edu/content/eesc-un1010

**EESC UN2300 EARTH'S ENVIRO SYST: LIFE SYST. 4.50 points.**

CC/GS: Partial Fulfillment of Science Requirement. Priority given to Columbia and Barnard earth science, environmental science, and environmental biology majors should enrollment limits be reinstated.

Prerequisites: high school algebra. Recommended preparation: high school chemistry and physics. Prerequisites: high school algebra. Recommended preparation: high school chemistry and physics. Role of life in biogeochemical cycles, relationship of biodiversity and evolution to the physical Earth, vulnerability of ecosystems to environmental change; causes and effects of extinctions through geologic time (dinosaurs and mammoths) and today. Exploration of topics through laboratories, demonstrations, computer data analysis and modeling. REQUIRED LAB: EESC UN2310. Students should see the Directory of Classes for lab sessions being offered and select one. Co-meets with EEEB 2002.

EESC UN3010 FIELD GEOLOGY. 3.00 points.
Fee: to be determined.

This is a field geology course focusing on the Apennine Mountains of central Italy, where a developing “accretionary prism” (associated with oceanic crust subduction) can be observed directly. Students will learn how to interpret the evolution of paleo-environments from the sediment lithologies, textures, fossils, compositions; and the tectonic history from the present day spatial and structural relationships. The rocks range from early Mesozoic oceanic crust and sediments to late Cenozoic sediments impacted by the rise of the Alps. The course visits several classic geological localities, including the Gubbio site of the discovery that the dinosaur extinction was caused by a meteorite, a Carrara Marble quarry (favored by Michelangelo for his sculptures), evaporite sediments from the dry-down of the Mediterranean, the magnificent Frasassi Cave, and effects of recent earthquakes. Prerequisites: EESC 2200 The Solid Earth System is a prerequisite but can be taken concurrently. EESC 2100 The Climate System is recommended. Interested students who have not met these prerequisites require a waiver from the instructors. This course is open to junior and senior majors and concentrators in Earth Science or Environmental Science at Columbia and Barnard. If there is space, sophomores who plan to be Earth Science or Environmental Science majors may be permitted to enroll. Non majors/concentrators may also be allowed with permission of the instructors. By necessity (number of van seats) the course is limited to 20 or 21 students
Spring 2023: EESC UN3010

EESC UN3109 CLIMATE PHYSICS. 3.00 points.
This is a calculus-based treatment of climate system physics and the mechanisms of anthropogenic climate change. By the end of this course, students will understand: how solar radiation and rotating fluid dynamics determine the basic climate state, mechanisms of natural variability and change in climate, why anthropogenic climate change is occurring, and which scientific uncertainties are most important to estimates of 21st century change. This course is designed for undergraduate students seeking a quantitative introduction to climate and climate change science. EESC V2100 (Climate Systems) is not a prerequisite, but can also be taken for credit if it is taken before this course

EESC UN3201 SOLID EARTH DYNAMICS. 3.00 points.
Prerequisites: any 1000-level or 2000-level EESC course; MATH UN1101 Calculus I and PHYS UN1201 General Physics I or their equivalents. Concurrent enrollment in PHYS UN1201 is acceptable with the instructor's permission. Prerequisites: any 1000-level or 2000-level EESC course; MATH UN1101 Calculus I and PHYS UN1201 General Physics I or their equivalents. Concurrent enrollment in PHYS UN1201 is acceptable with the instructors permission. Properties and processes affecting the evolution and behavior of the solid Earth. This course will focus on the geophysical processes that build mountains and ocean basins, drive plate tectonics, and otherwise lead to a dynamic planet. Topics include heat flow and mantle circulation, earthquakes and seismic waves, gravity, Earths magnetic field, and flow of glaciers and ice sheets

EESC UN3901 SENIOR SEMINAR. 3.00 points.
Prerequisites: EESC BC3800 or EESC BC3801 and a good grounding in basic sciences.
Guided, independent, in-depth research culminating in the senior thesis in the spring. Includes discussion about scientific presentations and posters, data analysis, library research methods and scientific writing. Students review work in progress and share results through oral reports. Weekly seminar to review work in progress and share results through oral and written reports.

**EESC GU4040 CLIM THERMODYN/ENERGY TRANSFER. 3.00 points.**

Given in alternate years.

Prerequisites: EESC GU4008, advanced calculus, and general physics, or the instructor's permission.

Thermodynamics of atmospheric and oceanic processes fundamental to the climate system. Physical mechanisms of vertical energy transfer: surface fluxes, boundary layers and convection.

**EESC GU4220 GLACIOLOGY. 3.00 points.**

Prerequisites: At least a year of calculus and physics; any 1000-level or 2000-level EESC course. Recommended: EESC2100 (Climate System), EESC2200 (Solid Earth), EESC3201 (Solid Earth Dynamics). Experience using MATLAB.

Prerequisites: At least a year of calculus and physics; any 1000-level or 2000-level EESC course. Recommended: EESC2100 (Climate System), EESC2200 (Solid Earth), EESC3201 (Solid Earth Dynamics). Experience using MATLAB, Python/Numpy. This course examines processes controlling how glaciers and ice sheets grow, retreat, modify their landscape and interact with the rest of the Earth system. We focus on what controls surface mass balance, the transformation from snow to ice, ice deformation, basal sliding, the temperature and age of ice, the flow of water through ice sheets and glaciers, and the two-way interactions between ice and the oceans, atmosphere and solid earth. Weekly lectures are accompanied by practical computer sessions that equip students with key numerical and data analysis skills used in research of glacial processes.

**EESC GU4235 SEA LEVEL CHANGE. 3.00 points.**

Prerequisites: At least a year of calculus and physics; any 1000-level or 2000-level EESC course; basic programming experience (e.g. EESC3400 - Introduction to Computational Earth Science). Recommended: EESC2100 (Climate System), EESC2200 (Solid Earth), EESC3201 (Solid Earth, Dynamics).

Prerequisites: At least a year of calculus and physics; any 1000-level or 2000-level EESC course; basic programming experience (e.g. EESC3400 - Introduction to Computational Earth Science). Recommended: EESC2100 (Climate System), EESC2200 (Solid Earth), EESC3201 (Solid Earth, Dynamics).

The course aims to explore sea level changes that take place over a wide variety of timescales and are the result of multiple solid Earth and climatic processes. The course will link a series of solid Earth processes such as mantle convection, viscoelastic deformation, and plate tectonics to the paleoclimate record and investigate how these processes contribute to our understanding of past and present changes in sea level and climate. The course will step chronologically through time starting with long term sea level changes over the Phanerozoic, followed by Plio-Pleistocene ice age sea level variations and the modern and future sea level change. This is a cross-disciplinary course, which is aimed at students with interests in geophysics, cryosphere evolution, ocean dynamics, sedimentology, paleogeography, and past and present climate change.

### EESC GU4630 AIR-SEA INTERACTION. 3.00 points.
Given in alternate years. Enrollment limited to 20. Priority based on seniority (graduate students, graduating seniors, etc.).

Prerequisites: solid background in mathematics, physics, and chemistry. Some background in fluid mechanics (as in EESC W4925/APPH E4200) or the instructor’s permission.

Prerequisites: solid background in mathematics, physics, and chemistry. Some background in fluid mechanics (as in EESC W4925/APPH E4200) or the instructor’s permission. An overview of oceanic and atmospheric boundary layers including fluxes of momentum, heat, mass, (eg. moisture salt) and gases between the ocean and atmosphere; vertical distribution of energy sources and sinks at the interface including the importance of surface currents; forced upper ocean dynamics, the role of surface waves on the air-sea exchange processes and ocean mixed layer processes

### EESC 4924 INTRO TO ATMOSPHERIC CHEMISTRY. 3.00 points.
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: Physics UN1201, Chem UN1403, & Math UN1201 (Calc III), or their equivalents. Recommended: EESC UN2100 or EESC GU4008.

Prerequisites: Physics W1201, Chemistry W1403, Calculus III, or equivalent or the instructors permission. EESC W2100 preferred. Physical and chemical processes determining atmospheric composition and the implications for climate and regional air pollution. Atmospheric evolution and human influence; basics of greenhouse effect, photolysis, reaction kinetics; atmospheric transport of trace species; stratospheric ozone chemistry; tropospheric hydrocarbon chemistry; oxidizing power, nitrogen, oxygen, sulfur, carbon, mercury cycles; chemistry-climate-biosphere interactions; aerosols, smog, acid rain

### EESC GU4926 INTRO TO CHEMICAL OCEANOGRAPHY. 3.00 points.
Given in alternate years.

Prerequisites: Recommended preparation: one year of chemistry.
Prerequisites: Recommended preparation: one year of chemistry. Factors controlling the concentration and distribution of dissolved chemical species within the sea.

The physical chemistry of seawater, ocean circulation and mixing, gas exchange and biogeochemical processes interact to influence the distribution and fate of elements in the ocean. The course examines in some detail the two-way interaction between marine ecosystems and their chemical environment, and the implications of these interactions for distributions in the ocean of carbon, nutrients and trace metals. Although this course does not cover specific strategies that have been proposed for Carbon Dioxide Removal (CDR) and ocean storage of carbon, it will cover the basic processes and principles underlying ocean CDR strategies

### EESC GU4937 CENOZOIC PALEOCEANOGRAPHY. 3.00 points.
Given in alternate years. Enrollment limited to 20 students EESC (DEES) graduate students have priority..

Prerequisites: college-level geology helpful but not required. Prerequisites: college-level geology helpful but not required. Introduces the physical, chemical and biological processes that govern how and where ocean sediments accumulate. Major topics addressed are: modes of biogenic, terrigenous and authigenic sedimentation, depositional environments, pore fluids and sediment geochemistry, diagenesis, as well as biostratigraphy and sediment stratigraphic principles and methods. Second half of the semester focuses on major events in Cenozoic paleoceanography and paleoclimatology including orbital control of climate, long-term carbon cycle, extreme climate regimes, causes of ice ages in Earths history, human evolution, El Niño evolution, and long-term sea level history

EAST ASIAN LANGUAGES AND COURSES

Departmental Office: 407 Kent; 212-854-5027
ealac.columbia.edu/

Director of Undergraduate Studies: Prof. Jungwon Kim, 402 Kent; jk3638@columbia.edu

The program in East Asian studies offers a wide range of courses in a variety of disciplines, as well as training in the Chinese, Japanese, Korean, and Tibetan languages. The program is designed to provide a coherent curriculum for undergraduates wishing to major in East Asian studies, with disciplinary specialization in anthropology, art history, economics, history, literature, philosophy, political science, sociology, or religion. The department also offers a series of introductory and thematic courses especially designed for students seeking to acquire some knowledge of East Asia as part of their broader undergraduate experience.

ADMISSION TO LANGUAGE COURSES

All students wishing to enter the language program at another point besides the first term of the first level must pass a language placement test before registering. The language placement exams are held during the change of program period, the week before classes begin.
Students who have been absent from the campus for one term or more must take a placement test before enrolling in a language course beyond the first term of the first level.

Students who wish to place out of the Columbia College Foreign Language Requirement for a language taught in the department of East Asian Languages and Cultures must consult with the director of the relevant language program. The names of the directors, and additional information about East Asian language programs, can be accessed via the department website at http://ealac.columbia.edu/program/language-programs/.

**Language Laboratory**

An additional hour of study in the language laboratory is required in first-year Japanese (JPNS UN101 and JPNS UN1102).

- **JPNS UN1101** FIRST YEAR JAPANESE I
- **JPNS UN1102** and FIRST YEAR JAPANESE II

Students taking these courses must attend all assigned language laboratory sessions. Grades for written and oral work in the language laboratory and for additional work in oral drill sessions count as 10% of the final grade in the course. Assignments of laboratory hours are made during the first session of the regular classes.

**Course Numbering**

The following are general guidelines to the numbering of department courses open to undergraduates. Students with questions about the nature of a course should consult with the instructor or the Director of Undergraduate Studies.

- **1000-level**: Introductory-level undergraduate courses and first-year language courses
- **2000-level**: Intermediate-level undergraduate courses and second-year language courses
- **3000-level**: Advanced-level undergraduate courses and third-year language courses
- **4000-level**: Advanced courses geared toward undergraduate students available to graduate students or geared toward both undergraduate and graduate students, fourth-year and above language courses

**Study Abroad**

East Asian Studies majors or concentrators who opt to spend the spring semester of their junior year abroad should contact the Director of Undergraduate Studies for information about course selection in the sophomore year.

Students planning to study abroad their junior year must take the required disciplinary and senior thesis-related courses in the spring of their sophomore year. Please contact the Director of Undergraduate Studies for more details.

Through the Columbia University Center for Undergraduate Global Engagement (UGE), there are a few study abroad options available to students:

**The Kyoto Consortium for Japanese Studies**

The Kyoto Consortium offers Columbia students the opportunity to study in Japan with a program that offers intensive instruction in the Japanese language and courses that explore a wide range of topics in Japanese studies. The program is designed to strengthen your Japanese skills through intensive language training, cultural immersion, and regular interactions with the local community and/or your host family.

**Academic Year/Semester Study**

*Modern Japanese Track*

This program is open to students in good academic standing who have completed at least one year of college-level Japanese or the equivalent. Recent graduates may also apply.

*Classical Japanese Track*

This program is open to students in good academic standing who have completed three years of college-level Japanese or the equivalent

**Columbia Summer in Beijing: Chinese Language Program**

The Columbia Summer in Beijing: Chinese Language program offers Columbia students of all language levels (beginner to advanced) the opportunity to study in Beijing and complete one academic year of Chinese in nine weeks through intensive courses, language exchange, drill sessions, and cultural activities.

**Columbia Summer in Shanghai: Business Chinese**

The Columbia Summer in Shanghai: Business Chinese program offers Columbia students the opportunity to learn Business Chinese through an intensive course in which students can learn the cultural behaviors, jargon, and linguistic styles used in a professional environment as well as develop their resume and interview skills for multinational businesses. Students should have the equivalent of four semesters of college-level Chinese completed before their departure.
For further information about all of the East Asian programs offered through the Columbia University Center for Undergraduate Global Engagement (UGE), please contact the assigned advisor for each program listed on the UGE website.

**GRADING**

Courses in which the grade of D or P has been received do not count toward the major or concentration requirements.

All language courses must be taken for a letter grade, without exception. Students may not take language courses for either R-Credit or Pass/Fail.

**DEPARTMENTAL HONORS**

Departmental honors are conferred only on East Asian Studies majors who have earned a grade point average of at least 3.6 for courses in the major, have pursued a rigorous and ambitious program of study, and have submitted senior theses of superior quality, clearly demonstrating originality and excellent scholarship. Qualified seniors are nominated by their thesis advisers. Normally no more than 10% of graduating majors receive departmental honors in a given academic year. Concentrators are not eligible for departmental honors.

Major in East Asian Studies

The requirements for this program were modified in the Spring 2017 semester. Students who declared an EAS major before this semester have the option of following the old or the new requirements. If you have any questions, please contact the Director of Undergraduate Studies.

Prerequisite

Students must meet the following prerequisite prior to declaring the East Asian Studies major: two years of Chinese, Japanese, Korean, Tibetan, Vietnamese, or the proficiency equivalent (to be demonstrated by placement examination).

Language Requirement

Third-year Chinese, Japanese, Korean, Tibetan, or Vietnamese (completion of the UN3005-UN3006 level in Chinese, Japanese, or Korean; TIBT UN3611-UN3612 level in Tibetan; VIET UN3101-UN3102), or the proficiency equivalent (to be demonstrated by placement examination). Students of Chinese may also complete UN3003-UN3004 to meet the third-year requirement.

One of the following sequences (in the target language):

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHNS UN3003</td>
<td>THIRD YEAR CHINESE I</td>
</tr>
<tr>
<td>- CHNS UN3004</td>
<td>and THIRD YEAR CHINESE II</td>
</tr>
<tr>
<td>CHNS UN3005</td>
<td>THIRD YEAR CHINESE W</td>
</tr>
<tr>
<td>- CHNS UN3006</td>
<td>and THIRD YEAR CHINESE W II</td>
</tr>
<tr>
<td>JPNS UN3005</td>
<td>THIRD YEAR JAPANESE I</td>
</tr>
<tr>
<td>- JPNS UN3006</td>
<td>and THIRD YEAR JAPANESE II</td>
</tr>
<tr>
<td>KORN UN3005</td>
<td>THIRD YEAR KOREAN I</td>
</tr>
<tr>
<td>- KORN UN3006</td>
<td>and THIRD YEAR KOREAN II</td>
</tr>
<tr>
<td>TIBT UN3611</td>

</tr>
<tr>
<td>- TIBT UN3612</td>
<td>and THIRD YEAR MODERN TIBETAN II</td>
</tr>
<tr>
<td>VIET UN3101</td>
<td>THIRD YEAR VIETNAMESE I</td>
</tr>
</tbody>
</table>

Students who test out of three years or more of a language must take an additional year of that language or another East Asian language at Columbia in order to satisfy the language requirement.

Introductory Courses

Students are required to take:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>AHUM UN1400</td>
<td>COLLOQUIUM ON MAJOR TEXTS</td>
</tr>
</tbody>
</table>

Students must also select two of the following:

<table>
<thead>
<tr>

<td>INTRO TO EAST ASIAN CIV: KOREA</td>
</tr>
<tr>
<td>ASCE UN1365</td>
<td>INTRO TO EAST ASIAN CIV: TIBET</td>
</tr>
<tr>
<td>ASCE UN1367</td>
<td>INTRO EA CIV: VIETNAM</td>
</tr>
</tbody>
</table>

First-year students and sophomores, prior to declaring an East Asian studies major, are strongly urged to take one or more of the introductory courses.

Methodology Course

All majors must take EAAS UN3990 APPROACHES TO EAST ASIAN STUDIES the fall of their junior year. Please note that this course is only offered in the fall semester.

Elective Courses

Students must take four elective courses in East Asian studies, to be chosen in consultation with the DUS. Two of these courses must be EALAC or AMEC courses. Courses in a second East Asian language (one year minimum) or a classical East Asian language (one semester minimum) may be used to fulfill one elective course.

Please note that the following courses CANNOT be counted as an elective course. These courses can only be used to fulfill the EALAC language requirement:

- Business Chinese I/II
- Advanced Business Chinese I/II
- Media Chinese I/II
- Legal Chinese
- Japanese Pop Culture I/II

However, the following courses are NOT categorized as language courses and CAN count as an elective course:
• History of the Chinese Language
• Acquisition of Chinese as a Second Language

Senior Thesis Program
East Asian Studies majors who wish to write a senior thesis apply to the EALAC Senior Thesis Program at the end of their junior year. Students must have a minimum grade point average of 3.6 in courses taken in the major at the time of the application. Students interested in applying to the Senior Thesis Program should submit the EALAC Senior Thesis Program Application (see Undergraduate Planning Sheets and Forms). The deadline for submitting applications is usually in late April or early May. Please contact the Academic Coordinator for more information about the application process.

All potential thesis writers are required to enroll in the Senior Thesis Research Workshop (EAAS UN3999) in the fall of the senior year. Students who perform satisfactorily in this workshop, successfully complete a thesis proposal, and find a faculty adviser will then write the Senior Thesis itself in the spring semester under the direction of the adviser and a graduate student tutor (EAAS UN3901).

The senior thesis typically consists of about 30-35 pages of text (double-spaced, normal typeface and margins) and 5-8 pages of references. Under no circumstances should a thesis exceed a total of 50 pages (including references), without the special permission of the faculty adviser.

Successful completion of the thesis by the April 1 deadline in the spring semester will be necessary but not sufficient for a student to receive departmental honors. Normally no more than 10% of graduating majors receive departmental honors in a given academic year; as such, not all thesis writers will receive honors.

CONCENTRATION IN EAST ASIAN STUDIES

Prerequisite
Students must meet the following prerequisite prior to declaring the East Asian Studies concentration: two years of Chinese, Japanese, Korean, Tibetan, Vietnamese, or the proficiency equivalent (to be demonstrated by placement examination).

Language Requirement
Third-year Chinese, Japanese, Korean, Tibetan, or Vietnamese (completion of the UN3005-UN3006 level in Chinese, Japanese, or Korean; TIBT UN3611-UN3612 level in Tibetan; VIET UN3101-UN3102), or the proficiency equivalent (to be demonstrated by placement examination). Students of Chinese may also complete UN3003-UN3004 to meet the third-year requirement.

Introductory Courses

| AHUM UN1400 | COLLOQUIUM ON MAJOR TEXTS |
| Select one of the following: |
| ASCE UN1359 | INTRO TO EAST ASIAN CIV: CHINA |
| ASCE UN1361 | INTRO EAST ASIAN CIV: JPN |
| ASCE UN1363 | INTRO TO EAST ASIAN CIV: KOREA |
| ASCE UN1365 | INTRO EAST ASIAN CIV: TIBET |
| ASCE UN1367 | INTRO EA CIV: VIETNAM |

Electives

Students must take two courses in East Asian Studies at Columbia or Barnard at the 3000- or 4000-level, subject to approval by the DUS. Courses in a second East Asian language (one year minimum) or a classical East Asian language (one semester minimum) may be used to fulfill one elective course.

Please note that the following courses CANNOT be counted as an elective course. These courses can only be used to fulfill the EALAC language requirement:

- Business Chinese I/II
- Advanced Business Chinese I/II
- Media Chinese I/II
- Legal Chinese
- Japanese Pop Culture I/II

However, the following courses are NOT categorized as language courses and CAN count as an elective course:
• History of the Chinese Language
• Acquisition of Chinese as a Second Language

**Senior Thesis Program**

Concentrators are not eligible for the Senior Thesis Program or for departmental honors.

**NOTE:** Courses without scheduling information are not offered during this current semester. Please also consult the Directory of Classes for course information before emailing the contact below.

If you have any course-related questions, please contact the EALAC Academic Coordinator.

Corequisites: ASCE UN1377

This course provides a survey of Vietnamese civilization from prehistoric origins to the French colonization in the 19th century, with special emphasis on the rise and development of independent kingship over the 2nd millennium CE. We begin by exploring etholinguistic diversity of the Red River plain over the first millennium BCE, culminating in the material bronze culture known as the Dong Son. We then turn towards the introduction of high sinitic culture, and the region’s long membership within successive
written traditions, but they speak with force and clarity to fieldwork. The core materials for this class are from ancient readings also leads students to reconsider the nature of 'world of East Asian culture. Inclusion of selected comparative Korea, this course provides a survey of significant themes through close readings of major myths of China, Japan, and EAAS UN2342 Mythology of East Asia. 4 points. Through close readings of major myths of China, Japan, and Korea, this course provides a survey of significant themes of East Asian culture. Inclusion of selected comparative readings also leads students to reconsider the nature of 'world mythology,’ a field often constituted by juxtaposing Greek and Latin classics with oral texts collected during anthropological fieldwork. The core materials for this class are from ancient written traditions, but they speak with force and clarity to modern readers, as is underlined by our attention to latter-day reception and reconceptualization of these narratives. This is an introductory, discussion-based class intended for undergraduates. No prior knowledge of East Asian history or culture is required, and all course readings are in English. Satisfies the Global Core requirement.

EAAS UN3215 KOREAN LITERATURE # FILM. 3.00 points.
Prerequisites: weekly film screening required.
This course traces the history of Korean cinema and literature from the 1930s to the early 2000s. Particular attention is given to colonialism, national division, war, gender relations, authoritarianism, urbanization, consumer culture, and diaspora. What kinds of familial, social, economic, and political relations do these films and literary works envision? We will link films and literary texts to their historical context, noting how representations of people, places, and ideas have changed over time—from colonialism, through poverty and malaise in the aftermath of the Korean War, to North Korea’s continuing search for autonomy in the world system and South Korea’s current position as global economic power and maker of the “Korean Wave ”

EAAS UN3217 KOREAN POPULAR CINEMA. 4.00 points.
This course surveys modern Korean culture and society through Korean popular cinema. Drawing from weekly screenings and readings on critical film and Korean studies, we will explore major topics and defining historical moments in modern Korean history post-1945.

EAAS UN3310 SOCIAL PROB IN CONTEMPT CHINA. 3.00 points.

EAAS UN3322 EAST ASIAN CINEMA. 4.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement
This course introduces students to major works, genres and waves of East Asian cinema from the Silent era to the present, including films from Japan, Korea, Mainland China, Taiwan and Hong Kong. How has cinema participated in East Asian societies’ distinct and shared experiences of industrial modernity, imperialism and (post)colonialism? How has cinema engaged with questions of class, gender, ethnic and language politics? In what ways has cinema facilitated transnational circulations and mobilizations of peoples and ideas, and how has it interacted with other art forms, such as
theatre, painting, photography and music? In this class, we answer these questions by studying cinemas across the region side-by-side, understanding cinema as deeply embedded in the region’s intertwining political, social and cultural histories and circulations of people and ideas. We cover a variety of genres such as melodrama, comedy, historical epic, sci-fi, martial arts and action, and prominent film auteurs such as Yasujirō Ozu, Akira Kurosawa, Yu Hyōnomok, Chen Kaige, Hou Hsiao-hsien, and Ann Hui. As cinema is, among other things, a creative practice, in this course, students will be given opportunities to respond to films analytically and creatively, through writing as well as creative visual projects. As a global core course, this class does not assume prior knowledge of East Asian culture or of film studies.

Spring 2023: EAAS UN3322
Course Number: 3.00 points
Section/Call Number: W 4:10pm - 6:00pm
Times/Location: 326 Uris Hall
Instructor: Tsunoda
Points: 51/40
Enrollment: 410

EAAS UN3338 CULTRL HIST-JAPANESE MONSTERS. 3.00 points.
Priority is given to EALAC and History majors, as well as to those who have done previous coursework on Japan.

From Godzilla to Pokemon (literally, pocket monster) toys, Japanese monsters have become a staple commodity of late-capitalist global pop culture. This course seeks to place this phenomenon within a longer historical, as well as a broader cross-cultural, context. Through an examination of texts and images spanning over thirteen centuries of Japanese history, along with comparable productions from other cultures, students will gain an understanding not only of different conceptions and representations of monsters, ghosts, and other supernatural creatures in Japan, but also of the role of the monstrous in the cultural imagination more generally. The course draws on various media and genres of representation, ranging from written works, both literary and scholarly, to the visual arts, material culture, drama, and cinema. Readings average 100-150 pages per week. Several film and video screenings are scheduled in addition to the regular class meetings. Seating is limited, with final admission based on a written essay and other information to be submitted to the instructor before the beginning of the semester.

Fall 2022: EAAS UN3338
Course Number: M W 11:40am - 12:55pm
Times/Location: 327 Uris Hall
Instructor: Pflugfelder
Points: 14/15
Enrollment: 83

EAAS UN3435 Chinese Revolution, Asian Revolution, World Revolution: Revolution and Radicalism in the Long Twentieth Century. 4.00 points.
This course examines the Chinese Revolution as a global event, one that provided new possibilities for understanding the future not only of China, but Asia and the world. In doing so, it refuses any notion of the Chinese Revolution as a merely "Chinese" event and instead marks the ways in which diverse sets of activists and revolutionaries from across Asia not only contributed towards the formation of Chinese revolutionary politics but also responded on their own terms. The Chinese Revolution thereby emerges as a truly global event and one that transformed political imagination. The course focuses largely on the responses and trajectories of Asian revolutionaries, especially from Vietnam and Japan, whose intellectual and political paths intersected with those of Chinese activists. Students can expect to work through the diverse intellectual interventions of pan-Asian diasporic communities in Japan at the beginning of the twentieth century, read interwar proletarian fiction from Chinese and Japanese authors, compare Chinese and Vietnamese conceptualizations of "people's war" as an anti-colonial military strategy. They will emerge with a new understanding of the porousness and complexity of basic categories such as China, Asia and revolution.

EAAS UN3575 Approaching Cities and Life in Chinese Cultural History. 4.00 points.
Italo Calvino's imagined Marco Polo cautions against commemorating the lived experience of a city, "Memory's images, once they are fixed in words, are erased." How shall we modern students of the past retrieve the ways in which foreign men and women dwelled in everyday practice? This seminar will take you on a tour of some key topoi — as both physical and literary constructs — throughout Chinese history, availing of a selection of textual, visual, and cinematic materials that shape and are shaped by the palimpsests of changing Chinese urban life.

Fall 2022: EAAS UN3575
Course Number: M 4:10pm - 6:00pm
Times/Location: 405 Kent Hall
Instructor: Zhang
Points: 12/15
Enrollment: 51/40

HSEA UN3642 Peripheries of the Sinitic World through History. 3.00 points.
This course surveys the southern and western peripheries of the political entities we today call China from the turn of the 1st millennium CE to the early 20th century. It does so primarily through translations of primary sources - travelogues and geographies- up to the 16th century, at which point it turns its attention to recently published monographs of varying breadth that can cover more ground, given the sheer number of available primary sources from that time on. No prerequisites but Introduction to East Asian Civilizations: Tibet, China, or Vietnam is recommended.

EAAS UN3710 FICTION, FILM, AND MODERN VIETNAM. 4.00 points.
This course examines film, TV, and a variety of short fiction as vehicles for the production of Vietnamese cultural identities in the modern era.
AHUM UN3830 COLL ON MODERN EAST ASIA TEXTS. 4.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

Prerequisites: AHUM UN3400 is recommended as background.

Introduction to and exploration of modern East Asian literature through close reading and discussion of selected masterpieces from the 1890s through the 1990s by Chinese, Japanese, and Korean writers such as Mori Ogai, Wu Jianren, Natsume Soseki, Lu Xun, Tanizaki Jun’ichiro, Shen Congwen, Ding Ling, Eileen Chang, Yi Sang, Oe Kenzaburo, O Chong-hui, and others. Emphasis will be on cultural and intellectual issues and on how literary forms manifested, constructed, or responded to rapidly shifting experiences of modernity in East Asia

Fall 2022: AHUM UN3830
Course Number  Section/Call Number  Times/Location  Instructor  Points  Enrollment
AHUM 3830  001/16921  M 12:10pm - 2:00pm  405 Kent Hall  Yuki Ishida  4.00  19/18

HSEA UN3851 GODS, GHOSTS, AND ANCESTORS: RELIGION IN CHINESE CULTURE AND SOCIETY. 3.00 points.

Examines the social and cultural place of Chinese religions through time, focusing on Chinese ideas of the relation between humans and spirits, and the expression of those ideas in practice. Problems will include the long-term displacement of ancestors by gods in Chinese history; the varying and changing social functions of rituals, and the different views of the same ritual taken by different participants; the growth of religious commerce from early modern times on. Topics will be organized roughly chronologically but the emphasis is on broad change rather than historical coverage

HSEA UN3871 MODERN JAPAN: IMAGES # WORDS. 3.00 points.

This course relies primarily on visual materials to familiarize students with the history of Japan from the beginning of the nineteenth century through the present. It follows a chronological order, introducing students to various realms of Japanese visual culture—from woodblock prints to film, anime, and manga—along with the historical contexts that they were shaped by, and in turn helped shape. Special attention will be paid to the visual technologies of nation-building, war, and empire; to historical interactions between Japanese and Euro-American visual culture; to the operations of still versus moving images; and to the mass production of visual commodities for the global marketplace. Students who take the course will emerge not only with a better understanding of Japan’s modern historical experience, but also with a more discerning eye for the ways that images convey meaning and offer access to the past.

HSEA UN3898 THE MONGOLS IN HISTORY. 3.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

Study of the role of the Mongols in Eurasian history, focusing on the era of the Great Mongol Empire. The roles of Chinggis and Khubilai Khan and the modern fate of the Mongols to be considered

EAAS UN3927 CHINA IN THE MODERN WORLD. 3.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

The rise of China has impacted world politics and economy in significant ways. How did it happen? This course introduces some unique angles of self-understanding as suggested by Chinese writers, intellectuals, and artists who have participated in the making of modern China and provided illuminating and critical analyses of their own culture, history, and the world. Readings cover a wide selection of modern Chinese fiction and poetry, autobiographical writing, photography, documentary film, artworks, and music with emphasis on the interplays of art/literature, history, and politics. Close attention is paid to the role of storytelling, the mediating powers of technology, new forms of visuality and sense experience, and the emergence of critical consciousness in response to global modernity. In the course of the semester, a number of contemporary Chinese artists, filmmakers, and writers are invited to answer students’ questions. This course draws on cross-disciplinary methods from art history, film studies, anthropology, and history in approaching texts and other works. The goal is to develop critical reading skills and gain in-depth understanding of modern China and its engagement with the modern world beyond the cold war rhetoric. Our topics of discussion include historical rupture, loss and melancholy, exile, freedom, migration, social bonding and identity, capitalism, nationalism, and the world revolution. All works are read in English translation.

EAAS UN3990 APPROACHES TO E ASIAN STUDIES. 4.00 points.

Enrollment is limited to EALAC and AMEC majors and concentrators only.

This course is intended to provide a focal point for undergraduate majors in East Asian Studies. It introduces students to the analysis of particular objects of East Asian historical, literary, and cultural studies from various
disciplinary perspectives. The syllabus is composed of a series of modules, each centered around an object, accompanied by readings that introduce different ways of understanding its meaning.

EARL GU4023 Women in Buddhism. 4.00 points.

This course examines a broad array of topics related to the nature of women in Buddhism, both as presented in historical and religious texts as well as in the lives of female Buddhist practitioners. Our aim will be to consider these rules and traditions within the context of their creation as well as their subsequent use. We will also look to the words and examples of women Buddhist practitioners directly, including in modern Western Buddhism.

HSEA GU4027 ISSUES IN EARLY CHINESE CIV. 4.00 points.

The purpose of this course is to introduce students to the basic issues and problems in the study of early Chinese civilization, some theoretical and others methodological. Through the review of a long series of debates the course offers a quick entrance both to this early period of history and to these studies. Organized around problems, the course encourages critical thinking and contesting arguments and helps the students weigh different positions addressing the problems. By doing so, the course guides the students to search for frontline questions and to probe possible ways to solve the problems. The course deals with both the written records (inscriptive and textual) and the material evidence, and the student can well expect this course to serve as also updates of the most fascinating archaeological discoveries in China made in the past decades. The course is designed as an upper-level undergraduate and MA course; therefore, it is recommended that undergraduate students should take "ASCE V2359: Introduction to East Asian Civilizations: China" before participating in this course.

EAAS GU4111 Modern Chinese Poetry in a Global Context. 4.00 points.

In this course, we will take modern Chinese poetry as a crucible in which we can observe the interacting forces of literary history and social change. From diplomats who saw poetry as a medium for cultural translation between China and the world, to revolutionaries who enlisted poetry in the project of social transformation, we will examine the lives and works of some of China’s most prominent poets and ask, what can we learn about modern China from reading their poetry? In addition to poems, the course will include fiction, essays, photographs, and films by both Chinese and non-Chinese artists that place our poets in a broader context; topics of discussion include national identity, revolution, translation, gender, the body, ethnicity, and technology.

EARL GU4120 CHAN/ZEN BUDDHISM. 4.00 points.

Prerequisites: Some background in East Asian Buddhism, or instructor permission required.

Prerequisites: Some background in East Asian Buddhism, or instructor permission required. Zen has become a household term, but the reality behind this term is not well known. Originating in China around the 6th century C.E. the Chan/Zen tradition became one of the major Buddhist schools and rapidly spread to Korea, Japan, Vietnam (and, to a certain extent, Tibet). This course examines some aspects of this tradition, emphasizing its historical development, its mythological elements, and its multifaceted practice, which has for too long been reduced in the Western mind to meditation.

EAAS GU4122 Japanese New Wave and Cinematic Modernism. 4 points.

This course will delve into an analytical reconsideration of postwar Japanese cinema specifically from the perspective of the Japanese New Wave. While we will aim to capture the exhilaration of the Japanese New Wave by closely analyzing existing studies on some of its key makers and their works, special attention will be given to what is left out of the category as it is conventionally understood, drawing on marginalized works and genres, such as educational and industrial films as well as pink films.

EAAS GU4160 CULTURES IN COLONIAL KOREA. 3.00 points.

This course examines the processes of colonization that played a central role in locating Korea in an integrated world in the first half of the twentieth century. We will analyze the ways in which the intersections among an array of contemporary global issues and concerns (to name a few- social Darwinism, migration, urban space, gender, sexuality, militarism, race,
We explore the vastly divergent effects of urban real-estate development on Chinese citizens, from the most marginalized communities in remote regions of Tibet and Xinjiang to hyper-wealthy investors in Manhattan. Although this course has no formal prerequisites, it assumes some basic knowledge of Chinese history. If you have never taken a course on China before, please ask me for guidance on whether or not this class is suitable for you. The syllabus is preliminary and subject to change based on breaking news events and the needs of the class.

EAAS GU4217 CHINA ON STAGE. 4.00 points.
This course explores how Chinese identity and society have been staged in theatre productions over the past century. Course content includes play scripts in English translation, videos, photographs, archival materials, and English-language books and articles about Chinese theater.

HSEA GU4218 Toward an intellectual history of Vietnam in the 20th century. 3.00 points.
This course traces the transformation of Vietnamese intellectual activity in the 20th century across a number of major social and political changes, from colonialism to socialism. It considers the circulation of ideas, religion, and cultural productions in shaping intellectual thought and Vietnamese history on a larger scale.

HSEA GU4220 ISLAM IN CHINA AND INNER ASIA. 4.00 points.
This seminar surveys the history of Islam, both in the Chinese interior and neighboring Inner Asia (primarily Xinjiang), from its arrival to the present day. Beginning with the first legendary accounts of migration from the Middle East to China, we trace the growth of an identifiable Muslim community in the age of the Mongol empire, then look at Ming China’s interactions with the Islamic world, the Qing expansion into Inner Asia, and conclude by discussing modernist and nationalist trends of the twentieth-century.

EAAS GU4226 GENDER, CLASS, REAL ESTATE—CHINA. 4.00 points.
This is a seminar for advanced undergraduates and master’s degree students, which explores the socioeconomic consequences of China’s development of a boom, urban residential real-estate market since the privatization of housing at the end of the 1990s. We will use the intersecting lenses of gender/sexuality, class and race/ethnicity to analyze the dramatic new inequalities created in arguably the largest and fastest accumulation of residential-real estate wealth in history. We will examine topics such as how skyrocketing home prices and state-led urbanization have created winners and losers based on gender, sexuality, class, race/ethnicity and location (hukou), as China strives to transform from a predominantly rural population to one that is 60 percent urban by 2020.

We explore the vastly divergent effects of urban real-estate development on Chinese citizens, from the most marginalized communities in remote regions of Tibet and Xinjiang to hyper-wealthy investors in Manhattan. Although this course has no formal prerequisites, it assumes some basic knowledge of Chinese history. If you have never taken a course on China before, please ask me for guidance on whether or not this class is suitable for you. The syllabus is preliminary and subject to change based on breaking news events and the needs of the class.

EAAS GU4236 CHINA’S LONG 1980’S: INTERROGATING THE CULTURAL POLITICS OF REFORM AND OPENING. 4 points.
This course examines the experiences and legacies of China’s “long 1980’s” (1978-1992), a time characterized by a state-led turn from central planning to a market approach to economic and social governance, an increasing integration of China into the world economy, and the emergence of a “cultural fever” characterized by artistic experimentations at all levels of society.

EARL GU4310 LIFE WRIT/TIBET BUDDHIST LIT. 4.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement
This course engages the genre of life writing in Tibetan Buddhist culture, addressing the permeable and fluid nature of this important sphere of Tibetan literature. Through Tibetan biographies, hagiographies, and autobiographies, the class will consider questions about how life-writing overlaps with religious doctrine, philosophy, and history. For comparative purposes, we will read life writing from Western (and Japanese or Chinese) authors, for instance accounts of the lives of Christian saints, raising questions about the cultural relativity of what makes up a life’s story.

EARL GU4312 TIBETAN SACRED SPACE(IN COMPARATIVE CONT. 4.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement
Through interdisciplinary theoretical approaches (mostly in the fields of religion, anthropology, literature, and history), this course engages the genre of writing about sacred space in Tibetan Buddhist culture, addressing the micro (built environment) and macro (natural environment) levels of this important sphere of Tibetan literature. Through Tibetan pilgrimage accounts, place (monasteries, temples, etc) based guidebooks, geographically focused biographies, and pictorial representations of place, the class will consider questions about how place-writing overlaps with religious practice, politics, and history. For comparative purposes, we will read place based writing from Western and other Asian authors, for instance accounts of the guidebooks to and inscriptions at Christian
churches, raising questions about the cultural relativity of what makes up sacred space.

EARL GU4320 BUDDHISM AND KOREAN CULTURE. 4.00 points.
Since Buddhism was introduced to Korea 1,600 years ago, the religion has had great impact on almost all aspects of the Korean society, making significant contributions to the distinct development of Korean culture. In this course, we will explore how Buddhism has influenced and interacted with various fields of Korean culture such as art, architecture, literature, philosophy, politics, religions, and popular culture. Buddhist scriptures, written in classical Chinese, with their colorful imaginations, have stimulated the development of Korean literature. Buddhist art, sculpture, and architecture have also catalyzed the Korean counterparts to bloom. The sophisticated philosophy and worldview of Buddhism, along with its diverse religious practices and rituals have added richness to the spiritual life of Korean people. Buddhism also attracted a significant number of followers, often playing important roles in politics. Throughout the course, we will not only investigate the influence of Buddhism on diverse aspects of Korean culture on their forms and at their depths, but also examine the interactions between Buddhism and other religions, as well as politics. Students will learn how Korean people have formed and reformed Korean culture through the medium of Buddhism.

EARL GU4328 Texts, Paintings, and Images of Korean Religions. 3.00 points.
The course explores the doctrines, practices, and rituals of Korean religions through iconic texts, paintings, and images. The texts, paintings, and images that the course covers include ghost stories, doctrinal exegeses and charts, missionary letters, polemical and apologetic writings, catechism, folklorists, and ritual paintings.

EAAS GU4334 Supernatural in Japanese Culture: Ghosts, Gods, and Animals. 4.00 points.
Covering a period from the 7th century to the present, this class draws on Japanese literature, folklore, painting, performance, and anime, to explore the world of the supernatural, particularly the role of ghosts, gods, demons, animals, and nature. Students are introduced to various strands of popular religion, including Buddhist cosmologies and native beliefs about nature and human life, with special attention to the relationship between the living and the dead, and explore the role of human intermediaries. The course looks at these texts and media in relationship to the local community, gender, social and occupational status, environment (both natural and urban), and historical period, exploring issues of social identity and power.

EAAS GU4352 The Fantastic World of Knights-Errant in Chinese Literature. 4.00 points.
This course approaches the Chinese knight-errant, often seen in the Kungfu films (most recently Mulan 2020), both as a historical fact and a literary imagination. It provides students with a broad overview of Chinese literature until the twentieth century, to familiarize students with the most prominent literary genres of each time period, from official history to classical poetry, from classical tale to vernacular fiction, from drama to film. Through reading/viewing the knight-errant literature, we will discuss issues including translation and comparative studies, "history" writing and forming, literary genre and media, gender boundary and transgression, national and trans-national

EARL GU4410 TIBETAN MONASTIC INSTITUTIONS. 4.00 points.
Through interdisciplinary theoretical approaches (mostly in the fields of religion, anthropology, and history), this course examines THE key institution in Tibetan culture, namely monasteries. We will address the monastery from many different angles, from the physical infrastructure and soteriological justification to its governing documents as well as economic and educational roles.

EAAS GU4445 Proletarian Asia - working-class culture from 1930s to present. 4.00 points.
From Bong Joon-ho’s runaway success Parasite, to manga adaptations of Koyabashi Takiji’s novel The Crab Cannery Ship, to the proliferation of Chinese migrant worker poetry, recent developments in the cultural landscape of East Asia have seen a renewed concern with the plight of workers and other sections of the oppressed under conditions of late capitalism. This course offers students the opportunity to situate these developments within an extended historical trajectory as the basis on which to think about the relation of radical histories
to our present and possible future. It does so by integrating contemporary cultural texts with earlier cultural experiments that arose amidst the political turbulence of the 1930s across a range of locations in East Asia.

EAAS GU4520 MODERN KOREAN LIT IN TRANSLATN. 3.00 points.

EAAS GU4553 SURVEY OF TIBETAN LITERATURE. 4.00 points.

Designed for both undergraduate and graduate students, this course introduces Tibetan belles-lettres and vernacular works (all in English translation) spanning from the imperial period to the present day. We will engage in close readings, together with discussion of the genre each text represents and its salience in current Tibetan intellectual discourse. In the final four weeks, we will read landmark works from the post-Mao period, with a view to the negotiation of traditional forms amidst the advent of new literary genres and the economics of cultural production. Questions to address include: How have Tibetan literary forms and content developed throughout history? How has the very concept of “Tibetan literature” been conceived? How have Tibetan writers and scholars—past and present—negotiated literary innovation? Each session will consist of a brief lecture followed by discussion. Lectures will incrementally provide students with a general timeline of Tibetan literary and related historical developments, as well as biographical material regarding the authors assigned for that week. Tibetan language students and heritage learners will be offered three optional sessions to read excerpts of selected texts in Tibetan.

EAAS GU4558 Tibetan Science - Medicine, Knowledge, and the State on the Roof of the World. 4.00 points.

This course aims to pose the question of what ‘science’ can be in Tibetan and Himalayan cultures, and to examine these ‘sciences’ in their social, religious, political, transnational, and inter-cultural dimensions. Especially through the field of medicine, it explores the main developments of Tibetan knowledge mostly during the modern era from the 17th century onward, building on both ethnography and primary and secondary written sources. This course pays particular attention to the relation of this knowledge to various states, centralizing institutions, and policies and practices of legitimization, and further to the modernization and globalization of the production, application, and consumption of Tibetan medical knowledge, including during the current Covid-19 pandemic.

EAAS GU4565 TIBET IN THE WORLD: CULTURAL PRODUCTION AND SOCIAL CHANGE. 4.00 points.

This course explores the intersection of cultural production with national policies and global economies in the context of Tibet. We will focus not on colonial sources (Mythos Tibet) but on a wide range of representational and expressive practices by contemporary Tibetans in film, literature, music, social media, art, performance, local museums, etc. -- all since the 1990s. Tibetan cultural production today is at once localized and transnational, whether it is the vision and work of artists in the People’s Republic of China or the creation of Tibetans living in the diaspora. We will explore the impact of colonialism and socioeconomic marginalization on the de-centering and re-centering of ethnicity and identity in education, publishing, and the arts. How do Tibetan artists, musicians, filmmakers, writers, comedians, and other cultural producers negotiate the complexities of modernity, secularization, globalization and political agendas, vis-à-vis incentives to preserve traditions, while engaging creatively? Each week will focus on 2 to 3 primary sources and 1 or 2 related secondary readings. Our discussions of the primary source materials (film screenings, readings, artwork, performances, etc.) will be enriched with readings in Cultural Studies, sociology, and anthropology, and by conversations with area artists.

EAAS GU4572 CHINESE DOCUMENTARY CINEMA. 4.00 points.

What defines a “documentary” film? How do documentaries inform, provoke and move us? What formal devices and aesthetic strategies do documentaries use to construct visions of reality and proclaim them as authentic, credible and authoritative? What can documentary cinema teach us about the changing Chinese society, and about cinema as a medium for social engagement? This seminar introduces students to the aesthetics, epistemology and politics of documentary cinema in China from the 1940s to the present, with an emphasis on contemporary films produced in the past two decades. We examine how documentaries contended history, registered subaltern experiences, engaged with issues of gender, ethnicity and class, and built new communities of testimony and activism to foster social change. Besides documentaries made by Chinese filmmakers, we also include a small number of films made on China by western filmmakers, including those by Joris Ivens, Michelangelo Antonioni, Frank Capra and Carma Hinton. Topics include documentary poetics and aesthetics, evidence, performance and authenticity, the porous boundaries between documentary and fiction, and documentary ethics. As cinema is, among other things, a creative practice, in this course, students will be given opportunities to respond to films analytically and creatively, through writing as well as creative visual projects.

EAAS GU4625 Socialist China in the Western Gaze (1949-1978). 4.00 points.

This seminar attempts to historicize China’s contemporary cultural diplomacy initiatives by examining the nation’s place in the world from the 1950s to the 1970s. Topics include China’s role in the socialist world of the 1950s and 1960s, global Maoist political movements, socialist China in the imagination of Western intellectuals, Western fascination with Maoist “people’s” science, and controversies over the depiction of China in 1970s European documentary cinema.
HSEA GU4720 20TH CENTURY TIBETAN HISTORY. 4.00 points.
This course is designed for students interested in gaining a broad view of Tibetan history in the 20th century. We will cover the institutional history of major Tibetan state institutions and their rivals in the Tibetan borderlands, as well as the relations with China, Britain, and America. Discussion sessions throughout the semester will focus on important historical issues. Group(s): C

EAAS GU4730 Science and Technology in Chinese Media Cultures. 4.00 points.
Covering a period from the late 19th century to the present, this class explores how ideas and practices in science and technology have historically entered popular imagination, social organization and political contestation, as they become mediated by various media forms and technologies such as photography, cinema, novels, television, video, internet platforms and data algorithms. In particular, we focus on how science and technology have shaped our understandings of the human body, and impacted on the various bodily experiences, from perception, cognition, to emotion and connection with others in the environment. This class helps students read media artefacts in a historically grounded and conceptually generative way, understanding media artefacts as historically conditioned, yet offering us resources for envisioning the future.

EAAS GU4777 A Thousand-Year Old Romance: Reading The Tale of Genji Across the Ages, Media, and Genres. 4.00 points.
This course presents a synchronous and diachronous exploration of The Tale of Genji, a masterpiece of Japanese literature. During the first half of the course, students will read the entire English translation of the tale, as well as a number of other primary texts from roughly the same time period in order to gain an understanding of the sociohistorical and literary context in which the tale came about, while the second half of the course is devoted to the reception and adaptations of the tale across various media, genres, and time periods, ranging from commentaries, noh plays, traditional paintings and even “fan fiction” to modern novels and manga. The aim of the course is to provide the students with an understanding of The Tale of Genji’s place within the Japanese literary tradition, and the impact it has had and continues to exert on all facets of Japanese culture.

EAAS GU4810 WOMEN AND LITERARY CULTURE IN JAPAN. 4.00 points.
Japan has a long tradition of highly sophisticated vernacular literature (poetry, prose fiction, essays and poetic memoirs) by aristocratic court women, particularly from the tenth- and eleventh-century, including The Tale of Genji, often considered the world’s first psychological novel. Writings by women in the early period had a deep impact on subsequent cultural production, and these vernacular writings (as well as the figure of these early women writers) acquired a new, contested significance from the end of the nineteenth century as part of the process of modern nation-building. Gender became a major organizing category in constructing discourse on literature, literary language, and literary modernity, particularly with regard to the novel. This seminar engages in close readings and discussion of selected works from the eleventh-century to twentieth-century Japan with particular attention to the genealogy of women’s writings and changing representations of women, gender, and social relations. Issues include: genre, media, intertextuality, and literary communities; body and sexuality; and in the modern period, the “woman question” and global feminisms as well as authorship and authority. All readings are in English. Original texts will be provided for those who can read in the original.

HSEA GU4860 SOC OF CHOSON KOREA 1392-1910. 4.00 points.
Major cultural, political, social, economic and literary issues in the history of this 500-year long period. Reading and discussion of primary texts (in translation) and major scholarly works. All readings will be in English.

HSEA GU4888 WOMEN & GENDER IN KOREAN. 4 points.
While the rise of women’s history and feminist theory in the 1960s and 1970s fostered more general reevaluations of social and cultural history in the West, such progressions have been far more modest in Korean history. To introduce one of the larger challenges in current Korean historiography, this course explores the experiences, consciousness and representations of women Korea at home and abroad from premodern times to the present. Historical studies of women and gender in Korea will be analyzed in conjunction with theories of Western
women’s history to encourage new methods of rethinking “patriarchy” within the Korean context. By tracing the lives of women from various socio-cultural aspects and examining the multiple interactions between the state, local community, family and individual, women’s places in the family and in society, their relationships with one another and men, and the evolution of ideas about gender and sexuality throughout Korea’s complicated past will be reexamined through concrete topics with historical specificity and as many primary sources as possible. With understanding dynamics of women’s lives in Korean society, this class will build an important bridge to understand the construction of New Women in early twentieth-century Korea, when women from all walks of life had to accommodate their “old-style” predecessors and transform themselves to new women, as well as the lives of contemporary Korean women. This will be very much a reading-and-discussion course. Lectures will review the readings in historical perspective and supplement them. The period to be studied ranges from the pre-modern time up to the turn of twentieth century, with special attention to the early modern period.

HSEA GU4891 LAW IN CHINESE HISTORY. 4.00 points.
An introduction to major issues of concern to legal historians as viewed through the lens of Chinese legal history. Issues covered include civil and criminal law, formal and informal justice, law and the family, law and the economy, the search for law beyond state-made law and legal codes, and the question of rule of law in China. Chinese codes and course case records and other primary materials in translation will be analyzed to develop a sense of the legal system in theory and in practice.

CHNS UN1115 Accelerated First Year Chinese (W). 5.00 points.
Accelerated First Year Chinese is an introductory course for heritage Chinese language learners who have native or near-native speaking skills but have little or no knowledge of scripts system of Chinese. Students with an upbringing or long-term exposure to oral Chinese language use can take this course to develop their literacy skills and to gain a deeper understanding of the Chinese culture

CHNS UN2201 SECOND YEAR CHINESE I. 5.00 points.
Second Year Chinese I, CHNS2201UN, 4 points. You are required to take First Year Chinese II, CHNS2202UN, 4 points with this course. Instructor: Lingjun Hu Prerequisites: One (1) year of college-level Chinese or the equivalent Texts: Jingua Chinese (Columbia University staff, published by Peking University Press; traditional and simplified characters) Consolidates and develops language skills used in everyday communication. Texts are presented in the form of a narrative that provides language situations, sentence patterns, word usage, and cultural information. Comprehensive exercises rely on highly structured practice in vocabulary, grammar, listening, speaking, reading, and writing. Semi-formal and literary styles are introduced in later lessons as transition to more advanced levels of Chinese language study. The first half of the course emphasizes skills for conducting everyday tasks such as shopping, making telephone calls, seeing a doctor, or looking for a job. The second half focuses on aspects of Chinese culture: the social norms of politeness and gift-giving,
traditions such as inter-generational relationships and marriage ceremonies, customs such as special foods and holidays. While providing practical training, the course aims to raise the student's linguistic competence in preparation for advanced studies in Mandarin. To enroll in this course, you must apply to the Virtual Columbia Summer Chinese Language program through the Center for Undergraduate Global Engagement (UGE). Global Learning Scholarships available. Tuition charges apply. Please note the program dates are different from the Summer Term A # B dates

CHNS GU4904 ACQ OF CHINESE AS A 2ND LANG. 4.00 points.

For more than forty years, second language acquisition (SLA) has been emerging as an independent field of inquiry with its own research agenda and theoretical paradigms. The study of SLA is inherently interdisciplinary, as it draws on scholarship from the fields of linguistics, psychology, education, and sociology. This course explores how Chinese is acquired by non-native speakers. Students will learn about general phenomena and patterns during the process of acquiring a new language. They will become familiar with important core concepts, theoretical frameworks, and research practices of the field of SLA, with Chinese as the linguistic focus

**Japanese Language Courses**

**JPNS UN1001 INTRODUCTORY JAPANESE A. 2.50 points.**

Introductory Japanese A is an introduction to Japanese language and culture and is designed for students who have had little or no experience learning Japanese. The goal of this course is to develop four basic skills in modern Japanese with an emphasis on grammatical accuracy and socially appropriate language use. Upon successful completion of this course, students will be able to engage in basic daily conversations and to develop the ability to read and write hiragana as well as katakana. The sequence includes JPNS UN1001 Introductory Japanese A and JPNS UN1002 Introductory Japanese B. These courses combined (JPNS UN1001 and JPNS UN1002) are the equivalent to JPNS UN1101 First Year Japanese I and fulfills the requirement for admission to JPNS UN1102 First Year Japanese II

KORN UN2221 Accelerated Korean for Heritage Speakers I. 5.00 points.
This course is the first half of Accelerated Korean for Heritage Speakers. This course is designed specifically for heritage students who have some previous knowledge of Hangul and basic sentence patterns of everyday Korean. Upon completion of this course, students may advance to Accelerated Korean for Heritage Speakers II to complete the college's two-year foreign language requirement in one year.

TIBETAN LANGUAGE COURSES

TIBT UN1410 FIRST YEAR CLASSICAL TIBETAN I. 4.00 points.
This course is designed to meet the needs of both first-time learners of Tibetan, as well as students with one year or less of modern colloquial Tibetan. It is intended to lay the foundation for reading classical Tibetan writings, including religious, historical, and literary texts. By focusing on basic grammatical constructions and frequently used vocabulary, this class offers an introduction to the classical Tibetan language.

Fall 2022: TIBT UN1410
Course Number 001/10566  Times/Location M W 4:10pm - 6:00pm  Instructor Sonam  Points 4.00  Enrollment 9/15

TIBT UN1600 FIRST YEAR MOD COLLOQ TIBET I. 5.00 points.
This is an introductory course and no previous knowledge is required. It focuses on developing basic abilities to speak as well as to read and write in modern Tibetan, Lhasa dialect. Students are also introduced to modern Tibetan studies through selected readings and guest lectures.

Fall 2022: TIBT UN1600
Course Number 001/10567  Times/Location M T W 12:10pm - 1:00pm  Instructor Sonam  Points 5.00  Enrollment 13/15

TIBT UN1601 FIRST YEAR MODERN COLLOQUIAL TIBETAN II. 5.00 points.
This is an introductory course and no previous knowledge is required. It focuses on developing basic abilities to speak as well as to read and write in modern Tibetan, Lhasa dialect. Students are also introduced to modern Tibetan studies through selected readings and guest lectures.

Spring 2023: TIBT UN1601
Course Number 001/11085  Times/Location M T W Th 12:10pm - 1:00pm  Instructor Sonam  Points 5.00  Enrollment 10/15
TIBT UN2603 SECOND YR MOD COLLOQ TIBET I. 4.00 points.

Fall 2022: TIBT UN2603

428
VIET UN2101 SECOND YEAR VIETNAMESE I. 5.00 points.

Fee: Language Resource Center Fee - 15

Prerequisites: First Year Vietnamese (VIET UN1101 and VIET UN1102) or equivalent, or instructor’s permission.

Prerequisites: First Year Vietnamese (VIET UN1101 and VIET UN1102) or equivalent, or instructor’s permission. This course is designed for students who have some background in Vietnamese language, and further develops students’ familiarity with the linguistic and grammatical structures of Vietnamese. Students’ reading, listening, speaking and writing skills will be emphasized through dialogues, reading passages, authentic materials, listening comprehension exercises, and media clips. Students will also further study life and culture in Vietnam.

Fall 2022: VIET UN2101
Course Number  Section/Call Number Times/Location Instructor Points Enrollment
VIET 2101  001/10573 M W Th 1:10pm - 2:25pm 522a Kent Hall Nguyen 5.00 8/12

VIET UN2102 SECOND YEAR VIETNAMESE II. 5.00 points.

Fee: Language Resource Center Fee - 15

Prerequisites: VIET 2101 or equivalent, or instructor’s permission required.

Prerequisites: VIET W1101-W1102 or the instructors permission. This course further develops students familiarity with the linguistic and grammatical structures of Vietnamese, a major language of South East Asia.

Spring 2023: VIET UN2102
Course Number  Section/Call Number Times/Location Instructor Points Enrollment
VIET 2102  001/11091 M W Th 1:10pm - 2:25pm 522a Kent Hall Nguyen 5.00 8/12

VIET UN3101 THIRD YEAR VIETNAMESE I. 3.00 points.

Prerequisites: VIET UN1101 and VIET UN1102 and VIET UN2101 and VIET UN2102 and This course is designed for students who have already completed First and Second Year Vietnamese (VIET 1101, VIET 1102, VIET 2101, and VIET 2102) or who possess the equivalent background of intermediate Vietnamese. Students with equivalent background should contact instructor for permission to enroll.

This course is designed for students who have completed fourth semester Vietnamese or have equivalent background of intermediate Vietnamese. The course is aimed at enhancing students’ competence in reading and listening comprehension as well as the ability to present or show their knowledge of the language and various aspects of Vietnamese with the use of more advanced Vietnamese.

Fall 2022: VIET UN3101

To achieve this multi-disciplinary perspective, the department maintains close ties to over 70 faculty members beyond its central core. Thus, many faculty members who teach, advise, and train students in research are based in other departments on the Columbia campus or at the partner institutions. Through this collaboration, the department is able to tap into a broad array of scientific and intellectual resources in the greater New York City area. The academic staff covers the areas of plant and animal systematics; evolutionary and population genetics; ecosystem science; demography and population biology; behavioral and community ecology; and related fields of epidemiology, ethnobiology, public health, and environmental policy. Harnessing the expertise of this diverse faculty and the institutions of which they are a part, E3B covers a vast area of inquiry into the evolutionary, genetic, and ecological relationships among all living things.

**FACILITIES AND COLLABORATIVE INSTITUTIONS**

The Department of Ecology, Evolution, and Environmental Biology (E3B)

In addition to the off-campus facilities detailed below, the Columbia community offers academic excellence in a range of natural and social science disciplines that are directly related to biodiversity conservation including: evolution, systematics, genetics, behavioral ecology, public health, business, economics, political science, anthropology, and public and international policy. These disciplines are embodied in world-class departments, schools, and facilities at Columbia. The divisions that bring their resources to bear on issues most relevant to E3B’s mission are: the Lamont-Doherty Earth Observatory, the School of International and Public Affairs, the Goddard Institute for Space Studies, the International Research Institute for Climate Predication, the Black Rock Forest Reserve in New York State, the Rosenthal Center for Alternative/Complementary Medicine, the Division of Environmental Health Sciences at the School of Public Health, and the Center for International Earth Science Information Network (CIESIN). Several of these units of the University are networked through the Earth Institute at Columbia, a division of the University that acts as an intramural network of environmental programs and supplies logistical support for constituent programs, through planning, research, seminars, and conferences. All of the above schools, centers, and institutes contribute to finding solutions for the world’s environmental challenges.

**The Earth Institute Center for Environmental Sustainability (EICES)**

The Earth Institute Center for Environmental Sustainability (EICES), formerly known as the Center for Environmental Research and Conservation (CERC), is actively involved in
The Museum’s scientific facilities include: two molecular systematics laboratories equipped with modern high-throughput technology; the interdepartmental laboratories, which include a state-of-the-art imaging facility that provides analytical microscopy, energy dispersive spectrometry, science visualization, and image analysis to support the Museum’s scientific activities; a powerful parallel-computing facility, including a cluster of the world’s fastest computers, positioned to make significant contributions to bioinformatics; and a frozen tissue facility with the capacity to store one million DNA samples.

New York Botanical Garden

The New York Botanical Garden (NYBG), with its 7 million specimen herbarium, the largest in the Western Hemisphere, and its LuEsther T. Mertz Library, the largest botanical and horticultural reference collection on a single site in the Americas, comprises one of the very best locations in the world to study plant science. NYBG’s systematic botanists discover, decipher, and describe the world’s plant and fungal diversity; and its economic botanists study the varied links between plants and people. The Enid A. Haupt Conservatory, the largest Victorian glasshouse in the United States, features some 6,000 species in a newly installed “Plants of the World” exhibit. The new International Plant Science Center stores the Garden collection under state-of-the-art environmental conditions and has nine study rooms for visiting scholars. All specimens are available for on-site study or loan.

In recent years, NYBG has endeavored to grow and expand its research efforts, supporting international field projects in some two dozen different countries, ranging from Brazil to Indonesia. In 1994, AMNH and NYBG established the Lewis and Dorothy Cullman Program for Molecular Systematics Studies to promote the use of molecular techniques in phylogenetic studies of plant groups. This program offers many opportunities for research in conservation genetics. NYBG operates both the Institute for Economic Botany (IEB) and the Institute of Systematic Botany (ISB). The ISB builds on the Garden’s long tradition of intensive and distinguished research in systematic botany—the study of the kinds and diversity of plants and their relationships—to develop the knowledge and means for responding effectively to the biodiversity crisis.

The Garden has also established a molecular and anatomical laboratory program, which includes light and electron microscopes, and has made enormous advances in digitizing its collection. There is currently a searchable on-line library catalog and specimen database collection with some half million unique records. Field sites around the world provide numerous opportunities for work in important ecosystems of unique biodiversity.

Wildlife Conservation Society

The Wildlife Conservation Society (WCS), founded in 1895 as the New York Zoological Society, works to save wildlife and wild lands throughout the world. In addition to supporting the
nation’s largest system of zoological facilities—the Bronx Zoo; the New York Aquarium; the Wildlife Centers in Central Park, Prospect Park, and Flushing Meadow Park; and the Wildlife Survival Center on St. Catherine’s Island, Georgia—WCS maintains a commitment to field-based conservation science. With 60 staff scientists and more than 100 research fellows, WCS has the largest professional field staff of any U.S.-based international conservation organization. Currently, WCS conducts nearly 300 field projects throughout the Americas, Asia, and Africa. The field program is supported by a staff of conservation scientists based in New York who also conduct their own research.

WCS’s field-based programs complement the organization’s expertise in veterinary medicine, captive breeding, animal care, genetics, and landscape ecology, most of which are based at the Bronx Zoo headquarters. WCS’s Conservation Genetics program places an emphasis on a rigorous, logical foundation for the scientific paradigms used in conservation biology and is linked to a joint Conservation Genetics program with the American Museum of Natural History. The Wildlife Health Sciences division is responsible for the health care of more than 17,000 wild animals in the five New York parks and wildlife centers. The departments of Clinical Care, Pathology, Nutrition, and Field Veterinary Programs provide the highest quality of care to wildlife.

**EcoHealth Alliance**

EcoHealth Alliance is an international organization of scientists dedicated to the conservation of biodiversity. For more than 40 years, EcoHealth Alliance has focused its efforts on conservation. Today, they are known for innovative research on the intricate relationships between wildlife, ecosystems, and human health.

EcoHealth Alliance's work spans the U.S. and more than 20 countries in Central and South America, the Caribbean, Africa, and Asia to research ways for people and wildlife to share biocapes for their mutual survival. Their strength is built on innovations in research, education, and training and accessibility to international conservation partners.

Internationally, EHA programs support conservationists in over a dozen countries at the local level to save endangered species and their habitats, and to protect delicate ecosystems for the benefit of wildlife and humans.

**ACADEMIC PROGRAMS**

The Department of Ecology, Evolution, and Environmental Biology runs two undergraduate majors/concentrations. The primary major is in environmental biology and the second is evolutionary biology of the human species. The foci and requirements vary substantially and are intended for students with different academic interests.

The environmental biology major emphasizes those areas of biology and other disciplines essential for students who intend to pursue careers in the conservation of Earth’s living resources. It is designed to prepare students for graduate study in ecology and evolutionary biology, conservation biology, environmental policy and related areas, or for direct entry into conservation-related or science teaching careers.

Interdisciplinary knowledge is paramount to solving environmental biology issues, and a wide breadth of courses is thus essential, as is exposure to current work. Conservation internships are available through partner institutions and serve as research experience leading to the development of the required senior thesis.

Declaration of the environmental biology major must be approved by the director of undergraduate studies and filed in the departmental office located on the 10th floor of Schermerhorn Extension.

The major in evolutionary biology of the human species provides students with a foundation in the interrelated spheres of behavior, ecology, genetics, evolution, morphology, patterns of growth, adaptation, and forensics. Using the framework of evolution and with attention to the interplay between biology and culture, research in these areas is applied to our own species and to our closest relatives to understand who we are and where we came from. This integrated biological study is also known as biological anthropology. As an interdisciplinary major, students are also encouraged to draw on courses in related fields including biology, anthropology, geology, and psychology as part of their studies.

Guidelines for all Ecology, Evolution, and Environmental Biology Majors and Concentrators

The grade of D is not accepted for any course offered in fulfillment of the requirements toward the majors or concentrations.

Major in Environmental Biology

The major in environmental biology requires 50 points, distributed as follows:

Lower Division Courses

Two terms of introductory or environmental biology such as the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EEEB UN2001</td>
<td>ENVIRO BIOLOGY I</td>
</tr>
<tr>
<td>EEEB UN2002</td>
<td>ENVIRO BIOLOGY II</td>
</tr>
</tbody>
</table>

Two terms of environmental science such as the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC UN2100</td>
<td>EARTH'S ENVIRONMENT: CLIMATE</td>
</tr>
<tr>
<td>EESC UN2200</td>
<td>EARTH'S ENVIRONMENT: THE SOLID EARTH</td>
</tr>
</tbody>
</table>

Two terms of chemistry such as the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM UN1403</td>
<td>GENERAL CHEMISTRY I-LECT</td>
</tr>
<tr>
<td>CHEM UN1404</td>
<td>GENERAL CHEMISTRY II-LECT</td>
</tr>
</tbody>
</table>

One term of physics such as the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS UN1201</td>
<td>GENERAL PHYSICS I</td>
</tr>
</tbody>
</table>

One term of statistics such as the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EEEB UN3005</td>
<td>INTRO-STAT-ECOLOGY # EVOL BIOL</td>
</tr>
<tr>
<td>BIOL BC2286</td>
<td>STATISTICS</td>
</tr>
<tr>
<td>STAT UN1101</td>
<td>INTRODUCTION TO STATISTICS</td>
</tr>
<tr>
<td>STAT UN1201</td>
<td>CALC-BASED INTRO TO STATISTICS</td>
</tr>
</tbody>
</table>

One term of calculus such as the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH UN1101</td>
<td>CALCULUS I</td>
</tr>
<tr>
<td>MATH UN1102</td>
<td>CALCULUS II</td>
</tr>
<tr>
<td>MATH UN1201</td>
<td>CALCULUS III</td>
</tr>
<tr>
<td>MATH UN1202</td>
<td>CALCULUS IV</td>
</tr>
</tbody>
</table>
Upper Division Courses
Students must complete five advanced elective courses (generally 3000-level or above) satisfying the following distribution. At least one of these courses must include a laboratory component. For more information and a list of appropriate courses, contact the director of undergraduate studies.

1. Ecology, behavior, or conservation biology;
2. Evolution or genetics;
3. Morphology, physiology, or diversity;
4. Policy or economics;
5. One additional course from the preceding four groups.

Students must also complete a senior thesis, which involves completing a research internship (generally in the summer before the senior year) and completing at least one semester of the thesis research seminar, EEEB UN3991- EEEB UN3992 THESIS RESEARCH SEMINAR. Enrollment in both semesters of the seminar, starting in the spring of the junior year, is recommended.

Students planning on continuing into graduate studies in environmental biology or related fields are encouraged to take organic chemistry and genetics.

ECOLOGY AND EVOLUTION TRACK WITHIN THE ENVIRONMENTAL BIOLOGY MAJOR
The ecology and evolution track within the environmental biology major requires 50 points, distributed as follows:

Lower Division Courses
Two terms of introductory or environmental biology such as the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>EEEB UN2001</td>
<td>ENVIRONMENTAL BIOLOGY I and ENVIRONMENTAL BIOLOGY II</td>
</tr>
<tr>
<td>CHEM UN1403</td>
<td>GENERAL CHEMISTRY I-LECTU and GENERAL CHEMISTRY II-LTECLES</td>
</tr>
</tbody>
</table>

Chemistry laboratory such as the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM UN1500</td>
<td>GENERAL CHEMISTRY LABORATORY</td>
</tr>
</tbody>
</table>

Two terms of physics such as the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS UN1201</td>
<td>GENERAL PHYSICS I and GENERAL PHYSICS II</td>
</tr>
</tbody>
</table>

One term of statistics such as the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>EEEB UN3005</td>
<td>INTRO-STAT-ECOLOGY # EVOL BIOL</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT UN1101</td>
<td>INTRODUCTION TO STATISTICS</td>
</tr>
<tr>
<td>STAT UN1201</td>
<td>CALC-BASED INTRO TO STATISTICS</td>
</tr>
</tbody>
</table>

Upper Division Courses
Students must complete five advanced elective courses (generally 3000-level or above) satisfying the following distribution. At least one of these courses must include a laboratory component. For more information and a list of appropriate courses, contact the director of undergraduate studies.

1. Three courses in ecology, evolution, conservation biology, or behavior;
2. One course in genetics. BIOL UN3031 GENETICS or BIOL BC2100 MOLECULAR # MENDELIAN GENETICS is recommended;
3. One course in morphology, physiology, or diversity.

Students planning on continuing into graduate studies in ecology or evolutionary biology are encouraged to take organic chemistry.

MAJOR IN EVOLUTIONARY BIOLOGY OF THE HUMAN SPECIES
The major in evolutionary biology of the human species requires 36 points, distributed as described below.

Students must take a minimum of 20 points from approved biological anthropology courses. The additional courses may be taken in other departments with adviser approval. These include up to 6 points of introductory biology/chemistry or calculus (in any combination). Please speak with the major adviser about the extended list of courses from related areas including Biology, Psychology, Archaeology, Anthropology, Earth and Environmental Science, and Statistics that count toward this program.

For example, students interested in focusing on paleoanthropology would complement the requirements with additional courses in human evolution and morphology.
evolutionary biology and theory, archaeology, genetics, and statistics. Those interested in primate behavior would supplement the requirements with classes in behavioral biology, ecology, and statistics.

**Required Courses**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>EEEB UN1010</td>
<td>HUMAN ORIGINS # EVOLUTION</td>
</tr>
<tr>
<td>EEEB UN1011</td>
<td>BEHAVIOR BIOL-LIVING PRIMATES</td>
</tr>
</tbody>
</table>

**Alternate options may be possible for all courses other than EEEB UN1010 HUMAN ORIGINS # EVOLUTION and EEEB UN1011 BEHAVIOR BIOL-LIVING PRIMATES. These will be considered on an individual basis in consultation with the major/concentration adviser.**

**Conservation Course**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>EEEB UN3240</td>
<td>Challenges and Strategies of Primate Conservation</td>
</tr>
</tbody>
</table>

**Theoretical Foundation from Archaeology**

Select one course of the following: Nearly all archaeology courses (save for Rise of Civilization) can fulfill this requirement. Check with the advisor.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH UN1007</td>
<td>THE ORIGINS OF HUMAN SOCIETY</td>
</tr>
<tr>
<td>ANTH UN2028</td>
<td>THINK LIKE AN ARCHAEOLOGIST</td>
</tr>
<tr>
<td>ANTH UN3064</td>
<td>Death and the Body</td>
</tr>
<tr>
<td>ANTH UN3823</td>
<td>ARCH ENGAGE: PAST IN PUB EYE</td>
</tr>
</tbody>
</table>

**Breadth Requirement**

Select a minimum of one course from each of the three sections (may overlap seminar requirement for majors):

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL BC2100</td>
<td>MOLECULAR # MENDELIAN GENETICS</td>
</tr>
<tr>

</table>
Seminar

Selection at least one of the following seminars. May also count toward the breadth requirement.

EEEB UN3204 Dynamics of Human Evolution
EEEB UN3910 THE NEANDERTALS
EEEB UN3940 Current Controversies in Primate Behavior and Ecology
ANTH UN3970 BIOL BASIS OF HUMAN VARIATION
EEEB UN3993 EBHS SENIOR THESIS SEMINAR and EBHS SENIOR THESIS SEMINAR
EEEB GU4321 HUM NATURE:DNA,RACE # IDENTITY
ANTH GU4002 Controversial Topics in Human Evolution (Fulfills the seminar requirement for the major)

Additional courses in the student’s area of focus to complete the required 36 points overall including a minimum of 20 points of approved biological anthropology courses.

Students intending to pursue graduate study in this field should broaden their foundation by taking an introductory biology course (optimally either EEEB UN2001 ENVIRONMENTAL BIOLOGY I or EEEB UN2002 ENVIRONMENTAL BIOLOGY II) or an advanced evolution course, a genetics course, and a statistics course. We recommend that those interested in either biological anthropology or bioarchaeology take a foundation cultural anthropology course such as ANTH UN1002 THE INTERPRETATION OF CULTURE, ANTH UN2004 INTRO TO SOC # CULTURAL THEORY, ANTH UN2005 THE ETHNOGRAPHIC IMAGINATION, or ANTH UN3040 ANTHROPOLOGICAL THEORY. Students interested in forensic anthropology should take chemistry in lieu of biology (though the latter is recommended as a foundation course for all students). The adviser makes additional recommendations dependent on the student’s area of focus.

Approved Biological Anthropology Courses

Paleoanthropology and Morphology

EEEB UN1010 HUMAN ORIGINS # EVOLUTION
EEEB UN3204 Dynamics of Human Evolution
EEEB UN3208 EXPLORATIONS IN PRIM ANATOMY
EEEB UN3215 FORENSIC OSTEOLOGY
EEEB UN3220 THE EVOL OF HUM GROWTH # DEVPET
EEEB UN3910 THE NEANDERTALS
ANTH GU4147 Human Skeletal Biology I and HUMAN SKELETAL BIOLOGY II

ANTH GU4200 FOSSIL EVIDENCE FOR HUMAN EVOL taught intermittently

Primate Behavioral Ecology and Evolution

EEEB UN1011 BEHAVIOR BIOL-LIVING PRIMATES
EEEB UN3030 The Biology, Systematics, and Evolutionary History of the 'Apes'
EEEB UN3940 Current Controversies in Primate Behavior and Ecology
EEEB GU4010 The Evolutionary Basis of Human Behavior

Human Variation

ANTH UN3970 BIOL BASIS OF HUMAN VARIATION
EEEB GU4340 HUMAN ADAPTATION
EEEB GU4700 RACE:TANGLED HIST-BIOL CONCEPT

Additional Courses

EEEB UN3240 Challenges and Strategies of Primate Conservation
EEEB UN3993 - EEEB UN3994 EBHS SENIOR THESIS SEMINAR and EBHS SENIOR THESIS SEMINAR

CONCENTRATION IN ENVIRONMENTAL BIOLOGY

The concentration in environmental biology differs from the major in omitting calculus and physics from the lower division, requiring three advanced electives rather than five, and omitting the senior seminar with thesis project. It requires 36 points, distributed as follows:

Lower Division Courses

Two terms of introductory or environmental biology such as the following:

EEEB UN2001 - EEEB UN2002 ENVIRONMENTAL BIOLOGY I and ENVIRONMENTAL BIOLOGY II (or equivalents)

Two terms of environmental science such as the following:

EESC UN2100 EARTH'S ENVIRO SYST: CLIM SYST
EESC UN2200 EARTH'S ENVIRONMENTAL SYSTEMS: THE SOLID EARTH

Two terms of chemistry such as the following:

CHEM UN1403 - CHEM UN1404 GENERAL CHEMISTRY I-LECTU and GENERAL CHEMISTRY II-LECTURES

One term of statistics. Select one of the following:

EEEB UN3005 INTRO-STAT-ECOLOGY # EVOL BIOL
BIOL BC2286 Statistics and Research Design
STAT UN1101 INTRODUCTION TO STATISTICS
STAT UN1201 CALC-BASED INTRO TO STATISTICS

Upper Division Courses
EEEB UN3087 CONSERVATION BIOLOGY
Two other 3000- or 4000-level courses from the advanced environmental biology courses listed for the major.

CONCENTRATION IN EVOLUTIONARY BIOLOGY OF THE HUMAN SPECIES

The concentration in evolutionary biology of the human species requires 20 points including the required introductory courses EEEB UN1010 HUMAN ORIGINS # EVOLUTION, EEEB UN1011 BEHAVIOR BIOL-LIVING PRIMATES, an approved conservation course (optimally Primate Conservation), and three courses for the breadth distribution requirements as described for the major. Students must take a minimum of 15 points from approved biological anthropology courses as described for the major (the two introductory classes count toward that total). The additional courses may be taken in other departments with adviser approval.

Concentrators do not have to complete the theoretical foundation course from archaeology or a seminar.

SPECIAL CONCENTRATION IN ENVIRONMENTAL SCIENCE FOR ENVIRONMENTAL BIOLOGY MAJORS

The Department of Earth and Environmental Sciences sponsors a special concentration which must be done in conjunction with the environmental biology major. Students should be aware that they must complete the environmental biology major in order to receive credit for the special concentration.

The special concentration in environmental science requires a minimum of 31.5 points, distributed as follows:

Introductory Environmental Science (13.5 points)
EESC UN2100 EARTH'S ENVIRO SYST: CLIM SYST
EESC UN2200 EARTH'S ENVIRONMENTAL SYSTEMS: THE SOLID EARTH
EESC UN2300 EARTH'S ENVIRO SYST: LIFE SYST (equivalent to EEEB UN2002)

Introductory Science (6 points)
Two courses in chemistry, physics, mathematics, or environmental biology from the supporting mathematics and science list for the environmental science major.

Advanced Environmental Science (12 points)
Select four of the following:
EESC UN3015 The Earth's Carbon Cycle
EESC BC3017 ENVIRONMENTAL DATA ANALYSIS
EESC BC3025 HYDROLOGY
EESC GU4008 Introduction to Atmospheric Science
EESC GU4050 GLOBAL ASSMT-REMOTE SENSING
EESC GU4223 SEDIMENTARY GEOLOGY
EESC GU4550 Plant Ecophysiology
EESC GU4835 Wetlands and Climate Change
EESC GU4885 CHEMISTRY OF CONTINENTAL WATERS
EESC GU4917 THE EARTH/HUMAN INTERACTIONS
EESC GU4926 INTRO TO CHEMICAL OCEANOGRAPHY

Advanced courses used to fulfill requirements in the environmental biology major cannot count toward requirements for the special concentration.

SPECIAL CONCENTRATION IN ENVIRONMENTAL BIOLOGY FOR ENVIRONMENTAL SCIENCE MAJORS

The Department of Ecology, Evolution, and Environmental Biology sponsors a special concentration which must be done in conjunction with the environmental science major. Students should be aware that they must complete the environmental science major in order to receive credit for the special concentration.

The special concentration in environmental biology requires a minimum of 39 points, distributed as follows:

Introductory Environmental Biology and Environmental Science (17 points)
EEEB UN2001 ENVIRONMENTAL BIOLOGY I
EEEB UN2002 ENVIRONMENTAL BIOLOGY II (equivalent to EESC UN2300)
EESC UN2100 EARTH'S ENVIRO SYST: CLIM SYST
EESC UN2200 EARTH'S ENVIRONMENTAL SYSTEMS: THE SOLID EARTH
Introductory Science (13 points)

Select one of the following chemistry sequences:

- CHEM UN1403 - CHEM UN1404: GENERAL CHEMISTRY I-LECTU and GENERAL CHEMISTRY II-LECTURES
- CHEM UN1604 - CHEM UN2507: 2ND TERM GEN CHEM (INTENSIVE) and Intensive General Chemistry Laboratory

One term of statistics such as the following:

- EEEB UN3005: INTRO-STAT-ECOLOGY # EVOL BIOL
- BIOL BC2286: Statistics and Research Design
- STAT UN1101: INTRODUCTION TO STATISTICS
- STAT UN1201: CALC-BASED INTRO TO STATISTICS
- EEEB UN3087: CONSERVATION BIOLOGY

Advanced Environmental Biology (9 points)

Three additional advanced environmental biology courses (3000-level and above), each chosen from a different curricular area (evolution/genetics, ecology/behavior/sustainability, anatomy/physiology/diversity, biology laboratory courses).

Fall 2022

EEEB UN1010 HUMAN ORIGINS # EVOLUTION. 3.00 points.

CC/GS: Partial Fulfillment of Science Requirement
Lab fee: $25. Taught every fall.

This is an introductory course in human evolution. Building on a foundation of evolutionary theory, students explore primate behavioral morphology and then trace the last 65 million years of primate evolution from the earliest Paleocene forms to the fossil remains of earliest humans and human relatives. Along with Behavioral Biology of the Living Primates this serves as a core required class for the EBHS program

EEEB UN3005 INTRO-STAT-ECOLOGY # EVOL BIOL. 3.00 points.

Prerequisites: some background in ecology, evolutionary biology, and/or statistics is recommended. Intended for those WITHOUT prior knowledge of statistics. Some background in ecology, evolutionary biology required. This is an introduction to the theoretical principles and practical application of statistical methods in ecology and evolutionary biology. The course will cover the conceptual basis for a range of statistical techniques through a series of lectures using examples from the primary literature. The application of these techniques will be taught through the use of statistical software in computer-based laboratory sessions

EESC UN2330 SCIENCE FOR SUSTAINABLE DEVPT. 3 points.

CC/GS: Partial Fulfillment of Science Requirement

The course provides students with the natural science basis to appreciate co-dependencies of natural and human systems, which are central to understanding sustainable development. After completing the course, students should be able to incorporate scientific approaches into their research or policy decisions and be able to use scientific methods of data analysis. The semester will highlight the climate system and solutions from both physical and ecological perspectives; water resources; food production and the cycling of nutrients; and the role of biodiversity in sustainable development. The course emphasizes key scientific concepts such as uncertainty, experimental versus observational approaches, prediction and predictability, the use of models and other essential methodological aspects.

**EEEB UN3015 INTRO-STAT-ECOLGY/EVOL BIO-LAB. 0.00 points.**

Required Lab for EEEB UN3005. An introduction to the theoretical principles and practical application of statistical methods in ecology and evolutionary biology. The course will cover the conceptual basis for a range of statistical techniques through a series of lectures using examples from the primary literature. The application of these techniques will be taught through the use of statistical software in computer-based laboratory sessions.

**EEEB UN3919 TRADING NATURE. 4.00 points.**

This course explores the scientific and theoretical conceptualization of nature as a market commodity, through the lens of conservation biology. Students will engage in critical analysis of the 'traditional' forms in which biodiversity has been appropriated as inputs into markets such as fisheries, resource extraction, bushmeat and medicine, as well as new market environmentalism.

**EEEB UN3993 EBHS SENIOR THESIS SEMINAR. 3.00 points.**

Four points for the year-long course.

Prerequisites: the instructor's permission and senior standing as a major in The Evolutionary Biology of the Human Species (EBHS).

**EEEB UN3997 INDEPENDENT STUDY. 1.00-3.00 points.**

CC/GS: Partial Fulfillment of Science Requirement

Students conduct research in environmental biology under supervision of a faculty mentor. The topic and scope of the research project must be approved before the student registers for the course.

**Fall 2022: EEEB UN3997**

**EEEB GU4100 FOREST ECOLOGY. 4.00 points.**

Prerequisites: one year of college biology.

EEEB GU4100 Forest Ecology focuses on interpreting and understanding pattern and process in forested ecosystems. These ecosystems include the assemblages of trees and the biological communities and environments in which they exist. The complex interactions among the organisms and the physical environment are a major focus of this course. The course involves lecture, literature discussion, and field laboratory components, with an emphasis on the analysis and interpretation of student-collected data. FRIDAY MEETINGS WILL RUN ALL DAY IN SEPTEMBER AND OCTOBER.

EEEB GU4201 ECO, BEHAVIOR # CONSERVATION OF MAMMALS. 3.00 points.
CC/GS: Partial Fulfillment of Science Requirement
Prerequisites: A course in either organismal biology, evolution, ecology or permission of the instructor if G4200 was not taken. This course examines the wide ranging aspects of features of mammalian natural history, behavior and ecology, and considers the implications of these features on the conservation status of particular mammal taxa for the future. We will also explore particular conservation challenges for mammals such as bats, grazing mammals, and large carnivores in increasingly human-dominated landscapes. This course will be a combination of lecture and student led discussions related to the conservation issues facing mammals today.

EEEB GU4350 PRIMATE SEXUALITY. 3.00 points.
CC/GS: Partial Fulfillment of Science Requirement
Prerequisites: (EEEB UN1010) or (EEEB UN1011)
In this course we take an integrative and comparative approach to understanding the sexual lives of primates. Focusing on mating and reproductive behavior with an explicitly evolutionary perspective, we will identify the fundamental principles of how and why selection has favored particular behaviors and morphologies in different primate species.

EEEB GU4670 Introduction to Geographical Information Systems. 3.00 points.
Geographic information systems (GIS) are powerful tools for analyzing fundamental geographic questions. GIS involves generating, linking, manipulating, and analyzing different sorts of spatial data; creating outputs commonly visualized as two- and sometimes three-dimensioned maps. This course will cover major topics in GIS with applications for the broad field of biology and natural sciences, using QGIS and R. The goal of this course is to teach students a level of GIS proficiency such that they will be self-sufficient in their further learning and use of GIS.

SPRING 2023

EEEB UN1005 1ST YR SEM-ECOL,EVOL,ENVIR BIO. 1.00 point.
This course provides a brief introduction to ecology, evolution and environmental biology with an emphasis on key concepts, current research, and opportunities for undergraduates. The course is taught jointly by the faculty in the department of Ecology, Evolution and Environmental Biology (E3B), with each session covering a different aspect of research and/or teaching in the department. Students are expected to complete weekly readings and participate in discussion both in class and online.

EEEB UN1011 BEHAVIOR BIOL-LIVING PRIMATES. 3.00 points.
CC/GS: Partial Fulfillment of Science Requirement
Prerequisites: Corequisite EEEB UN1111
Prerequisites: Corequisite EEEB UN1111 Study of non-human primate behavior from the perspective of phylogeny, adaptation, physiology and anatomy, and life history. Focuses on the four main problems primates face: finding appropriate food, avoiding being eaten themselves, reproducing in the face of competition, and dealing with social partners. Along with Human Origins - Evolution, this serves as a core required class for the EBHS program.
EEEB UN2002 ENVIRONMENTAL BIOLOGY II. 4.00 points.
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: EEEB UN2001
Prerequisites: EEEB UN2001 Second semester of introductory biology sequence for majors in environmental biology and environmental science, emphasizing the ecological and evolutionary aspects of biology. Also intended for those interested in an introduction to the principles of ecology and evolutionary biology

EEEB GU4192 INTRO TO LANDSCAPE ANALYSIS. 3.00 points.
CC/GS: Partial Fulfillment of Science Requirement
Prerequisites: SDEV W3390 or EESC W4050 or the instructor's permission.
Prerequisites: SDEV W3390 or EESC W4050 or the instructors permission. This class provides basic theory in landscape analysis and training in methods for analyzing landscapes, focusing on interpretation of satellite images. The class covers approaches and definitions in landscape analysis, data sources, land cover classification, change detection, accuracy assessment, projections of future land cover change, and techniques to interpret results of these analyses. Students will obtain hands-on experience working with data from a landscape related to his/her research or a landscape chosen by the instructors

EEEB GU4700 RACE: TANGLED HIST-BIOL CONCEPT.
4.00 points.
Enrollment limited to 15. Priority given to EBHS majors/concentrators.

From Aristotle to the 2020 US census, this course examines the history of race as a biological concept. It explores the complex relationship between the scientific study of biological differences—real, imagined, or invented—and the historical and cultural factors involved in the development and expression of "racial ideas." Scientific background not required. [Additional hour for film screenings weekly in second half of the semester—attendance at films is mandatory.] Please note that this course DOES NOT fulfill the SC requirement at the College or GS.

ECONOMICS

Departmental Office: 1022 International Affairs Building; 212-854-3680
http://www.columbia.edu/cu/economics/

Director of Undergraduate Studies: Dr. Susan Elmes, 1006 International Affairs Building; 212-854-9124; se5@columbia.edu

Director of Departmental Honors Program: Dr. Susan Elmes, 1006 International Affairs Building; 212-854-9124; se5@columbia.edu

Economics is the study of the ways in which society allocates its scarce resources among alternative uses and the consequences of these decisions. The areas of inquiry deal with a varied range of topics such as international trade, domestic and international financial systems, labor market analysis, and the study of less developed economies. Broadly speaking, the goal of an economics major is to train students to think analytically about social issues and, as such, provide a solid foundation for not only further study and careers in economics, but also for careers in law, public service, business, and related fields.

The Economics Department offers a general economics major in addition to five interdisciplinary majors structured to suit the interests and professional goals of a heterogeneous student body. All of these programs have different specific requirements but share the common structure of core theoretical courses that provide the foundation for higher-level elective courses culminating in a senior seminar. Students are urged to carefully look through the details of each of these programs and to contact an appropriate departmental adviser to discuss their particular interests.

ADVANCED PLACEMENT

Tests must be taken in both microeconomics and macroeconomics, with a score of 5 on one test and at least a 4 on the other. Provided that this is achieved, the department grants 4 credits for a score of 4 and 5 on the AP Economics exam along with exemption from ECON UN1105 PRINCIPLES OF ECONOMICS.

ADVISING

The Department of Economics offers a variety of advising resources to provide prospective and current undergraduate majors and concentrators with the information and support needed to successfully navigate through the program. These resources are described below.

Frequently Asked Questions
Please see: http://econ.columbia.edu/frequently-asked-questions-0

As a first step, students are encouraged to visit the department’s FAQ page, which provides comprehensive information and answers to the most frequently asked questions about the departmental majors and requirements. This page also includes a section that answers specific questions of first-years, sophomores, and non-majors.

Graduate Student Advisers

For answers to the most common questions that students have about the majors, the department has graduate student advisers, who are available by e-mail at econ-advising@columbia.edu, or during weekly office hours to meet with students.

Students should direct all questions and concerns about their major to the graduate student advisers either in person or via e-mail. The graduate student advisers can discuss major
requirements, scheduling, and major course selection, as well as review student checklists and discuss progress in the major. Occasionally, graduate student advisers may refer a student to someone else in the department (such as the director of undergraduate studies) or in the student’s school for additional advising.

Contact information and office hours for the graduate student advisers are posted on the Advisers page of the departmental website in the week prior to the beginning of the semester. Students considering one of the interdepartmental majors should speak to both a graduate student adviser from the Economics Department and the adviser from the other department early in the sophomore year.

Faculty Advisers

Faculty advisers are available to discuss students' academic and career goals, both in terms of the undergraduate career and post-graduate degrees and research. Students wishing to discuss these types of substantive topics may request a faculty adviser by completing the form available on the Advisers page of the departmental website and depositing it in the mailbox of the director of undergraduate studies in the department’s main office, 1022 International Affairs Building.

The department does its best to match students with faculty members that share similar academic interests. While faculty advisers do not discuss major requirements—that is the role of the graduate student advisers—they do provide guidance in course selection as it relates to meeting a student's intellectual goals and interests, as well as advise on career and research options. It is recommended that students who plan on attending a Ph.D. program in economics or are interested in pursuing economics research after graduation request a faculty adviser.

On-Line Information

Students can access useful information on-line, including: a comprehensive FAQ page; requirement changes to the major and concentration; sample programs and checklists; faculty office hours, contact information and fields of specialization; adviser information; teaching assistant information; research assistant opportunities; list of tutors; and Columbia-Barnard Economics Society information.

Departmental Honors

Economics majors and economics joint majors who wish to be considered for departmental honors in economics must:

1. Have at least a 3.7 GPA in their major courses;
2. Take ECON GU4999 SENIOR HONORS THESIS WORKSHOP (a one-year course);
3. Receive at least a grade of A- in ECON GU4999 SENIOR HONORS THESIS WORKSHOP.

Students must consult and obtain the approval of the departmental undergraduate director in order to be admitted to the workshop. Please note that ECON GU4999 SENIOR HONORS THESIS WORKSHOP may be taken to fulfill the seminar requirement for the economics major and all economics joint majors. Students who wish to write a senior thesis (ECON GU4999 SENIOR HONORS THESIS WORKSHOP) must have completed the core major requirements. Normally no more than 10% of graduating majors receive departmental honors in a given academic year. Please see the Honors Prizes page on the department’s website for more information.

Undergraduate Prizes

All prize recipients are announced at the end of the spring semester each academic year.

Sanford S. Parker Prize

Established in 1980, this prize is awarded annually to a Columbia College graduating student who majored or concentrated in economics and plans on continuing his or her studies in an economics Ph.D. program within the two years following his or her graduation.

Romine Prize

Established in 1997, this prize is awarded annually to two students (Columbia College or General Studies) majoring in economics: one for the best honors thesis paper, and the other for the best economics seminar paper.

Parker Prize for Summer Research

The department provides financial support for five Columbia College underclassmen who take unpaid summer internships that focus on research.

Checklists and Requirement
Checklists and Requirement information are available on the Department website.

Course List
Economics Core Courses
All of the core courses must be completed no later than the spring semester of the student’s junior year and must be taken at Columbia. Students who take any core course during the fall semester of their senior year must obtain written permission from the department’s director of undergraduate studies. Unless otherwise specified below, all students must complete the following core courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON UN1105</td>
<td>PRINCIPLES OF ECONOMICS</td>
</tr>
<tr>
<td>ECON UN3211</td>
<td>INTERMEDIATE MICROECONOMICS</td>
</tr>
<tr>
<td>ECON UN3213</td>
<td>INTERMEDIATE MACROECONOMICS</td>
</tr>
<tr>
<td>ECON UN3412</td>
<td>INTRODUCTION TO ECONOMETRICS</td>
</tr>
</tbody>
</table>

Prerequisites
Course prerequisites are strictly enforced. Prerequisites must be taken before the course, not after or concurrently.

Economics courses taken before the completion of any of its prerequisites, even with instructor approval, are not counted toward the major, concentration, or interdepartmental majors. Exemptions from a prerequisite requirement may only be made, in writing, by the department's director of undergraduate studies. Credits from a course taken prior to the completion of its prerequisites are not counted towards the major requirements. As a consequence, students are required to complete additional, specific courses in economics at the direction of the director of undergraduate studies.

The prerequisites for required courses are as follows:
<table>
<thead>
<tr>
<th>Course</th>
<th>Prerequisites</th>
<th>Co-requisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON UN1105 PRINCIPLES OF ECONOMICS</td>
<td>None</td>

ECPH GU4950 ECONOMICS

# PHILOSOPHY

Barnard electives

It is strongly recommended that students take ECON UN3412 INTRODUCTION TO ECONOMETRICS in the semester immediately following the completion of the statistics course.

Grading

No course with a grade of D or lower, including calculus and statistics courses, can count toward the major, concentration, or interdepartmental majors. Economics core courses with a grade of D or F must be taken for elective credit. All major, concentration, or interdepartmental majors.

Students who receive a grade of D or F in a core course are permitted to take a higher-level elective course that has that core course as a prerequisite, so long as it is taken concurrently with the retaking of that core course. For example, if a student fails ECON UN3211 INTERMEDIATE MICROECONOMICS, the student must retake it and, in the same semester, may enroll in an elective course for which it is a prerequisite, provided that all other prerequisites for the elective have been completed. The same rule applies to the required math and statistics courses. For example, if a student fails MATH UN1201 CALCULUS III, the student may retake calculus III concurrently with Intermediate Microeconomics. Students who must retake any core economics or math course may not retake it concurrently with a senior seminar; the economics core courses ECON UN3211 INTERMEDIATE MICROECONOMICS, ECON UN3213 INTERMEDIATE MACROECONOMICS, and ECON UN3412 INTRODUCTION TO ECONOMETRICS must be successfully completed before a student may enroll in a seminar.

A grade of W is not equivalent to a grade of D or F; it does not qualify a student to retake the course concurrently with a higher level course that lists the course as a prerequisite. Students who receive a grade of W in a core course must complete the course with a grade of C- or better before taking a course that lists it as a prerequisite.

Only ECON UN1105 PRINCIPLES OF ECONOMICS may be taken for a grade of Pass/D/Fail, and the student must receive a grade of P for it to count towards the requirements for the major, concentration, or interdepartmental majors.

Economics Electives

Only those courses identified in the Economics Department listings in this Bulletin may be taken for elective credit. All 3000-level or higher electives offered by the Economics Department have ECON UN3211 INTERMEDIATE MICROECONOMICS and ECON UN3213 INTERMEDIATE MACROECONOMICS as prerequisites. However, some electives have additional prerequisites and students should ensure that all prerequisites have been completed (see the table of prerequisites printed above). Seminars do not count as electives.

Seminars

Seminars can be taken only after all of the required core courses in economics have been successfully completed. Students may not take or re-take ECON UN3211 INTERMEDIATE MICROECONOMICS, ECON UN3213 INTERMEDIATE MACROECONOMICS, or ECON UN3412 INTRODUCTION TO ECONOMETRICS concurrently with any senior seminar. Seminars do not count as electives. Each seminar is limited to sixteen students, with priority given to seniors. For ECPS GU4921 SEMINAR IN POLITICAL ECONOMICS and ECPH GU4950 ECONOMICS # PHILOSOPHY, priority is given to economics–political science and economics–philosophy majors, respectively.

For seminar registration details, read the information posted on the department’s Senior Seminar Registration page: http:// econ.columbia.edu/senior-seminars-registration.

Mathematics

Students must consult with the Mathematics Department for the appropriate placement in the calculus sequence. Students must complete one of the following sequences:

Select one of the following sequences:

| MATH UN1101 | CALCULUS I |
|---------------------------------------------------|
| - MATH UN1201 | and CALCULUS III |

| MATH UN1101 | CALCULUS I |
|---------------------------------------------------|
| - MATH UN1205 | and ACCELERATED MULTIVARIABLE CALC |

| MATH UN1207 | HONORS MATHEMATICS A |
|---------------------------------------------------|
| - MATH UN1208 | and HONORS MATHEMATICS B |

In addition:

1. Students who receive a grade of D or F in MATH UN1201 CALCULUS III or MATH UN1205 must retake the course, but may enroll in ECON UN3211 INTERMEDIATE MICROECONOMICS.

2. Students who receive a grade of D or F in MATH UN1207 HONORS MATHEMATICS A may either retake the course, or take MATH UN1201 CALCULUS III or MATH UN1205, and enroll in ECON UN3211 INTERMEDIATE MICROECONOMICS concurrently.

Statistics

Unless otherwise specified below, all students must take STAT UN1201 CALC-BASED INTRO TO STATISTICS, or a higher level course, such as STAT GU4204 STATISTICAL INFERENCE, or STAT GU4001.
Barnard Courses

A limited number of Barnard economics electives may count toward the major, concentration, and interdepartmental majors. Students should pay careful attention to the limit of Barnard electives indicated in their program requirements. Please see the Transfer Credit section below for information on the number of Barnard electives that may be taken to fulfill major requirements. In addition, students may not receive credit for two courses whose content overlaps. Barnard and Columbia economics electives with overlapping content include but are not limited to:

- ECON BC3029 - ECON GU4321: EMPIRICAL APPROACHES and ECONOMIC DEVELOPMENT
- ECON BC3038 - ECON GU4505: INTERNATIONAL MONEY and INTERNATIONAL MACROECONOMICS
- ECON BC3019 - ECON GU4400: LABOR ECONOMICS
- ECON BC3047 - ECON GU4500: International Trade
- ECON BC3039 - ECON GU4625: Environmental and Natural Resource Economics
- ECON BC3041 - ECON GU4235: THEORETICAL FOUNDATIONS OF MODERN ECONOMICS: Adam Smith to J M Keynes
- ECON GU4400: LABOR ECONOMICS
- ECON GU4235: HISTORICAL FOUNDATIONS OF MODERN ECONOMICS: Adam Smith to J M Keynes

Students should always first consult with econ-advising to confirm that the Barnard elective they wish to take does not overlap with a Columbia elective that they have already taken or plan to take. Students may not take the Barnard core economics, math, statistics, or seminar courses for credit towards the completion of major requirements.

School of Professional Studies Courses

The Department of Economics does not accept any of the courses offered through the School of Professional Studies for credit towards the economics major, concentration, or interdepartmental majors with the exception of the courses offered by the Economics Department during the summer session at Columbia.

Other Department and School Courses

Please note that with the exception of the above Barnard courses and the specific courses listed below for the financial economics major, no other courses offered through the different departments and schools at Columbia count toward the economics majors or concentration.

Transfer Credits

Students are required to take a minimum number of courses in the Columbia Economics Department. For all majors and interdepartmental majors, students must complete a minimum of five lecture courses in the Columbia department. Students may fulfill their remaining requirements for economics lecture courses through AP (or IB or GCE) credits, Barnard electives, transfer courses, and study abroad courses (the latter two are subject to the approval of the Economics Department). The following table summarizes the new rules:

<table>
<thead>
<tr>
<th>Program</th>
<th>Number of required economics lecture courses</th>
<th>Minimum number which must be taken in the department</th>
<th>Maximum number of outside allowed</th>
</tr>
</thead>
<tbody>
<tr>
<td>Economics major</td>
<td>9</td>
<td>5</td>
<td>4</td>
</tr>
<tr>
<td>Financial economics</td>
<td>8</td>
<td>5</td>
<td>3</td>
</tr>
<tr>
<td>Economics-mathematics</td>
<td>7</td>
<td>5</td>
<td>2</td>
</tr>
<tr>
<td>Economics-political science</td>
<td>7</td>
<td>5</td>
<td>2</td>
</tr>
<tr>
<td>Economics-statistics</td>
<td>7</td>
<td>5</td>
<td>2</td>
</tr>
<tr>
<td>Economics-philosophy</td>
<td>7</td>
<td>5</td>
<td>2</td>
</tr>
<tr>
<td>Economics concentration</td>
<td>7</td>
<td>4</td>
<td>3</td>
</tr>
</tbody>
</table>

1. Lecture courses do not include seminars, which must be taken in the Columbia Economics Department. The lecture course counts are counts of economics courses only and do not include math, statistics, or courses in other departments;
2. At least two of the three 3000-level economics core courses must be taken in the department and no corresponding Barnard courses are accepted. ECON UN3025 FINANCIAL ECONOMICS and ECON UN3265 MONEY AND BANKING are counted as departmental courses regardless of the instructor;
3. Outside courses include AP (or IB or GCE) credits, transfer credits, Barnard 2000- and 3000-level elective courses and transfer credits from other universities. In the case where two or more courses taken outside of Columbia are used as the equivalent of ECON UN1105 PRINCIPLES OF
ECONOMICS, those courses are counted as one transfer course.

Approval of transfer credits to fulfill economics requirements must be obtained in writing from the Department of Economics (see the departmental website or speak with your advising dean for information regarding applications for transfer credit). Approval is granted only for courses that are considered to be comparable to those offered at Columbia.

Summer courses taken at other institutions must be approved in writing by the department’s transfer credit adviser before the course is taken. The department does not accept transfer credits for any 3000 level core courses taken during a summer session outside of Columbia University. Summer courses taken from the department of economics at Columbia University do not need approval.

Guidelines and instructions on how to request transfer credit approval can be found in the Transfer Credit Information page of the departmental website.

MAJOR IN ECONOMICS

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors (p. 445) above.

The economics major requires a minimum of 35 points in economics, 6 points in mathematics, and 3 points in statistics, for a total of at least 44 points as follows:

<table>
<thead>
<tr>
<th>Economics Core Courses</th>
<th>All economics core courses</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mathematics</td>
<td>Select a mathematics sequence</td>
</tr>
<tr>
<td>Statistics</td>
<td>Select a statistics course</td>
</tr>
<tr>
<td>Economics Electives</td>
<td>Select at least five electives, of which no more than one may be taken at the 2000-level (including Barnard courses)</td>
</tr>
<tr>
<td>Economics Seminar</td>
<td>Select one economics seminar course</td>
</tr>
</tbody>
</table>

Major in Financial Economics

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors (p. 445) above.

The Department of Economics offers the major in financial economics, which provides an academic framework to explore the role of financial markets and intermediaries in the allocation (and misallocation) of capital. Among the topics studied in financial economics are financial markets, banks and other financial intermediaries, asset valuation, portfolio allocation, regulation and corporate governance.

The financial economics major requires 26 points in economics, 6 points in mathematics, 3 points in statistics, 3 points in business, and 12 points from a list of selected courses for a total minimum of 50 points as follows:

<table>
<thead>
<tr>
<th>Economics Core Courses</th>
<th>All economics core courses</th>
</tr>
</thead>
<tbody>
<tr>
<td>Finance Core Courses</td>
<td>ECON UN3025 FINANCIAL ECONOMICS</td>
</tr>
<tr>
<td></td>
<td>ECON GU4280 CORPORATE FINANCE</td>
</tr>
<tr>
<td></td>
<td>BUSI UN3013 FINANCIAL ACCOUNTING</td>
</tr>
<tr>
<td>*NOTE: The department considers BUSI UN3013 and IEOR E2261 as overlapping courses. Students who take both courses shall be credited with one course only. Financial economics majors who are also in the Business Management concentration program (CNBUMG) must take an additional elective from either the financial economics prescribed elective list (below) or from the CNBUMG prescribed list.</td>
<td></td>
</tr>
</tbody>
</table>

### Major in Economics-Mathematics

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors (p. 445) above.

The major in economics and mathematics provides students with a grounding in economic theory comparable to that provided by the general economics major and exposes students to rigorous and extensive training in mathematics. The program is recommended for any student planning to do graduate work in economics.

The Department of Economics has graduate student advisers with whom students may consult on economics requirements. The Department of Mathematics has an assigned adviser with whom students may consult on mathematics requirements. The economics adviser can only advise on economics requirements; the mathematics adviser can only advise on mathematics requirements.

The economics-mathematics major requires a total of 52 or 56 points (depending on mathematics sequence) : 29 points in economics and 23-27 points in mathematics and statistics as follows:

#### Economics Core Courses
All economics core courses

#### Economics Electives
Select three electives at the 3000-level or above

#### Mathematics
Select one of the following sequences:

| MATH UN1101 | CALCULUS I |
| MATH UN1102 | and CALCULUS II |
| MATH UN1201 | and CALCULUS III |
| MATH UN2010 | and LINEAR ALGEBRA |

| MATH UN1101 | CALCULUS I |
| MATH UN1102 | and CALCULUS II |
| MATH UN1205 | and ACCELERATED |
| MATH UN2010 | MULTIVARIABLE CALC and LINEAR ALGEBRA |

| MATH UN1207 | HONORS MATHEMATICS A |
| MATH UN1208 | and HONORS MATHEMATICS B |

Note: Students who take MATH UN1205 may not receive credit for both MATH UN1201 and MATH UN1202.

#### Analysis requirement:

| MATH UN2500 | ANALYSIS AND OPTIMIZATION |

Select three of the following:

| MATH UN1202 | CALCULUS IV |
| MATH UN2030 | ORDINARY DIFFERENTIAL EQUATIONS |

Any mathematics course at the 3000-level or above

Note: Students who take MATH UN1205 will not receive credit for MATH UN1202.

| STAT GU4262 | Stochastic Processes for Finance |

#### Seminar

The seminar must be chosen from a list of seminars eligible for the financial economics major. The department indicates which seminars are eligible for the major on the Senior Seminars page of the departmental website.

Students must have completed at least one of ECON UN3025 or ECON GU4280 prior to taking their senior seminar.

* Students must complete the finance core no later than fall of their senior year.
Statistics
Select one of the following sequences:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT GU4001</td>
<td>INTRODUCTION TO PROBABILITY AND STATISTICS</td>
</tr>
<tr>
<td>STAT GU4203</td>
<td>PROBABILITY THEORY and STATISTICAL INFERENCE</td>
</tr>
<tr>
<td>STAT GU4204</td>
<td></td>
</tr>
</tbody>
</table>

Economics Seminar
Select an economics seminar

NOTE:
1. Students who fulfill the statistics requirement with STAT GU4203 and STAT GU4204, may count STAT GU4203 or STAT GU4204 as one of the three required mathematics electives.
2. Students who choose the one year sequence (STAT GU4203/ STAT GU4204), must complete the year long sequence prior to taking ECON UN3412. Students receive elective credit for the probability course.

MAJOR IN ECONOMICS-PHILOSOPHY

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors (p. 445) above.

Economics-philosophy is an interdisciplinary major that introduces students to basic methodologies of economics and philosophy and stresses areas of particular concern to both, e.g. rationality and decision making, justice and efficiency, freedom and collective choice, logic of empirical theories and testing. Many issues are dealt with historically. Classic texts of Plato, Kant, Mill, Marx, and Smith are reviewed.

The Department of Economics has graduate student advisers with whom students may consult on economics requirements. The Department of Philosophy has an assigned adviser with whom students may consult on philosophy requirements. The economics adviser can only advise on economics requirements; the philosophy adviser can only advise on philosophy requirements.

The economics-philosophy major requires a total minimum of 54 points: 25 points in economics, 16 points in philosophy, 6 points in mathematics, 3 points in statistics, and 4 points in the interdisciplinary seminar as follows:

Economics Core Courses
- ECON UN1105 PRINCIPLES OF ECONOMICS
- ECON UN3211 INTERMEDIATE MICROECONOMICS
- ECON UN3213 INTERMEDIATE MACROECONOMICS
- ECON UN3412 INTRODUCTION TO ECONOMETRICS

Mathematics
- ECPH GU4950 ECONOMICS # PHILOSOPHY

Economics

Students who declared before Spring 2014: The requirements for this program were modified in 2014. Students who declared this program before Spring 2014 should contact the director of undergraduate studies for the department in order to confirm their options for major requirements.

Major in Economics–Political Science

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors (p. 445) above.

Political economy is an interdisciplinary major that introduces students to the methodologies of economics and political science and stresses areas of particular concern to both. This program is particularly beneficial to students planning to do graduate work in schools of public policy and international affairs.

The Department of Economics has graduate student advisers with whom students may consult on economics requirements. The Department of Political Science has an assigned adviser with whom students may consult on political science requirements. The economics adviser can only advise on economics requirements; the political science adviser can only advise on political science requirements.

The economics–political science major requires a total of 59 points: 22 points in economics, 17 points in political science, 6 points in mathematics, 6 points in statistical methods, 4 points in a political science seminar, and 4 points in the interdisciplinary seminar as follows.

The political science courses are grouped into four areas, i.e. subfields: (1) American Politics, (2) Comparative Politics, (3) International Relations, and (4) Political Theory. For the political science part of the major, students are required to select one area as a major subfield and one as a minor subfield. The corresponding introductory courses in both subfields must be taken, plus two electives in the major subfield, and one in the minor subfield.

Economics Core Courses

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON UN1105</td>

<td>INTERMEDIATE MACROECONOMICS</td>
</tr>
<tr>
<td>ECON GU4370</td>
<td>POLITICAL ECONOMY</td>
</tr>
</tbody>
</table>

Mathematics

Select a mathematics sequence

Statistical Methods

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT UN1201</td>
<td>CALC-BASED INTRO TO STATISTICS</td>
</tr>
</tbody>
</table>

Select one of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON UN3412</td>
<td>INTRODUCTION TO ECONOMETRICS</td>
</tr>
</tbody>
</table>

Economics Electives

Select two electives (6 points) at the 3000-level or above

Political Science Courses

Students must choose a Primary Subfield and a Secondary Subfield to study. The subfields are as follows: American Politics (AP), Comparative Politics (CP), International Relations (IR), and Political Theory (PT).

Primary Subfield: Minimum three courses, one of which must be the subfield’s introductory course.

Secondary Subfield: Minimum two courses, one of which must be the subfield’s introductory course.

Seminars

Students must take the following two seminars:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>POLS GU4712</td>
<td>PRINC OF QUANT POL RESEARCH 2</td>
</tr>
</tbody>
</table>

Students who wish to count toward the political science seminar requirement a course that is not in the above list of approved seminars must obtain permission from the political science Director of Undergraduate studies. Barnard colloquia can count for seminar credit only with the written permission of the Director of Undergraduate Studies. Note that admission to Barnard colloquia is by application to the Barnard political science department only.

Major in Economics–Statistics

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors (p. 445) above.

The major in economics-statistics provides students with a grounding in economic theory comparable to that provided by the general economics major, but also exposes students to a significantly more rigorous and extensive statistics training than is provided by the general major. This program is recommended for students with strong quantitative skills and for those contemplating graduate studies in economics.

The Department of Economics has graduate student advisers with whom students may consult on economics requirements.
The Department of Statistics has an assigned adviser with whom students may consult on statistics requirements. The economics adviser can only advise on economics requirements; the statistics adviser can only advise on statistics requirements.

The economics-statistics major requires a total of 59 points: 29 in economics, 15 points in statistics, 12 points in mathematics, 3 points in computer science as follows:

**Economics Core Courses**
All economics core courses

**Economics Electives**
Select three electives at the 3000-level or above

**Mathematics**
Select one of the following sequences:

- MATH UN1101
  - MATH UN1102
  - MATH UN1201
  - MATH UN2010
  - CALCULUS I
  - and CALCULUS II
  - and CALCULUS III
  - and LINEAR ALGEBRA

MATH UN1101
- MATH UN1102
- MATH UN1205
- MATH UN2010
- CALCULUS I
- and CALCULUS II
- and ACCELERATED MULTIVARIABLE CALC
- and LINEAR ALGEBRA

MATH UN1207
- MATH UN1208
- HONORS MATHEMATICS A
- and HONORS MATHEMATICS B

**Statistics**

- STAT UN1201
  - CALC-BASED INTRO TO STATISTICS

STAT GU4203
- PROBABILITY THEORY

STAT GU4204
- STATISTICAL INFERENCE

STAT GU4205
- LINEAR REGRESSION MODELS

One elective in statistics from among courses numbered STAT GU 4206 through GU 4266.

**Computer Science**
Select one of the following:

- COMS W1004
  - Introduction to Computer Science and Programming in Java

- COMS W1005
  - Introduction to Computer Science and Programming in MATLAB

- COMS W1007
  - Honors Introduction to Computer Science

**ECON UN2029 FED CHALLENGE WORKSHOP. 1.00 point.**

Prerequisites: (ECON UN1105)

Prerequisites: (ECON UN1105)

The workshop prepares students to compete in the annual College Fed Challenge sponsored by the Federal Reserve. Topics covered include macroeconomic and financial conditions, monetary policy, financial stability and the Federal Reserve System.
### ECON UN2105 THE AMERICAN ECONOMY. 3.00 points.

Prerequisites: ECON UN1105

ECON UN1105 The course surveys issues of interest in the American economy, including economic measurement, well-being and income distribution, business cycles and recession, the labor and housing markets, saving and wealth, fiscal policy, banking and finance, and topics in central banking. We study historical issues, institutions, measurement, current performance and recent research.

ECON UN3901 ECONOMICS OF EDUCATION. 3.00 points.
Prerequisites: ( econ un3211 and econ un3213 and econ un3412)
Course objective: This course has two objectives: (1) To develop students' skills in research and writing. Specifically, participants will work on: formulating a research question, placing it in the context of an existing literature and/or policy area, and using economic and econometric tools to address it in writing. Specifically, in the first part of the class, readings, problem sets, and a midterm exam will build skills in these areas. In the second part, students will come up with a research question, and address it in a research proposal/report. While all the applications will be on the economics of education, these skills will be useful in students' subsequent careers, regardless of the area of economics they focus on. (2) To provide an introduction to key issues in the economics of education. Specifically, education is a signficant industryevery person entering this course will have already spent years in this industry as a customer, as a worker, as an input, or all of the above. The course will address questions like: What does economics have to say about how this industry is organized and what determines its output? Why do individuals invest in education? What determines the behavior, productivity, and reputation of rms in the industry? What role should government and public policy (if any) play in its operation?

ECON UN3952 MACROECONOMICS#FORMATION OF EXPECTATIONS. 3.00 points.
Prerequisites: ECON UN3211 and ECON UN3213 and ECON UN3412
This course has two main objectives: To introduce students to the process of writing a research paper. This includes identifying and formulating a research question, reviewing the previous literature and positioning the problem in that context, identifying the proper tools and data to answer the question, and finally writing the findings in the format of a research paper. An immediate goal is to prepare the students to undertake a senior thesis project. To provide an introduction to selected topics and survey evidence in macroeconomics, with a focus on the expectation formation process of economic agents. We will start by going through some canonical models that are widely used for economic and policy analysis to understand the role of expectations in the decision making of households and firms. We will then go through a series of survey data and relate the empirical evidence to the theoretical predictions of those canonical models

ECON UN3981 Applied Econometrics. 3 points.
Prerequisites: ECON UN3211 and ECON UN3213 and ECON UN3412
The objective of this course is to develop students' research skills and to learn the process of writing an original research paper. The skills and process include the ability to identify a problem and state in a concise manner, literature review, data collection, model formulation and estimation, evaluation of the problem and writing up the findings in a format of a research paper. An immediate and more specific goal is to prepare students to tackle a senior thesis project.

Towards this goal, this course will review or introduce the most widely used econometric techniques for empirical research. These include multiple regressions, probit and logit models, instrumental variables methods, panel data methods, regression discontinuity designs. This course will also introduce some time series methods such as vector autoregressive process, cointegration analysis, financial time series, and modeling of volatilities. Students will need to practice these methods with a computer software package (R or STATA) and with actual economic data sets.

ECON GU4020 ECON OF UNCERTAINTY # INFORMTN. 3.00 points.
Prerequisites: ECON UN3211 and ECON UN3213 and STAT UN1201
Topics include behavior uncertainty, expected utility hypothesis, insurance, portfolio choice, principle agent problems, screening and signaling, and information theories of financial intermediation

ECON GU4211 ADVANCED MICROECONOMICS. 4.00 points.
Prerequisites: ECON UN3211 and ECON UN3213 and MATH UN2010
Students must register for required discussion section.
Corequisites: MATH UN2500, MATH GU4061
Topics will vary with the instructor but will include consumer theory, producer theory, general equilibrium and welfare, social choice theory, game theory and information economics. This course is strongly recommended for students considering graduate work in economics. Discussion section required

Course Spring 2023: ECON GU4211
Course Number Section/Call Number Times/Location Instructor Points Enrollment
ECON 4211 001/12142 M W 1:10pm - 2:25pm 417 Mathematics Building Elmes 4.00 9/64

ECON GU4212 ADV MICROECONOMICS - DISC. 0.00 points.
Prerequisites: ECON UN3211 and ECON UN3213 and MATH UN2010
Students must register for lecture course ECON GU4211
Corequisites: MATH UN2500, MATH GU4061
Required discussion section for ECON GU4211 Advanced Microeconomics. The course provides a rigorous introduction to microeconomics. Topics will vary with the instructor but will
include consumer theory, producer theory, general equilibrium and welfare, social choice theory, game theory and information economics. This course is strongly recommended for students considering graduate work in economics. Discussion section required.

**ECON GU4228 Urban Economics. 3 points.**

Prerequisites: ECON UN3211 and ECON UN3213

**ECON GU4230 ECONOMICS OF NEW YORK CITY. 3.00 points.**

Prerequisites: ECON UN3211 and ECON UN3213 and STAT Un1201

This course takes New York as our laboratory. Economics is about individual choice subject to constraints and the ways that choices sum up to something often much more than the parts. The fundamental feature of any city is the combination of those forces that bring people together and those that push them apart. Thus both physical and social space will be central to our discussions. The underlying theoretical and empirical analysis will touch on spatial aspects of urban economics, regional, and even international economics. We will aim to see these features in New York City taken as a whole, as well as in specific neighborhoods of the city. We will match these theoretical and empirical analyses with readings that reflect close observation of specific subjects. The close observation is meant to inspire you to probe deeply into a topic in order that the tools and approaches of economics may illuminate these issues in a fresh way.

**ECON GU4235 HISTORICAL FOUNDATIONS OF MODERN ECONOMICS: Adam Smith to J M Keynes. 3 points.**

Not offered during 2022-23 academic year.

Prerequisites: ECON UN3211 and ECON UN3213

A survey of some of the major intellectual developments that have created the discipline of economics. Particular attention to the works of Adam Smith, Alfred Marshall, Irving Fisher, and J. M. Keynes.

**ECON GU4251 INDUSTRIAL ORGANIZATION. 3.00 points.**

Prerequisites: ECON UN3211 and ECON UN3213

**ECON GU4251 The study of industrial behavior based on game-theoretic oligopoly models. Topics include pricing models, strategic aspects of business practice, vertical integration, and technological innovation.**

**ECON GU4260 MARKET DESIGN. 3.00 points.**

Prerequisites: ECON UN3211 and ECON UN3213 and STAT UN1201

This course uses modern microeconomic tools for understanding markets for indivisible resources and exploring ways to improve their design in terms of stability, efficiency and incentives. Lessons of market design will be applied to developing internet platforms for intermediating exchanges, for auctions to allocate sponsored search advertising, to allocate property rights such as public lands, radio spectrums, fishing rights, for assigning students to public schools, and for developing efficient kidney exchanges for transplantation.

ECON GU4370 POLITICAL ECONOMY. 3.00 points.
Prerequisites: ECON UN3211 and ECON UN3213 and STAT UN1201 or POLS 4710 for those who declared prior to Spring 2014.
The objective of this course is to develop understanding of how political institutions and behavior shape economic outcomes, and vice versa. Starting from the micro level study of political behavior, we will build up to analyze the internal workings of institutions and ultimately macro level economic and political outcomes. During the course we will cover the following topics
- Limits and potential of markets
- Public goods provision
- Voting
- Redistribution

ECON GU4505 INTERNATIONAL MACROECONOMICS. 3.00 points.
Prerequisites: ECON UN3211 and ECON UN3213
Prerequisites: ECON UN3211 and ECON UN3213. Econ GU4505 is an elective in the economics major. The course develops models for the analysis of the determinants of international capital flows, trade imbalances, and exchange rates. The models are then used as the basis for the discussion of topics such as Global Imbalances, Uncertainty and the Current Account, The Global Saving Glut, Purchasing Power Parity, Sudden Stops, Real Exchange Rates and Productivity, Covered Interest Rate Parity, Uncovered Interest Rate Parity, Borrowing Externalities and Optimal Capital Controls, Overborrowing, Macroeconomic Adjustment under Flexible and Fixed Exchange Rates, Twin Deficits, and Balance of Payment Crises
Fall 2022: ECON GU4505

ECON GU4625 Economics of the Environment. 3 points.
Not offered during 2022-23 academic year.
Prerequisites: ECON UN3211 and UN3213.
Microeconomics is used to study who has an incentive to protect the environment. Government's possible and actual role in protecting the environment is explored. How do technological change, economic development, and free trade affect the environment? Emphasis on hypothesis testing and quantitative analysis of real-world policy issues.

ECON GU4630 Climate Finance. 3.00 points.
In lieu of the failure of legislatures to pass comprehensive carbon taxes, there is growing pressure on the financial system to address the risks of global warming. One set of pressures is to account for the heightened physical risks due to extreme weather events and potential climate tipping points. Another set of pressures are to find approaches to incentivize corporations to meet the goals set out in the Paris Treaty of 2015. These approaches include (1) mandates or restrictions to only hold companies with decarbonization plans, (2) development of negative emissions technologies such as direct-air capture and (3) promotion of natural capital markets that can be used to offset carbon emissions. Moreover, financial markets also provide crucial information on expectations and plans of economic agents regarding climate change. This course will cover both models and empirical methodologies that are necessary to assess the role of the financial system in addressing global warming

ECON GU4700 FINANCIAL CRISES. 3.00 points.
Prerequisites: ECON UN3211 and ECON UN3213 and STAT UN1201
This course uses economic theory and empirical evidence to study the causes of financial crises and the effectiveness of policy responses to these crises. Particular attention will be given to some of the major economic and financial crises in the past century and to the crisis that began in August 2007.

ECON GU4710 Finance and the Real Economy. 3.00 points.
Prerequisites: (Econ UN3211) and (ECON UN3213) and (STAT UN1201)
This course uses economic theory and empirical evidence to study the links between financial markets and the real economy. We will consider questions such as: What is the welfare role of finance? How do financial markets affect consumers and firms? How do shocks to the financial system transmit to the real economy? How do financial markets impact inequality?
Spring 2023: ECON GU4710
Course Number Section/Call Number Times/Location Instructor Points Enrollment

ECON GU4750 GLOBALIZATION # ITS RISKS. 3.00 points.
Prerequisites: ECON UN3211 and ECON UN3213
Prerequisites: ECON UN3211 and ECON UN3213 The world is being transformed by dramatic increases in flows of people,
goods and services across nations. Globalization has the potential for enormous gains but is also associated to serious risks. The gains are related to international commerce where the industrial countries dominate, while the risks involve the global environment, poverty and the satisfaction of basic needs that affect in great measure the developing nations. Both are linked to a historical division of the world into the North and the South—the industrial and the developing nations. Key to future evolution are (1) the creation of new markets that trade privately produced public goods, such as knowledge and greenhouse gas emissions, as in the Kyoto Protocol; (2) the updating of the Breton Woods Institutions, including the creation of a Knowledge Bank and an International Bank for Environmental Settlements.

**ECON GU4840 BEHAVIORAL ECONOMICS. 3.00 points.**

Prerequisites: ECON UN3211 and ECON UN3213

Within economics, the standard model of behavior is that of a perfectly rational, self interested utility maximizer with unlimited cognitive resources. In many cases, this provides a good approximation to the types of behavior that economists are interested in. However, over the past 30 years, experimental and behavioral economists have documented ways in which the standard model is not just wrong, but is wrong in ways that are important for economic outcomes. Understanding these behaviors, and their implications, is one of the most exciting areas of current economic inquiry. The aim of this course is to provide a grounding in the main areas of study within behavioral economics, including temptation and self control, fairness and reciprocity, reference dependence, bounded rationality and choice under risk and uncertainty. For each area we will study three things: 1. The evidence that indicates that the standard economic model is missing some important behavior 2. The models that have been developed to capture these behaviors 3. Applications of these models to (for example) finance, labor and development economics. As well as the standard lectures, homework assignments, exams and so on, you will be asked to participate in economic experiments, the data from which will be used to illustrate some of the principals in the course. There will also be a certain small degree of classroom ‘flipping’, with a portion of many lectures given over to group problem solving. Finally, an integral part of the course will be a research proposal that you must complete by the end of the course, outlining a novel piece of research that you would be interested in doing.

**ECON GU4850 COGNITIVE MECH # ECON BEHAVIOR. 4.00 points.**

Prerequisites: ECON UN3211 and ECON UN3213 and STAT UN1201

Prerequisites: ECON UN3211 and ECON UN3213 and STAT UN1201

Standard economic theory seeks to explain how the underlying mechanisms work (something that is understood in more detail in sensory contexts than in the case of value-based decision making), the course will consider the extent to which such mechanisms --- while suboptimal from a normative standpoint that treats perfect knowledge of one's situation as costless and automatic --- might actually represent efficient uses of the limited information and bounded information-processing resources available to actual people (or other organisms). Thus the course will consider both ways in which the realism of economic analysis may be improved by taking into account cognitive processes, and ways in which understanding of cognitive processes might be advanced by considering the economic problem of efficient use of limited (cognitive) resources.

**ECON GU4860 BEHAVIORAL FINANCE. 3.00 points.**

Prerequisites: ECON UN3211 and ECON UN3213 and ECON UN3412

Prerequisites: ECON UN3211 and ECON UN3213 and ECON UN3412

Neoclassical finance theory seeks to explain financial market valuations and fluctuations in terms of investors having rational expectations and being able to trade without costs. Under these assumptions, markets are efficient in that stocks and other assets are always priced just right. The efficient markets hypothesis (EMH) has had an enormous influence over the past 50 years on the financial industry, from pricing to financial innovations, and on policy makers, from how markets are regulated to how monetary policy is set. But there was very little in prevailing EMH models to suggest the instabilities associated with the Financial Crisis of 2008 and indeed with earlier crises in financial market history. This course seeks to develop a set of tools to build a more robust
model of financial markets that can account for a wider range of outcomes. It is based on an ongoing research agenda loosely dubbed “Behavioral Finance”, which seeks to incorporate more realistic assumptions concerning human rationality and market imperfections into finance models. Broadly, we show in this course that limitations of human rationality can lead to bubbles and busts such as the Internet Bubble of the mid-1990s and the Housing Bubble of the mid-2000s; that imperfections of markets — such as the difficulty of short-selling assets — can cause financial markets to undergo sudden and unpredictable crashes; and that agency problems or the problems of institutions can create instabilities in the financial system as recently occurred during the 2008 Financial Crisis. These instabilities in turn can have feedback effects to the performance of the real economy in the form of corporate investments.

ECON GU4999 SENIOR HONORS THESIS WORKSHOP. 3.00 points.

3 points per semester.

Prerequisites: ECON UN3211 and ECON UN3213 and ECON UN3412 and the director of the departmental honors program's permission. Students must have a minimum GPA of 3.7 in all required major courses, including calculus and statistics, prior to enrollment. Prerequisites: ECON UN3211 and ECON UN3213 and ECON UN3412 and the director of the departmental honors programs permission. Students must have a minimum GPA of 3.7 in all required major courses, including calculus and statistics, prior to enrollment. The honors thesis seminar is a year-long course, beginning in the fall semester and ending in the spring semester. Students who have been approved to enter the workshop will be registered for both semesters by the department during the first two weeks of classes; 3 points are earned per semester. This workshop may only be taken by students applying for departmental honors, and it also fulfills the economics seminar requirement for the economics major and all joint majors. Students must see the director during mid-semester registration in the spring to discuss their proposed thesis topic, at which time they will be matched with appropriate faculty who will act as their thesis adviser. Students will meet their adviser over the course of the year at mutually agreed upon times. A rough draft of the thesis will be due during the first week of February in the spring semester, and the final draft will be due three weeks before the last day of classes. Please note that for those joint majors that require two seminars, one in economics and one in the other discipline (i.e. Political Science), the economics senior honors thesis seminar only fulfills the economics seminar requirement.

OF RELATED INTEREST

Note: Barnard economic core courses (ECON BC1003, ECON BC1007, ECON BC2411, ECON BC3018, ECON BC2010) and seminars do not count towards the Columbia economics major and concentration.

Economics (Barnard)

- ECON BC2010: The Economics of Gender
- ECON BC2012: Economic History of Western Europe
- ECON BC2017: INTRODUCTION TO HEALTH ECONOM
The Barnard Education Program is committed to strengthening public education and addressing issues of equity and social justice, particularly in urban schools. We offer two tracks in Education: Educational Studies (Major and Minor/Special Concentration), and Urban-Teaching Minors/Special Concentration (that leads to teacher certification in Elementary/Childhood Education or Secondary-Adolescent Education).

In all tracks, students develop critical lenses to understand education as a fundamental human activity that occurs across many settings; to analyze the issues facing public schools; and to consider ways to promote fair and inclusive policies and practices for children and youth. The classes are open to all undergraduates at Columbia (BC, SEAS, GS, CC). The two tracks we offer are:

**Educational Studies**

Education Studies is an interdisciplinary program for students who wish to understand, critically analyze, and conduct research on the role of education in society. Our students draw on a wide range of theoretical and empirical scholarship to study education as a social, cultural, and historical process. We understand education as much more than schooling, even as schooling is central to many of our concerns. Students who pursue the major or the minor/special concentration in Educational Studies learn to evaluate educational policy, practice, and research through a critical, equity-oriented lens. Our graduates will be prepared to act creatively for peace, justice, and sustainability in local and global educational contexts. Educational Studies prepares students to pursue graduate studies or positions in public policy, sociology, history, youth studies, philosophy, psychology, and other areas where K-12 education is frequently a focus of coursework and scholarship, as well as to pursue teacher certification through a graduate program. Educational Studies does not lead to teacher certification.

**Educational Studies Major:** The Educational Studies major is designed for students whose primary interest is in pursuing Education as their major course of study. Educational Studies majors concentrate in one of three areas: Education, Culture, and Society; Educational Policy; or Comparative and International Education. In their senior year, they conduct an original inquiry project. Currently, the major in Education Studies is open to Barnard College students only.

**Educational Studies Minor/Special Concentration:** Educational Studies minors (BC) or special concentrations (CC, GS) pursue similar coursework to that undertaken by the majors. This course of study is intended to complement a major’s disciplinary specialization and methodological training. In addition to the requirements of the minor/special concentration, students must complete a major. The special concentration minors are open to all students at Barnard College, Columbia College, and College of General Studies.

For further information, and to apply to the major or minor tracks, please visit our [website](#).
Urban Teaching Minors/Special Concentrations

This track is for students who want to graduate from college with teacher certification. Our goal is to prepare students to become skilled and reflective teachers who can effectively respond to the learning needs of diverse learners, and create supportive and intellectually stimulating classroom communities. Students learn to create innovative curriculum; gain experience observing, tutoring, and teaching a diverse range of children and young people; develop confidence in their role as teachers who can promote fair and inclusive school practices; and graduate with certification to teach in New York. (Note: we are part of an interstate agreement for reciprocal certification with many other states.)

This program is registered by the New York State Department of Education and accredited by the Association for Advancing Quality in Educator Preparation (AAQEP).

Students who complete the program will be recommended for Initial Certification in either Childhood Education (Grades 1-6) or Adolescent Education (Grades 7-12). Graduates of the program are also eligible for membership in the Interstate Certification Agreement, a reciprocal certification among forty-one states. We provide ongoing support to those who teach in the New York City area through our New Teacher Network.

To apply to the Urban Teaching tracks, please visit our website. Students are encouraged to apply for admission by March of the sophomore year but no later than the first Tuesday in September of the junior year. Those who plan to study abroad during junior year should apply by the spring of the freshman year, but no later than the first Tuesday in September of the sophomore year. Admission criteria include good academic standing; evidence of commitment to the field of education; interest in issues of social justice issues as they affect education, particularly in urban schools; and capacity for growth as an intellectually resourceful and reflective teacher. Enrollment is limited.

Professors
Thea Abu El-Haj (Program Director/Chair)
Maria Rivera Maulucci

Senior Lecturer and Certification Officer
Lisa Edstrom

Term Assistant Professors
Erika Kitzmiller
Chandler Miranda
Natalia Ortiz
Rachel Throop

Education Advisory Committee

Please note that the Educational Studies major is currently being offered to Barnard College students only.

REQUIREMENTS FOR THE EDUCATIONAL STUDIES MAJOR

To complete the Major (BC) in Educational Studies, students must complete a minimum of 40 points of course work, listed below. Please note that the Educational Studies major is currently being offered to Barnard College students only.

