

# QUICK GUIDE TO

## *postbac, experiential fellowships*

This guide provides a sampling of the *many, many* experiential fellowships available to graduating seniors and recent graduates. An experiential postgraduate fellowship typically focuses on professional development, runs for anywhere between 9 - 24 months, and may be independent in nature or part of a larger learning cohort or community-based project. Every opportunity is unique - so it is important to review the eligibility requirements, selection criteria, and application process, closely.

And, remember! As a graduating senior or recent graduate, URF is here to support you throughout the application and selection process. So, please do not hesitate to reach out!