The Education Studies track requires a minimum of eleven courses:

Requirement A - Foundational Coursework
EDUC BC1510 EDUCATIONAL FOUNDATIONS
URBS UN3310 RACE, SPACE, URB SCHOOLS

Requirement B - Pedagogical Elective
Select one of the following:
EDUC BC3050 SCIENCE IN THE CITY
EDUC BC3052 MATH # THE CITY
EDUC BC3055 ARTS AND HUMANITIES IN THE CITY:CRITICAL
EDUC BC3058 SCIENCE IN THE CITY II
SOCI UN3974 SOCI OF SCHOOLS,TEACH,LEARNING

Requirement C - Concentration Courses
Select 6 of the following: At least 2 courses must be EDUC courses. Course selection to be determined with adviser.
EDUC BC3032 INVESTIGATING THE PURPOSES AND AIMS OF EDUCATION POLICY
EDUC BC3042 GENDER, SEXUALITY, AND SCHOOL
EDUC BC3045 COMPLICATING CLASS: EDUCATION AND THE LIMITS OF EQUITY
EDUC BC3040 MIGRATION, GLOBALIZATION, AND EDUCATION
EDUC BC3250 EDUCATION IN A POLARIZED AND UNEQUAL SOCIETY
EDUC BC3044 EDUCATION AND SOCIAL CHANGE IN COMPARATIVE GLOBAL CONTEXTS
EDUC BC3034 Families, Communities, and Schools
EDUC BC3030 Critical Pedagogies
PHIL UN2100 Philosophy of Education
SOCI UN3225 SOCIOLOGY OF EDUCATION
### Requirements for the Urban Teaching Minors/Special Concentrations

#### Elementary/Childhood Education (To Teach Grades 1-6)

This program leads to New York State Initial Certification in Childhood Education (Grades 1-6). In addition to the liberal arts major, students must complete a total of 32-34 credits as follows:

**Requirement A - Educational Foundations**

For students who have already taken EDUC BC3032, PHIL UN2100, SOCI UN3225, or ECON BC3012 to fulfill Requirement A prior to Fall 2018, do not need to enroll in EDUC BC1510 to fulfill the requirement.

Additional Urban Teaching Certification Requirements:
Adolescent/Secondary
Students seeking certification in Adolescent Education must also complete 36 credits in the content area for which they seek certification. Typically, students major in the subject area for which they are seeking certification. Students must earn a grade of C or better for each course taken in the content core.

English:
A total of 36 credits of English.

Foreign Languages:
A total of 36 credits in French, German, Greek, Italian, Latin, or Spanish.

Mathematics:
A total of 36 credits of Mathematics.

Science:
A total of 36 credits in sciences including a minimum of 18 credits of collegiate-level study in the science or each of the sciences for which certification is sought: Biology, Chemistry, Physics, or Earth Science. Please note that psychology does not count as a science for NYS Teacher Certification.

Social Studies:
A total of 36 credits, including 6 credits of American History; 6 credits of European or World History; 3 credits of non-Western study; and any other distribution to make 36 credits, chosen from credits in History, Political Science, Anthropology, Sociology, and Economics.

Requirements for the Education Studies Minor/ Special Concentration
To complete the Minor (BC) or Special Concentration (CC/GS) in Education Studies, students must complete 21-24 points of course work, listed below.

The Education Studies track requires a minimum of six courses:

Requirement A - Educational Foundations
EDUC BC1510  EDUCATIONAL FOUNDATIONS  4

Requirement B - Educational Electives
Select three of the following: One Educational Elective course must be an EDUC course.

EDUC BC3030  Critical Pedagogies
EDUC BC3032  INVESTIGATING THE PURPOSES AND AIMS OF EDUCATION POLICY
EDUC BC3034  Families, Communities, and Schools
EDUC BC3040  MIGRATION, GLOBALIZATION, AND EDUCATION
EDUC BC3042  GENDER, SEXUALITY, AND SCHOOL
EDUC BC3044  EDUCATION AND SOCIAL CHANGE IN COMPARATIVE GLOBAL CONTEXTS
EDUC BC3045  COMPLICATING CLASS: EDUCATION AND THE LIMITS OF EQUITY
EDUC BC3250  EDUCATION IN A POLARIZED AND UNEQUAL SOCIETY
URBS UN3310  RACE. SPACE, URB SCHOOLS
AMST UN3931  Topics in American Studies (Sec. 002: Race, Poverty, and American Criminal Justice or Sec. 003: Equity in Higher Education)
CSER UN3928  COLONIZATION/DECOLONIZATION
ECON BC3012  THE ECONOMICS OF EDUCATION
PHIL UN2100  Philosophy of Education
PSYC BC2134  Educational Psychology

Certification Requirements
The Urban Teaching program is accredited by AAQEP and approved by the New York State Education Department to recommend students who complete the program for Initial Certification in either Childhood Education (grades 1-6) or Adolescent Education (grades 7-12). New York State has reciprocity with most other states, allowing graduates of the program the ability to apply for certification in another state through our membership in the Interstate Certification Agreement.
**Requirements for the Urban Teaching Specialization**

Urban Studies majors who wish to pursue certification should apply to the Education Program by the spring of their freshman year. We encourage students to plan carefully if they wish to pursue this option.

Urban Studies majors who have selected Urban Teaching as their area of specialization within the major should complete the following:

**Requirement A - Educational Foundations**

<table>

EDUC BC3032 INVESTIGATING THE PURPOSES AND AIMS OF EDUCATION POLICY. 4.00 points.

Prerequisites: The instructor's permission.

Prerequisites: the instructors permission. Course enrollment will be determined after the first class meeting. Open to all students; preference given to Urban Teaching, Education Studies, and Urban Studies students. This course explores the broad continuum of educational policies, with a critical eye toward the impact these policies have on promoting equity and justice. Because no one course can do everything, our focus will be on educational policy in the United States. However, a major research assignment will be for you to do a critical analysis of one of these policies in the context of another country.

EDUC BC3050 SCIENCE IN THE CITY. 4.00 points.

Prerequisites: the instructor’s permission.

Prerequisites: the instructors permission. In partnership with the American Museum of Natural History students investigate science, science pedagogical methods, and ways to use New York City as a resource for science teaching and learning. Sessions will be held at Barnard and the museum. Field trips and fieldwork required. Non-science majors pre-service elementary students and first year students, welcome. Note: Students in the Childhood Urban Teaching Program may use this course as a pedagogical elective.

EDUC BC3051 SEMINAR URBAN EDUCATION. 4.00 points.

This seminar serves as the capstone course for students pursuing the Education Studies minor/special concentration or the Urban Studies major/concentration with an Urban Education Specialization. The Seminar in Urban Education explores the historical, political and socio-cultural dynamics of urban education in the U.S. context. Over time, a range of social actors have intervened in the “problem” of urban education, attempting to reshape and reform urban schools. Others have disputed this “problem” focused approach, arguing that policy makers, teachers, and researchers should start from the strengths and capacities located in urban communities. Despite decades of wide ranging reform efforts, however, many urban schools still fail to provide their students with an adequate, equitable education. Seminar in Urban Education investigates this paradox by pursuing three central course questions: 1) How have various social actors tried to achieve equity in urban schools over time? 2) What are the range and variation of assets and challenges found in urban schools? and 3) Considering this history and context, what would effective reform in a global city like NYC look like? Students will

469
engage these questions not only through course readings and seminar discussions, but through a 40-hour field placement in a New York City public school classroom, extra-curricular program, or other education based site.

**Fall 2022: EDUC BC3051**

**EDUC BC3053 MULTICULTURAL ELEMENTARY PEDAG. 4.00 points.**

This seminar will engage prospective teachers in developing effective strategies for teaching at the elementary school level in ways that draw upon five specific domains of knowledge: knowledge of self, content, pedagogy, context and students. Students will be introduced to a variety of teaching approaches and develop ways to adapt them to teach various subjects to students in urban public school settings, understanding the intellectual, social and emotional needs of elementary school students. Students will learn to write lesson plans, develop assessments and practice teaching in “microteaching” sessions taught to peers. We will explore state standards, approaches to classroom management, and Universal Design for Learning as we develop approaches to create caring, democratic learning communities.

**Fall 2022: EDUC BC3053**

**Course Number**  EDUC 3053  
**Section/Call Number** 001/00317  
**Times/Location**  Th 8:10am - 11:00am  
**Instructor** Lisa Edstrom  
**Points** 4.00  
**Enrollment** 8/8

**EDUC BC3054 MULTICULTURAL SECONDARY PEDAG. 4.00 points.**

What does it mean to be an excellent teacher? The Seminar in Secondary Multicultural Pedagogy will engage this question as you work to develop methods for teaching your subject(s) in ways that draw upon five specific domains of knowledge: knowledge of self, content, pedagogical methods, context, and students. You will be introduced to a variety of multicultural teaching approaches and develop ways to adapt them to your particular subject area and to the intellectual, social, and emotional needs of adolescent learners. Throughout the course, we will consider how to effectively differentiate instruction for and support ELL students and students with special needs. Seminar sessions will include discussions, presentations of lessons, group activities, and problem-solving issues teachers encounter in the classroom. We will explore culturally responsive approaches to: learning; learning standards; instruction and assessment; creating caring, democratic learning communities; selecting curriculum content, and engaging all students in learning. Assignments will ask you to reflect on the teaching/learning process in general, and on the particulars of teaching your academic discipline. We will accomplish this through lesson planning, practice teaching two mini-lessons, observing your peers teaching and offering feedback, and exploring stances and strategies for multicultural pedagogy in your content area.

**Points** 4.00  
**Enrollment** 4/8

**EDUC BC3055 ARTS AND HUMANITIES IN THE CITY: CRITICAL. 4.00 points.**

Using the theme of “Arts and Humanities in the City”, this seminar will build participants’ knowledge of critical literacy, digital storytelling methods, and ways to use New York City as a resource for teaching the Arts (Dance, Theatre, Music, and Visual Arts), Social Studies, and English Language Arts in grades K-12. Critical literacy is an approach to teaching and learning that focuses on developing students’ abilities to read, analyze, understand, question, and critique hidden perspectives and socially-constructed power relations embedded in what it means to be literate in a content area.

EDUC BC3025 INCLUSIVE APPROACHES TO TEACHING LITERACY: THEORY AND PRACTICE. 4.00 points.

This seminar engages students in an exploration of how schools prepare students to be literate across multiple subject areas. Engaging students with theory and practice, we will look at how students learn to read and write, considering approaches for literacy instruction from early childhood through adolescence. Understanding that schools are required to meet the needs of diverse learners, we will explore literacy instruction for K-12 students with special needs, multilingual learners, and students from diverse cultural backgrounds

EDUC BC3030 Critical Pedagogies. 4.00 points.

This course explores education as a process through which critical consciousness and epistemic justice combat oppression in communities. Students will connect seminal work by critical pedagogues, such as Paolo Freire and bell hooks, to systemic educational challenges and lived experience. As a class, we will investigate power dynamics and structural inequalities at the systemic, institutional, interpersonal and individual levels. Students will problem-_pose, dialogue and create pedagogical tools through praxis, by integrating the theory learned in the class to educational practice

EDUC BC3040 MIGRATION, GLOBALIZATION, AND EDUCATION. 4.00 points.

Globalization and mass migration are reconfiguring the modern world and reshaping the contours of nation-states. New technologies that facilitate the movement of information, goods and people across borders have made it easier for people to remain culturally, politically, economically and socially connected to the places from which they migrated. This seminar focuses on the experiences of the youngest members of these global migration patterns—children and youth—and asks: What do these global flows mean for educating young people to be members of the multiple communities to which they belong? This seminar will explore the following questions: What is globalization and why is it leading to new patterns of migration? How do children and youth experience ruptures and continuities across contexts of migration? How do language policies affect young people’s capacity to be educated in a new land? What does it mean to forge a sense of belonging and citizenship in a “globalized” world, and how does this challenge our models of national citizenship? How are the processes by which young people are incorporated into their new country entwined with structures of race, class, and gender? Drawing
on fiction, autobiography, and anthropological and sociological research this class will explore these questions from a variety of disciplinary perspectives

**EDUC BC3042 GENDER, SEXUALITY, AND SCHOOL. 4.00 points.**

Broadly, this course explores the relationship between gender, sexuality, and schooling across national contexts. We begin by considering theoretical perspectives, exploring the ways in which gender and sexuality have been studied and understood in the interdisciplinary field of education. Next, we consider the ways in which the subjective experience of gender and sexuality in schools is often overlooked or inadequately theorized. Exploring the ways that race, class, citizenship, religion and other categories of identity intersect with gender and sexuality, we give primacy to the contention that subjectivity is historically complex, and does not adhere to the analytically distinct identity categories we might try to impose on it.

**EDUC BC3051 SEMINAR URBAN EDUCATION. 4.00 points.**

This seminar serves as the capstone course for students pursuing the Education Studies minor/special concentration or the Urban Studies major/concentration with an Urban Education Specialization. The Seminar in Urban Education explores the historical, political and socio-cultural dynamics of urban education in the U.S. context. Over time, a range of social actors have intervened in the “problem” of urban education, attempting to reshape and reform urban schools. Others have disputed this “problem” focused approach, arguing that policy makers, teachers, and researchers should start from the strengths and capacities located in urban communities. Despite decades of wide ranging reform efforts, however, many urban schools still fail to provide their students with an adequate, equitable education. Seminar in Urban Education investigates this paradox by pursuing three central course questions: 1) How have various social actors tried to achieve equity in urban schools over time? 2) What are the range and variation of assets and challenges found in urban schools? and 3) Considering this history and context, what would effective reform in a global city like NYC look like? Students will engage these questions not only through course readings and seminar discussions, but through a 40-hour field placement in a New York City public school classroom, extra-curricular program, or other education based site.

**EDUC BC3052 MATH # THE CITY. 4.00 points.**

Prerequisites: the instructor’s permission. Prerequisites: the instructors permission. In partnership with NYC public school teachers, students will have opportunities to engage in mathematical learning, lesson study, curriculum development, and implementation, with a focus on using the City as a resource. Students will explore implications for working with diverse populations. Non-math majors, pre-service elementary students and first-year students welcome. Fieldwork and field trips required. Note: Students in the Childhood Urban Teaching Program may use this course as a pedagogical elective.

**EDUC BC3058 SCIENCE IN THE CITY II. 4.00 points.**

Prerequisites: the instructors permission. Open to Non-science majors, pre-service elementary students, and first-year students. Students investigate the science of learning, the Next Generation Science Standards, scientific inquiry and engineering design practices, and strategies to include families in fostering student achievement and persistence in science. Fieldwork required. Note: Students in the Childhood Urban Teaching Program may use this course as a pedagogical elective.

**EDUC BC3061 ASSESSMENT OF TEACHING. 3.00 points.**

Open to Urban Teaching students in the Education Program.

**EDUC BC3063 STUDENT TEACHING/URBAN SCHOOLS. 6.00 points.**

Prerequisites: completion of EDUC BC2052 or EDUC BC2062 and EDUC BC2055, with grades of B or better. NYCDOE Fingerprinting. Corequisites: EDUC BC3064. Enrollment limited. Supervised student teaching in elementary schools includes creating lesson plans, involving students in active learning, using cooperative methods, developmentally appropriate assessment, and meeting the needs of diverse learners in urban schools. Teaching skills developed through weekly individual and/or group supervision meetings (to be scheduled at the beginning of the semester), conferences, and portfolio design. Requires 100 hours of teaching at two different grade levels, full-time for one semester. Note:
Students are only permitted to leave their student teaching placements early twice a week, once for EDUC BC3064 and one other day for one additional course having a start time of 2 pm or later. Students are only permitted to take one additional course while enrolled in EDUC BC3063 and EDUC BC3064.

**URBS UN3310 RACE. SPACE, URB SCHOOLS.  3.00 points.**

Many people don’t think of themselves as having attended segregated schools. And yet, most of us went to schools attended primarily by people who looked very much like us. In fact, schools have become more segregated over the past 30 years, even as the country becomes increasingly multiracial. In this class, we will use public schools as an example to examine the role race plays in shaping urban spaces and institutions. We will begin by unpacking the concept of racialization, or the process by which a person, place, phenomenon, or characteristic becomes associated with a certain race. Then, we will explore the following questions: What are the connections between city schools and their local contexts? What does it mean to be a “neighborhood school”? How do changes in neighborhoods change schools? We will use ethnographies, narrative non-fiction, and educational research to explore these questions from a variety of perspectives. You will apply what you have learned to your own experiences and to current debates over urban policies and public schools. This course will extend your understanding of key anthropological and sociological perspectives on urban inequality in the United States, as well as introduce you to critical theory.

**EDUC BC3250 EDUCATION IN A POLARIZED AND UNEQUAL SOCIETY.  4.00 points.**

The rise in political polarization and social inequality over the past few decades has challenged the ideals that public schools were founded on nearly two centuries ago. In the past few years, we have witnessed a surge in homophobic, racist, misogynist, and xenophobic rhetoric in our society and our schools. At the same time, teachers in classrooms across this country have been engaged in the difficult work of challenging oppression and injustice in their schools, communities, and nation. These teachers know that the future of our democracy is at stake. Using a historical and sociological framework, this course examines the past and present conditions that have led to political polarization, escalating inequality, and persistent injustice. It seeks to examine the lineage of racism, sexism, nativism, and imperialism on our nation and its schools and to consider the extent to which these challenges are uniquely American or part of a more global phenomenon. It offers an introduction to the deep current of American social, political, and economic culture that many argue has produced the challenges that our nation faces today: personal and political gain marred by intolerance, derived from wealth, and rooted in the history of segregation, sexism, and exploitation. Instead of seeing these challenges as separate entities, the course acknowledges the intersectional nature of power and politics. Students will consider how these conditions affect their roles as educators and the lives of the youth and families in their schools and communities. They will leave the course with a deeper appreciation and understanding of the historical and
sociological antecedents that have contributed to polarization, inequity, and injustice around the globe

**CROSS-LISTED COURSES**

**ECON BC3012 THE ECONOMICS OF EDUCATION. 3.00 points.**
Prerequisites: ECON BC3035 and ECON BC2411 or permission of the instructor. Analyzes education policies and education markets from an economic perspective. Examines challenges that arise when researchers attempt to identify the causal effects of inputs. Other topics: (1) education as an investment, (2) public school finance, (3) teacher labor markets, (4) testing/accountability programs, (5) school choice programs, and (6) urban public school reforms

**PHIL UN2100 Philosophy of Education. 3 points.**
Drawing on classical and contemporary sources, this course will introduce students to a variety of texts that address the philosophical consideration of education, including its role in the development of the individual and the development of a democratic society. Readings from Plato, Rousseau, Dewey, and others.

**PSYC BC2134 Educational Psychology. 3 points.**
Prerequisites: BC1001 or permission of the instructor. Through a participative classroom model, the major theories of child and adolescent development and learning fundamental to the educative process are examined. Analysis of applications and implications of psychological knowledge for classroom teaching through observations and research in elementary and secondary school classes. Examines models of instruction and assessment; motivation, teaching, and learning strategies; and gender, economic, and racial issues.

**PSYC BC3382 ADOLESCENT PSYCHOLOGY. 4.00 points.**
Prerequisites: BC1001 and BC1129 Developmental Psychology or permission of the instructor. Enrollment limited to 20 senior majors. Barnard students receive priority. Examines adolescent development in theory and reality. Focuses on individual physiological, sexual, cognitive, and affective development and adolescent experiences in their social context of family, peers, school, and community. Critical perspectives of gender, race and ethnicity, sexuality, and teen culture explored

**ENGLISH AND COMPARATIVE LITERATURE**

Departmental Office: 602 Philosophy; 212-854-3215
http://www.english.columbia.edu

Director of Undergraduate Studies: Prof. Molly Murray, 406 Philosophy; 212-854-4016; mpm7@columbia.edu

Departmental Adviser:
Prof. Molly Murray, 406 Philosophy; mpm7@columbia.edu

The program in English fosters the ability to read critically and imaginatively, to appreciate the power of language to shape thought and represent the world, and to be sensitive to the ways in which literature is created and achieves its effects. It has several points of departure, grounding the teaching of critical reading in focused attention to the most significant works of English literature, in the study of the historical and social conditions surrounding literary production and reception, and in
theoretical reflection on the process of writing and reading and
the nature of the literary work.</p>

The courses the department offers draw on a broad range of
methodologies and theoretical approaches, from the formalist
to the political to the psychoanalytical (to mention just a few).
Ranging from the medieval period to the 21st century, the
department teaches major authors alongside popular culture,
traditional literary genres alongside verbal forms that cut across
media, and canonical British literature alongside postcolonial,
global, and trans-Atlantic literatures.

At once recognizing traditional values in the discipline
and reflecting its changing shape, the major points to three
organizing principles for the study of literature—history, genre,
and geography. Requiring students not only to take a wide
variety of courses but also to arrange their thinking about
literature on these very different grids, the major gives them
broad exposure to the study of the past, an understanding of
the range of forms that can shape literary meaning, and an
encounter with the various geographical landscapes against
which literature in English has been produced.

ADVISING
Students are not assigned specific advisers, but rather each
year the faculty members serving on the department’s
Committee on Undergraduate Education (CUE) are designated
undergraduate advisers (see above). Upon declaring a major
or concentration in English, students should meet with the
director of undergraduate studies or a delegated faculty adviser
to discuss the program, especially to ensure that students
understand the requirements.

Students must fill out a Major Requirements Worksheet early
in the semester preceding graduation. The worksheet must be
reviewed by an adviser and submitted to 602 Philosophy before
the registration period for the final semester. The worksheet
is available in the English Department or on-line at http://
english.columbia.edu/undergraduate/major-requirements. It is
this worksheet—not the Degree Audit Report (DAR)—that
determines eligibility for graduation as an English major or
concentrator.

COURSE INFORMATION

Lectures
Generally, lectures are addressed to a broad audience and
do not assume previous course work in the area, unless
prerequisites are noted in the description. The size of some
lectures is limited. Senior majors have preference unless
otherwise noted, followed by junior majors, followed by
senior and junior non-majors. Students are responsible for
checking for any special registration procedures on-line at
http://english.columbia.edu/courses.

Seminars
The department regards seminars as opportunities for students
to do advanced undergraduate work in fields in which they have
already had some related course experience. With the exception
of some CLEN classes (in which, as comparative courses,
much material is read in translation), students’ admission to
a seminar presupposes their having taken ENGL UN3001
LITERARY TEXTS # CRIT METHODS. During the three
weeks preceding the registration period, students should
check http://english.columbia.edu/courses for application
instructions for individual seminars. Applications to seminars
are usually due by the end of the week preceding registration.
Students should always assume that the instructor’s permission
is necessary; those who register without having secured the
instructor’s permission are not guaranteed admission.

DEPARTMENTAL HONORS
Writing a senior essay is a precondition, though not a guarantee,
for the possible granting of departmental honors. After essays
are submitted, faculty sponsors deliver a written report on
the essay to the department’s Committee on Undergraduate
Education (CUE), with a grade for the independent study and,
if merited, a recommendation for honors. CUE considers all the
essays, including sponsor recommendations, reviews students’
fall semester grades, and determines which students are to
receive departmental honors. Normally no more than 10% of
graduating majors receive departmental honors in a given
academic year.

THE DEGREE AUDIT REPORTING
SYSTEM (DARS)
The DAR is a useful tool for students to monitor their
progress toward degree requirements, but it is not an official
document for the major or concentration, nor should it replace
consultation with departmental advisers. The department’s
director of undergraduate studies is the final authority
on whether requirements for the major have been met.
Furthermore, the DAR may be inaccurate or incomplete for
any number of reasons—for example, courses taken elsewhere
and approved for credit do not show up on the DAR report as
fulfilling a specific requirement.

ONLINE INFORMATION
Other departmental information—faculty office hours,
registration instructions, late changes, etc.—is available on the
departmental website.

GUIDELINES FOR ALL ENGLISH AND COMPARATIVE LITERATURE MAJORS AND CONCENTRATORS

Declaring a Major in English

Upon declaring a major in English, students should meet with either the director of undergraduate studies or a departmental adviser to discuss the program. Students declaring a major should obtain a Major Requirements Worksheet from 602 Philosophy or on-line, which outlines the requirements.

Additional information, including events and deadlines of particular relevance to undergraduates, is provided at http://english.columbia.edu/undergraduate, the department’s undergraduate homepage. The sidebar on this page provides links to pages with details about undergraduate advising, major and concentration requirements, course options and restrictions, registration procedures, the senior essay, and writing prizes, as well as links to downloadable worksheets for the major and concentration and to course distribution requirement lists, past and present. For detailed information about registration procedures, students should consult http://english.columbia.edu/courses, which explains the requirements and enables students to monitor their own progress.

Newly declared majors should contact the undergraduate assistant in 602 Philosophy Hall and request that their names be added to the department’s electronic mailing list for English majors and concentrators. Because important information now routinely is disseminated through e-mail, it is crucial that students be on this list.

Literary Texts, Critical Methods

The introductory course ENGL UN3001 LITERARY TEXTS # CRIT METHODS, together with its companion seminar, ENGL UN3011 LITERARY TEXTS#CRIT MTHDS(SEM), is required for the English major and concentration. It should be taken by the end of the sophomore year. Fulfillment of this requirement is a factor in admission to seminars and to some lectures. This once-a-week faculty lecture, accompanied by a seminar led by an advanced graduate student in the department, is intended to introduce students to the study of literature. Students read works from the three major literary modes (lyric, drama, and narrative), drawn from premodern to contemporary literature, and learn interpretative techniques required by these various modes or genres. This course does not fulfill any distribution requirements.

Senior Essay

The senior essay program is an opportunity for students to explore in depth some literary topic of special interest to them, involving extensive background reading and resulting in an essay (8,000–15,000 words) that constitutes a substantial and original critical or scholarly argument. Students submit proposals in September of their senior year, with acceptance contingent upon the quality of the proposal and the student’s
record in the major. Students who are accepted are assigned a faculty sponsor to supervise the project, from its development during the fall semester to its completion in the spring. It is for the spring semester, not the fall, that students officially register for the course, designated as ENGL UN3999 THE SENIOR ESSAY. Senior essays are due in early April.

Course Options and Restrictions

1. No course at the 1000-level may be counted toward the major.

2. Speech courses may not be counted toward the major.

3. Two writing courses or two upper-level literature courses taught in a foreign language, or one of each, may count toward the major, though neither type of course fulfills any distribution requirement. Writing courses that may be applied toward the major include those offered through Columbia’s undergraduate Creative Writing Program and through Barnard College.

4. Comparative literature courses sponsored by the department (designated as CLEN) may count toward the major. Those sponsored by other departments (e.g. CLFR - Comp Lit French, CPLS - Comp Lit and Society) are not counted toward the major without permission of the director of undergraduate studies. Literature courses taught in English in language departments do not count toward the major.

5. No more than two courses taken during the summer session may be counted toward the major.

6. Courses offered through the Barnard English Department may count toward the major or concentration. Before taking Barnard courses, students should verify with the director of undergraduate studies whether and how such courses may count toward the major.

7. For courses taken abroad or at other American institutions to count toward the major, students must obtain approval of the director of undergraduate studies.

8. To register for more than 42 points (including advanced standing credit) in English and comparative literature, a student majoring in English must obtain permission of the director of undergraduate studies.

9. No more than five courses taken elsewhere may be applied to the major, four to the concentration.

10. One independent study (for at least 3 points) may count toward the major but cannot satisfy any distribution requirements; likewise, the Senior Essay may count toward the major but fulfills no requirements. Students may not count both an Independent Study and the Senior Essay toward the major.

11. Courses assigned a grade of D may not be counted toward the major.

12. Only the first course taken to count toward the major can be taken Pass/D/Fail.

MAJOR IN ENGLISH

Please read Guidelines for all English and Comparative Literature Majors and Concentrators above.

Ten departmental courses (for a minimum of 30 points) and, in the process, fulfillment of the following requirements. See course information above for details on fulfilling the distribution requirements.

1. ENGL UN3001 LITERARY TEXTS # CRIT METHODS and ENGL UN3011 LITERARY TEXTS#CRIT MTHDS(SEM)

2. Period distribution: Three courses primarily dealing with periods before 1800, only one of which may be a course in Shakespeare

3. Genre distribution: One course in each of the following three generic categories:
   - Poetry
   - Prose fiction/narrative
   - Drama/film/new media

4. Geography distribution: One course in each of the following three geographical categories:
   - British
   - American
   - Comparative/global (comparative literature, postcolonial, global English, trans-Atlantic, diaspora)

Course Distribution Lists are available in the department and on-line at http://english.columbia.edu/course-distribution-lists to help students determine which courses fulfill which requirements. A single course can satisfy more than one distribution requirement. For example, a Shakespeare lecture satisfies three requirements at once: not only does it count as one of the three required pre-1800 courses it also, at the same time, fulfills both a genre and a geography distribution requirement (drama and British, respectively). Courses not on the distribution list may count toward the major requirements only with the permission of the director of undergraduate studies. Two writing courses or upper-level literature courses taught in a foreign language, or one of each, may count toward the ten required courses.

CONCENTRATION IN ENGLISH

Please read Guidelines for all English and Comparative Literature Majors and Concentrators above.
Eight departmental courses and, in the process, fulfillment of the following requirements. See course information above for details on fulfilling the distribution requirements.

1. **ENGL UN3001 LITERARY TEXTS # CRIT METHODS** and **ENGL UN3011 LITERARY TEXTS#CRIT MTHDS(SEM)**
2. **Period distribution:** Two courses dealing with periods before 1800, only one of which may be a course in Shakespeare
3. **Genre distribution:** Two courses, each chosen from a different genre category (see above)
4. **Geography distribution:** Two courses, each chosen from a different geography category (see above)

See the Course Distribution Lists, available in the department or on-line at [http://english.columbia.edu/course-distribution-lists](http://english.columbia.edu/course-distribution-lists), to determine which courses fulfill which requirements. All of the restrictions outlined for the English major also apply for the concentration in English.

---

**COMPARATIVE LITERATURE PROGRAM**

Students who wish to major in comparative literature should consult the *Comparative Literature and Society* section of this Bulletin.

**FALL 2022**

**INTRODUCTION TO THE MAJOR ENGL UN3001 LITERARY TEXTS # CRIT METHODS. 4.00 points.**

Prerequisites: Students who register for ENGL UN3001 must also register for one of the sections of ENGL UN3011 Literary Texts, Critical Methods.

Prerequisites: Students who register for ENGL UN3001 must also register for one of the sections of ENGL UN3011 Literary Texts, Critical Methods. This course is intended to introduce students to the advanced study of literature. Students will read works from different genres (poetry, drama, and prose fiction), drawn from the medieval period to the present day, learning the different interpretative techniques required by each. The course also introduces students to a variety of critical schools and approaches, with the aim both of familiarizing them with these methodologies in the work of other critics and of encouraging them to make use of different methods in their own critical writing. This course (together with the companion seminar ENGL UN3011) is a requirement for the English Major and Concentration. It should be taken as early as possible in a students career. Fulfillment of this requirement will be a factor in admission to seminars and to some lectures.

Prerequisites: Students who register for ENGL UN3011 must also register for ENGL UN3001 Literary Texts, Critical Methods lecture.

Prerequisites: Students who register for ENGL UN3011 must also register for ENGL UN3001 Literary Texts, Critical Methods lecture. This seminar, led by an advanced graduate student in the English doctoral program, accompanies the faculty lecture ENGL UN3001. The seminar both elaborates upon the topics taken up in the lecture and introduces other theories and methodologies. It also focuses on training students to integrate the terms, techniques, and critical approaches covered in both parts of the course into their own critical writing, building up from brief close readings to longer research papers.

Students majoring in Comparative Literature and Society must also register for one of the sections of ENGL UN3001 Literary Texts, Critical Methods lecture.

**ENGL UN3564 It’s All Rotten: A Seminar on Pleasure. 4.00 points.**

This seminar is inspired by a passage from Clarice Lispector’s last novel, Breath of Life: “It’s all rotten. I feel it in the air and in the people frightened and starving huddled in a crowd. But I believe that in the depths of rottenness there exists—green sparkling redeeming and promised-land—in the depths of the dark rottenness there shines clear and captivating the Great Emerald. The Great Pleasure. But why this desire and hunger for pleasure? Because pleasure is the height of the truthfulness of a being. It’s the only struggle against death.” The plan is to study the nature of pleasure and its representations across a series of ancient, medieval, and modern texts, keeping an eye on this insight, namely, that our belief in pleasure is found, not unlike the beauty of a still life whose objects have long decayed, in the midst of our sense of the rottenness of things, their decomposing, fermenting, and sometimes disgusting ephemeral nature. Filling our conceptual picnic basket with some ancient theories of pleasure, we will wander among medieval and Renaissance gardens in order to arrive upon the Romantic and decadent shores of modernity with a fresh sense of pleasure’s truth and taste for its question

**ENGL GU4091 INTRODUCTION TO OLD ENGLISH # LITERATURE. 4.00 points.**

(Lecture). This class is an introduction to the language and literature of England from around the 8th to the 11th centuries. Because this is predominantly a language class, we will spend much of our class time studying grammar as we learn to translate literary and non-literary texts. While this course provides a general historical framework for the period as it introduces you to the culture of Anglo-Saxon England, it will also take a close look at how each literary work contextualizes (or recontextualizes) relationships between human and divine, body and soul, individual and group, animal and human. We will be using Mitchell and Robinson’s An Introduction to Old English, along with other supplements. We will be looking at recent scholarly work in the field and looking at different ways (theoretical, and other) of reading these medieval texts.

**Requirements:** Students will be expected to do assignments for each meeting. The course will involve a mid-term, a final exam, and a final presentation on a Riddle which will also be turned in.

**ENGL GU4239 TROILUS # CRISEYDE AND ITS NEIGHBORS. 3.00 points.**

The central task of this lecture will be a slow and attentive reading of Chaucer’s great romance Troilus and Criseyde, across the entire semester. Each week, in addition, we will read and discuss a wide range of related materials, to include: theoretical strategies (especially the post-Lacanian notion of the neighbor), iconography and manuscript setting, genre affiliations (romance, epic, historiography, philosophy), the broader Trojan narrative tradition, the medieval city, the medieval imagination of the antique past, earlier and later texts in dialogue with Troilus (Boethius, Ovid, Statius’ Thebaid, Lydgate’s Troy Book and Henryson’s Testament of Cresseid, Spenser and Shakespeare), Troilus and Chaucer’s own textual past and future. At the same time, the lecture will explore what recent theoretical statements about the neighbor and hospitality can bring to our reading of Troilus, both in terms of its place in a broad textual tradition, and in terms of its plot, urban setting, and thematics of intimacy. Readings will draw from Derrida, Kenneth Reinhard, Slavoj Zizek, and others. Toward this end, each student will select a “neighborly” text, from any period, to read with and against Troilus. While the course will be relevant to medievalists, it is consciously designed equally to serve (and it is hoped, to attract) students from very different periods. Non-medievalists will be encouraged to draw upon their expertises, both in period and theoretical methodology.

**RENAISSANCE**

**ENGL UN3335 SHAKESPEARE I. 3.00 points.**

Enrollment is limited to 60.

(Lecture). This course will cover the histories, comedies, tragedies, and poetry of Shakespeare’s early career. We will examine the cultural and historical conditions that informed Shakespeare’s drama and poetry; in the case of drama, we will also consider the formal constraints and opportunities of the early modern English commercial theater. We will attend to Shakespeare’s biography while considering his work in relation to that of his contemporaries. Ultimately, we will aim to situate the production of Shakespeare’s early career within the highly collaborative, competitive, and experimental theatrical and literary cultures of late sixteenth-century England.
fashioning the self at the same time that it helped to sanction England’s burgeoning imperial ambitions

ENGL UN3893 Rivers, Oceans, Seas: Water in Early and Pre-1865 American Literature. 4.00 points.
This course explores the trope, motif, theme, and concept of water antebellum American literature. From Columbus’s “discovery” of the “New” world to the Puritans’ transatlantic pursuit of religious and political freedom; from the Middle Passage which brought slaves to the Americas to erect what soon became the United States, to Lewis and Clarke’s expansive exploration of the country on the Mississippi River—the liquid element plays a decisive role, historical as well as artistic, factual as well as fictional, in the way Americans represented themselves (and others) to themselves. In this class we will explore how and why, to what aesthetic or political end, early and pre-Civil War American literature employed different bodies of water—rivers and oceans—that eventually led to the modernist invention of the stream of consciousness as it was championed, in psychology and literature respectively, by the James brothers. We will investigate water’s literal presence in the writings of Bradford, Equiano, and Thoreau; its deployment as a symbol and allegory in Whitman, Dunbar, Sansay and Stowe; or its articulation as a psychological notion in Brockden Brown; as a philosophical concept in Melville and Poe; and as a generic device in Emerson and Dickinson. Our central task will be to explore the effects that aquatic environments and marine ecosystems have on human bodies and minds. How do they enhance and in what way do they dissolve our “mainland” conceptions of personhood, identity, memory, and/or history? How does the difference between water and land, liquid and firm environs shape the way we comprehend the world and our place in it

20TH AND 21ST CENTURY

ENGL UN3351 FAMILY FICTIONS: MEMOIR, FILM AND THE NOVEL. 4.00 points.

This course will explore cinematic, novelistic and memoirist renderings of “family cultures,” family feeling, the family as narrative configuration, and home as a utopian/dystopian and onerie space. Explorations of memory, imagination and childhood make-believe will interface with readings in psychoanalysis and in the social history of this polymorphous institution. A central goal of the course is to help each of you toward written work that is distinguished, vital and has urgency for you. Authors will include Gaston Bachelard, Alison Bechdel, Jessica Benjamin, Sarah M. Broom, Lucille Clifton, Vivian Gornick, Lorraine Hansberry, Maggie Nelson and D.W. Winnicott; and films by Sean Baker, Ingmar Bergman, Alfonso Cuaron, Greta Gerwig, Lance Hammer, Barry Jenkins, Elia Kazan, Lucretia Martel, Andrei Zvyagintsev and others

ENGL UN3567 August Wilson’s America. 4.00 points.

From 1983 until his death in 2005, August Wilson wrote and produced the American Century Cycle: ten plays, each set in a different decade of the twentieth century, examining the past and present of Black life in America. Since 2005, and especially with the development of the Black Lives Matter movement, attention on conditions of American Black life—its challenges, joys, struggles, tragedies, triumphs, and journeys—has increased and deepened. We will read the entirety of Wilson’s Cycle (plus the autobiographical coda) with the goals, first, of unpacking and understanding his characterizations and critique of Black life and America and, second, of examining how well those characterizations and critiques extend beyond Wilson’s death into our own time

ENGL UN3633 LIT # AMERICAN CITIZENSHIP. 4.00 points.

Prerequisites: Permission of instructor.
Prerequisites: Permission of instructor. (Seminar). Who is a citizen? How has the notion of citizenship changed in American history? Questions of American citizenship - who can claim it and what it entails -- have been fiercely contested since the founding of the United States. Scholars have articulated various ways of conceptualizing citizenship: as a formal legal status; as a collection of state-protected rights; as political activity; and as a form of identity and solidarity. In this seminar, well explore the role that literature and literary criticism have played in both shaping and responding to the narratives and civic myths that determine what it means to be an American citizen
and text work together to create narrative. We will consider and formal properties of graphic literature, asking how images and Ellen Fourney. We will study the vocabulary, conventions, race, and age. Primary texts will include the work of Alison genetics, healthcare, illness, and disability with particular attention to experiences of health and illness, and that are recognized as having significant literary value. This course will focus on graphic narratives about extraordinary bodies have always been a central feature of comics. However, the past ten years have seen a surge of extraordinary graphic narratives that deal directly with experiences of health and illness, and that are recognized as having significant literary value. This course will focus on graphic narratives about extraordinary bodies. We will study the vocabulary, conventions, and formal properties of graphic literature, asking how images and text work together to create narrative. We will consider whether graphic narrative might be especially well suited to representations of bodily difference; how illness/disability can disrupt conventional ideas about gender and sexuality; how experiences of the body as a source of pain, stigmatization, and shame intersect with the sexualized body; and how illness and disability queer conventional sexual arrangements, identities, and attachments. While studying the construction of character, narrative, framing, color, and relationship between visual and print material on the page, students will also produce their own graphic narratives.

**ENGL UN3636 COLLECTIONS: CONTEMPORARY AMERICAN SHORT. 4.00 points.**

In this course, we will examine short stories as a particularly American form. The short story has been notoriously difficult to define, but one key characteristic of the genre is its presumed compact form alongside its compelling expansiveness. Short stories constantly toggle back and forth between the compressed and the broad. In the United States, the genre of short story has a long history of articulating and imagining an individual or community’s changing and fraught relationship to transnational, national, and local dynamics (represented, for example, nineteenth and early twentieth-century authors such as Edgar Allan Poe, Nathaniel Hawthorne, Mary Wilkins Freeman, Sui Sin Far, Washington Irving, Charles Chesnutt, Mark Twain, Sarah Orne Jewett, Tillie Olsen, José García Villa, and Carlos Bulosan). Today, this catalog of writers can be matched with another list of contemporary North American short story authors featured on our syllabus: Jhumpa Lahiri, Chimamanda Adichie, Daniel Alarcón, Mohsin Hamid, George Saunders, Ted Chiang, Mona Award, Lydia Davis, Vanessa Hua, R. Zamora Linmark, Otesha Moshfegh, and Leanne Simpson. Some of the writers on this list are veterans of the short story form. Others are authors who recently published debut collections. As we work through our reading list, we will attempt to analyze not only individual short stories, but also what marks these books as collections. What might hold these texts together? What disrupts the unifying principles of a collection? And most importantly, what do short stories offer— in terms of representations of American life and culture and its complexity—that other forms do not?

**ENGL UN363648 Comics, Health, and Embodiment. 4.00 points.**

Deformed, grotesque, super/transhuman and otherwise extraordinary bodies have always been a central feature of comics. However, the past ten years have seen a surge of graphic narratives that deal directly with experiences of health and illness, and that are recognized as having significant literary value. This course will focus on graphic narratives about healthcare, illness, and disability with particular attention to questions of embodied identities such as gender, sexuality, race, and age. Primary texts will include the work of Alison Bechdel, Roz Chast, CeCe Bell, David Small, Allie Brosch, and Ellen Fournier. We will study the vocabulary, conventions, and formal properties of graphic literature, asking how images and text work together to create narrative. We will consider whether graphic narrative might be especially well suited to representations of bodily difference; how illness/disability can disrupt conventional ideas about gender and sexuality; how experiences of the body as a source of pain, stigmatization, and shame intersect with the sexualized body; and how illness and disability queer conventional sexual arrangements, identities, and attachments. While studying the construction of character, narrative, framing, color, and relationship between visual and print material on the page, students will also produce their own graphic narratives.

**ENGL UN3712 HENRY JAMES AND EDITH WHARTON. 4.00 points.**

James & Wharton, America’s two greatest novelists in the half century after the civil war and the eve of the first world war, were friends and fellow cosmopolitans, at home in the US & Europe, chroniclers of an emerging transatlantic urban modernity traversing New York, London, Paris, Rome, Geneva. Their fiction often portrays glamorous surfaces and intricate social texts that their brilliant heroines --Isabel Archer of The Portrait of a Lady & Lily Bart of The House of Mirth, for example--negotiate with wit and subtlety, confusion and daring, amidst fear and fascination. They find themselves immersed in bruising plots--crafted by society's disciplinary imperatives and by their creators, the latter standing in uneasy complicity with the social order even as they seek its transformation.

Giving female protagonists unprecedented boldness and ambition, Wharton & James chart how intense exertion of will and desire collides with "the customs of the country," to cite the title of a great Wharton novel. We will read the three novels mentioned above as well as Wharton's Summer & Ethan Frome and James’s "Daisy Miller," Washington Square & The Ambassadors.

**ENGL UN3712 THE POLITICAL NOVEL. 4.00 points.**

Is the political novel a genre? It depends on your understanding both of politics and of the novel. If politics means parties, elections, and governing, then few novels of high quality would qualify. If on the other hand “the personal is the political,” as the slogan of the women’s movement has it, then almost everything the novel deals with is politics, and few novels would not qualify. This seminar will try to navigate between these extremes, focusing on novels that center on the question of how society is and ought to be constituted. Since this question is often posed ambitiously in so-called “genre fiction” like thrillers and sci-fi, which is not always honored as “literature,” it will include some examples of those genres.
as well as uncontroversial works of the highest literary value like Melville’s “Benito Cereno,” Ellison’s “Invisible Man,” and Camus’s “The Plague.”

**CLEN GU4199 LITERATURE AND OIL. 3.00 points.**

This course will investigate the connections between literary/cultural production and petroleum as the substance that makes possible the world as we know it, both as an energy source and a component in the manufacture of everything from food to plastic. Our current awareness of oil's scarcity and its myriad costs (whether environmental, political, or social) provides a lens to read for the presence (or absence) of oil in texts in a variety of genres and national traditions. As we begin to imagine a world “beyond petroleum,” this course will confront the ways in which oil shapes both the world we know and how we know and imagine the world. Oil will feature in this course in questions of theme (texts "about" oil), of literary form (are there common formal conventions of an "oil novel"?), of interpretive method (how to read for oil), of transnational circulation (how does "foreign oil" link US citizens to other spaces?), and of the materiality (or "oiliness") of literary culture (how does the production and circulation of texts, whether print or digital, rely on oil?).

**ENGL GU4604 AMERICAN MODERNISM. 3.00 points.**

(Lecture). This course surveys cultural responses to the historical, technological, intellectual, and political conditions of modernity in the United States. Spanning the period from the turn of the century to the onset of World War II, we will consider the relationship between key events (U.S. imperialism, immigration, World War I, the Jazz age, the Great Depression); intellectual and scientific developments (the theory of relativity, the popularization of Freudian psychoanalysis, the anthropological concept of culture, the spread of consumer culture, Fordism, the automobile, the birth of cinema, the skyscraper); and cultural production. Assigned readings will include novels, short stories, and contemporary essays. Visual culture--paintings, illustrations, photography, and film--will also play an important role in our investigation of the period. Past *syllabus* (which will be somewhat revised).

**CLEN GU4550 NARRATIVE AND HUMAN RIGHTS. 3.00 points.**

(Lecture). We can’t talk about human rights without talking about the forms in which we talk about human rights. This course will study the convergences of the thematics, philosophies, politics, practices, and formal properties of literature and human rights. In particular, it will examine how literary questions of narrative shape (and are shaped by) human rights concerns; how do the forms of stories enable and respond to forms of thought, forms of commitment, forms of being, forms of justice, and forms of violation? How does narrative help us to imagine an international order based on human dignity, rights, and equality? We will read classic literary texts and contemporary writing (both literary and non-literary) and view a number of films and other multimedia projects to think about the relationships between story forms and human rights problematics and practices. Likely literary authors: Roberto Bolaño, Miguel de Cervantes, Assia Djebar, Ariel Dorfman, Slavenka Drakulic, Nuruddin Farah, Janette Turner Hospital, Franz Kafka, Sahar Kalifeh, Sindiwé Magona, Maniza Naqvi, Michael Ondaatje, Alicia Partnoy, Ousmane Sembène, Mark Twain . . . . We will also read theoretical and historical pieces by authors such as Agamben, An-Naim, Appiah, Arendt, Balibar, Bloch, Chakrabarty, Derrida, Douzinas, Habermas, Harlow, Ignatieff, Laclau and Mouffe, Levinas, Lyotard, Marx, Mutua, Nussbaum, Rorty, Said, Scarry, Soyinka, Spivak, Williams

**CLEN GU4771 The Literary History of Atrocity. 3.00 points.**

Sometime around the publication of Garcia Marquez’s classic novel One Hundred Years of Solitude in 1967, novelists who wanted to make a claim to ethical and historical seriousness began to include a scene of extreme violence that, like the banana worker massacre in Garcia Marquez, seemed to offer a definitive guide to the moral landscape of the modern world. This course will explore both the modern literature that was inspired by Garcia Marquez’s example and the literature that led up to this extraordinary moment—for example, the literature dealing with the Holocaust, with the dropping of the atomic bomb, with the Japanese invasion of China in the 1930s, and with the Allied bombing of the German cities. It will also ask how extraordinary this moment in fact was, looked at from the perspective of literature as a whole, by inspecting earlier examples of atrocities committed in classical antiquity, in the Crusades, against Native Americans and (in Tolstoy) against the indigenous inhabitants of the Caucasus. Before the concept of the non-combatant had been defined, could there be a concept of the atrocity? Could a culture accuse itself of misconduct toward the members of some other culture? In
posing these and related questions, the course offers itself as a major but untold chapter both in world literature and in the moral history of humankind

Fall 2022: ENTA UN3701 DRAMA, THEATRE AND THEORY. 4.00 points.
Prerequisites: Instructor’s permission. (Seminar). Theatre typically exceeds the claims of theory. What does this tell us about both theatre and theory? We will consider why theatre practitioners often provide the most influential theoretical perspectives, how the drama inquires into (among other things) the possibilities of theatre, and the various ways in which the social, spiritual, performative, political, and aesthetic elements of drama and theatre interact. Two papers, weekly responses, and a class presentation are required. Readings include Aristotle, Artaud, Bharata, Boal, Brecht, Brook, Castelvetro, Craig, Genet, Grotowski, Ibsen, Littlewood, Marlowe, Parks, Schenck, Shakespeare, Sowerby, Weiss, and Zeami. Application Instructions: E-mail Professor Austin Quigley (aeq1@columbia.edu) with the subject heading Drama, Theatre, Theory seminar. In your message, include basic information: your name, school, major, year of study, and relevant courses taken, along with a brief statement about why you are interested in taking the course. Admitted students should register for the course; they will automatically be placed on a wait list, from which the instructor will in due course admit them as spaces become available.

Fall 2022: ENTA UN3701 DRAMA, THEATRE AND THEORY. 4.00 points.
Prerequisites: Instructor’s permission. (Seminar). This course examines rhetorical theory from its roots in ancient Greece and Rome and reanimates the great debates about language that emerged in times of national expansion and cultural upheaval. We will situate the texts of Plato, Isocrates, Aristotle, Cicero, Quintilian, and others in their historical contexts to illuminate ongoing conversations about the role of words and images in the negotiation of persuasion, meaning making, and the formation of the public. In the process, we will discover that the arguments of classical rhetoric play out all around us today. Readings from thinkers like Judith Butler, Richard McKeon, Robert Pirsig, and Bruno Latour echo the ancients in their debates about hate speech regulation, the purpose of higher education, and the ability of the sciences to arrive at truth. We will discover that rhetoricians who are writing during eras of unprecedented expansion of democracies, colonization, and empire have a great deal to say about the workings of language in our globalizing, digitizing age. Application instructions: E-mail Professor Sue Mendelsohn (sem2181@columbia.edu) by April 11 with the subject heading Rhetoric seminar. In your message, include basic information: your name, school, major, year of study, and relevant courses taken, along with a brief statement about why you are interested in taking the course. Admitted students should register for the course; they will automatically be placed on a wait list, from which the instructor will in due course admit them as spaces become available.

ENGL UN3792 FILM AND LAW. 4.00 points.
Prerequisites: the instructor’s permission. From its beginnings, film has been preoccupied with law: in cops and robbers silent films, courtroom drama, police procedural, judge reality show, or all the scenes that fill our media-saturated world. What do films and other audio-visual media tell us about what it’s like to come before the law, or about such substantive issues as what counts as murder, war crimes, torture, sexual abuse? How do films model the techniques that lawyers use to sway the passions of their audiences? How do they model the symbolism of their gestures, icons, images? If films and other audio-visual media rewrite legal events, what is their effect: on law? on legal audiences? How is the experience of being a film spectator both like and unlike the experience of being a legal subject? This course investigates such questions by looking at representations of law in film and other audio-visual media. We will seek to understand, first, how film represents law, and, second, how film attempts to shape law (influencing legal norms, intervening in legal regimes). The seminar’s principal texts will be the films themselves, but we will also read relevant legal cases and film theory in order to deepen our understanding of both legal and film regimes.

Fall 2022: ENGL UN3792 FILM AND LAW. 4.00 points.

The seminar’s principal texts will be the films themselves, but we will also read relevant legal cases and film theory in order to deepen our understanding of both legal and film regimes.
knowing and becoming narrativity and subjectivity, desire and language, difference shape people’s everyday lives. We will trace the entanglements movements with particular attention to how sex, gender, race, will develop critical analytical skills to consider social change desire. Through the readings, discussions, and assignments, you of Hollywood, we will explore new and old theories of queer and that stages queerness as part of an alternative articulation or labor and ending with a film made entirely on the iPhone from the UK that rereads queerness back through a history Gordon names “complex personhood.” Beginning with a film identities so much as part of the formulation of self that Avery bodily articulations, nor as natural expressions of coherent consider sexuality, desire and gender not as a discrete set of objects, relationality, being, knowing and becoming. We will of supermax facilities. Among the questions we will explore the partial privatization of the penal system, and the growth has called “the new Jim Crow,” the rise of mass incarceration, the outpouring of contemporary fiction and poetry about prison writing of George Jackson, Angela Davis, and Malcolm X to and in prison literature since the 1960s, roughly from the prison main focus will be on developments in the U.S. prison system and work farms as part of the penal system under Jim Crow, the explore the forms of cultural expression that have emerged in race theory, feminism, and class analysis, this course will and the enduring legacies of slavery. Using the tools of critical inequalities of American life, above all those based on racism written in prison or about prison—constitute a significant part of American literature. Prisons expose many of the systemic challenges that non-dominant subjects encounter? This is a 3-point lecture course. In accordance with university guidelines, you should expect to spend about six hours per week outside of class doing the course reading, which will consist entirely of novels and vary from ~150 to ~300 pages per week. The bildungsroman is the modern, realist version of the hero’s quest. Instead of slaying dragons and weaving spells, the protagonist of the bildungsroman struggles with what it means to become an adult – or to refuse to. Also known as the novel of development or coming-of-age novel, the bildungsroman typically focuses on growth and development, the cultivation of the self, and the tensions between individual and society, idealism and realism, dreamy inertia and future-oriented action. The reading list spans coming-of-age novels from Germany, France, England, and the United States, from the 1790s through the 2010s. Lectures will focus on the novel as a literary form in dialogue with other literary works; with historical events; and with ideas drawn from philosophy, psychology, and sociology. The course will address questions that include: what is society, what is a self, and what is the shape of a human life? What fosters human development and what thwarts it? How do coming-of-age novels engage with social norms concerning love, work, personhood, and maturity? The earliest novels of development focused on the dilemmas faced by white, middle-class men; how have subsequent works represented the challenges that non-dominant subjects encounter? This is a 3-point lecture course. In accordance with university guidelines, you should expect to spend about six hours per week outside of class doing the course reading, which will consist entirely of novels and vary from ~150 to ~300 pages per week. novel) for exploring the prison system and the systems of oppression that converge at that site? Does some literature of incarceration perpetuate damaging discourses about “felons,” or does it revise and complicate stereotypes and narratives about incarcerated individuals? How do narratives involving change, conversion, growing up, or being defeated operate in various genres of prison literature? What role do mourning, witnessing, testifying, and resistance play in such writing? What is the imagined audience of various genres of prison writing, that is, for whom is it written? What ethical and political demands does such writing make on us as readers, citizens, activists?

**UNIVERSITY WRITING**

**ENGL CC1010 UNIVERSITY WRITING. 3.00 points.**

ENGL CC/GS1010: University Writing, is a one-semester seminar designed to facilitate students’ entry into the intellectual life of the university by teaching them to become more capable and independent academic readers and writers. The course emphasizes habits of mind and skills that foster students’ capacities for critical analysis, argument, revision, collaboration, meta-cognition, and research. Students read and discuss essays from a number of fields, complete regular informal reading and writing exercises, compose several longer essays, and devise a research-based project of their own design. Courses of Instruction ENGL CC1010 University Writing. 3 points. ENGL CC/GS1010: University Writing (3 points) focuses on developing students’ reading, writing, and thinking, drawing from readings on a designated course theme that carry a broad appeal to people with diverse interests. No University Writing class presumes that students arrive with prior knowledge in the theme of the course. We are offering the following themes this year: UW: Contemporary Essays, CC/GS1010.001-.099 UW: Readings in American Studies, CC/GS1010.1xx UW: Readings in Gender and Sexuality, CC/GS1010.2xx UW: Readings in Film and Performing Arts, CC/GS1010.3xx UW: Readings in Urban Studies, CC/GS1010.4xx (will be sharing 400s with Human Rights) UW: Readings in Climate Humanities, CC/GS1010.5xx (will be sharing 500s with Data # Society) UW: Readings in Medical Humanities, CC/GS1010.6xx UW: Readings in Law # Justice, CC/GS1010.7xx UW: Readings in Race and Ethnicity, CC/GS1010.8xx University Writing for International Students, CC/GS1010.9xx For further details about these classes, please visit: [http://www.college.columbia.edu/core/uwp](http://www.college.columbia.edu/core/uwp)

**Senior Essay Methods Seminar**

**ENGL UN3795 Senior Essay Research Methods.**

3.00 points.

The senior essay is, for most English majors, the most substantial research you will have produced to this point in your intellectual life. As seniors tackle their essays, they discover that the methods they used to write smaller projects often don’t transfer to a project of this size. The English Senior Essay Seminar prepares English majors to make the leap to this longer project. It guides you through the process of crafting your proposal and teaches the research methods that you will rely upon to complete your thesis in the spring. In the process, you will learn what researchers have discovered about how seasoned scholars research and write. This learning prepares you for the next stage of your writing career, whether it be in graduate school or the workplace. By the end of the semester, you will produce about 20 pages of writing toward your senior essay, some of it in rough draft form and some more polished. That writing includes an evolving set of research questions, a literature review, a senior essay proposal, an outline, and partial rough drafts of two sections of your essay.

**Fall 2022: ENGL UN3795**

INTRODUCTION TO THE MAJOR

ENGL UN3001 LITERARY TEXTS # CRIT METHODS. 4.00 points.
Prerequisites: Students who register for ENGL UN3001 must also register for one of the sections of ENGL UN3011 Literary Texts, Critical Methods.

ENGL UN3920 MEDIEVAL ENGLISH TEXTS. 4.00 points.
Prerequisites: the instructor's permission.
The class will read the poem Sir Gawain and the Green Knight in the original Middle English language of its unique surviving copy of circa 1400, and will discuss both the poem's language and the poem's literary merit. The class will also read works from different genres (poetry, drama, and prose fiction), drawn from the medieval period to the present day, learning the different interpretative techniques required by each. The course also introduces students to a variety of critical schools and approaches, with the aim both of familiarizing them with these methodologies in the work of other critics and of encouraging them to make use of different methods in their own critical writing. This course (together with the companion seminar ENGL UN3011) is a requirement for the English Major and Concentration. It should be taken as early as possible in a student's career. Fulfillment of this requirement will be a factor in admission to seminars and to some lectures.

Prerequisites: Students who register for ENGL UN3001 must also register for one of the sections of ENGL UN3011 Literary Texts, Critical Methods.

ENGL GU4015 VERNACULAR PALEOGRAPHY. 4.00 points.
This class is designed to introduce graduate students (and some advanced undergraduates) to the paleography of English vernacular manuscripts written during the period ca. 700 -1500, with brief excursions into Latin and into French as it was written on the Continent. The purpose of the course is fourfold: (1) to teach students how to make informed judgments with regard to the date (and sometimes place) of origin, (2) to provide instruction and practice in the accurate reading and transcription of medieval scripts, (3) to learn and use the basic vocabulary of the description of scripts, and (4) to examine the manuscript book as a product of the changing society that produced it and, thus, as a primary source for the study of that society and its culture. In order to localize manuscripts in time and place, we also examine aspects of the written page besides the script, such as the material on which it is written, its layout and ruling, the decoration and illustration of the text, the provenance, and binding. We also examine the process of manuscript production itself, whether institutional, commercial, or personal. The history of book production and of decoration and illumination are thus considered part of the study of paleography, as is the history of patronage and that of libraries. Manuscripts are among the most numerous and most reliable surviving witnesses to medieval social and intellectual change, and they will be examined as such. To become proficient in the study of manuscripts it is necessary to look at manuscripts, as well as to read about them. The more time you are able to spend looking at manuscripts critically, in the manuals and in the Rare Book and Manuscript Library, the greater will be your firsthand experience and hence your reliable knowledge.

ENGL GU4791 MYSTICISM # MEDIEVAL DRAMA. 3.00 points.
(Lecture). This class is designed to interrogate the genre-boundary that has traditionally separated visionary writings from dramatic ones in the study of English medieval literature. Although this separation has long existed in scholarship, it is deeply problematic, and produces an understanding of the relationship between private devotion and publically performed religious ritual that is untenable, and does considerable violence to our understanding of the medieval imagination. As we will see, notionally "private" visionary writings and notionally "public" dramatic writings have a great deal in common, not just in terms of their overt content, but also in terms of their formal construction, their poetic devices, their favorite...
rhetorical maneuvers, and their articulated relationship with history and English literature. The works we will read this term are all phenomenally strange, many of them extremely difficult because of their unfamiliarity. For this reason, we will divide the semester into three sections: the first will deal with the famous medieval cycle dramas, which narrate events from the New Testament. The second section will transition to examine three important visionary texts that were written between 1370 and 1430, contemporaneous with the efflorescence of dramatic composition and performance in England, and two late Antique visionary texts that inspired them. The final section of class will turn to examine the so-called "morality plays," which emerge just slightly after the cycle dramas and after the visionary works we will have read. Since all of these works are linguistically challenging, we will work with translations in certain instances (Piers Plowman, Julian of Norwich, Margery Kempe). For all of the other works, we will be reading in Middle English, but you are welcome to consult translations, online summaries, or anything else that helps you get up to speed on what’s going on in the plays. Bear in mind, however, that your midterm and final will be based on the Middle English texts, so you do need to make a serious effort to read them (except in the case of Piers Plowman, which will be in modern English).

---

18TH AND 19TH CENTURY

ENGL UN3626 GREAT SHORT WORKS OF AMERICAN PROSE. 4.00 points.

The aim of this course is to read closely and slowly short prose masterworks written in the United States between the mid-19th century and the mid-20th century, and to consider them in disciplined discussion. Most of the assigned works are fiction, but some are public addresses or lyrical or polemical essays. We will read with attention to questions of audience and purpose: for whom were they written and with what aim in mind: to promote a cause, make a case for personal or political action, provoke pleasure, or some combination of all of these aims? We will consider the lives and times of the authors but will focus chiefly on the aesthetic and argumentative structure of the works themselves.

---

ENGL UN3789 AMERICAN NATURE WRITING TO 1900. 4.00 points.

The course is a survey of canonical texts from the American Literary Canon, with emphasis on how these writers experienced the natural world. Some of them had to deal with extreme cold, others with tropical heat. Some of them encountered abundance, others sparsity and famine. They all encountered new life forms – from marine life to birds, reptiles and animals. They had to cope with frequent earthquakes and hurricanes, and classify newly discovered species of vegetal life. What they saw, however, was read not only through the lenses of natural history, but also theologically and politically. For some, the natural world was rich with signs sent by God for them to interpret, for others it was a political space that they organized according to the a theocratic or plantation logic. The class will therefore also pay special attention to politics, and investigate how the ecological spaces that the colonists encountered shaped their politics and ethics.
England attracted particular interest because of the constant threat of invasion from France during these years. And of course Romantic writers famously exploited textual margins: many of the major literary works of the period make innovative use of footnotes, glosses, and other paratextual apparatus. This course considers these various aspects of Romantic marginality and the intersections between them. In addition to the work of more canonical authors (William Wordsworth, Samuel Taylor Coleridge, Walter Scott, Mary Shelley), we will be reading poems, novels, essays, and letters by writers, especially women, whose work has historically been marginalized

ENGL GU404 VICTORIAN POETRY. 3.00 points.
Open to all undergraduates (regardless of major) and graduate students.

(Lecture). This course examines the works of the major English poets of the period 1830-1900. We will pay special attention to Alfred Tennyson and Robert Browning, and their great poetic innovation, the dramatic monologue. We will also be concentrating on poems by Elizabeth Barrett Browning, Gerard Manley Hopkins, Christina Rossetti, Matthew Arnold, A. E. Housman, and Thomas Hardy

20TH AND 21ST CENTURY
ENGL GU4622 AFRICAN AMERICAN LITERATURE II. 3.00 points.

(Lecture). This survey of African American literature focuses on language, history, and culture. What are the contours of African American literary history? How do race, gender, class, and sexuality intersect within the politics of African American culture? What can we expect to learn from these literary works? Why does our literature matter to students of social change? This lecture course will attempt to provide answers to these questions, as we begin with Zora Neale Hurston’s Their Eyes Were Watching God (1937) and Richard Wright’s Native Son (1940) and end with Melvin Dixon’s Loves Instruments (1995) with many stops along the way. We will discuss poetry, fiction, drama, and non-fictional prose. Other authors include Ralph Ellison, James Baldwin, Gwendolyn Brooks, Malcom X, Ntozake Shange, Audre Lorde, and Toni Morrison. There are no prerequisites for this course. The formal assignments are two five-page essays and a final examination. Class participation will be graded

ENGL GU4110 Avant-Garde Feminist Poetry. 3.00 points.
This course will wrangle with three simple-seeming, but actually fraught and electrified questions: what does it mean to be “feminist”? What is “poetry” in the contemporary American poetry world? And what is “avant-garde”? One could read a thousand books of poetry to answer these questions, but in this course, we’ll stick to works written by women between 1990 and today. We will pay sustained, careful attention to poetic form and structure, and we will look at how formal experimentation might intersect with ethical and political realities. And, as a heuristic device, we’ll read two or three works by individual authors, to get a sense of their evolution over the course of a period of their careers

ENGL 001/13183 T Th 8:40am - 9:55am 702 Hamilton Hall Eleanor Johnson 3.00 37/60

ENGL UN3042 Ulysses. 4.00 points.
The seminar will look at the structure of the novel, its plan, with special attention paid to ‘The Odyssey’, but also to the variations in tone in the book, the parodies and elaborate games becoming more complex as the book proceeds. We will examine a number of Irish texts that are relevant to the making of ‘Ulysses’, including Robert Emmett’s speech from the dock, Yeats’s ‘The Countess Cathleen’ and Lady Gregory translations from Irish folk-tales

Spring 2023: ENGL UN3042 Course Number Section/Call Number Times/Location Instructor Points Enrollment
ENGL 001/13148 T 12:10pm - 2:00pm 613 Hamilton Hall Colm Toibin 4.00 20/18

ENGL UN3286 Freaks & Aesthetics in Fifties Families. 4.00 points.
Prerequisites: E-mail Professor Ross Posnock (rp2045@columbia.edu ) with the subject heading "seminar application.” In your message, include basic information: your name, school, major, year of study, and relevant courses taken, along with a brief statement about why you are interested in taking the course. Admitted students should register for the course; they will automatically be placed on a wait list from which the instructor will in due course admit them as spaces become available.
We will read J.D. Salinger's Glass Family fiction, which features a group of hyper-articulate New York prodigies who experiment with Eastern religion, Robert Lowell’s prose and poetry in Life Studies, a breakthrough in “confessional” subject matter, and Carson McCuller’s novel A Member of the Wedding, about the coming of age of a Southern tomboy. We will also watch and discuss Nicholas Ray's film Rebel Without a Cause with James Dean, the most famous portrayal of teenage rage and angst. All these works narrate crises of
conformity in postwar America—the much advertised sense of “alienation”—and dramatize the possibility of alternative values and improvised families.

ENTA UN3970 MAJOR 20TH CENTURY PLAYWRIGHTS. 4.00 points.
Prerequisites: the instructor’s permission.
The course will trace the pattern of the evolving theatrical careers of Henrik Ibsen and Harold Pinter, exploring the nature of and relationships among key features of their emerging aesthetics. Thematic and theatrical exploration involve positioning the plays in the context of the trajectories of modernism and postmodernism and examining, in that context, the emblematic use of stage sets and tableaux; the intense scrutiny of families, friendships, and disruptive intruders; the experiments with temporality, multi-linearity, and split staging; the issues raised by performance and the implied playhouse; and the plays’ potential as instruments of cultural intervention. Two papers are required, 5-7 pages and 10-12 pages, with weekly brief responses, and a class presentation. Readings include major plays of both writers and key statements on modernism and postmodernism. Application Instructions: E-mail Professor Austin Quigley (aqel@columbia.edu) with the subject heading “Ibsen and Pinter seminar.” In your message, include basic information: your name, school, major, year of study, and relevant courses taken, along with a brief statement about why you are interested in taking the course. Admitted students should register for the course; they will automatically be placed on a wait list from which the instructor will in due course admit them as spaces become available.

ENGL GU4956 THE ASIAN AMERICAN NOVEL. 4.00 points.
What does it mean to write an Asian American novel? In this seminar, we will explore this question by examining a range of novels written by Asian American authors. I use the term “Asian American” to underscore its political importance as an identity and community formation that consolidated in the late 1960s. These novels we will read were published from the early twentieth century to as recently as earlier this calendar year. Some are bestsellers, prize winners, or have been deemed as pivotal to the development of Asian American literature and its history. Others are not. Some are well known authors; others are newer or emergent writers. Some feature characters who are Asian or Asian American. Others explicitly question our assumptions and expectations regarding literary and cultural representations of Asians and Asian Americans. Across their work, these authors are nevertheless held together in part by their engagement with transnational relations in Asia and North America, including U.S. expansion across to the Pacific, migration and immigration legislation, labor exclusions and political resistance, and the changing dynamics of the United States in the wake of a so-called global Asian century. A guiding principle will inform our work: Asian American writers have long been interested in theorizing the novel as an artistic, literary, and political form. While the content of these novels will of course be important, we will also examine how Asian American writers have explicitly experimented with the form of the novel as a genre, including romance, bildungsroman, hybrid creative nonfiction, speculative fiction, postmodern palimpsest, YA novel, apocalyptic dystopia. To guide us in this goal, we will read scholars who have theorized the novel as a genre, we’ll also situate this work alongside the substantial history of Asian American literary scholarship on the novel.

CLEN GU4565 Postcolonial Theory and Decolonization. 4.00 points.
This course will examine the major debates, contested genealogies, epistemic and political interventions, and possible futures of the body of writing that has come to be known as postcolonial theory. We will examine the relationships between postcolonial theory and other theoretical formations, including post-structuralism, feminism, Marxism, subaltern studies, Third Worldism, Global South Studies, and Decolonial Theory. We will also consider what counts as “theory” in postcolonial theory: in what ways have novels, memoirs, or revolutionary manifestos, for example, offered seminal, generalizable statements about the (settler) colonial and postcolonial condition? How can we understand the relationship between the rise of postcolonial studies in the United States and the role of the U.S. in the post-Cold War era? How do postcolonial theory and its insights about European and American imperialism contribute to analyses of contemporary globalization?

CLEN GU4742 WORLD FICTION SINCE 1965. 3.00 points.
In the period since 1965, fiction has become global in a new sense and with a new intensity. Writers from different national traditions have been avidly reading each other, wherever they happen to come from, and they often resist national and regional labels altogether. If you ask the Somali writer Nuruddin Farah whether the precocious child of Maps was inspired by Salman Rushdie’s “Midnight’s Children,” he will answer (at least he did when I asked him) that he and Rushdie both were inspired by Sterne’s Tristram Shandy.
and Grass’s The Tin Drum. At the same time, the human experiences around which novelists organize their fiction are often themselves global, explicitly and powerfully but also mysteriously. Our critical language is in some ways just trying to catch up with innovative modes of storytelling that attempt to be responsible to the global scale of interconnectedness on which, as we only rarely manage to realize, we all live. Authors will include some of the following: Gabriel García Márquez, Jamaica Kincaid, W.G. Sebald, Elena Ferrante, and Zadie Smith.

ENGL GU4943 CRITICISM AND POLITICS. 4.00 points.
“Poetry makes nothing happen.” So wrote W. H. Auden, encapsulating one of the most powerful concepts in literature for the last 100 years: literature is not meant to do anything in the world, it is not directly interventionist; it is meant to stand the test of time but not to intervene in the politics of the moment or change the views of readers. This is the orthodoxy of modernism and its entrenched legacies. In this course, we will explore an alternate model of literary self-assessment: the desire to effect real changes in one’s society. “Books that Change the World” is offered as a thought exercise, a new way to conceptualize literary self-understanding and value. We will read works mostly from the 20th century, with several forays into the 19th and 21st, wondering how, if at all, these might aim to stimulate new ways of reading, thinking, responding, and indeed writing, in an activist spirit. The course is organized thematically and chronologically, with works from the U.S., England, Canada, India, and elsewhere. Each week we will read a novel (some novels are spread across two weeks), and these will often be paired with other materials, such as visual works, other literary materials, theoretical readings, etc. Themes to which these activist works are geared include: slavery and abolition; working conditions; gender and patriarchy; war and revolution; race and racism; and environmental crisis. This is a discussion seminar, and each student is expected to participate in every class meeting. The primary written work for the course is a final paper on a book of your choosing; the question will be, what work would you add to our syllabus, and why? The paper is an explanation/defense of your selection, with critical reading of the text itself along with appropriate context, and it is due at the end of the semester. Students concerned about work management can meet with me to come up with a different time-table. Weekly reading responses, posted to the Canvas page, are also required. In addition, after the first two weeks, we will begin each class with a short student presentation on the material (an outline is also required, to be shared with the group). Your grade for the course will be determined as follows: final paper (30#); presentation and outline (20#); class participation and reading responses (50#). Please note the heavy weight toward classroom participation and reading responses. If participating in class is not comfortable for you, please see me early on and we can work out some alternatives. The goal for our classroom is to be inclusive and to stimulate a positive, active learning environment for all.

ENGL GU4932 ESSAYISM. 4.00 points.
In the second decade of the 21st century there is more critical attention than ever before on the essay as a literary genre and a cultural practice that crosses media, registers, disciplines, and contexts. The concept of “essayism” was redefined by the Robert Musil in his unfinished modernist novel, The Man Without Qualities (1930) from a style of literature to a form of thinking in writing: “For an essay is not the provisional or incidental expression of a conviction that might on a more favourable occasion be elevated to the status of truth or that might just as easily be recognized as error . . . ; an essay is the unique and unalterable form that a man’s inner life takes in a decisive thought.” In this course will explore how essays can increase readers’ and writers’ tolerance for the existential tension and uncertainty we experience both within ourselves as well as in the worlds we inhabit. As Cheryl Wall argues, essays also give their practitioners meaningful work to do with their private musings and public concerns in a form that thrives on intellectual as well as formal experimentation. The course is organized to examine how practitioners across media have enacted essayism in their own work and how theorists have continued to explore its aesthetic effects and ethical power.

SPECIAL TOPICS

ENGL UN3394 HOW WRITERS THINK. 4.00 points.
Prerequisites: Permission of instructor.
Prerequisites: Permission of instructor. (Seminar). This course uses contemporary philosophies of research and writing to train students to become writing center and library consultants. Readings will highlight major voices in rhetoric and composition research, with an emphasis on collaborative learning theory. We will ground our study in hands-on teaching experiences: students will shadow Columbia Writing Center consultants and research librarians and then practice strategies they learn in consultation with other students. Those who successfully complete this course will be eligible to apply for a peer writing consultant job in the Columbia Writing Center. This course is co-taught by the director of the Writing Center and the undergraduate services librarian.

ENGL GU4561 CHILDREN’S LITERATURE. 3.00 points.
This is a historical survey of literature written principally for children (primarily narrative), which will explore not only the pleasures of imagination but the varieties of narrative and lyric form, as well as the ways in which story-telling gives shape to individual and cultural identity. Drawing on anonymous folk tale from a range of cultures, as well as a variety of literary works produced from the late 17th century to the present, we’ll attend to the ways in which changing forms of children’s literature reflect changing understandings of children and childhood, while trying not to overlook psychological and formal structures that might persist across this history. Readings of the primary works will be supplemented by a variety of critical approaches—psychoanalytic, materialist, feminist, and structuralist—that scholars have employed to understand the variety and appeal of children’s literature.

Founded in 1999, the Center for the Study of Ethnicity and Race (CSER) is an interdisciplinary intellectual space whose mission is to advance the most innovative teaching, research, and public discussion about race and ethnicity. To promote its mission, the Center organizes conferences, seminars, exhibits, film screenings, and lectures that bring together faculty, undergraduates, and graduate students with diverse interests and backgrounds. Moreover, CSER partners with departments, centers, and institutes at Columbia, as well as with colleagues and organizations on and off campus, in order to reach new audiences and facilitate an exchange of knowledge.

PROGRAMS OF STUDY

Ethnicity and Race Studies major and concentration encompass a variety of fields and interdisciplinary approaches to the critical study of ethnicity and race. What makes CSER unique is its attention to the comparative study of racial and ethnic categories in the production of social identities, power relations, and forms of knowledge in a multiplicity of contexts including the arts, social sciences, natural sciences, and humanities. In addition to the major, CSER also offers a concentration in ethnicity and race studies.

In both the major and concentration, students have the opportunity to select from the following areas of specialization:

- Asian American studies
- Comparative ethnic studies
- Latino/a studies
- Native American/Indigenous studies
- Individualized courses of study

Faculty and students find this field exciting and important because it opens up new ways of thinking about two fundamental aspects of human social existence: race and ethnicity. Although various traditional disciplines such as history, sociology, anthropology, and literature, among others, offer valuable knowledge on race and ethnicity, ethnicity and race studies provides a flexible interdisciplinary and comparative space to bring the insights of various conceptual frameworks and disciplines together in critical dialogue.

Overall, this program introduces students to the study of ethnicity and race, and the deep implications of the subject matter for thinking about human bodies, identity, culture, social hierarchy, and the formation of political communities. The major encourages students to consider the repercussions of racial and ethnic identifications to local and global politics, and how race and ethnicity relates to gender, sexuality, and social class, among other forms of hierarchical difference.

Students majoring in ethnicity and race studies may focus their work on specific groups, such as Asian Americans, Latino/a, or Native Americans/Indigenous; or a comparative study of how race and ethnicity are formed and how conceptions of race and ethnicity transform and change over time and place. Students also have the option of designing an individualized course of study, which may encompass a wide variety of themes. Among the most studied are those involving the relationship between race, ethnicity and law; health; human rights; urban spaces; cultural production; visual culture; and the environment.

Due to its rigorous curriculum, which trains students in theory, history, and a wide range of modes of inquiry, the major enables students to follow multiple directions after graduation. According to our internal surveys, nearly half of CSER students continue to Ph.D. programs in history, anthropology, and ethnic studies, among other areas. A second significant number of
students continue on to professions most notably related to law, public policy, medicine, human rights, community organizing, journalism, and the environment.

**STUDY ABROAD**

Students are encouraged to participate in study abroad programs, as they represent an exciting opportunity to learn new languages and live in countries that are germane to their areas of study. In addition, traveling abroad can enrich every student's intellectual experience by providing an opportunity to learn about other perspectives on ethnicity and race.

In summer 2017 CSER, together with Columbia's Office of Global Programs (OGP) launched a pilot summer program in Mexico City in collaboration with the Centro de Investigación y Docencia Economicas--CIDE, a leading institution of higher education with a focus in the social sciences. The program consists of an intensive 5-week CSER core course, "Colonization-Decolonization," visits to various historical colonial sites and a field trip to Oaxaca. Professors Claudio Lomnitz and Manan Ahmed jointly taught the class. Eleven Columbia students participated in this exchange. For more information about the CSER 2018 Global Program in Mexico, please contact cser@columbia.edu

In the past, students have also participated in study abroad programs in Australia, Dominican Republic, Mexico, and South Africa. To ensure that study abroad complements the major and integrates effectively with the requirements of the major, students are encouraged to consult with CSER's undergraduate adviser as early in their academic program as possible. The director of undergraduate studies can advise students on what may be exciting programs for their areas.

**DEPARTMENTAL HONORS**

CSER majors may choose to write and/or produce an honors project. The senior thesis gives undergraduate majors the opportunity to engage in rigorous, independent, and original research on a specific topic of their choosing. If a monograph, the honors thesis is expected to be 35-50 pages in length. Honors projects can also take other forms, such as video or websites. These projects also require a written component, but of a shorter length than the traditional thesis. During their senior year, honors students perform research as part of CSER UN3990 Senior Project Seminar. Senior projects are due in early April. The Honors Thesis is an excellent option for any student interested in pursuing a Master’s degree or Ph.D. Students should consult with their director of undergraduate studies no later than the beginning of the first term of their senior year if they wish to be considered for departmental honors. Students who are awarded departmental honors are notified by their department in mid-May.

In order to qualify for departmental honors, students must satisfy all the requirements for the major, maintain a GPA of at least 3.6 in the major, and complete a high quality honors project. In addition, each student is expected to meet periodically with his or her supervising project adviser and preceptor. Although the senior thesis is a prerequisite for consideration for departmental honors, all Ethnicity and Race studies majors are strongly encouraged to consider undertaking thesis work even if they do not wish to be considered for departmental honors.

**CORE FACULTY AND EXECUTIVE COMMITTEE**

Sayantani DasGupta (CSER, Professional Studies)
Jennifer Lee (Sociology)
Catherine Fennel (Anthropology)
Karl Jacoby CSER Co-Director (History) - ON LEAVE AY21-22

Major in Ethnicity and Race Studies

The requirements for this program were modified on March 2022. Students who declared this program before this date should contact the director of undergraduate studies for the department in order to confirm their correct course of study.

The major in ethnicity and race studies consists of a minimum of 27 points. All majors are required to take three core courses as listed below:

<table>
<thead>
<tr>
<th>Core Courses</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. CSER UN1010 INTRO TO COMP ETHNIC STUDIES (or)</td>
<td>4.00</td>
</tr>
<tr>
<td>2. CSER UN3928 COLONIZATION/DECOLONIZATION OR CSER UN3942 RACE AND RACISMS</td>
<td>4.00</td>
</tr>
<tr>
<td>3. CSER UN3919 MODES OF INQUIRY</td>
<td>4.00</td>
</tr>
</tbody>
</table>

Specialization

All majors will select one of the areas of specialization listed below from which to complete their remaining coursework:

- Asian American studies
- Comparative ethnic studies
- Latino/a studies
- Native American/Indigenous studies
- Individualized courses of study
Majors who elect NOT to follow the Honors track must complete at least five CSER elective courses, in consultation with their major adviser, within their area of specialization. At least one of these electives must be a writing-intensive seminar (3000 or above level courses must be chosen within the department). Majors who elect to follow the Honors track must complete at least four CSER elective courses, in consultation with their major adviser, within their area of specialization.

**Honors**

In lieu of a fifth elective, Honors majors are required to enroll in the following course in the spring semester of their senior year, during which they are required to write a thesis:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>CSER UN3990</td>
<td>SENIOR PROJECT SEMINAR</td>
<td>4</td>
</tr>
</tbody>
</table>

Honors majors are required to present their senior essays at the annual undergraduate symposium in April. Students may fulfill this option in one of the following two ways:

1. By matriculating in the Senior Thesis course and writing the thesis under the supervision of the course faculty.
2. By taking an additional 4-point seminar where a major paper is required and further developing the paper into a thesis length work (minimum of 30 pages) under the supervision of a CSER faculty member.

**Language Courses**

- One of the following is highly recommended, although not required for the major:
  - One course beyond the intermediate-level in language pertinent to the student's focus
  - An introductory course in a language other than that used to fulfill the degree requirements, but that is pertinent to the student's focus
  - A linguistics or other course that critically engages language
  - An outside language and study abroad programs that include an emphasis on language acquisition

---

**CONCENTRATION IN ETHNICITY AND RACE STUDIES**

The requirements for this program were modified on March 2022. Students who declared this program before this date should contact the director of undergraduate studies for the department in order to confirm their correct course of study.

The concentration in ethnicity and race studies requires a minimum of 19 points. Students take two core courses (may choose between CSER UN1010 and CSER UN1040) and four elective courses, one of which must be a seminar:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>CSER UN1010</td>
<td>INTRO TO COMP ETHNIC STUDIES (or)</td>
<td>4</td>
</tr>
<tr>
<td>CSER UN3928</td>
<td>COLONIZATION/ DECOLONIZATION</td>
<td>4</td>
</tr>
<tr>
<td>CSER UN3942</td>
<td>RACE AND RACISMS</td>
<td>4</td>
</tr>
</tbody>
</table>

**Specialization**

Students must complete at least four courses, in consultation with their major adviser, in one of the following areas of specialization. At least one of the elective courses must be a seminar.

- Asian American studies
- Comparative ethnic studies
- Latino/a studies
- Native American/Indigenous studies
- Individualized courses of study

**CSER UN1040 CRIT APPRO-STUDY OF ETH # RACE. 3.00 points.**

This course provides an introduction to central approaches and concepts animating the investigation of race and ethnicity. We will not treat either of these categories of difference as a given, nor as separable from other axes of social difference. Rather, we will apply an interdisciplinary and intersectional framework
to illuminate how these concepts have come to emerge and cohere within a number of familiar and less familiar socio-cultural and historical contexts. We will consider how racial and ethnic differentiation as fraught but powerful processes have bolstered global labor regimes and imperial expansion projects; parsed, managed, and regulated populations; governed sexed and gendered logics of subject and social formation; and finally, opened and constrained axes of self-understanding, political organization, and social belonging. Special attention will be given to broadening students understanding of racial and ethnic differentiation beyond examinations of identity. Taken together, theoretical and empirical readings, discussions, and outside film screenings will prepare students for further coursework in race and ethnic studies, as well as fields such as literary studies, women’s studies, history, sociology, and anthropology

CSER UN1111 INTRO TO COMP ETHNIC STUDIES DS. 0.00 points.

CSER UN3490 POST 9/11 IMMIGRATION POLICIES. 4.00 points.
Since September 11, 2001, there has been an avalanche of immigration enforcement policies and initiatives proposed or implemented under the guise of national security. This course will analyze the domino effect of the Patriot Act, the Absconder Initiative, Special Registration, the Real I.D. Act, border security including the building of the 700-mile fence along the U.S./Mexico border, Secured Communities Act-that requires the cooperation of state and local authorities in immigration enforcement, the challenge to birthright citizenship, and now the congressional hearings on Islamic radicalization. Have these policies been effective in combating the war on terrorism and promoting national security? Who stands to benefit from these enforcement strategies? Do immigrant communities feel safer in the U.S.? How have states joined the federal bandwagon of immigration enforcement or created solutions to an inflexible, broken immigration system?

Fall 2022: CSER 3490

Course Section/Call Number Times/Location Instructor Points Enrollment
CSER 3490 001/113672 T 10:10am - 12:00pm Elizabeth OuYang 4.00 24/22

CSER 3919 MDES INQUIRY. 4.00 points.
Corequisites: CSER UN3921
This class, a combination of a seminar and a workshop, will prepare students to conduct, write up, and present original research. It has several aims and goals. First, the course introduces students to a variety of ways of thinking about knowledge as well as to specific ways of knowing and making arguments key to humanistic and social science fields. Second, this seminar asks students to think critically about the approaches they employ in pursuing their research. The course will culminate in a semester project, not a fully executed research project, but rather an 8-10 page proposal for research that will articulate a question, provide basic background on the context that this question is situated in, sketch preliminary directions and plot out a detailed methodological plan for answering this question. Students will be strongly encouraged to think of this proposal as related to their thesis or senior project. Over the course of the semester, students will also produce several short exercises to experiment with research techniques and genres of writing

Fall 2022: CSER UN3919

Course Section/Call Number Times/Location Instructor Points Enrollment
CSER 3919 001/11568 W 12:10pm - 2:00pm Sayantan DasGupta 4.00 17/18

CSER UN3922 RACE#REPRESENT IN ASIAN AMER CINEMA. 4.00 points.
Enrollment limited to 22.
This seminar focuses on the critical analysis of Asian representation and participation in Hollywood by taking a look at how mainstream American cinema continues to essentialize the Asian and how Asian American filmmakers have responded to Hollywood Orientalist stereotypes. We will analyze various issues confronting the Asian American, including yellowface, white patriarchy, male and female stereotypes, the “model minority” myth, depictions of “Chinatowns,” panethnicity, the changing political interpretations of the term Asian American throughout American history, gender and sexuality, and cultural hegemonies and privileging within the Asian community

CSER UN3926 LATIN MUSIC AND IDENTITY. 4.00 points.
Latin music has had a historically strained relationship with mainstream music tastes, exploding in occasional boom periods, and receding into invisibility in others. What if this were true because it is a space for hybrid construction of identity that directly reflects a mixture of traditions across racial lines in Latin America? This course will investigate Latin musics transgression of binary views of race in Anglo-American society, even as it directly affects the development of pop music in America. From New Orleans jazz to Texas corridos, salsa, rock, and reggaeton, Latin music acts as both as a soundtrack and a structural blueprint for the 21st centuries multicultural experiment. There will be a strong focus on studying Latin musics political economy, and investigating the story it tells about migration and globalization

Fall 2022: CSER UN3926

CSER UN3928 COLONIZATION/DECOLONIZATION. 4.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement
Enrollment limited to 22.

Prerequisites: Open to CSER majors/concentrators only. Others may be allowed to register with the instructor's permission. Prerequisites: Open to CSER majors/concentrators only. Others may be allowed to register with the instructors permission. This course explores the centrality of colonialism in the making of the modern world, emphasizing cross-cultural and social contact, exchange, and relations of power; dynamics of conquest and resistance; and discourses of civilization, empire, freedom, nationalism, and human rights, from 1500 to 2000. Topics include pre-modern empires; European exploration, contact, and conquest in the new world; Atlantic-world slavery and emancipation; and European and Japanese colonialism in Asia, Africa, and the Middle East. The course ends with a section on decolonization and post-colonialism in the period after World War II. Intensive reading and discussion of primary documents

CSER UN3964 Maya Guatemala-Neoliberalism # Resistance. 4.00 points.

Guatemala’s recurrent history of Indigenous genocide is closely linked to U.S. interventions. Meanwhile, Maya organizing in Guatemala has helped spearhead Indigenous political visibility globally. This course examines socio-historical dynamics that have shaped Indigenous Guatemala to better understand current crises like migration and postwar violence. We study settler colonialism; Maya land dispossession and labor exploitation; U.S. corporate imperialism via banana republics; Maya autonomy efforts; Maya intellectuals, populist organizing, and the guerrilla revolutionary movement; racism and postwar multiculturalism; genocidal military counterinsurgency; sexual violence and femicide; the social impacts of Guatemalan and U.S. Catholicism and Evangelicalism; postwar neoliberal restructuring; and the rise of the narco-state and resource extraction on Indigenous territories. We will look at contemporary postwar issues of political disillusionment, militarized “war by other means,” conflicts between Indigenous communities and environmental conservationists, gender and the recovery of Indigenous law and anti-GMO organizing involving Native seed banks. We pay special attention to Indigenous political action as resistance to highly oppressive regimes of terror

See department for course description

CSER GU4360 AMER DIVA:RACE,GDNDR#PERFMNC. 4.00 points.

What makes a diva a diva? How have divas shaped and challenged our ideas about American culture, performance, race, space, and capital during the last century? This seminar explores the central role of the diva—the celebrated, iconic, and supremely skilled female performer—in the fashioning and re-imagining of racial, gendered, sexual, national, temporal, and aesthetic categories in American culture. Students in this course will theorize the cultural function and constitutive aspects of the diva and will analyze particular performances of a range of American divas from the 20th and 21st centuries and their respective roles in (re)defining American popular culture

CSER UN1011 INTRO ASIAN AMERICAN STUDIES. 4.00 points.
This course provides an overview of Asian/Pacific American history from the late 18th Century until the present day. The course follows a thematic format that begins with European and American empires in Asia and the Pacific. The course surveys significant and interrelated topics -- including anti-Asian movements, immigration and exclusion, various forms of resistance, Orientalism, media representations, the model minority myth, the Asian American movement, identity, and racial, ethnic, and generational conflicts -- in Asian/Pacific American history of the 19th and 20th Centuries. Each of these concepts and topics will resonate, in various expressions and forms, well into the 21st Century and beyond.

CSER UN1601 INTRODUCTION TO LATINO STUDIES. 3.00 points.
Enrollment limited to 101.
This course provides an introductory, interdisciplinary discussion of the major issues surrounding this nation's Latino population. The focus is on social scientific perspectives utilized by scholars in the field of Latino Studies. Major demographic, social, economic, and political trends are discussed. Key topics covered in the course include: the evolution of Latino identity and ethnicity; the main Latino sub-populations in the United States; the formation of Latino communities in the United States; Latino immigration; issues of race and ethnicity within the Latino population; socioeconomic status and labor force participation of Latinos; Latino social movements; and the participation of Latinos in U.S. civil society.

CSER UN3701 LATINX RACIAL IDENTITY # CULTURAL PRODUCTION. 4.00 points.
Enrollment limited to 22.
The course will investigate the impact of racial identity among Latinx in the U.S. on cultural production of Latinos in literature, media, politics and film. The seminar will consider the impact of bilingualism, shifting racial identification, and the viability of monolithic terms like Latinx. We will see how the construction of Latinx racial identity affects acculturation in the U.S., with particular attention to hybrid identities and the centering of black and indigenous cultures. Examples will be drawn from different Latinx ethnicities from the Caribbean, Mexico and the rest of Latin America.

CSER UN3905 ASIAN AMERICAN # PSYCH OF RACE. 4.00 points.
This seminar provides an introduction to mental health issues for Asian Americans. In particular, it focuses on the psychology of Asian Americans as racial/ethnic minorities in the United States by exploring a number of key concepts: immigration, racialization, prejudice, family, identity, pathology, and loss. We will examine the development of identity in relation to self, family, college, and society. Quantitative investigation, qualitative research, psychology theories of multiculturalism, and Asian American literature will also be integrated into the course.

CSER UN3928 COLONIZATION/DECOLONIZATION. 4.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement
Enrollment limited to 22.
Prerequisites: Open to CSER majors/concentrators only. Others may be allowed to register with the instructor's permission.
Prerequisites: Open to CSER majors/concentrators only. Others may be allowed to register with the instructors permission.
This course explores the centrality of colonialism in the making of the modern world, emphasizing cross-cultural and social contact, exchange, and relations of power; dynamics of conquest and resistance; and discourses of civilization, empire, freedom, nationalism, and human rights, from 1500 to 2000. Topics include pre-modern empires; European exploration, contact, and conquest in the new world; Atlantic-world slavery and emancipation; and European and Japanese colonialism.
in Asia, Africa, and the Middle East. The course ends with a section on decolonization and post-colonialism in the period after World War II. Intensive reading and discussion of primary documents

**CSER UN3940 COMP STUDY OF CONSTITUTNL CHAL. 4.00 points.**

This course will examine how the American legal system decided constitutional challenges affecting the empowerment of African, Latino, and Asian American communities from the 19th century to the present. Focus will be on the role that race, citizenship, capitalism/labor, property, and ownership played in the court decision in the context of the historical, social, and political conditions existing at the time. Topics include the denial of citizenship and naturalization to slaves and immigrants, government sanctioned segregation, the struggle for reparations for descendants of slavery, and Japanese Americans during World War II

**CSER UN3942 RACE AND RACISMS. 4.00 points.**

In this class we will approach race and racism from a variety of disciplinary and intellectual perspectives, including: critical race theory/philosophy, anthropology, history and history of science and medicine. We will focus on the development and deployment of the race concept since the mid-19th century. Students will come to understand the many ways in which race has been conceptualized, substantiated, classified, managed and observed in the (social) sciences, medicine, and public health. We will also explore the practices and effects of race (and race-making) in familiar and less familiar social and political worlds. In addition to the courses intellectual content, students will gain critical practice in the seminar format -- that is, a collegial, discussion-driven exchange of ideas

**CSER UN3964 Maya Guatemala-Neoliberalism # Resistance. 4.00 points.**

Guatemala’s recurrent history of Indigenous genocide is closely linked to U.S. interventions. Meanwhile, Maya organizing in Guatemala has helped spearhead Indigenous political visibility globally. This course examines socio-historical dynamics that have shaped Indigenous Guatemala to better understand current crises like migration and postwar violence. We study settler colonialism; Maya land dispossession and labor exploitation; U.S. corporate imperialism via banana republics; Maya autonomy efforts; Maya intellectuals, populist organizing, and the guerrilla revolutionary movement; racism and postwar multiculturalism; genocidal military counterinsurgency; sexual violence and feminism; the social impacts of Guatemalan and U.S. Catholicism and Evangelicalism; postwar neoliberal restructuring; and the rise of the narco-state and resource extraction on Indigenous territories. We will look at contemporary postwar issues of political disillusionment, militarized “war by other means,” conflicts between Indigenous communities and environmental conservationists, gender and the recovery of Indigenous law and anti-GMO organizing involving Native seed banks. We pay special attention to Indigenous political action as resistance to highly oppressive regimes of terror

**CSER UN3990 SENIOR PROJECT SEMINAR. 4.00 points.**

The Senior Paper Colloquium will focus primarily on developing students ideas for their research projects and discussing their written work. The course is designed to develop and hone the skills necessary to complete the senior paper. Students will receive guidance in researching for and writing an advanced academic paper. Conducted as a seminar, the colloquium provides the students a forum in which to discuss their work with each other. The CSER preceptor, who facilitates the colloquium, will also provide students with additional academic support, supplementary to the advice they receive from their individual faculty sponsors. While most of the course will be devoted to the students work, during the first weeks of the term, students will read and discuss several ethnic studies-oriented texts to gain insight into the kinds of research projects done in the field

concerns about rape culture and mass incarceration

background of protest movements built around the identitarian gender, and sexuality. We’ll close by examining the historical a series of debates centered at intersections of race, ethnicity, post-WWII funding for higher education. We then move on to symbol school—and think through its growth in the context of the first academic movement in American Studies, the myth and problems for generalizations about U.S. identity. We begin with regions, groups, and cultural practices that present productive field’s current preoccupations, covering a range of periods, various forms of inequality as the dark side of American Since the 1960’s, the field has turned towards a focus on Conceived in the 1920’s and 1930’s, American Studies 4.00 points.

CSER GU4350 CINEMA OF SUBVERSION. 4.00 points.

Russian filmmaker Andre Tarkovsky said that “the artist has no right to an idea in which he is not socially committed.” Argentine filmmaker Fernando Solanas and Spanish-born Octavio Getino postulated an alternative cinema that would spur spectators to political action. In this course we will ask the question: How do authoritarian governments influence the arts, and how do artists respond? We will study how socially committed filmmakers have subverted and redefined cinema aesthetics to challenge authoritarianism and repression. In addition, we will look at how some filmmakers respond to institutional oppression, such as poverty and corruption, even within so-called “free” societies. The focus is on contemporary filmmakers but will also include earlier classics of world cinema to provide historical perspective. The course will discuss these topics, among others: What is authoritarianism, what is totalitarianism, and what are the tools of repression within authoritarian/totalitarian societies? What is Third Cinema, and how does it represent and challenge authoritarianism? How does film navigate the opposition of censorship, propaganda and truth? How do filmmakers respond to repressive laws concerning gender and sexual orientation? How do they deal with violence and trauma? How are memories of repressive regimes reflected in the psyche of modern cinema? And finally, what do we learn about authority, artistic vision, and about ourselves when we watch these films?

CSER GR5001 METHODS IN AMERICAN STUDIES. 4.00 points.

Conceived in the 1920’s and 1930’s, American Studies sought to make a synoptic account of the “national character.” Since the 1960’s, the field has turned towards a focus on various forms of inequality as the dark side of American exceptionalism. This course surveys the development of the field’s current preoccupations, covering a range of periods, regions, groups, and cultural practices that present productive problems for generalizations about U.S. identity. We begin with the first academic movement in American Studies, the myth and symbol school—and think through its growth in the context of post-WWII funding for higher education. We then move on to a series of debates centered at intersections of race, ethnicity, gender, and sexuality. We’ll close by examining the historical background of protest movements built around the identitarian concerns about rape culture and mass incarceration

FILM AND MEDIA STUDIES

Departmental Office: 513 Dodge; 212-854-2815
http://arts.columbia.edu/film

Director of Undergraduate Studies: Prof. Robert King, Tuesday 9-12, Dodge 601C or https://columbiauniversity.zoom.us/j/2037291445

The major in film studies is scholarly, international in scope, and writing-intensive. Students choose to major in film if they want to learn more about the art form, from technology to cultural significance; want to work in the film industry; or are interested in a major that combines arts and humanities.

Students usually declare the major toward the end of the second year by meeting with the departmental adviser; together, they create a program of twelve required courses within the major, often supplemented by courses outside the department. In the lecture classes and seminars, there tends to be a mixed population of undergraduate majors and graduate film students.

Students have the opportunity to gain additional experience by taking advantage of internship opportunities with film companies, working on graduate student films, and participating in the Columbia Undergraduate Film Productions (CUPF), an active, student-run organization that provides filmmaking experience to Columbia undergraduate producers and directors. In addition to careers in screenwriting, directing, and producing, alumni have gone on to work in film distribution, publicity, archives, and festivals, and to attend graduate school to become teachers and scholars.

The trajectory of the major is from introductory-level courses (three are required), to intermediate and advanced-level courses (two are required, plus seven electives). While film studies majors take workshops in screenwriting and film-making, the course of study is rooted in film history, theory, and culture.

The prerequisite for all classes is INTRO TO FILM # MEDIA STUDIES (FILM UN1000) offered each term at Columbia as well as at Barnard, and open to first-year students. Subsequently, majors take a combination of history survey courses; workshops ("Labs"); and advanced classes in theory, genre study, national cinemas, auteur study, and screenwriting.

The educational goal is to provide film majors with a solid grounding in the history and theory of film; its relation to other forms of art; and its synthesis of visual storytelling, technology, economics, and sociopolitical context, as well as the means to begin writing a script and making a short film.

Students who wish to graduate with honors must take the SENIOR SEMINAR IN FILM STUDIES (FILM UN3900), writing a thesis that reflects mastery of cinematic criticism. The essay is submitted after the winter break. Students decide upon
the topic with the professor and develop the essay during the fall semester.

Since film courses tend to be popular, it is imperative that students attend the first class. Registration priority is usually given to film majors and seniors.

**DEPARTMENTAL HONORS**

In order to qualify for departmental honors, students must have a GPA of 3.75 in the major and distinction in their overall achievements in film study. Students who take FILM UN3900 Senior Seminar in Film Studies automatically enter consideration for honors; however, the class is not a requirement for honors.

**NOTES:**

- Outside of the required classes, most undergraduate courses offered through the Columbia or Barnard Film and Media Studies majors will count as an elective, including summer classes. Please confirm with the Director of Undergraduate Studies.
• Film- or media-related classes from other departments can count as electives only with prior DUS approval.
• There is a cap of FOUR classes in screenwriting or filmmaking that can be applied toward the major.
• Cinema History or Lab classes taken in excess of the above requirements roll over as electives (e.g., if you take two labs, one will count as one of your seven electives).

**FILM UN1000 INTRO TO FILM # MEDIA STUDIES. 3.00 points.**
Lecture and discussion. Priority given to declared film majors. Fee: $75.

Prerequisites: Discussion section FILM UN1001 is a required corequisite
This course serves as an introduction to the study of film and related visual media, examining fundamental issues of aesthetics (mise-en-scene, editing, sound), history (interaction of industrial, economic, and technological factors), theory (spectatorship, realism, and indexicality), and criticism (authorist, feminist, and genre-based approaches). The course also investigates how digital media change has been productive of new frameworks for moving image culture in the present. Discussion section FILM UN1001 is a required corequisite

**FILM UN1010 Genre Study. 3 points.**
Fee: Course Fee - 75

Prerequisites: This lecture course will have 3 discussion sections, capped at 20, listed as UN 1011 Genre Study - Disc. There will also be a film screening, scheduled immediately after one of the lecture sessions. This course examines how globalization and the global success of American blockbuster films have affected Hollywood film production, stardom, distribution, and exhibition. The course will analyze blockbuster aesthetics, including aspects of special effects, 3-D, sound, narration, genre, and editing. We will also study the effects of new digital technologies on Hollywood and the cross-pollination among Hollywood, art house, and other national cinemas. Finally, we will examine the effects of 9/11, the “war on terrorism,” climate change and other global concerns on marketing, aesthetics and other aspects of this cinema

**FILM UN2010 CINEMA HIST I: BEGIN-1930. 3.00 points.**
This course rethinks the "birth of cinema; from the vantage of ;when old media was new.; Following standard approaches, it moves from actualities to fiction, from the ;cinema of attractions; to narrative, from the cinematographe to cinema, from cottage industry to studio system. Units in silent film music, early genres, film piracy and copyright, word and moving image, and restoration—the film archivists dilemma in the digital era. FILM W2011

FILM UN2040 CINEMA HISTORY IV: AFTER 1990. 3.00 points.
This course brings our survey of the development of the art, technology, and industry of motion images up to the present. During this era, most people no longer watched movies (perhaps the most neutral term) in theaters, and digital technology came to dominate every aspect of production, distribution, and exhibition. Highlighted filmmakers include Michael Haneke, Lars von Trier, Wong Kar-wei, and Steve McQueen. Topics range from contemporary horror to animation. Requirements: short (2-3 pages) papers on each film shown for the class and a final, take-home exam. FILM W2041

FILM UN2190 TOPICS IN AMERICAN CINEMA. 3.00 points.
This course surveys the American film genre known as film noir, focusing primarily on the genre’s heyday in the 1940s and early 1950s, taking into account some of its antecedents in the hard-boiled detective novel, German Expressionism, and the gangster film, among other sources. We will consider a number of critical and theoretical approaches to the genre, and will also study a number of film noir adaptations and their literary sources

FILM UN2290 Topics in World Cinema: Arab and Africa. 3 points.
FILM W2291

FILM UN2292 Topics in World Cinema: China. 3 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement Fee: Course Fee - 75

The international revelation of Chinese cinema in the 1980s was one of the great events both for film studies and film production in the past fifty years: the depth and richness of the classic cinemas of the PRC, Hong Kong and Taiwan were complemented by the emergence of exciting new films and filmmakers from each of those film cultures. This course will trace the history and development of filmmaking in mainland China and Hong Kong, from the Shanghai cinema of the 1930s to recent examples of digital media production, examining changes in film style and technique within the context of ever-shifting political currents and production models. A special focus will be the ongoing dialogue between Chinese film and international trends ranging from realism to postmodernism.

FILM UN2293 TOPICS IN WORLD CINEMA-DISC. 0.00 points.
See above. This submission is to generate a course number for the discussion section to go with the lecture course.

FILM UN2294 World Cinema: Latin America. 3 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

An overview of the major developments in the art and industry of cinema in Latin America, ranging from its earliest days to the most recent works of the digital era. The interaction of Latin American filmmakers with international movements such as neorealism, modernism, cinéma vérité, and postmodernism will be addressed. Among the filmmakers to be studied are Luis Buñuel, Glauber Rocha, Raúl Ruiz and Lucrecia Martel.

Students will discover the major industrial trends as well as artistic currents that have defined Latin American cinema, as well as have the chance to analyze a number of key works both in terms of their varying approaches to filmmaking as well as their resonance with political/social/historical issues.

FILM UN2295 World Cinema: Latin America - Discussion Section. 0 points.
Not offered during 2022-23 academic year.

Discussion section lead by a Teaching Assistant to review lecture, reading and screening.

FILM UN2310 THE DOCUMENTARY TRADITION. 3.00 points.
Film screening, lecture, and discussion. Fee: $75.

This class offers an introduction to the history of documentary cinema and to the theoretical and philosophical questions opened up by the use of moving images to bear witness, persuade, archive the past, or inspire us to change the future. How are documentaries different than fiction films? What is the role of aesthetics in relation to facts and evidence in different documentary traditions? How do documentaries negotiate appeals to emotions with rational argument? From the origins of cinema to our current “post-truth” digital age, we will look at the history of how cinema has attempted to shape our understanding of reality. FILM W2311

### FILM UN3010 AUTEUR STUDY. 3.00 points.
Fee: $50.
This seminar in Auteur Study explores the cinematic work of the renowned Polish filmmaker Krzysztof Kieslowski, best known for such classics as Three Colors: Blue, White, Red and Decalogue. Special attention will be paid to the latter—ten 1-hour films loosely based on the 10 Commandments—considered a towering achievement of poetic style as well spiritual vision. Through in-class screenings, discussions, and readings, we will focus on the formal, political and thematic richness of his films. Requirements include weekly attendance, punctuality, classroom participation, a midterm paper (5 - 7 pages), and a final paper (10 - 12 pages)

### Spring 2023: FILM UN3020 Interdisciplinary Studies. 3 points.
Fee: $75.
We will explore how films from a variety of countries—notably Germany, Poland, France, Italy and the U.S.—have attempted to grapple with the legacy of the Shoah. Through close reading of such motion pictures as THE SHOP ON MAIN STREET, THE PAWNBROKER, SEVEN BEAUTIES, PARTISANS OF VILNA, KORCZAK and GENGHIS COHN, we will discuss the possibilities and limitations of Holocaust representation onscreen.

### FILM UN3900 SENIOR SEMINAR IN FILM STUDIES. 3.00 points.
Fee: $30.
A seminar for senior film majors planning to write a research paper in film history/theory/culture. Course content changes yearly

Prerequisites: the instructor's permission. Applicants must submit a writing sample, approximately 3 pages long, to cjl2374@columbia.edu for permission to register.

Lab in Writing Film Criticism, Fall 2021 Prof. Caryn James
- This course will focus on writing fresh, original criticism, on developing an individual voice, and on creating strong arguments supporting your ideas (qualities that translate to many areas, from reviewing to pitching a film project).
- Screenings in and outside class, with an emphasis on recent films, will be followed by discussion and in-class writing exercises. How do you choose an effective critical approach? How do you make your opinions vivid and convincing on the page? We will also analyze and evaluate recent criticism. Students will write short reviews and longer essays.

Exercises. How do you make your opinions vivid and convincing on the page? We will also analyze and evaluate recent criticism. Students will write short reviews and longer essays.

Exercises. How do you make your opinions vivid and convincing on the page? We will also analyze and evaluate recent criticism. Students will write short reviews and longer essays.
FILM UN3910 Senior Seminar in Filmmaking. 3 points.
Prerequisites: FILM UN2420 or FILM UN2510
An advanced directing workshop for senior film majors who have already completed FILM UN2420 or FILM UN2510.

FILM UN3915 ADVANCED FILM PRODUCTION PRACTICE. 3.00 points.
Prerequisites: FILM UN2510 or FILM UN2520
Advanced Film Production Practice is an advanced production and lecture course for students who wish to obtain a deeper understanding of the skills involved in screenwriting, directing and producing. Building on the fundamentals established in the Labs for Fiction and Non-Fiction Filmmaking, this seminar further develops each student’s grasp of the concepts involved in filmmaking through advanced analytical and practical work to prepare Thesis film materials

FILM UN3920 SENIOR SEM IN SCREENWRITING. 3.00 points.
A seminar for senior film majors. Students will complete a step outline and minimum of 30 pages of their project, including revisions. Through reading/viewing and analyzing selected scripts/films, as well as lectures, exercises and weekly critiques, students will expand their understanding of dramatic writing and narrative-making for film and TV, including adaptations. They will learn appropriate structure for each specific screenwriting form, and endeavor to apply their understanding of drama, character, theme, and structure to their chosen narrative project

FILM UN3925 NARRATIVE STRAT-SCREENWRITING. 3.00 points.
Prerequisites: FILM UN2420.
Prerequisites: FILM W2420. This workshop is primarily a continuation of Senior Seminar in Screenwriting. Students will either continue developing the scripts they began in Senior Seminar in Screenwriting, or create new ones including a step outline and a minimum of 30 pages. Emphasis will be placed on character work, structure, theme, and employing dramatic devices. Weekly outlining and script writing, concurrent with script/story presentation and class critiques, will ensure that each student will be guided toward the completion of his or her narrative script project

FILM UN3930 The Actor’s Art: Jeanne Moreau. 3.00 points.
Study of major films in the seven-decade career of Jeanne Moreau (1928-2017), the performing artist who is widely recognized as France’s greatest actress of the post-World War II era and who has also been a pioneering female director. Topics include: the value for film criticism and history of conceptualizing the performer as a creative auteur; Moreau’s manner(s) of film acting and role realization; the risks and the productive consequences of her serving as “muse” to such male directors as Louis Malle, François Truffaut, Orson Welles, Joseph Losey, Rainer Werner Fassbinder, and Paul Mazursky, and as a creative partner to such female directors as Marguerite Duras and Josée Dayan; her embodiments and projections of sexuality and sensuality and how they differ from those of other so-called “screen love goddesses” (Brigitte Bardot, Elizabeth Taylor, Sophia Loren, Simone Signoret, Catherine Deneuve); Moreau’s own work as a director of feature-length films; the rewards and burdens of international stardom and the challenge of being expected to “represent” France and its cinema; growing old in the public eye and life-long strategies for career renewal and sustainability

FILM UN3950 SEMINAR IN MEDIA: SERIALITY. 3.00 points.
From streaming to binge-viewing, *Serial to Breaking Bad*, seriality is a preeminent framework for the orchestration of contemporary media production and consumption. This course explores histories and theories of seriality as a recurrent trope of media cultures over the last century and more. To this end, the course adopts a comparative media perspective, exploring seriality in its varied textual manifestations across diverse media forms (the penny press, early cinema, television, podcasts, and social media). It also focuses on the range of functions that seriality has performed, as, e.g., a mode for the systematization of mass cultural reproduction, as a framework for the integration of fan networks and media systems, even as a vehicle for the creation of national and political communities.

FILM UN3960 INTRO TO EXPERIMENTAL FILM # VIDEO. 3.00 points.
This course provides an overview of experimental film and video since the early 20th century European art movements (abstract, Dada, Surrealism), including the emergence of American experimental film in the 1940s, post-World War II underground experimental films, structuralist films and early video art in the 1960s and 70s, post-1960s identitarian
experimental work, the emergence of digital video in museums and online in the 1990s to the present. The course surveys and analyses a wide range of experimental work, including the artists Hans Richter, Luis Bunuel, Salvador Dali, Joseph Cornell, Maya Deren, Andy Warhol, Stan Brakhage, Michael Snow, Martha Rosler, Vito Acconci, Barbara Hammer, Su Friedrich, Julie Dash, Isaac Julien, Matthew Barney, Ryan Trecartin, and others. The course will study the structural, aesthetic and thematic links between mainstream and avant-garde cinema, theater, and art movements, and will place the films in their economic, social, and political contexts.

FILM GU4000 FILM AND MEDIA THEORY. 3.00 points.
Fee: $50.

This course offers a historical and critical overview of film and media theory from its origins up to the present.

condition—cosmopolitan/metropolitan experiences, narrative technologies, pluralist (dis-)identifications, transmedial mobility, immanent temporalities—the course will offer rich critical opportunities to make sense of contemporary bodies via moving images, and vice versa.

Theoretical/critical works read in class will include texts by Bergson, Epstein, Pierce, Deleuze, Bellour, Elsaesser, Doane, Lastra…

The course is organized around lectures/seminars and film screenings. Students are expected to participate fully by carrying out assessed readings and writing assignments, actively involve in classroom discussions/viewings, and give scheduled oral presentations.

**FILM GU4951 NEW MEDIA ART. 3.00 points.**

The rapid democratization of technology has led to a new wave of immersive storytelling that spills off screens into the real world and back again. These works defy traditional constraints as they shift away from a one-to-many to a many-to-many paradigm, transforming those formerly known as the audience from passive viewers into storytellers in their own right. New opportunities and limitations offered by emergent technologies are augmenting the grammar of storytelling, as creators wrestle with an ever-shifting digital landscape. New Media Art pulls back the curtain on transmedial works of fiction, non-fiction, and emergent forms that defy definition. Throughout the semester well explore projects that utilize Artificial Intelligence, Virtual Reality, Augmented Reality and the Internet of Things, alongside a heavy-hitting selection of new media thinkers, theorists, and critics. The course will be co-taught as a dialogue between artistic practice and new media theory. Lance Weiler, a new media artist and founder of Columbia’s Digital Storytelling Lab, selected the media artworks; Rob King, a film and media historian, selected the scholarly readings. It is in the interaction between these two perspectives that the course will explore the parameters of emerging frontiers in media art and the challenges these pose for existing critical vocabularies.

**Director of Academic Administration and Finance:** Isabelle Chagnon, 515 Philosophy; 212-854-7978; ic7@columbia.edu

The Department of French offers a major and concentration in French and Francophone Studies. Both the major and concentration provide students with an overview of French and Francophone literature, culture, and history from the Middle Ages to the present.

**MAJOR IN FRENCH AND FRANCOPHONE STUDIES**

The major in French and Francophone Studies provides an interdisciplinary framework for the study of the history, literature, and culture of France and parts of the world in which French is an important medium of culture. Students explore the history and contemporary applications of concepts such as citizenship, national unity, secularism, and human rights, and explore central issues including universalism/relativism, tradition/modernity, and religion/state as they have developed in France and its colonies/former colonies since the 18th century.

Students take a series of required courses that includes:

- FREN UN3405 ADVANCED GRAMMAR AND COMPOSITION;
- FREN UN3409 INTRO TO FRENCH AND FRANCOPHONE HISTORY;
- FREN UN3410 INTRO TO FRENCH AND FRANCOPHONE LITERATURE;
- FREN UN3995 SENIOR SEMINAR.

Students also take advanced electives (at the 3000 or 4000 level) on French and francophone literature, culture, and history. A senior thesis is optional but encouraged.

**IN FULFILLMENT OF THE LANGUAGE REQUIREMENT**

Students beginning the study of French at Columbia must take four terms of the following two-year sequence: FREN UN1101-UN1102 Elementary French I & II, and FREN UN2101-UN2102 Intermediate French I & II.

Entering students are placed, or exempted, on the basis of their College Board Achievement or Advanced Placement scores, or their scores on the placement test taken online: FRENCH PLACEMENT TEST. An SAT score of 780 or a score of 5 on the AP exam satisfies the language requirement. Students with a score of 4 on the AP exam will be placed in Intermediate II, but may attempt to place out by requesting to take an oral exam administered by the Director of the Language Program.

Please note: The Barnard course, FREN BC1204 Intermediate II does not fulfill the undergraduate language requirement.
Language Proficiency Courses

Elementary and intermediate French courses help students develop an active command of the language. In FREN UN1101 ELEMENTARY FRENCH I and FREN UN1102 ELEMENTARY FRENCH II, the communicative approach is the main instructional method. In addition to practicing all four language skills—listening, speaking, reading, and writing—students are introduced to the cultural features of diverse French-speaking communities.

In intermediate courses FREN UN2101 INTERMEDIATE FRENCH I and FREN UN2102 INTERMEDIATE FRENCH II, students develop linguistic competence through the study of short stories, films, novels, and plays. After completing the four-semester language sequence, students can discuss and write in fairly proficient French on complex topics.

At the third-year level, attention is focused on more sophisticated use of language, in grammar and composition courses, and on literary, historical, and philosophical questions.

Conversation Courses

Students looking for intensive French oral practice may take some of the 2-point conversation courses offered at intermediate and advanced levels. Conversation courses generally may not be counted toward the major or concentration.

Advanced Placement

- AP score of 4 automatically places a student in French Intermediate II, thereby granting them the equivalency of the first 3 courses of the elementary-intermediate sequence.
- AP score of 5 or DELF: The department grants 3 credits for a score of 5 on the AP French Language exam, or for the completion of DELF (Diplôme d’Etudes en Langue Française). Students are awarded this credit only after they take a 3000-level French course (taught in French, for at least 3 points) and obtain a grade of B or above in that course.
- DALF C1 level or IB HL score of 6 or 7: The department grants 3 credits for the C1 level of DALF (Diplôme Approfondi de Langue Française), or for a score of 6 or 7 on the International Baccalaureate (IB) Higher Level (HL) exam. Students have no obligation to take higher-level French courses in order to receive these 3 credits, but restrictions apply on the use of these credits toward the French major.

Language Laboratory and On-line Materials

Language laboratories located in the International Affairs Building provide opportunities for intensive practice in French pronunciation and aural comprehension. French courses typically make extensive use of on-line interactive materials that students can access from their own computers.

MAISON FRANÇAISE

Students interested in French should acquaint themselves with the Maison Française, which houses a reading room of French newspapers, periodicals, books, and videos, and sponsors lectures/discussions andaby distinguished French visitors to New York City. With its weekly French film series as well as, book club, café-conversation. Another opportunity to practice French, discover new aspects of Francophone culture, and learn about internships and professional opportunities is the French Cultural Society. For information about the FCS, contact the departmental liaison, Dr. Laurence Marie. and other events, the Maison Française offers an excellent opportunity for students to perfect their language skills and enhance their knowledge of French and Francophone culture.

STUDY ABROAD

Because a direct experience of contemporary French society is an important essential part of the program, majors and concentrators are strongly encouraged to spend either a semester or a year at Reid Hall-Columbia University in Paris, or at another French or Francophone university. During their time abroad, students take courses credited toward the major and, in some cases, also toward other majors (e.g. history, art history, political science) and the global core.

For information on study abroad, visit the OGP website at www.ogp.columbia.edu, call 212-854-2559, or e-mail studyabroad@columbia.edu. For a list of approved study abroad programs, visit http://www.ogp.columbia.edu/index.cfm?FuseAction=Programs.ListAll.

Summer Study in Paris

Study abroad opportunities at Reid Hall are also available during the summer. These include language and culture courses, global core electives and a combined course that meets both Columbia’s ArtHum and MusicHum requirements.

For information about study abroad, visit https://global.undergrad.columbia.edu/studyabroad.

GRADING

Students who wish to use toward the major or concentration a course in which a grade of D has been received must consult with the director of undergraduate studies.

DEPARTMENTAL HONORS

Majors who wish to be considered for departmental honors should consult with the director of undergraduate studies. To be eligible for departmental honorse, students must have a grade point average of at least 3.7 in major courses and have completed an approved senior thesis under the guidance of a faculty member at Columbia or Reid Hall. Normally no more
than 10% of graduating majors receive departmental honors in a given academic year.

**Undergraduate Prizes**

The Department of French awards the following prizes to students enrolled in courses in the department:

1. Prize for Excellence in French Studies: awarded to a highly promising student in an intermediate or advanced French course;

2. Senior French Prize: awarded to an outstanding graduating major.

**Professors**

- Madeleine Dobie
- Antoine Compagnon
- Souleymane Bachir Diagne
- Pierre Force
- Elisabeth Ladenson
- Camille Robcis
- Emmanuelle Saada
- Joanna Stalnaker

**Associate Professors**

- Peter Connor (Barnard)
- Eliza Zingesser

**Assistant Professors**

- Thomas Dodman
- Aubrey Gabel

**Senior Lecturers**

- Heidi Holst-Knudsen
- Pascale Hubert-Leibler
- Sophie Queuniet

**Lecturers**

- Alexandra Borer
- Pascale Crépon
- Samuel Skippon
- Eric Matheis
- Laurence Marie

**Major in French and Francophone Studies**

The requirements for this program were modified on December 18, 2021. Students who declared this program before this date should contact the Director of Undergraduate Studies for the department in order to confirm their correct course of study.

The program of study should be planned before the end of the sophomore year with the director of undergraduate studies.

The major in French and Francophone Studies requires a minimum of 30 points beyond completion of the language requirement (FREN UN2102 Intermediate Course II) (or advanced placement), distributed as follows:

- **FREN UN3405** THIRD-YEAR GRAMMAR # COMP
- **FREN UN3409** INTRO TO FRENCH # FRANCOPHONE HISTORY
- **FREN UN3410** Intro French # Francophone Literature
- **FREN UN3995** SENIOR SEMINAR

Select one upper level course (3000 or 4000 level) on literature before 1800

The remaining 5 courses (15 points) are to be chosen from 3000 or 4000 level courses in French Literature, Culture, or History

Two of the following advanced Language classes can be counted as an elective: French for diplomats, FREN UN324X, Advanced Translation Workshop

Note the following:

- **FREN BC3006** Composition and Conversation is not applicable to either the French and Francophone Studies major or the concentration. Other Barnard French courses may be taken with the approval of the Director of undergraduate studies;

- Heritage speakers are exempted from **FREN UN3405** ADVANCED GRAMMAR # COMP, but must replace the course by taking an advanced elective.

The following Columbia French courses are not applicable to the French and Francophone Studies major or concentration:

Concentration in French and Francophone Studies

The concentration in French and Francophone Studies requires a minimum of 24 points beyond completion of the language requirement (FREN UN2102 Intermediate Course II), distributed as follows:

- FREN UN3405 Third-Year Grammar # Comp
- FREN UN3409 Intro to French # Francophone History
- FREN UN3410 Intro French # Francophone Literature
- FREN UN3995 Senior Seminar

The remaining four courses (12 points) are to be chosen from 3000- or 4000-level offerings in French literature, culture, or history.

One of the following advanced language classes can be counted as an elective: French for Diplomats; French Culture, Language and Society through ... (FREN UN324X); Advanced Translation Workshop.

Note the following:
FREN BC3006 Composition and Conversation is not applicable to either the French major or the concentration. Other Barnard French courses may be taken with the approval of the director of undergraduate studies; Heritage speakers are exempted from FREN UN3405 Third-Year Grammar # Comp, but must replace the course by taking an advanced elective.

Major in French

The major in French requires a minimum of 33 points beyond completion of the language requirement (FREN UN2102 Intermediate Course II), distributed as follows:

- FREN UN3405 Third-Year Grammar # Comp
- FREN UN3333 - FREN UN3334 Intro to Literary Studies I and Intro to Literary Studies II
- FREN UN3600 Intro to French Civilization
- FREN UN3995 Senior Seminar

Select one upper-level course on literature before 1800.
Select one course in area of Francophone literature or culture, i.e., bearing on practices of French outside of France or on internal cultural diversity of France.

The following Columbia French courses are not applicable to the French major or concentration:

- FREN UN1101 Elementary French I
- FREN UN1102 Elementary French II
- FREN UN1105 Accelerated Elem French
- FREN UN2101 Intermediate French I
- FREN UN2102 Intermediate French II
- FREN UN2106 Rapid Reading and Translation
- FREN UN2121 Intermediate Conversatn French I
- FREN UN2122 Intermediate Conversatn French II
- FREN UN3131 Third-Year Conversation FR I
- FREN UN3132 Third-Year Conversation FR II

Concentration in French

The concentration in French requires a minimum of 24 points beyond completion of the language requirement (FREN UN2102 Intermediate Course II), distributed as follows:

- FREN UN3405 Third-Year Grammar # Comp
- FREN UN3333 - FREN UN3334 Intro to Literary Studies I and Intro to Literary Studies II
- FREN UN3600 Intro to French Civilization

The remaining four courses (12 points) are to be chosen from 3000-level offerings in French literature, linguistics, or civilization.

One of the following advanced language classes can be counted as an elective: French for Diplomats; French Culture, Language and Society through ...; Advanced Translation Workshop; and The Cultural Workshop.
**LANGUAGE**

**FREN UN1101 ELEMENTARY FRENCH I. 4.00 points.**

The aim of the beginning French sequence (French 1101 and French 1102) is to help you to develop an active command of the language. Emphasis is placed on acquiring the four language skills—listening, speaking, reading and writing—within a cultural context, in order to achieve basic communicative proficiency.

**FREN UN1105 ACCELERATED ELEM FRENCH. 8.00 points.**

Prerequisites: The instructor's permission

Prerequisites: The instructor's permission

This course covers in one semester the material normally presented in Elementary French I and II. This course is especially recommended for students who already know another Romance language.

514
FREN UN2101 INTERMEDIATE FRENCH I. 4.00 points.

This course will further your awareness and understanding of the French language, culture, and literature, provide a comprehensive review of fundamental grammar points while introducing more advanced ones, as well as improve your mastery of oral, reading, and writing skills. By the end of the course, you will be able to read short to medium-length literary and non-literary texts, and analyze and comment on varied documents and topics, both orally and in writing.

FREN UN3405 THIRD-YEAR GRAMMAR # COMP. 3.00 points.
Enrollment limited to 15.

Prerequisites: FREN UN3405 must be taken before FREN UN3333/4 unless the student has an AP score of 5 or the director of undergraduate studies’ permission. Prerequisites: FREN UN3405 must be taken before FREN UN3333/4 unless the student has an AP score of 5 or the director of undergraduate studies permission. The goal of FREN UN3405 is to help students improve their grammar and perfect their writing and reading skills, especially as a preparation for taking literature or civilization courses, or spending a semester in a francophone country. Through the study of two full-length works of literature and a number of short texts representative of different genres, periods, and styles, they will become more aware of stylistic nuances, and will be introduced to the vocabulary and methods of literary analysis. Working on the advanced grammar points covered in this course will further strengthen their mastery of French syntax. They will also be practicing writing through a variety of exercises, including pastiches and creative pieces, as well as typically French forms of academic writing such as “résumé,” “explication de texte,” and “dissertation.”

FREN UN3242 FREN LANG, SOC, CULTRE THRU PARIS. 3.00 points.
Prerequisites: 2 years of college French
Prerequisites: 2 years of college French Paris may be referred to as the capital of modernity, as the city of romance and pleasure, as the center of social and political powers, or as a privileged stage for crises and revolutions. Analyzing and researching the meanings of these diverse representations would expose students to key aspects of French and Francophone political, social, and cultural history. This is a proposal for a course intended for students who, having completed their language requirement in French, would like to better their knowledge of French language and society. It would offer students the opportunity to study representations of Paris over the centuries as a way to practice writing, reading, and conversation in French and as a way to deepen their understanding of French and Francophone cultures. Materials for the course would include major literary texts as well as paintings, movies and popular songs, but also museum websites, local newspapers and local ads, brochures from retail and food malls, restaurant menus, postcards... such variety can be utilitarian and intellectually compelling at the same time. It would allow students not only to study language registers and vocabulary contextualization but also work on finding patterns and making connections.

FREN UN3244 FRENCH THRU CURRENT EVENTS. 3.00 points.
The course will offer students an understanding of fundamental underlying concepts that structure French society and that are necessary to grasp if one wants to follow current events in France. This course could be of interest not only to CC students but also to students enrolled at SIPA or Teacher’s College. Moreover, this course would allow for a comparative approach to how same events are covered in US, or other foreign media, and in France. Given that this course will deal with current events, the readings will depend entirely on how the news unfolds. Students will be given an introduction to the various media outlets available to them: the press, television and online sources. As the course unfolds, I will adapt the choice of sources that best follow events as they happen. 2022 for example, will be the year France assumes the presidency of the European Union. It will also be the year of the presidential elections. For such events, I will propose specific institutional sources. On the other hand, events that could not be anticipated will require some form of guidance in terms of sources. In spite of the obvious unpredictability of the specific content of this course, certain key concepts necessary to understand current events in France will be presented. These may vary slightly from one semester to another, but would include, without being limited to: the structure of government and public institutions, political parties, unions and “associations”, social benefits and “the welfare state”, public vs. private sector, “Paris is France”, universalism, secularism and “laïcité”, cultural exceptionalism, the figure of the intellectual, national identity, immigration, geography of France and demographics, relation to Europe, geopolitics, globalization and sovereignty. Of course, the choice of themes and concepts in a given semester would be influenced by dominant topics in the French news.

FREN UN3243 Lang. Culture, Society: La culture pop. 3.00 points.
The host of the daily radio show Popopop on the public radio France Inter routinely introduces his guests by asking them “what is pop culture?”/“qu’est ce que la culture pop?” The answers are at least as diverse as the guests’ cultural, social, and
generational backgrounds. Keeping the complexity and variety of the possible answers to this question in mind, students in this class will be introduced to French pop culture or La culture pop française both in its specificity and in contrast to American pop culture. In this French language class, critical thinking applied to mass media such as music, movies, ads, and newspapers, as well as literature ranging from les BD (comics and graphic novels) to les polars (detective fiction), and as well as to Social Media (blogs, podcasts, influencers, etc.) will enable students to better grasp some of the forces shaping culture in French society, equipping them with knowledge and concepts that are helpful to understanding dominant cultural trends and their impact on contemporary French Society. Exposing students to such a wide variety of materials will be intellectually compelling and will also expose them to a variety of language registers.

LITERATURE AND CULTURE

FREN UN3503 Enlightenment/Counter-Enlightenment. 3 points.

Prerequisites: completion of FREN UN3333 or UN3334 and UN3405, or the director of undergraduate studies’ permission. Taking modern definitions and critiques of Enlightenment as its starting point, this course will look at how the Enlightenment defined itself as a philosophical, cultural and literary movement, practiced self-criticism from within, and responded to dissension and critique from without. Authors will include Adorno, Horkheimer, Foucault and Israel for the modern critical context, and Voltaire, Diderot, Buffon, Rousseau, Sade and Kant for the eighteenth century material. The course will be given in French, but non-majors may write papers in English. This course fulfills the French Major requirement for a course on literature before 1800.

FREN W3515 Writing the Self Workshop. 3 points.

Corequisites: FREN W3333-FREN W3334 or equivalent, or the director of undergraduate studies’ permission. In this course, we will read works spanning the history of French literature from the Renaissance to the present in which the problem of writing the self is posed. We will also engage in various writing exercises (pastiche, translation, personal narrative) and discuss the works on the syllabus in conjunction with our own attempts to write the self. Authors will include Montaigne, Rousseau, Roland, Sand, Colette, Barthes, Modiano, and Ndaiye. This course fulfills the pre-1800 requirement.

FREN UN3517 Montaigne, Descartes, Pascal. 3 points.

Prerequisites: FREN UN3333-UN3334 or the director of undergraduate studies’ or the instructor’s permission.

A study of Montaigne’s Essais and their rewriting by Descartes and Pascal, with a focus on the nature of intellectual and aesthetic innovation in a humanist context.

FREN UN3600 INTRO TO FRENCH CIVILIZATION.

3.00 points.

Prerequisites: FREN UN3333 or UN3334 and UN3405, or the director of undergraduate studies' permission. Prerequisites: FREN UN3333 or UN3334 and UN3405, or the director of undergraduate studies permission. Based on readings of short historical sources, the course will provide an overview of French political and cultural history since 1700.

FREN W3666 Moliere. 3 points.

Prerequisites: completion of FREN W3333 or W3334 and W3405, or the director of undergraduate studies’ permission. Study of Molière’s major plays, including Tartuffe, Dom Juan, and Le Misanthrope, focusing on key concepts such as naturalness and convention, value and exchange, and the relationship between ethics and comedy. Special attention will be paid to the connections between critical approaches of the text and the various ways in which the plays can be staged.

FREN W3714 1914-2014 : un siecle de litteratures en francais. 3 points.

Not offered during 2022-23 academic year.

Prerequisites: completion of FREN W3333 or W3334 and W3405, or the director of undergraduate studies’ permission. This class is intended as a survey course on French literatures in the past 100 years. It will consider all major moments and movements of literature in French in the 20th century (surrealism, existentialism, negritude, Nouveau Roman...) until and including some of the most remarkable literary creations of the early 21st century. The course is taught in French and the readings will be in French.

FREN W3766 Transcribing/Writing Tales in Africa. 3 points.

Not offered during 2022-23 academic year.

Prerequisites: FREN W3333-FREN W3334 or the director of undergraduate studies' or the instructor's permission. The students are required to be able to read and discuss tales in French. Transcribing, adapting, rewriting, reinventing in the French language African oral tales is an important literary genre in African francophone literature. The works of authors such as Amadou Hampâté Bâ from Mali, Bernard Dadié from Côte d'Ivoire and Birago Diop from Senegal are among the classics of that genre. The course is a study of a certain number of "tales" written with talent and humor by Bâ, Dadié and Diop; they are from the following books: Il n’y a pas de petite querelle (Bâ), Le pagne noir (Dadié), Les contes d’Amadou Koumbar, and Les nouveaux contes d’Amadou Koumba (Diop). This course is intended primarily for undergraduate students interested in French and in Francophone Studies majors,
concentrators, and those who speak French and want to study an important aspect of literature in French.

FREN W3726 Sex, Class and Shame in 20th-21st Century French Literature. 3 points.
Prerequisites: Prerequisites: completion of FREN W3333 or W3334 and W3405, or the director of undergraduate studies' permission.
The second half of the twentieth century in France saw a sudden explosion of literary works examining, with unprecedented explicitness, sexuality and social class and the relations between them. This course will provide an introduction to the literature of sexual and social abjection, beginning with Genet and Violet and Leduc and including works by Annie Ernaux, Christine Angot, Virginie Despentes, and Edouard Louis. We will also consider relevant sociological writings by Bourdieu, Eribon, and Goffman. Readings and discussion will be in French.

CLFR UN3830 French Film. 3 points.
A study of landmarks of French cinema from its origins to the 1970s. We will pay particular attention to the relation between cinema and social and political events in France. We will study films by Jean Vigo, Jean Renoir, Rene Clair, Alain Resnais, Francois Truffaut and Jean-Luc Godard. In English.

FREN UN3409 INTRO TO FRENCH # FRANCOPHONE HISTORY. 3.00 points.
This class provides an introduction to the history of France and of the francophone world since the Middle Ages. It initiates students to the major events and themes that have shaped politics, society, and culture in France and its former colonies, paying special attention to questions of identity and diversity in a national and imperial context. Modules include a combination of lecture and seminar-style discussion of documents (in French). This course is part of a two-course sequence and is a core requirement the French and Francophone Studies major.

FREN UN3410 Intro French # Francophone Literature. 3.00 points.
This class offers a survey of major works of French and francophone literature from the Middle Ages to the present. Emphasis will be placed on formal and stylistic elements of the works read and on developing the critical skills necessary for literary analysis. Works will be placed in their historical context.

FREN UN3410 001/10497 T Th 2:40pm - 3:55pm 603 Hamilton Hall

SENIOR SEMINAR AND SENIOR THESIS
FREN UN3995 SENIOR SEMINAR. 3.00 points.
Prerequisites: completion of either FREN UN3333-FREN UN3334 or FREN UN3420-FREN UN3421, and FREN UN3405, or the director of undergraduate studies' or the instructor's permission.
Prerequisites: completion of either FREN UN3333-FREN UN3334 or FREN UN3420-FREN UN3421, and FREN UN3405, or the director of undergraduate studies’ or the instructor's permission. Required of all French and French # Francophone Studies majors. Usually taken by juniors during the fall term of their senior year. Critical discussion of a few major literary works along with some classic commentaries on those works. Students critically assess and practice diverse methods of literary analysis.

Fall 2022: FREN UN3995
Course Number Section/Call Number Times/Location Instructor Points Enrollment
FREN 3995 001/10495 T 4:10pm - 6:00pm 507 Philosophy Hall Compagnon 3.00 6/20

FREN UN3996 SENIOR TUTORIAL IN LITERATURE. 3.00 points.
Prerequisites: the director of undergraduate studies permission. Required for majors wishing to be considered for departmental honors. This course may also be taken at Reid Hall. Recommended for seniors majoring or concentrating in French and open to other qualified students. Preparation of a senior essay. In consultation with a staff member designated by the director of undergraduate studies, the student develops a topic within the areas of French language, literature, or intellectual history.

Germanic Languages

Departmental Office: 415 Hamilton; 212-854-3202
https://germanic.columbia.edu/

Director of Undergraduate Studies: Prof. Annie Pfeifer, 409 Hamilton; 212-854-8986; ap750@columbia.edu

Language Instruction: Jutta Schmiers-Heller, 403A Hamilton; 212-854-4824; js2331@columbia.edu

The Department of Germanic Languages and Literatures is considered one of the very best in the country. Many of the faculty specialize in the study of German literature and culture from 1700 to the present. German majors acquire proficiency in examining literary, philosophical, and historical texts in the original, as well as critical understanding of modern German culture and society. Particular attention is given to German-speaking traditions within larger European and global contexts. Courses taught in translation build on Columbia’s Core Curriculum, thereby allowing students to enroll in upper-level seminars before completing the language requirement.

All classes are taught as part of a living culture. Students have ample opportunities to study abroad, to work with visiting scholars, and to take part in the cultural programs at Deutsches Haus. In addition, the department encourages internships with German firms, museums, and government offices. This hands-on experience immerses students in both language and culture, preparing them for graduate study and professional careers.

Upon graduation, German majors compete successfully for Fulbright or DAAD scholarships for research in Germany or Austria beyond the B.A. degree. Our graduating seniors are highly qualified to pursue graduate studies in the humanities and social sciences, as well as professional careers. Former majors and concentrators have gone on to careers in teaching, law, journalism, banking and consulting, international affairs, and communications.

German literature and culture courses are taught as seminars integrating philosophical and social questions. Topics include romanticism, revolution, and national identity; German intellectual history; minority literatures; Weimar cinema; German-Jewish culture and modernity; the Holocaust and memory; and the history and culture of Berlin. Classes are small, with enrollment ranging from 5 to 15 students.

The department regularly offers courses in German literature and culture in English for students who do not study the German language. The department also participates in Columbia’s excellent program in comparative literature and society.

Advanced Placement

The department grants 3 credits for a score of 5 on the AP German Language exam, which satisfies the foreign language requirement. Credit is awarded upon successful completion of a 3000-level (or higher) course with a grade of B or higher. This course must be for at least 3 points of credit and be taught in German. Courses taught in English may not be used for language AP credit. The department grants 0 credits for a score of 4 on the AP German Language exam, but the foreign language requirement is satisfied.

The Yiddish Studies Program

The Yiddish Studies Program at Columbia University, the global leader in Yiddish scholarship and teaching, focuses on the experiences and cultural efflorescence of Ashkenazic Jewry over a thousand years and five continents. It is a perfect exemplar of Columbia’s interests in global and transnational study, weaving together language, literature, and culture in a way that echoes the best of Columbia’s justly famed humanities programs.

The program in Yiddish studies offers both the undergraduate Major and Concentration, in addition to graduate studies leading to the Ph.D. In both the undergraduate and graduate program, emphasis is placed not merely on acquiring linguistic proficiency and textual study, but also viewing Yiddish literature in a larger cultural and interdisciplinary context. The graduate program, the only degree-granting Yiddish Studies Program in the United States, is considered one of the world’s most important, with its graduates holding many of the major university positions in the field.

Students of Yiddish have ample opportunities to enhance their studies through a number of fellowships. The Naomi Fellowship, a fully-subsidized Yiddish Study Abroad program allows students to explore Yiddish culture and history in Israel and Poland. The Irene Kronhill Pletka YIVO Fellowship enables students to expand on their archival research skills in New York. Upon graduation, our majors compete successfully for Fulbright and other prestigious scholarships, and are highly qualified to pursue careers in humanities, social sciences, as well as artistic and professional careers.

Students work with faculty in Germanic languages, Jewish studies, history, and Slavic studies to broaden their understanding of the literature, language, and culture of Eastern European Jewry. The Yiddish Studies Program is also closely affiliated with the Institute for Israel and Jewish Studies, which offers diverse programming and other fellowship opportunities. Classes are small, and instruction is individualized and carefully directed to ensure that students gain both a thorough general grounding and are able to pursue their own particular interests in a wide-spanning field. The program also offers classes taught in translation for students who do not study Yiddish. The Yiddish programming, such as lectures, monthly conversation hours, Meet a Yiddish Celebrity series, as well as the activities of the Yiddish Club of Columbia’s Barnard/Hillel allows students to explore Yiddish culture outside the classroom.
The German Language Placement Exam

The German Language Placement exam is offered periodically to those students who already speak the language, in order to determine their proficiency level (A, B or C). For more information, and for the latest exam dates, please click here.

The German Language Program

First- and second-year German language courses emphasize spoken and written communication, and provide a basic introduction to German culture. Goals include mastery of the structure of the language and enough cultural understanding to interact comfortably with native speakers.

After successfully completing the elementary German sequence, GERM UN1101 ELEMENTARY GERMAN I-GERM UN1102 ELEMENTARY GERMAN II, students are able to provide information about themselves, their interests, and daily activities. They can participate in simple conversations, read edited texts, and understand the main ideas of authentic texts. By the end of GERM UN1102 ELEMENTARY GERMAN II, students are able to write descriptions, comparisons, and creative stories, and to discuss general information about the German-speaking countries.

The intermediate German sequence, GERM UN2101 INTERMEDIATE GERMAN I-GERM UN2102 INTERMEDIATE GERMAN II, increases the emphasis on reading and written communication skills, expands grammatical mastery, and focuses on German culture and literary texts. Students read short stories, a German drama, and increasingly complex texts. Regular exposure to video, recordings, the World Wide Web, and art exhibits heightens the cultural dimensions of the third and fourth semesters. Students create portfolios comprised of written and spoken work.

Upon completion of the second-year sequence, students are prepared to enter advanced courses in German language, culture, and literature at Columbia and/or at the Berlin Consortium for German Studies in Berlin. Advanced-level courses focus on more sophisticated use of the language structure and composition (GERM UN3001 ADVANCED GERMAN I-GERM UN3002 ADVANCED GERMAN II); on specific cultural areas; and on literary, historical, and philosophical areas in literature-oriented courses (GERM UN3333 INTRO TO GERMAN LIT (GERMAN)).

In Fulfillment of the Language Requirement in German

Students beginning the study of German at Columbia must take four terms of the following two-year sequence:

- GERM UN1101 ELEMENTARY GERMAN I
- GERM UN1102 ELEMENTARY GERMAN II
- GERM UN2101 INTERMEDIATE GERMAN I
- GERM UN2102 INTERMEDIATE GERMAN II

Entering students are placed, or exempted, on the basis of their College Board Achievement or Advanced Placement scores, or their scores on the placement test administered by the departmental language director. Students who need to take GERM UN1101 ELEMENTARY GERMAN I-GERM UN1102 ELEMENTARY GERMAN II may take GERM UN1125 Accelerated Elementary German I & II as preparation for GERM UN2101 INTERMEDIATE GERMAN I.

University Study in Berlin

The Berlin Consortium for German Studies provides students with a study abroad program, administered by Columbia, which includes students from the other consortium member schools (Princeton, Yale, University of Pennsylvania, Johns Hopkins, and the University of Chicago). Under the guidance of a senior faculty member, the program offers a home stay with a German family, intensive language instruction, and study in regular German university courses at the Freie Universität Berlin.

For additional information on the Berlin Consortium, see the Study Abroad—Sponsored Programs section in this Bulletin, visit the Center for Undergraduate Global Engagement, or consult the program’s office in 606 Kent Hall; 212-854-2559; berlin@columbia.edu.

Deutsches Haus

Deutsches Haus, 420 West 116th Street, provides a center for German cultural activities on the Columbia campus. It sponsors lectures, film series, and informal gatherings that enrich the academic programs of the department. Frequent events throughout the fall and spring terms offer students opportunities to practice their language skills.

Grading

Courses in which a grade of D has been received do not count toward the major or concentration requirements.

Departmental Honors

Normally no more than 10% of graduating majors receive departmental honors in a given academic year. For the requirements for departmental honors, see the director of undergraduate studies.

Professors

Mark Anderson (on leave, Fall 2022)
Stefan Andriopoulos (on leave, AY2022-2023)
Claudia Breger (Chair)
Jeremy Dauber (on leave, AY2022-2023)

Annie Pfeifer
Oliver Simons

**SENIOR LECTURERS**
Wijnie de Groot (Dutch)
Jutta Schniers-Heller (German)

**LECTURERS**
Agnieszka Legutko (Yiddish)
Simona Vaidean (German)

**MAJOR IN GERMAN LITERATURE AND CULTURAL HISTORY**
The goal of the major is to provide students with reasonable proficiency in reading a variety of literary, philosophical, and historical texts in the original and, through this training, to facilitate a critical understanding of modern German-speaking cultures and societies. Students should plan their program of study with the director of undergraduate studies as early as possible. Competence in a second foreign language is strongly recommended, especially for those students planning to attend graduate school.

The major in German literature and cultural history requires a minimum of 30 points, distributed as follows:

<table>

</tr>
</tbody>
</table>

**Senior Thesis**
A senior thesis is not required for the major. Students interested in a senior thesis or research project may do so through independent study with a faculty member over one or two semesters.

**MAJOR IN YIDDISH STUDIES**
The program is designed as a combination of language and content courses. First- and second-year Yiddish language courses emphasize spoken and written communication, and provide a basic introduction to Eastern European Jewish culture. Goals include mastery of the structure of the language and enough cultural understanding to interact comfortably with native speakers.

After second-year Yiddish language courses are completed, students should feel sufficiently comfortable to begin to work with Yiddish literature in the original. Upper-level undergraduate/graduate courses are designed to accommodate students with a range of Yiddish language experience, and intensive language summer study abroad, such as the Naomi Prawer Kadar International Yiddish Summer Program (the Yiddish Studies program at Columbia offers the fully-subsidized Naomi Fellowship for students of Yiddish), or other academic summer programs, is also encouraged for improvement in language acquisition and comprehension.

The goal is to provide students with reasonable proficiency in reading a variety of literary, philosophical, and historical texts in the original and, through this training, to provide them with a critical understanding of Yiddish-speaking culture and society.

The second pillar of the Yiddish program is an intimate exposure to the literature and culture of the Yiddish-speaking Jewry. That exposure is achieved through several courses in Yiddish literature, which, although they may cover a variety of subjects or proceed from a number of methodological and disciplinary orientations, share a rigorous commitment to analyzing and experiencing that literature within an overarching historical and cultural framework.

These courses in Yiddish literature, culture and Jewish history will provide students with a solid interdisciplinary foundation in Yiddish studies. Inevitably and necessary, these courses, whether taught in Yiddish, English, or in a combination of the Yiddish text and English language instruction – cover the sweep of Yiddish literary history from the early modern period to today.

Students should plan their program of study with the director of undergraduate studies as early as possible. There is a prerequisite of two years of Yiddish, or equivalent to be demonstrated through testing.

The Major in Yiddish Studies requires a minimum of 30 points, distributed as follows:

1. **Two courses of advanced language study** (6 points); YIDD UN3101, YIDD UN3102
2. **Three courses in Yiddish literature** (9 points); e.g. YIDD UN3500, YIDD GU4420

3. **At least one course related to a senior thesis** (3 points);

4. **Four related courses, at least one of which is in medieval or modern Jewish history** (12 points); e.g. HIST UN4604, YIDD GU4113.

A senior thesis is required for the Major in Yiddish Studies. Students interested in a senior thesis or research project may do so through independent study with a faculty member over one or two semesters. Students must conduct original research, some of which must take place in the Yiddish language, and are required to submit a culminating paper, of no less than 35 pages.

Elective courses: Elective courses can be taken at Columbia as well as at affiliated institutions such as the Jewish Theological Seminary, Barnard College, New York University, etc. Columbia’s arrangements with the joint degree appointing program at JTS, i.e. JTS and GS Joint program with List College, offers students exposure to a wide variety of courses on Yiddish and Yiddish-related topics taught by experts in the field of Yiddish and comparative Jewish literature such as Profs. David Roskies and Barbara Mann.

Thanks to the consortial arrangements with other universities in the New York area (Barnard, NYU, Yale, Penn, etc.) students both in Columbia College and General Studies, can take courses at these institutions for degree credit, which allows for student exposure to experts in twentieth-century Soviet Yiddish literature, Yiddish women’s writing, Yiddish literature in Israel, and much more (Profs. Gennady Estraikh, Kathryn Hellerstein, and Hannan Hever). These arrangements allow students to have, if they so choose, an even broader intellectual experience than the already broad interdisciplinary opportunities available to them via the courses offered by the faculty on the Interdisciplinary Committee on Yiddish at Columbia.

Language courses need to be taken at Columbia.

Honors options: Departmental Honors in Yiddish Studies can be granted to a total of 10% of the students graduating with the Major in Yiddish Studies in a given year across both Columbia College and General Studies.

### CONCENTRATION IN YIDDISH STUDIES

The concentration in Yiddish studies requires a minimum of 21 points, distributed as follows:

1. **Two courses of advanced language study** (6 points); YIDD UN3101, YIDD UN3102
2. **Two courses in Yiddish literature** (6 points); e.g. YIDD UN3500, YIDD GU4420
3. **Three related courses, at least one of which is in medieval or modern Jewish history** (9 points); e.g. HIST UN4604, YIDD GU4113.

### SPECIAL CONCENTRATION IN GERMAN FOR COLUMBIA COLLEGE AND SCHOOL OF GENERAL STUDIES STUDENTS IN STEM FIELDS

The special concentration in German requires a minimum of 15 points.

COMPARATIVE LITERATURE-GERMAN

CLGR UN3000 Grimms' Fairy Tales: Power, Gender # Narrative. 3.00 points.

Although the first volume of the Grimms’ Children Stories and Household Tales was published more than 200 years ago, their fairy tales continue to enchant readers. In this course we will not only study the Grimms’ fairy tales themselves, but also examine their origins and their social, ideological, and political contexts in 19th-century Europe. We will work with fairy tale theory (narrative, psychoanalytic, historical) and discuss the function of the tales as folklore as well as their status as children’s literature. Alongside the “original” Grimms’ tales—a concept that we will discuss—a major portion of the course will engage the legacy of the fairy tales and the way they have been appropriated by others, particularly from a critical, feminist perspective. Points of emphasis will include: how writers in the first half of the 20th century politicized the tales in the battle for social change during the time of the Weimar Republic and Nazi Germany; how the tales were reinterpreted in different national traditions and historical periods; how the fairy tale become a mass culture icon in Disney’s film versions; and how contemporary writers like Margaret Atwood continue to employ tales in questioning and challenging traditional constructions of gender.

CLGR GU4130 LIT THRY: NIETZSCHE-AGAMBEN(ENG). 3.00 points.

A survey of the most influential literary theories of the twentieth century, this seminar will discuss seminal contributions to hermeneutics, psychoanalysis, structuralism, deconstruction, discourse analysis, and gender theory. Each section will juxtapose two representative authors whose texts either complement or contradict one another. Based on close readings of exemplary texts, we will explore basic concepts of these theories and examine their intersections and differences. A second focal point of the seminar will be on applications of theory to literature. We will analyze their reformulation as methodologies in literary studies and discuss how they influenced different approaches to literature. The aim of the seminar will ultimately be to scrutinize critically these “applications” of theory to literature. Readings and discussions in English. No prior knowledge of literary theories required.

CLGR GU4270 PARADIGMS OF THE EURO NOVEL. 3.00 points.

In the wealth of plots, characters, settings, descriptive details and narrative strategies it has generated over the course of three centuries, the European novel has proved to be one of the most inventive and resilient forms of Western literature. Nonetheless, certain paradigms have predominated from the beginning, two of which will form the center of this course: 1) the illusion of a "true," that is historically grounded story, and 2) the bourgeois family as an organizing narrative principle. This course will analyze seven strikingly diverse European novels from Spain, England, France and Austria in order to show the continuity through variation of these two paradigms. Students will read some of the major theorists of the novel (Auerbach, Watt, Bakhtin, Moretti), but the emphasis will be on developing a theory based on the novels themselves. All readings and discussions in English, though reference will frequently be made to the particular linguistic and historical circumstances of the original texts. Students will write weekly response papers to the literary and critical texts, do one in-class presentation, and write a final paper of 15 to 20 pages.

**DTCH UN3101 ADVANCED DUTCH I. 3.00 points.**
This advanced course is a content-based language course, and is centered around the history of the Low Countries. Each week focuses on a specific era, such as the counts of Holland in the 13th century and the Reformation in the 16th century. Students will read texts about history and literature of the historical periods. Students will read texts at home and discuss them in class, explore history-related websites and watch short video clips. Attention will be paid to advanced grammar issues and vocabulary.

**GERMAN**

**GERM UN1101 ELEMENTARY GERMAN I. 4.00 points.**
Upon completion of the course, students understand, speak, read, and write German at a level enabling them to communicate with native speakers about their background, family, daily activities, student life, work, and living quarters. Emphasis is placed on acquiring the four language skills-listening, speaking, reading and writing--within a cultural context. Daily assignments and consistent work are necessary in order to achieve basic communicative proficiency. Daily assignments and consistent work are the basis for achieving basic communicative proficiency.

are used to improve the 4 skills. Practice in conversation aims at enlarging the vocabulary necessary for daily communication. Grammar is practiced in the context of the topics. Learning and evaluation are individualized (individual vocabulary lists, essays, oral presentations, final portfolio) and project-based (group work and final group project).

GERM UN1102 ELEMENTARY GERMAN II. 4.00 points.
Prerequisites: GERM UN1101 or the equivalent. Students expand their communication skills to include travel, storytelling, personal well-being, basic economics, and recent historical events. Emphasis is placed on acquiring the four language skills—listening, speaking, reading and writing—within a cultural context. Daily assignments and consistent work are necessary in order to achieve basic communicative proficiency.

GERM UN2102 INTERMEDIATE GERMAN II. 4.00 points.
Prerequisites: GERM UN2101 or the equivalent. Intermediate German UN2102 is conducted entirely in German and emphasizes the four basic language skills, cultural awareness, and critical thinking. A wide range of topics (from politics and poetry to art) as well as authentic materials (texts, film, art, etc.)
GERM UN2521 INTERMEDIATE CONVERSATION I. 2.00 points.
Prerequisites: GERM UN1102 or the equivalent, or placement by the Director of German Language Program
Corequisites: GERM UN1201
Prerequisites: Completion of GERM UN1101 and UN1102 or the equivalent. This 2-point conversation group is designed for students who are now taking Intermediate German UN2101 or who wish to maintain their spoken German at least at the advanced intermediate level. The course is designed to improve your ability to speak and understand and manage German in everyday situations; to provide opportunities to participate in conversational situations on any topics you are interested in; to strengthen and acquire skills to understand German spoken at normal conversational speed; to expand active and passive vocabularies speaking skills; and to maintain a certain level of written German through short written activities. This course does not count towards the language requirement.

GERM UN2522 INTERMEDIATE CONVERSATION II. 2.00 points.
Prerequisites: Completion UN2101, or the equivalent. This 2-point conversation group is designed for students who are now taking Intermediate German UN2102 or who wish to maintain their spoken German at least at the advanced intermediate level. The course is designed to improve your ability to speak and understand and manage German in everyday situations; to provide opportunities to participate in conversational situations on any topics you are interested in; to strengthen and acquire skills to understand German spoken at normal conversational speed; to expand active and passive vocabularies speaking skills; and to maintain a certain level of written German through short written activities. This course does not count towards the language requirement.

GERM UN3001 ADVANCED GERMAN I. 3.00 points.
Prerequisites: GERM UN2102 or the Director of the German Language Program's permission.
Prerequisites: GERM UN2102 or the Director of the German Language Program's permission. German UN3001 is an ambitious socio-cultural exploration of Berlin. Designed to follow up the language skills acquired in first- and second-year language courses (or the equivalent thereof), this course gives students greater proficiency in speaking, reading, and writing German while focusing on topics from German society today through German newspapers and periodicals through the lens of Germany’s capital, Berlin. The course represents a gateway class to literature courses. This course counts towards the major and concentration.

GERM UN3333 INTRO TO GERMAN LIT (GERMAN). 3.00 points.
Prerequisites: GERM UN2102 or the equivalent.
Prerequisites: GERM UN2102 or the equivalent. Examines short literary texts and various methodological approaches to interpreting such texts in order to establish a basic familiarity with the study of German literature and culture.

GERM UN3335 ADVANCED CONVERSATION # COMPOSITION I. 2.00 points.
Prerequisites: GERM UN2102 or the equivalent. This two-point course is designed to strengthen both oral and written communication and the ability to engage in critical analysis in German. Students will develop interpretative skills needed for communicating questions, ideas, and opinions; build vocabulary; interact comfortably with various forms of media; and communicate new skills through discussions, various writing assignments, and a presentation. This course does not fulfill degree requirements.

GERM UN3442 Literature in the 18th and 19th Centuries. 3.00 points.
Prerequisites: GERMUN3333
Prerequisite OR Corequisite: GERMUN3333 This class will provide an introduction to the rich and varied forms of literary production between 1750 and 1900 by focusing on the culture of Sensibility, the Enlightenment, Storm and Stress, Romanticism, the “Vormärz” and Realism. We will situate the culture of Sensibility, the Enlightenment, Storm and Stress, Romanticism, the “Vormärz” and Realism. We will situate the culture of Sensibility, the Enlightenment, Storm and Stress, Romanticism, the “Vormärz” and Realism.
epistolary novel by Goethe. Then we will discuss the literary production of the 19th century by analyzing changing concepts of art, music and literature during those times of great social and political change. We will study (and translate) poems, and read pamphlets and novellas by Tieck, Kleist, Hölderlin, Novalis, Brentano, Eichendorff, Günderrode, Droste-Hülshof, Heine, Büchner, Mörike, Keller and Fontane. **This course is taught entirely in German**

**GERM UN3780 BERL/ ISTANBUL:MIGRATN,CLTR,VAL. 3.00 points.**

CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

An intensive seminar analyzing questions of migration, identity, (self-) representation, and values with regard to the Turkish minority living in Germany today. Starting with a historical description of the „guest worker” program that brought hundreds of thousands of Turkish nationals to Germany in the 1960s and 1970s, the course will focus on the experiences and cultural production of the second and third generations of Turkish Germans, whose presence has profoundly transformed German society and culture. Primary materials include diaries, autobiographies, legal and historical documents, but the course will also analyze poetry, novels, theater plays and films. In German.

**GERM GU4141 Race and Germany. 3.00 points.**

This seminar gives in-depth consideration to shifting ideas and paradigms about race in German culture by tracing their associations with colonialism, slavery, eugenics, Nazism, and the contemporary rise of right-wing populism. In order to explore these evolving and sometimes interrelated notions of race and racism, this seminar brings together a study of anti-Semitism, anti-Blackness, Islamophobia, and other forms of racism. In addition to its study of prejudice, this seminar examines the experiences of minoritized communities in the German-speaking world. How do “non-white” Germans challenge German historical narratives and models of identity? How do discourses of race, discrimination, and solidarity politics contribute to contemporary understandings and misunderstandings of racism in Germany?

**GERM GU4350 GERMAN FILM AFTER 1945. 3.00 points.**

This introduction to German film since 1945 (in its European contexts) deploys a focus on feelings as a lens for multifaceted, intersectional investigations of cinematic history. We will explore how feelings have been gendered and racialized; how they overlap with matters of sex (as closely associated with political revolt in Western Europe, while considered too private for public articulation in the socialist East, especially when queer); and how they foreground matters of nation and trauma (for example via the notions of German ‘coldness’ and inability to mourn the Holocaust). Simultaneously, the focus on feelings highlights questions of mediality (cinema as a prototypically affective medium?), genre and avant-garde aesthetics: in many films, ‘high-affect’ Hollywood cinema intriguingly meets ‘cold’ cinematic modernism. In pursuing these investigative vectors through theoretical readings and close film analysis, the course connects affect, genre, queer, and cultural studies approaches with cinema studies methodologies. The films to be discussed span postwar and New German Cinema, East German DEFA productions, the ‘Berlin School’ of the 2000s, and contemporary transnational cinema.

In-class activities and homework assignments will focus on Swedish traditions (e.g. Christmas traditions, St. Lucia, etc.).

Methodology
The class will be taught in a communicative way. It will be conducted primarily, but not exclusively in Swedish.

Swedish

**SWED UN1101 ELEMENTARY SWEDISH I 4.00 points.**
The goal of this course is to introduce students to the Swedish language as it is spoken in Sweden today. The class will also introduce important aspects of contemporary Swedish culture, including: Sweden's geography, its political system and political founders. As such they will be treated in this class. Special attention will be paid to the affinities and competition among their approaches. Secondary sources will be subject to short presentations (in English) of those students capable of reading German.

**SWED UN1102 ELEMENTARY SWEDISH II 4.00 points.**
This course is a continuation of the introductory Swedish 101 course. It will introduce you to the Swedish language as it is used in Sweden today. You will also learn about aspects of contemporary Swedish culture, main events and figures in Sweden's history, and Swedish traditions. Upon the completion of the course, students who have attended class regularly, have submitted all assignments and taken all tests and quizzes should be able to: talk about themselves, families, interests, likes and dislikes, daily activities, education, professional interests and future plans in some detail; understand and participate in a simple conversation on everyday topics such as educational choices, subjects, plans for the weekend and the holidays, places to live, transportation, etc read and fully comprehend edited texts on familiar topics understand the main ideas and identify the underlying themes in original texts such as literary fiction, film, and newspaper articles write short essays on a familiar topic using the relevant vocabulary understand and utilize the information in a variety of authentic texts (e.g. menus, signs, train schedules, websites) carry out simple linguistic tasks that require speaking on the phone (e.g. setting up an appointment, asking questions about an announcement, talking to a friend) fill in forms requesting information, write letters, e-mails, notes, post cards, or messages providing simple information; provide basic information about Sweden including: Sweden's geography, its political system and political parties, educational system, etc. discuss and debate familiar topics recognize significant figures from Sweden's history and literary history use and understand basic vocabulary related to important aspects of contemporary Swedish culture and Swedish traditions and contemporary lifestyles in Sweden.

Authentic materials will be used whenever possible.
YIDDISH

**YIDD UN1101 ELEMENTARY YIDDISH I. 4.00 points.**
This course offers an introduction to the language that has been spoken by the Ashkenazi Jews for more than a millennium, and an opportunity to discover a fabulous world of Yiddish literature, language and culture in a fun way. Using games, new media, and music, we will learn how to speak, read, listen and write in a language that is considered one of the richest languages in the world (in some aspects of vocabulary). We will also venture outside the classroom to explore the Yiddish world today: through field trips to Yiddish theater, Yiddish-speaking neighborhoods, Yiddish organizations, such as YIVO or Yiddish farm, and so on. We will also have Yiddish-speaking guests and do a few digital projects. At the end of the two-semester course, you will be able to converse in Yiddish on a variety of everyday topics and read most Yiddish literary and non-literary texts. Welcome to Yiddishland!

**YIDD UN2101 INTERMEDIATE YIDDISH I. 4.00 points.**
Prerequisites: YIDD UN1101-UN1102 or the instructor's permission.
Prerequisites: YIDD UN1101-UN1102 or the instructor's permission. This year-long course is a continuation of Elementary Yiddish II. As part of the New Media in Jewish Studies Collaborative, this class will be using new media in order to explore and research the fabulous world of Yiddish literature, language, and culture, and to engage in project-oriented activities that will result in creating lasting multi-media online presentations. In addition to expanding the command of the language that has been spoken by the Ashkenazi Jews for more than a millennium, i.e. focusing on developing speaking, reading, writing and listening skills, and on the acquisition of more advanced grammatical concepts, students will also get some video and film editing training, and tutorials on archival research. The class will continue to read works of Yiddish literature in the original and will venture outside of the classroom to explore the Yiddish world today: through exciting field trips to Yiddish theater, Yiddish-speaking neighborhoods, YIVO, Yiddish Farm, and so on. And we will also have the Yiddish native-speaker guest series. Welcome back to Yiddishland!

YIDD UN3520 MAGIC # MONSTERS IN YIDD LIT. 3.00 points.
A Serious Man, the 2009 movie by the Coen Brothers opens with a Yiddish folk tale featuring a dybbuk. Dybbuks, golems, magicians, and monsters haunt not only Yiddish literature but also the contemporary cinema, as illustrated by such recent films as The Unborn and The Possession. Why are we so attracted to dybbuks, spirit possession, magic, and monsters in the twenty-first century? This course will focus on magic, monsters, dybbuks, demons, and golems in Yiddish literature and beyond, including film and popular culture. We will approach the supernatural motif from the perspective of gender, body, and performance studies, and will explore the questions of memory, trauma, and identity. The aim of the course is to encourage students to discuss and critically engage with the various texts and film adaptations listed on the syllabus in an attempt to answer the following questions: In what ways do these works explore, interrogate with, and reflect on human experience? What do they tell us about the powers of good and evil? How relevant are they in the twenty-first century? The course puts emphasis on developing the skills of critical, analytical, and abstract thinking in relation to the discussed works, as well as the ability to express that critical thinking in writing. No knowledge of Yiddish required

YIDD GU4995 Exploring Yiddishland: Culture in Time and Space. 3.00 points.
Modern Yiddish culture and literature developed and flourished in the so-called Yiddishland, a land without borders located in Eastern Europe across Poland, Russia, Ukraine, Rumania, etc. But the heart of Yiddishland was in prewar Poland: in Warsaw, Vilnius (now Lithuania), Krakow, and Lublin. The course will center on four cities in which Yiddish culture and literature blossomed before the Holocaust, and examine key figures of modern Yiddish literature associated with these places, such as Isaac Bashevis Singer, Kadya Molodowsky, Mordechai Gebirtig, Abraham Sutzkever, Yankev Glatshtayn, and others. Employing gender and comparative approach as analytical lenses, we address the following questions: What role does space play in culture production? How does our familiarity with space impact our perception of literature and culture? The texts and class discussion will be in English. The course will have a digital humanities component: we will engage in Mapping Yiddish Europe through Locus Tempus

HISTORY

Departmental Office: 413 Fayerweather; 212-854-4646
http://www.history.columbia.edu

Director of Undergraduate Studies: Prof. Stephanie McCurry, 603 Fayerweather; sm4041@columbia.edu

Undergraduate Administrator: Michael Adan, undergraduate-history@columbia.edu

The History curriculum covers most areas of the world and most periods of history. It encourages students to develop historical understanding in the widest sense of the word: a thorough empirical grasp along with the kind of analytical skills that come with a genuinely historical sensibility. This is done through two types of courses: lectures and seminars. Lectures range from broad surveys of the history of a place or period to more thematically oriented courses. Seminars offer students the opportunity to work more closely with historical sources in smaller groups and to do more sophisticated written work. Because history courses usually have no prerequisites, there are no preordained sequences to follow. It is advisable, however, that students take a relevant lecture course in preparation for a seminar. Majors wishing to follow a more intensive program are advised to enroll in a historiography course and to undertake a senior thesis project. Historically, majors have pursued careers in a very wide range of areas including medicine, law, mass media, Wall Street, and academia.

ADVANCED PLACEMENT

Students may receive 3 credits toward the overall degree requirements for a score of 5 on the AP European History exam or the AP United States History exam. No points count toward or fulfill any requirements of the history major or concentration.

ADVISING

During their junior and senior years, majors and concentrators are advised by the faculty members of the Undergraduate Education Committee (UNDED). UNDED advisers also review and sign Plan of Study (POS) forms for majors and concentrators at least once per year. POS forms track students’ progress toward completing all major and concentration requirements. New history majors and concentrators may see
any member of UNDED. For the most up-to-date information on UNDED members, please see the undergraduate advising page of the departmental website.

Majors and concentrators can also receive pure academic interest advising (non-requirement advising) from any faculty member and affiliated faculty member of the department.

First-years and sophomores considering a history major or concentration can seek advising from UNDED or any other faculty member.

For questions about requirements, courses, or the general program, majors and concentrators can also contact the undergraduate administrator.

**DEPARTMENTAL HONORS**

To be eligible for departmental honors, the student must have a GPA of at least 3.6 in courses for the major, an ambitious curriculum, and an outstanding senior thesis. Honors are awarded on the basis of a truly outstanding senior thesis. Normally no more than 10% of graduating majors receive departmental honors in a given academic year.

**COURSE NUMBERING**

Courses are numbered by type:
- UN 1xxx - Introductory Survey Lectures
- UN 2xxx - Undergraduate Lectures
- UN 3xxx - Undergraduate Seminars
- GU 4xxx - Joint Undergraduate/Graduate Seminars

and field (with some exceptions):
- x000-x059: Ancient
- x060-x099: Medieval
- x100-x199: Early modern Europe
- x200-x299: East Central Europe
- x300-x399: Modern Western Europe
- x400-x599: United States
- x600-x659: Jewish
- x660-x699: Latin America
- x700-x759: Middle East
- x760-x799: Africa
- x800-x859: South Asia
- x860-x899: East Asia
- x900-x999: Research, historiography, and transnational

**SEMINARS**

Seminars are integral to the undergraduate major in history. In these courses, students develop research and writing skills under the close supervision of a faculty member. Enrollment is normally limited to approximately 15 students. In order to maintain the small size of the courses, admission to most seminars is by instructor's permission or application.

In conjunction with the Barnard History Department and other departments in the University (particularly East Asian Languages and Cultures), the History Department offers about 25 seminars each semester that majors may use to meet their seminar requirements. While there are sufficient seminars offered to meet the needs of majors seeking to fulfill the two-seminar requirement, given the enrollment limits, students may not always be able to enroll in a particular seminar. Students should discuss with UNDED their various options for completing the seminar requirement.

The History Department has developed an on-line application system for some seminars. The department regularly provides declared majors and concentrators with information on upcoming application periods, which typically occur midway through the preceding semester. Students majoring in other fields, or students who have not yet declared a major, must inform themselves of the application procedures and deadlines by checking the undergraduate seminar page of the departmental website.

GUIDELINES FOR ALL HISTORY MAJORS AND CONCENTRATORS
For detailed information about the history major or concentration, as well as the policies and procedures of the department, please refer to the History at Columbia Undergraduate Handbook, available for download on the departmental website.

MAJOR IN HISTORY
Students must complete a minimum of nine courses in the department, of which four or more must be in an area of specialization chosen by the student and approved by a member of the department.
of UNDED. Students must also fulfill a breadth requirement by taking three courses outside of their specialization. Two of the courses taken in the major must be seminars (including one seminar in the chosen specialization).

All History majors MUST submit an UNDED approved Plan of Study to the department in order to be certified.

The requirements of the undergraduate program encourage students to do two things:

1. Develop a deeper knowledge of the history of a particular time and/or place. Students are required to complete a specialization by taking a number of courses in a single field of history of their own choosing. The field should be defined, in consultation with a member of UNDED, according to geographical, chronological, and/or thematic criteria. For example, a student might choose to specialize in 20th C. U.S. History, Medieval European History, Ancient Greek and Roman History, or Modern East Asian History. The specialization does not appear on the student's transcript, but provides an organizing principle for the program the student assembles in consultation with UNDED.

2. Gain a sense of the full scope of history as a discipline by taking a broad range of courses. Students must fulfill a breadth requirement by taking courses outside their own specialization -- at least one course removed in time and two removed in space.
   a. Time: majors and concentrators must take at least one course removed in time from their specialization:
      • Students specializing in the modern period must take at least one course in the pre-modern period; students specializing in the pre-modern period must take at least one course in the modern period.
      • If the course proposed is in the same regional field as a student's specialization, special care must be taken to ensure that it is as far removed as possible; please consult with UNDED to make sure a given course counts for the chronological breadth requirement.
   b. Space: majors must take at least two additional courses in regional fields not their own:
      • These two "removed in space" courses must also cover two different regions.
      • For example, students specializing in some part of Europe must take two courses in Africa, East or South Asia, Latin America/Caribbean, Middle East, and/or the U.S.
      • Some courses cover multiple geographic regions. If a course includes one of the regions within a student's specialization, that course cannot count towards the breadth requirement unless it is specifically approved by the Director of Undergraduate Studies. For example, if a student is specializing in 20th C. U.S. history and takes the class World War II in Global Perspective, the class is too close to the specialization and may not count as a regional breadth course.

All courses in the Barnard History Department as well as select courses in East Asian Languages and Cultures; Middle Eastern, South Asian, and African Studies; and other departments count toward the major. Eligible inter-departmental courses may include:

- AFRICAN CIVILIZATION (AFCV UN1020) (when taught by Professor Gregory Mann, Professor Rhiannon Stephens, or PhD students in the Columbia University Department of History; the course does NOT count for History when taught by anyone else)
- PRIM TEXTS OF LATIN AMER CIV (LACV UN1020) (when taught by Professor Pablo Piccato, Professor Caterina Pizzigoni, or PhD students in the Columbia University Department of History; the course does NOT count for History when taught by anyone else)
- INTRO TO EAST ASIAN CIV: CHINA (ASCE UN1359), INTRO EAST ASIAN CIV: JPN (ASCE UN1361), INTRO TO EAST ASIAN CIV: KOREA (ASCE UN1363) or other ASCE UN1xxx courses (when taught by Professors Charles Armstrong, Carol Gluck, Robert Hymes, Dorothy Ko, Eugenia Lean, Feng Li, David Lurie, Jungwon Kim, Paul Kreitman, Gregory Pflugfelder, Gray Tuttle, or Madeleine Zelin, and NOT when they are taught by anyone else)
- Please see the Courses section on the departmental website to see which of these might count in a given semester. Any courses not listed or linked on the departmental website, however historical in approach or content, do not count toward the history major or concentration, except with explicit written approval of the UNDED chair.
- If you suspect a History course has escaped being listed at the above link and want to confirm whether or not it counts for History students, please contact the Undergraduate Administrator.

**Thematic Specializations**

Suitably focused thematic and cross-regional specializations are permitted and the breadth requirements for students interested in these topics are set in consultation with a member of UNDED. Classes are offered in fields including, but not limited to:

- Ancient history
- Medieval history
- Early modern European history
- Modern European history
- United states history
- Latin American and Caribbean history
- Middle Eastern history
- East Asian history
- South Asian history
Additionally, classes are offered in thematic and cross-regional fields which include, but are not limited to:

- Intellectual history
- Jewish history
- Women's history
- International history
- History of science

These fields are only examples. Students should work with a member of UNDED to craft a suitably focused specialization on the theme or field that interests them.

**Thesis Requirements**

Majors may elect to write a senior thesis, though this is not a graduation requirement. Only senior thesis writers are eligible to be considered for departmental honors. The senior thesis option is not available to concentrators.

The yearlong HIST UN3838-HIST UN3839 SENIOR THESIS SEMINAR carries 8 points, 4 of which typically count as a seminar in the specialization. For the most up-to-date information on the field designations for history courses, please see the Courses section of the departmental website.

**CONCENTRATION IN HISTORY**

Effective February 2018, students must complete a minimum of six courses in history. At least three of the six courses must be in an area of specialization, one far removed in time, and one on a geographic region far removed in space. There is no seminar requirement for the concentration.

All History concentrators MUST submit an UNDED approved Plan of Study to the department in order to be certified.

**FALL 2022 HISTORY COURSES**

**HIST UN1010 ANCIENT GREEK HIST, 800-146 BC. 4.00 points.**

A review of the history of the Greek world from the beginnings of Greek archaic culture around 800 B.C. through the classical and hellenistic periods to the definitive Roman conquest in 146 B.C. with concentration on political history, but attention also to social and cultural developments. Field(s): ANC

**HIST UN1020 The Romans and Their World. 4 points.**

This course examines the history of the Roman Empire from the formation of the Roman monarchy in 753 BCE to the collapse of the Western Empire in 476 CE. At the heart of the class is a single question: how did the Roman Empire come to be, and why did it last for so long? We will trace the rise and fall of the Republic, the extension of its power beyond Italy, and the spread of Christianity. Epic poetry, annalistic accounts, coins, papyri, inscriptions, and sculpture will illuminate major figures like Cleopatra, and features of daily life like Roman law and religion. The destructive mechanics by which Rome sustained itself—war, slavery, and environmental degradation—will receive attention, too, with the aim of producing a holistic understanding this empire. Discussion Section Required.

**HIST BC1101 EUROPEAN HISTORY 1500-1789. 4.00 points.**

Political, economic, social, religious, and intellectual history of early modern Europe, including the Renaissance, Reformation and Counter-Reformation, absolutism, Scientific Revolution, and Enlightenment

**HIST UN1488 Indigenous History of North America. 4.00 points.**

This course is an introduction to the history of the Native peoples of North America. Instruction will focus on the idea that indigenous people in North America possess a shared history in terms of being forced to respond to European colonization, and the emergence of the modern nation-state. Native peoples, however, possess their own distinct histories and culture. In this sense their histories are uniquely multifaceted rather than the experience of a singular racial group. Accordingly, this course will offer a wide-ranging survey of cultural encounters between the Native peoples of North America, European empires, colonies, and emergent modern nation-states taking into account the many different indigenous responses to colonization and settler colonialism. This course will also move beyond the usual stories of Native-White relations that center either on narratives of conquest and assimilation, or stories of cultural persistence. We will take on these issues, but we will also explore the significance of Native peoples to the historical development of modern North America. This will necessarily entail an examination of race
formation, and a study of the evolution of social structures and categories such as nation, tribe, citizenship, and sovereignty.

HIST UN1768 European Intellectual History. 4.00 points.
This course provides an introduction to some of the major landmarks in European cultural and intellectual history, from the aftermath of the French Revolution to the 1970s. We will pay special attention to the relationship between texts (literature, anthropology, political theory, psychoanalysis, art, and film) and the various contexts in which they were produced. Among other themes, we will discuss the cultural impact of the Enlightenment, the French Revolution, industrialism, colonialism, modernism, the Russian Revolution, the two world wars, decolonization, feminism and gay liberation movements, structuralism and poststructuralism. In conjunction, we will examine how modern ideologies (liberalism, conservatism, Marxism, imperialism, fascism, totalitarianism, neoliberalism) were developed and challenged over the course of the last two centuries. Participation in weekly discussion sections staffed by TAs is mandatory. The discussion sections are 50 minutes per session. Students must register for the general discussion (“DISC”) section, and will be assigned to a specific time and TA instructor once the course begins.

HIST BC2101 HISTORY OF CAPITALISM. 3.00 points.
The aim of this course is to provide students with analytical tools to think critically and historically about the concept of capitalism. By studying how philosophers, economists, and political theorists have defined and described the concept of capitalism throughout its history, students will be provided with a set of terminologies and analytical frameworks that enable them to interrogate the various dimensions of capitalism.

HIST BC2321 COLONIAL ENCOUNTERS. 3.00 points.
Examines the shaping of European cultural identity through encounters with non-European cultures from 1500 to the post-colonial era. Novels, paintings, and films will be among the sources used to examine such topics as exoticism in the Enlightenment, slavery and European capitalism, Orientalism in art, ethnographic writings on the primitive, and tourism.

HIST UN2360 TWENTIETH CENTURY BRITAIN. 4.00 points.
This course surveys the main currents of British history from 1900 to the present, with particular attention to the changing place of Britain in the world and the changing shape of British society and politics. Throughout this course, we will ask: Where is power located? What held Britain and the empire together, and what tore them apart? What was life like for Britons – young and old, men and women, rich and poor, Black and white – across the course of this century? When and how did social change happen? How did people respond? We will tackle these questions by looking closely at some key periods of social and political conflict and resolution, by reading key texts from the time (novels, plays, reportage, speeches), by viewing contemporary newsreels and films, and by conducting research in online newspaper and record collections. We will discuss these materials in section; section attendance is mandatory. Course objectives The course aims to provide students with (a) a good foundational knowledge of the course of British history from 1900 to the present; (b) an understanding of how historians do research and basic research skills; (c) the ability to analyze historical materials (speeches, novels, memoirs, government documents, films), placing them in context and deploying them to make analytical arguments about the past.

HIST UN2377 WORLD HISTORY SINCE WW II. 4.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement
In this course students will explore contemporary international and global history, focusing on how states have cooperated and competed in the Cold War, decolonization, and regional crises. But lectures will also analyze how non-governmental organizations, cross-border migration, new means of communication, and global markets are transforming the international system as a whole. Group(s): B, C, D Field(s): INTL.
HIST 2377  001/10605  T Th 1:10pm - 2:25pm  99/125
        402 Chandler

HIST BC2401 PLTCS CRIME# POLICING IN U.S.. 3.00 points.
This course will examine the historical development of crime and the criminal justice system in the United States since the Civil War. The course will give particular focus to the interactions between conceptions of crime, normalcy and deviance, and the broader social and political context of policy making

HIST UN2523 HEALTH INEQUALITY: MODERN US. 4.00 points.
Through assigned readings and a group research project, students will gain familiarity with a range of historical and social science problems at the intersection of ethnic/racial/sexual formations, technological networks, and health politics since the turn of the twentieth century. Topics to be examined will include, but will not be limited to, black women’s health organization and care; HIV/AIDS politics, policy, and community response; benign neglect; urban renewal and gentrification; medical abuses and the legacy of Tuskegee; tuberculosis control; and environmental justice. There are no required qualifications for enrollment, although students will find the material more accessible if they have had previous coursework experience in United States history, pre-health professional (pre-med, pre-nursing, or pre-public health), African-American Studies, Women and Gender Studies, Ethnic Studies, or American Studies

HIST UN2533 US LESBIAN # GAY HISTORY. 4.00 points.
This course explores the social, cultural, and political history of lesbians, gay men, and other socially constituted sexual and gender minorities, primarily in the twentieth century. Since the production and regulation of queer life has always been intimately linked to the production and policing of “normal” sexuality and gender, we will also pay attention to the shifting boundaries of normative sexuality, especially heterosexuality, as well as other developments in American history that shaped gay life, such as the Second World War, Cold War, urbanization, and the minority rights revolution. Themes include the emergence of homosexuality and heterosexuality as categories of experience and identity; the changing relationship between homosexuality and transgenderism; the development of diverse lesbian and gay subcultures and their representation in popular culture; the sources of antigay hostility; religion and sexual science; generational change and everyday life; AIDS; and gay, antigay, feminist, and queer movements.

HIST BC2567 Women, Race, and Class. 3.00 points.
Using an intersectional framework, this course traces changing notions of gender and sexuality in the 20th century United States. The course examines how womanhood and feminism were shaped by class, race, ethnicity, culture, sexuality and immigration status. We will explore how the construction of American nationalism and imperialism, as well as the development of citizenship rights, social policy, and labor organizing, were deeply influenced by the politics of gender. Special emphasis will be placed on organizing and women’s activism.

HIST UN2660 LATIN AMERICAN CIVILIZATION I. 4.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

This course aims to give a portrait of the development of Latin America from the first contact with the Europeans to the creation of independent states. We will focus on society and interaction among the various ethnic and socio-economic groups at the level of daily life. For each class, students will have to read sections of a core text as well as a primary source, or document, from the period; before the end of every class there will be 15 minutes to discuss the document together. In addition, students will enroll in discussion sections held by TAs.

HIST UN2978 Science and Pseudoscience: Alchemy to AI. 4.00 points.

During the 2020 US presidential election and the years of the COVID-19 pandemic, science and “scientific truths” were fiercely contested. This course provides a historical perspective on the issues at stake. The course begins with an historical account of how areas of natural knowledge, such as astrology, alchemy, and “natural magic,” which were central components of an educated person’s view of the world in early modern Europe, became marginalized, while a new philosophy of nature emerged include the rise of the centralized state, religious reform, and European expansion. The course uses this historical account to show how science and pseudoscience developed in tandem in the period from 1400 to 1800. This historical account equips students to examine contemporary issues of expertise, the social construction of science, pluralism in science, certainty and uncertainty in science, as well as critical engagement with contemporary technologies.

HIST UN3011 THE SECOND WORLD WAR. 4.00 points.
This course surveys some of the major historiographical debates surrounding the Second World War. It aims to provide student with an international perspective of the conflict that challenges conventional understandings of the war. In particular, we will examine the ideological, imperial, and strategic dimensions of the war in a global context. Students will also design, research, and write a substantial essay of 15-18 pages in length that makes use of both primary and secondary sources.

HIST UN3023 Mobility and Identity in the Roman World. 4.00 points.
This course considers how identity increased, limited, controlled, or otherwise shaped the mobility of individuals and groups in the Roman world, including women, slaves, freedpeople, and diaspora communities. We will identify the structures that produced differences in mobility and consider how such groups understood and represented themselves in a variety of media as possessing a specific, shared identity and community. The course will draw on a range of primary sources, including inscriptions and literary texts (both poetry and prose), and cover the period from the second century BCE to the third century CE.

HIST UN3189 COMPOSING THE SELF-ERLY MOD EUR. 4.00 points.
This course explores manners of conceiving and being a self in early modern Europe (ca. 1400-1800). Through the analysis of a range of sources, from autobiographical writings to a selection of theological, philosophical, artistic, and literary works, we will approach the concept of personhood as a lens through which to study topics such as the valorization of interiority, humanist scholarly practices, the rising professional status of artists, the spirituality of Christian mysticism, mechanist and sensationalist philosophies of selfhood, and, more generally, the human person’s relationship with material and existential goods. This approach is intended to deepen our understanding of the Renaissance, the Reformation, the Scientific Revolution, the Enlightenment, and other movements around which histories of the early modern period have typically been narrated.

construction of a historical narrative
HIST BC3491 Making Barnard History. 4.00 points.
Prerequisites: Permission of the instructor. Enrollment limited
to 15. Preregistration required. This course examines the
transformation of rural and urban landscapes in the U.S. in the
final era of industrial consolidation, 1880-1940. We investigate the creation of an
infrastructure for agriculture that transformed natural
environments; the changing vernacular architecture of
domestic and industrial workplaces; the development of
central downtowns as sites of office buildings, department
stores, and civic centers; the spatial instantiation of the Jim
Crow segregationist regime in the North as well as the South;
the relation between real estate and finance that fueled the
Great Depression; and the development of New Deal policies
that underwrote public works--including highways--and
public housing, while also subsidizing home ownership,
agribusiness, and segregation (the historical context for
debates over the “Green New Deal.”). Reading assignments
combine social history and vernacular architectural studies with
primary sources that include urban planning and government
documents, personal narratives, and both historical and
contemporary photographs, maps, and city plans
HIST UN3529 Landscapes of American Modernity,
1880-1940. 4.00 points.
HIST UN3502 The Struggle for Indigenous Sovereignty in the Early American Republic. 4.00 points.
The United States was founded on Indigenous land and in
conversation with Indigenous nations who shared possession
to most of the territory claimed by the Republic. The expansion of the U.S. beyond the original thirteen states happened in
dialogue, and often in open conflict with the Native peoples
of North America. This course will examine the creation and
 expansion of the American nation-state from the perspective of
Indigenous peoples and Indigenous history. Most histories of the Republic equate the founding of the U.S. with the severance
of colonial ties to Great Britain and the proceed to characterize
America as a post-colonial society. We will study the U.S. as
the first New World colonial power, a settler society whose
very existence is deeply intertwined with the Indigenous history
of North America

HIST UN3562 The Seven Years’ War (1754-1763), Global Perspective: Europe, Asia, Africa, and Americas. 4.00 points.
Prerequisites: History Majors Preferred
Prerequisites: History Majors Preferred This research seminar explores the causes, course, and consequences of the Seven
Years’ War, arguably the first world war in modern history. Topics include the origins of the conflict in North America
and in Europe, the relationship between imperial rivalry in the
American colonies and the contest for supremacy in central Europe, the impact of the war on trade and settlement in South Asia, the West Indies, the Philippines, and West Africa, and the legacies of the conflict for British imperial expansion in India, North America, Senegal, and the southern Caribbean. During the second half of the semester, members of the seminar will devote the majority of their time to the research and writing of a substantial paper.

**HIST UN3571 Left and Right in American History. 4.00 points.**

This course examines 20th-century American political movements of the Left and Right. We will cover Socialism and the Ku Klux Klan in the early twentieth century; the Communist Party and right-wing populists of the 1930s; the civil rights movement, black power, and white resistance, 1950s-1960s; the rise of the New Left and the New Right in the 1960s; the Women's liberation movement and the Christian right of the 1970s; and finally, free-market conservatism, neoliberalism, white nationalism and the Trump era. We will explore the organizational, ideological and social history of these political mobilizations. The class explores grass-roots social movements and their relationship to "mainstream" and electoral politics. We will pay special attention to the ways that ideas and mobilizations that are sometimes deemed extreme have in fact helped to shape the broader political spectrum. Throughout the semester, we will reflect on the present political dilemmas of our country in light of the history that we study.

**HIST BC3670 SEEKING ASYLUM. 4.00 points.**

Note: This course meets as a lecture but it is a seminar.

**Prerequisites: NA**

This seminar explores the roots of and responses to the contemporary refugee crisis at the U.S.-Mexico border. We examine the historical factors that are propelling people, including families and unaccompanied minors, to flee the so-called Northern Triangle of Central America (El Salvador, Honduras, Guatemala); the law and politics of asylum that those seeking refuge must negotiate in the U.S.; and the burgeoning system of immigration incarceration that detains ever-greater numbers of non-citizens. The course is organized around a collaboration with the Dilley Pro Bono Project, an organization that provides legal counsel to detainees at the country's largest immigration detention prison, in Dilley, Texas.

**HIST UN3739 THE "ISLAMIC" CITY. 4.00 points.**

The seminar will examine several “Islamic” cities in depth, focusing on critical moments in their histories. The students will acquire a solid knowledge of these centers. They will study their dynamic and complex histories in an episodic manner, deconstructing their images frozen in a particular moment. We will begin by recent critical theories on the “Islamic” city, the latter concept developed as a rigid formula during the colonial era and reiterated since. As we resituate our case studies in their shifting historic contexts, we will gain insights into the complexity of their formations. More specifically, for example, Damascus will not be constrained to its canonical early medieval period, but will be investigated with reference to its Greco-Roman history, the Ottoman interventions in the pre-modern period, the nineteenth-century reforms, and the French planning experiments under the Mandate. Istanbul will not be limited to its sixteenth-century glamor, but will be scrutinized in terms of its turbulent passage from Byzantine to Ottoman rule, and as a pioneering experiment in nineteenth-century modernization reforms. Situating urban forms, “the tangible substance, the stuff” of cities at the center of our discussions, we will look into the political, social, cultural, and economic factors that framed their development, as well as the subsequent effects the cities made on these realms. The interdisciplinary approach will capitalize on the rich literature in the field and engage in analyses using textual and visual materials in complementary ways. The students will learn how to triangulate their discussions by using arguments and data (including visual documents) from different academic fields. The weekly meetings will include presentations by the instructor and the students, followed by class discussions.

**HIST BC3825 RACE, CASTE, AND THE UNIVERSITY: B. R. AMBEDKAR AT COLUMBIA. 4.00 points.**

B. R. Ambedkar is arguably one of Columbia University’s most illustrious alumni, and a democratic thinker and constitutional lawyer who had enormous impact in shaping India, the world’s largest democracy. As is well known, Ambedkar came to Columbia University in July 1913 to start a doctoral program in Political Science. He graduated in 1915 with a Masters degree, and got his doctorate from Columbia in
1927 after having studied with some of the great figures of interwar American thought including Edwin Seligman, James Shotwell, Harvey Robinson, and John Dewey. This course follows the model of the Columbia University and Slavery course and draws extensively on the relevant holdings and resources of Columbia’s RBML, [Rare Books and Manuscript Library] Burke Library (Union Theological Seminar), and the Schomburg Center for Research in Black Culture among others to explore a set of relatively understudied links between Ambedkar, Columbia University, and the intellectual history of the interwar period. Themes include: the development of the disciplines at Columbia University and their relationship to new paradigms of social scientific study; the role of historical comparison between caste and race in producing new models of scholarship and political solidarity; links between figures such as Ambedkar, Lala Lajpat Rai, W. E. B. Du Bois and others who were shaped by the distinctive public and political culture of New York City, and more. This is a hybrid course which aims to create a finding aid for B. R. Ambedkar that traverses RBML private papers. Students will engage in a number of activities toward that purpose. They will attend multiple instructional sessions at the RBML to train students in using archives; they will make public presentations on their topics, which will be archived in video form; and stuents will produce digital essays on a variety of themes and topics related to the course. Students will work collaboratively in small groups and undertake focused archival research. This seminar inaugurates an on-going, multiyear effort to grapple with globalizing the reach and relevance of B. R. Ambedkar and to share our findings with the Columbia community and beyond. Working independently, students will define and pursue individual research projects. Working together, the class will create digital visualizations of these projects

HIST GU4101 THE WORLD WE HAVE LOST. 4.00 points.

What was daily life like for the “average” European in pre-industrial society? This course examines the material circumstances of life and death in Europe from the fifteenth to the eighteenth century. It also asks the question of whether and how we can enter into the inner life of people of the past. How did people experience their material conditions? How did they experience the life of the mind and of the emotions? What are the methods used by historians to gain knowledge about the material conditions and lived experience of the past?

HIST GU4277 History of Urban Crime and Policing in Latin America in Global Perspective. 4.00 points.

This seminar examines the social construction of criminality and the institutions that developed to impose and enforce the criminal law as reflections of Latin American urban society throughout the region’s history, with a particular emphasis on the rise of police forces as the principal means of day-to-day urban governance. Topics include policing and urban slavery; policing the urban “underworld”; the changing cultural importance of police in urban popular culture; the growth of scientific policing methods, along with modern criminology and eugenics; policing and the enforcement of gender norms in urban public spaces; the role of urban policing in the rise of military governments in the twentieth century; organized crime; transitional justice and the contemporary question of the rule of law; and the transnational movement of ideas about and innovations in policing practice. In our readings and class discussions over the course of the semester, we will trace how professionalized, modern police forces took shape in cities across the region over time. This course actually begins, however, in the colonial period before there was anything that we would recognize as a modern, uniformed, state-run police force. We will thus have a broad perspective from which to analyze critically the role of police in the development of Latin American urban societies—in other words, to see the police in the contemporary era as contingent on complex historical processes, which we will seek to understand

HIST GU4397 Nationalism and Revolution in Modern Ireland. 4.00 points.

Nationalism is one of the most persistent, powerful and elusive forces in modern world history. This course examines it through a particularly compelling and accessible case study: Ireland. As both a subject of, and a partner in, British colonialism, Ireland straddled both the imperial and anti-imperial dimensions of
and masters students are welcome in this course by application. Undergraduate students in this course must do so for a grade, and not on a pass/fail or audit basis. 

GUIDELINES # REQUIREMENTS

Undergraduate students must do so for a grade, and not on a pass/fail or audit basis. Please note that students enrolling in this course must do so for a grade, and not on a pass/fail or audit basis. 

Due to the higher level of course material, students should have an academic or professional background in African-American history or public health history. Students may not enroll this course on a pass/fail basis or as an auditor. Please consult the “Class Performance Guidelines” document for details. Student assessment will be based on various criteria: Class discussion participation 35% Presentation of the readings 15% Writing assignments 50% Policy on Academic Integrity

Please note that all students are bound to the guidelines set forth in the College’s statement on Academic Integrity (http://www.college.columbia.edu/academics/academicintegrity)
efforts to stop nuclear proliferation. Climate change and mass global warming, for instance, could undermine longstanding and plan for them. Applying nuclear power to the problem of interconnected, and not just in the techniques used to predict warfare as much as they did for nuclear war and terrorism.

Readings and discussions will explore how planetary threats are connected analyses of the age-old apocalyptic threats -- war, pestilence, and famine -- in their modern forms, i.e. nuclear armageddon, pandemics, and ecological collapse. By examining them together, we can compare the magnitude and probability of each danger, and also explore their interconnections. We will see, for instance, how nuclear testing helped give rise to the environmental movement, and how modeling the aftereffects of nuclear exchanges helped advance understanding of climate change. Similarly, scenario exercises have shaped threat perceptions and disaster-preparedness for pandemics and bio-warfare as much as they did for nuclear war and terrorism. Readings and discussions will explore how planetary threats are interconnected, and not just in the techniques used to predict and plan for them. Applying nuclear power to the problem of global warming, for instance, could undermine longstanding efforts to stop nuclear proliferation. Climate change and mass migration, on the other hand, create new pandemic threats, as a more crowded and interconnected world becomes a single ecosystem. Yet billions spent on building up defenses have created more capacity and opportunity for bio-terrorism. Who would actually use a nuclear or biological weapon? Perhaps a millenarian group hoping to ride death, the fourth horse of the apocalypse, straight to heaven.
debates continue to resonate today. There will be a mix of primary documents and secondary sources and commentary.

CSER UN1011 INTRO ASIAN AMERICAN STUDIES. 4.000 points.
This course provides an overview of Asian/Pacific American history from the late 18th Century until the present day. The course follows a thematic format that begins with European and American empires in Asia and the Pacific. The course surveys significant and interrelated topics -- including anti-Asian movements, immigration and exclusion, various forms of resistance, Orientalism, media representations, the model minority myth, the Asian American movement, identity, and racial, ethnic, and generational conflicts -- in Asian/Pacific American history of the 19th and 20th Centuries. Each of these concepts and topics will resonant, in various expressions and forms, well into the 21st Century and beyond.

HSME UN2810 HISTORY OF SOUTH ASIA I. 4.000 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement
Graduate students must register for HIST G6998 version of this course.
This survey course will provide students with a broad overview of the history of South Asia as a region - focusing on key political, cultural and social developments over more than two millennia. The readings include both primary sources (in translation) and secondary works. Our key concerns will be the political, cultural and theological encounters of varied communities, the growth of cities and urban spaces, networks of trade and migrations and the development of both local and cosmopolitan cultures across Southern Asia. The survey will begin with early dynasties of the classical period and then turn to the subsequent formation of various Perso-Turkic polities, including the development and growth of hybrid political cultures such as those of Vijayanagar and the Mughals. The course also touches on Indic spiritual and literary traditions such as Sufi and Bhakti movements. Near the end of our course, we will look forward towards the establishment of European trading companies and accompanying colonial powers.

CLCV UN3008 The Age of Augustus. 3.000 points.
The reign of the first Roman emperor, Augustus (27bce-14ce), has been seen as a Roman revolution, both political and cultural. Rome had for centuries been governed as a Republic, but a series of Increasingly divisive civil wars allowed Augustus to create a new political system in which he exercised sole rule as the ‘first citizen’ within a ‘Restored Republic’. Augustus’ reign lasted more than 40 years, and established a model of autocratic rule that would last for four centuries. During this time there were profound changes in the political, social, and cultural structures of Rome. In this course, you will examine the nature of these changes, Augustus’ political strategies, military activities, and religious initiatives through his own writing, the accounts of (often hostile) historians and a range of literary and archaeological sources, including Roman poetry. Ultimately, we will address the question: how did Augustus achieve the seemingly paradoxical feat of becoming a monarch within a republican system?
### EAAS UN3338 CULTRL HIST-JAPANESE MONSTERS. 3.00 points.

Priority is given to EALAC and History majors, as well as to those who have done previous coursework on Japan.

From Godzilla to Pokemon (literally, pocket monster) toys, Japanese monsters have become a staple commodity of late-capitalist global pop culture. This course seeks to place this phenomenon within a longer historical, as well as a broader cross-cultural, context. Through an examination of texts and images spanning over thirteen centuries of Japanese history, along with comparable productions from other cultures, students will gain an understanding not only of different conceptions and representations of monsters, ghosts, and other supernatural creatures in Japan, but also of the role of the monstrous in the cultural imagination more generally. The course draws on various media and genres of representation, ranging from written works, both literary and scholarly, to the visual arts, material culture, drama, and cinema. Readings average 100-150 pages per week. Several film and video screenings are scheduled in addition to the regular class meetings. Seating is limited, with final admission based on a written essay and other information to be submitted to the instructor before the beginning of the semester.

### AMHS UN3462 IMMIGRANT NEW YORK. 4.00 points.

For centuries, New York City has served as a primary gateway city for immigrants to the United States. In the early twentieth century, according to the 1910 Census, New York City’s population was roughly 40% foreign-born. The problems these immigrants presented to government officials, doctors, religious leaders, industrialists, the police, and educators in New York City transformed not only the local debate on immigration but the national discussion of “Americanization” as well. According to the most recent census, approximately 40% of the city’s population is foreign-born. Like their predecessors at the turn of the twentieth century, contemporary immigrants, arriving from the Caribbean, Africa, Central America, Asia, and Europe, have posed serious challenges to the civic, educational, and political institutions of New York City. How are these foreign-born residents reshaping the city today? This seminar explores the intersection of immigration, race, culture, and politics in New York City, both from the perspective of history and in relation to contemporary realities as it explores the forces shaping the century-old encounter between immigrants and New York City.

### CSER UN3928 COLONIZATION/DECOLONIZATION. 4.00 points.

CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

Enrollment limited to 22.

Prerequisites: Open to CSER majors/concentrators only. Others may be allowed to register with the instructor's permission.

Prerequisites: Open to CSER majors/concentrators only. Others may be allowed to register with the instructors permission.

This course explores the centrality of colonialism in the making of the modern world, emphasizing cross-cultural and social contact, exchange, and relations of power; dynamics of conquest and resistance; and discourses of civilization, empire, freedom, nationalism, and human rights, from 1500 to 2000. Topics include pre-modern empires; European exploration, contact, and conquest in the new world; Atlantic-world slavery and emancipation; and European and Japanese colonialism.
in Asia, Africa, and the Middle East. The course ends with a section on decolonization and post-colonialism in the period after World War II. Intensive reading and discussion of primary documents

**EAAS UN3990 APPROACHES TO E ASIAN STUDIES. 4.00 points.**

Enrollment is limited to EALAC and AMEC majors and concentrators only.

This course is intended to provide a focal point for undergraduate majors in East Asian Studies. It introduces students to the analysis of particular objects of East Asian historical, literary, and cultural studies from various disciplinary perspectives. The syllabus is composed of a series of modules, each centered around an object, accompanied by readings that introduce different ways of understanding its meaning

**HSEA GU4027 ISSUES IN EARLY CHINESE CIV. 4.00 points.**

The purpose of this course is to introduce students to the basic issues and problems in the study of early Chinese civilization, some theoretical and others methodological. Through the review of a long series of debates the course offers a quick entrance both to this early period of history and to these studies. Organized around problems, the course encourages critical thinking and contesting arguments and helps the students weigh different positions addressing the problems. By doing so, the course guides the students to search for frontline questions and to probe possible ways to solve the problems. The course deals with both the written records (inscriptional and textual) and the material evidence, and the student can well expect this course to serve as also updates of the most fascinating archaeological discoveries in China made in the past decades. The course is designed as an upper-level undergraduate and MA course; therefore, it is recommended that undergraduate students should take "ASCE V2359: Introduction to East Asian Civilizations: China" before participating in this course.

HIST UN1512 The Battle for North America: An Indigenous History of the Seven Years War, the American Revolution, and the War of 1812. 4.00 points.
This course will explore the struggle to control the continent of North America from an Indigenous perspective. After a century of European colonization Native peoples east of the Mississippi River Valley formed a political confederation aimed at preserving Native sovereignty. This Native confederacy emerged as a dominant force during the Seven Years War, the American Revolution, and the War of 1812. At times Native political interests aligned with the French and British Empires, but remained in opposition to the expansion of Anglo-American colonial settlements into Indian country. This course is designed to engage literature and epistemology surrounding these New World conflicts as a means of the colonial and post-colonial past in North America. We will explore the emergence of intersecting indigenous and European national identities tied to the social construction of space and race.
In this course I will ask you to re-think American history by situating North America as a Native space, a place that was occupied and controlled by indigenous peoples. You will be asked to imagine a North America that was indigenous and adaptive, and not necessarily destined to be absorbed by European settler colonies. Accordingly, this course we will explore the intersections of European colonial settlement and Euro-American national expansion, alongside of the emergence of indigenous social formations that dominated the western interior until the middle of the 19th century. This course is intended to be a broad history of Indigenous North America during a tumultuous period, but close attention will be given to use and analysis of primary source evidence. Similarly, we will explore the necessity of using multiple genres of textual evidence – archival documents, oral history, material artifacts, etc., -- when studying indigenous history

HIST UN2072 DAILY LIFE IN MEDIEVAL EUROPE. 4.00 points.
This course is designed as travellers guide to medieval Europe. Its purpose is to provide a window to a long-lost world that provided the foundation of modern institutions and that continues to inspire the modern collective artistic and literary imagination with its own particularities. This course will not be a conventional history course concentrating on the grand narratives in the economic, social and political domains but rather intend to explore the day-to-day lives of the inhabitants, and attempts to have a glimpse of their mindset, their emotional spectrum, their convictions, prejudices, fears and hopes. It will be at once a historical, sociological and anthropological study of one of the most inspiring ages of European civilization. Subjects to be covered will include the birth and childhood, domestic life, sex and marriage, craftsmen and artisans, agricultural work, food and diet, the religious devotion, sickness and its cures, death, after death (purgatory and the apparitions), travelling, merchants and trades, inside the nobles castle, the Christian cosmos, and
medieval technology. The lectures will be accompanied by maps, images of illuminated manuscripts and of medieval objects. Students will be required to attend a weekly discussion section to discuss the medieval texts bearing on that weeks subject. The written course assignment will be a midterm, final and two short papers, one an analysis of a medieval text and a second an analysis of a modern text on the Middle Ages.

HIST UN2215 MODERN RUSSIAN HISTORY. 4.00 points.

An introductory survey of the history of Russia, the Russian Empire, and the Soviet Union over the last two centuries. Russia’s role on the European continent, intellectual movements, unfree labor and emancipation, economic growth and social change, and finally the great revolutions of 1905 and 1917 define the “long nineteenth century.” The second half of the course turns to the tumultuous twentieth century: cultural experiments of the 1920s, Stalinism, World War II, and the new society of the Khrushchev and Brezhnev years. Finally, a look at very recent history since the East European revolutions of 1989-91. This is primarily a course on the domestic history of Russia and the USSR, but with some attention to foreign policy and Russia’s role in the world.

HIST UN2222 NATURE # POWER: ENV HIST NORTH AMERICA. 4.00 points.

Environmental history seeks to expand the customary framework of historical inquiry, challenging students to construct narratives of the past that incorporate not only human beings but also the natural world with which human life is intimately intertwined. As a result, environmental history places at center stage a wide range of previously overlooked historical actors such as plants, animals, and diseases. Moreover, by locating nature within human history, environmental history encourages its practitioners to rethink some of the fundamental categories through which our understanding of the natural world is expressed: wilderness and civilization, wild and tame, natural and artificial. For those interested in the study of ethnicity, environmental history casts into particularly sharp relief the ways in which the natural world can serve both to undermine and to reinforce the divisions within human societies. Although all human beings share profound biological similarities, they have nonetheless enjoyed unequal access to natural resources and to healthy environments—differences that have all-too-frequently been justified by depicting such conditions as “natural.”

HIST BC2375 Fascism in European History. 3.00 points.

What was Fascism? What kind of appeal did authoritarianism and dictatorship have in interwar Europe? How did the Fascist “New Order” challenge liberal democracies and why did it fail in World War II? What was the common denominator of Fascist movements across Europe, and in particular in Mussolini’s Italy, Salazar’s Portugal, Franco’s Spain, culminating in Nazi Germany? This class examines the history of Fascism as an ideology, constellation of political movements, and authoritarian regimes that aimed at controlling the modernization of European societies in the interwar period. Thus, the course focuses in particular on the relationship between politics, science and society to investigate how Fascism envisioned the modernity of new technologies, new social norms, and new political norms. The class will also explore Fascism’s imperialist goals, such as the calls for national renewal, the engineering of a new race, and the creation of a new world order.

HIST BC2477 RACE, CLASS, AND POLITICS IN NEW YORK CITY. 3.00 points.

The objectives of this course are: to gain familiarity with the major themes of New York History since 1898, to learn to think historically, and to learn to think and write critically about
arguments that underlie historical interpretation. We will also examine and analyze the systems and structures—of race and class—that have shaped life in New York, while seeking to understand how social groups have pursued change inside and outside of such structures.

**HIST UN2587 SPORT#SOCIETY IN THE AMERICAS. 4.00 points.**

This course explores the ways organized sport constitutes and disrupts dominant understandings of nation, race, gender, and sexuality throughout the Americas. Working from the notion that sport is “more than a game,” the class will examine the social, cultural and political impact of sports in a variety of hemispheric American contexts from the 19th century until the present. While our primary geographic focus will be the United States, Brazil, and the Caribbean, the thrust of the course encourages students to consider sports in local, national, and transnational contexts. The guiding questions of the course are: What is the relationship between sport and society? How does sport inform political transformations within and across national borders? How does sport reinforce and/or challenge social hierarchies? Can sport provide alternative visions of the self and community? Throughout the semester we will examine such topics as: the continuing political struggles surrounding the staging of mega-events such as the Olympics and World Cup, the role of professional baseball in the rise and fall of Jim Crow segregation, the impact of football on the evolution of masculine identities in the U.S., the impact of tennis on the Second-Wave feminist movement, and the role of sports in the growth of modern American cities. Course materials include works by historians, sociologists, social theorists, and journalists who have also been key contributors to the burgeoning field of sports studies. Thus, the course has three objectives: 1) To deepen our understanding of the relationship between sport and society 2) To encourage students to examine the sporting world beyond the frame of the nation-state 3) To consider the promises and challenges of sport as a site of social theory and knowledge production.

**HIST UN2661 LATIN AMERICAN CIVILIZATION II. 4.00 points.**

CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

This course explores major themes in Latin American history from the independence period (ca 1810) to the present.
We will hone in on Latin America’s “chronic” problems of social inequality, political polarization, authoritarianism, incomplete democratization, and troubled memory politics. The course covers economic, social, and cultural histories, and gives special weight to the transnational aspects of Latin American ideological struggles – from its dependency on Western capital to its ideological “inner Cold War” – and the way they influenced the subaltern strata of society. The section discussions are a crucial component of the course, and will focus on assigned historiography. While the lecture centers on constructing a cogent meta-narrative for Latin America’s modern era, in the section we will explore not only the historical “facts,” but will instead ask: how do historians know what they know about the past? What sources and analytic methods do they use to write history? And what ethical dilemmas do they confront when narrating politically-sensitive topics?

Spring 2023: HIST UN2661

HIST UN2679 Atlantic Slave Trade. 4.00-4.50 points.
The history of human trafficking in the Atlantic world from the first European slaving expeditions in the late fifteenth century down to the final forced crossings in the era of the U.S. Civil War. Themes include captive taking in West Africa and its impact on West African societies, the commercial organization of the Atlantic slave trade in Europe and the Americas, and the experience of capture, exile, commodification, and survival of those shipped to the Americas

Spring 2023: HIST UN2679

HSAM UN2901 DATA: PAST, PRESENT AND FUTURE. 3.00 points.
Lect: 1.5, Lab: 1.5.

Data-empowered algorithms are reshaping our professional, personal, and political realities, for good—and for bad. Data: Past, Present, and Future moves from the birth of statistics in the 18th century to the surveillance capitalism of the present day, covering racist eugenics, World War II cryptography, and creeping personalized advertising along the way. Rather than looking at ethics and history as separate from the science and engineering, the course integrates the teaching of algorithms and data manipulation with the political whirlwinds and ethical controversies from which those techniques emerged. We pair the introduction of technical developments with the shifting political and economic powers that encouraged and benefited from new capabilities. We couple primary and secondary readings on the history and ethics of data with computational work done largely with user-friendly Jupyter notebooks in Python

Spring 2023: HSAM UN2901

HSPB UN2950 Social History of U.S. Public Health. 4.00 points.
The purpose of this course is to provide students with an historical understanding of the role public health has played in American history. The underlying assumptions are that disease, and the ways we define disease, are simultaneously reflections of social and cultural values, as well as important factors in shaping those values. Also, it is maintained that the environments that we build determine the ways we live and die. The dread infectious and acute diseases in the nineteenth century, the chronic, degenerative conditions of the twentieth and the new, vaguely understood conditions rooted in a changing chemical and human-made environment are emblematic of the societies we created. Among the questions that will be addressed are: How does the health status of Americans reflect and shape our history? How do ideas about health reflect broader attitudes and values in American history and culture? How does the American experience with pain, disability, and disease affect our actions and lives? What are the responsibilities of the state and of the individual in preserving health? How have American institutions—from hospitals to unions to insurance companies—been shaped by changing longevity, experience with disability and death?

HIST UN3252 Animals in the History of East Central Europe. 4.00 points.
Over the last two decades scholars in the humanities and social sciences have embraced “the animal turn”: by asking questions about the place of animals in human societies and about animals’ experiences in various times and places they have instigated a field that has come to be known as Animal Studies. This research has expanded the range of analytical tools we have at our disposal to examine social worlds and to study meaning, representation, agency, and context and it also encouraged us to re-consider fundamental questions about the human–animal divide: what it is, where it is, and what its significance is. Moreover, it has become evident that animals are not just passive recipients of human action, but at times they can act as autonomous agents that can contributing the shaping of the world that we share with them. Although this course adopts a perspective which is first and foremost historical, it also emphasizes the field’s interdisciplinary embedding and intersectional potentials. It shows that the study of historical developments through the lens of animals is not only intellectually rewarding in its own right, but it also provides new perspectives on a range of crucial topics, such as the history of war, capitalism, colonialism, consumption and entertainment. The majority of accounts in the field addresses developments in the Anglophone world. While also paying attention to the results of that research, the regional focus of this course will be on East Central Europe. After the first three sessions that serve as an introduction to the field, a number of case studies will reveal that animals have always been an integral part of the region’s social, cultural and economic life and that studying them in a historical perspective provides potentials for nuancing or even revising established knowledge on the history of East Central Europe

HIST UN3180 RELIGIOUS CONVERSION IN HIST. 4.00 points.
Priority given to majors and concentrators, seniors, and juniors.

Prerequisites: the instructor's permission.

Boundary crossers have always challenged the way societies imagined themselves. This course explores the intersection between personal identity, narrative, and the historical-political, religious, economic, and social aspects of religious conversion. While the course will focus on Western (Christian and Jewish) models in the medieval and early modern periods, we will also look at antiquity, the role of conversion in the spread of Islam, and the complexities of religious conversion through the prism of colonial relations

HIST UN3437 CORP BEHAVIOR # PUBLIC HEALTH. 4.00 points.
Priority given to majors and concentrators, seniors, and juniors.

In the decades since the publication of Silent Spring and the rise of the environmental movement, public awareness of the impact of industrial products on human health has grown enormously. There is growing concern over BPA, lead, PCBs, asbestos, and synthetic materials that make up the world around us. This course will focus on environmental history, industrial and labor history as well as on how twentieth century consumer culture shapes popular and professional understanding of disease. Throughout the term the class will trace the historical transformation of the origins of disease through primary sources such as documents gathered in lawsuits, and medical and public health literature. Students will be asked to evaluate historical debates about the causes of modern epidemics of cancer, heart disease, lead poisoning, asbestos-related illnesses and other chronic conditions. They will also consider where responsibility for these new concerns lies, particularly as they have emerged in law suits. Together, we will explore the rise of modern environmental movement in the last 75 years

HIST UN3501 Indians and Empires in North America. 4.00 points.
In this course you will be asked to re-think American history. That is, we will approach the history of America as a continental history. This will require that we think of North America as a New World space, a place that was inhabited and occupied by indigenous peoples, and then remade by the arrival and settlement of Europeans. You will be asked to imagine a North America that was indigenous and adaptive, as well as colonial and Euro-American. This approach to the study of North American history is designed to challenge the epistemology and literature of the history of colonization and American expansion, which displaces Native peoples from the central narrative of American history by placing them at the physical margins of colonial and national development. Instead we will explore the intersection and integration of indigenous and Euro-American national identity and national space in North America and trace their co-evolution from first contact through the early nineteenth century.

HIST UN3517 The Historical Imagination in Caribbean Literature. 4.00 points.
Caribbean literature offers complicated and vivid portrayals of the Caribbean’s past, and grapples with difficult histories lived by its people that compromised colonial archives can only partially capture. Literary works far exceed the limited narratives of Caribbean history by imagining entire worlds that official documents could never contain, rich selves, cultures and communities built by many generations of Caribbean people. This course is aimed at bringing forth a broader understanding of Caribbean history by examining a body of creative works by feminist and womanist writers that continuously remain attuned to the complexities of the past, which are either underrepresented or absent in the record. Chosen literary texts will also be paired with historical works that will illuminate and contextualize the multiple themes with which these Caribbean authors frequently engage, including slavery, and colonialism, racism and colorism, migration and immigration, gender and sexuality, poverty and globalization. From these pairings, students will explore both the divergences and alignments in how writers and historians approach the work of retelling the past, and will acquire reading and writing skills that will foster thoughtful critical analysis of the ever-changing contours of the Caribbean’s history.

HIST BC3670 SEEKING ASYLUM. 4.00 points.
Note: This course meets as a lecture but it is a seminar.
Prerequisites: NA
Prerequisites: NA
This seminar explores the roots of and responses to the contemporary refugee crisis at the U.S.-Mexico border. We examine the historical factors that are propelling people, including families and unaccompanied minors, to flee the so-called Northern Triangle of Central America (El Salvador, Honduras, Guatemala); the law and politics of asylum that those seeking refuge must negotiate in the U.S.; and the burgeoning system of immigration incarceration that detains ever-greater numbers of non-citizens. The course is organized around a collaboration with the Dilley Pro Bono Project, an organization that provides legal counsel to detainees at the country’s largest immigration detention prison, in Dilley, Texas.

HIST BC3770 African Communities in New York, 1900 to the Present. 4.00 points.
This class explores the history of voluntary migrations from Africa to the United States over the course of the 20th century. This course is designed as a historical research seminar that is open to students with prior coursework in African Studies, Africana Studies, Race and Ethnic Studies, or History. Thematically the course dwells at a point of intersection between African history, Black History, and Immigration History. As part of the Barnard Engages curriculum, this class is collaboratively designed with the Harlem-based non-profit organization, African Communities Together. The aim of this course is to support the mission of ACT by producing a historically grounded digital advocacy project. The mission of ACT is to empower immigrants from Africa and their families to integrate socially, advance economically, and engage civically. To advance this mission, ACT must confront the reality that in the current political moment new legal, political, and social barriers are being erected to the integration, advancement, and engagement of African immigrants on a daily basis. As immigrants, as Black people, as Africans, and often as women, low-income people, LGBT people, and Muslims, African immigrants experience multiple intersecting forms of marginalization. Now more than ever, it is critical that African immigrants be empowered to tell their own stories—not just of persecution and suffering, but of resilience and resistance.

HIST UN3789 HISTORIES OF POVERTY IN AFRICA. 4.00 points.

In this course we will explore in a critical manner the concept of poverty in Africa. The emphasis is on historicizing categories such as poverty and wealth, debt and charity and on the ways in which people in Africa have understood such categories. As such the course takes a longue durée approach spanning over a millennium of history, ending with contemporary understandings of poverty.

HIST UN3712 African Climate and History. 4.00 points.

This course examines how Africa’s climate has changed in the past and with what consequences for the people living on the continent. It looks at the scope, duration and intensity of past climate events and their impacts, while using these historical climate events to teach fundamental climate concepts. Central to the course is the human experience of these events and the diversity of their responses. The major question underpinning this course is, therefore, how have people responded to past climate events, whether short-term, decadal or longer in scope?

This question is predicated on the complexity of human society and moves away from the binary of collapse vs. resilience that dominates much thinking about the impact of climate changes on past societies. This framing recognizes the significance of climate for food production and collection, as well as trade and cosmologies. It does not take climate to be the determining factor in history. Rather it foregrounds the myriad ways people acted in the face of, for example, multi-decadal below average rainfall or long periods of more reliable precipitation.

HIST BC3864 Feast/Famine: Food Environment China. 4.00 points.

Food has always been a central concern in Chinese politics, religion, medicine, and culture. This course takes an ecological approach to the provision, preparation, and consumption of food in Chinese history, from the Neolithic times to the post-socialist era today. In examining Chinese approaches to soil fertility, healthy diet, and culinary pleasures, we explore alternative food systems for a more sustainable future.

HIST UN3866 WARS OF INDOCHINA. 4.00 points.

Saigon and Hanoi served as competing capitals of the Republic of Vietnam (RVN) in the south and the Democratic Republic of Vietnam (DRV) in the north (1954-1975). They were symbols of warring states, one home to a fledgling republic, the other the seat of communist power. Since the late 19th century, they have also been sites of Vietnam’s most dramatic transformations. As such, they occupy an important place in the historiography of modern Vietnam, not least in ongoing debates over the Indochina wars, Vietnamese nationalism, and regional difference. This course examines Saigon and Hanoi as social, political, and cultural spaces, and as representations of their respective states during the war. We first consider the significance of regionalism in fashioning “new ways of being Vietnamese” and examine how colonial rule reinforced those distinctions. We devote the rest of the semester to reading an array of works on the history of these cities. For the colonial period, we examine colonial urbanism, the lives of the poor, intellectuals and their ideas, as well as currents of political agitation and cultural iconoclasm. For the post-World War II period, we will focus on the distinct political cultures that took shape in the RVN and DRV. Finally, we end by looking at Saigon (now Ho Chi Minh City) and Hanoi in the post-war era, particularly after the Socialist Republic of Vietnam instituted sweeping economic reforms in the 1980s. Each week, we will discuss works social, cultural, and political history of Saigon and Hanoi, all the while keeping in mind their divergent trajectories in the three decades following World War II.

**HIST UN3914 THE FUTURE AS HISTORY. 4.00 points.**

This course explores how people have thought about their future and tried to change it. It examines the philosophical aspects of studying history and the future, and how they are related. It begins with the origins of future thinking in eschatology and millenarian movements, the enlightenment challenge to revelation and religious authority, and utopias and dystopias. Classic texts and scholarly studies will illuminate modern approaches to shaping the future, such as socialism, imperialism, risk analysis, and “modernization” theory, and areas where they have had a particular impact, including urban planning and eugenics.

**HIST GU4231 EASTERN EUROPE'S COLD WAR. 4.00 points.**

This seminar explores the Cold Wars impact on Eastern Europe (1940s-1980s) and Eastern Europeans Cold War-era engagements with the wider world. We will address the methodologies used by historians to answer questions like these: What was the Cold War? What did it mean, and for whom? We will also look at the Cold War as something more than a series of events; we will consider its value, uses, and limits as a device for framing the second half of the twentieth century.

**HIST GU4455 TRANSMATIONAL MIGRATION/CITIZENSHIP. 4.00 points.**

This course will read both classic and recent scholarship on transnational migration and citizenship as well as theoretical work by historians and social scientists in the U.S. and Europe on the changing conceptual frameworks that are now shaping the field. The course is comparative, with readings in the contexts of empire, colonialism and contemporary refugee and migration issues in the U.S. and Europe. The course will be conducted jointly with a class at Sciences Po in Paris, led by Professor Riva Kastoryano, and will be conducted with a video (zoom) connection that will create one classroom out of two. This is an advanced seminar that is reading and discussion intensive. It will be taught in English. Students at Columbia and Sciences Po will prepare presentations together for the joint class. Graduate and Undergraduate students at Columbia may apply for the course; undergraduates should be at least in the junior year and have some reading background in the subject. There will be a maximum of 12 students at each location for combined class of 24.

**HIST GU4512 Property and Power in 20th Century U.S.. 4.00 points.**

This seminar examines debates over meanings, value, and enforcement of property rights in the US over the twentieth century. The course begins with a focus on landed property and its management as real estate and natural resources, raising questions about ownership, tenancy, zoning, eminent domain, public trust doctrines, and contests in Indian Country. It then takes up corporate property and debates over shareholder and managers’ rights and responsibilities, changing structures of investment, and countervailing claims of workers to the property and value of labor and the means of production. With a brief examination of neo-classical economists’ theories and policies of transactional property rights, the course ends with the history of intellectual property rights. Readings include classic theoretical/ideological texts (e.g. MacPherson, Ely, Berle and Means, Coase, Sax, Epstein); social histories, and major legal opinions. Students will write a 20 page research paper using primary sources on a topic of their own interest in this broad field of inquiry.

**HIST GU4588 RACE, DRUGS, AND INEQUALITY. 4.00 points.**

Priority given to majors and concentrators, seniors, and juniors. Prerequisites: the instructor's permission. Prerequisites: the instructors permission. Through a series of secondary- and primary-source readings and research writing assignments, students in this seminar course will explore one of the most politically controversial aspects in the history of public health in the United States as it has affected peoples of color: intoxicating substances. Course readings are primarily historical, but sociologists, anthropologists, and political scientists are also represented on the syllabus. The courses temporal focus - the twentieth century - allows us to explore the historical political and social configurations of opium, alcohol, heroin, cocaine, medical maintenance (methadone), the War on Drugs, the carceral state and hyperpolicing, harm reduction and needle/syringe exchange. This semesters principal focus will be on the origins and evolution of the set...
of theories, philosophies, and practices which constitute harm reduction. The International Harm Reduction Association/ Harm Reduction International offers a basic, though not entirely comprehensive, definition of harm reduction in its statement. What is Harm Reduction? (http://www.ihra.net/what-is-harm-reduction): Harm reduction refers to policies, programmes and practices that aim to reduce the harms associated with the use of psychoactive drugs in people unable or unwilling to stop. The defining features are the focus on the prevention of harm, rather than on the prevention of drug use itself, and the focus on people who continue to use drugs.[1] Harm reduction in many U.S. communities of color, however, has come to connote a much wider range of activity and challenges to the status quo. In this course we will explore the development of harm reduction in the United States and trace its evolution in the political and economic context race, urban neoliberalism, and no-tolerance drug war. The course will feature site visits to harm reduction organizations in New York City, guest lectures, and research/oral history analysis. This course has been approved for inclusion in both the African-American Studies and History undergraduate curricula (majors and concentrators). HIST W4588 will be open to both undergraduate and masters students. To apply, please complete the Google form at https://docs.google.com/forms/d/1xaPPhOQozklNnJlQlen9h41e2hXAdhV59D5wH8AQ/viewform?usp=send_form. Questions may be directed to skroberts@columbia.edu

HIST GU4622 A Global History of Jewish Migration and the State. 4.00 points.
Over the course of the nineteenth and twentieth centuries, millions of Jews uprooted themselves from their places of birth and settled in new homes around the world. This mass migration not only transformed the cultural and demographic centers of world Jewry, but also fundamentally changed the way in which state’s organized their immigration regimes. In this course, we shall analyze the historiography in migration studies, state formation and Jewish history to make sense of the different factors shaping Jewish immigrants’ experiences in different parts of the world.

HIST GU4723 Politics of Archaeology. 4.00 points.
“Who owns antiquities?” “Who owns culture?” These questions that appear frequently today in both popular and scholarly discourse are deeply embedded in political issues and have a long history, going back to the nineteenth century. The seminar will investigate the origins of the battles over antiquities and their links empire building, colonialism, Orientalism, modernity, power, identity construction, racial hierarchies, and money. The chronological frame is from the 1850s to 1914 and the geographical focus in the Ottoman Middle East, which was the major theater of contestations. We will look closely into two areas: archaeological excavations and museums. If objects were unearthed (“discovered”) in the first, they were displayed in the second; the Middle East was crowded with the first, while the major museums were in the West, with the exception of the Museum of Antiquities in Istanbul. We will also consider the vast and complex human landscape around the antiquities. In addition to archaeologists, this community included emperors, sultans, diplomats, spies, artists, inspectors, bureaucrats, technocrats, and workers, hence a cohort of individuals from many nationalities, economic strata, ethnic groups, and religions.

HIST GU4800 GLOBAL HISTORY OF SCIENCE. 4.00 points.
The course is organized around a series of select conceptual and historical topics and themes. We begin with a discussion of how to define “global history” itself, including the genealogy of this and allied terms, and their value as heuristic categories. We then move on to a series of topics, including: the international politics of infrastructure and of development; curing and caring, the environment and the politics of the body in comparative perspective; and finally, debates over international intellectual property rights and questions of secrecy and transparency in scientific research. Through these examples we aim to investigate the ways in which STM were variously adopted, reconfigured or resisted around the world and how they, in turn, might shape our understanding of the different norms and paradigms in STM studies itself.

HIST GU4801 GENDER AND WOMEN IN ISLAM: SOUTH ASIA AN. 4.00 points.
This course will examine various roles that a religion can play in shaping its believers’ socio-political and religious
identities on the basis of their natural/social differences i.e. sex and gender. Further, an attempt will be made to search for historical explanations through the lens of class, rural/urban economies and geo-ethnic diversities which have shaped gender relations and women’s status in various Muslim countries. The main focus of the course will be on Islam and its role in the articulation of gendered identities, the construction of their socio-religious images, and historical explanation of their roles, rights and status in the regions of South Asia and Middle East since 1900. The central argument of the course is that, for historical understanding of a set of beliefs and practices regarding gender relations and women’s status in any religious group, one needs to examine the historical context and socio-economic basis of that particular religion. By using the notion of gender and historical feminist discourses as tools of analysis, this course intends to understand and explain existing perceptions, misperceptions, myths and realities regarding gender relations and Muslim women’s situations in the distant and immediate past. This course begins with a historical materialist explanation of the religion of Islam and examines men - women’s roles, rights and responsibilities as described in the religious texts, interpretations, traditions and historical sources such as the Quran, Hadith, Sunnah and Sharia. It will further attempt to study these issues by situating them in histories of local and regional diversities (i.e. South Asia, Middle East). A historical perspective will facilitate students’ understanding of male and female Muslim scholars’ ventures to re/read and re/explain the Islamic texts in modern contexts of South Asia and the Middle East.

HIST GU4811 Encounters with Nature: The History and Politics of Environment, Health and Development in South Asia and Beyond. 4.00 points.

CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

This course offers an understanding of the interdisciplinary field of environmental, health and population history and will discuss historical and policy debates with a cross cutting, comparative relevance: such as the making and subjugation of colonized peoples and natural and disease landscapes under British colonial rule; modernizing states and their interest in development and knowledge and technology building, the movement and migration of populations, and changing place of public health and healing in south Asia. The key aim of the course will be to introduce students to reading and analyzing a range of historical scholarship, and interdisciplinary research on environment, health, medicine and populations in South Asia and to introduce them to an exploration of primary sources for research; and also to probe the challenges posed by archives and sources in these fields. Some of the overarching questions that shape this course are as follows: How have environmental pasts and medical histories been interpreted, debated and what is their contemporary resonance? What have been the encounters (political, intellectual, legal, social and cultural) between the environment, its changing landscapes and state? How have citizens, indigenous communities, and vernacular healers mediated and shaped these encounters and inserted their claims for sustainability, subsistence or survival? How have these changing landscapes shaped norms about bodies, care and beliefs? The course focuses on South Asia but also urges students to think and make linkages beyond regional geographies in examining interconnected ideas and practices in histories of the environment, medicine and health. Topics will therefore include (and students are invited to add to these perspectives and suggest additional discussion themes): colonial and globalized circuits of medical knowledge, with comparative case studies from Africa and East Asia; and the travel and translation of environmental ideas and of medical practices through growing global networks.

Spring 2023: HIST GU4962

HIST GU4962 Making and Knowing in Early Modern Europe: Hands-On History. 4.00 points.

This course introduces undergraduate and graduate students to the materials, techniques, contexts, and meanings of skilled craft and artistic practices in early modern Europe (1350-1750), in order to reflect upon a series of topics, including craft knowledge and artisanal epistemology; the intersections between craft and science; and questions of historical methodology in reconstructing the material world of the past. The course will be run as a “Laboratory Seminar,” with discussions of primary and secondary materials, as well as hands-on work in a laboratory. The first semester long course to use the published Edition of Fr. 640 as its focus, it will test the use of the Edition in a higher education classroom to inform the development of the Companion. This course is associated with the Making and Knowing Project of the Center for Science and Society at Columbia University. The first semester-long course to use the published Edition of Fr. 640 as its focus, it will test the use of the Edition in a higher education classroom to inform the development of Phase II of the Making and Knowing Project - a Research and Teaching Companion. Students’ final projects (exploratory and experimental work in the form of digital/textual analysis of Ms. Fr. 640, reconstruction insight reports, videos for the Companion, or a combination) will be published as part of the Companion or the Sandbox depending on content and long-term maintenance considerations.

SPRING 2023 CROSS-LISTED COURSES

PLEASE READ: The passage below lists *all* sections being offered by a Columbia instructor for a given course, including sections which *do not* count for History students. NOT ALL sections of the courses listed below count for History majors and concentrators. Particular sections only count towards the History degree if the section instructor is a History faculty member or an affiliate with the History Department. For additional information, please review the "Requirements" tab or consult Undergraduate Administrator at undergraduate-history@columbia.edu (sjm2206@columbia.edu). All courses from the Barnard History Department also count towards the History degree.

HSEA GU4847 MODERN JAPAN. 4.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement
Not offered during 2022-23 academic year.

This course explores the history of Japan between 1800 and the present, with a particular focus on the 20th century. The course draws upon a combination of primary source materials (political documents, memoirs, oral histories, journalism, fiction, film) and scholarly writings in order to gain insight into the complex and tumultuous process by which Japan became an industrialized society, a modern nation-state, and a world power.

HSEA GU4888 WOMEN & GENDER IN KOREAN. 4 points.
While the rise of women's history and feminist theory in the 1960s and 1970s fostered more general reevaluations of social and cultural history in the West, such progressions have been far more modest in Korean history. To introduce one of the larger challenges in current Korean historiography, this course explores the experiences, consciousness and representations of women Korea at home and abroad from premodern times to the present. Historical studies of women and gender in Korea will be analyzed in conjunction with theories of Western women's history to encourage new methods of rethinking "patriarchy" within the Korean context. By tracing the lives of women from various socio-cultural aspects and examining the multiple interactions between the state, local community, family and individual, women's places in the family and in society, their relationships with one another and men, and the evolution of ideas about gender and sexuality throughout Korea's complicated past will be reexamined through concrete topics with historical specificity and as many primary sources as possible. With understanding dynamics of women's lives in Korean society, this class will build an important bridge to understand the construction of New Women in early twentieth-century Korea, when women from all walks of life had to accommodate their "old-style" predecessors and transform themselves to new women, as well as the lives of contemporary Korean women. This will be very much a reading-and-discussion course. Lectures will review the readings in historical perspective and supplement them. The period to be studied ranges from the pre-modern time up to the turn of twentieth century, with special attention to the early modern period.

HISTORY AND PHILOSOPHY OF SCIENCE

The University offers a number of courses in the history and philosophy of science, although it does not, at this time, offer a major or concentration to undergraduates in Columbia College or General Studies. The course listings bring together a variety of courses from different disciplines, which should be of interest to anyone wishing to pursue work in the history and philosophy of science. The list is not intended to be all inclusive; students interested in the history and philosophy of science should speak to members of the committee.

FALL 2022

HIST UN2112 The Scientific Revolution in Western Europe: 1500-1750. 4 points.
Introduction to the cultural, social, and intellectual history of the upheavals of astronomy, anatomy, mathematics, alchemy from the Renaissance to the Enlightenment. Field(s): EME

HIST UN2523 HEALTH INEQUALITY: MODERN US. 4.00 points.
Through assigned readings and a group research project, students will gain familiarity with a range of historical and social science problems at the intersection of ethnic/racial/sexual formations, technological networks, and health politics since the turn of the twentieth century. Topics to be examined will include, but will not be limited to, black women's health organization and care; HIV/AIDS politics, policy, and community response; benign neglect; urban renewal and gentrification; medical abuses and the legacy of Tuskegee; tuberculosis control; and environmental justice. There are no required qualifications for enrollment, although students will find the material more accessible if they have had previous coursework experience in United States history, pre-health professional (pre-med, pre-nursing, or pre-public health), African-American Studies, Women and Gender Studies, Ethnic Studies, or American Studies

HIST GU4588 RACE, DRUGS, AND INEQUALITY. 4.00 points.
Priority given to majors and concentrators, seniors, and juniors.

Prerequisites: the instructor's permission.
Prerequisites: the instructors permission. Through a series of secondary- and primary-source readings and research writing assignments, students in this seminar course will explore one of the most politically controversial aspects in the history of public health in the United States as it has affected peoples of color: intoxicating substances. Course readings are primarily historical, but sociologists, anthropologists, and political scientists are also represented on the syllabus. The courses temporal focus - the twentieth century - allows us to explore the historical political and social configurations of opium, alcohol, heroin, cocaine, medical maintenance (methadone), the War on Drugs, the carceral state and hyperpolicing, harm reduction and needle/syringe exchange. This semesters principal focus will be on the origins and evolution of the set of theories, philosophies, and practices which constitute harm reduction. The International Harm Reduction Association/Harm Reduction International offers a basic, though not entirely
comprehensive, definition of harm reduction in its statement, What is Harm Reduction? (http://www.ihra.net/what-is-harm-reduction): Harm reduction refers to policies, programmes and practices that aim to reduce the harms associated with the use of psychoactive drugs in people unable or unwilling to stop. The defining features are the focus on the prevention of harm, rather than on the prevention of drug use itself, and the focus on people who continue to use drugs.[1] Harm reduction in many U.S. communities of color, however, has come to connote a much wider range of activity and challenges to the status quo. In this course we will explore the development of harm reduction in the United States and trace its evolution in the political and economic context race, urban neoliberalism, and no-tolerance drug war. The course will feature site visits to harm reduction organizations in New York City, guest lectures, and research/oral history analysis. This course has been approved for inclusion in both the African-American Studies and History undergraduate curricula (majors and concentrators). HIST W4588 will be open to both undergraduate and masters students. To apply, please complete the Google form at https://docs.google.com/forms/d/1xaPFhhQOzk11NHnljQlen9h4iei2hXAdhV59D5wH8AQ/viewform?usp=send_form. Questions may be directed to skroberts@columbia.edu

SPRING 2023

HSAM UN2901 DATA: PAST, PRESENT AND FUTURE. 3.00 points.

Lect: 1.5. Lab: 1.5.

Data-empowered algorithms are reshaping our professional, personal, and political realities, for good--and for bad. Data: Past, Present, and Future moves from the birth of statistics in the 18th century to the surveillance capitalism of the present day, covering racist eugenics, World War II cryptography, and creepy personalized advertising along the way. Rather than looking at ethics and history as separate from the science and engineering, the course integrates the teaching of algorithms and data manipulation with the political whirlwinds and ethical controversies from which those techniques emerged. We pair the introduction of technical developments with the shifting political and economic powers that encouraged and benefited from new capabilities. We couple primary and secondary readings on the history and ethics of data with computational work done largely with user-friendly Jupyter notebooks in Python.

CPLS GU4320 Marginalization in Medicine: A Practical Understanding of the Social Implications of Race. 4 points.

There is a significant correlation between race and health in the United States. People of color and those from underserved populations have higher mortality rates and a greater burden of chronic disease than their white counterparts. Differences in health outcomes have been attributed to biological factors as race has been naturalized. In this class we will explore the history of the idea of “race” in the context of changing biomedical knowledge formations. We will then focus on the impact that social determinants like poverty, structural violence, racism and geography have on health. Ultimately, this course will address the social implications of race on health both within the classroom and beyond. In addition to the seminar, there will also be a significant service component. Students will be expected to volunteer at a community organization for a minimum of 3 hours a week. This volunteer work will open an avenue for students to go beyond the walls of their classrooms while learning from and positively impacting their community.

HIST UN3437 CORP BEHAVIOR # PUBLIC HEALTH. 4.00 points.

Priority given to majors and concentrators, seniors, and juniors.

In the decades since the publication of Silent Spring and the rise of the environmental movement, public awareness of the impact of industrial products on human health has grown enormously. There is growing concern over BPA, lead, PCBs, asbestos, and synthetic materials that make up the world around us. This course will focus on environmental history, industrial and labor history as well as on how twentieth century consumer culture shapes popular and professional understanding of disease. Throughout the term the class will trace the historical transformation of the origins of disease through primary sources such as documents gathered in lawsuits, and medical and public health literature. Students will be asked to evaluate historical debates about the causes of modern epidemics of cancer, heart disease, lead poisoning, asbestos-related illnesses and other chronic conditions. They will also consider where responsibility for these new concerns lies, particularly as they have emerged in law suits. Together, we will explore the rise of modern environmental movement in the last 75 years.

INSM UN3921 Nobility and Civility II. 4 points.

CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

Prerequisites: one semester of Contemporary Civilization or Literature Humanities, or an equivalent course, and the instructor's permission.

A team-taught multicultural, interdisciplinary course examining traditions of leadership and citizenship as they appear in the key texts of early Indian, Islamic, Far Eastern, and Western civilizations. One goal is to identify and examine common human values and issues evident in these texts while also recognizing key cultural differences.

HIST GU4031 Transforming Texts: Textual Analysis, Literary Modeling, and Visualization. 4 points.

Designed for graduate and advanced undergraduate students in the social sciences, humanities, and computer science, this hybrid course is situated at the crossroads of historical exploration and computer sciences. Students will be exposed to digital literacy tools and computational skills through the lens of the Making and Knowing Project. The edition will draw on collaboration with and research done by the Making and Knowing Project [http://www.makingandknowing.org/ on an anonymous 16th-century French compilation of artistic and technical recipes (BnF Ms. Fr. 640). Students will work from the encoded English translation of the manuscript, prepared by the Spring 2017 course “HIST GR8975 What is a Book in the 21st Century? Working with Historical Texts in a Digital Environment.” This course will also utilize the concepts and prototypes developed by computer science students in the Spring 2018 “COMS W4172: 3D User Interfaces and Augmented Reality (AR). The skills students will learn over the course of the semester are widely applicable to other types of Digital Humanities projects, and indeed, in many fields outside of traditional academic study.

For the final project, students will collaborate to investigate linguistic features of Ms. Fr. 640 using natural language processing and text mining techniques. These projects will shed light on topics of interest within the manuscript and uncover connections within the textual data. By using the tools prototypes in a Spring 2018 COMS W4172 course, and working alongside computer science students, the groups will learn to adapt and recode data sets, and to view them into a variety of visualizations.

HIST BC2366 CLIMATE # HISTORY: INTERSECTING SCIENCE, ENVIRONMENT # SOCIETY
Human rights are central to contemporary understandings of justice and equality and have crucial bearing on the ability to assess and respond to emerging technological, economic, social, cultural, and political issues.

The Undergraduate Human Rights Program at the Institute for the Study of Human Rights engages students in this dynamic and evolving field and enhances their knowledge, skills, and commitment to human rights. The program offers a major and a concentration in human rights, provides students the opportunity to deepen their knowledge and explore their interests in human rights outside the classroom, and works to strengthen and support the undergraduate human rights community on campus. More information on academic and extracurricular events, opportunities, and resources for undergraduate human rights students is available on the program's website. For an advising appointment, please e-mail humanrightsed@columbia.edu.

Departmental Honors

To be eligible for departmental honors, a student must satisfy all the requirements for the major, maintain a 3.6 GPA in the major, maintain an overall GPA of 3.6, and complete a thesis of sufficiently high quality to merit honors. A thesis is required for all students who wish to be considered for honors, but does not guarantee honors. Students who graduate in October, February, or May of a given academic year are eligible for honors consideration in May. Normally no more than 10% of graduating majors receive departmental honors in a given academic year.

Students interested in writing a thesis for honors consideration complete a two semester course sequence during their final year of study. In the fall, students take HRTS UN3994 Human Rights Senior Seminar: Research Methods, which introduces students to various research methods and guides them through the proposal development process. In the spring, students take HRTS UN3996 Human Rights Thesis Seminar. This course will consist of group sessions, where students will present their work and participate in discussions, as well as individual meetings with their thesis supervisor, who is also the course instructor.

Students are encouraged to write a thesis, but they should not do so solely to be eligible for honors consideration. Rather, students should consider enrolling in the thesis seminar in order to demonstrate their capacity to produce a work of original research and develop more specialized knowledge of a human rights issue.

Guidelines for all Human Rights Majors, Concentrators, and Special Concentrators

Student should also consult the general academic policies of their school.

Planning Forms

Major and concentration planning forms are available on the ISHR undergraduate program website. Prior to each semester, students should submit an online course advising form. Students may also e-mail uhrp@columbia.edu to set up an advising appointment.

Grades

No course with a grade of D or lower is credited towards the major or concentration.

One course, with the exception of the three core courses required for the major, can be taken for Pass/D/Fail. The student must receive a grade of P for the course to count towards the requirements of the major. All other courses must be taken for a letter grade.

All seminar courses must be taken for a letter grade.

Transfer Credit/Study Abroad Credit

Human rights majors may transfer a maximum of three courses from other institutions. Human rights concentrators may transfer a maximum of two courses from other institutions. This includes study abroad credit. No more than one Advanced Placement course can be counted for the major or concentration. The application of transferred courses to the major or concentration must be approved by the Director of Undergraduate Studies or the undergraduate adviser.
Students wishing to count transfer courses toward the major or concentration should email uhrp@columbia.edu with their Transfer Credit Report, the syllabi of the courses they want to count toward departmental requirements, and a statement of how they want to apply the transfer credits to the requirements.

**Double-Counting**

Students may double count major or concentration courses toward the fulfillment of degree requirements in accordance with the academic policies of their school.

Normally, courses for one program of study (i.e. major, concentration, special concentration, etc.) may not be used to satisfy the course requirements for another program of study. Students should consult the academic policies of their school for specific information.

## MAJOR IN HUMAN RIGHTS

The major in human rights requires 10 courses for a minimum of 31 points as follows. One of the distributional or specialization courses must be a seminar.

### Core Courses

<table>
<thead>
<tr>
<th>Course Number</th>
<th>Course Title</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>HRTS UN3001</td>
<td>INTRODUCTION TO HUMAN RIGHTS</td>
<td>3.00</td>
</tr>
<tr>
<td>HRTS UN3190</td>
<td>INT'L HUMAN RIGHTS LAW</td>
<td>3.00</td>
</tr>
<tr>
<td>HRTS UN3995</td>
<td>HUMAN RIGHTS SENIOR SEMINAR</td>
<td>3.00</td>
</tr>
</tbody>
</table>

### Distributional Requirement *

Students take one course in three of these four categories (three courses), for a minimum of 9 credit points.

- Politics and history
- Culture and representation
- Political theory and philosophy
- Social and economic processes

### Specialization Requirement **

Students fulfill the specialization requirement by focusing on a particular discipline, taking four courses for a minimum of 12 credit points offered by a single department or institute.

**The goal of the specialization requirement is to equip students with the tools of a specific discipline. Students should inform the human rights program of their intended specialization before taking courses to fulfill this requirement. As a general rule, fields of study listed as academic programs on the bulletin are approved for the specialization requirement if a free-standing major is offered. Courses approved for that major are generally approved for the human rights specialization. However, language acquisition and studio courses may not be taken to fulfill the specialization requirement. Students are encouraged to take any core and/or methodology courses required by a program when fulfilling their specialization requirement. Students are also encouraged to take courses within their chosen specialization that focus on human rights issues, but the specialization requirement can be fulfilled by taking any four courses within the same discipline. For example, if a student’s specialization is Political Science, he or she can fulfill the specialization requirement by taking any four POLS courses.**

## CONCENTRATION IN HUMAN RIGHTS

The concentration in human rights requires 8 courses for a minimum of 24 points as follows:

<table>
<thead>
<tr>
<th>Course Number</th>
<th>Course Title</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>HRTS UN3001</td>
<td>INTRODUCTION TO HUMAN RIGHTS</td>
<td>3.00</td>
</tr>
</tbody>
</table>

Seven additional human rights courses, one of which must be a seminar.

Please see the ISHR undergraduate course list for the current list of courses that fulfill the concentration requirements.

### HRTS UN3001 INTRODUCTION TO HUMAN RIGHTS. 3.00 points.

Evolution of the theory and content of human rights; the ideology and impact of human rights movements; national and international human rights law and institutions; their application with attention to universality within states, including the U.S. and internationally

### HRTS UN3190 INT'L HUMAN RIGHTS LAW. 3.00 points.

This course will introduce students to the international law of human rights, and give a basic orientation to fundamental issues and controversies. The course has two principal focal points: first, the nuts and bolts of how international law functions in the field of human rights, and second, the value and limitations of legal approaches to a variety of human rights issues. Throughout the course, both theoretical and practical questions will be addressed, including who bears legal duties and who can assert legal claims, how these duties might
be enforced, and accountability and remedy for violations. Attention will be given to how international law is made, what sorts of assumptions underlie various legal mechanisms, and how the law works in a variety of contexts.

**HRTS UN3994 HUMAN RIGHTS SENIOR SEMINAR**

This course aims to introduce students to human rights research methods, while providing them with practical research tools. The course will be tailored to students’ interests, disciplinary backgrounds and research areas. The specific topics students will research and the methods they will employ will determine the substantive focus of readings. During the course we will ask the following questions: ‘what is human rights research?, how do you carry out research in an interdisciplinary field?, what distinguishes academic research from applied research and advocacy? While answering these questions, you will become familiar with the literature on human rights methodologies, and you will engage in analysis and critical assessment of important human rights research literature. In addition, the course gives a practical approach to research methodology. You will learn about a diverse set of methodologies, such as interviewing and focus groups, archival research, ethnographic and participant observation, interviewing focus groups, conducting online research; interpretive and non-empirical methods and basic quantitative methodologies to be employed in the study of human rights. As you learn about different methodological approaches, you will develop your own research project. Scholars and practitioners in the field of human rights research will present their work and engage in discussions with students about their own research, challenges, successes and publication venues. NB: This course is geared towards students who commit to writing a senior thesis. It is part of a two-course sequence: HRTS UN3994 Section 001 Human Rights Senior Seminar: Research Methods in the fall and HRTS UN3996 Human Rights Thesis Seminar in the spring. Students who do not intend to write a thesis should enroll in HRTS UN3995 section 001 Human Rights Senior Seminar, which is a one-semester course taught each semester focused on writing a seminar paper.

**HRTS UN3995 HUMAN RIGHTS SENIOR SEMINAR. 4.00 points.**

The senior seminar is a capstone course required for the human rights major. The seminar provides students the opportunity to discuss human rights from a variety of disciplinary perspectives and to explore various theoretical approaches and research methodologies. Students undertake individual research projects while collectively examining human rights through directed readings and discussion.

**HRTS UN3996 HUMAN RIGHTS THESIS SEMINAR. 3.00 points.**

Priority given to human rights majors/concentrators.

Prerequisites: HRTS UN3995 Human Rights Senior Seminar. Additional information available at: http://humanrightscolumbia.org/education/undergraduate

Prerequisites: HRTS UN3994 Human Rights Senior Seminar: Research Methods. Additional information available at: http://humanrightscolumbia.org/education/undergraduate This course is designed for human rights students who wish to write a honors-eligible thesis. The course will consist of group sessions, during which time students will present their work and participate in discussions, and individual meetings with the thesis supervisor. The course instructor is the thesis supervisor for each student.

**HRTS GU4215 NGOs # THE HUMAN RIGHTS MOVEMENT. 3.00 points.**

This class takes a social movement perspective to analyze and understand the international human rights movement. The course will address the evolution of the international human rights movement and focus on the NGOs that drive the movement on the international, regional and domestic levels. Sessions will highlight the experiences of major human rights NGOs and will address topics including strategy development, institutional representation, research methodologies, partnerships, networks, venues of engagement, campaigning, fundraising and, perhaps most importantly, the fraught and complex debates about adaptation to changing global circumstances, starting with the pre-Cold War period and including some of the most up-to-date issues and questions going on in this field today.
Fall 2022: HRTS GU4215
Course Number: GU4215 001/11855
Times/Location: T 4:10pm - 6:00pm 301m Fayerweather
Instructor: Louis Bickford Points: 3.00
Enrollment: 18/22

HRTS GU4270 SOCIAL MEDIA AND HUMAN RIGHTS. 3.00 points.
PRIORITY: HRSMA. GRAD & UNDERGRAD (3&4YR) ON 1ST DAY OF TERM

This course examines how changes in information and communications technology have, over the past two decades, fundamentally transformed the practices of civil society actors engaged with human rights issues. New communications tools such as Twitter, blogs, and Facebook have changed the ways that organizations communicate with their followers and seek to influence public debate. The increasing accessibility of analytic tools for researching and visualizing changing patterns of human rights abuse has empowered groups to better understand and respond more forcefully to these issues. Indeed, the use of social media as a communications tool has made it a data source for those monitoring and analyzing patterns of activity, in ways that draw increasingly on the techniques of big data analysis.

Spring 2023: HRTS GU4270
Course Number: GU4270 001/12091
Times/Location: M 6:10pm - 8:00pm 507 Philosophy Hall
Instructor: Ted Perlmutter Points: 3.00
Enrollment: 17/22

HRTS GU4400 SEXUAL ORIENT, GENDR ID, HUM RTS. 3.00 points.
PRIORITY: HRSMA. GRAD & UNDERGRAD (3&4YR) ON 1ST DAY OF TERM

Debates over the rights of lesbian, gay, bisexual and transgender people have never been more visible in the international arena. Advocates are beginning to have some success in putting sexual orientation and gender identity on the agenda for inclusion in human rights instruments. But in many local and regional contexts, state-sanctioned homophobia is on the rise, from the official anti-gay stance of Russia featured during the Sochi Winter Games to the passage of Mississippi’s anti-gay bill and Uganda’s anti-homosexuality act. This course examines these trends in relation to strategies pursued by grassroots activists and NGOs and the legal issues they raise, including marriage and family rights, discrimination, violence, torture, sex classification, and asylum. We will also focus on current debates about the relation between sexual rights and gender justice, tensions between universalism constructions of gay/trans identity and local formations of sexual and gender non-conformity, and legacies of colonialism.

Fall 2022: HRTS GU4400
Course Number: GU4400 001/11896
Times/Location: W 6:10pm - 8:00pm 507 Philosophy Hall
Instructor: Paisley Currach Points: 3.00
Enrollment: 17/22

HRTS GU4500 SOCIO-ECONOMIC RIGHTS. 3.00 points.
The course addresses selected issues in the protection of socio-economic rights in an international and comparative perspective. Socio-economic rights have emerged from the margins into the mainstream of human rights. The course will take this status as its starting point and examine the human rights to housing, food, water, health and sanitation in depth. We will explore conceptual issues through the lens of specific rights which will help us ground these principles and ideas in concrete cases. We will discuss developments on socioeconomic rights and examine their relevance in the United States as well as selected other countries, particularly those with progressive legislation, policies and jurisprudence. What is the meaning and scope of the rights to housing, food, water, health and sanitation? What is the impact of discrimination and inequalities on the enjoyment of socio-economic rights? How can governments be held accountable for the realization of human rights? What machinery is there at the international level to ensure that the rights are protected, respected and fulfilled? How can this machinery be enhanced? How can judicial, quasijudicial, administrative and political mechanisms be used at the domestic level? What is the role of different actors in the context of human rights, the role of States and individuals, but also (powerful) non-State actors and civil society? How have activists and policymakers responded to challenges? And what lies ahead for the human rights movement in addressing economic and social rights in a multilateral, globalized world?

Fall 2022: HRTS GU4500
Course Number: GU4500 001/11857
Times/Location: T 12:10pm - 2:00pm 522c Kent Hall
Instructor: Dugard Points: 3.00
Enrollment: 16/22

HRTS GU4600 HUMAN RIGHTS IN ANTHROPOCENE. 3.00 points.
In August 2016, a working group of the International Geological Congress voted to acknowledge a new geological epoch, following 11,700 years of the Holocene, and that it would be called The Anthropocene. The announcement indicated a new era in the earth’s chronology marked by the consequences of human activity on the planet’s ecosystems. Closely related to discussions of sustainability, investigations into the Anthropocene tend to focus on environmental and ecological issues while ignoring its social justice dimensions. This course will investigate how Human Rights has and will be impacted by the Anthropocene, with special attention paid to the human dimensions and consequences of anthropogenic change. Do new and troubling revelations about anthropogenic mistreatment of the earth and its resources modify or amplify the kinds of responsibilities that govern activity between individuals and communities? How do we scale the human response from the urban, to the periurban, to the rural? How must the study of Human Rights evolve to address violence and mistreatment associated not just among humans but also amid human habitats? What sorts of juridical changes must occur to recognize and respond to new manifestations of social injustice that relate directly to consequences of anthropogenic...
changes to the Earth system? Topics will include discussions of the Environmental Justice movement, agribusiness, access to (and allocation of) natural resources, population growth; its global impact, advocacy for stronger and more accountability through environmental legal change, biodiversity in urban environments, and the growing category of environmental refugees and the places they live, catastrophes natural and man-made and reconstruction, and sovereign areas within cities the United Nations, War Crimes Tribunals. At the heart of our inquiry will be an investigation of the ways in which rights within urban contexts are either granted or withheld

**Fall 2023: HRTS GU4930 INT’L HUMANITARIAN LAW/HUM RGT$ 4.00 points.**

This seminar will cover various issues, debates, and concepts in the international law of armed conflict (known as international humanitarian law), particularly as it relates to the protection of non-combatants (civilians and prisoners of war). In doing so, we will examine how international humanitarian law and human rights law intersect. Both sets of legal norms are designed to protect the lives, well-being, and dignity of individuals. However, the condition of armed conflict provides a much wider set of options for governments and individuals to engage in violent, deadly action against others, including killing, forcibly detaining, and destroying the property of those designated as combatants. At the same time, the means of waging war are not unlimited, but rather are tightly regulated by both treaty and customary law. This course will examine how these regulations operate in theory and practice, focusing on the principles of distinction, proportionality, and military necessity

**HRTS GU4950 HUMAN RIGHTS # HUMAN WRONGS. 3.00 points.**

MAIL INSTR FOR PERM. PRIORITY: 3&4YR HUMAN RIGHT & HRSMA

Prerequisites: the instructor’s permission. Please e-mail the instructor at bc14@columbia.edu.

Prerequisites: the instructor’s permission. Please e-mail the instructor at bc14@columbia.edu. This course will examine the tension between two contradictory trends in world politics. On the one hand, we have emerged from a century that has seen some of the most brutal practices ever perpetrated by states against their populations in the form of genocide, systematic torture, mass murder and ethnic cleansing. Many of these abuses occurred after the Holocaust, even though the mantra never again was viewed by many as a pledge never to allow a repeat of these practices. Events in the new century suggest that these trends will not end anytime soon. At the same time, the course will explore the often-contested terrain of urban contexts, looking at cities from architectural, sociological, historical, and political positions. What do rights have to do with the city? Can the ancient idea of a right to the city tell us something fundamental about both rights and cities? Our notion of citizenship is based in the understanding of a city as a community, and yet today why do millions of people live in cities without citizenship? The course will be organized thematically in order to discuss such issues as the consequences of cities developments in relation to their peripheries beginning with the normative idea of urban boundaries deriving from fortifying walls, debates around the public sphere, nomadic architecture and urbanism, informal settlements such as slums and shantytowns, surveillance and control in urban centers,
from abuse by their governments. This concept of human rights has been institutionalized through international law, diplomacy, international discourse, transnational activism, and the foreign policies of many states. Over the past two decades, international organizations, non-governmental organizations, and international tribunals have gone further than any institutions in human history to try to stem state abuses. This seminar will try to make sense of these contradictions.

**OF RELATED INTEREST**

Please see the ISHR undergraduate course list for additional courses approved for the human rights major and concentration.

**ITALIAN**

**Departmental Office:** 502 Hamilton; 212-854-2308  

**Director of Undergraduate Studies:** Assoc. Prof.  
Pier Mattia Tommasino, 513 Hamilton; 212-854-0747;  
pmt2114@columbia.edu
and multimedia materials, including books, film, and opera, supplement the primary course text.

The sequence in elementary and intermediate Italian enables students to fulfill the College’s foreign language requirement and thoroughly prepares them for advanced study of language and for literature courses taught in Italian. Specialized language courses allow students to develop their conversational skills.

For highly motivated students, the department offers intensive elementary and intensive intermediate Italian, both of which cover a full year of instruction in one semester. Courses in advanced Italian, although part of the requirements for a major or a concentration in Italian, are open to any qualified student whose main goal is to improve and perfect their competence in the language.

Outside the classroom, the Department of Italian organizes a weekly Caffè e conversazione where students at all levels can converse with fellow students and faculty members over Italian espresso and cookies. Students can also attend the Serata al cinema, Italian film viewings scheduled in the evening throughout the academic year, in which faculty and graduate students introduce each film and then conclude with a question and answer session. In addition, the student-run Società Italiana (culasocieta@gmail.com) organizes events such as pasta-making workshops, movie nights, and costume parties.

**ADVANCED PLACEMENT**

The department grants 3 credits for a score of 5 on the AP Italian Language exam, which satisfies the foreign language requirement. Credit is awarded upon successful completion of a 3000-level (or higher) course with a grade of B or higher. This course must be for at least 3 points of credit and be taught in Italian. Courses taught in English may not be used for language AP credit. The department grants 0 credits for a score of 4 on the AP Italian Language exam, but the foreign language requirement is satisfied.

**CASA ITALIANA**

A wide range of cultural programs are sponsored by the Italian Academy for Advanced Studies in America, located in Casa Italiana. These programs, which include the activities of the Columbia Seminar on Modern Italian Studies and the Italian Academy Film Festival, enrich the learning experience of the student and offer opportunities to meet distinguished Italian and Italian-American visitors to the University. The Paterno book collection is housed in Butler Library and contains valuable resources on Italian literature and culture.

For inquiries into the department and its undergraduate and graduate degrees offered, please contact 212-854-2308 or italian@columbia.edu.

**LANGUAGE RESOURCE CENTER**

The Language Resource Center (LRC) provides resources for intensive practice in pronunciation, diction, and aural comprehension of some twenty-five modern languages. LRC exercises are closely coordinated with the classroom’s work.

Coordinated tape programs and on-line audio are available and mandatory for students registered in elementary and intermediate Italian language courses. Taped exercises in pronunciation and intonation, as well as tapes of selected literary works, are also available to all students in Italian courses.

**ELECTRONIC CLASSROOMS**

Language instruction courses meet at least once a week in a multimedia-equipped electronic classroom in order to facilitate exposure to Italian arts such as music, opera, and film, and for other pedagogical uses.

**DEPARTMENTAL HONORS**

Majors in Italian literature or Italian cultural studies who wish to be considered for departmental honors in Italian must: (1) have at least a 3.6 GPA in their courses for the major; and (2) complete a senior thesis or tutorial and receive a grade of at least A- within the context of the course ITAL UN3993 SENIOR THESIS/TUTORIAL. Normally no more than one graduating senior receives departmental honors in a given academic year.

**PROFESSORS**

Teodolinda Barolini, Director of Graduate Studies (DGS)
Jo Ann Cavallo, Chair (on leave AY ’23)
Elizabeth Leake, Acting Chair

**ASSOCIATE PROFESSOR**

Nelson Moe (Barnard)
Pier Mattia Tommasino, Director of Undergraduate Studies (DUS)

**ASSISTANT PROFESSOR**

Konstantina Zanou (on leave AY ’23)

**SENIOR LECTURERS**

Felice Italo Beneduce, Intermediate DLP
FedERICA Franze
Maria Luisa Gozzi
Patrizia Palumbo
Carol Rounds (Hungarian)
Alessandra Saggini, Elementary DLP
Barbara Spinelli

**GUIDELINES FOR ALL ITALIAN MAJORS AND CONCENTRATORS**

The courses in the Department of Italian are designed to develop the student’s proficiency in all the language skills and to present the literary and cultural traditions of Italy. The program of study is to be planned as early as possible with the director of undergraduate studies. Students are advised to meet
with the director of undergraduate studies each semester in order to obtain program approval.

For students with no knowledge of Italian, the required language course sequence is:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Course Title</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ITAL UN1101</td>
<td>ELEMENTARY ITALIAN I</td>
<td>ITAL UN1102</td>
<td>ELEMENTARY ITALIAN II</td>
</tr>
<tr>
<td>ITAL UN2101</td>
<td>INTERMEDIATE ITALIAN I</td>
<td>ITAL UN2102</td>
<td>INTERMEDIATE ITALIAN II</td>
</tr>
</tbody>
</table>

For students planning to enroll in Intensive Italian courses, a minimum of three semesters of Italian language instruction is required, such as:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Course Title</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ITAL UN1121</td>
<td>INTENSIVE ELEMENTARY ITALIAN</td>
<td>ITAL UN2101</td>
<td>INTERMEDIATE ITALIAN I</td>
</tr>
<tr>
<td>ITAL UN1101</td>
<td>ELEMENTARY ITALIAN I</td>
<td>ITAL UN2102</td>
<td>INTERMEDIATE ITALIAN II</td>
</tr>
<tr>
<td>ITAL UN1121</td>
<td>INTENSIVE ELEMENTARY ITALIAN</td>
<td>ITAL UN2121</td>
<td>INTENSIVE INTERMEDIATE ITALIAN</td>
</tr>
</tbody>
</table>

And one of the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Course Title</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ITAL UN3335</td>
<td>ADVANCED ITALIAN I</td>
<td>ITAL UN3336</td>
<td>ADVANCED ITALIAN II</td>
</tr>
<tr>
<td>ITAL UN3337</td>
<td>ITALIAN THROUGH CINEMA</td>
<td>ITAL UN3338</td>
<td>Italiana. Introduction to Italian Culture, the High, the Low, and the In-between</td>
</tr>
<tr>
<td>ITAL UN3339</td>
<td>Learning Italian in Class and Online: A Telecollaboration with Italy.</td>
<td>ITAL UN3341</td>
<td>Art Itineraries: Italian through Art</td>
</tr>
<tr>
<td>ITAL UN3342</td>
<td>Business Italian and the Made in Italy Excellence: Learning Italian for trade and industry</td>
<td>ITAL UN3343</td>
<td>ITALY:EMIGRATION-IMMIGRATION</td>
</tr>
<tr>
<td>ITAL UN3993</td>
<td>SENIOR THESIS/TUTORIAL (or another course in Italian literature or culture)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Native speakers and students with superior proficiency (as demonstrated by a departmental exam) may replace the Advanced Italian sequence with six points of Italian literature courses of their choice.

As noted above, courses given entirely in English do not have linguistic prerequisites; students planning a major in Italian may enroll in such courses before completing the language prerequisite for the major or concentration.

**MAJOR IN ITALIAN**

Please read *Guidelines for all Italian Majors and Concentrators* above.

**Requirements**

The major in Italian literature requires a minimum of 30 points in Italian courses numbered above the intermediate level, i.e., above ITAL UN2121, to include the following:

**Two semesters of Advanced Italian**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ITAL UN3333</td>
<td>INTRO TO ITALIAN LITERATURE I</td>
<td>ITAL UN3334</td>
</tr>
</tbody>
</table>

**Two Semesters of Italian Literature**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ITAL UN3333</td>
<td>INTRO TO ITALIAN LITERATURE I</td>
<td>ITAL UN3334</td>
</tr>
</tbody>
</table>

**Additional Courses**

Select at least two other courses from the department's GU4000-level courses.

In consultation with the director of undergraduate studies, the remaining courses may be selected from the department's 3000- or 4000-level offerings or from other humanities and social science departments with a focus on Italian literature or culture.

**ITAL UN3993**

Native speakers and students with superior proficiency (as demonstrated by a departmental exam) may replace the Advanced Italian sequence with six points of Italian literature courses of their choice.
Period Distribution
At least two courses that cover material before 1700 and two courses that cover material after 1700.

CONCENTRATION IN ITALIAN
Please read Guidelines for all Italian Majors and Concentrators above.

Requirements
The concentration in Italian literature requires a minimum of 24 points in Italian courses numbered above the intermediate level, i.e., above ITAL UN2121, to include the following:

Two semesters of Advanced Italian
ITAL UN3335 - ITAL UN3336
ADVANCED ITALIAN I
and ADVANCED ITALIAN II
ITALIAN THROUGH CINEMA
or ITAL UN3337
or ITAL UN3338
Italiana. Introduction to Italian Culture, the High, the Low, and the In-between
or ITAL UN3339
Learning Italian in Class and Online: A Telecollaboration with Italy.
or ITAL UN3341
Art Itineraries: Italian through Art
or ITAL UN3342
Business Italian and the Made in Italy Excellence: Learning Italian for trade and industry
or ITAL UN3232
ITALY: EMIGRATION-IMMIGRATION
or ITAL UN3645
Grand Tour in Italy

Two semesters of Italian Literature
ITAL UN3333 - ITAL UN3334
INTRO TO ITALIAN LITERATURE I
and INTRO TO ITALIAN LITERATURE II

- OR -

Two Semesters of Italian Culture
ITAL GU4502 - ITAL GU4503
ITALIAN CULTURAL STUDIES I
and ITL CULTRL ST II: WWI-PRESENT

Additional Courses
Select at least two other courses from the department’s GU4000-level courses.

In consultation with the director of undergraduate studies, the remaining courses may be selected from the department’s 3000- or 4000-level offerings or from other humanities and social science departments with a focus on Italian literature or culture.

ITALIAN COURSES
ITAL UN1101 ELEMENTARY ITALIAN I, Elementary Italian I. 4.00, 4 points.
Limited enrollment.

Elementary level of Italian.

ITAL UN1102 ELEMENTARY ITALIAN II, Elementary Italian II. 4.00, 4 points.
Limited enrollment.

Prerequisites: ITAL UN1101 or the equivalent. ITAL V1101 or the equivalent.
Prerequisites: ITAL V1101 or the equivalent. Introduction to Italian grammar, with emphasis on reading, writing, listening and speaking skills.

Introduction to Italian grammar, with emphasis on reading, writing, listening and speaking skills.

ITAL UN1121 INTENSIVE ELEMENTARY ITALIAN.  
6.00 points. 
Limited enrollment.

An intensive course that covers two semesters of elementary Italian in one, and prepares students to move into Intermediate Italian. Students will develop their Italian communicative competence through listening, (interactive) speaking, reading and (interactive) writing. The Italian language will be used for real-world purposes and in meaningful contexts to promote intercultural understanding. This course is especially recommended for students who already know another Romance language. May be used toward fulfillment of the language requirement

ITAL UN3339 Learning Italian in Class and Online: A Telecollaboration with Italy. 3 points.
Prerequisites: (ITAL UN2102) ITAL UN2102 or the equivalent. If you did not take Intermediate Italian at Columbia in the semester preceding the current one, you must take the placement test, offered by the Italian Department at the beginning of each semester.
The aim of the course is the intensive practice in the spoken and written language, through topics on current cultural issues assigned for in class and online discussions. Students will learn about current events through a varied selection of written and visual texts such as newspaper articles, authentic videos and in-person interviews. There will be an extensive work on vocabulary and grammar review. The course will be integrated by an online section, which will allow students to engage with the language and the topics selected, also outside of class. In particular, during the second half of the semester, we will partner with the students of a Master’s program in “Teaching Italian to foreigners” at an Italian University, for an unique online exchange program.
At the end of the course, students will have acquired a deeper knowledge of Italian contemporary life and culture, and improved both their written and oral communication skills, within specific socio-pragmatic areas.
Italian is the language of instruction and the use of English is not permitted in class nor during the online lessons.
ITAL UN3341 Art Itineraries: Italian through Art. 3.00 points.
Prerequisites: (ITAL UN2102) or (ITAL UN2121) Students must have completed Intermediate level Italian language proficiency.
Prerequisites: (ITAL UN2102) or (ITAL UN2121) Students must have completed Intermediate level Italian language proficiency. The course, designed for students who have mastered the grammatical structure of the language, will give the students the opportunity to improve their language skills and discover Italian art from Middle Ages to the second half of twentieth century. The works of the artists will be studied and discussed with the intent of developing knowledge of the main features of artistic and cultural movements and of the appropriate vocabulary and terminology to describe and talk about them. A particular emphasis will be put to oral and written productions: various kinds of texts and genres will be practiced (description, narration, critical analysis). Students will learn how to describe and interpret a work of art, examine the main characteristics and the techniques used by the artists and will be able to look for themes recurring in the artistic productions. The artists covered during the course will be introduced along the lines of their unique artistic, historical and socio-cultural relevance through different sources: images, scholarly essays, literature, video and music. Two visits to the
ITAL UN3642 Business Italian and the Made in Italy Excellence: Learning Italian for trade and industry. 3.00 points.

Everywhere in the world, the expression ‘Made in Italy’ evokes the idea of quality, elegance and unique taste. From food to wine, from artisanal craftsmanship to fashion, from the automobile industry to the design, ‘Made in Italy’ means creativity, durability, and a guarantee of excellence. Today, Italy is the fourth largest economic power in Europe and many countries like the USA have long established economic relationships and partnership with it. While the English language has been increasingly used during these economic exchanges, a basic knowledge of Italian terminology within a context of commerce and trade is an important asset and a useful resource. Developing a strong understanding of the Italian business environment and its culture offers useful advantages for all those who want to create ties with or plan to work in the Italian business world in the future. The course is open to all students who have completed the Italian intermediate level and would like to have an introduction to Italian language used for work and business. The course will be conducted as an intensive practice in the spoken and written language through assigned topics focusing on Italian business and related cultural themes. It will provide an overview of the job market world and the business environment in Italy, giving students the main tools to explore and interact appropriately in a professional environment. During the second half of the semester, the course will introduce students to the Made in Italy excellence and the history responsible for Italian Style’s world-renowned fame and high-demand. Students will learn how the concept of Made in Italy originated, look at the history of Italian style and its international value. The lessons in the second half of the semester will be integrated with interviews of people in Italy and in New York City working in businesses that sell or advertise Italian products. The interviews (one per week) will provide a direct look into the areas that are being discussed in class, so that students will have the opportunity to learn firsthand what it means to work in a business in Italy or with Italy, and with Italian products.

ITAL UN3643 History of Italian Cinema. 3 points.

This course explores the evolution of Italian Cinema from the pre-Fascist era to the millenium, and examines how films construct an image of Italy and the Italians. Special focus will be on the cinematic representations of gender. Films by major directors (Fellini, De Sica, Visconti) as well as by leading contemporaries (Moretti, Garrone, Rohrwacher) will be discussed.

ITAL UN3645 Grand Tour in Italy. 3 points.

Prerequisites: Note: Italian is the language of instruction.

Course Description

This course proposes a virtual tour of the country’s most famous sites, looking at the ways in which what is local and peculiar, diverse and marginal, contributes its distinctive style and character to the overall unity and uniqueness of Italy. Each week we consider a different aspect of Italy’s richness and variety: from the evolution of its language/s and dialects to its humor; its art and landscapes; the music from ancient times to current pop songs; its cinema and web serials, its cuisine, the contributions of migrants, and much more.

The course is highly interdisciplinary and will assist students in the development of their linguistic and cultural skills, while tracing the origins of most mainstream Italian cultural phenomena, and imparting an awareness of modern Italy's multiculturalism.

CLIA GU3660 MAFFIA MOVIES. 3.00 points.

Examines representations of the mafia in American and Italian film and literature. Special attention to questions of ethnic identity and immigration. Comparison of the different histories and myths of the mafia in the U.S. and Italy. Readings includes novels, historical studies, and film criticism. Limit 35

ITAL UN3661 New Perspectives on Machiavelli # Renaissance Florence. 3.00 points.

What do we envision when we think about Renaissance Florence? A long-standing and influential narrative placing Florence at the heart of the Renaissance prompts us to
imagine a civilization defined by the esthetic ideals of beauty, grace, harmony, and balance. On the other hand, there are counter arguments that emphasize darker elements and suggest that the Italian Renaissance was a period marked by violence, immorality, and a cynicism famously attributed to the Florentine Niccolò Machiavelli. Since neither of these contrasting perspectives provides an exhaustive, accurate picture, it is useful—indeed, necessary—to explore the phenomenon that we call Renaissance with an openness to its full range of dimensions. In this process, our very present may both contribute to and complicate our endeavor to shape new paths of inquiry. This course will focus on Renaissance Florence from a variety of viewpoints. In the introductory section, we will use a diverse set of sources (including theoretical readings and examples from pop culture) to lay the foundations of our work. Then, building on recent trends in Renaissance scholarship, our exploration will foreground three perspectives in particular: (I) we will look at Renaissance Florence through the lens of queer and gender studies; (II) we will consider the role of orality and performance; and (III) we will focus on cultural and religious diversity. Special attention will be devoted to the figure and works of Niccolò Machiavelli. By looking at Machiavelli from the three perspectives mentioned above, we will be able to investigate neglected sides of his intellectual personality as well as to reappraise some aspects of his political thinking. Throughout the semester, we will interrogate a wide variety of primary sources, including literary texts, letters, paintings, and musical pieces. Moreover, we will read selected secondary sources that will facilitate our dialogue with the primary materials and enable us to take into account additional queries. In order to reach the learning objectives set for the course, students will have the possibility to engage in an array of oral, written, and multimodal assignments. There are no prerequisites for this course. Students are welcome to read sources in the original language if they wish to do so; however, no knowledge of Italian is required.

**ITAL UN3661 Introduction to Fashion Studies. 3.00 points.**

This seminar examines the many meanings of fashion, design, and style; how values underlying fashion are selected, preserved, denied, reinvented or rethought; how the symbolic meanings and ideological interpretations are connected to creation, production and consumption of fashion goods. Based on an anthropological perspective and framework, this interdisciplinary course will analyze ways in which we can understand fashion through the intersections of many different levels: political, economic, aesthetic, symbolic, religious, etc. The course will study how fashion can help us understand the ways in which tradition and innovation, creativity and technology, localism and globalization, identity and diversity, power and body, are elaborated and interpreted in contemporary society, and in relation to a globalized world. Short videos that can be watched on the computer will be assigned. There are no pre-requisites for this course. In English

**ITAL GU4015 ITALIAN FOOD/GLOBALIZED WORLD. 3.00 points.**

This seminar examines the many meanings of food in Italian culture and tradition; how values and peculiarities are transmitted, preserved, reinvented and rethought through a lens that is internationally known as ‘Made in Italy’; how the symbolic meanings and ideological interpretations are connected to creation, production, presentation, distribution, and consumption of food. Based on an anthropological
perspective and framework, this interdisciplinary course will analyze ways in which we can understand the Italian taste through the intersections of many different levels: political, economic, aesthetic, symbolic, religious, etc. The course will study how food can help us understand the ways in which tradition and innovation, creativity and technology, localism and globalization, identity and diversity, power and body, are elaborated and interpreted in contemporary Italian society, in relation to the European context and a globalized world. Short videos that can be watched on the computer and alternative readings for those fluent in Italian will be assigned. In English

ITAL GU4019 TOPICS in MICROHISTORY. 3 points.
In the 1970s and 1980s a group of young Italian historians transformed the methods of historical inquiry and narrative. This class explores the origins, the diffusion, as well as the debate around Italian Microhistory across Europe and the United States. In particular, we will focus on “cultural” and “social” Microhistory and its evolution in Italy, France, and the US. We will read masterpieces such as Carlo Ginzburg’s The Cheese and the Worms, as well as Nathalie Zemon Davis’s The Return of Martin Guerre. Also, we will analyze the current application of microhistorical methods to contemporary global history and the genre of biography. Topics include pre-modern popular culture and literacy, minority and marginality, the Inquisition, individual and collective identities, and the relation between the pre-modern Mediterranean, Europe and the world. In Italian.

CLIA GU4021 The Age of Romanticism across the Adriatic. 3 points.
Prerequisites: Knowledge of Italian desirable but not necessary
This interdisciplinary seminar will study Romanticism as a literary trend, as much as a historical phenomenon and a life attitude. Romanticism is viewed here as the sum of the different answers to the sense of insecurity, social alienation and loneliness, provoked by the changing and frail world of the end of the eighteenth and the beginning of the nineteenth century. We will investigate the Romantic ideology in relation to the trans-Adriatic world of Italy and Greece, an area that entered modernity with the particular lure and burden of antiquity, as well as through revolutionary upheaval. Students will be invited to read authors like Vittorio Alfieri, Ugo Foscolo, Silvio Pellico, Giacomo Leopardi, Alessandro Manzoni, Massimo d’Azeglio, and to reflect on themes such as Nostalgia and Nationalism, the Discovery of the Middle Ages, the Historical Novel, the Invention of Popular Tradition, the Fragmented Self, Autobiographical and Travel Writing, the Brigand Cult, Hellenism, Philhellenism, Orientalism and Balkanism, and others.

CLIA GU4022 Diasporas in Italian and Transnational History. 3 points.
Some years ago the word Diaspora referred to Jews and was spelled with a capital D. Today, almost every ethnic group, country, or separatist movement has its diaspora. Usually, these diasporas are presented as pieces of national life scattered here and there, in places far away from the national core. In this seminar, however, we will treat diasporas not as an emblem of national unity but as an expression of diversity, of a multiplicity of loyalties and belongings. By combining history, literature, film, and cultural studies, and by approaching the topic through the lens of transnationalism, we will study topics such as Mobility and Nationalism, Diasporas in Intellectual History, The Mediterranean in Motion, Italian Migration, Mobile Italy and its Colonies, Displacements in the Eastern Mediterranean, Lost Cosmopolitanisms in the Middle East, Emigration from Eastern Europe, and Mediterranean Refugees and Memory. The aim is to turn our gaze away from the territorially defined countries, towards a view of the world in which countries are ship-like territories.

ITAL GU4022 THE QUR’AN IN EUROPE. 3.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement
Is the Qur’an translatable? Was the Qur’an translated? Are non Arabic-speaking Muslims allowed to translate the Qur’an? And what about non-Muslims? Did Muslims and non-Muslims collaborate in translating the text of the Qur’an into Latin and European vernaculars? This course focuses on the long history of the diffusion of the Qur’an, the Scripture of the Muslims, and one of the most important texts in the history of humanity. We will focus on reading and translation practices of the Qur’an in Europe and the Mediterranean, from the Middle Ages to the contemporary world. We will explore how European Muslims, such as Iberian moriscos, European Jews, as well as Orthodox, Protestants and Catholics read, copied, collected, translated and printed the Qur’an. We will also explore why the Qur’an was confuted, forbidden, burned and even eaten, drunk and worn along eight centuries of the history of Europe. This long excursus, based on a close reading of the Qur’an and on the discussion of the major themes this close reading proposes, will help us to understand the role of Islam and its revelation in the formation of European societies and cultures.

CLIA GU4023 Travel Literature in and from the Mediterranean, 18th-19th centuries. 3 points.
This course will study various forms of travel writing within, from, and to the Mediterranean in the long nineteenth century. Throughout the semester, you will read a number of travel accounts to develop your understanding of these particular sources and reflect on the theoretical discussions and the themes framing them, namely orientalism, postcolonial studies, imaginative geographies, literature between fiction and reality, Romantic and autobiographical writing, gender, sexuality and the body, the rise of archeology, adventurism, mass migration and tourism. We will focus on Italian travel writers visiting the Ottoman Empire and the Americas (Cristina di Belgioioso, Gaetano Ossolati, Edmondo de Amicis) and others visiting the Italian peninsula (Grand Tourists, Madame De Staël), and we will study the real or imaginary travels of French, British and American writers to the Eastern Mediterranean and to antique and holy lands (Jean-Jacques Barthélemy, Count Marcellus, Austen Henry Layard, Lord Byron, Mark Twain), as well as Arabic travel writers to the West (Rif’ah Riffa‘, Kahlil Gibran, Ali al-Harrawi al-Baghdadi).

576
CLIA GU4024 Nationalism in Theory and History. 3.00 points.
Were nations always there? Are they real or imagined? Do they come before or after nationalism and the state? How did we pass from a world of empires, duchies, and city-states to a world of nation-states? Where does legitimacy reside if not in God and his endowed kings? Is the modern world really ‘disenchanted’? How did we come to understand time, space, language, religion, gender, race, and even our very selves in the era of nations? Are we done with this era, living already in postnational times? This course will combine older theories of nationalism (Gellner, Anderson, Hobson, Smith) with recent approaches of the phenomenon after the ‘Imperial/Global/Transnational Turn’ (Bayly, Conrad, Innes, Isabella, Reill, Stein etc.) and late studies in Gender, Race, Culture and Nationalism, in order to offer new answers to old questions. We will talk about many places around the world, but the main stage where we will try out our questions is Italy and the Mediterranean

ITAL GU4055 ANTHROPOLOGY OF CONTEMP ITALY. 3.00 points.
This seminar examines ways in which Italy is understood and represented by Italians and non-Italians. It will analyze the formation of multiple discourses on Italy, how Italian culture and society are imagined, represented and/or distorted. Based on an anthropological perspective, this course will examine ways in which we can understand Italy through the intersections of pluralism, ethnicity, gender, and religion. The course will study how Italy strives for political and economic unity, while there is a concurrent push toward inequality, exclusion, and marginalization. Moreover, the course will analyze the revitalization of nationalism on one hand of regionalism on the other, and will focus on the concepts of territory, identity, and tradition. Short videos that can be watched on computer and alternative readings for those fluent in Italian will be assigned. There are no pre-requisites for this course

Spring 2023: ITAL GU4055
Course Number 001/13155
Times/Location M 2:10pm - 4:00pm 3.00 11/25
Instructor Barbara Faedda
Classroom 401 Hamilton Hall

ITAL GU4057 ANTHROPOLOGY OF ITALIAN FOOD, FASHION, & DESIGN. 3 points.
Not offered during 2022-23 academic year.
This colloquium examines the many meanings of food, fashion, designs, trends, and style, especially in Italian culture and tradition; how values and peculiarities are transmitted, preserved, reinvented, and rethought through a lens that is internationally known as "Made in Italy"; how the symbolic meanings and ideological interpretations are connected to creation, production, and consumption of goods. Based on an anthropological perspective and framework, this interdisciplinary course will analyze ways in which we can understand the 'Italian style' through the intersections of many different levels: political, economic, aesthetic, symbolic, religious, etc. The course will study how fashion, food, and design can help us understand the ways in which tradition and innovation, creativity and technology, localism and globalization, identity and diversity, power and body, are elaborated and interpreted in contemporary Italian society, in relation to the European context and a globalized world.

Short videos that can be watched on the computer and alternative readings for those fluent in Italian will be assigned.

ITAL GU4086 Castiglione and the Italian Renaissance Court. 3 points.
Focus on Castiglione’s Book of the Courtier as educational treatise, philosophical meditation, sociopolitical document, and book of courtly manners; other courtly writings of the period, from Della Casa’s Galateo to Ariosto’s Satires to Bembo’s Asolani. Lectures in English; text in Italian, although comparative literature students who can follow with the help of translations are welcome.

ITAL GU4043 Italian Renaissance Literature and Culture. 3 points.
This course on Italian Renaissance literature and culture will pay special attention to the crossing of boundaries, whether socio-cultural, religious, linguistic, gendered, ethnic, or strictly geographical, in a range of fourteenth- to early seventeenth-century texts in a variety of genres, including travelogue, chivalric epic poetry, comedy, dialogues, and the novella, as well as political, philosophical, and scientific writing. Authors covered include Marco Polo, Leonardo Bruni, Pico della Miranda, Boiardo, Ariosto, Machiavelli Castiglione, Beolco, Giraldi Cinzio, Tasso, Moderata Fonte, Tarabotti, and Galileo. In English.
ITAL GU4089 Petrarch's Canzoniere. 3 points.
This course presents a reading of Petrarch's Canzoniere and a theory of the lyric sequence as a genre. In this course we examine Petrarch as he fashions himself authorially, especially in the context of Ovid, Dante, and previous lyric poets. We bring to bear ideas on time and narrative from authors such as Augustine and Ricoeur in order to reconstruct the metaphysical significance of collecting fragments in what was effectively a new genre. We will consider Petrarch's lyric sequence in detail as well as read Petrarch's Secretum and Trionfi. Lectures in English; text in Italian, although students from other departments who can follow with the help of translations are welcome.

ITAL GU4091 DANTE'S DIVINA COMMEDIA 1. 4.00 points.
ITALIAN MAJORS AND ITALIAN DEPT GRADUATE STUDENTS MUST REGISTER FOR SECTION 001.

Prerequisites: SECTION 001: reading knowledge of Italian. SECTION 002: none.
A year-long course in which the "Commedia" is read over two consecutive semesters; students can register for the first, the second, or both semesters. This course offers a thorough grounding in the entire text and an introduction to the complexities of its exegetical history. Attention not only to historical and theological issues, but also to Dante's mimesis, his construction of an authorial voice that generations of readers have perceived as "true," and the critical problems that emerge when the virtual reality created in language has religious and theological pretensions. SECTION 001: Lectures in English, text in Italian; examinations require the ability to translate Italian. SECTION 002: Lectures in English, examinations in English; students who can follow lectures with the help of translations but who cannot manage the Italian should register for this section.

ITAL GU4100 Narratives of Modernity. 3 points.
In revisiting two major authors of the Italian modern novel, the course investigates the relation between fiction and the "conditions of modernity" (personal risk, anxiety and lack of control on reality, secularization, to name a few). Special attention will be paid to the response of the novelistic discourse to modernity, and to Italy's peculiarly peripheral position in the modern world. Primary texts will be read in Italian, while theoretical references will be in English.

ITAL GU4109 ITAL AUTOBIOGRAPHY 19-20TH CENT. 3.00 points.
Against the backdrop of the heated critical debate on the boundaries and limitations of the autobiographical genre, this course addresses the modern and contemporary tradition of autobiographical writings, focusing in particular (but not exclusively) on exploring and positing the potential difference between male and female autobiographers. More specifically, we will question the adequacy of the traditional model of autobiographical selfhood based on the assumption of unified, universal, exemplary and transcendent self to arrive at an understanding of women's autobiography. Topics to be addressed include: the crisis of the subject, je est un autre, the man with a movie camera, strategies of concealment and disclosures. Authors to be studied include: D'Annunzio, Pirandello, Svevo, Fellini, Moretti, Ortese, Ginzburg, Manzini, Cialente, Ramondino. In Italian
Spring 2023: ITAL GU4109
Course Number/Call Number: 4109 001/13119
Times/Location: T 2:10pm-4:00pm
Instructor: Elizabeth Leake
Points: 3.00
Enrollment Capacity: 3/20

ITAL GU4140 ITAL FASCISM # ITS REPRESENTATION IN FILM. 3.00 points.
ITAL GU4185 The Making of Italy: The Risorgimento in Global Context. 3 points.
Prerequisites: Knowledge of Italian is necessary for this course. This course will examine the history of the Italian Risorgimento by following the major historiographical trends of the recent decades. First, it will approach the Risorgimento through the prism of cultural and intellectual history by investigating a series of topics, such as the discursive patterns of the ‘Risorgimento canon’, the gendered tropes of nationalism, the creation of a new public sphere through operas, festivals and plebiscites, the connection of nationalism with religion, and the relation of empire to nation and liberalism. Second, it will look at the Risorgimento through the eyes of local and regional history by examining local patriotism, revolutions and civil wars and the division between North and South. Finally, it will offer a new topography of Italian history by placing the Risorgimento in its Mediterranean and global context and by exploring its international aspects: the global icons that it produced (i.e. Garibaldi, Mazzini); the networks of exiles in other Mediterranean and European countries; the war volunteers; and the connection of Italian patriots with the wave
of liberalism and revolution that swept the globe from India to Latin America.

**CLIA GU4300 Renaissance Orientalism. 3.00 points.**

This course offers an overview of the scholarly debate about the Renaissance during the last twenty years (2001-2021), with a particular focus on the relationship between early modern Italy, Europe, and Muslim Eurasia. This class intends to give students insight into and philological tools to engage the current debate about the revision of the concept—and the period—of the Renaissance (broadly 1350-1570). We will read both primary (Petrarch, Pico della Mirandola, Galateo, Leonardo Bruni, Leo Africanus) and secondary sources in order to understand the main trends of philological and historical research about early modern Eurasia in the last twenty years. We will read about how Petrarch’s anti-Arabism has been analyzed and used by twentieth-century Medievalists. We will explore how Said’s Return to Philology influenced the study of the transmission of texts in the Early Modern World. Also, we will try to understand the role of Islam, Muhammad, and the Ottoman Empire in the evolution of European political thought. Similarly, we will dive into Early Modern European representations of the Muslim Other, as well as into Arabic travel writing about Early Modern Europe. The main goal of this class is to discuss with the students about what happened in the field of Renaissance studies in the last two decades, roughly between September 11, 2001 and our current “post”-pandemic world, with a particular attention to the study of literary texts, intellectual and cultural history, the history and theory of translation. In English

**ITAL GU4395 Fifty Years of Impatience: The Italian Novel between 1950-2000. 3 points.**

The course examines some of the most important novels that belong to Italy’s period of major social and economic transformations. Only after WWII Italy finally becomes a modern nation, i.e. a republic based on truly universal suffrage, and an industrialized country. Such accelerated progress, though, causes deep social instability and mobility which obviously results in heavy psychological pressures on the people: adaptation becomes crucial and inevitable. Fiction therefore resumes the task to represent such awkwardness of integration into a modern bourgeois society that, contrarily to its European and American counterpart, is extremely tentative and insecure per se, since its political identity has extremely precarious grounds. Among other authors, primary readings include Giuseppe Tomasi di Lampedusa’s The Leopard and Italo Calvino’s If on a Winter’s Night a Traveler. *Primary Readings in Italian.*

**ITAL GU4420 The Window On the World: Reassessing Italian Neorealism. 3 points.**

Not offered during 2022-23 academic year.

Roberto Rossellini, Vittorio De Sica, Luchino Visconti and other Italian filmmakers challenged modes of film production in vogue in the 1940s and 1950s, both in theoretical and practical terms. This course will analyze both the feature films and the theoretical writings of such directors as those mentioned and others, in order to investigate the modes of representation of reality in the immediate postwar years, their relation to the identity of the newborn Italian Republic, and their significance in post-WWII filmmaking. All readings and lectures in English; Films in Italian or French, with English subtitles.

**CLIA GU4499 Mediterranean Humanities I. 3.00 points.**

Mediterranean Humanities I explores the literatures of the Mediterranean from the late Middle Ages to the Early Nineteenth Century. We will read Boccaccio, and Cervantes, as well as Ottoman poetry, Iberian Muslim apocalyptic literature, and the Eurasian connected versions of the One Thousand and One Nights. We will dive into the travel of texts and people, stories and storytellers across the shores of the Middle Sea. Based on the reading of literary texts (love poetry, short stories, theater, and travel literature), as well as letters, biographies, memoirs, and other ego-documents produced and consumed in the Early Modern Mediterranean, we will discuss big themes as Orientalism, estrangement, forced mobility, connectivity, multiculturalism and the clash of civilizations. Also, following in the footsteps of Fernand Braudel and Erich Auerbach, we will reflect on the Mediterranean in the age of the first globalization as a laboratory of the modern global world and world literature

**CLIA GU4500 Mediterranean Humanities. 3.00 points.**

What is the Mediterranean and how was it constructed and canonized as a space of civilization? A highly multicultural, multilingual area whose people represent a broad array of religious, ethnic, social and political difference, the Mediterranean has been seen as the cradle of western civilization, but also as a dividing border and a unifying confluence zone, as a sea of pleasure and a sea of death. The course aims to enhance students’ understanding of the multiple ways this body of water has been imagined by the people who lived or traveled across its shores. By exploring major works of theory, literature and cinema since 1800, it encourages students to engage critically with a number of questions (nationalism vs cosmopolitanism, South/North and East/West divides, tourism, exile and migration, colonialism and orientalism,
borders and divided societies) and to ‘read’ the sea through different viewpoints: through the eyes of a German Romantic thinker, a Sephardic Ottoman family, an Algerian feminist, a French historian, a Syrian refugee, an Italian anti-fascist, a Moroccan writer, an Egyptian exile, a Bosnian-Croat scholar, a Lebanese-French author, a Cypriot filmmaker, an Algerian-Italian journalist, and others. In the final analysis, Med Hum is meant to arouse the question of what it means to stand on watery grounds and to view the world through a constantly shifting lens.

**ITAL GU4502 ITALIAN CULTURAL STUDIES I. 3.00 points.**

An interdisciplinary investigation into Italian culture and society in the years between Unification in 1860 and the outbreak of World War I. Drawing on novels, historical analyses, and other sources including film and political cartoons, the course examines some of the key problems and trends in the cultural and political history of the period. Lectures, discussion and required readings will be in English. Students with a knowledge of Italian are encouraged to read the primary literature in Italian.

**ITAL GU4503 ITAL CULTRL ST II:WWI-PRESENT. 3.00 points.**

An interdisciplinary investigation into Italian culture and society in the years between World War I and the present. Drawing on historical analyses, literary texts, letters, film, cartoons, popular music, etc., the course examines some of the key problems and trends in the cultural and political history of the period. Lectures, discussion and required readings will be in English. Students with a knowledge of Italian are encouraged to read the primary literature in Italian.

**ITAL GU4510 Italian Cinema: From Dolce Vita to the Immigration Crisis. 3 points.**

Not offered during 2022-23 academic year.

**CLIA GU4700 The Mediterranean in History and Anthropology. 3 points.**

Prerequisites: Corequisite Colloquium “The Italian and Mediterranean Colloquium”, Knowledge of French and/or Italian Preferable

This course will offer an overview of historical and anthropological writing on the Mediterranean from the birth of the field through the pages of Fernand Braudel’s celebrated book in the 1940s to the present day. It will trace the shifts in the ways we understand the Mediterranean by examining the sea as a malleable geographical space, which changes over time. It will explore topics such as the macro- and micro-histories of the Sea; the ‘history in’ and the ‘history of’ the Mediterranean; ‘anti-Mediterraneanism’; the revolutionary Mediterraneans; the colonial Mediterranean; the Grand Tour; the migrants in the Mediterranean; Italy in the Mediterranean, and others. Looking at the sea can tell us a lot about human life on land and can change our perspective on how we view this and other parts of the world.

**ITAL GU4725 Pirandello and Modern Drama. 3 points.**

The course will examine the foundations of modern drama and stage representation by analysing Luigi Pirandello's plays and theoretical works in close comparison with the major authors and drama theorists of the XIX century, including Bertolt Brecht, August Strinberg, and Jean Genet.

**HUNGARIAN COURSES**

**HNGR UN1101 ELEMENTARY HUNGARIAN I. 4.00 points.**

Introduction to the basic structures of the Hungarian language. Students with a schedule conflict should consult the instructor about the possibility of adjusting hours.

**HNGR UN1102 ELEMENTARY HUNGARIAN II. 4.00 points.**

Introduction to the basic structures of the Hungarian language. With the instructors permission the second term of this course may be taken without the first. Students with a schedule conflict should consult the instructor about the possibility of adjusting hours.

**HNGR UN2101 INTERMEDIATE HUNGARIAN I. 4.00 points.**

Prerequisites: HNGR UN1101-UN1102 or the equivalent. Further develops a student's knowledge of the Hungarian language. With the instructor's permission the second term of this course may be taken without the first. Students with
The special concentration in jazz studies is an interdisciplinary liberal arts course of study that uses jazz music—and the jazz culture from which the music emanated—as a prism through which to study jazz culture during what might be termed the long jazz century, the Sprawling 20's. The curriculum in this new field guides students in developing a firm grounding in the traditions and aesthetic motives of jazz music, viewed through the perspectives of music history and ethnomusicology as well as literary theory and cultural studies.

The program also explores in depth the development of jazz-oriented art works in the music’s sister arts—literature, dance, painting, photography, and film. While a U.S. focus is highly appropriate, considering the many ways in which jazz is a definitive music of this nation, students also explore jazz’s geographical history beyond these shorelines, including complex, ongoing interactions with Africa, the Caribbean, Europe, and Asia.

The special concentration in jazz studies is designed for music majors as well as for those majoring in other fields. The main difference between music majors and non-music majors is
that while music majors take advanced courses in arranging, composition, and transcription, non-music majors are required to take an introduction to music fundamentals.

While there are some fields where the fit with jazz studies is very obvious—music, American studies, African-American studies, English, comparative literature, and history—special concentrators can major in any field whatsoever. Is there a jazz or improvisatory philosophy? What might be its relation to studies of aesthetics or American pragmatism? And what are jazz’s implications for the student of law? How does one protect the intellectual property rights of an improvised jazz solo? What about business? What economic and political forces have shaped jazz? Who buys jazz? What is its audience? What is a jazz painting? A jazz novel? What is jazz poetry? What is jazz dance? What is a jazz film? What are the sources and meanings of art? What work does the music do for the whole community?

Along with problems of musical history, form, and definition, our special courses explore jazz as a culture. Students not only study individual jazz artists but also explore the immeasurably variegated worlds through which such artists moved, and which they helped to shape. As cultural historians-in-training—focused on questions of nationality, race, sexuality, gender, economics, and politics—students explore the extraordinarily complicated terrains of the New Orleans of Bunk Johnson, for example, or the Baltimore of Billie Holiday (born in Philadelphia, reared in Baltimore). They explore such artists’ other geographical travels. What did their images, including mistaken conceptions of who they were, tell us about the cultures that mythologized them?

How did these jazz musicians influence not only musicians but other artists of their era and milieu: the poets and novelists, painters and sculptors, photographers and filmmakers, dancers and choreographers who regularly heard them play and often shared with them a sense of common project?

One thinks of Tito Puente, working with singers and dancers at the Palladium; Jackson Pollack dancing to the music as he spun drips of paints on canvases placed on the studio floor; Langston Hughes writing detailed instructions to the musicians he hoped would accompany performance of his poetry; Romare Bearden’s beautifully turned stage and costume designs for Alvin Alley and Dianne McIntyre, whose improvisatory jazz dance workshop was called Sound in Motion; the drummer Jo Jones in an interview naming as key influences a series of tap dancers he admired; Stanley Crouch, stirring in his high-powered essays in a room where jazz drums stand at the center, the old dream-kit inspiration; Ralph Ellison, who kept in touch with his beginnings as a musician in Oklahoma City through hour-long conversations with his childhood friend, the singer Jimmy Rushing; Toni Morrison reading her magical prose to improvisations by Max Roach and the dancer Bill T. Jones; and the pianist Jason Moran playing at the Studio Museum in Harlem, where he introduced his group as including Beauford Delany, whose paintings hung on the wall near the bandstand—vigorously all and recall across the art forms.

Perhaps above all, the special concentration in jazz studies is designed to prepare students to be well-prepared and flexible improvisers in a universe of change and possibility.

**GUIDELINES FOR ALL JAZZ STUDIES SPECIAL CONCENTRATORS**

Students interested in a special concentration in jazz studies should speak with the director no later than the fall semester of the sophomore year.

In addition to the requirements of the special concentration, students must complete a major or a full concentration. Students interested in declaring a special concentration in jazz studies will be assigned an adviser. The program of study is to be planned with the adviser as early as possible.

**SPECIAL CONCENTRATION IN JAZZ STUDIES**

Please read Guidelines for all Jazz Studies Special Concentrators above.
The special concentration in jazz studies requires a total of seven courses (22 points minimum), distributed as follows:

### Requirements for Non-Music Majors/Concentrators

- **ENGL GU4612** JAZZ AND AMERICAN CULTURE
- **MUSI UN2016** JAZZ
- **MUSI UN1002** FUNDAMENTALS OF MUSIC

Three interdisciplinary courses as approved by the director

A senior independent study project

### Requirements for Music Majors/Concentrators

- **ENGL GU4612** JAZZ AND AMERICAN CULTURE
- **MUSI UN2016** JAZZ
- **MUSI GU4505** JAZZ ARRANGING # COMPOSITION
- **MUSI GU4500** JAZZ TRANSCRIPTION # ANALYSIS
- **MPP UN1541** COLUMBIA UNIV JAZZ ENSEMBL

Private music lessons (strongly recommended but not required)

Three interdisciplinary courses as approved by the director

A senior independent study project

### JAZZ GU4900 Jazz and the Literary Imagination. 3 points.

(Lecture). This course will focus on the ways that jazz has been a source of inspiration for a variety of twentieth-century literatures, from the blues poetry of the Harlem Renaissance to contemporary fiction. We will consider in detail the ways that writers have discovered or intuited formal models and political implications in black music. Rather than simply assume that influence only travels in one direction, we will also take up some literary efforts (including autobiography, poetry, historiography, and criticism) by musicians themselves. What are the links between musical form and literary innovation? How can terms of musical analysis (improvisation, rhythm, syncopation, harmony) be applied to the medium of writing? How does music suggest modes of social interaction or political potential to be articulated in language? How does music suggest modes of social interaction or political potential to be articulated in language? How does one evaluate the performance of a poem (in an oral recitation or musical setting) in relation to its text? Materials may include writings and recordings by Jacques Attali, James Weldon Johnson, Langston Hughes, Louis Armstrong, Zora Neale Hurston, Sterling Brown, Kurt Schwitters, Ralph Ellison, Amiri Baraka, Ella Fitzgerald, William Melvin Kelley, Edward Kamau Brathwaite, Gayl Jones, Michael Onndaatje, Ed Pavlic, Joseph Jarman, Nathaniel Mackey, and Harryette Mullen, among others. Requirements: weekly response papers, a 5-7 pg. midterm paper and a 9-12 pg. final paper.

### JAZZ GU4920 Jazz and Cinema. 3 points.

Because the beginnings of jazz and film both date to the last years of the nineteenth century, the two art forms essentially grew up together. The history of both is inseparable from the technological revolutions of the twentieth century, and at least in the United States, from histories of racial representation. We will explore the racial issues raised by American films along with how filmmakers represent gender, American humor, discourses of art and the popular, and the conventions of narrative. We will pay special attention to how all of this changes dramatically throughout the twentieth and early twenty-first centuries. After establishing what is most American about jazz and cinema, we will move on to documentary films as well as to films from Europe where many of the dominant American myths about jazz are both perpetuated and transformed. The goal of the course is to understand jazz as a music as well as a cultural practice that has been in constant flux during the last 120 years. The representation of the music and its practitioners in cinema is crucial to an understanding of the music at each of its many cultural moments.

The academic discipline of Jewish studies is an interdisciplinary field centered on the analysis and investigation of Jewish history, religion, language, and literature. The discipline ranges from the study of Jews and Judaism in antiquity to the present day. It explores Judaism not only as a religion, but as a civilization and culture.

A special concentration in Jewish studies is available for undergraduates and allows students to draw upon classes in a wide range of departments across the University, including History; Sociology; Middle Eastern, South Asian, and African Studies; Germanic Languages and Literature; and Religion. The requirements for the special concentration are designed to provide students with the interdisciplinary knowledge necessary to study Jewish civilization both broadly and deeply.

The roots of Judaism lie deeper than one region, gender, language, or culture; and by studying the interconnectedness of these areas, the depth of understanding across a range of spheres and disciplines greatly increases. The special concentration in Jewish studies enhances the current scholarly programs, adding to current Jewish studies courses' vitality as students come to each course with a deeper understanding and background based on their complementary coursework.

Students wishing to complete a special concentration in Jewish studies work with a program adviser to decide upon course selection and sequencing. The program office provides and keeps on record a planning form to track the fulfillment of requirements for the special concentration.

### Affiliated Faculty

Beth Berkowitz (Religion, Barnard)

### Special Concentration in Jewish Studies

In addition to the requirements of the special concentration, students must complete a major or a full concentration.

For a special concentration in Jewish studies, students are required to complete a minimum of 21 points. Please note:

- At least one course must be taken from each of three of the focus areas listed below.
- Credits for language courses may constitute at most 10 points, and one year of Hebrew or Yiddish language is strongly recommended.
- A minimum of 18 points must be taken at Columbia or as part of an approved study abroad program (unless equivalent courses are not offered at Columbia, as determined by the faculty adviser).

The focus areas and courses listed below are examples and do not include all the potential courses which may count. Additionally, as new courses are introduced, new focus areas may develop. Some courses may fall under multiple headings. Determination of a course's focus area is at the discretion of the faculty adviser.

### Focus Areas

#### Bible and Rabbinics/Ancient Judaism

- RELI V3512 The Bible and Its Interpreters
- RELI GU4637 TALMUDIC NARRATIVE

LANGUAGE RESOURCE CENTER

Office: 353 International Affairs Building; 212-854-9224
http://www.lrc.columbia.edu/

Director: Dr. Stéphane Charitos, 353 International Affairs Building; 212-854-6341; sc758@columbia.edu

Associate Director: Piero di Porzio, 353 International Affairs Building; 212-854-3326; pdp@columbia.edu

Hours of Operation: Monday-Friday, 9 a.m.–5 p.m.

The Language Resource Center supports students throughout the course of their language study at Columbia. The LRC provides flexible physical and virtual spaces for language learning, facilitates access to resources, and connects students to language-related opportunities at Columbia and beyond. The LRC is also home to the Shared Course Initiative, which uses specialized distance classrooms for sharing several languages between Columbia, Cornell, and Yale universities. For more information on language learning at Columbia, visit lrc.columbia.edu.

AKKADIAN

All Akkadian courses are part of the language exchange program with New York University (NYU). Classes will be held at NYU.

AKAD UN1101 Elementary Akkadian I. 3 points.
Introduction to cuneiform script and to the Akkadian language, with emphasis on grammatical structure.

AKAD OC1101 ELEMENTARY AKKADIAN I. 3.00 points.
Fall 2022: AKAD OC1101
AKAD UN1102 Elementary Akkadian II. 3 points.
Introduction to cuneiform script and to the Akkadian language, with emphasis on grammatical structure.

AKAD OC1102 ELEMENTARY AKKADIAN II. 4.00 points.
Introduction to cuneiform script and to the Akkadian language, with emphasis on grammatical structure.

Spring 2023: AKAD OC1102

CANTONESE

CANT UN1101 Elementary Cantonese I 4 points.
This course introduces students to both the spoken and written Cantonese language, with achieving conversational proficiency being a primary goal. The course emphasizes oral expressions, listening comprehension, and grammar. It is designed to give beginning students a practical command of the language. Upon completion of the course, students can expect to converse in simple sentences, and recognize and write about 350 Chinese characters. Students with passable conversation ability or native speakers from Cantonese-speaking communities should not enroll in this course. Note: This course is part of the language exchange program with New York University (NYU). Classes will be held at NYU.

CANT UN1102 Elementary Cantonese II 4 points.
This course introduces students to both the spoken and written Cantonese language, with achieving conversational proficiency being a primary goal. The course emphasizes oral expressions, listening comprehension, and grammar. It is designed to give beginning students a practical command of the language. Upon completion of the course, students can expect to converse in simple sentences, and recognize and write about 350 Chinese characters. Students with passable conversation ability or native speakers from Cantonese-speaking communities should not enroll in this course. Note: This course is part of the language exchange program with New York University (NYU). Classes will be held at NYU.

CANT UN1201 Intermediate Cantonese I 3 points.
This course continues to develop students' abilities to communicate effectively and fluently in Cantonese, with a focus on expanding vocabulary, improving grammar skills, and enhancing conversational proficiency. It is designed to give students a solid foundation for further language study.

CANT UN1202 Intermediate Cantonese II 3 points.
This course continues to develop students' abilities to communicate effectively and fluently in Cantonese, with a focus on expanding vocabulary, improving grammar skills, and enhancing conversational proficiency. It is designed to give students a solid foundation for further language study.

IRISH
All Irish courses are part of the language exchange program with New York University (NYU). Classes will be held at NYU.

IRSH UN1101 Elementary Irish I. 4 points.
This course introduces students to the rudiments of the Irish language, including phonemes and pronunciation, syntactical structure, and verbal conjugations. In addition, a history of the language is provided, as well as a general introduction to Irish culture, including discussions of family and place names. Students are encouraged to begin speaking with basic sentence structures, eventually expanding into more complex verbal conjugations while concentrating on idiomatic expressions. The accumulation of vocabulary is stressed and students are introduced to basic literature in Irish while developing beginning conversational fluency.

IRSH OC1102 ELEMENTARY IRISH II. 4.00 points.
This course introduces students to the rudiments of the Irish language, including phonemes and pronunciation, syntactical structure, and verbal conjugations. In addition, a history of the language is provided, as well as a general introduction to Irish culture, including discussions of family and place names. Students are encouraged to begin speaking with basic sentence structures, eventually expanding into more complex verbal conjugations while concentrating on idiomatic expressions. The accumulation of vocabulary is stressed and students are introduced to basic literature in Irish while developing beginning conversational fluency.

IRSH UN1102 Elementary Irish II. 4.00 points.
This course introduces students to the rudiments of the Irish language, including phonemes and pronunciation, syntactical structure, and verbal conjugations. This course introduces students to the rudiments of the Irish language, including phonemes and pronunciation, syntactical structure, and verbal conjugations. In addition, a history of the language is provided, as well as a general introduction to Irish culture, including discussions of family and place names. Students are encouraged to begin speaking with basic sentence structures, eventually expanding into more complex verbal conjugations while concentrating on idiomatic expressions. The accumulation of vocabulary is stressed and students are introduced to basic literature in Irish while developing beginning conversational fluency.

IRSH UN1102 Elementary Irish II. 4.00 points.
This course introduces students to the rudiments of the Irish language, including phonemes and pronunciation, syntactical structure, and verbal conjugations. In addition, a history of the language is provided, as well as a general introduction to Irish culture, including discussions of family and place names. Students are encouraged to begin speaking with basic sentence structures, eventually expanding into more complex verbal conjugations while concentrating on idiomatic expressions. The accumulation of vocabulary is stressed and students are introduced to basic literature in Irish while developing beginning conversational fluency.
For the more advanced student of Irish, this course focuses on improving conversational fluency and on expanding vocabulary through reading complex literature in Irish, and writing in the Irish language, further encouraging students to strengthen their pronunciation and command of spoken Irish.

IRSH OC2101 INTERMEDIATE IRISH I. 4.00 points.
Prerequisites: IRSH W1101-W1102 or the instructor's permission. For the more advanced student of Irish, this course focuses on improving conversational fluency and on expanding vocabulary through reading complex literature in Irish, and writing in the Irish language, further encouraging students to strengthen their pronunciation and command of spoken Irish.

IRSH UN2102 Intermediate Irish II. 4 points.
Prerequisites: (IRSH UN1101 and IRSH UN1102) IRSH UN1101-UN1102 or the instructor's permission. For the more advanced student of Irish, this course focuses on improving conversational fluency and on expanding vocabulary through reading complex literature in Irish, and writing in the Irish language, further encouraging students to strengthen their pronunciation and command of spoken Irish.

IRSH OC2102 INTERMEDIATE IRISH II. 4.00 points.
Prerequisites: (IRSH UN1101 and IRSH UN1102) IRSH UN1101-UN1102 or the instructors permission. For the more advanced student of Irish, this course focuses on improving conversational fluency and on expanding vocabulary through reading complex literature in Irish, and writing in the Irish language, further encouraging students to strengthen their pronunciation and command of spoken Irish.

KHMER

KHMR UN1101 Elementary Khmer I. 4 points.
This course is designed to bring students with no background to a point where they can perform most basic linguistic functions in Khmer, including greetings, likes/dislikes, telling about yourself, describing places and situations, all in appropriate time frames. The class uses a highly interactive classroom style, supplemented by extensive use of video both prepared and student-produced and other computer-assisted tools. Please note this course is offered by videoconferencing from Cornell as part of the Shared Course Initiative.

KHMR UN1102 Elementary Khmer II. 4 points.
This course is designed to bring students with no background to a point where they can perform most basic linguistic functions in Khmer, including greetings, likes/dislikes, telling about yourself, describing places and situations, all in appropriate time frames. The class uses a highly interactive classroom style, supplemented by extensive use of video both prepared and student-produced and other computer-assisted tools. Please note this course is offered by videoconferencing from Cornell as part of the Shared Course Initiative.

KHMR OC1101 ELEMENTARY KHMER I. 4.00 points.
This course is designed to bring students with no background to a point where they can perform most basic linguistic functions in Khmer, including greetings, likes/dislikes, telling about yourself, describing places and situations, all in appropriate time frames. The class uses a highly interactive classroom style, supplemented by extensive use of video both prepared and student-produced and other computer-assisted tools. Please note this course is offered by videoconferencing from Cornell as part of the Shared Course Initiative.

KHMR UN2101 Intermediate Khmer I. 4 points.
Prerequisites: KHMR W1101-W1102 or the instructor's permission.
In this course, learners will continue practicing all four language skills through every day dialogues, writing letters, and describing basic situations. In addition, they will be introduced to Khmer literature and learn how to read and comprehend basic Khmer texts, such as newspaper articles. Finally, they will be introduced to current affairs as well as social, artistic, and cultural events and issues in Cambodia. The class uses a highly interactive classroom style, supplemented by extensive use of video both prepared and student-produced and other computer-assisted tools. Please note this course is offered by videoconferencing from Cornell as part of the Shared Course Initiative.

KHMR UN2102 Intermediate Khmer II. 4.00 points.
This course focuses on learning Khmer (the national language of Cambodia) for students who have completed Intermediate Khmer I. Students will be able to communicate in every day conversation using complex questions/answers. The course focuses on reading, writing, speaking, and listening to Khmer words, long sentences, and texts. The course is also emphasized on grammar, sentence structure and their use in the right context. This course is applied to persons who want to continue to learn Khmer and want to pursue the language study in the future.
KREYOL

KREY UN1101 Elementary Haitian Kreyol I. 4 points.
This course introduces students to the language of Haitian Kreyòl, also called Creole, and is intended for students with little or no prior knowledge of the language. Haitian Kreyòl is spoken by Haiti’s population of nine million and by about one million Haitians in the U.S. Including over 190,000 in the New York City area. In fact, New York City has the second largest population of Kreyòl Speakers after Port–au–Prince, Haiti’s capital. Through this course, you will develop introductory speaking, reading, and writing skills. We use a communicative approach, balanced with grammatical and phonetic techniques. Classroom and textbook materials are complemented by work with film, radio, and especially music (konpa, rasin, twoubadou, rap, raga, levanjil, vodou tradisyonèl, etc.), as well as with visits to city museums and institutions related to Haiti. Note: This course is part of the language exchange program with New York University (NYU). Classes will be held at NYU.

KREY OC1101 ELEMENTARY HAITIAN KREYOL I. 4.00 points.
This course introduces students to the language of Haitian Kreyòl, also called Creole, and is intended for students with little or no prior knowledge of the language. QUECHUA

All Quechua courses are part of the language exchange program with New York University (NYU). Classes will be held at NYU.

QUCH UN1101 Elementary Quechua I. 4 points.
Quechua is the most important and most widely-distributed indigenous language in South America, with over 10 million speakers living from the high mountains to the tropical lowlands in Colombia, Ecuador, Peru, Bolivia, Chile, and Argentina. Those who speak it call the language runa simi or runa shimi, "human speech." It was the principal language of the Inca empire and the key language of cultural interaction during the colonial era. Quechua has remained central to indigenous peoples' efforts to preserve their cultural autonomy. It has gained greater force in recent years, during which indigenous movements have swept Quechua speakers into
national politics, where they have succeeded in transforming constitutions to recognize cultural diversity, making Quechua an official language of state, and successfully promoting schooling in the language. Students who satisfactorily complete Elementary Quechua I and II will be well-prepared for intensive summer study at one of many summer study abroad programs in Ecuador, Peru, and Bolivia that will put them in closer contact with the indigenous world.

**ROMANIAN**

**RMAN UN1101 ELEMENTARY ROMANIAN I. 4.00 points.**
Provides students with an introduction to the basic structures of the Romanian language.

**RMAN UN1102 ELEMENTARY ROMANIAN II. 4.00 points.**
Provides students with an introduction to the basic structures of the Romanian language.

**RMAN UN2101 INTERMEDIATE ROMANIAN I. 4.00 points.**
Prerequisites: RMAN W1101-W1102 or the instructor’s permission. Further explores the grammatical and linguistic structures of the Romanian language.

**RMAN UN2102 Intermediate Romanian II. 4 points.**
Prerequisites: *RMAN W1101-W1102* or the instructor’s permission.

Further explores the grammatical and linguistic structures of the Romanian language.

**RMAN GU4002 Romanian Culture, Identity and Complexes. 3 points.**
This course addresses the main problems that contribute to the making of Romanian identity, as fragmented or as controversial as it may seem to those who study it. The aim is to become familiar with the deepest patterns of Romanian identity, as we encounter it today, either in history, political studies, fieldwork in sociology or, simply, when we interact with Romanians. By using readings and presentations produced by Romanian specialists, we aim to be able to see the culture with an "insider's eye", as much as we can. This perspective will enable us to develop mechanisms of understanding the Romanian culture and mentality independently, at a more profound level and to reason upon them.

**RMAN GU4003 Byzantine and Post-Byzantine Elements of Romanian Culture. 3 points.**
Prerequisites: Reading knowledge of Romanian and French...The Byzantine as "post-Romantic", as "eclectic", "Oriental", in its version of localized, picturesque, intra-European Orientalism appears less explored and probably less considered of importance when trying to understand the intricacies of a culture and, by expanding it, of culture in general. Our explorations of Byzantine/Byzantinism will help us develop a subtler understanding of the mechanisms of the cultural equation West/Orient and of the cultural hierarchies....

**SINHALA**

**SINH UN1101 ELEMENTARY SINGHALA I. 4.00 points.**
This course is designed to bring students with no background to a point where they can perform most basic linguistic functions in Sinhala, including greetings, likes/dislikes, telling about
yourself, describing places and situations, all in appropriate time frames. The class uses a highly interactive classroom style, supplemented by extensive use of video - both prepared and student-produced - and other computer-assisted tools. Please note this course is offered by videoconferencing from Cornell as part of the Shared Course Initiative.

**SINH UN1101 Intermediate Sinhala I. 4.00 points.**

Prerequisites: SINH W1101-1102 or the instructor's permission. This course is designed to bring students with no background to a point where they can perform most basic linguistic functions in Sinhala, including greetings, likes/dislikes, telling about yourself, describing places and situations, all in appropriate time frames. **SINH UN3998 SUPERVISED READINGS II. 1.00 point.**

**SINH UN3999 SUPERVISED READINGS II. 1.00 point.**

**TWI (AKAN)**

**TWI UN1101 ELEMENTARY TWI (AKAN) I. 4.00 points.**

This course is designed as the first part of an elementary language sequence. It is designed for students who will be introduced to the basic structure of Twi and the culture of the Akan-Twi-speaking people. Instruction is in the target language with an expected proficiency goal of Novice Mid at the end of the semester. Students will be introduced to basic grammar and communicative skills as well as cultural activities. This will be reinforced through role plays, conversations, dialogues and songs. At the end of the course, students are expected to acquire basic grammar competence and be able to use appropriate expressions for everyday situations with an understanding and appreciation of the culture of the Akan people in Ghana, West Africa. In addition to Asante Twi, students will be exposed to Akuapem Twi and Fante.

**TWI UN1102 ELEMENTARY TWI (AKAN) II. 4.00 points.**

This course is designed as the second part of an elementary language sequence. It is designed for students who will be introduced to the basic structure of TWi and the culture of the Akan-Twi-speaking people. Instruction is in the target language with an expected proficiency goal of Novice Mid at the end of the semester. Students will be introduced to basic grammar and communicative skills as well as cultural activities. This will be reinforced through role plays, conversations, dialogues and songs. At the end of the course, students are expected to acquire basic grammar competence and be able to use appropriate expressions for everyday situations with an understanding and appreciation of the culture of the Akan people in Ghana, West Africa. In addition to Asante Twi, students will be exposed to Akuapem Twi and Fante.

**TWI UN2101 Intermediate Twi I. 4.00 points.**

This course is a continuation of TWI 102. It builds on the basic Twi structures acquired in TWI 101 & TWI 102. Students will continue to build on their vocabulary through short readings and dialogues. It continues to focus on communicative skills and cultural awareness. By the end of the course, learners are expected to reach proficiency level ranging between Intermediate Low and Intermediate Mid. In addition to Asante Twi, students will be exposed to Akuapem Twi and Fante.

**TWI UN2102 Intermediate Twi I. 4.00 points.**

This course is designed as the first part of an elementary language sequence. It is designed for students who will be introduced to the basic structure of Twi and the culture of the Akan-Twi-speaking people. Instruction is in the target language with an expected proficiency goal of Novice Mid at the end of the semester. Students will be introduced to basic grammar and communicative skills as well as cultural activities. This will be reinforced through role plays, conversations, dialogues and songs. In addition to Asante Twi, students will be exposed to Akuapem Twi and Fante.

**UZBEK**

**UZBK UN1101 Elementary Uzbek I. 4 points.**

Not offered during 2022-23 academic year.
This course offers students an introduction to the basic structures of Uzbek, a major language of Central Asia.

**UZBK UN1102 Elementary Uzbek II. 4 points.**
Not offered during 2022-23 academic year.

This course offers students an introduction to the basic structures of Uzbek, a major language of Central Asia.

**UZBK UN2101 Intermediate Uzbek I. 4 points.**
Not offered during 2022-23 academic year.

Prerequisites: *UZBK W1101-W1102* or the instructor's permission.

This course further develops a student's knowledge of Uzbek, a major language of Central Asia.

**UZBK UN2102 Intermediate Uzbek II. 4 points.**
Not offered during 2022-23 academic year.

Prerequisites: *UZBK W1101-W1102* or the instructor's permission.

This course further develops a student's knowledge of Uzbek, a major language of Central Asia.

**YORUBA**

**YORU UN1101 ELEMENTARY YORUBA I. 4.00 points.**
This course is designed to bring students with no background to a point where they can perform most basic linguistic functions in Yoruba, including greetings, likes/dislikes, telling about yourself, describing places and situations, all in appropriate time frames. The class uses a highly interactive classroom style, supplemented by extensive use of video - both prepared and student-produced – and other computer-assisted tools. Please note this course is offered by videoconferencing from Cornell as part of the Shared Course Initiative.

**YORU UN1102 Elementary Yoruba II. 4 points.**
This course is designed to bring students with no background to a point where they can perform most basic linguistic functions in Yoruba, including greetings, likes/dislikes, telling about yourself, describing places and situations, all in appropriate time frames. The class uses a highly interactive classroom style, supplemented by extensive use of video – both prepared and student-produced – and other computer-assisted tools. Please note this course is offered by videoconferencing from Cornell as part of the Shared Course Initiative.

**YORU UN2101 INTERMEDIATE YORUBA I. 4.00 points.**
Prerequisites: *YORU W1101-W1102* or the instructor's permission. In this course, learners will continue practicing all four language skills through every day dialogues, writing letters, and describing basic situations. In addition, they will be introduced to Yoruba literature and learn how to read and comprehend basic Yoruba texts, such as newspaper articles. Finally, they will be introduced to current affairs as well as social, artistic and, cultural events and issues in Nigeria. The class uses a highly interactive classroom style, supplemented by extensive use of video - both prepared and student-produced - and other computer-assisted tools. Please note this course is offered by videoconferencing from Cornell as part of the Shared Course Initiative.

**YORU UN2102 Intermediate Yoruba II. 4 points.**
Prerequisites: *YORU W1101-W1102* or the instructor's permission.

In this course, learners will continue practicing all four language skills through every day dialogues, writing letters, and describing basic situations. In addition, they will be introduced to Yoruba literature and learn how to read and comprehend basic Yoruba texts, such as newspaper articles. Finally, they will be introduced to current affairs as well as social, artistic and, cultural events and issues in Nigeria. The class uses a highly interactive classroom style, supplemented by extensive use of video – both prepared and student-produced – and other computer-assisted tools. Please note this course is offered by videoconferencing from Cornell as part of the Shared Course Initiative.

**YORU UN3101 ADVANCED YORUBA I. 3.00 points.**

**YORU UN3102 ADVANCED YORUBA II. 3.00 points.**

**YORU UN3997 SUPERVISED READINGS I. 2.00 points.**

**ZULU**

All Zulu courses are offered by video-conferencing from Yale as part of the Shared Course Initiative.

**ZULU UN1101 ELEMENTARY ZULU I. 4.00 points.**
Introduces students to the basic structures of Zulu, a Bantu language spoken in South Africa, especially in the Zululand area of KwaZulu/Natal province.
ZULU UN1102 ELEMENTARY ZULU II. **4.00 points.**
Prerequisites: ZULU W1201-W1202 or the instructor’s permission.
Prerequisites: ZULU W1201-W1202 or the instructor’s permission. Introduces students to the basic structures of Zulu, a Bantu language spoken in South Africa, especially in the Zululand area of KwaZulu-Natal province.

### Latin American and Caribbean Studies

The Institute of Latin American Studies: 8th Floor, International Affairs Building; 212-854-4643
http://ilas.columbia.edu

Program Director: Prof. M. Victoria Murillo, 832 International Affairs Building; mm2140@columbia.edu

Senior Manager of Business & Student Affairs: Eliza Kwon-Ahn, 827 International Affairs Building; ek2159@columbia.edu

The major in Latin American and Caribbean Studies stresses knowledge of a dynamic, historically deep and extensive region, but it also focuses on social, political, and cultural phenomena that transcend physical boundaries. The major thus reflects multidisciplinary dialogues that are transnational yet remain anchored in the common historical experience of Latin American societies. Thanks to the broad range of courses on Latin America offered in different departments of instruction and centers at Columbia, the major provides a multidisciplinary training on politics, history, culture, economy and society.

The Institute of Latin American Studies coordinates the major and offers access to research support, study abroad options, and linkages and credits toward the M.A. program in Latin American and Caribbean studies.

POLS UN3565 DRUGS # POLITICS IN AMERICAS
POLS GU4461 Latin American Politics
SPAN UN3300 ADV LANGUAGE THROUGH CONTENT

*** The SPAN UN3300 section taken for the Major must focus on Latin America. Please contact the ILAS Student Affairs Coordinator for details.

Language Requirement

Select one course on Spanish, Portuguese, or an indigenous language at the intermediate or advanced level; if students can demonstrate advance knowledge of one of these languages, they can replace this course with an area studies course.

Discipline of Choice

Select four courses in a discipline or theme of choice with substantive focus on Latin America. One of these courses must be a seminar. All students, however, need to take at least two courses in a discipline or theme outside of their specialization. The director of undergraduate studies advises students on areas of specialization and must approve courses with substantial Latin American or Caribbean contents not included in the list of eligible courses.

Up to 12 credits for Discipline of Choice requirement can be earned through study abroad. Students are encouraged to explore study abroad options before their junior year. Upon return, they should submit the syllabi and all coursework related to each course taken abroad for approval by the director of undergraduate studies.

CONCENTRATION IN LATIN AMERICAN AND CARIBBEAN STUDIES

The concentration requires a minimum of 18 points as follows:

Select three of the following fourteen courses. One of these courses must be in Latin American Civilization I (HIST UN2660), Latin American Civilization II (HIST UN2661) or Primary Texts in Latin America (LACV UN1020):

### LATIN AMERICAN AND IBERIAN CULTURES

**Departmental Office:**

Departmental Office:

101 Casa Hispánica | 612 W. 116th Street | (212) 854-4187
http://www.laic.columbia.edu/

**Director of Undergraduate Studies:**

Prof. Ana Paulina Lee | apl2147@columbia.edu

**Director of Graduate Studies:**

Prof. Alberto Medina | am3149@columbia.edu

**Director of the Spanish Language Program:**

Dr. Lee B. Abraham | 402 Casa Hispánica | (212) 854-3764 | lba2133@columbia.edu

**Director of the Portuguese Language Program:**

José Antonio Castellanos-Pazos | 501 Casa Hispánica | (212) 854-0277 | jc846@columbia.edu

**Director of the Catalan Language Program:**

Elsa Úbeda | eu2130@columbia.edu

The Department of Latin American and Iberian Cultures (LAIC) at Columbia, located in the Casa Hispánica, has long enjoyed an international reputation as a center for Hispanic and Lusophone studies. The department provides linguistic preparation in Spanish, Portuguese, and Catalan, and offers a flexible program to study manifestations of the Hispanic and Lusophone worlds in all historical periods—from the medieval to the globalized present—and in a variety of cultural contexts: the Iberian Peninsula, Latin America, the former colonies of Portugal, and the United States.

Students can enter the program at any level of linguistic and cultural preparedness. The department offers a placement exam to determine the level at which students may either begin or continue study. Majors and concentrators in Hispanic studies and Portuguese studies are typically double majors who bring...
insights and methods from fields such as history, political science, women’s studies, anthropology, economics, Latino studies, Latin American studies, etc., which fosters engaging discussions.

**ACADEMIC PROGRAMS**

The department offers two majors. The major in Hispanic studies gives students a well-rounded preparation in the history and culture of the Hispanic world. The second option, a major in Hispanic studies with specialization, allows students to study the Hispanic world through a number of fields, among them Latin American studies, gender studies, political science, economics, history, and sociology. The department also offers two concentrations: Hispanic studies and Portuguese studies.

The language and major programs have also been designed in close consultation and cooperation with Barnard’s Department of Spanish and Latin American Cultures. All courses taken in one program may be used to fulfill the requirements of the other. Hence, Columbia and Barnard students may move freely between departments of both institutions for courses that best fit their intellectual interests and schedules.

**ADVANCED PLACEMENT**

The department grants 3 credits for a score of 5 on the AP Spanish Language exam, which satisfies the foreign language requirement. Credit is awarded upon successful completion of a 3300-level (or higher) course with a grade of B or higher. This course must be for at least 3 points of credit and be taught in Spanish. Courses taught in English may not be used for language AP credit.

The department grants 0 credits for a score of 4 on the AP Spanish Language exam, but the foreign language requirement is satisfied.

The department grants 3 credits for a score of 5 on the AP Spanish Literature exam, which satisfies the foreign language requirement. Credit is awarded upon successful completion of a 3300-level (or higher) course with a grade of B or higher. This course must be for at least 3 points of credit and be taught in Spanish. Courses taught in English may not be used for language AP credit.

The department grants 0 credits for a score of 4 on the AP Spanish Literature exam, but the foreign language requirement is satisfied.

**STUDY ABROAD**

The department strongly recommends that all Hispanic and Portuguese studies majors/concentrators study abroad. Most courses taken abroad can be used to fulfill the requirements for the major and concentration, and with adequate planning, even some of the requirements for a second major or concentration. A maximum of four (4) courses taken abroad may be applied to the major, and a maximum of three (3) to the concentration in Hispanic or Portuguese studies.

All students are strongly advised to take either SPAN UN3349 HISPANIC CULTURES I (SP) or SPAN UN3350 HISPANIC CULTURES II (SP) before studying abroad. Actual or potential majors and concentrators in Hispanic or Portuguese studies should seek tentative approval of their programs from the director of undergraduate studies before their departure.

**THE HISPANIC INSTITUTE**

The department hosts the Hispanic Institute at Columbia. Founded in 1920 as the Instituto de las Españas, the Institute sponsors and disseminates research on Hispanic and Luso-Brazilian culture. Since 1934, the Institute has published the *Revista Hispánica Moderna*, a distinguished journal in Hispanic criticism and theory.

**IN FULFILLMENT OF THE LANGUAGE REQUIREMENT**

For students with no knowledge of Spanish, Portuguese, or Catalan, at least four terms of the language are required: *UN1101-UN1102* (or *UN1120*) and *UN2101-UN2102* (or *UN2120*). **All courses must be taken for a letter grade to fulfill the language requirement.**

Students with prior knowledge of Spanish who plan to continue studying Spanish are required to take the department’s on-line placement examination before registering for courses. Students with prior knowledge of Portuguese or Catalan should speak with the director of language programs.

Students may be exempted from the language requirement in one of four ways:

1. Present a score of 4 or 5 on the AP Spanish Language or Spanish Literature Exams. Students who receive a score of 5 in either exam are awarded 3 AP credits upon successful completion of a 3300-level (or above) course with a grade of B or higher. AP credit is not granted for a score of 4.
2. Present a score of 780 or above on the SAT Subject Test. Students with a score lower than 780 should take the department’s on-line placement exam and follow the placement advice received.
3. Present a score of a 7, 6, or 5 on the International Baccalaureate Higher Level Exam in Spanish.
4. Obtain a score of 625 or higher in the department’s on-line placement examination. If the score in the on-line test qualifies a student for exemption from the language requirement, they are required to take a written version of the placement exam during orientation (for entering students) or during the semester (for continuing students). This written exam is offered every year on the Thursday before the beginning of classes in the fall semester from 10:00 a.m.- 2:00 p.m. in Room 352 of the International Affairs Building (the Language Resource Center Computer
Students do not need to make an appointment to take the exam.

**DEPARTMENTAL HONORS**

Beginning in Spring 2015, the department put in place a new timeline and training program for juniors, to assist students with planning and completing the Honors Thesis during their senior year. The Honors Thesis is an excellent option for any student interested in pursuing a Master's degree or Ph.D.; but, above all, it is a highly formative research and writing experience—one that can bear unexpected fruits toward any path the student decides to take in the future.

All students pursuing a major through the department may apply to write an Honors Thesis. The department envisions the thesis as an intellectually challenging and rewarding experience that crowns four years of undergraduate studies with an original contribution in the field chosen by the student.

The department supports students in shaping their research topic and provides frequent advising throughout the research and writing process. The timeline is as follows:

- **During the junior year**, students take into consideration the possibility of writing an Honors Thesis in the following year. The topic of the Honors Thesis may likely originate in an advanced course taken during the junior year; students may also choose to develop ideas discussed or papers written in courses taken in previous years. Juniors schedule a meeting (or, if the student is studying abroad, a Skype conversation) with the director of undergraduate studies to discuss their proposed topic and faculty adviser.

- **By May 15**, juniors who have decided to write an Honors Thesis in their senior year send a formal proposal to the director of undergraduate studies, which includes:
  - A title and a one-page abstract;
  - The name of the proposed faculty adviser;
  - An application for departmental partial funding support (for those who would like to pursue research during the summer).

- **By May 30**, the Honors Thesis committee reviews the proposals and informs the students of its decision.

- **In the fall of the senior year**: 
  - Seniors selected to write the Honors Thesis enroll in a Supervised Individual Research section (SPAN UN3997 or SPAN UN3998) with their faculty adviser and write the Honors Thesis during the entire senior year under the direction of their adviser. For the purposes of the major, this independent study counts as a 3-point course towards elective courses.
  - Faculty advisers organize Honors Thesis Workshops to discuss students’ ongoing projects and provide advising on research tools, methodological and theoretical frames, and overall writing process.

- **By April 15** of the senior year, students complete and submit a PDF of the Honors Thesis via email for consideration towards departmental honors and prizes.

To be considered for departmental honors, a student must write an Honors Thesis and maintain a GPA of at least 3.6 in major courses. Normally no more than 10% of graduating majors receive departmental honors in a given academic year.

**UNDERGRADUATE PRIZES**

The faculty awards an undergraduate prize every year:

**Susan Huntington Vernon Prize**

Established in 1941 by a member of the noted family of New York Hispanophiles, it is given to the Columbia College senior major who has demonstrated excellence in the study of Spanish, Portuguese, and Latin American languages and cultures.

**PROFESSORS**

MAJOR IN HISPANIC STUDIES

Students who declared this program before March 2016 (when requirements changed) should contact the Director of Undergraduate Studies to confirm their correct course of study.

Students may only register once in each of the Core Courses (SPAN UN3300, SPAN UN3349 and SPAN UN3350).

The major in Hispanic studies requires 11 courses (minimum of 33 points) as follows:

<table>
<thead>
<tr>
<th>Core Courses</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN UN3300</td>
<td>ADV LANGUAGE THROUGH CONTENT</td>
</tr>
<tr>
<td>SPAN UN3349</td>
<td>HISPANIC CULTURES I (SP)</td>
</tr>
<tr>
<td>SPAN UN3350</td>
<td>HISPANIC CULTURES II (SP)</td>
</tr>
</tbody>
</table>

Select seven elective courses (21 points): a minimum of three 3000- or 4000-level electives must be chosen within the department and up to three electives related to Hispanic Studies may be taken outside the department.

Senior Seminar
SPAN UN3991 SENIOR SEMINAR

MAJOR IN HISPANIC STUDIES WITH SPECIALIZATION

Students who declared this program before March 2016 (when requirements changed) should contact the Director of Undergraduate Studies to confirm their correct course of study.

Students may only register once in each of the Core Courses (SPAN UN3300, SPAN UN3349 and SPAN UN3350).

The major in Hispanic studies with specialization requires 14 courses (minimum of 42 points) as follows. Students should consult the director of undergraduate studies to plan their program and refer to the Hispanic Studies Major Worksheet.

<table>
<thead>
<tr>
<th>Core Courses</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN UN3300</td>
<td>ADV LANGUAGE THROUGH CONTENT</td>
</tr>
<tr>
<td>SPAN UN3349</td>
<td>HISPANIC CULTURES I (SP)</td>
</tr>
<tr>
<td>SPAN UN3350</td>
<td>HISPANIC CULTURES II (SP)</td>
</tr>
</tbody>
</table>

Select ten elective courses (30 points): four of which must be chosen within the department and six of which must be in the field of specialization. Approved courses taken abroad may be counted as inside or outside the department for the specialization. A maximum of four courses taken abroad may be counted toward the major.

Senior Seminar
SPAN UN3991 SENIOR SEMINAR

CONCENTRATION IN HISPANIC STUDIES

Students who declared this program before March 2016 (when requirements changed) should contact the Director of Undergraduate Studies to confirm their correct course of study.

Students may only register once in each of the Core Courses (SPAN UN3300, SPAN UN3349 and SPAN UN3350).

The concentration in Hispanic studies requires eight courses (minimum of 24 points) as follows:

<table>
<thead>
<tr>
<th>Core Courses</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN UN3300</td>
<td>ADV LANGUAGE THROUGH CONTENT</td>
</tr>
<tr>
<td>SPAN UN3349</td>
<td>HISPANIC CULTURES I (SP)</td>
</tr>
<tr>
<td>SPAN UN3350</td>
<td>HISPANIC CULTURES II (SP)</td>
</tr>
</tbody>
</table>

Select five elective courses (15 points): a minimum of four 3000- or 4000-level courses must be chosen within the department and up to one elective related to Hispanic Studies may be taken outside the department. A maximum of three courses taken abroad may be counted toward the concentration. Students may only register once for SPAN UN3300.

CONCENTRATION IN PORTUGUESE STUDIES

The concentration in Portuguese studies requires eight courses (minimum 24 points) as follows:

<table>
<thead>
<tr>
<th>Core Courses</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>PORT UN3101</td>
<td>CONVERS ABOUT LUSOPHONE WORLD</td>
</tr>
<tr>
<td>PORT UN3300</td>
<td>ADV LANGUAGE THROUGH CONTENT</td>
</tr>
<tr>
<td>PORT UN3330</td>
<td>INTRO TO PORTUGUESE STUDIES</td>
</tr>
</tbody>
</table>
Elective Courses
Select four elective courses (12 points): at least two must have a PORT designation and be chosen from the department’s 3000-level offerings. Electives taken outside of the department must have the director of undergraduate studies’ approval and be related to Portuguese studies. A maximum of two courses taught in English may be counted toward the concentration overall. Refer to the Portuguese Concentration Worksheet.

**ACADEMIC YEAR 2022-23 SPANISH**

**SPAN UN1101 ELEMENTARY SPANISH I. 4.00 points.**
Prerequisites: a score of 0-279 in the department’s Placement Examination.
Prerequisites: a score of 0-279 in the departments Placement Examination. An introduction to Spanish communicative competence, with stress on basic oral interaction, reading, writing, and cultural knowledge. Principal objectives are to understand and produce commonly used sentences to satisfy immediate needs; ask and answer questions about personal details such as where we live, people we know and things we have; interact in a simple manner with people who speak clearly, slowly and are ready to cooperate; and understand simple and short written and audiovisual texts in Spanish. All Columbia students must take Spanish language courses (UN 1101-3300) for a letter grade

SPAN UN1113 Spanish Rapid Reading and Translation. 3 points.

Open to graduate students in GSAS only.

This course, conducted in English, is designed to help graduate students from other departments gain proficiency in reading.
and translating Spanish texts for scholarly research. The course prepares students to take the Reading Proficiency Exam that most graduate departments demand to fulfill the foreign-language proficiency requirement in that language. Graduate students with any degree of knowledge of Spanish are welcome. A grade of A- or higher in this class will satisfy the GSAS foreign language proficiency requirement in Spanish.

**SPAN UN1120 COMPREHENSIVE BEGINNING SPAN.**

4.00 points.

Intensive, fast-paced elementary Spanish course for multilingual learners who have had little to no formal education in Spanish. Replaces the sequence SPAN UN1101-SPAN UN1102. Prerequisites: Take the Department's Language Placement Examination. (It is only for diagnostic purposes, to assess your language learning skills, not your knowledge of Spanish). If you score approximately 330 OR MORE, you may qualify for this course if: - you have had little to no formal education in Spanish, AND - you identify with ONE of the following language learner profiles: Learners of Spanish as a 3rd language: fluent in a language other than English Informal learners of Spanish: English speakers who have “picked up” Spanish by interacting with Spanish speakers in informal settings “Receptive” Spanish heritage learners: English dominant, but you understand Spanish spoken by family and community members (The exam is only an initial assessment for diagnostic purposes. Your score might be high, even if you have never studied Spanish in a formal setting). You do not need my permission to register*. I will further assess your level during the Change of Program period. Feel free to contact me if you have any questions or if you are unsure about your placement in this course. *Students who do not have the necessary proficiency level may not remain in this course. All Columbia students must take Spanish language courses (UN 1101-3300) for a letter grade

Students who have taken SPAN UN 2101 (Intermediate Spanish course) in the foreign language requirement. Therefore, the study of a foreign language is fundamental not only in the field of the humanities but also in the natural sciences. This principal aim of SPAN UN2108 is to build upon and further develop the knowledge of Spanish that heritage learners bring to the classroom – from SPAN UN1108 and/or from family and neighborhood exposure to the language. This course cultivates intermediate-level formal speaking, listening, reading, and writing abilities. Spanish heritage language courses at Columbia/Barnard focus on the development of communicative abilities and literacy from sociolinguistic and sociocultural approaches. Throughout the semester, students will be reviewing spelling patterns, building vocabulary, acquiring and effectively using learning strategies, and strengthening composition skills in Spanish. Cultural projects and readings reinforce learners’ understanding of the multiple issues related to Hispanic cultures in the United States and in other Spanish-speaking societies.

### Requirements

1. **Prerequisites:** SPAN UN2101 or a score of 380-449 on the Department’s placement exam, and are interested in health-related topics may proceed and enroll in SPAN UN 2103 (Intermediate Spanish II: Health-Related Topics in the Spanish-Speaking World). Pre-med and pre-health students, as well as those students majoring in the natural sciences—including biology, general chemistry, organic chemistry, biochemistry, and physics—will be given registration priority. All Columbia students must take Spanish language courses (UN 1101-3300) for a letter grade.

### Course Details

- **SPAN UN2103 INTERMED SPAN II - MEDICAL. 4.00 points.**
  - **Prerequisites:** SPAN UN2101 or a score of 380-449 on the Department’s placement examination.
  - This course fulfills the last semester of the foreign language requirement. Therefore, students who have taken SPAN UN 2101 (Intermediate Spanish I), or have a score of 380-449 on the Department’s placement exam, and are interested in health-related topics may proceed and enroll in SPAN UN 2103 (Intermediate Spanish II: Health-Related Topics in the Spanish-Speaking World). Pre-med and pre-health students, as well as those students majoring in the natural sciences—including biology, general chemistry, organic chemistry, biochemistry, and physics—will be given registration priority. All Columbia students must take Spanish language courses (UN 1101-3300) for a letter grade.
SPAN 2108 002/13551 T Th F 10:10am - 11:25am 328 Uris Hall Francisca 4.00 15/15

SPAN 2120 Comprehensive Intermediate Spanish. 4 points.
Prerequisites: This course is an intensive and fast-paced coverage of both SPAN UN2101 and SPAN UN2102. Students MUST demonstrate a strong foundation in Spanish and meet the following REQUIREMENTS: a score ABOVE 480 on the Department's Placement Examination; or A- or higher in SPAN UN1120. If you fulfill the above requirements, you do not need the instructor's permission to register. HOWEVER, the instructor will additionally assess student proficiency during the Change of Program Period. Students who do not have the necessary proficiency level may not remain in this course. Replaces the sequence SPAN UN2101-SPAN UN2102. All Columbia students must take Spanish language courses (UN 1101-3300) for a letter grade.

SPAN 3300 ADV LANGUAGE THROUGH CONTENT. 3.00 points.
Prerequisites: SPAN UN2102 or AP score of 4 or 5; or SAT score.
Prerequisites: SPAN UN2102 or AP score of 4 or 5; or SAT score. An intensive exposure to advanced points of Spanish grammar and structure through written and oral practice, along with an introduction to the basic principles of academic composition in Spanish. Each section is based on the exploration of an ample theme that serves as the organizing principle for the work done in class (Please consult the Directory of Classes for the topic of each section.) This course is required for the major and the concentration in Hispanic Studies. Formerly SPAN W3200 and SPAN BC3004. If you have taken either of these courses before you cannot take SPAN 3300. All Columbia students must take Spanish language courses (UN 1101-3300) for a letter grade

SPAN UN3391 SENIOR SEMINAR. 4.00 points.

Prerequisites: Seniors (major or concentrator status).

The course is a requirement for all the LAIC majors. In this seminar, students develop an individual research project and write an essay under the guidance of the course’s instructor and in dialogue with the other participants’ projects. After an introductory theoretical and methodological section, and a research session at the library, the syllabus is entirely constructed on the students’ projects. Every participant is in charge of a weekly session. Essay outlines and drafts are discussed with the group throughout the semester. The final session is a public symposium with external respondents.

SPAN UN3315 New York as Theatre of Spanish Modernity. 3 points.

From the beginning of the XXth Century some of the key figures of Spanish contemporary culture, writers, filmmakers or architects, had a very close relationship to New York, sometimes as travelers, sometimes living in the city for long periods of time. That transatlantic contact, far from anecdotal, turned into an essential element of the self-understanding of those authors and a crucial presence in their work. The contact with New York modernity would be an unavoidable component in their own versions of modernity but their presence would also leave an important trace in the city. As yet more Spanish cultural travelers got in contact with the city a different phenomenon developed: from the 1950’s, New York would be used as a privileged stage to project a certain institutional idea of Spain, to sell a refurbished image of the nation as sophisticated and modern after decades of international marginalization under Francoism. This course will develop a comparative study of both processes as seen in literary sources, film and architecture (García Lorca, Camba, Dalí, Tápies, Buñuel, Loriga, Sert, Calatrava…)

SPAN UN3366 Unseen Things: Fantastic Narratives in Contemporary Spain. 3 points.

This course is a survey of Spanish literature and cinema that offers a glimpse to the Spanish canon through the cultural topology of “Fantasy”. By conceiving fantasy as a historically produced—and therefore historically changing—notion, we will travel across five centuries to examine how phenomena associated with the supernatural and the paranormal were understood in their time and how they are understood today. Haunting memories and spaces, ghosts and imaginary representations, supernatural events, monsters, spiritistic practices, and phantasmagorias will parade before our eyes as we try to come up with a comprehensive account for what we could call the “Spanish uneven development”. The discussions over differential temporalities, social and political imaginaries, collective memories, the role of fiction and symbolic representations, and the connection between fantasy and the economic, political, and ideological practices in a determinate social formation will be interrogated in our seminar from different historical vantage points. Readings (most of them by major authors) will be the center of the discussion, whereas visual materials, documentary, art and movies will do their part to illustrate the readings. Several questions will be raised (and hopefully answered) along this journey: How can we explain proliferation of fantastic narratives in Contemporary Spain? And, finally, how can we examine the recent boom and success of Spanish fantastic, supernatural and horror pieces, particularly in film and in the novel? Is there such thing as a “Spanish fantastic” genre?
SPAN UN3731 ENV. # CITI: CULTRS OF IBERIAN PENINSULA. 3.00 points.
This course examines the role of nature and the environment in both contemporary literature and the arts, and attempts to explore a conceptual framework for the definition of environment as a cultural and material production. Environmental peculiarities and historical discontinuities and continuities have created social and political conjunctures in the Iberian Peninsula in which questions concerning nature, space, landscape, and urban and rural experiences have become central to the cultural and the critical imagination in the 20th & 21st Centuries. From the debate over the privatization and erosion of communal rights and the environmental dispossession (and repossessions) of the resources to the history of the constructions of nature(s) in literary and cinematic landscapes, the guiding question is how cultural and social practices interfere in the production of what Rob Nixon has called ‘slow violence’, that is, the incremental dynamics of environmental violence that intensify the vulnerability of populations and natural ecosystems. To address this issue, we will not only read a number of novels, essays, poems, short stories and theoretical production, but also engage in the study of artwork and new Iberian democratic experiences, and the development of the cultural environmental studies and ecocriticism in literature and the arts today. The class will be conducted in Spanish and all written assignments will also be in that language.

Fall 2022: SPAN UN3731
Course Number: 3731
Section/Call Number: 001/12580
Times/Location: M W 11:40am - 12:55pm
Instructor: Ana Fernandez
Points: 3.00
Enrollment: 10/15

SPAN GU4010 LANGUAGE CROSSING IN LATINX CARIBBEAN CULTURAL PRODUCTION. 3 points.
Prerequisites: Intermediate reading knowledge of Spanish

SPAN G4030 Spanish Pragmatics. 4 points.
In one sense, Pragmatics is concerned with how we use the language, why and how the speakers communicate in social interactions. The interpretation of meaning in context is probably the main field of study of this multidiscipline, considering the speaker-meaning as the central point of departure. The term Pragmatics refers to a broad perspective on different aspects of communication, including linguistics, but also cognitive psychology, cultural anthropology, philosophy, sociology and rhetoric among others. Through this course we will study chronologically and apply in specific cases of study of the Spanish language the most meaningful pragmatic theories, such as: Context, Deixis, Speech acts, Implicature, Cooperative Principle, Politeness, Relevance, Pragmatic markers, Metaphors and Cross-cultural pragmatics. Pragmatics, as we know, is a most helpful criterion in the interpretation of many different types of texts. As a course within our Department’s curriculum this instrument of rhetoric analysis is a basic tool in the comprehension of our students’ discourse in their literary, cultural, and critical papers. This discipline goes beyond the analysis of strictly forms or verbal utterances, hence its multidisciplinary applicability to a wide range of fields of studies in Spanish. Whichever the student’s field of study might be, Pragmatics provides a valuable and accurate vocabulary that can be applied to any textual interpretation. In this course, the pragmatic perspective is a starting point to delve into the processes of communication in Spanish. After this first approach, the student will gain an insight into new aspects of the linguistics of language use in general and the use of Spanish in particular.

CPLS GU4810 Theories of the Subject. 4 points.
This seminar will revisit some major texts and concerns in the theoretical humanities that develop genealogical, psychoanalytical or political theories of the subject, roughly from Marx until today. The goal is to come to a critical understanding of the centrality of this notion of the subject as one of the founding concepts of modernity, as well as to draw out all the consequences of its crisis in radical humanistic (or even so-called posthumanist) thought today. Thinkers to be discussed further include Freud, Foucault, Badiou, Butler, Althusser, Rozitchner, Žižek and Zupančič.

PORTUGUESE

PORT UN1101 ELEMENTARY PORTUGUESE I. 4.00 points.
A beginning course designed for students who wish to start their study of Portuguese and have no proficiency in another Romance language. The four language skills: listening, speaking, reading, and writing are developed at the basic level

Spring 2023: PORT UN1101
Course Number: 1101
Section/Call Number: 001/11225
Times/Location: M W 2:10pm - 4:00pm
Instructor: Ana Huback
Points: 4.00
Enrollment: 13/15

PORT UN1102 ELEMENTARY PORTUGUESE II. 4.00 points.
Prerequisites: PORT W1101 or the equivalent. A course designed to acquaint students with the Portuguese verbal, prepositional, and pronominal systems. As a continuation of Elementary Portuguese I (PORT W1101), this course focuses on the uses of characteristic forms and expressions of the language as it is spoken and written in Brazil today

Fall 2022: PORT UN1102
Course Number: 1102
Section/Call Number: 001/10714
Times/Location: M W Th 1:10pm - 2:25pm
Instructor: Jose Pazos
Points: 4.00
Enrollment: 1/15

Spring 2023: PORT UN1102

written composition, reading, conversation, and discussion of grammar, with emphasis on self-expression through oral and
Prerequisites: PORT W1120 or the equivalent. General review
Prerequisites: PORT UN2101 and PORT UN2102. Students MUST demonstrate a strong foundation in Portuguese and meet the following REQUIREMENT: A- or higher in PORT UN1102 or PORT UN1320. If you fulfill the above requirement, you do not need the instructors permission to register. HOWEVER the instructor will additionally assess student proficiency during the Change of Program Period. Students who do not have the necessary proficiency level may not remain in this course. This course replaces the sequence PORT UN2101-PORT UN2102

PORT UN3101 CONVERS ABOUT LUSOPHONE WORLD. 3.00 points.
Prerequisites: PORT W1220.
Prerequisites: PORT W1220. This conversation class will help students develop their oral proficiency in Portuguese. We will discuss current events, participate in challenging pronunciation exercises, improve understanding of Portuguese idioms, develop conversation strengths, confront weaknesses, and increase fluency in spoken Portuguese

PORT UN3300 ADV LANGUAGE THROUGH CONTENT. 3.00 points.
Corequisites: PORT UN1220
Corequisites: PORT UN1220 An intensive exposure to advanced points of Portuguese grammar and structure through written and oral practice, along with an introduction to the basic principles of academic composition in Portuguese. This course is required for the concentration in Portuguese Studies. This course is intended to improve Portuguese language skills in grammar, comprehension, and critical thinking through an archive of texts from literature, film, music, newspapers, critical reception and more. To do so, we will work through Portuguese-speaking communities and cultures from Brazil, to Portugal and Angola, during the twentieth and twenty-first century, to consider the mode in which genre, gender and sexuality materialize and are codified, disoriented, made, unmade and refigured through cultural productions, bodies, nation and resistant vernaculars of aesthetics and performance, always attentive to the intersections of gender with class and racism
comfortably in a Catalan environment and writing practice that will allow the student to function with emphasis on oral communication as well as the reading.

An extensive introduction to the Catalan language with an overview of cultural commentary. Students are expected to assimilate the background information but are also encouraged to develop their own perspective and interest, whether in the social sciences, the humanities (including the fine arts), or other areas.

PORT UN3490 BRAZILIAN SOCIETY # CIV (ENG). 3.00 points.
Each week, a historical period is studied in connection to a particular theme of ongoing cultural expression. While diverse elements of popular culture are included, fiction is privileged as a source of cultural commentary. Students are expected to expand reading, writing, speaking, and listening skills.

PORT UN2102 Intermediate. Portuguese II. 4.00 points.
Prerequisites: PORT UN1120 or PORT UN1320 or the equivalent. General review of grammar, with emphasis on self-expression through oral and written composition, reading, conversation, and discussion.

PORT UN2102 Intermed. Catalan II. 4.00 points.
Prerequisites: PORT UN2101 or equivalent. General review of grammar, with emphasis on self-expression through oral and written composition, reading, conversation, and discussion.

CATALAN
CATL UN1120 COMPREHENSIVE BEG CATALAN. 4.00 points.
An extensive introduction to the Catalan language with an emphasis on oral communication as well as the reading and writing practice that will allow the student to function comfortably in a Catalan environment.

CATL UN2101 INTERMEDIATE CATALAN I. 4.00 points.
Prerequisites: CATL W1120. The first part of Columbia University’s comprehensive intermediate Catalan sequence. The main objectives of this course are to continue developing communicative competence - reading, writing, speaking and listening comprehension - and to further acquaint students with Catalan cultures.

CATL UN2102 INTERMEDIATE CATALAN II. 4.00 points.
Prerequisites: CATL UN2101 or equivalent. Course goals are to enhance student exposure to various aspects of Catalan culture and to consolidate and expand reading, writing, speaking, and listening skills.

Columbia College Bulletin (with course listings) 2022-2023 03/29/23

615
To wit, the person with a basic foundation in what constitutes linguistic study in our times (including realistic training for graduate study if desired) understands:

a) the basics of grammatical analysis in terms of sounds and sentence structure
b) how languages change over time
c) the mechanics of how languages express meaning and implication
d) the details and nuances of how language is used in social space
e) the ways and extent to which the world’s 7000 languages differ from one another
f) the relationship between language and cognition writ large

STUDY ABROAD

Undergraduates have engaged in unique travel and research projects, including sign language in Nicaragua; language attitudes in Kyrgyzstan; colloquial Arabic in Cairo; summer internship at the Max Planck Institute for Evolutionary Biology; and study abroad in Spain, England, India, Hungary, and Ireland.

GRADUATE STUDY

Columbia’s linguists have distinguished themselves with awards and plans after graduation, such as Fulbright Fellowships to France, Georgia, and Turkey; and graduate study of linguistics or psychology at Harvard, Stanford, UCSD, Northwestern, New York University, and SUNY Buffalo. Linguistics is also a natural background for the law, and our students have entered such law schools as Georgetown and Columbia.

There is no graduate program in linguistics at Columbia. Students interested in pursuing graduate study in linguistics in New York should investigate CUNY Graduate Center, New York University, or Teachers College (applied linguistics).

AFFILIATED FACULTY

May Ahmar (Arabic; MESAAS)
Akeel Bilgrami (Philosophy)
Guadalupe Ruiz Fajardo (Latin American and Iberian Cultures)
Aaron Fox (Music)
Melissa Fusco (Philosophy)
Haim Gaifman (Philosophy)
Boris Gasparov (Slavic Languages)
E. Mara Green, (Anthropology, Barnard)
Julia Hirschberg (Computer Science)
Ana Paula Huback (Latin American and Iberian Studies)
Meredith Landman (Slavic Languages)
Karen Lewis (Philosophy, Barnard)
Lening Liu (Chinese; East Asian Languages and Cultures)
Reyes Llopis-Garcia (Latin American and Iberian Cultures)
David Lurie (Japanese; East Asian Languages and Cultures)
Kathleen McKeown (Computer Science)
John McWhorter (American Studies)
Major in Linguistics

The complete major requirement – totaling 38 points – is the following:

1. LING UN3101 INTRODUCTION TO LINGUISTICS (3pts.)
2. LING GU4376 PHONETICS # PHONOLOGY (3pts.)
3. LING GU4903 SYNTAX (3pts.)
4. One course from four out of five themes (12 pts. total):
   a) Language in time
      Content: Historical linguistics, as in how grammars transform over time (such as the development of Modern from Old English) in terms of sounds, structures, and meaning
      LING GU4108 LANGUAGE HISTORY
      ENGL GU4901 HISTORY OF THE ENGLISH LANGUAGE
      CHNS GU4019 HISTORY OF CHINESE LANGUAGE
   b) Language in context
      Content: How language varies in structure and usage according to sociological factors such as gender, class, race, power and culture
      LING GU4800 LANGUAGE # SOCIETY
      LING UN3102 Endangered Languages in the Global City: Lang, Culture, and Migration in Contemorary NYC
      ANTH UN1009 INTRO TO LANGUAGE # CULTURE
      ANTH GR6067 Language and Its Limits (graduate seminar open to undergraduates)
      AMST UN3931 Topics in American Studies (Languages of America)
      AMST UN3931 Topics in American Studies (Language Contact)
      SPAN GU4010 LANGUAGE CROSSING IN LATINX CARIBBEAN CULTURAL PRODUCTION
   c) Language diversity
      Content: How languages differ from one another and in which ways; especially valuable in this module are a) Field Methods, eliciting the vocabulary and structure of a lesser documented language by questioning a native speaker, in the fashion of professional linguists, b) courses focusing on the structure of individual languages
      LING GU4120 LANG DOCUMENTATION/FIELD MTHDS
      LING GU4171 LANGUAGES OF AFRICA
      HNGR UN3343 Descriptive Grammar Hungarian
   d) Language and meaning
      Content: semantics, philosophy of language, cognitive linguistics, natural language processing
      LING GU4190 DISCOURSE ANALYSIS
      PHIL UN2685 INTRO TO PHIL OF LANGUAGE
      SPAN GU4011 CONVERSATION IN SPANISH:PRACTICE AND ANA
      SPAN GR5450 A COGNITIVE LINGUISTICS ACCOUNT OF LANGUAGE
      SPAN GU4030 Spanish Pragmatics (taught in Spanish)
   e) Psychology and biology of language
      Content: psycholinguistics, neurolinguistics, language genesis. This is especially important given the burgeoning research on the actual structural representation of language in the brain, as well as increasingly influential proposals that ground language in larger thought processes (as opposed to the Chomskyan proposal that language is, to a considerable extent, generated via exclusive cognitive mechanisms).
      LING UN3103 Language, Brain and Mind
      PSYC BC3164 PERCEPTION AND LANGUAGE
      PSYC GU4232 Production and Perception of Language
      PSYC BC3369 Language Development
      PSYC GU4242 Evolution of Language (seminar) (graduate seminar open to undergraduates)
      PSYC GU4244 LANGUAGE AND MIND
      PSYC GU4272 Advanced Seminar in Language Development
      PSYC GU4470 PSYCH # NEUROPSYCH OF LANGUAGE
4. One elective course (3 pts.) from either a) one of the themes, or b) a linguistics-related course from another department subject to approval from the program. This option will allow students to either sample more widely or specialize somewhat in a subarea of linguistics that has come to interest them.
5. Senior thesis (two semesters, 3 pts. per semester)
6. Language requirement: Two semesters of an intermediate-level language sequence (8 points). The language taken can be an ancient language (e.g., Latin, Ancient Greek, Sanskrit) or a modern one but should neither belong to one of the major groups of modern European languages (Germanic, Romance)
nor be the student’s native or semi-native language. In addition, the language cannot also be used to satisfy the core language requirement.

**SPECIAL CONCENTRATION IN LINGUISTICS**

The special concentration in linguistics is not sufficient for graduation in and of itself. It must be taken in conjunction with a major or a full concentration in another discipline.

Please note: the requirements for the special concentration in Linguistics were modified in the Fall 2019 semester. Students who entered Columbia before the Fall 2019 semester have the option of following the new or the old requirements. If you have any questions, please contact the Director of Undergraduate Studies.

For the new requirements, students must take 23 points in the linguistics program as specified below.

For the old requirements, students must take 18 points; the requirements are specified below, with the exception that the language requirement is one language course at the intermediate level (4pts.), separate from the core curriculum foreign language requirement.

The requirements for the special concentration (23 points) are as follows:

1. Three core courses in linguistics chosen from:
   - LING UN3101 INTRODUCTION TO LINGUISTICS
   - LING UN3102 Endangered Languages in the Global City: Lang, Culture, and Migration in Contempary NYC
   - LING UN3103 Language, Brain and Mind
   - HNGR UN3343 Descriptive Grammar Hungarian
   - LING GU4108 LANGUAGE HISTORY
   - LING GU4120 LANG DOCUMENTATION/FIELD MTHDS
   - LING GU4171 LANGUAGES OF AFRICA
   - LING GU4190 DISCOURSE ANALYSIS
   - LING GU4376 PHONETICS # PHONOLOGY
   - LING GU4800 LANGUAGE # SOCIETY
   - LING GU4903 SYNTAX

2. Two additional courses from either a) the core linguistics courses, or b) a linguistics-related course from another department subject to approval from the program. Courses previously approved include those listed below:

   **Anthropology:**
   - ANTH UN1009 INTRO TO LANGUAGE # CULTURE
   - ANTH GU4042 Agent, Person, Subject, Self
   - ANTH GR6067 Language and Its Limits
   - ANTH GR6125 Language, Culture, and Power

   **Chinese:**
   - CHNS GU4019 HISTORY OF CHINESE LANGUAGE

   **Computer Science:**
   - COMS W1012 Computational Linguistics
   - COMS W4705 Natural Language Processing
   - COMS W4995 Topics in Computer Science (with approval)
   - COMS E6998 Topics in Computer Science (with approval)

   **Comparative Literature & Society:**
   - CPLS GU4111 World Philology

   **French:**
   - FREN BC3011 History of the French Language

   **Philosophy:**
   - PHIL UN2685 INTRO TO PHIL OF LANGUAGE
   - PHIL UN3411 SYMBOLIC LOGIC
   - PHIL UN3685 PHILOSOPHY OF LANGUAGE
   - PHIL GU4490 LANGUAGE AND MIND

   **Psychology:**
   - PSYC UN2215 Cognition and the Brain
   - PSYC UN2440: Language and the Brain
   - PSYC UN2450 BEHAVIORAL NEUROSCIENCE
   - PSYC BC3164 PERCEPTION AND LANGUAGE
   - PSYC UN3265 Auditory Perception (Seminar)
   - PSYC BC3369 Language Development
   - PSYC GU4232 Production and Perception of Language
   - PSYC GU4272 Advanced Seminar in Language Development

   **Spanish:**
   - SPAN BC3382 SOCIOLING ASPECTS U.S.SPANISH
   - SPAN GU4010 LANGUAGE CROSSING IN LATINX CARIBBEAN CULTURAL PRODUCTION
   - SPAN GU4011 CONVERSATION IN SPANISH:PRACTICE AND ANA
   - SPAN GU4030 Spanish Pragmatics
   - SPAN GR5450 A COGNITIVE LINGUISTICS ACCOUNT OF LANGUAGE

   **Sociology:**
   - SOCI GU4030 Sociology of Language

3. Language requirement: Two semesters of an intermediate-level language sequence (8 points). The language taken can be an ancient language (e.g., Latin, Ancient Greek, Sanskrit) or a modern one but should neither belong to one of the major groups of modern European languages (Germanic, Romance) nor be the student’s native or semi-native language. In addition, the language cannot also be used to satisfy the core language requirement.

**LINGUISTICS**

**LING UN3101 INTRODUCTION TO LINGUISTICS. 3.00 points.**

An introduction to the study of language from a scientific perspective. The course is divided into three units: language as a system (sounds, morphology, syntax, and semantics), language in context (in space, time, and community), and language of the individual (psycholinguistics, errors, aphasia, neurology of language, and acquisition). Workload: lecture, weekly homework, and final examination
is this so? What makes this possible? This course seeks to answer these questions. We will look at the neurological and psychological foundations of the human faculty of language. How did our brains change to allow language to evolve? Where in our brains are the components of language found? Are our minds specialized for learning language or is it part of our general cognitive abilities to learn? How are words and sentences produced and their meanings recognized? The structure of languages around the world varies greatly; does this have psychological effects for their speakers?

LING UN3102 Endangered Languages in the Global City: Lang, Culture, and Migration in Contempory NYC. 3.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

Of the world’s estimated 7,000 languages – representing migrations and historical developments thousands of years old – the majority are oral, little-documented, and increasingly endangered under the onslaught of global languages like English. This course will take the unprecedented, paradoxical linguistic capital of New York City as a lens for examining how immigrants form communities in a new land, how those communities are integrated into the wider society, and how they grapple with linguistic and cultural loss. Interdisciplinary with an experiential learning component, the course will focus on texts, materials, encounters, and fieldwork with three of the city’s newest and least-studied indigenous immigrant communities (indigenous Latin Americans, Himalayans, and Central Asians). Indigeneity, though often invisible or perceived as marginal in global cities like New York, is in fact pervasive and fundamental. Cities now constitute a crucial site for understanding migration and cultural change, with language a vehicle for culture. Studying cultures only in situ (i.e. in their homelands) risks missing a crucial dimension. Students will be immersed in stateless, oral, immigrant cultures while also gaining a hands-on critical understanding of language endangerment and urban sociolinguistic research, first through field experiences and guest speakers (Endangered Language Alliance partners) and then by going out together into communities to work on projects in small teams. The Endangered Language Alliance (ELA), where the instructor is Co-Director, was formed as a non-profit research institute in 2010 as a forum for researchers, community members, activists, artists, and other New Yorkers to come together to support indigenous and minority languages. ELA’s video recordings provide first-hand testimony of endangered languages in the global city – in indigenous languages with English translation – available in few other places. Those texts will be central to this course, supplemented by the new, first-ever, detailed language map of New York City being produced by ELA.

LING GU4108 LANGUAGE HISTORY. 3.00 points.
Prerequisites: LING UN3101
Prerequisites: LING UN3101 Language, like all components of culture, is structured and conventional, yet can nevertheless change over time. This course examines how language changes, firstly as a self-contained system that changes organically and autonomously, and secondly as contextualized habits that change in time, in space, and in communities. Workload: readings # discussion, weekly problems, and final examination

LING GU4120 LANG DOCUMENTATION/FIELD MTHDS. 3.00 points.
Prerequisites: LING UN3101
Prerequisites: LING UN3101 In light of the predicted loss of up to 90% of the world languages by the end of this century, it has become urgent that linguists take a more active role in documenting and conserving endangered languages. In this course, we will learn the essential skills and technology of language documentation through work with speakers of an endangered language.

LING UN3103 Language, Brain and Mind. 3.00 points.
The ability to speak distinguishes humans from all other animals, including our closest relatives, the chimpanzees. Why...
in the Middle East and are now most commonly associated with Arabic and Hebrew, the famous "click" languages of Southern Africa whose origins are still shrouded by mystery, and in the case of Malagasy on Madagascar, the Austronesian family of Southeast Asia and Oceania - the language traces to speakers who travelled over the ocean from Borneo to Africa. This course will examine languages in all of these families, with a focus on how they demonstrate a wide array of linguistic processes and how they interact with social history, anthropology, and geography.

**LING GU4172 The Structure of Cambodian. 3 points.**

Like every other language, Cambodian is totally unique in some respects (these are of interest only to the language learner), and a representative human language in others (these are of interest to all students of language). Thus, for example, like every written language, Cambodian will exhibit diglossia: the grammar and the vocabulary of the written language will differ from that of the spoken language. It is also a member of a language family, known as Austroasiatic, whose members are spoken from NE India through Malaysia, Myanmar, and Indochina. In addition, Cambodian is a structural representative of a given type of language spoken throughout mainland Southeast Asia. That is, in many respects, the structure of Cambodian is similar to those of Lao, Thai, Vietnamese, as well as Hmong. In the “Far West” of SE Asia, are spoken other languages, among them Burmese, Mon, and Karen, which are still similar, but less so. All of these languages are isolating, monosyllabic languages. Of the languages just listed, only Vietnamese and Mon are genetically related to Cambodian. Finally, in its orthography and lexicon, Cambodian has borrowed so extensively from Indic languages, that alliterate speakers have a considerable background in practical etymology, and recognize borrowings from, say, Pali, as English speakers generally do not recognize borrowings from Norman French or Latin or Greek. Since the Indic languages belong to IndoEuropean, some unexpected words in Cambodian (e.g. niam, smaev) will turn out to have English cognates (like name, same).

Your goal in this course is not to acquire a speaking knowledge of Khmer. (For that you would need a pedagogical grammar, a native-speaker instructor, and hours and hours of practice in the lab and in the classroom.) It is rather to understand from a linguist’s point of view what it is that makes this language a typical language of this part of the world. We will be working through a reference grammar of the language together.

You are each also going to “adopt” another mainland SE Asian language for purposes of comparison, to experience for yourself what it means for a language to be a member of a linguistic alliance or Sprachbund. You may select your own ‘pet’ language, and your assignment will then be to ‘master’ this language in the same way that you have ‘mastered’ Khmer.

**LING GU4190 DISCOURSE ANALYSIS. 3.00 points.**

Prerequisites: LING UN3101

How discourse works; how language is used: oral vs. written modes of language; the structure of discourse; speech acts and speech genres; the expression of power; authenticity; and solidarity in discourse, dialogicity, pragmatics, and mimesis

Spring 2023: LING GU4190

**LING GU4206 ADV GRAMMAR AND GRAMMARS. 3.00 points.**

Prerequisites: LING UN3101 LING W3101.

An investigation of the possible types of grammatical phenomena (argument structure, tense/aspect/mood, relative clauses, classifiers, and deixis). This typological approach is enriched by the reading of actual grammars of languages from Asia, Africa, Australia, and the Americas in which grammatical descriptions are read with an eye to important notional concepts of grammar: reference and categorization, case and role of arguments with predicates (ergativity), tense/aspect/mood. Discussion of meaning is combined with attention to expression (that is, morphology), which yanks our attention towards language change (grammaticalization)

**LING GU4376 PHONETICS # PHONOLOGY. 3.00 points.**

Prerequisites: LING UN3101

An investigation of the sounds of human language, from the perspective of phonetics (articulation and acoustics, including computer-aided acoustic analysis) and phonology (the distribution and function of sounds in individual languages)

Spring 2023: LING GU4376

**LING GU4800 LANGUAGE # SOCIETY. 3.00 points.**

How language structure and usage varies according to societal factors such as social history and socioeconomic factors, illustrated with study modules on language contact, language standardization and literacy, quantitative sociolinguistic theory, language allegiance, language, and power

**LING GU4903 SYNTAX. 3.00 points.**

Prerequisites: LING UN3101

Prerequisites: LING UN3101 Syntax - the combination of words - has been at the center of the Chomskyan revolution in Linguistics. This is a technical course which examines modern formal theories of syntax, focusing on later versions of
generative syntax (Government and Binding) with secondary attention to alternative models (HPSG, Categorial Grammar)

---

The major in mathematics is an introduction to some of the highlights of the development of theoretical mathematics over the past four hundred years from a modern perspective. This study is also applied to many problems, both internal to mathematics and arising in other disciplines such as physics, cryptography, and finance.

Majors begin by taking either Honors mathematics or the calculus sequence. Students who do not take MATH UN1207 HONORS MATHEMATICS A and MATH UN1208 HONORS MATHEMATICS B normally take MATH UN2010 LINEAR ALGEBRA in the second year. Following this, majors begin to learn some aspects of the main branches of modern mathematics: algebra, analysis, and geometry; as well as some of their subdivisions and hybrids (e.g., number theory, differential geometry, and complex analysis). As the courses become more advanced, they also become more theoretical and proof-oriented and less computational.

Aside from the courses offered by the Mathematics Department, cognate courses in areas such as astronomy, chemistry, physics, probability, logic, economics, and computer science can be used toward the major. A cognate course must be a 2000-level (or higher) course and must be approved by the director of undergraduate studies. In general, a course not taught by the Mathematics Department is a cognate course for the mathematics major if either (a) it has at least two semesters of calculus as a stated prerequisite, or (b) the subject matter in the course is mathematics beyond an elementary level, such as PHIL UN3411 SYMBOLIC LOGIC, in the Philosophy Department, or COMS W3203 DISCRETE MATHEMATICS, in the Computer Science Department.

Another requirement for majors is participation in an undergraduate seminar, usually in the junior or senior year. Applied math majors must take the undergraduate seminar in both the junior and senior year. In these seminars, students gain experience in learning an advanced topic and lecturing on it. In order to be eligible for departmental honors, majors must write a senior thesis.

**Courses for First-Year Students**

The systematic study of mathematics begins with one of the following three alternative calculus and linear algebra sequences:

**MATH UN1101** CALCULUS I
- MATH UN1102 and CALCULUS II
- MATH UN1201 and CALCULUS III
- MATH UN1202 and CALCULUS IV
- MATH UN2010 and LINEAR ALGEBRA

OR

**MATH UN1101** CALCULUS I
- MATH UN1102 and CALCULUS II
- MATH UN1205 and ACCELERATED
- MATH UN2010 MULTIVARIABLE CALC
  and LINEAR ALGEBRA

OR

**MATH UN1101** CALCULUS I
- MATH UN1102 and CALCULUS II
- MATH UN1207 and HONORS MATHEMATICS A
- MATH UN1208 and HONORS MATHEMATICS B

Credit is allowed for only one calculus and linear algebra sequence.

*Calculus I, II* is a standard course in single-variable differential and integral calculus; *Calculus III, IV* is a standard course in multivariable differential and integral calculus; *Accelerated...*
Multivariable Calculus is an accelerated course in multivariable differential and integral calculus.

While Calculus II is no longer a prerequisite for Calculus III, students are strongly urged to take it before taking Calculus III. In particular, students thinking of majoring or concentrating in mathematics or one of the joint majors involving mathematics should take Calculus II before taking Calculus III. Note that Calculus II is a prerequisite for Accelerated Multivariable Calculus, and both Calculus II and Calculus III are prerequisites for Calculus IV.

The third sequence, Honors Mathematics A-B, is for exceptionally well-qualified students who have strong Advanced Placement scores. It covers multivariable calculus (MATH UN1201 CALCULUS III- MATH UN1202 CALCULUS IV) and linear algebra (MATH UN2010 LINEAR ALGEBRA), with an emphasis on theory.

ADVANCED PLACEMENT

The department grants 3 credits for a score of 4 or 5 on the AP Calculus AB exam provided students complete MATH UN1102 CALCULUS II or MATH UN1201 CALCULUS III with a grade of C or better. The department grants 3 credits for a score of 4 on the AP Calculus BC exam provided students complete MATH UN1102 CALCULUS II or MATH UN1201 CALCULUS III with a grade of C or better. The department grants 6 credits for a score of 5 on the AP Calculus BC exam provided students complete MATH UN1201 CALCULUS III or MATH UN1205 ACCELERATED MULTIVARIABLE CALC MATH UN1207 HONORS MATHEMATICS A with a grade of C or better. Students can receive credit for only one calculus sequence.

PLACEMENT IN THE CALCULUS SEQUENCES

Calculus I
Students who have essentially mastered a precalculus course and those who have a score of 3 or less on an Advanced Placement (AP) exam (either AB or BC) should begin their study of calculus with MATH UN1101 CALCULUS I.

Calculus II and III
Students with a score of 4 or 5 on the AB exam, 4 on the BC exam, or those with no AP score but with a grade of A in a full year of high school calculus may begin with either MATH UN1102 CALCULUS II or MATH UN1201 CALCULUS III. Note that such students who decide to start with Calculus III may still need to take Calculus II since it is a requirement or prerequisite for other courses. In particular, they MUST take Calculus II before going on to MATH UN1202 CALCULUS IV. Students with a score of 5 on the BC exam may begin with Calculus III and do not need to take Calculus II.

Those with a score of 4 or 5 on the AB exam or 4 on the BC exam may receive 3 points of AP credit upon completion of Calculus II with a grade of C or higher. Those students with a score of 5 on the BC exam may receive 6 points of AP credit upon completion of Calculus III with a grade of C or higher.

Accelerated Multivariable Calculus
Students with a score of 5 on the AP BC exam or 7 on the IB HL exam may begin with MATH UN1205 ACCELERATED MULTIVARIABLE CALC. Upon completion of this course with a grade of C or higher, they may receive 6 points of AP credit.

Honors Mathematics A
Students who want a proof-oriented theoretical sequence and have a score of 5 on the BC exam may begin with MATH UN1207 HONORS MATHEMATICS A, which is especially designed for mathematics majors. Upon completion of this course with a grade of C or higher, they may receive 6 points of AP credit.

TRANSFERS INSIDE THE CALCULUS SEQUENCES

Students who wish to transfer from one calculus course to another are allowed to do so beyond the date specified on the Academic Calendar. They are considered to be adjusting their level, not changing their program. However, students must obtain the approval of the new instructor and their advising dean prior to reporting to the Office of the Registrar.

GRADING

No course with a grade of D or lower can count toward the major, interdepartmental major, or concentration. Students who are doing a double major cannot double count courses for their majors.

SENIOR THESIS AND DEPARTMENTAL HONORS

In order to be eligible for departmental honors, majors must write a senior thesis. Normally no more than 10% of graduating majors receive departmental honors in a given academic year.

A Senior Thesis in Mathematics is an original presentation of a subject in pure or applied mathematics from sources in the published literature. The thesis must demonstrate significant independent work of the author. A thesis is expected to be between 20 and 50 pages with complete references and must have a substantial expository component to be well received.

A student who is interested in writing a senior thesis needs to identify a faculty member in the Department of Mathematics as an advisor, determine an appropriate topic, and receive the written approval from the faculty advisor and the DUS. The research of the thesis is conducted primarily during the fall.
term and the final paper is submitted to the DUS by the end of March.

Students must register for MATH UN3994 Senior Thesis in Mathematics I (4 credits) in the fall semester of their senior year. An optional continuation course MATH UN3995 Senior Thesis in Mathematics II (2 credits) is available during the spring. The second term of this sequence may not be taken without the first. Registration for the spring continuation course has no impact on the timeline or outcome of the final paper. Sections of Senior Thesis in Mathematics I and II do NOT count towards the major requirements, with the exception of an advanced written approval by the DUS.

PROFESSORS
• Mohammed Abouzaid
• David A. Bayer (Barnard)
• Andrew Blumberg
• Simon Brendle
• Ivan Corwin
• Panagiota Daskalopoulos
• Aise Johan de Jong (Department Chair)

</tr>
</tbody>
</table>

12 points from the following:

1) Courses offered by the department numbered 2000 or higher.
2) Courses from the list of approved cognate courses below. A maximum of 6 credits may be taken from courses outside the department.

1

UN2015 (Linear Algebra and Probability) does NOT replace UN2010 (Linear Algebra) as prerequisite requirements of math courses. Students will not receive full credit for both courses UN2010 and UN2015.

2

Students who are not contemplating graduate study in mathematics may replace one or both of the two terms of MATH GU4061 - MATH GU4062 by one or two of the following courses: MATH UN2500 ANALYSIS AND OPTIMIZATION, MATH UN3007 COMPLEX VARIABLES, MATH UN3028 PARTIAL DIFFERENTIAL EQUATIONS, or MATH GU4032 FOURIER ANALYSIS.

3

Only one section of the Undergraduate Seminar may count towards the major requirements.

4

Additional courses may be selected only with prior written approval from the Director of Undergraduate Studies.

The program of study should be planned with a departmental adviser before the end of the sophomore year. Majors who are planning on graduate studies in mathematics are urged to obtain a reading knowledge of one of the following languages: French, German, or Russian.

Majors are offered the opportunity to write an honors senior thesis under the guidance of a faculty member. Interested students should contact the director of undergraduate studies.
## Major in Applied Mathematics

The major requires 37-41 points as follows:

### Courses 1

- APMA E4300
- MATH: INTRODUCTION TO NUMERICAL METHODS

### Courses 2

- CHEM E3079 PHYSICAL CHEMISTRY I
- CHEM E3080 PHYSICAL CHEMISTRY II

### Courses 3

- CHEM E3134 DATA STRUCTURES AND ALGORITHMS

The selected course may not count as an elective.

### Approved Cognate

- Courses 1
  - APMA E4300
  - MATH: INTRODUCTION TO NUMERICAL METHODS

- Courses 2
  - CHEM E3079
  - CHEM E3080

- Courses 3
  - CHEM E3134

Select one of the following three calculus and linear algebra sequences (13-15 points including Advanced Placement sequences)

- MATH UN1101
  - MATH UN1102
  - MATH UN1201
  - MATH UN1206
  - MATH UN2010

### Courses 4

- APMA E4901
- APMA E4903
- MATH GU4061
- MATH GU4065
- PHYS GU4011
- PHYS GU4019

**Other Courses:**
- MATH UN1101
- MATH UN1102
- MATH UN1201
- MATH UN1202
- MATH UN2010
- MATH UN2020
- MATH UN3025

**Credit:**
- MATH UN3028
- MATH UN2500
- MATH UN2010
- MATH UN1202
- MATH UN1102

**Logic:**
- CSPH G4801
- PHIL GU4810
- PHIL GU4561

**Logic II:**
- CSPH G4802
- MATH: HONORS COMPLEX VARIABLES
- PHYS GU4011

**Incompleteness:**
- APMA E6301
- MATH: HONORS MATHEMATICS
- PHYS GU4011

**Major in Applied Mathematics:**

- MATH UN1101
  - MATH UN1102
  - MATH UN1201
  - MATH UN1202
  - MATH UN2010

**Or:**
- MATH UN1101
  - MATH UN1102
  - MATH UN1201
  - MATH UN1202
  - MATH UN2010

**Credit:**
- MATH UN3028
- MATH UN2500
- MATH UN2010
- MATH UN1202
- MATH UN1102

**Logic:**
- CSPH G4801
- PHIL GU4810
- PHIL GU4561

**Logic II:**
- CSPH G4802
- MATH: HONORS COMPLEX VARIABLES
- PHYS GU4011

**Incompleteness:**
- APMA E6301
- MATH: HONORS MATHEMATICS
- PHYS GU4011

UN2015 (Linear Algebra and Probability) does NOT replace UN2010 (Linear Algebra) as prerequisite requirements of math courses. Students will not receive full credit for both courses UN2010 and UN2015.

**Major in Computer Science–Mathematics**

The goal of this interdepartmental major is to provide substantial background in each of these two disciplines, focusing on some of the parts of each which are closest to the other. Students intending to pursue a Ph.D. program in either discipline are urged to take additional courses, in consultation with their advisers.

The major requires 20 points in computer science, 19-21 points in mathematics, and two 3-point electives in either computer science or mathematics.

**Computer Science**

<table>

UN2015 (Linear Algebra and Probability) does NOT replace UN2010 (Linear Algebra) as prerequisite requirements of math courses. Students will not receive full credit for both courses UN2010 and UN2015.

**Major in Economics–Mathematics**

For a description of the joint major in economics-mathematics, see the Economics section of this bulletin.

**Major in Mathematics–Statistics**

The program is designed to prepare the student for: (1) a career in industries such as finance and insurance that require a high level of mathematical sophistication and a substantial knowledge of probability and statistics, and (2) graduate study in quantitative disciplines. Students choose electives in finance, actuarial science, operations research, or other quantitative fields to complement requirements in mathematics, statistics, and computer science.
Mathematics

Select one of the following sequences:

MATH UN1101 - MATH UN1102 - MATH UN1201 - MATH UN2010 - MATH UN2500
CALCULUS I and CALCULUS II and CALCULUS III and MULTIVARIABLE CALC and LINEAR ALGEBRA and ANALYSIS AND OPTIMIZATION

OR

MATH UN1101 - MATH UN1102 - MATH UN1205 - MATH UN2010 - MATH UN2500
CALCULUS I and CALCULUS II and ACCELERATED MULTIVARIABLE CALC and LINEAR ALGEBRA and ANALYSIS AND OPTIMIZATION

OR

MATH UN1207 - MATH UN1208 - MATH UN2500
HONORS MATHEMATICS A and HONORS MATHEMATICS B and ANALYSIS AND OPTIMIZATION (with approval from the adviser)

Statistics

Introductory Course

STAT UN1201
CALC-BASED INTRO TO STATISTICS

Required Courses

STAT GU4203
PROBABILITY THEORY

STAT GU4204
STATISTICAL INFERENCE

STAT GU4205
LINEAR REGRESSION MODELS

Select one of the following courses:

STAT GU4207
ELEMENTARY STOCHASTIC PROCESS

STAT GU4262
Stochastic Processes for Finance

STAT GU4264
STOCHASTIC PROCESSES-APPLICTNS I

STAT GU4265
STOCHASTIC METHODS IN FINANCE

Computer Science

Select one of the following courses:

COMS W1004
Introduction to Computer Science and Programming in Java

COMS W1005
Introduction to Computer Science and Programming in MATLAB

ENGI E1006
INTRO TO COMP FOR ENG/APP SCI

COMS W1007
Honors Introduction to Computer Science

or an advanced computer science offering in programming

Electives

An approved selection of three advanced courses in mathematics, statistics, applied mathematics, industrial engineering and operations research, computer science, or approved mathematical methods courses in a quantitative discipline. At least one elective must be a Mathematics Department course numbered 3000 or above.

1

UN2015 (Linear Algebra and Probability) does NOT replace UN2010 (Linear Algebra) as prerequisite requirements of math courses. Students will not receive full credit for both courses UN2010 and UN2015.

Students interested in modeling applications are recommended to take MATH UN2030 ORDINARY DIFFERENTIAL EQUATIONS and MATH UN3028 PARTIAL DIFFERENTIAL EQUATIONS.

Students interested in finance are recommended to take MATH GR5010 INTRO TO THE MATH OF FINANCE, STAT GU4261 STATISTICAL METHODS IN FINANCE, and STAT GU4221 TIME SERIES ANALYSIS.

Students interested in graduate study in mathematics or in statistics are recommended to take MATH GU4061 INTRO MODERN ANALYSIS I and MATH GU4062 INTRO MODERN ANALYSIS II.

Students preparing for a career in actuarial science are encouraged to replace STAT GU4205 LINEAR REGRESSION MODELS with STAT GU4282 Linear Regression and Time Series Methods, and to take among their electives STAT GU4281 Theory of Interest.

Concentration in Mathematics

The concentration requires the following:

Mathematics

Select one of the following three multivariable calculus and linear algebra sequences:

MATH UN1201 - MATH UN1202 - MATH UN2010
CALCULUS III and CALCULUS IV and LINEAR ALGEBRA

OR

MATH UN1205 - MATH UN2010
ACCELERATED MULTIVARIABLE CALC and LINEAR ALGEBRA

OR

MATH UN1207 - MATH UN1208
HONORS MATHEMATICS A and HONORS MATHEMATICS B

Additional Courses

Select at least 12 additional points from any of the courses offered by the department numbered 2000 or higher. A maximum of 3 credits may be taken from courses outside the department.
UN2015 (Linear Algebra and Probability) does NOT replace UN2010 (Linear Algebra) as prerequisite requirements of math courses. Students will not receive full credit for both courses UN2010 and UN2015.

2

For mathematics courses taken in other departments, consult with the director of undergraduate studies.

Any course given by the Mathematics department fulfills the General Studies quantitative reasoning requirement when passed with a satisfactory letter grade.

**MATH UN1003 COLLEGE ALGEBRA-ANLYTC GEOMETRY. 3.00 points.**
Prerequisites: score of 550 on the mathematics portion of the SAT completed within the last year, or the appropriate grade on the General Studies Mathematics Placement Examination. For students who wish to study calculus but do not know analytic geometry. Algebra review, graphs and functions, polynomial functions, rational functions, conic sections, systems of equations in two variables, exponential and logarithmic functions, trigonometric functions and trigonometric identities, applications of trigonometry, sequences, series, and limits.

### MATH UN1201 CALCULUS III. 3.00 points.

Prerequisites: MATH UN1101 or the equivalent

Vectors in dimensions 2 and 3, complex numbers and the complex exponential function with applications to differential equations, Cramers rule, vector-valued functions of one variable, scalar-valued functions of several variables, partial derivatives, gradients, surfaces, optimization, the method of Lagrange multipliers. (SC)

MATH UN2015 Linear Algebra and Probability. 3.00 points.

Linear algebra with a focus on probability and statistics. The course covers the standard linear algebra topics: systems of linear equations, matrices, determinants, vector spaces, bases, dimension, eigenvalues and eigenvectors, the Spectral Theorem and singular value decompositions. It also teaches applications of linear algebra to probability, statistics and dynamical systems giving a background sufficient for higher level courses in probability and statistics. The topics covered in the probability theory part include conditional probability, discrete and continuous random variables, probability distributions and the limit theorems, as well as Markov chains, curve-fitting, regression, and pattern analysis. The course contains applications to life sciences, chemistry, and environmental life sciences. No a priori background in the life sciences is assumed. This course is best suited for students who wish to focus on applications and practical approaches to problem solving. It is recommended to students majoring in engineering, technology, life sciences, social sciences, and economics. Math majors, joint majors, and math concentrators must take MATH UN2010 Linear Algebra, which focuses on linear algebra concepts and foundations that are needed for upper-level math courses. MATH UN2015 (Linear Algebra and Probability) does NOT replace MATH UN2010 (Linear Algebra) as prerequisite requirements of math courses. Students may not receive full credit for both courses MATH UN2010 and MATH UN2015 Fall 2022: MATH UN2015

MATH UN3951 UNDERGRADUATE SEMINARS I. 3.00 points.
Prerequisites: Two years of calculus, at least one year of additional mathematics courses, and the director of undergraduate studies' permission.
Prerequisites: Two years of calculus, at least one year of additional mathematics courses, and the director of undergraduate studies permission. The subject matter is announced at the start of registration and is different in each section. Each student prepares talks to be given to the seminar, under the supervision of a faculty member or senior teaching fellow.

MATH GU4007 ANALYTIC NUMBER THEORY. 3.00 points.
Prerequisites: MATH UN3007
Prerequisites: MATH UN3007 A one semester course covering the theory of modular forms, zeta functions, L -functions, and the Riemann hypothesis. Particular topics covered include the Riemann zeta function, the prime number theorem, Dirichlet characters, Dirichlet L-functions, Siegel zeros, prime number theorem for arithmetic progressions, SL (2, Z) and subgroups, quotients of the upper half-plane and cusps, modular forms, Fourier expansions of modular forms, Hecke operators, L-functions of modular forms.

Spring 2023: MATH GU4007

**MATH GU4043 ALGEBRAIC NUMBER THEORY. 3.00 points.**

Prerequisites: MATH GU4041 and MATH GU4042 or the equivalent

Prerequisites: MATH GU4041 and MATH GU4042 or the equivalent Algebraic number fields, unique factorization of ideals in the ring of algebraic integers in the field into prime ideals. Dirichlet unit theorem, finiteness of the class number, ramification. If time permits, p-adic numbers and Dedekind zeta function

### MATH GU4044 REPRESENTATANS OF FINITE GROUPS. 3.00 points.

Prerequisites: MATH UN2010 and MATH GU4041 or the equivalent.

Prerequisites: MATH UN2010 and MATH GU4041 or the equivalent. Finite groups acting on finite sets and finite dimensional vector spaces. Group characters. Relations with subgroups and factor groups. Arithmetic properties of character values. Applications to the theory of finite groups: Frobenius groups, Hall subgroups and solvable groups. Characters of the symmetric groups. Spherical functions on finite groups

### MATH GU4045 ALGEBRAIC CURVES. 3.00 points.

Prerequisites: (MATH GU4041 and MATH GU4042) and MATH UN3007

Prerequisites: (MATH GU4041 and MATH GU4042) and MATH UN3007 Plane curves, affine and projective varieties, singularities, normalization, Riemann surfaces, divisors, linear systems, Riemann-Roch theorem

### MATH GU4051 TOPOLOGY. 3.00 points.

Prerequisites: (MATH UN1202 and MATH UN2010) and rudiments of group theory (e.g., MATH GU4041). MATH UN1208 or MATH GU4061 is recommended, but not required.

Prerequisites: (MATH UN1202 and MATH UN2010) and rudiments of group theory (e.g., MATH GU4041). MATH UN1208 or MATH GU4061 is recommended, but not required. Metric spaces, continuity, compactness, quotient spaces. The fundamental group of topological space. Examples from knot theory and surfaces. Covering spaces

### MATH GU4052 INTRODUCTION TO KNOT THEORY. 3.00 points.

CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: MATH GU4051 Topology and / or MATH GU4061 Introduction To Modern Analysis I (or equivalents). Recommended (can be taken concurrently): MATH UN2010 linear algebra, or equivalent.

Prerequisites: MATH GU4051 Topology and / or MATH GU4061 Introduction To Modern Analysis I (or equivalents). Recommended (can be taken concurrently): MATH UN2010 linear algebra, or equivalent. The study of algebraic and geometric properties of knots in R#3, including but not limited to knot projections and Reidemeisters theorem, Seifert surfaces, braids, tangles, knot polynomials, fundamental group of knot complements. Depending on time and student interest, we will discuss more advanced topics like knot concordance, relationship to 3-manifold topology, other algebraic knot invariants

### MATH GU4053 INTRO TO ALGEBRAIC TOPOLOGY. 3.00 points.

Prerequisites: MATH UN2010 and MATH GU4041 and MATH GU4051

Prerequisites: MATH UN2010 and MATH GU4041 and MATH GU4051 The study of topological spaces from algebraic properties, including the essentials of homology and the fundamental group. The Brouwer fixed point theorem. The homology of surfaces. Covering spaces
MATH GU4061 INTRO MODERN ANALYSIS I. 3.00 points.
Prerequisites: MATH UN1202 or the equivalent, and MATH UN2010. The second term of this course may not be taken without the first.
Prerequisites: MATH UN1202 or the equivalent, and MATH UN2010. The second term of this course may not be taken without the first. Real numbers, metric spaces, elements of general topology, sequences and series, continuity, differentiation, integration, uniform convergence, Ascoli-Arzela theorem, Stone-Weierstrass theorem.

MATH GU4062 INTRO MODERN ANALYSIS II. 3.00 points.
Prerequisites: MATH UN1202 or the equivalent, and MATH UN2010. The second term of this course may not be taken without the first.
Prerequisites: MATH UN1202 or the equivalent, and MATH UN2010. The second term of this course may not be taken without the first. Power series, analytic functions, Implicit function theorem, Fubini theorem, change of variables formula, Lebesgue measure and integration, function spaces.

MATH GU4065 HONORS COMPLEX VARIABLES. 3.00 points.
Prerequisites: (MATH UN1207 and MATH UN1208) or MATH GU4061

MATH GU4081 INTRO-DIFFERENTIABLE MANIFOLDS. 3.00 points.
Prerequisites: (MATH GU4051 or MATH GU4061) and MATH UN2010
Prerequisites: (MATH GU4051 or MATH GU4061) and MATH UN2010

MATH GU4155 PROBABILITY THEORY. 3.00 points.
Prerequisites: MATH GU4061 or MATH UN3007
Prerequisites: MATH GU4061 or MATH UN3007

MATH GU4391 INTRO TO QUANTUM MECHANICS. 3.00 points.
This course will focus on quantum mechanics, paying attention to both the underlying mathematical structures as well as their physical motivations and consequences. It is meant to be accessible to students with no previous formal training in quantum theory. The role of symmetry, groups and representations will be stressed.
MATH GU4392 INTRO TO QUANTUM MECHANICS II.
3.00 points.
Not offered during 2022-23 academic year.

Continuation of GU4391. This course will focus on quantum mechanics, paying attention to both the underlying mathematical structures as well as their physical motivations and consequences. It is meant to be accessible to students with no previous formal training in quantum theory. The role of symmetry, groups and representations will be stressed.

MEDIEVAL AND RENAISSANCE STUDIES

Program Director: Dr. Susan Boynton, Professor of Music, 621 Dodge Hall, slb184@columbia.edu

Program Administrator: Colleen Swift, 653-A Ext. Schermerhorn Hall, medren@columbia.edu

Medieval and Renaissance studies is an interdisciplinary program in which a student combines a concentration in medieval or Renaissance civilization with a major or concentration in one of the following departments:

- Art History and Archaeology
- Classics
- East Asian Languages and Cultures
- English and Comparative Literature
- French and Romance Philology
- Germanic Languages
- History
- Italian
- Latin American and Iberian Cultures
- Middle Eastern, South Asian, and African Studies
- Music
- Philosophy
- Religion
- Slavic Languages

For more information about the special concentration in medieval and Renaissance studies, visit http://medren.columbia.edu/.

EXECUTIVE COMMITTEE OF THE INTERDEPARTMENTAL COMMITTEE ON MEDIEVAL AND RENAISSANCE STUDIES

Christopher Baswell (English and Comparative Literature)
Susan Boynton (Music; Program Director, Medieval and Renaissance Studies)
Consuelo Dutschke (Rare Book and Manuscript Library)
Rachel Eisendrath (Barnard Department of English, Barnard Medieval and Renaissance Studies)
Carmela Franklin (Classics)
Seth Kimmel (Latin American and Iberian Cultures)
Adam Kosto (History)
Pamela Smith (History)
Alan Stewart (English and Comparative Literature)
Jesus Rodriguez-Velasco (Latin American and Iberian Cultures)
Michael Waters (Art History and Archaeology)
Eliza Zingesser (French and Romance Philology)

Full Faculty List: https://medren.columbia.edu/content/faculty

SPECIAL CONCENTRATION IN MEDIEVAL AND RENAISSANCE STUDIES

Students considering the special concentration in medieval and Renaissance studies should consult with the director in advance of course registration to ensure that their selection of courses will count towards the special concentration.

Please note that requirements for the Special Concentration were revised November 2017.

In addition to fulfilling the requirements for a departmental major or concentration, students with this special concentration should plan on taking an additional four (4) courses in other departments of the program, to be chosen in consultation with an appropriate member of the committee.

Students must also demonstrate an ability to work with original language sources (other than in Early Modern English) from the medieval and/or Early Modern periods, either through language coursework focusing on the historical language (e.g., LATN UN3033 MEDIEVAL LANGUAGE # LITERATURE, MDES GU4214 FOURTH YEAR CLASSICAL ARABIC I) or through research (e.g., a senior thesis or seminar paper with substantial use of original language sources). Any courses outside the major used to demonstrate the language requirement may also count toward the course requirement for the special

636
concentration. Students should gain approval of the director of the program in advance for plans to fulfill this language requirement.

MRST GU4201 History of the Medieval Book: Manuscripts as Material Culture. 4 points.
This course will study the medieval book as a multimedia physical and cultural artifact. We will begin with a study of the technology of book production from Late Antiquity through the High Middle Ages, including the shift from roll to codex, the preparation of parchment, the development of inks and pigments, and techniques for decoration. Next, the class will turn to the various uses of books within both religious and secular contexts, as well as to the use of books as a medium of self-representation and the transfer and transformation of bodies of religious and scientific knowledge. Finally, the course will consider the use of the growing number of digital manuscript collections accessible on the internet for teaching and research.

MIDDLE EASTERN, SOUTH ASIAN, AND AFRICAN STUDIES

The undergraduate program in Middle Eastern, South Asian, and African studies (MESAAS) offers students the opportunity to study in depth the cultures, ideas, histories, and politics of several overlapping world regions. The program emphasizes a close engagement with intellectual traditions, creative movements, and political debates, drawing on a wide variety of historical and contemporary sources in literature, religion, political thought, law, the visual and performing arts, and new media. Courses also examine the historical and cultural contexts in which these traditions and debates have been produced.

MAJORS AND CONCENTRATIONS

Majors develop two closely related skills. The first is linguistic expertise: A minimum of two years of course work in one language is required, and further work (including intensive summer language study) is greatly encouraged, because the aim is to study a cultural field through its own texts and discourses. The Department of Middle Eastern, South Asian, and African Studies offers courses in Arabic, Persian, Ottoman, Turkish, Hebrew, Armenian, Sanskrit, Hindi/Urdu, Tamil, Swahili and Wolof.

The second skill is learning how to think and write about complex cultural formations, drawing on a variety of methods and disciplinary approaches. The approaches vary according to the faculty members’ expertise, incorporating methods from relevant fields in the humanities and social sciences, such as literary criticism, film studies, cultural studies, political theory, and intellectual history.

The only difference between the MESAAS major and the concentration is that the latter does not require language proficiency.

GUIDELINES FOR ALL MIDDLE EASTERN, SOUTH ASIAN, AND AFRICAN STUDIES MAJORS AND CONCENTRATORS

Introduction to MESAAS
Majors and concentrators begin their work with an introductory course that emphasizes a particular area (the Middle East, South Asia, or Africa). For instance, students interested in the Middle East would take ASCM UN2003 INTRO TO ISLAMIC CIVILIZATION or ASCM UN2008 CONTEMP ISLAMIC CIVILIZATION. Students keen on learning more about South Asia would take ASCM UN2357 INTRO TO INDIAN CIVILIZATION, HSME UN3810 History of South Asia I: al-Hind to Hindustan, or HIST W3811 South Asia II: Empire and Its Aftermath. The introductory course generally recommended for students interested in Africa is MDES UN2030 Major Debates in the Study of Africa.

Required Core Courses
All majors must take two additional core courses. The first is a small seminar in which they explore some of the classic texts of the region, either AHUM UN1399 COLLOQUIUM ON MAJOR TEXTS (for those focusing on the Middle East and South Asia) or AFCV UN1020 AFRICAN CIVILIZATION (for those focusing on Africa).

With this background, students are ready to take MDES UN3000 THEORY AND CULTURE generally in the junior or senior year. This course examines critical approaches to the study of language, culture, and politics and encourages students to reflect on their own work from many different perspectives.

Additional Requirements
Fifteen additional points (generally five courses) are chosen in consultation with the director of undergraduate studies. These may include six points of coursework from other departments, subject to the director of undergraduate studies' approval. Although students may have a particular interest (e.g., Arab political thought, Urdu literature, Armenian history, Iranian cinema, or contemporary West Africa), they are encouraged to gain exposure to the fullest range of courses and approaches offered by the faculty, and to familiarize themselves with other regions beyond their core area.

In Fulfillment of the Language Requirement (for Majors)
Enrollment in language courses is in some cases determined by placement exams. For more information, see Languages on the departmental website and, if necessary, consult the relevant Coordinator listed on that page. The website includes separate pages for each language, describing the program of instruction, courses for heritage speakers, summer language programs, and more. Language courses must be taken for a letter grade. Pass/D/Fail or Registration credit (R) is not permitted. Those seeking to waive a language requirement must take a proficiency test.

Students who enter with language proficiency at only the second-year level must complete one additional year of language study and one additional MESAAS course. When students enter with language proficiency at the third year level (or in cases where only two years of a particular language are offered in MESAAS), they must substitute three additional MESAAS courses.

Advising
Newly declared majors and concentrators should meet with the director of undergraduate studies in order to plan a program of study. The goal is to strike a balance between courses that help

638
a student achieve depth in a particular area/discipline and those that foster a wider perspective.

Although students are encouraged to approach faculty in the department based on their specific interests, the director of undergraduate studies functions as an ad hoc adviser for all entering students, addressing issues of course requirements, credit, approval for courses in other departments or schools, study abroad, and, eventually, honors requirements (including the senior thesis). Students should not hesitate to contact the director of undergraduate studies to set up an appointment.

**Grading**

Courses in which the grade of D has been received do not count toward the major or concentration requirements, nor do those taken Pass/D/Fail, except for the first course taken toward the major or concentration.

**Honors Program/Senior Thesis**

Students may also wish to write a thesis. While not required for graduation, the thesis enables a student to be considered for departmental honors. It is advisable to begin planning for the thesis during the student's junior year. Interested students should attend the relevant information sessions and identify a potential faculty adviser.

All students who wish to write a thesis must enroll in MDES UN3960 HONORS THESIS SEMINAR PART 1, a full year course consisting of a 1-point segment in the Fall semester and a 3-point segment in the Spring semester. Students work closely with their peers in a supportive environment to produce a substantial piece of research (in the range of 40 pages). The primary intellectual guidance is provided by the faculty adviser, whereas the director of undergraduate studies and the honors seminar teaching assistant oversee the general development of the project. Every year in April, MESAAS hosts a senior colloquium in which students present their research. For more information on the honors program, see [Frequently Asked Questions](#) on the departmental website.

For additional guidelines, see [Departmental Honors](#) as outlined in the [Academic Honors, Prizes, and Fellowships](#) section of the Columbia College Bulletin.

### MAJOR IN MIDDLE EASTERN, SOUTH ASIAN, AND AFRICAN STUDIES

Students should obtain a [Major Declaration](#) form from their advising dean and bring it to the director of undergraduate studies for approval. The director of undergraduate studies meets with students as necessary in order to establish and approve their individual programs of study. The requirements for the major are as follows:

<table>
<thead>
<tr>
<th>Major Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MDES UN3000 Theory and Culture</td>
<td>3</td>
</tr>
<tr>
<td>AHUM UN1399 Colloquium on Major Texts</td>
<td>1</td>
</tr>
<tr>
<td>MDES UN3960 Honors Thesis Seminar Part 1</td>
<td>4</td>
</tr>
</tbody>
</table>

Select one-term introductory culture course, to be approved by the director of undergraduate studies.

**The MESAAS Major and its ‘tracks’**

Students majoring in MESAAS are studying the languages, and central cultural and political aspects of the societies of the Middle East, South Asia, and Africa, in past and present. This can be done either with a focus on one of these three regions, i.e. the ‘African Studies’, the ‘South Asian Studies’, or the ‘Middle Eastern Studies’ track, or a comparative perspective on them, the ‘combined track’.

The coursework for each of those ‘tracks’ is composed of the same five elements: 1. an approved Introductory course; 2. a seminar on texts from the region; 3. ‘Theory and Culture’; 4. five approved elective courses; 5. the regional language requirement.

Note that some MESAAS courses are already comparative by design and connect more than one region: for example, Societies and Cultures Across the Indian Ocean, or Postcolonial Thought, or courses on Persianate culture that include North India, or Middle East courses that include North Africa. These may satisfy requirements for more than one track, subject to approval by the Director of Undergraduate Studies (DUS).

**African Studies**

1. MDES UN3130 Major Debates in the Study of Africa or another approved introductory lecture course.
2. CC1020 African Civilization
3. MDES UN3000 Theory and Culture
4. Five additional courses on Africa, such as: South African Literature and Culture: Apartheid and After; East Africa and the Swahili Coast; or Pan Africanism (see the Courses page for more options). You may include up to two courses from other departments, in fields such as African history, politics, and philosophy, the anthropology of Africa, and African art, subject to the approval of the Director of Undergraduate Studies.

5. Language: A minimum of two years of course work in Swahili, Arabic, Pular, or another African language. See the MESAAS language programs here. Those already fluent in an African language may substitute other courses—see [FAQ](#). Not required for the concentration.

Middle Eastern Studies
1. ASCM UN2003 Islamic Civilization or another approved introductory lecture course.
2. Asian Humanities UN1399 Major Texts: Middle East/India
3. MDES UN3000 Theory and Culture
4. Five additional courses on the Middle East, such as: Arabic Self-Narratives; Central Questions in Islamic Law, Palestinian-Israeli Politics and Society, or Epics and Empires (see the Courses page for more options). You may include up to two courses from other departments, in fields such as Middle Eastern history, politics, and anthropology, or Islamic art, subject to the approval of the Director of Undergraduate Studies. Find a list of Middle East courses in other departments here.
5. Language: A minimum of two years of coursework in Arabic, Hebrew, Persian, Turkish, or Armenian. See the MESAAS language programs here. Those already fluent in a Middle Eastern language may substitute other courses—see FAQ. Not required for the concentration.

South Asian Studies

1. MDES UN2357 Indian Civilization or another approved introductory lecture course.
2. Asian Humanities UN3399 Major Texts: Middle East/India
3. MDES UN3000 Theory and Culture
4. Five additional courses on South Asia, such as: Mughal India; Gandhi and his Interlocutors; or Cinemas of India (see the Courses page for more options). You may include up to six points of course work from other departments, in fields such as South Asian history, politics, and anthropology, or Indian art, subject to the approval of the Director of Undergraduate Studies. Find a list of South Asia courses in other departments here.
5. Language: A minimum of two years of coursework in Hindi/Urdu, Sanskrit, Persian, or other South Asian languages. See the MESAAS language programs here. Those already fluent in a South Asian language may substitute other courses—see FAQ. Not required for the concentration.

Combined

There is also a combined option. For this, you may satisfy the five requirements by choosing courses from any of the three tracks.

1. An approved introductory lecture course.
2. Asian Humanities UN1399 Major Texts: Middle East/India – OR: CC1020 African Civilization
3. MDES UN3000 Theory and Culture
4. Five additional courses, fitting one’s course of study, to be approved by DUS
5. Language: A minimum of two years of course work in any of the regional MESAAS languages, to be approved by the DUS.

CONCENTRATION IN MIDDLE EASTERN, SOUTH ASIAN, AND AFRICAN STUDIES

The requirements are identical with those for the major, except that there is no departmental language requirement. Fifteen points in department courses, selected with the approval of the director of undergraduate studies. These may not include elementary or intermediate language courses. Not more than two courses out of the general 15 points may be devoted to language study.

LECTURES AND SEMINARS

MDES UN1001 CRITICAL THEORY: A GLOBAL PERSPECTIVE. 4.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

The purpose of this foundational course is to introduce Columbia undergraduate students, in the context of their Global Core curriculum, to the seminal field of critical theory. The historical domain of this course is within the last century and its geographical spectrum is global. European critical thinkers are included in this course but not privileged. Thinkers from Asia, Africa, Europe, North, South, and Latin America, are examined here in chronological order and in equal democratic footing with each other. This course as a result is decidedly cross-cultural, one step forward towards de-alienating critical thinkers from around the globe and the issues they address without pigeonholing them as something “other” or “different.” The course is designed and offered in the true spirit of the “Global Core.” The purpose of the course is to reach for the common denominator of serious critical thinking about the fate of our humanity and the health of our social relations in an increasingly fragile world—where the false binaries of “the West” and “the Rest” no longer hold. The roster of critical thinkers we will examine is by no means exhaustive but representative. Any number of other critical thinkers can be added to this roster but none of those we will examine can be excluded from them. The course is divided into thirteen successive weeks and for each week a number of seminal, original, and groundbreaking texts are identified. Each week we will examine selected passages from these texts. The course is designed as a lecture course, and my lectures are based on the totality of these texts but students will be assigned specific shorter passages to read

MDES UN1030 “Game of Thrones”: On Epics and Empires. 4.00 points.
This undergraduate course offered in the context of the Global Core component of the Core Curriculum is an examination of the globally popular HBO series “Game of Thrones” as a prototype for a comparative understanding of the larger question of epics and empires. In this course we expand the domains of our interests and inquiries far wider and divide our syllabus into four parts: (1) Westeros: The Mythic Empire; (2) Persia: The First Empire, (3) America: The Last Empire; and (4) On Epics and Empires. Our objective will be to examine
the main themes and overall arch of “Game of Thrones” into wider mythic, heroic, and transhistorical dimensions of our contemporary history

MDES UN2004 Conflicts: Race, Region, Religion. 4.00 points.

Prior to “conflict resolution,” there is conflict. But what is conflict and how do we understand it? This introductory lecture course proposes to explore established objects in their presumed ties to the fact and concept of “conflict.” We will inquire into the nature of conflict as well as into the kinds of conflicts that operate, or seem to operate, perhaps even to structure, the understanding of race, of region, and of religion. We will attend to the solidarity and fragility of geographic divisions (regional and trans regional conflicts), their history (modern / premodern, colonial / pre- and post-colonial), the emergence of race (racial and ethnic conflicts), the pertinence of religions (religious strife and violence), their relation to political associations (religion and politics, religion and nationalism) and to other social and/or economic divisions (class, gender). We will interrogate the analytic and descriptive value of keywords like war, enmity, dispute, division, partition. We will also reflect on disciplinary tensions and divisions toward an understanding and perpetuation of conflict. Finally, we will think about the possibility and impossibility of “speaking with the enemy.”

ASCM UN2008 CONTEMP ISLAMIC CIVILIZATION. 4.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

Lecture and recitation. No previous study of Islam is required. The early modern, colonial, and post-colonial Islamic world studied through historical case studies, translated texts, and recent anthropological research. Topics include Sufism and society, political ideologies, colonialism, religious transformations, poetry, literature, gender, and sexuality

MDES UN2012 Finding Happiness: Readings in Arab-Islamic Texts. 4.00 points.

The quest for happiness predates writing itself. In this course, we read together some of the monumental and foundational texts that questioned, interrogated, but also defined and redefined happiness from the premodern Arab-Islamic tradition. Is happiness an absence of something or the presence of something? Is it found or actively pursued? Is one happy being alone or in a society? Are friends necessary to our happiness? Is the perfection of the self, morals, and character happiness? Emphasis lies on the exploration of the themes of the assigned works through close reading and discussion. The course will pay additional attention to the contextualization of the texts. Emphasis lies on the active study of the assigned works through close reading, discussion, and creative assignments

MDES UN2042 South Asia at the Crossroads of Empires. 3.00 points.

In this course we will study the late colonial and early post-colonial periods of South Asian history together. Some of the events we will consider include: the climax of anti-colonial movements in South Asia, WWII as it developed in South and Southeast Asia, the partition of British India, the two Indo-Pakistan wars, and the 1971 Bangladesh War. While we will read selected secondary literature, we will focus on a range of primary sources, including original radio broadcasts and oral history interviews. We will also study artistic interpretations of
historical developments, including short stories and films. In this course, we will strive to remain attentive to the important changes engendered by colonialism, while simultaneously recognizing the agency of South Asians in formulating their own modernities during this critical period. We will also seek to develop a narrative of modern South Asian history, which is attentive to parallel and/or connected events in other regions.

MDES UN2641 CINEMAS OF INDIA. 3.00 points.

This course offers an expansive journey through the forms, pleasures, and meanings of Indian cinema. It explores the plural beginnings of popular film; the many competing cinemas produced across India; the diverse protagonists (from vamps to vigilantes) that populate the imagined entity named 'national cinema'; and the varied audiences addressed by these cinemas. Over the course of the semester, we will watch 15 of the most iconic narrative films produced in India, including Diamond Queen (1940), Awara (1951), Deewar (1975), Roja (1992), Mahanagar (1963), and Bandit Queen (1994). As we voyage with the dynamic, shifting codes and priorities of India’s fiction filmmaking, we also shadow the emergence of the Indian nation and contestations of its coherence.

MDES UN2650 GANDHI # HIS INTERLOCUTORS. 4.00 points.

CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

Gandhi is in two senses an extraordinary figure: he was the most important leader of anti-imperialist movements in the twentieth century; yet, his ideas about modernity, the state, the industrial economy, technology, humanity’s place in nature, the presence of God - were all highly idiosyncratic, sometimes at odds with the main trends of modern civilization. How did a man with such views come to have such an immense effect on history? In some ways, Gandhi is an excellent entry into the complex history of modern India - its contradictions, achievements, failures, possibilities. This course will be primarily a course on social theory, focusing on texts and discursive exchanges between various perceptions of modernity in India. It will have two parts: the first part will be based on reading Gandhi’s own writings; the second, on the writings of his main interlocutors. It is hoped that through these exchanges students will get a vivid picture of the intellectual ferment in modern India, and the main lines of social and political thought that define its intellectual culture. The study in this course can be followed up by taking related courses in Indian political thought, or Indian politics or modern history. This course may not be taken as Pass/D/Fail.

HSME UN2915 AFRICA BEFORE COLONIALISM. 4.00 points.

This course is an interdisciplinary exploration of the precolonial history of the African continent. It investigates in-depth the political, social, cultural and economic developments of different Africa communities, covering various regions and periods, from prehistory to the formation of the Indian Ocean and Atlantic worlds. Its focus is the intersection of politics, economics, culture and society. Using world history and Africa’s location in the production of history as key analytical frames, it pays special attention to social, political and cultural changes that shaped the various individual and collective experiences of African peoples and states and the historical discourses associated to them.

MDES UN3048 Pandemics: A Global History. 3.00 points.

With an interdisciplinary perspective, this course seeks to expand the understanding of past pandemic crises and recent, lived pandemics such as COVID-19. COVID-19 has brought up urgent questions about how we can understand and historicize pandemics and trace the changing relationship between disease and its vectors, humans and their environments. This course seeks to expand the understanding of past and recent pandemics through a historical lens that traces the deep seated racial and class disparities, social and cultural stigma, and political responses and control that they were expressed and deployed during these historical crises. It seeks to understand and analyze pandemics as representing complex, disruptive and devastating crises that effect profound transformations in ideas, social and economic relations and challenge interdependent networks and cultures. Pandemics are balanced in a global-local flux between dramaturgic, proliferating, contagious outbreaks; and endemic, chronic infections that have prolonged periods of latency before again remerging through new transmissions. They also serve as a crucial lens to analyze a range of historical connections, enisions and movements ranging from colonialism and the politics of borders, global capitalism and labor, migration and mobility, decolonization and development, and neoliberalism and global health politics.

MDES UN3121 Literature and Cultures of Struggle in South Africa. 3 points.

CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

Generations of resistance have shaped contemporary life in South Africa -- in struggles against colonialism, segregation, the legislated racism known as apartheid, and the entrenched inequalities of the post-apartheid era. Two constants in this history of struggle have been youth as a vanguard of liberation movements and culture as a "weapon of struggle." As new generation of South African youth -- the "born free" -- has now taken to the streets and social media to "decolonize" the university and claim their education as a meaningful right, this course traces the ways that generations of writers, artists, and activists have faced censorship, exile, and repression in an ongoing struggle to dismantle apartheid and to free the mind, "the most powerful weapon in the hands of the oppressor" according to Black Consciousness activist Steve Biko. This course traces the profoundly important roles that literature and other cultural production (music, photography, film, comics, Twitter hashtags like #rhodesmustfall and #feesmustfall) have played in struggle against apartheid and its lingering afterlife. Although many of our texts were originally written in English, we will also discuss the historical forces, including nineteenth-century Christian missions and Bantu Education, as well as South Africa's post-1994 commitment to being a multilingual democracy, that have shaped the linguistic texture of South African cultural life.

CLME UN3221 ARABIC LITERATURE AS WORLD LITERATURE. 4.00 points.

This seminar focuses on Arabic literature in the world, as World Literature. The focus will be on pre-modern and modern Arabic literary works that traveled and circulated and were adapted to and acquired individual meanings in different cultures. We will look at literary works that achieved 'worldliness' through either writing back to the center or through international literary prizes. We will consider how literary works travel and circulate through their fusion with regional concepts, or even take on new meanings at different times and places. Admittedly, also, we will look into the strengths, weaknesses, and criticism surrounding World Literature.

MDES UN3260 RETHINKING MIDDLE EAST POLITICS. 4.00 points.

CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

This course examines a set of questions that have shaped the study of the politics of the modern Middle East. It looks at the main ways those questions have been answered, exploring debates both in Western academic scholarship and among scholars and intellectuals in the region itself. For each question, the course offers new ways of thinking about the issue or ways of framing it in different terms. The topics covered in the course include: the kinds of modern state that emerged in the Middle East and the ways its forms of power and authority were shaped; the birth of economic development as a way of describing the function and measuring the success of the state, and the changing metrics of this success; the influence of oil on the politics of the region; the nature and role of Islamic political movements; the transformation of the countryside and the city and the role of rural populations and of urban protest in modern politics; and the politics of armed force and political violence in the region, and the ways in which this has been understood. The focus of the course will be on the politics of the twentieth century, but many topics will be traced back into developments that occurred in earlier periods, and several will be explored up to the present. The course is divided into four parts, each ending with a paper or exam in which participants are asked to analyze the material covered. Each part of the course has a geographical focus on a country or group of countries and a thematic focus on a particular set of questions of historical and political analysis.

MDES UN3331 URBAN SPACE # CONFLICT IN MIDDLE EAST. 3.00 points.

This course explores how civil war, revolution, militarization, mass violence, refugee crises, and terrorism impact urban spaces, and how city dwellers engage in urban resilience, negotiate and attempt to reclaim their right to the city. Through case studies of Beirut (1975-present), Baghdad (2003-present), Cairo (2011-present), Diyarbakir (1914-present), Aleppo (1914-present), and Jerusalem (1914-present), this course traces how urban life adjusted to destruction (and post-conflict reconstruction), violence, and anarchy; how neighborhoods were reshaped; and how local ethnic, religious, and political
dynamics played out in these cities and metropolises. Relying on multi-disciplinary and post-disciplinary scholarship, and employing a wealth of audiovisual material, literary works, and interviews conducted by the instructor, the course scrutinizes how conflicts have impacted urban life in the Middle East, and how civilians react to, confront, and resist militarization in urban spaces.

MDES UN3421 Islamic Central Asia. 3 points.
Explores the cultural landscapes of Islamic Central Asia up to the 18th c. Russian conquests, introducing the wide and changing array of meanings that both Islam and Central Asia could take on in this context. Against the association of Central Asia with a periphery, this course restores the centrality of Central Asia to the spheres of exchange that held together a broader Islamic imaginary, including Persian literatures, Sufism, political thought, and the visual arts. Focuses on the empires of the Ghaznavids (977-1186), Mongols (1206-1370), Timurids (1370-1507), and early Mughals. Readings are English translations of primary sources, and modern scholarship to contextualize and theorize these sources. Central questions include: how these texts reflect and shape community, how they mark and make sense of difference, the ways in which they understand and relate to their past(s), and the values that they hold to be most central. No prerequisites.

MDES UN3445 SOCIETIES/CULTRS: INDIAN OCEAN. 3.00 points.

CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

This course introduces the Indian Ocean as a region linking the Middle East, East Africa, South and Southeast Asia. With a focus on both continuities and rupture from the medieval to the modern period, we study select cultures and societies brought into contact through interregional migration and travel from the 10th to 20th centuries. Different types of people - nobles, merchants, soldiers, state men, sailors, scholars, slaves - experienced mobility in different ways. How did different groups of people represent such mobilities? What kinds of political, economic, and social cooperation, accommodation or conflict did different Indian Ocean encounters engender? We read some of the newest humanities scholarship, as well as primary sources ranging from manuscript illustrations, sailor’s stories, merchant letters, travelogues, pilgrimage accounts, colonial documents, memoirs, and diplomatic accounts.

MDES UN3644 Visual Cultures of Modern South Asia. 3 points.

This lecture course introduces students to the power and meaning of popular visual cultures of South Asia. Visual culture is a crucial arena for the enactment of social transformations and the creation of collective imaginaries. We will track such varied modern media types as calendar art, photography, film, architecture, clothing, and religious festivals, loosely following key chronological signposts in the shared histories of the subcontinent. Together, we will practice a new way of understanding history and society – a visual way that will make us aware of the diversity of hopes, fears, and dreams that comprise South Asia. Designed for students with a basic understanding of South Asian history, the course aims to familiarize you with key methodological approaches in visual culture studies and current debates in South Asian art history and media theory.

MDES UN3915 A HISTORY OF AFRICAN CITIES. 3.00 points.

This seminar offers an interdisciplinary approach to the study of the history of African cities. It cuts across disciplinary boundaries of history, geography, anthropology, political and cultural sociology, literature and cultural studies, to explore the various trajectories of urbanization on the continent.

MDES UN3920 CONTEMP CULTURE IN ARAB WORLD. 3.00 points.

Prerequisites: the instructor's permission. This seminar, designed for seniors, aims to acquaint students with the notion and theoretical understanding of culture and to introduce them to a critical method by which they can study and appreciate contemporary culture in the Arab World. The seminar will survey examples of written and cinematic culture (fiction and autobiography), as well as music, dance, and literary criticism in the contemporary Arab world. Students will be reading novels, autobiographies and literary criticism, as well as watch films and listen to music as part of the syllabus. All material will be in translation. Films will be subtitled. Songs will be in Arabic.

**CLME UN3928 ARABIC PRISON WRITING. 3.00 points.**

CC/GS/SEAS: Partial Fulfillment of Global Core Requirement.

This course studies the genealogy of the prison in Arab culture as manifested in memoirs, narratives, and poems. These cut across a vast temporal and spatial swathe, covering selections from the Quran, Sufi narratives from al-Hallaj oeuvre, poetry by prisoners of war: classical, medieval, and modern. It also studies modern narratives by women prisoners and political prisoners, and narratives that engage with these issues. Arabic prison writing is studied against other genealogies of this prism, especially in the West, to map out the birth of prison, its institutionalization, mechanism, and role. All readings for the course are in English translations.

**MDES UN3960 HONORS THESIS SEMINAAR PART 1. 1.00 point.**

Prerequisites: minimum GPA of 3.5 in MESAAS courses.

The MESAAS honors seminar offers students the opportunity to undertake a sustained research project under close faculty supervision. The DUS advises on general issues of project design, format, approach, general research methodologies, and timetable. In addition, students work with an individual advisor who has expertise in the area of the thesis and can advise on the specifics of method and content. The thesis will be jointly evaluated by the adviser, the DUS, and the honors thesis TA. The DUS will lead students through a variety of exercises that are directly geared to facilitating the thesis. Students build their research, interpretive, and writing skills; discuss methodological approaches; write an annotated bibliography; learn to give constructive feedback to peers and respond to feedback effectively. The final product is a polished research paper in the range of 40-60 pages. Please note: This is a one-year course that begins in the fall semester (1 point) and continues through the spring semester (3 points). Only students who have completed both semesters will receive the full 4 points of credit.

**MDES UN3961 Honors Thesis Seminar Part 2. 3.00 points.**

The MESAAS honors seminar offers the opportunity to undertake a sustained research project working closely with an individual faculty adviser. It also enables you, as part of a small group of MESAAS students working with the seminar instructor, to develop the skills of academic research and writing and learn how to collaborate with peers and create an engaged intellectual community. This 3-point seminar continues the work begun in the Fall semester of the senior year in MDES 3960 Honors Thesis Seminar Part 1.

**MDES GU4049 Climate and Empire. 4.00 points.**

Climate change destabilizes the ontic certainty of this world, time, and history. This course in MESAAS will introduce students to the literature on climate change and its relationship to ontology, religion, violence, politics, and gender. We will explore the resilience and limitations of various theoretical approaches as they relate to empirical cases. Students will become familiarized with important arguments that have been advanced to explain climate change in its more recent incarnations in the Middle East and Asia. How have different trajectories of understanding climate change led to different kinds of political cultures and governing institutions? Have some qualities of the “environment” or “climate” remained the same throughout history and across the globe? What is the role of colonialism in modern understandings of climate change? The core of this course will seek to develop a mode of conceptualizing the present by rendering relevant geological time in addition to historical time, earth’s history in addition to world’s history. The course begins with the question of how the “climate” has been historically and ethnographically conceptualized in various intellectual trajectories of human sciences. We consider how religion is connected to environmental change, how the “human” and “non human” are conceptualized in various ontologies, and how religious norms and ethics enact environmental practices. We interrogate the everyday sociality of climate adaption and how climate conflict informs social, political, and environmental citizenship. The course concludes by contemplating the creative ways of being in this new world. We study the innovative forms of cosmopolitan neo-humanism (post-humanism) that emerge from the specter of environmental change.

**MDES GU4122 THE NOVEL IN AFRICA. 4.00 points.**

The main task of this course will be to read novels by African writers. But the novel in Africa also involves connections between the literary genre of the novel and the historical processes of colonialism, decolonization, and globalization in Africa. One important question we’ll consider is how African novels depict those historical experiences in their themes and plots—we’ll read novels that are about colonialism, etc. A more complex question is how these historical processes...
relate to the emergence of the novel as an important genre for African writers. Edward Said went so far as to say that without imperialism, there would be no European novel as we know it. How can we understand the novel in Africa (whether read or written) as a product of the colonial encounter? How did it shape the process of decolonization? What contribution to history, whether literary or political, does the novel in Africa make? We’ll undertake a historical survey of African novels from the 1930s to the present, with attention to various subgenres (village novel, war novel, urbanization novel, novel of postcolonial disillusion, Bildungsroman). We’ll attend to how African novelists blend literate and oral storytelling traditions, how they address their work to local and global audiences, and how they use scenes of characters reading novels (whether African or European) in order to position their writing within national, continental, and world literary space.

MDES GU4151 DEBATES ON CAPITALISM. 4.00 points.
Within the literature on the history of capitalism there is a lively debate that seeks to explain the world-historical transition from feudal and tributary modes of production to the capitalist mode of production. Substantial issues raised in this debate include the question of whether capitalism can be characterized as a mode of production dominated by the exploitation of free labour; the role of international trade in the origin and development of capitalism; and the role of agriculture in promoting a transition to capitalism. Through the publication of two key texts in the late 1970s Robert Brenner's proposition that capitalism had its origins in English agriculture came to dominate the transition debate. More recently, however, there have been a number of publications that seek to challenge the Anglo-centric and Eurocentric tendencies of the entire transition debate. This course begins with the Brenner debates and then takes up revisions, critiques and challenges to that debate. Ultimately, the aim of the course is to more clearly understand the place of non-European polities and peoples in the history and development of capitalism.

HSME GU4154 PAN AFRICANISM. 4.00 points.
“Pan Africanist” ideologies were very diverse from Garveyism, Negritude to the various African America, Caribbean and African discourses of “neo-pharaohnism” and “Ethiopianism.” This seminar explores how Black leaders, intellectuals, and artists chose to imagine Black (Africans and people of African descent) as a global community from the late 19th century to the present. It examines their attempts to chart a course of race, modernity, and emancipation in unstable and changing geographies of empire, nation, and state. Particular attention will be given to manifestations identified as their common history and destiny and how such a distinctive historical experience has created a unique body of reflections on and cultural productions about modernity, religion, class, gender, and sexuality, in a context of domination and oppression.

MDES GU4160 Major Debates in the Study of Africa. 4 points.
This course will focus on key debates that have shaped the study of Africa in the post-colonial African academy.

We will cover six key debates: Historiography; Slavery: Premodern and Modern; State Formation; Colonialism and Difference; Nationalism; Political Identity and Political Violence.

The approach will be multi-disciplinary. To the extent possible, readings will be illustrative of different sides in the debate.

CLME GU4221 Literary Encounters and Reading across the Wor(l)ds. 4.00 points.
The focus of this seminar will be exploring the conception of encounters, and contact zones, throughout a selection of Arabic literary works. The course will explore the history of translation in Arabic literary history, the introduction of prose and its development; the Arabic readerly culture; the colonial encounter and its effect on language and form of literature. We will not read encounter as one-way traffic only, but we will also read it as a two-way process. We will read non-Arabic works that were influenced by the texts we are reading and their literary reception in other literary traditions. We will also consider the institution of literary prizes as a form of encounter and analyze the power of celebrity culture on the readership of the contemporary Arabic novel.

CLME GU4231 COLD WAR ARAB CULTURE. 4.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

This course studies the effects and strategies of the cold war on Arab writing, education, arts and translation, and the counter movement in Arab culture to have its own identities. As the cold war functioned and still functions on a global scale, thematic and methodological comparisons are drawn with Latin America, India and Africa.

CLME GU4241 SUFISM: PRIMARY TEXTS/ CONTEXTS. 4.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

This course studies Sufism as it has emerged, developed, and assumed its presence in Sufi autobiographies and religious
and literary writings. The Sufi Path is traced in these writings that include poems like ibn al-Farid’s Poem of the Way. Sufi States and Stations are analyzed to understand this Path that reaches its culmination in an ecstatic sense of Oneness. Sufism is also a social and political phenomenon that unsettles formal theologies and involves Sufis in controversies that often end with their imprisonment and death.

MDES GU4259 War Narrative: The Arab World. 4 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

This course works along a number of axial structures that aim to let texts voice their informing theoretical, political, and poetic strategies. It draws on war narratives in other parts of the world, especially Vietnam, insofar as these find their way into Arabic writing. A poetics of prose gives these narratives the power of literary production that makes them more readable, appealing, and provocative than ordinary journalistic reporting.

Through close readings of a number of Arabic war novels and some long narrative poems, this course proposes to address war in its varieties not only as liberation movements in Algeria and Palestine, but also as an engagement with invasions, as in Iraqi narratives of war, or as conflict as was the case between Iran and Iraq, 1980-1988, as proxy wars in other parts of the region, or ‘civil’ wars generated and perpetuated by big powers. Although writers are no longer the leaders of thought as in the first half of the 20th century, they resume different roles of exposition, documentation, reinstatement of identities, and geographical and topographical orientation. Narrators and protagonists are not spectators but implicated individuals whose voices give vent to dreams, desires, intimations, and expectations. They are not utterly passive, however. Behind bewilderment and turbulence, there is a will to expose atrocity and brutality. Writing is an effort to regain humanity in an inhuman situation.

The course is planned under thematic and theoretical divisions: one that takes writing as a deliberate exposure of the censored and repressed; another as a counter shock and awe strategy [implemented under this name in the wars on Iraq] whereby brutalities are laid bare; and a third that claims reporting in order to explore its limits and complicity. On the geographical level, it takes Algeria, Palestine as locations for liberation movements; Iraq as a site of death; Egypt as the space for statist duplicity and camouflage; and Lebanon as an initial stage for a deliberate exercise in a seemingly civil war.

A number of films will be shown as part of students’ presentations.

CLME GU4262 THEMES IN THE ARABIC NOVEL. 4.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

The focus of this seminar will be novels by Arab writers. The course will explore the history of the Arabic novel: its rise, development, and evolution. We will read and analyze novels belonging to various periods in Arab history and representing diverse points of views, including gender, identities, and different sub-cultures and sub-genres. We will look into the connections therein between the novel and the historical backdrops of colonialism, decolonization, globalization, war, rights and personal independence from several perspectives and writers across the Arab world. We will also consider the modern Arabic novel’s engagement with the global, glocal, and local as well as its nod to the Arabic literary tradition; its engagement with technology, scientific progress, absurdity, loss, trauma, the human condition, as well as dystopic themes. No knowledge of Arabic is required.

MDES GU4265 Sufism, Sharia, and Politics. 4.00 points.
This seminar is geared toward advanced undergraduate students. Arguably, Shiism and Shar'ma constituted the two central domains of premodern Islamic cultures. A central domain is recognized as one that defines other domains. If a domain becomes central, “then the problems of other domains are solved in terms of the central domain—they are considered secondary problems, whose solution follows as a matter of course only if the problems of the central domain are solved” (C. Schmitt). Within this understanding, the seminar aims to introduce the fundamental concepts and (briefly) histories of both Shiism and Sharia, with a focus on how the former overlapped with and was often integral to the latter; how Shiism produced traditions and institutions; and the role it played in the political landscapes of Islam. By necessity, then, the seminar moves from a coverage of Shiism thought and praxis, to community and institution building, to political activism (or inactivism, which is seen here as a move toward the political or ethical). The coverage, deliberately tilted toward Shiism, aims to be historical and considerably chronological, moving from the earliest Islamic period to late modernity, including the migration of Shi'i entities to the West. In keeping with the claim of Shiism as a central domain, we will examine how this phenomenon, together with the Sharia, rendered the other domains subsidiary to their imperatives. The subordinate idea here is also to try to map out the strongly symbiotic relationship of the two domains, and isolate for analysis contestations and antagonisms. Although the sources — especially the Orientalist — are underdeveloped theoretically, class discussions will call upon the help of various relevant theories in philosophy, intellectual history, politics, and anthropology.

MDES GU4266 Decolonizing the Arabian Nights. 4.00 points.
In a unique revival of interest, the Arabian Nights has made its way to the academy as the handiest and most approachable
cultural commodity. Courses are given on its history, translation, media reproduction, Walt Disney’s appropriation, and, occasionally, narratology. By the end of the 19th century, it was available in translation or abridgement in every written language. This course resitutes its advent and vogue in specific cultural contexts that closely relate to the rise of the bourgeoisie and the colonial enterprise. It also explores popular and intellectual or critical responses in terms of the rise of literary theory and modes of literary production. Its massive presence gives way in time to pantomime, parody, and pastiche, before engaging again the attention of prominent writers and theorists of ‘prose poetics’ and the fantastic. Its referential popular presence undergoes fluctuations to fit media stereotypes and hegemonic regimes of thought. This course attempts to dislodge originals from adaptations, highlight the nature of entry in terms of a commoditizing enterprise that reproduces the Arabian Nights as a ‘western text’, a point that in turn incites a counter search for manuscripts, and ‘authentication’ processes. Originals and translations will be compared and cinematic or theater productions will be studied, along with paintings, covers, and tourist guides that present the Nights as a commodity in a post-industrial society

MDES GU4349 Concentration Camps from Cuba to East Asia. 3 points.
Forcibly moving civilians to designated areas as a wartime measure has constituted a widely practiced military strategy for centuries. In the late 19th and early 20th centuries, colonial powers increasingly provided more structure and organization to these policies of relocation and internment in the Americas, Africa, and East Asia. This course provides a social history of civilian internment and mass murder from late-19th century colonial cases to World War II.

Through case studies of the Spanish-Cuban war, the South African War, the Philippines-American War, the genocide of the Herrero and Nama in Southwest Africa, the Armenian Genocide, and the Holocaust, the course traces the evolution of the concentration camp from a counter-insurgency strategy in wartime to a weapon of mass murder. The course also examines the internment of Japanese Americans, and the Japanese “comfort stations” in comparative perspective.

MDES GU4357 WAR, GENOCIDE, # AFTERMATH COMP PERSPECTIV. 4.00 points.
This 4000-level course examines how societies grapple with the legacy of mass violence, through an exploration of historical texts, memoirs, textbooks, litigation, and media reports and debates on confronting the past. Focusing on case studies of the Herero Genocide, the Armenian genocide during WWI, and the Holocaust and the Comfort Women during WWII, students investigate the crime and its sequelae, looking at how societies deal with skeletons in their closets (engaging in silence, trivialization, rationalization, and denial to acknowledgment, apology, and repair); surveying responses of survivors and their descendants (with particular attention to intergeneration transmission of trauma, forgiveness, resentment, and the pursuit of redress); and dissecting public debates on modern day issues that harken back to past atrocities

MDES 4357 | 001/14887 | M 4:10pm - 6:00pm Khatchig | Mouradian | 4.00 | 26/30

MDES GU4399 Literature of the Great War in the Middle East. 3.00 points.
Some of the best-known literary texts of the previous century harken back to the Great War. And while works of fiction and non-fiction such as Remarque’s All Quiet on the Western Front, Hemingway’s A Farewell to Arms, and Woolf’s Mrs Dalloway have become twentieth-century classics; and the poetry of Brooke, Graves, Gurney, Owen, and Sassoon widely celebrated; the Middle East’s contribution to the literature of the Great War is little explored. This course takes us on a literary journey from the trenches of Gallipoli and Mesopotamia, to famine-struck towns of Mount Lebanon, to orphanages in Syria. We will examine poetry (including zajal—colloquial poetry), and memoirs and diaries by the women and men who withstood the ravages of war and helped shape the modern Middle East. Through close reading and content analysis of a diverse constellation of published and unpublished texts, and using secondary sources as guideposts, we will explore “post-Ottoman memoirs” and verse, including translations from the Arabic and Armenian by the instructor

MDES GU4601 Politics in India. 4 points.
This course will combine study of long-term historical sociology with more short term understanding of policies and their possible effects. Though its main purpose will be to provide students with an understanding of politics after independence, it will argue, methodologically, that this understanding should be based on a study of historical sociology – plotting long-terms shifts in the structure of social power. The course will start with analyses of the structures of power and ideas about political legitimacy in pre-modern India, and the transformations brought by colonialism into that order. After a brief study of the nature of political order under the colonial state, the courses will focus primarily on the history of the democratic state after independence.

MDES GU4629 Transregional. 4.00 points.
History, Politics, Literature, Society -- all these are studied as within national, or, at best, regional frames. What other scales and approaches might be appropriate to the study of particular phenomena or categories in the past, as well as some of the challenges of the present? This course introduces advanced undergraduates and graduate students to transregional studies. We explore topics, approaches, methods, problems, and disciplines through which we can cross the regions, particularly the regions of MESAAAS. Case studies will consider thinking through and with oceanic studies, circulation, diaspora, shared hermeneutical traditions, lingua francas and their stories (world literatures?), and connected histories to rethink concepts of societies, collective affiliations, cosmopolitanism, and world
history. Undergraduates must have taken at least one of the following: Intro to Islamic Civ (UN 2003), Intro to Indian Civ (UN 2357), African Before Colonialism (UN 2915), Societies and Cultures across the Indian Ocean (UN 3445), or some equivalent (check with me)

MDES GU4637 Cinema and Colonialism in South Asia. 4 points.
What is the relation between cinema and colonialism? This seminar approaches cinema as a dynamic historical agent that aided, negotiated, refracted, and contested the mechanisms and meanings of colonialism in South Asia. We will study cinema as technology, as industry, and as cultural form, paying attention to questions of film finance, on-screen representation, production infrastructures, circuits of distribution, and sites of exhibition. We will watch films made by British ethnographers, Indian expats, Hollywood orientalists, and South Asian nationalists to study how film served as a key weapon of imperial propaganda as well as anticolonial resistance. From orientalist films that constructed the colony as exotic and dangerous, to the spatial uses of Indian films to reinforce race inequalities in the diaspora (eg. East Africa), cinema is deeply imbricated with colonial strategies of racial, gendered, and caste-based othering. This is a history of cinema as a history of empire; where cinema is not just a text to be read but a cultural, industrial, and social network of power relations.

MDES GU4721 Epics and Empires: Shahnameh. 4 points.
The purpose of this course is an examination of the genre of epic and its narrative connection to empire-building. The primary text that will be used in this critical examination is the Persian epic poem Shahnameh, composed by Abolqasem Ferdowsi circa 1000 CE.

MDES GU4718 Persian Poetry (In Translation). 4 points.
The purpose of this seminar is to introduce students to the long history and multiple genres of Persian poetry. The seminar will begin with the classical period and come down to the contemporary periods. The geographical span of the course extends from Central Asia to the Indian subcontinent.

MDES GU4726 READINGS IN PERSIAN TEXTS. 4.00 points.
May be repeated for credit; content varies.
Prerequisites: Must have completed MDES 2702, equivalent two years of Persian or the instructor's permission.
May be repeated for credit; content varies. Prerequisites: Must have completed MDES 2702, equivalent two years of Persian or the instructor's permission. This course provides experience reading and analyzing Persian language texts, as well as translating them into English. We will also spend some time learning how to read different kinds of paleography, and about various manuscript and print conventions and practices. Supplementary scholarly readings in English will situate the Persian texts. There will be a translation workshop at the end of the semester with related texts of the students choosing, in preparation for a final translation project. No P/D/F or R credit is allowed for this class

MDES GU4733 IRAN: FILM, FICTION, POETRY, HISTORY. 4 points.
Not offered during 2022-23 academic year.
This is a general introduction to modern Iranian history with a particular emphasis on film, fiction, and poetry. Through varied exposure to Iranian film and fiction, and Persian poetry, this course is designed to introduce students to critical themes and creative effervescence of modern Iranian culture. The course will concentrate on Iranian cultural history of the last two centuries, with particular emphasis on contemporary issues. But a broader historical context of the last 1400 years will always inform our discussions.

MDES GU4760 SHI'ITES AND SHI'ISM. 4 points.
This is a seminar devoted to a historical and comparative examination of the rise and spread of Shi’ism from its earliest stages in Islamic history to its contemporary conditions in various nation-states (in India, Iran, Iraq, and Lebanon in particular). In this seminar we will cover a range of issues, extended from historical, doctrinal, intellectual, and spiritual roots of Shi’ism to its contemporary political manifestations. The course is intended as a seminar, and students will be expected to conduct guided research in an aspect of Shi’ism that interests them most. The course will be conducted in a combination of weekly lectures, semester-long research, and seminar conversations. Knowledge of Arabic and Persian is not required for this course but would be highly beneficial in conducting research for the final paper.

CLME GU4764 Modern and Medieval Islamic Political Thought. 4 points.
This course is a comparative examination of modern and medieval Islamic political thoughts. The seminar begins with the roots of Islamic political thoughts in the early Islamic history, as well as Qur'anic revelations and Prophetic Hadith traditions. We will then divide the course into two major components: medieval and modern, with the rise of European colonialism in the late 18th century and early 19th century as the principal catalyst of groundbreaking changes in Islamic political thoughts.

**MDES UN1608 HINDI FOR HERITAGE SPEAKERS I. 5.00 points.**
This is an accelerated course for students of South Asian origin who already possess a knowledge of basic vocabulary and limited speaking and listening skills in Hindi. They may not have sufficient skills in reading and writing but are able to converse on familiar topics such as: self, family, likes, dislikes and immediate surroundings. This course will focus on developing knowledge of the basic grammar of Hindi and vocabulary enrichment by exposing students to a variety of cultural and social topics related to aspects of daily life; and formal and informal registers. Students will be able to read and discuss simple texts and write about a variety of everyday topics by the end of the semester. No P/D/F or R credit is allowed for this class

**MDES UN1614 URDU FOR HERITAGE SPEAKERS I. 5.00 points.**
Prerequisites: a knowledge of basic vocabulary and limited speaking and listening skills in Urdu. This is an accelerated course for students of South Asian origin who already possess a knowledge of basic vocabulary and limited speaking and listening skills in Urdu. They are not expected to know how to read and write in Urdu but are able to converse on familiar topics such as self, family, likes, dislikes and immediate surroundings. This course will focus on developing knowledge of the basic grammar of Urdu and vocabulary enrichment by exposing students to a variety of cultural and social topics related to aspects of daily life; and formal and informal registers. Students will be able to read and discuss simple Urdu texts and write about a variety of everyday topics by the end of the semester. No P/D/F or R credit is allowed for this class
Students will be introduced to new grammatical structures and a broad range of vocabulary through exposure to a variety of authentic materials including Hindi literature, newspapers, folk tales, films, songs, and other kinds of written and audio-visual materials and through these materials. Students will expand their knowledge base of the society and culture of the target languages in this course. No P/D/F or R credit is allowed for this class.

MDES GU4611 Readings In Hindi Literature II. 4 points.
May be repeated for credit; content varies.

Prerequisites: MDES UN2602 or the instructor’s permission. This course introduces students to the riches of the classical Hindi Tradition. We read Bhakti and Sufi Literature in tandem, with a special interest in Tulsidas and the Indo-Islamic Romance.

Eligibility: The class is open to undergraduate and graduate students with two or more years of Hindi-Urdu (or permission of the instructor).

MDES GU4624 ADVANCED HINDI I. 5.00 points.
Advanced Hindi I and II are third year courses in the Hindi-Urdu program that aim to continue building upon the existing four language skills (speaking, listening, reading and writing) along with grammar and vocabulary in a communicative approach. The objective of these courses is to strengthen students’ language skills and to go beyond them to understand and describe situations and the speech community, understand and discuss Hindi literature and films, news items, T.V. shows and current events. Students will also be given opportunities to work on their areas of interest such as popular culture, professional and research goals in the target language. Students will be expected to expand their vocabulary, enhance grammatical accuracy and develop cultural appropriateness through an enthusiastic participation in classroom activities and immersing themselves in the speech community outside. This course will be taught in the target language. All kinds of conversations such as daily life, on social/public interests’ topics as well as on academic interests, will occur in the target language. No P/D/F or R credit is allowed for this class.

MDES GU4625 ADVANCED HINDI II. 5.00 points.
Advanced Hindi I and II are third year courses in the Hindi-Urdu program that aim to continue building upon the existing four language skills (speaking, listening, reading and writing) along with grammar and vocabulary in a communicative approach.

---

**MDES UN1615 URDU FOR HERITAGE SPEAKERS II. 5.00 points.**
Prerequisite: one semester of prior coursework in Urdu for Heritage Speakers I (UN1615) in the Fall semester, or the instructor’s permission. This is an accelerated course for students of South Asian origin who already possess a knowledge of basic vocabulary and limited speaking, listening, reading and writing skills in Urdu. For instance, they should be able to converse, comprehend, read and write on familiar topics in Urdu such as: self, family, likes, dislikes and immediate surroundings. This course will focus on developing knowledge of the basic grammar of Urdu and vocabulary enrichment by exposing students to a variety of cultural and social topics related to aspects of daily life; and formal and informal registers. Students will be able to read and discuss simple Urdu texts and write about a variety of everyday topics by the end of the semester. No P/D/F or R credit is allowed for this class.

---

**MDES UN2601 INTERMEDIATE HINDI-URDU I. 5.00 points.**
Prerequisites: (MDES UN1601) and (MDES UN1602) MDES UN1601-UN1602 or the instructor’s permission.
Prerequisites: (MDES UN1601) and (MDES UN1602) MDES UN1601-UN1602 or the instructor’s permission. Continuing practice in listening, speaking, and grammatical understanding. Along with the Hindi (Devanagari) script, the Urdu (Perso-Arabic) script is taught in the class; both scripts are used for reading and writing. No P/D/F or R credit is allowed for this class.

---

**MDES UN2602 INTERMEDIATE HINDI-URDU II. 5.00 points.**
Prerequisites: MDES UN1601-UN1602 or the instructor’s permission.
One year of prior coursework in Elementary Hindi-Urdu I#II or the instructor’s permission. The course aims to continue consolidating and building upon the existing listening, speaking, reading, writing and cultural skills and will help students acquire higher level proficiency in Hindi language.
approach. The objective of these courses is to strengthen students’ language skills and to go beyond them to understand and describe situations and speech community, understand and discuss Hindi literature and films, news items, T.V. shows and current events. Students will also be given opportunities to work on their areas of interest such as popular culture, professional and research goals in the target language. Students will be expected to expand their vocabulary, enhance grammatical accuracy and develop cultural appropriateness through an enthusiastic participation in classroom activities and immersing themselves in the speech community outside. This course will be taught in the target language. All kinds of conversations such as daily life, on social/public interests’ topics as well as on academic interests, will occur in the target language. No P/D/F or R credit is allowed for this class.

MDES GU4635 Readings In Urdu Literature I. 4 points.
Prerequisites: two years of prior coursework in Hindi-Urdu (MDES UN1612 & MDES UN1613), one year of Urdu for Heritage Speakers (MDES UN1614 & MDES UN1615), or the instructor’s permission.

This course is a literary course, with in-depth exposure to some of the finest works of classical and modern Urdu prose and poetry. In the fall semester, our focus will be on some of the most famous Urdu short stories while, in the spring semester, we will focus on various genres of Urdu poetry. The content may change each semester. This course is open to both undergraduates and graduates. No P/D/F or R credit is allowed for this class.

MDES GU4636 Readings In Urdu Lit. 4.00 points.
Prerequisites: two years of prior coursework in Hindi-Urdu (MDES W1612 & MDES W1613), one year of Urdu for Heritage Speakers (MDES W1614 & MDES W1615), or the instructor's permission.

Two semesters of prior coursework in Urdu for Heritage Speakers (Urdu for Heritage Speakers I and II) or one semester of Advanced Urdu or the instructor’s permission. This course is a literary course, with in-depth exposure to some of the finest works of classical and modern Urdu poetry i.e. genres of ghazal and nazm. This course is open for both undergraduates and graduates. No P/D/F or R credit is allowed for this class.

MDES GU4640 Advanced Urdu. 4.00 points.
Prerequisites: Two years of prior study in Urdu or one year of Urdu for Heritage Speakers I&II courses at Columbia University, or approval of the professor.

Prerequisites: Two years of prior study in Urdu or one year of Urdu for Heritage Speakers I&II at Columbia University, or approval of the professor. This is a one-semester course in advanced Urdu language. It will be taught in the fall semester. The goal of the course is to develop students’ linguistic skills i.e. listening, speaking, reading, writing and cultural skills in Urdu, and give students in-depth exposure to some of the finest works of classical and modern Urdu prose.

Special emphasis will be given to developing a high-register vocabulary. Necessary grammar points will also be explained for developing an accurate and nuanced understanding of the Urdu language. After completing this course, students will be able to read and enjoy Urdu classics and critical academic texts related to various disciplines i.e. old tales, short stories, essays, history, satire, criticism, politics, current issues etc. along with effective speaking skills suited to active interaction in the speech community and a more advanced academic discussion for undergraduate and graduate students. Students will develop an in-depth understanding of South Asian society and culture as well. This course will prepare students to take MDES GU4635 Readings in Urdu Literature I.

MDES UN1401 Elementary Sanskrit I. 4.00 points.
This course constitutes the first half of a year-long introduction to Classical Sanskrit, the translocal language of religious, intellectual, and literary life in South Asia for nearly two millennia. Assuming no prior experience with the language, this introductory sequence provides students with the grammar, reading strategies, and cultural context necessary to begin accessing the language’s many rich textual traditions, including scripture (sūrī, epic (iithasa), poetry (kavya), drama (na’aka), systematic thought (sastra), and more.

MDES UN2401 Intermediate Sanskrit I. 4 points.
Fee: Language Resource Center Fee - 15.00

Prerequisites: Elementary Sanskrit II or instructor permission. This course constitutes the first half of a year-long reading course designed to give students the tools necessary for advanced study in Classical Sanskrit. Readings in epic (iithsa), poetry (kavya), systematic thought (sastra), and commentary (vyakhyā) will introduce students to a variety of important genres and their distinctive conventions. A focus upon the Sanskrit tradition’s own categories of analysis—grammatical, commentarial, and prosodic—will enable students to begin to make sense of original Sanskrit texts as generations of the
tradition’s own readers have. No P/D/F or R credit is allowed for this class.

**MDES GU4810 ADVANCED SANSKRIT I. 4.00 points.**
Prerequisites: Two years of Sanskrit or the instructor's permission.
This course constitutes the first half of a year-long advanced reading course in Classical Sanskrit. In 2021-2022, the focus of Advanced Sanskrit will be the genre of literary theory (alan#ka#ras#stra) and belles-lettres (ka#vya). Lending equal attention to literary theory and literary practice, this course will introduce students to iconic works of Sanskrit literature along with the interpretive frameworks whereby they were analyzed, relished, and appraised. Literary excerpts may be drawn from an array of subgenres, including courtly epic (maha#ka#vya), epic drama (na#ta#aka), literary prose (gadya), and individual verses (muktaka). Rigorous analysis of primary texts will be supplemented by occasional discussions about what implications the disciplined reading of ka#vya may hold for practices such as translation, comparative literature, and transdisciplinarity. Prerequisites: Intermediate Sanskrit II or instructor’s permission.

**MDES GU4812 ADVANCED SANSKRIT II. 4.00 points.**
Prerequisites: Two years of Sanskrit or the instructor’s permission.
Prerequisites: Two years of Sanskrit or the instructors permission. The two levels of advanced Sanskrit are given in alternate years. In 2017-2018 court literature (fall) and literary criticism (spring) will be offered; in 2018-2019, philosophy. Close reading of major works, exploring both philological and literary-theoretical aspects of the texts. No P/D/F or R credit is allowed for this class.

**MDES UN1101 ELEMENTARY TAMIL I. 4.00 points.**
This course constitutes the first half of a year-long introduction to Tamil, the official language of the Indian state of Tamil Nadu as well as an official language of Sri Lanka and Singapore. In addition to being spoken by almost 80 million people worldwide, Tamil also has an impressive classical past, having served as a language of religious, intellectual, and literary life in South India for nearly two millennia. Assuming no prior experience with the language, this introductory sequence provides students with the grammar, language skills, and cultural context necessary for achieving their individual Tamil language goals, whether they be conducting fieldwork or scholarly research, chatting with relatives back home, or simply waxing poetic over an artful dosai. In order to cultivate students’ reading, writing, speaking, and listening comprehension skills, this course draws upon a wide variety of teaching materials, including the core textbook, oral drills, audio recordings, short films, music videos, memes, and more. No P/D/F or R credit is allowed for this class.

**MDES UN1102 ELEMENTARY TAMIL II. 4.00 points.**
Introduces students to the basic grammatical and syntactical skills required to function adequately in a Tamil-speaking environment. Of particular interest to students planning to conduct scholarly research or fieldwork in that region of the world. Introduces students to the rich culture of the Indian subcontinent where Tamil is spoken. No P/D/F or R credit is allowed for this class.

**MDES UN2101 Intermediate Tamil I. 4 points.**
Prerequisites: MDES W1101-W1102 or the instructor's permission.
Further develops students' written and oral proficiency in order to allow them to function adequately in a Tamil-speaking environment. Of particular interest to students planning to conduct scholarly research or fieldwork in a Tamil-speaking context. Develops the students' appreciation for the rich culture of the Indian subcontinent where Tamil is spoken. No P/D/F or R credit is allowed for this class.

**MDES UN2102 INTERMEDIATE TAMIL II. 4.00 points.**
Prerequisites: MDES W1101-W1102 or the instructor's permission.
Prerequisites: MDES W1101-W1102 or the instructor's permission. Further develops students' written and oral proficiency in order to allow them to function adequately in a Tamil-speaking environment. Of particular interest to students planning to conduct scholarly research or fieldwork in a Tamil-speaking context. Develops the students' appreciation for the rich culture of the Indian subcontinent where Tamil is spoken. No P/D/F or R credit is allowed for this class.

**MDES UN3301 Advanced Tamil I. 3 points.**
Prerequisites: MDES W1201-W1202 or the instructor's permission.
This course aims at students improving further their language proficiency. It aims at students getting introduced to the long and continuous literary history of Tamil by reading non-contemporary Tamil writings, sometimes the ancient Tamil literary works.

**MDES UN3302 Advanced Tamil II. 3 points.**
Prerequisites: Advanced Tamil I or instructor permission.
This course aims at students improving further their language proficiency. It aims at students getting introduced to the long
and continuous literary history of Tamil by reading non-contemporary Tamil writings, sometimes the ancient Tamil literary works.

**AFRICAN LANGUAGE COURSES (PULAAR, SWAHILI, WOLOF) *FOR ARABIC LANGUAGE COURSES, SEE MIDDLE EASTERN LANGUAGES, ABOVE**

**PULA UN1101 Elementary Pulaar I. 4 points.**
This course offers students an introduction to the basic structures of Pulaar, a major language of West Africa. No P/D/F or R credit is allowed for this class.

**OF RELATED INTEREST**

History (Barnard)

**MUSIC**

**Departmental Office:** 621 Dodge; 212-854-3825
http://www.music.columbia.edu/

**Director of Undergraduate Studies:** Prof. Aaron Fox, 804 Dodge; 212-854-7185; aaf19@columbia.edu

**Music Humanities Chair:** Prof. Elaine Sisman, 604 Dodge; 212-854-7728; es53@columbia.edu

**Music Performance Program Director:** Magdalena Stern-Baczewska, 618A Dodge; 212-854-2348; mb3713@columbia.edu

The music major provides aspiring musicians and/or scholars with a wide range of ways to think about music (performance-related, theoretical, historical, cultural, and compositional) and to concentrate on the aspects of music that most interest them—from popular and world music to computer music. Our faculty engage in cultural studies (i.e., ethnomusicology) and with current literary theory, connect with faculty of other departments (i.e., English, Philosophy, and Psychology), and are on the cutting edge of technological change. Students who have a passion for music and who have already developed basic skills in areas including performance, music history, composition, or ethnography, should consider a major in music.

**MUSIC PERFORMANCE**

For information on auditions, registration, and other aspects of performance not included below, visit https://mpp.music.columbia.edu/
or contact Magdalena Stern-Baczewska, Director of the Music Performance Program, in 618 Dodge, 212-854-1257.

Students with questions about the Columbia-Juilliard programs should consult Special Programs in this Bulletin or contact Rebecca Schiavo, 212-854-9478, rab2195@columbia.edu.

**Lessons**

Individual lessons on instruments listed under Courses of Instruction may be taken for one half hour per week for 1 point of credit (or in the case of voice lessons at Barnard College, one full hour per week for 2 points). Auditions are only offered in the fall semester and courses are a one year commitment. There is a $300 lesson fee per semester for each instrumental instruction course.

Galen DeGraf
Julia Hamilton
Velia Ivanova
Jeffrey Milarsky
Russell O’Rourke
Magdalena Stern-Baczewska
Peter Susser

Associate in Music Performance
Sarah Adams
Dmitry Alexeev
Gail Archer (Barnard)
Guidelines for all Music Majors and Concentrators

A program of study should be planned with the Director of Undergraduate Studies (DUS) in the first semester of the sophomore year. Students planning to focus on a particular area (i.e., computer music, composition, ethnomusicology, music theory or music history) may wish to select a faculty adviser in that area.

Music Theory & Ear-Training

All music majors and concentrators are required to take the Music Theory sequence through Music Theory IV and the Ear-Training sequence through Ear-Training IV. Placement exams are given prior to your initial enrollment in both the Music Theory sequence and Ear-Training sequence, to determine at what level you will be placed in each. For students who do not place in Music Theory I and/or Ear Training I on the placement exam, they must complete these course(s) before they start the corresponding sequence(s):

MUSI UN1002 FUNDAMENTALS OF MUSIC and MUSI UN1312 INTRODUCTORY EAR-TRAINING.

Keyboard Proficiency

All music majors are required to take a keyboard proficiency exam upon entrance into the first semester of Theory. Those who do not pass the exam are required to take MUSI UN1518 KEYBOARD HARMONY/MUSICIANSHIP.

Language Recommendations

For students who plan to do graduate work in music, studying German, French, Italian and/or Latin is recommended.

Focus in Composition

For students interested in focusing on the area of Composition, you must take these courses in this order:

MUSI UN2319 Music Theory II
MUSI UN3310 Techniques of 20th Century Music
MUSI UN3239 Introduction to Composition
MUSI UN3241 Advanced Composition

Major in Music

The major in music requires a minimum of 40 points, including the following courses:

You must complete up to Music Theory IV:

MUSI UN2318 MUSIC THEORY I
- MUSI UN2319 and MUSIC THEORY II
MUSI UN3321 MUSIC THEORY III
- MUSI UN3322 and MUSIC THEORY IV

You must complete up to Ear-Training IV, ET V is optional:

MUSI UN2314 EAR-TRAINING I
- MUSI UN2315 and EAR-TRAINING II
Electives: At least two 3000- or 4000-level electives.

The remaining points are to be earned through 1000-level MPP courses, 2000, 3000 or 4000-level courses subject to these constraints:

1. No more than 6 points of 2000-level courses.
2. No more than 4 points of 1000-level MPP courses and UN1518 combined (list below):

MPP UN1401  BASSOON INSTRUCTION
MPP UN1403  CELLO INSTRUCTION
MPP UN1405  CLARINET INSTRUCTION
MPP UN1407  CLASSICAL SAXOPHONE INSTRUCTION
MPP UN1409  FLUTE INSTRUCTION
MPP UN1411  FRENCH HORN INSTRUCTION

MPP UN1531  CHAMBER ENSEMBLE
MPP UN1541  COLUMBIA UNIV JAZZ ENSEMBLE
MPP UN1551  WORLD MUSIC ENSEMBLE

CONCENTRATION IN MUSIC

The concentration in music requires a minimum of 28 points, including the following courses:

You must complete up to Music Theory IV:
MUSI UN2318  MUSIC THEORY I
- MUSI UN2319  and MUSIC THEORY II
MUSI UN3321  MUSIC THEORY III
- MUSI UN3322  and MUSIC THEORY IV

You must complete up to Ear-Training IV, ET V is optional:
MUSI UN2314  EAR-TRAINING I
- MUSI UN2315  and EAR-TRAINING II
MUSI UN3316  EAR-TRAINING III
- MUSI UN3317  and EAR-TRAINING IV
MUSI GU4318  Ear Training, V
MUSI UN3128  HIST-WEST MUS: MID AGE-BAROQUE
- MUSI UN3129  and HIST-WEST MUS:CLASSICAL-20TH CENTURY

MUSI UN3400  TOPICS IN MUSIC # SOCIETY

Electives: At least one 3000- or 4000-level electives.

The remaining points are to be earned through 1000-level MPP courses, 2000, 3000 or 4000-level courses subject to these constraints:

1. No more than 6 points of 2000-level courses.
2. No more than 4 points of 1000-level MPP courses and UN1518 combined (list below):

MPP UN1401  BASSOON INSTRUCTION
MPP UN1403  CELLO INSTRUCTION
MPP UN1405  CLARINET INSTRUCTION

MUSI UN2016 JAZZ. 3.00 points.
The musical and cultural features of jazz, beginning in 1900
MUSI UN2021 MUSIC IN CONTEMP NATIVE AMER. 3.00 points.
Music in Contemporary Native America is a historical, ethnographic, and topical examination of contemporary Native American musical practices and ideologies. The course emphasizes popular, vernacular, and mass mediated musics, and calls into question the simple distinction between traditional and modern aspects of Native American cultures. Our readings and class guests (several of whom will be Native American scholars) emphasize the importance of understanding Native 2 American perspectives on these topics. Three short papers and one substantial final project are required. Approximately 100-150 pages of reading per week
MUSI UN2023 BEETHOVEN. 3.00 points.
Prerequisites: HUMA UN1123 or the equivalent.
A study of the life and works of Ludwig van Beethoven, with emphasis on selected symphonies, string quartets, and piano sonatas. Also consider the changing nature of the critical reception of Beethoven and issues of classicism and romanticism in music.
MUSI UN2025 THE OPERA. 3.00 points.
Prerequisites: HUMA W1123 or the equivalent.
The development of opera from Monteverdi to the present. IN FALL 2011, THE OPERA WILL BE OFFERED MON/WED 2:40-3:55 in 622 DODGE.
MUSI UN2030 JEWISH MUSIC IN NEW YORK. 3.00 points.
Prerequisites: Music Humanities (Columbia University) or An Introduction to Music (Barnard).
Prerequisites: Music Humanities (Columbia University) or An Introduction to Music (Barnard). With the arrival of the first Jewish immigrants in New York in the mid-1600s until today, Jewish music in the City has oscillated between preserving traditions and introducing innovative ideas. This course explores the variety of ways people have used music to describe, inscribe, symbolize, and editorialize their Jewish experience. Along these lines, it draws upon genres of art music, popular music, and non-Western traditions, as well as practices that synthesize various styles and genres, from hazzanut to hiphop. Diverse musical experiences will serve as
with small, hands-on assignments, that demonstrate the effect
of curated playlists in an effort to unpack style and genre
dislocations. Readings and listening examples will be paired

MUSI UN2230 History and Practice of Electronic Music.
3.00 points.
This course will provide a critical survey of the development of electronic and computer music and sound from around the globe. From early experiments and precursors in the late 19th century through to modern-day experimental and popular music practices, this course aims to trace the development of technologies used in the production of electronic and computer derived sound and music alongside the economic, cultural, and social forces that contribute to the development of audiences. The course will focus intently on listening through a series of curated playlists in an effort to unpack style and genre distinctions. Readings and listening examples will be paired with small, hands-on assignments, that demonstrate the effect

MUSI UN2314 EAR-TRAINING I. 1.00 point.
Designed to improve the students basic skills in sight-singing, and rhythmic and melodic dictation with an introduction to four-part harmonic dictation

MUSI UN2315 EAR-TRAINING II. 1.00 point.
Techniques of sight-singing and dictation of diatonic melodies in simple and compound meter with strong emphasis on harmonic dictation

MUSI UN2318 MUSIC THEORY I. 3.00 points.
Prerequisites: Passing score on the placement exam administered prior to the first day of class or Fundamentals of Music/UN1002.
Elementary analysis and composition in a variety of modal and tonal idioms. A one-hour weekly lab is required, to be scheduled at the beginning of the term. Course to be taken in
works techniques of contemporary composition. Readings of student Composition in more extended forms. Study of advanced
Prerequisites: UN3239/Intro to Comp I

MUSI UN3219 MUSIC THEORY II. 3.00 points.
Prerequisites: Passing score on the placement exam administered prior to the first day of class or Music Theory I/ UN2318
Corequisites: one course from Ear-Training I-IV (V2314, V2315, V3316, or V3317, as determined by placement exam.)
Elementary analysis and composition in a variety of tonal idioms. A one-hour weekly lab is required, to be scheduled at
the beginning of the term. Course to be taken in conjunction with the Ear-Training sequence, up through Ear-Training IV

MUSI UN3128 HIST-WEST MUS: MID AGE-BAROQUE. 3.00 points.
Prerequisites: MUSI UN2318 - MUSI UN2319. May be taken before or concurrently with this course.
Prerequisites: MUSI UN2318 - MUSI UN2319. May be taken before or concurrently with this course. Topics in Western music from Antiquity through Bach and Handel, focusing on the development of musical style and thought, and analysis of selected works

MUSI UN3241 ADVANCED COMPOSITION I. 3.00 points.
Composition Faculty
Prerequisites: UN3239/Intro to Comp I
Composition in more extended forms. Study of advanced techniques of contemporary composition. Readings of student works
MUSI 3316 001/11058  M W 12:10pm - 1:00pm  Peter 1.00 14/14 620 Dodge Building

MUSI UN3317 EAR-TRAINING IV. 1.00 point.
Techniques of musicianship at the intermediate level, stressing the importance of musical nuances in sight-singing. Emphasis is placed on chromatically inflected four-part harmonic dictation. A one-hour weekly lab is required, to be scheduled at the beginning of the term. Course to be taken in conjunction with the Ear-Training sequence, up through Ear-Training IV.

MUSI UN3400 TOPICS IN MUSIC # SOCIETY. 3.00 points.
Music Majors and Concentrators.

This course seeks to approach the study of music and society by comparatively studying repertoires from different parts of the world, how the history of ideas and methods of studying such repertoires shaped them, the practices that constitute them and the ways they are understood and used by different peoples. Central to this course is the interrelationship between the constitution of a repertoire and the history of the construction of knowledge about it.

MUSI UN3410 The Polycultural Roots of U.S. Popular Music. 3.00 points.
This course will explore the rich hybrid development of U.S. popular music genres and vernacular music traditions. Focusing on the contributions of Indigenous, Latinx, Asian, and African American musicians and musical traditions in addition to European American musicians and musical traditions, in genres as various as country music, hip hop, jazz, reggaeton, and rock, students will enlarge their sense of the multiracial and crosscultural makeup of the music that constitutes “American popular music.”
MUSI UN3425 Music, Sound and the Law. 3.00 points.
This course is a historical overview of the relationship between music and the law in which students will employ both critical listening skills and critical thinking to understand how sound came to be understood as property, how the law impacts creativity, identity and labor, and how music has been used as a tool for enforcing and challenging legislative and political processes. We will discuss the origins of copyright law in the Enlightenment, how music has been used as a tool of colonization through formation of archives, examples of Native American conceptions of cultural property and modes of repatriation, the birth of the music industry and its segregationist history, how the law impacts creativity through the study of sampling, infringement and extension of rights, the ways in which musicians and listeners subvert legal strictures, how music can influence policy as protest or as propaganda, musical bans, noise ordinances, the relationship between music and the law through concepts such as fair use, the public domain, and mechanical and performance rights, and develop listening skills and critical thinking to understand how sound music distribution. Music is our point of departure, and students will learn ways in which sonic practices shaped and challenged legislative paradigms. Our focus is on American musics such as Native American music, blues, country, jazz, rhythm and blues, rock and roll, experimental music, hip hop, pop, as well as some European classical music, “world” music, and EDM. Students will read and analyze legal primary sources such as the Music Modernization Act, as well as landmark court cases, critical legal literature, and musicological texts. Students will learn debate skills, acquire practical knowledge of the law through concepts such as fair use, the public domain and mechanical and performance rights, and develop listening skills to understand legal concepts such as infringement. This course is open to students of all majors and will be of particular interest to musicians, students with plans to pursue a law degree in IP or technology law, as well as those interested in working in the music industry. There are no prerequisites and no previous knowledge of music, music theory, or the law is necessary. Masterpieces of Western Music or Asian Music Humanities are recommended.

MUSI UN3995 HONORS RESEARCH. 2.00-3.00 points.
Open to honors candidates in music only.
Prerequisites: a formal proposal to be submitted and approved prior to registration; see the director of undergraduate studies for details.
Prerequisites: a formal proposal to be submitted and approved prior to registration; see the director of undergraduate studies for details. A creative/scholarly project conducted under faculty supervision, leading to completion of an honors essay, composition, or the equivalent.

MUSI GU4308 Theory and Analysis of Jazz and Improvisation. 3.00 points.
This course explores diverse approaches to analyzing jazz and improvisation. Students will engage with analytical methods stemming from both scholars and improvisers, learn to apply traditional analytical approaches, examine critical issues underlying them, and develop new applications of heretofore underexamined ones. We will focus alternatively on harmony, solos, interaction, cognition, rhythm, and pedagogy, among other issues, and the survey will afford students insight into the priorities, methodologies, outcomes, and shortcomings of each of them. Additionally, the course covers theoretical texts produced by improvising musicians, as well as instances where improvisers engage with preexisting theoretical texts. Finally, we will also examine intersections between identity—encompassing issues such as race, ethnicity, gender, and class among others—and music theory. We will investigate characterizations of music theory, composition, and improvisation in terms of identity and suggest ways that we might incorporate the diverse range of theorists and analysts in our course into larger intellectual and musical histories.

MUSI GU4325 Introduction to Cognitive Musicology. 3.00 points.
This course is an introduction to a variety of key topics in the field of cognitive musicology, including human development, evolution, neural processing, embodied knowledge, memory and anticipation, cross-cultural perspectives, and emotions. The course explores recent research on these topics, as well as ways in which this research can be applied to music scholarship.

MUSI GU4360 ANALYSIS OF TONAL MUSIC. 3.00 points.
Detailed analysis of selected tonal compositions. This course, for advanced undergraduates and beginning graduates, is intended to develop understanding of tonal compositions and of theoretical concepts that apply to them, through study of specific works in various forms and styles.
MUSI GU4525 INSTRUMENTATION. 3.00 points.
Prerequisites: extensive musical background. Analysis of instrumentation, with directional emphasis on usage, ranges, playing techniques, tone colors, characteristics, interactions and tendencies, all derived from the classic orchestral repertoire. Topics will include theoretical writings on the classical repertory as well as 20th century instrumentation and its advancement. Additional sessions with live orchestral demonstrations are included as part of the course.

Fall 2022: MUSI GU4525

Enrollment: 6/25

MUSI 4525 AUI/17042
Points: 3.00
Enrollment: 1/2

MUSI GU4630 RECORDED SOUND. 3.00 points.
Prerequisites: The instructor's permission.
Prerequisites: The instructors permission. As music moves into the 21st century, we find ourselves surrounded by an ever-evolving landscape of technological capability. The world of music, and the music industry itself, is changing rapidly, and with that change comes the opening — and closing — of doorways of possibility. What does this shift mean for today’s practicing artist or composer? With big label recording studios signing and nurturing fewer and fewer artists, it seems certain that, today, musicians who want to record and distribute their music need to be able to do much of the recording and production work on their own. But where does one go to learn how to do this — to learn not only the “how to” part of music production, but the historical underpinnings and the development of the music production industry as well? How does one develop a comprehensive framework within which they can place their own artistic efforts? How does one learn to understand what they hear, re-create what they like and develop their own style? This class, “Recorded Sound,” aims to be the answer. It’s goal is to teach artists how to listen critically to music from across history and genres in order to identify the answer. It's goal is to teach artists how to listen critically to music from across history and genres in order to identify the answer. It's goal is to teach artists how to listen critically to music from across history and genres in order to identify the answer.

Points: 1.00
Enrollment: 5/5

MUSI GU4810 Sound: Foundations. 3.00 points.
This foundational course in sound will begin by exploring how listening happens as well the tools necessary capture and present that listening. Through hands-on experimentation and demonstration, this seminar will examine both the technical and semiotic use of sound as amaterial within creative practice. Fundamental studio techniques will be explored including soldering for building cables, microphones, and loudspeakers. We will also explore the building blocks of analog and digital processes for the creation of sound, including microphones (types, patterns, and placement), basic synthesis, and techniques for recording, mixing, editing, and mastering. Through creative projects that implement these skills we will learn by doing. We will study theories of sound and listening that determine or are determined by technology, from the physical and social dimensions of the sounds we use to create, language (sound as a symbol or object), acoustics (sound in space), acousmatics (sound without a visual reference), and psycho-acoustics (sound as cognitive process). This class assumes no prior knowledge or technical skill. Some reading will be assigned and we will look and listen to a lot of work, students are encouraged to participate actively in discussions.

### MUSI UN2230 History and Practice of Electronic Music. 3.00 points.
This course will provide a critical survey of the development of electronic and computer music and sound from around the globe. From early experiments and precursors in the late 19th century through to modern-day experimental and popular music practices, this course aims to trace the development of technologies used in the production of electronic and computer derived sound and music alongside the economic, cultural, and social forces that contribute to the development of audiences. The course will focus intently on listening through a series of curated playlists in an effort to unpack style and genre distinctions. Readings and listening examples will be paired with small, hands-on assignments, that demonstrate the effect of music making tools on the process and structure of musical genres and styles ranging from the experimental practices of musique concrete, drone, and harsh noise to the mainstream practices of dub, techno, vaporwave, hyperpop, and hip hop and more.

### MUSI UN2582 JAZZ IMPROVISTN:THRY,HIST,PRAC. 3.00 points.

This course offers an introduction to jazz improvisation for instrumentalists. Through recordings, transcriptions, daily performance and selected readings, students will actively engage the history of jazz through their instruments and intellect. The idea of improvisation will be explored in an historical context, both as a musical phenomenon with its attendant theory and mechanics, and as a trope of American history and aesthetics. This class is for instrumentalists who wish to deepen their understanding of the theory, history and practice of jazz improvisation. The history of jazz will be used as a prism through which to view approaches to improvisation, from the cadences of the early Blues through the abstractions of Free Jazz and beyond. The student will be exposed to the theory and vocabularies of various jazz idioms, which they will also learn to place in their social and historical contexts

### MUSI UN3127 BACH’S SACRED MUSIC. 3.00 points.

Bach’s sacred music in its historical, theological, and social context

### MUSI UN3129 HIST-WEST MUS:CLASSICAL-20TH CENTURY. 3.00 points.

Prerequisites: MUSI V2318-2319. May be taken before or concurrently with this course.

Topics in Western music from the Classical era to the present day, focusing on the development of musical style and thought, and on analysis of selected works

### MUSI UN3171 PARIS FOR ROMANTICS. 3.00 points.

Prerequisites: Completion of Music Humanities (or the consent of the instructor) is a pre-requisite for this course.

Prerequisites: Completion of Music Humanities (or the consent of the instructor) is a pre-requisite for this course.

This course explores Parisian musical life during the long nineteenth century, situating musical discourses, institutions, and forms within the broader landscapes of literary and artistic Romanticism. Topics to be considered include: the musical echoes of the Revolution; operatic genres and theaters; the music of the salons; cultures of consumerism and domestic performance; and issues of nationalism and historicism after 1870. Composers to be considered include: Berlioz, Chopin, Liszt, Gounod, Saint-Saëns, Franck, Massenet, and Debussy. Completion of Music Humanities (or the consent of the instructor) is a pre-requisite for this course

### MUSI UN3239 INTRODUCTION TO COMPOSITION I. 3.00 points.

Composition in shorter forms. Students will compose new works for the cello, with a focus on diverse approaches to the instrument. Student pieces will be workshopped, rehearsed, and performed (and/or recorded)
Spring 2023: MUSI UN3239

MUSI UN3400 TOPICS IN MUSIC # SOCIETY. 3.00 points.
Music Majors and Concentrators.
This course seeks to approach the study of music and society by comparatively studying repertories from different parts of the world, how the history of ideas and methods of studying such repertories shaped them, the practices that constitute them and the ways they are understood and used by different peoples. Central to this course is the interrelationship between the constitution of a repertoire and the history of the construction of knowledge about it
Fall 2022: MUSI UN3400

MUSI GU4407 Songs and Sounds of Protest of Latin America and the Caribbean: Relistening to the 1960s and 1970s. 3.00 points.
This course is a topical (not comprehensive) survey of musical-poetic manifestations from Latin America, the Caribbean and their diasporas that emerged during the 1960s and the 1970s. The course revisits this time period by exploring the contributions of myriad countries among which Puerto Rico, Brazil, Nicaragua, Cuba, Québec, Haiti, Chile, Argentina, Jamaica, Trinidad and Tobago, Martinique/Guadeloupe, and the United States (with a strong emphasis on New York). It analyzes objects and experiences engaged in contesting colonialism, settler colonialism, imperialism, patriarchy, racism, capitalism and Eurocentrism highlighting as well the limits (and limitations) of these radical discourses. Using a decolonial/postcolonial lens and an ethnomusicological approach, the course pays careful attention to the politics of these musics, their historical context and aesthetics, and the social imaginary of those who made them possible.

MUSI GU4425 SOUNDING ISLAM. 3.00 points.
The objective of this course is to explore the relationship between sound, music and Islam and, in doing so, to focus on a philosophy of listening (sama') which is deeply embedded in the experiential. The course aims to analyze how sound and music directly or indirectly associated with Islam are produced, circulated, and listened to by a wide variety of audiences in local and transnational settings; to explore the ways in which multiple sonic dimensions of Islam have affected the public sphere in different historical moments and contexts (particular in relation to ideas about nationalism, secularism and modernity); and to examine the effect of these sonic dimensions on Muslim and non-Muslim listeners in a local and a transnational perspective.

MUSI GU4515 CONDUCTING MUSIC. 3.00 points.
Prerequisites: advanced music major and extensive contemporary music background.
Prerequisites: advanced music major and extensive contemporary music background. Analysis of the modern repertory of contemporary music with directional emphasis on actual conducting preparation, beating patterns, rhythmic notational problems, irregular meters, communication, and transference of musical ideas. Topics will include theoretical writing on 20th-century conducting, orchestration, and phrasing.

Spring 2023: MUSI GU4515

Instructor: Jeffrey Milarsky
Points: 3.00
Enrollment: 11/15
814 Dodge Building

MUSI GU4630 RECORDED SOUND. 3.00 points.
Prerequisites: The instructor's permission.
Prerequisites: The instructor's permission. As music moves into the 21st century, we find ourselves surrounded by an ever-evolving landscape of technological capability. The world of music, and the music industry itself, is changing rapidly, and with that change comes the opening – and closing – of

MUSI GU4319 Ear-Training VI. 1 point.
Advanced dictation, sight singing, and musicianship, with emphasis on 20th-century music.
doorways of possibility. What does this shift mean for today’s practicing artist or composer? With big label recording studios signing and nurturing fewer and fewer artists, it seems certain that, today, musicians who want to record and distribute their music need to be able to do much of the recording and production work on their own. But where does one go to learn how to do this – to learn not only the “how to” part of music production, but the historical underpinnings and the development of the music production industry as well? How does one develop a comprehensive framework within which they can place their own artistic efforts? How does one learn to understand what they hear, re-create what they like and develop their own style? This class, “Recorded Sound,” aims to be the answer. It’s goal is to teach artists how to listen critically to music from across history and genres in order to identify the production techniques that they hear, and reproduce those elements using modern technology so they can be incorporated into the artist’s own musical works.

Philosophy majors are given a foundation in logic and philosophical methodology, and are asked to confront fundamental questions in the main areas of philosophy: epistemology and metaphysics, ethics and political philosophy, philosophy of mind and language, and history of philosophy. The department requires that all majors take at least one seminar (PHIL UN3912), designed to allow students to focus on particular philosophical issues or texts in greater depth. Outstanding seniors may also pursue their own philosophical project in a senior thesis.

Over and above the courses required of all majors, there is room for considerable flexibility. Through an appropriate choice of electives from among the department’s offerings (and from related courses in other departments), there are special opportunities for focusing more intensively on one or two subfields of philosophy, e.g., logic and the philosophy of mathematics, philosophy of science, ethics and political philosophy, or the history of philosophy. Students should consult with the director of undergraduate studies on how best to pursue such programs.
STUDY ABROAD: REID HALL, PARIS

For information on the Columbia in Paris Program at Reid Hall, including summer courses, consult the Columbia University in Paris Bulletin (available in 606 Kent and online at the Office of Global Programs website), call 212-854-2559, or send an email to reidhall@columbia.edu. For information on applicability of Reid Hall courses to the major or concentration, consult the director of undergraduate studies.

GRADING

Courses in which a grade of D has been received do not count toward the major or concentration requirements.

SENIOR THESIS

Undergraduates majoring in Philosophy or Economics-Philosophy may propose to write a senior thesis. Students who wish to write a thesis should approach a faculty member at the end of their junior or beginning of their senior year, and begin working on the proposal early in the fall semester of their senior year. Proposals are due in early December, and will be reviewed by a committee which will include the Director of Undergraduate Studies; students will be notified of the committee’s decision within two weeks. Students whose proposals are approved should register for their faculty advisor’s section of Supervised Independent Research for the spring term of the senior year. Theses are due in early April.

Students who have a grade point average of 3.6 or above in the major and who complete a thesis will be placed into consideration for departmental honors, though any senior may complete a thesis regardless of their grade point average (upon approval of the proposal).

See the full policy and procedure concerning senior theses on the departmental webpage:

http://philosophy.columbia.edu/content/senior-thesis-philosophy

DEPARTMENTAL HONORS

Departmental honors are highly competitive. Normally no more than 10% of the majors graduating in the department each year will receive departmental honors.

In order to qualify for departmental honors in philosophy, a student must have a grade point average of at least 3.6 in the major.

For students with a GPA of 3.6 or above, there are two possible routes to consideration:

1. A student may complete a senior thesis; those students who complete senior theses will automatically be considered for honors without having to be nominated.
2. A student may be nominated by a faculty member early in the spring semester of the senior year; nominated students will be invited to submit a writing sample at least 15 pages in length. A nominated student who is also writing a thesis may submit their thesis as the writing sample, or may choose to submit a different work.

Both the senior theses and writing samples are due in early April. The departmental honors committee will then review the submitted material and the academic records of the writers, and will report to the full faculty.

The full faculty will then decide which students to recommend for departmental honors to the Columbia College and General Studies administrations.

MAJOR IN PHILOSOPHY

Students considering a major in philosophy are strongly encouraged to meet with the director of undergraduate studies early in their sophomore year. All majors must consult with the director of undergraduate studies each term before registering
for classes in order to plan and update their individual programs of study.

Students planning to major in philosophy are advised to begin with PHIL UN1010 METHODS/PROB OF PHILOS THOUGHT. *Please note* PHILUN1001 INTRODUCTION TO PHILOSOPHY & PHILUN1401 INTRODUCTION TO LOGIC do not count for credit towards the undergraduate major in philosophy. Beginning students are especially encouraged to take 2000-level courses, both in the history of philosophy and in systematic philosophy. These courses are typically less specialized and less narrowly focused than higher-numbered ones. More advanced students are encouraged to take 3000-level courses. The department requires that all majors take at least one seminar, PHIL UN3912.

No more than one course at the 1000-level can be counted toward the major. In order to enroll in one of the 4000-level courses, students must have taken at least four courses in Philosophy.

The major requires a minimum of 30 points in philosophy chosen from courses prefixed with UN or GU:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

<tbody>
<tr>
<td>PHIL UN2101</td>
<td>HISTORY OF PHILOSOPHY I</td>
</tr>
<tr>
<td>PHIL UN2201</td>
<td>HISTORY OF PHILOSOPHY II</td>
</tr>
<tr>
<td>PHIL UN3411</td>
<td>SYMBOLIC LOGIC</td>
</tr>
</tbody>
</table>

At least one course in either metaphysics or epistemology e.g., PHIL W3960, or a related course to be chosen in consultation with the director of undergraduate studies.

Select at least one course in either ethics or social and political philosophy from the following:

- PHIL UN2702 Contemporary Moral Problems
- PHIL UN3701 ETHICS
- PHIL UN3751 POLITICAL PHILOSOPHY

A related course to be chosen in consultation with the director of undergraduate studies.

PHIL UN3912 SEMINAR

Students may choose courses prefixed with GR only with the instructor’s permission.

PHIL UN3912 is open to junior and senior concentrators who have taken at least four courses in philosophy.

**CONCENTRATION IN PHILOSOPHY**

Philosophy, as an academic discipline, has significant points of contact with a wide range of other subjects—in the humanities, the social sciences, and the natural sciences. A concentration in philosophy thus can be an attractive option for many students. Those considering becoming concentrators are strongly encouraged to meet with the director of undergraduate studies early in their sophomore year, in order to discuss their specific interests and to plan their programs of study. All concentrators should consult with the director of undergraduate studies each term before registering for courses.

The concentration requires a minimum of 24 points in philosophy, chosen from courses prefixed with UN or GU. There are no specific courses required for the concentration.

Students may choose courses prefixed with GR only with the instructor’s permission.

PHIL UN3912 is open to junior and senior concentrators who have taken at least four courses in philosophy.

**MAJOR IN ECONOMICS-PHILOSOPHY**

Please read Guidelines for all Economics Majors, Concentrators, and Interdepartmental Majors in the Economics section of this Bulletin.

Economics-Philosophy is an interdisciplinary major that, while introducing students to the basic methodologies of economics and philosophy, stresses areas of particular concern to both. These include subjects such as rationality and decision making, justice and efficiency, freedom and collective choice, and the logic of empirical theories and their testing. Many of the issues are dealt with historically, and classic texts of Plato, Kant, Mill, Marx, and Smith are reviewed.

Two advisers are assigned for the interdepartmental major, one in the Department of Economics and one in the Department of Philosophy. Please note that the Economics adviser can only advise on the Economics requirements and the Philosophy adviser can only advise on the Philosophy requirements.

The Economics-Philosophy major requires a total minimum of 54 points: 25 points in Economics, 16 points in Philosophy, 6 points in Mathematics, 3 points in Statistics, and 4 points in the interdisciplinary seminar as follows:

PHIL UN3000 BUDDHIST PHILOSOPHY. 3.00 points.
Buddhist philosophers generally agree about what doesn’t exist: an enduring, unitary, and independent self. But there is surprisingly little consensus across Buddhist traditions about what does exist and what it’s like. In this course, we will examine several Buddhist theories about the nature and structure of reality and consider the epistemological and ethical implications of these radically different pictures of the world. We will analyze and evaluate arguments from some of the most influential Indian Buddhist philosophers from the second
to the eleventh centuries, including Nāgārjuna, Vasubandhu, Dignāga, Candrakṣārti, Śāntarakṣita, and Ratnakṣārti. Topics will include the existence and nature of the external world, the mind, and the self; practical and epistemological implications of the Buddhist no-self principle; personal identity; the problem of other minds; and causal determinism and moral responsibility.

**PHIL UN3264 19TH CENTURY PHILOSOPHY: HEGEL. 3.00 points.**

Prerequisites: Phil UN2201 or PHIL UN3251

Prerequisites: Phil UN2201 or PHIL UN3251 Examines major themes of Hegel's philosophy, with emphasis on social and political thought. Topics include Hegel's critique of Kant, the possibility of metaphysics, the master-slave dialectic, and the role of freedom in a rational society. Readings from Kant’s Third Critique help explain how Hegel's project develops out of Kant's transcendental idealism. Some knowledge of Kant's moral theory and his Critique of Pure Reason is presupposed. Prerequisite: at least one of PHIL UN2201, PHIL UN2301, or PHIL UN3251.

PHIL 3701 AU1/18576

PHIL UN3751 POLITICAL PHILOSOPHY. 3.00 points.
Six major concepts of political philosophy including authority, rights, equality, justice, liberty and democracy are examined in three different ways. First the conceptual issues are analyzed through contemporary essays on these topics by authors like Peters, Hart, Williams, Berlin, Rawls and Schumpeter. Second the classical sources on these topics are discussed through readings from Hobbes, Locke, Hume, Marx, Plato, Mill and Rousseau. Third some attention is paid to relevant contexts of application of these concepts in political society, including such political movements as anarchism, international human rights, conservative, liberal, and Marxist economic policies as well as competing models of democracy

PHIL 3756 Critical Philosophy of Race: What is Race?. 3.00 points.
This course is a philosophical examination of the meaning and significance of the concept of race. The course will chiefly aim to answer: What do we mean by the term “race”? And why is it often tied to the existence of racism? From where does the concept come? And what role did “race” play in the philosophical thought and the culture of Western modernity? Among the questions that can be asked are, How do concepts of race contribute to the formation and justification of various economic, political, and social institutions and practices, such as slavery, colonialism, and segregation? However, we will also inquire at the end of the course whether “race” is always a destructive concept, or whether it can be re-defined as part of a liberation project centered on racial identity: the appreciation and celebration of racial difference and solidarity

PHIL UN3858 CULTIVATING INDIVIDUALITY. 3.00 points.
Talk about “individuality”, about being (or becoming) “yourself” is all around us. But what exactly does this mean? What is genuine individuality, and how can we develop it, in ourselves (though self-development) and in others (by designing appropriate educational institutions)? What is the relationship between being an individual and being a part of society? Is there a tension between the non-conformism often associated with genuine individuality on the one hand, and the demands of community and good citizenship, on the other? Can educational institutions be designed to fulfill both those demands (to the extent they are distinct)? And how might oppressive social institutions hinder the development of “individuality”? In this course, we will explore these and related questions by drawing on both the classics of philosophy of education (Plato, Rousseau, Nietzsche, Dewey, Du Bois), and on relevant literary material that is in conversation with the philosophical texts (Rilke, Tolstoy, Woolf)

PHIL UN3863 HAPPINESS AND WELL-BEING. 3.00 points.
“What is it to be happy?” Philosophers have passionately debated this question from antiquity until now. Especially in times when happiness seems difficult to find, we naturally want to know what happiness is and how best to secure it. In this course, we will consider happiness in relation to well-being, examining four major theories of well-being (hedonism, desire-fulfillment theories, objective list theories, and eudaimonism/perfectionism). We will gain a nuanced understanding of each view by juxtaposing their ancient and modern advocates and opponents

PHIL GU4244 MODAL LOGIC. 3.00 points.
CC/GS: Partial Fulfillment of Science Requirement

Fall 2022: PHIL GU4424
Course Number Section/Call Times/Location Instructor Points Enrollment
PHIL 4424 001/11481 M 6:10pm - 8:00pm Tamar 3.00 25/40 716 Philosophy Hall

PHIL GU4471 Philosophy of Mathematics. 3 points.
Not offered during 2022-23 academic year.

Prerequisites: mathematical background, or familiarity with formal reasoning. The instructor's permission in borderline cases is required.

Fall 2022: PHIL GU4471
Course Number Section/Call Times/Location Instructor Points Enrollment
PHIL 4471 001/11496 T 6:10pm - 8:00pm Haim 3 10/40 716 Philosophy Hall

PHIL GU4495 PERCEPTION. 3.00 points.
This course addresses the fabulously rich range of issues about the nature of perception, including: perceptual mental representation and its content; computational explanation; justifying beliefs; knowledge and thought about perception; and perception of music. Perception is an interdisciplinary subject par excellence. Readings will be drawn from philosophy and psychology, aesthetics, and artificial intelligence

Spring 2023
PHIL UN1010 METHODS/PROB OF PHILOS THOUGHT. 3.00 points.
Critical introduction to philosophical problems, ideas and methods
Fall 2022: PHIL UN1010
Course Number Section/Call Times/Location Instructor Points Enrollment
PHIL 1010 001/11482 M W 7:40pm - 8:55pm Justin 3.00 18/40 326 Uris Hall

PHIL UN1401 INTRODUCTION TO LOGIC. 3.00 points.
Explicit criteria for recognizing valid and fallacious arguments, together with various methods for schematizing discourse for the purpose of logical analysis. Illustrative material taken from science and everyday life
Spring 2023: PHIL UN1401
Course Number Section/Call Times/Location Instructor Points Enrollment
PHIL 1401 003/12833 M W 10:10am - 11:25am Melissa 3.00 26/40 520 Mathematics Building

PHIL GU4561 PROBABILITY # DECISION THEORY. 3.00 points.
Examines interpretations and applications of the calculus of probability including applications as a measure of degree of belief, degree of confirmation, relative frequency, a theoretical property of systems, and other notions of objective probability or chance. Attention to epistemological questions such as Hume's problem of induction, Goodman's problem of projectibility, and the paradox of confirmation

Fall 2022: PHIL GU4561
Course Number Section/Call Times/Location Instructor Points Enrollment
PHIL 4561 001/11511 F 12:10pm - 2:00pm Haim 3.00 20/40 716 Philosophy Hall

PHIL GU4602 PHILOSOPHICAL TEXTS IN GREEK. 3.00 points.
Careful reading and translation of a major philosophical text in ancient Greek to be chosen by the course participants in consultation with the instructor. Special attention is to be paid to the linguistic and conceptual problems of translating ancient Greek philosophical texts. Prerequisite: equivalent of at least two years of study of ancient Greek at university level
Fall 2022: PHIL GU4602
Course Number Section/Call Times/Location Instructor Points Enrollment
PHIL 4602 001/11506 W 6:10pm - 8:00pm Lando 3.00 716 Philosophy Hall
PHIL UN2201 HISTORY OF PHILOSOPHY II. 4.00 points.
Prerequisites: PHIL UN2211 Required Discussion Section (0 points).
Prerequisites: PHIL UN2211 Required Discussion Section (0 points). PHIL UN2211 is not a prerequisite for this course. Exposition and analysis of the metaphysics, epistemology, and natural philosophy of the major philosophers from Aquinas through Kant. Authors include Aquinas, Galileo, Gassendi, Descartes, Spinoza, Leibniz, Berkeley, Hume, and Kant. This course has unrestricted enrollment.

PHIL UN3685 PHILOSOPHY OF LANGUAGE. 3.00 points.
This course is a survey of analytic philosophy of language. It addresses central issues about the nature of meaning, including: sense and reference, speech acts, pragmatics, and the relationship between meaning and use, meaning and context, and meaning and truth.

PHIL UN3912 SEMINAR. 3.00 points.
Required of senior majors, but also open to junior majors, and junior and senior concentrators who have taken at least four philosophy courses. This exploration will typically involve writing a substantial research paper. Capped at 20 students with preference to philosophy majors.

### PHIL GU4810 LATTICES AND BOOLEAN ALGEBRA. 3.00 points.

Prerequisites: PHIL UN3411 or 4801
Prerequisites: PHIL UN3411 or 4801 This course is designed as an introduction to lattices and Boolean algebras. In the first part of the course, we study partial orders and view lattices both as partial orders and as algebraic structures. We study some basic constructions involving sublattices, products of lattices, and homomorphic images of lattices. In the second part of the course, we study Boolean algebras, with an aim to proving several representation theorems: first, a representation theorem for finite Boolean algebras, and toward the end of the course, the famous Stone Representation Theorem. We end the course with a look at the connection between classical mereology (or the theory of parthood) and complete Boolean algebras.

PHIL GU4900 TOPICS IN EARLY MODERN PHILOSOPHY. 3.00 points.

Open to undergraduates with previous work in the history of philosophy and to graduate students. Focuses either on an important topic in the history of early modern philosophy (e.g. skepticism, causation, mind, body) or on the philosophy of a major figure in the period (e.g. Descartes, Leibniz, Spinoza, Gassendi, Conway).

ECPH GU4950 ECONOMICS & PHILOSOPHY. 4.00 points.

Open only to economics-philosophy majors who are in their senior year.

Prerequisites: ECON W3211, ECON W3213, ECON W3412. Students will be contacted by the Economics department for pre-enrollment.

Prerequisites: ECON W3211, ECON W3213, ECON W3412. Students will be contacted by the Economics department for pre-enrollment. Explores topics in the philosophy of economics such as welfare, social choice, and the history of political economy. Sometimes the emphasis is primarily historical and sometimes on analysis of contemporary economic concepts and theories.

for credit. Students receive 1 point of academic credit for each completed term of physical education for a possible total of 4 points.

For more information on this requirement, please visit the Core Curriculum—Physical Education Requirement section of the bulletin.

**Medical Conditions**

Students who request to have their Physical Education activities limited or waived because of a medical condition should contact the Director of Undergraduate Studies for Physical Education. In some situations, students may require an evaluation by a clinician at Health Services at Columbia in order to receive a waiver. In consultation with the Director of Physical Education, students may be instructed to contact Dr. Melanie Bernitz, Senior Vice President for Columbia Health, who facilitates these evaluations.

**Grading**

The grading in all physical education courses is Pass/Fail. Students who fulfill the attendance and participation requirement receive a Pass. Those who miss more than the permissible number of classes and who do not drop the course by the official drop deadline receive a W (Withdrawal), UW (Unofficial Withdrawal), or F (Fail). Those who anticipate attendance problems should contact their instructors or the Director of Undergraduate Studies for Physical Education.

**Swim Test**

All students are also required to pass a swimming test or take beginning swimming for one term to fulfill the swimming requirement. A waiver of the swimming test requirement may be granted if a student has a disability certified by a medical authority that precludes swimming. Students may also request waivers and accommodations on the grounds of religious observance or gender identity/expression. All requests for waivers and accommodations are reviewed by the Director of Physical Education.

**Intercollegiate Athletics**

Students who are participating on an intercollegiate team should register for the appropriate team section of PHED UN1005 INTERCOLLEGIATE ATHLETICS. Intercollegiate athletes are responsible for taking the swimming test. Student-athletes who cannot pass the test should take beginner swimming at the first possible opportunity.

Student-athletes who register correctly and participate on a team receive a Pass; those who drop off a team in midterm and still wish to receive academic credit must notify the Physical Education Office and be placed in an activity to complete the attendance requirement. Otherwise, the student must officially drop Intercollegiate Athletics or they receive a mark of W (Withdrawal).
PHED UN1001 PHYSICAL EDUCATION ACTIVITIES.

*1.00 point.*

The times listed in the on-line Directory of Classes are the actual class times for each time preference. A description of the scheduled activities for each time preference is posted on the department Web site, perec.columbia.edu

### PHED 1001 PHYSICAL EDUCATION ACTIVITIES.

**1.00 point.**

The required Physical Education program offers a variety of activities in the areas of strength training, dance, cardio fitness, martial arts, individual and dual sports, team sports, and outdoor education. It is our goal that the experiences provided by these activities will contribute to the development of an active, healthy lifestyle.

</table>
The physics major offers a rigorous preparation in the intellectual developments of modern physics, along with extensive exposure to the mathematical and experimental techniques required to conduct basic and applied research in physics.

For the major, the department offers a set of required courses well-suited to prepare students for the most rigorous course of graduate study. These can be supplemented by elective courses in a variety of advanced topics. Although most majors go on to graduate work in physics, the intellectual skills acquired in the study of physics can also provide the basis for work in a variety of other scientific and nonscientific areas.

The physics concentration is for students who are interested in physics but are uncertain about graduate study in physics; for those who want to explore other subjects along with physics; for those who want to find a physics- or technology-related job after graduation; or for those who are considering a professional school such as law or medicine. The department helps concentrators custom design programs to ensure maximum flexibility in meeting students’ intellectual needs and career goals. With appropriate selection of courses, the concentrator can explore other subjects yet maintain the option of graduate study in physics.

Research is an extremely important component of the Columbia physics experience. Because the department has a very small student-to-faculty ratio, essentially all physics majors and concentrators engage in experimental, computational, or theoretical research under the close supervision of a faculty member during part, if not all, of their time at Columbia.
REGISTRATION FOR
INTRODUCTORY COURSES

The department offers a stand-alone one-semester course for nonscience majors, one introductory sequence in physics intended primarily for preprofessional students, and three introductory sequences in physics for engineering and physical science majors. Students are given credit for courses from only one of the different sequence groups.

Mixing courses across the sequences is strongly discouraged; however, physics majors who begin their studies with PHYS UN1401 INTRO TO MECHANICS # THERMO - PHYS UN1402 INTRO ELEC/MAGNETSM # OPTCS should take PHYS UN2601 PHYSICS III:CLASS/QUANTUM WAVE as the third-semester course.

Introductory Sequences

Non-science Majors:
PHYS UN1001 PHYSICS FOR POETS

Preprofessional Students:
PHYS UN1201 - PHYS UN1202 GENERAL PHYSICS I and GENERAL PHYSICS II

Accompanying laboratory course:
PHYS UN1291 - PHYS UN1292 GENERAL PHYSICS I LAB and GENERAL PHYSICS II LABORATORY

Engineering and Physical Science Majors:
Select one of the following sequences with accompanying laboratory course:

Sequence A:
PHYS UN1401 - PHYS UN1402 INTRO TO MECHANICS # THERMO - PHYS UN1403 INTRO ELEC/MAGNETSM # OPTCS - INTRO-CLASSCL # QUANTUM WAVES

Sequence B:
PHYS UN1601 - PHYS UN1602 PHYSICS I:MECHANICS/RELATIVITY - PHYS UN1603 PHYSICS II: THERMO, ELEC # MAG - PHYSICS III:CLASS/QUANTUM WAVE

Sequence C:
PHYS UN2801 - PHYS UN2802 ACCELERATED PHYSICS I and ACCELERATED PHYSICS II

Sequence A is a self-contained group of three courses, while Sequences B and C anticipate more course work in the Physics Department. Students considering a physics major are strongly encouraged to begin one of these sequences in their first year.

LABORATORY

Many of the introductory courses include a laboratory, as indicated. A $75 per term laboratory fee is charged for all 1000-level and 2000-level laboratories.

ADVANCED PLACEMENT

Students may earn a maximum of 6 credits in physics. The department grants 6 credits for a score of 4 or 5 on the AP Physics B exam, but the student is not entitled to any exemptions. The amount of credit is reduced to 3 if the student takes a 1000-level physics course.

The department grants 3 credits for a score of 4 or 5 on the AP Physics C/MECH exam, but the student is not entitled to any exemptions. The amount of credit is reduced to 0 if the student takes PHYS UN1001, PHYS UN1201, PHYS UN1401 or PHYS UN1601.

The department grants 3 credits for a score of 4 or 5 on the AP Physics C/E&M exam, but the student is not entitled to any exemptions. The amount of credit is reduced to 0 if the student takes PHYS UN1001, PHYS UN1202, PHYS UN1402 or PHYS UN1602.

Grading
A grade of C- or better must be obtained for a course to count toward the majors or the concentration. The grade of P is not acceptable, but a course that was taken P/D/F may be counted if and only if the P is uncovered by the Registrar’s deadline.

Major in Physics
Physics Courses
The major in physics requires a minimum of 41 points in physics courses, including:

Introductory Sequences
Select one of the following sequences:

Core Physics Courses

| PHYS UN3003 | MECHANICS |
| PHYS UN3007 | ELECTRICITY-MAGNETISM |
| PHYS UN3008 | ELECTROMAGNETIC WAVES # OPTICS |
| PHYS GU4021 | QUANTUM MECHANICS I |
| PHYS GU4022 | QUANTUM MECHANICS II |
| PHYS GU4023 | THERMAL # STATISTICAL PHYSICS |

Elective Courses
Select at least six points of the following courses:

| PHYS UN3002 | From Quarks To the Cosmos: Applications of Modern Physics |
| PHYS GU4003 | ADVANCED MECHANICS |
| PHYS GU4011 | PARTICLE ASTROPHYS # COSMOLOGY |
| PHYS GU4018 | SOLID STATE PHYSICS |
| PHYS GU4019 | MATHEMATICAL METHODS OF PHYSICS |
| PHYS GU4040 | INTRO TO GENERAL RELATIVITY |
PHYS GU4050  Introduction to Particle Physics
With the permission of the Director of Undergraduate Studies, 4000- or 6000-level courses offered in this or other science departments

Laboratory Work at the Intermediate Level *
Select one of the following options:
Option 1:
- PHYS UN3081  INTERMEDIATE LABORATORY WORK (two semesters)
- PHYS UN3083  ELECTRONICS LABORATORY
Option 2:
- PHYS UN3081  INTERMEDIATE LABORATORY WORK (three semesters)

Senior Seminar
- PHYS UN3072  SEM IN CURRENT RES. PROBLEMS

* Approved experimental work with a faculty research group may satisfy one semester of the laboratory requirement.

Mathematics Courses
Calculus through MATH UN1202 CALCULUS IV or MATH UN1208 HONORS MATHEMATICS B; and MATH UN3027 Ordinary Differential Equations or the equivalent.

Recommended cognate courses: MATH UN2010 LINEAR ALGEBRA, MATH UN3007 COMPLEX VARIABLES, and MATH UN3028 PARTIAL DIFFERENTIAL EQUATIONS.

CONCENTRATION IN PHYSICS
The concentration in physics requires a minimum of 24 points in physics, including one of the introductory sequences.

INTERDISCIPLINARY MAJOR
It is also possible to major in astrophysics, biophysics, and chemical physics. Students interested in these areas should consult with the director of undergraduate studies and with cognate departments (astronomy, biological sciences, chemistry).

For astrophysics requirements please see:
http://bulletin.columbia.edu/columbia-college/departments-instruction/astronomy/#requirementstext

For biophysics requirements please see:
http://bulletin.columbia.edu/columbia-college/departments-instruction/biological-sciences/#requirementstext

For chemical physics requirements please see:
http://bulletin.columbia.edu/columbia-college/departments-instruction/chemistry/#requirementstext

PHYS UN1001 PHYSICS FOR POETS. 3.00 points.
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: high school algebra.
Prerequisites: high school algebra. This course does not fulfill the physics requirement for admission to medical school. No previous background in physics is expected. An introduction to physics taught through the exploration of the scientific method, and the application of physical principles to a wide range of topics from quantum mechanics to cosmology

Spring 2023: PHYS UN1001
Course Number  Section/Call Number  Times/Location  Instructor  Points  Enrollment
PHYS 1001  001/133572  M W 2:40pm - 3:55pm  301 Pupin Laboratories  Szabolcs Marka  3.00 121/160

PHYS UN1018 WEAPONS OF MASS DESTRUCTION. 3.00 points.
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: high school science and math.
Prerequisites: high school science and math. A review of the history and environmental consequences of nuclear, chemical, and biological weapons of mass destruction (WMD); of how these weapons work, what they cost, how they have spread, how they might be used, how they are currently controlled by international treaties and domestic legislation, and what issues of policy and technology arise in current debates on WMD. What aspects of the manufacture of WMD are easily addressed, and what aspects are technically challenging? It may be expected that current events/headlines will be discussed in class

Spring 2023: PHYS UN1018
Course Number  Section/Call Number  Times/Location  Instructor  Points  Enrollment
PHYS 1018  001/133580  T Th 2:40pm - 3:55pm  428 Pupin Laboratories  Szabolcs Marka  3.00 62/130

PHYS UN1111 ORIGINS AND MEANING. 3.00 points.
This course is a one-semester journey across cosmological history, from the beginning of time to something akin to its end. We will explore the origin of inanimate physical structures (the cosmos as a whole, as well as that of galaxies, stars, planets, particles, atoms and complex molecules), the origin of life (replicating molecules, the first cells, as well as more complex life forms), the origin of mind (self-reflective conscious awareness) and the origin of culture (language, myth, religion, art, and science). We will then consider what science in particular tells us about the very far future, where we will encounter the likely demise of all complex matter, all life and all consciousness. In the face of such disintegration we will examine the nature of value and purpose. We will recognize that the deepest understanding of reality emerges from blending
all of the accounts we discuss—from the reductionist to the humanist to the cosmological—and only through such amalgamation can we fully grasp the long-standing human search for meaning.

**PHYS UN1201 GENERAL PHYSICS I. 3.00 points.**  
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: some basic background in calculus or be concurrently enrolled in MATH UN1101 Calculus I. The accompanying laboratory is PHYS UN1291-UN1292. The course will use elementary concepts from calculus. The accompanying laboratory is PHYS UN1291 - UN1292. Basic introduction to the study of mechanics, fluids, thermodynamics, electricity, magnetism, optics, special relativity, quantum mechanics, atomic physics, and nuclear physics.

intermediate laboratory, PHYS UN3081, in the following year;
however, students are encouraged to take the
work in physics and related fields. There is no accompanying
and mathematics. The course is preparatory for advanced
programs in these fields are used as practical examples. The
course is preparatory for advanced work in physics and related
fields.

**PHYS UN2699 Experiments in Classical and Modern Physics. 3 points.**
CC/GS: Partial Fulfillment of Science Requirement
Prerequisites: (PHYS UN1601 or PHYS UN1401) and (PHYS UN1602 or PHYS UN1402) and PHYS UN2601 PHYS W1601 (or W1401), W1602 (or W1402), and W2601.
Laboratory work associated with the three prerequisite lecture courses. Experiments in mechanics, thermodynamics, electricity, magnetism, optics, wave motion, atomic physics, and nuclear physics.

**PHYS UN2801 ACCELERATED PHYSICS I. 4.50 points.**
Prerequisites: Advanced Placement in physics and mathematics, or the equivalent, and the instructor's permission. (A special placement meeting is held during Orientation.)
Prerequisites: Advanced Placement in physics and mathematics, or the equivalent, and the instructor's permission. (A special placement meeting is held during Orientation.) This accelerated two-semester sequence covers the subject matter of PHYS UN1601, PHYS UN1602 and PHYS UN2601, and is intended for those students who have an exceptionally strong background in both physics and mathematics. The course is preparatory for advanced work in physics and related fields. There is no accompanying laboratory; however, students are encouraged to take the intermediate laboratory, PHYS UN3081, in the following year

Required discussion section for PHYS UN2802 Accelerated Physics II

**PHYS UN3002 From Quarks To the Cosmos: Applications of Modern Physics. 3.5 points.**
Not offered during 2022-23 academic year.

Prerequisites: PHYS UN2601 or PHYS UN2802
This course reinforces basic ideas of modern physics through applications to nuclear physics, high energy physics, astrophysics and cosmology. The ongoing Columbia research programs in these fields are used as practical examples. The course is preparatory for advanced work in physics and related fields.

**PHYS UN3003 MECHANICS. 3.00 points.**
Prerequisites: general physics, and differential and integral calculus.
Prerequisites: general physics, and differential and integral calculus. Newtonian mechanics, oscillations and resonance, conservative forces and potential energy, central forces, non-inertial frames of reference, rigid body motion, an introduction to Lagranges formulation of mechanics, coupled oscillators, and normal modes

**PHYS UN3008 ELECTROMAGNETIC WAVES # OPTICS. 3.00 points.**
Prerequisites: PHYS UN3008
Prerequisites: PHYS UN3008 Maxwells equations and electromagnetic potentials, the wave equation, propagation of plane waves, reflection and refraction, geometrical optics, transmission lines, wave guides, resonant cavities, radiation, interference of waves, and diffraction
PHYS UN3083 ELECTRONICS LABORATORY. 3.00 points.
Enrollment limited to the capacity of the laboratory.
Prerequisites: PHYS UN3003 or PHYS UN3007 May be taken before or concurrently with this course.
Prerequisites: PHYS UN3003 or PHYS UN3007 May be taken before or concurrently with this course. A sequence of experiments in solid-state electronics, with introductory lectures

PHYS UN3084 Quantum Simulation and Computing Lab. 3.00 points.
The “Quantum Simulation and Computing Lab” will give students hands-on experience in quantum optics, quantum simulation and quantum computing. The course combines lectures, tutorials, and two lab sections. In one lab section, students will do experiments with entangled photons. In the second lab section, students will program quantum computers and run algorithms on them using the IBM Qiskit platform. The course starts with a recap of linear algebra and quantum mechanics, followed by an introduction to quantum optics and quantum information. Two-level systems, Bloch sphere, quantum gates, and elementary quantum algorithms will be discussed. Quantum teleportation and quantum key distribution will be introduced as applications of entanglement. The lecture content will be directly applied in experiments with entangled photons. In the following, state-of-the-art quantum algorithms will be discussed, related to cutting-edge research results in quantum computing. This includes quantum Fourier transform, quantum simulation of the Schroedinger equation, and the variational quantum eigensolver (VQE) algorithm. During the course students will do one experimental project with entangled photons and one quantum programming project. Students will be guided to implement a quantum algorithm of their choice and run it on a quantum computer (IBM, IonQ, QuEra)

PHYS UN3500 SUPERVISED READINGS IN PHYSICS. 3.00 points.
Prerequisites: the written permission of the faculty member who agrees to act as supervisor, and the director of undergraduate studies permission. Readings in a selected field of physics under the supervision of a faculty member. Written reports and periodic conferences with the instructor
matter from particle physics; experimental searches of dark matter; motivation for existence of dark matter; tests of geometry of universe and expansion; observational evidence for dark matter; structure formation; dark energy; observational evidence for inflationary cosmology; microwave background; Walker line element; equation for expansion of universe; dimension theories.

Cosmology – Friedmann-Robertson-Walker, introduction to the Standard Model and supersymmetry/higher dimension theories.

UN3003 and PHYS UN3007. An introduction to the basics of particle astrophysics and cosmology.

Prerequisites: (PHYS UN1403 or PHYS UN2601 or PHYS UN2802) and (MATH UN1202 or MATH UN1208) students are recommended but not required to have taken PHYS UN3003 and PHYS UN3007.

Prerequisites: (PHYS UN1403 or PHYS UN2601 or PHYS UN2802) and (MATH UN1202 or MATH UN1208) students are recommended but not required to have taken PHYS UN3003 and PHYS UN3007. An introduction to the basics of particle astrophysics and cosmology. Particle physics - introduction to the Standard Model and supersymmetry/higher dimension theories; Cosmology – Friedmann-Robertson-Walker line element and equation for expansion of universe; time evolution of energy/matter density from the Big Bang; inflationary cosmology; microwave background theory and observation; structure formation; dark energy; observational tests of geometry of universe and expansion; observational evidence for dark matter; motivation for existence of dark matter from particle physics; experimental searches of dark energy phenomena (gamma-rays and cosmic-rays).
they enable novel applications in quantum optics and mechanics are applied to real physical systems, and how these concepts are interpreted using quantum mechanical models.

PHYS GU4021 QUANTUM MECHANICS I. 3.00 points.
Prerequisites: PHYS UN3003 and PHYS UN3007
Prerequisites: PHYS UN3003 and PHYS UN3007 Formulation of quantum mechanics in terms of state vectors and linear operators. Three dimensional spherically symmetric potentials. The theory of angular momentum and spin. Identical particles and the exclusion principle. Methods of approximation. Multi-electron atoms.

PHYS GU4022 QUANTUM MECHANICS II. 3.00 points.

PHYS GU4023 THERMAL & STATISTICAL PHYSICS. 3.00 points.
Prerequisites: PHYS GU4021 or the equivalent.
Prerequisites: PHYS GU4021 or the equivalent. Thermodynamics, kinetic theory, and methods of statistical mechanics; energy and entropy; Boltzmann, Fermi, and Bose distributions; ideal and real gases; blackbody radiation; chemical equilibrium; phase transitions; ferromagnetism.

PHYS GU4024 Applied Quantum Mechanics. 3 points.
Prerequisites: PHYS GU4021 and PHYS GU4022
In this course, we will learn how the concepts of quantum mechanics are applied to real physical systems, and how they enable novel applications in quantum optics and quantum information. We will start with microscopic, elementary quantum systems – electrons, atoms, and ions - and understand how light interacts with atoms. Equipped with these foundations, we will discuss fundamental quantum applications, such as atomic clocks, laser cooling and ultracold quantum gases - a synthetic form of matter, cooled down to just a sliver above absolute zero temperature. This leads us to manybody quantum systems. We will introduce the quantum physics of insulating and metallic behavior, superfluidity and quantum magnetism – and demonstrate how the corresponding concepts apply both to real condensed matter systems and ultracold quantum gases. The course will conclude with a discussion of the basics of quantum information science - bringing us to the forefront of today’s quantum applications.

PHYS GU4040 INTRO TO GENERAL RELATIVITY. 3.00 points.
Prerequisites: PHYS UN3003 and PHYS UN3007 or the equivalent.
Prerequisites: PHYS UN3003 and PHYS UN3007 or the equivalent. Tensor algebra, tensor analysis, introduction to Riemann geometry. Motion of particles, fluid, and fields in curved spacetime. Einstein equation. Schwarzschild solution; test-particle orbits and light bending. Introduction to black holes, gravitational waves, and cosmological models.

PHYS GU4050 Introduction to Particle Physics. 3.00 points.
Prerequisites: PHYS UN2601 or PHYS UN2802 or the equivalent.
Prerequisites: PHYS UN2601 or PHYS UN2802 or the equivalent. This course covers the Standard Model of Particle Physics, including its conception, successes, and limitations, with the goal of introducing upper-level physics majors to the foundations and current status of particle physics as a field of research. Specific topics to be covered include: historical introduction and review of the Standard Model; particle interactions and particle dynamics; relativistic kinematics; Feynman calculus, quantum electrodynamics, quantum chromodynamics, and weak interactions; electroweak unification and the Higgs mechanism; neutrino oscillations; and beyond-standard model physics and evidence. Along the way, students will research special topics and familiarize themselves with particle physics research.

PHYS GU4051 ADVANCED LABORATORY WORK. 2.00 points.
Prerequisites: the instructors permission. The laboratory has 13 available individual experiments, of which two are required per 2 points. Each experiment requires two (four-hour) laboratory sessions. Registration is limited by the laboratory capacity. May be repeated for credit with different experiment selection.
Experiments (classical and modern) cover topics in electricity, magnetism, optics, atomic physics, and nuclear physics

**PHYS GU4998 SUPERVISED READINGS. 3.00 points.**

## Political Science

**Departmental Office:** 710 International Affairs Building; 212-854-3707
http://www.polisci.columbia.edu

**Director of Undergraduate Studies:**
Prof. Robert Shapiro, 730 International Affairs Building; 212-854-3955; rys3@columbia.edu

**Economics-Political Science Advisers:**
*Economics:* Prof. Susan Elmes, Director of Undergraduate Studies, 1006 International Affairs Building; se5@columbia.edu

*Political Science:* Prof. Carlo Prato, 718 International Affairs Building; 212-854-7540; cp2928@columbia.edu

**Political Science-Statistics Advisers:**
*Political Science:* Prof. Naoki Egami, 734 International Affairs Building; 212-854-3623; naoki.egami@columbia.edu

*Statistics:* Prof. Ronald Neath, 612 West 115th Street, Room 612; 212-853-1398; rcn2112@columbia.edu

*Statistics:* Prof. Gabriel Young, 612 West 115th Street, Room 614; 212-853-1395; gjy2107@columbia.edu

The discipline of political science focuses on issues of power and governance and, in particular, on political institutions, both formal and informal. It also focuses on political behavior, political processes, political economy, and state-society relations.

The field consists of four substantive subfields: American politics, which covers such topics as national and local politics, elections, and constitutional law; comparative politics, which aims at understanding the political systems of other countries, both by studying individual states and by engaging in cross-national comparisons; international relations, which deals with the ways that states and other political actors behave in the international arena, including such topics as security, foreign policies, international organizations, and international economic relations; and political theory, which analyzes the history of normative political thought as well as of analytic concepts such as the nature of justice or liberty.

Other broad topics, such as “political economy,” or the study of the relationships between economic and political processes, overlap with the subfields, but also constitute a separate program (see below). Methodology, including statistical analysis and formal modeling, also occupies an important place in the discipline.

**ADVANCED PLACEMENT**

The department grants credit toward the major for work completed under the College Entrance Examination Board (CEEB) Advanced Placement Program. Students receive 3 academic credits and exemption from POLS UN1201 INTRO TO AMERICAN POLITICS or POLS UN1501 INTRO TO COMPARATIVE POLITICS for scores of 5 in the United States and Comparative Government and Politics AP Exams.

**ADvising**

The Department of Political Science offers a variety of advising resources to provide undergraduate majors and concentrators with the information and support needed to successfully navigate through the program. These resources are described below.

### Undergraduate Advising Office

Students should take questions or concerns about the undergraduate program to the department's undergraduate advising office first. If advisers cannot answer a student's question, they then refer the student to the appropriate person.

The undergraduate advising office is staffed by political science Ph.D. students who hold open office hours each week (the schedule can be found online at [https://polisci.columbia.edu/content/undergraduate-advising](https://polisci.columbia.edu/content/undergraduate-advising)). During open hours, advisers are available to respond to questions and concerns about requirements, course selection, course of study, transfer and study abroad credit, and any other aspect of the program. Students may also reach advisers by email at polisciadvising@columbia.edu.

Students should also consult the undergraduate advisers for assistance in completing the political science program planning form (available online at [https://polisci.columbia.edu/content/undergraduate-forms-library](https://polisci.columbia.edu/content/undergraduate-forms-library)). The advisers must sign and date this form in the approval column next to any listed class that requires approval to fulfill program requirements (transfer courses, non-traditional courses, etc.). Each student's planning form is kept on file in the department, so that each semester they may meet with an adviser to update it.

The advisers are also available to speak with students about academic and professional issues, including research interests, internships, and post-college plans. Since the advisers have been through the graduate school application process, they are great resources with whom students may discuss the process. Also, as current Ph.D. students in the department, they are familiar with the research interests of political science faculty and can therefore refer students to a professor whose research aligns with the students' interests for focused thesis advice, information about academic, professional, and research opportunities, or professional development.
Requesting a Faculty Adviser

Often the best way for students to obtain advising from a faculty member is to contact a professor with whom they have taken a class in an area of interest. Students also have the option of having a faculty adviser assigned by the department. To request a faculty adviser, students should complete the Faculty Adviser Request Form and submit it to the undergraduate coordinator during the first two weeks of the semester. The link to the current adviser request form may be found in the undergraduate forms library on the department website.

Students may consult with their faculty adviser for any substantive issue, but still must visit walk-in advising hours to have courses approved, to have planning forms reviewed and approved, and to discuss departmental requirements and regulations.

Director of Undergraduate Studies

The director of undergraduate studies oversees the department’s undergraduate programs and is available during office hours. While a student’s first stop for advising should be the undergraduate advising office, the director of undergraduate studies is available to answer any questions that the undergraduate advisers or the undergraduate coordinator cannot.

Economics–Political Science Adviser

Economics–political science majors may consult with the economics-political science adviser during office hours. However, students should also see an undergraduate adviser to discuss major requirements and fill out a planning form.

Political Science–Statistics Adviser

Political science–statistics majors may consult with the political science-statistics adviser during office hours. However, students should also see an undergraduate adviser to discuss major requirements and fill out a planning form.

Faculty At-Large

All faculty are available for consultation with students during office hours or by appointment to discuss interests in political science, course selection, and other academic or post-college matters. The faculty may provide advice about graduate schools, suggest literature that the student might consult as sources for research, recommend specific courses or professors based on the student’s interests, or offer information about research opportunities with faculty. However, students should note that any issues surrounding departmental regulations and requirements, major certification, course approvals, etc., should be addressed initially with the undergraduate advisers.

HONORS PROGRAM

The department offers the Honors Program for a limited number of seniors who want to undertake substantial research projects and write honors theses. The honors thesis is expected to be about 75 pages in length and of exceptional quality.

Honors students perform research as part of a full-year honors seminar (POLS UN3998-POLS UN3999, 8 points total) during their senior year, in place of the seminar requirement for majors. Honors students may, however, take additional seminars to fulfill other course requirements for the major. Theses are due in late March or early April. To be awarded departmental honors, the student must satisfy all the requirements for the major, maintain a 3.6 GPA in the major, and complete a thesis of sufficiently high quality to merit honors.

The honors seminar director provides general direction for the seminar and supervises all students. Each student also works with a faculty member in his or her major subfield (American politics, comparative politics, international relations, or political theory) and a teaching assistant. The honors seminar meets weekly for part of the year and addresses general issues involved in research and thesis writing, such as how to develop research questions and projects, methodology, sources of evidence, and outlining and drafting long papers. The sessions are also used for group discussions of students’ research and thesis presentations. Students are also expected to meet periodically with the supervising professor and preceptor.

Students who wish to apply to the Honors Program must notify the department in writing by the end of the spring semester of the junior year. Please check the department website for the official deadline. Normally no more than 10% of graduating majors receive departmental honors in a given academic year. Applicants are required to have already completed the methods requirement for the major.

Application Materials

Applications to the Honors Program must include the following:

1. A cover page with the student’s name, CUID number, e-mail address, and school (Columbia College or General Studies);
2. An official transcript, which may be obtained from the Office of the Registrar in Kent Hall, or from Student Services Online (SSOL);
3. A writing sample, preferably a paper written for a political science course;
4. A brief description (no more than one page) of a possible thesis topic.

Completed applications should be sent to:

Department of Political Science
Attn: Departmental Honors
420 West 118th Street
Mail Code 3320
New York, NY 10027
In addition, students are encouraged to find a faculty sponsor for their thesis proposal. Students who have identified a faculty sponsor should indicate the sponsor in the proposal; students without a faculty sponsor should identify a faculty member with whom they would like to work. Research areas for the political science department faculty are listed on the department's website. Students will be notified by e-mail of the decision taken on their applications before fall registration.

Students who are not accepted into the honors seminar or who decide after the application deadline that they would like to write an honors thesis may take one or two semesters POLS UN3901 INDEPENDENT RESEARCH I and POLS UN3902 INDEPENDENT RESEARCH II in order to write a thesis to submit for honors consideration. Any member of the department’s full-time faculty may sponsor independent study courses. Part-time faculty are not obligated to sponsor these courses.

For registration information and more details about this process, students should contact the Academic Affairs Coordinator. Note that most honors theses are about 75 pages in length. All theses must be submitted along with a confidential assessment of the paper by the supervising instructor in order to be considered for departmental honors. Students who choose this path must also complete all the requirements for the major and maintain a minimum major GPA of 3.6. Theses are due in late March or early April, and decisions about departmental honors are announced in May.

**DEPARTMENTAL PRIZES AND FELLOWSHIPS**

The Department of Political Science administers the following prizes and awards. Unless otherwise noted, students do not play an active part in the nomination process. Rather, faculty members nominate students at their own discretion. Departmental prizes are reserved for political science majors.

**Charles A. Beard Prize**

A cash prize awarded every other year to the student who writes the best paper in political science during the academic year.

**Caroline Phelps Stokes Prize**

A cash prize established at the bequest of Caroline Phelps Stokes is awarded to a student who has been a degree candidate at Columbia College or Barnard College for at least one academic year, and who has written the best essay in course or seminar work on the general subject of human rights.

**Allan J. Willen Memorial Prize**

A cash prize awarded to the Columbia College student who writes the best seminar paper on a contemporary American political problem.

**Edwin Robbins Academic Research/Public Service Fellowship**

The Robbins Fellowship provides a stipend each summer for at least two political science students in Columbia College who will be engaged in research in important matters of politics or policymaking or who will be working, without other compensation, as interns in a governmental office, agency, or other public service organization. Each spring, the department invites students to submit fellowship proposals. Awards are announced in late April or early May.

**The Arthur Ross Foundation Award**

A cash prize awarded to GS students for excellence in the field of political science.

**Phyllis Stevens Sharp Fellowship in American Politics**

The Phyllis Stevens Sharp Endowment Fund provides stipends each year during the summer for one or more Columbia College or School of General Studies students majoring or concentrating in political science to support research in American politics or policy making, or otherwise uncompensated internships in a government office, agency, or other public service organization. Each spring, the department invites students to submit fellowship proposals. Awards are announced in late April or early May.

**EARLY ADMISSION TO THE MASTER’S DEGREE PROGRAM IN POLITICAL SCIENCE FOR COLUMBIA AND BARNARD POLITICAL SCIENCE UNDERGRADUATES**

While the Department of Political Science does not offer a joint bachelor of arts/master’s degree, it does allow Columbia and Barnard undergraduates to apply for early admission to its master’s degree program.

Students should apply during the fall semester of their senior year for admission to the M.A. program in the following fall semester, after completion of the B.A. degree. The department and the Graduate School of Arts and Sciences may award up to one-half residence unit of advanced standing and/or up to three courses (nine to twelve credits) of transfer credit for graduate courses (4000-level and above) taken at Columbia in excess of the requirements for the Columbia bachelor’s degree, as certified by the dean of the undergraduate school awarding the bachelor’s degree.

For further information about the application process and minimum qualifications for early admission, please contact the director of undergraduate studies.
For further information about requirements for the M.A. degree, see https://gsas.columbia.edu/degree-programs/ma-programs/political-science.

GUIDELINES FOR ALL POLITICAL SCIENCE MAJORS, CONCENTRATORS, AND INTERDEPARTMENTAL MAJORS
Planning Forms
Major Planning forms are available on the department website.

Policy on Double-Counting Courses
• Policies about double-counting courses to fulfill requirements in more than one major may be found here:
  • Columbia College
  • School of General Studies
• Courses in the Core Curriculum do not fulfill requirements for the Political Science major.

Policy on Counting Credits outside the Department of Political Science
• Courses taken at other institutions or other Columbia departments may not be used to meet the requirement of a major or concentration in political science without the approval of the Director of Undergraduate Studies or the
department’s undergraduate adviser. Students should secure such approval in advance of registration.

Pass/D/Fail and Grading Policy

• A grade of “Pass” is acceptable only for the first course taken toward the major or concentration.
• The course used to fulfill the research methods requirement cannot be taken Pass/D/Fail.
• Students must receive a grade of at least C- in order for a course to count towards the major or concentration.

AP Credit Policy

• Students who receive transfer credit for one or more AP exams in political science may count a maximum of one AP course toward the major or concentration, contingent upon completing an upper-level (3000 or higher) course with a grade of C or higher in the subfield in which the AP exam was taken. All transfer credits must be approved by the Director of Undergraduate Studies or the undergraduate adviser (polisciadvising@columbia.edu).

Transfer Credit Policy

• For the political science major, a maximum of three courses in political science may be transferred from other institutions, including study abroad and AP credit. For the political science concentration as well as the economics-political science and political science-statistics interdisciplinary majors, a maximum of two courses in political science may be transferred from other institutions.

All transfer credits must be approved in writing by the Director of Undergraduate Studies or the undergraduate adviser (polisciadvising@columbia.edu).

• Students wishing to count transfer credits toward the major or concentration should send the undergraduate adviser (polisciadvising@columbia.edu) their transfer credit report, the syllabi of the courses they want to count toward departmental requirements, and a statement of how they want to apply the transfer credits to the requirements.

Independent Study Policy

• Independent Study (POL UN3901 INDEPENDENT RESEARCH I in the fall or POL UN3902 INDEPENDENT RESEARCH II in the spring) taken in fulfillment of course requirements for the major/concentration must be taken for at least 3 points of credit.

Course Requirements

Students must choose a Primary Subfield and a Secondary Subfield to study. The subfields are as follows:

• American Politics (AP)
• Comparative Politics (CP)
• International Relations (IR)
• Political Theory (PT)

The major in political science requires a minimum of 9 courses in political science, to be distributed as follows:

Introductory Courses

Students must take two of the following introductory courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>POLS UN1201</td>
<td>INTRO TO AMERICAN POLITICS</td>
</tr>
<tr>
<td>POLS UN1501</td>
<td>INTRO TO COMPARATIVE POLITICS</td>
</tr>
<tr>
<td>POLS UN1601</td>
<td>INTERNATIONAL POLITICS</td>
</tr>
<tr>
<td>POLS UN1101</td>
<td>POLITICAL THEORY I</td>
</tr>
</tbody>
</table>

NOTE: Introductory courses taken that do not fit into the Primary or Secondary Subfield will be counted in the Political Science Elective category.

Primary Subfield

Minimum three courses.

Minor Subfield

Minimum two courses.

Seminars

Two 4-point 3000-level seminars, at least one of which is in the student’s Primary Subfield.

(See "Seminars" section below for more information)

Research Methods *

Minimum one course in research methods. Courses that satisfy the research methods requirement are:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>POLS UN3220</td>
<td>LOGIC OF COLLECTIVE CHOICE</td>
</tr>
<tr>
<td>POLS UN3704</td>
<td>RESEARCH DESIGN: DATA ANALYSIS</td>
</tr>
<tr>
<td>POLS UN3720</td>
<td>RESEARCH DESIGN: SCOPE AND METHODS</td>
</tr>
<tr>
<td>POLS UN3706</td>
<td>EMPIRICAL RESEARCH METHODS IN POLITICAL SCIENCE</td>
</tr>
<tr>
<td>POLS UN3768</td>
<td>Experimental Research</td>
</tr>
<tr>

<td>PRINC OF QUANT POL RESEARCH 1</td>
</tr>
<tr>
<td>POLS GU4712</td>
<td>PRINC OF QUANT POL RESEARCH 2</td>
</tr>
<tr>
<td>POLS GU4720</td>
<td>QUANT METH 1 APPL REG CAUS INF</td>
</tr>
<tr>
<td>POLS GU4722</td>
<td>QUANT METH 2 STAT THEO# CAUS INF</td>
</tr>
</tbody>
</table>
POLS GU4724 QUANT METH 3
EXPERIMENTAL METH

POLS GU4762 Politics in the Lab

POLS GU4764 Design and Analysis of Sample Surveys

POLS GU4790 Advanced Topics in Quantitative Research

POLS GU4792 Quantitative Methods: Research Topics

**Political Science Electives**
Minimum one course (in any subfield).

* A student may take another course inside or outside the department that provides relevant training in research methods to satisfy this requirement only with the written permission in advance of the Director of Undergraduate Studies or the department's undergraduate adviser. If a course outside the political science department is used to satisfy the research methods requirement, this same course cannot be used toward other majors/concentrations or programs.

**Seminars**
Students are expected to take two 3000-level 4-point seminars. They may choose from among the seminars offered, though at least one of the seminars taken must be in the student’s Primary Subfield (that in which at least 9 other points have been completed). Entry into seminars requires the instructor’s permission.

For detailed seminar registration guidelines, see the department website. Seminars cannot be taken for R credit or Pass/D/Fail.

Barnard colloquia are open to students with the permission of the instructor. However, Barnard colloquia may not be used to fulfill the seminar requirement, though they may be used to fulfill subfield or elective requirements. Note that admission to Barnard colloquia is by application to the Barnard Political Science Department only. Please consult with the Barnard Political Science Department for more information.

**Recommended Courses**
In addition to political science courses, students are strongly advised, but not required, to take six points in a related social science field.

**Major in Economics-Political Science**
The major in economics-political science is an interdisciplinary major that introduces students to the methodologies of economics and political science and stresses areas of particular concern to both. This program is particularly beneficial to students planning to do graduate work in schools of public policy and international affairs.

Two advisers are assigned for the interdepartmental major, one in the Department of Economics and one in the Department of Political Science. Please note that the economics adviser can only advise on economics requirements and the political science adviser can only advise on political science requirements.

**Course Requirements**
For the political science part of the major, students must choose a Primary Subfield and a Secondary Subfield to study. The corresponding introductory courses in both subfields must be taken, plus two electives in the Primary Subfield and one in the Secondary Subfield. The subfields are as follows:

- American Politics (AP)
- Comparative Politics (CP)
- International Relations (IR)
- Political Theory (PT)

The economics–political science major requires a total of 59 points: 22 points in economics, 17 points in political science, 6 points in mathematics, 6 points in statistical methods, 4 points in a political science seminar, and 4 points in the interdisciplinary seminar as follows:

**Core Requirements in Economics**
Students must take all of the following core economics courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON UN1105</td>
<td>PRINCIPLES OF ECONOMICS</td>
</tr>
<tr>
<td>ECON UN3211</td>
<td>INTERMEDIATE MICROECONOMICS</td>
</tr>
<tr>
<td>ECON UN3213</td>
<td>INTERMEDIATE MACROECONOMICS</td>
</tr>
</tbody>
</table>
| ECON UN3412 | INTRODUCTION TO ECONOMETRICS

or POLS GU4712 PRINC OF QUANT POL RESEARCH 2

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON GU4370</td>
<td>POLITICAL ECONOMY</td>
</tr>
</tbody>
</table>

**Core Requirements in Mathematics and Statistics**
Students must take all of the following core mathematics and statistics courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH UN1101</td>
<td>CALCULUS I</td>
</tr>
<tr>
<td>MATH UN1201</td>
<td>CALCULUS III</td>
</tr>
<tr>
<td>STAT UN1201</td>
<td>CALC-BASED INTRO TO STATISTICS</td>
</tr>
</tbody>
</table>

**Economics Electives**
Students must take two electives at the 3000 level or higher in the Department of Economics.

**Political Science Courses**
Students must choose a Primary Subfield and a Secondary Subfield to study. The subfields are as follows: American Politics (AP), Comparative Politics (CP), International Relations (IR), and Political Theory (PT).

- **Primary Subfield**: Minimum three courses, one of which must be the subfield’s introductory course.
- **Secondary Subfield**: Minimum two courses, one of which must be the subfield’s introductory course.

**Seminars**
Political Science

Students must take the following two seminars:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECPS GU4921</td>
<td>SEMINAR IN POLITICAL ECONOMICS</td>
</tr>
</tbody>
</table>

and a Political Science Department seminar, in the student's Primary Subfield. Please select one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>POLS UN3911</td>
<td>SEMINAR IN POLITICAL THEORY</td>
</tr>
<tr>
<td>POLS UN3921</td>
<td>AMERICAN POLITICS SEMINAR</td>
</tr>
<tr>
<td>POLS UN3951</td>
<td>COMPARATIVE POLITICS SEMINAR</td>
</tr>
<tr>
<td>POLS UN3961</td>
<td>INTERNATIONAL POLITICS SEMINAR</td>
</tr>
</tbody>
</table>

* Students who wish to count toward the political science seminar requirement a course that is not in the above list of approved seminars must obtain permission from the political science Director of Undergraduate studies. Barnard colloquia may not be used to fulfill the seminar requirement. Note that admission to Barnard colloquia is by application to the Barnard political science department only.

**MAJOR IN POLITICAL SCIENCE–STATISTICS**

The interdepartmental major of political science–statistics is designed for students who desire an understanding of political science to pursue advanced study in this field and who also wish to have at their command a broad range of sophisticated statistical tools to analyze data related to social science and public policy research.

Students should be aware of the rules regarding the use of the Pass/D/Fail option. Courses in which a grade of D has been received do not count toward the major requirements.

Political science–statistics students are eligible for all prizes reserved for political science majors.

The political science–statistics major requires a minimum of 15 courses in political science, statistics, and mathematics, to be distributed as follows:

**POLITICAL SCIENCE**

*Primary Subfield*

-Students must choose a Primary Subfield to study. Within the subfield, students must take a minimum of three courses, including the subfield's introductory course. The subfields and their corresponding introductory courses are as follows:

<table>
<thead>
<tr>
<th>Subfield</th>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>American Politics</td>
<td>POLS UN1201</td>
<td>INTRO TO AMERICAN POLITICS</td>
</tr>
<tr>
<td>Comparative Politics</td>
<td>POLS UN1501</td>
<td>INTRO TO COMPARATIVE POLITICS</td>
</tr>
<tr>
<td>International Relations</td>
<td>POLS UN1601</td>
<td>INTERNATIONAL POLITICS</td>
</tr>
</tbody>
</table>

**Research Methods**

-Students must take the following two research methods courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>POLS GU4710</td>
<td>PRINC OF QUANT POL RESEARCH 1</td>
</tr>
<tr>
<td>or POLS UN3704</td>
<td>RESEARCH DESIGN: DATA ANALYSIS</td>
</tr>
<tr>
<td>POLS GU4712</td>
<td>PRINC OF QUANT POL RESEARCH 2</td>
</tr>
</tbody>
</table>

**STATISTICS**

-Students must take one of the following sequences:

**Sequence A** — recommended for students preparing for graduate study in statistics

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH UN1101</td>
<td>CALCULUS I</td>
</tr>
<tr>
<td>MATH UN1102</td>
<td>CALCULUS II</td>
</tr>
<tr>
<td>MATH UN2010</td>
<td>LINEAR ALGEBRA</td>
</tr>
<tr>
<td>STAT UN1201</td>
<td>CALC-BASED INTRO TO STATISTICS</td>
</tr>
<tr>
<td>STAT GU4203</td>
<td>PROBABILITY THEORY</td>
</tr>
<tr>
<td>STAT GU4204</td>
<td>STATISTICAL INference</td>
</tr>
<tr>
<td>STAT GU4205</td>
<td>LINEAR REGRESSION MODELS</td>
</tr>
<tr>
<td>STAT GU4206</td>
<td>STAT COMP # INTRO DATA SCIENCE</td>
</tr>
</tbody>
</table>

**Sequence B** — recommended for students preparing to apply statistical methods to other fields

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT UN1101</td>
<td>INTRODUCTION TO STATISTICS</td>
</tr>
<tr>
<td>STAT UN2102</td>
<td>Applied Statistical Computing</td>
</tr>
<tr>
<td>STAT UN2103</td>
<td>APPLIED LINEAR REG ANALYSIS</td>
</tr>
<tr>
<td>STAT UN2104</td>
<td>APL CATEGORICAL DATA ANALYSIS</td>
</tr>
<tr>
<td>STAT UN3105</td>
<td>APPLIED STATISTICAL METHODS</td>
</tr>
<tr>
<td>STAT UN3106</td>
<td>APPLIED MACHINE LEARNING</td>
</tr>
</tbody>
</table>

**Statistics Elective**

-Students must take an approved elective in a statistics or a quantitatively oriented course in a social science.

1. Students taking Statistics Sequence A may replace the mathematics requirements with both MATH UN1207 HONORS MATHEMATICS A and MATH UN1208 HONORS MATHEMATICS B.
CONCENTRATION IN POLITICAL SCIENCE

Program of Study
To be planned with the department as soon as the student starts to register for courses toward the concentration. Students should not wait until they formally declare the concentration before meeting with an undergraduate adviser during the registration period to plan their programs for the concentration.

Concentration Requirements
Students must choose a Primary Subfield and a Secondary Subfield to study. The subfields are as follows:

- American Politics (AP)
- Comparative Politics (CP)
- International Relations (IR)
- Political Theory (PT)

The concentration in political science requires a minimum of 7 courses in political science, to be distributed as follows:

**Introductory Courses**
Students must take two of the following introductory courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>POLS UN1201</td>
<td>INTRO TO AMERICAN POLITICS</td>
</tr>
<tr>
<td>POLS UN1501</td>
<td>INTRO TO COMPARATIVE POLITICS</td>
</tr>
<tr>
<td>POLS UN1601</td>
<td>INTERNATIONAL POLITICS</td>
</tr>
<tr>
<td>POLS UN1101</td>
<td>POLITICAL THEORY I</td>
</tr>
</tbody>
</table>

**Primary Subfield**
Minimum two courses.

**Secondary Subfield**
Minimum two courses.

**Research Methods**
Minimum one course in research methods. Courses that satisfy the methods requirement are:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>POLS UN3220</td>
<td>LOGIC OF COLLECTIVE CHOICE</td>
</tr>
<tr>
<td>POLS UN3704</td>
<td>RESEARCH DESIGN: DATA ANALYSIS</td>
</tr>
<tr>
<td>POLS UN3706</td>
<td>EMPIRICAL METHODS IN POLITICAL SCIENCE</td>
</tr>
<tr>
<td>POLS UN3720</td>
<td>RESEARCH DESIGN: SCOPE AND METHODS</td>
</tr>
<tr>
<td>POLS UN3768</td>
<td>Experimental Research</td>
</tr>
<tr>
<td>POLS GU4710</td>
<td>PRINC OF QUANT POL RESEARCH 1</td>
</tr>
<tr>
<td>POLS GU4712</td>
<td>PRINC OF QUANT POL RESEARCH 2</td>
</tr>
<tr>
<td>POLS GU4720</td>
<td>QUANT METH 1 APPL REG CAUS INF</td>
</tr>
<tr>
<td>POLS GU4722</td>
<td>QUANT METH 2 STAT THEO# CAUS INF</td>
</tr>
<tr>
<td>POLS GU4724</td>
<td>QUANT METH 3 EXPERIMENTAL METH</td>
</tr>
<tr>
<td>POLS GU4762</td>
<td>Politics in the Lab</td>
</tr>
<tr>
<td>POLS GU4764</td>
<td>Design and Analysis of Sample Surveys</td>
</tr>
<tr>
<td>POLS GU4790</td>
<td>Advanced Topics in Quantitative Research</td>
</tr>
<tr>
<td>POLS GU4792</td>
<td>Quantitative Methods: Research Topics</td>
</tr>
</tbody>
</table>

**Political Science Electives**
Minimum two courses (in any subfield).

*A student may take another course inside or outside the department that provides relevant training in research methods to satisfy this requirement only with the written permission in advance of the Director of Undergraduate Studies or the department’s undergraduate adviser. If a course outside the political science department is used to satisfy the research methods requirement, this same course cannot be used toward other majors/concentrations or programs.

Recommended Courses
In addition to courses in political science, students are strongly advised, but not required, to take six credits in a related social science field.

AMERICAN POLITICS

POLS UN3208 STATE POLITICS. 3.00 points.
This course is intended to provide students with a detailed understanding of politics in the American states. The topics covered are divided into four broad sections. The first explores the role of the states in America's federal system of government. Attention is given to the basic features of intergovernmental relations and the historical evolution of American federalism. The second part of the course focuses on state-level political institutions. The organization and processes associated with the legislative, executive, and judicial branches are discussed in depth. The third section examines state elections, political parties, and interest groups. Finally, the course concludes by looking closely at various policy areas. Budgeting, welfare, education, and morality policy are among those considered.

POLS UN3210 Judicial Politics. 3 points.
Law and courts as political institutions. Considers the role of the judiciary within the American system of government, power relations within the judicial hierarchy, politics of decision making on the Supreme Court, the politics of Supreme Court nominations, the role of interest groups and public opinion in
shaping judicial doctrine, the social impact and legitimacy of courts, and the political history of the legal system.

POLS UN3225 AMERICAN CONSTITUTIONAL HISTOR. 4.00 points.
This Course is intended to look at key developments of American History through the prism of Supreme Court decisions and their aftermath. In essence, this Course will address three questions: 1. How did the Supreme Court reflect, and affect, historic patterns of U.S. development, and how did it impact the legal and economic framework of the United States? 2. How did the Supreme Court respond to, or worsen, crises in U.S. history? 3. How did the perception of individual and collective rights and liberties, and of the function and role of Governments -- both Federal and State -- evolve over time?

Comparative Politics

POLS UN1501 Intro to Comparative Politics. 4.00 points.

This course provides a broad overview of the comparative politics subfield by focusing on important substantive questions about the world today. The course is organized around four questions. First, why can only some people depend upon the state to enforce order? Second, how can we account for the differences between autocracies and democracies? Third, what different institutional forms does democratic government take? Finally, are some institutions more likely than others to produce desirable social outcomes such as accountability, redistribution, and political stability?

POLS UN3534 Autocracy and Democracy. 3.00 points.

With longstanding democracies in Europe and the US faltering, autocratic regimes in Russia and China consolidating, and hybrid regimes that mix elements of democracy and autocracy on the rise, scholars, policymakers, and citizens are re-evaluating the causes and consequences of different forms of government. This course is designed to give students the tools to understand these trends in global politics. Among other topics, we will explore: How do democracies and autocracies differ in theory and in practice? Why are some countries autocratic? Why are some democratic? What are the roots of democratic erosion? How does economic inequality influence a country’s form of government? Is the current period of institutional foment different past periods of global instability? This course will help students keep up with rapidly unfolding events, but is designed primarily to help them develop tools for interpreting and understanding the current condition of democracy and autocracy in the world.

POLS UN3528 New/Old Forms of Pol Protest. 3.00 points.

This course will introduce the students to the important topic of political protest. Each week we will address different aspects of the phenomenon: from the determinant to the actors and strategies of protest. We will discuss how the forms of protest have changed and the current role of the internet in general and social media in particular. Finally, we will discuss the role of the state and state repression, in particular censorship in the dynamics of protest. Since this is a comparative politics course, we will cover a range of different countries, including the United States, as well as both democratic and authoritarian regimes.

POLS GU4423 Political Economy Analysis of Elites # Institutions. 4.00 points.

This course examines political institutions and elite behavior from a political economy perspective. This course has three core goals. First, the substantive goal is to familiarize students with foundational theoretical arguments and frontier empirical evidence pertaining to central questions in political economy relating to political elite and institutions. Second, the methodological goal is to empower students to implement research designs that can effectively address the substantive questions driving their research. Third, the professionalization goal is to expose students to the academic processes of writing reviews, replicating and extending others’ studies, presenting research projects, and writing original research designs or academic papers.

POLS GU4453 Politics in Russia. 3.00 points.

This course begins by studying the late Soviet era—the 1970s through the collapse of the Soviet Union in 1991--in order to understand what kind of political system and political
culture Russia inherited. We spend some time analyzing why and how the Soviet Union—a superpower for 75 years—disintegrated suddenly and for the most part, peacefully. Then, the bulk of the course focuses on state-building in the Russian Federation. Russia’s effort to construct new political institutions, a functioning economy, and a healthy society represents one of the greatest political dramas of our time. Beginning with Yeltsin’s presidency in 1991 and continuing through the current eras of Putin, Medvedev, and Putin again, we consider phenomena such as economic reform, nationalism, separatism, federalism, war, legal reform, civil society, and democratization. The third part of the course addresses Russia’s foreign relations. Like its predecessor states, the Russian Empire and the Soviet Union, Russia is concerned with what kind of state it is (or should be) and where it stands in the international order. We will study how Russian elites make sense of Russia’s identity, as well as Russia’s policies toward the US, Europe, its “near abroad,” the Middle East, and China.

POLS GU4472 JAPANESE POLITICS. 4.00 points.

This course offers a historical and thematic survey of Japanese politics and of salient issues in China’s public policy and governance. The first half of the course reviews the patterns and dynamics of political development in China, focusing mainly on the last two hundred years, during which the country has been on a rugged yet fascinating path toward modernity. We will examine major political events including the collapse of the Imperial China, the rise of the Communist Party, the Cultural Revolution, and the post-Mao shift toward reform and opening. The second half of the course will cover various special topics, including the structure of the party and the state, the relationship between state and society, the modes of economic development, and the governance of the media and the Internet. Throughout the course, special attention will be paid to how China’s domestic political and economic processes intersected with major world events and transnational forces, such as imperialism, world wars, and economic globalization.

POLS GU4476 CONTEMPORARY AFRICAN POLITICS. 3.00 points.

This course aims to teach students what, if any, answers social scientists have to the questions that concern anyone with an interest in African politics: 1) Why have democratic governments flourished in some countries and not others? 2) What institutions may enable Africans to hold their leaders accountable? 3) How do people participate in politics? 4) In what ways do aspiring African political leaders build public support? 5) To what extent does persistent poverty on the continent have political causes? and 6) Why is violence used to resolve some political disputes and not others?

INTERNATIONAL RELATIONS

POLS UN1601 INTERNATIONAL POLITICS. 4.00 points.
This introductory course surveys key topics in the study of international politics, including the causes of war and peace; the efficacy of international law and human rights; the origins of international development and underdevelopment; the politics of global environmental protection; and the future of US-China relations. Throughout the course, we will focus on the interests of the many actors of world politics, including states, politicians, firms, bureaucracies, international organizations, and nongovernmental organizations; the interactions between them; and the institutions in which they operate. By the end of the semester, students will be better equipped to systematically study international relations and make informed contributions to critical policy debates.

POLS UN3648 GOVERNING THE GLOBAL ECONOMY. 4.00 points.
Who governs the world economy? Why do countries succeed or fail to cooperate in setting their economic policies? When and how do international institutions help countries cooperate? When and why do countries adopt good and bad economic policies? This course examines how domestic and international politics determine how the global economy is governed. We will study the politics of trade, international investment, monetary, immigration, and environmental policies to answer these questions. The course will approach each topic by examining alternative theoretical approaches and evaluate these theories using historical and contemporary evidence. There will be an emphasis on applying concepts through the analysis of policy-relevant case studies designed specifically for this course.

POLS GU4845 NAT SECURITY STRAT OF MID EAST. 4.00 points.
At the crossroads of three continents, the Middle East is home to many diverse peoples, with ancient and proud cultures, in varying stages of political and socio-economic development, often in conflict. Following the Arab Spring and subsequent upheaval in Egypt, Syria, Iraq, Yemen, Libya and more, the region is in a state of historic flux. The Sunni-Shia rivalry, especially between Saudi Arabia and Iran, growing Iranian-Israeli conflict, population explosion, poverty and authoritarian control, Russian ascendancy and US retrenchment, are the primary regional drivers today. Together, these factors have transformed the Middle Eastern landscape, with great consequence for the national security of the countries of the region and their foreign relations. The primary source of the worlds energy resources, the Middle East remains the locus of the terror-WMD-fundamentalist nexus, which continues to pose a significant threat to both regional and international security. The course surveys the national security challenges facing the regions primary players (Egypt, Saudi Arabia, Iran, Iraq, Syria, Lebanon, Jordan, Israel, the Palestinians and Turkey,) and how the convolutions of recent years have affected them. Unlike many Middle East courses, which focus on US policy in the region, the course concentrates on the regional players perceptions of the threats and opportunities they face and the strategies they have adopted to deal with them. It thus provides an essential vantage point for those interested in gaining a deeper understanding of a region, which stands at the center of many of the foreign policy issues of our era. The course is designed for those with a general interest in the Middle East, especially those interested in national security issues, students of comparative politics and future practitioners, with an interest in real world international relations and national security

POLS GU4863 INTERNATIONAL POLITICAL ECONOMY OF DEVELOPING COUNTRIES. 4.00 points.
This course examines how domestic and international politics influence the economic policies of developing countries. We will critically evaluate different theoretical debates related to foreign economic policymaking in emerging economies, including, the legacies of colonialism, trade protectionism and liberalization, globalization and the race to the bottom, the relationship between economic policy and culture, and development and redistribution. There will be an emphasis on applying concepts through the analysis of policy-relevant case studies designed for this course

POLS GU4895 WAR, PEACE # STRATEGY. 4.00 points.
Survey of the causes of war and peace, functions of military strategy, interaction of political ends and military means. Emphasis on 20th-century conflicts; nuclear deterrence; economic, technological, and moral aspects of strategy; crisis management; and institutional norms and mechanisms for promoting stability

**POLS UN1101 POLITICAL THEORY I. 4.00 points.**
This course considers key questions at the foundation of political thought. What is justice? How do we justify the coercive power of states? Do we have an obligation to obey the government? Who should make and enforce the law? What basic rights and liberties should governments protect? How should our economic system produce and divide wealth and material resources? What are the claims of excluded or marginalized groups and how can these claims be addressed?

We explore these questions through the works of several classical and contemporary political thinkers. A major goal of the course is to practice the skills needed to understand a political thinker’s arguments and to construct one’s own

**POLS UN3112 GANDHI, KING # POLS OF NONVIOLENCE. 4.00 points.**
Since Gandhi’s experiments in mass satyagraha over a century ago, nonviolence has become a staple of protest politics across the globe. From the Occupy movements to the Arab Spring to Movement for Black Lives, it might even be entering a new phase of revitalization. At the same time, what exactly nonviolence is and what it can accomplish in politics is very much under debate. This course aims to understand the politics of nonviolence by examining the political ideas and political careers of its most well-known twentieth-century advocates, M.K. Gandhi and Martin Luther King, Jr. Though still venerated as founding figures of nonviolent protest, Gandhi and King have come to be remembered in ways that can misconstrue how they understood and practiced nonviolent politics. To many, Gandhi is a saintly idealist, who wanted to imbue politics with the spirit of ahimsa, truth, and conscience. Likewise, King is taken to be a spokesman for interracial brotherhood and Christian love. While partly true, these images also downplay the political side of their nonviolence – the techniques of organizing and strategies of protest that made their movements successful. We will examine the evolution of Gandhi’s and King’s political thinking in relation to the movements they led – the Indian independence movement and the civil rights movement in the US. We will consider how the theory and practice of nonviolence evolved and changed as it moved from one context to another. We will be especially focused on understanding the dynamics of nonviolent protest
POLS GU4110 RECENT CONTINENTAL POL
THOUGHT. 4.00 points.
This course will compare and contrast the theories of the political, the state, freedom, democracy, sovereignty and law, in the works of the following key 20th and 21st century continental theorists: Arendt, Castoriadis, Foucault, Habermas, Kelsen, Lefort, Schmitt, and Weber. It will be taught in seminar format.

POLS GU4132 POLIT THOUGHT-CLASSICL AND MEDIEVAL. 3.00 points.
Prerequisites: Contemporary Civilization or a comparable introduction to political theory course.
Prerequisites: Contemporary Civilization or a comparable introduction to political theory course. The course examines the historical and theoretical foundations of democracy. The underlying assumption is that political arrangements and institutions are the embodiment of political ideas and theories. The course will investigate the historical emergence of democracy as a form of government based on equality before the law and equal access to all citizens to the deliberative, decisional and control processes. The historical starting point is identified in Solon’s reforms in Athens which dramatically broke the hegemony of ancient nobility; we will then study Cleisthenes’ reforms and their redefinition of citizenry; in the context of the new political ideal of isonomy. We will proceed to examine the theoretical debate of the fifth century BCE, which includes Herodotus (III, 80-82), Thucydides and Protagoras. We will then examine the criticism levelled at democracy by Socrates, Plato and Aristotle: their thought enables us to compare the ancient idea of democracy to our own. Finally, we will study the Roman contribution to the theory of democracy, namely Cicero’s ideal of ‘republic’ and the role that ius, codified law, played in it.

POLITICAL THEORY SEMINARS

RESEARCH METHODS

POLS UN3704 RESEARCH DESIGN: DATA ANALYSIS. 3.00 points.
This course examines the basic methods data analysis and statistics that political scientists use in quantitative research that attempts to make causal inferences about how the political world works. The same methods apply to other kinds of problems about cause and effect relationships more generally. The course will provide students with extensive experience in analyzing data and in writing (and thus reading) research papers about testable theories and hypotheses. It will cover basic data analysis and statistical methods, from univariate and bivariate descriptive and inferential statistics through multivariate regression analysis. Computer applications will be emphasized. The course will focus largely on observational data used in cross-sectional statistical analysis, but it will consider issues of research design more broadly as well. It will assume that students have no mathematical background beyond high school algebra and no experience using computers for data analysis.

POLS UN3720 RESEARCH DESIGN: SCOPE AND METHODS. 4.00 points.
This class aims to introduce students to the logic of social scientific inquiry and research design. Although it is a course in political science, our emphasis will be on the science part rather than the political part — we’ll be reading about interesting substantive topics, but only insofar as they can teach us something about ways we can do systematic research. This class will introduce students to a medley of different methods to conduct social scientific research.

POLS UN3768 Experimental Research. 4.00 points.
Randomized experimentation is an important methodology in political science. In this course, we will discuss the logic of experimentation, its strengths and weaknesses compared to other methodologies, and the ways in which experimentation has been -- and could be -- used to investigate political
phenomena. Students will learn how to interpret, design, and execute experiments.

**POLS GU4700 MATH # STATS FOR POLI SCI. 4.00 points.**

This course presents basic mathematical and statistical concepts that are essential for formal and quantitative analysis in political science research. It prepares students for the graduate-level sequence on formal models and quantitative political methodology offered in the department. The first half of the course will cover basic mathematics, such as calculus and linear algebra. The second half of the course will focus on probability theory and statistics. We will rigorously cover the topics that are directly relevant to formal and quantitative analysis in political science such that students can build both intuitions and technical skills. There is no prerequisite. The course is aimed for both students with little exposure to mathematics and those who have taken some courses but wish to gain a more solid foundation. NOTE: This course does not satisfy the Political Science Major/Concentration research methods requirement.

**POLS GU4702 METHODS OF INQUIRY # RES DESIGN. 4.00 points.**

This course will cover research methods and research design in political science. We will focus on concrete and practical issues of conducting research: picking a topic, generating hypotheses, case selection, measurement issues, designing and conducting experiments, interviews, field work, archival research, coding data and working with data sets, combining quantitative and qualitative methods, etc. The course is designed for several audiences, including: (1) PhD students in Political Science, (2) MAO students undertaking a major research project, and (3) advanced undergrads contemplating an honors thesis, or another major research project.

**POLS GU4710 PRINC OF QUANT POL RESEARCH 1. 4.00 points.**

This course examines the basic methods of data analysis and statistics, through multivariate regression analysis, that political scientists use in quantitative research that attempts to make causal inferences about how the political world works. The same methods apply to other kinds of problems about cause and effect relationships more generally. The course will provide students with extensive experience in analyzing data and in writing (and thus reading) research papers about testable theories and hypotheses.

**POLS GU4712 PRINC OF QUANT POL RESEARCH 2. 4.00 points.**

Prerequisites: POLS W4710 or the equivalent.

Prerequisites: POLS W4710 or the equivalent. This course will intensively examine some of the data analysis methods which deal with problems occurring in the use of multiple regression analysis. It will stress computer applications and cover, as needed, data coding and data processing. Emphasis will also be placed on research design and writing research reports. The course assumes that students are familiar with basic statistics, inference, and multiple regression analysis and have analyzed data using computer software (e.g., any standard statistical programs on micro-computers or larger machines -- Stata, “R”, SPSS, SAS, etc.). Students will be instructed on the use of the microcomputers and the R and Stata statistical software program(s) available as freeware (R) or in the CUIT computer labs (Stata; several campus locations) or through SIPA. The lectures and required discussion section will emphasize the use of “R.” Students may use whatever computer programs they prefer for all data analysis for the course. There may be an additional fee for classroom instructional materials.

**POLS GU4722 QUANT METH 2 STAT THEO#CAUS INF. 4.00 points.**

This course is the second course in the graduate-level sequence on quantitative political methodology offered in the Department of Political Science. Students will learn (1) a framework and
methodologies for making causal inferences from experimental
and observational data, and (2) statistical theories essential
for causal inference. Topics include randomized experiments,
estimation under ignorability, instrumental variables, regression
discontinuity, difference-in-differences, and causal inference
with panel data. We also cover statistical theories, such as
theories of ordinary least squares and maximum likelihood
estimation, by connecting them to causal inference methods.
This course builds on the materials covered in POLS 4700
and 4720 or their equivalent (i.e., probability, statistics, linear
regression, and logistic regression)

The Department of Psychology offers students a comprehensive curriculum in psychological science, including research methods, cognition, neuroscience, developmental, social, and clinical areas. The curriculum prepares majors for graduate education in these fields and also provides a relevant background for social work, education, medicine, law, and business. Psychology course offerings are designed to meet the varying needs and interests of students, from those wishing to explore a few topics in psychology or to fulfill the science requirement, to those interested in majoring in Psychology or in Neuroscience and Behavior.

**Program Goals**

The department's program goals start with the development of a solid knowledge base in psychological science. Consistent with the value psychology places on empirical evidence, courses at every level of the curriculum nurture the development of skills in research methods, quantitative literacy, and critical thinking, and foster respect for the ethical values that undergird the science of psychology.

Most of these program goals are introduced in PSYC UN1001 THE SCIENCE OF PSYCHOLOGY, the recommended first psychology course required for all majors that satisfies the prerequisite for most 2000-level courses. These goals are extended and reinforced in our statistics (1600-level) and research methods (1400-level) research methods courses, as well as in the 2000-level lecture courses and 3000- and 4000-level seminars. Each of the 2000-level lecture courses enables students to study systematically, and in greater depth, one of the content areas introduced in PSYC UN1001 THE SCIENCE OF PSYCHOLOGY. These lecture courses are the principal means by which psychology majors satisfy the distribution requirements, ensuring not only depth but also breadth of coverage across three central areas of psychology: (1) perception and cognition, courses in the 2200s, (2) psychobiology and neuroscience, courses in the 2400s, and (3) social, personality, and abnormal psychology, courses in the 2600s. To complete the major, students take one or more advanced seminars and are encouraged to participate in supervised research courses, where they have the opportunity to explore research questions in depth and further develop their written and oral communication skills.

**Research Participation**

All qualified students are welcome to apply to join a research lab and contribute to ongoing projects. Students may volunteer to work in a lab, register for supervised individual research (PSYC UN3950 Supervised Individual Research), or participate in the department’s Senior Thesis Advanced Research (STAR) Program. Information on faculty research is available on the departmental website. Students are advised to read about research laboratories on faculty lab sites and visit the professor’s office hours to discuss opportunities. At the beginning of the fall term, the department also hosts a Lab-Preview event for students to learn about research opportunities for the upcoming semester.

**Program Planning**

Majors and concentrators in psychology and majors in neuroscience and behavior should begin planning a program of study as early as possible. All necessary forms and information are available in Program Planning Tips. All majors and concentrators in Psychology and majors in Neuroscience and Behavior should complete a Major Requirement Checklist before consulting a program adviser to discuss program plans. At minimum, all students must submit a Major Requirement Checklist prior to the start of their final semester, so that graduation eligibility can be certified. Once the MRC is submitted, the Undergraduate Curriculum Assistant and the DUS's will review your curriculum plans and advise if changes need to be made.

**Advising**

The Department of Psychology offers a variety of advising resources to provide prospective and current undergraduate majors and concentrators with the information and support needed to successfully plan their programs. An overview of these resources is provided on the Psychology Undergraduate Advising Resources website.

Students are encouraged to consult with Peer, Faculty, and Program Advisers as they plan their course of study in Psychology or Neuroscience and Behavior. Faculty and Peer Advisers are important contacts for general advice on
class choices, research opportunities, and post-graduation plans. For definitive answers to questions regarding major requirements and other aspects of your degree, including transfer credit, current and prospective majors should consult their Program Adviser (Director of Undergraduate Studies) or the Undergraduate Curriculum Assistant in the departmental office. Program Adviser assignments and contact information are provided on the departmental website. For additional information about program, peer, and pre-clinical advising, please see the Psychology Undergraduate Advising Resources website.

**EMAIL COMMUNICATION**

The department maintains an e-mail distribution list with the UNIs of all declared majors and concentrators. Students are held responsible for information sent to their Columbia e-mail addresses. Students should read these messages from the department regularly and carefully. They are intended to keep students informed about deadlines, requirements, events, and opportunities. Prospective majors or concentrators who would like to be added to the e-mail distribution list should contact the Undergraduate Curriculum Assistant (uca@psych.columbia.edu) in the departmental office.

**GUIDE TO COURSE NUMBERS**

Course numbers reflect the structure of the Psychology curriculum:

- The 1000-level comprises introductions to psychology, introductory research methods courses, and statistics. PSYC UN1001 THE SCIENCE OF PSYCHOLOGY is an introductory course with no prerequisites, which can serve as the prerequisite for most of the 2000-level courses. PSYC UN1021 Science of Psychology: Explorations and Applications is an alternative version of PSYC UN1001 THE SCIENCE OF PSYCHOLOGY and fulfills the same requirements. The 1400s contain the research methods laboratory courses, and the 1600s contain statistics courses; these two course types are designed to prepare students to be able to understand, critique, and conduct the types of research found in many psychology and neuroscience labs.
- The 2000-level comprises lecture courses that are introductions to areas within psychology; most require PSYC UN1001 THE SCIENCE OF PSYCHOLOGY as a prerequisite.
- The 3000-level comprises more advanced and specialized undergraduate courses; most are given in a seminar format and require instructor permission.
- The 3900s are the courses providing research opportunities for undergraduates.
- The 4000-level comprises advanced seminars suitable for both advanced undergraduates and graduate students, and require instructor permission.

Subcategories within the 2000-, 3000-, and 4000-levels correspond to the three groups in our distribution requirement for undergraduate Psychology majors:

1. Perception and cognition (2200s, 3200s, and 4200s),
2. Psychobiology and neuroscience (2400s, 3400s, and 4400s), and
3. Social, personality, and abnormal psychology (2600s, 3600s, and 4600s).

Additionally, we designate Integrative and Applied courses using x800s (e.g., GU4880) and Advanced Topics in Psychology Research using the x900s (e.g., UN1910, UN1920, UN1930, UN1990, GU4930)

Note that Barnard psychology courses do not follow the same numbering scheme.

**SENIOR THESIS ADVANCED RESEARCH**

Starting in Fall 2021, we restructured the Honors program to become the Psych/Neuro Senior Thesis Advanced Research (STAR) program. This change is intended to expand the number of Psychology and Neuroscience & Behavior students we can accept into this rigorous training program. (Note that this change goes into effect for all new applicants; policies for students that have already been enrolled in ‘Honors’ will remain as they were prior to this change.)

Students with strong interests in psychological/neuroscientific research are encouraged to apply for admission to the Psychology Department’s Psych/Neuro Senior Thesis Advanced Research program in the fall of their junior year or the equivalent, such that they will be able to participate in the three consecutive semesters (spring - fall - spring) that are required in the program.

Important: Students will need to confirm that a professor has agreed to mentor them before being admitted into the program. Therefore, interested applicants should reach out to potential mentors to find a lab placement before applying. Tip: The best way to ensure finding a mentor is to get involved in that mentor’s research before asking if they can provide mentoring/supervision on your thesis. Please read through all the information below before submitting your application.

**Students interested in engaging in a Psych/Neuro Senior Thesis:**

The series includes:

1. Enrolling in a 3-semester Senior Thesis Advanced Research series, which includes a weekly seminar and research commitment, that must occur consecutively in your Junior year spring semester and Senior year (fall & spring), or equivalent [NOTE: this research course includes performing intensive, independent research with a lab mentor, writing a
final thesis, and giving an oral presentation of the thesis at the end of the 3rd semester.

2. Enrolling in a one-semester methods course (PSYC UN1920, UN1420/21, UN1450/51, UN1455/56, UN1490/91) in any semester during undergrad (i.e., before or during the series). Students are strongly encouraged to complete this methods training during or before the spring of their junior year (or equivalent).

Students interested in engaging in a Psych/Neuro Senior Thesis and aspiring to be eligible for Academic Honors in Psychology or Neuroscience and Behavior:

All students aspiring to graduate with Academic Honors must enroll in the series described above. However, acceptance to and participation in this program does not automatically result in earning academic honors (see requirements for academic honors below).

Note the students majoring in Neuroscience & Behavior may earn academic honors through the Department of Biological Sciences instead. (Please check their website for more details on that process.)

Honors Requirements:

The Psych/Neuro Senior Thesis Advanced Research program is open to students majoring in Psychology or Neuroscience & Behavior and includes the following:

Senior Thesis Advanced Research Seminar (UN3930): This is a two-hour, 1-4 credit course that meets biweekly, during which students present and discuss their ongoing research. Students in the course also attend the Psychology Department's Colloquium Series, which features researchers from outside the Department speaking on a variety of topics in Psychology/Neuroscience. The seminar and colloquia always take place on Wednesdays from 4:10 - 6:00 p.m. Students in the Psych/Neuro Senior Thesis Advanced Research program enroll in this course during the spring of their junior year and during the fall and spring of their senior years, or the equivalent.

Senior Thesis Research: Starting in the spring of their junior year and continuing through senior year, all students in the Psych/Neuro Senior Thesis Advanced Research program conduct research under the supervision of a Psychology Department faculty member or a faculty member/principal investigator in a psychology- or neuroscience-focused lab outside the department, including at Barnard College, the Zuckerman Mind Brain Behavior Institute, Columbia Business School, Columbia University Irving Medical Center, and other research institutions in the area.

Research Methods Course: To fulfill this requirement, students should complete a methods course (PSYC UN1920 The How-To's of Research; PSYC UN1420/21 Research Methods: Human Behavior; PSYC UN1450/51 Research Methods: Social Cognition & Emotion; PSYC UN1455/56 Research Methods: Social & Personality Psychology; PSYC UN1490/91 Research Methods: Cognition & Decision-making).

Senior Thesis: Students in the Psych/Neuro Senior Thesis Advanced Research program complete an original research project under the supervision of their faculty advisor. Senior students present their research orally at the last colloquium of the Spring term, and also submit a written senior thesis.

Eligibility for Academic Honors:

Students participating in the Psych/Neuro Senior Thesis Advanced Research program are also eligible to receive academic honors when they graduate, provided they 1) complete all components of the program, 2) earn a GPA in the major of 3.6 or higher at the time of graduation, and 3) are recommended by the Psychology department faculty. Please note that academic honors can be awarded to no more than 10% of the graduating class each year, so while only students who have participated in this senior thesis research intensive are eligible to receive academic honors, not everyone in the Senior Thesis Advanced Research program will receive academic honors.

How to Apply:

The application is due in mid fall, and decisions are communicated in time for admitted students to register to begin Psych/Neuro Senior Thesis Advanced Research-related classes in the spring.

The application process comprises the following steps:

1. Identifying a lab sponsor: If you think you might be interested in applying, you should start reaching out to labs that you’re interested in well in advance of the application deadline to see if they might have openings for research assistants and if they’d be willing to mentor you in your research. Keep in mind that mentoring a student is a significant commitment on the part of a professor, and so it may be difficult to identify a professor who can provide mentorship. Successful applicants typically demonstrate how their own research interests fall in line with those of their proposed sponsor and attest that their faculty member/PI has agreed to sponsor them. Once you have secured a position in a lab, you and your mentor will need to fill out the mentor agreement form.

2. Complete the online application: The application will be made available on our psychology department website, and comprises a few relatively short questions asking students to describe their previous coursework and research-related experiences and to write about their intended research interests.
REQUIREMENTS FOR ADMISSION TO GRADUATE PROGRAMS IN PSYCHOLOGY

Most graduate programs in psychology, including those in clinical psychology, require:

An undergraduate course in introductory psychology:
- PSYC UN1001 THE SCIENCE OF PSYCHOLOGY

A course in statistics such as one of the following:
- PSYC UN1610 STATISTICS-BEHAVIORAL SCIENTISTS
- PSYC UN1660 Advanced Statistical Inference
- STAT UN1001 INTRO TO STATISTICAL REASONING
- STAT UN1101 INTRODUCTION TO STATISTICS
- STAT UN1201 CALC-BASED INTRO TO STATISTICS

A laboratory course in research methods such as one of the following:
- PSYC UN1420 RESEARCH METHODS - HUMAN BEHAVIOR
- PSYC UN1450 RESEARCH METHODS - SOCIAL COGNITION # EMOTION
- PSYC UN1455 RESEARCH METHODS: SOCIAL/PERSOAALITY
- PSYC UN1490 RESEARCH METHODS - COGNITION/DECISION MAKING

Students should also take a variety of more advanced undergraduate courses and seminars. Students interested in PhD programs in any area of psychology are strongly encouraged to participate in a research lab and may wish to enroll in PSYC UN3950 Supervised Individual Research. Students are also encouraged to apply for the Senior Thesis Advanced Research program in the early fall of their junior year.

Students interested in clinical psychology should obtain experience working in a community service program in addition to supervised individual research experience. Students should consult the department's pre-clinical adviser, Prof. E'mett McCaskill, and attend the department's pre-clinical advising events for more information. Additional resources to help prepare students for graduate study in psychology, and for careers in clinical psychology, are available on the Department of Psychology's website. Students may also sign-up for the preclinical advising listserver to receive emails about events and relevant information.

ONLINE INFORMATION

The Department of Psychology website provides access to a wide variety of information for majors and prospective majors. Among other useful resources, students will find syllabi posted for most lecture and lab courses and for many advanced seminars. Students should read the on-line course syllabi prior to registering for psychology courses. For assistance in finding all necessary resources, students should contact the undergraduate curriculum assistant (psych-uca@columbia.edu).

SCIENCE REQUIREMENT

PSYC UN1001 THE SCIENCE OF PSYCHOLOGY, PSYC UN1021 Science of Psychology: Explorations and Applications, PSYC UN1010 Mind, Brain and Behavior (no longer offered), and any PSYC course in the 2200- or 2400-level may be used to fulfill the science requirement.

2600-level and some other psychology courses, including PSYC BC1001 INTRODUCTION TO PSYCHOLOGY and other Barnard psychology courses, may not be used to fulfill the science requirement.

All 3- and 4-point courses numbered in the 32xx, 34xx, 42xx, and 44xx can partially fulfill the science requirement. With prior departmental approval, some additional courses may also be used to partially fulfill the science requirement. For more detailed information regarding psychology courses that may be applied toward the science requirement, see the Core Curriculum section in this bulletin.

EVENING AND COLUMBIA SUMMER COURSES

The department normally offers at least one lab course in the late afternoon with evening labs. A number of other courses are occasionally offered in late afternoon and evening hours. No more than one quarter of the courses required for the major are normally available in the evening. Working students may find early morning (8:40 a.m.) classes, as well as Summer Session offerings, helpful in completing degree requirements.

Any course offered by the Psychology Department during the Summer Session is applicable toward the same major requirement(s) as the corresponding course of that same number offered during the academic year. For instance, PSYC S1001D The Science of Psychology meets the same major requirements as does PSYC UN1001 THE SCIENCE OF PSYCHOLOGY.

See Academic Regulations—Study Outside Columbia College in this Bulletin for additional information.

Guidelines for All Psychology Majors, Concentrators, and Interdepartmental Majors

Double Majors/Concentrations

All students attempting to complete double majors, double concentrations, or a combination of a major and a concentration should consult the college rules for double counting of courses.

Overlapping Courses

Students cannot receive credit for two courses—one completed at Columbia and one at another institution (including Barnard)—if those courses have largely overlapping content. For example, PSYC UN1001 THE SCIENCE OF PSYCHOLOGY is similar in content to introductory psychology courses offered at many other institutions, including Barnard; only one such course will receive credit. Similarly, PSYC UN2630 SOCIAL PSYCHOLOGY and PSYC BC1138 Social Psychology have overlapping content; only one will receive credit. Please refer to the table of Overlapping Courses for a partial list of courses at Columbia and Barnard that are known to overlap.

Grade Requirements for the Major

A grade of C- or higher must be earned and revealed on the transcript in any Columbia or Barnard course, including the first, that is used to satisfy the major requirements. The grade of P is not accepted for credit towards the Psychology major, Psychology concentration, or Neuroscience and Behavior major. Courses taken on a Pass/D/Fail basis may not be used to satisfy the major or concentration requirements unless the grade of P is uncovered by the Registrar’s deadline. Students may petition to have their P/D/F grades uncovered after the registrar’s deadline for the following three courses only: PSYC UN1001 Science of Psychology, PSYC UN1010 Mind, Brain, & Behavior (no longer offered), and PSYC UN1610 Introductory Statistics for Behavioral Scientists. Courses taken for a P grade may not be used to satisfy the major or concentration requirements, except for P grades earned in the Spring 2020 semester.

Major Requirement Checklist

Prior to the start of their final semester, all seniors must submit a Major Requirement Checklist showing all major courses they have taken and those they plan to take. The Psychology department evaluates each checklist to determine whether or not the course plan completes the major requirements and then notifies the student accordingly. If the student’s course plan changes, or if it does not satisfy the major requirements, a revised checklist must be submitted. Departmental approval of an accurate and up-to-date checklist will help ensure completion of all major requirements on time for graduation.
MAJOR IN PSYCHOLOGY

Please read Guidelines for all Psychology Majors, Concentrators, and Interdepartmental Majors (p. 747) above.

The Psychology Major requirements changed in 2020. Students entering an undergraduate degree program at Columbia in Fall 2020 or later must complete the new major requirements. Students who entered Columbia prior to Fall 2020 may choose to complete either the new major requirements or the old ones.

New Major Requirements (for students entering Columbia Fall 2020 or later)

Students must complete 11 courses in Psychology or an approved cognate discipline. To count toward the major, a course must be taken for 3 or more points. At least 6 of the 11 courses must be in the Columbia Psychology Department.

These 11 courses must include:
1. Introductory Psychology Course
2. One Statistics course
3. One Research Methods course
4. One Group I Course
5. One Group II Course
6. One Group III Course
7. One course meeting the Seminar requirement
8. One course meeting the integrative/applied Special Elective requirement
9. Enough PSYC electives to complete 11 courses

Each course may fulfill only one of these major requirements. See below for details on each of these requirements.

Old Major Requirements (for students entering Columbia prior to Fall 2020)

Students must complete 30 or more points to complete the Psychology Major. Those 30 points must include:

1. Introductory Psychology Course
2. One Statistics course
3. One Research Methods course
4. One Group I Course
5. One Group II Course
6. One Group III Course
7. One course meeting the Seminar requirement
8. Enough PSYC electives to complete 30 points

See below for details on each of these requirements. Note that no course may be counted twice in fulfillment of the major requirements.

The Introductory Psychology Course
• PSYC UN1001 THE SCIENCE OF PSYCHOLOGY

A Statistics Course
Select one of the following:
• PSYC UN1610 STATISTICS-BEHAVIORAL SCIENTISTS
• PSYC UN1660 Advanced Statistical Inference
• STAT UN1001 INTRO TO STATISTICAL REASONING
• STAT UN1101 INTRODUCTION TO STATISTICS (formerly STAT W1111)
• STAT UN1201 CALC-BASED INTRO TO STATISTICS (formerly STAT W1211)

A Research Methods Course
Select one of the following:
• PSYC UN1420 RESEARCH METHODS - HUMAN BEHAVIOR
• PSYC UN1450 RESEARCH METHODS - SOCIAL COGNITION # EMOTION
• PSYC UN1455 RESEARCH METHODS: SOCIAL/PERSONALITY
• PSYC UN1490 RESEARCH METHODS - COGNITION/DECISION MAKING

Majors are strongly advised to complete the statistics and research methods requirements, in that order, by the fall term of their junior year. Students are advised to verify the specific prerequisites for research methods courses, most of which require prior completion of a statistics course.

Distribution Requirement
One course (3 points or more) must be taken from each of the following three groups (in addition to the introductory, statistics, and research methods courses described above):

• Group I—Perception and cognition: courses numbered in the 2200s, 3200s, or 4200s.
• Group II—Psychobiology and neuroscience: courses numbered in the 2400s, 3400s, or 4400s. Also PSYC UN1010 Mind, Brain and Behavior (no longer offered).
• Group III—Social, personality, and abnormal: courses numbered in the 2600s, 3600s, or 4600s.

As of Fall 2019, Research Methods courses no longer fulfill any of the Group distribution requirements.

Seminar Requirement
In addition, students must complete one course meeting the Seminar requirement. A seminar course must be taken for 3 or more points.

All courses offered through the Columbia Psychology Department and numbered in the 3200s, 3400s, 3600s, 4200s, 4400s, and 4600s count toward the seminar requirement.
Not all Barnard courses taught in a seminar format fulfill this requirement—see Barnard Courses, below, for more information.

Seminars are usually taken in the junior and senior year as a culmination of the major program, but any students who have met the prerequisites and gain the instructor’s permission to join the course may enroll. Enrollment in all seminar courses requires the instructor's permission; students are advised to contact instructors at least one month prior to registration to request seminar admission. Note that honors, senior thesis research intensive, and supervised individual research courses (PSYC UN3910 HONORS SEMINAR, PSYC UN3920 HONORS RESEARCH, PSYC UN3930 Senior Thesis Advanced Research Seminar, and PSYC UN3950 Supervised Individual Research) will not meet the seminar requirement.

For those completing the new major requirements, no course may be counted twice in fulfillment of the above major requirements: separate courses must be taken to fulfill the seminar requirement and each distribution group.

Special Elective (for the New Major requirements)

For students entering Columbia in Fall 2020 or later, one course must be taken to fulfill the integrative/applied Special Elective.

The Special Elective encompasses a wide range of courses: those that cut across and connect different sub-disciplines within psychology; those that integrate psychology with other disciplines; those that apply psychology to real-world problems; those that dig deeper into advanced statistics and methods topics; and those that offer hands-on experience with psychology research.

The following courses are pre-approved to count toward the Special Elective requirement. If you would like to count a course that does not appear on this list, please contact your Program Advisor prior to enrolling.

- PSYC UN3950 SUPERVISED INDIVIDUAL RESEARCH or PSYC UN3920 HONORS RESEARCH (taken for 3 or 4 points) or PSYC UN3930 Senior Thesis Research Intensive Seminar
- PSYC UN1910 Research Ethics in Psychology
- PSYC UN1930 Behavioral Data Science
- PSYC UN1990 Global Behavioral Science
- PSYC UN3615 Children at Risk (Lecture)
- PSYC GU4612 Frontiers of Justice
- PSYC GU4930 Fundamentals of Human Brain Imaging: from theory to practice
- STAT UN2102 Applied Statistical Computing
- STAT GU4243 APPLIED DATA SCIENCE
- PSYC BC1088 THE SCIENCE OF LIVING WELL
- PSYC BC2175 Addictive Behaviors (overlaps with PSYC 2460 Drugs & Behavior)
- PSYC BC3155 Psychology and Law
- PSYC BC3465 Field Work # Research Seminar: Toddler Center
- PSYC BC3466 FIELD WORK # RESEARCH SEMINAR: TODDLER CENTER
- PSYC BC3473 CLINICAL FIELD PRACTICUM
- PHIL V2400 Psychology and Philosophy of Human Experience
- NSBV BC3387 TOPICS IN NEUROETHICS

Electives

Additional psychology courses ("electives") must be taken for a total of 30 points (or 11 courses for the new major requirements).

Once a student has met the specific requirements of the major, any other psychology or approved cognate courses they take to complete the 30-point (or, for students entering Columbia in Fall 2020 or later, the 11-course) minimum constitute electives. As described below, these may include a limited number of research courses, transfer courses, and Barnard psychology courses not approved for specific requirements.

No course may be counted twice in fulfillment of the above major requirements.

Research Credits

No more than 4 points of PSYC UN3950 Supervised Individual Research or PSYC UN3920 HONORS RESEARCH may be taken in any one term, and no more than 8 points total of research and field work courses (PSYC UN3950 SUPERVISED INDIVIDUAL RESEARCH, PSYC BC3466 FIELD WORK # RESEARCH SEMINAR: TODDLER CENTER, PSYC BC3473 CLINICAL FIELD PRACTICUM, PSYC BC3592 Senior Research Seminar and PSYC BC3599 Individual Projects) may be applied toward the major. See below for further restrictions on applying Barnard courses toward the psychology major. Under the new 11-course major, research courses must be taken for 3 or 4 points in order to count toward the major; a maximum of 2 such courses may be applied towards the major. (See below for further restrictions on applying Barnard courses toward the psychology major).

Barnard Courses

For students completing the 30-point major: No more than 9 credits in Barnard courses (or a combination of transfer and Barnard credits) may be applied toward the major.

For students completing the 11-course major: A maximum of 5 courses counted toward the major may be from outside Columbia ("outside Columbia" includes both Barnard and transfer courses).

The table of approved Barnard psychology courses indicates which courses have been approved for specific requirements of the psychology major. Courses not on the approved list may
only be applied toward a specific requirement with prior written approval from one of the directors of undergraduate studies. Psychology courses not on the approved list for a specific requirement may be applied as elective credit toward the 30 points for the major (or towards the 11 courses needed for the new major requirements).

As of Fall 2019, Barnard Lab courses do not count towards the Research Methods requirement of the Psychology Major or Concentration.

Non-Psychology Courses

For students completing the 11-course major: Some courses offered outside of Psychology departments can count toward major requirements (e.g., courses taken in the Statistics Department; cognate courses offered through Philosophy, Business, Law, etc.). A maximum of 2 such non-PSYC courses may be applied toward the major. Courses offered in the Barnard Psychology or Neuroscience departments do not count toward this limit.

Transfer Credits

For students completing the 30-point major: No more than 9 transfer credits (or a combination of transfer and Barnard credits) will be accepted toward the psychology major.

For students completing the 11-course major: No more than 3 transfer courses can be applied toward the psychology major. Any transfer courses thus applied count toward the limit of 5 courses from outside Columbia.

Approval of transfer credits on a student’s Entrance Credit Report toward general requirements for the B.A. degree does not grant approval of these credits toward the psychology major. Students must apply for written approval of transfer credit towards the major by submitting the Major Requirement Substitution Form. This form, along with additional information about transfer credits can be found on the Transfer Credit page of our website. To be approved for the major, a course taken at another institution should be substantially similar to one offered by the department, the grade received must be a B- or better, and the course must have been taken within the past 8 years. As noted above, if two courses overlap in content, only one will be approved towards the major. With the exception of approved Barnard courses, students should consult with one of the directors of undergraduate studies before registering for psychology courses offered outside the department.

Students who have completed an introductory psychology course at another institution prior to declaring a psychology major should submit a Major Requirement Substitution Form to verify whether or not this course meets departmental standards for major transfer credit. If transfer credit toward the major is not approved, the student must enroll in PSYC UN1001 THE SCIENCE OF PSYCHOLOGY or PSYC UN1021 Science of Psychology: Explorations and Applications or PSYC BC1001 INTRODUCTION TO PSYCHOLOGY to complete this major requirement.

AP Psychology Transfer Credit

As of Fall 2019, the Psychology Department will accept a score of 5 on the AP Psychology exam, or a score of 7 on the Higher Level IB Psychology exam, to meet the Science of Psychology requirement. The AP/IB Psychology exam does not count as a course or toward a student’s points total for their program; students placing out of the Science of Psychology requirement in this way will need to take an additional course to fulfill the required number of courses or points for their program.

The College Board Advanced Placement (AP) statistics scores do not satisfy the statistics requirement. Students who have completed AP statistics may opt to take a more advanced statistics course to fulfill this requirement with the approval of one of the directors of undergraduate studies.

MAJOR IN NEUROSCIENCE AND BEHAVIOR

Please read Guidelines for all Psychology Majors, Concentrators, and Interdepartmental Majors (p. 747) above.

The department cosponsors an interdepartmental major in neuroscience and behavior with the Department of Biological Sciences. For assistance in planning the psychology portion of the neuroscience and behavior major, refer to the Program Planning Tips website and use the appropriate major requirement checklist.

No course may be counted twice in fulfillment of the biology or psychology requirements described below. Many graduate programs in neuroscience also require one year of calculus, one year of physics, and chemistry through organic.

Required Courses

In addition to one year of college general chemistry, ten courses are required to complete the major—five from the Department of Biological Sciences and five from the Department of Psychology. For the definitive list of biology requirements, see the Department of Biological Sciences website.

Required Chemistry Courses

One year of college chemistry is required prior to taking Introductory Biology.

Required Biology Courses

1. BIOL UN2005 INTRO BIO I: BIOCHEM.GEN.MOLEC
2. BIOL UN2006 INTRO BIO II:CELL BIO.DEV/PHYS
3. BIOL UN3004 NEUROBIO I:CELLULAR # MOLECULR
4. BIOL UN3005 NEUROBIO II: DEVPT # SYSTEMS
5. One additional 3000- or 4000-level biology course from a list approved by the biology adviser to the program.
• BIOL UN3006 PHYSIOLOGY
• BIOL UN3019 Brain Evolution
• BIOL UN3022 DEVELOPMENTAL BIOLOGY
• BIOL UN3025 NEUROGENETICS
• BIOL UN3031 GENETICS
• BIOL UN3799 MOLECULAR BIOLOGY OF CANCER
• BIOL UN3041 CELL BIOLOGY
• BIOL UN3073 CELLULAR/MOLECULAR IMMUNOLOGY
• BIOL UN3193 STEM CELL BIOL # APPLICATIONS
• BIOC UN3300 BIOCHEMISTRY
• BIOL UN3404 The Global Threat of Antimicrobial Resistance
• BIOL GU4034 BIOTECHNOLOGY
• BIOL GU4035 SEMINAR IN EPIGENETICS
• BIOL GU4075 BIOLOGY AT PHYSICAL EXTREMES
• BIOL GU4080 ANCIENT AND MODERN RNA WORLDS
• BIOL GU4082 Theoretical Foundations and Applications of Biophysical Methods
• BIOC GU4323 Biophysical Chemistry I
• BIOC GU4324 Biophysical Chemistry II
• BCHM GU4501 BIOCHEM I-STRUCTURE/METABOLISM
• BIOC GU4512 MOLECULAR BIOLOGY
• BIOC GU4510 Genomics of Gene Regulation
• BIOC GU4560 PROTEOMICS LABORATORY

Required Psychology Courses

1. PSYC UN1001 THE SCIENCE OF PSYCHOLOGY or PSYC UN1021 Science of Psychology: Explorations and Applications

2. PSYC UN2430 COGNITIVE NEUROSCIENCE or PSYC UN2450 BEHAVIORAL NEUROSCIENCE or PSYC UN2470 Fundamentals of Human Neuropsychology

• Students who have previously taken PSYC UN1010 Mind, Brain and Behavior (no longer offered) may use that course to fulfill this requirement.

3. One statistics or research methods course from the following:

• PSYC UN1420 RESEARCH METHODS - HUMAN BEHAVIOR
• PSYC UN1450 RESEARCH METHODS - SOCIAL COGNITION # EMOTION
• PSYC UN1455 RESEARCH METHODS: SOCIAL/PERSONALITY
• PSYC UN1490 RESEARCH METHODS - COGNITION/DECISION MAKING
• PSYC UN1610 STATISTICS-BEHAVIORAL SCIENTISTS
• PSYC UN1660 Advanced Statistical Inference
• STAT UN1101 INTRODUCTION TO STATISTICS (formerly STAT W1111)
• STAT UN1201 CALC-BASED INTRO TO STATISTICS (formerly STAT W1211)
• Please note, STAT UN1001 does not count towards the Neuroscience & Behavior major.

4. One additional 2000- or 3000-level psychology lecture course from a list approved by the psychology adviser to the program:

• PSYC S2210Q Cognition: Basic Processes
• PSYC UN2215 Cognition and the Brain or PSYC S2215D Cognition and the Brain
• PSYC UN2220 COGNITION: MEMORY AND STRESS
• PSYC W2225 Attention and Perception
• PSYC W2230 Perception and Sensory Processes
• PSYC UN2235 THINKING AND DECISION MAKING or PSYC S2235Q Thinking and Decision Making
• PSYC UN2250 Evolution of Cognition
• PSYC UN2280 Developmental Psychology
• PSYC UN2420 ANIMAL BEHAVIOR
• PSYC UN2430 COGNITIVE NEUROSCIENCE
• PSYC UN2440 Language and the Brain
• PSYC UN2450 BEHAVIORAL NEUROSCIENCE or PSYC S2450Q Behavioral Neuroscience
• PSYC UN2460 DRUGS AND BEHAVIOR
• PSYC UN2470 Fundamentals of Human Neuropsychology
• PSYC UN2480 The Developing Brain
• PSYC UN2481 Developmental Cognitive Neuroscience
• PSYC S2490D Evolutionary Psychology
• PSYC UN2620 ABNORMAL BEHAVIOR or PSYC S2620Q Abnormal Behavior
• PSYC UN2690 Frontiers of Justice

*Please make careful note of this list, as courses not listed here will not count towards the P4 requirement.

5. One advanced psychology seminar from a list approved by the psychology adviser to the program:

- PSYC W3265 Auditory Perception (Seminar)
- PSYC UN3270 COMPUT APPROACHES-HUMAN VISION
- PSYC UN3280 Seminar In Infant Development or PSYC S3280D Seminar in Infant Development
- PSYC S3285D The Psychology of Disaster Preparedness
- PSYC UN3290 Self: A Cognitive Exploration (Seminar)
- PSYC GU4202 Theories of Change in Human Development
- PSYC GU4222 The Cognitive Neuroscience of Aging (Seminar)
- PSYC GU4223 MEMORY # EXEC FUNCT:LIFESPAN
- PSYC GU4224 Consciousness and Cognitive Science
- PSYC GU4225 CONSCIOUSNESS # ATTENTION
- PSYC GU4229 ATTENTION AND PERCEPTION(Seminar)
- PSYC GU4232 Production and Perception of Language
- PSYC GU4235 SPECIAL TOPICS IN VISION
- PSYC GU4236 Machine Intelligence
- PSYC GU4239 COG NEURO NARRATIVE FILM
- PSYC GU4242 Evolution of Language (Seminar)
- PSYC GU4244 LANGUAGE AND MIND
- PSYC GU4250 Evolution of Intelligence, Cognition, and Language (Seminar)
- PSYC GU4265 AUDITORY PERCEPTION
- PSYC GU4270 COGNITIVE PROCESSES
- PSYC G4272 Advanced Seminar in Language Development
- PSYC GU4280 CORE KNOWLEDGE
- PSYC GU4281 The Psychology of Curiosity
- PSYC GU4282 The Neurobiology and Psychology of Play
- PSYC G4285 Multidisciplinary Approaches to Human Decision Making (Seminar)
- PSYC GU4287 DECISION ARCHITECTURE
- PSYC GU4289 THE GAMES PEOPLE PLAY:PSYCH OF STRAT DEC
- PSYC S3410Q Seminar in Emotion
- PSYC W3435 Neurobiology of Reproductive Behavior (Seminar)
- PSYC UN3445 THE BRAIN AND MEMORY
- PSYC UN3450 Evolution of Intelligence, Animal Communication, # Language/ PSYC G4450 The Evolution of Intelligence & Consciousness (Seminar)
- PSYC UN3481 CRITICAL PERIODS IN BRAIN
- PSYC W3484 Life Span Development: Theory and Methods
- PSYC UN3496 NEUROSCIENCE AND SOCIETY or PSYC S3496Q Neuroscience and Society
- PSYC W4415 Methods and Issues in Cognitive Neuroscience (Seminar)
- PSYC GU4420 Animal Cognition (Seminar)
- PSYC GU4430 Learning and the Brain (Seminar)
- PSYC GU4435 NON-MNEMONIC FUNC OF MEMORY SYSTEMS
- PSYC GU4440 TOPICS-NEUROBIOLOGY # BEHAVIOR or PSYC S4440Q Topics in Neurobiology and Behavior
- PSYC G4460 Cognitive Neuroscience and the Media (Seminar)
- PSYC GU4470 PSYCH # NEUROPSYCH OF LANGUAGE
- PSYC GU4480 PSYCHOBIOLOGY OF INFANT DEVPT
- PSYC GU4482 Neural Plasticity
- PSYC G4485 Affective Neuroscience (Seminar)
- PSYC GU4486 Developmental and Affective Neuroscience (Seminar)
- PSYC GU4490 Inheritance (Seminar)
- PSYC GU4491 The Parental Brain
- PSYC G4492 Psychobiology of Stress
- PSYC GU4493 Stress and the Brain
- PSYC G4495 Ethics, Genetics, and the Brain
- PSYC GU4496 Behavioral Neuroimmunology
- PSYC GU4498 BEHAVIORAL EPIGENETICS
- PSYC S3610D The Psychology of Stereotyping & Prejudice
- PSYC UN3615 Children at Risk (Lecture)(Seminar)
- PSYC UN3620 SEM-DEVELOPMNTL PSYCHOPATHOLGY
- PSYC UN3623 TOPICS IN CLINICAL PSYCHOLOGY
- PSYC UN3624 Adolescent Mental Health: Causes, Correlates, Consequences
- PSYC UN3625 CLINICAL NEUROPSYCHOLOGY or PSYC S3625D Clinical Neuropsychology Seminar
- PSYC UN3655 Field Experimentation Methods for Social Psychology
- PSYC UN3661 Happiness Studies Seminar
- PSYC UN3671 Motivation Science
• PSYC UN3680 Social Cognitive Neuroscience (Seminar)  
  PSYC GU4685 SOCIAL COGNITIVE NEUROSCIENCE  
• PSYC UN3691 Interpersonal Cognition Seminar: Close Relationships, Identity, and Memory  
• PSYC UN3693 Stress in an Interpersonal Context  
• PSYC GU4612 Frontiers of Justice  
• PSYC GU4615 PSYCH OF CULTURE & DIVERS  
• PSYC GU4627 Seminar in Anxiety, Obsessive-Compulsive, and Related Disorders  
• PSYC GU4630 ADV SEM CURRENT PERS THRY  
• PSYC GU4635 The Unconscious Mind (Seminar)  
• PSYC GU4645 CULTR,MOTIVATN,PROSOCIAL BEHAV  
• PSYC GU4646 Socio-Ecological Psychology  
• PSYC GU4670 THRY-SOCIAL/PERSONALITY PSYCH  
• PSYC GU4672 Political Psychology  
• PSYC GU4682 FAQs ABOUT LIFE:APPL OF PSYC RSCH TO EVE  
• PSYC GU4685 SOCIAL COGNITIVE NEUROSCIENCE  
• PSYC GU4686 Barriers and Levers for Behavior Change  
• PSYC GU4690 SOCIAL FACTORS # PSYCHOPATHLOGY  
• PSYC GU4695 Psychology of Close Relationships (Seminar)  
• PSYC GU4880 In Service of Equity: Examining Developmental Science through the Lens of Policy

Note: Students wishing to use a seminar course not listed above to meet the P5 seminar requirement must contact their psychology adviser before enrolling to request permission for an exception. Generally speaking, permission for such exceptions is only granted when there is a compelling case related to the student’s research or area of study. Students requesting permission to use a course not on this list must ensure that their substantive coursework in the seminar (generally their final paper) is on a neuroscience-focused topic.

Transfer Credit for Psychology Courses Taken Elsewhere

Students should consult a psychology adviser before registering for psychology courses offered outside the department. With the adviser's approval, one, and only one, course from another institution, including Barnard, may be applied toward the psychology portion of the Neuroscience and Behavior major. Students who wish to obtain credit for a course taken at Barnard or at another institution should complete the Major Requirement Substitution Form. To be approved for the major, the course should be substantially similar to one offered by this department and approved for this major, and the grade received must be a C- or better if from Barnard, or B- or better if from another institution.

Advanced Placement (AP) statistics scores will not satisfy the statistics/research methods requirement. Students who have completed AP Statistics are encouraged to enroll in a 1400-level research methods course to fulfill this requirement.

Exceptions to Biology Requirements

Any exceptions must be approved in advance by a biology adviser and students must receive an email notification of that approval. Students may substitute Barnard College courses only with prior permission from a Biology Department adviser.

CONCENTRATION IN PSYCHOLOGY

Please read Guidelines for all Psychology Majors, Concentrators, and Interdepartmental Majors (p. 747) above.

The Psychology Concentration requirements changed in 2020. Students entering an undergraduate degree program at Columbia in Fall 2020 or later must complete the new concentration requirements. Students who entered Columbia prior to Fall 2020 may choose to complete either the new concentration requirements or the old ones.

New Concentration Requirements (for students entering Columbia Fall 2020 or later)

Students must complete 7 courses in Psychology or an approved cognate discipline. To count toward the concentration, a course must be taken for 3 or more points. The following requirements must be met:

1. PSYC UN1001 THE SCIENCE OF PSYCHOLOGY or PSYC UN1021 Science of Psychology: Explorations and Applications

2. A Statistics or Research Methods course (PSYC UN1610 STATISTICS-BEHAVIORAL SCIENTISTS, STAT UN1001 INTRO TO STATISTICAL REASONING, STAT UN1101 INTRODUCTION TO STATISTICS, STAT UN1201 CALC-BASED INTRO TO STATISTICS, or a Research Methods course in the PSYC 14xx's)

3. Either 3 courses in one group, or 1 course in each of the 3 groups: Group I - Cognition & Perception; Group II -
Psychobiology & Neuroscience; Group III - Social, Personality, & Abnormal

4. Additional elective courses in psychology to complete the 7-course requirement

Restrictions on research credits, Barnard credits, non-psychology courses, and transfer credits are modified from those of the psychology major as follows:

- No more than 2 transfer courses from other institutions can be applied toward the concentration.
- No more than 3 total courses from outside Columbia (Barnard and/or transfer) can be applied to the concentration.
- A maximum of 1 non-PSYC course can count toward concentration requirements (e.g., courses taken in the Statistics Department; cognate courses offered through Philosophy, Business, Law, etc.).
- No more than 1 semester of PSYC UN3950 SUPERVISED INDIVIDUAL RESEARCH or other supervised research course (taken for 3 or 4 points) can count towards the concentration.

As of Fall 2019, Barnard Lab courses do not count towards the Research Methods requirement of the Psychology Major or Concentration.

Except as noted above, other regulations outlined in the Psychology Major section regarding grades, transfer credits, and overlapping courses also apply toward the Psychology Concentration.

PSYC UN1001 THE SCIENCE OF PSYCHOLOGY. 3.00 points.

CC/GS: Partial Fulfillment of Science Requirement

Enrollment may be limited. Attendance at the first two class periods is mandatory.

Prerequisites: BLOCKED CLASS. EVERYONE MUST JOIN WAITLIST TO BE ADMITTED

Prerequisites: BLOCKED CLASS. EVERYONE MUST JOIN WAITLIST TO BE ADMITTED

Broad survey of psychological science including: sensation and perception; learning, memory, intelligence, language, and cognition; emotions and motivation; development, personality, health and illness, and social behavior. Discusses relations between the brain, behavior, and experience. Emphasizes science as a process of discovering both new ideas and new empirical results. PSYC UN1001 serves as a prerequisite for further psychology courses and should be completed by the sophomore year.

PSYC UN1021 Science of Psychology: Explorations and Applications, 3.00 points.
UN1021 offers a broad introductory survey of psychological science, discussing relations between the brain, behavior, and experience, with regard to topics including: sensation and perception; learning, memory, language, and cognition; emotions and motivation; development, personality, health and well-being, and social behavior. The course emphasizes science as a process of discovering both new ideas and new empirical results -- and the ways in which psychological research can be used to address real-world challenges.

PSYC UN1420 RESEARCH METHODS - HUMAN BEHAVIOR, 4.00 points.
Attendance at the first class is mandatory. Fee: $70.

PSYC UN1421 RESEARCH METHODS-HUM BEHAV LAB, 0.00 points.
Limited enrollment in each section.

PSYC UN1450 RESEARCH METHODS - SOCIAL COGNITION # EMOTION, 4.00 points.
Attendance at the first class is essential. Priority given to psychology majors. Fee: $70.

Prerequisites: PSYC UN1001 or PSYC UN1010 and a statistics course (PSYC UN1610 or the equivalent), or the instructor's permission.
Corequisites: PSYC UN1451
An introduction to research methods employed in the study of human social cognition and emotion. Students gain experience in the design and conduct of research, including ethical issues, observation and measurement techniques, interpretation of data, and preparation of written and oral reports.

Fall 2022: PSYC UN1450

PSYC UN1910 Research Ethics in Psychology. 4 points.
Prerequisites: (PSYC UN1001) or equivalent introductory course in psychology.
This course explores the ethical theory, principles, codes and standards applicable to research in psychology and the complexities inherent in ethical research practice.

PSYC UN1930 Behavioral Data Science. 4 points.
CC/GS: Partial Fulfillment of Science Requirement
This course covers the basic skills and knowledge needed to address psychological research questions using data science methods. Topics cover the full scope of a behavioral data science research project including data acquisition, data processing, and data analysis.

PSYC UN1990 Global Behavioral Science. 4.00 points.
This course builds on fundamentals of psychological and behavioral science by exploring reproducibility and replication on a global level. Students will learn from a wide range of studies and their real-world implications

PSYC UN2215 Cognition and the Brain. 3 points.
CC/GS: Partial Fulfillment of Science Requirement
Not offered during 2022-23 academic year.
Prerequisites: PSYC UN1001 or PSYC UN1010 (recommended) or the instructor's permission.
How mental activities -- particularly human cognitive processes -- are implemented in the brain, with some emphasis on...
methods and findings of neuroscience. Topics include long term and working memory, attention and executive processes, concepts and categorization, decision making, and language.

**PSYC UN2220 COGNITION: MEMORY AND STRESS. 3.00 points.**
CC/GS: Partial Fulfillment of Science Requirement
Attendance at the first class is mandatory.
Prerequisites: PSYC UN1001 or PSYC UN1010 or the instructor's permission.
Prerequisites: PSYC UN1001 or PSYC UN1010 or the instructors permission. Memory, attention, and stress in human cognition

**PSYC UN2235 THINKING AND DECISION MAKING. 3.00 points.**
CC/GS: Partial Fulfillment of Science Requirement
Prerequisites: an introductory course in psychology.
Prerequisites: an introductory course in psychology. Models of judgment and decision making in both certain and uncertain or risky situations, illustrating the interplay of top-down (theory-driven) and bottom-up (data-driven) processes in creating knowledge. Focuses on how individuals do and should make decisions, with some extensions to group decision making and social dilemmas

**PSYC UN2280 Developmental Psychology. 3.00 points.**
CC/GS: Partial Fulfillment of Science Requirement
Enrollment may be limited. Attendance at the first two classes is mandatory.
Prerequisites: PSYC UN1001 or PSYC UN1010 or the equivalent.
Prerequisites: PSYC UN1001 or PSYC UN1010 or the equivalent. Introduction to the scientific study of human development, with an emphasis on psychobiological processes underlying perceptual, cognitive, and emotional development
neuronal activity, the role of neurotransmitter systems in memory and motivational processes, the presumed brain dysfunctions that give rise to schizophrenia and depression, and philosophical issues regarding the relationship between brain activity and subjective experience.

PSYC 2460  001/10354  T Th 8:40am - 9:55am  501 Schermerhorn Hall  Carl Hart  3.00  148/189

PSYC UN2470 Fundamentals of Human Neuropsychology. 3.00 points.
Fundamentals of Human Neuropsychology is an intermediate-level lecture course, which explores how the analysis of lesion patterns extended across brain networks has offered invaluable insights on the relationship between brain and behavior and deepened our understanding of the causal relationships between brain lesions and their clinical consequences.

Fall 2022: PSYC UN2470
Course Number  Section/Call Number  Times/Location  Instructor  Points  Enrollment
PSYC 2470  001/10039  M W 10:10am - 11:25am  203 Mathematics Building  Alfredo Spagna  3.00  67/110

PSYC UN2480 The Developing Brain. 3 points.
CC/GS: Partial Fulfillment of Science Requirement
Prerequisites: PSYC UN1001 or PSYC UN1010, or the instructor's permission. Brain development across the life span, with emphasis on fetal and postnatal periods. How the environment shapes brain development and hence adult patterns of behavior.

PSYC UN2610 INTRODUCTION TO PERSONALITY. 3.00 points.
Prerequisites: an introductory psychology course. A survey of the important methods, findings, and theories in the field of personality research.

Spring 2023: PSYC UN2610
Course Number  Section/Call Number  Times/Location  Instructor  Points  Enrollment
PSYC 2610  001/14058  T Th 10:10am - 11:25am  313 Fayerweather  Usha Barahmand  3.00  66/78

PSYC UN2620 ABNORMAL BEHAVIOR. 3.00 points.
Prerequisites: An introductory psychology course. Examines definitions, theories, and treatments of abnormal behavior

Fall 2022: PSYC UN2620
Course Number  Section/Call Number  Times/Location  Instructor  Points  Enrollment
PSYC 2620  001/10040  T Th 4:10pm - 5:25pm  501 Schermerhorn Hall  E'mett McCaskill  3.00  190/189

PSYC UN2630 SOCIAL PSYCHOLOGY. 3.00 points.
Surveys important methods, findings, and theories in the study of social influences on behavior. Emphasizes different perspectives on the relation between individuals and society.

Fall 2022: PSYC UN2630
Course Number  Section/Call Number  Times/Location  Instructor  Points  Enrollment
PSYC 2630  001/10041  T Th 2:40pm - 3:55pm  501 Schermerhorn Hall  Tory Higgins  3.00  106/150

PSYC UN2640 INTRO TO SOCIAL COGNITION. 3.00 points.
Prerequisites: an introductory course in psychology or the instructor's permission. Prerequisite: An introductory psychology course. An introduction to basic concepts in social cognition, an approach to understanding social judgment and behavior by investigating the underlying mental processes. Topics include attitudes, identity, and prejudice, among others.

PSYC UN2650 INTRO TO CULTURAL PSYCHOLOGY. 3.00 points.
Prerequisites: none; some basic knowledge of social psychology is desirable. A comprehensive examination of how culture and diversity shape psychological processes. The class will explore psychological and political underpinnings of culture and diversity, emphasizing social psychological approaches. Topics include culture and social cognition, group and identity formation, psychology of multiculturalism, stereotyping, prejudice, and gender. Applications to real-world phenomena discussed.

PSYC UN2670 Social Development. 3 points.
Prerequisites: PSYC UN1001 or PSYC UN1010, or the equivalent. This lecture course introduces students to the study of typical human social development with a particular focus on genetic, familial and peer influences on the development of social behaviors during early childhood.
PSYC UN2690 Frontiers of Justice. 4.00 points.
Frontiers of Justice is designed to encourage students and equip them with the skills to become active and effective “Change Agents” within their academic institutions and larger communities. Oriented by the question, What does justice look like?, this course aims to raise political and social awareness and engagement with the challenges facing New York City and strengthen ties between Columbia University, disadvantaged communities, and city government agencies and community organizations. Through sharing ideas about how to make structural and systemic change in ways that integrate science, law, politics, history, narrative and community engagement, the course is intended to support students in working to break down racial and ethnic barriers and toward a more fair and just society.

PSYC UN3270 COMPUT APPROACHES-HUMAN VISION. 3.00 points.
This course will be offered in Fall 2016.
Prerequisites: some background in psychology and/or neurophysiology (e.g., PSYC UN1001, PSYC UN1010, PSYC UN2230, PSYC UN2450; BIOL UN3004 or BIOL UN3005) is desirable. See instructor if you have questions about your background. Some background in mathematics and computer science (e.g., calculus or linear algebra, a programming language) is highly recommended.
Prerequisites: some background in psychology and/or neurophysiology (e.g. PSYC UN1001, PSYC UN1010, PSYC UN2230, PSYC UN2450; BIOL UN3004 or BIOL UN3005) is desirable. See instructor if you have questions about your background. Some background in mathematics and computer science (e.g. calculus or linear algebra, a programming language) is highly recommended.

PSYC UN3280 Seminar In Infant Development. 3 points.
Prerequisites: a course in perception, cognition or developmental psychology, and the instructor’s permission.
Analysis of human development during the first year of life, with an emphasis on infant perceptual and cognitive development.

PSYC UN3290 Self: A Cognitive Exploration (Seminar). 4 points.
Not offered during 2022-23 academic year.
Prerequisites: PSYC UN1001 or PSYC UN1010, or the equivalent, plus the instructor's permission.
What does it mean to have a sense of self? Is it uniquely human? Taking a cognitive perspective, we will discuss these questions as well as self-reflective and self-monitoring abilities, brain structures relevant to self-processing, and disorders of self. We will also consider the self from evolutionary, developmental, neuroscience, and psychopathological perspectives.

PSYC UN3445 THE BRAIN AND MEMORY. 4.00 points.
Prerequisites: (PSYC UN1010) or Equivalent introductory course in neuroscience or cognitive psychology and the instructor's permission
Prerequisites: (PSYC UN1010) or Equivalent introductory course in neuroscience or cognitive psychology and the instructors permission This seminar will give a comprehensive overview of episodic memory research: what neuroimaging studies, patient studies, and animal models have taught us about how the brain creates, stores, and retrieves memories

PSYC UN3450 Evolution of Intelligence, Animal Communication, # Language. 3.00 points.
Prerequisites: PSYC UN1001 or PSYC UN1010, and the instructor’s permission.
Prerequisites: PSYC UN1001, and the instructors permission. A systematic review of the evolution language covering the theory of evolution, conditioning theory, animal communication, ape language experiments, infant cognition, preverbal antecedents of language and contemporary theories of language

PSYC UN3481 CRITICAL PERIODS IN BRAIN. 4.00 points.
CC/GS: Partial Fulfillment of Science Requirement
Prerequisites: (PSYC UN1010) or equivalent course in neuroscience or cognitive psychology.
The majority of our mental capacities—ranging from basic sensory functions to more advanced social, emotional and cognitive capabilities—take many years to develop and are highly influenced by environmental signals encountered during particular developmental ‘critical periods’. In this seminar we will explore examples of these periods across diverse brain systems and behaviors, ranging from vision and audition to social, emotional and cognitive development, by considering each example in the context of human brain function and behavior as well as at the level of more detailed neurobiological
mechanisms underlying these changes elucidated by studies using non-human animal systems.

PSYC UN3496 NEUROSCIENCE AND SOCIETY. 3.00 points.
Prerequisites: Science of Psychology (PSYC 1001) or Mind, Brain, # Behavior (PSYC 1010), or equivalent introductory psychology course. Students who have not taken one of these courses may also be admitted with instructor permission. This course investigates the ways in which research in human neuroscience both reflects and informs societal issues. Topics include how neuroscience research is interpreted and applied in areas such as healthcare, education, law, consumer behavior, and public policy

PSYC UN3615 Children at Risk (Lecture). 4 points.
Prerequisites: PSYC UN1010, PSYC UN2280, PSYC UN2620, or PSYC UN2680, and the instructor’s permission. Considers contemporary risk factors in children’s lives. The immediate and enduring biological and behavioral impact of risk factors.

PSYC UN3620 SEM-DEVELOPMNTL PSYCHOPATHOLOGY. 4.00 points.
Prerequisites: at least two of the following courses: (UN1001, UN1010, UN2280, UN2620, UN2680, UN3280) and the instructor's permission. Prerequisites: at least two of the following courses: (UN1001, UN1010, UN2280, UN2620, UN2680, UN3280) and the instructor's permission. Developmental psychopathology posits that it is development itself that has gone awry when there is psychopathology. As such, it seeks to understand the early and multiple factors contributing to psychopathology emerging in childhood and later in life. We will use several models (e.g. ones dominated by biological, genetic, and psychological foci) to understand the roots of mental illness

PSYC UN3621 Creativity and the Good Life. 4 points.
Prerequisites: PSYC UN1001 or equivalent introductory psychology course

Is it possible to make sense of something as elusive as creativity? Yes, it is. This seminar will review the latest science of creativity, and how creativity is relevant to everyday life, society, and the good life. A wide variety of perspectives within the field will be highlighted, including different theories of the creative process and ways of assessing creativity.

PSYC UN3623 TOPICS IN CLINICAL PSYCHOLOGY. 4.00 points.
Prerequisites: (PSYC UN1001) Instructor permission required. Prerequisites: (PSYC UN1001) Instructor permission required. A seminar for advanced undergraduate students exploring different areas of clinical psychology. This course will provide you with a broad overview of the endeavors of clinical psychology, as well as discussion of its current social context, goals, and limitations

PSYC UN3625 CLINICAL NEUROPSYCHOLOGY. 3.00 points.
Prerequisites: an introductory course in neuroscience, like PSYC UN1010 or PSYC UN2450, and the instructor’s permission.
Prerequisites: an introductory course in neuroscience, like PSYC UN1010 or PSYC UN2450, and the instructor's permission. Analysis of the assessment of physical and psychiatric diseases impacting the central nervous system, with emphasis on the relationship between neuropathology and cognitive and behavioral deficits.

PSYC UN3661 Happiness Studies Seminar. 3 points.
The aim of the course is to introduce students to the field of happiness studies. Drawing on research from the field of psychology, systems thinking, psychology, neuroscience, and other disciplines, the course explores key components of personal, interpersonal, and societal happiness.

PSYC UN3680 Social Cognitive Neuroscience (Seminar). 3 points.
Not offered during 2022-23 academic year.
Prerequisites: at least two of the following courses: PSYC UN1001, PSYC UN1010, PSYC UN2630, PSYC UN3410, PSYC UN3480, PSYC UN3485; and the instructor's permission.
An introduction to the emerging interdisciplinary field of social cognitive neuroscience, which examines topics traditionally of interest to social psychologists (including control and automaticity, emotion regulation, person perception, social cooperation) using methods traditionally employed by cognitive neuroscientists (functional neuroimaging, neuropsychological assessment).

PSYC UN3690 The Self in Social Context (Seminar). 4 points.
Prerequisites: PSYC UN1001 or UN1010, or the equivalent, and the instructor's permission.
This course centers on understanding the self embedded in the social context. We will integrate knowledge from various areas of psychology (developmental, cognitive, social cognition) with a main focus in social psychology. This course will provide the opportunity to gain an understanding of research in the following areas: the development of self in a social context, the relationship between the self and the broader socio-cultural context, the impact of self-involvement on social/cognitive processes, and contemporary research on individual differences.

PSYC UN3691 Interpersonal Cognition Seminar: Close Relationships, Identity, and Memory. 4 points.
Prerequisites: PSYC UN2630 or PSYC UN2640 Instructor permission.1 course in research methods.
What makes people ‘click’? How does interpersonal closeness develop? How do close relationships influence our thought processes, behaviors, and identities? How do our conversations with relationship partners change our memories of events and our perceptions of reality? And finally, what are the implicit and explicit cognitive mechanisms underlying these processes?
The primary objective of this course will be to provide you with the relevant literature, theoretical background, methodological proficiency, and critical thinking and communication skills to articulate your own answers to these questions, and to propose future studies in the field.

PSYC UN3910 HONORS SEMINAR. 1.00 point.
Prerequisites: open to students in the honors program only. Discussion of a variety of topics in psychology, with particular emphasis on recent developments and methodological problems. Students propose and discuss special research topics.

PSYC UN3920 HONORS RESEARCH. 1.00-4.00 points.
May be repeated for additional credit.
Prerequisites: open to students in the honors program only. Prerequisites: open to students in the honors program only. Except by special permission of the director of undergraduate studies, no more than 4 points of individual research may be taken in any one term. This includes both PSYC UN3950 and PSYC UN3920. No more than 12 points of PSYC UN3920 may be applied toward the honors program in psychology. Special research topics arranged with the instructors of the department leading toward a senior honors paper.

PSYC UN3950 SUPERVISED INDIVIDUAL RESEARCH. 1.00-4.00 points.
1-4 points. May be repeated for credit. Prerequisites: the instructors permission. Except by special permission of the director of undergraduate studies, no more than 4 points of individual research may be taken in any one term. This includes both PSYC UN3950 and PSYC UN3920. No more than 8 points of PSYC UN3950 and PSYC UN3920 may be applied toward the psychology major, and no more than 4 points toward the concentration.
Readings, special laboratory projects, reports, and special seminars on contemporary issues in psychological research and theory.

### PSYC GU4202 Theories of Change in Human Development. 4.00 points.

What are the agents of developmental change in human childhood? How has the scientific community graduated from nature versus nurture, to nature and nurture? This course offers students an in-depth analysis of the fundamental theories in the study of cognitive and social development.

### PSYC GU4222 The Cognitive Neuroscience of Aging (Seminar). 4 points.

Prerequisites: courses in introductory psychology and cognitive psychology; and the instructor's permission.

Comprehensive overview of various conceptual and methodologic approaches to studying the cognitive neuroscience of aging. The course will emphasize the importance of combining information from cognitive experimental designs, epidemiologic studies, neuroimaging, and clinical neuropsychological approaches to understand individual differences in both healthy and pathological aging.
PSYC GU4223 MEMORY # EXEC FUNCT: LIFESPAN. 4.00 points.
Prerequisites: the instructor’s permission, plus PSYC UN1001 or PSYC UN1010, or the equivalent. Optimal preparation will include some background in experimental design and statistics. Prerequisites: the instructors permission, plus PSYC UN1001 or PSYC UN1010, or the equivalent. Optimal preparation will include some background in experimental design and statistics. Memory and executive processing are critical cognitive functions required for successfully navigating everyday life. In lifespan studies, both exhibit relatively long developmental trajectories followed by stasis and then relative decline in old age. Yet, neither memory nor executive function is a unitary construct. Rather, each is comprised of separable components that may show different developmental trajectories and declines or maintenance at older ages. Moreover, memory is malleable and is a reconstruction of past experience, not an exact reproduction. We will discuss a range of topics related to the development, maintenance and potential decline in memory and executive function from infancy through old age.

PSYC GU4224 Consciousness and Cognitive Science. 4.00 points.
Our human experience is rich: the thrill of falling in love, the spark of a new idea, the zing of table salt, the sharpness of pain. For thousands of years, philosophers, artists, and religious scholars have tried to explain our subjective experience. More recently, neuroscientists and artificial intelligence experts have contributed to this discussion, weighing in on whether we are “more than meat” (as Descartes famously put it), and whether computers can ever be sentient. In this class, we will begin with the big questions and an interdisciplinary overview of consciousness, then delve into psychology’s role. Using literature from perception, memory, emotion, metacognition, attention, and symbolic development, among other areas of psychology, we will see what empirical evidence can tell us about who we are, what we are able to know, and why we even have an experience of the world at all.

PSYC GU4225 CONSCIOUSNESS # ATTENTION. 4.00 points.
Prerequisites: the instructor's permission; some basic knowledge of cognitive science and neuroanatomy is desirable, but not necessary. Modern theories attempt to characterize the human mind in terms of information processing. But machines that process information do not seem to feel anything; a computer may for instance receive inputs from a video camera, yet it would be hard to imagine that it sees or experiences the vividness of colors like we do. Nobody has yet provided a convincing theory as to how to explain the subjective nature of our mental lives in objective physical terms. This is called the problem of consciousness, and is generally considered to be one of the last unsolved puzzles in science. Philosophers even debate whether there could be a solution to this problem at all. Students in this course may be recruited for participation in a voluntary research study. Students who choose not to participate in the study will complete the same course requirements as those who do, and an individual's choice will not affect their grade or status as a student in the course.

200 Schermerhorn Spagna Hall

PSYC GU4229 ATTENTION AND PERCEPTION. 4.00 points.
CC/GS: Partial Fulfillment of Science Requirement
Prerequisites: (PSYC UN1010) or Equivalent introductory course in neuroscience or cognitive psychology
Prerequisites: (PSYC UN1010) or Equivalent introductory course in neuroscience or cognitive psychology This seminar aims to provide an in-depth overview of neuroscientific knowledge regarding two critical cognitive functions: attention and perception. For each topic, results from behavioral studies are combined with those from recent neurocognitive approaches – primarily neuropsychological and functional brain imaging studies – that reveal the underlying neural networks and brain mechanisms.

PSYC GU4232 Production and Perception of Language. 4 points.
Prerequisites: two courses in Psychology and the instructor's permission.
Topics include phonetic expression, motoric and perceptual organization, speech codes and memory codes, spoken word recognition, phrase formation, and the effects of context in perception and production.

PSYC G4230 Sensation and Perception (Seminar). 3 points.
Not offered during 2022-23 academic year.
Prerequisites: the instructor's permission; some background in perception is required.
Topics on the perception of space. Discussions, reviews, and recent literature.

PSYC GU4235 SPECIAL TOPICS IN VISION. 3.00 points.
This course will be offered in Fall 2016. May be repeated for additional credit.
Prerequisites: the instructor's permission. Please contact Prof. Graham by e-mail (nvgl@columbia.edu) if you are interested in this course.
Prerequisites: the instructors permission. Please contact Prof. Graham by e-mail (nvgl@columbia.edu) if you are interested in this course.

763
PSYC GU4236 Machine Intelligence. 4.00 points.  
CC/GS: Partial Fulfillment of Science Requirement  
This course will survey historical and modern developments in machine intelligence from fields such as psychology, neuroscience, and computer science, and from intellectual movements such as cybernetics, artificial intelligence, neural networks, connectionism, machine learning, and deep learning. The emphasis is on the conceptual understanding of topics. The course does not include, nor require background in, computer programming and statistics. A crucial aspect of the seminar is for students to become informed consumers of applications of artificial intelligence  
Fall 2022: PSYC GU4236

PSYC GU4242 Evolution of Language (seminar). 3.00 points.  
Prerequisites: PSYC UN1001 or This seminar will consider the evolution of language at the levels of the word and grammar, in each instance, phylogenetically and ontogenetically. Since humans are the only species that use language, attention will be paid to how language differs from animal communication.  
Spring 2023: PSYC GU4242  
Course Number  Section/Call Number  Times/Location  Instructor  Points  Enrollment  
PSYC 4242  001/14099  T 2:10pm - 4:00pm  405 Schermerhorn Hall  Herbert  3.00  10/12  

PSYC GU4244 LANGUAGE AND MIND. 4.00 points.  
CC/GS: Partial Fulfillment of Science Requirement  
Prerequisites: PSYC UN1001 and Preferably, an additional course in psychology, focusing on cognition, development, or research methods. Instructor permission required.  
Prerequisites: PSYC UN1001 and Preferably, an additional course in psychology, focusing on cognition, development, or research methods. Instructor permission required. This seminar explores the relationship between language and thought by investigating how language is mentally represented and processed; how various aspects of language interact with each other; and how language interacts with other aspects of cognition including perception, concepts, world knowledge, and memory. Students will examine how empirical data at the linguistic, psychological, and neuroscientific levels can bear on some of the biggest questions in the philosophy of mind and language and in psychology  
PSYC GU4250 Evolution of Intelligence, Cognition, and Language (Seminar). 3 points.  
Prerequisites: PSYC UN1001 or PSYC UN1010 or the equivalent, based on instructor assessment, plus one of the instructors’ permission. How did language evolve and why are human beings the only species to use language? How did the evolution of social intelligence, in particular, cooperation, set the stage for the origin of language and consciousness? We will explore how psychologists, philosophers, neuroscientists, anthropologists, biologists and computational scientists, among others, have collaborated during recent years to produce important insights in the evolution of intelligence, consciousness and language.  
PSYC GU4265 AUDITORY PERCEPTION. 3.00 points.  
Prerequisites: PSYC UN1010 PSYC UN1010 or equivalent; background in statistics/research methods recommended  
Prerequisites: PSYC UN1010 PSYC UN1010 or equivalent; background in statistics/research methods recommended How does the human brain make sense of the acoustic world? What aspects of auditory perception do humans share with other animals? How does the brain perform the computations necessary for skills such as sound localization? How do we focus our auditory attention on one voice in a crowd? What acoustic cues are important for speech perception? How is music perceived? These are the types of questions we will address by studying the basics of auditory perception from textbook readings and reviews, and reading classic and current literature to understand scientific progress in the field today  
PSYC GU4270 COGNITIVE PROCESSES. 3.00 points.  
Prerequisites: For undergraduates: one course in cognitive psychology or cognitive neuroscience, or the equivalent, and the instructor’s permission.  
Prerequisites: For undergraduates: one course in cognitive psychology or cognitive neuroscience, or the equivalent, and the instructors permission. Metacognition and control processes in human cognition. Basic issues include the cognitive mechanisms that enable people to monitor what they know and
predict what they will know, the errors and biases involved in self-monitoring, and the implications of metacognitive ability for peoples self-determined learning, behavior, and their understanding of self

PSYC GU4280 Core Knowledge. 4.00 points.
Prerequisites: For undergraduates: courses in introductory psychology, cognitive or developmental psychology, and the instructor's permission.
Prerequisites: For undergraduates: courses in introductory psychology, cognitive or developmental psychology, and the instructors permission. Core Knowledge explores the origins and development of knowledge in infants and children, with an additional emphasis on evolutionary cognition. In this course, we will examine evidence from cognitive psychology, developmental psychology, comparative psychology, neuroscience, and linguistics to look at the children conception of objects, number, space, language, agency, morality and the social world. We will look at which aspects of knowledge are uniquely human, which are shared with other animals, and how this knowledge changes as children develop

PSYC GU4280 The Psychology of Curiosity. 4.00 points.
CC/GS: Partial Fulfillment of Science Requirement
Prerequisites: PSYC UN1001 or equivalent introductory psychology course
Prerequisites: PSYC UN1001 or equivalent introductory psychology course What is curiosity and how do we study it? How does curiosity facilitate learning? This course will explore the various conceptual and methodological approaches to studying curiosity and curiosity-driven learning, including animal and human studies of brain and behavior

PSYC GU4282 The Neurobiology and Psychology of Play. 4 points.
CC/GS: Partial Fulfillment of Science Requirement
Play is a highly rewarding activity that is considered critical to cognitive, social, and emotional development. How do we define play and how do we study it? How does play help humans and other animals learn about their world and prepare them for adulthood? This course will examine the latest developments in the field of play from various methodological approaches to understand the relationship between play, learning, and normative development.
Prerequisites: (PSYC UN1010) or equivalent introductory course in neuroscience or cognitive psychology

Prerequisites: (PSYC UN1010) or equivalent introductory course in neuroscience or cognitive psychology. The past decade has produced an extraordinary amount of evidence that challenges the classic view of a “medial temporal lobe memory system”, namely, the idea that the medial temporal lobe plays a necessary role in long-term memory but not other cognitive functions. This course will introduce these challenges to the traditional perspective by exploring functions of the so-called memory system in domains outside of long-term memory.

PSYC GU4480 PSYCHOBIOLOGY OF INFANT DEVPT. 4.00 points.

Prerequisites: (PSYC UN1001 or PSYC UN1010) and a course in developmental psychology, and the instructor's permission.

Prerequisites: (PSYC UN1001 or PSYC UN1010) and a course in developmental psychology, and the instructors permission. The focus of the seminar is on human development during the fetal period and early infancy. We will examine the effects of environmental factors on perinatal perceptual, cognitive, sensory-motor, and neurobehavioral capacities, with emphasis on critical conditions involved in both normal and abnormal brain development. Other topics include acute and long term effects of toxic exposures (stress, smoking, and alcohol) during pregnancy, and interaction of genes and the environment in shaping the developing brain of high-risk infants, including premature infants and those at risk for neurodevelopmental disorders such as Sudden Infant Death Syndrome.

PSYC GU4486 Developmental and Affective Neuroscience (Seminar). 4 points.

Prerequisites: courses in developmental psychology, and either research methods or affective neuroscience, and the instructor's permission. Introduction to leading theoretical perspectives employed by developmental psychologists in the study of affective neuroscience. Exploration of the developmental brain and behavior relationships in humans and animal models of typical and atypical emotional behavior, with a critical reading of recent research findings in the field.

PSYC GU4490 Inheritance (Seminar). 4 points.

Prerequisites: basic knowledge of biology and neuroscience recommended; the instructor's permission required. Explores the concept of inheritance and the mechanisms through which inheritance is mediated. Will focus on the generational transmission of physiology and behavior, but will also consider the inheritance of culture and language.

PSYC GU4491 The Parental Brain. 4.00 points.

This course will provide an overview of the field of parental and social biology, with an emphasis on changes in the adult rodent brain surrounding childbirth and caretaking behavior. We will explore how the experience of parenthood prepares the brain for survival of offspring. We will also discuss
the dynamic between caregivers and parents in order to provide the structure necessary to rear young. This course will illustrate the fortitude of molecular, behavioral and circuit level investigations in concert to unveil mechanisms of social learning.

Fall 2022: PSYC GU4911
Course Number: 4911
Section/Call Number: 001/13875

Times/Location: F 2:10pm - 4:00pm
Instructor: Jennifer Blaze
Hall 200c Schermerhorn

PSYC GU4612 Frontiers of Justice. 4.00 points.
Frontiers of Justice is designed to encourage students and equip them with the skills to become active and effective “Change Agents” within their academic institutions and larger communities. Oriented by the question, What does justice look like?, this course aims to raise political and social awareness and engagement with the challenges facing New York City and strengthen ties between Columbia University, disadvantaged communities, and city government agencies and community organizations. Through sharing ideas about how to make structural and systemic change in ways that integrate science, law, politics, history, narrative and community engagement, the course is intended to support students in working to break down racial and ethnic barriers and toward a more fair and just society.

Fall 2022: PSYC GU4612
Course Number: 4612
Section/Call Number: 001/10352
Times/Location: M 4:10pm - 6:00pm
Instructor: Ayanna Sorett
Hall 405 Schermerhorn

PSYC GU4615 PSYCH OF CULTURE & DIVERS. 4 points.
PSYC GU4627 Seminar in Anxiety, Obsessive-Compulsive, and Related Disorders. 4.00 points.
CC/GS: Partial Fulfillment of Science Requirement
Prerequisites: PSYC UN1001 or Equivalent introductory course AND PSYC UN2620 Abnormal Psychology or equivalent course in abnormal psychology strongly preferred.
This seminar course will focus on the etiology and phenomenology of anxiety disorders, obsessive-compulsive disorder (OCD), and OCD-related disorders, as well as their evidence-based treatments.

PSYC GU4630 ADV SEM CURRENT PERS THRY. 3.00 points.
Open to psychology graduate students and advanced undergraduate psychology majors.
Prerequisites: the instructor’s permission.
Critical review and analysis of basic and enduring issues in personality theory, assessment, and research.

Spring 2023: PSYC GU4630
Course Number: 4630
Section/Call Number: 001/14109
Times/Location: M 10:10am - 12:00pm
Instructor: Svetlana Komissarouk
Hall 405 Schermerhorn

PSYC GU4635 The Unconscious Mind (Seminar). 4 points.
Prerequisites: the instructor's permission; some basic knowledge of social psychology is desirable.
Discussion of the unconscious mind from the perspective of social cognition, with an emphasis on both theoretical and empirical background, as well as current issues in measuring automatic processing. Topics include: implicit memory systems; unconscious attitudes, goals and behavior, emotions,
and decision making; the activation and deactivation of knowledge systems; and priming.

**PSYC GU4645 CULTR,MOTIVATN,PROSOCIAL BEHAV. 4.00 points.**
Prerequisites: Some knowledge of Research Methods, Statistics, and Social Psychology, plus Instructors Permission. Reviews and integrates current research on three important topics of social psychology: culture, motivation, and prosocial behavior. Discussions and readings will cover theoretical principles, methodological approaches, and the intersection of these three topics. Students will write a personal research proposal based on the theories presented during the seminar.

**Fall 2022: PSYC GU4645**

**PSYC GU4670 THRY-SOCIAL/PERSONALITY PSYCH. 3.00 points.**
Prerequisites: the instructor's permission.
Prerequisites: the instructors permission. Comparison of major theoretical perspectives on social behavior. The nature of theory construction and theory testing in psychology generally. Exercises comparing the predictions of different theories for the same study are designed to acquire an appreciation of how to operationalize theories and an understanding of the various features of a good theory.

**PSYC GU4672 MORAL PSYCHOLOGY. 4.00 points.**
Prerequisites: Two courses in psychology, including at least one course with a focus on research methods and/or statistics, and permission of the instructor.
Prerequisites: Two courses in psychology, including at least one course with a focus on social and/or developmental psychology, and permission of the instructor. Review of theories and current research on moral cognition and behavior. Topics include definitions of morality, the development of moral cognition, the role that other aspects of human experience (e.g. emotion, intentions) play in moral judgments, and the relationship between moral psychology and other areas of study (e.g. religious cognition, prejudice and stereotyping, the criminal justice system).

**PSYC GU4673 Political Psychology. 4 points.**
This seminar will explore what psychology (mostly social and cognitive) can tell us about politics. The class aims to provide a broad introduction to ideas and methods in the field of political psychology, as well as a deep understanding of a few specific topics.

**PSYC GU4682 FAQS ABOUT LIFE:APPL OF PSYC RSCH TO EVE. 4.00 points.**
Prerequisites: Two courses in psychology, with at least one focusing on statistics and/or research methods in psychology, and permission of the instructor.
Prerequisites: Two courses in psychology, with at least one focusing on statistics and/or research methods in psychology, and permission of the instructor. Review of basic psychological research that is relevant to questions people frequently encounter during the course of everyday life. Potential topics for this seminar include research on decision-making, emotion, and/or interpersonal relationships.

**PSYC GU4685 SOCIAL COGNITIVE NEUROSCIENCE. 3.00 points.**
Prerequisites: for graduate students, course equivalents of at least two of the following courses: PSYC UN1001, PSYC UN1010, PSYC UN2630, PSYC UN3410, PSYC UN3480, and PSYC UN3485; and/or the instructor's permission.
An introduction to the emerging interdisciplinary field of social cognitive neuroscience, which examines topics traditionally of interest to social psychologists (including control and automaticity, emotion regulation, person perception, social cooperation) using methods traditionally employed by cognitive neuroscientists (functional neuroimaging, neuropsychological assessment).

**PSYC GU4686 Barriers and Levers for Behavior Change. 4 points.**
Prerequisites: (PSYC UN1001 or PSYC UN1010) and prior coursework in research methods/statistics. A prior course related to social, applied, and cultural psychology or decision making will also be helpful.
Seminar course exploring individual, social, and cultural barriers and levers for behavior change, with a focus on social issues, such as motivating pro-environmental action, encouraging positive health behavior change, and promoting charitable giving.

**PSYC GU4690 SOCIAL FACTORS # PSYCHOPATHLGY. 3.00 points.**
Prerequisites: the instructor's permission.
Prerequisites: the instructors permission. Reviews and integrates current research on the role of social factors in psychopathology. The immediate and long-term effects of chronic and traumatic stressors originating outside the family (e.g. natural disasters, chronic poverty) and inside the family (e.g. family violence, divorce, parental psychopathology) on psychopathology.

**PSYC GU4695 Psychology of Close Relationships (Seminar). 3 points.**
Prerequisites: Research Methods, statistics, social psychology, and the instructor's permission.
Introduction to leading theoretical perspectives employed by social psychologists in the study of close romantic relationships. Exploration of relationship-relevant constructs (e.g., love, commitment, intimacy, breakups) through the lenses offered by these different theories, and with a critical reading of recent research findings in this field.
PSYC GU4880 In Service of Equity: Examining Developmental Science through the Lens of Policy. 4.00 points.
Urie Bronfenbrenner (1974) wrote, “We have now come the full circle and returned to our starting point—issues of social policy as points of departure for the identification of significant theoretical and scientific questions concerning the development of the human organism as a function of interaction with its enduring environment—both actual and potential.” This course is designed to examine emotional and cognitive development through the lens of existing financial, social, and educational policies. We will examine the influence on child development - of inequities in education, household socioeconomic status and poverty, neighborhood socioeconomic status and poverty, access to prenatal care, parental incarceration rates, and systemic racism.

PSYC GU4930 Fundamentals of Human Brain Imaging: from theory to practice. 4.00 points.
CC/GS: Partial Fulfillment of Science Requirement

Fundamentals of human brain imaging is a new advanced course open to undergraduates students from the Psychology, Neuroscience, Engineering, and Statistics Departments, that traces the key steps of the recent “neuroimaging revolution”, and introduces the various methodologies and associated analytic approaches that are now available in the field of cognitive neuroscience. Specifically, the course develops around three main questions, currently under-represented in our undergraduate curriculum: 1) What is the advantage to study human cognition using correlational methodologies (e.g., EEG, MEG, fMRI)? 2) Which is the particular contribution of each method in the understanding of brain/behavior relationship? 3) Which are the most common ways to approach the analyze the neuroimaging data? By promoting an inclusive environment and implementing active learning strategies, this course stimulates critical thinking and fosters collaboration among students from different departments.

Language Requirement: Two years or demonstrated reading knowledge of one of the following languages: Czech, Hungarian, Polish, Romanian, Russian, Bosnian/Croatian/Serbian, or Ukrainian.

The regional studies major is designed to give undergraduates the general mastery of a discipline and at the same time permit them to do specialized work in the history and cultures of a particular geographic area through the associated institutes of the Faculty of Arts and Sciences. It is an interdisciplinary major in which students divide their work between the associated institute and an appropriate academic department. Students plan their programs with the consultant of the associated institute they have selected.

MAJOR IN REGIONAL STUDIES

The major in regional studies requires a minimum of 36 points, of which 18 must be credited by the associated institute, i.e. East Central European Center, and an additional 18 must be in one of the College departments designated as relevant by the institute. Six points of seminar work approved by the institute are required of all majors and are included in the total of 36 points.

Language Study

Courses taken to satisfy the institute’s language requirement are not counted toward the 18 institute points.

A current list of courses available to students interested in East Central European studies can be obtained from the Center, 1228 International Affairs Building.

RELIGION

Departmental Office: Room 103, 80 Claremont; 212-851-4122
http://www.columbia.edu/cu/religion

Director of Undergraduate Studies: Professor Courtney Bender, 80 Claremont; 212-851-4134; cb337@columbia.edu

The Religion Department's curriculum is designed to engage students in critical, comparative, and interdisciplinary exploration of religious life. The faculty's research and teaching build upon the shared understandings that religion continues to be a central and influential component of human life, society, and politics—and that, furthermore, religious transmission and authority are constantly being shaped in dynamic interactions with other religious traditions, societies, and cultures. Courses and seminars in religion teach students how to analyze and investigate religious texts, histories, beliefs, bodies, and communities using a variety of disciplinary and methodological approaches.

Students are also encouraged to conduct their studies by exploring one or more zone of inquiry. These are focus areas that integrated in the departmental curriculum and
Religion complement the tradition-based approaches. They provide broad and alternative frames that aim to identify problems, chart trajectories cutting across different field specialties, and set parameters for theoretical and methodological questions. The zones are: Time (History, Modernity), Transmission (Tradition, Memory, Institutions), Space (Place, Geography, Virtual Space), Body (Materiality, Mind, Bio-ethics), and Media (Transportation, Information, Communication).

Majors and concentrators in religion gain both a foundation in the study of religious traditions in historical contexts and zones of inquiry, all grounded in theoretical and methodological debates that shape academic and public discussions about religion. Lecture courses, seminars, and colloquia are designed to balance students’ growing understanding of particular religious topics, dynamics, and traditions with intensive engagement with critical theoretical, political, and philosophical debates. Students are encouraged to pursue a course of study in which they develop breadth and depth, as well as the tools and expertise to pose (and even answer) necessary questions about religious phenomena of the past or present.

As the study of religion is truly interdisciplinary, students find their work in the department enhanced by their coursework in the College’s Core curriculum and in related departments. Many religion courses are listed in the College’s Global Core requirement, and numerous religious works are central texts in Literature Humanities and Contemporary Civilization. Majors and concentrators are required to take courses outside of religion in related fields to expand their vision of approaches to religion.

In addition, the University’s wide offerings in the languages of various religious traditions (including Arabic, Chinese, Greek, Hebrew, Japanese, Persian, Latin, Sanskrit, and Tibetan) augment many students’ abilities to conduct research in religion. Students likewise are actively encouraged to explore the world-renowned archival resources within Columbia’s libraries (including the Rare Book and Manuscript Room, the Burke Library at Union Theological Seminary, the C.V. Starr East Asian Library), and to explore and investigate the equally wide range of living religious communities represented in New York’s global neighborhoods.

Prospective majors should first arrange to meet with the Director of Undergraduate Studies. All students are then allocated a faculty adviser, and must submit a copy of the Declaration of Major form to the director of undergraduate studies. After agreeing upon a plan for the major or concentration, students must obtain final approval and confirmation from the Director of Undergraduate Studies.

GUIDELINES FOR ALL RELIGION MAJORS AND CONCENTRATORS

Major in Religion

All majors are encouraged to pursue both depth and breadth by constructing a program of study in consultation with the Director of Undergraduate Studies. The program should include courses in a variety of religious traditions. Students who write a senior thesis may include a term of individually supervised research as one of the courses for their major.

Courses

For the major the following 9 courses are required:

• 1 gateway course (1000 level)
• 2 introductory courses (2000 level)
• 2 intermediate courses (3000 level)
• 2 seminars (4000 level)
• 1 additional course at any level
• RELI UN3199 Theory(formerly Juniors Colloquium)

Concentration in Religion

To be planned in consultation with the Director of Undergraduate Studies and with a member of the faculty in an area in which the student has a particular interest. The program should include some study in a breadth of religious traditions.

Courses

For the concentration the following 7 courses are required:

• 1 gateway course (1000 level)
• 2 introductory courses (2000 level)
• 2 intermediate courses (3000 level)
• 1 seminar (4000 level)
• RELI UN3199 Theory

DEPARTMENTAL HONORS

Students who write a senior thesis and maintain a GPA of 3.66 or above in the major may be considered for departmental honors. Writing a senior thesis qualifies a student for consideration for departmental honors but does not assure it. Normally no more than 10% of graduating majors receive departmental honors in a given academic year.

COURSE NUMBERING

Courses are numbered by level and type:

1000-level: Gateway lecture course
2000-level: Introductory and “traditions” lectures
3000-level: Intermediate lecture
4000-level: Seminar

and Zone:

x100-199: Theory (RELI UN3199)
x200-299: Time (zone)
x300-399: Transmission (zone)
x400-499: Space (zone)
x500-599: Body (zone)
x600-699: Media (zone)

GUIDELINES FOR ALL RELIGION MAJORS AND CONCENTRATORS
Senior Thesis
Many students choose to write a senior honors thesis in order to pursue an advanced topic in greater depth, or to work on a particular area of interest with one of their professors. This opportunity is available to all students who major in the department, regardless of GPA, and serves for many as their undergraduate capstone experience.

Students who write a senior thesis may apply for up to 3 points of directed reading with their thesis adviser. The deadline for application for the honors thesis in religion is the last day of exams in the student's junior spring term, and must be submitted for approval to the director of undergraduate studies. The application must include both a prospectus for the paper and a letter of support by the faculty member who has agreed to direct the thesis. The prospectus (5-7 pages) should detail a research program and the central question(s) to be pursued in the paper, preparation for the thesis, and a timeline. The primary adviser of the thesis must be a member of the Religion Department faculty.

Many students find that identifying a thesis project earlier in the junior year, in conjunction with the Juniors colloquium, presents an opportunity to develop a proposal in advance of deadlines for summer research funding from various sources, including the undergraduate schools and the Institute for Religion Culture and Public Life.

Grading
Courses in which a grade of D has been received do not count toward the major or concentration requirements.

MAJOR IN RELIGION
All majors are encouraged to pursue both depth and breadth by constructing a program of study in consultation with the Director of Undergraduate Studies and with a member of the faculty in an area in which they have particular interest. The program should include courses in a variety of religious traditions. Students who write a senior thesis may include a term of individually supervised research as one of the courses for their major.

For the major the following 9 courses are required:
- 1 gateway course (1000 level)
- 2 introductory courses (2000 level)
- 2 intermediate courses (3000 level)
- 2 seminars (4000 level)
- 1 additional course at any level
- RELI UN3199 Theory (formerly Juniors Colloquium)

CONCENTRATION IN RELIGION
To be planned in consultation with the Director of Undergraduate Studies and with a member of the faculty in an area in which the student has a particular interest. The program should include some study in a breadth of religious traditions.

For the concentration the following 7 courses are required:
- 1 gateway course (1000 level)
- 2 introductory courses (2000 level)
- 2 intermediate courses (3000 level)
• 1 seminar (4000 level)
• RELI UN3199 Theory

**SPRING 2023**

**RELI UN2304 CHRISTIANITY. 3.00 points.**
Survey of Christianity from its beginnings through the Reformation. Based on lectures and discussions of readings in primary source translations, this course will cover prominent developments in the history of Christianity. The structure will allow students to rethink commonly held notions about the evolution of modern Christianity with the texture of historical influence.

**RELI UN2312 Religion and Nasty Women. 4.00 points.**

Used in 2016 by then presidential candidate, Donald Trump, in reference to his female opponent, Hillary Clinton, the phrase “nasty woman” has become a badge of honor and a rallying cry for women’s empowerment. The origin of the word “nasty,” attested in the 14th century, indicates highly unpleasant qualities—nauseating or unclean, in a literal or figurative way. It also came to evoke indecency and obscenity—and religious traditions have a long history of such depiction of women. After introducing some key texts on the otherness and objectification of women (including by Aristotle, Beauvoir, Kristeva, Nussbaum, and Butler), we will examine a number of female characters—goddesses, prostitutes, and virgins—in the Mesopotamian, Greek, Jewish, Christian, Buddhist, Hindu, and Islamic corpus that fit the definition of nasty. We will also analyze some of the underlying tropes of impurity and danger that characterize nastiness involving bodily fluids, sexuality, and knowledge. Spanning theology, literature, movies, and popular culture the course aims to be a survey of religious-based misogyny as well as women’s responses in their pursuit of agency.

**RELI UN2405 CHINESE RELIGIOUS TRADITIONS. 4.00 points.**

CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

This course provides a chronological and thematic introduction to Chinese religions from their beginnings until modern times. It examines distinctive concepts, practices and institutions in the religions of China. Emphasis will be placed on the diversity and unity of religious expressions in China, with readings drawn from a wide-range of texts: religious scriptures, philosophical texts, popular literature and modern historical and ethnographic studies. Special attention will be given to those forms of religion common to both “elite” and “folk” culture: cosmology, family and communal rituals, afterlife, morality and mythology. The course also raises more general questions concerning gender, class, political patronage, and differing concepts of religion.

RELI UN3625 Hippie Physics, Counterculture, Cyberculture. 3.00 points.
The world inside your smartphone may not be all that it seems. Everything from your e-banking app to your TikTok algorithm can be traced back to the Woodstock-going, acid-taking, love (not war)-making attitude that permeated the youth (in spite of the generations before) in counterculture America. Today’s technosphere grew out of the convergence of the post-World War II and Cold War military-industrial complex and the 1960s counterculture. Resistance to the war in Viet Nam, the Civil Rights movement, and the spread of Buddhist thought created social unrest and political disorder. (Almost) simultaneously, a counter counterculture emerged – conservative Christians joined forces with right wing and libertarian politicians to resist sex, drugs, and rock-and-roll, and promote a religiously, politically, and racially “purified” America. Sound familiar? In the midst of this turmoil, groups of physicists who had dropped out (but not necessarily tuned in) gathered in San Francisco and Palo Alto garages to create a technological revolution that continues to transform the world. This course will explore this seminal period through a consideration of music, films, and books of this era, as well as the technological and philosophical implications that quantum physics has on our society and culture today.

RELI GU4216 Religion and Capitalism: Faith and the American Market. 4.00 points.
Is the market a religious system? Can we consider "capitalism" to be a key arena in which the relationship between the religious and the secular is both negotiated and performed? In this course, students will explore the complicated relationship between faith and the market, the religious and the secular, and the evolution of vice and virtue as they relate to economic thriving in the United States. While no hard and fast rules for thinking about the relationship between right conduct and material interests cut across all religious and philosophical traditions, human agents invest real faith into currency, into markets, and into the reigning economic order to bring about increased opportunities, wealth, and freedom to people across the globe. Throughout this semester, we will chart both the long shadows and the future trajectories of these beliefs from our American perspective.

**RELI GU4255 Hegel, Information, “Artificial” Intelligence. 4.00 points.**

The development of high-speed computers, artificial neural networks, miniaturized sensors, mobile phones, and Big Data has created the conditions for the transformation of artificial intelligence. These changes are not only transforming the world but are also recasting long-standing distinctions like nature/culture, natural/artificial, body/mind, complexity/simplicity, and organism/machine that have shaped human thought and life for centuries. This refiguring of opposites as irreducibly interrelated was anticipated by Kant’s notion of self-organization and developed systematically by Hegel. This course will approach current forms of artificial intelligence through Kant’s interpretation of self-organization and Hegel’s dialectical logic and will reread Hegel’s system through “natural” and “artificial” neural networks, complex systems, and information theory. If nature and culture are inextricably interrelated, then is “artificial” intelligence really artificial, and is “nature” every merely natural? What are the implications of these developments for the understanding of human “nature” that has shaped the Anthropocene since the time of Galileo, Newton, and Descartes?

**RELI GU4326 SUFISM IN SOUTH ASIA. 4.00 points.**

Sufism or tassawuf has misleadingly been described as the mystical side of Islam, implying that it is somehow detached from the material world. Throughout the history of Islam, Sufi ideas, practices, and institutions have borne a complex, intimate, and sometimes fraught relationship with other aspects of Islamic tradition and practice, a relationship that has also been profoundly impacted by Orientalist scholarship in the colonial period and by global reformist currents in the postcolonial period. This seminar for advanced undergraduates and graduate students is an interdisciplinary investigation of how Sufism has been affected by the historical, sociocultural, political, and everyday environments in which it is experienced and practiced, with a particular focus on South Asia. Eclectic in approach, we will begin by considering how Sufism has been construed and even constructed by scholars, considering how modern notions of the self, religion, and the political have shaped scholarly understandings of what Sufism is. Focusing on bodily practices and well known individual Sufis who lived in South Asia during different historical periods, we will use them as a vehicle for understanding Sufi experience within the context of the evolving Sufi orders within specific local spaces. We will consider why Sufism has become such a target of controversy and ambivalence among Muslims in the modern world and trace some of the changing controversies and

**RELI GU4565 Women and Islam. 4.00 points.**

This course is a comprehensive engagement with Islamic perspectives on women with a specific focus on the debates about woman’s role and status in Muslim societies. Students will learn how historical, religious, socio-economic and political factors influence the lives and experiences of Muslim women. A variety of source materials (the foundational texts of Islam, historical and ethnographic accounts, women’s and gender studies scholarship) will serve as the framework for lectures. Students will be introduced to women’s religious lives and a variety of women’s issues as they are reported and represented in the works written by women themselves and scholars chronicling women’s religious experiences. We will begin with an overview of the history and context of the emergence of Islam from a gendered perspective. We will explore differing interpretations of the core Islamic texts concerning women, and the relationship between men and women: who speaks about and for women in Islam? In the second part of the course we will discuss women’s religious experiences in different parts of the Muslim world. Students will examine the interrelationship between women and religion with special emphasis on the ways in which the practices of religion in women’s daily lives impact contemporary societies. All readings will be in English. Prior course work in Islam or women’s studies is recommended, but not required.

RELIGION, RELIGION, FUTURE. 4.00 points.

This seminar will examine the history of the impact of technology and media on religion and vice versa before bringing into focus the main event: religion today and in the future. Well read the classics as well as review current writing, video and other media, bringing thinkers such as Eliade, McLuhan, Mumford and Weber into dialogue with the current writing of Kurzweil, Lanier and Taylor, and look at, among other things: ethics in a Virtual World; the relationship between Burning Man, a potential new religion, and technology; the relevance of God and The Rapture in Kurzweils Singularity; and what will become of karma when carbon-based persons merge with silicon-based entities and other advanced technologies.

FALL 2022

RELIG UNI320 Losing My Religion. 3.00 points.

The R.E.M. lead singer Michael Stipe explained that the phrase “losing my religion” in the song of the same title does not refer to what we might commonly understand by “religion.” Rather it cites the expression used in the Southern U.S. for losing one’s temper, feeling frustrated, exasperated, and desperate. The loss present in John Legend and Common’s song “Glory” from the movie Selma are the lives lost to the unattenuated history of racist violence and in the struggle against structural white supremacy. In this context, for Blacks “freedom is like religion.” Like religion. Even if the song does not shy away from Christian theological tropes, “religion” here too remains elusive. Living through a major global pandemic as we are (although arguably, racism and capitalism are also ongoing—albeit mostly unacknowledged—global pandemics), we are witnessing the losses attributable to Covid-19 precipitating changing practices and rituals of marking losses, mourning, and building community in the present. Apart from impacting practices that we generally term “religious,” loss and living with losses also reveal what may have been our individual and collective “religion” lost and what may emerge as the “religions” we hew to newly or nonetheless. In this course we will explore how various meanings of “religion” might offer us conceptual tools for thinking about loss, community, and damaged life. We will examine how religious practices change in relation to losses and reflect on losses of religion both personally (e.g., because one’s hitherto familiar value system breaks down) and collectively (e.g., the forced conversions and suppression of religious traditions by colonialism). We will track how loss and rituals surrounding loss can change how history, time, space, and meaning are experienced. We will ask what if anything comes after or alongside loss, especially given the perdurance of loss that is brought about by centuries of systemic violence. Given the circumstances of our moment, we will also take time to reflect on the (hopefully only temporary) loss of face-to-face communal learning in a shared classroom and what new rituals of virtual learning mean for building communities and relating to others and the world. Rather than trying to settle on definitive answers, this course will cultivate a process of open-ended collective inquiry in which students will be encouraged to think autonomously and to challenge facile solutions. Students should come away from the course with an expanded sense of how we grapple with issues related to loss, damaged life, community, complicated and violent pasts, the precarity of the present, vanishing futures and how religion and religious formations are entangled with these issues well beyond religious communities. Ideally, students should experience this course as enlarging the set of critical tools at their disposal for creative and rigorous thinking.

RELIG UN2305 ISLAM. 4.00 points.

An introduction to the Islamic religion in its premodern and modern manifestations. The first half of the course concentrates on “classical” Islam, beginning with the life of the Prophet, and extending to ritual, jurisprudence, theology, and mysticism. The second half examines how Muslims have articulated Islam in light of colonization and the rise of a secular modernity. The course ends with a discussion of American and European Muslim attempts at carving out distinct spheres of identity in the larger global Muslim community.

**RELI UN2670 MAGIC AND MODERNITY. 3.00 points.**

This course introduces students to the cultural history of magic: as an idea, as a practice, and as a tool with which wield power and induce wonder. Magic, as we will explore, is a modern concept, the contours of which have been shaped by its relations with religion and science, always against larger backdrops—of the Enlightenment, Romanticism, (post) colonialism, and (post) secularism. Readings are drawn from philosophy, anthropology, religious studies, sociology, drama, literature, history, history of science, and political theory. Cases and readings focus on everything from medieval England to post-socialist Mozambique. Throughout the term, a recurring theme will be whether, and to what extent, magic is incompatible with modernity—or, actually, integral to its constitution. By the end of this course, students should be familiar with a variety of ways in which magic has been understood since the early modern era, in a wide range of settings and cultural contexts. By tracing understandings of magic, students should also come away with an appreciation of how the authority of being “modern” is constructed (and contested) in relation to contemporary valuations of reason, science, enchantment, and the imagination.

**RELI UN2779 INTRODUCTION TO NATIVE AMERICAN RELIGIOUS TRADITIONS. 3.00 points.**

There are over 800 distinct Native American nations currently within the borders of the United States. This course offers a broad introduction to the diversity of American Indian religious systems and their larger functions in communities and in history. We will explore general themes in the study of Native American religious traditions as well as look at some specific examples of practices, ideas, and beliefs. Of particular importance are the history and effects of colonialism and missionization on Native peoples, their continuing struggles for religious freedom and cultural and linguistic survival, and the ways in which American Indians engage with religion and spirituality, both past and present, to respond to social, cultural, political, and geographical change.

**RELI UN3318 Humor, Joy, and Happiness in Judaism. 4.00 points.**

Jewish history is plagued with tragedies and suffering. It only makes sense, then, that scholars of Jewish Studies tend to focus on moments of hardship and pain. But do disasters and the despair tell the whole story? What gets missed when we prioritize despair and misery and cast aside allegedly “lighter” and more “positive” themes? Such questions are the engine that runs this seminar. Here, students are invited to rethink the cultural roles of joy in Judaism, take Jewish humor seriously, and ponder whether happiness in Judaism is distinct from what we find in other religious traditions. “Joy, Humor, and Happiness in Judaism” is not, however, a feel-good course. Throughout the semester, through careful readings of primary sources (in translation) and contemporary theories, we will explore how so-called positive emotions, moods, and affects are inextricable from the most “serious” aspects of religion, politics, and the human experience, such as identity formation, violence, gender norms, and power.

RELI UN3771 Early Modern Indigenous Thought. 4.00 points.
What is the source of truth and authority? What is the origin of the world and how does that determine the social order? Who ought to rule, why, and how? What are the standards for measuring justice and injustice? What is our relationship to the environment around us and how should its resources be distributed among people? How do we relate to those who are different from us, and what does it mean to be a community in the first place? Historically, the answers to these questions that have been described as “religious” and “political” have been the restricted to a specific tradition of Western European Christianity and its secular afterlives. However, these are questions that every society asks, in order to be a society in the first place. This course analyzes how indigenous peoples in the Americas asked and answered these questions through the first three centuries of Western European imperial rule. At the same time, this course pushes students to question what gets categorized as uniquely “indigenous” thought, how, and why.

RELI UN3881 The Doctrine of Discovery: Religion, Law, and Legacies of 1492. 4.00 points.
How did European-Christians justify the colonization of the Americas? Did these justifications vary between different European empires, and between the Protestant and Catholic faiths, and if so, how? Do these justifications remain in effect in modern jurisprudence and ministries? This class explores these questions by introducing students to the Doctrine of Discovery. The Doctrine of Discovery is the defining legal rationale for European Colonization in the Western Hemisphere. The Doctrine has its origins in a body of ecclesiastic, legal, and philosophical texts dating to the late-fifteenth century, and was summarized by Chief Justice John Marshall of the United States Supreme Court, in the final, unanimous decision the judiciary issued on the 1823 case Johnson v. M’Intosh. Students will be introduced to the major, primary texts that make up the Doctrine, as well as contemporary critical studies of these texts and the Doctrine in general.

RELI GU4207 Religion and the Afro-Native Experience. 4.00 points.
African Americans and Native Americans have a shared history of racial oppression in America. However, the prevailing lenses through which scholars understand settler colonialism, religion, and black and indigenous histories focus overwhelmingly on the dynamics between Europeans and these respective groups. How might our understanding of these subjects change when viewed from a different point of departure, if we center the history of entanglements between black and native lives? How does religion structure the overlapping experiences of Afro-Native peoples in North America? From political movements in Minneapolis, Oakland, and New York City to enslavement from the Cotton Belt to the Rio Grande, this class will explore how Africans, Native Americans, and their descendants adapted to shifting contexts of race and religion in America. The course will proceed thematically by examining experiences of war, dislocation, survival, and diaspora.

RELI GU4223 Dreams. 4.00 points.
This seminar for advanced undergraduates and graduate students is an interdisciplinary investigation of how dreams are viewed and understood across a range of the historical, sociocultural, political, and scholarly environments in which they are experienced and interpreted. Eclectic in approach, we will focus on close readings of a selection of dream texts, beginning with Freud’s “The Dream of Irma’s Injection.”
will aim to open out the text over several weeks. To facilitate this process, the syllabus will include an array of suggested readings linked to each week’s focus of inquiry. Students are expected to make a selection from these readings (or other readings that you find relevant) in order to prepare your own close reading of the dream text to discuss in class. We will then turn to other dreamers who draw on different aspects of the Islamic tradition to understand their own dreams, with supplementary readings drawn from history, anthropology, and religious studies to provide contexts for interpreting these dreams.

RELI GU4517 After the Human. 4.00 points.
The advent of high-speed computing, Big Data, new forms of Artificial Intelligence, and global networking is rapidly transforming all aspects of life. Implants, transplants, genetic engineering, cloning, nanotechnology, cyborgs, hybrids, prostheses, mobile phones, tracking devices and wearable devices. The Internet of Things and the Internet of Bodies are becoming interconnected to transform what once was known as human being. These developments raise fundamental questions about what comes after the human. This course considers the philosophical and theological implications of this question by addressing the following issues: Natural vs. Artificial, Treatment vs. Enhancement, the Artificial Intelligence Revolution, Ubiquitous Computing, the Internet of Things, the Singularity, Extended Mind and Superintelligence, Internet of Bodies and Superorganisms, Death and After Life. Students will have the option of writing a term paper or doing a project related to the course readings.

RELI GU4619 Islam in Popular Culture. 4.00 points.
This course interrogates seminal issues in the academic study of Islam through its popular representation in various forms of media from movies and television to novels and comic books. The class is structured around key theoretical readings from a range of academic disciplines ranging from art history and anthropology to comparative literature and religion. The course begins by placing the controversies surrounding the visual depiction of Muhammad in historical perspective (Gruber). This is followed by an examination of modern portrayals of Muslims in film that highlights both the vilification of the “other” (Shaheen) and the persistence of colonial discourses centered on the “native informant” (Mamdani). Particular emphasis is given to recent pop cultural works that challenge these simplistic discourses of Islam. The second half of the course revisits Muhammad, employing an anthropological framework (Asad) to understand the controversies surrounding Salman Rushdie’s Satanic Verses. The obsession with a gendered depiction of Islam is then examined through an anthropological framework that sheds light on the problems of salvation narratives (Abu Lughod). The course ends with a look at the unique history of Islam in America, particularly the tension between immigrant and African-American communities.

ALL COURSES (INCLUDING THOSE NOT OFFERED IN THE CURRENT ACADEMIC YEAR)

RELI UN1310 GOD. 3.00 points.
What is religion? And what does God have to do with it? This course will seek to engage a range of answers to these questions. The class is not a survey of all religious traditions. Rather, it will address religion as a comparative problem between traditions as well as between scholarly and methodological approaches. We will engage the issue of perspective in, for example, the construction of a conflict between religion and science, religion and modernity, as well as some of the distinctions now current in the media between religion, politics, economics and race. And we will wonder about God and gods.

RELI UN1312 Religion in Black America: An Introduction. 4 points.
Religion has been a complicated and contested, yet central, organizing force in the making of black life in the America. At the same time, African American religious life has been the subject of much scrutiny throughout the history of the United States, serving arguments that advocated abolition, emancipation and full enfranchisement, but also functioning as evidence to justify enslavement and second-class citizenship. To better understand such phenomena, this course provides a chronological survey that introduces students to a range
of ideas and practices, individuals and institutions, as well as important themes and topics in African American (thus American) religious history. Primary attention is given to Afro-Protestantism in the United States; however, throughout the course attention is directed to religious diversity and varying religious traditions/practices in different diasporic locales. By the end of the semester students will be expected to possess a working knowledge of major themes/figures/traditions in African American religious life, as well as key questions that have shaped the study thereof.

RELI UN1320 Losing My Religion. 3.00 points.
The R.E.M. lead singer Michael Stipe explained that the phrase “losing my religion” in the song of the same title does not refer to what we might commonly understand by “religion.” Rather it cites the expression used in the Southern U.S. for losing one’s temper, feeling frustrated, exasperated, and desperate. The loss present in John Legend and Common’s song “Glory” from the movie Selma are the lives lost to the unattenuated history of racist violence and in the struggle against structural white supremacy. In this context, for Blacks “freedom is like religion.” Like religion. Even if the song does not shy away from Christian theological tropes, “religion” here too remains elusive. Living through a major global pandemic as we are (although arguably, racism and capitalism are also ongoing—albeit mostly unacknowledged—global pandemics), we are witnessing the losses attributable to Covid-19 precipitating changing practices and rituals of marking losses, mourning, and building community in the present. Apart from impacting practices that we generally term “religious,” loss and living with losses also reveal what may have been our individual and collective “religion” lost and what may emerge as the “religions” we hew to newly or nonetheless. In this course we will explore how various meanings of “religion” might offer us conceptual tools for thinking about loss, community, and damaged life. We will examine how religious practices change in relation to losses and reflect on losses of religion both personally (e.g., because one’s hitherto familiar value system breaks down) and collectively (e.g., the forced conversions and suppression of religious traditions by colonialism). We will track how loss and rituals surrounding loss can change how history, time, space, and meaning are experienced. We will ask what if anything comes after or alongside loss, especially given the perduance of loss that is brought about by centuries of systemic violence. Given the circumstances of our moment, we will also take time to reflect on the (hopefully only temporary) loss of face-to-face communal learning in a shared classroom and what new rituals of virtual learning mean for building communities and relating to others and the world. Rather than trying to settle on definitive answers, this course will cultivate a process of open-ended collective inquiry in which students will be encouraged to think autonomously and to challenge facile solutions. Students should come away from the course with an expanded sense of how we grapple with issues related to loss, damaged life, community, complicated and violent pasts, the precarity of the present, vanishing futures and how religion and religious formations are entangled with these issues well beyond religious communities. Ideally, students should experience this course as enlarging the set of critical tools at their disposal for creative and rigorous thinking.

RELI UN1610 Religion and Popular Culture. 3 points.
When we hear "pop culture," we often think of it in comparison to a "high culture." In reality, popular culture is something that everyone has easy access to, and represents a common language of the people. religion permeates American popular culture in surprising ways, and is part of national vocabulary. In addition, religious communities turn to popular culture as a way to preserve their own identities and uniqueness in the face of homogenization and assimilation.....

RELI UN1612 Religion and the History of Hip Hop. 4.00 points.
This is an undergraduate lecture course introducing students to the study of religion through an engagement with the history of hip hop music. More specifically, this course is organized chronologically to narrate a history of religion in the United States (circa 1970 to the present day) by mapping the ways that a variety of religious ideas and practices have animated rap music’s evolution and expansion during this time period. While there are no required prerequisites for the course, prior coursework in religious studies, African American studies, and/or popular music is helpful.

RELI UN1615 Vampires. 3 points.
Do you believe in vampires? Like ghosts and zombies, vampires circulate in a secularized world and few are those who would speak of a “vampire religion.” This course will attempt to do that. It will ask about the ubiquitous figure of the vampire, insofar as it evokes the ancient and the archaic, the modern and the postmodern. With Bram Stoker’s Dracula as our guide, and with the help of film, we will explore the religious significance of vampires and what they mean for the salvation — or perdition — of the soul. We will wonder about vampires and sexuality, vampires and media, vampires and (geo-)politics, and even vampires and the economy.

RELI UN1620 Religion and the Movies. 3 points.
This class is an introduction to both film and religious studies and aims to explore their interaction. Ranging from auteurs to blockbusters, the course will analyze movies that make use of the sacred and of religious themes, figures or metaphors. The course will probe the definitions and boundaries of religion -as theology, myth, ideology- and will show students how religion remains a critical presence in the arts, even in a secular guise. We will look at the ways in which popular culture can serve religious functions in contemporary society and examine how faith is represented in popular culture.
RELI UN2105 CHRISTIANITY. 3.00 points.
RELI UN2201 BUDDHISM: INDO-TIBETAN-DISC. 0.00 points.
The course introduces the history of Indo-Tibetan Buddhism throughout India, South and Southeast Asia, Tibet, and Central Asia, its essential primary textual source materials translated from Pali, Sanskrit, and Tibetan, and the philosophical insights of some of the traditions’ outstanding individuals

RELI UN2205 BUDDHISM: INDO-TIBETAN. 4.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

The course introduces the history of Indo-Tibetan Buddhism throughout India, South and Southeast Asia, Tibet, and Central Asia, its essential primary textual source materials translated from Pali, Sanskrit, and Tibetan, and the philosophical insights of some of the traditions’ outstanding individuals

RELI UN2301 ISLAM-DISCUSION. 0.00 points.
Fall 2022: RELI UN2301

RELI 2301 001/12884     Aziza     0.00     6/20

RELI UN2304 CHRISTIANITY. 3.00 points.
Survey of Christianity from its beginnings through the Reformation. Based on lectures and discussions of readings in primary source translations, this course will cover prominent developments in the history of Christianity. The structure will allow students to rethink commonly held notions about the evolution of modern Christianity with the texture of historical influence

Spring 2023: RELI UN2304

RELI UN2305 ISLAM. 4.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

An introduction to the Islamic religion in its premodern and modern manifestations. The first half of the course concentrates on “classical” Islam, beginning with the life of the Prophet, and extending to ritual, jurisprudence, theology, and mysticism. The second half examines how Muslims have articulated Islam in light of colonization and the rise of a secular modernity. The course ends with a discussion of American and European Muslim attempts at carving out distinct spheres of identity in the larger global Muslim community

RELI UN2306 INTRO TO JUDAISM. 3.00 points.
A historical overview of Jewish belief and practice as these have crystallized and changed over the centuries. Special attention to ritual and worship, the forms of religious literature, central concepts, religious leadership and institutions, Israel among the nations

RELI UN2307 CHINESE RELIGIOUS TRADITIONS. 3.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

Historical survey highlighting major developments in Chinese religion: includes selections from the Warring States classics, developments in popular Daoism, and an overview of the golden age of Chinese Buddhism. Touches on Neo-Confucianism, popular literature of the late imperial period, and the impact of Western ideas

RELI UN2308 BUDDHISM: EAST ASIAN. 4.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

Lecture and discussion. An introductory survey that studies Indian, Chinese, Korean, and Japanese Buddhism through. The course will study the impact of Western ideas confronted by Buddhism. There is a mandatory weekly discussion session

Fall 2022: RELI UN2308
Course Number     Section/Call Number     Times/Location     Instructor     Points     Enrollment
RELI 2308 001/11624     Michael     4.00     135/150

RELI UN2309 HINDUISM. 4.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

Considers efforts since 1900 to synthesize a coherent understanding of what Hinduism entails, sometimes under the heading of sanatana dharma. Using a rubric provided by the Bhagavad Gita, explores philosophical/theological (jñana), ritual (karma), and devotional (bhakti) aspects of Hindu life and thought

RELI UN2312 Religion and Nasty Women. 4.00 points.
Used in 2016 by then presidential candidate, Donald Trump, in reference to his female opponent, Hillary Clinton, the phrase “nasty woman” has become a badge of honor and a rallying cry for women’s empowerment. The origin of the word “nasty,” attested in the 14th century, indicates highly unpleasant qualities- nauseating or unclean, in a literal or figurative way. It also came to evoke indecency and obscenity- and religious traditions have a long history of such depiction of women. After introducing some key texts on the otherness and objectification of women (including by Aristotle, Beauvoir, Kristeva, Nussbaum, and Butler), we will examine a number of female characters- goddesses, prostitutes, and virgins - in the Mesopotamian, Greek, Jewish, Christian, Buddhist, Hindu, and Islamic corpus that fit the definition of nasty. We will also
analyze some of the underlying tropes of impurity and danger that characterize nastiness involving bodily fluids, sexuality, and knowledge. Spanning theology, literature, movies, and popular culture the course aims to be a survey of religious-based misogyny as well as women’s responses in their pursuit of agency.

RELIS 2312 Religion and Nasty Women - Discussion. 0 points.

RELI UN2388 BUDDHISM: EAST ASIAN-DISC. 0.00 points.

RELI UN2405 CHINESE RELIGIOUS TRADITIONS. 4.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

This course provides a chronological and thematic introduction to Chinese religions from their beginnings until modern times. It examines distinctive concepts, practices and institutions in the religions of China. Emphasis will be placed on the diversity and unity of religious expressions in China, with readings drawn from a wide-range of texts: religious scriptures, philosophical texts, popular literature and modern historical and ethnographic studies. Special attention will be given to those forms of religion common to both “elite” and “folk” culture: cosmology, family and communal rituals, afterlife, morality and mythology. The course also raises more general questions concerning gender, class, political patronage, and differing concepts of religion.

RELI UN2406 Chinese Religious Traditions - Discussion. 0.00 points.

The course also raises more general questions concerning gender, class, political patronage, and differing concepts of religion.

RELI UN2415 Religions of Harlem. 3 points.
Not offered during 2022-23 academic year.
Through a range of field exercises and classroom guests, this course will introduce students to the rich religious history of Harlem, while also challenging them to document and analyze the diversity of Harlem's contemporary religious scene.

RELI UN2506 From Exodus to the Coronavirus: Scriptures and Narratives of Religious Responses to Epidemics. 4.00 points.
The purpose of this course is to offer an overview of religious responses to epidemics and pandemics, mostly in a monotheistic tradition, and to engage with the questions of collective guilt, collective mourning, divine justice (or lack thereof), and the societal disruption that such illnesses create or expose as well as persecution and discrimination. The questions raised will help us find parallels with these times of pandemics and put our current times into perspective, but also contextualize and reflect on the nuances of past events and responses.

RELI UN2507 From Exodus to the Coronavirus: Scriptures and Narratives of Religious Responses to Epidemics - Discussion. 0.00 points.
The purpose of this course is to offer an overview of religious responses to epidemics and pandemics, mostly in a monotheistic tradition, and to engage with the questions of collective guilt, collective mourning, divine justice (or lack thereof), and the societal disruption that such illnesses create or expose as well as persecution and discrimination. The questions raised will help us find parallels with these times of pandemics and put our current times into perspective, but also contextualize and reflect on the nuances of past events and responses.
and geographical change, spirituality, both past and present, to respond to social, cultural, and political change. The ways in which American Indians engage with religion and science, enchantment, and the imagination are understood since the early modern era, in a wide range of settings and cultural contexts. By tracing understandings of magic, students should also come away with an appreciation of how the authority of being “modern” is constructed (and contested) in relation to contemporaryvaluations of reason, science, enchantment, and the imagination.

**RELI UN2779 INTRODUCTION TO NATIVE AMERICAN RELIGIOUS TRADITIONS. 3.00 points.**
There are over 800 distinct Native American nations currently within the borders of the United States. This course offers a broad introduction to the diversity of American Indian religious systems and their larger functions in communities and in history. We will explore general themes in the study of Native American religious traditions as well as look at some specific examples of practices, ideas, and beliefs. Of particular importance are the history and effects of colonialism and missionization on Native peoples, their continuing struggles for religious freedom and cultural and linguistic survival, and the ways in which American Indians engage with religion and spirituality, both past and present, to respond to social, cultural, political, and geographical change.

**RELI UN2670 MAGIC AND MODERNITY. 3.00 points.**
This course introduces students to the cultural history of magic: as an idea, as a practice, and as a tool with which wield power and induce wonder. Magic, as we will explore, is a modern concept, the contours of which have been shaped by its relations with religion and science, always against larger backdrops—of the Enlightenment, Romanticism, (post) colonialism, and (post) secularism. Readings are drawn from philosophy, anthropology, religious studies, sociology, drama, literature, history, history of science, and political theory. Cases and readings focus on everything from medieval England to post-socialist Mozambique. Throughout the term, a recurring theme will be whether, and to what extent, magic is incompatible with modernity—or, actually, integral to its constitution. By the end of this course, students should be familiar with a variety of ways in which magic has been understood since the early modern era, in a wide range of settings and cultural contexts. By tracing understandings of magic, students should also come away with an appreciation of how the authority of being “modern” is constructed (and contested) in relation to contemporaryvaluations of reason, science, enchantment, and the imagination.

**RELI UN3199 THEORY. 4.00 points.**
An exploration of alternative theoretical approaches to the study of religion as well as other areas of humanistic inquiry. The methods considered include: sociology, anthropology, philosophy, hermeneutics, psychoanalysis, structuralism, genealogy, and deconstruction. (Previous title: Juniors Colloquium)

**RELI UN3202 RELIGION IN AMERICA I. 3.00 points.**
This course offers a survey of American religions from the 1500s through the mid-1800s. We examine the politics of conversion in different kinds of colonialisms; the different strands of Christianity in early America and their cultural contexts; the emergence of evangelical Protestantism; the effects of religious disestablishment in the early republic; and the relationship between religion and social movements.

**RELI UN3203 RELIGION IN AMERICA II. 3.00 points.**
Survey of American religion from the Civil War to the present, with an emphasis on the ways religion has shaped American history, culture, and identity.

**RELI UN3204 Religion, Sexuality, and Truth. 3 points.**
The extent of Michel Foucault engagement with Christianity has only recently came to light with the publication of his lectures from the early 1980s. These lectures constitute, in many ways, the culmination of Foucault’s work on power, sexuality, subjectivity and the discursive operations whereby knowledge is produced. In this course, we will appreciate the depth and originality of Foucault’s critical account of Christianity and examine the major role it occupied in his thought on subjects such as sexuality, governmentality, truth telling, confession, and judicial forms. We will understand Foucault’s work along with the crucial role he ascribed to Christianity in forming the history of the present.
RELI UN3206 RELIGION IN THE ARCHIVE. 4.00 points.
Students must sign up for a discussion section on Fridays, 10:10-11:25. Not offered during 2022-23 academic year.

In Religion in the Archive, students will conduct archival research and create digital humanities projects that “remix” and decolonize a missionary archive: the Papers of Matilda Calder Thurston (1875-1958), an American missionary who helped establish the first four-year women’s college in China, Ginling College in Nanjing. Thurston’s papers belong to the Missionary Research Library housed at Burke Library. The class will meet twice a week for lectures addressing the history of American and Chinese religions and focused on theoretical questions of imperialism, gender, conversion, and modernization. Students will also engage with debates about the archive/archiving, the digital humanities, and what it means to present scholarly research to a public audience. During the Friday recitation, students will conduct archival research and scan archival documents, to embed metadata, to work with a database program, and to design a website and/or produce a podcast.

RELI UN3207 In the Margins of the Middle Ages: Religious Minorities in the Medieval Latin West. 4.00 points.
This course investigates marginal religious groups, including apostates, heretics, Jews, magicians, Muslims, etc. against the backdrop of Christianity in medieval Western Europe. Through examining various types of primary textual and pictorial sources including papal letters, penitential handbooks, lawyers’ commentaries, autobiographies, manuscript illuminations, paintings, etc., the class will facilitate students to rethink the socio-historical situation of religious minorities, the defining of religious boundaries in history, and the echoes of such defining in the contemporary world. (No prerequisites)

RELI UN3208 Aaahh Real Monsters: Critical Monster Studies. 3.00 points.
This course examines the major issues and themes of critical monster studies. It explores questions about how we conceive and understand monsters theoretically, historically, socially, and culturally. Is there a quintessential monster category? Or are monsters constructed? How do social, cultural, and religious factors affect our perception of monsters and the idea of monstrosity? What roles do monsters fill in determining how people construct and deconstruct their communities? Are monsters members of the community? What does the idea of monstrosity imply about the limits of what is possible in nature? Are monsters just supernatural or are there natural monsters? And what do modern depictions of monsters in popular media have to say about our perception of monsters is changing? Together, we explore all of these questions and orient students into the burgeoning field of critical monster studies

RELI UN3210 MILLENNIUM: APOCALYPSE AND UTOPIA. 3.00 points.
Study of apocalyptic thinking and practice in the western religious tradition, with a focus on American apocalyptic religious movements and their relation to contemporary cultural productions, as well as notions of history and politics

RELI UN3216 Religious Histories of New York City. 4.00 points.
This class examines different religious histories of New York City from the early 1800s through the 1950s. We will explore how different religious traditions were shaped by the city and its diversity, and how those people and institutions left their imprints on the city we live in today. The first half of the semester focuses on intersecting themes of religion and capitalism, religion and gender and sexuality, and on the social dynamics of the city’s symbolic meanings as place of refuge and liberation (for domestic and foreign migrants) or as a locus of sin in need of moral reform. The second half of the semester turns to case studies of different neighborhoods including Harlem, the Lower East Side, Williamsburg, and Flushing. How did different religious communities conceptualize “the neighborhood” in relation to the larger city, and how did they grapple with diversity and change? Students will also be introduced to archival collections of the East Harlem Protestant Parish and several settlement houses located at the Burke Library at Union Theological Seminary and at Butler Library.

RELI UN3225 Religion and Capitalism: Faith and the American Market. 3 points.
Is the market a religious system? Can we consider “capitalism” to be a key arena in which the relationship between the religious and the secular is both negotiated and performed? In this course, students will explore the complicated relationship between faith and the market, the religious and the secular, and the evolution of vice and virtue as they relate to economic thriving in the United States. While no hard and fast rules for thinking about the relationship between right conduct and material interests cut across all religious and philosophical traditions, human agents invest real faith into currency, into markets, and into the reigning economic order to bring about increased opportunities, wealth, and freedom to people across the globe. Throughout this semester, we will chart both the long shadows and the future trajectories of these beliefs from our American perspective.

In this course, students will develop a strong foundational knowledge of the key theorists who have defined these relationships for generations before applying a critical lens to a number of global themes (the construction of race, the power of class, and the policing of gender) in an American context. To this end, our syllabus will be split into three units, each anchored by a particular theorist central to the academic study of religion (Max Weber, Karl Marx, and Michel Foucault) and followed by a number of case study texts that will bring their constructs and lenses into more lively debate and discussion.
RELI UN3230 PHILOSOPHY OF RELIGION. 3.00 points.
This course in the Philosophy of Religion will consider the relationship between faith and reason, religion and morality, religion and art, and religion and technology. Attention will be devoted to an exploration of comparative interpretations of God or the divine in the western philosophical and theological traditions and Zen Buddhism as well as the interrelation of interpretations of God, self, and world. The course will conclude with a consideration of the question of life after death in philosophy, literature, and information technology

RELI UN3232 Museums and Sacred Things. 4 points.
This course invites students to consider how museums create, curate, collect, and engage with sacred things, including things that are recognizably religious, things that become “sacred” through the processes of museum collection and display, visitors to museums, and even museum spaces themselves. This course focuses on the American context, and American museums. We will first consider the particular social and political contexts in which museums and museum practices developed and responded to sacred things, and the contexts in which “religion” serves as a valuable if often implicit classification structure. We will then focus on the ways in which things deemed sacred are engaged by museums and encountered by museumgoers, with particular attention to the ways that museumgoers, museum architecture, and religious communities all interact in relation to object. In this class, students will learn to thoughtfully ask question and evaluate the role that museums as public institutions play in shaping public and private understandings and experiences of religion, the sacred, and spirituality.

RELI UN3233 Museums and Sacred Things - Discussion. 0 points.
This course invites students to consider how museums create, curate, collect, and engage with sacred things, including things that are recognizably religious, things that become “sacred” through the processes of museum collection and display, visitors to museums, and even museum spaces themselves. This course focuses on the American context, and American museums. We will first consider the particular social and political contexts in which museums and museum practices developed and responded to sacred things, and the contexts in which “religion” serves as a valuable if often implicit classification structure. We will then focus on the ways in which things deemed sacred are engaged by museums and encountered by museumgoers, with particular attention to the ways that museumgoers, museum architecture, and religious communities all interact in relation to object. In this class, students will learn to thoughtfully ask question and evaluate the role that museums as public institutions play in shaping public and private understandings and experiences of religion, the sacred, and spirituality.

RELI UN3260 Sociology of Religion. 3 points.
Prerequisites: prior coursework in religion or sociology is highly encouraged.

This course introduces classical and contemporary theoretical and empirical approaches to the sociological study of religion, including secularization and secularity, religious identity formation, and sociological approaches to religious practice and meaning. Special focus will be on contemporary American topics, including religion and transnationalism, the role of religious actors and discourses in American politics, law and economics, and everyday religious practice.

RELI UN3303 Judaism and Translation in the Medieval and Early Modern Mediterranean. 3 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement
The course explores both the practice of translation (the rendering of texts from one language to another) and the idea of translation (as a medium of cultural transmission) in the medieval and early modern Mediterranean.

RELI UN3304 Memory and Violence in Shi‘i Islam. 4 points.
Not offered during 2022-23 academic year.

Why do humans insist on remembering and often memorializing violence? And how do they decide when violence is worth remembering or not? This course ponders these questions through a case study by examining the martyrdom of Husayn b. Ali (d. 680), grandson of the Prophet Muhammad and the third Imam in Shi‘i Islam. We will explore the many ways in which this violent event has acquired meaning for people around the world from the seventh century until today using the lens of “collective memory” and its role in community formation. There are no prerequisites, but background knowledge of Middle Eastern history will be very helpful.

RELI UN3309 Modern Islamic Thought. 4 points.
Who speaks for Islam and Muslims today? Is an "Islamic Reformation" necessary? Is there a Muslim "clergy"? What makes certain religious voices and institutions more authoritative than others? This course explores questions such as how can we conceptualize "authority" and the ways in which religious authorities are constructed in Islam in the modern and post-modern age. What sorts of shifts have occurred at centers of Islamic learning in the modern period? How may some of major influential orientations to Islamic thought today be characterized? How are American Muslims thinkers influenced by modern Islamic thought from Muslim majority countries and how are they developing their own body of thought? What are some of the major debates in contemporary American Muslim thought regarding violence, gender, race and economic justice?

RELI UN3314 QURAN. 4.00 points.
This course conceives of the Qur’an as a living text in constant flux through interactions with other religious traditions. It focuses on developing an understanding of the Qur’an’s form, style, and content through a close reading of comparable religious texts. Major topics covered include the Qur’an theory of prophecy, its treatment of the Biblical tradition (both
that of the Hebrew Bible and the New Testament), and its perspective on pre-Islamic pagan religion. The central goals of the course include the ability to (a) analyze primary religious sources in a critical and objective manner and (b) construct coherent arguments based on concrete evidence. In a class of this nature, class members will naturally hold or develop a wide variety of opinions about the topics covered. The goal is not to adopt a single opinion concerning the interpretation of a particular text, but rather to support personal conclusions in a clear logical manner.

RELI UN3315 Readings in Kabbalah. 3 points.
This course will serve to provide a wide but detailed exploration of Jewish Mysticism, raising questions about its connection to other Jewish traditions, the kind of symbolism and hermeneutics at stake, and the conception of God, man and world we are dealing with, amongst other major ideas.

RELI UN3317 Deep Tantra: Sex, Violence, Ritual. 4.00 points.
This course is an introduction to the tantric traditions of premodern India (c. 300 - 1000 CE) with a particular emphasis on the history of #aivism (pronounced “Shaivism”) – that is, religious currents associated with scriptures called tantras that were believed to have been revealed by the god #iva (pronounced “Shiva”). #aivism is generally considered to be one of the many strands that make up Hinduism, but we will explore, both historically and thematically, the aspects that made tantric #aivism unique, including its ritual use of sex and violence. Our exploration into the tantric world will seek to make sense of these and other types of practices within the broader religious context of traditional South Asia. We will also examine how aspects of tantric religion became an important religious context for a variety of communities and the ways in which tantric #aivism transformed other religious groups.

RELI UN3318 Humor, Joy, and Happiness in Judaism. 4.00 points.
Jewish history is plagued with tragedies and suffering. It only makes sense, then, that scholars of Jewish Studies tend to focus on moments of hardship and pain. But do disasters and the despair tell the whole story? What gets missed when we prioritize despair and misery and cast aside allegedly “lighter” and more “positive” themes? Such questions are the engine that runs this seminar. Here, students are invited to rethink the cultural roles of joy in Judaism, take Jewish humor seriously, and ponder whether happiness in Judaism is distinct from what we find in other religious traditions. “Joy, Humor, and Happiness in Judaism” is not, however, a feel-good course. Throughout the semester, through careful readings of primary sources (in translation) and contemporary theories, we will explore how so-called positive emotions, moods, and affects are inextricable from the most “serious” aspects of religion, politics, and the human experience, such as identity formation, violence, gender norms, and power.

RELI UN3321 Religion and Climate Crisis: India. 4.00 points.
Connections between dramatic climate assaults and religious practices and perspectives, taking Hindu India as an example: glaciers and floods, extreme weather, overpopulation, air and water pollution, deforestation. Hindu contexts, causes, and responses.

RELI UN3322 Religion # Climate Crisis: India - Discussion. 0.00 points.
This is the discussion section for RELI UN3321. You must register for that course before registering for this course.

RELI UN3340 EARLY CHRISTIANITY. 3.00 points.
Examines the competing currents within early Christianity, with emphasis placed on the literary and social expressions of Christian belief and identity. Topics to be covered include persecution and martyrdom, debates over authority and religious experience, orthodoxy and heresy, and asceticism and monasticism, among others.

Spring 2023: RELI UN3340
Course Number: RELI 3340

Instructor: Castelli Elizabeth
Points: 3.00
Enrollment: 26/40

RELI UN3357 I and We in the Christian East: The Making of Identity. 3 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement
This course will provide a survey of Christian history in the eastern Mediterranean and Near East from roughly the fourth to the eleventh centuries with particular attention to religion and identity. How would the various Christians in this era answer the questions: “Who am I?” “Who are we?” How did their understanding of the divine influence their understanding of themselves and how was this identity enacted through writing and ritual? Though our focus will be on this period, we will also consider the framing of the history of “Eastern” Christianity into the modern period. No prerequisites.

RELI UN3401 MUSLIMS IN DIASPORA-DISC. 0 points.
Corequisites: RELI UN3407
Discussion section associated with RELI UN3407-MUSLIMS IN DIASPORA.

RELI UN3406 Space, Narrative, and Religion in India. 3 points.
Not offered during 2022-23 academic year.

Course Description: This course is fundamentally about sacred places and the stories that people tell about and within them. We will explore the role that narratives – mythological, historical, personal, and academic – have played in the creation, maintenance and conceptualization of sacred spaces in South Asia. Each class in the first section of the course is devoted
to a particular site or category of sites, and examines the roles that religious texts and iconography play in the traditions with which the sites are associated. In the second section of the course, we will consider ethnographic perspectives on religious journeys. Finally, in the third section, we will focus on the idealization of region or nation as a sacred space, and examines the manner in which narratives are invoked to formulate identities and to negotiate conflicts and differentials of power.

As we navigate these topics, we will explore answers to the following questions: How are spaces made “sacred”? What are the multiple types of narratives that come to be associated with sacred spaces, and what roles do they play in their production? How are such narratives transmitted, and for whom? How do religious practitioners utilize these spaces and their narratives in order to negotiate various facets of daily life, and in order to situate themselves within the religious landscape of South Asia?

RELI UN3407 Muslims in Diaspora. 4 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

Consideration of controversies surrounding mosque-building, headscarves, honor killing, and other publicized issues that expose tensions surrounding citizenship and belonging for Muslims in North America and Europe. Exploration of film and other media representations of Muslims in the West. There will be additional meeting times for film screenings

RELI UN3414 Changing Places. 4.00 points.
Globalization, climate, migration, surveillance, homelessness, and virtualization are changing the places where people live, work, love, pray, struggle, and die. This course explores the presuppositions and implications of intersecting vectors that are pushing society to the edge of collapse. The inquiry begins with a consideration of the contemporary status of the four ancient elements – earth, air, water, and fire, and proceeds to explore displacements in cities and the country and replacements in churches, temples, mosques, woods, gardens, and cemeteries. Have we passed the tipping point, or is recovery still possible?

RELI UN3425 Judaism and Courtly Literature in Medieval and Early Modern Iberia and Italy. 3 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

The course explores secular Jewish literature composed in the medieval and Early Modern Mediterranean in the context of its Arabic and Romance-language counterparts. After examining the literary, linguistic and philosophical backdrop of Jews in the Islamic Empire, we will focus on poetry and prose of al-Andalus, Christian Spain and Italy. We will look at examples of how Jews depicted themselves and how Christian and converso thinkers portrayed Jews. In addition, we will consider two crossovers, one Jew in Spain and one in Italy, whose compositions in Castilian and Italian were accepted and integrated into Christian society. Historical materials will accompany textual examples, which span the eleventh through sixteenth centuries.

RELI UN3430 Indigenous Religious Histories. 4 points.
Nomads, natives, peasants, hill people, aboriginals, hunter-gatherers, First Nations—these are just a handful of the terms in use to define indigenous peoples globally. The names these groups use to describe themselves, as well as the varying religious practices, attitudes, and beliefs among these populations are far more numerous and complex. For much of recorded history however, colonial centers of power have defined indigenous peoples racially and often in terms of lacking religion; as pagan, barbarian, non-modern, and without history or civilization.

Despite this conundrum of identity and classification, indigenous religious traditions often have well-documented and observable pasts. This course considers the challenges associated with studying indigenous religious history, as well as the changing social, political, and legal dimensions of religious practice among native groups over time and in relationship to the state. Organized thematically and geographically, we will engage with classic works of ethnohistory, environmental history, indigenous studies, the history of anthropology, and religious studies as well as primary sources that include legal documentation, military records, personal testimony, and oral narrative.

RELI UN34325 Judaism and Courtly Literature in Medieval and Early Modern Iberia and Italy. 3 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

The course explores secular Jewish literature composed in the medieval and Early Modern Mediterranean in the context of its Arabic and Romance-language counterparts. After examining the literary, linguistic and philosophical backdrop of Jews in the Islamic Empire, we will focus on poetry and prose of al-Andalus, Christian Spain and Italy. We will look at examples of how Jews depicted themselves and how Christian and converso thinkers portrayed Jews. In addition, we will consider two crossovers, one Jew in Spain and one in Italy, whose compositions in Castilian and Italian were accepted and integrated into Christian society. Historical materials will accompany textual examples, which span the eleventh through sixteenth centuries.

RELI UN3500 BUDDHIST ETHICS. 3.00 points.
Fall 2022: RELI UN3500

RELI UN3501 Introduction To the Hebrew Bible. 3 points.
An introduction, by critical methods, to the religious history of ancient Israel against the background of the ancient Near East.

RELI UN3511 Tantra in South Asia, East Asia & the West. 3 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

An introduction to the history, literature, and ideology of Tantra and Tantric texts, deities, rituals, and traditions, proceeding chronologically from the early centuries C.E. to current forms of Tantric practice, and primarily covering India, China, and Japan. Attention will also be given to contemporary iterations of Tantra in the West. Questions of definition, transmission, patronage, gender, and appropriation link the various sections of the course. Readings include primary texts, secondary sources, local case studies, and art historical material.

RELI UN3517 Queer Theory, Religion, and Their Discontents. 3.00 points.
For the most part queer studies and religious studies have met each other with great suspicion and little interest in the conceptual resources of the respectively other field. Our guiding questions will be: What does religion have to do with queerness? What does queerness have to do with religion? Queer theory and activists, unless they already identify as
religious, often have little or little good to say about religion. Conversely, many religious traditions intensively regulate gender, sex, sexuality, and especially queerness. This course will explore how religious studies can enrich queer theory and how queer theory can reshape our thinking about religious studies. But beyond the mutual disinterest, anxieties, and animosities, queer studies and religious studies share actually a whole range of core interests and questions, such as embodiment, sexuality, gender-variability, coloniality, race appearing as religious identity and religious identity as gendered, as well as the role of catastrophe, utopia, and redemption in our experience of the world. We will examine questions about religion come to the fore when we paying especially attention to queerness, gender, sexuality, pleasure, pain, and desire. Equally, we will examine how queer discourses mobilize religious and theological images and ideas, especially where these images and ideas are no longer clearly recognizable as having religious origins. Rather than trying to settle on definitive answers, this course will cultivate a process of open-ended collective inquiry in which students will be encouraged to think autonomously and challenge facile solutions. Students should come away from the course with an expanded sense of how we grapple with issues related to gender, sexuality, desire, and embodiment in our everyday lives and how religion and religious formations are entangled with these issues well beyond religious communities. Ideally, students should experience this course as enlarging the set of critical tools at their hands for creative and rigorous thinking.

**RELI UN3518 Buddhism in East Asian Medical Cultures. 3 points.**

This seminar introduces students to the intersections between Buddhism and medicine in East Asia in the premodern period. The course begins with Buddhist ideas and practices concerning health and disease in ancient India over two millennia ago, and follows the eastward transmission of these concerns and activities into China, Korea, and Japan until roughly the 16th century. In addition to secondary studies representing the latest research in this burgeoning field, this course gives special attention to critical readings of shorter selections of primary sources translated into English, including sutras, monastic regulations, recipe collections, liturgical documents, and longevity manuals. Reading these selections through multiple methodological frameworks—social history, history of the body, and material culture, students will gain an appreciation of the rich diversity that characterized Buddhist healthcare practices before the introduction of Western medicine. A fundamental premise of this course is that different currents of Buddhism constituted medical cultures in their own right, a perspective that will help us to complicate conventional notions of both ‘religion’ and ‘medicine.’ We will aim to achieve a nuanced understanding of the ways that healing concerns shaped how monks and nuns related to actors of other therapeutic communities, and therefore emphasis is placed on the social and cultural contexts in which Buddhist medical practices were embedded. Students will thereby acquire a basic grounding in East Asian Buddhism to complement our particular concern with the dynamics of medical history. Previous coursework in Buddhism or East Asian religion is thus recommended but not required.

**RELI UN3521 Muslim Masculinities. 4 points.**

This interdisciplinary course explores a variety of Muslim modes of masculinity as they have developed over time and as they have varied across different regions of the Islamic World. Students examine and problematize the social and cultural construction of masculinity in various parts of the Islamic world, including in the Middle East, South Asia, Sub-Saharan Africa, and in the Muslim diasporas of Europe and the Americas. In trying to understand the complex ways in which men and manhood are made in Islamic societies we will center our attention on the perceptions of bodily and social differences in Muslims’ larger articulations of gender and sexuality. A particular focus will be on the relationship between masculinity and violence against women and non-Muslims.

**RELI UN3522 MUSLIM MASCUINITIES-DISC. 0 points.**

Discussion section for RELI UN3521 - MUSLIM MASCUINITIES

**RELI UN3575 EVANGELICALISM. 3.00 points.**

Crossing denominations and encompassing a range of theological commitments, evangelical Christianity can be described as a theological disposition, a mode of hermeneutical practice, a theological-aesthetic sensibility, a mass spiritual movement, a practice of cultivating sacred affect, an errand to the world, and a genre of revivalism. This multidisciplinary seminar will emphasize the role of popular media in constituting an evangelical public, the gendered nature of evangelical subjectivity, the role of sex and sexuality in evangelical self-definition, and the ways that evangelical theological categories have shaped what we think of as “the secular” in the United States.

**RELI UN3606 Religion and Media in America. 3 points.**

This course examines the role of media in shaping religious identities, beliefs, practices, and institutions using case studies from American history and contemporary American culture. For the purpose of this course, the term media will be interpreted broadly to mean any technique or technology designed to communicate information such as verbal discourses, written texts, visual representations, ritual gestures, sacred objects, and telecommunication technologies. In foregrounding media, we will examine how religious beliefs and practices have been remembered, disseminated, translated, and contested in the American context. Just as important, we will examine how religious groups have negotiated their
American identity through media practices and their narrative content.

As we will see, acts of transmission such as writing, mapping, broadcasting, and televising play essential parts in drawing and erasing communal boundaries from both within and without. With this in mind, we will not be attempting to identify what religion is, so much as the ways in which historical actors understood themselves to be religious. We will find that what counts as religion varies, sometimes dramatically, across times, spaces, and cultures; “America” is similarly unstable and contested. Our job, then, will be to understand the role of media and mediation in constituting their contours.

RELI UN3612 The Religious History of Hip Hop. 3 points.
This is an undergraduate lecture course introducing students to the study of religion through an engagement with the history of hip hop music. More specifically, this course is organized chronologically to narrate a history of religion in the United States (from 1970 to the present day) by mapping the ways that a variety of religious ideas and practices have animated rap music’s evolution and expansion during this time period. While there are no required prerequisites for the course, prior coursework in religious studies, African American studies, and/or popular music is helpful.

RELI UN3625 Hippie Physics, Counterculture, Cyberculture. 3.00 points.
The world inside your smartphone may not be all that it seems. Everything from your e-banking app to your TikTok algorithm can be traced back to the Woodstock-going, acid-taking, love (not war)-making attitude that permeated the youth (in spite of the generations before) in counterculture America. Today’s technosphere grew out of the convergence of the post-World War II and Cold War military-industrial complex and the 1960s counterculture. Resistance to the war in Vietnam, the Civil Rights movement, and the spread of Buddhist thought created social unrest and political disorder. (Almost) simultaneously, a counter counterculture emerged – conservative Christians joined forces with right wing and libertarian politicians to resist sex, drugs, and rock-and-roll, and promote a religious, politically, and racially “purified” America. Sound familiar? In the midst of this turmoil, groups of physicists who had dropped out (but not necessarily tuned in) gathered in San Francisco and Palo Alto garages to create a technological revolution that continues to transform the world. This course will explore this seminal period through a consideration of music, films, and books of this era, as well as the technological and philosophical implications that quantum physics has on our society and culture today.

RELI UN3630 Religion and Black Popular Cultures. 3 points.
As an exploration of the relationship between religion, race, and popular culture, the course will begin with theoretical readings that expose students to a variety of definitions of and approaches to each of these categories. After tackling these theoretical concerns, the remainder of the course will entail a cross genre and thematic engagement with the terrain of black popular culture(s) in which students will be challenged to apply new theoretical resources in order to interpret a wide range of “religious” phenomena.

RELI UN3671 Religion and Human Rights. 4.00 points.
What is the relationship between religion and human rights? How have different religious traditions conceived of “the human” as a being worthy of inherent dignity and respect, particularly in moments of political, military, economic, and ecological crisis? How and why have modern regimes of human rights privileged some of these ideas and marginalized others? What can these complicated relationships between religion and human rights explain some of the key crises in human rights law and politics today, and what avenues can be charted for moving forward? In this class, we will attempt to answer these questions by first developing a theoretical understanding of some of the key debates about the origins, trajectories, and legacies of modern human rights’ religious entanglements. We will then move on to examine various examples of ideas about and institutions for protecting “humanity” from different regions and histories. Specifically, we will examine how different societies, organizations, and religious traditions have addressed questions of war and violence; freedom of belief and expression; gender and sexual orientation; economic inequality; ecology; and the appropriate ways to punish and remember wrongdoing. In doing so, we will develop a repertoire of theoretical and empirical tools that can help us address both specific crises of human rights in various contexts, as well as the general crisis of faith and and observance of human rights as a universal norm and aspiration for peoples everywhere.

RELI UN3755 AFRICAN-AMERICAN RELIGION. 3.00 points.

RELI UN3771 Early Modern Indigenous Thought. 4.00 points.
What is the source of truth and authority? What is the origin of the world and how does that determine the social order? Who ought to rule, why, and how? What are the standards for measuring justice and injustice? What is our relationship to the environment around us and how should its resources be distributed among people? How do we relate to those who are different from us, and what does it mean to be a community in the first place? Historically, the answers to these questions that have been described as “religious” and “political” have
been the restricted to a specific tradition of Western European Christianity and its secular afterlives. However, these are questions that every society asks, in order to be a society in the first place. This course analyzes how indigenous peoples in the Americas asked and answered these questions through the first three centuries of Western European imperial rule. At the same time, this course pushes students to question what gets categorized as uniquely “indigenous” thought, how, and why.

**Fall 2022: RELI UN3901**

**RELIS881 The Doctrine of Discovery: Religion, Law, and Legacies of 1492. 4.00 points.**

How did European-Christians justify the colonization of the Americas? Did these justifications vary between different European empires, and between the Protestant and Catholic faiths, and if so, how? Do these justifications remain in effect in modern jurisprudence and ministries? This class explores these questions by introducing students to the Doctrine of Discovery. The Doctrine of Discovery is the defining legal rationale for European Colonization in the Western Hemisphere. The Doctrine has its origins in a body of ecclesiastic, legal, and philosophical texts dating to the late-fifteenth century, and was summarized by Chief Justice John Marshall of the United States Supreme Court, in the final, unanimous decision the judiciary issued on the 1823 case Johnson v. M’Intosh. Students will be introduced to the major, primary texts that make up the Doctrine, as well as contemporary critical studies of these texts and the Doctrine in general.

**RELIR 3901 GUIDED READING AND RESEARCH. 1.00-4.00 points.**

Prerequisites: the instructors permission

**RELIR 4105 RELIGION LAB. 4.00 points.**

In their research, scholars of religion employ a variety of methods to analyze texts ranging from historical documents to objects of visual culture. This course acquaints students with both the methods and the materials utilized in the field of religious studies. Through guided exercises, they acquire research skills for utilizing sources and become familiarized with dominant modes of scholarly discourse. The class is organized around a series of research scavenger hunts that are due at the start of each week’s class and assigned during the discussion section (to be scheduled on the first day of class).

**RELIR 4120 GENDER IN ANC CHRISTIANITY. 4.00 points.**

This seminar considers the difference gender makes in interpreting ancient Christian texts, ideas, and practices. Topics will include gender hierarchy and homoeroticism, prophecy and authority, outsiders’ views of Christianity, bodily pieties such as martyrdom and asceticism, and gender politics in the establishment of church offices. Emphasis will be placed on close readings of primary sources and selected scholarly framings of these sources.
RELI GU4160 GNOSIS. 4.00 points.

RELI GU4202 TIME, MODERNITY, DEATH. 4.00 points.

The notion of modernity in the West implies a distinctive interpretation of temporality and subjectivity, which grows out of theological and philosophical traditions. Lutheran Protestantism, as developed by Hegel, Kierkegaard, and Heidegger, created the conditions for both the construction and the deconstruction of modernism and its extension in postmodernism. The course will examine these two trajectories by considering their contrasting interpretations of the relationship of human selfhood to time and death. On the one hand, the death of God leads to a radical immanence in which human subjectivity either is absolutized as the will to power or mastery that dominates or negates all difference and otherness, or is repressed by universal structures and infrastructures for which individual subjects are unknowing and unwitting vehicles. On the other hand, human subjectivity appears to be finite because its irreducible singularity is always given by an other that can be neither known nor controlled.

The course will conclude by considering the alternative psychological, political, and ethical implications of these two contrasting positions.

RELI GU4204 Religions of the Iranian World. 4 points.

This course is a seminar open to undergraduate and graduate students who wish to gain an understanding of the diverse religious traditions of the Iranian world from ancient to contemporary times. This subject has often been organized around the assumption that a continuous tradition of an Iranian national religious heritage can be identified and traced through from ancient, Zoroastrian to medieval Islamic traditions, and then ultimately to contemporary Shi’ite and minority Zoroastrian and Baha’i traditions. This perspective has presumed that such a legacy has been constitutive and determinative for Iranians’ sense of national identity and for their core religious word-view. From the outset, this course aims to problematize and ultimately overturn this approach, first of all, by historicizing the very idea of Iran and by challenging the assumption that an Iranian identity was even recognizable before the twentieth century, much less constitutive of some unbroken traditions of religious thought or practice. While there may be some persistent threads in language, mythic heritage, and religiosity that one can observe throughout the Iranian plateau and Central Asia across the centuries, it is more useful to examine these as part of a larger matrix of exchanges with adjacent cultural and religious systems. Students will examine a series of interrelated themes that are key to the studies of religion in the Iranian world. While the course does cover material that progresses roughly chronologically from the first millennium BCE to contemporary times, it is not a systematic historical survey. Each week will focus on a cluster of scholarly works and related primary sources on focused topics related to the successive religious traditions in Iran, the Mazdaen dualist traditions, Islam, and Baha’ism.

RELI GU4205 Love, Translated: Hindu Bhakti. 4 points.

Hindu poetry of radical religious participation-bhakti-in translation, both Sanskrit (the Bhagavad Gita) and vernacular. How does such poetry/song translate across linguistic divisions within India and into English? Knowledge of Indian languages is welcome but not required. Multiple translations of a single text or poet bring to light the choices translators have made.

RELI GU4206 HISTORY, TIME, AND TRADITION. 4 points.

In Refashioning Futures, David Scott asks if the accurate reconstruction of the past of an identity is the crucial point of a theoretical intervention. He ponders, instead, if such a historicist analysis should be followed by an emphatic “But so what?” The importance of asking “so what?” is that it allows us to begin to refuse, Scott writes, “history its subjectivity, its constancy, its eternity” and “interrupt its seemingly irrepres.able succession, causality, its sovereign claim to determinacy” (105) The question “so what?” requires, in other words, we answer for history’s prominence and providence as well as consider other possible formations of community, temporality, and inheritance not anchored by the weight of ‘history’.

This seminar examines the overwhelming hold of “history” in the present by considering Scott’s poignant “But so what?” We will begin by examining the problem-space of ‘history’ itself and how ‘history’ emerged as the foundation to understanding and ordering religious life globally. We will explore the wide-ranging effects of Enlightenment rationality and Orientalist knowledge production as well as consider the imbrication of history with theology and the secular. This section of the course will help develop a shared set of concepts and problems, which we will continuously encircle throughout. We will then examine how scholars have trouble this historical conscription, reorienting our understandings of temporality, tradition, and the past. The last half of the course, therefore, considers a range of different methods and theories that undo the importance of ‘history’ while remaining attuned to questions of the past, time, and inheritance.

RELI GU4207 Religion and the Afro-Native Experience. 4.00 points.

African Americans and Native Americans have a shared history of racial oppression in America. However, the prevailing lenses through which scholars understand settler colonialism, religion, and black and indigenous histories focus overwhelmingly on the dynamics between Europeans and these respective groups. How might our understanding of these subjects change when viewed from a different point of departure, if we center the history of entanglements between black and native lives? How does religion structure the overlapping experiences of Afro-Native peoples in North America? From political movements in Minneapolis, Oakland, and New York City to enslavement from the Cotton Belt to the Rio Grande, this class will explore how Africans, Native Americans, and their descendants adapted to shifting contexts of race and religion in America. The course
Religion, Politics and Culture in Contemporary Black America. 4.00 points.
This course examines the period commonly referred to as the "post-Civil Rights era"—that is, from the 1960s up through the current moment: a span of time also theorized through the related rhetorics of "postmodern," "postcolonial" and "post-Soul. We will explore the inter-workings of religion, politics and culture (as they converge and diverge) in contemporary black life. Attention will be given to formal religious traditions (i.e. Christianity, Islam, African-derived traditions), but also to a range of ideas about religion and/or spirituality as they are revealed in the artistic expression, politics and activism, and popular culture and media. Taking analytical cues from critical race theory, questions of agency, power and difference will be fore-grounded, as witnessed in how religious discourses and practices negotiate such categories as race, class, gender and sexuality. Ultimately, bringing together developments within the inter-disciplinary fields of black studies and the study of religion, ultimately this class will examine the ways in which various ideas about “religion” shape and circulate across various forms of black political organizing and cultural expression in our current moment. This seminar is open undergraduates and graduate students. While there are no require pre-requisites, students are expected have some prior background in religious studies and/or African American Studies

RELI GU4214 African and North African Philosophy: An Introduction. 3.00 points.
What is African philosophy? Is a theory African simply because it is rooted in the political present of the continent? Is it African because it corresponds to an African cultural singularity or simply because his authors and inventors come from or live in Africa? This class will examine a) how religious traditions shape African theory b) how the influence of colonial anthropology on concepts of African culture and tradition can be challenged c) how African theory relates to African politics of decolonization, in North and “subsaharan” Africa. The major dialectical problem we will examine during the class is the ongoing contradiction between claims of authenticity and demands of liberation, traditionalism and modernity, religion and secularism, culturalism and Marxism

RELI GU4215 Hinduism Here. 4 points.
Historical, theological, social and ritual dimensions of "lived Hinduism" in the greater New York area. Sites selected for in-depth study include worshipping communities, retreat centers, and national organizations with significant local influence. Significant fieldwork component

RELI GU4216 Religion and Capitalism: Faith and the American Market. 4.00 points.
Is the market a religious system? Can we consider "capitalism" to be a key arena in which the relationship between the religious and the secular is both negotiated and performed? In this course, students will explore the complicated relationship between faith and the market, the religious and the secular, and the evolution of vice and virtue as they relate to economic thriving in the United States. While no hard and fast rules for thinking about the relationship between right conduct and material interests cut across all religious and philosophical traditions, human agents invest real faith into currency, into markets, and into the reigning economic order to bring about increased opportunities, wealth, and freedom to people across the globe. Throughout this semester, we will chart both the long shadows and the future trajectories of these beliefs from our American perspective
RELI GU4216 Colonialism and religion in South Asia. 4 points.
This course examines the conceptual trouble wrought by colonial rule in relation to boundaries, both of tradition and identity. We will begin by examining the category of ‘religion’ and how it emerged as an object of inquiry to understand and order life in the South Asian subcontinent. By exploring the wide-ranging effects of Orientalist knowledge production premised on secular historicity, this section of the course will help develop a shared set of concepts, which we will continuously encircle throughout. We will then question the role of this knowledge/power nexus in creating and reifying both notions of ‘fluid’ and ‘communal’ boundaries by studying the internal coherence and colonial inflection of several religious traditions in the subcontinent (Hinduism, Sikhism, Islam, and Buddhism). In concluding, we will consider how colonialism shifted the parameters of selfhood, creating new grounds, as well as reifying old ones, from which subjects came to contest the parameters of a given tradition.

RELI GU4217 American Religions in extremis. 4.00 points.
This seminar focuses on historical, sociological, and first-hand accounts of a diverse set of American non-conformist religious and spiritual groups (including MOVE, the Branch Davidians at Waco, Father Divine's International Peace Mission, the Oneida Perfectionists, and Occupy and others). Diverse in their historical origins, their activities, and their ends, each of the groups sought or seeks to offer radically new ways of living, subverting American gender, sexuality, racial, or economic norms. The title of this seminar highlights the ways that these groups explain their reasons for existing (to themselves or others) not as a choice but as a response to a system or society out of whack, at odds with the plans of the divine, or at odds with nature and survival. Likewise, it considers the numerous ways that these same groups have often found themselves the targets of state surveillance and violence.

RELI GU4218 Heidegger and the Jews. 4 points.
The conundrum of Martin Heidegger and the Jews continues. The recent publications of Heidegger’s Black-Notebooks reignited the debate over his ties to the National Socialist party and his personal anti-Semitism. These notebooks reveal that Heidegger establishes a philosophical case for his prejudices against Jews, one which arguably cuts to the very heart of his thinking. And yet, many of his closest and most brilliant students were Jewish, and it is becoming increasingly clear that his philosophy has left an indelible mark on twentieth century Jewish thought. This course is divided into two units: In the first unit we will become familiar with some central themes of Heidegger’s thought and explore the question of the philosophical grounding of his political failing. In the second unit we will examine a variety of responses to Heidegger by Jewish thinkers who, in different ways and for different purposes, both profited greatly from his philosophical innovations and levelled profound criticism of his thought and actions. The animating question the course will attempt to answer is: Is it possible, as one student of Heidegger’s had suggested, to think with and against Heidegger?

RELI GU4219 Colonialism and religion in South Asia. 4 points.
This course examines the conceptual trouble wrought by colonial rule in relation to boundaries, both of tradition and identity. We will begin by examining the category of ‘religion’ and how it emerged as an object of inquiry to understand and order life in the South Asian subcontinent. By exploring the wide-ranging effects of Orientalist knowledge production premised on secular historicity, this section of the course will help develop a shared set of concepts, which we will continuously encircle throughout. We will then question the role of this knowledge/power nexus in creating and reifying both notions of ‘fluid’ and ‘communal’ boundaries by studying the internal coherence and colonial inflection of several religious traditions in the subcontinent (Hinduism, Sikhism, Islam, and Buddhism). In concluding, we will consider how colonialism shifted the parameters of selfhood, creating new grounds, as well as reifying old ones, from which subjects came to contest the parameters of a given tradition.

RELI GU4220 Political Theology. 4 points.
Prerequisites: Prior coursework in Religion, MESAAS, political theory, or related field is advised. This reading-intensive course will engage the notion of “political theology,” a phrase that emerges within the Western tradition (Varro, Augustine) and has become instrumental in thinking and institutionalizing the distinction between religion and politics over the course of the twentieth century. We will take as our point of departure the key texts that have inspired this notion (Schmitt, Kantorowicz), and engage their interpretation of the Bible and of Augustine and medieval followers. We will then examine the role of Spinoza and Moses Mendelsohn, the extension of the notion of religion to “the East” (Said, Grosrichard, Asad), and conclude with some of the current debates over secularization in the colonizing and colonized world. The main part of the course will be dedicated to the question of religion as it informs our thinking of disciplinary divisions. Is religion a sphere than can be isolated? How did it become so? What are the effects of this isolation?

RELI GU4222 Heidegger and Derrida. 4 points.
This seminar will explore the relationship between Heidegger and Derrida through a close reading of texts in which they consider common questions and issues. Works from both early and late Heidegger will be considered. An examination of Derrida’s writings on Heidegger reveals how he simultaneously appropriates and criticizes Heidegger in developing his critique of the western philosophical and theological tradition. Special attention will be paid to their contrasting interpretations of time and their alternative accounts of the work of art. This course is a sequel to Hegel and Kierkegaard, though the previous course is not a prerequisite for this seminar.

RELI GU4223 Dreams. 4.00 points.
This seminar for advanced undergraduates and graduate students is an interdisciplinary investigation of how dreams are viewed and understood across a range of the historical, sociocultural, political, and scholarly environments in which they are experienced and interpreted. Eclectic in approach, we will focus on close readings of a selection of dream texts, beginning with Freud’s “The Dream of Irma’s Injection.” We will aim to open out the text over several weeks. To facilitate this process, the syllabus will include an array of suggested readings linked to each week’s focus of inquiry. Students are expected to make a selection from these readings (or other readings that you find relevant) in order to prepare your own close reading of the dream text to discuss in class. We will then turn to other dreamers who draw on different aspects of the Islamic tradition to understand their own dreams, with
supplementary readings drawn from history, anthropology, and religious studies to provide contexts for interpreting these dreams.

RELI GU4224 Dialectics: Theology and Philosophy between Europe and Africa. 4 points.

What is dialectical reason? Is it still a mode of theological reasoning, as many critiques have argued, or a revolutionary form of secular critique? To what degree did it shape the language of revolutionary Marxism both in Europe and Africa, as the work of Fanon notably testifies? How does it still define the horizon of contemporary philosophy, French theory and postcolonial thinking? The class will address this question. Beginning with Hegel, it will trace the becoming of his legacy in Marx, Fanon, Sartre and contemporary issues in French theory and African philosophy.

RELI GU4227 Empire and Decolonization in North Africa: Race, Religion, Climate. 4.00 points.

The course examines crucial debates in colonial and decolonial studies from a North African point of view, with a particular focus on Algeria. What does it mean to rethink conceptually and globally about empire and decoloniality from the point of view of North Africa; a region which is often marginalized in both postcolonial and decolonial theory? The questions that will guide us throughout the class read as follows: 1) How is one to rethink the Maghreb without either reducing it to the history of French colonialism or downplaying the impact of colonialism on North Africa? How can binaries of direct rule and indirect rule, settler colonialism in Algeria and protectorates in Morocco and Tunisia be challenged in order to understand the postcolonial Maghreb as a unit? 2) Can one think about the historicity of the Maghreb without taking the destruction of Al-Andalus and its influence on the birth of race as a point of departure? Does the Christian racialization of Jews and Muslims through the notion of a purity of blood permeate the French colonization of the Maghreb? Is French colonialism in North Africa secular or Christian? How does secularity emerge in the midst of this history by reconfiguring the legacy of the Crusades? 3) How are Muslims and particularly Sufi orders involved in the practices of resistance against French colonial violence? How are traditional Islamic languages and practices of saithood or the longing of the Mahdi redeployed in this situation? How do these practices and languages of resistance transform themselves with the construction of anticolonial nationalism? How can one rethink decolonization by analyzing how Algiers became the capital of Third World resistance at a global scale? 4) How do contemporary debates about Islam, tradition and modernity deploy themselves in the Maghreb and particularly in Morocco? How do these debates shape our understanding of decolonization?

RELI GU4228 South Asia and the Secular. 4 points.

This seminar explores different contestations and inflections of the secular in South Asia. We will begin by tracing a genealogy of the secular, which gave rise to a particular discursive grammar. Grounding ourselves in this formative space of the secular, we will study the constitutive nature of imperialism within the secular by examining the disciplining and conscripting role of Orientalism and the colonial state. Though noting these changes produced by colonial rule, this course also explores the arguments scholars of South Asia have made distinguishing between “secularisms” and the production of a tolerant and cosmopolitan South Asian orientation. In conjunction and against these possibilities, rather than consider the religious retrograde or communal, we will consider the continual striving toward political autonomy through disputation in the parameters of a given tradition— which resist incorporation into a broader pluralist or syncretic Indic model.

RELI GU4255 Hegel, Information, “Artificial” Intelligence. 4.00 points.

The development of high-speed computers, artificial neural networks, miniaturized sensors, mobile phones, and Big Data has created the conditions for the transformation of artificial intelligence. These changes are not only transforming the world but are also recasting long-standing distinctions like nature/culture, natural/artificial, body/mind, complexity/simplicity, and organism/machine that have shaped human thought and life for centuries. This refiguring of opposites as irreducibly interrelated was anticipated by Kant’s notion of self-organization and developed systematically by Hegel. This course will approach current forms of artificial intelligence through Kant’s interpretation of self-organization and Hegel’s dialectical logic and will reread Hegel’s system through “natural” and “artificial” neural networks, complex systems, and information theory. If nature and culture are inextricably interrelated, then is “artificial” intelligence really artificial, and is “nature” every merely natural? What are the implications of these developments for the understanding of human “nature” that has shaped the Anthropocene since the time of Galileo, Newton, and Descartes?

RELI GU4255 Hegel, Information, “Artificial” Intelligence. 4.00 points.

RELI GU4228 South Asia and the Secular. 4 points.

RELI GU4227 Empire and Decolonization in North Africa: Race, Religion, Climate. 4.00 points.

RELI GU4224 Dialectics: Theology and Philosophy between Europe and Africa. 4 points.

RELI GU4304 Krishna. 4 points.

Study of a single deity in the Hindu pantheon as illuminated in art, music, dance, drama, theological treatises, patterns of ritual, and texts both classic and modern. Special attention to Krishna’s consort Radha, to Krishna’s reception in the West, and to his portrayal on Indian television.
RELI GU4305 SECULAR # SPIRITUAL AMERICA. 4.00 points.
Prerequisites: Majors and concentrators receive first priority. Are Americans becoming more secular or more spiritual (not religious), or both? What are the connections between secularism and what is typically called non-organized religion or the spiritual in the United States? We will address these questions by looking at some of the historical trajectories that shape contemporary debates and designations (differences) between spiritual, secular and religious.

RELI GU4307 BUDDHISM # DAOISM IN CHINA. 4.00 points.
Prerequisites: one course on Buddhism or Chinese religious traditions is recommended, but not required, as background. In recent decades, the study of the so-called “Buddho-Daoism” has become a burgeoning field that breaks down the traditional boundary lines drawn between the two Chinese religious traditions. In this course we will read secondary scholarship in English that probes the complex relationships between Buddhism and Daoism in the past two millennia. Students are required not only to be aware of the tensions and complementarity between them, but to be alert to the nature of claims to either religious purity or mixing and the ways those claims were put forward under specific religio-historical circumstances. The course is organized thematically rather than chronologically. We will address topics on terminology, doctrine, cosmology, eschatology, soteriology, exorcism, scriptural productions, ritual performance, miracle tales and visual representations that arose in the interactions of the two religions, with particular attention paid to critiquing terms such as “influence,” “encounter,” “dialogue,” “hybridity,” “syncretism,” and “repertoire.” The course is designed for both advanced undergraduate and graduate students in the fields of East Asian religion, literature, history, art history, sociology and anthropology. One course on Buddhism or Chinese religious traditions is recommended, but not required, as background.

RELI GU4308 Jewish Philosophy and Kabbalah. 4 points.
The purpose of this seminar is to study the interactions between two major intellectual trends in Jewish History, the philosophical and the mystical ones. From the medieval period to the twenty-first century, we will discuss their interactions, polemics and influences. We will compare Philosophy and Kabbalah in light of their understanding of divine representation and in light of their respective Theology and conception of God.

RELI GU4311 Fanon: Religion, Race, Philosophy in Africa and beyond. 4 points.
This class will examine the work of Fanon through its sources, its context and its contemporary interpretations.

RELI GU4314 Bhakti Poets. 4.00 points.
Hindu poetry of radical religious participation—bhakti—in translation: poets of different regions, genders, and theological leanings. Knowledge of the original languages is not expected. Music, art, and performance play a role.

RELI GU4315 Sufis and the Qur’an. 4 points.
This course is a seminar for advanced undergraduates and graduate students who wish to gain an understanding of the complexity and richness of the Sufi exegetical tradition. The Qur’an has been the main source of inspiration and contemplation for Sufis for centuries.

RELI GU4317 Islam in Southeast Asia. 4.00 points.
Despite the fact that a fifth of the world’s Muslim population lives in Southeast Asia, the region is often considered peripheral to or insignificant for the study of Islam more broadly. In this course, we will not only learn about Islamic thought and practice in the history and present of this important part of the Islamic world; we will also reflect on issues that, while grounded in the Southeast Asian context, illustrate a variety of key Islamic Studies issues. The first half of the course will provide a historical overview over the development of Islam in Southeast Asia while the second half will focus on contemporary issues. The Malay-Indonesian world, home to 90# of Southeast Asia’s Muslims, will be our primary focus. Our approach will be interdisciplinary, incorporating anthropological, historical, and media studies approaches. Students in this class are expected to have some prior knowledge of Islam.

RELI GU4318 INTERPRETING BUDDHIST YOGA. 4.00 points.
Students and scholars approaching a vast amount of primary and secondary literature, as well as accounts and anthropoligical and sociological studies of Buddhism as a lived religion, are faced with an array of stories, data, theories and practices, many of which appear to be inconsistent with others. We try to make sense of these by interpreting them. The art or science of interpretation – “hermeneutics” after Hermes – has a long history in Asia and in the West. Buddhism itself has a tradition of hermeneutics, as does each of the Western religious traditions and Western philosophy and law, starting with Plato and Aristotle, becoming “romantic” with Schleiermacher, and “modern” with Heidegger, Gadamer, and Ricoeur. Today’s Western hermeneutics has become largely de-regionalized from specific subject areas, and has been extended to the interpretation of all human experience. After a grounding in traditional Buddhist and Western hermeneutic principles, we will focus on a number of aspects of Buddhism, including the central question of whether there is a “self” or not, and on esoteric Buddhist yoga, Tantra, central to several of the better-known forms of Buddhism today, including Tibetan Buddhism. Here we will witness the confluence and, sometimes, collision of traditional Buddhist and Tantric hermeneutics focusing in large part on “spiritual” concerns, and the Western tradition, with its emphasis on economics, power, and gender. In thinking about which interpretations are “right” -- indeed, whether any
interpretation can be “right,” and, if so, "how much?" -- we will consider the cultures in which these scriptures and practices originated, as well as ourselves and our own contemporary perspectives, insights, presuppositions and prejudices. A primary concern of hermeneutics is the interpretation of so-called "objective" physical and subjective mental realities. In thinking about the hermeneutics of outer and inner time and space, towards the end of the semester we will consider whether the "objective" and the "subjective" intersect, how much, and look at some descriptions of quantum mechanics and the role of observation of physical reality there, and analogize and contrast those to and with some Buddhist systems of philosophy and practice.

**RELI GU4322 EXPLORING THE SHARIA: ISLAMIC LAW. 4.00 points.**

CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

The platform of every modern “Islamist” political party calls for the implementation of “the shari’a.” This term is invariably (and incorrectly) interpreted as an unchanging legal code dating back to 7th century Arabia. In reality, Islamic law is an organic and constantly evolving human project aimed at ascertaining God’s will in a given historical and cultural context. This course offers a detailed and nuanced look at the Islamic legal methodology and its evolution over the last 1400 years. The first part of the semester is dedicated to “classical” Islamic jurisprudence, concentrating on the manner in which jurists used the Qur’an, the Sunna (the model of the Prophet), and rationality to articulate a coherent legal system. The second part of the course focuses on those areas of the law that engender passionate debate and controversy in the contemporary world. Specifically, we examine the discourse surrounding Islamic family (medical ethics, marriage, divorce, women’s rights) and criminal (capital punishment, apostasy, suicide/martyrdom) law. The course ends by discussing the legal implications of Muslims living as minorities in non-Islamic countries and the effects of modernity on the foundations of Islamic jurisprudence. This class is designed for students interested in a close examination of the Islamic legal system; it is not a broad introduction to the Islamic religion. The format of the class will vary from topic to topic but students should anticipate extensive participation through in-class debates.

**RELI GU4324 American Scriptures. 4.00 points.**

What is scripture? How is cannon created? How do particular communities find meaning in varying works of literature? In this seminar, we will explore a number of influential American texts not simply in order to understand how they address questions of the holy and divine presence but also for how they provide creative ways of considering questions that have dogged Americans for centuries. In so doing, we will place literary works in conversation with contemporary theological trends and present-day scholarship on these connections.

The course’s main thematic focus will be on government and collective rights; racial difference and questions of theodicy; children’s literature and disciplinary formation; the American libertarian streak; how best to care for the self; and humanity’s connection to nature. Students will examine a variety of texts – from the Declaration of Independence to Carl Sagan and Moby Dick – to better understand what matters to Americans and what do the literary artifacts we leave behind say about our current civilization? This course will have succeeded in its goals if by its end your operative definition of religion has been significantly jumbled, challenged, and complicated. While many of our historical actors will use the term in different ways, this course is invested not in identifying what is or is not properly “religious,” but rather in examining how ideas operate in the world for the people to whom they’re important. To a certain extent, we must take seriously the claims made by religious actors of God acting in their lives. But in terms of analysis, religion for us will be a fluid concept, one that evades simple definition, and that is always “real” in terms of its effects on belief, action, and identity.

**RELI GU4325 Sufism. 4 points.**

Prerequisites: Permission of instructor.

This is a seminar for advanced undergraduate and graduate students who wish to gain an understanding of the richness of Sufism (Islamic mysticism). We will examine the historical origins, development and institutionalization of Sufism, including long-standing debates over its place within the wider Islamic tradition. By way of a close reading of a wide range of primary and secondary sources, we will examine Sufi attitudes toward the body, Sufi understandings of lineage, power and religious authority, as well as the continued importance of Sufism in the modern world.

**RELI GU4326 SUFISM IN SOUTH ASIA. 4.00 points.**

Sufism or tassawuf has misleadingly been described as the mystical side of Islam, implying that it is somehow detached from the material world. Throughout the history of Islam, Sufi ideas, practices, and institutions have borne a complex, intimate, and sometimes fraught relationship with other aspects of Islamic tradition and practice, a relationship that has also been profoundly impacted by Orientalist scholarship in the colonial period and by global reformist currents in the postcolonial period. This seminar for advanced undergraduates and graduate students is an interdisciplinary investigation of how Sufism has been affected by the historical, sociocultural, political, and everyday environments in which it is experienced and practiced, with a particular focus on South Asia. Eclectic in approach, we will begin by considering how Sufism has been construed and even constructed by scholars, considering how modern notions of the self, religion, and the political have shaped scholarly understandings of what Sufism is. Focusing...
on bodily practices and well known individual Sufis who lived in South Asia during different historical periods, we will use them as a vehicle for understanding Sufi experience within the context of the evolving Sufi orders within specific local spaces. We will consider why Sufism has become such a target of controversy and ambivalence among Muslims in the modern world and trace some of the changing controversies and tensions that Sufis have struggled with over time, focusing on their understandings of self, society and reality

Points: 4.00
Enrollment: 6/15

RELI GU4355 AFR AM PROPHETIC POL TRADITION. 4.00 points.

Through a wide range of readings and classroom discussions, this course will introduce students to the crucial role that the unique African-American appropriation of the Judeo-Christian prophetic biblical tradition has played -- and continues to play -- in the lives of black people in America

RELI GU4365 Revolutionary Women and Political Islam. 4 points.

Muslim female reformers and revolutionaries were at the forefront of many of the 20th and early 21st centuries’ historic socio-political and religious movements across the Global South. Members of diverse classes, families, and ethnic communities, many worked within the tenets of Islam in multiple ways to construct religious identity and work towards achieving and demanding civil and political rights. Yet the myriad theoretical and popular discourses underpinning emergent and longstanding women’s movements within revolutionary contexts are frequently overlooked. Moreover, representations of Muslim women too often rely on essentialist, ahistorical, static, victim-centered, and Orientalist descriptions and analyses. As a result, shades of difference in interpretation, ideology, practice, and culture are minimized. This course situates Muslim women as complex, multidimensional actors engaged in knowledge production and political and feminist struggles. We will read key texts and analyses from scholars and activists writing on religion, gender, sexuality, family planning, and women’s status in the contemporary Global South. The following questions will emerge in our discussions: “When is a hejab just a hejab?,” “Do Muslim Women Really Need Saving?,” and “What is an Islamic Feminist’ and Should We Care?” Readings include memoirs, editorials, ethnographies, and political treatises, as well as historical scholarship from North Africa, the Gulf, the Levant, and Southeast Asia.

RELI GU4407 Living Together: North American (Religious) Experiments. 3.00 points.

The purpose of this seminar is to study historical communal religious experiments in the United States. It will engage with the questions of religious counter-cultures, and in particular the ways that communal religious groups challenge mainstream economic, political, gender, racial, and sexual norms through fashioning alternative modes of living together. The seminar will concentrate on study and analysis of texts, practices, and materials from two religious groups, the Shakers and Father Divine’s International Peace Mission. The questions raised in considering these two historical groups will be refocused in a final unit that compares these communities to the comparatively short lived and “secular” Occupy movement, and brings the issues and challenges of alternative forms of living into the present moment

RELI GU4411 RELIGION,MIND#SCIENCE FICTION. 4.00 points.

While not yet fully recognized as a literary or philosophical genre, science fiction, through the “dislocation” it operates, raises (or amplifies) questions that have long been the preserve of religion, metaphysics, or philosophy, and it has brought some of these questions into the realm of popular culture. Science fiction is often perceived as hostile to religion, yet it often blurs the boundaries between science and religion. Recent SF, unlike the traditional “space opera,” revolves around the relations between the human mind and Artificial Intelligence — a challenge that our fast-evolving technoscientific society is confronting with a new sense of urgency. This course examines overlapping issues and questions shared by religion and SF

RELI GU4412 RECOVERING PLACE. 4.00 points.

RELI GU4416 Empire and Secularization in Africa: Reform, Mission, Islam. 4 points.

This course examines how Empires paved the way to a new form of domination in Africa. Secularizing processes will be analyzed in relation to imperial histories in Africa. From the Expedition in Egypt to the Berlin Conference, Empires in Africa were both secular and religious. We will examine the multiple ways in which Empires colonized Africa by encountering, regulating or transforming African religious traditions. The class will compare historical geographies of “North Western” and “North Eastern” Africa by focusing on the Maghreb and West Africa but also on Egypt and Sudan. We will examine the relations of Empires with Islam and Christian missions in Africa. We will also examine how African uprisings challenge and challenged Imperial and State powers both before and during the Pan-African movement. We will eventually look at both Imperial and Anti-Imperial legacies in Africa today.

RELI GU4417 Recovering Place. 4.00 points.

During the late 20th and early 21st centuries, the intersection of multiple disruptions has led to the loss of a sense of place. This has resulted in pervasive alienation and disorientation, which has led to a desire a growing desire to recover place. This course will examine the interplay between Displacement (Migration, Virtualization, Surveillance, Climate, Globalization) and Replacement (City, Rivers, Forests, Country). Special attention will be given to Displacement and Replacement in New York City. Students will have the
opportunity to write a term paper or to create a project in an alternative medium

RELI GU4418 On African Theory: Religion, Philosophy, Anthropology. 4 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

What is African Theory? Is a theory African simply because it is rooted in the political present of the continent? Is it African because it corresponds to an African cultural singularity or simply because his authors and inventors come from or live in Africa? This class will examine some central aspects of both African and Africana philosophy. We will study a) how religious traditions shape African theory b) how the influence of colonial anthropology on concepts of African culture and tradition can be challenged c) how African theory relates to African politics of decolonization, in North and "sub-Saharan" Africa. The major dialectical problem we will examine during the class is the ongoing contradiction between claims of authenticity and demands of liberation, traditionalism and modernism, religion and secularism, culturalism and Marxism.

RELI GU4420 RELIGIOUS WORLDS OF NEW YORK. 4.00 points.

RELI GU4509 CRIME/PUNISHMENT-JEWISH CULTRE. 4.00 points.
Jews have stood on every imaginable side of criminal justice: accuser and accused; prosecutor, defendant, and defender; judge and judged; spectator; storyteller; journalist; critic; advocate. How did Jews approach these various roles, and what notions of crime, criminality, punishment, and justice did they bring with them? This course crosses chronological eras, geographical regions, and academic disciplines to explore configurations of crime and punishment in Jewish cultures. It strives to achieve a balance in its coverage of Ashkenaz vs. Sefarad; ancient, late ancient, medieval, modern, and contemporary Judaisms; the specific and historical vs. the philosophical and theoretical; and varieties of sex, race, and gender. The role of classical Jewish texts, theology, and community in shaping Jewish approaches to criminal justice will all be considered.

RELI GU4513 BUDDHISM AND NEUROSCIENCE. 4.00 points.
With the Dalai Lamas marked interest in recent advances in neuroscience, the question of the compatibility between Buddhist psychology and neuroscience has been raised in a number of conferences and studies. This course will examine the state of the question, look at claims made on both sides, and discuss whether or not there is a convergence between Buddhist discourse about the mind and scientific discourse about the brain.

Spring 2023: RELI GU4513

RELI GU4514 Defining Marriage. 4 points.
This seminar examines the changing purpose and meaning of marriage in the history of the United States from European colonization through contemporary debates over gay marriage. Topics include religious views of marriage, interracial marriage, and the political uses of the institution.

RELI GU4515 Reincarnation and Technology. 4 points.
A seminar exploring reincarnation, resurrection, and their contemporary cyber-relatives, uploading and simulation. We'll explore Abrahamic, Amerind, Chinese, Greek, and Indian accounts, the Tibetan Buddhist reincarnation tradition and methodology in detail, and contemporary research on reincarnation, near-death, and out-of-body experiences. We will then turn to contemporary developments in science, religion, and philosophy concerning uploading consciousness to computer media and the probability that we are living a simulation. We will investigate whether religious traditions are consistent with or expressive of simulated reality, and the application of karma to all of the above.

RELI GU4516 The Politics of Freud in the Postcolony. 4 points.
This seminar examines the legacies of psychoanalysis through a critical exploration of how its concepts, practices and institutes have operated in colonial and postcolonial contexts. Weekly discussions will look at how practicing therapists, activists, anthropologists and others have extended, subverted and displaced psychoanalytic thought within non-European histories and imaginaries. Topics include challenges to the universality of the Oedipus emerging from early 20th century anthropologist’s studies of kinship in Papua New Guinea, legacies of a self-made South Asian psychoanalyst’s challenges to Freudian orthodoxies, and the study of a psychoanalysis of racism forged out of a Martinician psychiatrist’s encounters with colonial neuroses in Algeria. We will also explore how psychoanalytic concepts have been deployed in debates about repression and sexuality in daily life during the Cultural Revolution and the psychic legacies of Maoism in contemporary China. In addition to reading the work of Freud and his critics, we will encounter primary materials—religious texts, movies, novels—that have been subjected to psychoanalytically-inflected interpretations. While attending to the cultural, racial and political assumptions suffusing psychoanalysis, our seminar will also show how variously situated authors have given this tradition new applications and meanings.

RELI GU4517 After the Human. 4.00 points.
The advent of high-speed computing, Big Data, new forms of Artificial Intelligence, and global networking is rapidly transforming all aspects of life. Implants, transplants, genetic engineering, cloning, nanotechnology, cyborgs, hybrids, prostheses, mobile phones, tracking devices and wearable devices. The Internet of Things and the Internet of Bodies are becoming interconnected to transform what once was known as human being. These developments raise fundamental
questions about what comes after the human. This course considers the philosophical and theological implications of this question by addressing the following issues: Natural vs. Artificial, Treatment vs. Enhancement, the Artificial Intelligence Revolution, Ubiquitous Computing, the Internet of Things, the Singularity, Extended Mind and Superintelligence, Internet of Bodies and Superorganisms, Death and After Life. Students will have the option of writing a term paper or doing a project related to the course readings.

**RELIGION GU4517 Food and Sex in Premodern Chinese Buddhism. 4.00 points.**

This seminar will examine how bodily practices associated with gender and Islam in North Africa, foregrounding the entangled genealogies of religious, political and feminist thought across the region. Through lectures, readings, documentaries, and class discussions, students will be introduced to important conceptual and empirical frameworks related to the construction of religion and gender in the region. A significant part of this course will explore gendered experiences within sacred texts, rituals, political praxis and social expression. The course will also explore the different women’s rights movements, with particular focus on the emergence of female Muslim activism. We will examine how feminism is shaped and/or challenged by the encounter with Islam, and look at the strategies and activism(s) of Muslim feminists and how they contribute to the development of civil society, social justice and feminist re-interpretation of religious texts. Students will be encouraged to think broadly across social, political and embodied ideas of gender and Islam, and therefore develop new avenues for capturing and interpreting the complexities of gender and religious subjectivity.

**RELIGION GU4519 Gender, Islam and Society in North Africa. 4.00 points.**

This course provides a range of perspectives for the study of gender and Islam in North Africa, foregrounding the entangled genealogies of religious, political and feminist thought across the region. Through lectures, readings, documentaries, and class discussions, students will be introduced to important conceptual and empirical frameworks related to the construction of religion and gender in the region. A significant part of this course will explore gendered experiences within sacred texts, rituals, political praxis and social expression. The course will also explore the different women’s rights movements, with particular focus on the emergence of female Muslim activism. We will examine how feminism is shaped and/or challenged by the encounter with Islam, and look at the strategies and activism(s) of Muslim feminists and how they contribute to the development of civil society, social justice and feminist re-interpretation of religious texts. Students will be encouraged to think broadly across social, political and embodied ideas of gender and Islam, and therefore develop new avenues for capturing and interpreting the complexities of gender and religious subjectivity.

**RELIGION GU4524 UNCONSCIOUS AND JEWISH THOUGHT. 4.00 points.**

This survey aims to reflect on the specific dialogue between faith and theories of the mind. After an overview of pre-Freudian notions of the unconscious, the course will examine Freud’s 1896 Theory of the unconscious mind and the key analytical concepts which display similarities between psychoanalysis and Jewish thought, from Talmudic hermeneutics to Kabbalah studies. We will explore the unconscious through readings from Leibnitz, Schelling, Goethe, von Hartmann, Freud, Jung, as well as its preludes and echoes in the Talmud and in the writings of Azriel of Gerona, the Magid of Mezrich, Krochmal, Leiner, Lou Andreas Salome, Scholem, Idel, Wolfson.

**RELIGION GU4526 Food and Sex in Premodern Chinese Buddhism. 4 points.**

This course is an upper-level seminar on appetite and its management, designed for advanced undergraduates and graduate students. Our focus will be on the appetites of food hunger and sexual desire, and how Chinese Buddhist teachings propose to manage these. Food and sex are separate domains of experience, but as the primary objects of bodily appetites, they are analogous. Eating and sex both involve a direct and substantive interaction with the material world that is driven by powerful desires. In Buddhist teachings, these desires are said to bind us to the cycle of rebirth (samsara) and to shape the actions (karma), both mental and corporeal, that constitute our moral engagement with the phenomenal world. Hence it is important to know how a Buddhist on the path out of suffering is to manage these activities. What do monastic codes stipulate? What disciplines did lay Buddhists undertake? How are transgressions identified and handled? How do ancient Chinese and Daoist ideas inform the development of Chinese Buddhist attitudes toward sex and diet? How did Chinese Buddhist monastics come to adopt a meatless diet? How do religions use food and sex as tools for determining one’s ritual purity (i.e., moral worth)? We will explore these and related topics. Despite the common perception of Buddhism as a world-denying religion focused on transcending bodily needs, Chinese Buddhists (and their Indian or Central Asian counterparts) engaged in numerous body practices with worldly benefit, while at the same time mitigating the dangers of desire through various doctrinal and practical means. This course is an exploration of those means.

**RELIGION GU4528 Religion and the Sexed Body. 4.00 points.**

This seminar will examine how bodily practices associated with gender and sexualities are cultivated, regulated, and articulated within various religious traditions and how these practices have been influenced by global processes, including colonialism, the accelerating movement of people and technologies, and modern secularism and identity politics. Throughout the course we will tack back and forth between theoretical works and ethnographic/historical writing, in order to articulate what is probably the most difficult aspect of original research: how to bring together “high theory” and primary sources ranging from field research to data drawn from a variety of media.

**RELIGION GU4535 BUDDHIST CONTEMPLATIVE SCIENCES. 4.00 points.**

Buddhist arts and sciences traditionally are divided into the interconnected disciplines of ethics (#la), wisdom/philosophy (prajñā), and “meditation” or experiential cultivation (samādhi/ bhāvanā). This seminar course introduces the latter discipline, thus complementing and completing Prof. Yarnall’s Columbia seminars on Buddhist Ethics (RELIGION UN3500) and Indo-Tibetan Buddhist Philosophy (RELIGION GU4630), either of which—in addition to his introductory lecture course on Indo-Tibetan Buddhism (RELIGION UN2205)—are encouraged as prerequisites. This course will provide a detailed presentation of key Buddhist contemplative sciences, including: stabilizing meditation (śamatha); analytic insight meditation (vipaśyanā); cultivation of the four immeasurables, and form and formless trances; mind cultivation (lo jaṅga); mindfulness meditation; Zen meditation; great perfection (dzogchen); and the subtle body-mind states activated and transformed through advanced tantric yoga.
techniques. These arts and sciences will be explored both within their traditional interdisciplinary frameworks, as well as in dialog with related contemporary disciplines, including: cognitive sciences, neuroscience, psychology, psychiatry, philosophy, epistemology, and so forth. To be conducted in a mixed lecture/seminar format (active, prepared participation required)

RELI GU4562 Wittgenstein and Religion. 4 points.
Ludwig Wittgenstein is one of the most important philosophers of the twentieth century, and probably one of the most widely read by non-philosophers. His influence on a number of intellectual disciplines (philosophy, politics, theology, social science, history, etc.) has been considerable. This course will focus on Wittgenstein’s own writings and their reception, with a focus on the study of religion and anthropology.

RELI GU4565 Women and Islam. 4.00 points.
This course is a comprehensive engagement with Islamic perspectives on women with a specific focus on the debates about women’s role and status in Muslim societies. Students will learn how historical, religious, socio-economic and political factors influence the lives and experiences of Muslim women. A variety of source materials (the foundational texts of Islam, historical and ethnographic accounts, women’s and gender studies scholarship) will serve as the framework for lectures. Students will be introduced to women’s religious lives and a variety of women’s issues as they are reported and represented in the works written by women themselves and scholars chronicling women’s religious experiences. We will begin with an overview of the history and context of the emergence of Islam from a gendered perspective. We will explore differing interpretations of the core Islamic texts concerning women, and the relationship between men and women: who speaks about and for women in Islam? In the second part of the course we will discuss women’s religious experiences in different parts of the Muslim world. Students will examine the interrelationship between women and religion with special emphasis on the ways in which the practices of religion in women’s daily lives impact contemporary societies. All readings will be in English. Prior course work in Islam or women’s studies is recommended, but not required

RELI GU4611 The Lotus Sutra in East Asian Buddhism. 4 points.
Prerequisites: open to students who have taken one previous course in either Buddhism, Chinese religions, or a history course on China or East Asian. The course examines some central Mahayana Buddhist beliefs and practices through an in-depth study of the Lotus sutra. Schools (Tiantai/Tendai, Nichiren) and cultic practices such as sutra-chanting, meditation, confessional rites, and Guanyin worship based on the scripture. East Asian art and literature inspired by it.

RELI GU4613 Silence. 4 points.
We live in a world of noise where incessant buzz and endless chatter are used as strategies of distraction deployed for political and economic purposes. Increasingly invasive technologies leave little time for quiet reflection and thoughtful deliberation. As the volume rises, silence becomes either a tactic for repression or a means of resistance.
This course will consider the question of silence from the perspectives of theology, philosophy, literature, politics, and art. Special attention will be paid to the role silence plays in different religious traditions. An effort will be made to create a dialogue among philosophical, theological literary, artistic, and film treatments of silence.
Questions to be considered include: How does the importance of silence change with time and place? What are the theological and metaphysical presuppositions of different interpretations of silence? What is the relation of changing technologies to the cultivation of, or resistance to silence? What are the psychological dimensions of different kinds of silence? What is the pedagogical value of silence? How can silence be expressed in music, the visual arts, and architecture? How does the importance of silence change in different social, political, and economic circumstances? Do we need more or less silence today?

RELI GU4615 Media and Religion. 4 points.
Typewriters, trains, electricity, telephones, telegraph, stock tickers, plate glass, shop windows, radio, television, computers, Internet, World Wide Web, cell phones, tablets, search engines, big data, social networks, GPS, virtual reality, Google glass. The technologies turn back on their creators to transform them into their own image. This course will consider the relationship between mechanical, electronic, and digital technologies and different forms of twentieth-century capitalism. The regimes of industrial, consumer, and financial shape the conditions of cultural production and reproduction in different ways. The exploration of different theoretical perspectives will provide alternative interpretations of the interplay of media, technology, and religion that make it possible to chart the trajectory from modernity to postmodernity and beyond.

RELI GU4616 TECHNOLOGY,RELIGION,FUTURE. 4.00 points.
This seminar will examine the history of the impact of technology and media on religion and vice versa before bringing into focus the main event: religion today and in the future. Well read the classics as well as review current writing, video and other media, bringing thinkers such as Eliade, McLuhan, Mumford and Weber into dialogue with the current writing of Kurzweil, Lanier and Taylor, and look at, among other things: ethics in a Virtual World; the relationship between Burning Man, a potential new religion, and technology; the relevance of God and The Rapture in
Kurzweils Singularity; and what will become of karma when carbon-based persons merge with silicon-based entities and other advanced technologies.

**RELI GU4617 Image Theories in Chinese Religions. 4 points.**

What does “image” mean in Chinese intellectual traditions? How did proponents of different religious persuasions construe the relationship between images and their referents differently and how did such construal change over time? Why did the practice of fashioning images often give rise to controversies in Chinese history? What makes images the object of adoration as well as destruction? Throughout the course, we will tackle these questions from diverse perspectives. The first half of the course examines a variety of accounts from Chinese indigenous classics and treatises. The second half looks at how discourses of the image further diversified after the arrival of Buddhism in China.

**RELI GU4619 Islam in Popular Culture. 4.00 points.**

This course interrogates seminal issues in the academic study of Islam through its popular representation in various forms of media from movies and television to novels and comic books. The class is structured around key theoretical readings from a range of academic disciplines ranging from art history and anthropology to comparative literature and religion. The course begins by placing the controversies surrounding the visual depiction of Muhammad in historical perspective (Gruber). This is followed by an examination of modern portrayals of Muslims in film that highlights both the vilification of the “other” (Shaheen) and the persistence of colonial discourses centered on the “native informant” (Mamdani). Particular emphasis is given to recent pop cultural works that challenge these simplistic discourses of Islam. The second half of the course revisits Muhammad, employing an anthropological framework (Asad) to understand the controversies surrounding Salman Rushdie’s Satanic Verses. The obsession with a gendered depiction of Islam is then examined through an anthropological framework that sheds light on the problems of salvation narratives (Abu Lughod). The course ends with a look at the unique history of Islam in America, particularly the tension between immigrant and African-American communities.

**RELI GU4620 RELIGIOUS WORLDS OF NEW YORK. 4.00 points.**

**RELI GU4626 READING (IN THEORY). 3.00 points.**

This reading-intensive course will engage, over time with essential texts of the current critical canon. Offered over a series of semesters, it is aimed at developing a practice of reading: close or distant, and always attentive. Let us say: slow reading. What does it mean to read? Where and when does reading start? Where does it founder? What does reading this author (Freud, for example) or that author (say, Foucault) do to the practice of reading? Can we read without misreading? Can we read for content or information without missing the essential? Is there such a thing as essential reading? Favoring a demanding and strenuous exposure to the text at hand, this course promises just that: a demanding and strenuous exposure to reading. The course can be repeated for credit.

**RELI GU4630 INDO-TIBETAN BUDDHIST PHILOSOPHY. 4.00 points.**

Examination of topics in the religious philosophy of Tibet.

**RELI GU4637 TALMUDIC NARRATIVE. 4.00 points.**

This course examines the rich world of Talmudic narrative and the way it mediates between conflicting perspectives on a range of topics: life and death; love and sexuality; beauty and superficiality; politics and legal theory; religion and society; community and non-conformity; decision-making and the nature of certainty. While we examine each text closely, we will consider different scholars’ answers – and our own answers – to the questions, how are we to view Talmudic narrative generally, both as literature and as cultural artifact?

**RELI GU4807 DIVINE HUMAN ANIMAL. 4.00 points.**

This course focuses on thinking with animals (Levi-Strauss) through the lens of the religious imagination. The concentration will be primarily on Western religious cultures, especially Judaism and the question of Jewishness.

**RELI GU4998 RELIGION AND THE INDIAN WARS. 4.00 points.**

The frontier is central to the United States’ conception of its history and place in the world. It is an abstract concept that reflects the American mythology of progress and is rooted in religious ideas about land, labor, and ownership. Throughout the nineteenth century, these ideas became more than just abstractions. They were tested, hardened, and revised by U.S. officials and the soldiers they commanded on American battlefields. This violence took the form of the Civil War as well as the series of U.S. military encounters with Native Americans known as the Indian Wars. These separate yet overlapping campaigns have had profound and lasting consequences for the North American landscape and its peoples. This course explores the relationship between religious ideology and violence in the last half of nineteenth century. Organized chronologically and geographically, we will engage with both primary sources and classic works in the historiography of the Indian Wars to examine how religion interacts with the West.
shaped U.S. policy and race relations from the start of the Civil War through approximately 1910.

**RELI GU4999 GLOBAL INDIGENOUS RELIGIOUS HISTORIES. 4.00 points.**

Nomads, natives, peasants, hill people, aboriginals, hunter-gatherers, First Nations—these are just a handful of the terms in use to define indigenous peoples globally. The names these groups use to describe themselves, as well as the varying religious practices, attitudes, and beliefs among these populations are far more numerous and complex. For much of recorded history however, colonial centers of power have defined indigenous peoples racially and often in terms of lacking religion; as pagan, barbarian, non-modern, and without history or civilization. Despite this conundrum of identity and classification, indigenous religious traditions often have well-documented and observable pasts. This course considers the challenges associated with studying indigenous religious history, as well as the changing social, political, and legal dimensions of religious practice among native groups over time and in relationship to the state. Organized thematically and geographically, we will engage with classic works of ethnohistory, environmental history, indigenous studies, anthropology, and religious studies as well as primary sources that include legal documentation, military records, personal testimony, and oral narrative.

**SLAVIC LANGUAGES**

**Department Office:** 708 Hamilton; 212-854-3941  
http://www.columbia.edu/cu/slavic/

**Director of Undergraduate Studies:**  
Prof. Liza Knapp, 714 Hamilton Hall; 212-854-3941;  
k2180@columbia.edu

**Russian Language Program Director:**  
Prof. Alla Smyslova, 708 Hamilton; 212-854-8155;  
as2157@columbia.edu

The Department of Slavic Languages and Literatures is devoted to the study of the cultures, literatures, and languages of Russia and other Slavic peoples and lands. We approach our study and teaching of these cultures with an eye to their specificity and attention to their interaction with other cultures, in history and in the contemporary global context. We focus not only on the rich literary tradition, but also on the film, theater, politics, art, music, media, religious thought, critical theory, and intellectual history of Russians and other Slavs. Our approach is interdisciplinary.

Students who take our courses have different interests. Many of our courses are taught in English with readings in English and have no prerequisites. As a consequence, our majors and concentrators are joined by students from other literature departments, by students of history and political science who have a particular interest in the Slavic region, and by others who are drawn to the subject matter for a variety of intellectual and practical reasons.

We provide instruction in Russian at all levels (beginning through very advanced), with a special course for heritage speakers. To improve the proficiency of Russian learners and speakers, we offer a number of literature and culture courses in which texts are read in the original and discussion is conducted in Russian. We offer three levels of other Slavic languages: Bosnian-Croatian-Serbian, Czech, Polish, and Ukrainian (with additional courses in culture in English). All language courses in the Slavic Department develop the four basic language skills (speaking, listening, reading, and writing) and cultural understanding.

Our department prides itself on the intellectual vitality of its program and on the sense of community among students and faculty. As they explore Russian and Slavic languages, literatures, and cultures, students develop not only their specific knowledge and cultural understanding, but also the capacity for critical thought, skills in analyzing literary and other texts, and the ability to express their ideas orally and in writing. Our graduates have used their knowledge and skills in different ways: graduate school, Fulbright and other fellowships, journalism, publishing, law school, NGO work, public health, government work, and politics. Our faculty is proud of its students and graduates.

**MAJORS AND CONCENTRATIONS**

Guided by the director of undergraduate studies and other faculty members, students majoring in Slavic create a program that suits their intellectual interests and academic goals. They choose from three tracks: Russian Language and Culture (for those with a strong interest in mastering the language), Russian Literature and Culture (for those who want to focus on literary and cultural studies), and Slavic Studies (a flexible regional studies major for those interested in one or more Slavic cultures). In each major, students may count related courses in other departments among their electives.

In addition to its majors, the department offers five concentrations. Three are analogous to the major tracks (Russian Language and Culture, Russian Literature and Culture, and Slavic Studies). There is also a concentration in Russian Literature that does not require language study and another concentration in Slavic Cultures that allows students to focus on a Slavic language and culture other than Russian.
Motivated seniors are encouraged but not required to write a senior thesis. Those who write a thesis enroll in the Senior Seminar in the fall term and work individually with a thesis adviser. Students have written on a wide range of topics in literature, culture, media, and politics.

**SLAVIC CULTURE AT COLUMBIA OUTSIDE OF THE CLASSROOM**

All interested students are welcome to take part in departmental activities, such as conversation hours, Slavic student organizations, the department’s various film series (Russian, East Central European, Central Asian, and Ukrainian), and the country's first undergraduate journal of Eastern European and Eurasian Culture, *The Birch*. The Slavic Department has close ties to the Harriman Institute and the East Central European Center, which sponsor lectures, symposia, performances, and conferences.

**STUDY AND RESEARCH ABROAD**

The department encourages its students to enrich their cultural knowledge and develop their language skills by spending a semester or summer studying in Russia, the Czech Republic, Poland, Ukraine, or the countries of the former Yugoslavia. The department helps students find the program that suits their needs and interests. Undergraduates may apply to the Harriman Institute for modest scholarships for research during winter/spring breaks or the summer.

**ADVANCED/NEWL PLACEMENT**

A score of 5 on the AP/NEWL Russian exam satisfies the foreign language requirement. Upon successful completion of a 3-point 3000 level (or higher) course at Columbia, the Department of Slavic Languages will award 3 points of AP credit, provided the grade in the course is a B or better. Courses taught in English may not be used to earn AP credit. No credit or placement is given for the SAT II Subject test. If you wish to continue with Russian at Columbia, you should take the departmental placement test and speak with the Russian program director prior to registration to ensure proper placement.

**GUIDELINES FOR ALL SLAVIC MAJORS AND CONCENTRATORS**

**Senior Thesis**

A senior thesis is not required for any Slavic major. Students who wish to undertake a thesis project should confer with the director of undergraduate studies during the registration period in April of their junior year and register to take RUSS UN3595 SENIOR SEMINAR in the fall term of their senior year. Students can opt to expand the thesis into a two-semester project register for RUSS UN3998 SUPERVISED INDIVIDUAL RESEARCH, with their thesis adviser, in the spring term of their senior year. Senior Seminar may satisfy one elective requirement; the optional second semester of thesis work adds one course to the 15 required for the major.

**Grading**

Courses in which a grade of D has been received do not count toward major or concentration requirements.

**MAJOR IN RUSSIAN LANGUAGE AND CULTURE**

This major is intended for students who aim to attain maximal proficiency in the Russian language. Intensive language training is complemented by an array of elective courses in Russian culture that allow students to achieve critical understanding of contemporary Russian society and of Russian-speaking communities around the world. Since this major emphasizes language acquisition, it is not appropriate for native Russian speakers.

The program of study consists of 15 courses, distributed as follows:
Eight semesters of coursework in Russian language (from first- through fourth-year Russian) or the equivalent

Select two of the following surveys; at least one of these should be a Russian literature survey (RUSS UN3220 or RUSS UN3221):

- RUSS UN3220  LITERATURE # EMPIRE (19C LIT)
- RUSS UN3221  LIT # REVOLUTION (20TH C LIT)
- RUSS UN3223  Magical Mystery Tour: The Legacy of Old Rus'
- SLCL UN3001  SLAVIC CULTURES
- RUSS GU4006  Russian Religious Thought, Praxis, and Literature
- CLRS GU4022  Russia and Asia: Orientalism, Eurasianism, Internationalism
- RUSS GU4107  RUSS LIT/CULTR-NEW MILLENNIUM

Five additional courses in Russian culture, history, literature, art, film, music, or in linguistics, chosen in consultation with the director of undergraduate studies. At least one of the selected courses should be taught in Russian.

**MAJOR IN RUSSIAN LITERATURE AND CULTURE**

The goal of this major is to make students conversant with a variety of Russian literary, historical and theoretical texts in the original, and to facilitate a critical understanding of Russian literature, culture, and society. It is addressed to students who would like to complement serious literary studies with intensive language training, and is especially suitable for those who intend to pursue an academic career in the Slavic field.

The program of study consists of 15 courses, distributed as follows:

Six semesters of coursework in Russian language (from first- through third-year Russian) or the equivalent.

Select three of the following surveys; two of which must be in Russian literature (RUSS UN3220 and RUSS UN3221)

- RUSS UN3220  LITERATURE # EMPIRE (19C LIT)
- RUSS UN3221  LIT # REVOLUTION (20TH C LIT)
- RUSS UN3223  Magical Mystery Tour: The Legacy of Old Rus'
- SLCL UN3001  SLAVIC CULTURES
- RUSS GU4006  Russian Religious Thought, Praxis, and Literature
- CLRS GU4022  Russia and Asia: Orientalism, Eurasianism, Internationalism
- RUSS GU4107  RUSS LIT/CULTR-NEW MILLENNIUM

Six additional courses in Russian literature, culture, history, film, art, music, or in advanced Russian language, chosen in consultation with the director of undergraduate studies. At least one course should be taught in Russian.

Students considering graduate study in Russian literature are strongly advised to complete four years of language training.

**MAJOR IN SLAVIC STUDIES**

This flexible major provides opportunities for interdisciplinary studies within the Slavic field. Students are encouraged to choose one target language (Bosnian-Croatian-Serbian, Czech, Polish, Russian, or Ukrainian), though there are possibilities for studying a second Slavic language as well. Generally, the major has one disciplinary focus in history, political science, economics, religion, anthropology, sociology, art, film, or music. In addition, this program allows students to focus on a particular Slavic (non-Russian) literature and culture or to do comparative studies of several Slavic literatures, including Russian. Students should plan their program with the director of undergraduate studies as early as possible, since course availability varies from year to year.

The program of study consists of 15 courses, distributed as follows:

Six semesters of coursework in one Slavic language (from first- through third-year Russian, Bosnian-Croatian-Serbian, Czech, Polish, or Ukrainian) or the equivalent.

Two relevant courses in Russian, East/Central European or Eurasian history.

Two relevant literature or culture courses in Slavic, preferably related to the target language.

Five additional courses with Slavic content in history, political science, economics, literature, religion, anthropology, sociology, art, film, or music, chosen in consultation with the director of undergraduate studies. Two of these electives may be language courses for students who opt to include a second Slavic language in their program.

Altogether students should complete four courses in a single discipline, including, if appropriate, the required history or literature/culture courses.

**CONCENTRATION IN RUSSIAN LANGUAGE AND CULTURE**

This program is intended for students who aim to attain proficiency in the Russian language. Intensive language training is complemented by an array of elective courses in Russian culture that allow students to achieve critical understanding of contemporary Russian society and of Russian-speaking communities around the world. Since this concentration emphasizes language acquisition, it is not appropriate for native Russian speakers.
The program of study consists of 10 courses, distributed as follows:

six semesters of coursework in Russian language (from first- through third-year Russian) or the equivalent.

Four additional courses in Russian literature, culture, and history, chosen in consultation with the director of undergraduate studies.

**Concentration in Slavic (Non-Russian) Language and Culture**

This program is intended for students who aim to attain proficiency in a Slavic language other than Russian. Intensive language training is complemented by an array of elective courses in Slavic cultures that allow students to achieve critical understanding of the communities that are shaped by the Slavic language of their choice. Since this concentration emphasizes language acquisition, it is not appropriate for native speakers of the target language.

The program of study consists of 10 courses, distributed as follows:

Six semesters of coursework in one Slavic language (from first- through third-year Bosnian-Croatian-Serbian, Czech, Polish, or Ukrainian) or the equivalent.

Four additional courses in Slavic literature, culture or history, or in linguistics, chosen in consultation with the director of undergraduate studies; at least two should be directly related to the target language of study.

**Concentration in Russian Literature and Culture**

The goal of this concentration is to make students conversant with a variety of Russian literary texts and cultural artifacts that facilitate a critical understanding of Russian culture. It is addressed to students who would like to combine language training with study of the Russian literary tradition.

The program of study consists of 10 courses, distributed as follows:

Four semesters of coursework in Russian language (first- and second-year Russian) or the equivalent.

One relevant course in Russian, East/Central European or Eurasian history.

One relevant literature or culture course in Slavic, preferably related to the target language.

Four additional courses with Slavic content in history, political science, economics, literature, religion, anthropology, sociology, art, film, or music, chosen in consultation with the director of undergraduate studies.

Altogether students should complete three courses in a single discipline, including, if appropriate, the required history or literature/culture courses.
CONCENTRATION IN RUSSIAN LITERATURE

This concentration is addressed to serious literature students who would like to pursue Russian literature but have no training in Russian. It allows students to explore the Russian literary tradition, while perfecting their critical skills and their techniques of close reading in a variety of challenging courses in translation.

The program of study consists of 8 courses, with no language requirements, distributed as follows:

Select two of the following Russian literature surveys (in translation):

BCRS GU4002 YUGOSLAV#POST-YUGOSLAV CINEMA. 3.00 points.
This course investigates the complex relationship between aesthetics and ideology in Yugoslav and post-Yugoslav cinema. Specifically, it examines the variety of ways in which race, ethnicity, gender inequality, and national identity are approached, constructed, promoted, or contested and critically dissected in film texts from the Socialist Federative Republic of Yugoslavia (SFRY) and its successor states (Bosnia, Croatia, Serbia, FYR Macedonia). The course has four thematic units and is organized chronologically.

**COMPARATIVE LITERATURE - CZECH**

**CLCZ GU4020 Czech Culture Before Czechoslovakia. 3 points.**

Not offered during 2022-23 academic year.

Prerequisites: sophomore standing or the instructor’s permission.

An interpretive cultural history of the Czechs from earliest times to the founding of the first Czechoslovak republic in 1918. Emphasis on the origins, decline, and resurgence of Czech national identity as reflected in the visual arts, architecture, music, historiography, and especially the literature of the Czechs.

**CLCZ GU4030 POSTWAR CZECH LITERATURE. 3.00 points.**

A survey of postwar Czech fiction and drama. Knowledge of Czech not necessary. Parallel reading lists available in translation and in the original.

**CLCZ GU4035 THE WRITERS OF PRAGUE. 3.00 points.**

After providing an overview of the history of Prague and the Czech lands from earliest times, the course will focus on works by Prague writers from the years 1895-1938, when the city was a truly multicultural urban center. Special attention will be given to each of the groups that contributed to Prague’s cultural diversity in this period: the Austro-German minority, which held disproportionate social, political and economic influence until 1918; the Czech majority, which made Prague the capital of the democratic First Czechoslovak Republic (1918-1938); the German- and Czech-speaking Jewish communities, which were almost entirely wiped out between 1938 and 1945; and the Russian and Ukrainian émigré community, which—thanks in large part to support from the Czechoslovak government—maintained a robust, independent cultural presence through the 1920s and early 1930s. Through close reading and analysis of works of poetry, drama, prose fiction, reportage, literary correspondence and essays, the course will trace common themes that preoccupied more than one Prague writer of this period. In compiling and comparing different versions of cultural myth, it will consider the applicability of various possible definitions of the literary genius loci of Prague.

**CLCZ GU4038 PRAGUE-SPRING 1968-FILM # LIT. 3.00 points.**

The course explores the unique period in Czech film and literature during the 1960s that emerged as a reaction to the imposed socialist realism. The new generation of writers (Kundera, Skvorecky, Havel, Hrabal) in turn had an influence on young emerging film makers, all of whom were part of the Czech new wave.

**COMPARATIVE LITERATURE - POLISH**

**CLPL GU4040 Mickiewicz. 3 points.**

Not offered during 2022-23 academic year.

A study of the 20th-century Polish novel during its most invigorated, innovative inter-war period. A close study of the major works of KUnczewiczowa, Choromanski, Wittlin, Uniowski, Kurek, Iwaszkiewicz, Gombrowicz, and Schulz. The development of the Polish novel will be examined against the background of new trends in European literature, with emphasis on the usage of various narrative devices. Reading knowledge of Polish desirable but not required. Parallel reading lists are available in the original and in translation.

**CLPL GU4042 Bestsellers of Polish Literature. 3 points.**

Not offered during 2022-23 academic year.

The Polish literary scene that in this particular period stretched from Moscow, Petersburg, and Odessa, to Vilna, Paris, Rome. The concept of exile, so central to Polish literature of the 19th-century and world literature of the 20th will be introduced and discussed. The course will offer the opportunity to see the new Romantic trend initially evolving from classicism, which it vigorously opposed and conquered. We will examine how the particular literary form - sonnet, ballad, epic poem and the romantic drama developed on the turf of the Polish language. Also we will see how such significant themes as madness, Romantic suicide, Romantic irony, and elements of Islam and Judaism manifested themselves in the masterpieces of Polish poetry. The perception of Polish Romanticism in other, especially Slavic, literatures will be discussed and a comparative approach encouraged. Most of the texts to be discussed were translated into the major European languages. Mickiewicz was enthusiastically translated into Russian by the major Russian poets of all times; students of Russian may read his works in its entirety in that language. The class will engage in a thorough analysis of the indicated texts; the students’ contribution to the course based on general knowledge of the period, of genres, and/or other related phenomena is expected.

**CLPL GU4300 The Polish Novel After 1989. 3 points.**

Not offered during 2022-23 academic year.

This seminar is designed to offer an overview of Post-1989 Polish prose. The literary output of what is now called post-dependent literature demonstrates how political transformations influenced social and intellectual movements and transformed the narrative genre itself. The aesthetic
CLPL GU4301 Survey of Polish Literature and Culture. 3 points.
This course introduces and explores key works, traditions, and tendencies in Polish literature and culture from the Middle Ages to the present. Focusing in particular on the monuments of Polish literature, the course embeds them in historical context and places them in dialog with important ideas and trends in both Polish and European culture of their time. The aim is to engender and establish an understanding of Poland's position on the literary and cultural map of Europe. In addition to literature, works of history, political science, film, and the performing arts will be drawn on for course lecture and discussion. No prerequisites. Readings in English.

COMPARATIVE LITERATURE - SLAVIC

CLSL UN3304 How To Read Violence: The Literature of Power, Force and Brutality from 20th Century Russia and America. 3 points.
This course seeks to understand how authors and filmmakers in the 20th century communicate the experience of violence to their audiences. We will discuss how fragmentation, montage, language breakdown and other techniques not only depict violence, but reflect that violence in artistic forms. We will also ask what representing violence does to the artistic work. Can the attempt to convey violence become an act of violence in itself? We will consider texts from Vladimir Mayakovsky, John Dos Passos, Andrei Platonov, Vasily Grossman, Allen Ginsberg, Anna Akhmatova, Richard Wright, Cormac McCarthy, Vladimir Sorokin, as well as films from Sergei Eisenstein, Alexei Balabanov and Quentin Tarantino. Full course description and syllabus available at readingviolence.weebly.com.

CLSL GU4003 Central European Drama in the Twentieth Century. 3 points.
Focus will be on the often deceptive modernity of modern Central and East European theater and its reflection of the forces that shaped modern European society. It will be argued that the abstract, experimental drama of the twentieth-century avant-garde tradition seems less vital at the century's end than the mixed forms of Central and East European dramatists.

CLSL GU4004 Introduction to Twentieth-Century Central European Fiction. 3 points.
This course introduces students to works of literature that offer a unique perspective on the tempestuous twentieth century, if only because these works for the most part were written in "minor" languages (Czech, Polish, Hungarian, Serbian), in countries long considered part of the European backwaters, whose people were not makers but victims of history. Yet the authors of many of these works are today ranked among the masters of modern literature. Often hailing from highly stratified, conservative societies, many Eastern and Central European writers became daring literary innovators and experimenters. To the present day, writers from this "other" Europe try to escape history, official cultures, politics, and end up redefining them for their readers. We will be dealing with a disparate body of literature, varied both in form and content. But we will try to pinpoint subtle similarities, in tone and sensibility, and focus, too, on the more apparent preoccupation with certain themes that may be called characteristically Central European.

CLSL GU4008 Slavic Avant-Garde Surfaces. 3 points. Not offered during 2022-23 academic year.
This lecture course will provide a punctual survey of the major trends and figures in the interwar visual culture and avant-garde poetry of the Soviet Russia and East Central Europe (Poland, Czechoslovakia, Hungary, and Yugoslavia), including the opulent field of their intersection. Topics include various interfaces of visual culture and graphic arts, such as public spaces, walls, propaganda trains, windows, postcards, posters, books, and screens. The course will address the innovative use of typography and photography, typophoto and photomontage, as well as the short written and hybrid genres such as manifesto, cinepoetry, photo essay, and photo frescoes. We will discuss poets and artists such as Mayakovsky, Lissitsky, Rodchenko, Klutsis, Vertov, Teige, Nezval, Sutnar, Štirský, Szczuka, Stern, Themersons, Kassák, Kertész, Moholy-Nagy, Goll, MiciÅ‡, VuÅo, Matić. Each session will include a lecture followed by discussion.

CLSL GU4010 What We Do in the Shadows: A History of the Night in Eastern Europe. 3.00 points.
This course looks at nighttime as an object of inquiry from an experiential, historical, religious, literary, and cultural perspectives, introducing the students with the growing field of night studies. It covers the Early Modern and the Modern Periods and centers primarily on Eastern Europe and East Central Europe, with a secondary focus on Jewish Literature and Culture in these regions. The course caters for students who are interested in in night studies, in the history and culture of Eastern Europe, students who are interested in Jewish (Hebrew and Yiddish) Studies, as well as students who are interested in the intersection of history and literature.

CLSL GU4075 POST COLONIAL/POST SOV CINEMA. 3.00 points.
The course will discuss how filmmaking has been used as an instrument of power and imperial domination in the Soviet Union as well as on post-Soviet space since 1991. A body of selected films by Soviet and post-Soviet directors which exemplify the function of filmmaking as a tool of appropriation of the colonized, their cultural and political subordination by the Soviet center will be examined in terms of postcolonial theories. The course will focus both on Russian cinema and often overlooked work of Ukrainian, Georgian,
Belarusian, Armenian, etc. national film schools and how they participated in the communist project of fostering a «new historic community of the Soviet people» as well as resisted it by generating, in hidden and, since 1991, overt and increasingly assertive ways their own counter-narratives. Close attention will be paid to the new Russian film as it re-invents itself within the post-Soviet imperial momentum projected on the former Soviet colonies in the United States, the advent of a post-socialist Russia in 1991—in order to arrive at the two plus decades of Vladimir Putin’s presidency. We will consider the ways in which each author transposes and conveys her own—and others’ memories—through the medium of autofiction, defined by Serge Doubrovsky, who coined the term in French, as “the adventure of the language, outside of wisdom and the syntax of the novel.” All selected works, with very few exceptions, are available in English; no reading knowledge of Russian is required. No prerequisites.

**CLSS 3314 The Story, She Told: Women’s Autofiction # ENG NOVEL. 3.00 points.**

In her 1975 essay The Laughter of Medusa, Hélène Cixous compared women’s writing—in French, “écriture féminine”—to the unexplored African continent. To date, literary criticism has been grappling with the distinct qualities of literary works, crafted by women. This course offers a survey of main autofictional works and memoirs, written originally in the Russian language within the last 100 years. We will start our journey with the tumults of the WW1 and the Bolshevik Revolution, the Civil War, through the WW2, the Soviet dissident movement, the emigration waves into Israel and the United States, the advent of a post-socialist Russia in 1991—in order to arrive at the two plus decades of Vladimir Putin’s presidency. We will consider the ways in which each author transposes and conveys her own—and others’ memories—through the medium of autofiction, defined by Serge Doubrovsky, who coined the term in French, as “the adventure of the language, outside of wisdom and the syntax of the novel.” All selected works, with very few exceptions, are available in English; no reading knowledge of Russian is required. No prerequisites.

**CLRS 4011 Chekhov [English]. 3 points.**

A close reading of Chekhov’s best work in the genres on which he left an indelible mark (the short story and the drama) on the subjects that left an indelible imprint on him (medical science,
the human body, identity, topography, the nature of news, the problem of knowledge, the access to pain, the necessity of dying, the structure of time, the self and the world, the part and the whole) via the modes of inquiry (diagnosis and deposition, expedition and exegesis, library and laboratory, microscopy and materialism, intimacy and invasion) and forms of documentation (the itinerary, the map, the calendar, the photograph, the icon, the Gospel, the Koan, the lie, the love letter, the case history, the obituary, the pseudonym, the script) that marked his era (and ours). No knowledge of Russian required.

CLRS GU4022 Russia and Asia: Orientalism, Eurasianism, Internationalism. 3 points.

CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

This course explores the formation of Russian national and imperial identity through ideologies of geography, focusing on a series of historical engagements with the concept of “Asia.” How has the Mongol conquest shaped a sense of Russian identity as something distinct from Europe? How has Russian culture participated in Orientalist portrayals of conquered Asian lands, while simultaneously being Orientalized by Europe and, indeed, Orientalizing itself? How do concepts of Eurasianism and socialist internationalism, both arising in the early 20th century, seek to redraw the geography of Russia’s relations with East and West? We will explore these questions through a range of materials, including: literary texts by Russian and non-Russian writers (Pushkin, Lermontov, Tolstoy, Solovyov, Bely, Blok, Pynjak, Khlebnikov, Planotov, Xiao Hong, Kurban Said, Aitimatov, Iskander, Bordsky); films (Eisenstein, Tarkovsky, Kalatozov, Paradjanov, Mikhailov); music and dance (the Ballets Russes); visual art (Vereshchagin, Roerich); and theoretical and secondary readings by Chaadaev, Said, Bassin, Trubitskoy, Leontiev, Lenin, and others.

CLRS GU4036 Nabokov and Global Culture. 3 points.

In 1955, an American writer of Russian descent published in Paris a thin book that forever shaped English language, American culture, and the international literary scene. That book, of course, was Vladimir Nabokov’s *Lolita.*

We will speak of exile, memory and nostalgia, of hybrid cultural identities and cosmopolitan elites, of language, translation and multilingualism. All readings will be in English.

CLRS GU4037 Poets, Rebels, Exiles: 100 Years of Russians and Russian Jews in America. 3.00 points.

Poets, Rebels, Exiles examines the successive generations of the most provocative and influential Russian and Russian Jewish writers and artists who brought the cataclysm of the Soviet and post-Soviet century to North America. From Joseph Brodsky—the bad boy bard of Soviet Russia and a protégé of Anna Akhmatova, who served 18 months of hard labor near the North Pole for social parasitism before being exiled—to the most recent artistic descendants, this course will interrogate diapora, memory, and nostalgia in the cultural production of immigrants and exiles.

CLRS GU4038 DOSTOEVSKY, DEMONS, DICKENS. 3.00 points.

A study of Dostoevsky and Dickens as two writers whose engagement in the here and now was vital to their work and to their practice of the novel. Readings from Dostoevsky’s cluster in the 1870s and include two novels, *Demons* (1872) and *The Adolescent* (1876), and selections from his *Diary of a Writer.* Readings from Dickens span his career and include, in addition to *David Copperfield* (1850), sketches and later essays.

In the 1920s, the Soviet Union and the U.S. emerged as growing world powers, offering each other two compelling, if often opposed, versions of modernity. At the same time, each country saw its intercontinental rival as an attractive, but dangerous “other”: a counterexample of the road not taken, and a foil for its own ideology and identity. From the 1920s to the heat of the Cold War, some of the USSR’s most prominent public figures came to the U.S. and several American intellectuals, progressive activists, and officials traveled to the Soviet experiment. This course examines the cultural images of the American and Soviet “other” in the texts that resulted from these exchanges. We will read works about America from Sergei Esenin, Vladimir Mayakovksy, Ilya Ilf and Evgeny Petrov, and poems, essays, and novels about Russia by Langston Hughes, Claude McKay, Louise Bryant, W.E.B. Du Bois, John Steinbeck, and others. Each of these texts attempts to grapple with what it means to be modern—both technologically advanced and socially liberated—in different national contexts and under different proclaimed ideologies.

CLRS GU4111 Narrative and Repetition: Circling in Time and Space. 3.00 points.

An introduction to central concepts in narrative theory: plot, archetype, myth, story vs. discourse, Freudian analysis, history and narrative, chronotype and personal narrative. These are explored in the context of sustained investigation of a particular plot device: the time loop. Examples come from Russian modernist fiction, Soviet and American science fiction, and film. We compare being stuck in a time loop with being lost in space - a theme found in personal narratives shared orally and online, as well as in literary fiction. Students develop a final paper topic on time loop narrative of their choice.

The “Polish School,” which was characterized by a blend of Italian neorealist and Polish Romantic or absurdist/existentialist styles, sought to represent and work through the national trauma of World War II in a context in which political censorship prevented the direct address of such issues. It includes the early work of world-renowned director Andrzej Wajda, as well as works by prominent filmmakers such as Andrzej Munk, Jerzy Kawalerowicz, and Wojciech Has.

The “Cinema of Moral Concern,” which drew on and combined the techniques of West European “cinemas of truth” with those of the New Hollywood, was in the forefront of the cultural ferment of the late 70s, which was devoted to the establishment of an underground civil society outside the institutions of the communist state and led up to the founding of the trade union Solidarity. It includes early work by internationally recognized filmmakers Krzysztof Kieślowski, Krzysztof Zanussi, and Agnieszka Holland.

The “New Naïveté” drew on a broad variety of Hollywood and international styles, seeking to transform the legacy of Solidarity’s anti-communist “revolution of the spirit” into contemporary forms of cultural capital in order to lay the foundations for “capitalism with a human face.” Among filmmakers active in this movement are Krzysztof Krauze, Robert Gliński, and Piotr Trzaskalski.

Screening approximately one film a week, we will view at least five works from each movement, examining and discussing their individual formal and aesthetic principles and ideological investments, their relation to their respective movement as a whole, and their impact on the culture of their day.

POLI GU4101 ADVANCED POLISH. 3.00 points.
Prerequisites: two years of college Polish or the instructor's permission. Extensive readings from 19th- and 20th-century texts in the original. Both fiction and nonfiction, with emphasis depending on the interests and needs of individual students

POLI GU4102 ADVANCED POLISH II. 3.00 points.
Prerequisites: two years of college Polish or the instructors permission. Extensive readings from 19th- and 20th-century texts in the original. Both fiction and nonfiction, with emphasis depending on the interests and needs of individual students
The course is designed to help students further develop all of their language skills with particular focus on communicative and information processing skills, as well as natural student collaboration in the target language. The materials and assignments that will be used in class allow to explore a broad range of social, cultural, and behavioral contexts and familiarize students with idiomatic language, popular phrases and internet memes, developments of the colloquial language, and the use of slang in everyday life.

On each class students will be offered a variety of content-based activities and assignments, including, information gap filling, role-play and creative skits, internet search, making presentations, and problem-solving discussions. Listening comprehension assignments will help students expand their active and passive vocabulary and develop confidence using natural syntactic models and idiomatic structures.

Students will be exposed to cultural texts of different registers, which will help them enhance their stylistic competence. Students will learn appropriate ways to handle linguo-social situations, routines, and challenges similar to those they come across when traveling to Russia. They will explore various speech acts of daily communication, such as agreement/disagreement, getting and giving help, asking for a favor, expressing emotions, and so forth. Part of class time will be devoted to nonverbal communication, the language of gestures, emotional phonetics and intonation.

**RUSS UN3430 RUSSIAN FOR HERITAGE SPEAKERS. 3.00 points.**
Prerequisites: RUSS V3430 or the instructor’s permission. This course is designed to help students who speak Russian at home, but have no or limited reading and writing skills to develop literary skills in Russian. THIS COURSE, TAKEN WITH RUSS V3431, MEET A TWO YEAR FOREIGN LANGUAGE REQUIREMENT. Conducted in Russian

**RUSS UN3431 RUSSIAN FOR HERITAGE SPKRS II. 3.00 points.**
Prerequisites: RUSS V3430 or the instructors permission. This course is designed to help students who speak Russian at home, but have no or limited reading and writing skills to develop literary skills in Russian. THIS COURSE, TAKEN WITH RUSS V3430, MEET A TWO YEAR FOREIGN LANGUAGE REQUIREMENT. Conducted in Russian

RUSS GU4350 Moving to Advanced-Plus: Language, Culture, Society in Russian Today. 3 points.
Prerequisites: Six semesters of college Russian and the instructor's permission.
The course is designed to provide advanced and highly-motivated undergraduate and graduate students of various majors with an opportunity to develop professional vocabulary and discourse devices that will help them to discuss their professional fields in Russian with fluency and accuracy. The course targets all four language competencies: speaking, listening, reading and writing, as well as cultural understanding. Conducted in Russian.

RUSS GU4351 Moving to Advanced-Plus: Language, Culture, Society in Russian Today. 3 points.
Prerequisites: Eight semesters of college Russian and the instructor's permission.
The course is designed to provide advanced and highly-motivated undergraduate and graduate students of various majors with an opportunity to develop professional vocabulary and discourse devices that will help them to discuss their professional fields in Russian with fluency and accuracy. The course targets all four language competencies: speaking, listening, reading and writing, as well as cultural understanding. Conducted in Russian.

RUSS GU4434 PRACTICAL STYLISTICS-RUSS LANG. 3.00 points.
Prerequisites: RUSS W4334 or the equivalent or the instructor's permission.
Prerequisites: RUSS W4334 or the equivalent or the instructor's permission. Prerequisite: four years of college Russian or instructor's permission. The course will focus on theoretical matters of language and style and on the practical aspect of improving students' writing skills. Theoretical aspects of Russian style and specific Russian stylistic conventions will be combined with the analysis of student papers and translation assignments, as well as exercises focusing on reviewing certain specific difficulties in mastering written Russian

RUSS GU4910 LITERARY TRANSLATION. 4.00 points.
Prerequisites: Four years of college Russian or the equivalent. Workshop in literary translation from Russian into English focusing on the practical problems of the craft. Each student submits a translation of a literary text for group study and criticism. The aim is to produce translations of publishable quality.

RUSS LITERATURE (IN ENGLISH)

RUSS UN3220 LITERATURE # EMPIRE (19C LIT). 3.00 points.
Explores the aesthetic and formal developments in Russian prose, especially the rise of the monumental 19th-century novel, as one manifestation of a complex array of national and cultural aspirations, humanistic and imperialist ones alike. Works by Pushkin, Lermontov, Gogol, Turgenev, Tolstoy, Dostoevsky, and Chekhov. Knowledge of Russian not required

RUSS UN3221 LIT # REVOLUTION (20TH C LIT). 3.00 points.
The revolutionary period (1905-1938) in Russia was not only one of extreme social upheaval but also of exceptional creativity. Established ideas about individuality and collectivity, about how to depict reality, about language, gender, authority, and violence, were all thrown open to radical questioning. Out of this chaos came ideas about literature and film (just for example) which have shaped Western thought on these subjects to this day. In this course we will study a variety of media and genres (poetry, manifestos, film, painting, photomontage, the novel, theoretical essays) in an effort to gain a deep understanding of this complex and fascinating period in Russian cultural history

RUSS UN3222 TOLSTOY AND DOSTOEVSKY. 3.00 points.
Two epic novels, Tolstoy's War and Peace and Dostoevsky's The Brothers Karamazov, will be read along with selected shorter works. Other works by Tolstoy include his early Sebastopol Sketches, which changed the way war is represented in literature; Confession, which describes his spiritual crisis;
the late stories Kreutzer Sonata and Hadji Murad; and essays on capital punishment and a visit to a slaughterhouse. Other works by Dostoevsky include his fictionalized account of life in Siberian prison camp, The House of the Dead; Notes from the Underground, his philosophical novella on free will, determinism, and love; A Gentle Creature, a short story on the same themes; and selected essays from Diary of a Writer. The focus will be on close reading of the texts. Our aim will be to develop strategies for appreciating the structure and form, the powerful ideas, the engaging storylines, and the human interest in the writings of Tolstoy and Dostoevsky. No knowledge of Russian is required.

**RUSS UN3222 Magical Mystery Tour: The Legacy of Old Rus’. 3 points.**

Winston Churchill famously defined Russia as "a riddle wrapped in a mystery inside an enigma." This course aims at demystifying Russia by focusing on the core of its "otherness" in the eyes of the West: its religious culture. We will explore an array of texts, practices and pragmatic sites of Russian religious life across such traditional divides as medieval and modern, popular and elite, orthodox and heretical. Icons, liturgical rituals, illuminated manuscripts, magic amulets, religious sects, feasting and fasting, traveling practices from pilgrimages to tourism, political myths and literary mystification, decaden projects of life-creation, and fervent anticipation of the End are all part of the tour that is as illuminating as it is fun. No knowledge of Russian required.

**RUSS UN3230 Tricksters in World Culture: Mockery, Subversion, Rebellion. 3.00 points.**

Tricksters constitute one of the universal themes or tropes in mythology and folklore of many cultures. Through the discussions of ancient Greek, North-American, African, Paleo-Asian, Scandinavian, African-American, Muslim and Jewish myths and folklore about tricksters, the course will telescope the cultural functions of the comedic transgression as a form of social critique; it will also highlight cynicism, its productive and dangerous aspects. Then we’ll introduce different historical subtypes of tricksters, such as buffoon, fool, jester, holy fool, kynik, picaro, adventurer, imposter, con artist, female and transgender tricksters, thus moving through premodern and early modern periods. Each type of the trickster is illustrated by literary examples from different world cultures (European and non-European alike) as well as theoretical works of Mikhail Bakhtin, Michel Foucault, Giorgio Agamben, and Peter Sloterdijk. Finally, the role of the trickster in modernity will be discussed through the case of Soviet tricksters, who had become true superstars manifesting the resistance to repressive political ideology by the means of “cynical reason”. The course will culminate in the trial of the most popular and important trickster in Soviet culture, Ostap Bender from Ilf and Petrov’s satirical novels. In the course’s finale will discuss the role of tricksters in contemporary politics.

**RUSS GU4006 Russian Religious Thought, Praxis, and Literature. 3 points.**

This course examines the interaction of religious thought, praxis, and literature in the nineteenth and early twentieth centuries. As the Russian Empire sought to define its place in the world, many Russian writers and thinkers turned to religious experience as a source of meaning. A varied body of work emerged as they responded to the tradition of Russian Orthodoxy. The goals of this course are to acquaint students with key texts of Russian religious thought and to give students the knowledge and tools required for critical inquiry into the religious dimension of Russian literature and culture.

**RUSS GU4013 Late Tolstoy (Beyond Anna Karenina): Thinker, Writer, Activist, Pacifist, Humanitarian, and Mortal. 4 points.**

The focus of the course is Tolstoy's work in the last 35 years of his life. On finishing War and Peace and Anna Karenina, Tolstoy swore off the kind of literature and decided to devote himself to what he believed would be more meaningful work. This work included confessions, letters, tracts, critiques, proclamations, invectives, exposes, meditations, and gospel, and as more fiction, some of which is overly didactic and some which is, like his earlier fiction, more covertly so.

**RUSS GU4046 The Trickster in the Modern Russian Lit. 3.00 points.**

“Trickster” does not simply mean “deceiver” or “rogue” (the definition of trickster according to the Oxford Encyclopedic English Dictionary), but rather “creative idiot”, to use Lewis Hyde’s expression. This hero unites the qualities of characters who at first sight have little in common — the “selfish buffoon” and the “culture hero”; someone whose subversions and transgressions paradoxically amplify the culture-constructing effects of his (and most often it is a “he”) tricks. The trickster is a typical comic protagonist — it is enough to collect Renard the Fox from the medieval Roman de Renard, Panurge from François Rabelais’ The Life of Gargantua and of Pantagruel, Cervantes’ Sancho Panza, Beaumarchais’s Figaro, Gogol’s Khlestakov, Mark Twain’s Tom Sawyer and Huckleberry Finn, Yaroslav Hašek’s Švejk, Charlie Chaplin’s Tramp, Max Bialystock in Mel Brooks’ Producers, Bart Simpson and Borat (Sacha Baron Cohen), as well as Jon Stewart and Stephen
Colbert along with many other comical characters of the same genre – to confirm this self-evident thesis

**RUSS GU4107 RUSS LIT/CULTR-NEW MILLENNIUM. 3.00 points.**

This course examines most representative works of Russian literature and culture since the 1990s and until the present moment. While discussing recent novels, short stories, dramas, poems, and films, we will address the issues of politics, re-assessment of history, gender, family, national identity, violence and terrorism. No knowledge of Russian is expected.

**RUSS GU4126 Remediating Protest: Transgressive Aesthetics in Soviet # Post-Soviet Culture. 3.00 points.**

In the past ten years the authoritarian regime in Russia has rendered political protest exceedingly dangerous but it has not immobilized the cultural forms of dissent shaping contemporary anti-war resistance. From a feminist performance in a church to satirical documentary and whimsical trial speeches, contemporary artists, journalists, and activists have been creating the language of protest essential to understanding post-Soviet space. Why has protest in the post-Soviet region been taking these specific aesthetic forms? Taking our point of departure from Rancière’s idea of resistance – signifying both firm persistence and a practice yielding change – we will explore how contemporary post-Soviet protest genres rely on the communication strategies that return to Soviet parody, poetic form, underground art, and dissident practices of cultural distribution. Looking at laughter as a transgressive communicative device, we will search for the reverberations of Soviet satire in Russian and Belarusian stand-up, as well as in less obvious genres, such as the recent documentary work by Alexey Navalny. We will focus on mimesis as a tool of resistance in Soviet underground art and contemporary performative practices. Exploring the aesthetics of testimony rooted in Soviet show trials, we will examine how Soviet journalistic prose and, later, contemporary theater reclaimed its devices. We will study the persistence of bodily tropes and language of violence in women’s prose, drama, contemporary feminist poetry and feminist performance from Russia and Belarus. Finally, we will discuss how dissident practices of samizdat and tamizdat helped create cultural networks in Soviet Russia and beyond as we reflect on the use of new media platforms and technologies of digital activism in post-Soviet space. Rather than searching for instances of direct influence between cultural producers, we will examine how protest strategies are shaped and remediated while activating multiple layers of cultural memory. Students will learn to annotate images and videos online, write blog posts and carry out an independent research project in consultation with the instructor. At the end of the course they have a choice of presenting the project in the form of a paper or a multimedia digital piece. Enrollment is open to upper level undergraduate and graduate students. All primary and secondary readings are in English or have subtitles.
RUSS GU4332 CHTENIIA PO RUSSKOI LITERATURE. 3.00 points.
Prerequisites: Three years of college Russian and the instructor's permission.
Prerequisites: Three years of college Russian and the instructors permission. The course is devoted to reading shorter works by Nikolai Gogol. The syllabus includes a selection of stories from Evenings at a Farm near Dikanka and Mirgorod, “Nevsy Prospect,” “The Overcoat,” “Nose,” and “Petersburg Tales,” and The Inspector General

RUSS GU4338 CHTENIIA PO RUSSKOI LITERATURE. 3.00 points.
The course is devoted to reading and discussing of Tolstoy's masterpiece. Classes are conducted entirely in Russian.

RUSS GU4340 Chteniia po russkoi literature: Bulgakov. 3.00 points.
The course is devoted to reading and discussing of Mikhail Bulgakov’s masterpiece Master i Margarita. Classes are conducted entirely in Russian.

RUSS GU4344 ADV RUSSIAN THROUGH HISTORY. 3.00 points.
Prerequisites: RUSS UN3101 and RUSS UN3102 Third-Year Russian I and II, or placement test.
Prerequisites: RUSS UN3101 and RUSS UN3102 Third-Year Russian I and II, or placement test. A language course designed to meet the needs of those foreign learners of Russian as well as heritage speakers who want to develop further their reading, speaking, and writing skills and be introduced to the history of Russia

RUSS GU4345 ADV RUSSIAN THROUGH HISTORY. 3.00 points.
Prerequisites: three years of Russian.
Prerequisites: three years of Russian. This is a language course designed to meet the needs of those foreign learners of Russian as well as heritage speakers who want to further develop their reading, listening, speaking, and writing skills and be introduced to the history of Russia

SLAVIC CULTURE
SLCL UN3001 SLAVIC CULTURES. 3.00 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement
The history of Slavic peoples - Russians, Czechs, Poles, Serbs, Croats, Ukrainians, Bulgarians - is rife with transformations, some voluntary, some imposed. Against the background of a schematic external history, this course examines how Slavic peoples have responded to and have represented these transformations in various modes: historical writing, hagiography, polemics, drama and fiction, folk poetry, music, visual art, and film. Activity ranges over lecture (for historical background) and discussion (of primary sources)

SLCL UN3100 FOLKLORE PAST # PRESENT. 3.00 points.
An introduction to the concept of folklore as an evolving, historical concept, and to primary source materials which have been framed as such. These are translated from Bosnian, Chukchi, Czech, Finnish, German, Polish, Russian, Serbian, Tuvan, Ukrainian, Yiddish, Yupik languages, and others.

HNGR GU4028 Modern Hungarian Prose in Translation: Exposing Naked Reality. 3 points.
This course introduces students to representative examples of an essentially robust, reality-bound, socially aware literature. In modern Hungarian prose fiction, the tradition of nineteenth-century "anecdotal realism" remained strong and was further enlivened by various forms of naturalism. Even turn-of-the century and early twentieth-century modernist fiction is characterized by strong narrative focus, psychological realism, and an emphasis on social conditions and local color. During the tumultuous decades of the century, social, political, national
issues preoccupied even aesthetics-conscious experimenters and ivory-tower dwellers. Among the topics discussed will be “populist” and “urban” literature in the interwar years, post-1945 reality in fiction, literary memoirs and reportage, as well as late-century minimalist and postmodern trends.

**HNGR GU4050 The Hungarian New Wave: Cinema in Kadarist Hungary [In English]. 3 points. Not offered during 2022-23 academic year.**

Hungarian cinema, like film-making in Czechoslovakia, underwent a renaissance in the 1960’s, but the Hungarian new wave continued to flourish in the 70’s and film remained one of the most important art forms well into the 80’s. This course examines the cultural, social and political context of representative Hungarian films of the Kadarist period, with special emphasis on the work of such internationally known filmmakers as Miklos Jancso, Karoly Makk, Marta Meszaros, and Istvan Szabo. In addition to a close analysis of individual films, discussion topics will include the “newness” of the new wave in both form and content (innovations in film language, cinematic impressionism, allegorical-parabolic forms, auteurism, etc.), the influence of Italian, French, German and American cinema, the relationship between film and literature, the role of film in the cultures of Communist Eastern Europe, the state of contemporary Hungarian cinema. The viewing of the films will be augmented by readings on Hungarian cinema, as well as of relevant Hungarian literary works.

**SLAVIC LITERATURES**

**SLLT GU4000 EURASIAN EXILES & LIT IN N.Y.. 3 points.**

Eurasian Exiles and Literature in New York examines Eurasian exile literature in the United States and especially New York over the course of four emigration waves: so called Second Wave writers who fled the Russian Revolution (Vladimir Nabokov), the Third Wave exiles, who came after World War II (Joseph Brodsky and Sergei Dovlatov), the exile literature of the last Soviet generation who came as refugees in the late 1970s and early 1980s (Gary Shteyngart, Irina Reyn), and the perestroika and post-Soviet diaspora, who came to New York after 1991. All four waves drew upon a rich Russian cultural heritage and influences that they encountered abroad to create innovative work: new topoi and urban fiction as well as unique images of New York. All four have complicated and fascinating engagements with American society and the cultures of New York City, and also with the Russian and Eurasian émigré communities, vibrant worlds unto themselves. The initial waves drew mainly on East European themes and were still attached to Russia while the latter were increasingly concerned with non-Russian nationalities like Bukharan Jews, Georgians, and Tajiks. The course looks closely and critically at the meanings of “exile” and “Eurasia,” as well as the poetics of exile and urban writing: it asks whether we can still speak of exiles and exile fiction in the post-Soviet age of globalization, social media, and unprecedented migration.

**UKRAINIAN LANGUAGE AND LITERATURE**

**UKRN UN1101 ELEMENTARY UKRAINIAN I. 4.00 points.**

Designed for students with little or no knowledge of Ukrainian. Basic grammar structures are introduced and reinforced, with equal emphasis on developing oral and written communication skills. Specific attention to acquisition of high-frequency vocabulary and its optimal use in real-life settings

UKRN GU4001 Advanced Ukrainian I. 3 points.
Prerequisites: UKRN UN2102 or the equivalent.
The course is for students who wish to develop their mastery of Ukrainian. Further study of grammar includes patterns of word formation, participles, gerunds, declension of numerals, and a more in-depth study of difficult subjects, such as verbal aspect and verbs of motion. The material is drawn from classical and contemporary Ukrainian literature, press, electronic media, and film. Taught almost exclusively in Ukrainian.

UKRN GU4002 Advanced Ukrainian II. 3 points.
Prerequisites: UKRN UN2102 or the equivalent.
The course is for students who wish to develop their mastery of Ukrainian. Further study of grammar includes patterns of word formation, participles, gerunds, declension of numerals, and a more in-depth study of difficult subjects, such as verbal aspect and verbs of motion. The material is drawn from classical and contemporary Ukrainian literature, press, electronic media, and film. Taught almost exclusively in Ukrainian.

UKRN GU4006 Advanced Ukrainian Through Literature, Media, and Politics. 3.00 points.
This course is organized around a number of thematic centers or modules. Each is focused on stylistic peculiarities typical of a given functional style of the Ukrainian language. Each is designed to assist the student in acquiring an active command of lexical, grammatical, discourse, and stylistic traits that distinguish one style from the others and actively using them in real-life communicative settings in contemporary Ukraine. The styles include literary fiction, scholarly prose, and journalism, both printed and broadcast.

UKRN GU4033 FIN DE SIECLE UKRAINIAN LIT. 3.00 points.
The course focuses on the emergence of modernism in Ukrainian literature in the late 19th century and early 20th century, a period marked by a vigorous, often biting, polemic between the populist Ukrainian literary establishment and young Ukrainian writers who were inspired by their European counterparts. Students will read prose, poetry, and drama written by Ivan Franko, the writers of the Moloda Muza, Olha Kobylianska, Lesia Ukrainka, and Volodymyr Vynnychenko among others. The course will trace the introduction of feminism, urban motifs and settings, as well as decadence, into Ukrainian literature and will analyze the conflict that ensued among Ukrainian intellectuals as they shaped the identity of the Ukrainian people. The course will be supplemented by audio and visual materials reflecting this period in Ukrainian culture. Entirely in English with a parallel reading list for those who read Ukrainian.

UKRN GU4037 SOV UKRAINIAN MODERNISM: REV, REB, EXPER. 3.00 points.
This course studies the renaissance in Ukrainian culture of the 1920s - a period of revolution, experimentation, vibrant expression and polemics. Focusing on the most important developments in literature, as well as on the intellectual debates they inspired, the course will also examine the major achievements in Ukrainian theater, visual art and film as integral components of the cultural spirit that defined the era. Additionally, the course also looks at the subsequent implementation of the socialist realism and its impact on Ukrainian culture and on the cultural leaders of the renaissance. The course treats one of the most important periods of Ukrainian culture and examines it lasting impact on today's Ukraine. This period produced several world-renowned cultural figures, whose connections with the 1920s Ukraine have only recently begun to be discussed. The course will be complemented by film screenings, presentations of visual art and rare publications from this period. Entirely in English with a parallel reading list for those who read Ukrainian.

UKRN GU4054 CREATING ID-CONTEMP UKRNLTRL. 3.00 points.
This course presents and examines post-Soviet Ukrainian literature. Students will learn about the significant achievements, names, events, scandals and polemics in contemporary Ukrainian literature and will see how they have contributed to Ukraine’s post-Soviet identity. Students will examine how Ukrainian literature became an important site for exploring the complex and multifaceted identity of a nation in transition.
for experimentation with language, for providing feminist perspectives, for engaging previously-banned taboos and for deconstructing Soviet and Ukrainian national myths. Among the writers to be focused on in the course are Serhiy Zhadan, Yuri Andrukhovych, Oksana Zabuzhko and Taras Prokhasko. Centered on the most important successes in literature, the course will also explore key developments in music and visual art of this period. Special focus will be given to how the 2013/2014 Euromaidan revolution and war are treated in today’s literature. By also studying Ukrainian literature with regards to its relationship with Ukraine’s changing political life, students will obtain a good understanding of the dynamics of today’s Ukraine and the development of Ukrainians as a nation in the 21st century. The course will be complemented by audio and video presentations. Entirely in English with a parallel reading list for those who read Ukrainian

**Sociology**

**Department Office:** 501 Knox Hall; 212-853-1909  
http://www.sociology.columbia.edu

**Director of Undergraduate Studies:** Teresa Sharpe, 501 Knox; ts2785@columbia.edu

**Director of Academic Administration and Finance:**  
Teresa Aguayo, 501C Knox Hall; 212-854-9890; ta2015@columbia.edu

**Student Program Coordinator:** Winston Gordon, 501 Knox; wg2339@columbia.edu

Sociology is the study of society. In examining patterns of association, sociologists explore the interactions of people, communities, and organizations. In this sense, sociology is not the study of people; it is the study of the relationships among people. This study includes the associations between people and the products of human interaction, such as organizations, technologies, economies, cities, culture, media, and religion. In the kinds of questions it asks, sociology is a deeply humanist discipline and sociologists demand the analytic rigor of scientific investigation.

In training students in our department, we encourage them to ask big questions and we work to give them the tools to provide answers. These tools might mean ethnographic observation, pouring through historical archives, looking at census data, analyzing social networks, or interviewing people from various walks of life.

As a bridging discipline that seeks the scientific exploration of questions that matter to human communities, such as inequality and social injustice, sociology addresses many of the same areas of life as our neighboring social science disciplines. Yet we often approach these areas quite differently. For example, problems of economic and political life are a central concern to sociologists. Rather than explore these as independent or particular features of society, we seek to embed them within the complex whole of the social world. Students will find the Department of Sociology to be a broad, demanding department that provides its students with the conceptual and methodological tools to make sense of the opportunities and social problems of the global communities in which we live.

**Grading**

A letter grade of C- or better is needed in all Sociology courses in order to satisfy the program requirements.

**Departmental Honors**

In order to be considered for departmental honors, majors must have a minimum GPA of 3.6 overall and 3.8 in courses in the Department of Sociology. In addition, students must produce an exceptional honors thesis in the two-semester Senior Seminar (SOCI UN3995-SOCI UN3996 SENIOR SEMINAR).

In order to register for the Senior Seminar, students must have completed SOCI UN3010 METHODS FOR SOCIAL RESEARCH and have had their research project accepted by the faculty member teaching the Senior Seminar. Submissions of research projects are due by May 1 preceding the seminar. Normally no more than 10% of graduating majors receive departmental honors in a given academic year.

**Professors**

Peter Bearman

<td>SOCIAL THEORY</td>
<td>4.00</td>
<td></td>
</tr>
<tr>
<td>SOCI UN3010</td>
<td>METHODS FOR SOCIAL RESEARCH</td>
<td>3.00</td>
<td></td>
</tr>
</tbody>
</table>

**Elective Courses**

Select six courses (20-21 points) in the Department of Sociology, to include at least three lecture courses (2000- or 3000-level, 3 points each) and at least two seminars (4 points each). The sixth course could be either a lecture course (to a total of 30 points) or a seminar (to a total of 31 points). For students taking the two-semester Senior Seminar, the sixth course must be a seminar. Some examples of electives include:

<table>
<thead>
<tr>

SOCI UN3265 SOCIOLOGY OF WORK # GENDER. 3.00 points.
This course examines gender as a flexible but persistent boundary that continues to organize our work lives and our home lives, as well as the relationship between the two spheres. We will explore the ways in which gender affects how work is structured; the relationship between work and home; the household as a place of paid (and unpaid) labor; and how changes in the global economy affect gender and work identities

SOCI UN3297 Sociology of Transnational Market Making. 4 points.
The course will introduce core theories and key concepts in economic and political sociology, plus international political economy to provide a broad overview about the debates linked to the coming about and development of transnational markets. Classes are organized around three topics. We will start with the discussion of the works of classics like Weber, Durkheim and Polanyi on the emergence and evolution of national markets, followed by reading recent applications of the works of classics on the evolution of transnational markets. The third part of the course will explore the question of how can one apply these theoretical approaches to the study of the politics of the Single European Market and use their tools of analysis for the better understanding of the evolution of core-periphery relations in the EU.

Students taking this course will acquire the capacity for informed participation in debates on the politics of transnational market making. They will gain the analytical tools to start independent research on issues linked to the politics of economic integration in Europe

SOCI UN3915 Stigma and Discrimination. 4 points.
This course considers stigma and discrimination as general processes that apply to a broad range of phenomena, from mental illness to obesity to HIV/AIDS to racial groups. We will use a conceptual framework that considers power and social stratification to be central to stigma and discrimination. We will focus on both macro- and micro-level social processes and
their interconnections, and we will draw on literature from both sociology and psychology.

**SOCI UN3921 HIGHER EDUCATION AND INEQUALITY. 4 points.**
Prerequisites: (SOCI UN1000)
Higher education in the U.S. is going through a period of rapid change. State support is shrinking,student debt is increasing, full-time faculty are being replaced by adjuncts, and learning outcomes are difficult to measure, at best. This class will try to make sense of these changes. Among other questions, it will ask whether higher education is a source of social mobility or a means of class reproduction; how the college experience differs by race, class, and type of college attended; how the economics of higher education have led to more expensive college and more student loans; and how we might make college better.
We will consider several different points of view on the current state of U.S. higher education: that of students who apply to and attend college, that of colleges and universities, and that of society at large. As part of this course, students will conduct research on their own universities: Columbia College or Barnard College.

**SOCI UN3926 Race, Place, and the United States. 4.00 points.**
The course analyzes the relationship between race/ethnicity and spatial inequality, emphasizing the institutions, processes, and mechanisms that shape the lives of urban dwellers. It surveys major theoretical approaches and empirical investigations of racial and ethnic stratification in several urban cities, and their concomitant policy considerations.

**SOCI UN3937 Sociology of Human Rights. 4.00 points.**
Sociology came to the study of human rights much later than law, philosophy, or political science. In this course, you’ll learn (1) what constitutes a sociology of human rights and (2) what sociology, its classics, and its diverse methods bring to the empirical study and theory of human rights. We’ll explore the history, social institutions and laws, ideas, practices, and theories of human rights. We’ll become familiar with the social actors, social structures, and relationships involved in practices such as violation, claims-making, advocacy, and protection. We’ll consider how social, cultural, political, and economic forces affect human rights issues. We’ll learn about the questions sociologists ask, starting with the most basic (but far from simple) question, “what is a human right?” We’ll tackle key debates in the field, considering – for instance – whether human rights are universal and how human rights relate to cultural norms/values, national sovereignty, and national security. Finally, we’ll apply the concepts we’ve learned to a wide range of issues (ex: how racial, ethnic, gender, and other social inequalities relate to human rights), rights (ex: LGBTQ rights, the rights of laborers, the rights of refugees), and cases (ex: enslavement, the separation of children from their families, circumcision, sterilization, the use of torture). We’ll consider human rights cases in the United States and across the globe, and how events and actions in one place relate to human rights violations in another.

**SOCI 3937**
001/15454  F 12:10–2:00 pm 302 Hamilton Hall
Rosemary McGunnigle-Gonzales

**SOCI UN3960 SEMINAR - PROBLEMS OF LAW # SOCIETY. 4.00 points.**
This course addresses basic contemporary social issues from several angles of vision: from the perspective of scientists, social scientists, legal scholars, and judges. Through the use of case studies, students will examine the nature of theories, evidence, facts, proof, and argument as found in the work of scientists and scholars who have engaged the substantive issues presented in the course.

**SOCI UN3974 SOCI OF SCHOOLS,TEACH,LEARNING. 4.00 points.**
In this class we will examine the school as a central institution in modern society, and we will grapple with an important question in the sociology of education: what role do schools play in reinforcing or challenging broader patterns of social inequality? We will pay special attention to the ways in which students class, race/ethnicity and gender shape their educational experiences. We will also look at how schools are organized, how schools construct differences among students, and how schools sort kids into different (and unequal) groups. Finally we will explore the types of interventions - at both the individual and organizational levels - that can mitigate inequality in educational achievement and help low-income students to succeed. One such intervention that has shown promise is tutoring in academic and social and behavioral skills, and interventions that strengthen self-affirmation. A major component of this class is your experience as a tutor. You will be trained as tutors to work with students from local high schools both through in-person tutoring and through tutoring using social networking technologies. Throughout the semester we will combine our academic learning with critical reflection on our experience sin the field. Because you will be working with NYC high school students, we will pay special attention to how NYC high schools are organized and how current issues in education play out in the context of NYC schools.

**SOCI UN3980 Immigrant New York: The Changing American City. 4 points.**
How has immigration transformed New York City? What are the major ethnic groups in the city? How are immigrants and their U.S.-born children incorporated into the city’s schools, workplaces and neighborhoods? How will their integration reshape patterns of ethnic and racial inequality in the city? This course will focus on New York City as a case study to highlight...
how immigration has transformed the city’s demographic, political, socioeconomic and spatial landscape.

**SOCI UN3981 Migration and Development. 4 points.**
This is a seminar course on the social structure of migration—the movement of people from place to place—and its developmental consequences. The readings are organized by topic and include examples drawn from many countries, in order to highlight the commonality of migration processes across societies as well as specific societal differences that reflect national differences in social institutions, regional variations in economic development, etc. Papers concerned both with internal migration and international migration are included; as we will see, the apparent distinction between these two forms of migration—the presence of institutional barriers with respect to international migration and the supposed absence of such barriers with respect to internal migration—breaks down in societies that impose institutional constraints on internal migration: China, the former Soviet Union, and apartheid-era South Africa, among others.

**SOCI UN3996 SENIOR SEMINAR. 3.00-4.00 points.**
Prerequisites: required methods and theory courses for the major, and the instructor’s permission.
Prerequisites: required methods and theory courses for the major, and the instructors permission. Students wishing to qualify for departmental honors must take W3996y. Students carry out individual research projects and write a senior thesis under the supervision of the instructor and with class discussion. Written and oral progress reports

**SOCI GU4701 CREATIVITY/TECH:WAR # COMMERCE. 4.00 points.**
This course examines the ways that technological shifts have catalyzed innovation and social change in human societies. The focus is on the social basis for creativity. Analysis centers on the conflicts, disruptions and tensions that emerge in society when new and/or competing technologies are introduced. Students will explore two substantive spheres of social life. The first is war. Throughout recorded history, participants have sought to garner competitive advantages in battle via technological innovation. We look at several moments in which the development of a particular innovation helped bring about massive societal change. The second focus is on commerce. The class will examine the impact of digital technologies on those who work in creative industries undergoing transformation via technology and diffusion of tech-inspired ideas. The learning objectives for students are:
• To situate technology within a wider social and historical context. • To consider creativity as a social activity, not only as individual aptitude. • To place the contemporary period of so-called “fast paced technological progress” within a sociological framework of change and innovation

**CSER UN1040 CRIT APPRO-STUDY OF ETH # RACE. 3.00 points.**
This course provides an introduction to central approaches and concepts animating the investigation of race and ethnicity. We will not treat either of these categories of difference as a given, nor as separable from other axes of social difference. Rather, we will apply an interdisciplinary and intersectional framework to illuminate how these concepts have come to emerge and cohere within a number of familiar and less familiar sociocultural and historical contexts. We will consider how racial and ethnic differentiation as fraught but powerful processes have bolstered global labor regimes and imperial expansion projects; parsed, managed, and regulated populations; governed sexed and gendered logics of subject and social formation; and finally, opened and constrained axes of self-understanding, political organization, and social belonging. Special attention will be given to broadening students understanding of racial and ethnic differentiation beyond examinations of identity. Taken together, theoretical and empirical readings, discussions, and outside film screenings will prepare students for further coursework in race and ethnic studies, as well as fields such
as literary studies, women’s studies, history, sociology, and anthropology

**SOCI UN2208 CULTURE IN AMERICA. 3.00 points.**
The values and meanings that form American pluralism.
The three sections explore taste, consumption, and art; moral conflict, religion and secularism; identity, community and ideology. Examples range widely: Individualism, liberalism and conservatism; Obama’s “transracial” endeavor; the food revolution; struggles over family and sexuality; multiculturalism; assimilation and immigration

**SOCI UN2235 Sexuality in Social Context. 4.00 points.**
Despite the ubiquity of sexual imagery in contemporary Western popular culture, most people regard sexuality to be an intimate topic that concerns the drives, experiences and pleasures of individuals. In this course, we will examine the social and pluralistic character of sexual desires, meanings, practices and politics, their variations, cultural locations, institutional determinants and even geopolitical dimensions. We will begin by surveying some of the most influential theoretical works from psychoanalysis, sexology and early sociological writings on sexualities, paying particular attention to how they undergird more contemporary social thought. We then move on to examine the influence of queer theoretical critique on sociological thinking about heterosexuality, whiteness, sexual diversity, and cross-national differences in the interrelationships between gender and sexuality. We will end the course by looking at three discrete topics within the larger sociological subfield of sexuality studies: global sex work, the ethics of participants observation in sexual; communities and contemporary discourses of sexual consent (the last with a particular focus on campus sexual cultures)

**SOCI UN3000 SOCIAL THEORY. 4.00 points.**
Prerequisites: Sophomore standing.
Prerequisites: Sophomore standing. Required for all sociology majors. Prerequisite: at least one sociology course of the instructor's permission. Theoretical accounts of the rise and transformations of modern society in the 19th and 20th centuries. Studies theory include those of Adam Smith, Tocqueville, Marx, Durkheim, Max Weber, Roberto Michels. Selected topics: individual, society, and polity; economy, class, and status; organization and ideology; religion and society; moral and instrumental action

**SOCI UN3001 Social Theory- DISC. 0.00 points.**
Prerequisites: SOCI UN3000 Discussion section for Social Theory (SOCI UN3000)

**SOCI UN3010 METHODS FOR SOCIAL RESEARCH. 4.00 points.**
Prerequisites: SOCI UN1000 The Social World or Instructor Permission
Prerequisites: SOCI UN1000 The Social World or Instructor Permission Required for all Sociology majors. Introductory course in social scientific research methods. Provides a general overview of the ways sociologists collect information about social phenomena, focusing on how to collect data that are reliable and applicable to our research questions

**SOCI UN3011 METHODS SOCIAL RESEARCH-DISC. 0.00 points.**
Prerequisites: SOCI UN1000
Prerequisites: SOCI UN1000 Section Discussion for SOCI UN3010, METHODS FOR SOCIAL RESEARCH
SOCI UN3120 Trust and Mistrust in Science and Expertise. 4 points.
Skepticism about science and expertise is evident today in multiple arenas and clearly can no longer be considered a passing phenomenon. From climate change to vaccines; from mammograms to Coronavirus testing; from opposition to rules regulating acceptable levels of carcinogens to AI algorithms purporting to yield better decisions than human experts; the challenges to the authority of experts come from both sides of the political spectrum and take multiple forms. Most discussions of the challenges to expertise start from the question of mistrust. They ask why do people mistrust science and experts given their obvious and well-documented successes and their contribution to immense improvements in collective well-being? This way of posing the question inevitably leads to the conclusion that people mistrusting experts are irrational, uninformed or duped. This, however, may not be the most productive way to pose the question. For the social scientist, mistrust is not the puzzle, trust is. It is not surprising that people would tend to mistrust decisions taken in locales far removed from their daily lives, that are supported by forms of knowledge and technical arrangements that can be relatively opaque and difficult to grasp. It is not surprising especially since these decisions impact some individuals and groups adversely, while benefitting others. Finally, every now and then, but predictably so, it becomes obvious in hindsight that the wrong decisions were taken. Under these circumstances it is far more puzzling, counter-intuitive and difficult to understand why, how, and under what conditions people do trust science and experts. If we want to understand mistrust, and ultimately arrive at a productive way to pose the question. For the social scientist, mistrust is not the puzzle, trust is. It is not surprising that people would tend to mistrust decisions taken in locales far removed from their daily lives, that are supported by forms of knowledge and technical arrangements that can be relatively opaque and difficult to grasp. It is not surprising especially since these decisions impact some individuals and groups adversely, while benefitting others. Finally, every now and then, but predictably so, it becomes obvious in hindsight that the wrong decisions were taken. Under these circumstances it is far more puzzling, counter-intuitive and difficult to understand why, how, and under what conditions people do trust science and experts.

SOCI UN3121 Trust and Mistrust in Science and Expertise - DISC. 0.00 points.
Discussion Section for SOCI 3120UN - TRUST AND MISTRUST IN SCIENCE AND EXPERTISE. Skepticism about science and expertise is evident today in multiple arenas and clearly can no longer be considered a passing phenomenon. From climate change to vaccines; from mammograms to Coronavirus testing; from opposition to rules regulating acceptable levels of carcinogens to AI algorithms purporting to yield better decisions than human experts; the challenges to the authority of experts come from both sides of the political spectrum and take multiple forms. Most discussions of the challenges to expertise start from the question of mistrust. They ask why do people mistrust science and experts given their obvious and well-documented successes and their contribution to immense improvements in collective well-being? This way of posing the question inevitably leads to the conclusion that people mistrusting experts are irrational, uninformed or duped. This, however, may not be the most productive way to pose the question. For the social scientist, mistrust is not the puzzle, trust is. It is not surprising that people would tend to mistrust decisions taken in locales far removed from their daily lives, that are supported by forms of knowledge and technical arrangements that can be relatively opaque and difficult to grasp. It is not surprising especially since these decisions impact some individuals and groups adversely, while benefitting others. Finally, every now and then, but predictably so, it becomes obvious in hindsight that the wrong decisions were taken. Under these circumstances it is far more puzzling, counter-intuitive and difficult to understand why, how, and under what conditions people do trust science and experts.

SOCI BC3219 RACE, ETHNICITY & SOCIETY. 3.00 points.
Examines the social construction of race and ethnicity in the United States from colonial period to present. Analyzes how capitalist interests, class differences, gender, immigration, and who “deserves” the full rights and privileges of citizenship, shape boundaries between and within racial and ethnic groups. Also considers how racism affects resource access inequities between racial groups in education, criminal justice, media, and other domains. Explores factors underpinning major social change with an eye toward discerning social conditions necessary to create and sustain just social systems.

Fall 2022: SOCI BC3219
Course Number: 3219
Section/Call Number: 001/00767
Times/Location: M W 8:40am - 9:55am
Instructor: Gillian Gualtieri
Points: 3.00
Enrollment: 37/45
207 Milbank Hall

SOCI UN3324 Global Urbanism. 3 points.
CC/GS/SEAS: Partial Fulfillment of Global Core Requirement

Using classical texts about cities (do they still work for us?) and on the diverse new literatures on cities and larger subjects.
with direct urban implications, we will use a variety of data sets to get a detailed empirical information, and draw on two large ongoing research projects involving major and minor global cities around the world (a total of over 60 cities are covered in detail as of 2008). Students will need to register for a discussion section as well; details to be announced.

SOCI UN3235 SOCIAL MOVEMENTS. 3.00 points.
Prerequisites: One introductory course in Sociology suggested.
Prerequisites: One introductory course in Sociology suggested.
Social movements and the theories social scientists use to explain them, with emphasis on contemporary American activism. Cases include the Southern civil rights movement, Black Lives Matter, contemporary feminist mobilizations, LGBTQ activism, immigrant rights and more recent forms of grassroots politics.

Fall 2022: SOCI UN3235
Course Number: 3235
Section/Call Number: 001
Times/Location: T Th 10:10am - 11:25am
Instructor: Andrew Anastasi
Points: 3.00
Enrollment: 38/45

SOCI UN3321 Global Urbanism Discussion Section. 0 points.
Discussion Section for "Global Urbanism" SOCI UN3324

SOCI UN3675 ORGANIZING INNOVATION. 4.00 points.
This course examines major innovations in organizations and asks whether innovation itself can be organized. We study a range of forms of organizing (e.g. bureaucratic, post-bureaucratic, and open architecture network forms) in a broad variety of settings: from fast food franchises to the military-entertainment complex, from airline cockpits to Wall Street trading rooms, from engineering firms to mega-churches, from scientific management at the turn of the twentieth century to collaborative filtering and open source programming at the beginning of the twenty-first. Special attention will be paid to the relationship between organizational forms and new digital technologies.

Fall 2022: SOCI UN3675
Course Number: 3675
Section/Call Number: 001
Times/Location: T Th 10:10am - 11:25am
Instructor: David Stark
Points: 4.00
Enrollment: 50/60

SOCI UN3900 Societal Adaptations to Terrorism. 4 points.
Prerequisites: Junior or Senior standing
Examines how countries have adjusted to the threat of terrorism. How the adaptation reflects the pattern of terrorist attacks, as well as structural and cultural features of the society. Adaptations by individuals, families, and organizational actors.

SOCI UN3914 INEQUALITY, POVERTY # MOBILITY. 4.00 points.
This is an undergraduate seminar in social stratification. The course focuses on the current American experience with socioeconomic inequality and mobility. The goals of the course are to understand how inequality is conceptualized and measured in the social sciences, to understand the structure of inequality in the contemporary U.S. to learn the principal theories and evidence for long term trends in inequality, to understand the persistence of poverty and the impact of social policies on American rates of poverty, and to understand the forces that both produce and inhibit intergenerational social mobility in the U.S. Given the nature of the subject matter, a minority of the readings will sometimes involve quantitative social science material. The course does not presume that students have advanced training in statistics, and any readings sections that contain mathematical or statistical content will be explained in class in nontechnical terms as needed. In these instances, our focus will not be on the methods, but rather on the conclusions reached by the author concerning the research question that is addressed in the text.

Fall 2022: SOCI UN3914
Course Number: 3914
Section/Call Number: 001
Times/Location: T 2:10pm - 4:00pm
Instructor: Thomas DiPrete
Points: 4.00
Enrollment: 15/20

SOCI BC3916 CROSSOVER CULTURE. 4.00 points.
The rise of crossover culture: racially segregated markets and genres; organizational environments and the rise of independent labels; the creative process and black-white conflict and connection; the emergence of rock as a white genre; civil rights, Black Power, and the politics of soul; cultural borrowing and the postracial ethos.

Spring 2023: SOCI BC3916
Course Number: 3916
Section/Call Number: 001
Times/Location: T 2:10pm - 4:00pm
Instructor: Jonathan Rieder
Points: 4.00
Enrollment: 15/15

SOCI BC3920 ADV TOPICS GENDER # SEXUALITY. 4.00 points.
This research and writing-intensive seminar is designed for senior majors with a background and interest in the sociology of gender and sexuality. The goal of the seminar is to facilitate completion of the senior requirement (a 25-30 page paper) based on hands on; research with original qualitative data. Since the seminar will be restricted to students with prior academic training in the subfield, students will be able to receive intensive research training and guidance through every step of the research process, from choosing a research question to conducting original ethnographic and interview-based research, to analyzing and interpreting ones findings. The final goal of the course will be the production of an original paper of standard journal-article length. Students who choose to pursue their projects over the course of a second semester will have the option of revisiting their articles further for submission and publications.

Fall 2022: SOCI BC3920
Course Number: 3920
Section/Call Number: 001
Times/Location: T 4:10pm - 6:00pm
Instructor: Elizabeth Bernstein
Points: 4.00
Enrollment: 13/15

827
SOCI BC3925 Advanced Topics in Law & Society. 4 points.
Law creates order. And yet, outlaws or lawbreakers are everywhere. Students will learn to ask and answer questions about living law, understanding that it involves law-followers and law-breakers. Students will read and discuss sociological investigations of the law and perform their own research into a significant question about law-in-action.

SOCI UN3926 Race, Place, and the United States. 4.00 points.
The course analyzes the relationship between race/ethnicity and spatial inequality, emphasizing the institutions, processes, and mechanisms that shape the lives of urban dwellers. It surveys major theoretical approaches and empirical investigations of racial and ethnic stratification in several urban cities, and their concomitant policy considerations

SOCI UN3937 Sociology of Human Rights. 4.00 points.
Sociology came to the study of human rights much later than law, philosophy, or political science. In this course, you’ll learn (1) what constitutes a sociology of human rights and (2) what sociology, its classics, and its diverse methods bring to the empirical study and theory of human rights. We’ll explore the history, social institutions and laws, ideas, practices, and theories of human rights. We’ll become familiar with the social actors, social structures, and relationships involved in practices such as violation, claims-making, advocacy, and protection. We’ll consider how social, cultural, political, and economic forces affect human rights issues. We’ll learn about the questions sociologists ask, starting with the most basic (but far from simple) question, “what is a human right?” We’ll tackle key debates in the field, considering – for instance – whether human rights are universal and how human rights relate to cultural norms/values, national sovereignty, and national security. Finally, we’ll apply the concepts we’ve learned to a wide range of issues (ex: how racial, ethnic, gender, and other social inequalities relate to human rights), rights (ex: LGBTQ rights, the rights of laborers, the rights of refugees), and cases (ex: enslavement, the separation of children from their families, circumcision, sterilization, the use of torture). We’ll consider human rights cases in the United States and across the globe, and how events and actions in one place relate to human rights violations in another

Fall 2022: SOCI UN3937
Course Number: 5037
Section/Call Number: 001/15454
Times/Location: F 12:10pm - 2:00pm
302 Hamilton Hall
Instructor: Rosemary McGunnigle-Gonzales
Points: 4.00
Enrollment: 15/20

Spring 2023: SOCI UN3937
Course Number: 5037
Section/Call Number: 001/14851
Times/Location: F 12:10pm - 2:00pm
306 Hamilton Hall
Instructor: Rosemary McGunnigle-Gonzales
Points: 4.00
Enrollment: 20/20

SOCI BC3946 GLOBAL HEALTH, POLITICS, AND SOCIETY. 4.00 points.
What is global health? Where do global health disease priorities come from, and how do the ways that we understand disease shape how we respond to it? What happens when good ideas and good intentions go wrong? This course critically examines the politics of global health and its impact on local institutions and people. Drawing on social science research, the course will address three main themes: 1) how global health priorities are defined and constructed, 2) how our understandings of disease influence our response to that disease, and 3) how efforts to respond to disease intersect with people on the ground, sometimes in unexpected ways. We will examine the global health industry from the vantage point of different institutions and actors – international organizations, governments, local healthcare institutions, healthcare workers, and people living with or at risk of various illnesses like HIV/AIDS, malaria, cancer, and Ebola. A primary goal of this course is to help you to develop skills in critical thinking in relation to global health issues and their impact on society. Students will demonstrate their knowledge through individual writing, class discussion, presentations, and a final research project

SOCI UN3974 SOCI OF SCHOOLS, TEACH, LEARNING. 4.00 points.
In this class we will examine the school as a central institution in modern society, and we will grapple with an important question in the sociology of education: what role do schools play in reinforcing or challenging broader patterns of social inequality? We will pay special attention to the ways in which students class, race/ethnicity and gender shape their educational experiences. We will also look at how schools are organized, how schools construct differences among students, and how schools sort kids into different (and unequal) groups. Finally we will explore the types of interventions - at both the individual and organizational levels - that can mitigate inequality in educational achievement and help low-income students to succeed. One such intervention that has shown promise is tutoring in academic and social and behavioral skills, and interventions that strengthen self-affirmation. A major component of this class is your experience as a tutor. You will be trained as tutors to work with students from local high schools both through in-person tutoring and through tutoring using social networking technologies. Throughout the semester we will combine our academic learning with critical reflection on our experience in the field. Because you will be working with NYC high school students, we will pay special attention to how NYC high schools are organized and how current issues in education play out in the context of NYC schools

SOCI UN3996 SENIOR SEMINAR. 3.00–4.00 points.
Prerequisites: required methods and theory courses for the major, and the instructor's permission.
Prerequisites: required methods and theory courses for the major, and the instructor's permission. Students wishing to qualify for departmental honors must take W3996y. Students carry out individual research projects and write a senior
thesis under the supervision of the instructor and with class discussion. Written and oral progress reports

SOCI GU4801 Israel and the Palestinians. 4.00 points.

The seminar will examine the main political, economic, and social processes that have been shaping contemporary Israel. The underlying assumption in this seminar is that much of these processes have been shaped by the 100-year Israeli-Arab/Palestinian conflict. The first part of the course will accordingly focus on the historical background informing the conflict and leading to the Palestinian refugee problem and establishment of a Jewish, but not Palestinian, state in 1948. The second part of the seminar focuses on Israel’s occupation of the West Bank (and Gaza) and the settlement project, as well as on USA’s role and its impact on the conflict, the occupation, and Israel. These topics did not get much academic attention until recently, but as researchers began to realize that the Occupation and the West Bank settlements are among the most permanent institutions in Israel, they have come under the scrutiny of academic research. The third part the seminar will concentrate on the development of the conflict after the establishment of Israel and its effects on sociological processes and institutions in contemporary Israel. Analyzing patterns of continuity and change in the past seven decades, we will discuss immigration and emigration patterns, as well as issue relating to ethnicity, gender, religion and politics, and the Israeli military

**Department Administrator:**
Dood Kalicharan, 1003 School of Social Work; 212-851-2130; dk@stat.columbia.edu

The Department offers several introductory courses. Students interested in statistical concepts, who plan on consuming, but not creating statistics, should take STAT UN1001 INTRO TO STATISTICAL REASONING. The course is designed for students who have taken a pre-calculus course, and the focus is on general principles. It is suitable for students seeking to satisfy the Barnard quantitative reasoning requirements.

Students seeking an introduction to applied statistics should take STAT UN1101 INTRODUCTION TO STATISTICS. The course is designed for students who have some mathematical maturity, but who may not have taken a course in calculus, and the focus is on the elements of data analysis. It is recommended for pre-med students, and students contemplating the concentration in statistics. Students seeking a foundation for further study of probability theory and statistical theory and methods should take STAT UN1201 CALC-BASED INTRO TO STATISTICS. The course is designed for students who have taken a semester of college calculus or the equivalent, and the focus is on preparation for a mathematical study of probability and statistics. It is recommended for students seeking to complete the prerequisite for econometrics, and for students contemplating the major in statistics. Students seeking a one-semester calculus-based survey of probability theory and statistical theory and methods should take STAT GU4001 INTRODUCTION TO PROBABILITY AND STATISTICS. This course is designed for students who have taken calculus, and is meant as a terminal course. It provides a somewhat abridged version of the more demanding sequence STAT GU4203 PROBABILITY THEORY and STAT GU4204 STATISTICAL INFERENCE. While some mathematically mature students take the more demanding sequence as an introduction to the field, it is generally recommended that students prepare for the sequence by taking STAT UN1201 CALC-BASED INTRO TO STATISTICS.

The Department offers the Major in Statistics, the Concentration in Statistics, and interdisciplinary majors with Computer Science, Economics, Mathematics, and Political Science. The concentration is suitable for students preparing for work or study where substantial skills in data analysis are valued and may be taken without mathematical prerequisites. The concentration consists of a sequence of six courses in applied statistics, but students may substitute statistics electives numbered 4203 or above with permission of the concentration advisors. The major consists of mathematical and computational prerequisites, an introductory course, and five core courses in probability theory and theoretical and applied statistics together with three electives. The training in the undergraduate major is comparable to a masters degree in statistics.

Students may wish to consult the following guidelines when undertaking course planning. It is advisable to take STAT UN1101 INTRODUCTION TO STATISTICS and STAT UN2102 Applied Statistical Computing before taking any of the more advanced concentration courses, STAT UN2103 APPLIED LINEAR REG ANALYSIS, STAT UN2104 APPL CATEGORICAL DATA ANALYSIS, STAT UN3105 APPLIED STATISTICAL METHODS, and STAT UN3106 APPLIED MACHINE LEARNING. It is advisable to take STAT UN1201 CALC-BASED INTRO TO STATISTICS, STAT GU4203 PROBABILITY THEORY, STAT GU4204 STATISTICAL INFERENCE, and STAT GU4205 LINEAR REGRESSION MODELS in sequence. Courses in stochastic analysis should be preceded by STAT GU4203 PROBABILITY THEORY, and for many students, it is advisable to take STAT GU4207 ELEMENTARY STOCHASTIC PROCESS before embarking on STAT GU4262 Stochastic Processes for Finance, STAT GU4264 STOCHASTIC PROCESSES-APPLICTNS I, or STAT GU4265 STOCHASTIC METHODS IN FINANCE. Most of the statistics courses numbered from 4221 to 4234 are best preceded by STAT GU4205 LINEAR REGRESSION MODELS. The data science courses STAT GU4206 STAT COMP # INTRO DATA SCIENCE, STAT GU4241 STATISTICAL MACHINE LEARNING, and STAT GU4242 Advanced Machine Learning should be taken in sequence.

**ADVANCED PLACEMENT**

The Department offers three points of advanced credit for a score of 5 on the AP statistics exam. Students who are required to take an introductory statistics course for their major should check with their major advisor to determine whether this credit provides exemption from their requirement.

**DEPARTMENTAL HONORS**

Students are considered for department honors on the basis of GPA and the comprehensiveness and difficulty of their
course work in the Department. The Department is generally permitted to nominate one tenth of graduating students for departmental honors.

**UNDERGRADUATE RESEARCH IN STATISTICS AND THE SUMMER INTERNSHIP**

Matriculated students who will be undergraduates at Columbia College, Barnard College, the School of General Studies, or the School of Engineering and Applied Sciences may apply to the Department’s summer internship program. The internship provides summer housing and a stipend. Students work with Statistics Department faculty mentors. Applicants should send a brief statement of interest and a copy of their transcript to Ms. Dood Kalicharan in the Statistics Department office by the end of March to be considered. If summer project descriptions are posted on the Department’s website, please indicate in the statement of interest which project is of interest. Students seeking research opportunities with Statistics Department faculty during the academic year are advised to be entrepreneurial and proactive: identify congenial faculty whose research is appealing, request an opportunity to meet, and provide some indication of previous course work when asking for a project.

**MAJOR IN STATISTICS**

The requirements for this program were modified in March 2016. Students who declared this program before this date should contact the director of undergraduate studies for the department in order to confirm their options for major requirements.

The major should be planned with the director of undergraduate studies. Courses taken for a grade of Pass/D/Fail, or in which the grade of D has been received, do not count toward the major. The requirements for the major are as follows:

<table>
<thead>
<tr>
<th>Mathematics and Computer Science Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH UN101I</td>
</tr>
</tbody>
</table>

831
One of the following five courses

- COMS W1007 Honors Introduction to Computer Science
- ENGI E1006 INTRO TO COMP FOR ENG/APP SCI
- COMS W1005 Introduction to Computer Science and Programming in MATLAB
- STAT UN2102 Applied Statistical Computing
- COMS W1004 Introduction to Computer Science and Programming in Java

Core courses in probability and statistics

- STAT UN1201 CALC-BASED INTRO TO STATISTICS
- STAT GU4203 PROBABILITY THEORY
- STAT GU4204 STATISTICAL INFERENCE
- STAT GU4205 LINEAR REGRESSION MODELS
- STAT GU4206 STAT COMP # INTRO DATA SCIENCE
- STAT GU4207 ELEMENTARY STOCHASTIC PROCESS

Three approved electives in statistics or, with permission, a cognate field.

- Students preparing for a career in actuarial science are encouraged to replace STAT GU4205 LINEAR REGRESSION MODELS with STAT GU4282 Linear Regression and Time Series Methods, and should take as one of their electives STAT GU4281 Theory of Interest.
- Students preparing for graduate study in statistics are encouraged to replace two electives with MATH GU4061 INTRO MODERN ANALYSIS I and MATH GU4062 INTRO MODERN ANALYSIS II.

Students may replace courses required for the concentration by approved Statistics Department courses.

### Major in Data Science

In response to the ever growing importance of "big data" in scientific and policy endeavors, the last few years have seen an explosive growth in theory, methods, and applications at the interface between computer science and statistics. The Statistics Department and the Department of Computer Science have responded with a joint-major that emphasizes the interface between the disciplines.

Courses taken for a grade of Pass/D/Fail, or in which the grade of D has been received, do not count toward the major. The requirements for the major are as follows:

#### Mathematical Prerequisites

- MATH UN1101 CALCULUS I
- MATH UN1102 CALCULUS II
- MATH UN1201 CALCULUS III
- MATH UN2010 LINEAR ALGEBRA

#### Statistics Required Courses

- STAT UN1201 CALC-BASED INTRO TO STATISTICS
- STAT GU4203 PROBABILITY THEORY
- STAT GU4204 STATISTICAL INFERENCE
- STAT GU4205 LINEAR REGRESSION MODELS
- STAT GU4241 STATISTICAL MACHINE LEARNING
  - or COMS W4771 MACHINE LEARNING
- STAT GU4206 STAT COMP # INTRO DATA SCIENCE
- STAT GU4243 APPLIED DATA SCIENCE
- STAT GU4224 BAYESIAN STATISTICS
- STAT GU4242 Advanced Machine Learning

#### Statistics Electives

Select two of the following courses:

- STAT UN3106 APPLIED MACHINE LEARNING
- STAT GU4206 STAT COMP # INTRO DATA SCIENCE
- STAT GU4243 APPLIED DATA SCIENCE
- STAT GU4224 BAYESIAN STATISTICS
- STAT GU4242 Advanced Machine Learning

#### Computer Science Introductory Courses

Select one of the following courses:

- COMS W1004 Introduction to Computer Science and Programming in Java
- COMS W1005 Introduction to Computer Science and Programming in MATLAB
- ENGI E1006 INTRO TO COMP FOR ENG/APP SCI
- COMS W1007 Honors Introduction to Computer Science

And select one of the following courses:

- COMS W3134 Data Structures in Java
- COMS W3136 ESSENTIAL DATA STRUCTURES
COMS W3137  HONORS DATA STRUCTURES # ALGOL

Computer Science Required Courses
COMS W3203  DISCRETE MATHEMATICS
CSOR W4231  ANALYSIS OF ALGORITHMS I

Computer Science Electives
Select three of the following courses:
COMS W3261  COMPUTER SCIENCE THEORY
COMS W4236  INTRO-COMPUTATIONAL COMPLEXITY
COMS W4252  INTRO-COMPUTATIONAL LEARN THRY
COMS W4111  INTRODUCTION TO DATABASES
COMS W4130  Principles and Practice of Parallel Programming

Any COMS W47xx course EXCEPT W4771

MAJOR IN ECONOMICS-STATISTICS

Please read Requirements for all Economics Majors, Concentrators, and Interdepartmental Majors in the Economics (p. 443) section of this Bulletin.

The major in Economics-Statistics provides students with a grounding in economic theory comparable to that of the general economics major, but also exposes students to a more rigorous and extensive statistics training. This program is recommended for students with strong quantitative skills and for those contemplating graduate studies in economics.

Two advisers are assigned for the interdepartmental major, one in the Department of Economics and one in the Department of Statistics. The economics adviser can only advise on economics requirements and the statistics adviser can only advise on statistics requirements.

Students should be aware of the rules regarding the use of the Pass/D/Fail option. Courses in which a grade of D has been received do not count toward the major requirements.

The economics-statistics major requires a total of 59 points: 29 in economics, 15 points in statistics, 12 points in mathematics, and 3 points in computer science, as follows:

Economics Core Courses
Complete the Economics core courses.

Economics Electives
Select three electives at the 3000-level or above, of which no more than one may be a Barnard course.

Mathematics
Select one of the following sequences:
MATH UN1101  CALCULUS I
- MATH UN1102 and CALCULUS II
- MATH UN1201 and CALCULUS III
- MATH UN2010 and LINEAR ALGEBRA

MATH UN1207  HONORS MATHEMATICS A
- MATH UN1208 and HONORS MATHEMATICS B

Statistics
STAT UN1201  CALC-BASED INTRO TO STATISTICS
STAT GU4203  PROBABILITY THEORY
STAT GU4204  STATISTICAL INFERENCE
STAT GU4205  LINEAR REGRESSION MODELS

One elective from among courses numbered STAT GU4206 through GU4266.

Computer Science
Select one of the following courses:
COMS W1004  Introduction to Computer Science and Programming in Java
COMS W1005  Introduction to Computer Science and Programming in MATLAB
COMS W1007  Honors Introduction to Computer Science
ENGI E1006  INTRO TO COMP FOR ENG/APP SCI
STAT UN2102  Applied Statistical Computing

Seminar
ECON GU4918  SEMINAR IN ECONOMETRICS

Students who declared before Spring 2014:
The requirements for this program were modified in 2014. Students who declared this program before Spring 2014 should contact the director of undergraduate studies for the department in order to confirm their options for major requirements.

MAJOR IN MATHEMATICS-STATISTICS

The program is designed to prepare the student for: (1) a career in industries such as finance and insurance that require a high level of mathematical sophistication and a substantial knowledge of probability and statistics; and (2) graduate study in quantitative disciplines. Students choose electives in finance, actuarial science, operations research, or other quantitative fields to complement requirements in mathematics, statistics, and computer science.

Courses taken for a grade of Pass/D/Fail, or in which the grade of D has been received, do not count toward the major. The requirements for the major are as follows:

Mathematics
Select one of the following sequences:
MATH UN1101  CALCULUS I
<table>

or an advanced Computer Science offering in programming

**Electives**

An approved selection of three advanced courses in mathematics, statistics, applied mathematics, industrial engineering and operations research, computer science, or approved mathematical methods courses in a quantitative discipline. At least one elective must be a Mathematics Department course numbered 3000 or above.

- Students interested in modeling applications are recommended to take MATH UN3027 Ordinary Differential Equations and MATH UN3028 PARTIAL DIFFERENTIAL EQUATIONS
- Students interested in finance are recommended to include among their electives, MATH GR5010 INTRO TO THE MATH OF FINANCE, STAT GU4261 STATISTICAL METHODS IN FINANCE, and STAT GU4221 TIME SERIES ANALYSIS.
- Students interested in graduate study in mathematics or in statistics are recommended to take MATH GU4061 INTRO MODERN ANALYSIS I and MATH GU4062 INTRO MODERN ANALYSIS II.
- Students preparing for a career in actuarial science are encouraged to replace STAT GU4205 LINEAR REGRESSION MODELS with STAT GU4282 Linear Regression and Time Series Methods, and to take among their electives STAT GU4281 Theory of Interest.

**MAJOR IN POLITICAL SCIENCE–STATISTICS**

The interdepartmental major of political science–statistics is designed for students who desire an understanding of political science to pursue advanced study in this field and who also wish to have at their command a broad range of sophisticated statistical tools to analyze data related to social science and public policy research.

Students should be aware of the rules regarding the use of the Pass/D/Fail option. Courses in which a grade of D has been received do not count toward the major requirements.

Political science–statistics students are eligible for all prizes reserved for political science majors.

The political science–statistics major requires a minimum of 15 courses in political science, statistics, and mathematics, to be distributed as follows:

**Political Science**

Students must choose a primary subfield to study. Within the subfield, students must take a minimum of three courses, including the subfield's introductory course. The subfields and their corresponding introductory courses are as follows:

- **American Politics:**
  - POLS UN1201 INTRO TO AMERICAN POLITICS

- **Comparative Politics:**
  - POLS UN1501 INTRO TO COMPARATIVE POLITICS

- **International Relations:**
  - POLS UN1601 INTERNATIONAL POLITICS

- **Political Theory:**
  - POLS UN1101 POLITICAL THEORY I

Additionally, students must take a 4-point seminar in their primary subfield.

**Research Methods**
Students must take the following two research methods courses:

- **POLS GU4710** PRINC OF QUANT POL RESEARCH 1
- **POLS GU4712** PRINC OF QUANT POL RESEARCH 2

or **POLS UN3704** RESEARCH DESIGN: DATA ANALYSIS

### Statistics

Select one of the following two sequences.

**Sequence recommended for students preparing for graduate study in statistics.**

- **MATH UN1101** CALCULUS I
- **MATH UN1102** CALCULUS II
- **MATH UN2010** LINEAR ALGEBRA
- **STAT UN1201** CALC-BASED INTRO TO STATISTICS
- **STAT GU4203** PROBABILITY THEORY
- **STAT GU4204** STATISTICAL INference
- **STAT GU4205** LINEAR REGRESSION MODELS
- **STAT GU4206** STAT COMP # INTRO DATA SCIENCE

Students taking the first track may replace the Mathematics prerequisites with both of MATH UN1207 and MATH UN1208.

**Sequence recommend for students preparing to apply statistical methods in the social sciences.**

- **STAT UN1101** INTRODUCTION TO STATISTICS
- **STAT UN2102** Applied Statistical Computing
- **STAT UN2103** APPLIED LINEAR REG ANALYSIS
- **STAT UN2104** APPL CATEGORICAL DATA ANALYSIS
- **STAT UN3105** APPLIED STATISTICAL METHODS
- **STAT UN3106** APPLIED MACHINE LEARNING

### Introductory Courses

Students interested in statistical concepts, but who do not anticipate undertaking statistical analyses, should take **STAT UN1001** Introduction to Statistical Reasoning. Students seeking an introduction to applied statistics or preparing for the concentration should take **STAT UN1101** Introduction to Statistics (without calculus). Students seeking a foundation for further study of probability theory and statistical theory and methods should take **STAT UN1201** Calculus-based Introduction to Statistics. Students seeking a one-semester calculus-based survey should take **STAT GU4001** Introduction to Probability and Statistics. The undergraduate seminar **STAT UN1020** features faculty lectures prepared with undergraduates in mind; students may attend without registering.

**STAT UN1001 INTRO TO STATISTICAL REASONING. 3.00 points.**

A friendly introduction to statistical concepts and reasoning with emphasis on developing statistical intuition rather than on mathematical rigor. Topics include design of experiments, descriptive statistics, correlation and regression, probability, chance variability, sampling, chance models, and tests of significance.

**STAT UN1010 Statistical Thinking For Data Science. 4.00 points.**

CC/GS: Partial Fulfillment of Science Requirement

The advent of large scale data collection and the computer power to analyze the data has led to the emergence of a new discipline known as Data Science. Data Scientists in all sectors analyze data to derive business insights, find solutions to societal challenges, and predict outcomes with potentially high impact. The goal of this course is to provide the student with a rigorous understanding of the statistical thinking behind the fundamental techniques of statistical analysis used by data scientists. The student will learn how to apply these techniques to data, understand why they work and how to use the analysis results to make informed decisions. The student will gain this understanding in the classroom and through the analysis of real-world data in the lab using the programming language Python. The student will learn the fundamentals of Python and how to write and run code to apply the statistical concepts taught in the classroom.
### STAT UN1010 ECON W3412

Maximum likelihood estimation. Serves as the pre-requisite for efficiency, hypothesis testing, p-value, confidence intervals, limit theorem, parameter estimation, unbiasedness, consistency, chi-square, F and t distributions, law of large numbers, central variance, correlation, conditional distribution, conditional mean.

Random variables, probability distributions, pdf, cdf, mean, variance, correlation, conditional distribution, conditional mean and conditional variance, law of iterated expectations, normal, chi-square, F and t distributions, law of large numbers, central limit theorem, parameter estimation, unbiasedness, consistency, efficiency, hypothesis testing, p-value, confidence intervals, maximum likelihood estimation. Serves as the pre-requisite for ECON W3412.

#### Prerequisites

Intermediate high school algebra. Designed for students in fields that emphasize quantitative methods. Graphical and numerical summaries, probability, theory of sampling distributions, linear regression, analysis of variance, confidence intervals and hypothesis testing. Quantitative reasoning and data analysis. Practical experience with statistical software. Illustrations are taken from a variety of fields. Data-collection/analysis project with emphasis on study designs is part of the coursework requirement.

#### STAT UN1201 UNDERGRADUATE SEM/STATISTICS. 1.00 point.

Prerequisites: Previous or concurrent enrollment in a course in statistics would make the talks more accessible. Prepared with undergraduates majoring in quantitative disciplines in mind, the presentations in this colloquium focus on the interface between data analysis, computation, and theory in interdisciplinary research. Meetings are open to all undergraduates, whether registered or not. Presenters are drawn from the faculty of department in Arts and Sciences, Engineering, Public Health and Medicine.

#### STAT GU4001 INTRODUCTION TO PROBABILITY AND STATISTICS. 3.00 points.

Prerequisites: Calculus through multiple integration and infinite sums. A calculus-based tour of the fundamentals of probability theory and statistical inference. Probability models, random variables, useful distributions, conditioning, expectations, law of large numbers, central limit theorem, point and confidence interval estimation, hypothesis tests, linear regression. This course replaces SIEO 4150.

#### Spring 2023: STAT GU4001
APPLIED STATISTICS
CONCENTRATION COURSES

The applied statistics sequence, together with an introductory course, forms the concentration in applied statistics. STAT UN2102 Applied statistical computing may be used to satisfy the computing requirement for the major, and the other concentration courses may be used to satisfy the elective requirements for the major. (Students who sat STAT GU4205 Linear Regression for the major would find that they have covered essentially all of the material in STAT UN2103 Applied Linear Regression Analysis.

STAT UN2102 Applied Statistical Computing. 3.00 points.
Corequisites: An introductory course in statistic (STAT UN1101 is recommended).
Corequisites: An introductory course in statistic (STAT UN1101 is recommended). This course is an introduction to R programming. After learning basic programming component, such as defining variables and vectors, and learning different data structures in R, students will, via project-based assignments, study more advanced topics, such as conditionals, modular programming, and data visualization. Students will also learn the fundamental concepts in computational complexity, and will practice writing reports based on their data analyses

STAT UN2103 APPLIED LINEAR REG ANALYSIS. 3.00 points.
Prerequisites: An introductory course in statistics (STAT UN1101 is recommended). Students without programming experience in R might find STAT UN2102 very helpful. This course covers statistical models and methods for analyzing and drawing inferences for problems involving categorical data. The goals are familiarity and understanding of a substantial and integrated body of statistical methods that are used for such problems, experience in analyzing data using these methods, and proficiency in communicating the results of such methods, and the ability to critically evaluate the use of such methods. Topics include binomial proportions, two-way and three-way contingency tables, logistic regression, log-linear models for large multi-way tables, graphical methods. The statistical package R will be used

STAT UN2104 APPL CATEGORICAL DATA ANALYSIS. 3.00 points.
Prerequisites: STAT UN2103 is strongly recommended. Students without programming experience in R might find STAT UN2102 very helpful.

STAT UN3105 APPLIED STATISTICAL METHODS. 3.00 points.
Prerequisites: At least one, and preferably both, of STAT UN2103 and UN2104 are strongly recommended. Students without programming experience in R might find STAT UN2102 very helpful.
regression model. Power calculations and proposal and report writing will be discussed.

Fall 2022: STAT UN3105

</table>

STAT UN3106 APPLIED MACHINE LEARNING. 3.00 points.

Prerequisites: STAT UN2103. Students without programming experience in R might find STAT UN2102 very helpful.

This course is a machine learning class from an application perspective. We will cover topics including data-based prediction, classification, specific classification methods (such as logistic regression and random forests), and basics of neural networks. Programming in homeworks will require R.

FOUNDATION COURSES

The calculus-based foundation courses for the core of the statistics major. These courses are GU4203 Probability Theory, GU4204 Statistical Inference, GU4205 Linear Regression, GU4206 Statistical Computing and Introduction to Data Science, and GU4207 Elementary Stochastic Processes. Ideally, students would take Probability theory or the equivalent before taking either Statistical Inference or Elementary Stochastic Processes, and would have taken Statistical Inference before, or at least concurrently with taking Linear Regression Analysis, and would have taken Linear Regression analysis before, or at least concurrently, with taking the computing and data science course. A semester of calculus should be taken before Probability, additional semesters of calculus are recommended before Statistical Inference, and a course in linear algebra before Linear Regression is strongly recommended. For the more advanced electives in stochastic processes, Probability Theory is an essential prerequisite, and many students would benefit from taking Elementary Stochastic Processes, too. Linear Regression and the computing and data science course should be taken before the advanced electives in machine learning and data science. Linear Regression is a strongly recommended prerequisite, or at least co-requisite, for the remaining advanced statistical electives.

STAT GU4207 ELEMENTARY STOCHASTIC PROCESS

ADVANCED STATISTICS COURSES

Advanced statistics courses combine theory with methods and practical experience in data analysis. Undergraduates enrolling in advanced statistics courses would be well-advised to have completed STAT GU4203 (Probability Theory), GU4204 (Statistical Inference), and GU4205 (Linear Regression).

STAT GU4221 TIME SERIES ANALYSIS. 3.00 points.

Prerequisites: STAT GU4205 or the equivalent. Least squares smoothing and prediction, linear systems, Fourier analysis, and spectral estimation. Impulse response and transfer function. Fourier series, the fast Fourier transform, autocorrelation function, and spectral density. Univariate Box-Jenkins modeling and forecasting. Emphasis on applications. Examples from the physical sciences, social sciences, and business.

Spring 2023: STAT GU4221

STAT GU4223 MULTIVARIATE STAT INFERENCE. 3.00 points.

Prerequisites: STAT GU4205 or the equivalent. Multivariate normal distribution, multivariate regression and classification; canonical correlation; graphical models and Bayesian networks; principal components and other models for factor analysis; SVD; discriminant analysis; cluster analysis.
STAT GU4224 BAYESIAN STATISTICS. 3.00 points.
Prerequisites: STAT GU4204 or the equivalent.
This course introduces the Bayesian paradigm for statistical inference. Topics covered include prior and posterior distributions: conjugate priors, informative and non-informative priors; one- and two-sample problems; models for normal data, models for binary data, Bayesian linear models; Bayesian computation: MCMC algorithms, the Gibbs sampler; hierarchical models; hypothesis testing, Bayes factors, model selection; use of statistical software. Prerequisites: A course in the theory of statistical inference, such as STAT GU4204 a course in statistical modeling and data analysis, such as STAT GU4205

Fall 2023: STAT GU4224
Course Number | Section/Call Number | Times/Location | Instructor | Points | Enrollment

STAT GU4231 SURVIVAL ANALYSIS. 3.00 points.
Prerequisites: STAT GU4205 or the equivalent. Prerequisites: STAT GU4205 or the equivalent. Survival distributions, types of censored data, estimation for various survival models, nonparametric estimation of survival distributions, the proportional hazard and accelerated lifetime models for regression analysis with failure-time data. Extensive use of the computer

STAT GU4232 GENERALIZED LINEAR MODELS. 3.00 points.
CC/GS: Partial Fulfillment of Science Requirement
Prerequisites: STAT GU4205 or the equivalent. Prerequisites: STAT GU4205 or the equivalent. Statistical methods for rates and proportions, ordered and nominal categorical responses, contingency tables, odds-ratios, exact inference, logistic regression, Poisson regression, generalized linear models

Spring 2023: STAT GU4232
Course Number | Section/Call Number | Times/Location | Instructor | Points | Enrollment
--- | --- | --- | --- | --- | ---
STAT 4232 001/14257 | | T Th 2:40pm - 3:55pm | Neath Ronald | 3.00 | 1/25
| | 312 Mathematics Building | | | |

STAT GU4233 Multilevel Models. 3 points.
Prerequisites: STAT GU4205 or the equivalent. Theory and practice, including model-checking, for random and mixed-effects models (also called hierarchical, multi-level models). Extensive use of the computer to analyse data.

STAT GU4234 SAMPLE SURVEYS. 3.00 points.
Prerequisites: STAT GU4204 or the equivalent. Introductory course on the design and analysis of sample surveys. How sample surveys are conducted, why the designs are used, how to analyze survey results, and how to derive from first principles the standard results and their generalizations. Examples from public health, social work, opinion polling, and other topics of interest

Spring 2023: STAT GU4234
Course Number | Section/Call Number | Times/Location | Instructor | Points | Enrollment
--- | --- | --- | --- | --- | ---
STAT 4234 001/14258 | | M W 2:40pm - 3:55pm | Neath Ronald | 3.00 | 3/7
| | 142 Uris Hall | | | |

STAT GU4241 STATISTICAL MACHINE LEARNING. 3.00 points.
Prerequisites: STAT GU4206. Prerequisites: STAT GU4206. The course will provide an introduction to Machine Learning and its core models and algorithms. The aim of the course is to provide students of statistics with detailed knowledge of how Machine Learning methods work and how statistical models can be brought to bear in computer systems - not only to analyze large data sets, but to let computers perform tasks that traditional methods of computer science are unable to address. Examples range from speech recognition and text analysis through bioinformatics and medical diagnosis. This course provides a first introduction to the statistical methods and mathematical concepts which make such technologies possible

Spring 2023: STAT GU4241
Course Number | Section/Call Number | Times/Location | Instructor | Points | Enrollment
--- | --- | --- | --- | --- | ---
STAT 4241 001/14259 | | T Th 2:40pm - 3:55pm | Neath Ronald | 3.00 | 10/20
| | 903 School Of Social Work | | | |

STAT GU4261 STATISTICAL METHODS IN FINANCE. 3.00 points.
Prerequisites: STAT GU4205 or the equivalent. A fast-paced introduction to statistical methods used in quantitative finance. Financial applications and statistical methodologies are intertwined in all lectures. Topics include regression analysis and applications to the Capital Asset Pricing Model and multifactor pricing models, principal components and multivariate analysis, smoothing techniques and estimation of yield curves statistical methods for financial time series, value at risk, term structure models and fixed income research, and estimation and modeling of volatilities. Hands-on experience with financial data
### STAT GU4261 STAT INF/TIME-SERIES MODELLING.

3.00 points.

**Prerequisites:** STAT GU4204 or the equivalent. STAT GU4205 is recommended. Modeling and inference for random processes, from natural sciences to finance and economics. ARMA, ARCH, GARCH and nonlinear models, parameter estimation, prediction and filtering. This is a core course in the MS program in mathematical finance.

### STAT GU4291 ADVANCED DATA ANALYSIS. 3.00 points.

**Prerequisites:** STAT GU4205 and at least one statistics course numbered between GU4221 and GU4261. This is a course on getting the most out of data. The emphasis will be on hands-on experience, involving case studies with real data and using common statistical packages. The course covers, at a very high level, exploratory data analysis, model formulation, goodness of fit testing, and other standard and non-standard statistical procedures, including linear regression, analysis of variance, nonlinear regression, generalized linear models, survival analysis, time series analysis, and modern regression methods. Students will be expected to propose a data set of their choice for use as case study material.

### ACTUARIAL SCIENCES COURSES

Only students preparing for a career in actuarial sciences should consider the courses in this section. Such students may also be interested in courses offered through the School of Professional Studies M.S. Program in Actuarial Science, but must check with the academic advisors in their schools to know whether they are allowed to register for those courses. Students majoring in statistics and preparing for a career in actuarial science may take STAT GU4282 (Regression and Time Series Analysis) in place of the major requirement STAT GU4205 (Linear Regression Analysis).

### ADVANCED DATA SCIENCE COURSES

In response to the ever growing importance of “big data” in scientific and policy endeavors, the last few years have seen an explosive growth in theory, methods, and applications at the interface between computer science and statistics. The Department offers a sequence that begins with the core course STAT GU4206 (Statistical Computing and Introduction to Data Science) and continues with the advanced electives GU4241 (Statistical Machine Learning) and GU4242 (Advanced Machine Learning), and also the advanced elective STAT GU4243 (Applied Data Science). Undergraduate students without experience in programming would likely benefit from taking the statistical computing and data science course before attempting GU4241, GU4242, or GU4243.

SUSTAINABLE DEVELOPMENT

Departmental Office: The Earth Institute, Columbia Climate School, Hogan, B-Level; http://sdev.ei.columbia.edu

Co-Directors of Undergraduate Studies:
Ruth DeFries, 212-851-1647; rd2402@columbia.edu
Jason Smerdon, 845-365-8493; jsmerdon@ldeo.columbia.edu

Program Administrators:
Sylvia Montijo, sm4084@columbia.edu

Sustainable development is founded on the premise that human well-being should advance without irreparable harm to ecosystems and the vital services they provide, without depleting essential resources, and without posing risks to future generations. The term "sustainable" refers to managing the world's economy in a manner consistent with the continued healthy functioning of Earth's ecosystems, oceans, atmosphere and climate. In this context, "development" refers to continued social, political, and economic progress aimed at improving the well-being of the global community, especially for the poorest people.

ACADEMIC PROGRAMS

The Earth Institute—in collaboration with Columbia College, the School of General Studies, the School of International and Public Affairs, and the Departments of Earth and Environmental Science; Ecology, Evolution, and Environmental Biology; and Earth and Environmental Engineering—offers a major and a special concentration in sustainable development.

These programs are designed to: engage students in this emergent interdisciplinary discussion, provide knowledge of the theory and practice of sustainable development, stimulate a critical examination of historical and conceptual antecedents, provide experience in the complex challenges of sustainable development through direct engagement, and help them imagine alternative futures for our rapidly changing world. With help from the Earth Institute faculty, courses are specifically created to address the very real and complex issues of development as they relate to the interactions of the natural and social systems.

The major focuses heavily on the sciences and provides students with a working knowledge of issues on a range of interacting subject areas. After declaring the major, students are assigned an academic adviser from within the Earth Institute, who advises on class selection and career development. Students benefit from a support system of faculty, advisers, and program managers, and have access to the multitude of resources for internships, study abroad programs, and career development.

The special concentration is intentionally more flexible, but its structure allows students to benefit from the cross-disciplinary courses and to build the expertise to allow them to address the fundamental issue of how to move towards a trajectory of sustainability.

The sustainable development program is structured to ensure that students graduate with the skills and knowledge to enable them to advance professionally in the public, private, governmental, and nonprofit sectors, and to pursue advanced degrees. Those interested in sustainable development are encouraged to participate in lectures, conferences, and other programs sponsored by the Earth Institute.

GRADING

A letter grade of C- or better is needed in all program-related courses in order to satisfy the program requirements.

SUSTAINABLE DEVELOPMENT FACULTY

Susana Adamo (Center for International Earth Information Network)
Satyajit Bose (School of International and Public Affairs)
Steve Cohen (The Earth Institute; School of International and Public Affairs)
Lisa Dale (The Earth Institute; Ecology, Evolution, and Environmental Biology)
Ruth DeFries (Ecology, Evolution, and Environmental Biology) (Co-Director)
Paul Gallay (Ecology, Evolution and Environmental Biology)
Francesco Fiondella (International Research Institute for Climate and Society)
Michael Gerrard (Center for Climate Change Law and Columbia Law School)
Adela Gondek (Ecology, Evolution and Environmental Biology)
Radley Horton (Center for Climate Systems Research)
Joyce Klein-Rosenthal (The Earth Institute)
Jacqueline Klopp (The Earth Institute)
Upmanu Lall (Columbia Water Center; International Research Institute for Climate and Society)
Kytt McManus (Center for International Earth Science Information Network)
Rachel Moresky (Population and Family Health)
The sustainable development foundation courses should be taken first and students should then work with the program adviser on further course selection and sequencing.

The major in sustainable development requires a minimum of 15 courses and a practicum as follows:

SUMA PS4734 Earth Institute Practicum

Electives
Select two courses from the following areas. Courses can be combined across Areas 2-5 only. If you select Area 1, you must complete two thesis courses and these will fulfill the elective requirement:
Area 1: Senior Thesis Sequence (EESC BC3800/ EESC BC3801 and EESC UN3901) **
Area 2: Upper level courses from the approved electives list (see link in footnotes to access list) ***
Area 3: Additional courses listed under Analysis and Solutions to Complex Problem
Area 4: Additional courses listed under Skills/Actions
Area 5

Capstone Workshop
SDEV UN3280 WORKSHOP IN SUSTAINABLE DEVPT
SDEV UN3550 BANGLADESH:LIFE-TECT ACTV DELTA
The Summer Ecosystem Experiences for Undergraduates (SEE-U): Please note that students in the major or the special concentration who take SEE-U as a 6-point course can use 3 points towards the Complex Problems requirement and 3 points towards the Skills/Action requirement. If SEE-U is taken for 3 points, it can only count as one Complex Problems class.

If choosing the senior thesis option to fulfill the elective requirements, students must take both courses in the senior thesis sequence.

For a full list of previously approved electives, please visit the sustainable development program website: http://sdev.ei.columbia.edu/curriculum/major/.

Note:
Please visit the Sustainable Development website for requirements: Majors: http://sdev.ei.columbia.edu/curriculum/major/

---

**SPECIAL CONCENTRATION IN SUSTAINABLE DEVELOPMENT**

In addition to the requirements of the special concentration, students must complete a major or a full concentration.

The sustainable development foundation courses should be taken first and students should then work with the program advisor on further course selection and sequencing.

The special concentration in sustainable development requires a minimum of 9 courses and a practicum as follows:

**Sustainable Development Foundation**

SDEV UN1900 INTRO TO SUSTAINABLE DEVPT SEM. 1.00 Point.
The course is designed to be a free flowing discussion of the principals of sustainable development and the scope of this emerging discipline. This course will also serve to introduce the students to the requirements of the undergraduate program in sustainable development and the content of the required courses in both the special concentration and the major. The focus will be on the breadth of subject matter, the multidisciplinary nature of the scholarship and familiarity with the other key courses in the program. Offered in the Fall and Spring

SDEV UN2000 INTRO TO ENVIRONMENTAL LAW. 3.00 Points.
The course provides an overview of environmental law for students without a legal background. It examines U.S. statutes and regulations regarding air, water, hazardous and toxic materials, land use, climate change, endangered species, and the like, as well as international environmental issues. After completing the course students should be equipped to understand how the environmental laws operate, the role of the courts, international treaties and government agencies in implementing environmental protection, and techniques used in addressing these issues

SDEV UN2050 ENVIRONMENTAL POLICY AND GOVERNANCE. 3.00 Points.
Sustainability is a powerful framework for thinking about business, economics, politics and environmental impacts. An overview course, Environmental Policy # Governance will focus specifically on the policy elements of sustainability. With an emphasis on the American political system, the course will begin by exploring the way the American bureaucracy addresses environmental challenges. We will then use the foundations established through our understanding of the US system to study sustainable governance at the international level. With both US and international perspectives in place,
we will then address a range of specific sustainability issues including land use, climate change, food and agriculture, air quality, water quality, and energy. Over the course of the semester, we will study current events through the lens of sustainability policy to help illustrate course concepts and theories.

**SDEV UN2300 CHALLENGES OF SUSTAINABLE DEV. 3.00 Points.**

This course provides an introduction to the field of sustainable development, drawing primarily from social science and policy studies. It offers a critical examination of the concept of sustainable development, showing how factors like economics, population, culture, politics and inequality complicate its goals. Students will learn how different social science disciplines (political science, demography, economics, geography, history, law, and sociology) approach challenges of sustainable development across a variety of topics (fisheries, climate change, air pollution, consumption, energy, conservation, and water management). The course provides students with some of the fundamental concepts, vocabulary, and analytical tools to pursue and think critically about sustainable development. Offered in the Spring.

Spring 2023 001 13753 Lisa Dale T Th 10:10am - 11:25am 142 Uris Hall

**SDEV UN2320 ECON # FIN MTHDS FOR SDEV. 3.00 Points.**

Prerequisites: Principles of Economics and one semester of calculus. The objective of this course is to introduce students to the skills and methods necessary to understand and evaluate the economic and financial aspects of sustainable development. Throughout the course, students will compare competing objectives and policies through the prism of economic # financial reasoning. Environmental economics and finance are broad areas covering all the multi-faceted and complex interactions between the economic system and the natural environment. Financial markets are the primary source of signals used to direct economic activity in a capitalist global economy. Economic activity is the primary determinant of the quality and sustainability of the natural environment. Students interested in sustainable development who are unfamiliar with economics and who do not develop a facility with economic and financial concepts are severely handicapped in their efforts to increase the level of environmental responsibility embedded in economic activity. This course is intended to provide students with a flying introduction to key analytical concepts required to understand topics in environmental economics and finance and to introduce them to selected topics within the field. The first part of the course (the Analytical Toolbox) is designed to provide a set of portable skills for two sets of students: a) those who will work in fields specifically devoted to sustainable development who, as part of their work, will need to engage with sources of economic # financial information and with discourses where sustainable development is not a focus; and b) students who may end up following careers in organizations where sustainability is not the primary objective. The topics and readings in the second part of the course were chosen to facilitate a critical engagement with the broad intellectual framework underlying sustainable development from the perspective of economics and finance. The topics are intended to create a community of intellectual discourse on sustainable development that will spill over beyond the classroom to the conversations of students and alumni that will far outlive graduation. Offered in the Fall.

**SDEV UN3280 WORKSHOP IN SUSTAINABLE DEVPT. 4.00 Points.**

Open to sustainable development seniors only.

The upper level undergraduate Sustainable Development Workshop will be modeled on client based graduate-level workshops, but with more time devoted to methods of applied policy analysis and issues in Sustainable Development. The heart of the course is the group project on an issue of sustainable development with a faculty advisor providing guidance and ultimately grading student performance. Students would receive instruction on methodology, group work, communication and the context of policy analysis. Much of the reading in the course would be project-specific and identified by the student research teams. Offered in Fall and Spring. For registration issues contact Cari Shimkus (cshimkus@ei.columbia.edu)

**SDEV UN3310 ETHICS OF SUSTAINABLE DEVPT. 3.00 Points.**

Aiming to improve human conditions within many diverse environments, sustainable development seeks to create, increase and perpetuate benefit and to cease, rectify and reverse harm.
Sustainable development is consequently inextricable from the fabric of ethics, woven with determinations of benefit and harm to the existence and well-being of both humans and nonhumans. Underlying such determinations are those of self-and other-regarding motivation and behavior; and underlying these are still others, of sensitivity and rationality in decision-making, whether individual, social or public. Sustainable development is interlaced with and contingent upon all these determinations, at once prescriptive and judgmental, which can be called the ethics of sustainable development. This course is divided into four main sections, of which two are intended to show the ethical fallacies of unsustainable development, and two, the ethical pathways of sustainable development. The first section focuses upon ethically problematic basic assumptions, including human (species) hegemony, happy (hedonic) materialism, and selective (data) denial. The second focuses upon ethically problematic ensuing rationalizations, including those pertaining to damages, victims, consequences and situations of climatic, chemical, biological and ecological harm. The third section responds to these rationalizations with ethically vital considerations of earth justice, environmental justice, culturally-based ethics, and sector-based ethics (water, food, place and climate ethics). Finally, the fourth section responds to the initial, longstanding problematic assumptions with a newly emergent ethical paradigm, comprising biotic wholeness, environmental integrity and the deliberative zero-goal. Tying all sections together is the central theme: to be sustainable, development must be ethical. Reflecting the collaborative quality of the field of sustainable development, the course extends to readings whose authors have all pursued their work at intersections of science and ethics, environment and ethics, policy and ethics, business and ethics, and sustainable development and ethics.

### SDEV UN3330 Ecological and Social Systems for Sustainable Development. 3 Points.
Prerequisites: SDEV UN2300 Challenges of Sustainable Development and EESC UN2330 Science for Sustainable Development.

The course focuses on basic principles in understanding ecological and social relationships and then focuses on three current topics central to Sustainable Development for in-depth study. Examples of topics to be covered are: conservation of biodiversity, payments for ecosystem services, and the ecology of food production. The emphasis will be on the multiple perspectives—environmental, social and economic—required to understand and develop solutions to problems in sustainable development. These topics will undoubtedly vary from year to year, as the course keeps pace with current topics.

### SDEV UN3355 CLIMATE CHANGE AND LAW. 3.00 Points.
Enrollment limited to 15.

The purpose of this course is to provide students with a broad introduction to the field of climate law in the United States and at the international level. The course begins with an overview of the causes and effects of global climate change and the methods available to control and adapt to it. We then examine the negotiation, implementation and current status of the United Nations Framework Convention on Climate Change, the Kyoto Protocol, and the Copenhagen Accord. The focus then turns to the past and proposed actions of the U.S. Congress, the executive branch and the courts, as well as regional, state and municipal efforts. The Clean Air Act, the National Environmental Policy Act and the Endangered Species Act will receive special attention. We evaluate the various legal tools that are available to address climate change, including cap-and-trade schemes; carbon taxation; command-and-control regulation; litigation; securities disclosures; and voluntary action. The roles of energy efficiency, renewable energy sources, carbon capture and sequestration, and forestry and agriculture each receive close attention. Implications for international human rights, international trade, environmental justice, and international and intergenerational equity are discussed. The course concludes with examination of the special challenges posed by China; proposals for adaptation and geoengineering; and business opportunities and the role of lawyers. Offered in the Spring.

### SDEV UN3360 DISASTERS AND DEVELOPMENT. 3.00 Points.
Prerequisites: EESC 2330; SDEV W2300.

Prerequisites: EESC 2330; SDEV W2300. Human welfare status is very unevenly distributed throughout the globe - some of us live very comfortable lives, others remain in desperate poverty showing little progress away from their condition. Between are countries that are rapidly developing and converging toward the welfare of the richest. At all levels of economic development human activities place significant pressure on the environment and threatens all of Earth’s vital functions and support systems for human life. This challenge requires timely responses based on solid understanding of the human/environment interface, technological and economic approaches to mitigate adverse effects on the environment, and routes to understanding the complex dynamics of the coupled human/natural systems that can chart a pathway to improvement in the lives of the poorest and continued well-being for those who have achieved prosperity without forcing natural systems into decline or massive fluctuation.

This course offers undergraduate students, for the first time, a comprehensive course on the link between natural disaster
events and human development at all levels of welfare. It explores the role that natural disasters might have and have had in modulating development prospects. Any student seriously interested in sustainable development, especially in light of climate change, must study the nature of extreme events - their causes, global distribution and likelihood of future change. This course will cover not only the nature of extreme events, including earthquakes, hurricanes, floods and droughts but also their transformation into disaster through social processes. It will ultimately help students to understand the link between such extreme events, the economic/social shock they represent and development outcomes. The course will combine careful analysis of the natural and social systems dynamics that give rise to disasters and examine through group learning case studies from the many disasters that have occurred in the first decade of the 21st century. Offered in the Spring (odd years only)

SDEV UN3366 ENERGY LAW. 3.00 Points.
This course concerns the regulation of energy, energy resources, and energy facilities. Among the topics will be the regulation of rates and services; the roles of the Federal Energy Regulatory Commission and the state public utility commissions; and the interaction with environmental law. Attention will be devoted to energy resources (such as oil, natural gas and coal) and to generating, transmission and distribution facilities. The current and future roles of renewable energy, energy efficiency, and nuclear energy will receive special attention, as will the regulation and deregulation of electricity

SDEV UN3390 GIS FOR SUSTAINABLE DEVELOPMENT. 3.00 Points.

This course is designed to provide students with a comprehensive overview of theoretical concepts underlying GIS systems and to give students a strong set of practical skills to use GIS for sustainable development research. Geographic Information Systems (GIS) are a system of computer software, data and analysis methods used to create, store, manage, digital information that allow us to create maps and dynamic models to analyze the physical and social processes of the world. Through a mixture of lectures, readings, focused discussions, and hands-on exercises, students will acquire an understanding of the variety and structure of spatial data and databases, gain knowledge of the principles behind raster and vector based spatial analysis, and learn basic cartographic

principles for producing maps that effectively communicate a message. Student will also learn to use newly emerging web based mapping tools such as Google Earth, Google Maps and similar tools to develop on-line interactive maps and graphics. The use of other geospatial technologies such as the Global Positioning System will also be explored in this class. Case studies examined in class will draw examples from a wide ranges of GIS applications developed to assist in the development, implementation and evaluation of sustainable development projects and programs. On completion of the course, students will: 1. use a variety of GIS software programs to create maps and reports; 2. develop a sound knowledge of methods to search, obtain, and evaluate a wide variety of spatial data resources; 3. develop skills needed to determine best practices for managing spatial data resources; 4. use GIS to analyze the economic, social and environmental processes underlying the concept of building a sustainable world; 5. Gain an understanding of the limits of these technologies and make assessments of uncertainty associated with spatial data and spatial analysis models. Offered in the fall and spring

SDEV UN3400 HUMAN POPULATIONS # SDEV. 3.00 Points.

Population processes and their outcomes in terms of population size and distribution have a fundamental role in sustainable development and also broad policy implications. This course will introduce students to the scientific study of human populations as a contribution toward understanding social structure, relations, and dynamics, as well as society-nature interactions. The aim is to offer a basic introduction to the main theories, concepts, measures, and uses of demography. The course will cover the issues of population size, distribution and composition, and consumption, at different scales from global to regional to local, as well as the implications for population-environment relationships. It will also address the fundamental demographic processes of mortality, fertility and migration, including their trends and transitions, We will consider these topics in the context of economic development, sustainability and cultural change. The course will also include an overview
of basic demographic techniques and tools used for identifying, managing, analyzing and interpreting population data, and an introduction to population projections. Lab sessions will supplement readings and lectures by enabling students to explore data sources, calculate rates, and graphically represent demographic data. Offered in the Fall (even years).

**SDEV UN3410 Cities # Sustainability. 3.00 Points.**

In an increasingly urban world, sustainable development is not possible without achieving sustainability in cities. This course explores the challenges and opportunities of sustainable development policy-making at the urban level through the study of local efforts to address climate change, provide access to clean water, and develop renewable energy resources, among other topics. Students will gain a more detailed understanding of how cities’ histories, land use patterns, and economies influence urban resource use, and how cities have attempted to change those impacts. Using case studies of local sustainability initiatives, students examine how a city’s governance structure, political dynamics, and administrative capacity affect policy outcomes. Consideration of the equity implications of urban sustainability efforts is integral to the course.

**SDEV UN3450 SPATIAL ANALYSIS FOR SDEV. 3.00 Points.**

Priority given to sustainable development senior and juniors.

This is an intermediate course in spatial modeling developed specifically for students in the Undergraduate Sustainable Development program. This course will provide a foundation for understanding a variety of issues related to spatial analysis and modeling. Students will explore the concepts, tools, and techniques of GIS modeling and review and critique modeling applications used for environmental planning and policy development. The course will also offer students the opportunity to design, build and evaluate their own spatial analysis models. The course will cover both vector and raster based methods of analysis with a strong focus on raster-based modeling. We will draw examples from a wide range of applications in such areas as modeling Land Use and Land Cover for biodiversity and conservation, hydrological modeling, and site suitability modeling. The course will consist of lectures, reading assignments, lab assignments, and a final project.

**SDEV GU4015 Complexity Science. 3 Points.**

The Complexity Course is a survey of techniques, applications, and implications of complexity science and complex systems. This course aims to be both an introduction for students from other fields, and a forum for continued discussion within the complexity community. Topics include systems dynamics,
allow for the integration of quantitative tools in the social sciences. Throughout, students will both study and practice these research methods, experimenting to better understand the strengths and challenges associated with each approach. The course will end with poster presentations in which students share their own research and justify the methods they have employed.

**SDEV GU4050 US WATER # ENERGY POLICY. 3.00 Points.**

Course Summary: Water, one of humankind’s first power sources, remains critically important to the task of maintaining a sustainable energy supply, in the United States and elsewhere. Conversely, the need to provide safe drinking water and keep America’s rivers clean cannot be met without access to reliable energy supplies. As the impact of climate disruption and other resource constraints begins to mount, the water/energy nexus is growing increasingly complex and conflict-prone. Essential Connections begins by examining the development of America’s water and energy policies over the past century and how such policies helped to shape present-day environmental law and regulation. Our focus then turns to the current state of US water and energy resources and policy, covering issues such as oil and gas exploration, nuclear energy, hydroelectric power and renewables. We also examine questions of inclusion and equity in connection with the ways in which communities allocate their water and energy resources and burdens along racial, ethnic and socioeconomic lines. The third and final section of the course addresses the prospects for establishing water and energy policies that can withstand climate disruption, scarcity and, perhaps most importantly, America's seemingly endless appetite for political dysfunction. By semester’s end, students will better understand the state of America’s energy and water supply systems and current efforts to cope with depletion, climate change and related threats affecting these critical, highly-interdependent systems. As a final project, students will utilize the knowledge gained during the semester to create specific proposals for preserving and enhancing the sustainability of US water and energy resources.

**SDEV GU4250 CLIMATE CHANGE: RESILIENCE # ADAPTATION. 3.00 Points.**

This course will offer a focused study of climate change adaptation policy, exploring dimensions of adaptation across sectors and scales. With a thematic focus on pervasive global inequities, students will also consider challenges associated with international development and disaster risk management. An inter-disciplinary framework will enrich the course, and students will learn about perspectives from the natural sciences, law, architecture, anthropology, humanitarian aid, and public policy. The online intensive version of this course will combine synchronous and asynchronous learning: twice weekly live discussion sessions will be matched with assigned readings, recorded lectures and videos.

**SDEV GU4350 PUBLIC LANDS IN THE AMERICAN WEST. 3.00 Points.**

The course fulfills the “complex problems” major requirement for the Undergraduate Program in Sustainable Development (UPSD). The American West is perhaps best known for the dramatic landscapes managed through a web of federal land management agencies. Indeed, western states have a land base that is at least 35% public, and competing interests vie for limited resources and navigate a complex bureaucracy. Less well understood are the dynamics that arise from the interactions among different land ownership categories: federal, state, and private. Working landscapes are essential pieces of the cultural heartbeat of the region. This course will focus on: 1) the history of western settlement, highlighting the ways in which early Westerners divided up the land base and allocated resources; 2) the agencies in charge of managing federal public land including the U.S. Forest Service, U.S. Bureau of Land Management, and U.S. Park Service; and 3) state and private land, with a particular interest in the State Land Board. We will explore the legal and regulatory framework that guides land-use decisions, and study enduring resource access conflicts. Pulling from both academic scholarship and the gray literature in political science, environmental sciences, law, and organizational behavior, this course provides an interdisciplinary overview of governance challenges in the American West.

Sustainable Development
on Tuesday, May 31st and meet on Tuesdays/Wednesdays/Thursdays on Zoom (likely from 2-5 pm EST each day). The week of June 12th-19th the course will take place in the field in Colorado. The final week will be on Zoom on Tuesday, Wednesday Thursday, again likely from 2-5 pm EST each day. The course ends on Thursday, June 23rd. Modality The course will be offered in a hybrid format. The first two weeks and final (fourth) week of the class will be held entirely on Zoom. We will meet three times per week (Tues/Wed/Thurs) for three hours each session. Week three of the course (June 12-19) will be held in person in Colorado. There, we have the opportunity to visit a broad spectrum of land use types including federally managed forest and grasslands, protected parks, state land board parcels, and private ranches. Student will have some access to local leaders who will accompany us on various field trips to offer their perspectives. The class will participate in many kinds of field activities including hiking in federally designated Wilderness areas, visiting an oil and gas well on public lands, exploring an area recently burned by wildfire, and meeting with rural ranchers. To enroll in this course, you must apply to the Columbia Summer Field Course: Public Lands in the American West through the Center for Undergraduate Global Engagement (UGE).

**SDEV GU4400 Sustainable Development in Sub-Saharan Africa: Exploring Rwanda. 4.00 Points.**

This travel course will give students the opportunity to explore what sustainable development means in the context of Sub-Saharan Africa. Satisfying the workshop requirement for SDEV majors, the course is organized around two projects that students will tackle in teams. Ahead of traveling to Rwanda, three main activities will structure the course. First, students will learn about colonial history and current sustainable development efforts in Sub-Saharan Africa. Second, they will be organized into teams to pursue preliminary research on one of two projects. Third, they will be paired with an undergraduate student at the University of Rwanda and begin regular correspondence using WhatsApp. The travel week will be held over spring break. We will be based in the capital city Kigali, with some in-country travel to explore beyond the urban core. Students will work in teams alongside their University of Rwanda peers to advance the goals of their project. When we return to the U.S., the final weeks of the class will be devoted to focused team work, as students complete their projects.

**SDEV GU4420 Oil, Rights # Development. 1.00 Point.**

The Simulation class has as its purpose to familiarize and inform the student participants with the real-life interests, objectives, constraints, working and strategies of the range of stakeholders concerned or engaged with a large natural resource development project (oil) in a developing and civil war torn country. It challenges the students, as members of pre-assigned teams with different goals and objectives, as well as values, to seek ways to reconcile, to the extent possible, through discussion and negotiation the different and even conflicting interests, goals and strategies of the multiple stakeholders. These stakeholders include the governing parties, opposition parties, local and international NGOs, local and international media and think tanks, as well as two oil companies, including one from an authoritarian country, competing for the oil development contract.

**SDEV GU4550 The New York City Watershed: From Community Displacement to Collaboration and Climate Adaptation. 1.00 Point.**

The New York City Watershed: From Community Displacement to Collaboration and Climate Adaptation brings students to the Catskill Mountains in upstate New York to learn first hand from researchers and practitioners who help supply over ten million New Yorkers with safe and abundant drinking water while also working to build social, economic and environmental capital in the towns and villages located in the watershed surrounding the city’s reservoirs – all against a backdrop of increasing climate-related disruption. The class will learn how New York City and a coalition of upstate watershed communities worked to end nearly a century of mutual resentment, displacement and extraction by entering into the Watershed Agreement of 1997, which has become a widely renowned model for collaborative and equitable water resources management planning in the twenty-five years since its completion. Students will engage with several of the Watershed Agreement’s original negotiators and with the local elected officials, agency staff and non-profit leaders who implement its signature “multi-barrier” strategy for drinking water protection through open space preservation, support for sustainable farming practices and investments in clean water infrastructure and sustainable economic growth in watershed communities. They will also learn how increases in storm intensity and warming driven by climate change threaten to upset the delicate balance between New York City’s need for safe drinking water and the socio-economic interests of upstate watershed communities. Upon completion of the course, students will better understand the challenges involved in creating and implementing collaborative, multi-stakeholder plans for water resource management and host community benefits in today’s increasingly climate-disrupted world.

**SDEV GU4600 SPECIAL TOPICS IN SDEV # CLIMATE. 3.00 Points.**

A novel course on History of Soviet Climate Science aims to demonstrate the trajectory of development of this science in the context of cognitive and social history of Soviet science, its institutional landscape and impacts of individual scientists. Soviet climate science is considered as a part of global science with a significant knowledge circulations and participation in international organizations. The course embraces larger chronology that the Soviet period per se, it begins with the overview of geographic and environmental sciences in the
Russian Empire and ends with the discussion of climate policy and climate denialism in the 21st century Russia.

Urban Studies

Urban Studies at Columbia

Columbia Adviser: Prof. Amy Chazkel; ac2227@columbia.edu
713 Milstein Learning Center
212-854-4073
Department Assistant: Valerie Coates

Mission

The Barnard–Columbia Urban Studies program enables students to explore and understand the urban experience in all of its richness and complexity. It recognizes the city as an amalgam of diverse peoples and their social, political, economic, and cultural interactions within a distinctive built environment. Students study the evolution and variety of urban forms and governance structures, which create opportunities for, as well as constrain, the exercise of human agency, individual and collective. They explore the place of the city in different historical and comparative contexts, as well as in the human imagination.

Majors build an intellectual foundation that combines interdisciplinary coursework and a concentration of study within a single field. Through the two-semester junior colloquium, students study urban history and contemporary issues, and at the same time hone their interdisciplinary, analytical and research skills. This shared experience prepares them for their independent research project in their senior year. We encourage our majors to use New York City as a laboratory, and many courses draw on the vast resources of the city and include an off-campus experience.

Student Learning Outcomes

Having successfully completed the major in Urban Studies, the student will be able to:

- Apply concepts or methods from more than one social science or adjacent discipline to analyze an urban issue or problem.
- Describe the distinctive social, cultural, and spatial features of cities and illustrate their impacts on the urban experience.
- Apply basic skills of empirical reasoning to an urban problem.
- Explain how the idea of the city varies in different historical and comparative contexts.
- Demonstrate familiarity with a particular disciplinary approach to the city as an object of study.
- Demonstrate understanding of the history and variety of urban forms and governance structures.
- Articulate a well-defined research question, conduct independent research using primary sources and a variety of theoretical and methodological approaches, and write a substantive research paper.
- Communicate ideas effectively in written or oral form.
- Organize and present group research projects.

Associate Director: Aaron Passell (Urban Studies)

Columbia College Advisor: Amy Chazkel, Bernard Hirschhorn Associate Professor of Urban Studies

General Studies Advisor: Aaron Passell, Associate Director (Urban Studies)

Urban Studies Faculty

Assistant Professors: Gergely Baics (History and Urban Studies), Deborah Becher (Sociology), Angela Simms (Sociology and Urban Studies), Nick R. Smith (Architecture and Urban Studies)

Associate Professors: Mary Rocco (Term, Urban Studies), Christian Siener (Term, Urban Studies), Chandler Miranda (Term, Urban Studies)

The Urban Studies Advisory Committee consults on matters of curriculum and program direction. For more information,
please consult the Advisory Committee web page on the program website

Major in Urban Studies
A minimum of 42 credits is required to complete the Urban Studies major. The major in Urban Studies is comprised of seven curricular requirements:

Requirement U: Introduction to Urban Studies (1 course)
URBS UN1515 INTRODUCTION TO URBAN STUDIES

Requirement A: Urban-Related Social Sciences (3 courses)
One course dealing primarily with urban subject matter from each of three of the following disciplines: Anthropology, Economics, History, Political Science, Sociology. For students declaring a major in Urban Studies after Spring 2018, one of the three courses must be History.

Each course should be chosen from the following disciplines: Anthropology, Economics, History, Political Science, Public Health, Sociology, or Urban Studies and be focused on urban issues. The three courses must be selected from three separate disciplines and they must appear on the Urban Studies approved list to fulfill the 'A' requirement for the major (if a course does not appear on the list that you believe should, please contact the Associate Director). Each course should also be taken with a different professor (i.e. you may not use two courses with the same professor to fulfill two of your A requirements). We recommend that you complete at least two of your three ‘A’ courses before taking the Junior Seminar, but this is not a hard requirement.

Requirement B: Urban-Related Non-Social Science (1 course)
One course dealing primarily with urban subject matter from a discipline not listed above (such as Architecture, Art History, English, Environmental Science, etc.)

Requirement C: Methods of Analysis (1 course)
One course in methods of analysis, such as URBS UN2200 INTRODUCTION TO GIS METHODS. Methods courses in related disciplines will also be considered for the requirement. Please consult the program website or the Associate Director

Requirement D: Specialization (5 courses)
Five or more courses in a specialization from one of the participating departments. Barnard College students can double-count one A, B, or C course toward this requirement (only one of five), with the approval of the Director; Columbia College and General Studies students cannot double-count courses. Barnard majors also have specific requirements for each specialization, which are outlined in detail on the program website, urban.barnard.edu.

Requirement E: Junior Seminar (1 course)
We recommend that you complete at least two of your three ‘A’ courses before taking the Junior Seminar, but this is not a hard requirement.
URBS UN3545 JUNIOR SEMINAR IN URBAN STUDIES
Multiple sections of this course are taught each semester by various faculty on different topics. For more information, please consult the program website or the Associate Director.

Requirement F: Senior Seminar (2 courses)
An original senior thesis written in conjunction with a two-semester research seminar on a topic of your choice. Please consult with your Urban Studies advisor and choose from among:

URBS UN3992 SENIOR SEM IN URBAN STUDIES URBS UN3993 SR SEM: BUILT ENVIRONMENT
URBS UN3994 SR SEM: NEW YORK FIELD RSRC URBS UN3995 Senior Seminar: New York Field Research
URBS UN3996 Senior Seminar: International Topics in Urban StudiesURBS UN3997 Senior Seminar: International Topics in Urban Studies

Students who, for some reason, will not be able to complete the Fall-Spring Senior Seminar sequence should consult with the Associate Director about alternatives.

A complete list and courses that fulfill requirements A–E can be found on the program's website, urban.barnard.edu.

Appropriate substitutions may be made for courses listed above with the approval of the Associate Director.

There is no minor in Urban Studies.

There is no concentration in Urban Studies.

URBS UN2200 INTRODUCTION TO GIS METHODS. 3.00 points.
Prerequisites: Must attend first class for instructor permission. Prerequisites: Must attend first class for instructor permission. Students create maps using ArcGIS software, analyze the physical and social processes presented in the digital model, and use the data to solve specific spatial analysis problems. Note: this course fulfills the C requirement in Urban Studies

Spring 2023: URBS UN2200
shifting cities but will be focused primarily on exploring the dynamics of shrinkage in US cities. To that end, following a wide-reaching examination of nation-wide phenomena, we will study in-depth a sample of cities to understand local and regional variations and responses. How do we treat cities that do not grow? Given the constrained or complete lack of resources in these places, to what extent should some cities be allowed to “die”? What is the impact on the residents that remain in these places?

URBS UN3480 From Homelessness to Foreclosure: NYC Geographies of Shelter and Home. 4.00 points.

This course will examine the social, political, and economic elements that have aligned in New York City to produce the most expansive infrastructure of homeless shelters in the United States, as well as ongoing changes in the city’s homeless policy since the housing foreclosure crisis. While we will focus primarily on the past 30 to 40 years in New York City, we will consider the history of homelessness and housing in the United States since the Great Depression. Major themes will include criminalization, origin myths, and representations of people who are experiencing homelessness. Key questions will include: In what ways is the current geography of homelessness the result of historical patterns of racism and discrimination? How does studying homelessness provide insight into the ways urban spaces are made? Why have shelters become the primary public response to homelessness in New York? How are race and gender central to the project of building a shelter infrastructure in New York? How are shelters experienced by those living in them? What are some of the ways people living

URBS UN1515 INTRODUCTION TO URBAN STUDIES. 3.00 points.

This course is intended to be both an interdisciplinary introduction to the city and to the field of Urban Studies. As an introduction to the city, the course will address a variety of questions: What is a city? How did cities develop? How do cities function socially, politically, and economically? Why do people live in cities? What are some of the major issues facing cities in the early twenty-first century, and how can cities address these issues? As an introduction to the interdisciplinary field of Urban Studies, the course will present models of how scholars approach cities from a variety of disciplinary viewpoints, including architecture, planning, law, sociology, history, archaeology, anthropology, political science, public policy, and geography. Students will learn some of the major concepts in the field of Urban Studies, and will study the works of leading scholars in the field. Students in the course will approach cities from a number of disciplines, not only through the reading, but also through assignments that take place in different locations throughout New York City

URBS UN3440 SHRINKING CITIES. 3.00 points.

While some cities thrive and struggle to house the global majority, others struggle with the effects of urban shrinkage—population loss, disinvestment and abandonment. The path to urban decline is paved by social, economic and spatial forces that result in shrinking cities. This class explores how to understand and engage with urban decline. It includes a consideration of sundry efforts to reverse, live with, and rethink urban decline in a variety of locales. The hope is that this exercise will shed light not only on iconic declining places like Detroit, but also on the nature of uneven development and how it is the rule rather than the anomalous exception within capitalist urbanization. Course materials draw on disciplines such as planning, economics, architecture, history and sociology to help understand urban decline and its outcomes from a variety of perspectives. Over the course of the semester, we will investigate larger processes—globalization, deindustrialization and socioeconomic change—to understand how cities and communities responded to the consequences of these forces. We will engage with the global literature on
in shelters organize to advocate for their rights and to resist mainstream representations?

URBS UN3992 SENIOR SEM IN URBAN STUDIES. 4.00 points.
(year-long course, 4 points per term)

Prerequisites: Senior standing. Year-long course; participation is for two consecutive terms. No new students admitted for spring.

Prerequisites: Senior standing. Year-long course; participation is for two consecutive terms. No new students admitted for spring. Emphasizes the study of the built environment of cities and suburbs, and the related debates. Readings, class presentations, and written work culminate in major individual projects, under the supervision of faculty trained in architecture, urban design, or urban planning.

URBS UN3994 SR SEM: NEW YORK FIELD RSRCH. 4.00 points.
(year-long course, 4 points per term)

Prerequisites: Senior standing. Year-long course; participation is for two consecutive terms. No new students admitted for spring.

Prerequisites: Senior standing. Year-long course; participation is for two consecutive terms. No new students admitted for spring. Using New York City as a research laboratory, under the guidance of the faculty coordinator, students clarify basic theoretical issues related to their chosen research problem; find ways of making a series of empirical questions operational; collect evidence to test hypotheses; analyze the data using a variety of social science techniques; and produce reports of basic findings.

URBS UN3315 METROPOLITICS OF RACE # PLACE. 3.00 points.

Prerequisites: Students must attend first class.

This class explores how racism and racialized capitalism and politics shape the distribution of material resources among cities and suburbs in metropolitan areas and the racial and ethnic groups residing in them. Readings and discussion focus on the history of metropolitan area expansion and economic development, as well as contemporary social processes shaping racial and ethnic groups’ access to high-quality public goods and private amenities. We address racial and ethnic groups’ evolving political agendas in today’s increasingly market-driven socio-political context, noting the roles of residents; federal, state, and local governments; market institutions and actors; urban planners, activist organizations, foundations, and social scientists, among others. Here is a sample of specific topics: race/ethnicity and who “belongs” in what “place”; inequitable government and market investment across racial and ethnic communities over time and “sedimentation effects” (for example, the “redlining” of Black communities leading to their inability to access loan and credit markets and the resulting wealth gap between Blacks and Whites); gentrification processes; creating sufficient, sustainable tax bases; and suburban sprawl. Assignments will include two short response papers, mid-term and final exams, and another project to be determined.

URBS UN3420 INTRODUCTION URBAN SOCIOLOGY. 3.00 points.

Prerequisites: Students must attend first class.

This course explores how racism and racialized capitalism and politics shape the distribution of material resources among cities and suburbs in metropolitan areas and the racial and ethnic groups residing in them. Readings and discussion focus on the history of metropolitan area expansion and economic development, as well as contemporary social processes shaping racial and ethnic groups’ access to high-quality public goods and private amenities. We address racial and ethnic groups’ evolving political agendas in today’s increasingly market-driven socio-political context, noting the roles of residents; federal, state, and local governments; market institutions and actors; urban planners, activist organizations, foundations, and social scientists, among others. Assignments will include two short response papers, mid-term and final exams, and another project to be determined.

URBS UN3351 URBAN ELSEWHERE: EXPLORING A WORLD OF CITIES. 4.00 points.

We live in an increasingly urbanized world. But what does it mean to be “urban”? As urbanization reaches more corners of the globe, its forms and processes become increasingly diverse. Urban Elsewhere is dedicated to investigating this diversity and to exploring the implications that unfamiliar urban phenomena might have for how we understand urbanization—both elsewhere in the world and in our own backyards. Through a comparative engagement with case studies drawn from around the world, this course will challenge some of our most deeply held, common sense assumptions about urbanization. Students will be asked to stretch the conceptual limits of urbanization and explore the social and political possibilities of an expanded urbanism. In doing so, the course will engage with the many of the most heated theoretical debates about urbanization, equipping students with a set of comparative analytical tools with which to explore the wider field of urban studies.

URBS UN3308 INTRO TO URBAN ETHNOGRAPHIES. 3.00 points.

Prerequisites: Students must attend first class.
What is ethnography and what makes ethnography “urban”? This course explores how social scientists use ethnography to analyze questions and dilemmas often associated with urban settings. We will combine close readings of ethnographies with field-based inquiry, including our own studies of urban public space. Through both our readings and our field exercises, we will focus on the methods at the heart of ethnography: observation and participant-observation. As we read other scholars’ work, we will ask how the author uses ethnographic tools to explore issues that are suitable for intensive fieldwork. We will assess which kinds of research problems and theoretical perspectives are a good fit with ethnography and the roles that ethnography can play in transdisciplinary research projects. You will apply what you have learned about research to design your own pilot fieldwork. The ethnographies that we read together will examine intersections of housing, race, and class in urban communities. You are welcome to extend this focus to your own fieldwork, but it’s not required to do so. This is a writing-intensive course, and we will devote a considerable portion of class time to workshop your individual projects.

**Cross-listed Courses**

**ARCH UN3502 URBANIZING CHINA. 4 points.**

This course investigates the dramatic urban transformation that has taken place in mainland China over the last four decades. The speed and scale of this transformation have produced emergent new lifeways, settlement patterns, and land uses that increasingly blur the distinction between urban and rural areas. At the same time, Chinese society is still characterized by rigid, administrative divisions between the nation’s urban and rural sectors, with profound consequences for people’s lives and livelihoods. The course therefore examines the intersection between the rapid transformation of China’s built environment and the glacial transformation of its administrative categories. We will take an interdisciplinary approach to this investigation, using perspectives from architecture, history, geography, political science, anthropology, urban planning, and cultural studies, among other disciplines.

The course is divided into two parts: Over the first five weeks, we will consider the historical context of China’s urbanization and its urban-rural relations, including the imperial, colonial, and socialist periods, as well as the current period of reform. In the remainder of the semester, we will turn our focus to contemporary processes of urbanization, with a particular emphasis on the complex interrelationship between urban and rural China. This portion of the semester is organized into three two-week units on land and planning, housing and demolition, and citizenship and personhood.

**ARCH GU4300 The Just City: Global Debates in Urban Planning and Policy. 4.00 points.**

Urbanization is inherently unequal, inscribing social, economic, environmental, and political unevenness into the spatial fabric of the city. But the distribution of such inequality is not inevitable. Urbanization is a product of the collective decisions we make (or choose not to make) in response to the shared challenges we face in our cities. And, thus, the patterns of urbanization can be changed. This is the task of urban planning and the starting point for this advanced seminar, which asks how we can reshape our cities to be more just—to alleviate inequality rather than compound it. In embarking on this effort, we face numerous “wicked” problems without clear-cut solutions. The approaches one takes in addressing urban inequality are therefore fundamentally normative—they are shaped by one’s place in the world and one’s view of it. The central challenge in addressing inequality is thus establishing a basis for collective action amongst diverse actors with differing—and sometimes conflicting—values and views. In other words, planning the just city a matter of both empathy and debate. In this course, we will endeavor to develop informed positions that can help us engage with others as a basis for taking collective action. The course is organized into four 3-week modules, each of which addresses a dimension of the just city: equity, democracy, diversity, and sustainability. In the first week of each module, we will discuss how the issue has been understood in history and theory (with an emphasis on tradeoffs between different priorities and values); in the second week, we will apply this discussion to a global case study prepared and presented by a team of students; and in the third week, we will hold an in-class debate to determine what should be done. Specific case studies vary each year.

**HIST UN1786 History of the City in Latin America. 4.00 points.**

This course covers the historical development of cities in Latin America. Readings, lectures, and discussion sections will examine the concentration of people in commercial and political centers from the beginnings of European colonization in the fifteenth century to the present day and will introduce contrasting approaches to the study of urban culture, politics, society, and the built environment. Central themes include the reciprocal relationships between growing urban areas and the countryside; changing power dynamics in modern Latin America, especially as they impacted the lives of cities’ nonelite majority populations; the legalities and politics of urban space; planned versus unplanned cities and the rise of informal economies; the way changing legal and political rights regimes have affected urban life; and the constant tension between tradition and progress through which urban
society was formed. There are no prerequisites for this course. Attendance at weekly Discussion Sections required

**HIST UN3277 History of Urban Crime and Policing in Latin America in Global Perspective. 4 points.**
This seminar will examine the social construction of criminality and the institutions that developed to impose and enforce the criminal law as reflections of Latin American society throughout the region’s history, with a particular emphasis on the rise of police forces as the principal means of day-to-day urban governance. Topics include policing and urban slavery; policing the urban “underworld”; the changing cultural importance of police in urban popular culture; the growth of scientific policing methods, along with modern criminology and eugenics; policing and the enforcement of gender norms in urban public spaces; the role of urban policing in the rise of military governments in the twentieth century; organized crime; transitional justice and the contemporary question of the rule of law; and the transnational movement of ideas about and innovations in policing practice. In our readings and class discussions over the course of the semester, we will trace how professionalized, modern police forces took shape in cities across the region over time. This course actually begins, however, in the colonial period before there was anything that we would recognize as a modern, uniformed, state-run police force. We will thus have a broad perspective from which to analyze critically the role of police in the development of Latin American urban societies—in other words, to see the police in the contemporary era as contingent on complex historical processes, which we will seek to understand.

**HIST GU4012 HISTORY OF THE CITY IN LATIN AMERICA. 4.00 points.**
This course covers the historical development of cities in Latin America. Readings examine the concentration of people in commercial and political centers from the beginnings of European colonization in the sixteenth century to the present day and will introduce contrasting approaches to the study of urban culture, politics, society, and the built environment. Central themes include the reciprocal relationships between growing urban areas and the countryside; cities as sites of imperial power and their post-colonial role in nation-building; changing power dynamics in modern Latin America, especially as they impacted the lives of cities’ nonelite majority populations; the legalities and politics of urban space; the complexity and historical development of urban segregation; the rise of informal economies; and the constant tension between tradition and progress through which urban societies have formed. Reading knowledge of Spanish and/or Portuguese will be helpful but is not required. Open to both undergraduate and graduate students; graduate students will be given additional reading and writing assignments

**HIST UN2689 COLONIAL CITIES OF THE AMERICAS. 4.00 points.**
This course examines the history of cities in the Americas in the colonial era, c. 1500-1800, organized around three large themes. First, we study the precolonial origins of American urban systems, focusing especially on Mesoamerica and the Andes, and exploring questions of urban continuity, disruption and change, and the forms of indigenous cities. Second, we study various patterns of city foundations and city types across the Americas, examining Spanish, Portuguese, British, Dutch and French colonial urban systems. Third, we focus on the cities more closely by looking at key issues such as urban form, built environment, social structure. Specific themes include a critical analysis of the Spanish colonial grid, the baroque city, and 18th-century urban reforms, as well as race and class, urban slavery, and urban disease environments.

**HIST BC3842 Subaltern Urbanism: South Asia. 3.00 points.**
This course asks how spatial politics intersect with economic inequality and social difference. The course draws on the convergent yet distinct urban trajectories of cities in the global South (Bangalore; Bombay/Mumbai; Lahore; New Delhi; Dhaka) as an enabling location for exploring broader questions of comparative and global urbanism from an explicitly South-South perspective. That is, we ask how distinct yet connected urban forms might force us to alter our approaches to the city; approaches that are largely drawn from modular Euro-American paradigms for understanding urbanization as coeval with modernity, as well as industrialization. We do so in this seminar by focusing on people and practices—subaltern urbanity (and on those whose labor produced the modern city), as well as on spatial orders—the informal or unintended city—to ask the question: “what makes and unmakes a city?” How might questions about built form, industrialization, capital flows, and social life and inhabitation that takes the perspective of “city theory from the Global South” shed new understanding on the history of the city, the extranational frames of colonial modernity, and the ongoing impact of neoliberalism? How can we rethink critical concepts in urban studies (precarity, spatial segregation, subalternity, economies of eviction, urban dispossession) through embedded studies of locality and lifemaking?

**URBS S1517 INTRODUCTION TO URBAN STUDIES. 3.00 points.**
This course is intended to be both an interdisciplinary introduction to the city and to the field of Urban Studies. As an introduction to the city, the course will address a variety of questions: What is a city? How did cities develop? How do cities function socially, politically, and economically? Why do people live in cities? What are some of the major issues facing cities in the early twenty-first century, and how can cities address these issues? As an introduction to the interdisciplinary field of Urban Studies, the course will present models of how scholars approach cities from a variety of disciplinary viewpoints, including architecture, planning, law, sociology, history, archaeology, anthropology, political science, public policy, and geography. Students will learn some of the major concepts in the field of Urban Studies, and will study the works of leading scholars in the field. Students in the course will approach cities from a number of disciplines, not only through
the reading, but also through assignments that take place in different locations throughout New York City.

**VISUAL ARTS**

**Departmental Office:** 310 Dodge; 212-854-4065  
http://arts.columbia.edu/visual-arts

**Director of Undergraduate Studies:** Sable Elyse Smith, ss5501@columbia.edu  
**Director of Academic Administration:** Laura Mosquera, lm3004@columbia.edu  
**Assistant Director of Academic Administration:** Jen Pinargote, jennifer.pinargote@columbia.edu

The Visual Arts Program in the School of the Arts offers studio art classes as a component of a liberal arts education and as a means to an art major, concentration, and joint major with the Art History and Archaeology Department.

Courses in which a grade of D has been received do not count toward the major or concentration requirements.

Only the first course a student takes in the department may be taken for a grade of Pass/D/Fail.

**REGISTRATION**

Please Note: Visual Arts courses will be closed during the change of program period the first two weeks of the spring semester. If you are interested in taking a Visual Arts class at that time, please add your name to the waitlist of the course and attend the first day of the class. If a Visual Arts class is full, visit arts.columbia.edu/undergraduate-visual-arts-program.

Due to the limited size of our classes and often high demand, you will lose your place in the class and be replaced if you are not present and on time the first two days.

**DECLARING A MAJOR IN VISUAL ARTS**

The Visual Arts Undergraduate Program requires a departmental signature when declaring a major. After meeting with their college academic adviser, students should set up a meeting to consult with the director of undergraduate studies, Professor Sable Elyse Smith (ss5501@columbia.edu). Please email Jen Pinargote, (jennifer.pinargote@columbia.edu) for the current Requirements Worksheet for the Visual Arts Major, Art History and Visual Arts Interdepartmental Major or Visual Arts Concentration.

**PROFESSORS**

Gregory Amenoff  
Jon Kessler  
Sarah Sze  
Rirkrit Tiravanija  
Tomas Vu-Daniel

**ASSOCIATE PROFESSORS**

Matthew Buckingham  
Nicola López (Chair)  
Naeem Mohaiemen  
Shelly Silver

**ASSISTANT PROFESSORS**

David Antonio Cruz  
Delphine Fawundu (Director of Graduate Studies)  
Sable Elyse Smith

**GUIDELINES FOR ALL VISUAL ARTS MAJORS, CONCENTRATORS, AND INTERDEPARTMENTAL MAJORS**

A maximum of 12 credits from other degree-granting institutions may be counted toward the major, only with the approval of the director of undergraduate studies.

**MAJOR IN VISUAL ARTS**

A total of 35 points are required as follows:

**Visual Arts (32 points)**

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>

**Senior Thesis**

Before taking the Senior Thesis, majors are advised to complete 18 points of required Visual Arts courses. Senior Thesis consists of four 2-point courses taken over two semesters:

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>VIAR UN3900 SENIOR THESIS I</td>
<td>VIAR UN3901 SENIOR THESIS II (4 points) and VIAR UN3910 VISITING CRITIC</td>
</tr>
</tbody>
</table>

859
I- VIAR UN3911 VISITING CRITIC II (4 points). (Senior Thesis I and Visiting Critic I run concurrently and Senior Thesis II and Visiting Critic II run concurrently).

Visual arts majors must sign up for a portfolio review to enroll in Senior Thesis. Portfolio reviews are scheduled in April preceding the semester for which students seek entry. Portfolios are evaluated by the director of undergraduate studies and a faculty committee. After each semester of Senior Thesis, a faculty committee evaluates the work and performance completed.

**MAJOR IN ART HISTORY AND VISUAL ARTS**

The combined major requires the completion of sixteen or seventeen courses. Up to two 3-point courses in art history may be replaced by a related course in another department, with approval of the adviser. It is recommended that students interested in this major begin the requirements in their sophomore year. The requirements for the major are as follows:

**Art History (25 points)**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>AHIS UN3000</td>
<td>INTRO LIT/METHODS OF ART HIST (formerly VIAR W3895)</td>
</tr>
</tbody>
</table>

Seven additional art history (AHIS) 3-point lecture courses:

- At least one course in three of four historical periods, as listed below
- An additional two courses drawn from at least two different world regions, as listed below
- Two additional lectures of the student's choice

**Visual Arts (21 points)**

<table>
<thead>

**DRAWING**

**VIAR UN1000 BASIC DRAWING. 3.00 points.**

(Formerly R1001) The fundamentals of visual vocabulary and handling of drawing materials including charcoal, compressed charcoal, pencil, pen, ink, and brushes. Various conceptual and practical approaches to image-making are explored as formal issues such as line, volume, contrast, and composition are emphasized. Class assignments are accompanied by discussions and critiques. Students draw largely from observation, working with a variety of sources that may include still-life objects and the human figure. Portfolio required at the end. If the class is full, please visit http://arts.columbia.edu/undergraduate-visual-arts-program

VIAR AV1000 Basic Drawing. 3 points.
(Formerly R1001) The fundamentals of visual vocabulary. Students work from observation using still-life objects and the human figure. The relationship of lines and forms to each other and to the picture format is emphasized. Materials used: vine charcoal, compressed charcoal, pencil, pen, ink, and brushes. Class assignments are accompanied by discussions and critiques. Portfolio required at the end. If the class is full, please visit http://arts.columbia.edu/undergraduate-visual-arts-program.

VIAR UN2001 DRAWING II. 3.00 points.
Prerequisites: (VIAR UN1000) Prerequisites: (VIAR UN1000) Examines the potential of drawing as an expressive tool elaborating on the concepts and techniques presented in VIAR UN1001. Studio practice emphasizes individual attitudes toward drawing while acquiring knowledge and skills from historical and cultural precedents. Portfolio required at the end.

VIAR UN3010 COLLAGE: MIXED MEDIA. 3.00 points.
Prerequisites: (VIAR UN1000) Prerequisites: (VIAR UN1000) (Formerly R3515) This course approaches drawing as an experimental and expressive tool. Students will explore the boundaries between drawing and sculpture and will be encouraged to push the parameters of drawing. Collage, assemblage and photomontage will be used in combination with more traditional approaches to drawing. The class will explore the role of the imagination, improvisation, 3-dimensional forms, observation, memory, language, mapping, and text. Field trips to artists’ studios as well as critiques will play an important role in the course. The course will culminate in a final project in which each student will choose one or more of the themes explored during the semester and create a series of artworks. This course is often taught under the nomenclature Drawing II - Mixed Media.
towards abstraction in the early 20th century (Cubism) with full consideration to recent movements such as geometric abstraction, organic abstraction, gestural abstraction, color field and pattern painting. Students will be encouraged to find dynamic approaches to these classic tropes of 20th and 21st century abstraction.

VIAR UN3102 PAINTING III: Advanced Painting, 3.00 points.
Prerequisites: (VIAR UN1000) and (VIAR UN2100)
Prerequisites: (VIAR UN1000) and (VIAR UN2100) Painting III: Advanced study in painting will be a material inquiry into the consequential concepts, histories, and critical language embedded in making painting’s historical past and its’ present. Is painting now a singular “medium”? How do facture, scale, form and a multitude of image-making options, regardless of “style”, accrue as to create meaning? Participants are expected to present work weekly, as Individual studio or group critiques. These will be augmented by readings of selected historical essays and contemporaneous writings, as well as visual presentations on a rotating basis.

VIAR UN3103 Advanced Painting: Process, 3 points.
Prerequisites: VIAR UN1000 and VIAR UN2100
In this advanced course, students develop their own individual painting practice through experimentation, risk taking, and rigorous evaluation of the interwoven questions of material and content in their work. A special emphasis is based on what we can do with the process of painting, and its vast and ever changing array of procedures, substrates, approaches, and techniques. How can painting materialize your response to what you encounter visually, intellectually, poetically, psychologically, politically, and culturally? “Painting” is open in the class, and expansion and integration of other materials is fully acceptable. The course consists of directed but open assignments, presentations on historical and contemporary work, introduction to new materials, readings, individual and group critiques, and visits to working artists’ studios, museums/galleries.

VIAR UN3120 FIGURE PAINTING, 3.00 points.
Prerequisites: VIAR R1000 and VIAR R2100. (Formerly R3210) Course provides the experience of employing a wide range of figurative applications that serve as useful tools for the contemporary artist. Non-Western applications, icon painting, and the European/American traditions are presented. Individual and group critiques. Portfolio required at end. If the class is full, please visit http://arts.columbia.edu/undergraduate-visual-arts-program

VIAR UN3104 Painting III: Advanced Painting, 3.00 points.
This advanced painting class will consider contemporary painting in the context of traditional genres, exploring both continuity and discontinuity between contemporary painting and the tradition out of which it arose. Questions considered will include: Do traditional genres such as the history painting, the still-life, the nude, the portrait, the landscape painting have any relevance to contemporary painting? If not, where have these genres migrated to in our contemporary culture? Does contemporary painting exist solely as a cliché of art production, a hand-made status symbol and luxury commodity or can an argument be made for painting as an individual revolt against mass culture? Is painting’s appeal simply due to nostalgia for a now-obsolete technology of representation or does its enduring popularity result from a desire for the physical/personal in a screen-based world? How are contemporary artists using painting today and what critical strategies are available to painters today? Students will be expected to present artwork weekly for individual and group critiques. The course will use an expanded definition of painting so students should feel free to experiment with other media as desired. Students will be required to research historical and contemporary (both art and mass culture) examples of the various genres and to create visual presentations of their research. Supplementary readings will be assigned weekly. Students will spend the last month working on a project of their choice.

PHOTOGRAPHY

VIAR UN1700 PHOTOGRAPHY: PHOTO I. 3.00 points.
(Formerly R3701) An introductory course in the technical, aesthetic, and conceptual foundations of photography. With an emphasis on the student’s own creative practice, this course will explore the basics of photography and its history through regular shooting assignments, demonstrations, critique, lectures, and readings. No prior photography experience is required.

VIAR UN2701 PHOTOGRAPHY: PHOTO II. 3.00 points.
Prerequisites: (VIAR UN1700) Prerequisites: (VIAR UN1700) (Formerly R3702) With an emphasis on the student’s own creative practice, this course will expand on the technical and conceptual concerns first encountered in Intro to Photography. This course will explore critical issues in contemporary photography and advanced camera and production techniques through regular shooting
assignments, demonstrations, critique, lectures, readings, and field trips

VIAR UN3710 PHOTO: DIGITAL DOCUMENTARY. 3.00 points.
(Formerly R4702) The goal of the course is for each student to create small-scale documentary projects using photography and writing with an eye towards web publishing. Taking advantage of the ease and speed of image production and distribution, students will propose and workshop projects that can be quickly completed and uploaded to a class website. Assignments, readings and discussions will focus on the role of the documentary tradition in the history of photographic art practice. Students must provide their own laptop and digital camera. If the class is full, sign up for the wait list at http://arts.columbia.edu/photolist

VIAR GU4702 Photography: Advanced Photo III Seminar. 3 points.
Prerequisites: VIAR UN1700
This course will explore the Artists book as an essential medium of contemporary artistic and lens based practice. Lectures and presentations will consider the medium of historical roots in Dadaism, Constructivism and Fluxus to enliven an expansive consideration of the books essential principles — scale, material, touch and dissemination. Students are exposed to a variety of approaches and viewpoints through presentations by guest photographers, writers, curators, publishers as well as class trips to archives, museums and galleries. Using various research methodologies with a distinct focus on image and text students will explore narrative development, sequencing, repetition and pacing. Each student will propose, develop and produce a unique editioned artists book during this course.

VIAR GU4704 Photo III: Photobook. 3.00 points.
Prerequisites: VIAR UN1700 and VIAR UN2701 or equivalent experience.
This course will explore the photobook as a central medium of contemporary lens-based practice. Students are exposed to a variety of approaches and viewpoints through historical lectures, class trips, and presentations by guest photographers, curators, critics, editors, graphic designers, etc. Each student will propose, develop, and produce an editioned book during this course. This course requires reading, independent research, and work outside of class time

VIAR UN1701 Intro Darkroom Photography. 3.00 points.
Introductory course to analog photographic tools, techniques, and photo criticism. This class explores black # white, analog camera photography and darkroom processing and printing. Areasecovered include camera operations, black and white darkroom work, 8x10 print production, and critique. With an emphasis on the student’s own creative practice, this course will explore the basics of photography and its history through regular shooting assignments, demonstrations, critique, lectures, and readings. No prior photography experience is required

VIAR UN1702 INTRO DIGITAL PHOTOGRAPHY. 3.00 points.
Since Walter Benjamin’s concept of “work of art in the age of mechanical reproduction” (1935), photography has been continuously changed by mechanical, and then digital, means of image capture and processing. This class explores the history of the image, as a global phenomenon that accompanied industrialization, conflict, racial reckonings, and decolonization. Students will study case studies, read critical essays, and get hands-on training in capture, workflow, editing, output, and display formats using digital equipment (e.g., DSLR camera) and software (e.g., Lightroom, Photoshop, Scanning Software). Students will complete weekly assignments, a midterm project, and a final project based on research and shooting assignments. No Prerequisites and no equipment needed. All enrolled students will be able to check out Canon EOS 5D DSLR Camera; receive an Adobe Creative Cloud license; and get access to Large Format Print service

VIAR UN2703 Advanced Darkroom Photography. 3.00 points.
Advanced analog photography # darkroom printing. Students will work with analog cameras and learn how to refine black-and-white printing techniques, produce larger prints, etc. Emphasis will be placed on the editing, sequencing, and display of images while cultivating a theoretical and historical context to situate the work. Students will engage with an array of photographic practices through presentations, critiques, guest artist lectures and printing assignments. This course will explore critical issues in contemporary photography and advanced camera and production techniques through regular shooting assignments, demonstrations, critique, lectures,
readings, and field trips. Prerequisites: Intro Darkroom Photography (Columbia) or equivalent experience

**VIAR UN3100 Archive Photography. 3.00 points.**

In times where millions of images are being made every day, how can a photographer create an original body of work? With this idea in mind, this class will explore a multi-directional approach to archive based photography and how to create a project around it. Gripped by Jacques Derrida’s “archive fever,” photography has remapped its field of practice around the capture, reimagining, and explanation of the archival object. This class explores many types of archives–family albums, government records, flea market collectibles, historical photographs, precious objects, and paper documents. We will use a series of lens based technologies, starting from the flatbed scanner and radiating outward. We will explore archive concerns including consent, ownership, privacy, circulation, respect, and political impact. For midterm and final projects, students will explore the many display forms available for the photography derived archival project. The final result of this class, students can both project their bodies of work towards becoming a fanzine, a book or an exhibition that will help to resurface the memories of these photographs with a fresh eye.

**PRINTMAKING**

**VIAR UN2420 PRINTMAKING I: INTAGLIO. 3.00 points.**

(Formerly R3401) Enables the student to realize concepts and visual ideas in a printed form. Basic techniques are introduced and utilized: the history and development of the intaglio process; demonstrations and instruction in line etching, relief, and dry point. Individual and group critiques. Portfolio required at end. If the class is full, please visit http://arts.columbia.edu/undergraduate-visual-arts-program

**VIAR UN3412 PRINTMAKING I: PHOTOGRAVURE. 3.00 points.**

Prerequisites: VIAR UN1400 or VIAR UN2420 or VIAR UN1700

Prerequisites: VIAR UN1400 or VIAR UN2420 or VIAR UN1700 (Formerly R3417) The purpose of this course is to incorporate the photomechanical intaglio printmaking process into the student’s own work, and in turn, for them to capitalize on its usage as part of their visual arts language. The students will learn the polymer plate process known as Solar Plate and structure it to the concepts they are creating and investigating. By integrating it into conventional intaglio techniques and combining them into finished works, the student’s printmaking lexicon will be expanded. This course is a concise study and practice of the process of photoetching, also known as photoengraving, utilizing non-toxic photo-polymer plates, thus reducing the exposure to harmful chemicals used in other photomechanical printmaking processes. This also coincides with the transitioning of the print studio into a Green workplace.

**VIAR UN3412 PRINTMAKING: DRAWING INTO PRINT. 3.00 points.**

Prerequisites: VIAR UN2420 or VIAR UN2430 note that VIAR UN2430 was formerly R3420.

Prerequisites: VIAR UN2420 or VIAR UN2430 note that VIAR UN2430 was formerly R3420. The objective of the course is to provide students with an interdisciplinary link between drawing, photography and printmaking through an integrated studio project. Students will use drawing, printmaking and collage to create a body of work to be presented in a folio format. In the course, students develop and refine their drawing sensibility, and are encouraged to experiment with various forms of non-traditional printmaking. If the class is full, please visit http://arts.columbia.edu/undergraduate-visual-arts-program

Expanded Practice | Sculpture

VIAR UN2200 CERAMICS I. 3.00 points.
(Formerly R3130) This studio course will provide the students with a foundation in the ceramic process, its history, and its relevance to contemporary art making. The course is
structured in two parts. The first centers on the fundamental and technical aspects of the material. Students will learn construction techniques, glazing and finishing methods, and particulars about firing procedures. This part of the course will move quickly in order to expose the students to a variety of ceramic processes. Weekly assignments, demonstrations, and lectures will be given. The second centers on the issue of how to integrate ceramics into the students current practice. Asking the question of why we use ceramics as a material and, further, why we choose the materials we do to make art. Rigorous group and individual critiques focusing on the above questions will be held. The goal of this course is to supply the students with the knowledge and skill necessary to work in ceramics and enough proficiency and understanding of the material to enable them to successfully incorporate it into their practice. If the class is full, please visit http://arts.columbia.edu/undergraduate-visual-arts-program

VIAR UN2300 SCULPTURE I. 3.00 points.
(Formerly R3330) The fundamentals of sculpture are investigated through a series of conceptual and technical projects. Three material processes are introduced, including wood, metal, and paster casting. Issues pertinent to contemporary sculpture are introduced through lectures, group critiques, discussions, and field trips that accompany class assignments. If the class is full, please visit http://arts.columbia.edu/undergraduate-visual-arts-program

VIAR UN3301 SCULPTURE II. 3.00 points.
Prerequisites: VIAR UN2300 or the instructors permission. (Formerly R3331) Continuation of VIAR UN2300. The objective of the class is to engage in in-depth research and hands on studio projects related to a specific theme to be determined by each student. Each student is expected to complete class with four fully realized and thematically linked works. Wood, metal, and plaster will be provided for this class but video, sound, performance and various mixed media approaches are highly encouraged. In addition, lecture and field trips will be part of the course. If the class is full, please visit http://arts.columbia.edu/undergraduate-visual-arts-program

VIAR UN3302 SCULPTURE III. 3.00 points.
Prerequisites: VIAR R2300. (Formerly R3332) Sculpture III is an invitation for immersive sculpting. The class will explore the idea of experiences and construction of contexts as central research topics. The class becomes a laboratory space to explore various techniques to heighten body awareness and spatial sensibility. Through assignments and workshops, the students will practice how to digest these sensory experiences through their studio practice. Historical precedents for art outside the usual mediums and venues will be our reference points to investigate how our own work may take part in a generative process that evolves the definition of sculpture. The assignments in the first half of the semester point the students to performance, site specificity, and sound, that utilize New York Cities odd spots and professionals. While building such common experiential platforms, the class will also build language for a dialogic space, through weekly in-class discussions lead by the instructor, guests, and rotating panels of the students. As the semester progresses, the emphasis will gradually be shifted from experiential learning to intensive studio work on a final project, where the students are asked to pay close attention to how various methods and fields of subjects combine. The resulting project has to be the best work you have ever done. If the class is full, please visit http://arts.columbia.edu/undergraduate-visual-arts-program

VIAR UN2300 CERAMICS II. 3.00 points.
Prerequisites: (VIAR UN1000) and (VIAR UN2100) Painting III: Advanced study in painting will be a material inquiry into the consequential concepts, histories, and critical language embedded in making painting’s historical past and its’ present. Is painting now a singular “medium”? How do facture, scale, form and a multitude of image-making options, regardless of “style”, accrue as to create meaning? Participants are expected to present work weekly, as Individual studio or group critiques. These will be augmented by readings of selected historical essays and contemporaneous writings, as well as visual presentations on a rotating basis.
VIAR GU4600 Performance Art; Developing a Visual Lexicon. 3.00 points.
What happens to a body stilled in space, when it takes a shape and holds it? How does its relationship to public space change? How is its transformation attenuated when the body is in formation with other bodies, a breathing still life of people and props? This performance art course will use the question of a body’s stillness as a platform to create interdisciplinary projects that exist between dance, sculpture, collaborative movement, and performance art. Through core readings and case study presentations, we will discuss unique possibilities of representation and challenges this form enables, and the prominent role it has been taken within the visual arts in recent years. Students will engage with a variety of aesthetic strategies and formal techniques such as movement workshops, sensory exercises, video, wearable sculptures, collaboration, scores, and group meditation. Studio work will focus on concrete intersections between the body and the object, and case studies chosen to encourage students to think of movement as a form of resistance, and to consider the political implication of collaborative work that unfolds over time. Performativity in the context of this class is widely defined, and no prior experience is required.

VIAR GU4310 MAKING WITHOUT OBJECTS. 3.00 points.
Prerequisites: VIAR UN2300
Prerequisites: VIAR UN2300 (Formerly R3302) Laboratory in Relational Art; Sculpture without Objects The purpose of this class will be to explore the function of Relational Aesthetics in contemporary art practice and to develop ideas about the role of context in art, as the students develop their own site-specific works and research historical precedents for art designed to be exhibited in non-traditional venues. This course will also prepare students for professional work preparing art for venues of that type. This class will be structured around studio work, with an emphasis on the development and production of a final site-specific project. In order to foster students’ growth and ongoing investigation into the nature of contemporary sculpture, the class will also be comprised of slide lectures, visits to local artists’ studios, and galleries, as well as various public art projects throughout the city. As the semester progresses, the emphasis will gradually be shifted from research to intensive studio work on a final project, often a proposal for a site-specific work in a non-traditional venue. Generally, the first half of each class session will be dedicated to lecture and discussion, while the second half will be dedicated to individual studio work and critique.

MOVING IMAGE
VIAR UN3500 BEGINNING VIDEO. 3.00 points.
Beginning Video is an introductory class on the production and editing of digital video. Designed as an intensive hands-on production/post-production workshop, the apprehension of technical and aesthetic skills in shooting, sound and editing will be emphasized. Assignments are developed to allow students to deepen their familiarity with the language of the moving image medium. Over the course of the term, the class will explore the language and syntax of the moving image, including fiction, documentary and experimental approaches. Importance will be placed on the decision making behind the production of a work; why it was conceived of, shot, and edited in a certain way. Class time will be divided between technical workshops, viewing and discussing films and videos by independent producers/artists and discussing and critiquing students projects. Readings will be assigned on technical, aesthetic and theoretical issues. Only one section offered per semester. If the class is full, please visit http://arts.columbia.edu/undergraduate-visual-arts-program.

Advanced Video is a full day class 10:00am - 4:00pm.

Prerequisites: (VIAR UN3500) VIAR UN3500 Beginning Video or prior experience in video or film production.

Advanced Video is an advanced, intensive project-based class on the production of digital video. The class is designed for advanced students to develop an ambitious project or series of projects during the course of the semester. Through this production, students will fine-tune shooting and editing skills as well as become more sophisticated in terms of their aesthetic and theoretical approach to the moving image. The class will follow each student through proposal, dailies, rough-cut and fine cut stage. The course is organized for knowledge to be shared and accumulated, so that each student will learn both from her/his own process, as well as the processes of all the other students. Additional screenings and readings will be organized around the history of video art and the problematic of the moving image in general, as well as particular issues that are raised by individual student projects. NOTE: There is only one section offered per semester. If the class is full, please visit http://arts.columbia.edu/undergraduate-visual-arts-program.

VIAR AV4501 ADVANCED VIDEO. 3.00 points.

Prerequisites: (VIAR UN3500) VIAR UN3500 Beginning Video or prior experience in video or film production.

Advanced Video is an advanced, intensive project-based class on the production of digital video. The class is designed for advanced students to develop an ambitious project or series of projects during the course of the semester. VIAR UN3800 SEM IN CONTEMP ART PRACTICE. 3.00 points.

(Formerly R4601) New York City is the most abundant visual arts resource in the world. Visits to museums, galleries, and studios on a weekly basis. Students encounter a broad cross-section of art and are encouraged to develop ideas about what is seen. The seminar is led by a practicing artist and utilizes this perspective. Columbia College and General Studies Visual Arts Majors must take this class during their junior year. If the class is full, please visit http://arts.columbia.edu/undergraduate-visual-arts-program.
UN3901 (Formerly R3922) Students are required to enroll in both semesters (VIAR UN3910 and VIAR UN3911). A second opinion is provided to the senior students regarding the development of their senior project. Critics consist of distinguished visitors and faculty. Issues regarding the premise, methodology, or presentation of the students' ideas are discussed and evaluated on an ongoing basis.

VIAR AV3900 Senior Thesis I. 2 points.
Prerequisites: the instructor's permission. See requirements for a major in visual arts. VIAR R3900 is the prerequisite for VIAR Q3901.
Corequisites: VIAR R3910.
(Formerly R3901) Students must enroll in both semesters of the course (VIAR R3900 and VIAR Q3901). The student is required to produce a significant body of work in which the ideas, method of investigation, and execution are determined by the student. A plan is developed in consultation with the faculty. Seminars; presentations. At the end, an exhibition or other public venue is presented for evaluation. Studio space is provided.

WOMEN'S AND GENDER STUDIES

Program Office: 763 Schermerhorn Extension; 212-854-3277; 212-854-7466 (fax)
https://issg.columbia.edu/

Director of Undergraduate Studies:
Fall 2022 Prof. Lila Abu-Lughod, 756 Schermerhorn Extension; la310@columbia.edu
Spring 2023 Prof. Sarah Haley, 615 Fayerweather; sh4210@columbia.edu

Located within the Institute for the Study of Sexuality and Gender, and taught in cooperation with Barnard College’s Department of Women’s, Gender, and Sexuality Studies, the program in Women’s and Gender Studies provides students with a culturally and historically situated, theoretically diverse, and transnational understanding of feminist and queer scholarship as it engages multiple disciplines.

The program introduces students to key feminist and queer discourses on the cultural and historical representation of nature, power, and the social construction of difference. It
Women’s and Gender Studies encourages students to engage in the debates regarding the ethical and political issues of equality and justice that emerge in such discussion, and links the questions of gender and sexuality to those of racial, ethnic, and other kinds of social difference.

Through sequentially organized courses in Women’s, Gender, and Sexuality Studies, as well as approved elective courses in a wide range of departments, the degree provides a thoroughly interdisciplinary framework, methodological training, and substantive guidance in specialized areas of research. Small classes taught by our core faculty members and mentored thesis writing give students an education that is both comprehensive and tailored to individual needs.

Graduates leave the program with critical reading, writing, and analytical skills, and gain the tools they need to analyze systems of power operating at personal, national, and international levels. While this prepares some for future scholarly work in the field of Women’s, Gender, and Sexuality studies, others take these skills and apply them to careers and future training in a variety of fields, including: law, public policy, social work, community organizing, public health, film, journalism, medicine, and other professions where gender and sexuality are currently being reimagined and there is a need for critical and creative interdisciplinary thought.

MAJOR IN WOMEN’S AND GENDER STUDIES

The requirements for this program were modified on September 22, 2014. Students who declared this program before this date should contact the director of undergraduate studies for the department in order to confirm their correct course of study.

Students should plan their course of study with the undergraduate director as early in their academic careers as possible. The requirements for the major are:

Six approved Elective Courses on women, gender, and/or sexuality in consultation with the director of undergraduate studies.*

* Electives will be selected in coordination with the director of undergraduate studies to best suit students’ specific interests and to provide them with the appropriate range of courses, whether their focus is ethnic studies, pre-med, pre-law, sociology, public healthy, queer studies, visual culture, literature, or another area of interest. Students are encouraged to take a broad interdisciplinary approach. The director of undergraduate studies will help students fine-tune their academic program in conjunction with IRWGS courses, cross-listed courses, and other courses offered at Columbia.

CONCENTRATION IN WOMEN’S AND GENDER STUDIES

The requirements for this program were modified on September 22, 2014. Students who declared this program before this date should contact the director of undergraduate studies for the department in order to confirm their correct course of study.

The same requirements as for the major, with the exception of WMST UN3521 SENIOR SEMINAR I.

SPECIAL CONCENTRATION FOR THOSE MAJORING IN ANOTHER DEPARTMENT

The requirements for this program were modified on September 22, 2014. Students who declared this program before this date should contact the director of undergraduate studies for the department in order to confirm their correct course of study.

WMST UN1001 INTRO-WOMEN & GENDER STUDIES; plus four additional approved elective courses on gender.

FALL 2022

WMST UN3311 FEMINIST THEORY. 4.00 points.
Prerequisites: LIMITED TO 20 BY INSTRUC PERM; ATTEND FIRST CLASS
This course explores the formation of desire, sexuality, and subjectivity through the frameworks of feminist epistemologies (the question of what we can know) and feminist ethics (the question of how to be responsible within our relationships and local and global communities). We will reflect on the tension between the limits of what we can know about ourselves and others and the imperative to care for each other and remain accountable for our individual and collective actions and inaction. We will investigate how our deepest emotions, intimate encounters, and secret fantasies are formed by larger social and political contexts. In turn, we will also question how these intimate relationships with ourselves and our companions may be seen as feminist acts of resistance, disruption, and creation. Objective I: to closely engage diverse feminist perspectives in late-twentieth- and twenty-firstcentury phenomenology, existentialism, Marxism, queer theory, critical

870
race theory, and psychoanalysis. Objective II: to begin to locate your own feminist perspective within the intersection of your unique experiences and the larger historical and social contexts that form you and which you may seek to transform

WMST UN3521 SENIOR SEMINAR I. 4.00 points.
The Senior Seminar in Women's Studies offers you the opportunity to develop a capstone research paper by the end of the first semester of your senior year. Senior seminar essays take the form of a 25-page paper based on original research and characterized by an interdisciplinary approach to the study of women, sexuality, and/or gender. You must work with an individual advisor who has expertise in the area of your thesis and who can advise you on the specifics of method and content. Your grade for the semester will be determined by the instructor and the advisor. Students receiving a grade of B or higher in Senior Seminar I will be invited to register for Senior Seminar II by the Instructor and the Director of Undergraduate Studies. Senior Seminar II students will complete a senior thesis of 40-60 pages. Please note, the seminar is restricted to Columbia College and GS senior majors

WMST GU4235 Indigenous Feminisms. 4.00 points.
Indigenous women, queer, trans- and Two Spirit people have been at the forefront of activism and resistance to state incursion into Indigenous lands and waters. This was evident most recently at Mauna Kea, a mountain sacred to Kanaka Maoli in Hawai’i as women, trans and queer formed the first line of resistance and occupation against the construction of a 1000-meter telescope on the site. This is not unique, their voices, along with indigenous queer and feminist scholars, have been working to address issues as far-ranging as mascots, settler appropriation of indigenous cultures, missing and murdered indigenous women and girls, and the violence against indigenous urban youth. This seminar will consider how those indigenous feminist, queer, and Two Spirit scholars have theorized gender, sexuality, race, and colonialism, alongside issues of land, water and sovereignty. We will read works that consider how indigeneity challenges how gender and sexuality are expressed in the context of settler colonialism and racial capitalism

WMST GU4305 Decolonization and Feminist Critique. 4.00 points.
This advanced seminar examines historical, social, cultural, and theoretical propositions for decolonizing praxis and their complex relations to feminist critique. How do we understand Western European colonialism and coloniality as modes, conditions, and institutions of power, dispossession, subjugation, and subjection continuing into the present? What are the methods, practices, and vision enacted and proposed by the colonized for undoing and radically transforming the determinate logics, instruments, and structures of colonialism as these persist in the present moment? We will consider how gender and sexuality as well as race – as technologies of social organization, codes of valuation, and modes of survival – shape colonialism and the struggles against it. We will inquire into their significance to projects of decolonization. How might decolonization envision and make possible other ways of life?

WMST GR6001 THEORETICAL PARADIGMS. 4.00 points.
Theoretical Paradigms in Feminist Scholarship: Course focuses on the current theoretical debates of a particular topic or issue in feminist, queer, and/or WGSS scholarship. Open to graduate students, with preference given to students completing the ISSG graduate certificate. Topics differ by semester offered, and are...
reflected in the course subtitle. For a description of the current offering, please visit the link in the Class Notes

**WMST GR6100 Queer Feminist Theories of Art. 4.00 points.**

What happens when we understand art as an active producer of theory, rather than as an object to which theory might be “applied?” This seminar proposes that recent art has catalyzed and shaped advanced feminist and queer thought, and asks how visual art practices have been engines of theoretical propositions about the entanglements of genders, sexualities, racialization, desire, state power, archives, migration, utopias/dystopias, loss, anger, visibility/opacity, world-making, etc. We will focus our speculations around a series of case studies from around the world to think about how insistently intersectional feminist, trans, and queer knowledge is embodied, generated, and performed within works, acts, and objects themselves. Modeling more horizontal methods of learning in alignment with queer feminist pedagogies, students will participate in building our reading list and will collaboratively lead discussions. Artists/artist’s groups might include Asco, Sadie Barnette, fierce pussy, Jeffrey Gibson, Félix González-Torres, Glenn Ligon, Candice Lin, Julie Mehretu, Yasumasa Morimura, Zanele Muholi, Senga Nengudi, Cecilia Vicuña, and Martin Wong

**WMST BC2140 Critical Approaches in Social and Cultural Theory. 3.00 points.**

This course examines the conceptual foundations that support feminist and queer analyses of racial capitalism, security and incarceration, the politics of life and health, and colonial and postsocialist studies, among others. Open to all students; required for the major in Women’s, Gender, and Sexuality Studies (WGSS) and the Interdisciplinary Concentration or Minor in Race and Ethnicity (ICORE/MORE)

**WMST BC3530 FEMINIST MEDIA THEORY. 4.00 points.**

The integration of contemporary media and social practices of all types is intensifying. This seminar examines media theory
This course is designed to introduce major theories sexuality, desire and identity. We will be considering the relations between the history of sexuality and the politics of gender. We will read some primary texts in gender theory, and in the study of sexuality, desire, and embodiment. This course also provides an introduction to the interdisciplinary examination of human sexual and erotic desires, orientations, and identities. We will study how desires are constructed, how they vary and remain the same in different places and times, and how they interact with other social and cultural phenomena such as government, family, popular culture, scientific inquiry, and, especially, race and class.

**WMST UN3200 QUEER THEORY. 4.00 points.**
This class will ask you to read a set of novels, theoretical essays and social science studies in order to think deeply about sexuality, identity, desire, race, objects, relationality, being, knowing and becoming. We will consider sexuality, desire and gender not as a discrete set of bodily articulations, nor as natural expressions of coherent identities so much as part off the formulation of self that Avery Gordon names “complex personhood.” Beginning with a recent film from the UK that rereads queerness back through a history of labor and ending with a recent film made entirely on the iPhone and that stages queerness as part of an alternative articulation of Hollywood, we will explore new and old theories of queer desire.

Through the readings, discussions, and assignments, you will develop critical analytical skills to consider social change movements with particular attention to how sex, gender, race, class, sexuality, sexual orientation, and other systems of power shape people’s everyday lives. We will trace the intersection of histories of labor, medicine, representation and activism and we will ask difficult questions about assimilation, mainstreaming, globalization and pink capitalism.
our companions may be seen as feminist acts of resistance, disruption, and creation. Objective I: to closely engage diverse feminist perspectives in late-twentieth- and twenty-first-century phenomenology, existentialism, Marxism, queer theory, critical race theory, and psychoanalysis. Objective II: to begin to locate your own feminist perspective within the intersection of your unique experiences and the larger historical and social contexts that form you and which you may seek to transform.

WMST UN3655 Gender and Public Health: Disparities, Pathways, and Policies. 3.00 points.

This seminar provides an intensive introduction to critical thinking about gender in relation to public health. We begin with a rapid immersion in social scientific approaches to thinking about gender in relation to health, and then examine diverse areas in which gendered relations of power – primarily between men and women, but also between cis- and queer individuals – shape health behaviors and health outcomes. We engage with multiple examples of how gendered social processes, in combination with other dimensions of social stratification, shape health at the population level. The overarching goal of this class is to provide a context for reading, discussion, and critical analysis to help students learn to think about gender – and, by extension, about any form of social stratification – as a driver of patterns in population health. We also attend consistently to how public health as a field is itself a domain in which gender is reproduced or contested.

WMST UN3813 Knowledge, Practice, Power. 4.00 points.

Prerequisites: WMST V1001 and the instructor's permission. Knowledge, Practice, Power is a practical and multi-disciplinary exploration of research methods and interpretive strategies used in feminist scholarship, focusing on larger questions about how we know what we know, and who and what knowledge is for. Open to non-majors, but sophomore and junior majors in Women’s, Gender, and Sexuality Studies (WGSS) are encouraged to enroll in this course as preparation for Senior Seminar I. This course is required for students pursuing the concentration or minor in Feminist/Intersectional Science and Technology Studies. Prerequisite: Either one introductory WGSS course or Critical Approaches to Social and Cultural Theory or Permission of the Instructor.

WMST GU4000 GENEALOGIES OF FEMINISM. 4.00 points.

Genealogies of Feminism: Course focuses on the development of a particular topic or issue in feminist, queer, and/or WGSS scholarship. Open to graduate students and advanced undergraduates, though priority will be given to students completing the ISSG graduate certificate. Topics differ by semester offered, and are reflected in the course subtitle. For a description of the current offering, please visit the link in the Class Notes.
WMST GU4336 GENDER AND SEXUALITY IN YIDDISH LITERATURE. 4.00 points.

Early publications in Yiddish, a.k.a. the mame loshn, ‘mother tongue,’ were addressed to “women and men who are like women,” while famous Yiddish writer, Sholem Aleichem, created a myth of “three founding fathers” of modern Yiddish literature, which eliminated the existence of Yiddish women writers. As these examples indicate, gender has played a significant role in Yiddish literary power dynamics. This course will explore representation of gender and sexuality in modern Yiddish literature and film in works created by Sholem Aleichem, Sholem Asch, Fradl Shtok, Sh. An-sky, Malka Lee, Anna Margolin, Celia Dropkin, Isaac Bashevis Singer, Kadya Molodowsky, Troim Katz Handler, and Irena Klepfisz. You will also acquire skills in academic research and digital presentation of the findings as part of the Mapping Yiddish New York project that is being created at Columbia. No knowledge of Yiddish required.

WMST GR8001 GRAD STUDENT # FACULTY COLLOQ. 1.00 point.

This is a course oriented to graduate students who are thinking about issues in teaching in the near and distant future and want to explore forms of pedagogy. The course will ask what it means to teach “as a feminist” and will explore how to create a classroom receptive to feminist and queer methodologies and theories regardless of course theme/content. Topics include: participatory pedagogy, the role of political engagement, the gender dynamics of the classroom, modes of critical thought and disagreement. Discussions will be oriented around student interest. The course will meet 4-5 times per SEMESTER (dates TBD) and the final assignment is to develop and workshop a syllabus for a new gender/sexuality course in your field. Because this course is required for graduate students choosing to fulfill Option 2 for the Graduate Certificate in Feminist Studies at IRWGS, priority will be given to graduate students completing the certificate.
WMST BC2950 Science, Technology, Power. 3.00 points.
This course explores the intimate entanglements of technology, science, bodies, culture, and power, with a focus on post-World War II U.S. society. In this lecture course, we will draw on history, feminist thought, anthropology, sociology, science fiction, and visual/digital art to investigate the historical and cultural contexts shaping the dreams, practices, and products of technoscience. We will explore technologies and sciences as sites of power, complex pleasures, and embodied transformations in our own everyday lives.

WMST BC3138 AFFECT AND ACTIVISM. 4.00 points.
From love to anger to disappointment to hope, political activism mobilizes emotions towards certain ends but also generates new affective states and feelings along the way. This advanced seminar will familiarize students with feminist, anti-racist and queer scholarship on affect, feelings and emotion as intrinsic to politics and as crucial for understanding how political thought and action unfold in contingent and often unexpected ways. Mixing theoretical and cultural texts with case studies, we will look at how affect permeates structures of power and domination, embodiment and identity, and collective activist projects concerned with gender and sexual liberation. Students will have an opportunity to read theories of affect as well as to “read” activist movements for affect by working with archival documents (such as zines, manifestos, and movement ephemera) and other primary sources (such as memoir, photography and documentary film).
